

Anti Saloon League

Since the failure to solve the saloon problem has not been the ~~lack~~ want of sentiment, but instead the lack of votes, it must be evident to every mathematical mind that what is needed is an added balance of power in the body politic ~~xxxxx~~ that ~~is~~ shall be sure to throw itself into the scale against the Saloon. Nothing but such a weight can touch the question – and there is no place to go for this added power but to the women of the nation, because all men outside the State Prisons, Lunatic and Idiot Assylums [sic] are ~~now~~ already voters. Hence the only hope of the Anti Saloon League's success lies in putting the ballot into the hands of the women.
