INTRODUCTION

R. L. POLK & CO., publishers of more than 750 city, county, state and national Directories, present to subscribers and the general public, this, the 1940 edition of the Rochester City Directory.

Confidence in the growth of Rochester's industry and wealth, and in the advancement of their civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Rochester to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Rochester Directory will fulfill its mission as a source of authentic information pertaining to the city.

Five Major Departments

The five major departments are arranged in the following order:—

THE MISCELLANEOUS DEPARTMENT, on white paper, pages 7 to 40, presents lists of city, county, state and federal officials, post office information, schools and institutions, with officers, courts holding sessions in the city, population tables, statistical review, and manufacturing, trade and civic surveys.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, on white paper, is included in pages 49 to 908. This is the only record in existence that aims to show the name, marital status, occupation and addresses of each adult resident of Rochester, and the name, official personnel, nature and address of each firm and corporation in the city.

THE BUYERS' GUIDE beginning opposite page 908, printed on India paper in a separate series of pages from 1 to 70, contains the advertisements of leading banking, manufacturing, business and professional interests of Rochester. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a great commercial and industrial center like Rochester, the necessity of having this kind of information immediately available is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 909 to 1064, on yellow paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, on pink paper, covers pages 1065 to 1308. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. A feature of this section is the designation of tenant-owned homes.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Rochester.

The Rochester Directory Library

Through the courtesy of the publishers of the Rochester City Directory, a Directory Library is maintained in the Public Library, for free reference by the general public. This is one of more than 475 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising *suggests* wants and *creates* desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased and gives information that the buyer wants *when he wants to buy.*

A Connecting Link

The weakness of display advertising is that often a need is not realized until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying and where is so logical a place to look as *in this book.*

A Help to You

In your buying, use the lists in this book. If you see a name in *heavy type* it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page — —", you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to *you* as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you *now* how little it costs to be *protected.*

Bricks Without Straw

In ancient times, we are told, the Israelites were forced to do their work without the proper materials. They did it—after a fashion—but at an enormous cost in time and labor. Labor was cheap in those days, however, and their task masters had the power to insist upon the full quota being given in spite of limitations.

Now the labor market is high, yet, in many cases history repeats itself. We still often see business trying to get along without the proper tools or with antiquated equipment.

You *can* do business without the telephone: it is possible to get along without a typewriter; you may use a quill pen for your correspondence if you so desire; it is your privilege to be without insurance, or the latest directory. If you wish you may still use a mailing list that was old when grandfather was a boy.

If the results are not entirely satisfactory, it is up to you.

Some firms prate wisely of business efficiency and then lose time and money sending to wrong addresses culled from an out-of-date directory. Rather than spend the few dollars necessary to insure themselves being properly listed under all the headings applicable to their business, they run the risk of letting their competitor get their trade. They save the first cost and waste postage stamps by the gross.

Would you improve on old methods? Then phone or write at once for particulars to
