PREFACE.

The population of our city, cannot now be less than forty thousand. A Directory, is therefore, necessary to every business man. It is impossible to form an adequate conception, in advance of the labor which may be saved, and the inconvenience obviated during the year, by having at hand for consultation and reference, such a Register of names, localities, statistics and other indispensable information as is contained in the present volume. Every Public Office, Store, Counting-Room and Mechanical Establishment, should possess the Directory.

We have the pleasure of now presenting to the Rochester public, the Third Volume of "THE DAILY AMERICAN DIRECTORY. We have taken especial pains, to make it full, complete and accurate, and trust it will be found worthy of as great favor as was accorded to its predecessors.

The labor, care and diligence, required to complete a good Directory, are immense; and it would be claiming an impracticable degree of perfection to say, that the work now submitted, is free from omissions and errors. There is in many instances, great difficulty in obtaining the requisite information in correct form, owing to the carelessness of individuals in giving their names, residences and business. All we can say, is, that every effort has been used, to have the mistakes as few and immaterial as possible. For the rest, the Directory must be left to speak for itself. We cannot but think, however, that few errors comparatively will be discovered in its pages.

The usual Statistics and other local information, will be found embraced in the present volume, with more than ordinary fullness. We need not attempt to particularize in this respect—the book will show for itself.

The statistics &c., of the various Benevolent, Literary, Horticultural, Fire, and Military Associations, &c. &c., of the city and county, are believed to be full and accurate, affording much valuable information.

The table of Streets, Alleys and Public Squares, alphabetically arranged, will be found of great convenience, not only to strangers, but to our own citizens.

A neatly-executed Map of the City is inserted, delineating the names of the Streets, Public Squares, the location of the Churches, District

Schools, and the Wards, with their boundaries. The importance of such a Map, is obvious to every one.

The publishers tender their acknowledgements to those ladies and gentlemen who have kindly furnished statistics, in regard to the Societies with which they are connected.

The reader, is particularly referred to the Advertisements at the close of the work. That portion of the business community, who have taken this prominent means of giving extensive and permanent publicity to their several kinds of business, while they are entitled to our thanks, cannot fail to reap a rich remuneration.

BENEVOLENT INSTITUTIONS.

FEMALE CHARITABLE SOCIETY.

[For the following items relative to this truly benevolent Institution, we are indebted to a brief sketch of its rise and progress, prepared by Mrs. JAMES K. LIVINGSTON, in 1844, from which we extract]

"The Society was first organized, prior to the year 1827, at the house of EVERARD PRICK, and Mrs. P., was chosen Treasurer. Its formation was the result of a Charity School, which had been established previous to the year 1822, and taught alternately by Ladies in a room on State street, which was owned and gratuitously granted for the purpose, by the late JOSIAH BISSELL, near the premises now occupied by the City Bank. The educational wants of the poor, together with other destitutions consequent upon sickness in a new country, prompted the foundation of this Society, on the 26th day of February, 1822, for the purpose of more efficient action. Thus, we find even at this early day, that our citizens considered the poor, and according to their ability, afforded them advantages equal to their own, for schools of any kind were at this period, 'few and far between.'

"The first garments collected for distribution, were donations from the ladies, of some articles needed. Beds and bedding, and other conveniences for the sick, were at that time, and have been ever since, lent to the individuals, to be returned by the Visitor, upon their recovery. Infants' clothing has been given from time to time; and for many years the children of the school were clothed by the Society. A school lot was presented by the late Colonel FITZHUGH, situated, at that time, upon the outskirts of the Village, near the forest, but which, it was known, would soon be valuable. It is now an eligible lot on North Washington-street, with a plain building upon it. Since the establishment, however, of our Common School System in this city, this school has been discontinued, except for the purpose of teaching the children of the poor to sew. The number of districts for the visitation of the sick has increased from fifteen to forty-four. The duties of the Treasurer are already quite onerous.

"One happy feature of the Society, has been its freedom from all bigotry of sect or party—all classes of our citizens are cordially invited to lend a helping hand; while, also, all classes who need its aid, share with equal willingness in its benefits.

ROMAN CATHOLIC ORPHAN ASYLUM.

This Institution for the support and education of destitute orphan children, is situated on Frank-street, in rear of St. Patrick's Church, the ground on which it stands being the property of that congregation. It is a large and handsome brick building, and was opened for the reception of inmates in July, 1842, since which time many destitute orphans of both sexes have been admitted. Of this number forty-five (all females) are at present in the house, the few remaining male children being supported out of the Institution. The means of support are derived from the subscriptions of the members of the Catholic Orphan Asylum Society, lately incorporated by the Legislature; from the donations of charitable individuals; and from the proceeds of Annual Fairs, which have hitherto been liberally patronised by the citizens of Rochester generally.

This establishment is under the exclusive control of six SISTERS OF CHARITY, who also teach a Select School, "THE ST. PATRICK'S FEMALE SEMINARY," which is attended on an average by about one hundred pupils. There is also a FREE SCHOOL taught by the Sisters of Charity, which is attended on an average by about one hundred and eighty pupils. The Female Sabbath School taught by them, assisted by others, numbers nearly three hundred pupils.

To meet the increasing wants of the Asylum, the Trustees during the past few years have made additions equal in extent to the former building, and erected an additional story to the entire structure. It is now a large and commodious building, well adapted to promote the comfort and health of its inmates.

AGRICULTURAL SOCIETY.

MONROE COUNTY AGRICULTURAL SOCIETY.

In the year 1833, an Agricultural Society was formed, of which WILLIAM GARBUTT, of Wheatland, was the presiding officer. After a vacation of several years, the Society was revived, in a somewhat different form under the title of the "Genesee Agricultural Society." On the 28th of May, 1841, a Society was organized, embracing a large portion of the Western part of this State.

During the session of the Legislature for 1841, a law was passed giving a bonus of \$8,000 to the different counties, in proportion to their population, on condition of their raising, in each county, an equal amount—the share of the County of Monroe being \$194.

In consequence of the passage of this law, the Genesee Agricultural Society, by a vote of the members, changed the name to that of the Monroe County Agricultural Society, and restricted its limits to the county.

Annual meetings are held on the second Wednesday in December, and the Annual Fair, in Autumn, of each year.

# CRANE & CLARK,

## DENTISTS,

CONCERT HALL BUILDING,  
NO. 42 STATE STREET.

Such have been the advances in Mechanical Dentistry within the last few years, that there seems to be little more by way of improvement for us to expect.

We now insert entire sets of teeth in our own peculiar way, without fastenings of any kind, save that of the atmosphere, in a manner that persons can masticate food nearly as well with our masticating apparatus, as those persons who possess a set of *nature's* handiwork; indeed, we are often told that our teeth, in some respects, are to be

## PREFERRED TO NATURAL ONES,

inasmuch as they are more easily kept free from extraneous substances, and are also destitute of vitality; and as to appearances, no one who has seen a set of our artificial teeth will for a moment doubt that they possess beauties of symmetry, color of teeth and gums quite equal to nature herself.

Dental Surgery has within a few years received a new impulse, so that we are enabled to relieve and save many a painful tooth, which formerly was extracted, without the slightest remorse on the part of the operator. In the treatment of diseases connected with the antrum maxillare, gums, and all neuralgic difficulties, *tic douloureux*, Teething, &c., we bestow strict attention. Persons wishing sets or parts of sets, can have temporary teeth inserted, with or without gums, on the same day their teeth are extracted. Tooth Washer and Dentifrice prepared with direct reference to individual cases. A work entitled 'A Guide to Sound Teeth,' by D'Orville Crane, M. D., D. D. S., for sale at the several Bookstores.

We wish to call the attention of the trade to the fact, that we are engaged in a strictly WHOLESALE business, and that we are the only house in this city whose business is confined to the Wholesale trade. The senior member of our firm spends the business season in the New York market, and our entire purchases are made from

### Importers and Original Holders,

from the same sources and upon equally favorable terms with those of New York Wholesale Grocers; hence we are enabled to offer all goods in our line at prices as low, and upon terms as favorable as those of New York Jobbers. We shall at all times have a stock on hand of

and guarantee that all goods sold by us shall be satisfactory to the purchaser, both in quality and price. # TEETH EXTRACTED WITHOUT PAIN

## DR. WANZER, DENTIST,

NO. 10 BUFFALO ST., PITKIN'S BLOCK, ROCHESTER

Teeth of the best manufacture will be inserted on gold plate, and warranted equal to any artificial teeth in the known world. The expression of the teeth shall in all respects match the peculiar character of the man, in which case the common eye, (which sees all things, and none in particular,) cannot detect them from the natural teeth.

That which secures the most happiness to the human family, and preserves the beauty, character and natural expression of the mouth, is too often omitted, until the enemy insidiously pursues his corroding influence down to the nerve of the most valuable of nature's organs. Then begins that most dreadful, and too common pain to be appreciated, THE TOOTH-ACHE, with all its accompanying afflictions. Inflammation of the internal membrane, pain in the eye or ear, (of that side in which the carious tooth is situated,) neuralgia, suppuration, and lastly a standing abscess, which is generally incurable.

Ladies and Gentlemen of this city, and vicinity:—if you will take the timely counsel and operative skill of Dr. Wanzer, your teeth will be preserved for almost any period of life. Dr. Wanzer having been many years engaged in his profession, and known to many of the most worthy of his brethren in the Union, who will cheerfully acknowledge his filling to be the most scientific in every particular.

Young gentlemen in the country, by sending to Dr. W., can get any article which they may require, by giving a description through the Post Office, and sending a remittance for the same.

DAILY AMERICAN

**PERFECT FREEDOM FROM COUGH  
IN TEN MINUTES AFTER USE,  
AND  
A POSITIVE CURE IN A FEW DAYS INSURED BY  
BRYAN'S  
PULMONIC WAFERS.**

The most extraordinary cures have been performed by this extraordinary remedy, wherever they have been introduced. A single dose is guaranteed to give immediate relief, and a positive cure is warranted in all cases of

**COUGHS, COLDS, INFLUENZA,**

**Sore Throat, Wheezing, Asthma, Irritation of the Uvula,  
and Tonsils, Bronchitis, Consumption,**

**AND ALL PULMONARY DISEASES OF THE**

**CHEST AND LUNGS,**

The medical properties are combined in an agreeable form, and PLEASANT TO THE TASTE, so that any child will readily take them. The convenience of being able to carry in the pocket an agreeable and effectual remedy, which may be taken at intervals, is unquestionable, as the irritation of the Throat, which produces coughing requires something to be taken frequently. Bryan's Pulmonic Wafers are admirably adapted for the purpose, and are guaranteed in all cases to be effectual, and equal to representation or the money paid for them will be refunded should relief not be obtained.

Bryan's Pulmonic Wafers were prepared for several years in England, by the proprietor, and gained the approbation of the following eminent physicians, and whose authority is alone sufficient to all old countrymen:

Sir James Clarke, physician to the Queen; Sir Chares Clarke, do.; Dr. Locock; Dr. Turnbull; Dr. Hue, Senior Physician to St. Bartholomew's Hospital, London; Dr. Marshall, Lecturer in the Royal Institution, Belfast; Dr. Fairbrother, physician to the Bristol Hospital, and Lecturer on Materia Medica, Bristol School of Medicine; Dr. Robertson, physician to the Infirmary, Northampton; Dr. Jephson, Leamington, Warwickshire; Dr. Burt, Davies, Birmingham; Bransby Cooper, F. R. S.

# IMPORTANT CAUTION.

---

The great reputation of Bryan's Pulmonic Wafers both in Europe and America, has induced several persons to counterfeit them in both countries, and to insure a sale have copied a part of my printed circular and labels. The public are therefore cautioned against purchasing spurious and worthless imitations, made in the United States by James Johnston, [signed E. Taylor on the label] and also by E. D. Green, Hamilton, C. W., and by several other parties, all of which are sold under the name of Dr. Locock's Wafers. These makers were for a short time in my employ, but neither of them were acquainted with the contents or manner of preparing Bryan's Pulmonic Wafers, and those who have been misled by any of the statements of said parties, and induced to take their preparation, must not judge of the merits of the original and only genuine article, Bryan's Pulmonic Wafers, by the effects of the spurious one, as the preparation sold under the name of Dr. Locock's Wafers, is a total HUMBUG, and in no way like the genuine article.

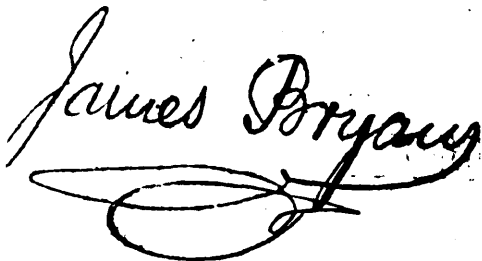

The following caution is published in the London Art Journal for November, 1850.

It having been stated by E. Taylor and James Johnston of Rochester, N. York, that they have purchased the right and secret of preparing these medicines in the United States, this is to give notice that such statements are wholly untrue, and that we never sold such right, or divulged such secret to them, nor any one else, and that the only Genuine Medicine bears the stamp of the British Government outside every box, whereon is printed "Dr. Locock's Wafers," by order of Government, and all preparations purporting to be the same, and not having such stamp as aforesaid, are counterfeits and imposition.

**JAMES BRYAN,**  
SOLE PROPRIETOR AND MANUFACTURER,  
**STATE ST., ROCHESTER, N. Y.**

To insure the genuine, see that my name is on each Wafer, and that each Wrapper around the box bears my facsimile; thus,

None other are genuine.

**Sold By Druggists generally throughout the United States and Canada.**

 MANUFACTURERS OF THE  
**NEW PATENT FOUNTAIN**

This truly great Invention renders the Pocket Gold Pen PERFECT, and is invariably considered as the great desideratum fully attained:

This Pen is particularly useful to travelers, and all persons who use Pocket Ink-stands, and equally useful to all who use the Pocket Pen, as the Fountain does not interfere with the use as an ordinary dip pen; it is rather an advantage, retaining a much larger quantity of ink than any other dip pen, and less liable to shed the ink. The construction is simple and the fountain easily managed. The proprietor would respectfully call the attention of Stationers, Jewelers, &c., throughout the country, to this pen. They are prepared to supply the trade on reasonable terms.

All orders promptly attended to.

**Coddington's Fountain Ink.**

This Fluid is as pure as wine, and flows as smooth as oil, is free of corrosive qualities, deposits no granulated sediment and leaves only a smooth paste when dried. It is perfectly adapted to CODDING'S FOUNTAIN PEN, as well as all ordinary purposes.
