THE CIVIL SERVICE.

For State Board of Commissioners, see page 908.

By enactment of the legislature, all positions in the public service of Rochester (excepting those filled by public election, the heads of departments, and positions under the city treasurer, or the Board of Education), must be filled from applicants who have successfully passed an examination by a board of civil service examiners.

Two Boards, consisting of three members each, are appointed by the mayor, and not more than two members can be of the same political party.

Whenever a position is to be filled, the examining board will notify the applicants on record, or such number of them as can be conveniently examined, to appear for examination, and appointments must be made by the appointing power from the three on the list of the highest standing. Soldiers or sailors serving in the war of the rebellion, having any standing on the list, and otherwise equally competent, have the preference. The civil service does not affect removals from office. The civil service is classified as follows:

Schedule B, Part 1. Includes all officers and members of the Police and Fire Departments.
Schedule B, Part 2. Includes subordinate officers, clerks, and assistants not included in Part 1.
Laborers and day workmen are not subject to examination.

Accountant and Trial Balance Expert,

209 FULTON AVE., P. O. Box 366. *Rochester, N.Y.*

*Books Balanced, Simplified, Opened, Closed, **Examined**, or changed from Single to Double Entry. Small sets of Books **kept** at from $1.00 to $6.00 per week. Fine points in **bookkeeping** explained. Partnership affairs adjusted. The most **difficult** **Trial** Balance Errors quickly found.*

Firms without Bookkeepers.—My plan of keeping several sets of books enables small firms to get their books properly kept at a moderate cost.

Opening New Books.—In opening a new set of books I use a system of double entry so simple and compact that it will not require an expert to keep them and still the results obtained will be as complete as if the most complicated methods were used. I put the books in such shape that the ordinary business man can understand and keep them. My method fits ready-made books and does not require books made to order to fit the system.

Trial Balance Errors.—In locating trial balance errors I do not believe I have an equal either in or out of Rochester, and I call the attention of bookkeepers and business men to this branch of my business. It does not pay a bookkeeper to spend days of time during the busy season, finding (or trying to find) errors which I can locate ten times as quickly as he can. In this work I use my own system of short cuts in figures, and I am so sure of my ability to find an error that I can set a price before I begin work, thereby leaving no uncertainty as to the cost.

1. A simple contract, free from all needless restrictions and conditions, **absolutely incontestable after two years.**

THE BERKSHIRE LIFE INSURANCE CO.,

All policies now issued by the **Berkshire** give to the insured all the advantages of the perfected *Non-forfeiture Law of Massachusetts*, under which each policy practically combines the protection of Life Insurance with the accumulative feature of a Savings Bank deposit.

The strong financial condition of the Company, its solid surplus, its large dividends to policy holders, its liberal policies, its promptness in paying all legitimate claims, and its excellent reputation, make the **Berkshire** a most desirable Company for the policy holder.

TO THE PUBLIC:

We are here to build up a permanent business in the sale of Electric Motors and other improvements in the transmission and application of power, Dynamos and electrical specialties.

Such an undertaking means practical knowledge and careful study of the new inventions and apparatus which are being continually brought out, that we may be able in every case to guarantee the satisfactory operation of the machines we sell. We are not wedded to any particular make in any line, but are watching for all improvements, preferring to sell the best or none. We will not recommend anything, new or old, unless we are satisfied it is the best article for the purpose yet produced.

We arrange various kinds of machinery to be run by power, contracting for the job, or furnishing such parts as may be desired.

Manufacturers and others interested in these matters, are invited to correspond with us.

PIPE FRAME TRUCK BASKET.

(Patented.)

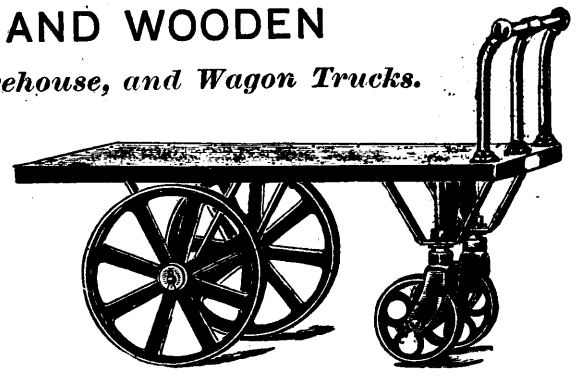
The strongest and neatest truck basket ever made, no wearing out of top or corners, the two places on all other baskets to give out. Frame is made of wrought iron pipe with malleable iron corner fittings and the sides woven with rattan. Eight bolts run through both frames and platform thus holding all three together.

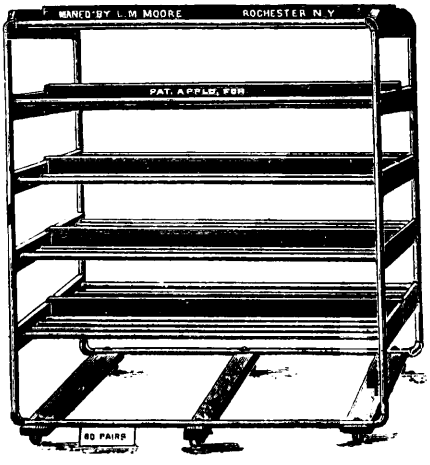
Wheeled to suit purchaser, any size made to order. Five sizes carried in stock.

STEEL AND WOODEN

Dry Goods, Warehouse, and Wagon Trucks.

My Steel Trucks are made without a nail, screw or particle of wood, everything being riveted. The greatest truck ever put on the market. No shrinkage and bolts coming loose. Regular sizes carried in stock and special trucks made to order.





PIPE FRAME SHOE RACK.

The Frame is made of ½ inch wrought iron pipe with malleable iron fittings. The two frames are held together with ten bolts, and the end pieces of wood in which dowels are inserted are grooved to fit pipe and rest on bolts. The holes for dowels are bored half way through wood ends, and when dowels are inserted it is impossible for them to slip out and all nailing is done away with. The dowels are of hard maple ¾ inch in diameter, and shelves are 8½ inches apart. Disc bearing casters are screwed to shoes and same bolted to pipe frame. It is very simple in construction, a boy setting one up as everything comes ready to bolt together. It will outwear any three wooden racks made. Make 30, 48, 60 and 72 pair racks.
