# How to Use the Directory

The City Directory is really a cooperative catalog of the inhabitants, business interests, and institutions of a City. But the very mass of the information contained, until one learns how to use it, may appear to be an obstacle to those unfamiliar with its arrangement.

The Chamber of Commerce receives thousands of calls for information, many of which might be answered with a saving of time to all concerned by a simple reference to the Directory, if inquirers thought to look there first. The Chamber has cooperated in many ways to secure improved Directory service, and suggests the following list of typical questions which can usually be answered by referring to the City Directory, with the idea that it will be interesting, educational and should help people to get more value from the use of their Directory.

| *(Typical Questions)* | *(Dept. of Directory where answer can be found)* (See Table of Contents) |
|---|---|
| **About an Individual** | |
| How does he spell his name? | *Alpha.* |
| Is he married? | *Alpha.* |
| What is his wife's name? | *Alpha.* |
| Where does he live? | *Alpha.* |
| Does he own his own home? | *Ho. Dir.* |
| Who are his neighbors? | *Ho. Dir.* |

| Who are chief officers? (if inc.) | *Alpha.* |
| When were they established? | *(Back file)* |
| Who else in same or similar lines? | *Classified* |

**(Note:** If name is in bold type, saying "See page—" much more detailed information may be found by referring to that space, such as follows:)

| | |
|---|---|
| What are their specialties? | *Class & Ref.* |
| Describe their products and services? | *Ref. Section* |
| What information have they made accessible to seekers? | *Reference and Classified* |

| | |
|---|---|
| **About a Locality** | |
| Quickest way to get there? | *Ho. Dir.-Map* |
| How do the Streets run? | *Ho. Dir.-Map* |
| Who lives at a given address? | *Ho. Dir.* |
| What is the character of the neighborhood? | *Ho. Dir. & Alpha.* |
| Is it a "home-owners" section? | *Ho. Dir.* |
| Just where in block is it located? | *Ho. Dir.* |
| What is nearest street corner? | *Ho. Dir.* |
| What is nearest store, church, school, garage, or other place of business? | *Ho. Dir. & Map* |
| If business location, what business? | *Ho. Dir.* |
| If an office building, who are in what rooms? | *Ho. Dir.* |
| Where are the public and office buildings? | *Classified* |
| **About a Society, Club or Association** | |
| What is the complete name? | *Class. & Alpha.* |
| Where are their headquarters? | *Alpha.* |
| Who is the Secretary? | *Alpha.* |
| When are stated meetings? | *Alpha.* |
| What are the Churches and where located? | *Alpha. & Class.* |
| Who are the Pastors? | *Alpha.* |
| **About City, County, State & Nat. Depts.** | |
| What are the various Departments? | *Miscellany* |
| Where are they located? | *Miscellany* |
| Who are the officials? | *Miscellany* |
| Who are principal assistants? | *Miscellany* |
| What are Court terms, Justices, Officials, etc? | *Miscellany* |
| Where is the Postal Information? | *Miscellany* |
| Where are latest Population figures? | *Miscellany* |
| Where is Statistical Review and information about the City as a whole? | *Miscellany* |
| Where are the Schools? | *Miscellany* |
| Who are the Teachers? | *Miscellany* |
| Where are the Cemeteries? | *Classified* |
| Where are the Hospitals, Homes and Asylums? | *Classified* |

The above list of typical questions which might be answered by the City Directory could be expanded indefinitely, in the ordinary course of buying, selling, business and personal contacts. A knowledge of what is here contained, and how it may be used, should be useful to any citizen.

# THE ROCHESTER DIRECTORY

For the year ending November 1

# 1937

Containing

**Alphabetical Section** (Page 251) Gives names, occupations and addresses of all men twenty years old or over, women who carry on business or are employed, widows, and all business houses. Dates of deaths during the previous year are given, and, where possible, the addresses of people who have moved to other cities. The names of partners in firms are given in this department, with much other information that cannot be found elsewhere.

**Classified Business Finder** (Page 169) All business houses, individuals in business for themselves,and professional men are listed without charge under the heading that best describes them. The more progressive houses, realizing that it pays to be easily found, pay a nominal charge for special listings in heavy type, under every heading where a buyer might look for them, cross-indexed to a descriptive space in the "reference section."

**Reference Department** (Page 65) Where more information than is possible to give under the headings is placed on file for buyer's reference. The value of this department cannot be estimated. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men, as a glance at this department will show.

**Street and House Directory** (Pink Section, Page 1051) A complete list of streets, giving numbers at intersections, and enabling one to tell at once between what streets a given number lies, and the quickest way to get there. All business houses, individuals in business, and householders are listed in numerical order upon their respective streets. The Streets are arranged in alphabetical order and show the ward in which they are located. The symbol ◎ following a name in this section indicates that the house is owned by the person listed or by some member of the family.

**Map** (inside back cover) The clearest map ever made of the city, on a scale large enough to see, and small enough to be handled easily.

**Miscellaneous Information** (Page 11) Organization of City Departments, giving officers and salaries,—Railway stations,—Societies, Institutions, etc., with officers,—State officers and departments,—U. S. officers and departments,—Courts holding sessions in the city, with terms, officers and salaries,—Population tables, etc.

# ROCHESTER

***"Where Quality Dominates."***

Rochester's history is in part the chronicle of the famous Genesee Country of Western New York. The settlement of the city, its remarkable growth from a little community of 100 acres into the third largest city in the Empire State in a little more than a century, is due almost as much to the natural advantages of this section of the state as it is to the enterprise of the hardy pioneers, who, in the early years of the nineteenth century, started the little village of Rochester upon the path of progress.

This village was incorporated as Rochesterville in 1817, changed its name to Rochester in 1822, and became a city in 1834. The city had grown from a settlement of 100 acres in 1811 to a thriving community in 1834, comprising some 4,000 acres, with a population of more than 14,000 persons.

The Erie canal, opened at Rochester in 1823, and completed two years later, played a conspicuous part in building up the commerce of Rochester and in developing the resources of the Genesee Country. In 1827 there were listed more than 100 manufacturing concerns, and even at that early date there was a constantly increasing demand for Rochester-made products, large shipments going east and west via the canal each week.

In the years since its incorporation as a city in 1834, Rochester has enjoyed a remarkably uninterrupted growth. When the opening of the west resulted in the removal of the milling interests from the city, the enterprise of its citizens resulted in the establishment of other lines of industry.

PORT OF ROCHESTER—ON LAKE ONTARIO

Many special advantages are offered by Rochester to the homeseeker and to the business man. It is a city with picturesque surroundings, set in the heart of the fertile Genese Valley at the point where the river takes a drop of more than 300 feet in a series of three falls, and thus presents an ideal combination of industry and agriculture. The city occupies a strategic position from the standpoint of transportation, so that raw materials are easily and cheaply obtained and finished products promptly distributed. The city owes its location to the power generated in the Genesee River. The development of this power, originally used to cut logs and grind corn, has made Rochester an industrial city of note whose products are known in all parts of the world.

In its growth the city has lost few of its original charms and has taken on all the advantages of a large city. Rochester is located in the largest agricultural county in New York State, a county which ranks well up in point of productiveness with any in the country. Monroe County totals a population of 423,881, and a circle drawn with a radius of 90 miles from Rochester embraces a population of nearly two million.

PART OF INDUSTRIAL ROCHESTER

Known first as the Flour City because of its extensive milling interests, the city's cognomen was later changed to the Flower City because of the extensive horticultural interests which were developed. With the growth of industry on a large scale, the city became known as the city of varied industries and took as its slogan "Rochester Made Means Quality." Rochester boasts many famous industrial organizations and leads the world in the production of a number of products.

In Rochester are the largest manufacturers of enameled steel tanks in the world; the largest manufacturers of filing devices and office systems; the largest thermometer plant in the world; the largest optical works in the world; the largest manufacturers of check protectors; the largest film factory in the world; the largest camera factory in the world; the largest photographic plate factory in the world; the largest manufacturers of soda fountain fruits and syrups. It as a leader in telephone apparatus, paper box manufacturers and many other lines. More high-class ivory buttons are made here than in any city in the United States. It is the headquarters of the nursery business of the United States.

PART OF BUSINESS SECTION, LOOKING EAST ON MAIN STREET

Central Library of Rochester and Monroe County - City Directory Collection - 1937

Rochester had 935 manufacturing establishments in 1929, producing 325 separate commodities. Each of these concerns manufactured goods valued at more than $5,000 annually. The investment in plant building and equipment was $297,586,431, whereas, the annual wages and salaries approximated $113,504,923. Rochester is the worlds headquarters for photographic goods and supplies. It ranks fourth in the production of women's shoes and has the same rank in the production of men's clothing. The production of shoes each year is valued at $20,000,000, and the clothing output is valued at $50,000,000. In 1927 Rochester out of twenty leading American cities ranked first in the percent of wage earners (16.6%) to total population.

From 1923 to 1927 Rochester industries showed the greatest per cent increase in the number of employees, stood second in the growth of wages paid, and rated third in the percent growth realized in manufacturing output, as compared with thirty leading American cities.

GENESEE VALLEY PARK

One of the outstanding features of the city is its park system which includes five large and twenty-eight small parks containing 1,777 acres. Genesee Valley Park contains 589.83 acres; Durand-Eastman Park along the Lake Ontario Shore contains 474 acres; Edgerton (Exposition) Park has an area of 42 acres, contains eight large practical and beautiful buildings.

Because of the high grade of workmanship demanded in most of Rochester's industrial organizations, Rochester boasts an unusually large percentage of skilled mechanics. This means that wages are good, a situation which is reflected in the large proportion of home-owners found in this city. More than 42% of Rochester's dwellings are owned by those who live in them, which puts Rochester among the first ten cities of the country in this respect.

From a transportation point of view the city enjoys many advantages. Many of the articles manufactured in Rochester are of a specialty and technical nature. The outbound freight business from Rochester, therefore, is largely made up of less than carload shipments. As a result of this immense tonnage, the city undoubtedly has the best distributive service of any city this side of the sea board.

Rochester is served by five important railroads, three inter-state bus lines, the New York State Barge Canal, and steamship lines operating on Lake Ontario. Improved highways leading east, west and south, enable any type of merchandise and produce to the transported to adjacent cities by motor truck. The city possesses modern aviation facilities in its municipally-owned airport. These factors have made Rochester one of the outstanding cities in the country in point of transportation service and facilities.

It is estimated that 9,000 people enter and depart from Rochester each day over the city railroads, which run approximately 150 passenger trains daily. In addition to this, about 4,000 people are handled daily by busses operating in and out of the city.

High-grade freight service from Rochester to all destinations is rendered by the railroads entering the city.

The Barge Canal is an important factor in the transportation service of Rochester. A large modern freight terminal and warehouse constructed by the state of New York, at the dockside of this inner harbor, which is about two miles in length, and located in the heart of the business district, is equipped to handle almost any amount of freight.

COURT STREET BRIDGE, SUBWAY AND BARGE CANAL HARBOR

In its new subway, Rochester has all the advantages of a highly modern joint transit railroad facility. This important traffic artery operated by electricity, provides expedited passenger and freight service for a large portion of the city, at a cost of more than $12,000,000. Rochester has utilized the right of way of the old Erie Canal, passing east and west through the very center of the city, which has been abandoned in favor of the New Barge Canal, south of the city.

That there is an unusual opportunity for industrial development along the rails of the new subway is obvious. Many desirable sites are available throughout the nine miles of the line. West of the city a vast territory may be readily opened up to new industries.

All industries of Rochester are located in what is known as the Rochester reciprocal district. Cars in-bound by any route, can be spotted on the sidings of industries within the switching territory free of any additional expense. In other words, cars are spotted in the industries or forwarded therefrom on the basis of no greater cost than the flat Rochester rate. In the harvesting season hundreds of carloads of peaches, pears, grapes, apples and other fruits are shipped out of Rochester and surrounding territory.

Rochester is but an over-night's ride from New York, Washington, St.Louis, Cincinnati, Cleveland, Detroit, Toronto, Boston, Montreal and Chicago. This gives fast service in obtaining coal and raw materials and in the distribution of finished products.

National advertising of many of the large industrial oganizations has helped to keep Rochester and its products before the world. Goods from Rochester factories are found on the counters of merchants in all the states of the union and in many foreign countries.

About 40,000 horse power of electricity is developed from the Genesee River and plans have been made for the development of many times this amount by the damming of the Genesee at Portage.

Rochester has one main Post Office with sub-stations located in various parts of the city. Mail is distributed by a force of over 250 letter carriers.

The Rochester airport, a municipally-owned and operated flying field, is located four miles southeast of the center of the city and approximately one half mile southwest of the city line. The airport is on the Scottsville road, an improved state highway, and is easily accessible by automobile. Trolley cars operate to within one and one-half miles of the airport and passenger busses pass by it.

The field is rectangular in shape, and contains 110 acres. The surface of the field is sod. Natural and tile drainage insure an adequately dry surface at all times.

In addition to two main runways, 1,500 feet and 1,000 feet in length, respectively, there are two cross-wind runways, each 1,000 feet long. All the landing strips are of stone base and cinder top. Grading of the entire field is being completed and will result in an "allway" field.

One morning and two evening newspapers, as well as one German evening daily and several other foreign language weeklies, are published in Rochester. The total circulation of the three English daily newspapers is over 200,000.

The trading area covered by these papers, extends at some points to a distance of about 60 miles. Within this radius the influence of Rochester as a business and cultural center is well demonstrated by the large circulation of its newspapers.

Rochester is a city of homes, and its clean, tree-lined streets, well maintained by efficient city departments, give a feeling of liveableness and friendliness to the city that is not to be surpassed in any community of its size.

Wise and far-sighted city zoning has confined industry to certain areas of the city in juxtaposition to districts providing workingmen's houses.

The industries of Rochester are, for the most part, of a light manufacturing variety, and consequently, the city is unusually free of smoke and other nuisances.

Workingmen's homes can be bought or rented at very favorable rates, and there is available a supply of good, clean living accommodations for all classes of people.

MEMORIAL ART GALLERY

Connected with the University is the Memorial Art Gallery, which offers facilities for college work in art, as well as for public exhibitions. The gallery embraces a children's museum, with a classroom for educational work with children, and a Little Theatre with a seating capacity of 300 persons.

MAGNOLIA TIME—OXFORD STREET

Rochester has two lake-shore city-owned bathing beaches, embracing over a mile of lake front, together with other out-door and indoor pools. Bath houses are also maintained in convenient sections of the city.

Strictly speaking, the libraries of the city are not part of its recreational facilities, but, nevertheless, they provide opportunities for profitable use of spare time. Branch libraries are situated in various parts of the city for the convenience of the public.

EASTMAN THEATRE

Rochester has a total of 41 theatres and auditoriums of which 33 are devoted to motion pictures, with a total seating capacity om 48,500. The famous Eastman Theatre, which is an outstanding architectural achievement, has a seating capacity of 3,500, and provides seasonal musical events by world's famous artists.

International League baseball is provided through a local team, with a modern concrete stadium seating over 18,000.

Rochester is a livable city, and possesses many characteristics conducive to the well-being of the individual. The spirit of progress in Rochester, have been well exemplified in Civic affairs as well as in Industrial Development. Seldom can one find a community more keenly aware of its Civic duty or more willing to co-operate in movements to achieve those things which are essential to the progress and prosperity of the city.

Rochester occupies a strong position among cities in its class, and the diversity of its manufactures should enable practically any class of industry to achieve economic and stable production, especially if the product requires a large amount of skilled labor in its manufacture.

# *Information*

in the mass seems like a dull proposition, but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it?

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use, however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much. In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

## REFERENCE DEPARTMENT

Where more information than is possible to give under the classified listings is placed on file for buyers reference. The value of this department is inestimable. It is an index of the best business interests of the city, and stands for them and the city in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information.

To have within reach such a fund of classified information as the Directory contains, is a help to any business man.

Should you wish to know the full name, home or business address, occupation, even the wife's name of any man in the city, the chances are good, you will find it in the Directory.

You can find where to buy and where to sell. How to get anywhere in the city and so many other items of interest, that will make this book well worth the price.

# Credit Information

Correct name, occupation, home address, where employed and wife's first name is given in the alphabetical directory. A symbol (◎), used for owners, in the House Directory, designates whether resident is a tenant or owns his home.

## Determine the character and stability of applicant for credit

The alphabetical directory gives his present occupation and residence. By referring to the current and previous issues of the directory one can quickly determine whether the occupant occupies the same position and residence or moves often from one job to another and from one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You will find former issues of City Directories invaluable in checking past records of your customers.

**MONEY DEPOSITED** during the first three business days of any month will draw interest from the first of that month, if left until the end of the quarter. The quarters begin with the first days of March, June, September and December. Deposits may be withdrawn on the last three business days of a quarterly period without loss of interest.

**THE RATE OF INTEREST** is determined at the close of each six months from the actual earnings for that period and at the highest rate which such earnings will in the best judgment of the Board of Trustees allow.

**INTEREST IS CREDITED** to accounts December 1st and June 1st, and if not withdrawn will bear interest as a deposit.

**THE PASS BOOK** must be presented for depositing or withdrawing.

**MONEY TO LOAN** on bond and mortgage.

**DEPOSITS OF ONE DOLLAR** or of any larger sum, not exceeding in the aggregate Seven Thousand Five Hundred Dollars from any one depositor may be received, exclusive of interest.

## *New* PULLMAN *Adjustable Sash Balance*

**A Half Century of Progress**

The most radical and important improvement in Spring Sash Balances in forty years. An ordinary screw driver makes the adjustment without removing the Balance or Sash. *Re-adjustment is possible at any time to permanently maintain a perfectly balanced window. All pressed steel construction – light in weight and non-breakable. All working parts are entirely encased so that no foreign matter can penetrate inside the housing and interfere with free action of the moving parts. No pulleys, weights or cords. Double hung opening completely installed in 10 minutes. Now guaranteed for the life of the building.

***Send for catalog showing complete specifications and architectural details***

**DIRECT MAIL ADVERTISING**

Alert advertisers are now demanding catalogues that are more than a mere listing of their products; they want books that are *sales forces*—that present the same well-planned sales arguments that the star salesman uses. We are serving a large clientele with this effective type of sales medium; and we can be of help to you also.

## *PARTY LINE TELEPHONE RULES*

When making a telephone call, remove the receiver and listen. If the line is in use, replace the receiver immediately and wait for a few minutes before trying again.

The length of a conversation should in no case exceed five minutes, and you are requested to make it as brief as possible. Allow an interval of a few minutes to elapse before calling another party, as someone on your line may be waiting to make an emergency call.

Do not tolerate anyone to listen at your telephone when the line is in use.

# A Lasting Advertisement

## Insuring Maximum Coverage at Minimum Cost Is Now Available

City Directory Advertising lives as long as the book is current. It is readily at hand and can, through cross indexing of proper representation, be made easy to find and fully informative. Any business-man, desirous of effectively registering a service or product, in such a manner as will form a permanent advertisement, owes it to himself and his business to be thoroughly informed on City Directory Advertising.

Your City Directory is not alone a local medium. By a system of distribution through nearly 500 City Directory Libraries, your advertisement takes on a national aspect. Send for descriptive Library Folder and Privilege Card.

# ROCHESTER GENERAL DIRECTORY

# 1937

Copyright, 1936, Sampson & Murdock Co., Inc., Boston, Mass.

Wife's Name—Appears in parentheses following husband's name when obtainable.

Removals—Against names showing removals from the city, the post office is given; if into another state, both the post office and state are given.

Deaths—The date of death of citizens whose names appeared in the Directory, dying during the past twelve months, is recorded against the name in the present book
