STREET DIRECTORY

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of State street No. 501 comes: look at State street and you find that Jay street runs from 473 left side, and Smith street from 559, showing that No. 501 comes on the left side of State street between Jay and Smith streets.

Or, going up West avenue, suppose it is wished to take a cross street so as to call at 312 Troup street; on examination, (see Troup) you find that 306 Troup is at the corner of Reynolds street; hence, by passing from West avenue through Reynolds street to Troup, you are near the desired number 312. When streets are not numbered, dashes are used to indicate whether the street runs from the right, the left, or crosses.

Even numbers are Invariably upon the north or east side of streets.

Odd numbers are invariably upon the south or west side of streets.

Streets on the east side of the river which run east and west are usually numbered from the west toward the east; those on the west side from the east toward the west.

Streets north of Main street which run north and south are usually numbered from the south toward the north; those south of Main street from the north toward the south.

In Rochester, as in all cities, street numbers begin at the end of the street nearest the centre of the city. Number of miles of streets in city, 301 miles; alleys, 16 miles.

Rochester Athenaeum and Mechanics Institute.

88 South Washington Street.

THE ROCHESTER **ATHENÆUM** INCORPORATED 1830; MECHANICS INSTITUTE FOUNDED 1885; CONSOLIDATED 1891.

It is one of the primary objects of the Rochester Athenaeum and Mechanics Institute to give to the young people who are employed in earning a livelihood, an opportunity to acquire a technical knowledge in the arts, during their evening hours, which will enable them to become more efficient in their several employments, or to enter others for which they may be better qualified, or which **may** be more to their taste.

The school was opened first with instruction in Drawing only, but other branches have been added which cultivate the esthetic as well as the practical side of life, as demand has arisen for them and opportunity occurred, until now there are classes in Architectural, Mechanical, Pen and Ink and Freehand Drawing, Designing, Clay Modeling, Manual Training, China Decorating, Water-color and Oil Painting, and Mathematics.

In 1892 a favorable opportunity occurred of securing the property now occupied for a permanent **home** for the Institute, and a beginning was made in Domestic Science by opening a cooking school. This was continued through the years 1893-4, with the addition of Plain Sewing, Dressmaking, Laundry Work, Home Nursing, and Millinery.

The classes are open to all, without distinction of nationality, sex, creed, or color; 1,354 pupils have attended the Institute during the year ending June 1, 1896; 538 of these were in the Department of Domestic Science; 816 in **Department** of Industrial and Fine **Arts**.

The expense of conducting the Rochester Athenaeum and Mechanics Institute is met chiefly by voluntary contributions from the citizens of Rochester. The receipts for tuition amount to about one-half of the expense. Like similar institutions not yet endowed, it depends for **support** upon the generosity of those who are interested in providing the best possible opportunities **for** those who are anxious to acquire a practical education.

THE CIVIL SERVICE.

For State Board of Commissioners, see page 270.

By enactment of the legislature, all positions in the public service of Rochester (excepting those filled by public election, the heads of departments, and positions under the city treasurer, or the Board of Education), must be filled from applicants who have successfully passed an examination by a board of civil service examiners.

Two Boards, consisting of three members each, are appointed by the mayor, and not more than two members can be of the same political party.

Whenever a position is to be filled, the examining board will notify the applicants on record, or such number of them as can be conveniently examined, to appear for examination, and appointments must be made by the appointing power from the three on the list of the highest standing. Soldiers or sailors serving in the war of the rebellion, having any standing on the list, and otherwise equally competent, have the preference. The civil service does not affect removals from office. The civil service is classified as follows:

Schedule B, Part 1. Includes all officers and members of the Police and Fire Departments.

Schedule B, Part 2. Includes subordinate officers, clerks, and assistants not included in Part 1. Laborers and day workmen are not subject to examination.

Local Boards of Municipal Examiners. (For City Appointments).

Schedule B, Part 1.—J. Stuart Page, *Chairman*; Roy C. Webster, F. S. Hutchinson, A. Benedict.

Schedule B, Part 2.—Samuel P. Moulthrop, *Chairman*; Elbridge L. Adams, Alfred Elwood, A. Benedict.

Secretary of both Boards.—A. Benedict.

NEW YORK STATE GOVERNMENT.

State Election on the Tuesday succeeding the first Monday of November.

EXECUTIVE DEPARTMENT.

Governor.—LEVI P. MORTON, of Rhinecliff; salary, \$10,000; elected biennially; term expires Dec. 31, 1896.
