Anti – fraud Trust Conference

Let me call your attention to the fact that ~~since~~ the hugest monopoly – the grossest trust of the world – is ~~that of~~ man's conspiracy to govern women without their ^{asking [?] – them to consent} or to give or to withhold their consent to the laws, ~~or~~ the lawmakers, or law enforcers!!

While ~~at~~ the codes of constitutions thus empower men to hold women in subjection, to control their work & wages & in marriage to legally own the labor of their wives – the logical sequence must be that wherever an individual man, or a set of men can outwit one or many ^{of their own sex} ~~even~~, and subvert ^{the} profits of their victims, to their own selfish greed, they will do it, and with just as little confirmation of their conscience as if they were women & not men.
