

## Veterans' Memorial Bridge Opened And Dedicated Before Large Crowd

Midst a gay holiday scene, Veteran's Memorial Bridge was formally dedicated and opened to public use on December 27. A crowd of several thousand massed on the bridge to witness an impressive service of dedication, both civil and military. The proceedings were also broadcast through WHAM.

Since that time hundreds of people have stopped every day on the bridge to view the scenery in either direction along the river gorge. This new river span has uncovered a colorful picture which seems destined to bring fame to the bridge in an artistic as well as utilitarian way. The need for the structure has already been indicated by the large amount of traffic it is carrying across the Genesee.

Gold Star mothers, American Legion members and city officials took the leading parts in the dedication. James F. Gallivan acted for the legion, Mrs. Daniel Rosenkranz and Mrs. Flora Becker for the Mothers, Stephen B. Story for the city, and George W. Studley for the workers who built the bridge. Two plaques were unveiled in the center of the bridge, one to the men who died in the World War and the other to the three men killed during the construction of the bridge.

Bishop John Francis O'Hern of the Rochester diocese pronounced the benediction. George Jenkinson was marshal of the parade which preceded the opening. An honored guest in this parade was Edwin A. Fisher, city engineer emeritus.

Four ribbons across the bridge were cut by golden scissors in the hands of the Misses Barbara and Martha Story, Jean Baker and Georgianna Dailey, and after 22 months in construction, Rochester's newest and most beautiful bridge was opened to public use.

Mr. and Mrs. Robert Newell of Wheatland street, entertained friends at a New Year's Eve party.

## New Owners Offer Prize for Name For Dewey Ave. Gasoline Station

A prize of 100 gallons of gasoline will be given away within the next week by the former D and C. Service Station, which has been taken over by new owners, and which awaits a name to be suggested by readers of The Courier. The contest for a name is now open and closes at midnight, January 14. The winner of the 100 gallons of gasoline will be announced in the next issue.

Anyone may enter the contest. No purchase is required to submit a suggested name. All suggestions should be mailed or sent to the station at 1687 Dewey avenue. An explanation, not to exceed 50 words in length, telling why the name is considered appropriate, must accompany each suggestion. Entrants may visit the station if they wish.

The station is now being run by E. S. Coy and Thomas Whitmore, who was connected with the former ownership. An opening special is announced in the advertising columns, together with further details of the contest.

## Hahn Now Showing New Thor Washer

First showing of the new Golden Bowl Thor washer is being made at the Hahn Radio Shop in Driving Park avenue this week. It represents the latest development in the washing machine field and the principle of drying which it involves is said to be revolutionary in the industry.

The new model extracts the water from clothing after it has been washed by means of compressed air. The old-style wringer and newer style whirling method have been completely eclipsed by this new development, according to Mr. Hahn.

The golden bowl has the same capacity as the tub of the washer and requires 80 seconds to dry the clothes. It eliminates torn clothing and broken hooks, buttons and buckles. In addition there is no whirling or spinning to vibrate and shorten the life of the washer. It is priced practically the same as the ordinary type of washer.

### Radio Tips, Questions and Answers

By H. S. RUSSELL

When your radio receiver lacks its former "punch" and the stations don't seem to "be on the dial" the set probably needs two things—new tubes and lining up.

"Lining up" or, more properly, aligning, is the process of putting all the tuning stages in absolute resonance with each other so that the receiver develops maximum "receiving power" or ability to get distance. "Lining up" a receiver also makes it as selective as it is possible for that particular receiver to be.

Do you remember the tuning condensers in the old battery receivers—those sets of plates that worked in and out of mesh when you turned the dials? Well, those are the instruments that "tune" your receiver to the different stations. In a modern set they are shielded or covered and are mounted on one shaft. That's why they must be aligned.

In the old battery sets each condenser had a dial to tune it. You turned each dial until the station desired was tuned in "just right." Nowadays, with all the condensers on one shaft, they are lined up for maximum pick-up and selectivity at the factory; but as your tubes wear and change their characteristics slightly, they throw their circuit slightly out of balance with the rest of the tuning circuits. Also the jars to which the tuning condensers are subjected will some times alter slightly their positions on the tuning shaft.

So little by little, and before we realize it, our radio is barely able to "get" stations that once "roared in." The cure is new tubes and a line-up by a service man with knowledge, training and equipment.

I said last week that if a receiver was noisy and removing the aerial and ground wires failed to stop the noise in the receiver that the trouble was in the set itself. I am going to qualify that statement by adding—provided the receiver isn't picking up noise through the house lighting circuit. A poor wiring job with loose contacts, or a light socket with loose or broken contacts will cause trouble when the house is jarred, while furnace operating motors, elevators, vacuum cleaners, warming pads, etc., produce sputtering hum and crack-

## May Start New Bus Service Over Veterans' Bridge

A cross-town busline in the north end of the city, made possible by the opening of the Veteran's Bridge at Ridge road, is being considered by the New York State Railways. A survey was made last week and although no report has as yet been made, inauguration of the service at an early date is expected.

The line would begin at Portland and Clifford avenues, and run through Carter to Norton street, to Hollenbeck street, to Keeler street, across the bridge and through Lewiston avenue to Dewey avenue. Alternate buses would run to Long Pond road and down Dewey avenue to Britton road.

Councilman Nelson A. Milne and William F. Durnan, commissioner of public safety, are co-operating with John F. Uffert, general manager of the Rochester lines, in advancing the proposed service. Besides furnishing a much-needed service, they feel it would considerably lighten the rush-hour congestion on the Driving Park avenue trackless trolley.

## Johnston Window Is Pierced by Bullet

A souvenir of the now-famous pursuit of police of two criminals out the Ridge road New Year's was found next morning in the H. A. Johnston Bakery on Lake avenue. The souvenir is a bullet which went through the bakery's plate glass window and the display screen in the background to land harmlessly on the floor.

The bakery faces the triangle made by the bridge approaches and Lake avenue. Policemen, in true wild-west fashion, fired from their prowl car at the fleeing criminals' car, but one of their shots traveled across the triangle and found its way into the bakery.

Mr. Johnston presented the souvenir at police headquarters where it was officially identified as being from the gun of one of the pursuing policemen. The damaged window which is drawing some attention from sight-seers will be replaced by the police department.

Incidentally the hold-up men succeeded in outdistancing the police further up on the Ridge road and have not yet been arrested.

### CASTLEMAN SCHOOL 40

All teachers and practically all children were back in school Monday, January 4, ready for the last four weeks' work of the term, having benefitted from the change and rest.

Santa Claus remembered many children with gifts of money; \$56.46 was banked Monday morning, making a total of \$470. Forty-six banked from September 8 to January 4 inclusive. The 5A-B grade, Mrs. Lillian Brooks, teacher, has been 100 per cent in banking this term.

In their preparations for Christmas, the children did not forget those less fortunate than themselves. Donations of groceries, vegetables, fruit, candy etc., were brought and together with \$15.00 in money, provided Christmas dinners and cheer for several families.

The customary Christmas entertainment in the Assembly was omitted this year. Parties and entertainments in the grade rooms were substituted.

The eighth A and B grade is working on a school paper, called the Jo-wa-ca, which is to be on sale before the end of the term.

## RIVIERA FEATURE REVIEW

### Tonight

Tallulah Bankhead has surpassed the stories given her in her two introductory; in "The Cheat," she has a role that matches her real life self; it's the role Bankhead fans want to see her in, and one which she likes better than her inaugural effort! Irving Pichel, starred in the same picture, is on the threshold of individual stardom, as the result of a diversity of roles.

Only five days before the filming of "The Ruling Voice," was finished, director and cast were just as much in the dark as to what the ending would be as the audience waiting for the last reel to be run off. A novel arrangement was made and thus something new in an ending was evolved.

### Friday-Saturday

Ralph Graves, who plays light-hearted parts so delightfully, is cast in a natural in "A Dangerous Affair," mystery thriller with a humorous treatment. He plays a lazy and charming newspaper reporter who resorts to one wise-crack after the other. He is co-starred with Jack Holt, who enacts a role that is a perfect foil for Graves' flippant foolery.

From a standpoint of wardrobe

Bebe Daniels had no means of telling night from day while working in "The Honor of the Family," in which she is featured with Warren William and Alan Mowbray.

Many sequences were of the boudoir sort, and Bebe came to work in the morning outfitted in sleeping pajamas and a lacy negligee.

### Sun.-Mon.-Tues.

At the risk of telling the reader things that he already knows, Manager Edward C. May sets forth a few facts about "Frankenstein."

In the first place, Frankenstein was the man who made the monster, and not the monster that somebody made.

The idea of creating human life is centuries old. But the Frankenstein legend in literature is only one hundred years old.

"Frankenstein" was written by Mrs. Mary Wollstonecroft Shelley, wife of the well-known British poet. It was written in a cottage on the shore of Lake Como in a competition with her own husband and with two of his friends. The competition was to produce the most unusual story. The others all gave Mrs. Shelley the palm, and for one hundred years there has been no story as unusual as "Frankenstein."

## Announce Winner of Prize Contest For Dewey Service Station Name

"Dewey Super Service Station." This was the name selected by the new owners for the former D and C Service Station of Dewey Avenue. Of the 92 names suggested, in the contest announced in the last Courier, this was thought the best suited and therefore the winner of the 100 gallons of gasoline.

The winner is William B. Williams of 40 Bakerdale Road, who is a stationary engineer with Barr and Creelman. Honorable mention goes to O. Ludwig of 404 Ravine Avenue for the suggestion Progressive Service Station. E. S. Coy, new manager of the station wishes to thank all who wrote in suggestions for their interest in the contest.

Mr. Coy, who was formerly connected for several years with a local oil company, says that the new trend in high pressure greasing is toward a fluid grease or compound, refined directly from crude oil. This new fluid grease, as near as he can describe it, is similar to the heavy gear compound used in Summer for transmissions and differentials. Ordinary grease, he explains is not used for transmissions or differentials because it has a soap base and a consequent low breaking point and will dry and "cake" up. It also will channel or separate from the part which is to be lubricated and will not flow back to it.

## 1250 Register at Marshall High

John Marshall High School is becoming more and more crowded each year. This year is no exception, for next term will see 300 freshmen here and a total registration of 1,250. The number of first-year students is almost as great as the total registration in 1926, which was 355. Since 1926, Marshall's population has increased over 299% while the number of teachers has increased from 20 to 46, or 130%.

For next term 152 classes are scheduled, with room for only 138. To overcome this difficulty, it has been arranged that the I-1's and the I-2's will come at the beginning of the fifth period and stay for four periods, (12:50 P. M.—4:35 P. M.). They will have no physical education, and if they desire extra work, they must come in the morning for it. All other classes will remain on the same schedule as this term.

The rumor that morning pupils will be dismissed earlier than 2:30, is emphatically denied by school authorities.

## Educational Group to Meet Monday at No. 41

Parental Education Group at No. 41 School will meet for the first time next Monday afternoon at two o'clock. Mrs. F. Creedon will be discussion leader. Meetings are to be held every two weeks.

Thus, he says, it can easily be seen that any bearing or fitting lubricated with a fluid grease will withstand wear better and for a longer time than one lubricated with ordinary grease. The one-shot lubricated system has been evolved during the past two years in recognition of this fact.

In addition to using this new fluid grease, the Dewey Super Service Station has installed a new alemite high pressure greasing outfit using 200 pounds air pressure. The latest alemite control valve, with a ratio of 16 to 1 gives a minimum pressure of 3200 pounds, which can be raised to 10,000 pounds by means of a booster. This, Mr. Coy considers to be the highest minimum pressure of any outfit in Rochester, and he states that extreme pressure is necessary to thoroughly lubricate a bearing that is "set up" or "frozen"

A special introductory offer, announced elsewhere in this issue, is being made by the Dewey Super Service Station on this new type lubrication.

**Redeemer Lutheran**—Septuagesima Sunday which begins preparation for the Holy Season of Lent will be celebrated with appropriate services Sunday morning at 11 o'clock. The pastor, Rev. W. L. Dowler, will speak on the subject, "Our Full Measure of Devotion." The subject of the children's sermon will be "Becoming Disciples of Christ." The chorus choir under the direction of Miss Thankful Spaulding will sing, "Sing, O Daughter of Zion."

Ladies of the Bethany Guild will sponsor a social evening for all members of the congregation and their friends on January 28, in the Parish House. Games and contests will be enjoyed and refreshments will be served. No tickets will be sold and no prizes will be given. A nominal sum will be asked to defray expenses and for the Benefit of the Guild treasury. The committee in charge consists of Mrs. Lidfeldt, Mrs. Kress, Mrs. Lange, Mrs. Ladwig, Mrs. Liestman, and Mrs. Lewis.

The Brotherhood will hold its annual meeting next Monday evening, January 25, with Carl Knitt in charge. Final reports for the year will be given and new officers will be elected. The speaker for the evening will be announced later.

**North Presbyterian**—A combined meeting of Rochester Presbytery and the Presbyterial Society was held Monday in North Church. Rev. Cleland B. McAfee, D. D., Secretary of the Board of Foreign Missions of the Presbyterian Church, addressed the two groups.

Girls of North Church met Monday for supper, following a meeting of the Pioneer Girls in the afternoon. At the close of the supper, Mrs. Alden Clark directed the Girls' Chorus, and later two teams played basketball.

Debating teams of Grace Presbyterian young people and North Presbyterian young people are preparing for a meeting to be held in Grace Church Sunday Jan. 24, at six o'clock, when the question for debate will be: "Resolved that it is easier to live the Christian Life in the country than in the city." Grace Church team will argue the affirmative side of the question and North Church, the negative. Guests at the meeting will be Rev. William A. Hallock, former minister of Grace Church, and Dr. Paul Stratton, who supplied the pulpit of North Church during its vacancy last year.

Today at 4:30 p. m., second year junior boys will meet in the Parish House to work on a project of the junior department, a study of the Navajo Indians. Miss Edith Miller will be in charge of the work, and the boys will remain, after their work, for a bean supper.

The junior department members invite their parents and friends to attend a service Sunday, Jan. 31, in the church, at which motion pictures of the Navajo Indians will be shown and work done in the department for the past five weeks will be exhibited. Some of the work consists in the dramatizing of stories of the Navajo Indians by means of miniature theaters. The motion pictures will be shown in the Chapel, and the exhibit of work done and Navajo curios will be arranged in the Parish House.

The Sunday School Council will meet tomorrow for its regular supper conference in the Parish House with the superintendent, Miss Margaret Huck, presiding. The speaker of the evening will be Dr. Frank

A letter has just been received from the Secretary of the National Education Association in Washington, D. C., congratulating the principal on a hundred per cent enrollment of the faculty in the N. E. A., for the last seven years and announcing the mailing of a certificate showing the record. A quotation from the letter follows: "The best that has ever come for education in any nation has been developed in times of great affliction. It has come when men's hearts sorely tried by war, pestilence or famine, have looked ahead and longed for something better for the children. Perhaps the present depression which has already resulted in the worst period of unemployment and the longest bread lines you or I have known, may also quicken the vision not only of teachers but of parents in looking ahead to the interests of the children of this and the next decade."

### BOY SCOUT NOTES

Troop No. 81

Seventeen Scouts of Troop 81 and 11 fathers and committeemen enjoyed a Father and Son overnight Trip to Three Lakes in Durand-Eastman Park on Saturday and Sunday, January 9 and 10. They had a soccer game with Troop No. 35, and a hike out into the woods. They also had target practice in the basement of the Scout Lodge at Three Lakes. Fathers and Committeemen competed with the scouts in shooting .22 rifles. In the evening the men told stories around the fireplace, and four scouts, Frank Hartman, John Caister, Ben Taber and Jack Baybutt presented an Indian ceremony, "The Burial of Old Man Grouch." Assistant Scoutmaster William Hildebrand directed the players.

The cooking was done by scouts directed by Committeeman Stanley Moore. Everyone seemed to enjoy the meals.

Last Wednesday, under leadership of Assistant Scoutmasters Edward Burke and Fred Meyer, Star Scout Ralph Breary and Senior Patrol Leader Ed Brown, fourteen advancement tests were passed by various scouts. This is a new record for advancement during one evening meeting.

Lately there have been several Patrol Meetings at various homes and a few Patrol Hikes. Each patrol is working on a project. The Fox Patrol recently completed a large knot board. Grant Osborn is now Assistant Patrol Leader of the Beavers.

"Come right in," said the farmer to some motorists approaching the yard. "A barking dog never bites."  
"That's all right," replied a cautious man. "But how in heck can you tell when he is to stop barking?"

**Harrington Takes Over Dewey Avenue Store**  
The newest addition to Dewey avenue's busy business life is a young man just a year over voting age who has taken over the fruit and vegetable store at Dewey and Driving Park avenues. He is Kenneth Harrington, who developed a wide acquaintance in the ward last Summer in the ice business.

The ice business was Kenneth's first venture for himself and it worked out quite well. In place of an ice truck, he had a trailer which he attached to his touring car and used this delivery system. He built up a sizeable clientele which he will serve again next Summer, and incidentally he wants to express his appreciation to his ice customers for their continued "loyalty."

Now, however, he is devoting himself to his new business. He has changed the store around with considerable alteration and he plans to make his line as complete as possible. The formal opening under his ownership will take place Saturday.

**Mrs. Kenney Sails to Spend Year in Europe**  
Mrs. Martin Kenney of Rand street accompanied by her two daughters, Margaret and Mildred, sailed on January 8, aboard the Seythia, for a vacation, to her native Scotland. She expects to be gone a year.

In June Mrs. Kenney will join a group of friends for a three months motor tour of England and the continent. She will spend some time on the battlefields in France, where her husband served under the British flag during the late war. Later the entire party will motor to Germany, Belgium and Switzerland.

Before leaving Mrs. Kenney was entertained at a dinner party by Mrs. E. Finn. On January 4, Mrs. M. Groden entertained twelve at dinner. Later that same evening, Mrs. Groden and her guests joined a party of about 40 friends who had gathered at Mrs. Kenney's home to surprise her and wish her "Bon Voyage."

The evening was spent at cards interspersed with music and dancing. After a lunch had been served by the ladies of the party, Mrs. Kenney was presented with many gifts.

**Radio Tips, Questions and Answers**  
By H. S. RUSSELL  
The "handy man" can and does fix autos, vacuum cleaners, washing machines, etc.; but as a radio repair man he is expensive. In the case of ordinary mechanisms he can see broken or worn parts, but in a radio, good and bad parts can seldom be recognized except with the aid of meters in trained hands.

If you feel the urge to let a handy man work on your sick radio (it's just like letting him try to perform an operation on a person with a cold chisel and hammer) don't let him use a soldering iron at all (that's an art in itself in radio work); and insist that if he removes a connection or part he immediately replace it before "going on" to some other connection or part. You are going to have to call in a radio service man before your radio plays, but if you follow these instructions you will only have to pay him to fix the original trouble and not four or five additional ailments caused by the "handy man's" efforts.

Question—Why have you advised buying only standard make radio receivers and equipment. I have heard some "unknown" brands of receivers that were wonderful sounding and performing radios and that were very low in price. Aren't you prejudiced?  
J. H.  
Answer—I have also heard and operated some "non-standard" radios that were very fine, Mr. H—, surprisingly so. But—like an auto or home—it isn't the first cost—its the upkeep and enjoyment that count.

Now most non-standard makes of radios use freakish or unusual circuits and parts. All radios, no matter how well built, must (like autos or watches or electric refrigerators) have adjustments, repairs and replacements from time to time. In all good radio shops parts are carried for hundreds of models of standard make receivers. If a part is needed which is not in stock a line to the factory will quickly bring the parts; and the time your machine would be tied up and the

**Marshall High Ranks Fifth in Bowling**  
John Marshall High School is now in 5th place in the Interscholastic Bowling League but hopes to rise in a short time. Manager Kordt is high man on the Marshall team, which practices at the Lewiston Alleys. The standings in the Interscholastic League are as follows:

	W	L	Ptt	Avg.
West	8	2	12	837.3
Monroe	7	3	11	793.
Edison Tech.	8	2	12	784.7
Marshall	4	6	6	756.1

expense of replacing the part would both be reasonable.

But—if your set is non-standard, the chances of the company that built it being in business over a year or so are very slim. Your service man may not be able to secure replacement parts—and special "make-ups" are expensive in time and money. Again—the "pirate" company has no eye for the future—no reputation to uphold—and to obtain unusual "selling" performance from their products they work every part at its maximum strength.

This makes a snappy performer of a radio, but appreciably shortens its life.

## Boy Scouts to Show Handiwork In Store Windows Next Week

In connection with their celebration of Boy Scout Week, all troops of the Tenth Ward will set up exhibits in store windows in this section. Next week February 7 to 13 has been dedicated to the scouts.

Window space has been donated by seven merchants of the ward for the exhibits which will show the handiwork of members of the various troops together with other things of scout interest. The boys will arrange their windows this week-end. The exhibits will be judged by a committee yet to be named and cash prizes, given by the seven merchants, will be awarded. These window exhibits are being arranged by all troops of the Blackhawk Division of which Charles C. Legg of Brooklyn street is deputy commissioner. Joseph Lillich of Albemarle street and F. Allen Ferguson are in charge of arrangements and have had the assistance of John H. Schmanke of Dewey avenue.

Following are the stores to which troops have been assigned: No. 12 (Dewey Ave. Presbyterian Church) at Cramer's Drug Store, Dewey and Magee avenues; No. 27 (Grace M. E. Church) at Bauman and Baynes, Driving Park and Dewey avenues; No. 50 (Kodak Park) at Schmanke's Brownbilt Shoe Store, Dewey and Ridgeway avenues; No. 68 (Sacred Heart Church) at DeVisser Hardware, Dewey and Flower City park; No. 81 (Lewiston M. E. Church) at Belcher Dry Goods Store, Dewey and Lewiston avenues; No. 83 (Redeemer Lutheran Church at Wallace Medicine Shoppe, Dewey and Ridgeway avenues; No. 101 (Holy Rosary Church) Lotz Hardware, 795 Dewey avenue.

## DRAPERIES REMADE

If your draperies are beginning to look shabby and are out of style why not have them remade; or if you have your own material for new ones, we will make them for you. A telephone call will bring us to your house to give you suggestions and estimates. During February prices on this work are especially reasonable.

We also carry a complete line of drapery fabrics, curtains, curtain rods, and wall paper.

Perhaps your window shades could stand reversing or a new one here and there; we can take care of that too. Just phone Glenwood 2789. W. H. Bellinger, 1274 Dewey Ave., at Seneca parkway.—Adv.

## COMPETENCE REQUIRED

When your cherished antiques need refinishing, you naturally want a fully competent man to do the work; and if you can find such a man, who, due to low overhead expense, can quote a lower price than most other craftsmen, so much the better. ## RIVIERA FEATURE REVIEW

### Today

Family life—its joys and disappointments, its excitements, its human drama, its laughing hours—all these are presented with facile directorial touches and skilful artistic strength in "Husband's Holiday," Paramount talkie featuring Clive Brook, Charlie Ruggles, Vivienne Osborne and Harry Bannister.

Eric Linden, whose first motion picture is "Are These Our Children?" is one of the cleverest young actors in the country. For three years he was featured with the internationally renowned Theatre Guild players in New York. He is only twenty years of age.

### Friday-Saturday

Tossing a taunt to organized out-lawry, stealing a beautiful girl from under the very nose of a bandit gang, George O'Brien is said to make everyone's ideal of manhood come true in the filmization of Zane Grey's popular novel, "The Rainbow Trail."

Laid in a section of the old West where corruption was as deeply entrenched as it is in our cities today, the new film is said to teach a much needed lesson to members of the present generation.

John Gilbert makes a dashing American vaquero in "West of Broadway," his new starring vehicle.

Beginning with a glimpse of Gilbert in A. E. F. uniform, reminiscent of his role in "The Big Parade," the new offering brims with striking action and dialogue. Gilbert's characterization is most impressive.

### Sun.-Mon.

The dangerous but glamorous life of the notorious World War spy, "Mata Hari," is portrayed in the picture of that name with the sensational combination of Greta

## Tenth Warders Win in Contest

The Tenth Ward is well-represented in the list of prize winners just announced in the essay contest of the Civic Defense League. Two of the four major prizes went to local residents, first award of \$100 being won by Mabel D. Weyraugh of 177 Clay avenue and third award of \$25 by Emma T. Costich of 36 Finch street.

Ruth M. Sullivan of 71 Otis street was a winner of one of the ten dollar prizes and George V. Powers of 290 Magee avenue, Mrs. Francis Mitchell of 414 Glenwood avenue and Miss Ruth Whalen of 81 Lapham street were five dollar winners. Among the many merchandise winners was Walter Herring, clerk in Bauman and Baynes, who found little difficulty converting a bunch of bananas into cash at his place of employment.

## Benefit Card Party For Scout Troop 81

A card party for the benefit of the Boy Scouts of Troop No. 81 is planned for Wednesday, February 17, at 8 p. m., in the Lower Tenth Ward Republican Club Headquarters, 461 Lewiston avenue. Bridge pinocle, and possibly other games will be played, and there will be a suitable door prize. Tickets are 35 cents and may be obtained from any of the scouts.

The party is being arranged by mothers and wives of Scouters of the troop. They have had two meetings, and will meet again on February 11, to make final arrangements.

## Parent-teachers to Have Costume Party

The Parent-Teachers Association of No. 34 School will have a Depression Costume Party on Thursday, Feb. 11 at the school. Prizes will be awarded.

## Kenny Now Showing Radio Telektron

Many notable advances in radio are incorporated in the new Stromberg-Carlson Telektron remote control radio systems, says Gerald C. Kenny, local dealer.

With this system, by means of push-buttons in small control boxes, one may (from any or as many parts of the house as desired) start or stop an automatic record changing phonograph at the same time switching from radio to phonograph or vice versa; tune silently and automatically to any of eight favorite stations; tune silently and visual meter tuning to other stations; adjust radio and phonograph volume, switch any of four loud speakers "on" or "off" and switch off radio, loud speakers and phonograph all by one button.

An additional guide to aid in tuning is furnished by pilot lamps on the control boxes. These brighten up when the desired station is tuned in. The new Telektron is on display at Kenny's store, 1476 Lake avenue, where further details are available.

## Ledlie Library Adds Many New Volumes

A number of new books have been placed in the Ledlie Circulating Library at 842 Dewey avenue: Mixed Marriage, Path to Paradise, Bargain Basement, Mr. and Mrs. Pennington, Lucy Anderson, City Girl, All in Love, Man at the Carlton, That American Woman, Silver Pride, End of Desire, Man from Sing Sing, From the Dark Stairway.

Week-end Marriage, Time of Gold, Honeyflow, Two People, Mulberry Square, Dance Team, Tonight or Never, Working Girl, The Prophetic Marriage, Sunset Pass.

The Champ, Among Those Present, Murder at High Tide, The Devil and the Deep Sea, Amy, Forbidden, Lady with a Past, One Man Woman, Youth Rides Out.

## New Sign Erected at Johnston Bakery

Erection of a new sign at the H. A. Johnston Kleen Bakery on Lake avenue was completed last week. It is a heavily lettered name-plate with an outline in red neon.

The sign extends across the entire front of the store, which is directly opposite the bridge approach, and is visible from the new bridge.

## GOOD ADVICE

It will pay you to get expert advice if your radio is not operating up to the usual standard. Your set may need repair or it may just need tubes. In either case you can be sure of satisfactory service from J. C. Harrigan, 1456 Dewey avenue. Phone Glen. 4352. Open evenings.—Adv.

## Shamrock to be Decoration for Republican Dance

A profusion of shamrock appropriate to a St. Patrick's Day party will form the decoration feature of the ninth annual dance and entertainment to be staged by the Tenth Ward Republican Club on March 17 at Edgerton Park assembly hall.

Edward A. Kraus, chairman of the program committee, has announced that the year book this year will exceed all previous efforts. It contains advertisements of leading merchants of the city and county, the program of events, a short outline of Tenth Ward Republicans, and pictures of prominent Republican leaders of the city and county, and is given away to those who attend.

Plans are being made to entertain more than 3500 persons at the Dance and Entertainment. Councilman Nelson A. Milne, chairman of the ticket committee, has announced that over 4,000 tickets have been distributed to members and that a spirited campaign is being conducted this year to outdo all former records.

Sherman Pierce reports that this year's entertainment is going to be a well-balanced and enjoyable presentation. He says that the committee is hard at work getting the program of entertainment together and several prominent theatrical stars have already been engaged to take part.

Committee chairmen are as follows: Tickets, Councilman Nelson A. Milne; program, Edward A. Kraus; publicity, Donald N. Morris; entertainment, Sherman Pierce; refreshments, Frank O'Brien and Fred E. Clark; music, Mrs. Richard Saunders; printing, Claude Burnett; favors, Mrs. Harriet Wadman; decorations, Mrs. Bertha Bush; door, John E. Shearer; ushers, Joseph G. Schnepf; floor, Mrs. Frances Thomson and John Makin; checking, Frank Lane and Clarence Piehler.

**LIPSKY—LEICHTNER**

The marriage of Miss Pauline Leichtner, daughter of Mr. and Mrs. Jacob Leichtner, of Bernard street, and Abraham Lipsky, son of Jacob Lipsky of Flower City park, took place January 17 with Rabbi Solomon Sadowsky performing the ceremony.

The bride was attired in a gown of Empire blue Crepe with a hat to match. She wore a shoulder bouquet of gardenias. Miss Anne Lipsky was maid of honor and wore a frock of gold crepe trimmed with rhinestones. She wore a hat and slippers to match and a shoulder bouquet of talisman roses.

William Leichtner was best man. The bride's mother wore black crepe romaine and a shoulder bouquet of red roses.

Following the ceremony a dinner was served to the immediate families at the home of the bride.

Mr. and Mrs. Lipsky left for a trip to Miami and Orlando.

**Red Star Yeast Celebrating 50th Anniversary in Business**

With the advent of 1932, the Red Star Yeast and Products Company enters into its 50th year of uninterrupted service to the baking and grocery industries. Founded in 1882 at Milwaukee, Wisconsin, this company which is strictly independent and not affiliated with any other yeast companies, has grown and expanded until the distribution of Red Star Yeast now reaches forty states.

As Compressed Yeast belongs to the plant kingdom, it is not manufactured in the usual sense of the word. Instead, it is "grown," and its production requires extensive equipment and apparatus, all operating under exact automatic control to prepare grains for feeding of yeast, to stimulate the propagation of growth, and to shape and wrap the finished product into a marketable package.

Being plant life, it can readily be appreciated that the quality of compressed yeast depends largely upon the conditions under which it is grown and the kind of food it consumes during growth. Red Star Yeast is grown exclusively from the choices of selected grains thereby assuring its uniformity, purity, and dependability.

The factories of the Red Star Yeast & Products Company are among the largest and most modern type of yeast plants in the country, designed and equipped with the latest machinery that makes it possible to produce compressed yeast under the most sanitary conditions. Company Branches located in many sections of the country provide a reliable delivery and distribution system that assures a fresh supply at all times and under all conditions. Each day a host of carefully selected representatives make personal delivery via fleets of auto trucks to thousands of bakeries and groceries in many cities, towns, and villages. Many others are supplied by frequent parcel post and express shipments.

Compressed Yeast, of course, is a perishable product, however, exact production control at the plants, daily shipments to all Branches, and ample refrigeration both in storage and enroute, is employed to make certain that yeast is absolutely fresh when delivered to the trade.

Upon entering their 50th year, the Officers and Representatives of the Red Star Yeast & Products express sincere appreciation for the patronage of their many thousands of

friends in the baking and grocery industry, and renew their pledge to continue to market Red Star Yeast under the most exacting requirement—that it be made of the highest possible quality—regardless of production cost, and sold under a Profit Sharing Price Dividend Policy.

**Radio Tips, Questions and Answers**  
 By H. S. RUSSELL

My customers often ask me what governs the life of tubes in a radio receiver, why one radio will use up a set of tubes in six to eight months while another make or model will perform well on a set of tubes for as many as 18 months, the various receivers of course, being operated approximately the same number of hours per month. Here are the answers.

One of the elements of the tube known as the "cathode" gives off a cloud of electrons when heated to a certain temperature. These electrons are forced into a current flow through the tube which permits the tube to "play."

Now the cathode and its electrons might be likened to a pan of water on a gas range. When you heat the water to a certain temperature it gives off a cloud of steam; when you heat the cathode in a radio tube it gives off a cloud of electrons. The hotter the blaze under the pan of water, the quicker the water is converted into steam and used up; the greater the heat applied to the cathode of the radio tube the faster it gives off electrons and the faster it is used up.

The reason, therefore, that certain radio receivers are "hard" on tubes is that they apply too much heat to the cathodes of the tubes. They do this through their transformers which feed the heating elements in the tubes too high a voltage.

A good service man can remedy this condition in any standard receiver, either through adjustments which are provided in the receiver transformer or by placing a suitable resistance in the 120-volt lead in to the receiver. You may wonder why these adjustments weren't made by the manufacturer and I'll answer this question in my next write up.

### THE INDEPENDENT FORUM Our Disappearing Middle Class

This is one of a series of articles by Walter F. Cherry, secretary of the Rochester Civic Defense League.

Facts, gleaned from Federal Income tax returns, clearly indicate that the middle class is disappearing from American Society. Here are some facts that will make you think.

In 1921 there were about six and a half million Americans who reported incomes up to \$10,000. There were 172,000 who reported incomes in excess of this amount. Eighty per cent of the taxable income was made by the six and a half million and 20 per cent was made by the 172,000 wealthy.

In 1928 the six and a half million people who received incomes up to \$10,000 a year were reduced to 3,675,000. This group, which constitutes our middle class or at least the major part of it, shrunk in numbers by nearly three millions. The other group, having the larger incomes, increased in numbers by 200,000. In 1928 the incomes received by the middle class constituted less than 50% of the total reported whereas in 1921 it had been 80%. The income of the upper group, increased to 50% of the total from 20% in 1921. To put it a little differently, in 1928, three tenths of one per cent of the people received more than one half of the reported income of the nation.

Over this period from 1921 to 1928 the middle class, in addition to shrinking in numbers sustained a loss of reported income amounting to 3 1/2 billion dollars. The wealthy group, at that same time, increased their income by 8 1/2 billion dollars. Or while the rich were getting richer, the poor were getting poorer.

While the mass of the people are having their income reduced, billions of dollars of surplus wealth is piling up for the less than 400,000 people. Two thousand people own half our national wealth.

The result of this concentration of wealth is that the mass of the people do not receive enough income to buy the normal output of our factories and farms. In seven years their purchasing power dropped 3 1/2 billion dollars. This caused overproduction. Unemployment and the depression followed. The reason—concentration of wealth. It is an inescapable fact.

One major cause of concentration of wealth is the chain store. A chain of 15,000 stores takes a little from each and concentrates it so that one man receives the bulk of \$30,000,000 profit. Opposed to this system is the Independent Merchant and business man. This system distributes wealth, breaks up concentration and promotes prosperity.

Scouts of Troop 81 are all busy this month getting ready for a Troop Court of Honor which is planned for the first week in March. Scoutmaster William Bevan of Troop 36 and six of his American Red Cross assistants recently spent an evening giving Troop 81 instruction in First Aid. They will pass the Scouts this week if they are prepared for these tests. Last Saturday afternoon fifteen Scouts and three Scouters of the troop went to the Municipal Museum in Edgerton Park, where Mrs. Robert F. Barry gave them some interesting lessons in the studies of birds and of rocks.

At the home of Senior Patrol Leader Ed Brown there was a meeting of Patrol Leaders, Assistant Scoutmasters, and Scoutmaster on January 25. The next meeting of the Troop Committee will be at the home of William Turner on February 8.

The scouts greatly enjoy seeing themselves in the movies. Short motion pictures have been made while they were out on three trips since last summer.

**Many Industries Get Work in Shoe Trade**

Returned from St. Louis where he attended the annual convention of the Brown Shoe Co., John Schmanke is optimistic regarding the outlook in the shoe industry and particularly in the organization with which he is affiliated.

The manner in which the shoe industry affects other businesses especially impressed Mr. Schmanke. Huge quantities of cattle for leather, of linings, hooks and eyelets, laces, cement, nails binding and card board for boxes are required every day, he states.

Mr. Schmanke says that the Brown Shoe Company has 19 plants devoted exclusively to tanning leather, making shoes and selling them, and occupies 44 acres of floor space. The daily production is 65,000 pairs or at the rate of 135 pairs of shoes per minute. The services of 10,000

**Chamber Asks Lower Budget for State**

Asserting that the budget for state expenditures proposed by Governor Roosevelt on January 12 "assumes that a policy of expansion in the services and equipment of the state voted in a period of prosperity must continue uninterrupted during a period of depression," the Rochester Chamber of Commerce has issued an appeal that the state legislature this week revise that budget "downward with the view of balancing it without adding new taxes or increasing present ones."

This and additional recommendations pertaining to the state's budget have been dispatched to Governor Roosevelt, Monroe County senators and assemblymen. They also were sent to chambers of commerce and other civic organizations throughout New York State, suggesting the desirability of putting their views into tangible form and instructing the legislature of their sentiment.

The Chamber in its statement further recommends:

That statutory pay increases be held in abeyance until economic conditions improve;

That every department be compelled to reduce materially its current operating expense;

That proposed new construction projects be postponed;

That the present schedule of tax exemptions of various kinds be revised to increase the number of taxpayers;

That at least thirty days elapse between the presentation of the budget and its adoption to enable interested citizens and organizations to study same and make their views known.

The Rochester Chamber Committee on State Taxation, which has for many months been making an intensive study of the situation, declares in its statement just issued, it "believes that the essential aim in the presentation of the present budget should have been to balance it by cutting down expenditures rather than by seeking new ways of taxing the people. That the Governor did not have this viewpoint is proven by the fact that the proposed decrease in expenditures during the fiscal year from July 1, 1932 to June 30, 1933, is only 16 million or 5% while the proposed increase in taxes for the same period is 106 million or about 50%."

It continues in part: "The Executive budget—fails to put into practice certain universally recognized economies which industry, commerce and private individuals have been compelled to adopt in order to survive—"

"This budget assumes that a policy of expansion in the services and equipment of the state voted in a period of prosperity and plenty must continue uninterrupted during a period of depression. It seems certain that if the tax-payers were asked today to choose between heavier taxes resulting from increased public expenditures as against lower taxes through tightening the public purse strings they would choose the latter alternative. It also should be pointed out that though bonds have been authorized, they need not necessarily be issued.

"In the new taxes suggested no effort is made to increase the number of taxpayers by reducing or eliminating arbitrary exemptions of various kinds. The Governor simply recommends doubling the income tax, doubling the motor fuel tax and doubling the stock transfer tax. Whichever way the taxpayer turns he finds his tax load doubled at a time when his cry is to be relieved of some of the load he is now carrying."

people are required. The skins of 19,850 animals are used daily, plus enough lining to stretch seven miles, 40 miles of laces, 850,000 hooks and eyelets, enough thread to reach from St. Louis to San Francisco, tons of nails and 133,000 square feet of chip board for boxes.

### FATHER OF HIS COUNTRY

Next Monday, throughout the length and breadth of the land, citizens will unite to pay homage to our first president. That day will mark the 200th Anniversary of Washington's birth.

His attributes were those of a man, a patriot and a statesman. He qualified superbly and in the highest sense for each of these honors and it is for this, if nothing else, that Americans look up to him.

More and more, as time goes on, we come to honor and respect him, and the principles for which he stood are deeply engraved in the hearts of American manhood.

Several of them must swim 50 yards in order to complete their First Class Requirements for advancement at the next Troop Court of Honor. Next Saturday the troop will go to Tayhouse, near School No. 1 on Cobb's Hills for an all-day hike.

The regular weekly meeting of the troop is being held Thursday evening instead of Wednesday this week account of the Benefit Card Party last evening.

All people interested in the Boy Scout Movement are invited to attend a Court of Honor for Troop 81 at 8 p. m. on Thursday, March 3, in the church at 456 Lewiston avenue.

Dr. James E. Rose, pastor of Mt. Olivet Baptist Church (Colored), will deliver an address on "What Scouting Really Means." ## Jeweler Campaign On Next Week

In an effort to develop a greater "watch consciousness" jewelers throughout the country have set aside next week, beginning February 24, as National Watch Cleaning and Jewelry Repair Week. Local jewelers are co-operating with appropriate window displays and advertising.

Here are eight points watch owners should remember which are being stressed by the jewelers.

Your watch needs cleaning once a year.

It should be inspected by the jeweler every six months.

Water is not good for the movement.

Shocks and jars to your watch should be avoided.

The watch should be wound up regularly, preferably each morning at the same time.

The watch should be attached securely to chain or wrist straps.

It should be used as a timepiece and not as a hammer or paperweight.

A watch with ordinary care will last indefinitely.

## RIVIERA FEATURE REVIEW

### Tonight

Hollywood "extras" are base participants of big, showy and fashionable "party" scenes, but old-fashioned barn dances are something else again.

The biggest barn dance given in Hollywood for years, with good edible (not prop) food and excellent pay for all "guests," figured in "Way Back Home," Seth Parker's RKO-Radio Pictures' starring vehicle.

Charles "Buddy" Rogers, America's boy friend, opened up with a new, more realistic brand of acting in "The Lawyer's Secret" and "Working Girls." He is even more intriguing as the son and lover in "This Reckless Age" Charles Ruggles, who has been a bachelor in film after film, and an amusing one at that, is a bachelor again in this picture—even more amusing, and he gets married, right before your eyes.

### Fri.-Sat.

Norma Shearer and Robert Montgomery join in a novel duet in "Private Lives."

Miss Shearer sings for the first time in pictures, rendering "Some Day I'll Find You." As the scene opens on a hotel balcony, Montgomery is whistling the song. As he whistles, Miss Shearer emerges on an opposite balcony and starts to sing accompanied by Montgomery's whistling.

Theatergoers are beginning to ask themselves if Helen Chandler will not be the screen actress to take the place vacated by Lillian

Gish. And a survey of the entire field of filmdom seems to indicate that they are right. Miss Chandler gives a fine performance with Walter Huston in "House Divided."

### Sun.-Mon.-Tues.

Fredric March, famous stage and screen star, plays the difficult dual role of "Dr. Jekyll and Mr. Hyde" in Robert Louis Stevenson's weird story of man's dual nature.

March joins a long line of famous actors who have portrayed the character. Richard Mansfield first enacted the part on the stage in Boston in May, 1887. The play continued to be a popular melodrama, Henry B. Irving presenting a new version in 1910.

"Under Eighteen," is the first starring vehicle for seventeen-year old Marian Marsh, most notable screen discovery of the year. Miss Marsh, who is known wherever pictures are shown, was a Los Angeles schoolgirl less than twelve months ago. An older sister brought her to the studios for a test which proved satisfactory.

### Wed.-Thurs.

Slim Summerville and Zasu Pitts. That is the star-spangled combination of laugh experts that Universal has placed together for the first time in "The Unexpected Father."

One of the most carefully selected and talented casts to reach the screen in recent months is to be seen in "Men of Chance." Mary Astor, Ricardo Cortez, John Halliday and Ralph Ince are only a few of the veteran performers to be seen in the production.

## Radio Tips, Questions and Answers

By H. S. RUSSELL

Continuing our discussion of why Radio tubes burn out and why some radio receivers can use up a set of tubes so much faster than other receivers, I'll try to give some of the reasons why the adjustments and alterations necessary to produce long tube life are not made in the radio when it is being built at the factory.

Let us first divide the manufacturers into two classes—the first class the get-rich quick type, builders of "gyp" radios, with no reputations to uphold and no desire to build them. These manufacturers don't care if your tubes "last" or not, provided they live through the guarantee period.

The second class of manufacturers, builders of good instruments, with good reputations, do have the users' interest at heart. They are confronted, however, with a difficult condition, or conditions.

Most power companies throughout the United States light the homes of their customers with alternating current of 110 volts. This is the standard. (A few sections use 220 volts A. C. or 110 volts A. C. 25 cycles or 110-220 volts D. C.) Unfortunately for radio owners this standard is not always maintained. Some communities get only 90 volts, others as high as 135 volts, while still others (and these are the most unfortunate) have their house current constantly varying between these limits. These varying conditions punish a radio severely—the "low" voltages causing it to operate with poor tone and volume and the high voltages overloading and overheating it.

This, then, is the condition the manufacturer faces. He must build a model to sell and operate in all parts of the United States, at an average of 110 volts 60 cycles A. C. (special models are built for the aforementioned unusual A. C. and D. C. voltages and A. C. cycles). One town has a high voltage lighting system, say 130 volts; the next town may have a system giving 100 volts and the third town may vary all the way between.

This is certainly a problem for the manufacturer. If he builds a receiver to sell at a good price he can afford to put a regulating switch in the power pack. This switch is "set" to operate the receiver safely and correctly on the voltage in the customer's home. But it must be discouraging to conscientious manufacturers to find many of their receivers installed without this important adjustment being made by the dealer at the time of sale, either through disinterest, ignorance or both.

If the manufacturer is forced to build a very low priced receiver to meet competition he probably will omit this switch and simply build his radio to combat average conditions. Should such a radio be sold in a district having unusually high voltage house current the life of the tubes and parts of that radio will be comparatively short.

So you see many things control tube life. Good tubes only should be used, and the radio they are used in should be adapted by power pack switch adjustment (or line resistor

## James C. Corbett Funeral Home

This is the funeral home of James C. Corbett, located at 523 Lake avenue, in one of the most beautiful residences on that street. Although originally built for a private home, its dignity and spaciousness make it well suited to its new use. Mr. Corbett, for six years, had been located on Chili avenue, but due to deed restrictions was forced to seek a new location last summer. A careful search of the entire west side

of the city resulted in his choice of the Lake avenue home. Since purchase of the home last August, Mr. Corbett has made a general re-arrangement of the rooms to conform to the requirements of a modern funeral home. A mortuary and three private funeral rooms are among these improvements. Beyond that the new quarters fitted the needs of a new type funeral home ideally.

## THE INDEPENDENT FORUM

The Sanctity of Greed

This is one of a series of articles by Walter F. Cherry, secretary of the Rochester Civic Defense League.

Discussing the very familiar chain store question, one of the chain store defenders asserted that it was every man's right to make the most of his abilities. If, through superior methods, he is able to build up a great chain of stores he is doing no more than exercising his right as an American citizen. If this organization crushes others who are less fortunate, that is a sad affair; but after all nothing can be done to help matters without infringing upon the chain store magnate's divine right of getting as much for himself as possible. On the basis of this argument, this precious right is a holy thing that governments should maintain inviolate, even though extreme use of that right results in the elimination of an entire class of people.

This argument presents the question of just how far our government should go in upholding this right. A man with one good store should be able to derive a modest living from it. If he has two stores his income should be twice as great and if he has three he obtains an income three times that of the man with a single store. It would seem reasonable that a man with three stores should be content, but usually the third store only serves to create an ambition for more and more until we find him operating a hundred or a thousand or fifteen thousand. He is exercising his American right of getting all that he can, and, off hand, we say that he is justified.

The other side of the picture, however, makes us doubt the wisdom of giving any man such uncontrolled privileges. If he could operate one hundred stores without interfering with the rights of others no fault could be found. The fact is, however, that there is a limit to the number of stores that any one community can support; that means that there is a limited number of opportunities for merchants. If a community can support two hun-

dered merchants there is opportunity for that many individuals to live moderately. If, however, one man operates one hundred of these stores, he is depriving ninety-nine others of a chance to make a living as merchants. The chain of one hundred stores means wealth to its owner but it means a loss of livelihood to 99 others. But that is not all.

The chain is not satisfied. It must have more stores, and to obtain them it starts cutting prices. The chain owner can afford to lose money on many of his stores because others, located where competition is not so great, will make it up. By waging price wars against 100 competitors who remain, the chain can slowly but surely drive them out of business, and as they are eliminated the chain adds more and more stores.

Those who criticize are told that this is America where every man is entitled to make as much as he can. The irony of it is, however, that man who has profited from the exercise of this privilege has used his right to prevent others from enjoying the same right. Having obtained size and wealth the chain uses it to prevent the small man from even earning a modest living. Having made the most of its opportunity it uses its power to deny opportunity to others.

When protest is made against this system we have the retort that it is the chain's right. Since the American public sees no wrong in giving any man such a right, would it not be at least fair to make the chain pay something for it? Should it not be asked to pay a fair tax for this privilege which enables them to roll up great fortunes for themselves while crushing others? If it is their right to operate thousands of stores, should they not be asked to pay some fee for depriving thousands of others of their chance to operate one?

A chain store tax bill, known as the Moran Bill has been introduced in Albany. All fair minded citizens should support it.

## Many Prizes Will Be Given Away at Republican Dance

Twelve women will be given orders for permanent waves as novelty prizes at the ninth annual St. Patrick's Day dance of the Tenth Ward Republican Club in Edgerton Park Assembly Hall Thursday evening, March 17. In addition, every woman attending the affair will be given a ticket entitling her to beauty work.

Optimistic reports on ticket sales come from Councilman Nelson A. Milne, chairman of that activity. A prize goes to the individual selling the most tickets.

Sherman Pierce, chairman of the entertainment committee, says that theatrical stars will contribute towards the entertainment. A decoration scheme in harmony with the Shamrock will be used according to Mrs. Bertha Bush, chairman of the decoration committee.

Councilman Joseph L. Guzzetta is committee chairman; secretary, Joseph H. Bush, and treasurer, Merton J. DeWitt. Charles E. Bostwick is honorary chairman. Other chairmen are: tickets, Councilman Nelson A. Milne; program, Edward A. Kraus; publicity, Donald N. Morris; refreshments, Frank O'Brien and Fred E. Clark; music, Mrs. Richard Saunders; printing, Claude Burnett; favors, Mrs. Harriet Wadman; decoration, Mrs. Bertha Bush; door, John E. Shearer; ushers, Joseph G. Schepp; floor, Mrs. Frances Thomson and John Makin, and checking, Clarence Pichler and Frank Lane.

### COMPETENCE REQUIRED

When your cherished antiques or any piece of furniture, for that matter, need refinishing, you naturally want a fully competent man to do the work; and if you can find such a man, who, due to low overhead expense, can quote a lower price than most other craftsmen, so much the better. Try Jack Fogg, formerly of Hubbard, Eldredge & Miller, 77 Primrose St. Glen. 1345-J.—Adv.

### DRAPERIES REMADE

If your draperies are beginning to look shabby and are out of style why not have them remade; or if you have your own material for new ones, we will make them for you. A telephone call will bring us to your house to give you suggestions and estimates. During February prices on this work are especially reasonable.

We also carry a complete line of drapery fabrics, curtains, curtain rods, and wall paper.

Perhaps your window shades could stand reversing or a new one here and there; we can take care of that too. Just phone Glenwood 2789. W. H. Bellinger, 1274 Dewey Ave., at Seneca parkway.—Adv.

## Ridgemont Club Has 50 Tables at Bridge

### Three-Yolk Egg is Unshelled Here

A good baker's dozen of eggs was recently passed out inadvertently by James Sullivan of the Boston Delicatessen in Dewey avenue. The customer was honest enough, for he brought back the "extras" which were none the worse for a little frying.

It developed, however, that Mr. Sullivan had counted right as far as shells were concerned, but if he had x-rayed his eggs he would have found one with three yolks. The customer had broken the triple-header in the frying pan before noting its uniqueness.

A call to a local newspaper evoked the information that as far as the records are concerned, there never before has been a three-yolk egg. Needless to say this freak egg has drawn considerable attention locally and perhaps might not be a bad one to submit to one of the "believe-it-or-not" editors.

### Attorney to Address Republican Women

Abraham Eddlestein, attorney, will be the speaker tonight at the regular monthly meeting of the Tenth Ward Women's Republican Club in the clubroom on Driving Park avenue. His subject will be "Women and the Law." A social hour will follow and refreshments will be served.

A membership drive is now under way with two teams, captained by Mrs. Clarence Bragg and Mrs. Sydney Sheers. The regular Wednesday afternoon card parties are being continued.

## MacSweeney Places Ban On Luxuries

Local merchants were greeted last week by another innovation in the regime of Leo A. MacSweeney, Commissioner of Charities. Each received a notification that hereafter poor orders from the City are to be honored for certain specified items and no others.

It has been reported that many people were using their poor orders for luxuries which are outside the requirements of "necessities." Also there were complaints that prices charged by the merchants in some cases were comparatively high.

Mr. MacSweeney hopes to remedy the whole situation. A complete list of commodities which can be given out on the poor orders together with the maximum price which is to be charged for each item is now in the possession of each merchant. Any violation will carry a penalty.

## Jackson Announces New Books in Library

The following new books were added last week to the Jackson Circulating Library, 325 Driving Park ave.:

Master of Choas, Bachelor; Golden Years, Gibbs; Peril at End House East of Singapore, Parkman; Against the Sky, Bercovici; Tumblewood, Mulford; Fighting Hearts, Dorrance; They Call It Sin, Eagan; Promise You Won't Marry Me, Forbes; First Fiddle, M. Jackson; Lap of Luxury, Ruck; Tropic Night, Nicholes; S 54, by Ellsberg; Three In a Bed, Williams.

Strange Ave., Kelly; Free Lady, Strange; Gun Girl, Weld; Desert Lure, D'Esne; White Pants Willie, Davis; Silver Linings, Good Times, Hueston; Est. of Madam Antonia, Georgia, and Silver Bride, Ethel M. Dell.

## Wallace Places Electric Clock in Store Window

A new electric clock was added last week to the window of the Wallace Medicine Shoppe at Dewey and Ridgeway avenues. It is outlined in neon and is visible night and day from both sides of Dewey avenue. Mr. Wallace plans to use the mantel-shelf on which the clock stands for displaying his merchandise specials from time to time. He is advising his customers to "watch the clock."

## Dewey Rails Not Unusual Hazard Says C. R. Barnes

An investigation of the Dewey avenue street car tracks in the section between Driving Park and Dewey avenues by engineers of the New York State Railways indicates no especial need for a change in type of rail, according to announcement of Charles R. Barnes, commissioner of Railways.

The public hazard created by the street car rails was brought out editorially in The Courier last November. It was stated that the rails, which are of the shoulderless "T" type, occasioned more than ordinary skidding hazard to automobiles and the frequent accidents from this cause were cited. Subsequently, the Commissioner promised an investigation upon the basis of which he makes his announcement.

However, Mr. Barnes stated that, when it becomes necessary to re-lay the tracks, the shoulder-type rail, which is in use in all except a few lines in Rochester, will replace the present type. The section of track in question is still in good condition, he states, and just when it might have to be re-layed he would not venture to predict.

## Ask Traffic Signal Change on Lake Ave.

The newly formed Upper Lake Avenue Improvement Association has decided to ask for a change of location of the traffic signal light on Lake avenue at Emerson street. At a meeting last week, it was voted to seek a change from Emerson street to Phelps avenue.

It was pointed out that the lights would be a greater aid to more school children at Phelps avenue than at present. Ivan W. Cass and Morris Lewis were appointed a committee to confer with city officials and if possible to arrange for the change.

### CORRECTION

The item "Facials 55c" in the advertisement of the Tenth Ward Beauty Parlor in the last Courier was intended to be priced at 75c.

Come to see our beautiful selection of dresses, coats, hats, hosiery, and lingerie. Dresses priced from \$3.95 to \$12.75. Hats \$1.88. We also feature Nazareth uniforms. La Belle Apparel Shoppe, 1517 Lake avenue. Open evenings.

## RIVIERA FEATURE REVIEW

### Tonight (Last Times)

While rollicking comedy is the dominating note of "Stepping Sisters," romance is one of the features of this production.

The most important roles are portrayed by Louise Dressler, Minna Gombell and Jobyna Howland, who appear as former queens of burlesque and find themselves on various rungs of the ladder of society.

Dorothy Mackail has the lead in "Safe in Hell." This sensational play gives her a role of deeply emotional character and semi-tragic ending. She subtly interprets the pathetic Gilda Carlson—a servant girl betrayed by her employer, turned into the streets and finally corralled on an island inhabited by refugees from justice.

### Friday-Saturday

Leo Carrillo, whose art is a perfect thing and whose personality is without imitators; Constance Cummings, one of the Wampas Baby Stars; Robert Young, the new leading man everyone is talking about, and Boris Karloff, whom they say is being groomed to fill the place left vacant by Lon Chaney's death, all star in "The Guilty Generation."

"This Is New York," a play by Robert E. Sherwood, will be seen in its movie version, "Two Kinds of Women." The cast is headed by Miriam Hopkins, Phillips Holmes, Irving Pichel and Wynne Gibson.

### Sun.-Mon.-Tues

With James Dunn and Sally Eilers in "Dance Team" are Minna Gombell, who played with them in "Bad Girl," Edward Crandall, Nora Lane, Claire Maynard and Ralph Morgan.

For weeks Dunn and Miss Eilers took daily lessons in ballroom dancing under the tutelage of Charles Mosconi of the well known Mosconi Brothers, as many of the actual scenes of the new film are laid in various public dance halls.

**Church News**  
North Presbyterian—On Sunday T. C. Forester, superintendent of the Rochester School for the Deaf, gave an interesting talk on the work of the school, and one of the teachers, Miss Evans, with a group of little children, gave a demonstration of the teaching methods. On Monday evening, the girls of North Church entertained about fifteen of the girls from the School at a supper party; following supper, games were directed by Miss Allene Hoesterey, and the evening closed with a basketball game between the girls of the School and the North Church girls, with a score of 53 to 14 in favor of the School for the Deaf.  
Meetings of the North Church young peoples' group promise to be interesting for the month of March; speakers are announced as follows: March 6, Rev. D. Seldon Mathews, of the Church of the Master; March 13, Miss Ethel M. Dunn, of the faculty of Jefferson Junior High School; March 20, Rev. John W. Laird, D. D., of Brighton Presbyterian Church, who will speak on "The Place of Youth in the Church of Today"; March 27, 8 a. m., Easter Breakfast meeting, with the minister, Rev. Robert Findlay, bringing the message. The young peoples' group meets in the Parish House every Sunday at 6:30 p. m.  
March 6, North Church will have a "Day of Dedication" when its members will re-dedicate themselves and their gifts to carry on the work begun in February, 1884, the date of the organization of the church. During the morning service there will take place a "witness to pastorates" when the roll will be called of those who have served as ministers, and the members who united with the church during the various pastorates will be asked to stand.  
The Glenwood Circle will meet today at the home of Mrs. R. W. Sabin, 172 Fulton avenue, with Mrs. M. M. Finch as assisting hostess. The Erie Circle will meet with Mrs. J. T. Beldue, 240 Curlew street.

**Redeemer Lutheran**—The Fourth Sunday in Lent will be celebrated with appropriate services Sunday morning in the Lutheran Church of the Redeemer when the pastor, Rev. W. L. Dowler, will speak on "The Glory of Christ's Passion." The children's sermon will be based on the story of "The House with the Golden Windows."  
The chorus choir of forty voices, under the direction of Miss Thankful Spaulding, with Miss Evelyn Anderson at the organ, will sing "Trust in the Lord."  
The Bethany Guild will hold its monthly meeting this evening with the president, Mrs. W. J. Ohlrich, in charge. Mrs. Mina Hamner is the hostess in charge of the committee serving the refreshments.  
The monthly meeting of the Church Council will be held this evening at 8 o'clock.  
The young people's Confirmation class is now holding meetings every Tuesday and Friday evening at seven o'clock in preparation for the Palm Sunday Confirmation. ## R. S. T. Mayonnaise on Sale at Independents

Five years ago Hyman Aroesty made his first mayonnaise under his own label "R. S. T." He started selling it in his own store and soon had a growing circle of users. Constantly improving and developing his formula, the circle of users spread out and he placed it in a few stores other than his own. Today it is on sale in hundreds of Rochester independent stores.

The present R. S. T. Mayonnaise is the result of experimentation over these years. Mr. Aroesty has been aided by some of the leading chemists in the country, particularly those of the Mellon Institute of Pittsburgh. A formula has resulted which eliminates the oily taste common to mayonnaise. Good mayonnaise must naturally include pure ingredients and also must be fresh, according to Mr. Aroesty, and this is the principle upon which he has worked.

Among the many users is Mrs. M. Mallory of 338 Electric avenue who advises others to "just sample R. S. T. Mayonnaise as I did and you will be pleased."

The most powerful mixer made is used in the manufacture of this product. Increased sales have compelled the installation of one of the new-type Hobart mixers with a capacity many times that of the machine previously used by Mr. Aroesty.

This mayonnaise is available at the following Tenth Ward stores: Eastman Grocery, Ester's Market, Fred's Market, Harrington Fruit Store, Hunt's Bakery, Hiller Grocery, Hewer Market, Kirby Quality Market, Listman Market, Meyer Grocery, Meyerhoff Bros. Market, Beck's Fruit Store, Paul's Market, Proesano Grocery, Pullman Market, Pine Tree Creamery, Rogers IGA Grocery, Schaeffer Bros. Market, Wagner IGA Grocery.

When your cherished antiques or any piece of furniture, for that matter, need refinishing, you naturally want a fully competent man to do the work; and if you can find such a man, who, due to low overhead expense, can quote a lower price than most other craftsmen, so much the better. Try Jack Fogg, formerly of Hubbard, Eldredge & Miller, 77 Primrose St. Glen. 1345-J.—Adv.

as follows: Ruth Rockcastle, Rose Scorsine, Thunelda Eichel, Hope Christoff, Virginia Brasch, Thelma Twardokns, Florence Christoff, Jean Bernhard, Janette Rintoul, Elmer Jacobs, Lois Heintz, Helen Long, Norma Plummer, William Garlick, Rita Hafner.

Miss Stamp's 6A and 6B Grade had perfect attendance for two of the first four weeks of the present semester.

The latest contribution to the Science Room is a chart made by Miss Fritz's 3A and 3B Grade. In connection with the study of birds' nests, David Amo brought in the nest of a gold finch. A picture of this bird was found and a co-operative story written about the bird, all of which appears on the chart.

A feeling of Spring has come to Miss Amsler's 1B Grade through blossoms on narcissus bulbs planted for each table on February 6. The first blossoms appeared February 29.

In connection with the study of Japan, Miss Stamp's 6A and B Grade recently visited the Municipal Museum where Mrs. Peet gave an interesting and instructive talk. Activities under construction in the various rooms include "A Street" in Miss Amsler's 1B—"A Farm" in Miss Delehanty's 1A—"Cotton Plantation" in Miss Greenberg's 2B—"A Street in Holland" in Miss Vickerman's 2A—"A Rubber Plantation" in Miss Wright's 3A—"A Street for Safety" in Miss Gallery's Kindergarten—"New York Harbor" in Miss Siller's 4B and A—"A Collection of Japanese Articles" in Miss Stamp's 6A and 6B. Miss Logan's 5A Grade is keeping an Arithmetic notebook. Each child has made an original design for the cover, while inside first the attainments are given followed by exercises for acquiring the attainments.

Exhibits from the Municipal Museum have been found helpful in the work of the following grades: Cotton—2B Grade; Holland—3B Grade; Alaska—5A Grade.

**RADIO TIPS**  
By H. S. Russell  
Radio service men often ask this question of each other—"Why will a man buy an expensive, finely built radio receiver, have it tuned up to maximum performance and then attach it to some poorly erected, improperly connected and inadequate aerial and expect to get the results the manufacturer built into the radio?"  
Possibly it is that "quirk" in human nature that causes a man to build a mansion on a small lot when cheap land surrounds him or to buy a five thousand dollar car and to operate it on bargain oils. We are all prone to economize on the wrong things and in the radio fan the economy almost always is exercised on the aerial.  
The scientific name for the aerial is the antenna, and like the antenna of the insect it is the "feeler" through which the radio reaches out and gathers in the electrical impulses passing through the surrounding "air."  
Now to do a good job of gathering in the radio waves the aerial and lead-in should be in one piece, because joints soon become loose and corroded and tend to retard the flow of the radio currents along the wire to the receiver. The wire itself should be sufficiently heavy to withstand considerable strain and preferably rubber covered to protect the wire from corrosion, dust, etc.  
The aerial must be kept away from all objects and where it is necessary to attach or support it or to pass it through the walls of the building, suitable insulators should be used. We always recommend aerials in the attic because they are safe from sleet and windstorms, falling tree limbs and wires, while their likelihood of being struck by lightning is greatly reduced.  
Radio waves are very weak near the ground and for this reason picture moulding aerials which are successful in second and third story rooms are dismal failures on the "ground floor."  
For best reception in this part of the country the antenna should run east and west. If you are disturbed by street cars try running the aerial parallel to the disturbing wiring system.

The unattached door-to-door peddling which is so extensively carried on in every community every day strikes a direct blow at the welfare of every local merchant.

It seems highly unfair that the regular dealers, maintaining as they do establishments which are a credit and an asset to the community throughout the entire year, should be the subject of such unfair competition during the height of this most important selling season.

Local merchants are an invaluable asset to the community. The good of the community is closely paralleled to their welfare.

Demonstrate your good citizenship by purchasing your wants from a regular established merchant.

**FURNITURE FACTS**  
—By Gerald C. Kenny—

The ensemble idea has taken hold in home furnishings as completely as it has in apparel. The smartly harmonious grouping of related though not exactly matched pieces is the fashion. This is evidenced by the fact that period furniture—pieces which have been reproduced from or inspired by the designs of one of the historic furniture periods—is definitely more fashionable than matched pieces. Many pieces from one period, or from several periods having some common characteristics, are brought together in one room. Harmony comes from the careful selection of pieces of similar line and proportion.

French Provincial designs are now being widely utilized for inspiration and patterns for furniture for the modern home. The woman who wants her living room, dining room or bedroom to be smartly furnished, will not go wrong in deciding to give it a definite French Provincial tone.

Early English furniture will make an up-to-date and very comfortable living room or dining room. Oak, in dull rich finish, is the popular wood for this furniture as it lends itself to the heavy, shallow carving which is the characteristic embellishment of the Jacobean and Tudor styles.

Reproduction based on styles of the noted English designers of the eighteenth century can be depended upon to bring the living room up to the moment in fashion. With careful selection these may be pleasingly harmonized with non-period pieces and the room given a smart appearance without complete refurbishing.

This is the first of a series of talks on household and period furniture to be published in each issue of this publication; prepared by Gerald C. Kenny, manufacturer of Kenny-Kraft Lifetime Upholstered Furniture. Factory and showrooms at 1476 Lake Avenue, Rochester, N. Y. (Adv.)

Short talks were given by William P. Barrows, President of the Rochester Boy Scout Council, and by Charles Legg, Deputy Commissioner of the Blackhawk Division. Harry Bloss, Commissioner of the Rochester Council, told about the scout organization, and Dr. James E. Rose of Mt. Olivet Baptist Church delivered an address on "What Scouting Really Means."

Pool, for Chemistry.

Jim Lejeune, William Spain and John Peer are scouts who have recently been admitted to the troop. Scout George Gunn received the Cabin Boy award last week.

At their last patrol meeting the Owls changed their name to Flying Eagle Patrol and elected John Peer their leader and Renkert Meyer, assistant patrol leader. The troop is meeting Thursday evening instead of Wednesday this week because of an important troop committee meeting Wednesday evening at the home of Richard Baybutt, chairman. Troop 81 has the largest committee in Rochester—and it is a very active committee.

### RIVIERA FEATURE REVIEW

Today (last times)

Lil Dagover, who thinks American men are "darling," has captured the interest of even the most rugged "he-man" who resented being called "darling."

On her arrival in New York she told ship-news reporters that she thought American men "very interesting" (in addition to her conception of them as "darlings"). Since then, especially with the release of her first American starring picture "The Woman From Monte Carlo," Dagover has aroused the curiosity and interest of American men.

Aviation is the chief hobby of Robert Alden, new juvenile player who makes his bow to screen patrons in "Maker of Men." Alden has flown his own plane for several years, and at one time gave exhibition flights in various western cities. Jack Holt and Richard Cromwell head the cast of "Maker of Men," which was directed by Edward Sedgwick.

Friday-Saturday

Edna May Oliver, in RKO-Radio Pictures' comedy-drama, "Ladies of the Jury," has a characterization differing widely from her past talkie roles. In "Cimarron" she was a village gossip; in several Wheeler-Woolsey comedies she has been a stiff "old maid"; in "Fanny Foley Herself" a frolicsome and whimsical variety queen, and in her latest, a wealthy but democratic society matron, serving on her first jury.

A strange plot of mystery, love and retribution in a circus side-show; fantastic people and situations that would do credit to the bizarre mind of an Edgar Allan Poe; and an amazing romance among a people apart from the rest of humanity, figure in "Freaks."

Its principal actors include the queerest people ever assembled, freaks who have never been seen on the screen before, such as the

## Benefit Card Party For Scout Troop 101 Apr. 12

A card party for the benefit of Boy Scout Troop 101 will be held Tuesday evening, April 12, at Edgerton Park Assembly Hall. There will be a choice of games with prizes for each table. Play will start at eight o'clock.

The affair is being sponsored by the troop committee of which Lester Munding is chairman. Joseph J. Buckley heads the card party committee, assisted by the following: Rev. Joseph M. McDonnell, Scoutmaster Dewey Lynch, William Kunz, Charles Becker, Arthur J. Buckley, Frank Burns, Norman O'Brien, Andrew H. Sophie and George Hunt.

Tickets at 25 cents may be obtained from these men or at the door the night of the party.

Troop 101 meets regularly at Holy Rosary Church. It has a large membership. Proceeds of the dance will go into the scout treasury for the purchase of needed equipment and other expenses.

Earl Clark and Franklin Hutchings, John Marshall graduates, received city scholarships at the University of Rochester, thereby gaining two of the six scholarships offered. Elta Slaght's name is on the dean's list of students ranking 80% or more in scholarship.

Sunday, Monday, Tuesday 4  
As a direct result of Frederic March's new dual role in the Paramount production, "Strangers in Love," his father received an unusual remembrance which now occupies a favored spot in the heart and home of the elder March.

It all happened when March, junior, decided that no one better than his own father could play his screen father in this picture, particularly since the cast requirements for this part called for only some action centered about a portrait.

March got together several photographs of his father and gave them to Harry Barndollar, artist, who completed the assignment in three weeks' time.

"Beau Hunks," a Laurel and Hardy comedy, is a take-off on a popular drama of similar name. With these two comedians in the featured role, little remains to be said of its effectiveness as a laugh-producer.

## McFARLIN TO ADDRESS LAKE AVE. ASSOCIATION

With Councilman Harold S. McFarlin, president of the 19th Ward Business Association, as guest speaker, the Upper Lake Avenue Improvement Association will hold its first monthly dinner meeting Monday evening. It will be held in the Maplewood Y. M. C. A. where dinner will be served at 6:30.

In addition to the address by Mr. McFarlin, it is also planned to present a musical entertainment. Guests will include Councilman Nelson A. Milne and several members of the Lake-Ridge Business Men's Association.

The committee in charge is headed by James C. Corbett and includes Otto Metz, Fred Pepper, William Cass, Edward Gibson, Lew Silverman, Charles Allen and Thomas Allen. Tickets may be obtained from the committee members.

The speaker of the evening will be Miss M. Warrant of the Public Health Bureau.

The constitution and by-laws of this new association will be presented for adoption and announcement of future events made. Mrs. Lewis Whalen, president of the Sacred Heart convent P. T. A. will be a guest.

## Mack's Barbers Deflate Sails of Crown Service

In a special bowling match Monday night Macks team gave the Crown Service team a real lacing, winning easily by over 200 pins. Connolly for the barbers hit his old natural stride with 610 to help the winners and Powers also bowled well. Everts rolled well for the losers. A return match is booked for later.

Both teams are members of the Lower Dewey circuit, the barbers in first place and the service men fourth. However, the fourth-place team heretofore in league games has been quite successful against Macks outfit and their confidence in challenging to a special match (with slight consideration on the side) is excusable, even though it turned out to be disastrous.

Just a little mountain cabin,  
Sitting way back in the hills,  
But it's there that I am happy,  
And free of earthly ills.

All around me wild things growing,  
Blossoms blooming on the trees,  
In the hush of noon-day silence,  
Comes the droning of the bees.

Straying o'er the many pathways,  
With a lassie by my side,  
A lassie whom in years gone by  
I brought there as a bride.

'Tis only in dreams she walks with  
me,  
For she has gone beyond,  
Along with our young lad and lass,  
Of whom we were so fond.

Somewhere, now, they wait for me,  
At night I hear their call,  
Longing most to go to them  
When evening shadows fall.

In dreams she is beside me,  
Youngsters climbing on my back,  
That is why I find my Heaven  
In this little mountain shack.

**LEXINGTON SCHOOL NO. 34**

Ralph Smithwick has been selected as the boy to receive the honor medal, awarded each year by the Rochester Chapter, Sons of the American Revolution. This medal is given to the boy in the Sixth Grade who has shown certain ideals of citizenship. The medal will be awarded at an assembly on April 28.

From the proceeds of the recent Art Exhibit, pictures were ordered for each grade and one for the corridor. The grade selections were chosen by the children.

The Fifth Grade A has made two interesting excursions, one to the Municipal Museum and one to the Memorial Art Gallery. Reports of these trips were given in the morning assembly on March 23. The introduction was given by Gerald Tindal. Nancy Petersen and Nelda Eichel told of the Exhibits on Alaska and the Bird Game which they played at the Museum and Earl Barrett gave an interesting report of the work of the Indians and the Indian Exhibit at the Art Gallery.

At the morning assembly on March 17, Clarence Templeton and Ralph Smithwick of Miss Stamp's Grade gave the history of St. Patrick's Day. "The March Wind and the Breezes" was given by Florence Christoff, Jean Myers, Jacques Rogers, Thelma Twardokus, Jackson Berner, Betty Lewis, Elva Saners and Frank Atwood of Miss Siller's Grade. Miss Thomas's 5B Grade gave original stories on sheep herding. The following took part: Hope Christoff, Lucille Palmer, John Strassner and Betty Wilton.

The birds and animals from the science room are spending the Easter vacation in the homes of some of the children. Birds are being cared for by Lillian Smalldone, Eloise Grimes and Gladys Drummond. The rabbit is at Jane Fishbaugh's, the two white rats are at Raymond Austin's, and the snake and turtle are being cared for by James Livingstone.

Many beautiful specimens of Cecropia moths have emerged from the cocoons in the Science Room as well as in some of the classrooms. The kindergarten children were fortunate in actually seeing one emerge.

Five juniors and five seniors were elected to the National Honor Society at John Marshall.

The following students were elected: Madeline Mong, Eleanor Van Deusen, Margaret Stephens, Dixon Lathrop, members of the III-2 class; June Foy, Ruth Gerling, Norman Nadel, members of the IV-1 class; Robert Ottman and Leonard Edelman, members of the IV-2 class.

## FEDERAL TRADE COMMISSION ISSUES TRADE REGULATIONS

The following trade rules for the grocery trade were issued by the Federal Trade Commission. They are reprinted below for the benefit of our readers.

Secretary Janssen of the National Association of Retail Grocers bails this as a great victory for progressive trade but our own opinion is that there are too many loop-holes to permit active enforcement.

For instance, the giving of prizes or premiums or gifts in connection with the sale of groceries is declared unfair in Rule 3, provided it is by any scheme which involves lottery, misrepresentation or fraud. The difficulty of proving an offense under this rule is too difficult to be effective except in unusually flagrant cases.

Nevertheless the rules show a growing sentiment against practices that are unfair and which are hurting small business men. We hope that in time some of the loop-holes will be left out.

The rules follow:  
The commission's official statement to the grocery trade follows:

### GROUP I

#### Rule 1

The commission substituted and approved the following for Rule 1 (Subdivision 2), Group I, as published January 16, 1929:

The secret payment or allowance of rebates, refunds, commissions or unearned discounts, whether in the form of money or otherwise, or secretly extending to certain purchasers special services or privileges not extended to all purchasers under like terms and conditions, with the intent and with the effect of injuring a competitor and where the effect may be to substantially lessen competition or tend to create a monopoly or to unreasonably restrain trade, is an unfair trade practice.

#### Rule 2

The commission substituted and approved the following for Rule 1 (Subdivision 3), Group I, as published January 16, 1929:

Price discrimination in violation of Section 2 of the Clayton Act is an unfair trade practice.

Any joint trade action which purposes unlawfully to exclude any manufacturer, merchant or product from a market, or unlawfully to discriminate against any manufacturer, merchant or product in a market, whether by conspiracy, agreement, unjust and misleading propaganda for the purpose of influencing legislation, or other public action, is an unfair trade practice.

### Rule 8

The commission substituted and approved the following for Rule 7, Group I, as published January 16, 1929:

The selling of goods below cost for the purpose of injuring a competitor, and where the effect may be to substantially lessen competition, is an unfair trade practice.

### GROUP II

#### Rule B

The commission substituted and accepted the following for Rule 8, Group II, as published January 16, 1929:

Deceptive prices on certain temporarily selected brands of advertised food specialties or staple merchandise, in order to influence consumers, creates the false impression that competitors are exacting an unfair and unwarranted profit on all merchandise and is condemned by the industry.

#### Rule C

"Free deals" that affect injuriously wholesalers, retailers or consumers, are condemned by the industry.

#### Rule J

The substitution by a wholesaler or a retailer of another product for the product ordered is condemned by the industry.

#### Rule K

The commission substituted and accepted the following for Rule 18, Group II, as published January 16, 1929:

The industry recognizes as beneficial to the grocery trade the

## ST. LOUIS PLACES TAXES ON ALL CHAIN STORES

Chain stores will be assessed a minimum of \$50 per store, then increasing by jumps of \$50 until stores in excess of twenty pay \$250 per year under the provisions of an ordinance just adopted by the City of St. Louis. Unlike some of the state laws and city ordinances adopted elsewhere, the St. Louis measure is directed specifically toward chain stores.

The first store pays \$50 a year. From two to five stores the rate is \$100 per year, from five to ten \$150, ten to twenty \$200 and twenty or more \$250 each.

It is expected that the Rochester Civic Defense League will go on record as favoring a tax similar to the one in St. Louis. A bill modified to conform to the laws of this state is being worked out at

the present time.

Efforts of the independent merchants of this state to push through a chain store bill at the last session of the state legislature met with only partial success, and although there is strong likelihood of passage next year the local merchants feel that action is needed before then. "A city tax presents the only answer.

## COLONIAL FURNITURE

By Gerald C. Kenny

When we speak of "colonial furniture," we must, of course, have in mind several periods. These periods were influenced by the conditions prevailing in the colonies at that time. We know, for example, the early period when strongly rectangular lines predominate. These came into existence because of the limitations in machinery for furniture manufacture. Busy pioneers had little time to create anything except pieces that were easily built and were intended to last. The simplicity of these forms was also governed by types then used in England under the rule of Cromwell. These pieces reflected the simplicity of thought and conditions of living of that era.

Later periods brought the lighter more rounded influences of Queen Anne. The years between 1750 and 1776 offered comparative prosperity in the Colonies. During these times many importations were made of some of the best prevailing furniture styles then in vogue in Europe. We have for example the Windsor chair in its many adaptations. We have also the creations of Chippendale with greater refinement, showing ideas originating from Chinese and Gothic sources.

Approaching the colonial period we find the colonists leaving England and turning to France for many of their furniture patterns. Political views, as is almost always

the case, dominated esthetic taste to the extent that the over decorative patterns then in vogue became very prevalent.

Although it is not historically correct to do so, reference to colonial furniture often is made to include the post Revolutionary period up to 1800. This, in fact, is probably the most interesting part of early colonial furniture development. Thus we have a return to extreme simplicity in the styles of Hepplewhite and Sheraton. These are characterized by lone, slender, graceful legs and plain edges. Here we have also the first outstanding purely "American" designers of furniture. I refer to Duncan Phyfe pieces with which you are no doubt familiar.

A study of colonial furniture is difficult, indeed, without showing at first hand pieces which originated in the periods which are being discussed. At my show rooms at 1476 Lake Avenue many examples of the styles which I have mentioned are in evidence. I will be very glad, indeed, to talk with any of the readers of my furniture articles on furniture topics at my show rooms.

This is the second of a series of talks on household and period furniture to be published in each issue of this publication; prepared by Gerald C. Kenny, manufacturer of Kenny-Kraft Lifetime Upholstered Furniture. Factory and showrooms at 1476 Lake Avenue, Rochester, N. Y. (Adv.)

### AT THE CHURCHES

**North Presbyterian**—On Easter morning, 58 young people and their friends gathered in the Parish House of the church for the annual Easter Breakfast meeting.

The committee in charge of the meal included Harriet Miller, chairman, Bernard Bullock, Gordon Steinfeldt, Frances Meulendyke and Ruth Beldue. At the service which followed breakfast Mildred Kier presided, and music was furnished by Miss Lois Marsli, Mark Hall and Anthony Turano. An Easter message from the pastor, Rev. Robert Findlay, "The Fact of the Resurrection" concluded the program.

At the morning service, 31 persons united with the church and three children were baptized. Mr. Findlay took for his theme "At the Tomb" and the choir sang "Be Glad Then, Ye Children of Zion" by Hollins, and Mrs. Ethel Shanley Henschel sang "Hosanna" by Granier.

The Mizpah Class held a supper meeting in the Parish House on Tuesday, March 29.

At the Wednesday evening service, the topic for discussion was "On the Highway."

On April 6, the annual congregational meeting will take place. Supper will be served at 6:30 p. m. by wives of the officers of the church, with Mrs. J. L. Armstrong.

On April 10, at the morning service, the newly elected officers of the church will be installed. At the young people's meeting on that day, 6:30 p. m., the guest speaker will be Rev. Frank M. Weston, D.D., executive secretary of Rochester Presbytery.

Tickets are being sold for two one-act plays to be given by the Young People's Sunday evening group on April 14 and 15. "Ask Me Another" directed by Mrs. E. J. Miller, will be played by the following: Pa Dumont, William Muir; Ma Dumont, Dorothy Rhodes; Marie, their daughter, Allene Hoestery; Moon Marquard, Gordon Steinfeldt; and Percival Primbly, Charles Richardson. "The Typewriter Lady," directed by Mrs. Robert Findlay, has for its cast of characters the following: Prissy Pound, the typewriter lady, Helen Rhodes; Julius Juniper, her employer, Kenneth Hoestery; Carrie Cowley, Georgianna Going, Belle Beaumont, applicants for the position left vacant by Prissy's resignation, will be played by Harriet Miller, Frances Meulendyke and Mildred Kier; Sammy, the office boy, Jack Smith; and the expressman, John Pownall. Tickets are 25c, and the public will be welcome. Both plays will be given each evening and there will be a musical program as well.

**Grace M. E.**—This afternoon the Maplewood Chapter have their meeting in the church parlor. Mrs. E. J. Thompson of Selye terrace is chairman.

Next Sunday morning will be observed as Loyalty Sunday at Grace Church. At this time the budget for the year will be presented and pledges taken. Every member and friend of Grace Church is expected to be present.

**Redeemer Lutheran**—The first Sunday after Easter will be celebrated in appropriate services with sermon by the Rev. W. L. Dowler on the theme "The Power of His Resurrection." The chorus choir will sing "Awake Thou That Sleepest" from Stainer's oratorio "The Daughter of Jairus."

Last Tuesday evening the 23 boys and girls of the Confirmation Class, received into membership Palm Sunday, were given a reception in the Parish House by Pastor and Mrs. Dowler and their Sunday School teachers, Mrs. George Seel, Grover A. Cliequenois, George Berndt, and Mr. and Mrs. Charles Albrecht, assisted by the membership committee. Parents were guests of honor. An interesting program was presented by the Pastor, assisted by Robert Storaandt, Jack End and Mrs. Albrecht, after which refreshments were served.

All the organizations of the congregation are co-operating in the program of entertainment to be presented Friday evening, April 8, in Ascension Parish Hall, 1360 Lake Avenue. A three-act comedy, "Crafty Grandpa," will be the main feature of the entertainment in which William C. Storaandt will play the title character as Grandpa Dillingham, with David Densmore, principal of School No. 41, playing the part of his son William, and Mrs. Arthur Lohwater taking the part of William's charming wife.

Leona Marcot and Earl Jinks are presented as their children, Nancy and Peter. The other parts are given by Mrs. Burton Bigley, Doris McCoy and James Weigand, while much humor is added by Diana, the colored cook, in the person of Mrs. James Logan, and Mrs. Leslie McCowan as Aunt Fanny.

Music between the acts will be furnished by the "Kitchen Band" and chorus under the direction of Mrs. Rose Freese, and a colored minstrel by the men of the Brotherhood with Grover Cliequenois, John Sanders and Carl Knitt as the leading men. Tickets are 25 cents for adults and 15 cents for children.

On Monday evening, April 4, a special meeting of the Brotherhood will be held in the Parish House to complete the arrangements for the colored minstrel to be given in connection with the play. The Brotherhood is attempting to interest all men of the congregation and their friends in the class, which meets each Sunday morning at 10 o'clock in the church auditorium, with Mr. Wolfe as the teacher and Alfred Doe as the president.

The monthly meeting of the Bethany Guild will be held next Thursday evening in charge of Mrs. Ohrlsch, president. Many post-Easter activities will be presented at this meeting and all members are urged to be present. The Church Council will also hold its regular monthly meeting at the same hour.
