DEATHS.—The date of death and age of all citizens, dying during the past 12 months, whose names have appeared in the Directory, are recorded against the name in the proper alphabetical place in the present book. In the same manner each Directory since 1876 contains a record of those who died the previous year, so that the several volumes of the Directory embrace for this period a mortuary list of great value for reference.

(A) Date of Rochester's incorporation as a city. The city charter occupying eighty-seven pages was included in this number.

(B) Decrease.

(C) In 1867 and 1868 there was a very imperfect canvass made.

(D) In 1877-78 the freight yards and division headquarters of the N. Y. C. & H. R. R. were removed to Syracuse, which caused several thousand of the employees of the road and their families to change their residence to that city. Except for this, there would probably have been a slight increase in names in those years notwithstanding the extreme business depression of the time.

(E) Of this increase, 1,249 represented deaths and removals, which were this year given for the first time, leaving the net increase 692.

(F) Enlarged to octavo size, and printed in double columns for the first time.

HOLIDAYS.

There are eight public holidays:—New Years Day, 1st of January; Washington's Birthday, 22d February; Memorial Day, 30th May; Independence Day, 4th of July; Labor Day, 1st Monday in September; Tuesday following the first Monday in November or day of State election; any day appointed by the Governor of the State or President of the United States, as a day of public fast or thanksgiving; Christmas Day, 25th of December; also every Saturday, from 12 o'clock noon until 12 o'clock midnight.

When a public holiday falls upon Sunday, the following Monday becomes a public holiday.

Notes falling due on Saturday, Sunday, or any public holiday, are payable on the business day next succeeding.

Accepted drafts should be treated as "paper made and dated" at time of acceptance.

Arbor Day, the first Saturday after May 1st, is not a public holiday.

For School Holidays and Vacations, see Public Schools in Index of Contents.

SOME REASONS WHY NAMES ARE NOT FOUND IN THE DIRECTORY.

Many persons fail to find names on account of not knowing where to look for them. A slight variation in spelling will place names almost exactly alike, far apart. For instance—such names as Brown, Browne, Braun, though pronounced the same, and really the same name, are found in different places in the Directory. So, also, of Conner, Connor, Connors, O'Connor, and many others, each has its own place.

The pronunciation of foreign names usually varies from the pronunciation of such names in English. For instance—if an Irishman pronounces his name Agan, it is probably spelled Eagan or Egan. So, Mar, spelled Meagher or Mahr; Fay, spelled Fahy, etc. In names of nearly all European languages, the sounds of the vowels are usually as follows:—a is ah, e is ā, i is ē, o is o, u is oo.

In German names, ei and ai are pronounced like ī, ie like ē, au like ow, eu like oi; j is pronounced like y, w nearly like v, dt and th like t, etc. Thus, a name which is pronounced Yack, may be spelled Jack; Young, Jonge; Roiter, Reuter; Keefer, Kiefer; Line, Lein; and they must be looked for as spelled, not as pronounced.

The letters ä, ö, ü, in a German name, are equivalent to ae, oe, ue, and the name *should be looked for* as if the e appeared.

Owing to the difficulty which foreigners find in getting their names properly pronounced by the Americans with whom they come in contact, they frequently make very decided changes in them; taking sometimes an English name which sounds similar to theirs—as Gilbert for Gebhardt, Rice for Reis, Cole for Kohl, etc.; sometimes translating their names, as Blanc changed to White, Stein to Stone, etc.

Sometimes, members of the same family spell their names in two or three different ways; as Ballantyne, Ballantine, Ballintine; sometimes men bear two or three names, being known by one in their family, another in the shop, and perhaps still another among their associates.

To find a name, you *must know how to spell it.*

STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of State street No. 425 comes: look at State street and you find that Brown street runs from 391 left side, and Jay street from 473, showing that No. 425 comes on the left side of State street between Brown and Jay.

Or, going up West avenue, suppose it is wished to take a cross street so as to call at 312 Troup street; on examination, (see Troup) you find that 306 Troup is at the corner of Reynolds street; hence, by passing from West avenue through Reynolds street to Troup, you are near the desired number 312. When streets are not numbered, dashes are used to indicate whether the street runs from the right, the left, or crosses.

Even numbers are invariably upon the north or east side of streets.

Odd numbers are invariably upon the south or west side of streets.

Streets on the east side of the river which run east and west are usually numbered from the **west toward the east**; those on the west side from the **east toward the west.**

Streets north of **Main** street which run north and south are usually numbered from the **south toward the north**; those south of **Main** street from the **north toward the south.**

In Rochester, as in all cities, street numbers begin at the end of the street nearest the centre of the city.

Number of miles of streets in city, 220¼ miles; alleys, 16¼ miles.

For Cubic Measure the cube of long measure is used; **ster** is used as a measure of wood in place of cord.

The mill, cent, dime, dollar, and eagle of U. S. money exactly illustrate the decimal system of the metric measures,—the mill, cent, dime, corresponding with the milli, centi, deci of the metric system.

Abbreviations.—For meter, liter, and gram, the small initial letter is used, viz: m. l. g.; each division deci, centi, milli, also is abbreviated by using the small initial letters d. c. m.; but each multiple, deka, hekto, kilo, myria, is abbreviated by using the capital initial letter D. H. K. M.

Equivalents.—1 inch equals .0254 meter, or about 2 1-2 centimeters; 1 foot equals .3048 meter, or about 30 centimeters; 1 yard equals .9144 meter, or ab. 10-11 of a meter; 1 mile 1609 meters, or ab. 1.6 kilometers.

1 U. S. liquid quart equals .946 liter, or a little less than 1 liter; 1 U. S. dry quart equals 1.101 liters; 1 U. S. gallon equals 3.785 liters, or about 3.8 liters; 1 U. S. bushel equals 35.24 liters, or about 4-11 of a hektoliter.

1 avoirdupois ounce equals .02835 kilogram, or a little less than 30 grams; 1 Troy and apothecaries ounce equals .03110 kilogram, or a little more than 30 grams; 1 avoirdupois pound equals .45359 kilogram, or about 5-11 of a kilogram; 1 long ton—2240 pounds—equals 1016.05 kilograms, or about 1 metric ton.

Basis of the system.—1. The unit of length, the meter, is the ten millionth part of a quadrant of the meridian of Paris, being 39.37 inches, nearly. 2. The unit of surface, the ar, is the square of ten meters, or a hundred square meters. 3. The unit of capacity, the liter, is a cube whose edge is a tenth of a meter. 4. The unit of weight, the gram, is the weight of a cube of rain-water, whose edge is an hundredth of a meter. From these four primary units all others are derived according to the decimal scale.

Where used.—The system is adopted by the following countries: in exclusive use in France, Germany, Austria, Belgium, Holland, Italy, Spain, Portugal, Norway, Switzerland, Roumania, Brazil; in partial use in Denmark, Greece, Argentine Confederation, Venezuela; legalized, but not in general use, in the United States, Great Britian, Russia, Norway, Sweden, Turkey, Mexico, Chili, Costa Rica, Equador, Peru, U. THE CIVIL SERVICE.

For State Board of Commissioners, see page 807.

By enactment of the legislature, all positions in the public service of Rochester (excepting those filled by public election, the heads of departments, and positions under the city treasurer, or the Board of Education), must be filled from applicants who have successfully passed an examination by a board of civil service examiners.

Two Boards, consisting of three members each, are appointed by the mayor, and not more than two members can be of the same political party.

Whenever a position is to be filled, the examining board will notify the applicants on record, or such number of them as can be conveniently examined, to appear for examination, and appointments must be made by the appointing power from the three on the list of the highest standing. Soldiers or sailors serving in the war of the rebellion, having an equal standing on the list, and otherwise equally competent, have the preference. The civil service does not affect removals from office. The civil service is classified as follows:

Schedule B, Part 1. Includes all officers and members of the Police and Fire Departments.
Schedule B, Part 2. Includes subordinate officers, clerks, and assistants not included in Part 1. Laborers and day workmen are not subject to examination.

Local Boards of Municipal Examiners. (*For City Appointments*).

Schednle B, Part 1.—Darrell D. Sully, *Chairman;* Lemuel B. Marcy, Adolph J. Rodenbeck.
Schedule B, Part 2.—Samuel P. Moulthrop, *Chairman;* George A. Carnahan, Charles E. Roe.
Secretary of both Boards.—Thomas D. Wilkin.

NEW LEDGER PATTERN,

—ON—

BYRON WESTON'S LEDGER PAPER.

(Nothing Like it. Have Used it 25 Years.)

MONTH.	DAY.	ITEM.	PAGE.	DEBIT.	CREDIT.	PAGE.	MONTH.	DAY.	ITEM.
June	1	To Mdse.,	305	6 8 4 20	1 0 9 0 26	489	June	29	By Cash.

				1 0 9 0 26	1 0 9 0 26				

POINTS OVER THE OLD WAY.

First—The figures are in the center of the page, and not in the roll of the book or outside edge.

Second—Debit and Credit are side by side, not considerable ways apart, as in old way.

Third—In balancing an account, two lines only are drawn, and there are no lines running diagonally across the page, and every account can be neatly closed as above.

Fourth—No person to my knowledge has returned to the old system who has once used this style. We have them in stock of Weston's paper, pages 10½x16, in all thicknesses, and all full pages or divided pages.

We endeavor to make first-class work, and shall always try to please all who may call on us.

First-class or no sale.

Yours,

JOHN C. MOORE,

EXTRA DEBIT LEDGER,

On BYRON WESTON'S LEDGER PAPER (which always satisfies.)

Arthur H. Staunton.

Aug.	3	10 lb. Sugar 75, 5 Raisins 75, 1 Tea 75.	8	2	25	Sept.	4	Cash	495	1	5	42

	30	Bbl. Flour 7.00, 27 Ham 4.93, 2 Eggs 32,	360	1	2 30							

In a retail business, most of the Ledger entries are made up of several smaller charges, which are brought into the Ledger as one item. By itemizing on the Ledger as above, all further reference to the Day Book is avoided and an account can be drawn off in a much shorter time. To accommodate these entries, the above ruling has been devised, and the credit, not needing much space, has been greatly shortened, thus giving several times more room on the debit side than on the credit side.

We have a very fine *stock* of Blank Books of our own make, and claim we can not be excelled in the manufacture of Blank Books. Have several thousand patterns, which we will gladly show anyone who will call on us. Yours,

JOHN C. MOORE,

THE WESTERN FARM MORTGAGE TRUST COMPANY, DENVER, COLORADO.

(Formerly Lawrence, Kan.)

Paid up Capital and Surplus over $1,700,000.

$400,000 Of the Capital Stock held by representative men of Rochester as Guarantee Fund.

IT guarantees absolutely the principal and interest of its securities **and it has a Capital to make its guarantee good.** It has invested many millions of dollars for savings banks, life insurance companies, churches, colleges, guardians and persons of large and small means, and not one of its investors (and they number in the thousands) has been obliged to wait one day for interest or principal.

Customers have the benefit of the wisdom and judgment growing out of more than thirty years' experience in this business, not in some other locality, but right there on the spot.

The chief officers of the company knew the West of the "Fifties," which means that they have known it all.

With a personal experience ante-dating the birth of any farm mortgage institution in America and with a faultless record in the service of over three thousand customers, we are confident that we can furnish as choice securities as can be found in any market in this country. All having money which they desire to safely and profitably invest are invited to call or send for circulars, books, etc., giving complete description of these favorite securities.

"CHAMPION"
CAN LABELING MACHINE.

PATENTS GRANTED.

After many years of experiment to produce a machine to perfectly label cans, etc., we offer the Champion Can Labeling Machine as a perfect labeler in every respect.

It is simple in construction and operation, and any intelligent boy or girl will run it without difficulty.

The labels are fed similar to a cylinder printing press, and the speed depends entirely upon the operator.

The cans are fed and discharged automatically.

The machine works common paste, can be run by hand or power, and is guaranteed to perfectly label upwards of 1500 cans per hour.

It occupies little space and weighs about two hundred pounds.

An examination will satisfy any one of its value, and in a short time it will save its cost in labor alone.

We will place the machine on thirty days trial with any responsible party.

"THE PEOPLE'S PAPER."

IS by far the best medium for Advertising in Rochester. This is a fact for more than a score of reasons. To the advertiser who knows how to use its columns best, it is a power for influencing business. Especially is the Saturday evening issue of extraordinary value. It is now recognized as Rochester's great paper for Sunday reading. This is shown by the immense circulation which our Saturday issue has attained and which is growing rapidly each week.

IMPROVED "COMMON SENSE"

SASH BALANCE.

U. S. Patent No. 302,981, August 5, 1884.

The best and most PRACTICAL substitute for weights invented. The most durable, the cheapest and best device for all ORDINARY windows.

BALANCES, WHEN IN POSITION, ARE OUT OF SIGHT.

No rivets, bolts, or screws are used in putting it together, so that nothing can get out of order or need repairing. No cutting, boring or marring of the sash, as the Balances are let into the jamb.

Especially Valuable for Repairing Old Buildings, as they can be put in at a Trifling Expense.

As easily put in old buildings as new ones.

CAN BE USED WHERE IT IS IMPOSSIBLE TO USE WEIGHTS OR OTHER FIXTURES.

No Rattling of Sash, as Pressure Against Sash Prevents it.

No Cords to Rust off, wear out and break. No Flimsy Coil Springs or Delicate Mechanism to break, wear out, or get out of order.

We are manufacturing a pipe that is indestructible from the action of all the elements, impervious to the action of acids, gases, and steam, all of which are found in corporation sewers. These pipes are made from a combination of superior clays, which, by powerful machinery, are rendered uniform throughout — pressed from a steam press, under a pressure of **sixty-three tons** upon each pipe, it is made very compact; and burned in close kilns, at a very intense heat, it becomes a thoroughly vitrified and iron-like body. All prominent architects, builders, and all those who have investigated the subject of sewerage, have become convinced that properly burned clay pipe is the only material suitable for underground drainage, and that sewer and drain pipe manufactured from cement, carbonated stone, and other similar materials, are liable to and do **decay, disintegrate,** and become **worthless,** as has been many times proved by the officials in many cities.

These vitrified pipe are suitable for well tubing; are **better than stone or brick,** because **cheaper,** more **durable,** and can be made perfectly tight.

☞ We deliver our pipe within the city limits Free of Charge, and in good condition.

TO CONSUMERS.

The following explanations will enable any person to understand the Process of ascertaining the Registry of the Gas Meter, and by making observations every day, or at short intervals, to satisfy himself that the meter registers with uniform accuracy the amount of gas that passes through it. The following diagrams show the "Indexes" seen on the front of every meter:

EXPLANATION OF INDEX.

The figure or division on the different faces of the index indicates as follows, viz: On the Right Hand Face, *Hundreds*, as 100, 200, 300 cubic feet, &c.; on the Middle Face, *Thousands*, as 1000, 2,000, 3,000 cubic feet, &c.; on the Left Hand Face, *Tens of Thousands*, as 10,000, 20,000, &c., and in this way multiplying by ten for every additional face.

TO TELL THE STATE OF THE METER.—Look at the *left hand* face of the Index, and set down the figure of *least* value next the hand, which on the diagram is 1. Next look at the *middle* face and as before set down the figure of the *least* value next the hand, which on the diagram is 3. Next upon the *right hand* face, take the same relative figure, which is 5, and you have the figures 1, 3, 5, to which last figure add two ciphers to represent hundreds, and the sum 13,500 is shown to be the present state of the meter. If a previous observation has been taken, subtract the state of the meter at *that* time from the *present* state, and you have the amount consumed in the interval.

☞ In case of the failure of the gas from any cause, immediate notice of the fact should be left at the Company's office, No. 62 Mumford Street. At night ring the carriage bell on Mumford Street.

PRICE, $.180 per thousand feet; or, if paid before the 10th of the Month, $1.60.

VICK'S EXCELSIOR INSECT EXTERMINATOR

Will Destroy Striped Fleas, Cabbage Lice, Green Cabbage Worms, Potato Bugs, Aphis, Squash Bugs, &c.

After thorough use of Exterminator.

Without using Exterminator.

Harmless to Plants or Vegetables. Sure death to all Plant Insects, particularly the GREEN CABBAGE WORM, for whose ravaging attacks there has hitherto been no known remedy. This powder can be applied most thoroughly, economically, and quickly by means of the Bellows we have had constructed for that purpose. [*See cut above.*] About one-half or three quarters of a pound of the powder should be placed in the bellows through the cork opening at the side. A single puff over the heart of the Cabbage is sufficient for one application. The bellows can thus be worked as fast as a person would ordinarily walk. Try it. It will quickly pay for itself.

Exterminator, 50 cents per pound, by mail. In lots of 5 pounds or over, 30 cents per pound, by express, at expense of purchaser. 8-inch bellows, by express, at expense of purchaser, $1.25; 12-inch bellows, by express, at expense of purchaser, $1.50.

Small Zinc Bellows, for Conservatories and House Plants, filled, by mail, post-paid, 25 cents.

The "Genesee" Water Closets

(MADDEN'S PATENT),

ARE THE BEST SANITARY CLOSETS IN THE WORLD.

They are made in Long Hoppers, Short Hopper and Trap combined, Wash-Outs, and Siphons.

They are thoroughly Automatic, and have **BUT ONE PIPE** for supply and discharge.

They *cannot* be used without being discharged every time.

They cannot be left running.

They cannot leak, because they shut-off with the water pressure, and not against it.

They save water, requiring from 3 to 6 gallons less of water than any other closet to make a perfect flush of the bowl.

They have no fouling spaces. They work under any pressure, and use only a certain quantity of water, and no more, at each discharge.

The "GENESEE FROST-PROOF" Water Closet for *outside use*, is the only reliable anti-freezing Closet made.

The Genesee Closets are simple in construction, perfect in operation, and low priced and durable. They require **no carpenter work**, as the seat and slop-safe go with the closet. Send for Catalogue.

VIEW OF QUARRIES AT QUINCY, MASS.

WE DESIRE to call the attention of parties living in Rochester to the fact that we are making strenuous efforts to establish our trade permanently in that city, and are fast meeting with success. We point with pardonable pride to the work we have erected in Mount Hope and Holy Sepulchre cemeteries, and give below the names of customers, for whom we have and are now constructing memorials. The most careful attention paid to all details, and all contracts read "Payment after completion and acceptance."

Our plans, both Foreign and American, consisting of photographs and drawings of all important pieces of art, and our original designs and sketches, we take pleasure in submitting by a competent representative, and solicit at least an opportunity of competing with other firms. All plans submitted at our expense.
