STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets or places run from it **or** across it, with the number at which they intersect.

From this list the location of any number on **a** street can be easily ascertained. As, **for** instance, wishing to **know** at what part of State street No. 425 **comes:** look at State street and you find that Brown street runs **from** 391 **left** side, **and** Jay street from 473, showing that No. 425 comes on the left side of State street **between Brown** and Jay.

Or, going up West avenue, suppose it is wished to take a cross street so as to call at 312 Troup **street;** on examination, **(see** Troup) you find that 306 Troup is at the corner of Eeynolds **street;** hence, by **passing** from West avenue through Eeynolds street to Troup, you are near the desired number 312. When streets are not **numbered,** dashes are used to indicate whether the street runs from the right, the left, or crosses.

Even numbers are invariably upon **the** north or east side of streets.

Odd numbers are invariably upon the south or west side of streets.

Streets on the east side of the river which run east and west are usually numbered **from** the west toward **the east;** those on the west side from the east **toward** the west.

Streets north of Main street which run north and south are usually numbered from the south **toward the north;** those south of Main street from the **north toward the south.**

In Rochester, as in all cities, street numbers begin at the end of the street nearest the centre of the city.

Number of miles of streets in city, **230½ miles;** alleys, **16¼** miles.

For Cubic Measure the cube of long measure is used; ster is used as a measure of wood in place of cord.

The mill, cent, dime, dollar, and eagle of U. S. money exactly illustrate the decimal system of the metric measures.—the mill, cent, dime, corresponding with the milli, centi, deci of the metric system.

Abbreviations.—For meter, liter, and gram, the small initial letter is used, viz: m. 1. g.; each division deci, centi, milli, also is abbreviated by using the small initial letters d. c. m.; but each multiple, deka, hekto, kilo, myria, is abbreviated by using the capital initial letter D. H. K. M.

Equivalents.—1 inch equals .0254 meter, or about 2 1-2 centimeters; 1 foot equals .3048 meter, or about 30 centimeters; 1 yard equals .9144 meter, or ab. 10-11 of a meter; 1 mile 1609 meters, or ab. 1.6 kilometers

1 U. S. liquid quart equals .946 liter, or a little less than 1 liter; 1 U. S. dry quart equals 1.101 liters; 1 U. S. gallon equals 3.785 liters, or about 3.8 liters; 1 U. S. bushel equals 35.24 liters, or about 4-11 of a hektoliter.

1 avoirdupois ounce equals .02835 kilogram, or a little less than 30 grams; 1 Troy and apothecaries ounce equals .03110 kilogram, or a little more than 30 grams; 1 avoirdupois pound equals .45359 kilogram, or about 5-11 of a kilogram; 1 long ton—2240 pounds—equals 1016.05 kilograms, or about 1 metric ton.

Basis of the system.—1. The unit of length, the meter, is the ten millionth part of a quadrant of the meridian of Paris, being 39.37 inches, nearly. 2. The unit of surface, the ar, is the square of ten meters, or a hundred square meters. 3. The unit of capacity, the liter, is a cube whose edge is a tenth of a meter. 4. The unit of weight, the gram, is the weight of a cube of rain-water, whose edge is an hundredth of a meter. From these four primary units all others are derived according to the decimal scale.

Where used.—The system is adopted by the following countries: in exclusive use in France, Germany, Austria, Belgium, Holland, Italy, Spain, Portugal, Norway, Switzerland, Roumania, Brazil; in partial use in Denmark, Greece, Argentine Confederation, Venezuela; legalized, but not in general use, in the United States, Great Britian, Russia, Norway, Sweden, Turkey, Mexico, Chili, Costa Rica, Equador, Peru, U. BUSINESS DIBECTOBY.

TO FIND A NAME IN A VILLAGE OF ANT TOWN, REFER TO THE TOWN IN WHICH THE VILLAGE IS LOCATED. FOR EXAMPLE: TO FIND A CLERGYMAN IN BROCKPORT, A VILLAGE IN THE TOWN OF SWEDEN, TURN FIRST TO THE HEAD OF CLERGYMEN, THEN FIND SWEDEN, WHICH IS GIVEN ALPHABETICALLY, AND BROCKPORT WILL BE FOUND GIVEN IN CONNECTION WITH THE TOWN.

WHEN THE POST-OFFICE ADDRESS DIFFERS FROM THE NAME OF THE TOWN, IT PRECEDES THE NAME OF THE TOWN.

TO ASCERTAIN WHAT TOWN ANY VILLAGE IS LOCATED IN, SEE POST-OFFICES, PAGE 212.

ROCHESTER HOUSE DIRECTORY.

"The Blue Book." Price, $2.

The House Directory contains the names and addresses of the adult population of Rochester, arranged numerically by streets, and includes many addresses not to be found in the City Directory. While being a work of much larger scope, it is designed to cover all of the ground usually embraced in the "Blue Books" of other cities.

The House Directory may be said to constitute, in effect, a map in detail of each street, showing the location of the dwellings with the names of the occupants, both heads of families and other members, and the location of all other buildings, shops, stores, schools, churches, etc.

It will be found especially useful in charitable and missionary work, and for purposes of sending out invitations, notices, circulars, etc., as it enables the sender to select readily such names or such classes of people as may be desired, and in proper routes for easy delivery by messenger.

ROCHESTER AND MONROE COUNTY

BUSINESS DIRECTORY.

CONTAINING THE FOLLOWING DEPARTMENTS:

1. **Street Directory.**
2. **An alphabetical Directory, including the names of all men and women in business, firms, corporations, etc.**
3. **A classified Business Directory of the City of Rochester.**
4. **A classified Business Directory of Monroe County.**
5. **The City and County record of public officials, with their salaries, office hours, terms of office, etc.**

The City Departments of this book form a valuable abridgment of the Rochester Directory, and will prove a useful substitute for that work to those who do not want to pay its larger price. PRICE, $1.25.

For sale by booksellers and by the publishers.

ROCHESTER HOUSE DIRECTORY.

"The Blue Book." Price, $2.

The House Directory contains the names and addresses of the adult population of Rochester, arranged numerically by streets, and includes many addresses not to be found in the City Directory. While being a work of much larger scope, it is designed to cover all of the ground usually embraced in the " Blue Books " of other cities.

The House Directory may be said to constitute, in effect, a map in detail of each street, showing the location of the dwellings with the names of the occupants, both heads of families and other members, and the location of all other buildings, shops, stores, schools, churches, etc.

It will be found especially useful in charitable and missionary work, and for purposes of sending out invitations, notices, circulars, etc., as it enables the sender to select readily such names or such classes of people as may be desired, and in proper routes for easy delivery by messenger.

ROCHESTER AND MONROE COUNTY

5. **The City and County record of public officials, with their salaries, office hours, terms of office, etc.**

The City Departments of this book form a valuable abridgment of the Rochester Directory, and will prove a useful substitute for that work to those who do not want to pay its larger price. PRICE, $1.25.
