

# STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of State street No. 435 comes; look at State street and you find that Brown street runs from 301 left side, and Jay street from 473, showing that No. 435 comes on the left side of State street between Brown and Jay. When streets are not numbered, dashes are used to indicate whether the street runs from the right, the left, or crosses.

Even numbers are invariably upon the north or east side of streets, and odd numbers upon the south or west side.

Streets on the east side of the river which run east and west are usually numbered from the west toward the east; those on the west side from the east toward the west.

Streets north of Main street which run north and south are usually numbered from the south toward the north; those south of Main street from the north toward the south. In Rochester, as in all cities, street numbers usually begin at the end of the street nearest the centre of the city.
