Pre-eminence in Women's Smart Wear

WE DO not make a specialty of women's coats and suits—nor of millinery, but we do give these lines rather unusual attention. That is the best reason for the pre-eminent position which this store occupies at the present time. The newest things are always here first. The choicest values—the best qualities are always here. The unusual price features which the action of trade in its devious channel from maker to consumer produces, are also found in abundance at McCurdy's. And because our friends know that this is so, and can always rely upon it being so, we have been successful in building up the largest garment and millinery business in Rochester. Little things make for large successes. With us the small details have always been of transcending importance. We carry large stocks. We have most excellent store service. Distribution facilities are perfectly organized. And still we always look after the little things, and see some little way to improve every day. Of course, we are ambitious. We look forward hopefully to a bigger and better store—to still larger facilities—to broader and more comprehensive merchandising in future. But it is chiefly for the purpose of serving you better and better as Rochester grows in size and importance.

Preface

THE fifth issue of the **Rochester Blue Book** possesses some features which we trust will entitle it to retain the high place in public favor that has been accorded its predecessors. We desire especially to thank our lady patrons for their cordial appreciation of our efforts.

Neither time nor money has been spared to make this work as complete and valuable as possible. The difficulty attending the compiling of such a book can be easily appreciated; and we therefore trust that any omissions will be brought to our notice, that they may be corrected in future. We hope to make the **Blue Book** as nearly perfect as it is possible to make such a volume.

We do not claim the **Blue Book** is either a City Directory or absolutely an Elite Directory; neither do we pretend to pass upon the social or financial standing of the parties whose names are contained therein. It is simply a compilation of about two thousand names of the most prominent householders of Rochester and suburbs, published in the most convenient form for reference by our lady patrons.

The title, "**Blue Book**," is given the work because of its blue cover. It does not refer to blue blood, as many people suppose. Webster's definition of Blue Book is as follows: "**Blue Book**—a book containing a list of fashionable addresses."

Please send any information you may have that will aid in keeping the records correct, to Dau Publishing Co., 54 West 22d Street, New York City.

Our "Arts & Crafts" Room

IT HAS just the suggestions you are looking for in fixing up your den, library or living room—a whole store full of Mission furniture, Dutch decorations, Indian suggestions, Cellarettes, Steins and Rathskeller furnishings. ✿ The space is divided into different rooms by screens, and a room can surely be fitted up just as you want that one of yours. We will experiment with you, if you will bring the dimensions of your room. ✿ Many visitors have told us that they have never seen a better exhibition, even in exclusive Mission stores, than you will find here. ✿ We want to see many visitors even though you don't care to buy. We know you will talk about it after you leave—you can't help it.

Pure, Safe Milk and Heavy Cream

WHAT is essential in the production of the best and purest milk?

W Healthy cows, pure food and water, extreme cleanliness in the care of stables and milking, sterilizing all utensils, milk cooled as soon as taken from the cows, bottled, sealed and kept at a temperature below fifty degrees until delivered to customers. **Q** Many unsolicited testimonials are received from physicians who recommend Cogswell's Pure, Safe Jersey Milk for infants and invalids, also from leading families who have used Cogswell's Pure, Safe Jersey Milk for years. **Q** Our wagon passes your door every day. Do you want it to stop and supply you with the best, purest and safest milk and cream?

Milk is the Greatest Known Medium for Disease Germs

CAN you afford to take the risk of using milk that has not been inspected, or from a source in no way safeguarded from contamination?

How can the anxious mother, the nurse, or the housekeeper know safe milk from dangerous milk? Milk may apparently be clean, rich, have no offensive smell or taste, and yet it may carry dangerous disease germs. The milk of commerce, or common milk, is from unclassified and unregulated dairies; it is of necessity the milk of more or less diseased cows.

If we could take you with us to the farmers, who in consideration of a higher price, are painstaking and strive to fulfil the necessary requirements in the production of clean milk, then to our sanitary milk station to see the care in inspecting every can of milk by competent men educated for the work, you would know why the Brighton Place Dairy Co.'s sales during the last year increased more than one hundred per cent. A cordial invitation is extended to you and your physician to call and inspect our sanitary plant at any time.
