STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of State street No. 265 comes, look at State street and you find that Brown street runs from 255 left side, and Jay street from 293, showing that No. 265 comes on the left side of State street between Brown and Jay.

MONROE COUNTY
BUSINESS DIRECTORY.

To find a name in a village of any town, refer to the town in which the village is located. For example: to find a clergyman in Brockport, a village in the town of Sweden, turn first to the head of Clergymen, then find Sweden, which is given alphabetically, and Brockport will be found given in connection with the town.

When the Post Office address differs from the name of the town, it precedes the name of the town.

To ascertain what town any village is located in, see Post Offices in Contents.

TO CONSUMERS.

The following explanations will enable any person to understand the process of ascertaining the Registry of the Gas Meter, and by making observations every day, or at short intervals, to satisfy himself that the meter registers with uniform accuracy the amount of gas that passes through it. The following diagrams show the "Indexes" seen on the front of every meter.

EXPLANATION OF INDEX.

The figure or division on the different faces of the index indicates as follows, viz: On the Right Hand Face, *Hundreds*, as 100, 200, 300 cubic feet, &c.; on the Middle Face, *Thousands*, as 1,000, 2,000, 3,000 cubic feet, &c.; on the Left Hand Face, *Tens of Thousands*, as 10,000, 20,000, &c., and in this way mutiplying by 10 for every additional face.

TO TELL THE STATE OF THE METER—Look at the *left hand* face of the Index, and set down the figure of *least* value next the hand, which on the diagram is **1**. Next look at the *middle* face, and as before set down the figure of the *least* value next the hand, which on the diagram is **3**. Next upon the *right hand* face, take the same relative figure, which is **5**, and you have the figures 1, 3, 5, to which last figure add two ciphers to represent hundreds, and the sum, 13,500, is shown to be the present state of the meter. If a previous observation has been taken, subtract the state of the meter at *that* time from the *present* state, and you have the amount consumed in the interval.

☞ *In case of the failure of the gas from any cause, immediate notice of the fact should be left at the Company's Office.*

THE BOARD OF DIRECTORS

Are gentlemen of wealth and financial experience, and themselves being *liable as Stockholders*, (they cannot be Directors without becoming Stockholders), it is manifest that its affairs will be conducted with safety and economy.

THE LOANS OF THE BANK

Are made to Farmers, Merchants, and Mechanics, upon short time, and in small amounts.

INTEREST ALLOWED.

This Bank will receive money on Deposit and pay interest thereon at the same rates—SIX PER CENT.—as paid by the Savings Banks, *from date of deposit to date of withdrawal*, and on business accounts, FIVE PER CENT. on daily balances.

Money can be deposited and withdrawn at any time *without notice*.

SECURITY.

The security afforded to depositors is superior to that of State Savings Banks, The whole capital stock of the Bank, and the whole personal liability of the stockholders to an equal amount, is the certain guaranty for the payment of all debts and deposits, and giving to depositors a degree of security not furnished by purely Savings Institutions.

Memorandum.

It is with no small degree of satisfaction that we refer to the successful

ESTABLISHMENT OF OUR BINDERY,

and acknowledge the many considerations received from our patrons and well wishers. Previous to our entering the field of friendly competition,

THE ART IN THE CITY

was a third of a century behind the common demand of the times. By a little effort we have brightened up this condition of things, and now have nearly double the machinery, and, on an average, employ three times the number of hands of any similar business in town, which we think is an indication that we are in earnest and have taken

A STEP IN THE RIGHT DIRECTION.

It is our intention to add other important machinery, and still more determinedly apply ourselves to the interests of our customers, hoping thereby to merit a continuance of that patronage so liberally bestowed upon us, and which we respectfully solicit.

ALL DEPARTMENTS

are now well represented, and orders executed promptly and economically.

WASHING MADE EASY!

HOW TO DO IT—BUY ONE OF

CURTISS' PATENT

"Little Hero" Washers,

MANUFACTURED AT THE

OLD CLINTON MILLS, ON MILL STREET.

The want of a really good Washing Machine is felt by all; but among the many inventions, it is an acknowledged fact that there was none a success. Those that did good washing being so illy contrived as to add to the labor, while those that were easy of operation were either liable to get out of repair, or not effective as Washers. The price also of most placed them beyond the reach of all but the rich.

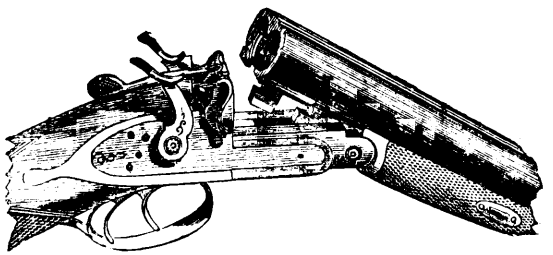

IN THE LITTLE HERO,

however, is presented a machine that is *simple in construction, easy in operation, not liable to get out of repair, and entirely effective as a washer;* while the price, ONLY FIVE DOLLARS, is so low as to come within the reach of all. *A girl or boy of* 10 *years, can run it with ease to do an ordinary washing, and it will save its cost every six months in wear of clothing.* Anything can be washed with it, from the finest laces to the heaviest bed quilts, without any re-adjustment of the machine, *or damage to the fabric.*

☞Good live Agents are guaranteed to make from $5 to $8 per day. Agents wanted in every State in the Union. All communications should be addressed to

DIETRICH'S PATENT DOUBLE HANDLE RIP SAW.

All acquainted with the use of the RIP SAW will readily see the benefit derived by this New and Useful invention. By this arrangement of a double handle the operator is enabled to use both hands at once, and to exert his full power and strength, and guide the Saw more readily to the cut he desires to make. In the use of the common handle, a very large portion of the power exerted is lost. With the double handle, the operator can do much more work with greater ease to himself. We also manufacture a very superior Hand Saw, called the Builders' Best. It is designed only for the best mechanics, or those who can fully appreciate a very superior Hand Saw. It is made of the finest quality of WM. JESSOP & SON'S Hand Saw Steel, and tempered with the greatest care. Also, ground with the most accurate taper from tooth to back, enabling it to be used with very little if any set.

EAGLE STEAMER & CALDRON,

Patented Nov. 29, 1870—Re-issued April 9, 1872.

Is the only Combined Steamer and Caldron made for General Steaming, Boiling and Cooking for Farmers, Hotels, Hospitals, Asylums, Dairies, Laundries,

And all Public Institutions where Cooking and Washing are done in large quantities.

This apparatus is a Steamer and Jacketed Caldron, combined, and can be employed both as a Generator of Steam and an open Caldron at the same time, or as a Generator or Caldron only; and no detachment of parts is required to change one from one to the other.

This new and most desirable of all Steamers, because safe, simple and effective, has been brought to such perfection (several alterations having been made in the year past) that it commends itself to all who give it a careful examination.

This season I have added a Steam Fire Pot, nearly doubling its capacity for generating steam, giving it a very large surface, consequently will generate steam more rapidly, and with less fuel than any other steamer known. As now made, it has a perfect self-feed, which is of great importance (no other Steamer in market having a reliable one), a safety valve, vacuum valve, also gauge glasses upon both steamer and barrel, showing at all times the exact state of water. The feed barrel is now made of iron. Experience has shown that the best wood barrels will not stand the pressure of steam any length of time.

☞ This STEAMER and CALDRON took the First Premium at the New York American Institute for 1871; Bronze Medal at Buffalo International Fair, 1871; First Premium Silver Medal at Michigan State Fair, Kalamazoo, Mich., 1872; and First Premium Bronze Medal at New York State Fair, 1872.

THE NATION COMMENDS ITSELF TO BUSY MEN:

1st.—By its Completeness as a Weekly Journal, embracing in its range general statements of important news, carefully written correspondence (domestic and foreign), deliberate and independent treatment of the Political and Social questions of the hour, competent criticism of Literature, Science and Art, and trustworthy reports of Trade and Finance.

2d.—By its Conciseness and the Substantial Quality of its Matter, the work of many minds, representing the best ability and scholarship of the country. Upwards of sixty writers have contributed to a single volume (26 numbers).

3d.—By the Convenience and eminent Readableness of its "make up," adapting it to the pocket, as well as to the library table—an agreeable and profitable companion for odd moments in the street cars or elsewhere. As a pocket-paper especially we recommend it to any one who desires a more thorough knowledge of the political, social and financial movements and questions of the day, but feels the restriction of limited leisure.

A. A. CONSTANTINE'S

PERSIAN HEALING,

OR PINE TAR SOAP.

This is the Best Toilet Soap.

Let Your Mother, Wife and Sister Try this Soap in their Toilet.

None genuine unless stamped A. A. CONSTANTINE'S Persian Healing or Pine Tar Soap, Patented March 12, 1867.

For the Toilet, Bath and Nursery, this Soap has no equal. It preserves the complexion fair, the skin soft, flexible and healthy. It removes all Dandruff, preserves the hair soft and silky, and prevents it from falling off.

To guard the people against fraud and deception by unprincipled men, the portrait of A. A. CONSTANTINE, and his signature in a fac simile of his hand writing, will appear on all our circulars and fancy boxes.

IT CURES

Pimples on the Face, Cracked or Chapped Hands, Salt Rheum, Frosted Feet, Burns, Fresh Cuts or Wounds of all kinds, all Diseases of the Scalp and Skin.

AND IS A GOOD SHAVING SOAP.

What those Say Who Use it.

Baldness Cured —I can recommend your Persian Healing Soap for Baldness It is bringing my hair in beautifully. I consider it the best hair renovator in use.
M. H. COMBS, 218 Atlantic Street, Brooklyn, N. Y.

United States Senator PRICE, of Iowa, writes, "I prefer it to any soap I ever used."

The wife of the Master Mechanic of the Oil Creek and Alleghany River Railroad lost all, or nearly all of her hair about two years ago. She used a cake of your SOAP at my request, and her hair commenced to grow. And now, after using three cakes for her hair, she has the best and handsomest head of hair in the town, except one. She would not be without the SOAP, even if it cost $1 a cake. Send me one gross of the SOAP.
CORRY, PA., Sept. 27, 1870. MRS. M. M. PARSONS.

The wife of the Rev. N. BROWN, twenty years a missionary in Southern Asia, writes from Jersey City, N. J., to A. A. Constantine & Co.: We have been using your SOAP in our family for toilet purposes, and find its healing and cleansing qualities so far exceed our expectations, or anything of the kind that we have ever used before, that we cannot do without it. Indeed, we find it the household remedy for almost everything. If we get a bruise, cut or burn, the resort is immediately to the CONSTANTINE SOAP, and in some cases the cures have been wonderful.
