Pre-eminence in Women's Smart Wear

WE DO not make a specialty of women's coats and suits—nor of millinery, but we do give these lines rather unusual attention. That is the best reason for the pre-eminent position which this store occupies at the present time. ¶ The newest things are always here first. The choicest values—the best qualities are always here. The unusual price features which the action of trade in its devious channel from maker to consumer produces, are also found in abundance at McCurdy's. And because our friends know that this is so, and can rely upon its being so, we have been successful in building up the largest garment and millinery business in Rochester. ¶ Little things make for large successes. With us the small details have always been of transcending importance. We carry large stocks. We have most excellent store service. Distribution facilities are perfectly organized. And still we always look after the little things, and see some little way to improve every day. Of course, we are ambitious. We look forward hopefully to a bigger and better store—to still larger facilities—to broader and more comprehensive merchandising in future. But it is chiefly for the purpose of serving you better and better as Rochester grows in size and importance.

PREFACE

THE sixth issue of the **Rochester Blue Book** possesses some features which we trust will entitle it to retain the high place in public favor that has been accorded its predecessors. We desire especially to thank our lady patrons for their cordial appreciation of our efforts.

The difficulty attending the compiling of such a book can be easily appreciated; and we therefore trust that any omissions will be brought to our notice, that they may be corrected in future. We hope to make the **Blue Book** as nearly perfect as it is possible to make such a volume.

We do not claim the **Blue Book** is either a City Directory or absolutely an Elite Directory; neither do we pretend to pass upon the social or financial standing of the parties whose names are contained therein. It is simply a compilation of about two thousand names of the most prominent householders of Rochester and suburbs, published in the most convenient form for reference by our lady patrons.

The title, "**Blue Book**," is given the work because of its blue cover. It does not refer to blue blood, as many people suppose. Webster's definition of Blue Book is as follows: "Blue Book—a book containing a list of fashionable addresses."

Please send any information you may have that will aid in keeping the records correct, to Dau Publishing Co., 40 West 33d Street, New York City.
