This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.

2. To subscribe to and work for truth, honesty and accuracy in all departments.

3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.

4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

Rochester Suburban Directory

For the year 1930

INCLUDING THE TOWNS OF

BRIGHTON, GATES, GREECE and IRONDEQUOIT

A Supplement to the Rochester Directory

Containing

Alphabetical Section (White Pages) for each town, giving names, occupations and addresses of all persons over twenty years of age, business and post office addresses.

Business Directory (Page 629) of all firms or individuals in business or profession, under listing best describing their service or product.

Reference Department (Page 17) where more information than is possible to give under the headings is placed on file for buyer's reference. The value of this department cannot be estimated. It is an index of the best business interests of the town, and stands for them and the town in reference libraries all over the country, as well as on the desks of progressive business men. It is accessible to everybody, and the logical place to look for specific information. This probably explains why no other form of publicity is so generally endorsed by business men, as a glance at this department will show.

House and Street Directory. (Blue Sections) A complete list of streets, giving numbers at intersections and enabling one to tell at once between what streets a given number lies, and the quickest way to get there. All business houses, individuals in business, and householders are listed in numerical order upon their respective streets. Post office address is given for each street. A feature of great value and convenience.

POWER OF ADVERTISING

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you.

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

Too Late for This Issue?

Then arrange NOW to have your name properly listed and your business classified and cross indexed in the next edition of the Rochester Suburban Directory.

The City Directory has become a universal necessity in looking up new prospects, in purchasing supplies, and in marketing products. Don't forget that directory advertising supplements and rounds out all your other advertising by giving the most explicit directions how to find you.

Put "We are listed in the Directory" in all your advertising copy. Addresses are often forgotten or mislaid, though the name is remembered. The firm that is properly listed under all headings in the directory that describes it's product, is wise.

BRIGHTON HOUSEHOLDERS
AND COMPLETE
STREET DIRECTORY

1930

COPYRIGHT, 1930, SAMPSON & MURDOCK CO. INC., ROCHESTER, N. Y.

The streets are arranged in alphabetical order.

Intersecting streets are shown at the actual numbers of beginning, crossing or ending, in italics.

House numbers are compiled in order of location on the street, ciphers being used where numbers are lacking.

Numbers are printed in two columns, to show location on left or right side of street.

Place of business is indicated by the nature of business being stated after a name; and where business is carried on at a residence the abbreviation "h" (for house) follows the business.

Resident property owners are denoted by an asterisk * after name.

Post office follows description of street, in parenthesis. Mail is delivered in Brighton through the Rochester post office, by carrier or R. D. 1, 2 or 3; or through Henrietta post office.

You may be remembered a hundred years from now

It seems a long time in this era of change but it is a fact that the influence of our forefathers is often carried on for generations.

Especially in business and financial affairs is the record of the past liable to be of vast importance to the present.

The silent testimony of old directories is often accepted by courts as valuable evidence and too much care cannot be taken by business men to insure that all such records are accurate and complete.

Unlike most other mediums for advertising, the Directory is kept on file in many law and public libraries for years after its immediate usefulness as an address book has disappeared and it becomes a permanent record of the firms and individuals listed therein.

A very small sum insures adequate representation from year to year and such record may prove of great service at some future date.

POWER OF ADVERTISING

The **City Directory** is the power that generates information for the buyer that he may know who deals in the product he wishes to purchase. If your business is not classified properly, and a display advertisement arranged to describe your business, how can you expect the buyer to trade with you.

ADVERTISING is the foundation upon which successful businesses are built. You must apply this to your own particular business.

ADVERTISING is the power of an idea multiplied.

There are two kinds of Advertising

That which the Buyer seeks, and that which is thrust upon him.

Both are good

Display advertising *suggests* wants and *creates* desire. Of its tremendous power many present day successes bear witness.

Reference Advertising steps in when the desire has been created. It shows where the goods can be purchased and gives information that the buyer wants *when he wants to buy.*

A Connecting Link

The weakness of display advertising is that often a need is not realized until the ad that suggested it is misplaced or thrown away.

A shrewd buyer usually looks the field over before buying and where is so logical a place to look as *in this book.*

A Help to You

In your buying, use the lists in this book. If you see a name in *heavy type* it is because that concern thought enough of your possible business to make it easy for you to find them. If it says "See page — —", you will find there information that will really help you.

Are You Covered?

Have you made it easy for buyers to find you, by putting a bold type listing under every heading where they might look for you or a competitor? Have you put information in the "Selling Section" that will really help a buyer, and point to *you* as the one who can serve him best?

If not, make a note to do it in the next edition, and let us tell you *now* how little it costs to be *protected.*

The Return Circuit in Advertising

The circuit must be completed before the bell will ring
The Buyer must find the Seller before a Sale is made

Creative Advertising—in newspapers, magazines, billboards, etc., tends to suggest wants and to create desire.

Before a sale results the initiative must pass from Seller to Buyer.

When this happens the Buyer begins actively to seek where he can best supply his wants.

This Directory is a logical place to look (at least our subscribers tell us they use it for this purpose) and the Reference Advertising herein has assisted many sales.

Have you made it easy for Buyers to find ***You?***

GREECE HOUSEHOLDERS
AND COMPLETE
STREET DIRECTORY

1930

COPYRIGHT, 1930, SAMPSON & MURDOCK CO. INC., ROCHESTER, N. Y.

The streets are arranged in alphabetical order.

Intersecting streets are shown at the actual numbers of beginning, crossing or ending, in italics.

House numbers are compiled in order of location on the street, ciphers being used where numbers are lacking.

Numbers are printed in two columns, to show location on left or right side of street.

Place of business is indicated by nature of business being stated after a name; and where business is carried on at a residence the abbreviation "h" (for house) follows the business.

Resident property owners are denoted by an asterisk * after name.

Post office follows description of street, in parenthesis. Mail is delivered in Greece through the Rochester post office, by carrier or R. D. 4 and 6; or through Coldwater, Hilton, North Greece, or Spencerport post offices.

Information

in the mass seems like a dull proposition, but when we have a need of some person or thing nothing interests us more than getting information about that person or thing.

This directory looks like a big book to be walked around or fallen over or put out of the way, until you need some information that it contains—then it becomes the handiest thing around the place.

Has it ever occurred to you how much information you could get from this book, if you really knew how to use it?

There is a great mass of information here, arranged in a logical way that experience has shown most easily referred to. It does take a little study to know how to make full use, however, like anything else worth while.

A little study that opens up a new way to save time or increase accuracy is an asset to anyone. It may be you will find a lot of information you did not know was here before, that you would have spent a lot of time and trouble to find in other ways, and you will have increased your efficiency just that much. In buying, in selling, in shipping, correspondence, granting credit, sending bills, collecting money—

Too Late For This Issue?

Then arrange NOW to have your name properly listed and your business classified and cross indexed in the next edition of the AUBURN DIRECTORY.

The City Directory has become a universal necessity in looking up new prospects, in purchasing supplies, and in marketing products. Don't forget that directory advertising supplements and rounds out all your other advertising by giving the most explicit directions how to find you.

Put "We are listed in the directory" in all your advertising copy. Addresses are often forgotten or mislaid, though the name is remembered. The firm that is properly listed under all headings in the directory that describe it's product, is wise

Every Wasted Minute Costs You Money

Whether it's your time or that of an inexpensive clerk that is wasted by using an out of date directory, the loss is yours.

In the course of a year the time wasted usually costs far more than the price of a new directory.

Misdirected parcels or messages cause expense and annoyance.

Cut out this leak. Order a new directory at once. It will pay you bigger dividends for the money invested than you realize.

IRONDEQUOIT HOUSEHOLDERS
AND COMPLETE
STREET DIRECTORY

1930

COPYRIGHT, 1930, SAMPSON & MURDOCK CO. INC., ROCHESTER N. Y.

The Streets are arranged in alphabetical order.

Intersecting streets are shown at the actual numbers of beginning, crossing, or ending, in *italics*.

House numbers are compiled in order of location on the street, ciphers being used where numbers are lacking.

Numbers are printed in two columns, to show location on left or right side of street.

Place of business is indicated by the nature of business being stated after name; and where business is carried on at residence the abbreviation "h" (for house) follows the business.

Resident property owners are denoted by an asterisk * after name.

Post office follows description of street, in parenthesis. Mail is delivered in Irondequoit through the Rochester post office, by carrier or R. D 4, 5 or 7, or through Point Pleasant, Sea Breeze or Claverhouse post offices.

The Sign Over the Door

Is a good thing, isn't it? You would not think of doing business without it.

But it is only seen by those who pass your way.

If you could put a sign where everyone could see it, would it interest you?

THE CITY DIRECTORY

Is where people look for you when they want to do business. You should make it easy for them to find you, by putting such information as a buyer wants, in the Directory properly indexed under all headings where he might look for you.

To be properly registered costs less than to be left out
