FILIES CURED without the knife, without pain. No cure, no pay!

The celebrated ELECTRO-THERMAL BATH, THE BEST IN THE WORLD for the cure of all Acute and Chronic Diseases. We give the Electro-Thermal, Electro-Vapor, Galvanic, Sulphur-Vapor, Mercurial and Medicated Baths of every description.

WHAT DOES THE BATH DO?

It cleanses the skin, and removes all effete matters that accumulate upon its surface. It removes from the blood the impurities which cause disease. It equalizes the circulation. It strengthens and toughens the tissues of the whole body, greatly lessening the liability of disease. It soothes and strengthens the nerves, promotes sleep, and preserves health. It aids digestion and assimilation, and tends to establish a healthy action of all the organs of the body.

The bath stands pre-eminent as a remedial agent, in the estimation of the best medical authorities. For acute or chronic diseases of the Liver, Lungs and Kidneys; stiff, lame and contracted limbs, from any cause; suppressed secretions; all female complaints and diseases of the nervous system; and for all skin diseases, this Bath is pre-eminently adapted.

The Bath is particularly valuable in derangements and irregularities to which ladies are subject. It improves the complexion and is superior as a cosmetic, making the countenance fresh and rosy, and producing no deleterious effects.

Patients visiting this Institution may feel assured that they will receive the form of treatment their individual cases may indicate. Having had several years' practical experience with the use of Electricity in the treatment of disease, we feel warranted in saying, that at no similar Institution will the patient receive more CAREFUL OR THOROUGH TREATMENT. Electricity is applied in all forms, with and without the Bath.

OPEN FOR LADIES AND GENTLEMEN FROM 7 A. M., to 6 P. M., LADIES' DEPARTMENT IS UNDER THE PERSONAL SUPERVISION OF MRS. SPRAGUE.

FEMALE DISEASES A SPECIALTY.

Remember, we claim that it is the only agent ever discovered that will eradicate Rheumatism. The only treatment that will cure Neuralgia. The only treatment that will give quick and speedy relief to all Aches and Pains. The only treatment that has never failed to cure Nervous Diseases. The only treatment that will produce Copious Sweating, and tone and strengthen the system at the same time. The only treatment that will give relief to obstinate Chronic Diseases that have baffled the best medical skill. The only treatment that has Never Failed, and Never Will.

If you are weak and debilitated, and your Nervous System is unstrung, try it. If you are suffering with Organic or Functional disease of the Stomach, Bowels or Liver, try it. If you are suffering with disease of the Kidneys, Catarrh, Incipient Consumption or Bronchial Irritation, try it. It has Never Failed, and Never Will.

ENABLING THEM TO DISPENSE WITH BANDAGES, PESSARIES, &c.

Examine these References. All have taken our treatment and been cured.

PRINTERS AND BINDERS,

The publishers of the present volume take pleasure in presenting the first edition of the Western New York Gazetteer and Business Directory, feeling confident that it will meet not only public expectation, but prove at least commensurate with the necessities that impelled its publication. The people of Western New York have long felt the want of a reliable Gazetteer and Business Directory, and we flatter ourselves with the belief that in the consummation of the present work—which will be found to be replete with information that will not only benefit the business community, but will redound to the advantage of the citizens at large, by setting forth in a concise manner the notable features of the different sections—that want has been supplied. To this end, short descriptive sketches have been given of each place, embracing various statistics of interest, such as the location, population, distance to different points, the most convenient shipping stations, the telegraph and express companies, stage communication, the mail delivery, etc. This is followed by an alphabetical list of the names of the business firms, which are again given in a voluminous classified directory, with post-office address. The compilation has been attended with an immense amount of labor and expense, neither of which has been spared. The closest attention has been given even to minor details; and though some errors may be found arising from incorrect returns, or illegible manuscript—these excepted—the work will be found to be as free from errors as is possible in a work of this magnitude. We are under many obligations to those who have kindly afforded information and given assistance; also to the many business men who have given the work their support.

With these few remarks, and a promise that in our next issue we will strive to make such additions as may seem most likely to meet the wants and interests of the public, we are

have been expended in the past 38 years in establishing the branch offices and corresponding facilities of this agency. Over $100,000 dollars alone, has been expended in establishing the Buffalo Branch and in accumulating over 500,000 record reports which are on file in this office, of traders seeking credit in this market, and with nearly 100 branch and associate offices, and 10,000 attorneys and special correspondents throughout the United States, British Provinces and Europe, who exchange information with us, and furnish us with their published list of daily changes, and by both mail and telegraph notify us of important information, regarding the standing of traders asking credit in this market, must clearly prove to the world, and substantiate our claims of superiority over all real and pretended competitors. Collections made in all parts of the world cheaper and better than any other system in existence. Reports of the financial standing of applicants for credit, in any part of the world furnished by mail and telegraph. A published list of correspondents in every town furnished to traveling agents, as to our claims of superiority, practicability, reliability and dispatch. Satisfy yourselves by testing us, either for reports or collections, free of charge or ask our references, the leading merchants of this city and elsewhere, some of whom have used us for over 50 years. Soliciting your patronage, we are,

The Buffalo Sunday Times.

By an advertisement on page 10, The Buffalo Sunday Times presents itself to the public in an original manner. The Times was born in Buffalo, September 7, 1879, and since its advent it has steadily increased in circulation, and gained the confidence of the advertising and business people of Buffalo. The circulation of the Times is not alleged. It positively is six thousand at the present time, and is steadily increasing. To advertisers it offers favorable inducements.

The reading matter is mostly original; that selected is apparent, and interesting reading for all. While it is independent in politics, it strives to gain all the news, and is fearless and outspoken in its editorial utterances.
In the following section of the work, the cities, villages, and post-offices are arranged in alphabetical order, and a description is given of each place, with an alphabetical list of all persons doing business therein. Great care has been taken to insure correctness as well as completeness.

AUBURN.

This thriving city, located on Cayuga Lake on what is known as the "Auburn Branch" of the N. Y. C. & H. R. R., enjoys the distinction of being the capital of the beautiful county of Cayuga; of being the seat of a Theological Seminary, Orphan Asylum, State Prison, and Asylum for Lunatic Convicts; of being the home and burial-place of the lamented states-
man, W. H. Seward; the birth-place and burial-place of the noted Indian Chief, Logan, and of dating its existence back to the latter part of the seventeenth century. As early as the year 1798 a sturdy pioneer, named John Hardenburgh, concluded his explorations in the then wilderness by building his cabin on the present site of the city of Auburn. The settlement that followed was known as "Hardenburgh’s Corners" until 1805, when some one, with a prophet’s eye, thought he saw in the growing village that that was typical of Goldsmith’s ideal village of the plains, and suggested that the name be changed to that of Auburn. Its present population is 23,000.

**Moshers Hop Plaster**

The science of medicine and chemistry has never produced so valuable and potent a remedy as Mosher's Rheumatic Medicated Hop Plaster, to cure Rheumatism and all ailments that can be reached through the pores of the skin, such as Chronic and Inflammatory Rheumatism, Sciatica, and Neuralgia. It is a sure cure for pain in the side, stomach, back, and lungs; for asthma, pleurisy, dropsy, liver and lung complaints, kidney diseases, diphteria, difficult breathing, sore throat, quinny and stiff neck. It is a sovereign remedy for all kinds of old sores, bruises, cuts, sprains, wounds, boils, ruptures, hard or swelled tumors, chilblains, frost bites, corns, bunions, fever sores, gout, salt rheum, external poison, bronchitis, consumption, female weakness, piles, hacking cough, bites of animals, and insects. Pain of all kinds.

Inflammation is the cause of most all the above diseases, and this plaster destroys that most effectually, and when that is done, pain and disease banish.

Mosher's Rheumatic Medicated Hop Plaster is working miracles wherever and whenever it is used.

The curative elements of it are such that when once applied over the seat of pain or ailment, the pores of the skin become relaxed, and begin to absorb into the system a purifying and revivifying electric current which instantly grapples with disease, and its benign influence restores the patient to the enjoyment of robust health.

The value of this plaster has been tested with the happiest effects, in the most obstinate cases, producing in most cases immediate relief, as hundreds of testimonials will show, and for further information refer you to the plaster itself which will not fail to establish its own reputation wherever it is tried.

We have one favor to ask. Give the Hop Plaster a fair trial, and if it fails to relieve we will refund your money.

No physician or family will be a single day without this remedy after becoming acquainted with its power to cure. Many eminent physicians are using it in their practice, and speak in the most flattering terms of its success over a large class of diseases, thus bringing relief to many sufferers. Try it, and you will not be disappointed.

N. B. If you have any pet corns or bunions and want to save them, don't use Hop Plaster; if you do, you will surely lose them.

**Price only 25 Cents per Box.**

Sold by druggists, or will be sent post-paid on receipt of price.

M. B. MOSHER, AUBURN, N.Y.

**BUFFALO.**

It is not extravagant to say that a just conception of the important relation which Buffalo sustains to the great metropolis of the western continent, as fact to all the cities worthy of mention on or near its latitude from ocean to ocean, cannot be gained by the average reader, from a perusal of a few well-chosen words concerning it. Only he who figures prominently in commercial circles is familiar with the just claims it presents to being classed among the foremost in the United States, outside of New York, in the relation it bears to commercial transactions. By reason of its geographical position it figures as the key to the commerce of the great lakes and the great North-west, and also the artificial gate through which the boundless grain fields of the West pour their treasures into Eastern markets. It is the capital of Erie co., which comprises within its borders fine farming territory. It is the eastern terminus of Lake Erie and the western terminus of the Erie Canal. Just below Buffalo, to the northward, the gradually narrowing lake assumes the character and name of Niagara River, twenty-two miles above Niagara Falls. This forms a water frontage to the city of about five miles. Wharves, elevators, and mammoth warehouses line the harbor, and at the lack of these is the Erie Canal. These comprise the facilities for navigation. The railroads running into Buffalo are the Buffalo, New York & Philadelphia; Buffalo & South-western; Canada Southern; New York, Lake Erie & Western; Grand Trunk; Great Western of Canada; Lake Shore & Michigan Southern; New York Central & Hudson River Railroads. These

afford it all the needed advantages for transportation to any point in the United States and Canada. Buffalo is 298 miles from Albany, 498 from Boston, 433 from New York, via the Erie R. R., and 442 via the N. Y. C. & H. R. R., 183 miles from Cleveland, 441 from Cincinnati, and 588 from Chicago.

Having dwelt on its advantages as a commercial city, it is proper that a showing be given of an amount of business done for a certain period, as exhibited by the records of Wm. Thurstone, the expert statistician and secretary of the Buffalo Board of Trade:

The aggregate receipts of grain for 1879 by lake and the L. S. & M. S. R. R. were 133,993,451 bushels, against 117,599,239 in 1878, a gain of 6,393,212 bushels. Since the opening of the International Bridge at Black Rock no statistics have been kept of the imports by the railroads at that point. The receipts would be largely increased if these could be given.

The growth of the grain trade of Buffalo is briefly shown by the following figures:

In 1856, the receipts by lake were 1,339,917 bushels; in 1860, 1,496,372 bushels; in 1865, 15,753,967 bushels; in 1866, 53,988,021 bushels; in 1872, 4,074,687 bushels; in 1876, 6,159,391; in 1877, 14,800,708 bushels; and in 1879, 78,865,354. The aggregate receipts by lake of flour and grain from 1836 to 1879, inclusive, were 1,526,266,233.

In 1879 the coal trade made the greatest progress of any branch of commerce. The lumber trade likewise makes an excellent exhibit. The number of canal boats cleared from Buffalo in 1879 were 8,078, against 9,047 in 1878.

An idea of the amount of business done at the elevators in Buffalo may be gained from the following statement: In 1874 the exports of grain from the elevators by the Erie and N. Y. C. & H. R. R., were 11,366,974 bushels; in 1875, 14,800,690; in 1876, 16,073,732; in 1877, 17,235,909; in 1878, 19,136,668; in 1879, 17,920,526; in addition to the immense quantity shipped by canal, viz: 53,899,000 bushels. The latest date on which navigation on the lake has opened at Buffalo for ten years prior to the year 1880, was May 13, 1875, and the earliest date, March 16, 1878. The earliest date on which the canal has opened for the corresponding period, was April 5, 1878, and the latest, May 18, 1875. The receipts of canal toils at Buffalo for the year 1879 were $591,629.

The Buffalo Board of Trade was constituted January 18, 1844, and incorporated March 7, 1897. The present number of members are about 200, and the chief officers are George Sandrock, pres.; John B. Manning, vice-pres.; Nathaniel Rochester, treas., and Wm. Thurstone, sec. The office is located on Central Wharf.

The manufactures of Buffalo are extensive, and would command an extended detailed reference if given their proper showing in this connection. They include numerous iron manufactories, steam engine and iron ship building; forge works, flouring-mills, etc., etc. There are about seventy churches in the city. The English daily newspapers are the Buffalo Morning Express, the Buffalo Daily Courier, the Buffalo Commercial Advertiser. Three Sunday papers, the Times, News, and the Sunday edition of the Courier; and in the dissemination of news there are also several German papers. The hotel facilities are good, the Tifft House on Main Street being the first in popular favor.

R. W. Bell & Co's "QUEEN CITY" Soap.

FOUR POUND BARS.
The most economical soap used.
BARBER SHOP.
THE LEADING TONSORIAL PALACE
AND BATH ROOMS.
Whene'r you wish a pleasant shave,
As good as barber ever gave,
Just call on us at our saloon,
At morn, at eve, or busy noon,
Our scissors sharp, our razors keen,
Room is neat and towels clean;
And then we move with steady hand
As any artist in the land.
With gentle touch we smooth the face,
And dress the hair with equal grace.

DUNKIRK.

In the northern part of Chautauqua co. It is a railroad center of much importance, being located on the L. S. & M. S. R. R., on the D. A. & V. & P. R. R., and on the N. Y., L. E. & W. R. R. American and U. S. Express. W. U. Telegraph. It has recently classed itself as a city, although the general thrift of the place is not as perceptible as when it was the headquarters of the Erie Lake Transportation Co. several years ago. Then its harbor teemed with activity during the entire navigation season. At present the harbor contributes but little to the general prosperity of the place. Should business hereafter be resumed with the fleet of boats navigating the chain of lakes, Dunkirk will pulsate again with more than its former vigor. The Brooks Locomotive Works are the most important factor of the industry of the place, often affording employment to as many as 600 hands. Three weekly newspapers are published in Dunkirk, but the fact that the city is but 40 miles from Buffalo prevents such establishments from becoming mammoth in their proportions. Population about 7,000.

LOCKPORT.
The county seat of Niagara county, located near the center, on the Niagara Falls Branch of the N. Y. C. & H. R. R., and is the terminus of the new L. & B. R. R., managed by the N. Y., L. E. & W. R. Co. It is also one of the most important cities on the line of the Erie Canal. The N. Y. C. & H. R. R. has a branch road running from Buffalo to Lockport, connecting with the Niagara Falls road at Lockport Junction, 3 miles west of the city. The trains, however, run direct to and from Buffalo without change. Buffalo is 26 miles distant, Niagara Falls 22 miles, and Rochester 56 miles. The city is built on the brow of a mountain, overlooking a broad ex-

panse of picturesque territory stretching away to Lake Ontario, 12 miles to the northward. All this part of the county is densely orchardcd with apple and peach trees, prolific in their yield. Fruit shipping, canning, and drying are therefore important factors in the industry of the city, affording employment to a goodly number of the surplus population. The manufacturing facilities are unexcelled in the State; the power being derived from the use of water flowing from the head of the ten combined locks through an hydraulic canal, constructed about half-way from the base to the summit of the mountain, and running through the city along the line of the canal. This constitutes the water power for what is known as Upper Lockport. From the north bank of the canal to the north limits of the city the descent is so precipitous that immense power is gained by utilizing water that flows from the canal through the northern part of the city along the base of the mountain, finally passing through a gorge, forming a series of little falls, to a valley beyond, forming what is known as Eighteen Mile Creek, which continues its course to Lake Ontario. The Lockport schools rank high, especially the Union School. U. S. and American Express. W. U. Telegraph. Population, 14,000, John A. Hubbard, postmaster.

ROCHESTER.
The county seat of Monroe co., located near the center, on the N. Y. C. & H. R. R., Rochester Branch of the N. Y., L. E. & W. R. R., and Erie Canal. Also on the Genesee River, 7 miles from Lake Ontario. Distant from Buffalo, 68 miles, over the main Division of the N. Y. C. & H. R. R., and from Niagara Falls, 78 miles, over the Niagara Falls Branch of the N. Y. C. & H. R. R. It is 4 miles in extent each way; is divided into sixteen wards, and has a population of 39,498. Rochester was not incorporated a city until 1834, and six years later (1840), it boasted of a population of 38,403. The rapid growth in population that has marked its career is particularly noteworthy, inasmuch as during all these years of its prosperity it has presented no attraction entitled to pre-eminence, but presented features inviting in general. Among these may be mentioned those of picturesque location, beautiful surroundings, fine streets and buildings, excellent public institutions, broad culture and superior schools, unequalled manufacturing facilities, etc., etc. During the first ten years of its existence its milling interests had grown to large proportions, and at that time Rochester manufactured more flour than any other city on the continent. It was this fact that gained for it at an early day the title of "The Flour City." At a later day the progress of events in the territory that surrounded it made it the center of a populous district devoted largely to nursery business. That even in its infancy became known all over the world for its success, and gave to Rochester the worthy

appellation of "The Flower City." It is now classed among the finest of modern times, and enviable merit attaches itself to its name. The advantages it enjoys as a railroad centre are conspicuous and unexcelled. During the navigation season passenger steamers ply the river between Rochester and Charlotte, and at the latter point connection is made, both by cars and boat, with steamers for Canada and the Thousand Islands. Rochester is a convenient distance from several quite popular pleasure resorts. Among them, Charlotte, Summerville, Irondequoit Bay, Hemlock Lake and Avon Springs, any of which are well patronized. Of these, Charlotte, on the lake, is the most attractive. The public buildings are conspicuously grouped near the center of the city. These are the City Hall, a fine stone structure, finished in 1873; the Free Academy, built of brick; and the Court House, an older building, but in the classic rather than the modern style. The most stately edifice is Powers' commercial fire-proof building, which cost about $1,000,000. Nearly every part of Rochester is supplied with water from the pipes of the city water works. There are two distinct systems connected and dependent upon and yet independent of each other, that under any emergency at all likely to occur the water supply could not be cut off. These are the celebrated Holley system, used chiefly to supply water to manufacturing establishments, and for the extinguishing of fires; and the second system conducts water for domestic purposes, from Hemlock Lake, twenty-eight miles south of the city. There are sixty-six religious organizations in Rochester, and upwards of fifty church edifices. There are four daily papers published in the English language, and two in German. Two Sunday papers. There are several popular and well conducted hotels.

FACTS AND FEATURES
OF THE
Penn Mutual
Life Insurance Company,
OF PHILADELPHIA.
PURELY MUTUAL.
One of the Oldest, Strongest and Best.
SAMUEL C. HUEY, President.

ASSETS, JAN. 1, 1880, $7,031,318.84
SURPLUS, $1,514,147.47

The Penn Mutual is the Only Company in the United States that has voluntarily made all its Policies Absolutely Non-forfeitable.

Leads in Financial Strength. The true test of the strength of a Company is not simply an aggregate of Assets, however large, but the Ratio of Assets to Liabilities. The PENN has $127 of Cash Assets to each $100 of its Liabilities. The PENN has a surplus of $1,514,147.47 over all Liabilities, immediate or contingent. Has paid more dividends in number, and of a larger average percentage than any other Company.

Leads in Business Management. Has no proxy voters for its officers. Their Salaries are small. Prudence, Honesty and Economy its leading qualities.

Since its organization the PENN MUTUAL has paid its Policy-holders in cash over TEN MILLIONS OF DOLLARS.

Over 68 Per Cent. of the Premium Receipts has been returned to the Policy-holders since Organization, in dividends, death claims, etc.

This is a larger percentage of return to Policy-holders than that made by any other Company in the United States.

The PENN MUTUAL is very careful in the selection of its risks—and when its losses occur they are paid cheerfully and promptly.

Consult the Agent of the PENN MUTUAL for insurance or information concerning Life Companies.

The University furnishes instruction in three distinct courses of study:

1. The **CLASSICAL COURSE**, extending through four years, at the expiration of which time those who have satisfactorily passed the required examinations are admitted to the degree of Bachelor of Arts.

2. The **SCIENTIFIC COURSE**, which requires no Greek, in the place of which a more extended course of study is prescribed in Physical Science, Mathematics, History, and the Modern Languages. Those who complete this course are admitted to the degree of Bachelor of Science.

3. The **ECLECTIC COURSE**, designed for students who may receive instructions in particular departments without becoming candidate for degrees.

COOL LAGER ALWAYS ON DRAUGHT.

HEMORRHIOIDS or PILES.

My Treatment is Original, Painless and Uniformly Successful.

The Hemorrhoids, or Piles, are permanently eradicated in two to four weeks, without the knife, ligature, caustic, or any of the old painful and dangerous methods used by the general profession.

I claim for this treatment that it is superior to anything ever attempted or advised for this condition. It is a permanent and perfect cure. It is free from all danger of hemorrhage.

A GREAT CONSIDERATION

Is the short length of time required in effecting a cure and not preventing patients from attending to their usual business.

As examples of my success in the treatment of this condition and all other diseases of the rectum and anus, I refer to the following gentlemen, as well as a large number of others, whose names can be seen at my office. Any further information will be cheerfully given at my office or by mail.

THE KEDZIE WATER FILTER,
MANUFACTURED BY
Wm. L. Ingraham,
ROCHESTER, N.Y.

These Filters have been tested by hundreds of families throughout the United States since 1877; they have received the commendations of physicians and men of science, and their merit is established as possessing every practical adaptation for family use, rendering the most impure water free from all taste, color or smell. They are designed for purifying Rain, River or Hydrant Water for drinking and cooking, and are made with a view to durability, having a circular oak cask, into which is packed pure prepared charcoal. Vegetable charcoal (carbon) is the best known deodorizer and purifier of water, and, when packed and prepared as it is by our process, nothing can excel it as a filtering material. We guarantee the perfect working of every Filter.

Five sizes.—Prices, $9, $10.50, $12, $13.50 and $15; sent to any address, freight paid, on receipt of price.

### SYRACUSE.

The county seat of Onondaga Co. is situated on the N. Y. C. & H. R. R., 148 miles west of Albany, and 149 miles east of Buffalo.

The first settlement was made in 1787, and was called Bogardus Corners until 1809, when the name was changed to
Milan, and afterwards to Cossit's Corners; again to Corinth, and in 1824 the settlement received its present name, and was incorporated as a village in 1825. In the year 1847 the village was consolidated with the village of Salina, and received its charter as a city.

In the year 1840 the population of Syracuse village was 6,500, and of Salina village 2,600, and at the present time the city boasts of 51,158 inhabitants. It is pleasantly located in the midst of one of the finest agricultural districts in the State, and has always been celebrated for its productions of salt, the earliest account of the manufacture of which was in 1787, when a manufactory was established with a capacity of ten bushels per day. The productions for the year 1879 was 8,322,162 bushels, paying the State a net revenue of $33,221.62.

The educational facilities are superior, and at present there are sixteen large school buildings and a splendid High School edifice. The Syracuse University buildings are beautifully located in the eastern part of the city, and although but recently established, has already taken a prominent position among the colleges of this State.

There are thirty-eight churches of various denominations within the city limits, erected at an aggregate cost of $1,426,000, with a seating capacity for 28,000 individuals.

The banking privileges are excellent, a capital of $1,400,000 being represented by the several banks and private bankers. The city has established an enviable reputation as a manufacturing center, especially in the production of merchant iron, steel, hardware, and glass; and the wholesale houses are competing strongly with the Eastern markets.

The Erie Canal, passing through, is intersected at this place by the Oswego Canal, which, with the several railroads, affords splendid shipping facilities. The D., L. & W. R. R. Coal Co. shipped in the year 1879 about 1,000,000 net tons of coal.

Among the public buildings the most prominent are the State Armory, State Asylum for Idiots, Onondaga Co. Orphan Asylum, County Penitentiary, a fine Court House. The Syracuse Savings Bank, an elegant building, finished in 1876, at a cost of $300,000.

The improvements which are being made in the erection of large business blocks and elegant private residences, the steady influx of labor and capital, its enterprising men and social attractions, the busy hum of industry that meets one at every hand, and the prosperous condition of not only the business community but also the laboring classes, show conclusively that at no distant day Syracuse will reach beyond her present boundaries—growing in wealth and grandeur, and increasing her facilities in her various manufacturing and mercantile pursuits.

Buffalo Sunday News

Published at the

Sunday News Building,

Main Street, - - Buffalo, N. Y.

EDWARD H. BUTLER, Editor and Proprietor.

The Sunday News has the largest circulation of any paper in the state outside of New York City. Circulation 15,000 copies (sworn to.) Advertising rates made known on application. Terms by mail $2.50 per year, strictly in advance. Single copies 5 cents.

The Sunday News is a large four-page paper of forty columns, and circulates in four states and the Dominion of Canada on the day of publication. The Sunday News contains a great variety of late news and interesting reading matter, articles on local and general topics, and is the only paper in Buffalo which receives special telegrams each Saturday night, in addition to the regular associated press dispatches. Late news and special matter form a feature of the paper.

The Sunday News is the only paper in Buffalo that occupies the entire building from which it is issued.

Its offices, the handsomest in the city,

Are illuminated with the Electric Light.
