How to Use this Book

INFORMATION on how to use a directory of this character would be superflous. There are many men, however, who are every season asking themselves the question "What shall I wear?" and this space can perhaps be used in no better way than to advise such men that a satisfactory answer to the above question can be obtained by making a call upon Rochester's well-known and up-to-date merchant tailor,

whose patterns are invariably the swellest, and whose styles are the most artistic. He is always glad to impart information relating to the fashions, and you commit yourself to nothing in asking for it.

ROCHESTER HOUSE DIRECTORY

AND

FAMILY ADDRESS BOOK.

Names of residents and business houses are arranged in numerical order upon their respective streets, those upon the right side of a street appearing first, followed by those upon the left side. When there are several families in one house, the families on the lower floor are given first, followed in regular order by the families upon the floors above. The streets are arranged in alphabetical order. On streets that are not numbered ciphers are used in place of a street number.

Business places are denoted by the street number printed in heavy faced figures.

When a person's place of business and residence are at the same place, it is indicated by the use both of heavy faced figures for the street number and of the abbreviation h. at the end of the line.

ABBREVIATIONS.—*Al. alley; ave. avenue; b. boards; ct. court; e. east; fr. from; h. house; n. north or near; pl. place; r. residence in rear; r. place of business in rear; rd. road; s. south; sq. square; st. street; ter. terrace; w. west; wd. ward.*

GAS RANGE

ADVANTAGES OF GAS FOR COOKING

THE true value of Gas as a fuel for domestic purposes is known and appreciated alone by those who have used it, and cannot well be over estimated.

Gas for cooking recommends itself, because it is convenient, clean and economical; there is no odor, no soot, no ashes, no smoke, no waste heat and absolutely no danger. A GAS RANGE is always ready—as soon as lighted it is prepared for work.

A breakfast, including hot biscuits, one such as is served daily in ordinary households, can be placed upon the table twenty minutes after lighting the range. This same estimate will cover the time occupied in making ready supper, while the rapidity with which a complete dinner may be prepared is astonishing, and truly appreciated by those using Gas stoves.

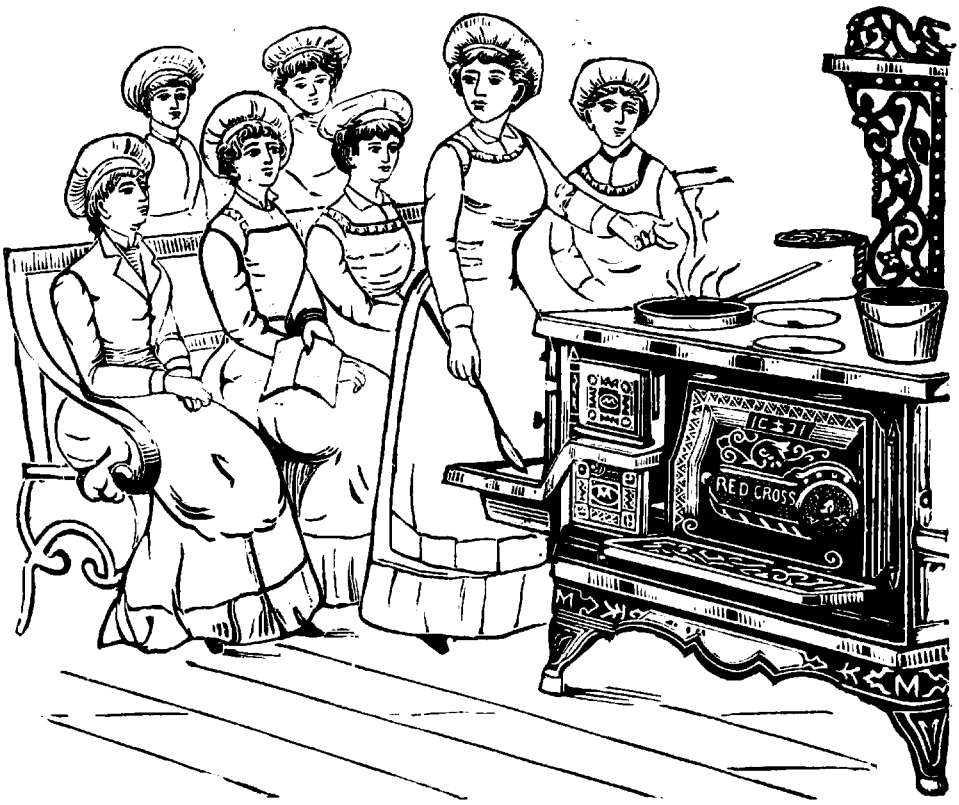
The Cooking School



THE INSTRUCTOR'S ADDRESS

"YOUNG LADIES:

I have learned that it is fully as essential to the attainment of perfect culinary results that the cooking *appurtenances* be only of the very best, as well as the ingredients. To this end I recommend **exclusively** the use of the RED CROSS RANGE. It is strictly first-class in the perfection of all its little details, and although I dislike, as a rule, to publicly commend the productions of one manufacturer over another, I cannot in this case do otherwise. The RED CROSS has the **Largest Oven** of any range in the market, and you all know what a blessing this must be, and has a number of new features which make it the best thing of its kind on the market."
