Dear Anna ^{Dann} ~~Dorne~~

When this reaches no. 17. you will be the house keeper - and I am sure - a very nice and careful one, too,

The fires & the lamps are always the great dangers - If you are having such lovely bright days as we are enjoying here- you will need to have the furnace just as low as you can and not let the fire go out-

So keep your eyes open - and be the real house-keeper while sister May is gone - I hope this lovely weather will last all through next week-

Sincerely yours

Susan B. Anthony
