MONROE COUNTY
BUSINESS DIRECTORY.

To find a name in a village of any town, refer to the town in which the village is located. For example: to find a clergyman in Brockport, a village in the town of Sweden, turn first to the head of Clergymen, then find Sweden, which is given alphabetically, and Brockport will be found given in connection with the town.

When the Post Office address differs from the name of the town, it precedes the name of the town.

To ascertain what town any village is located in, see Post Offices in Contents.
