## DEMOCRATS CARRYING CAMPAIGN INTO HOMES

Democrats of the ward are engaged in the most spirited campaign leading up to elections that has ever featured their efforts. Over 30 meetings are scheduled in homes about the ward, at least one in every district. Six have been held to date with a reported average attendance of 50. Candidates appear at each meeting.

In addition the Women's Club is staging a membership drive that will be extended into every home in the ward. Two teams are working now and will make their report at the next club meeting on October 24. The Reds are Mrs. Mary Aldrich, Miss Susie Jeffery and Miss Agnes Schaubert; the Blues are Mrs. Florence McKechney, Mrs. Paul Schaughnessy and Mrs. Louella Emerson. Team and individual prizes will be given.

The Democrats have taken over B. and B. Hall at 333 Driving Park avenue for headquarters during the campaign. Plans for getting out the voters to register this week and next were discussed at the meeting held Tuesday night. Mrs. Joan Lynn Schild announced the details on the meetings being held in the homes and also plans for the membership campaign. The next club meeting is to be held October 24 at B. and B. Hall.

## Kindergarden Supervisor To Address No. 41 P. T. A.

### UPPER DEWEY LEAGUE

The first night of the Upper Dewey League last Monday produced no outstanding bowling totals. The team names were off-Shoes, Bantel Coal, Bauman and Baynes, and Schulz Bros. The latter two teams won two out of three from their opponents to start the season in a tie for first.

### BOB'S DEWEY LEAGUE

After taking one night to practice, Bob's Dewey League got down to real business Monday night. Schmanke's won three from Kirby's, Renner and Henry and Ryan's each won two and lost one to Hall's and Lake's respectively.

## World Record Attempt To Be Made Here Soon

An attempt to break the world's record for an automobile dry run, that is without oil in the crankcase, will be made here in the near future by the Dewey Super Service Station of Dewey avenue. The try will be made in co-operation with the makers of Pyroil, a lubricant gaining wide popularity with motorists in this country.

A 1930 Ford which will be used for the test is now using Pyroil in its gasoline and oil. It is claimed that this is preparing the cylinder walls and the motor to run for many miles without gasoline. On the day of the test, the car will be run as far as possible with the crankcase drained.

Various automobiles have been run as high as 700 miles without oil after Pyroil treatment. The world's record, which Dewey Super Service Station will attempt to exceed is 903 miles. Further details will be announced later.

## Rock's Bowling Hall to Open Formally Saturday

Modernization of Rock's Bowling Hall, 731 Lake avenue, has been completed and a formal opening to introduce it to the public will take place Saturday night. A free roast beef dinner will be served in the grill and an orchestra will furnish music for dancing.

The bowling alleys have been raised, leveled and shelled by M. A. Luscher and a number of balls added. A new lighting arrangement and a modern ventilating system are among other improvements. In addition the interior has been entirely redecorated.

Mr. Rock, who has run the bowling alleys for the past 23 years, is anxious to greet old friends as well as new ones. He has procured a license and is now serving beer and ale, both by glass and bottle.

## Ridgmont Golf Club Has Clambake, 200 Attending

### Go Ahead—Join the "Y"

This membership drive slogan adopted by the Rochester Y. M. C. A. is in harmony with the spirit of the times—optimistic, progressive. This slogan will be on thousands of lips during the five days beginning October 17. After all, joining an organization like the "Y" is "Going Ahead." It is going ahead physically, mentally and spiritually.

If one had any doubts as to the good work of the "Y" all he would have to do would be to visit that institution any day or evening and see for himself what transpires there.

In the quiet, restful atmosphere of the artistic lobby he would find groups of men quietly resting, perhaps listening to some fellow playing a beautiful selection on the baby grand piano. Peeking through the doors of the reading room might be seen other men and boys studying or reading the fine selection of books or magazines to be found there. Through the lobby one would see other groups playing pool or billiards, or lurching or enjoying a soda at the Y's excellent new fountain.

At lunch or dinner time the large cafeteria on the second floor is fairly packed with folks who have learned how excellent is the Y's home cooking. The cafeteria is centrally located, restful, and has become a real treat to many who work near enough to partake of its hospitality.

What a transformation might be noted were one to carefully scrutinize the men coming from the Y. M. C. A. at noontime or evening after regular classes, handball, squash, volleyball, perhaps followed by showers, a plunge and perhaps a good rub by Ed. Smith. These men are examples of alert, well groomed, physically fit human beings. While they have been exercising or playing, if they wished it, their suit has been carefully cleaned and pressed. Following this "Workout" how snappy and elastic is their step and how keen their eye. How happy the old world seems if one lives the "Y" way. It surely means better health, happiness and well-being.

The Rochester Y. M. C. A. invites YOU to visit the Central Y. M. C. A. on Gibbs street or any of the "Y" branches and see for yourself that you really do GO AHEAD when you join the "Y." You will be shown about and given the opportunity to have a plunge in the big tank if you wish. "Go AHEAD, Join the Y." This is your challenge to a happier, healthier and more completely satisfactory life. And the cost is so little when one comes to see what he gets for his money.

## RIVIERA FEATURE REVIEW

Week-end Program  
Tonight—"Her First Mate" with Slim Summerville and Zasu Pitts; and "Blind Adventure" with Robert Armstrong and Helen Mack.  
Starts Friday—"Gold Diggers of 1933" with Warren William and Joan Blondell; "Barko in Dutch"; and "How've You Been" with Fatty Arbuckle.

"Gold Diggers" Review  
What do "gold diggers" dig for? Diamond bracelets? Motor cars? Orchids? Yes. But mostly clothes.

That, at least, became the opinion of Designer Orry-Kelly, Warner Bros. stylist, when he saw the wardrobe plot for "Gold Diggers of 1933," lavish musical comedy and dramatic spectacle, featuring four feminine stars, and designed as a follow-up to the enormously successful "42nd Street."

Joan Blondell, Ruby Keeler, Ginger Rogers and Aline MacMahon are the leading gold diggers in the picture. And the fact that they wear forty-seven beautiful dresses, not counting theatrical costumes,

shows that as gold diggers, they "did all right!"

Joan Blondell and Aline MacMahon lead off in a small way by chiseling themselves a hat a-piece, at only \$75 each. From then on it's just too bad—for the William and Kibbee pocketbooks. The girls dig and dig. The men pay and pay. And the result—plenty of work for Orry-Kelly, who had to design every clever little number the girls promoted.

One of Joan's snappiest numbers is an afternoon dress of black and cream colored mat crepe, the light shade being used at the top, and in the big, dolman sleeves. Three or four sables, a sheaf of gardenias, and a tilted black straw hat with a flower-covered bandeau at the back set this one off, and no expense spared.

## Car Makes Trial Run In Preparing For Test

A preliminary test in preparation for the world record attempt in an automobile dry run to be made here shortly resulted in quite a satisfactory performance, according to announcement by Dewey Super Service Station, which is sponsoring the test.

The 1930 Ford which is to be run as far as possible without oil in its crankcase was driven to Clarkson and return without a mishap last week. Although it had gone over 30 miles without oil, the motor was not overheated on the completion of the trip, nor at any time on the way.

This car is using gasoline and oil treated with Pyroil, the new motor lubricant, and as a result it is claimed that it will run for several hundred miles without oil and no damage will occur to the motor.

The date for the world record attempt and three judges to supervise the run will be announced in the next issue. Although the car will be driven throughout the city, the run will be centered about the Tenth Ward, starting from the Dewey Super Service Station at 1687 Dewey avenue.

## HALLOWEEN PARTY FOR DEMOCRATS SATURDAY

Democratic women of the ward are planning for a hallowe'en party and supper Saturday night at B. and B. Hall, 333 Driving Park avenue, starting at seven o'clock. Mrs. Louise Robinson is chairman of arrangements. All members are invited.

Mrs. Frederick Lamb and Paul P. Taylor, candidates for School Commissioner and Assemblyman respectively, Mrs. Nan McShea and Harold Burke.

## Republican Card Parties Now Held on Mondays

Both contract and auction bridge are being played this year in addition to pinochle and pedro, with a prize being given for each table. The prizes this year are orders for merchandise. Mrs. John H. Penn is hostess for next Monday.

## CARD PARTY WEDNESDAY BENEFITS SACRED HEART

## RIVIERA FEATURE REVIEW

Week-end Program  
Tonight — "Pilgrimage" with Marion Nixon and Norman Foster; and "She Had To Say Yes" with Loretta Young and Lyle Talbot. (Free china and gold table service.)  
Fri.-Sat.—"Private Detective 62" with William Powell; and "Turn Back the Clock" with Lee Tracey and Mae Clarke.

Sun.-Mon.-Tuesday Review  
He was only a country doctor, an old fashioned general practitioner, who knew little of the modern scientific methods of the profession.

He had sympathy, common sense, and human understanding, however; and with them he was able to achieve many things that cold science could not.

Lionel Barrymore plays this role, rich in human interest and drama, in "One Man's Journey."

Unselfish service and sacrifice is the theme of this story of a doctor who grows old in caring for the health of a rural community, and who sacrifices his chances for advancement, because of his devotion

to the interests of his "people," and the son he educates to be a brilliant surgeon.

An unusual solution to the problem of training delinquent youths in the state reformatories is offered in "The Mayor of Hell," James Cagney's latest starring picture.

The picture first presents a revelation of conditions in the reformatory almost as shocking as those seen in "I Am a Fugitive From a Chain Gang."

The solution is provided by a pretty nurse, who prevails on a ward healer politician through his love for her, to put it into effect. After kicking out the grafters, the political boss institutes a plan of self government by which the boys rule themselves. They hold regular elections and name all the community officials such as mayor, chief of police, judge, treasurer, etc.

the Episcopal Church off St. Paul boulevard. The committee is Jay McBride, Carl Oswald, John Tomer, Grover Cliequenois and Henry Taylor.

Dewey Ave. Reformed—Dr. John L. Ernst, pastor of St. Matthew's Evangelical Church of Detroit, will preach at the morning service Sunday. Dr. Ernst is to deliver the address at the Union Reformation Service to be held at Central Church that evening. Dr. Ernst has considerable of a reputation as a psychiatrist, and is well known among the young people of the Evangelical Leadership Training School conducted annually at Dunkirk, New York.

The Salem Church Choir of sixty voices under the direction of Herman Genhart will give a concert at the church on Sunday evening, November 12, at eight o'clock. A wide and varied program of choral music is being planned, and several numbers hitherto never presented in Rochester will be included.

A sauerkraut supper and entertainment is planned for Wednesday evening, November 22, at 6:30 o'clock. The supper is to be served by the ladies of the church, and the entertainment is in charge of the Young People's League. The outstanding feature of the entertainment will be a one-act comedy, "Ether or Eyether," presented by members of the Young People's League. Tickets are 35 cents for adults and 25 cents for children under 12.

The redecorating of the basement and the kitchen is practically completed. Financed by the Ladies' Class and aided by contributions of materials by various interested outsiders, the men and women of the church have done all of this redecorating by themselves, spending their spare hours, days and evenings in working on the project. When finished the kitchen and basement auditorium will be second to none in beauty and convenience, and will make possible a new and bigger program of community activity.

Immediately after the morning service next Sunday morning the pastor of the church, Rev. Braynard E. Kurkowski, will leave for St. Louis where he is to be married to Miss Mary E. Streich of that city on Thursday, November 2. Miss Streich is the daughter of Rev. and Mrs. H. L. Streich of St. Louis, Rev. Streich being the Executive Secretary of Adult Work of the Evangelical Synod of North America. With his bride Rev. Kurkowski will leave for Rochester on November 3 and will be back in his pulpit on Sunday, November 5, although Rev. Fred H. Willkins, Associate Executive Secretary of the Federation of Churches, will preach the sermon on that day.

As the first in a series of discussion meetings on the main theme of "Danger Zones in Our Social Living Today," the Young People's League will hear Superintendent Herbert F. Baker of the People's Rescue Mission speak on the topic, "Our Modern Home," on Sunday evening, November 5, at six o'clock. A luncheon will be served at five o'clock, to be followed by a brief period of fellowship and recreation. There will be no meeting on the evening of October 29.

### SACRED MUSIC CONCERT AT DEWEY CHURCH SUN.

On Sunday evening, Nov. 12, at eight o'clock a concert of sacred music will be presented at the Dewey Avenue Reformed Church, corner of Dewey avenue and Flower City park. The Salem Evangelical Church Sixtieth Anniversary Choir of over 100 voices, the Salem Mixed Choir, the Salem Ladies' Choir, the Salem Girls' Chorus, the Dewey Reformed Choir, the Colgate-Rochester Divinity School Quartette, Mrs. Lucille D. Brightman, soprano soloist, Theodore L. Trost, bass soloist, and Herbert Zimmer, violinist, will be included in the program.

This concert will offer perhaps the finest program of sacred music to be given in Rochester this season. The choral portion of the program will consist of the works of John Sebastian Bach and several of the most outstanding American composers of sacred music. Numbers never before heard in Rochester will be sung by the Salem choirs. A choral feature will be Bach's "Now Thank We All Our God," sung by the massed Salem and Dewey choirs, with a brass obligato by two trumpets and four trombones.

The Colgate-Rochester quartette will render two numbers, and vocal solo will be offered by Mrs. Lucille D. Brightman and Theodore L. Trost. Neidlinger's "Still, Still With Thee" will be sung as a duet by Mrs. Brightman and Mr. Trost. A violin solo, Ries' "Adagio," will be played by Herbert Zimmer.

Admission to this concert will be free and an offering will be taken. The public is invited.

"Tarzan The Fearless" is to be run in serial form for eight weeks, but the opening episode is practically a complete movie in itself, consisting of seven reels. This is the first serial of its kind to be thus introduced. Although intended for juveniles principally, this serial has a wide appeal in the ranks of the grown-ups.

### WINS SUPERVISORSHIP

### Gov't Now In Hands of People, Says Rogers

Asked for a statement to the voters of the Tenth Ward, following his election as Supervisor, George F. Rogers said:

"First of all I wish to thank both my Republican and Democratic friends, also the various Democratic clubs and committees, and especially the ladies who so generously furnished use of their homes for meetings and invited their Republican friends to hear our message.

"This is a great victory for the taxpayers of Monroe County, for on Jan. 1, 1934, the reins of government in this city and county will for the first time in many years be turned over to the people and taken out of the hands of a political machine, run by and in the interests of that machine and the man who controlled it.

"I shall during my term of office do all in my power to serve the taxpayers of Monroe County, especially those of the Tenth Ward, to the best of my ability without regard to political affiliations."

### Maplewood Unit Activities

The Unit held an all day meeting on Nov. 8 at the Maplewood Y. M. C. A. The project was remodeling clothes, directed by Miss Helen Easter.

On Nov. 15 the project will be entrees and relishes. On Nov. 22 the unit will hold its regular monthly luncheon and card party at a member's home.

### ROGERS DEFEATS HESSELINK FOR COMPLETE DEMOCRATIC VICTORY

Rainy Tuesday brought to an end a long draught for local as well as city and county Democracy, as a militant electorate swept the Republican machine completely out of the picture. Thirty-five years of political famine came to an abrupt conclusion and the Democrats will seat themselves at the festive board on January 1, 1934 absolutely secure in the control of both City Council and Board of Supervisors, as well as the delegation to the Assembly at Albany.

Impressive as was the sweep of the Democrats throughout the county, the margin of victory in the Tenth Ward was even greater. George F. Rogers was ahead of his ticket, riding into the Supervisorship on the crest of a larger vote than any other candidate with the exception of Councilman Charles Stanton was able to amass in the Tenth.

Rogers polled 7113 votes in this hitherto stronghold of Republicanism against George Hesselink's 5446. Earl Bryan, Republican, lost to John Hanna, Democrat, for Constable by 6728 to 5717, a margin of only 1000, as compared to the plurality of nearly 1700 amassed by Rogers for Supervisor.

### 3 From Tenth on Council

The Tenth Ward, however, was the gainer by the victory of the Democrats in the Councilmanic race inasmuch as two local men, Julius Hoestery and Dr. Anthony Scinta, were among the successful candidates. Dr. Joseph L. Guzzetta, defeated Republican, ran second high in total votes among the Republicans and in this his home ward he lead the Republican Council ticket. With Councilman Nelson A. Milne, Republican, having two years yet to serve, the Tenth will have three of its residents on the city legislative body. Mr. Milne, however, will continue to be representative of this district, Hoestery and Scinta being Councilmen-at-large.

In every contest the Tenth gave a plurality to the Democratic candidates even to the extent of casting more Democratic votes than Republican for Judges Crouch and Cunningham, who were endorsed by both parties.

Assemblyman Richard L. Saunders came close to Paul B. Taylor here, thereby holding down the lead of his successful Democratic opponent to slightly more than 2700 in the entire Fourth Assembly District. School Commissioner James Gray, another Tenth Warder, fared none too well here as elsewhere, and went down in the landslide with the rest of the Republicans.

### Republicans to Lose Jobs

Tompkins, Gittelman and Mix, successful Democratic candidates for City Court Judges, had a majority in the Tenth, as did Bush and Clapp, who were elected County Clerk and Public Welfare Commissioner, respectively.

To many Tenth Ward Republicans who have held appointive positions for years in the City and County, the G. O. P. downfall Tuesday means they will be out of jobs. It is also expected that many under Civil Service may also be replaced. Doubtless many Tenth Ward Democrats will be recommended by Thomas Moran, executive committeeman, to fill in places thus vacated.

### Explains Shade Reversing

In response to many inquiries, W. H. Bellinger of 1274 Dewey avenue explains the meaning of shade reversing as follows: The shade is taken off its roller and turned upside down, thereby utilizing the upper half of the shade which gets little use under ordinary circumstances. This adds two or three years to the life of the shade. Mr. Bellinger offers 8-hour service on both parties.

**GETTYSBURG IS PILGRIMS' GOAL**

Field of Most Famous Battle in United States.

Prepared by National Geographic Society, Washington, D. C.—WNU Service.

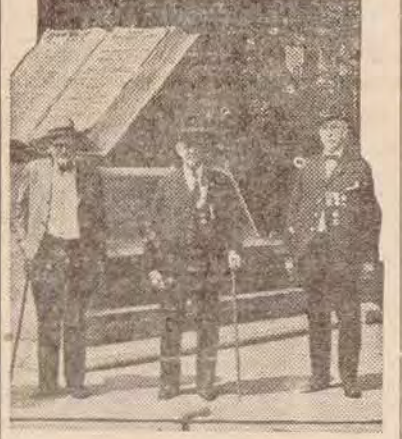

EVERY summer thousands of Americans make the pilgrimage to Gettysburg, famous American battle field and locale of one of the most famous speeches ever delivered—Abraham Lincoln's Gettysburg address.

At Gettysburg, during the first three days of July, 1863, the course of American history, if not indeed the trend of world destiny, trembled in the balance. Here American courage and valor reached a high-water mark; here the hopes of the Confederacy attained their flood stage and began the ebb that ended at Appomattox.

As one motors along the avenues that mark the battle lines, now pausing in reverence before this and that monument erected on the field; now visiting the earthworks of a famous corps, division, or brigade; now climbing one or another of the five steel observation towers for a broader sweep of the terrain, he understands why this is the most widely known of all the battlefields of America, attracting more than 800,000 visitors annually.

Never did any commander face his problem under greater difficulties than did Gen. George Gordon Meade. At three o'clock on the morning of June 28, less than 80 hours before the great battle opened, he was awakened in his tent at the headquarters of the Fifth corps, which he had been commanding. An officer from Washington announced that he had come bringing trouble. Later, in a letter to his wife, Meade confessed that he thought the officer had come to relieve him of his command or to arrest him; but his conscience was clear.

And trouble it was that the officer brought, though of a vastly different kind. He delivered an order from the War department directing General Meade to take command of the Army of the Potomac, concentrate its scattered forces, break the hold of the Army of Northern Virginia on the Susquehanna, protect Baltimore and Wash-

They Fought at Gettysburg.

ington, bring the invaders to battle, and cause them to retreat to their own soil.

General Lee, too, was in straits. Stuart's dash around Hooker's army had deprived the Southern leader of the only eyes an army could have before driftings and airplanes came into being.

In those three last days of June both commanders were at a disadvantage—Meade because he had had thrust upon him a Herculean task and must get his hands on the reins, and Lee because his cavalry was beyond his reach.

Two Great Battles.

Few visitors who go to Gettysburg realize that there were two battle fields in that historic struggle. The battle of the first day was fought to the north and west of the town. Not a single federal soldier was left on that field when the fight ended in mid-afternoon. How complete was the Confederate victory on that day was disclosed after the war by General Meade, who said that if General Lee had followed and placed his batteries on Culp's hill that evening the federal army would have been forced to withdraw.

One need only climb the observation tower near the site of General Meade's headquarters and from that

vantage point view the second battle field to appreciate the tremendous price the Confederates were destined to pay on the second and third for their victory of the first. For here Nature had provided General Meade with a veritable citadel ready for fortification, in which to await an attack, and events had given the Army of the Potomac time to occupy this position and entrench itself.

Here the legions of Lee endeavored to overpower their gallant foes of many a Virginia battle field. Here they waded through blood at the Peach Orchard and the Wheatfield; here they faced the most withering blasts that war at its bitterest could bring upon them as they struggled for possession of Devil's Den and the rocky heights of Little Round Top, where the issue hung on the quick eye of General Warren and the matter of a few minutes.

Twice victory eluded the grasp of Lee in the fighting of the second day. Night closed down upon the frightful scene of carnage with the flower of Stonewall Jackson's old corps in Meade's trenches, on the southern slope of Culp's hill, within 150 feet of Meade's line of retreat and close to his reserve parked artillery. There they slept on their arms, little dreaming how close they were to victory, as they settled down to a fitful slumber.

Pickett's Famous Charge.

Could they hold their gains on the morrow and drive through the hundred paces to triumph? At four o'clock the next morning guns boom out their demand for an answer. The battle is on. Artillery fire blasts their front and rakes their flanks. Musket fire throws a deadly leaden hail into them from almost every angle. Their position becomes an inferno. They charge into a blinding sheet of all-arms fire; they reel back, reform, charge, and are hurled back again. Again they reform and charge once more. At last, almost literally blasted from the field, the bugles sound the mournful notes of the retreat and General Meade holds the ground unchallenged.

Pickett's charge will ever live in the minds of men as the climactic episode of Gettysburg; but military men agree that in the menace it held, in the ferocity of the assaults that were made, in the carnage that was wrought, the attack made by the men whom Stonewall Jackson had led at Bull Run, Antietam, Fredericksburg, and Chancellorsville deserves an equal place in the annals of war. That attack lasted six hours. Pickett's charge moved out at three o'clock, reached high water mark at 3:20, began its retreat at 3:40, and was off the field a little after four o'clock.

As a military spectacle, that concluding act has never been excelled. Its prelude was played by 300 guns, as battery answered battery across the gently rolling fields over which the historic charge was to sweep. "Every position seems to have broken out with guns everywhere, and from Round Top to Cemetery Hill is like a blazing volcano," reported one officer. "The grand roar of nearly the whole artillery of both armies burst in on the silence almost as suddenly as the full notes of an organ would fill a church," wrote another.

In an hour and a half the Federals slackened their fire, so that their guns might cool, wrecked batteries be replaced, and the atmosphere allowed to clear.

Forty-two Confederate regiments move out. Pickett leads them, with his own division in the center. The charge begins with the precision of dress parade. A murmur of admiration sweeps the Union line. And then its artillery opens again with every ounce of its reinforced power. Presently torn by shot and shell the charging host comes within rifle range. They press on. They are within 150 yards of their goal, facing death in a thousand forms.

End of the Bloody Fight.

Pickett's men melt like snow on a hot day, but a second and a third wave sweeps on. They face double canister at ten paces, but they silence the guns that fire them. Into Webb's rifle pits they leap and over the barricade. Armistead and his men vault over the stone wall. He falls mortally wounded. The momentum of the charge wanes and dies.

Raked with fire and cross-fire, there is nothing to do but fall back.

But they return across the sanguinary field in such fashion that the repulse does not become a rout. Out of the 4,800 men of Pickett's division, not more than 1,000 return. Of the 15 field officers and four generals, only Pickett and one lieutenant colonel escape unscathed.

The Battle of Gettysburg is ended. As one walks over the scene and tries to measure the courage of the men who fought here, he comes to understand why there is pride in every American heart that the battle field is now a military park, and that it was dedicated in immortal words by Abraham Lincoln.

The fine generosity of the Federal government, that knows no North and no South in the marking of these hallowed acres, cements in the firmest bonds of history the sons and daughters of those whose bravery and courage made the field the sacred spot it is.

First established by the Gettysburg Battle Field Memorial association in 1864, taken over by the government in 1895, more adequately marked by the Gettysburg National Park commission, the park now consists of 2,530 acres of government-owned land. It has 2 1/2 miles of avenues, in addition to the state and county highways that traverse it. In it there are 83 statues, in addition to nearly 800 other monuments. There are also 1,410 bronze and iron tablets and 323 granite markers on pedestals, while 419 mounted cannon, caissons and limbers show the artillery position of the field.

As a recent army report declares: "It has been well said that Gettysburg was in a measure the American soldier's battle, a battle of the ranks, a struggle of American prowess and courage, of discipline and tenacity, of unswerving fidelity and unselfish devotion, a contest of American manhood."

## REPUBLICAN WOMEN TO HAVE MANY ACTIVITIES

Tenth Ward Republican women started their winter activities at their club rooms, 840 Dewey avenue, with an evening card party Nov. 16 and a masquerade on Nov. 21. Proceeds are to be used to fill Thanksgiving baskets for the needy. Both affairs were a pronounced success.

The masquerade, especially, was so thoroughly enjoyed that another has been suggested for the near future. Mrs. Edna Waller was chairman of the card party and Mrs. Emma Saunders of the masquerade. Among the plans of the club are evening card parties to which the men will be invited and also meetings devoted to the study of politics.

Regular Monday afternoon card parties have been resumed and are proving popular. Players pivot and there is a prize for each table; choice of game is optional. To meet a growing demand another afternoon for devotees of contract bridge is being considered. With the many activities already planned as well as those under consideration, the women are looking forward to a busy winter, both socially and politically, at their club rooms.

### Speakers' Classes

Rev. Bertram Gerling, resident of the Tenth Ward, has recently organized the Mutual Benefit Platform Speaking Class of this city. Rev. Gerling is pastor of the Temple of Fraternal Service at 53 South avenue, where the class convenes every Tuesday evening at eight o'clock. The class is non-sectarian. Visitors are invited. Those interested in personal Platform Speaking Study are requested to make inquiry.

## RIVIERA FEATURE REVIEW

Tues.-Wed.—(Free china both nights)—"Goodby Again" with Warren William and Joan Blondell; and "The Sphinx" with Lionel Atwill and Sheila Terry.

Thurs.-Fri.-Sat.—"The Bowery" with Wallace Beery and Jackie Cooper; and "Three Little Pigs," Walt Disney creation. (Continuous show Thanksgiving Day, 2 to 11 p. m.). Added attraction Fri.-Sat.—"Tarzan."

### "Ann Vickers"

Ways of getting rid of "undesirable characters" who might obstruct prison brutalities are revealed in scenes of "Ann Vickers," which show Irene Dunne being framed into a compromising position.

In the title role of the RKO-Radio Picture, based upon Sinclair Lewis' best selling novel, Miss Dunne is seen as a social service worker attached to the staff of a state penitentiary. When she objects to the brutal methods sanctioned by the warden, she is made

## Redeemer Young People Present Comedy Dec. 8

Young people of Lutheran Church of the Redeemer will present the three-act mystery comedy, "In the Light of the Moon," under the direction of Austin Grab Friday evening, December 8, in Ascension Parish Hall. "To make good people laugh" is the role of the comedy writer so happily presented in this play.

The story revolves about the attempts of Barny Hathaway (Len Miller), a young architect, and his sister Hope (June Knitt), to manage a large country place willed them by an aged uncle. Their attempts for success bring to the house Cynthia Sears (Helen Woehr) and her tutor (Winnie Smith), along with a mysterious Mr. and Mrs. Barrett (Paul Lange and Marion Low). Rodney Rogers (Kenn Storandt) and his tutor (Einar Anderson) and a musical star (Ellen Tomer) also arrive later. The servants, Jake and Della (Wally King and Dorothea Cliequeno) furnish clever humor as does also the Gypsy's Prophecy, presented by Margaret Lange. What is the mystery and who solves it? This will be disclosed December 8.

Music for dancing following the comedy will be furnished by the Blue Rhythm Playboys Orchestra. Leonard Hammer is chairman of tickets and publicity.

### LAKEVIEW UNIT

Lakeview Unit held a card party Nov. 22. There is no meeting next week. Dec. 6 will be an all day meeting, featured by exchange of Xmas suggestions and making of favors for different occasions. Leaders will be Mrs. Vincent Fromen and Mrs. Harry Watt.

## New John Marshall High Assured by Appropriation

Final consumation of the much-discussed plan for a new John Marshall High School came in sight last week as result of direct word from Washington that \$1,490,000 would be allotted to Rochester by the National Public Works Administration.

Plans for a Colonial-type structure, prepared by Francis R. Sherer, superintendent of buildings for the Board of Education, have long been prepared. These will be submitted to contractors for new bids, the original bids having been invalidated by lapse of time since their presentation. Construction will be under way at the earliest possible moment, it is reported.

Acquisition of several pieces of property on Avis and Primrose street is said to be involved, as the new school will be built east of the old structure on Ridgeway avenue. Classes will continue without interruption in the old building.

## Card Party Announced By Italian Womens Club

Italian Women's Republican Club of the Tenth Ward will sponsor a card party at Women's Republican headquarters, 840 Dewey avenue, Friday evening, Dec. 8.

Miss Mary Cardaro, general chairman, will be assisted by Mrs. J. Buella, Mrs. J. Figliola, Mrs. A. De Frank, Mrs. J. Bovenzi, Mrs. Alice Dano and Mrs. J. Stagnetto. All games will be played with a prize for each table.

Designed to accommodate 2,350 students, the school will relieve a seriously-crowded condition and also provide for future increase in enrollment. The announcement was joyfully received by Principal Elmer W. Snyder, who has led the movement for a new school, and by the students, who indicated their approval by issuing last Wednesday an extra edition of their newspaper, Jo Mar, to commemorate the event.

## Democratic Womens Club Holds Its Victory Meeting

At the regular meeting of the Democratic Women's Club of the ward Tuesday evening, Nov. 14, Mrs. Joan Lynn Schild, president, gave a resume of the activities of the women during the campaign.

A rising vote was then given by members of the club in appreciation of the work done by Mrs. Schild. After these bouquets were passed around, some real floral tributes were presented to Mrs. Schild and Mr. Rogers, by the 26th district. Mrs. Rogers assisted by the women members who reside in the 26th district, served a luncheon to all those present. The new Supervisor expressed his thanks to all the Democratic women of the Tenth who helped to break all records here for the party. He said that he would use all his energies to keep his promises of economy and honesty.

Thomas Moran, Executive Committeeman and leader of the ward, gave a short history of his staunch labors for the party for the past thirty years, during which time the Democrats had always been in the minority.

The women began in 1927 with a membership of six at the home of Mrs. Schild, who has been president since the club was organized. Mrs. Caroline Moran, vice-president, now the State Committeewoman for the 4th District; and Mrs. Rosetta B. Lewis, secretary and treasurer. Other charter members were Mrs. Amelia Kunz, Miss Rose Weiser and Mrs. Minnie Love.

The next meeting of the club will be in the nature of a card party, to be held tonight in the two rooms over the Liberty Theatre. The committee in charge is Mrs. Laura Krug, Mrs. Bessie Cowles and Mrs. Louise Robinson. There will be prizes and refreshments; tickets as usual are 25 cents. Everyone is invited.

**New Colored Film Are Offered First Time Here**

Home movies, fast-growing in popularity throughout the country, took another big step forward with the recent release of new colored 16 m. m. films to be used on regular projectors without the use of filters or any extra equipment.

These colored films are being made by the Dunning Process Co. of Hollywood, Cal., and are being introduced here by the Bourbon Film Library of 387 Magee avenue. They are the first to be produced which can be run on the ordinary 16 m. m. projector without the additional expense for equipment heretofore necessary before colored movies could be shown in the home.

Mr. Bourbon has just redecorated his studio and invites those interested in movies to visit it. The studio is a completely equipped theater, decorated in a style to correspond with its name "Studio Orientale."

**PENGUIN MOST AMUSING BIRD**

Life and Habits of This Queer Polar Resident.

Prepared by National Geographic Society, Washington, D. C.—WNL Service

THE penguin colony of the London zoo recently presented a new problem to its keepers when these natives of frigid Antarctica suffered from bronchitis. Among other things, muffers were provided in an attempt to save the birds, which are worth several hundred dollars a pair.

While there are several species of penguins, the Adelle of Antarctica, which was a source of amusement to members of the Byrd South Pole expedition, is, perhaps, the most entertaining.

The Adelle penguin resembles nothing so much as a solemn, round little old gentleman in starched shirt and swallow-tail coat. And the bird's habits are as strange as his appearance. He spends his whole allotted span within the Antarctic Circle, supplying that desolate region of ice and snow with one of its few notes of life. His wings are water-wings, which serve him for naught in the air.

Like man, he proposes to the lady of his heart by proffering her a stone. He walks erect, toddling along with precise and preoccupied mien, as though bent on some most important business, but more often than not this attitude is only a pose. Time is really no object to him, and after hurrying away in one direction he is likely to turn and retrace his steps or dash away in some other. Perhaps he may even stop suddenly and, tucking his head beneath a flipper, go calmly to sleep.

If pursued or desirous of moving over soft snow in a hurry, he turns himself into a toboggan by dropping down on his smooth-feathered breast and skidding gayly along, propelled by both feet and flippers. Indeed his idiosyncracies are legion, and they make him the most interesting of Antarctic creatures and endear him to every explorer of the desolate South Polar regions.

Belongs to a First Family. This strangely manlike bird is truly an F. F. A. (First Family of the Antarctic), tracing his ancient lineage back to those halcyon days of the earth's youth before the coming of the great glaciers.

The Penguin, interesting Resident of Antarctica.

Then, in a temperate or perhaps even tropical climate, it is probable that his ancestors flew like other birds. But as centuries passed into ages and cold crept over the land, killing all vegetation, the penguins were forced to seek sustenance in the sea. Eventually their wings adapted themselves to the new mode of life and became the flippers that they are today.

Adelle is a gregarious creature, and in October and November (the Antarctic spring) he congregates, along with countless thousands of his kind, in great rookeries. There the age old business of choosing a mate is his first consideration; but, as with true love elsewhere, the course of his romance is not always smooth.

**GETS 13-POINT BUCK AT BIG MOOSE LAKE**

One of the finest specimens of deer to come out of the Adirondacks in some time was brought home Nov. 9 by B. Williams of Magee avenue. It was a 13-point buck and "weighed in" at Ester's Market at 169 pounds.

Mr. Williams bagged the deer at Big Moose Lake on a hunting trip with Harry F. Meyer of Magee avenue and Dr. O. A. Kolthoff of Thurston road, with Charles Wood as guide. The others in the party also brought home a deer each.

After deciding in his own mind on the lady he would wed, he must not only win her favor but also vanquish whatever rivals may present themselves. In achieving the first of these designs, he takes a small stone in his beak and lays it humbly at the lady's feet. This gift is accompanied by a soulful gaze from his white-rimmed eyes and an unmelodious "quaark" from the bottom of his heart.

Very likely he will have to repeat this performance a number of times before he succeeds in breaking through her bashful feminine reserve; but he is nothing if not persistent, and finally she yields to his importunities to the extent of giving him a critical glance. Thus encouraged, he assumes his grandest posture and invites further inspection. If he pleases her, the lady squawks her approval, he adds his vocal efforts to make it a duet, and both away and stretch and gaze heavenward in an ecstasy of penguinish bliss.

But gentlemen penguins are not only good lovers, they are extremely pugnacious as well, and when more than one Romeo is attracted to the same Juliet, a merry fracas is likely to ensue. With beaks and flippers they go for each other, delivering vicious cuts and stabs and raining blows about them with such speed that the eye can hardly follow. If the fair object of all this excitement has a preference for one of the combatants, she may enter the fray on his side; but more often she will sit serenely by while her admirers do battle. Eventually one of them will beat a forced retreat and leave the spoils of war to his conqueror.

After courtship comes the important business of nest-building; and this, too, is accompanied by much ado. An Adelle's nest consists of a loose pile of small stones, quite unadorned or softened with lining; but, unfortunately for the peace of the avian community, there is not in the near vicinity a sufficient supply of such building material to go around. Then does temptation enter into the life of a penguin. His soul is filled with a great desire and he longs to supply his wife with more and better stones for the construction of their little love nest, but there are none to be had, with honor.

Soon he covets those within his neighbor's stone pile, and, having thus broken one commandment, he skids farther along the downward path and before long is engaged in taking what he can while the neighbor isn't looking.

Constant vigilance is the price that must be paid for keeping a stone bungalow under one's feathers in a city of penguins.

After the newlyweds have become proficient enough at the gentle art of purloining stones to be able to maintain a nest, two eggs are laid and the process of incubation commences. This lasts about a month, with both birds participating, for they have a strong parental instinct and sit patiently for long hours at a time to protect their eggs from the harsh Antarctic blasts.

While sitting on the nests, hen birds amuse themselves by attempting to reach out with their beaks and lift a stone from the pile next door. If detected, and they frequently are, this is a signal for a squabble, and, without leaving their nests, the two ladies try to bite out each other's tongues. Happily, they seldom succeed.

**Chicks Are Always Hungry.**

When hatched, the chicks are little balls of sooty down, and they wear their "baby clothes" for some weeks before exchanging them for suits of feathers. They start getting hungry soon after they are hatched, and continue in a state of unappeased appetite as long as there is the smallest empty space within their elastic young bodies.

Adelles live largely on a small, red, shrimp-like crustacean which occurs in amazing numbers in the Antarctic seas. There is little or nothing for them to eat on the land, and therefore, until the chicks are fully developed and able to take care of themselves in the water, they must be fed. This their elders accomplish by means of regurgitation.

The boggy man for baby penguins takes the form of a skua gull. This unpleasant bird conceives its mis-

sion in life to be the prevention of overpopulation among the Adelles, and woe be unto the unwary chick which wanders away from its comrades. A marauding skua will drop down beside it and with a few savage blows of its strong beak end the chick's earthly career and feast upon the remains.

Adelles have never been successfully transplanted from snowy wastes. However, some of their cousins have survived the milder temperatures of Europe and America and are to be found in certain of the larger zoological gardens.

One may visit a pair at the National Zoological park at Washington, D. C., and find them well disposed. As you enter the inclosure both of them come forward with grave and dignified demeanor and emit "quaarks" of greeting. Coming closer, they give you a careful inspection, out of first one eye and then the other, and then sit down with an air of resignation and an expression of utter boredom. Your feelings are a bit ruffled until the keeper assures you that their behavior is due to the keen disappointment they experienced on finding that you were not a fish.

When the new wing of the birdhouse at the Washington zoo is built, one end of it is to hold a large glassed inclosure. Within this, ice machines are to create an Antarctic atmosphere, in which it is hoped that a colony of penguins will live and flourish. Perhaps science will yet devise a means whereby those of us who cannot well travel to the South pole may nevertheless enjoy the captivating drollery of the Adelle penguin, most interesting residents of Antarctica.

**Sphere of Influence**  
A sphere of influence is a territory within which the political influence or the interests of one nation are permitted by other nations to be more or less exclusive. The term is loosely used, especially of regions more or less under the control of a nation, but not constituting a formally recognized protectorate or suzerainty.

on **FRIDAY, DECEMBER 1st**  
At 9:30 a. m.

**PRIZE CONTEST**  
How many miles do you think this car will run? Three prizes will be given for the nearest correct answer sent to Dewey Super Service, 1687 Dewey Ave. 1—\$3 worth Pyroil; 2 and 3—\$1.50 worth Pyroil each. Contest closes Wed., Nov. 29.

The car has been previously driven 1,000 miles using Kendall Gas and Oil with Pyroil added, building up a graphoid surface on all metal surfaces in the motor.

Now, during the run, the only lubricant will be Pyroil-Kendall Lubricating Gas. The crankcase will be drained of all oil.

Pyroil self-lubricated metal surfaces enabled a car to run 903.4 miles with no oil in the crankcase without damage at Pawhuska, Okla., in April of this year. This, of course, was a much more severe test than your car will ever have. Pyroil protects where oil alone fails.

## EX-MARSHALLITES ON ALL-AMERICAN SQUAD

The latest edition of the American Sports Publishing Company's soccer rule book carries the names of two former John Marshall High School players who were chosen on the All-American squad of outstanding college soccer players. The men chosen were Huntley Parker of Daisy street, and Kenneth Storaadt of Dewey avenue.

Parker played at fullback on the championship Springfield College team for three years; being elected captain in his senior year. At Springfield Parker built up a reputation for himself as one of the outstanding defense men in Eastern circles. He is now with the Kodak Park team.

Storaadt played at center-half back on the Oberlin College team for two years, after one year at left-half. His team went through the past two seasons without a defeat, during which time they pinned three defeats on the Ohio State kickers.

## Car Passes 550-Mile Mark Without Oil In Crankcase

As this issue went to press today, the Ford car running without oil at Dewey Super Service had passed the 550 mark and appeared to have possibilities of surpassing the world record. If the car continues at its present rate, it will break the record sometime this week-end. Last Friday morning, after all oil had been drained in the presence of officials and witnesses, the tank was filled with Pyroil-treated Kendall gas and the car started on a tour of the city. Following the first day's run, it was jacked up in front of the station at Dewey avenue, and its crankcase was removed

and it has been run every day, adding mileage to its speedometer with no apparent harm being done to its motor.

The mileage already recorded has surpassed the hopes of nearly everyone connected with the test. The car is attracting no little attention from interested motorists who seem perplexed at the car running so far without oil.

How long it will run is indeterminate at this time, but a determined effort will be made to break the world's record of 903 miles. At any rate the car will be run until something goes wrong with the motor.

## RIVIERA FEATURE REVIEW

### Week-end Program

Tonight—"I Loved a Woman" with Edward G. Robinson and Kay Francis; and "Walks of Gold" with Sally Eilers and Norman Foster. (Free china and goldware.)

Fri.-Sat.—"Night Flight" with Lionel and John Barrymore, Helen Hayes, Clark Gable and Robert Montgomery; and "Midshipman Jack" with Bruce Cabot and Betty Furness; also "Tarzan."

### Sun.-Mon.-Tues. Review

Gary Cooper, tall, lean, handsome star, once more brings to the screen one of those superb characterizations which have made him both the envy of Hollywood and the top-ranking favorite of cinemagoers. This time it's in Paramount's "One Sunday Afternoon." As the swaggering, blustering small-town dentist of an older and gentler generation, Cooper offers a

performance that is well-nigh perfect. One might readily believe that James Hagan, author of the successful Broadway play, which missed the Pulitzer award by but one vote, wrote the story especially for Cooper.

Jean Harlow and Lee Tracy, together for the first time as co-stars, are said to have provided the biggest truckload of laughs to roll out of Hollywood in the hilarious picture, "Bombshell."

Miss Harlow, in what she admits to be the most unusual role of her career, is seen as a glamorous screen star whose life is made miserable by the antics of her press agent, Lee Tracy; her liquor-loving father, Frank Morgan; her false lover, Franchot Tone; her director, Pat O'Brien; her secretary, Una Merkel; her brother, Ted Healy—and a score or more of other well-known personalities.

## 3-Act Mystery-Comedy To Be Staged Tomorrow

"In the Light of the Moon," a 3-act mystery comedy, will be presented tomorrow (Friday) evening, at eight o'clock in Ascension Parish Hall, Lake avenue and Riverside street, by young people of the Lutheran Church of the Redeemer. Austin Grab is director and Robert Hadley stage manager.

The cast includes Len Miller, June Knitt, Helen Woehr, Winnie Smith, Paul Lange, Marion Low, Kenneth Storaadt, Einar Anderson, Ellen Tomer, Wally King, Dorothea Cliequenois and Margaret Lange.

The play will be followed by dancing with music furnished by the Blue Rhythm Playboys Orchestra.

## Radio Tips, Questions and Answers

BY H. S. RUSSELL

The buying of a new radio should receive much consideration. No two people desire just the same qualities in a receiver and where several people operate a receiver a happy balance should be struck. A very sensitive (powerful) receiver will probably prove somewhat noisy; a too selective radio will not have good tone quality; while too broad a tuner will provide too much interference and cross talk.

An easily read dial and not too sensitive controls are appreciated by elderly people or those possessing poor eyesight, while a good automatic volume control is the blessing to radio reception that the self starter was to motoring. Father wants a radio to "get the coast"—and beyond; mother wants one easy to tune, and that doesn't fade; daughter likes to hear the rich "boomey" bass of a good dance orchestra and son wants a crisp, clear speech so that no part of the announced football or baseball game or world heavy-weight fight will be hard to understand. It takes a good radio to do all this.

Much trouble has been experienced lately through stations interfering at a dozen spots on the dial. Even the most selective of receivers are bothered. This is due to the fact that many frequencies have two or more stations operating at the same time, while the high power of both sending and receiving equipment bring in many stations never before heard which adds to the already congested condition of the air.

## ROGER'S TESTIMONIAL ATTENDED BY OVER 500

Jubilance reigned at the testimonial dinner given for Supervisor-elect George Rogers Monday night at La Boheme as Democrats, reformed Republicans and even good Republicans gathered to pay tribute as well as to celebrate the recent Democratic victory.

Preparations had been made for 350 and as a consequence when over 500 put in appearance, the Tenth Ward's newest amusement place was crowded to the doors. However, this failed to put a damper on the spirit of either the guests or the speakers. Besides Mr. Rogers, speakers were the Rt. Rev. Msgr. George Burns, Thomas Moran, who acted as toastmaster, Councilman-elect Julius Hoesterey and P. H. Galvin.

All the speakers with the exception of Msgr. Burns, who confined himself to a personal tribute to Mr. Rogers, were critical of the welfare situation and promised a "more humane system and the elimination of politics after Jan. 1."

Entertainment was supplied by pupils of Mrs. Marjorie Miller and Chuck Lennon's Orchestra played for dancing. Leo Gunn was general chairman of the committee in charge.

### LEXINGTON SCHOOL 34

**CENTURY OF GROWTH**

San Francisco Seen From the Air.

Prepared by National Geographic Society, Washington, D. C.—WNU Service.

**E**VEN one with the wildest imagination finds it difficult, while strolling down San Francisco's Market street, or Chicago's Michigan boulevard, to visualize the former city as a sleepy Mexican village and the latter as a tiny frontier town around a stockade-encircled fort a century ago.

Then the Mississippi was "way out West." It was as late as 1792 that separate statehood made the momentous first step west of the Alleghenies, as Kentucky's lines ran out in their own right (the area had been a part of Virginia), the first state to reach the once remote river.

With the beginning of the Nineteenth century, however, the Union seriously took up the real estate business in a large way.

Ohio's outlines had barely taken map form in 1803 when a huge territory was pegged out for future states, the Louisiana Purchase, which more than doubled the area of the original Union.

This taking over of 909,130 square miles by the stroke of a pen was probably the greatest real estate transaction in all history. For this potential empire the United States paid France in all—principal, interest, and debts assumed—\$23,213,567.74. It works out at a little less than 4 cents an acre!

The purchase was a happy accident—a bit of high-handed patriotism that lawyers have said "strained the Constitution."

Robert E. Livingston was sent in 1801 by the United States as minister to France to attempt to buy the "Island of New Orleans," on both sides of the Mississippi, and so to gain control of the mouth of the river. He was authorized to offer \$2,000,000 and if necessary, as high as \$10,000,000 for the patch of land.

Negotiations dragged on for two years, when suddenly war was declared on France by Great Britain. More to embarrass Great Britain than to accommodate the United States, Napoleon decided to sell the entire Louisiana territory. The historic decision was reached while the first consul was in his bath.

**Napoleon Decides to Sell.**  
 James Monroe had joined Livingston as a special commissioner, and to them was made the proposal to sell. The French negotiators asked \$15,000,000—an amount once and a half as great as the highest authorized figure.

The two Americans were aghast. Cables and steamships did not exist. To get word to America and an answer back would require many weeks. Napoleon was in a hurry. So the two envoys figuratively threw their instructions out the window and signed the agreement.

Nobody knew enough about the new domain west of the Mississippi to draw an intelligible map of it. They knew only that there were prairies and "deserts"; that beyond were mountains of some sort; and that somewhere farther on, maybe hundreds, maybe thousands of leagues away, lay the half mythical South sea.

Lewis and Clark, and soon after them Capt. Zebulon Pike, struck into the new country to see

what it was like, and as a result of their explorations Americans began to learn a few things about their vast West.

When Powell led his party of adventurers by boat down the Colorado river, in 1839, they were the first to navigate the stream through its long canyons, although the early Spanish explorers had seen the Grand canyon from above 300 years before.

The Florida Purchase, in 1819, involved a relatively small area. That acquisition really made the United States smaller than it was before. The treaty with Spain definitely marked the eastern and northern Spanish boundary all the way from the southeast point of Texas to the northwest point of California.

Parts of present Oklahoma, Kansas and Colorado, draining to the Arkansas—areas which had been thought to be in the Louisiana territory—were lost to the United States by the treaty and had to be bought back from Texas later.

More territory came to the United States in the decade 1840-1850 than during any other ten years in its history. Texas was added in 1845; the title to Oregon territory was established by treaty with Great Britain the following year; and the cession from Mexico in 1848, at the close of the Mexican war, brought in the California country and all the region east to Texas. In all, the forties added to the United States map more than 1,200,000 square miles of territory—an area larger than 20 Floridas.

**Taking in Texas.**  
 The Texas addition was unique. Texas had existed for nearly ten years as an independent republic, with diplomatic representatives in Washington and at European courts and with foreign ministers in its own capital. A separate nation entered the Union, the only case of the sort in United States history. More than 388,000 square miles of territory were added by the Texas accession.

There was rejoicing when the Oregon matter was settled, even though the "Fifty-four-forty or fight" slogan was not lived up to. Here was a shining mile-post in the history of the United States. In 70 years from the Declaration of Independence the new nation had pushed across nearly 3,000 miles of virgin territory, had brought almost half of it into statehood, and had marked the other half for future settlement.

Balboa's hazy sea had become the incontrovertible Pacific, and in that mighty ocean the United States had now taken the first step to establish its vital interest.

After the California country (including the present Arizona, New Mexico, Nevada, Utah, and part of Colorado) became United States territory, in 1848, the developments that mean map changes came to the Far West with dizzy speed. One of the world's greatest gold rushes started in '49. By 1850 so many people had poured in that California was made a state.

By 1850 railway trains were puffing back and forth from Massachusetts to Georgia, and even west of the Alleghenies

**Mr. Gobbler's Sinews Extracted By Device**

A recent addition to the equipment of the Ester Market of Dewey avenue came in handy during the recent holiday rush. It is a sinew extractor, developed especially for the purpose of taking the tendons out of Mr. Gobbler's legs.

Esters found that it met with the full approval of their customers, many of whom were not aware just what had happened to their turkeys, although all were well-pleased. All sinews are removed without breaking up the leg and the average person would not suspect it had been done until he came to eat it, according to Mr. Ester.

### DEMOCRATS PREPARE TO SUPPLANT G. O. P.

Political activity, never dormant in the Tenth Ward, is especially rampant at the present moment as the Republicans prepare to step out and the Democrats to walk in. The situation is anything but calm.

As one experienced Democrat observed, about every Democratic committeeman in the ward is gunning for one of the plums. In addition, there are many others who have come to the conclusion that they have rendered sufficient service to merit consideration and their hats, too, are in the ring.

It is quite certain, of course, that many jobs will come the way of Tenth Warders. Whether the ward will receive the same proportion as has been the good fortune of the Republicans to hold, none can say. If every Tenth Ward Republican is replaced by a Tenth Ward Democrat, there will be little cause to complain, for Chas. E. (Clip) Bostwick and his lieutenants have done well in the matter of patronage.

#### Moran Only Certainty

At this particular writing, the only known certainty for a job seems to be Thomas E. Moran, veteran leader and fighter for the cause of Democracy for over 30 years. Mr. Moran, in recognition of his long service, will probably be appointed to a Federal post which will pay him more than the position he now holds in the State service. This is not meant to infer that Mr. Moran is overlooking the interests of his workers, for he is said to be making every effort to get as many as possible placed. Rather the new position is expected to come with a minimum of effort on his part.

While the Democrats stand in line waiting for the door to open, the Republicans are hurrying around looking for jobs in private life again. A not unexpected development of the last few days was the announcement that Councilman Nelson A. Milne would be dropped from his position in the sheriff's office. This is quite generally regarded as a direct throwing-of-the-tomahawk to Mr. Bostwick by County Chairman Harry Bareham. Its consequences are expected to make themselves evident in the near future.

### News of the Churches

**Redeemer Lutheran**—A Christmas party will be given this evening in the Parish House under auspices of the membership committee for all adult members of the congregation and their friends. An interesting program has been arranged with special musical numbers by Miss Edna Bachman, soprano soloist, and a mixed quartet. Each one is requested to bring a ten-cent gift which will be placed under the Christmas tree and distributed by "Santa Claus" later in the evening. Refreshments will be served by Mrs. Lynn Conover and her committee.

The choir will meet for special rehearsal of the Christmas music at 7:30 Friday evening in the Parish House. Following the rehearsal a Christmas party will be given in charge of Miss Alvira Mender, newly elected president of the choir.

A combined service of the Sunday School and church service will be held Sunday morning beginning promptly at 10 o'clock. The members of the Sunday School are requested to meet in their respective class rooms at 9:30, whence they will march with their teachers to the church auditorium for the Christmas program and pageant. Special features will be a male chorus by the Brotherhood Class, and a special Christmas number by Kenneth Storandt and his class of young men.

The pastor will present a Christmas story, but the Christmas sermon will be given at the 11 o'clock candlelight service Christmas eve, when the electric candles will be used for the first time, replacing the dripping wax candles.

The Luther League will hold its Christmas party next week Wednesday evening with college students as special guests. Young people of Redeemer are also planning to have a part in the New Year's eve service which will be held in the Dewey Avenue Presbyterian Church.

The girls of Mrs. Versprille's Class will hold a Christmas party Dec. 28 at three o'clock in the Parish House. The Young Women's Missionary Society will join them for a supper meeting at five o'clock. Later in the evening they will all go to the Gospel Tabernacle on West Main street to distribute gifts to the children of the Mission.

The Brotherhood Bible Class will hold a social and business meeting in the Parish House Dec. 28, in charge of the president, Alfred Doe.

**Dewey Ave. Reformed**—Braynard E. Kurkowski, minister, 53 Lark street. Phone: Glenwood 2574-W.

The Christmas service will be held on Sunday at 10:15 o'clock. The Sunday School will meet at 10:00 o'clock and all will assemble in the church auditorium at 10:15 for a family Christmas worship service. Insofar as possible complete families are to sit together. There will be special music, including numbers by the choir, the children's choir, and soloist. The sacrament of Holy Baptism will be celebrated. The penny boxes, distributed in an effort to collect 10,

000 pennies as a Christmas gift to the church will be brought to the altar and presented.

A Christmas party will be held Dec. 28 for the adults of the church and all men and women over 21 are invited. A varied program of games, movies, eats, etc., is being arranged. Each person is requested to bring a 10 cent gift.

On Sunday, Dec. 31, the New Year's service will be held at 11:00 o'clock, and the celebration of Holy Communion will be observed. A watch night program is being planned for that evening, beginning at nine o'clock and continuing until midnight. Games, a one-act play, "The Christmas Carol," by Charles Dickens, refreshments, and a watch night service will be included in the varied program.

Rehearsals for a minstrel show to be given the early part of February will begin shortly after the beginning of the year. All who are interested in participating are invited to give their names to Mr. and Mrs. Chester Guerin or Mr. Edward Marlowe.

**Grace M. E.**—Sunday at 10 o'clock there will be a general assembly of the Sunday School in the church auditorium. Each department will be represented. The Junior and Senior High Department will present "The Christmas Spirit and the Tree," directed by Miss Doris Lamoree.

Those taking part are Evelyn McKellan, Esther Rowe, Gordon Davis, Robert Ambrose, James Thompson, Joyce Sequin, Martha Montague, Ray Austin, Betty Maurinus, Phyllis Axon, Jack Rutz and Cecelia Morphet. Everyone is invited.

Dr. E. D. Shepard, district superintendent, will preach Sunday. At 5 p. m. a Christmas vesper service will be held in charge of Mrs. Roscoe and the choir. The Christmas story will be told in scripture and song.

A Christmas entertainment will be presented Friday evening at seven for all members of the Sunday School. ### Pyroil-treated Car Breaks Dry Run World's Record

Having successfully surpassed the official world's record for an automobile dry run, the Pyroil-treated Ford was brought to a stop last week after running 922 miles without oil in its crankcase. The result of this test, which was conducted by Dewey Super Service of 1687 Dewey avenue in co-operation with Pyroil and Kendall gasoline distributors, exceeded all expectations and a claim is being entered for official world's record recognition.

The car was brought to a stop in the presence of all those who witnessed the draining of the crankcase at the start of the test on Dec. 1. No breakdown had occurred and the car apparently could have run many more miles without serious damage. However, the record of 903 miles having been broken, the purpose of the test had been accomplished.

After oil had been placed in the car, it was driven across the city to Sergeant Motor Corp. for a thorough inspection of its motor. The report of J. H. Williams, service manager, was, "I found that with the exception of a slight timing gear noise, the motor was as quiet as the average motor after 36,000 miles. No bearings appeared loose."

Erwin S. Coy, owner of Dewey Super Service, who drove the car,

stated that at no time did it seem to suffer lack of oil. "The Pyroil apparently did an effective venting damage to the course it would be ridiculous to suggest that we run our cars without oil, but such a demonstration as this surely is a fine testimony for Pyroil. Let me say, too, we are appreciative of the assistance rendered by Kendall gas in making this new record possible."

**R. S. T. Mayonnaise Is  
Given a High Rating**

What has freshness to do with  
the quality of mayonnaise? Hy-  
man Aroesty discovered six years  
ago that it has a lot to do with  
it and with this in mind started  
making R. S. T. Mayonnaise and  
put it on the market.

Today at 447 Lyell avenue, he  
has a modern plant with a capaci-  
ty of two carloads a week and his  
R. S. T. Mayonnaise goes to gro-  
cers at short intervals in small lots  
to insure freshness. A recent mi-  
croscopical examination made by  
Bausch and Lomb, the National  
Testing Laboratories and E. F.  
Challis showed R. S. T.'s emulsion  
to be the best of four samples sub-  
mitted.

**MAPLEWOOD UNIT**

There will be no meeting of the  
Maplewood Unit of the Home Bu-  
reau next week Wednesday. On  
Jan. 3 there will be a business  
meeting at the Maplewood Y. M.  
C. A. at two o'clock, followed by  
a demonstration of fancy breads  
given by Mrs. H. Fogerty and Mrs.  
H. G. Padley.

On Jan. 10, the Unit will attend  
the Home Bureau Institute at head-  
quarters.

**NEW QUARTERS**

The Vanity Fair Beauty Shop,  
having outgrown its present loca-  
tion, will move soon after Jan 1  
to 1520 Dewey avenue. Here will  
be located the Vanity Fair Beauty  
Shop, the School of Beauty Culture  
and the Harmon Dressmaking  
Shop. The Pidgeon Barber Shop at  
present located in this store will  
continue to occupy a portion of the  
shop, thus adding the facilities of  
a barber shop to the beauty shop.

Dr. S. J. Clarkson of Mason  
street, who has been ill for several  
days, is much improved.

**FROM FARM TO YOU**  
Today our Turkeys are enjoying al-  
most their last meal at the farm.  
We have purchased our Turkeys  
alive from the northern part of the  
state. The farmer that raised them  
took special pride in his stock. He  
didn't let them run wild, but  
housed-in and fed them all the  
eat. The result is he has pro-  
duced most beautiful, plumpest, full  
Turkeys we ever saw. We be-  
lieve dressed weight price on home-  
bred Turkeys to be the lowest in  
the country.
