FOR PRESIDENT

#### GES. WINFIELD SCOTT.

T Twenty-five years ago this day, the Batt of of Lundy's Lane was fought-a battle, which was hotly contested, but which in its results and consequences redounds great to the fathe of the American Army. The West was benefitted much by the issue of this conflict, and the Congress of the United States considered it of such vital importance as to raward with the rates of Breve Major General the gullant soldier who achieved it. That soldier has just left us, and we sincerely believe there is no American among as who will not accord to him the merit of arresting the proud march of British triumph and of causing the Starspangled Banner to wave J'er the rooted and dis. pirited forces of English oppression. "Honor to whom honor is due."-Chicago American.

We make no comment on the above, for we could not better ourself.

I like to seen person slander his neighbour. It looks like the aspirations of a lofty mind soaring above the growilling things of time and sende.

I like to see young men engaged hightly in swearing and caronsing. It shows that they are gentlemen, and that it is the surest way to obtain honor!

A considerable testimony was addaced on this occasion The counsel for the prisoner contended that he was leaning against to blow his nose': but clearly proved that he actually set up the post with his hand, and a verdict was rendered accordingly The President then proceeded to pass sentence on the colprit, whom it is said is too lazy to sleep the dengerous example he, the prisoner, was setting others, and finally exhorting him to meet his fate like a man. The sentence was that he should read aloud one of Hyatt's prosy fanders, and if enught in the like act, to be expelled from the club. The President's address was very affect. ing, there was scarce a dry eye in the court room. It " done credit to his head and heart."

Edmund Lyon's certificate of good character !

CF A for several day's labour, Edmund Lyon has abtained the signitures of some seven or eight todividuals, out of a population of twenty-five thousand, to his certificate of character !!! How were those signatures obtained ! Did not Edmund Lyon pledge himself to those that he hegged to sign it, that the publication of the cartificate should he accompanied by a round denial of any partici to done it? No he does not.

Unless Lyon redeems his pledge to those who signatures he so meanly obtained, we are much mistaken if those gentlemen do not make bis case

Why did not Lyon procure the names of the business part of the community, men with whom he has dealt ! He could not He has the names. of individuals who have eary little if any acquaissance of him and know, comparatively speaking. mothing of his exceet.

Edmund Lyon has placed himself in a very awkward bredicament. The statement must be forthcoming, or he must rest under the charges that have been hill to him.

In speaking of a seduction case some time eince, we stated that the young lady was sent to this city to finish her education. This was not the case. She came here on a visit. We make this correction, for fear that blame might be at technd to some of the several seminuries, for which our city is so calebrated.

PROFESSOR INGRAMAN. - This pleasing and popaler author is we understand, passing the sum mer at Schooley's Mountain. He has nearly ready for the press of the Rarper's a new roman be story, entitled " The Quadroon," The scene are faid in the South West. It is said that he is to viest England in the in company with George D Prentice: the witty editor of the Louisville Journel . The Tauler,

LANY FLORA HASTINGS .- As so much has been

said about this young lady, who died a virgin at the age of 33, it may not be amiss to give a short autline of her lineage. She was descended, by the female line, from an ancient and distinguished Scottish family, the Mures of Rowallon, in Ayrabire, whose castle and fine estate appear to have been in their posteroion from the immemorint, Bir Gilchrist More, of Rowallan, is the first of the family, of whom mention is made in authentic history. He was a warrier, and with his followers fought at Lange, on the 2d of October, 1263, in the great battle between Alexander the Third, King of Scotland, and Bacho, King of Norway, in which the army of the latter, consisting of 20,000 men of war, who lended at Avr. not of 160 ships, was signally routed. Of the Norsemen 16.000 were slain, and of the Be-5.000. For his gallantry in the feld of battle, the King conferred knighthead on Bir Glichrist. He afterwards married lesbeil, only denchter and heires of Bir Walter Camlan, one of the a powerful of the Scottish chiefs. The great grandson of Sir Gelchrist was Sir Adam More of Rowalland, whose eldest daughter, Elizabeth Mure, Source in the history of Europe. In December. 1347, Robert the Second, King of Scotland, grand son of King Robert Bruce, and the first of the Stuarts who were the Scottish crown, married this Elizabeth Mure. King Robert the Third was of the issue of this marriage, and hence are descended all the royal families of Europe claiming kindred with the Stuarts, as well as many of the nobles, who are Stuarts, of the united Kingdom. The most Noble Flora More Campbell, Downger Marchioness of Hastings, and in her own right, Constess of London, Baroness Lon don, Faringenne and Mouchline, in the pearage of Scotland, is one of the representatives of the estate and custle of Rowallan. # DAILY SUN.

TUESDAY AUGUST 6, 1839.

#### GEN. WINFIELD SCOTT

IT It has ever been the misfortune of the whig party to be cursed with a set of leaders and editors whose folly and impudence would rain any couse. Webb, Noah and Stone with the little assistance Dawson could render them, would soon write any party into a minority by their indiscreet efforts to advocate its cause. The great mars of the people of this State, both Democratic and Whig are in favor of a sound corrency, and prefer Gold and Silver or its equivalent to irrs deensable shin plasters. They are also opposed to the use of the public money by the Banks, as well as to the Van Buren sub-treasury. And yet in the face of these facts, the editor of the Daily Democrat seems determined to have a presidential candidate "opposed to gold and silver currency." and of course in favour of irreledmoble rag currency-opposed to an." Independent Treasury." and of course in favour of Van Buren's sub-treasury or Clay's National Bank of 50 millions, or the Pet Bank System which Dawson himself abused whilst it was in opperation. Now, what intelligent whig does not see, that Atheir silly and half crazy editors are allowed make up such an issue as this, and go to the ple with it, the whig party must be inevitably by sen, routed, and Van Buren triumphantly selected ? Dawson says he knows the politics of Cen. Scott. We assert that he knows nothing about them, ex. cept what he has learnt from the columns of the Sun. We reiterate our former assertion vis, that Gen. Scott in in favour of a gold and silver corresey, and of an Independent Treasury. Whoever says that the gallant Scott is a friend to filthy shin-plasters, is guilty of gross falsebrood. The General bimself will at a proper time express his political sentiments, and then the advocates of an irredemable poper currency will be placed hors

TO THE PUBLIC.

We the undersigned would most respectfully represent to the good people of the city of Ro chester, that we have long known Mr. Robert Kidney, and can vouch that he is a man of temperate habits, strict integrity, distinguished for a love of truth, of refined taste, great moral worth and a blessing to the community, in which he condesends to live. And whatsoever stories may have been put in circulation touching his untarnished reputation in the newspapers of this city or otherwise, we unhesitatingly pronounce false and libelous, and while we thus cordially and publicly render this act of justice to our esteemed fellow-citizen, we feel honored by the opportunity 'has afforded as of connecting our names in public with that of Mr. Kidney.

How happened you to know anything of Cen. Scott's " principles and sentiments?" Was be not first nominated for the Presidency by the Democratic Republicans of Rochester ? Was not our paper the first established in the United States to advocate his claims ? Do you suppose we have supported him so long without knowing his "principles and sentiments?" FOR PRESIDEST

#### GEN. WINFIELD SCOTT

D' We are frequently asked what so Democratic friends of Gen. Scott intend ly to pursued So f ras we understand the wie wa of the Republicans who were the first w bring Gen Scott into the field, they intend to idhere to him at all events, and under any circy ustanees. They stick to the good old democra 'a doctrine of "one term," and see no reason to folate that doctrine by re-electing the present reumbent of the White House. A large number of the democratic party reluciantly supported the election of Gen. Jackson for a second term ichder a conviction that his re election was necessary to put down the U. S. Bank, No such reason exists for the re-election of Mr. Van Beren. The Bank is down, and must stay down, as no considerable portion of any party advocates its re-chafter by Congress. But says one " suppose they do. Will that make the General any less houest, less patic, or less democratic in his sentinaents? W I it wither the laurels that now flourish apon the brow of the Hero of Chippewa ? Cestainly not. It will be a concession by the whige to the popular feeling, and will be at least one evalence of patriotism from that party. We should have no fears about trusting the country in the bands Gen. Scott, even if elected by the aid of the whige. If the aristocratic and federal position of the whig party undertook to crowd any of their Trade and anti-popular measures upon Scoll, they would find that hey had " maked up the wrong pessenger." If Scott is nominated by the whigh Convention, havill be elected by democratic votes. The Democratic Scott men now hold of power between the Van Bureu and the regular whig party. If the whig y has sense and honesty enough to nominate General he will be elee ed. But suppose the whige cominate Clay? In that case, the Democratic Republison Scott Party will organise thoroughly forthwith throughout this State, and the Union-they will raise the standard co-RE FORM, R. TRESCHMEST and CONTAILMENT ( Ex-REUTIVE PATRONAGE, and go into he field stry conscious that although they may be defea d at the Presidential election of 1840 they will be bure to succeed in 1844. Gen. Jackson's prospects in 1824 were not as promising as Cen. Scott's now are, and yet in 1828 he was triumphantly effected. The patriotic hand that will go for Scott at the next election, will rejoice in a giorious political victory in 1544 at furthest. Patience and per se a sace will save the country,

NEW LUBER YAND. -Our friend PARDON W might has opened a number yard at the fort of Muniford street, where he will be found ready to wait upon those who may please to favor him with their patronage. He has just received a large quantity of all sorts and sizes, which he will sell lettle cheaper than can be got elsewhere. As friend Wasger is a real double and twisted Scott man, and no mistake, we advise all in want of timber to give him a call.

O' The Taves flourish in the tallest kind of a way. New goods, beautiful ladies, low prices, and accommodating folks are to be found at No. 2 & 3 They are just now selling off cheap some sich silks. Link in it In-lies,

The Daily Democrat says that Gen. Scott is a succere hater of Gold and Silve ," and must of course be in favour of " irredeen ble ray noney." What schappers Dawson can tell!

D Passengers are now taken from Bosti of New York, vin the railroad, in 13 hours. Dis tance 220 miles.

IT In some parts of the country there has been a great mortality among the fish, caused by leach es, which are found adhering to their gills.

Fire.-The building formerly known as the chain cable factory in Attorney, between Stantor and Rivington streets, was destroyed by fire about eieven o'elock last night. - N. Y. Gaz.

We were crediby informed not long since, that Gen. Scott was beset on every side by the office holders and hirelings of the loco foco party, to try if possible to induce him to withdraw his name as a randidate for the Presidency at the next election; and at the same time promising him if he would so do, that he should be the regular Republican Candidate at the expiration of Mr. Van Buren's second term, and receive the apport of the party. We could not pursuade our selves to believe this to be true, until a late circumstance which has just come to our knowled ge convinces us that it is even so. Gen. Goald of this city, late Collector of the Port of Genesee, learning that Gen. Scott did not intend to pass through this place on his return from the West, took the trouble to go all the way to Niagara Falls to have an interview with him apon the subject undoubt- to the brain : notwithelanding Mrs. K-rose again edly of his accepting the nomination. What success Gen. Gould met with in the interview, we are not at present able to say. But we will predict that if all the office holders and their dependants and hirelings should haunt Gen. Scott for R.'s mouth, exering her lungue in Iwo. The that parpose from this time up to the election, and present every kind of inducement in their posses: sion, it would have no impression upon his mind, for he never will be made the tool of any man, or any set of men. Whatever the people want, he is ready and willing to grant.

IJ Mr. MADDEN, when are we to have our TWENTY THREE CENTS?

We beg of Mr. Weed to put Dawson on the right track. He seems determined to ruin the cause of Gen, Scott and re-elect Van Buren, by representing Scott as a discip- of the shinplaster school. This will never do.

UF We have between eighty and one handred dollars of the Wetumpka Trading tio," and expect several thousand dollars in a few days, for which, we shall institute a sait against Edmund Lyon, as a stockholder,

IT It is stated that the engine of the British Queen, was never stopped for an instant, during her voyage, from Portamourh to New York.

The cotton crop of Eastern Texas, will this year, it is believed, reach 20,000 bales,

The Bowery Amphitheatre have never settled that bill for advertising; although we see their agents hanging round the taverns in the city

If Did Edmund Lyon, give the Deacon, that eighteen inches of land for his signature?

There is an old instance illustrating the comical mistakes which happen from neglecting he peoper positions of points:

The lady of a mariner about to sail on a distant royage, sent a note to the clergyman of the parish, expressing the following meaning:

" A husband going to sea, his wife desires the prayers of the congregation."

Unfortunately, the good matron was not skilled in punctuation, nor had the minister quick vision. He read the note as it was written:

" A husband going to see his wife, desires the prayers of the congregation."

Non-Committal .- Who sthrock Jim Patteron ! who sthruck Jens Patterson?" demanded a wee voter from the land of turf and glory, elbowing himself through the crowd assembled at the poll, and intimating a bloody nose and black eyes to any one who dared use the first person singalar in his reply-"ounly show me the man who knocked down Jim Patterson"-and his little red hands resolved themselves into fits, bad his little voice struggled up from his belly in so attempt to be deep-"ounly show me the manthat knock ed down Jim Patterson." "I knocked him down," said a voter, scepping from the crowd. 'and what bave you to say about it?" "By my towl, and ye did it like a man," replied our Mars nowing very courtenualy.

On it e 26th ult, Mr. John Featherstonhaugh worthy and industrious mechanic of Schnecta ly, was drowned in the Mohawk. He has left wife and four children to deplore his loss,

FIENDISH MURDER. - Seldom have we heard of a murder of greater attrocity than one recent ly perpetrater in Scott county, Ky., on the per son of Mrs. Enzabeth Risk, by a negro woman, her servant. The circumstances are thus detailed by the Regigelown Banner of the 19 inst.

The negro-woman had been ordered, by Mrs. R. from her work in the corn field, and told to make a fire. The fire was got ready, to which was added an unusual quantity of dry brush, the blaze from which Mrs. R. was endeavoring to extinguish, where she was thrown headlong into the fire by her sa tant woman, from which awful dilemma she meen extricated herself, but unfor unately, in her retreat, she came again in contact with her negro, by whom she was levelled to the ground with an uxe, which penetrated her skull to her feet, and was again knucked down, and the negrabaying procured a sharp pointed knife. sudeavorne to cut Mrs R.'s throat, but mussed her aim, the knife having been plunged into Mrs. neg o full best on executing her helish design, consened to use the knife on Mrs. R.'s body, who continue sto lay motionless on the floor, and was supposed by the woman to be dead, who ran with all possible speed to the field, and informed Mrs. R.'s hostwood, that her mistress had fallen into the fire; and buent herself to death. Mes. R. so far meetired as to relate the circumstances to her husband and others, to all which the negro ofterwards made seknowledgement. She has been tried before examining court, and sentenced to await ber fiftel trul at our Santember Cier

DR. SPRING'S FEMALE DESERSTU-NET PILES, for obstructions and other diseases peculiar to female. Price 50 conts per

The peculiar properties that these pilis possess in the successful treatment of those loathsome diseases that are so peculiar to the female bex, are not to be doubted, since they have been satisfacwrily proved by a long experience in the private practice of one of our most eminent physicians. Neither have they been confined to one saly, and rande a matter of secret by the venerable inventor, but have been extended to the practice of many of his medicine a most valuable preventive as well as a sovereign remedy in the following complaints:—Obstructions, Green Sickness, De-bility, Indigestion, Giddiness, Palpitation of the Heart, Hysteria, Leathing of Food, Prices in the Stomach, Shortness of Breath after a little exer. eise, and Sinking of the Spirits.

These pills are safe as they do not contain the least particle of mercury, or any other dangerous ingredient. As a preventive against he above diseases, the specific powers of these pills act most atmirably in purifying and quickening the blood when it has become tardy, and restoring the natural glow and universal cheerfulness to the sallow and dejected countenance of the vahealthy formula. female.

POR PRESIDENT P

#### GEN. WINFIELD & COTT.

IF How to DEFEAT VAN BUREN .- Stop the senseless clamour about "whig principles"-reorganise the Democratic Republican Party on the Jeffersonian doctrines of " Retrenchment and Reform," and "egainst the interference of government officers in elections " Nominate Scott for the Presidency, and inscribe on his banner "One Presidential term"- Gold and Silver or its equivalent for a currency-and "an Independent Treasury under the exclusive control of Congrees"-with such an issue, the vertict of the people would be for Scorr. Is there sen-e enough among the politicians opposed to Wat Baren to try it 1 We fear not, Dawson's late demonstra. tion is very discouraging.

" He (Gen. Scott) is in every sense a whig " and supports whig principles."-Daily Dem General Scott is neither a "Webb whig!" a "Wise whig," a " federal whig," an " antima eusic whig," an " shelition whig," a " Bank whig," or a shin plaster whig." He is an honest patriotic man, and supports honest and patriotic principles. General Scott is the independent Republican Candidate for the Presidency and if Dawson want to support him he must fall into the ranks, and follow his file leader THE SUR.

OF LATEST INTELLIGENCE .- Her Majesty having been to visit the mint, asked when leaving if he tofat substit to be searched, as all person I a in are subject to this e scration. The mar er of he mint feeling a delicacy on the subject. declined, but the Queen invisted that he should do his duty, and, would it be believed, beneath her dress, he found a mould to cast sovereigns!

Dr We have used up Dwindle and Hyatt. Do Shepard, Birong, & Dawson want us to use them up ! Bay the word gentlemen, and the way we shall do it will be " a caution."

IT PHARMOLOGY PROGRESSING,-There has been a new bump discovered by some of our most acute observers, called "Concertriveness plus," which indicates six families living in one house, and all keeping boarders. Astonishing as it may appear, seventeen centuries bath the world remained in ignorance in regard to this remark ble b imy - his organ occupies the most of the bruin and is peculiar to the Irish.

[ For the Daily Sun. !

Mn Eprinn-I was quite amused last Sabbath to observe the people leaving the several church es meet, and from some cause to me unknown, (unless it was to get within the shade of the fenees,) were determined to keep the inside of the ceasions with the smashing of bonnets, parasolls," &c. &c. Our city is becoming to densly populated to admit of such managevers, and would it not be well for people iff imitation of our large cities to keep the right hand side of the walk, and then the piece a wo I be perfectly free. If we wait much longer before we commence such arrangemonts, it will be impossible to pass the streets with any counfirt, andfrest to impossible to re Yours, dec. Laura \* \* . .

Mu. Dranthe gentlemanly manager of the Baffalo Theatre is about to visit Rochester with his Company, and if report speaks the trath, we shall enjoy a treat indeed. The performers which comprise Mr. Dean's stock company are all, people of superior talents and unexceptionable charecter. An opportunity will be now afforded the citizens of Rochester of seeing the drama as well et biner, as in the Metropolitan T catres.

If When we see a man running here and there obtaining names to endorse his character, if puts us in mind of Faster's friend, who complained to him that a slanderer had ruined his character. "So much the better" replied the wit. For it was a wofel bad one, and the sooner distroyed the better.

IT Lots of military goods have been received at Demarist's new ward rooms.

I We have been chased around for the last two days, by Mr. Robert Kidney, who carries a large horse-whip in hand, intent on whipping as to death. It appears that Mr. Kidney feels en raged in consequence of our getting at a serrift cate of character for him, and patting him on a just with Edmund Lyon. He says that when his che racter becomes so noteriously bed as to need certificate to sentain it, he will let us know.

NEW ORLEANS. July 22-Good NEWS .- The steamer Checchuma, from Shreveport, has brought \$300 000 in gold and silver, belonging to different merchants in Chihalahas, and destined, as we learn, to purchase goods for the interior of Mexico. This intelligence seems to appounce that at length tranquility is restored to the interior of that enfortunate country. The commencement of these commercial transactions will be likely to be attended by nuspicious consequences, as the provinces of Chihuahua and Senura coutain the richest mines of gold in all Mexico.

The supplying of those provinces from the sap ital of Mexico id always attended by great deficulties arising from the length and badaces of the goads. The merchants there seem to perceive at last the advantages of a direct communication with the United States. In this way goods may be carried from New Orleans to Chihushus at less expense than to the capital of Mexico, and they avoid all the arbitrary exactions levied upon them in the different provinces through which they pass in the old route.

This arrival from the interior of Mexico is the precurser, we hope, of the most useful results for both countries. - Louis.

ANOTHER MELANCHOLY SUICIDE. - About 7 o' clock yesterday morning, a very genteel looking Frenchman, about 5 feet 7 inches in height, with rather bashy whiskers, and of a slender make in person, went into the bath house of Breux an Borns, on Pifth street, and called for a bath. He maining in it better than an hour, he committed spicide, by shooting himself through the mouth with a pistol, Mr. Break went into the room, and found the unfortunate man lying on his back on the floor, quite dead. Previous to the act, he had stripped himself and appeared to have used the both. Everything made it apparent that he per formed the deed coolly and deliberately. On a shelf in the room was found a note in French, written in a beautiful hand. Two gentlemen translated the note as follows:

"I have killed myself voluntarily, and as I do not wish to grieve my family, I wish that my name may remain unknown. I only state that I am a Frenchman."

"P. S .- There will be found in my pantaloons pocket, something to pay for my burial and a

Another piece of paper was found in one of his pockets, being a memorandum of a Mr. Piene, a merchant of Louisville. He is supposed to have come from that city. His shirt was marked with the initials "L. M," and the name of " Charles Passy" was written on his drawers in ink. He had in his pockets about \$5 in money, a pistol and some powder and pullets. Lewis Day, E-q Coroner, held an inquest over the hody of the deceased, by which the fac's were elicited. His person has not yet been recognised. - Cia. Rep

LOWELL PACTORY GIRLS .- It is stated that nine handred and twenty-right of the factory girls in Lurelt shave demonsted in the Savings Bank in that che over \$100,000 -au average of somehing over one handred dollars ouch. The amount would be supch largue, but that no interest is allowed on deposites exceeding \$500; besides many of the garle prefer to deposite in institutions nearer the residence of their parents.

Anvice GRATIS.-We advise behaving peo pie, and mechanics generally, with whom the soving of a billing in a pound of ten or of three peace in a found of coffee, is an object to go and buy as much of each as they may want for three months to come.

We advise people to buy pure milk, and wa ter it to suit themselves.

We advise people who love health, to rise earfier, exarcise more in the pure nir, and eat and drink less.

We advise people of one seet to pattern after the good that may see in other sects; in parties fur, we would advise Christians to be se exemplary on the first, as the Jews are on the seventh day of the week.

We advise three hand-ed families in this city, who keep dags, to get rid of them-and their poor children will have more to est.

# DAILY SUN.

FRIDAY AUGUST 9, 1839.

FOR PRESIDENT

#### GEN. WINFIELD SCOTT

CITY IMPROVEMENTS.

Such was the wretched condition of our streets a few years ago, that Rochester was called the " City of Mud"-now we can houst as many, if not more, well improved streets as any city of equal population in the Union. The zeal and spirit with which our public improvements have been prosecuted is highly commendable. Most of the Main avenues leading to the centre of the city its now macadimised or in such a state of forwardness that they will soon be completed. In addition to improving the streets, our good citizens are turning their attention to the advrament of the city with beautiful squares and public grounds. In this particular they displey their good sense and last. A residence fronting a fine Square is preferable in every point of views. A free circulation of sir, so important to health, is thus secured. This cannot be too highly regarded in a densely populated city, as ours is destined to be. The progressive hand of improvement will ere long transform Washington, Franklin, and Centre Squares, Rochester, into as Senatiful spots as St. Johns and Washington Squaress New York, and they will as much sought after for quiet, ziry and elegant residences. The intersourse between those portions of the city separased by the rivers will be greatly facilitated by the new bridges in progress. The Andre street bridge is nearly complete-the Rail Road bridge at Atwater street is to be built this season-and the New Bridge across the river near Wolcotts. will probably be built next summer,

Altogether, we think the progress of our city improvements is highly satisfactory, and that the corporation deserve much credit for their persevering industry.

Our friend Hough, of the Express, has sloped, almost sans culotte, for it appears that a Merchant Tailor of our acquaintance who had farnished the quandemeditor with a suit on time, not liking the appearance of things in general, not liking the applianance of things in general, with the assistance of the Great Western walked into the gentleman's spartment, who they found without his coat, engaged with a friend in the very interesting game of "seven up," and haid an injunction on the covey's fine feathers. The sadden appearance of the Great Western was some thing he was not exactly prepared for, but sttempt ed to slip on his "long tail black," winch was "no go." The officer however gave him an old cost to cover him, and walked off with the remainder of his chattels which will be sold for the benefit of whom it may concers.

Hough plead very bard for the use of the coat on Sunday; but our friends were hard hearted enough to deny the small favor,

IT To "one who heard it" we would merely say that we are under no obligations to say man in Rochester, much less the individual it whom

D' Don't forget Russell's concert to sight, for we shall not hear him again in sometime.

IJ A report is in circulation that E. 6. Smith has been killed. We have not heard the partienlars, any farther than he was overtaken by the Sheriff of Cooso County, on the Mississippi river, and when about to arrest him, he relisted, a scuffie ensued, which resulted in his being stabbed to the heart.

IT Neighbor Chapman, over the way, says he is just opening some splendid enallys. What neighbor Chapman says can be depended apon.

A new way to pay old debts .- A barber in New York, named Robert Murry, on Saturday last, went to collect the rent due by a tenant to whom he let out the premises joining his owe. He, however, forgot his errand and attempted to make leve to the teaant's wife; but she rejected his addresses, and he becoming too supportune, she called assistance, and the amorous ton? was carried to the police office and bound over in the sam of \$300 to let the g ris alone.

If We are gratified to learn that the petitions in this city for the release of Mr. McKenzie has already FOUR THOUSAND signatures attached to them. These names were given voluntarily, as not a single petition has been handed about the streets. This is as it should be. All those who wish to sign, should do so immediately, as they will be sent off in a few days.

The Barning of Moscow, at the National Hotel, we have no doubt will have a great run.

IF We apologised to our, readers a few days since for lack of editorial in consequence of being troubled with corns. We are happy to inform them that we have a pair of boots from the manufactory of E. B. Collins, which have put our troubles to rest on that head, or rather that foot, and we shall now be able to give our readers the usual quantum of good things (?)

Merchants who have been in the habit of buying cloth of the Lyons, while they carried on the woolen factory always measured it after they received it, and as regularly fell -

IF Hyatt can fell some very long Canterburys.

CF Mr. Kidney says when we want to put him on a par with an individual, let it be a respectable one.

(1) Among other distinguished strangers who have passed through this city recently is the cefebrated Rosina Townsend.

" Here's to internal improvements" as the sick men said when he swillowed a dose of Reserrection Pills.

It would be much more to the credit of Edmand Lyon, if he would subscribe for our paper, instead of taking Mr. Peacock's every morning.

The citizens of Stonington, Conn., are making preparations to celebrate the anniversary of the galfant defence of that place against the British squadron during the last war with Great Britain. Several of the volunteer companies from Providence, New London and Norwich, will encamp on the ground from the 7th to the 10th instant, which latter day is the anniversary of the battle.

PORTSMOUTH NAVY YARD -The sloop of wer Proble, which was launched a few weeks since. is now nearly completed, and will probably be ready for the reception of her officers and crew in a fortnight. The keel of the trigate Congress is in preparation, and will be laid in week or ten

SCRIPTURES IN SCHOOLS .- Powerful and influential meetings are being held all over England and Scotland, for the purpose of making the Bible the text book in all great and public schools.

The Sunday Schools of Lowell, contain 6000 popils, three-fourths of whom are females, mostly factory girls over fifteen years of age. The population is said to be about 20,000.

Jane Sprague, the daughter of a respectable farmer at Batavia, N. Y. committed saicide on Thursday last at Lockport. The cause assigned is shame and remorse for the disreputable life she had led.

Lawrence McCarthy, convicted of murder in Lewis county, was executed on the let just He was convicted upon circumstantial evidence. The following from the Lowville Journal shows that justice seldom fails to reach those who are guilty of the crime of marder:

"The prisoner fully confesses his guilt, and says the fatal blow was inflicted upon the deceased while engaged in writing-that he approached him undiscovered. The first blow, being the one on the back part of the head, entirely broke through the skull-and the other blows were inflicted by a handspike,-that he drew the body though not yet dead, to a potatoe hole not far from the house, thinking to leave it there, but on reflec' tion, concluded to hitch his horse to it and draw it to the wood, where it was allowed to remain till next morning, when he put it where it was discovered. He says that he had contemplated killing the deceased a week or two before he did and that he was provoked to such a course; bu that he had little idea of the enormity of the crime. and no fear of detection when he commenced his bloody work."

ARREST OF AN OLD OFFENDER .- It will be recollected that some few weeks since Cyrenus Stevens and William Moore were arrested on a charge of conning, and held to bail before the U. S. Circult Court, in a large amount. On Eriday last, Calvin Pierson, Esq., the High Constable of Albany, arrived in town, bringing information that a bugiary had been committed, and a large amount of property had been stolen from a store in that city. He had brought with him a warrant for the arrive of Moore, on charge of having committed the buglary. Mr. Pierson returned to Albat,v, ninbis to secure the calprit, and left the warrant in charge of officer Waldron, who yesterday found the gentleman at Lovejoy's Hotel. and took him into rostody. He was last evening despatched to Albany per steamer for trial.-N. Y. Courier.

MISERY IS CHINA .- No literature in the world teems with so many maxime of morality as that of Ching; it strives to incolcate charity and benevolence; but we are afraid that it has but lirtle influence on the practice of the people. It is not an adeademon sight, walking through the suburbs of Cauton, to see wretches, in the most algest state of poverty, lying huddled together on the cold presement, where they are left to die, un pitied and surelieved by the thousands that pass them. His of these miserable objects, more dead than alive, were lately seen in a square lying to. gether with three others already dead, and one of the poor weetches was seen to despoil the dead of their senery covering to shelter her from the cold. Yet wough thousands of their countrymen behold their misery, not an arm was stretched out to give telief, nor a mordel of food was given them to preiong their miserable existence. Such sights are snything but uncommon in the crowd ed streets of Canton.

MUNIPICENT BEQUEST. - The late Nathan Monroe, Erg., of Elbridge, Onondaga county, bequeathed \$20,000 to the Elbridge Academy.

Law or THE ROAD .- In an action brought againt the Beaintree and Weymouth Turnpike enrporation (Massachusetts) for the recovery of toli paid by the plaintiff, it was decided by the court that a person travelling over said turnpike upon the beamon and ordinary business of a family, or said other business necessarily appertaining to the support thereof was exempted from the payment of toll. The plaintiff recovered back the amount paid for tell while passing for he purposes aforesaid. Does this rule apply to all ternpikes ?

FINEETHING INFANTS - Soothing Syrup-A substitute for the Lancet in painful dentition. By the use of the Lancet, the gams are not only reudered callous but the teeth are not unfrequently turned out of their true position,

and made to ride over each other. This syrap is calculated to obviate the necessity of the Lancet, by relaxing the tense membrane which envelopes the touth, thereby facilitating the passage through the gams; and by its soothing properties diminishing the irritability and consequently preventing the distressing and frequently

fatal symptoms attendant on dentition. Carefully prepared by Geo. W. Merchant, Chemist, Lockport, N. Y. Price 50 cents.

Where the hair is observed to be growing thin, nothing can be more prosperous than the use of oils, greate, or any fatty matter. Their application can o'tly be recommanded through the gross est ignorance, as they hasten the fall of the hair, by increasing the relaxation of the skin. When there is a starsh, dry, or contracted skin, and where the small blood vessels which carry nonrishment to the bull are obstructed, then the oils, &c., may be good, is they tend to relax the skin; but alone they are of no avail. GENESEE VEGETABLE

These Medicines are faithfully popered from the receipt of a distinguished in citioner of Medicines, by whom they were fire invented, and used in the Hospitals of New York, in nearly all the cases of Fever and Auge To occurred during the years of 1812, 13, 14, and 1815, and afterwards introduced into the General country, and used in his private practice, with a success apparralled in the history of Medicine.

#### GEN. WINFIELD SCOTT

If it is amusing to see the applications we have for using up some body, or so they say "patting them through," It is not only now and then, but daily some person who deeres satisfaction for an " ancient grodge be hen "some poor devil, walks into our office and ent fors to soft eawder us, with, "Good morning! \* L am glad to see the independence and spirit to seh you paper is conducted, you ought to be supported, I woold subscribe for it myself if I was able. I want to tell you how so and so, served me about two or three years ago," then rather a yame that concerned none except the individuals who tells it, and be fically winds up with, " he's a d-in mean fellow, I wish voo'd put him through." An incident of this kind happened a few days since. An individual stepped in to de office with a tirade of abuse against one of nor, nost worthy citizens, of about two columns, with a request we would insert it. We told him the person to whom the article alluded was a subscriber, and if we pabli-hed the article we should most probably make an enemy of him, oh! he de nt core, he wanted him published, and if we pretended to publish an independent paper, it wes our duty to

We fold him, we would take the matter into consideration, and if we concluded to insert it, he would of course, pay the person's secreption for a year? No ! he could'at think of ung that. It was duty we owed the public to this the article.

We had an idea of making the fellow's exit most disagreeably rapid; but we shought the game was not worth it. This is oul one instance of a thousand, and we have finally concluded to let those, who like to see fun at the expense of others, know we are independent only as far as it touches our packet.

debt were paid after he shut up on Suffalo street?
Did his brothers " take the responsibility" of paying a certain percentage on a dollar, and that in woolen clothe at an enormous ad ance? And how much did they nett by the operation?

Several complaints have been made to as concerning, two or three individuals, who perambulate the streets after undnight, making all sorts of noises and disturbing the neighborhood of State and Exchange streets. We have the names of three of these mauranders, and if we here any more of their misdoings, we shall hand them in their employers.

TALLAHAS-EE July 27 .- Two waggons with an escort of eight men left Fort Frank Brooke, Desdesan's Bay, on Monday morning last, and after proceeding near half the distance to Fort Andrews, Henderson, the Hospital Steward, with five men were fired abon by a party of Indiana from a hammock near the road. Henderson and Parks fell dead. The horse of another of the escort being shot, fell, and entangled the leg of his rider in such a manner us to prevent his rising. -()n the neat approach of the Indians the horse rose ; the rider at the same time remounting, was borne off to the party and the three joined the waggons. One man being sent back to Fort Frank Brooke, returned with an increased force. They found the body of Parks horribly mutilated, his eyes dag out, his throat cut, and other dis gusting outrages committed on his body. The body of Henderson and been removed and could not be found. INCIDENTS IN THE LATE TERRIBLE TORNADO AT NEW HAVEN,... The following are given in the N. H. Palladium.

A slaughter house belonging, as we are informed to Mr. Joseph R. Platt, was blown to pieces and the story is that an animal then confined and ready to be batchered, has not since been heard off. It crossed the street and struck the heaptiful orchard of Judge Dadling, and if we remember right, prostrated every tree in it. They were gen erally full grown apple trees, and were mostly. planted years ago by Major Luther Bradley .-There they now lie, the roots out of the ground and the branches all pointing to the east, and presenting in their destruction an appearance as uniform as if they had been carefully disposed thus from actual and exact measurement. The corn around lies in regular order, but high the ground as closely as if it were glood to it. In a barn were three boys, one of whom was carried into an adjoining lot upon some hay, -another was blawn out, he knows not how, and the third was covered with the rains, but crawled out unbart. On a street in the rear of Cupt. Gregory's was a small but neat, and nearly new dwelling, owned and occupied by Mr. Thomas Way, an industrious and we believe a very worthy man. Of this building there is hardly enough left to tell where it stood, if we except the cellar. Even his forniture is gone, he knows not where. Mrs. Way had her hand upon the latch of a side door when the disaster happeged and in a moment she found herself upon the floor on the opposite side of the mom and her little daughter partially under her, while the whole body of the house had flown away, Mr. Way is among the number who have lost their all and have no where to lay their heads.

THE STEAMSHIPS.—The Liverpool packet ships Roscoe and Europe both exchanged signals with the steamships on Friday last. The Europe saw the Great Western about 9 o'clock, in the morning, one handred and fifty m less from Staten Island, and one hour afterwards saw the British Queen twenty miles astern of the Great Western. The packet ship Roscoe saw the Great Western at 1 o'clock, P. M. one hundred and ninety-eight miles from Sandy Hook, and the British Queen at 2 P. M. one hundred and ninety-three miles from the Hook. The Great Western was about fifteen miles south of the British Queen.

A FATAL MISTAKE.—The Baltimore Post states that Mrs. Morrison, of Hillen street, on Tuesday evening last, before retiring, mixed some laudanum with brandy, which it was intended to administer in drops to a restless infant. In the night, however, an elder child of about two years awoke and desired water, when the father arose, and in the dim light of the room not perceiving the previous contents of the cup, poured water into it and gave the whole dose to the child. In a short time, severe spasms ensued, which gradually became worse and the little sufferer was released by death before morning.

The freight list, passage money, and postages in the British Queen are worth \$20,000, and in the Great Western,—13,000,

SPIRIT OF A WOMAN !- The correspondent of the Times states, that during the recent visit of his Democrate Majesty at the Springs, at an eve suirce, he naticed at a short distance in the large public sales, the window of the late Governor Churon. Costantly leaving his company, he rushed through the crowd with "impressment" to offer his wand. The lady drew herself up to one of her firmest and loftiest attitudes, and bent noon the weazel courtier a countenance of disdam and contempt, rejected the proffered hand, and turned with indignation, as if from pollution itself, from the man who had reviled and persecuited her bushand during his life, This indignant rebute and "cut direct" did not charge the mile on his imperturbable countenance. THE HUMAN THE ALIEUR.

Where the hair is observed to be growing thin, nothing can be more prosperous than the use of oils, grease, or any faity matter. Their applica-tion can only be recommended through the gross est ignorance, as they hasten the fall of the hair, by increasing the relaxation of the skin, When there is a harsh, dry, or contracted skin, and where the small blood veesels which carry nonrishment to the bulb are obstructed, then the oils, &c., may he good, as they tend to relar the skin; but alone they are of no avail. There must be a stimulus to rouse the vessels from their torpor, and quicken fines of the blood.—Extract from Cliraies on the Hair.

# DAILY

MONDAY AUGUST-12, 1839.

POR PRESIDENT

#### GEN. WINFIELD SCOTT

IF At the time when the Constitution of the United States was formed and adopted fears were entertained by such men as Jeffersor. Putrick Henry, and other distinguished Republican Sages, that with the increase of the dountry in territory, wealth and population, a corresponding increase in the patronage of the federal government would ultimately swallow up the freedom of the States and of the People, Those fears seem now about to be realized in their most Alarming extent. The number of the States has in creased from 13 to 26. The expenditures of the General Government from 3 millions angually under Washington have increased to 40 millions under Van Baren. The number of officers and executive agents who were but a few hundred under Jefferson, and prohibited by him from interfering in elections, have increased under Van Buren, to an immense army, organized and drilled as politicians-appointed to office for party services-4 mercennry and subservient cosps, teady at all times to lead in the political camprishs of the Executive at Washington. Are these clates. ments true? Look at Rochester and Mouroe county. Who organises the Administration party and drills its forces arrayed against the people ! What would become of the Van Buren party in Monroe, were it not for the exertions of the Post Masters, Collectors, and other understrappers of office ? Our government is fast verging towards an elective monarchy, and nothing will save nor free institutions but a " Curran MENT of Ether. TIVE PATRONAGE." This is one of the cardinal principles of the SCOTT Republicans, Rally then Democrats in defence of freedom and Scott the Hern of Chippewa, Be no longer the dapes of Van Buren's bired and paid merrenaries who would secrifice Liberty itself to retain office.

Our advertising patronage has increased so rapidly, that we have nearly as much standing on our galleys, as would make another paper of the same size of the Sux, Advertisers have found out which side their broad is buttered. Our circulation is now more than double that of the Daily Advertiser, and somewhat larger than the Democrat. So much for doing business on the cash system.

Winslow's Balsam of Horehound is deservedly becoming more and more popular. The orders for this unrivalled medicine, are so large that Mr. Winelow finds great difficulty in sumplying them. The new labratory is almost finished and he will then be enabled to fill up his orders at short notice, no mafter how large.

D' CAMP LOWD .- Our citizen soldiers, in com eaux with the regulars, under the command of CAPT. Lown, encamp for the first time this day. We understand they are to remain on the ground three days, when they will go through the egular daties of the soldier. To day they will be reviewed by General Stevens. To-morrow by Gen. Riley, and on Wednesday by Gen, Lathrop. We have no doubt they will learn more by three-days field discipline, than they would in vests of month by drills.

I Frederick Werzell who was fatally wounded in an affray at a grocery corner of Elm and Anthony streets, N. Y. on the morning of Wednesday last, died on Sunday morning, at the ctiv Hospital. The Coroner's jury found a verdict that the deceased came to his death by blows inflicted by John Briggs.

If a man is too poor to pay for a newspa per, how many dogs can be afford to keep ?

THE CASE OF JACOB RIDGWAY AND OTHERS. -The Court of Common Pleas, before which, under a writ of habeas corpus, the evidence of an alleged conspiracy by Jacob Ridgway, Daniel Mann, and 'T. W. Dyott, to defraud the creditors of the latter, was examined, have unsnimonely discharged Mr. Ridgway. This is as we expected. Ridgway is the richest man of the lot. He is the first acquitted.

We intend shaking another reef out of sails this week, or plainly speaking, we shall en large again. Our press will not admit of our ma. king the paper any wider, but we shall lengthen Interest Bankdiad been stopped by an injunction it out as far as we can.

The Texians and the Cherokee Indians had a desperate engagement on the 15th instant about seventy-five miles northwest of Nacogdo. ches. The Texian troops were under the command of Gen. K. B. Douglass. Loss of the Indians 600. The Textaes 2 killed and 20 wounded.

Our military take up their line of march this morning, about eight o'clock, from the armory to the encampment.

TF Mr. Kidney says, he was a good Scott man, but the usage he has received at nur hands, has been sufficient to make him alter his political opinions, that he is now a loco-foco, and for the future he shall follow the fortunes of Martin Van Buren and Gen. Gould.

MORE ACCIDENTS FROM FIRE ARMS,-We thought that when July got out we should be spared any further recording of these disastrous affairs ; hot regret to find that the cry is "stil they come." The United States stamer Fulton went up the North River last Thursday, and when abreast of Mr. Kemble's factory at Cold Spring, it was determined to give ber a saluta. tion. They accordingly brought out"the big gun," but, sad to relate, after the first, by some neglect on the part of the man that held the vent, it went off anexpectedly, and drove the ramted through the body of the gunner. This poor fellow was, of course, killed on the spot, and another was so hedly injured, that he was vesterday brought down to the City Hospital with no bopes of recovery .- N. Y. Herald.

A SUBSTITUTE FOR THE OHIO,-It has been suggested that if the Ohio shall ever run dry, a rail road the whole length of the valley-perhaps on its bed-must be constructed, and that speedily; and also when the road is completed, that the Yankees bring on a few live whales to be trained to act as locomotives.

The steamer William Hurlhot, Capt, Stargress, was burnt just below Mobile, on her way to Montgomery. No lives lost. Loss estimated to be \$120,000.

The amount of public land owned by our government, is enough to give every inhabitant of the country-man, woman, and child-a farm of sixty ncres!

IT A lady in Montreal, on the 1st, recovered \$2,000 of a Maj. Brokford, for hugging and kissing her rather roughly. She ought to set a high value upon the money; she got it by a tight

The Kennebunk Gazettee says that a Bass was taken in Saco last week, which weighed 51 pounds when dressed and cleaned.

We learn that a small boat, containing eleven persons, pilots and apprentices, was upset a few days ago, opposite the Brandy Pots, and that six of them were unfortunately drowned, among them two brothers of the name of Cinq-mars, pilots,-Quebes Gazette.

The personal expenses of Lord Durham, during his mission to Canada, amounted to £34, 000, or more than £ 1000 per week.

IJ Tights and Hessian boots were becoming fashionable in London, at the last dates.

A patent has been secured in France for sewing boots and shoes with brass wire. It is said that they do not admit moisture nor dust, nor do they rip when sewed in this manner. The sewing is done with as much ease as with a wax thread, nor is it more expensive.

MURDER.-An Indian woman, named Prudehee Hammett, a pative of Gay Head, was found dead yesterday, at the hat of a person known by the name of Sam Gale, a lew miles west of this town. Her skull had been beaten and mangled in a shocking manner with a knotty clab, which was found, by her side, covered with blood .- Now Bedford Mercury.

The Bostuc Franscript states that the Kilby bank has commenced the redamption of its notes, and that the circulation of those of the Midding from the state commissioners.

THE CLERK AND THE BUTTER WORSE!-YOU terday afternoor as the Clerk of one of our markets was travilling around investigating the weight of butter, he came across an old lady, whose reluctance to display her oleaginous luxury, excited suspicion. Bent upon examination. he hastily enached up a lump from a large tubfull, and threw it into his scale. It was a wfully deficient! He tried another, it was ditto; another, and still the same result—the old ledy's face elongating at such successive fails e about " a feet." "Mister," taid she, " if you take may more of my butter, 100 ll get trouble I guese." Nothing daunted to her threat, be continued; when enraged beyond judurance, the old lady, strong, muscular women," yoked" him. and after a se vere tusale, during which victory seemed to lean alternately on 30% belligerents, and a crowd of amused spectation gathered around them, she ficulty threw king down jomped on him, and finally taking freed him the lump of butter he still held in his high, she smeared all over his face, filling his eyer, vars, mouth and nostrils, full almost to sufficients. Then springing upon her fact she plunged her hands into her butter tub. and mashing the Jumps completely up into one mictuous muss, " Now," she voiciferated, "weigh my butter if you sen, you puppy-and touch it if you dere."

It is coodless to sav that the clerk "mizzled." and you cannot now insult him more than by requesting of him some information as to the state of the butter market .- Phila Times

Horaintz storr .- A augro boy aged 19, who was in the habit of throwing himself across the rails of the Lory Is and railroad, out of more sport, to force the engineer to stop, yesterday aftermoon paid for his tenserity, near Clowesville, by having both his legs appalated. FOR PRESIDENT

#### GEN. WINFIELD SCOTT

PROOFS OF VAN BURENS DEMO-

Van Buren opposed Madison and supported Clinton who was the federal canthdate for Premident in 1812.

Van Buren opposed the election of Justices of the Peace by the People.

He opposed majornal suffrage as withen pening the franchise" and contended for restrictions upon the right of voting that would cut off thousand who enjoy that inestimable privilege.

He paintioned for the location of a Branch s the " Monster" United States Bank at Albany.

He re-appointed Jacob Goold to office in defi ance of the wishes of the democracy of Monrole county, who is county convention recommended Joseph Medberry for Collector.

He appointed James Smith Collector of the Post of General at the bequest of Lather Tucker and Henry O'Reilly, when thousandsofthe Demorrats of Morroe county and Western New-York pititioned for the appointment of other

When the " democracy of numbers', cond-minone of his tools at the Ballot Boxes, he shows his opinion by giving the condensed tool & lucrative diotment.

The above are a few of the proofs of Van Bo seas democracy. From such a kind of democracy "Good Lord deliver as,"

"Tunxiso a range."-The President of 18 millions of people, with a salary of \$25 000) a year, travelling through the country and running up scares at taverns of \$100 a day and allowing his friends to pay his hills.

D' Some wiseacre who writes for the federal Daily Advertiser is susting his time and ink in trying to prove the Democracy of Martin Van Buren. The democracy of Maity consists en-tirely in profession—in practice, feeling and per-sonal habits, he is the tankest federalist and arissonal habits, he is the bankest federalist and arishim shake the hand of a plain rough farmer, ask after the health of his wife and children and en quire about the crops-and then turn to his son Prince John and tip him a sly wink, the same as to buy "how slick I can come it over these fellows Johnny my boy." If there is a thorough bred dandy and fop in America His Democratic M. genty Martin the Piret is the mon.

Mr. Kidney has concluded to postpore thrash sog as, until Lyon forks over the \$25, at he will not take his word for that amount.

COMPLAGRATION OF Mo-cow - This beautiful exhibition closes this evening. Those who have not witnessed it should improve the tentortunity new afforded them of seeing a most splendid spe cimen of art.

MAJOR STEVENS and the glass blower at the Museum are attracting crowds of visitors. This is their last day and night.

THE ERCAMPHENT,-We visited the meanip ment yestenlay, and witnessed the review. It is the finest sight we have enjoyed this long time. The regulars under Capt Lown, Williams Light Infantry and the Union Gravs, went through their explations with the greatest precision. The discipline of our military reflects great eredit upon them.

They were reviewed vesterday by Ger. Riley. To day they will be reviewed by Gen, Lathrop. We have some itles of turning Soldier if it is only for a change, for we have seen none who enjoy themselves so much as those at Can't Lown.

Correspondence of the Sun.

New York, August 10, 1829. I again take up my "weapon of delence,"

(you know the pen is more popular than the sword) to equare off and "show fight" against the

the literary quacks and hambugs of the day. You must excuse me nesuming the character of a financer in this, because the "Money Market" is comparatively speaking, a dead sea; paper is scarce and specie, in a measure, secure from this circum stance. Whenever there is a flood of bills out, the demands for business are so argent, that men only think of using them to liquidate their liabilities, so that, in point of fact, they find their way in the bank before the builders can have time to think that specie exists; or that bank bills are not in reality the "precious metals." But to digress from this. The fashionable world is concentrated at Saratoga, where it is all misery and excite ment. A very foolish opinion is prevalent, that it is the resect of pleasure, while nothing can he more erromenes. L the other day, conversed with a gentleman who had just returned from the Springs and the way he "let out" against the establishments there, was a caution to all novices in the art, and misers of swallowing mineral waters, and making shocking wry faces, similar to the effects of sheubarb.

Says he, " I put up at the --inquiring if it was full." "Full!" echoed the po his " member of the bar," "Sire, (be was appring royalty, ) we are never full-we receive company as long as they feel inclined to come - write go away of themselves -some weather the gale and make the best of it. It is not our fault if there is

" Presuming it useless to seek other quarters determined to make the best of it, and follow in the tide. But in this was mistaken -the curren. in this pecular channel was more rapid than Hell Gate on the rapids at Ningera. Beds, Breakfast, Dinner, Tea Supper were more like the interiors of a steamboat boiler, where one could not poke his head into without geiting awfully burnt-that s, scalded." "Why, my dearsir, do you believe it the very chairs at the table are "private prop erty"-all is juty! jum ! jum. Not wishing to in terfere with the ridges of others, I made inquiry and was showe my posticular chair. As soon a was fairly in it, up stalks a gentleman wait giving the back of the chair a " lee larche" and exclaiming " seat engaged" - can't sit hereget up." I was about knocking this impertment coundrel down, when up stepped the owner of the chair, and very policely imformed me to keep my seat."

This Mr. Editor is a fact; how very singular it is that all rush to Saratogs, when the great and girls annihilate us, and tear down our office mighty cateract of Ningara is far more eachenting and sublime. As a summer retiest, I think the latter far superior, in point of beauty, cons. fort and interest to the fermer. But all people do not think so; where there is the least pleasurethe most expense, excitement, fetigue, mortificat on &c. there is the grand forces of attraction.

But do I interest you? If not, use the lash and will "fire up" and " raise steam." The most palpuble failures and humbuge of the present day, know are newspapers and newspaper corresce. Why is this? Shall I tell you? Be cause, in the first place, newspapers will not strike on in original paths, but drudge on in the fild service way that fails to interest and attract the public mind. In the second place, the corn spondence of newspapers are generally "state that and unprofitable," " signifying nothing." For a paper to take hold of the public mind and stride on rapidly to popularity it must po-sees original traits-truth, puetry, fire, energy, passion, patriutism and the like; then we behold something new. The journals of this city are mere invalids in point of steeling merit and "brillisut talents." and ought all of them to be sent to the city Hos. pitat, until a case is effected. True, you often hear one editor speak of the "splendid tal m . of a poor, sickly, trushly magazine. Don't you RNICKERBOCKER.

Where the hair is observed to be growing thin, nothing can be more prosperous than the oils, grease, or any fatty matter. Their application can only be recommended through the grossest ignorance, as they hasten the fall of the hair, by increasing the relaxation of the skin. When there is a harsh, dry, or contracted skin, and where the small blood vessels which carry nourishment to the bulb are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. FOR PREMIEST GEN. WINFIELD SCOTT

The Rochester Daily Democrat contains to misrepresent the political views of Gen. Scott Why will Mr. Dawson persist in his indistreday course? Does he want to drive Republicans from the support of Scott? Gen. Scott is not "opposed to Banks " but he is in favor of gold \* and silver or its equivalent is specie paying bank bills, as a corrency. He is opposed to Van Burens's " Sub-Treasury" and niso to Clays 50 million National Bank-but is in favor of a tellie la. DEPENDENT TREASURY under the exclusive control of Congress. He is also opposed to " officbolders interfering in elections," and in favour of "curtailing executive patronage," Scott is opposed to "irredeentable shinplasters," whether issued by Banks or the Government. Such are the principles of the gallant Scott, and they com mend themselves to the support of all real Republicans in the whig or loco-foco ranks. Pray Mr. Dawson, don't try to ruin Scott by representing him as "opposed to gold and silver." You are a smart fellow, but lack tact and discretion. Only follow the lead of the Sun, and we will conduct you to victory.

BAD NEWS FROM FLORIDA.

The Charleston Patriot of Monday brings us the subjetued painful intelligence, furnished by its correspondent at St. Augustine.

OFFICE OF THE NEWS. ] St. Augustine, (E. F.) Aug 3d, 1839, 11 o'clock, A. M. THE WAR RENEWED.

The following account of the treacherous surprise of Col. Harney's command reached here this morning by express. Col. Gates commanding East of the St. John's, has transmitted orders for the immediate defence of the posts South.

ASSISTANT ADJUTANT GENERAL'S OFFICE. ) Army of the South, Fort Brooke, (E. F.) July 29, 1839.

Sin-It becomes my painful duty to inform on of the assassination of the greater part of Lt. Col, Harney's detachment, by the Indians, on the morning of the 23d instant, on the Coleosahtchie river, where they had gone in accordance with the treaty at Fort King, to establish a trading house. The party consisted of about 18 men, armed with Colt's rifles; they were encamped on the river, but unprotected by defences of any kind, and it is said without sentinels. The fredians in large force made the attack before dawn of day, aftl it is supposed 13 men were killed, ang whom were Major Dalham and Mr. Mor-Hlery.

remainder, with Col. Harney, escaped, several of them were severely wound d. The Commanding General therefore directs that you will instantly take measures to place the defences at Fort Mellon in the most complete state of re, pair, and be ready at all times to repel an attack, should one be made. No portion of your command will in fature be suffered to leave the garrison except under a strong escort. The detachment at Fort Martland will be immediately withdrawn. Should Fort Mellon prove unhealthy, and the surgeon recommend its abandonment, you are authorised to transfer the garrison and re, inforce some of the neighboring posts.

I am sir. G. H. GRIFFIN. Assistant Adjutant General. Lieut. W. E. Hanson, Comd'r. of Fort Mellon.

BATHING IN THE DEAD SEA .- The corresat of the New York American gives the following notice of a visit to the standing problem, in the national history of the Holy Land-The gentleman of the party determined to test the reported becyancy of the water by personal experience t

They state, that where the water was five fee, deep, they were so booyed up, that they could touch the bottom with the points of their toes, Advancing to where the water was six inches deener, their feet were suddenly taken from under them, and they were thrown in a horizontal position upon the surface of the water. They could not maintain a perpendicular position with, out using some effort. They then swam to where the water was extremely deep, and endeavored to sink, which they found impossible, even with some effort to do so. They could walk in the water equally as well as on land, with their heads entirely above the surface. They found that they sit and converse as easy as on a divan: A strong breeze came on from the south, and with a heavy swell. They described the sensation produced by this riding on the sea without a vessel or a plank under them, as very singular. One of hem had never before ventured beyond his donth in water, while here he was enabled, without the least sense of danger, to go to any distance fro n the land. They became convinced that wh thid been said respecting the great specific : avity and buoyancy of the water of the Dead es, in entirely correct.

THE BUMAN THE AREA

Where the hair is observed to be growing thin, nothing can be more prosperous than the use of oils, grosse, or any latty matter. Their applica-tion earl only be recommended through the gross-est ignurance, as they basten the fall of the hair, by increasing the relaxation of the skin. When there is a hand, dry, or contracted skin, and where the small blood vessels which carry pourishment to the Salh are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimulos to rouse the vessels from their torpor, and quicken the current of the blood .- Extract from Clirehugh's Treaties on the Hair.

These Medicines are faithfully perpared from the receipt of a distinguished practitioner of Medicines, by whom they were hist invented, and used in the Hospitals of New York; in nearly all the cases of Fever and Aure hat occurred during the years of 1812, 13, 14, and 1815, and afterwards introduced into the Goldsee country. and used in his private practices, with a success unparrolled in the history of Medicine.

The General Remedies, which are prepared without Quisine or any preparation of Bark's.—Consist of two kinds of Pills—092 of which operates by thoroughly clean-ing the system from all the stale and acid Bile, which is be very seed of the disease. And the other by hiving strength and vigor to the same, invertibly restores the patient to perfect health in a very about time, and generally by the use of a single ackage, if the directions are adhered to.

As a preventutive of Fever and Ague and all Billions Fevers, so prevelent at the West, they deserve a decided and distinct recommendation. Were they used at short interrals during the sickly season, they would be found in every instance to keep of those distressing disorders, to which the people every summer are the unfortunate victims. Does not Edmund Lyon hold a larger amount of Bank Stock than any other man in this city ? Has not the same individual purchased within

One false step leads to another." How very strikingly is this old adage illustrated in the career of the notorious Underwood. A few years since he commenced business in this place, under the most flatering anspices. He flad plenty of business, his credit was good, friends, in abandance and in fact had nothing to prevent him from realizing an independency, ;But-rumthat rock on which so many split wrecked his bark. This was his first false step; his next to defraud one of our citizens of a press he borrowed by sending it to Canada, And an from bad to worse, down, down, down, until we behold him as he now is, a worthless vagabond-unfit to live, and certainly unfit to die.

From Maxico.-We learn from the Pensacola Gezette, that the United States ship Drie arrived at that place on the 26th ult. from Vera Cruz via Tampico. FOR PRESIDENT

#### CEN. WINFIELD SCOTT

Lr It has been asserted by the Demissint, that the Sux a leading Scatt paper, holds out the idea that Gen. Scott advocates an exclusive " metahe currency." The Democrat as usual, was oniden that Clen. Seary does not believe in bank speculations, cotton speculation, wheat speculation, or land speculation; por does he bil ve in an extensive asse of bank paper, or in desmable shinplasters set affant by irresponsible men fin the sole purpose of defrauding and swindling the community, Gen. Scorr believes that the extent and growing prosperity of this country farnishes conclusive evidence that limited bank circulation resting un a sure specie basis is indispersable for the purpose of extending commerce and Scilitaring trade. If the people should be an irriunate as to place Gen. Soury in the President il chair : he will advocate with spinist strength, 1 to great propriety of making our hank ejeculation nuiform throughout the country, which will strike a death blow in rotten institutions, whose aim is to rabthe mechanic and laboring man, the hope and sinew of our country, and sink him to the jownet depth of poverty and wretchedness,

The people will elect Gen. Scott is syste of the effice holders and office seekers, and bring back the country to its original purity. Then the sights of citizens will be strictly guarded and thepected. No crowned head will done to invade one shores, burn our property, and murder our constrainen with impunity. The hearts of the people will rejoice to see the man whose talents and great moral worth is admired by the world, placed at the head of government, and a period put to this miserable trackling administration.

"putting through" unluckly wights, Who hap, pens not to hit the particular fancy of strine soulless vagabond, we have copoladed to satablish rates for "patting through" these peer devits, who have half the minfortune to fall Under the displeasant of some of our applicants.

For attacking an individual's character and driving him out of the sity, for the purpose of gratifying malice and private pique \$100.00 For running his conditionally, for dec. dec. 50.00 For above sufficient to keep him from making his appearance in the street for

a month or two, for &c,
For a paragraph sufficient to make how

wince, for dec.

These rates we shall place under our advertising head. And then let application by made to us for "potting through" without the arreant, set against the size of the "job" in hand, and if we don't." put through" the applicant, instead of the other, we are not severif. So gentlemen you will bear in mind, when you come on this wroad, that our terms are invariably in advance.

In The whig papers don't say a word about the coronation of Henry Clay at Saratogo. We will give it in cases's words.

"I can as well be hanged, as tell (the thanner of it; it was mere foolery. I did not when it I saw Mark Anthony offer him a crown;—yet twas not a crown meither, 'twas out of these contacts;—and as I tald you, he put it be once; but for all that, to my thinking, he would fain have it. Then he offered it to him again; then he put it by again; but to my thinking he was very leath to by him fingers off it. And then he offered it the third time; he put it the third time by; and still, as he refused it, the rebelement hosted, and clapped their chapped hands, and threw up their aweaty night cape, and attered such a devil of stinking breath because Crasser refused the crown,"

Price Havana — Capt Pederson, of the brig. Patsey B. Blount, arrived from Hassaw reports that on the 30th of July a Spanish slave schooner arrived at Havana, a prize to H. B. M. brig. Snake. The vessel was captured on the 3d of July, at which time she had 175 slaves on board. They were landed at Jamaica, and the achouser brought to Havanas for trial.

Pararration or Lira.—On Thursday last, while several small boys were sporting about on the canal boats lying in the basin of the Oisquago creek, the oldest son of Dr. Sydner, a boy about six years old, by a careless step was precipitated into the water and remained at the bottom. One of the lade standing near who is much addicted to stammering, ran into the store of Striwell and Hleseker, chaked with emotions of horror, unable to speak, making signs of distress. Mr. Bleecker ran to the water instanter, and after remaining a moment in useless search, saw the but of the child rise to the surface. RASEROAD ACCIDENT.—Between 11 and 12 o'clock on Sunday night the train of Philadelphia cars and the cars of the New York train met shout four or five miles beyond Trenton, on a branch of the Camden and Amboy Railroad, and run against each other with a tremendous concussion. The shock of the encounter was such that it entirely reversed the motion of one of the locometives. Both engines sustained considerable damage, but there were no lives lost or any one injured.

The trains usually meet and wait for each other at a "turn out," and so the night of this occurrence the engineer of the cars running from this city to New York had waited at this stopping place longer than the customary time for the Philadelphia train, finally, he concluded that some thing had occurred to the other train, and proceeded onward until he met if at the place aforesaid, where the accident occurred. FOR PRESIDENT

#### GEN. WINFIELD SCOTT

PRINCIPLES OF THE SCOTT REPEBLICAN PARTY One Presidential term-No. interference in elections by Covermont Officers A uniform currency of go'd and silver; or bank so es at all times redermable in specie on demand Av Independent Tren. sury nuder the exclusive control of Concress...Opposition to menapolity, to irredeepable Shinplasters and to fraudulent banking.

The above are the distinguishing principles in scribed upon the hanner of the Sout Republican Party. The Sus will be devoted to their support against the combined attacks of the federalists and aristograte of both the Loos Foen and Whig parties. Under the popular name of "democracy" the Vad Baren party is seeking to change the form of our government to an elective Monarchy; to monopolize all offices of honor and profit and to retain them for life; to control the political destimes of the country by means of the enormous and increasing patrouage of the government; and by means of the sub-treasure system to place in the hands of the President and his agents the entire control of the public money. These designs of Van Burens partisans indicate federalism in its worst forms, and to be successfully resisted the Republicans of all parties must units and manfully resist the storm of executive usurphiou. The stock jobbers and speculators of Wall street who lead and control the whig party, do not oppose the administration on account of its dristocratic and federal tendencies. Their motives ate to ob tain the control of the public money for the use of the Ranks: to establish a shinplaster dinasty; to control the value of the products of industry and the wages of labour oy means of Banks and pares money; and to rule the people through the stramentality of associated wealth. Those followers and tobls throughout the country are drawn into their support by the hope of effice under the a whig administration. It will thus be seen, that the leaders of both the great political parties are federalists and monopolists, and the contest now going on between them is, which shall have the privilege of Pauspering THE PROFEE! The " rank and file" of both parties are bonest and patriotic, and we now call upon them to " come out and be separate" from Loco Foca federalism, and whip federalism; and to join us in support of the Hern of Chippews, and in defence of the traly Republican principles we maintain We shall from time to time give expositious of each item in our political creed. One fing is " mailed to the mest" and we will either float in triumph with SCOTT AND THE REPUBLIC; or sink in the above that will engulph our free institutions if Van Buren is re-elected, or if the whig federalists ubtain possession of the Government.

III' We present to our readers this morning, an enlarged sheet. Within four months we have enlarged our paper twice, and still we have not mom to accommodate our advertising patrons as we would wish.

The success of the Son has been unprecedented. single subscriber, now our list is larger than either of our "respectable six-penty," and is still increasing. This accounts for the advertising that is pressed upon us. In the course of a very short time, we shall enlarge to the size of the N. York Herald. Our advertising would warrant it now ; but as we have no Martin Van Buren to endorse our notes : we shall have to gain our ground, as we have already done, inch by inch We have no " executive patronage" to sustain ns. For our support, we depend upon our own industry, and the good will of the public.

The bridge has become a place selected and pecularly fitted for displaying the 'fast 'una' of our bloods and hack drivers. Every evening about six o'clock a person on the side walk can see divers and sandry vehicles, such as hacks. buggys, waggons &c. come down Main street as far as the rail road, when away they go pell mell helter skelter, then let any one crossing the street look out. One of our citizens no longer ago than Saturday evening came near being run over in the most approved style. Those whe are authorized to put a stop to this practice seem to take no notice of it. So that if per chance any citizen, any helpless child, or frightened female should he prostrated by these Jehus, they will have the consolation of knowing it was done according to

A QUIETUS ON MIR. CLAY'S PROSPERITY. The returns of the elections in Tennessee, North Corolina, and Indiana, where the party line were strictly drawn with reference to Henry Clay as a candidate for the Presidency in or po siring to Marin Van Buren, plainly shows to every man that with Mr. Clay the whig party most and will be most sorely defeated.

These reforms are precisely what we anticipated. Mr. Clay is an old worn out politician, and his name has no charur-with him there is nothing to stiraulate the people-and around him they will never rally, as the strong man to put down the corrupt measures and abases of the present Administration.

If Mr. Clay is nominated, we can plainly see, that every Southern and nearly all the Western States, will go for Mr. Van Boren.

Why will sensible men adhere so strongly to man who is so deservedly uppopular? It may, ne it andoubtedly is for the promotion of their own selfish interest. Let the honest tran hearted Republicans take this matter into consideration and not be led by those, who, for the sake of their own personal interest, will min and distray their fair prospects and prevent their electing a President aktheir own choice,

PRINCIPLES OF THE SCOTT REPUBLICAS PARTY -One Presidential term-No interierence in elections by Government Officers -A uniform currency of gold and silver; or bank notes at all times redsemable in specie on demand An In ependent Tren. sury under the exclusive control of Congress-Opposition to monopolies, to irredeemable Shinplasters and to fraudu-lent banking.

### SOUTH WESTERN ELECTIONS

The result of the State Elections in the South Western States is a most sanguary rebake to the political demognates, the partizes tools of Henry Clay who have been duped and bribed to support this individual for the Presidency of the United States, They are evidently determided to force him before the people as a candidate for that office, wheather he is wanted by them or not, But his operations has been met by the people. and the result should convince him and his spe cial friends that the people are not to be cheat ed, defrauded and swindled out of their rights, and their choice in this case by a set of worthless onprincipled politicians who have been induced to parsue this course by being promised high honurable and lucrative offices under the Administraion, previded Clay should prove a successful empetitor for the Presidency.

The result of the elections in Kentschy, Indians, Tounessee, and North Carolina, is conclugive proof that Clay cannot be elected by the people to that office. And although Van Burg has come off first best in this trial of strength, ve no one will contend that be is the choice of the people in this district to the eachterou of all others. So far from this we believe more, we know, that if the man of intregity, the sulightened and talented aCUTT had been made the pivot, the standard for the people to rally around. the result would have proven an dicastrous to Van Beren, and in favor of Score, to it now is to Clay, and in favor of Van Boren, Situated a it was, of the two evils the people chose the least.

There is no time to spare. Meetings should torthwith, he held in every town and Haralet in the Voited States-the Republican Sours flagg should be boisted and the result will be that the people will burl the present incombesit from the station that nature never designed him to ful.

We are informed that the Roccester Mitlers are now offering eight and three pence, per bushel for wheat delivered at their hists, whilst their agent at Albion and other places its puying nine shillings. As long as our millers pursuit a policy so injurious to the business interests of dochester they cannot expect the sympathy of aur citizens in sensons of luss and disafter. The practice of paying more for wheat at Albion. Brockport, Batavia, Genesee and other villages, than at their mills in Ruchester, is carculated to drive trade from our city, and to band up those villages at the expense of our own merchants, mechanics and manufacturers. The practice is fineght with incalculable minty to Rochester and we are astonished that our people have burne it quietly so long. Perhaps it is because as the milbers say, "they cannot help thouselvas." They can at least express their just indignition at the policy of a set of men who monopolied the Banking lucilities of the cay, and then wield those faethice in direct hostilly to the interest of our bumness men. It is in the power of the Banks to correct this evil, and if they will not do it, the community can secured them of thest duty in way that they will feel. Whilst out merchants and mechanics are complaining of dest times, let them remember that the Banks and willers are hiring the larmer not to some to Bechester to trade, by paying them 6 to 9 cents more for wheat at Albion and other places, than here-

The pocal or properties that these pills possess in the success for treatment of these loathsome disenses that are as peculiar to the female era, are not to be doubted, since they have been satisfactorily proved by a long experience in the private practice of one of our most eminent physicians. Neither have they been confined to one only, and made a matter of secret by the venerable inventor, but have been extended to the practice of many of his medicine a most valuable preveenve as well as a severoign remedy in the following complaints: - Distructions, Green Sickness, Debility. Indigestion, Giddiness Palpitation of the Heart, Hysteria, Loathing of Food, Pains in the Stemach, Shortness of Breath after a tittle exer. cise, and Sinking of the Spiras.

These pills are safe as they do not contain the least particle of mesonry, or any other dangerous ingredient. As a preventive against the above diseases, the specific powers of these pills act most admirably in parifying and quickening the blood when it has become unity, and testoring the natural glow and nonversal cheerinbass to the sallow and deposted countenance of the auticulty femule.

## SUN

THURSDAY AUGUST 22, 1839.

FOR PRESIDENT

#### GET, WINFIELD SCOTT

PRINCIPLES OF THE SCOTT REPERLICAN PARTY. -One Presidential term-No interference in elections by Government Officera uniform currency of gold and silver; or bank notes at all times redeemable in specie on demand - An Independent Treasury under the exclusive control of Congress. Opposition to monopolies, to irredeemable Shinplasters and to fraudulent banking.

#### THE SIGNS OF THE TIMES.

The additional numbers the whigs supposed they had obtained at I o late elections in Virginia, induced Mr. Tlay to make another powerful effort to get the nomination for the Presidency at the Harristory Convention, and accordingly he comment his gigzar course through the Northern States, and has so far, performed one of the most thorough electioneering tours ever started upon in this country by any one except His Democratic Majesty Martin the Pirst. But the prospects of Mr Clay are all changed. The election returns from Tennessee and Indiana, shows most conclusively, that however auxious Mr. Clay's friends may be to put him in nomins tion for the Presidency, they will not allow their personal feelings to lead them so far astray as to press and urge his name upon the Harrisburg Convention, Such a course would certainly create a division in the ranks that oppose Van Buren, and again place him in the Presidential chair, contrary to the expressed wishes of the people.

There is a terrible game being placed by Van Buren and his friends on one hand, and Clay and his friends on the other. Corruption and bribery is the engine now set in motion by these two p litical demagogues. If there won's sof number of office holders to vote down the great ple, there would be no trouble; but as there is not, all is yet in doubt with regard to Van Buren-On the other hand Clay is ready to offer whatever may be required of him, in the way of prom. ises and pledges. He reminds us very much, of Satan taking our Saviol up into the mountain and showing him all the kingdoms of the earth saying these will I give you if you will fall down and worship me poor devil

All we can glean from the public journals of the country, goes to show that not Henry Clay, but some other person must be put in nomina tion, in order to defeat Van Buren. Who is the man? We answer GES. Scorr. Bis straight forward course in public life together with the many signal services he rendered his country, has long sincelconvinced his fellow evantrymen, that he is worthy, honest and capable. He will pected. perform no electioneering touts or give no pledges. He is the people's caucidate. He goes for the whole, and not a part.

IP We vesterday received a note through the post office containing a marriage notice, purporting to come from M. J. Ellis. We stepped into the store of Mr. Ellis and showed him the signature, which he immediately prenounced a forgery; but kept the letter, and in the course of the day traced the authorship, to a fellow by the name of Brandage, who hangs out somewhere on Exchange street. What a pity we have not a whipping post, for hanging or shooting, is too honorable punishment for such a pitiful scoun-

IT some vagabond or other came, ato our office during our absence, and pune 'd a hole through Gen. Scorr's stomach, just t slow his waistband,-we mean his portrait. That fellow will go where they retail brimstone in large quantities, to " permanent boarders."

IF We hear many of our young friends com. plaining of difficulty in " getting along." Thus will ever be the case unless a revolution takes place in the present system of doing business. New as soon as a young man starts in business of any description, he immediately turns gentle. men, and leaves his affairs to be managed by others; if instead of which, he would take off cost and dive in, he would find his concerns go along much more smoothly and with a great deal more satisfaction to hunself. And instead of indelging in leasurys, the conqueror of conquerors, the dry rot of the constitution, the averager of the defeated, and the rock on which so many split, they should take our advice above, which we give from dear bought experience, hoping that they may profit by it.

Many have inquired of as how we ever made our paper" go," and how we have accomplished what we have without a capital. We the Queen of Spain, commanded by Gen. O'Donwould answer as all things can be accomplished neil, over Cabrers, the Carlist Chief.

by perseverance and industry. We su he determination of making it " go " and under Napoleon, who was order cannot into a certain position which east necescary to the taking of a place, was told by an in Grier officer, after half accomplishing the work hat it was impossible, " impossible sit, let me see" replied the Colonel, pulling the order fren his pocket'-no, it is not impossible, because the order is positive, therefore go on." Thus it was with as; we were publice of success, if were persevered.

The Foglish money market is what may be considered in a very bad condition. The most extraordinery measure of a loan from the Bank of France had been negotiated by the friends of the Bank of England.

The corn erop in England looked alarming. and the impotation of bread-stuff, at the lower rate of duty, would probably take place, in which ease the exportation of bullion would create of course a commercial crisis.

In the Cotton market, however, a very decided improvement had taken place. The sales had been unusually large with an advance of full & of

The political news, is exceedingly interesting and important. The death of the sovereign of the Turkish Empire, had already lead to what may almost be termed a revolution. Sultan Mahneed died on the 28th of June. Serious disturbennes had taken place not only in the capital but in all parts of the Empire. The Captain Pacha had even offered to deliver the naval forces into the hands of the Egyptians.

An emute broke out at Hanover, on the 17th July. Hageman, the first magistrate whom the King sought to impose on the city, had been nearly flung out of a window, and the King at last recalled his appointment.

A whole galaxy of theatrical stars have come out by the Liverpool, principally for the National Theatre: The Liverpool was crowded with passengers, and seventy guineas were off-red and refosed for a berth in her just before she sailed,

The affairs of Canada were brought before the House of Lords on July 22d, by Lord Normanby, In his speech he commended Lord Durham's report but said that the idea of local responsibility was impracticable. "That month (August,) may be suffered to pass away quietly, but we confess that we entertain very strong doubts to the contrary. It is notorione that preparations have been made by large numbers of the lower orders for collision with the authorities. They have openly declared that they will retire with their torches to the hill side, and bide their time; that they will satisfy the cravings of hanger by plandering those who have proper, ty which can be made available to their wants; that for one drop of blood shed in defence of such property, rivers of human gore shall be made to flow; and that having once entered upon civil warfare, they will not give up the contest until either themselves or their opponents shall have been entirely extirpated from the face of the earth.

In this splendid collection of living specimens of NATURAL HIVTORY, which has been secured by unmitigated toil and boundless cost, from the out remote parts of the world, oney be found a greater number and variety, than was ever before exhibited in one collection, in Europe or America, naming which may be seen the groundessideratum of Naturalists-the Egyptian Greeffee, or Camle Leopard. This animal belongs to the order Rum nantia, but a well defined genus in the Autelope and the Stag.

This Graffe is the fleetest animal known. It is fond of a wooded country, the leaves of trees being its principal food, and its conformation allows of its reaching their tops. They are found to measure from 21 to 25 feet from the top of the ears to boofs. Few contrasts are greater than that between the heavy ma-ses of fle-h and bone of the Elephant and Rhinosceros; at d the light and elegant Giraffes with their sleek, rich. dappled coats, towering swan-like necks, lofty heads and brilliant eyes, worthy of Jone herself, and full of poble expression. In this collection will also be found many race and beautiful specimens, among which are the following ;

The Eland from Central Africa. This animal is of the largest kind of Gazelies, being over 5 feet in height over his shoulders, strongly made but the leg, are slender, the horns are nearly straight, two feet to length. COUNTERFEIT BRANDRETH'S PILLS re sold at almost every Drog Store in this City and although the public have been faithfully a arned to " bearare of the Druggists," yet they are constantly practicing their imposition upon those who are not careful to enquire for, and purchase the genuine of an authorized Agent. While these some Drugguts have been repeatedly threatened with presenttion, and have in consequence refunced money for counterfeits sold. I am happy to assure the public that not a single instance hes occurred, in the sale by me of more than 25 thousend boxes where an individual has express ed dresstisfaction; or asserted that they did not procure the effect recommended, and I challenge the Druggists to produce an article of Medicine that stands as high in public estimation, has given such universal satisfaction, or performed as many

BRANDRETH PILLS

The plan adopted and pursued by Doct. Brandreth in making Agents, of those who are not Druggists, and in no instance supplying any but the Agents, effectually keeps out of the Drug Stores the genuine article, therefore be sore to buy of an Agent who can show his Certificate & know that you are not purchasing that which is good for nothing. It is well known to the Druggreater than any others, they also know that they caprat obtain them, and these are the reasons why they attempt to palm off upon the public their base counterfeits,

Where the hair is observed to be growing thin. nothing can be more presperous than the use of oils, grosso, or any latty matter. Their applica-tion can only be recommended through the gross-est ignorance, as they hasten the fall of the hair. by increasing the relaxation of the skin. When there is a harsh, dry, or contracted skin, and where the small blood vessels which carry nourishment to the balls are obserneted, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. ## DAILY

A. OARLEY, EDITOR

SATURDAY AUGUST 24, 1839.

FOR PRESIDENT

#### GEN. WINFIELD SCOTT

PHINCIPLES OF THE SCOTT BEFOREICAN PARTY -One Presidential term-No interference in elections by Government a flicars - A uniform currency of gold and silver: or bank notes at all times redeemable in specie on demand An Independent Treasury under the exclusive control of Congress-Opposition to monopolies, to irreder-nable Shinplasters and to fraudulent banking.

#### ONE PRESIDENTIALL TERM.

The importance of this doctrine in the creed of genuine Democracy, has induced as to place it first in our catalogue of the principles of the Scott Republican Party. It needs but little ar. gument to convince an unprejudiced and disinterested mind that the President of the United States should never be re-elected to that high station. But untill it is made part and parcel of the constitution that he shall not he, a large number of our citizens whose means of subsistence depend upon executive favour, will slamour to to keep the President in power for eight years or into terms, in all cases. The office holdess who are active politicians, (and they all are now a days) are not setisted with fattening upon "Trensury pap" for four years; but at the end of that period begin to feel as though they had life estate in their office, and cling to it with the tenacity of buildings. This mercenary crew of hired and paid politicians and electioneerers, will appeal to the precedent in the case of Gon. Washington, and argue that because he was twice elected President, every succeeding Presidents should be paid the same compliment. They will prate about the public services, emment worth and patriotis a of the President, and with a sharp eve to their packet interests and a keen relish for treasury pay, talk large about the " great principles" involved in the Presidents re-election. It cannot be denied that to mortal, erring and amhittogs man, who loves power and has obtained it, the temptation is very strong to abuse power for the purpose of retaining it. Thus we see the President and his entire cabinet devoting most of their time and all the influence their stations give them to secure his re-election. In such a state of things, the public interest are of course neelected and the people suffer to an immense extent. In support of the principle of " One Presidential Term" we have the deliberate and frank opinion of both those illustrious men and true Democrats, Thomas Jefferson and Audrew Jack son. Twice have the people sanctioned the doctrine by the defeat of the two Adams, and we verily believe that Jickson with all his popularitw would have been defeated in 1832, had not his re-election been absolutely necessary to put down the H S Bank It is notorious that Van Bure. and his cabinet, with the thousands of his office bolders all over the Union, have devoted their time; talents, and money, to building up and sustaining party in order to secure the President's reelection. Even now the President is making an electioneering tour in this State, his cabinet are all absent from their posts, and yet the outrage upon our soil and the murder of our citizens at Schloser is unavenged; twenty millions have been thrown away in the Florida War, and yet a handful of miscrable savages maintain their ground there; and the agents of the government are absconding almost daily, after plundering the Treasury. The only cure for these evils is for the people to cirry out the Republican doctrine of "OSE PRESIDENTIAL TERM." The President will then attend to his duties, instead of electioneering and intriguing for re-election.

D' Notwithstanding the retraction signed by Mr. J. Ellis, which appeared in the "Sun" or vesterday morning, we are more fully convinced now than before, from circumstances that have since transpired, that Brundage is the author of the letter alladed to.

We have been housed in this manner several times, and we have promised ourself rate sport with the first rapscallion we caught at it. Now if we don't make this Mr. Brundage dance on red hot eggs, we'll eat them.

The Lyons are still endeavoring to circulate the story that the " Wetampka Trading Co," will redeem the notes,

Why will men add one clime to another by lying !

WANTED -Several agents to obtain subscribers for the WEEKLY SUN.

17 We have lately been calculating certain astronomical events, and hope soon to be able to inform our readers of the result of our labors. A rigid investigation of the moral, political and physical facts by which we are all surrounded should be the labor and aim of every philosophical and impartial writer; and it is the especial province of the editor of this paper to treat all those great abstract subjects openly and candidly-not with hat blinking, garbling, prejudiced and ignorant view taken by the scareagers of party politicsas vide the two Daily's :-

IF We vesterday received an armful of recent publications, Itom Messrs, Nichols & Wilson, Among the rest is " Fanny, a poem" which, is the only one we have yet perused. This poem was published several years since, and from cause or other it was suppressed; but since that time, the parties, who formed the ground work. have left this world, it is hoped for a better. This volume abounds with the sublime and the ridteslous, with the richest humour, and hard saterinal hits at the great men of the day. As there are only four volumes contained in the invoice, those that obtain one, may consider themselves lucky,

We give below an extract from the work; it is a parody on " There's a bower of roses by Bendemur's stream."

No. Such a collection to are and heaven like the sparkling dew in the morning of a fair day

From the Raltimore Chronicle, Aug. 19th.

From quite an early bour in the forengon of vesterday, the Nunne v in Asquith street, under the charge of the Nuns belonging to the Carmelite order, was sarrounded by a large crowd of persons, who had assembled there, in consequence of a report that one of the resident Nuns, sister Isabella: (farmerly Miss Neale of St. Mary's County. ) had left the Nunnery, and that an attempt had been made to compel her to return against ber will. The Mayor was sent for and accompanied by his Police assistants, repaired to the house whither the Nun had gone, and, upon escertaining the state of public feeling, took her in a curriage to the Washington Medical Callege. where she now is, under medical treatment .-She is said to be insune-hot whether this he or not, vis did not positively ascertain. The crowd contributed to increase until nightfall, when the Mayor finding that to disperse it by appeals to its tearen and good sense, were near iling. ordered up the City Guards and the military: whom he had in readiness.

The brigade of Guards, under Gen. O'Donnell, turned out in great strength, and soon dispersod the crowd. Of the atrocinesness of this ontrage we shall speak more fully to morrow.

CAUTION

COUNTERFEIT BRANDRETH'S PILLS are sold at a most every Drug Store in this City and atthough the public have been faithfully named to " hereare of the Draggists," yet they are constantly practicing their imposition upon those who are not careful to enquire for, and purchase the genuine of an authorized Agent. While these same Druggers have been repeatedly threatened with procession, and have in consequence refunded money for counterfeits sold, I am happy to besure the public that not a single instance has occurred, in the sale by me of more than 25 thousand boxes where an individual has express ed dissatistaction, or asserted that they did not proceed the effect recommended, and I challenge the Druggists to produce an article of Medicine that slands as high in public estimation, but given such universal satisfaction, or performed as many

BRANDRETH PILLS

The plan adopted and pursued by Doct. Brandresh in making Agents, of those who are not Druggists, and in no instance supplying any but the Agents, effectually keeps out of the Drug Stores the genuine article, therefore be sure for buy of an Agent who can show his Certificate & know that you are not purchasing that which is good for nothing. It is well known to the Druggists that these Pills are in great demand, far greater than any others, they also know that they cannot obtain them, and these are the reasons why they attempt to palm off upon the public their base counterfeys,

THE ELECTION.

If The old federal Duily Advertisor, the organ of the Rochester office holding junto, closean article handed . Presidential Prospects" thus: " The time is near at hand when the democraer of Wistern New York will have an enporsome of proving whether the " hone and sinew" of the party have resolved to shapden a tried and espable public servant, as has been asserted by noen enemies, and endorsed by a few pretend-

The government of the United States at this time bears a close resemblance to that of Turkey. There, the Soltan who resides at Constantrouple, governs his provinces through his Paches whose brisines it is to keep the faithful in subjertina, and who are rewarded for their zeal and fidelity in the service of their master by the privilege of plendering the people. In time of war each Pachs is required to furnish and head a certain quess of troops and join the standard of the Soveresgn. Here, our Sultan who resides in the White Palace at Washington, governthe States through his Office Holdersor Pachas, These fellows are paid out of the public purse, and are also allowed " stealings in" or the previlage of plandering when convenient. It is the duty of our office holding Pachas at the appreach of every election to marshall the federal Sultan's forces and lead them against the people. Even in districts and counties, where the federal executive party are in a hopeless minority, and where contention at the polls is well known to be niterly useless, the Pachas as in duty bound, drum up their forces and make a show of vigorous effort. It has often been a matter of surprise to many not in the secret, that the Van Burett party should contest counties and districts where there was no possibility of success. The true reason for such an apparent inconsistency is, that the office holders are bound to perform this service in order to keep in the good graces of their master the Saltan of the White House. We wish to call the attention of the honest demokrats of Monroe County to the events of the last ten years. Year after year as the time for the election approached, the tocsin has been sounded, the deinocratic County Convention called together by the Rochester office bolders; the party daily organized; a ticket nominated; town and ward committees appointed; and a subscription paper eirculated to raise money to carry on the campaign. The federal Duily and Republican has promised a "great democratic victory," " old Monroe to be revolutionized" &c, &c. Well, the election comes on, and the democratic party is most essentially - whipped! Letters are forthwith despatched to Washington by the office holders, giving an account of a "democratic gain" in Monroe County, the great efforts they have made, and the great things they shall effect at the next election, &c. de. To be sure they have spent some money and devoted some time to the election, but they are well paid out of the salaries of the offices they hold. But the anest democrate who hold no office, but have spemoney, and devoted what is as valuable, heir time to the election, some of whom he blondy noses and made enemies of thei best friends in the service of the Office Holders have superadded to their other misfortunes, the chagrin and mortification of defeat. It seems from the above extract from the federal Daily, that the old game is to be played over again this fall. Post-Master O'Reilly and Collector Smith will in due time call a county Convention; their tools and dependants will get together and nominate a ticket calling it "Democratic Republican"; those who are able will be called upon to "fork over"; and those who cannot pay, will be urged by every motive of patriotism and love of democracy to labour in the good cause. To be sure they will be besten, thoroughly and effectually beaten as usual, but O'Reilly will figure out a "gain" by comparing for the fiftieth time the " vote now" with that of the " Towns of Gates and Brighton before Rochester was incorporated as a city." He will then address a letter to President Van Buren

time there is " at least" an administration " i

STATE OF A STATE OF

at the democracy of Monroe has endursed the visdom of the President in appointing James Smith to office upon the say so of said O'Reills and Tucker and against the petitions and wisheof the great mass of the party; and that he the said O'Reilly will take care that at the next elec nen, " Old Manroe is revolutionized !"

Can any thing be more contempt ble than this farce? Will the Republicans of Rochester concat to be hamboogled in this shameful manner any longer ! Will they not rather rally under the principles contained in our motto, embracing as they do, the essential principles of genuine t) morracy? By adopting those principles; cutting adrift from the federal Pachas and mercens ries of the executive; and rallying around fort. the Hote of Chippewa, the brave in battle, the wise in council, and the faithful servant of the People in every emergency, old Mouroe can be ndeed "revolutionized" and brought into the Republican fold.

IT Notwithstanding the extreme warmth of the evening the lecture of Professor Garnes was well attended. The lecturer descanted upon his favonite topic in a manner which both delighted and interested his audience. His views on the science are more attractive, from the fact that they are delivered in a simple, though forcible menner and thus rendered comprehensible to the most limited mind. The regular conse of lectures commence this evening and to those who wish to er joy a rich treat, go and subscribe.

IF We have now before us a copy of " A new vatem of Phrenology by J. STARLEY GRIMES. This is the best work on the science extant. We have perused other works on this subject, which abounded in metaphor and figure ; but once rendered so simple, and with such forcible argument as contained in this. We should think Mr. Grimes work, the best calculated to make converts to the science than any we have ever seen Our friends who feel an interest in the science of Phrenology, should procure a copy of this work.

SIDNET CLIPTON .- This is the production of new candidate for fame Mr. STRONG. The scenes is laid principally in New York and the whole work is replete with soul stirring incidents. This work has passed the ordeal of a severe criticism by the press, with the exception of the KNICKER BOCKER, which speaks very highly of it-For our own part we can hear witness to the veracity of the Knickerbocker, for we have not opened a book in which we have felt so deeply interested, as Sidnev Clifton. It is to be had at Messrs. Nichols & Wilson.

We are about to be challenged to mortal combat, at least so we hear. What a loss the world would sustain in poetry, in romance, in exquisitideas, in originality, in"historical reminisances."in legendary lore and in high thoughts, if we should get " fixed out" in a duel. diseases peculiar to female. Price 50 coots per

The peculiar properties that there pills possess in the successful treatment of those loathsome diseases that are so peculiar to the female sex, are not to be doubled, since they have been satisfacturily proved by a long experience in the private practice of one of our most eminent physicians. Neither have they been confined to one only, and made a matter of secret by the venerable inven-tor, but have been extended to the practice of many of his medicine a most valuable preventive as well as a sovereign remedy in the following complaints: - Obstructions, Green Sickness, Debility, Indigestion, Giddiness, Palpitation of the Heart, Hystoria, Louthing of Food, Pains in the Stomach, Stortuges of Breath after a little ever. cise, and Sir king of the Spirits.

These pills are safe as they do not contain the least particle of mercury, or any other dangerous ingredient. As a preventive against the above diseases, the specific powers of these pills act most admirably in parifying and quickening the blood when it has become tarily, and restoring the natural give and universal cheerfulness to the sallow and dejected countenance of the unhealthy female.

From the Diary of a Lunatic

They tell me I am mad; ha! ha! I laughed when I heard it. Were you ever in lave? I was once, and a merry time I had: I remember it as well as if it was the day after to-morrow. She loved me not, so they shut me up heres and she died. She sent me a letter when she was gone, I gave it to the cank to singe chickens with, but hist! I'll tell you a secret; I've got it here, in My heart they'll take it from me if they find it. Hark! who balled? -how my h ad burns. What was I saving !- I renember now-I was in love and wrote poetry, and so they thought I was brought me here. She said she had le wied to love me, and prayed me to forgive her, tasn't it a merry thought?-I laughed till my chains

Sometimes I get tired and go into the graveand, and play with the ghosts-dead even they may tell no tales, ha! ha! tell me that If wa rare fund to listen to them-what lying epitaghs they have. I musn't forget her. I got tired of heing away, and when she died I went to see her; I laid all night with her in the grave, -she lay so still that at his! I was frightened, and thought I should go crazy-but the redworms come and crawled over her, and we played with them; -1 laughed to see them in her eyes; she screamed but nobody came; no! no! the grave worm is a conning fellow, you can't cheat him-they carried her off, and but her hair; I would'ut let them take that, for I wanted it to make a rope to bang myself.

What queer fellows these ghosts are-they rattle their bones to keep themselves scarm. Do you know why so many Parsons, Doctors, and see the world as it ought to be-wasn't it a mel- the Eagle. ancholy idea? What was I saving !- I can't think backwards, it's not natural-I remember how. I was telling von how the ghosts boil potnices,what a comical way-they lay them on their backs, and then pile their coffins together, and roast them in the ashes-they've plenty of ashes there. Did I tell you of the bargain the Deval made with the Parson?-all trades must live goose egg-see great wall project. they say-and the Devil and the Parson both live by sin; nobody would pay the Parson, if there were no sinuers to be damaed or devils to fight with. So he don't kill the little devils, frot lets them grow till they are big enough to fight with, And don't you know that if it wasn't for sin, there, would be no sickness and that, you see, would'nt suit the Doctors ? Now if you can guess why an Editor winks with both eyes, you can tell how the Devil gets him. Don't take out a patent for the invention-it belongs to the grave yard. .

Let's go look ar the tomb stones-I hope men Lie without knowing it. Here's an epitaph on a girl who died of the - what is it ? - of the -it's so dark I can't find it,-I've got it now, of the consumption,-That's a good one, of the consumption, yes! yes! I know what it was, killed herself by tight lacing. And here's one young man who died in the service of his country, fight, ing a duel! Ah! inn't this one glorious! how the Devil laughed when it was put up, it's too long to be read. It says nothing about "unboduded benevolence!" christian philanthropy!" " the virtues of a husband, father and friend!" The miserly old dog laughed himself when he read it. He cheated his father, broke his wife's heart, and killed his daughter. Ha! ha! they think to bheat the devil, but he knows where to go, he never looks at the mounment, not be.

I wonder where the ghosts are ? it's time they were out, there comes one of them, ha ! ha ! it is she; won't we have a merry romp! Hark! what bell was that! Persuade me I am crazy; no, no! I'm too much for them there. Here comes the Devil with his frying pan; I must help him get supper. Listen! she calls me, Don't get in love, or they'll spy you're crazy, and bring you here .- Phil World.

"NO INTERFERENCE IN ELECTIONS BY GOVERNMENT OFFICERS." This is the second clause in the creed of the Democratic Republicans who support Gen. Winfield Scott for the Presidency. What honest man and sincere Democrat is there, who can lay his hand upon his heart and gainsay the southdates that this doctrine is democratic? We appeal to Thomas Jerrenson, the father of American democracy, and a man whose authority in such matters is indisputable. At the time when our glorious Constitution was adopted, Jefferson. Patrick Henry, and other illustrious actors in the scene of the revolution, were apprehensive that the Pederal Government would ultimately westlow up the power and independence of the State Governments, The rapid strides made towards such a result by the administration of John Adams, laid the foundation for the brilliant victory achieved by the Democracy in 1800, in the than up. election of Jefferson to the Presidency. Let it be remembered that the Jeffersonian of '98 first organized under the name of Anti-Federalis and that the ground work of their organizatir & vas opposition to the encrouthments of the Federa or erament. A recurrence to the early bestory the nountin party is the only once criterio . by which to judge of the preteutions of modert politicians. True Democracy, is opposition to encreasing the power and influence of the Federal Government, and a rigid preservation of individual rights and the Sovereignty of the States Any measures which strike at these great fundamental principles are anti-democratic, and of course federal. Let us examine by this texts the principle for which we are now contending Since the organization of the Government, the States have increased from 13 to 25-the expenses of the Government from 2 millions to 30 millions of dollars-and the number of officers and executive agents, from a few hundred to several thousands. It in 1800 Jefferson feared the increasing power of the Federal Government, and opposed the interference of the federal officers in our elections, what would be say in 1839, coald he revisit the scenes of his patriotic toil?" He would behold our wide spread Union, covered with one vast swarm of executive agents, and federal officials. Every village and hamlet with its Post Master, and the large towns and cities with their Post Masters and Revenue officers with their deputies, clerks and employers, all eved by one common impulse from Washingon, and alike dependant upon the smiles of the Federal Executive for their offices, and many of them for their daily bread. He would see the wires palled at Washington, and this host of oficers move in solid column in any State where an election was pending. He would see the Post Office Department one vast electioneering ma-

We do not object to their voting like other citizens, consciously perhaps, or in obedience to the dietates of unm tigated selfishness. But we do object to their using their official stations to influence the votes of others -to their using the people's money to enslave the people-to their deveting the time that belongs to their official duties to organizing and drilling the executive party-to their constituting as they now do, an army of electioncerers, devoting the time which belongs to the people in building op and strongthening Eveeutive Power. All this is anti-democratic, enti-Jeffersonian, and is rank federalism. It is to reform this abuse amongst others, that we present the name of Scorr to the people of the United States. Hours of exhibition on Wednesday, from 1 to 4 P. M., and on Thursday from 10 A. M. to 1 P. M., and from 2 to 5 P. M.

In this splendid collection of living specimens of NATURAL HISTORY, which has been secured by numitigated toil and boundless cost, from the most remote parts of the world, may be found a greater number and variety, then was ever before exhibited in one collection, in Europe or Americay among which may be seen the great dessiderators of Naturalists-the Egyptian Giraffee, or Camle Leopard. This animal belongs to the order Ruminantia, but a well defined genus in the Antelope and the Stag.

This Graffe is the fleetest enimal known. It is fond of a wooded country, the leaves of trees being its principal food, and its conformation allows of its reaching their tops. They are found to measure from 21 to 25 feet from the top of the care to hoofs. Few contrasts are greater than that between the heavy ma-ses of flesh and hone of the Elephant and Khinosceros; and the light and elegant Giraffes with their sleek, rich, dappled coats, towering swan-like necks, lofty heads and brilliant eyes, worthy of Juno herself, and full of noble expression. In this collection will also be fund many race and beautiful specimens, among which are the following:

The Eland from Central Africa. This animal is of the largest kind of Gazelies, being over in feet in height over his shoulders, strongly made but the leg, are slender, the horns are nearly straight, two feet in length. This animal is of a darkish color, inclining lowards blue, tinged with red. It is said to pessess a fice ear for music.

The Great African War Elephant, the small Elephant of Siam, the Unicarn or one Horned Rhinoceros, the Great Numidian Lion, Asiatic Lions, Royal Bengal Tigers. Loopards, Panthers. Hyena, Jagnara, the Great White or Polar Bear, Cinnamon Bear, Poonar Bear of Hindostan, Black Bear, the Zebra, Genu, Asiatic Zebu, Lama, Kangaroons, Birds-besides many other ture

" The Hornet.-The following, respecting the ill-fated Hornet, regarding which vessel so many rumors have been rife of late, is from the Galvestonian. The account appears plausible enough -let our renders peruse it and judge for the selves-

Some time in Jone lest, Mr. Denmah, a resp. rable inhabitant of Point Bolivar, riding with ther-in-law, on the Gulf shore observed a betle corked, and alighted in the hope that it conteined wine or spirits. It turned out however to contain a roll of paper. The bottle was smell with a long cork, not sealed. The cork and park of the bottle's neck, were covered with bernseles. A few days ago he secompanied a lady, who was on a visit to some friends in this city, as far as the first lock and on leave taking, wishing to show his politeness and agility he made a bow and a spring for the shore at the same time, and shocking to relate, he missed his calculations, and fell in head and heels, and would have drowned, had not some of the lock tenders fished him out with a pole. The fair one made for the cabin as she did not wish to injure the gentleman's feelings by a fit of uncontrolable laughter. The ladies man wrang the water out of his coat, and perfectly convinced at the same time that it was folly for one of his calibre to attempt more than one thing at a once.

In this splendid collection of living specimens of Natural Hestory, which has been secured by unmitigated toil and boundless cost, from the most remote parts of the world, may be found a greater number and variety, than was ever before exhibited in one collection, in Europe or America, among which may be seen the great dessideratum of Naturalists—the Egyptian Giraffee, or Camle Leopard. This animal belongs to the order Ruminantia, but a well defined genus in the Antelope and the Stng.

This Graffe is the fleetest animal known. It is fond of a wooded country, the leaves of trees being us principal food, and its conformation allows of its reaching their tops. They are found to measure from 21 to 25 feet from the top of the ears to heafs. Few contrasts are greater then that between the heavy masses of flesh and hone of the Elephant and Rhimosceros; and the light and elegant Giraffes with their sleek, rich, dappled costs, towering swan-like necks, lofty heads and brilliant eyer, worthy of Juno herself, and full of noble expression. In this collection will also be fund many race and beautitul specimens, among one hag the following:

The Eland from Central Africa. This animal is of the largest kind of Gazelies, being over 5 fet in height over his shoulders, strongly made but the leg, are slender, the horns are nearly straight, two feet in length. This animal is of a darkish color, inclining towards blue, tinged with

COUNTERFEIT BRANDRETH'S PILLS are sold at almost every Drag Store in this City, and aithough the public have been faithfully warned to "he care of the Draggists," yet they are constantly; bracticing their imposition upon those who are not careful to enquire for, and purchase the genaine of an authorized Agent, While these same Droggists have been repeatedly threatened with presention, and have in consequence refunded movey for counterfeits sold, I am happy to assure the public that not a single instance has occurred. In the sale by me of more than 25 thousand boxes where an individual has expressed dissatisfe/Lion, or asserted that they did not procuce the e-fact recommended, and I challenge the Druggista to produce an article of Medicine that stands as bigh in public estimation, has given such universal satisfaction, or performed as many

The plan redupted and parsaed by Doct. Bran-

It is well known to the Drug-gists that these Pills are in great demand, far greater than may others, they also know that they cannot obtain them, and these are the reasons why they attempt to palm off upon the public their base conterfeits.

Its positive qualities are as follows: 1st-For infants keeping the head, free scurf, and causing a luxuriant growth of hair. 2d-For ladies after child-birth, restoring the

skin to its Satural strength and firmness, and preventing the falling out of the hair. 3d-For any person recovering from any debil-

ity, the same effect is produced. 4th-If used in infancy till a good growth is started, it may be preserved by attention to the latest period of life.

5th-It frees the head from dandruff, strengthens the roots, imparts health and viger to the circulation, and prevents the liair from changing color or getting grav.

6th-It causes the hair to corl beautifully when done up in it over night.

IP No ladies' toilet should ever be made without it.

7th-Children who have by any means contracted vermin in the head, are immediately and perfectly cured of them by its use. It is intellible. For sale by nearly all respectable druggists. Apply to Comstock & Com., 2 Fletcher-street, New York.

CAUTION .- None can be genuine without a splendid steel plate engraving, on which is the Falls of Niagara, and Dr. Comstock's, the Americau agent's name, &c.

THE MAYOR.

THE LATE MAYOR of Philadelphia has certified, under seal of the city, to the character of several Divines, Physicians, and gentlemen of high standing, who declare positively under their own bunds (all of which may be asen at the drog store) that the Balm of Columbia is not only a certain preservative, but positively a restorative of the human hair; also a cure for dandruff. Who shall dispute, or who go hald ! Inquire at all respectable droggists.

CAUTION.—None can be genuine without a

splendid steel engraving, on which is the Falls of Niagara, and Dr. Conistock's, the American agent's, name, &c.

THE HUMAN TRAILE.

Where the bair is observed to be growing thin, nothing can be more prosperous than the use of oils, grease, or any fatty matter. Their application can only be recommended through the gross est ignorance, as they hasten the fall of the hair, by increasing the relaxation of the skin. When there is a harsh, dry, or contracted skin, and where the small blood vessels which carry nourishment to the balb are obstructed, then the cils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimulus to rouse the vissels from their torpor, and quick-en the current of the blood.—Extract from Clinehugh's Treaties on the Hair.

The Balm of Columnia is the only preparation that can have that effect, being entirely free from any oily substance.

GENESEE VEGETABLE EMEDIES

These Medicines are faithfully perpared from the receipt of a distinguished practitioner of Medicines, by whom they were first invented, and used in the Hospitals of New York, in nearly all the cases of Fever and American occurred during the years of 1812, 13, 14, and 1815, and afterwards introduced into the Galesce country,

and used in his private practice, with a success unparralled in the history of Medicine.

The Genese Remedies, which are prepared without Quinine or any preparation of Bark's.—

Consist of two kinds of Pills—one of which operates by theroughly cleaning the system from all the stale and acid Bile, which is the very seed of the disease. And the other by giving strength and vigor to the same, invariably restores the patient to perfect health in a very short time, and generally by the use of a single package, if the directions are adhered to.

As a preventative of Fever and Ague and all Billious Fevers, so prevelent at the West, they deserve a decided and distinct recommendation. Were they used at short intervals during the sickly senson, they would be found in every inwhich the people every summer are the unfor-turate victims. And which have not generally found a remedy in the too common use of Quanine and Tonic Mixtures; but in macy cases an gravated and made worse.

Having the fullest confidence in the Medicine, they ware to the beginning, inques and have always been sold under a positive warrantee, to refund the meney in all cases of failure. Within the last year they have been used in many hundred cases, and out of the whole number but one case has yet been made known, where a perma-nent cure has not been effected.

The proprietor has the almost confidence that they will be funed equally sore in the West-as they have already been used to some extent with the most happy reachs, as will be seen by referring to a few Certificates on the inside directions. For sale by the Proprietor

Executed at the SUN\*Office with neatness and despatch.

IT His Democratic Majesty, Martin to First, will make his grand entree into Roch ster on Monday morning next. Mr. Henry ! Reilly having received despatches to that effect. Notice has been given to all the lecofocoism ("Old Mouroe" to assemble and bow down and worship their idol, according to the directions of Lu ther Tucker and P. M. O'Reilly.

We shall commence a collecting four this morning, and don't wish to be told to call egain" when we ask a man for money, which is due us, we do so with the expectation of getting it. We have to pay cash to our workmen, and cash for our paper, and if we can't get cash from who owe us, we know not where to look forbit, and to cut the matter short, we must and self have it, or we will know why.

On Monday or Tuesday next de shall publish an evening paper, about the size of the first number of the Sun. It will be issued immediately after the arrival of the Eastern Mail, so that we shall be able to give our readers the news some sixteen hours in advance of the marning papers. It will be neutral in politics and devoted entirely to news of the day. It will be isforded at the low price of one cent.

IT At Mr. Grime's lecture night befaits last, an individual was examined whom the P efessor pronounced at once to be a low, vulgar blackguard. He then wished to know if his ju igment was correct, whereupon a very respectable gentlemen rose, and stated that he knew the person. and that Mr. Grimes had hit off his character to the life! The andience received this confirmation with a peal of applause.

IT Since we first caused the Sux to shoe, we have driven off Tucker, and Dawson. Hyatt we have so crippled that he can't go off, or he has not sense enough to move while he has the journey; but the captain shought he would strength to do so.

If who knows of the whereabouts of Mr. J M. Faulkner, who attempted the auction and commission business on Exchange street, for we should like to have some information in regard to that dollar due us,

IT Mr. R. K. L. will please let us know what has become of him.

Who will send us a name for our new paper !

Those who wish to avail themselves of the advantages of advertising in a penny paper, will send their favors directed to 510 post office. We have no doubt the circulation of a pertay paper will amount to more than an aggregate of all the morning papers.

D' We have received several letters parporting to come from individuals whose names have graced the columns of the Sun; but we don't suck it, as the skink said to the rotten egg-We'll catch the author tripping yet.

If We will put on our "long togs" and go see Matty, if the locofocos will indemalfy as against having our pocket picked, as we did when Henry Clay came looking after the loaves black necklace. and fishes. We should like to know when the whigs intend to straighten that matter.

"Back over" you delinquent,

IP Many of our friends supposed an article which appeared in yesterday's paper, was intended as a thrust at the Concert given last evening at the Brick Church, this was not the case we alluded to another affair.

Madden!!!!

Of fifty, and such husbands are in plenty, And yet, I think, instead of such a one-,Twere better to have two of five-and-twenty."

Love on board a steam boat! "It is an Tatellectual error" exclaims your stanza-inditing, moon apostrophising, bilious-looking poet. "It is an erroneous idea," says your romance-reading, troubadour-admiring, sentimental young lady. "It is another vulgar error," says the bluff, honest, west country river man-" all nonsense, there aint no such thing as love on board a steam hoat." Against all these assertions we beg to enter our solemn protest. There is there was, and there will be love on board steamboats, and those who fancy that love cannot exist only in the vicinity of sylvan shades, parling streams, fairy dells and moon-lit bowers, may be perfectly conversant with heathen mythology but they know nothing about the present bustling every day world. Place these lack-a-daisical folks on board a steam boat on the Mississippi and they think it is but an imitation to some pnearthly state of existencean ordeal to which they are subjected for some wise and inscrutable purpose. The puffing of the steam, the spinshing of the puddles and the working of the piston they believe to be destructive of every heart-felt emotion. and they would as soon expect to find a piano in the wigwam of an Indian, a broker who would not share, or a tailor who would not cabbage, as to find pure sen timent and parties cherishing a mutual and tender passien on board a steamboat. If such opinions fit to show any thing they but prove that the persons entertaining them are behind the spirit of the age, and that whilst the whole world have been living and loving on the high-pressure principle-going through "in the shortest space of time"-their advance has been no greater than that of a dug out paddled against a six-knot carrent. So much for assertion now for proof.

Not long since one of our " crack" steamboats left this city for the west. The captain is a crack captain and the hands are all cracks too. Among the passengers who went on board in this city was a lady of surpassing loveliness. She had an eye clear as the waters of the Ohio; hair black and glossy as polished chony, and a skin like a rose leaf nathed in dew. She had besides, that parely effeminate burst and intellectual contour so peculiar to educated American ladies. Our captain with that politeness common to his profession and with that gallantry which seems to be a part of their existence, seeing his fair passenger about to come on board, hastened but to the wharf to pilot her en the plank. He gave one of his politest bows, "I'm captain of the dam, permit me to see you on board," and he extended his right hand which the lady sans ceremony gently caught and was conducted on board. He funcied, and it was but fancy, that he felt a warm, affectionate glow on the touch of her hand, that her eye beamed love, and that her longue, when she returned him thanks, thrilled with honiediscents. The apositio of all this was that she fairly burst the boiler of the captain's heart and ran his feelings quite aground. Those who have trav iled up the river know how monotonous is make it as interesting as possible to his fair passenger. Not a plantation did they pass that be did not describe, not a spot remurkable for incident or accident that he did not point out. She, in fact, engrossed the whole of his attentions and he left the boat, in a great measure, to the management of his attentive officers. On the principle, we suppose, that beauty unadorned is adorned the most, the only ornement she wore was a necklace of small black beads which seemed to reflect the lustre of her eyes, and she was known by no other name to the captain and those who witnessed his "delicate attentions" to her, than 'the lady with the black necklace."

Sometimes he would go up on the hurricane deck and in a fit of abstraction say to the pilotpointing to some particular spot on the margin of he river-

"Is not that a very novel and romantic looking place, my dear."

"Umph! my dear!" the pilot would say, "It is so novel to me that I have seen it every week for the last fifteen years, and the only romance I could ever see about it is the quality it possesses for engendering fever."

He would then ask to be pardoned, and say he thought he was speaking to the lady with the

"Do you think," he would say to the mate, "that all is right and there is nothing wanted?"

"Why sir," said the mate, "the flange of one of the wheels is broken, and I heard the engineer say as how the screw of the T. head was loose."

"O d-n your T head, you blockhead," replied the captain, "I was speaking of the lady with the black necklace." And then he would hurry down to the ladies' cabin and enjoy the luxury of a tets a tota with his beloved lady with the black people live that buy goods for Cash ! Query .- What is the reason ? necklace, and

Trembling whou met, and restlessness when

Few in this world know uninterrupted happiness, and our grafant steambout captain was no, destined to prominently enjoy that world of bliss which he left in the society of the lady with the black ners face. The morning, the hour, the moment came when she was to leave, and when it devolved on bia-

"To speak the last the parting word, Which, when all other sounds decay, Is still like of dant music heard :-That tender intervell on the shore

Of this wide world, when all is o'er.' Vows of hise of constancy and of eternal truth were uttered by the captain and though they were not audily exchanged by her, her eyes, the unerring index of the mind, seemed to tell that he was fondly beloved. He besought her to remember him we'd and fondly till his return, which would be on the orday, two weeks after, at 10 o's clock at night. The Mats was desired to man the yawl, and the fady was carefully put on shore at Shirt tail Beat.

Shirt tail Blanck Who ever heard of such a name? Who, having a particle of sentiment, a ray of romance, a shadow of poetry, about them, would live at a place with such a name? Yet strange to say. Le Gir inamorata combined them all, and lived at that unamiable unpostical, undiscomantic location. We bog parden of our fair readers for using this usme, but the incidents of which we treat occurred there, and as faithful chroniclers of ar event which has really happened, we are oblied to come with names and places. Had they called at Nether-garment Terrace, we should have blood it better, but as this is the name they have given it, by this name it is known on the 1919s, and we cannot alter it.

The captain performed his contemplated trip determined at 162 bezards, to be back at the appointed bonr. 'Lo prove the depth of his passion he resolved on tenking the lady a present, but was at a loss to decide on an appropriate one. After much mental enfrotion he concluded the present should be a herrel of apples. If Eve was captivated by cos apple, he thought that by presenting a full barke! of the tempting fruit to the beauty of Shirt all Bend, he would carry ber off by a comp de muce. He got his apples and his freight on board, cong the bell that teld the time of starting, cried out " Shove in that plank," and in a moment his boat was under weigh. When he arrived at the Sevoted spot he stopped , pat the apples ashore one hot himself ashore efferwards It was night-sident night-the moon, now intercepted by a civil, now flung its rays over the bosom of the Miestalppi, making it look like a sheet of liquid am. A light burned in her window, which be looked upon as a signal of her fealty. It was the very moment that he promised to return, and in order to apprise his charmer of his presence, he sang-

" See light efends are veiling the moon, No eyes your departure will note : Come down from your chamber, and soon I'll waft you every in my bont."

Just as he had onished, a Copid-a messenger of love-in the chare of a large she-negro, came ranning out saying? " Missus says you may shut

reach his boat which fortanately had stopped to Tury wood a short disputer below. He finally got safe on board, and thee ends our tale of Shirt-tail Rend and the Lady with the Black Necklace .- Pie

entral Library of Rochester and Monroe County buck for CAPT. GASKIN, OF THE CANADIAN STEAMBOAT MAMILTON.

Поснаятая, August 28th, 1839.

To the Editor of the Son:

Sin-As my character has been assailed by Mr. Smith, and a few other unhabitants of this city, in convexion with the arrest of the Master of the Hamilton, last Monday, I am desirous that the public should become acquainted with the leading facts through the medium of your

In the afternoon of Sunday, the 18th inst. I took a ride as far down as the Landing, Carthage, and walked on board the steamboat lying there, the Hamilton, Capt. Gaskin from Toronto and Coburg. I spoke to one, and came up a few rods before the Capt, and his wife. When on the top of the hill I save them lowering the British flag, and olding it was and the Capt afterwards and and folding it En and the Capt. afterwards said to me in the prosence of W. C. Green, that the mate had lower'v! it contrary to his orders, Some one asked me in a joke, Was it I that had caused them to lower the English flug? In the same strain, I replied, i'of course." The joke went round, and to Canada, which annoyed Gaskin, although I had an intention to annoy any one.

Last Sanday of arnoon, (the 25th) I again took a ride to the Landing, with some female friends, and went on toard the Hamilton, when Capt. and went on total the Hamilton, when Capt. Gaskin came up to me, and laid his hands on my shoulder, and said. "you are the man who boasted of having had my flag lowered last Sunday." I said he was trustaken, but of course, went ashore no hard words having passed between us. A few minutes afterwords, when I was standing on the whapf, he came ashore, collered me sudenly, threw me round with great violence, and swore, "God d—n we, but he would throw me head and heels into the river." A crowd gathered cound us and several resultment tried to reason. round us, and referrel gentlemen tried to reason with him, but it continued to abuse me in the with him, but it continued to about me in the coarseat languis. until at length some of my friends got angit it his perverseness, and reminded him that he was not now at Fort Henry, where he had spat upon and insulted the gallant Von Shoulin, wire on his way to the scaffold. He said a great deal about his courage and bravery, and about his flig being his protection, and that he level it; no which some one told him that when he was mate of the Sir Robert Peel, to had had an enfortunity of proving his manhood, and that he he and a hundred more like him cried "profileyi," and abandoned their flag or protection to their een brigands at French Creek, it was any sectining of him to profane the Lord's day by such abusive and blasphemous language, knowing, as he did, that his own man put in charge by fimeelf, had folded up his flag believing it was the orders. I soon left the wharf and returned to the city. and returned to the city.

Last Monday serving I had a warrant served upon him, for the supprovoked assault. The magistrate who beset the case, bound him over to

magistrate who haved the case, bound him over to appear at the nost extreminal court here, Mr. Bunnell being his security.

On Taesday, W.S. Nashit, a runner for the Hamilton, said to Se an Orapgeman, who boasts of his loyalty, was provaded on by Mr. Smith, a Merchant on Exchange street, who is concerned in the Boat, to have an oath that he heard me say I would stop the steamboat from coming here. Smith these swore that from Neshit's affidavit he believed the steamer in danger, and desired a warrant freme. I appeared accordingly, sired a warrant forme. I appeared accordingly, and gave bail, Merers. Wheeler and Sheridan to

keep the peace, which, by the way, I had nover broken, nor project of to break.

Joseph Roshery, bar keeper, at the North American Hotel, made himself very officious, and is more friendly to the Canada Tories, than is consistent with trish and American notions of his conduct.

If a sawyer had can into the captains's boat he country, but never to my whole life had any thing could not have been into a larmed—the news completely snagged him. By dint of rowing and any of the diachingsy of law; and feel rather hunt halloing, puffing and blowing, he made out to at being dragger before the country by an Irish

> As to Gaskin's conduct, I think it was highly improdent. No Coubt the vessel is very useful in the way of train and traveling betwist the two countries; but the master should be a man of temper and direction. He may love the bloody flag of Drew, McNab, Colbourne, Arthur, Castlereagh, Perl, and Wellington-be may delight to see it ware in Rochester, herbour, to remind us of the fale of the Caroline; and our forbearance under aggravated insult. But if the mardered Durfer's blood has cried to God for vengesnee, and to yet cried in vain, it seems creel to expect the American chizens standing on their own soil, in expet of that flag, on an American wharf, must be kicked, insulted, collared and threatened with Deth, by the bloated minious of tyranny, and that in without a shadow of provo-

It is well known, that, but for my temper, and forbearance under the most aggravated provocation, the Hamilter would have been cut loose and set adrift, as many persons present threatened to do so. I urged them to forbear. No violence was committed. I rejoined the ladies at the top of the hill and rode back to the city.

Yours obedtently, P. McGUINNESS.

COUNTERFEIT BRANDRETH'S PILLS are rold at almost every Drog Store in this City, and although the public have been faithfully warmed to "beware of the Druggists," yet they are constantly practicing their imposition upon these who are not careful to enquire for, and purchart the genuine of an authorized Agent. While there some Drugguis have been repeatedly threaten M with prosecution, and have in consequence refus-ded money for counterfeits sold, I am happy to assure the public that not a single instance has accurred, in the sale by me of more than 25 thorband boxes where an individual has expressed disantisfaction, or asserted that they did not produce the effect recommended, and I challenge the Druggists to produce an article of Medicine that stands as high in public estimation, has given such universal satisfaction, or performed as many

BRANDRETH PILLS.

The plan adopted and pursued by Doct. Brandretti in making Agents, of those who are not Draggists, and in no instance supplying any bat the Agents, effectually keeps out of the Drug Stores the gravine erticle, therefore be sure to bor of an Agent who can show his Certificate & Agon that you are not purchasing that which is good for nothing. It is well known to the Druggiste that these Pills are in great demand, far greater than any others, they also know that they caprot obtain them, and these are the reasons why, they attempt to palm off upon the public

Where the hair is observed to be growing thin, nothing can be more prosperous than the use of oils, grease, or any latty matter. Their application can only be recommended through the gross est ignorance, as they hasten the fall of the heir, by increasing the relaxation of the skin. When there is a bacch, dry, or contracted skin, and where the small blood wessels which carry noorishment to the bulk are obstructed, then the oils, &c., may he good, as they tend to relax the skin; but alone they are of no avail. these Medicines are faithfully perfored from the receipt of a distinguished practitioner of Medicines, by whom they were first invented, and used in the Hospitals of New York, in nearly all the cases of Fever and Auge that occurred during the years of 1812, 13, 14, and 1815, and afterwards introduced into the Genesie country. and used in his private practice, with a success unparrelled in the history of Medichia.

The Genese Remedies, which are prepared without Quinine or any preparation of Bark's.—
Coasist of two kinds of Pills—one of which operates by thoroughly cleaning the visiem from all the stale and acid Bits, which is the very seed of the disease. And the other by gising strength and vigor to the same, invariably restores the patient to perfect health in a very short time, and generally by the use of a single package, if the

directions are adhered to.

As a presentative of Fever and Agua and all Billions Fevers, so prevelent at the West, they deserve a decided and distinct recommendation. Were they used at short intervals during the sickly season, they would be found in every in-stance to keep of those distressing disorders, to which the people every summer are the unforfound a remedy in the too common are of Quenine and Tonic Mixtures; but in musy cases ag gravated and made worse,

Having the fullest confidence in the Medie they were in the beginning, issued and have always been sold under a positive starrastre, to refund the money in all cases of failure. Within the last year they have been used in many hundred cases, and out of the whole number but one case has yet been made known, where a perma-

nent cure has not been effected.

The preprietor has the ulmost coefficience that they will be found equally are in the West—as they have already been used to some exter with the most happy results, as will be seen by re-ferring to a few Certificates on the inside direc-tions. For sale by the Proprietor

CAUTION!

COUNTERFEIT BRANDRETH'S PILLS are sold at almost every Drog Store in this City, and aithough the public have been faithfully warned to "beware of the Druggists," yet they are constantly practicing their imposition upon those who are not careful to enquire for, and purchase the genuine of an authorized Agent. While these some Druggists have been repeatedly threatened with presecution, and have in consequence refunded money for counterfeits sold, I am happy to assure the public that not a single instance has occurred, in the sale by me of more than 25 thousand boxes where an individual has expressed dissatisfaction, or asserted that they did not procuse the effect recommended, and I challenge e Draggists to produce an article of Medicine that stands as high in public estimation, has given such universal satisfisction, or performed as many

It is well known to be Druggists that these Pills are in great demand, far greater then any others, they also know that they cannot obtain them, and these are the reasons why they attempt to paim off upon the public their base counterfeits
