How the City Directory will help you

Some people regard the City Directory as merely a big book that cannot concern or be of any use to them, personally.

If they realized what it contains, and how it would answer many little questions that come up every day, they would use it in their personal as well as business affairs.

Well, now—doesn't it concern you? It has your name, business and address correctly listed, where your friends, looking for you, will find it.

It has this same information about your friends, and anyone else in the city you may be interested to look up.

It has complete information about the business houses of the city, telling who sells what, and where. It has detailed accounts of progressive houses, who realize they will logically be looked for in the "Selling Section."

It tells how all the streets run, giving numbers at corners; the clearest map of the City; Buildings, Government, Societies and a wealth of facts about the City that can only be appreciated by glancing at the Index.

You will be repaid for a little time spent in finding out how to use this book full of "Who and Where" information; repaid in convenience, in accuracy, and in time saved in your everyday affairs. **But be sure you use the latest,** as an old edition will mislead you.

Directory of Householders, Occupants of Office Buildings and Other Business Places

A Complete Street and Avenue Guide of Rochester

INCLUDING

Names of All Streets and Avenues in Rochester Suburban Area

1946

Copyright, 1946, by R. L. Polk & Co., Inc.

Giving the location of Streets, Avenues, Places, Parks, &c showing what other streets and places run from or across them, and with a list of Householders and Places of Business arranged in Numerical Order upon their respective Streets.

The **Streets** are arranged in **alphabetical order** with the location of **Intersecting Streets** clearly shown.

Business places are denoted by business being given. In business blocks the occupants are arranged by room number where practicable.

When business and residence are at the same place, it is indicated by business being given followed by abbreviation h.

House numbers are in ordinary type, business numbers in bold face, room and apartment numbers in italic.

Street numbers begin at the end of the street nearest centre of the city. Even numbers are upon the north or east side of streets. Odd numbers are upon the south or west side of streets.

After each street the car or bus line running through or nearest to it is named.

* Denotes streets improperly numbered.

The symbol ⊙ following the name of a householder indicates that the house is owned by the person listed, or by some member of the family. This information is as received by the canvasser. The publisher does not and cannot guarantee its correctness.
