PREFATORY.

Again I thank my many patrons, particularly the advertisers, for their continued support and kindness to me in my second endeavor to publish a complete and reliable directory of the Village of Canandaigua. My first endeavor two years ago met with universal success and favor. The loyal support accorded me so far this year convinces me that Canandaigua merchants and citizens stand ever ready to support an honest enterprise. I believe that this second edition has fewer mistakes and omissions than the first, at least every effort has been put forth to make it so. Under the new system of numbering, Main Street South and streets running parallel thereto receive a number for every $12\frac{1}{2}$ feet; all other streets receiving a number for every 25 feet.

Street and House Directory.

Snowing the location of streets and giving the occupants of houses and business places. In the new system of numbering, Main, West ave. and Ontario streets are the dividing lines. On all streets numbering east and west, No. 1 begins at the point nearest Main street. On streets running north and south, No. 1 begins at the point nearest West ave. and Ontario street. The odd numbers are on the left hand side as one advances with the numbering. In the resident portion the name of the head of the house or family only is given. Where a name is not given after the number, the house was not occupied at the time the canvass was taken. The names of streets intersecting or crossing are printed in *italic*.

BOSWELL & EGAN

CATER TO THE BEST CLASS OF TRADE IN

FINE LIQUORS FOR ALL PURPOSES

They have over forty different brands of Whiskies, any one of which they can and do recommend for Medicinal uses.

BILLIARDS AND POOL—All experts of the cue know that at the BOSWELL &

EGAN PARLORS are to be found the best quality and the best kept tables, balls and cues in town. It is a real pleasure and not physical labor to play there. Remember the place, *corner of Main and Niagara streets*, where courteous treatment may always be met.

Nut Shucks and Oyster Shells

Are all right in their place. But no one likes to eat them, neither do people enjoy their news with the shucks on.

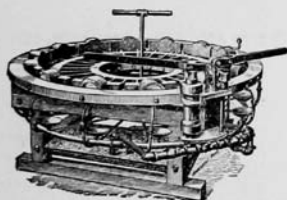

Repository-Messenger News is shucked and snelled—fixed for quick consumption. You don't have to wade through a column of words to find an inch of facts, and the millions of timely facts are labeled, located and described just right.

Prompt Service

The Deming Press prides itself on giving to its customers quick service. That's one of the reasons why our growth has been phenomenal. At least sixty-five per cent of all orders are shipped the day after they are received. And our business is by no means exclusively local. Distance cuts no figure with us. If you are not already a customer, give us an opportunity of demonstrating these truths to you.

Dividend Paying Printing

BUSINESS MEN do not go from tailor to tailor, asking estimates on the cost of furnishing them their clothing. They usually have a good tailor with whom they are satisfied. They place confidence in his judgment regarding the cloth and style best suited to the individual, whether fat, lean or well proportioned (looking upon this as a part of his business) and are willing to leave for what they receive. To make a profitable investment, similar confidence in the quality of materials, colors, matter a dividend payer and a success.  The Deming Press furnishes successful printed matter at very reasonable prices.

"COUFFIELD" Unit Sectional Files.

For filing Card Indexes, Correspondence, Legal Blanks, Documents, Vouchers, Commercial Reports, Insurance Daily Reports, Insurance Policies, Checks, Deposit Tickets, Drawings, Electrotypes, Legal Cap Papers, Stationery, Photographs, and Papers of Every Description

Represent the largest, most modern and complete line of filing devices ever constructed. Each section is complete in itself, and no top or base is required, except where a number of sections are built up in one stack. In many cases, one drawer can be added at a time. You may start with a one-drawer cabinet for 3x5 cards and build up to a large system. This valuable feature is exclusive with "Couffield" files.

Design. These sections are the only ones designed on the unit plan—one drawer to a section in many cases. The object has been to secure the greatest capacity in the least possible space, and at the same time give the appearance of one cabinet. They are the only ones in which all of these features have been combined

THESE FILES
ARE
DUSTPROOF

Construction. The construction of these files is a step in advance of any other on the market. They are the only ones built on the one-drawer-to-a-unit plan. They are easily moved through narrow doorways, and can be quickly removed in case of fire. Only enough sections need be purchased to meet your present requirements, and others can be added as business necessities. This feature alone is worth the serious consideration of anyone about to purchase a file or replace an old one. Particular attention has been given to the construction and reinforcing of all joints, a feature sadly lacking in most cabinets. As each section has a solid top and bottom, and all drawers are lip front, the contents remain perfectly DUSTPROOF. No out-of-date panels to break open or gather dust. "Couffield" sections are substantially built and are designed for a lifetime of service. Write for catalog.

IMPORTANT NOTICE.

A good, reliable directory in any progressive village or city is a public necessity. To compile and issue a directory costs considerable money. This expense can only be met by liberal co-operation on the part of the business public. **DO NOT BORROW** your neighbor's directory, but **BUY ONE**.
