..PREFACE..

THE BLUE BOOK for 1901 comes to its numerous subscribers in new dress and filled with many items of social interest, which are most appropriately published in a Society Register. The entries in this edition form a large increase over those of the previous issue, thus enhancing its value as a home directory and visiting list. It is unnecessary to comment on the advantages of the present arrangement of the book; concise, though complete.

We thank our numerous friends who have so courteously assisted us in securing accuracy in these entries by filling the blanks sent them. Errors and omissions are certain to occur, but we shall endeavor to improve each successive edition. The next issue will include many features of social interest heretofore unpublished.

EXPLANATION.

TO avoid increasing the size of this book beyond the limits of a handy directory for ladies use, and at the same time include all information desirable and valuable in a Blue Book, necessitates the use of a system of abbreviations, to which some slight explanation may be necessary.

The figures in parentheses represent the clubs to which the party belongs, the index to which will be found in the beginning of this book.

Mrs., *nee* Jones, signifies that the maiden surname of the lady is Jones.

The telephone number is readily distinguished by its prefix—Tel.

The receiving day is given where such a day is fixed.

Other members of the family, if of the same name, are added in small type. If of a different surname, they are alphabetically arranged without reference to their relationship.

NOTE.—You are requested to make a careful examination of this book and immediately communicate all errors of whatever nature you may find, so that the correctness of future editions may be secured. Please send any information you may gather that will aid in keeping the records correct to
