Nuisance.

Corner of Rome and Bowery Street, on the premises of John Bosley, a dilapidated privy, caved in below and emitting a strong and permanent odor, which is now almost intolerable, and has been the past two years, on account of its close proximity to my kitchen and for want of proper attention and imperfect construction. Said privy should be removed before the nuisance can be abated, as it has been the cause of much trouble heretofore and is a constant nuisance. (If not homesick, we are sick at home.)

Junius Judson.

Book Page 6.

June 19, 1861.

By Caleb M. Landers, No. 8 Andrews Street.

Thomas Corkle, living next west of me has had a Nuisance for the last 7 years to my certain knowledge on his premises, in that he has no provision made for emptying suds, swill and slops for the use of his tenants, and the consequence is they throw all such garbage into the gutter and empty and burn the refuse straw beds very often in the street. I have several times called the attention of the Health Officer to this subject and it has all done no good hitherto. Now that we are improving the street, I want the Health Officer to compel him to construct a sewer and stench trap for the use of his tenants and see to it they use it, for he will never do it till he is compelled to. He has a place in the back yard where slops are put by those in the rear part of the house, but it is never used by those in front. Please see to this immediately.

Caleb M. Landers.
