DEATHS.—The date of death and age of all citizens whose names appeared in the Directory, dying during the past twelve months, are recorded against the name in the proper alphabetical place in the present book. The same has been done each year since 1876, so that the several volumes of the Directory contain a mortuary list for that period, of great value for reference.

Announcement.

ROCHESTER BUSINESS DIRECTORY,

Price, $1.50.

"RED BOOK"

INCLUDING A CLASSIFIED BUSINESS DIRECTORY OF MONROE COUNTY.

The fourth number of this now well established publication is in preparation, and will be issued early in September.

The work is divided into five departments, as follows:

I. The Rochester Street Directory, a complete guide to all streets, avenues, parks, etc., in Rochester, in tabulated form, showing the cross streets in their regular order, with the street number at which they intersect.

II. An alphabetical directory of the business and professional men and women of the city, which will be found to answer the purpose of the general directory of Rochester for many uses, as in many cases it gives the house address as well as the business address, as in the case of carpenters, masons, physicians, clergymen, nurses, dressmakers, saloon keepers, and generally all whose place of business and residence are at the same place.

III. A classified Business Directory of City of Rochester.

IV. A classified Business Directory of the County of Monroe. A thorough canvass of the County is now in progress, and each of the nineteen towns of the County will be visited by an experienced canvasser for the purpose of obtaining the necessary information.

V. The City and County Register, giving the names, salaries, terms of office, etc., of the officials of the City and County, public institutions, etc., together with population, census statistics and other matter.

The many ways in which this book can be used, when the City Directory is not at hand, together with its small cost, make it a desirable work to all classes of business men.

The growing demand which has year by year developed for this book is the best indication of its substantial value.

THE DREW ALLIS COMPANY,

330 Powers Buildings.

SOME REASONS WHY NAMES ARE NOT FOUND IN THE DIRECTORY,

Many persons fail to find names on account of not knowing where to look for them. A slight variation in spelling will place names almost exactly alike, far apart. For instance—such names as Brown, Browne, Braun, though pronounced the same, and really the same name, are found in different places in the Directory. So, also, of Conner, Connor, Connors, O'Connor, and many others, each has its own place.

The pronunciation of foreign names usually varies from the pronunciation of such names in English. For instance—if an Irishman pronounces his name Agan, it is probably spelled Eagan or Egan. So, Mar, spelled Meagher or Mahr; Fay, spelled Fahy, etc. In names of nearly all European languages, the sounds of the vowels are usually as follows:—a is ah, e is ā, i is ē, o is o, u is oo.

In German names, ei and ai are pronounced like ī, ie like ē, au like ow, eu like oi; j is pronounced like y, w nearly like v, dt and th like t, etc. Thus, a name which is pronounced Yack, may be spelled Jack; Young, Jonge; Roiter, Reuter; Keefer, Kiefer; Line, Lein; and they must be looked for as spelled, not as pronounced.

The letters ä, ö, ü, in a German name, are equivalent to ae, oe, ue, and the name *should be looked for* as if the e appeared.

Owing to the difficulty which foreigners find in getting their names properly pronounced by the Americans with whom they come in contact, they frequently make very decided changes in them; taking sometimes an English name which sounds similar to theirs—as Gilbert for Gebhardt, Rice for Reis, Cole for Kohl, etc.; sometimes translating their names, as Blanc changed to White, Stein to Stone, etc.

Sometimes, members of the same family spell their names in two or three different ways; as Ballantyne, Ballantine, Ballintine; sometimes men bear two or three names, being known by one in their family, another in the shop, and perhaps still another among their associates.

To find a name, you *must know how to spell it.*

STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of State street No. 425 comes: look at State street and you find that Brown street runs from 391 left side, and Jay street from 473, showing that No. 425 comes on the left side of State street between Brown and Jay.

Or, going up West avenue, suppose it is wished to take a cross street so as to call at 312 Troup street; on examination, (see Troup) you find that 306 Troup is at the corner of Reynolds street; hence, by passing from West avenue through Reynolds street to Troup, you are near the desired number 312. When streets are not numbered, dashes are used to indicate whether the street runs from the right, the left, or crosses.

Even numbers are invariably upon the north or east side of streets.

Odd numbers are invariably upon the south or west side of streets.

Streets on the east side of the river which run east and west are usually numbered from the **west toward the east**; those on the west side from the **east toward the west.**

Streets north of Main street which run north and south are usually numbered from the **south toward the north**; those south of Main street from the **north toward the south.**

In Rochester, as in all cities, street numbers begin at the end of the street nearest the centre of the city.

Number of miles of streets in city, 277 2-3 miles; alleys, 16¼ miles.
