REE ETUAN MARK.

Where the hair is observed to be growing thin, nothing can be more prosperous than the use of oils, grease, or any fatty matter. Their application can only be recommended through the gross est ignorance, as they hasten the fall of the bair, by increasing the relaxation of the skin. When there is a harsh, dry, or contracted skin, and where the small blood vessels which carry nourishment to the hulb are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimulus to rouse the vessels from their torpor, and quicken the current of the blood .- Extract from Clirehugh's Treaties on the Hair.

The Bolm of Columnaia is the only preparation that can have that effect, being entirely free from any oily substance.

He said he would cheerfully lend his name, and aid in extending its usefulness. This is but one of which we may safely say hundreds who have given like testimony.

FOR PRESIDENT GEN. WINFIELD SCOTT

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY -One Presidential term-No interference in elections by Government Officers -A uniform corrency of gold and silver; or bank notes at all times redeemable in specie on demand - An Independent Treasury under the exclusive control of Congress-Opposition to monopolies, to irre feemable Shlaplasters and tofraudutent banking.

MAJOR GENERAL SCOTT.

We have received the proceedings of the Ulster Convention held, on Saturday week last, a which General Scott was, openly and above board, nominated for the next Presidency. The following is the resolution referred to :-

Resolved, That Major General WINFIELD SCOTT, is in the opinion of this Convention, the individual most likely to unite the whole body of the People. That we regard him as the pride and hope of his country-the submissive citizen -the accomplished, brave, and generous soldier -the pure and incorraptible patriot-the enlightened statesman, and the friend of man, and should rejuice in his elevation to that distinguished sta-

On this resolution, the "Ulster Sentinel" has the following remarks :-

The Conservatives it will also be seen, have declared their prefetence for General Winfield Scott as the next President of the United States, and have expressed their opinion that he is the very man who, at this crisis, will call out the suffrages of the People, and upon him all classes of the opponents of the Administration can couristently unite to a greater extent than upon any other individual. They have not nominated him, as has been said in a certain quarter; but they have simply seconded the inevenent at the West, on the part of both BA Whige and Conservatives, in placing his came distinctly before the country, in common with the other eminent men who have been mentioned as candidates for the Presidency, and whase ments will probably be discussed at the National Convention.

Ulster was the first county after New York city and county, which went for General Jackson in days since. The merderer was arrested. Several 1827-8, giving the begs of New Orleans, a majority of 2000 over the corrupt office holders of that day-and Ulster Will, if it have a fair chance, in November 1840, give a like, nay, a greater majority for GEN. SCOTT, over-the-tea-timesmore-corrupt office holders of the present day. In 1827-28 we could only complain of petty defalcations and robberies, such a few thousand dollars here and there; now we have millions on millions ron away with by collectors, district attorneys, and land agenta. Is it not time, therefore, to have a change ! Is it not time to bring furth such a patriot, attesman and soldier as General SCOTT! If the republican people of his city do not openly come out at once for Gen. Scott, there is not the elightest chance to root Mr Van Baren and the robbers of the public treasueury. Let the committees and conventions about meeting in every ward, at Broadway House, or at Masonic Hall, openly bring forward General Scott, and they will carry the next election against the "Thieve's party" without any difficulty. If they do not-if those blockheads who call themselves "whigs," which is no name at all, will not come out, we shall oppose them tooth and nail, and go for the locofocas: To-day Governor Seward is to be up for show. We call upon him to say whether he is for General Scott or not? He man not dodge this question any longer, for open his mouth he must, if it were as tight as that of Balsam's ass The great body of independent men and thorough bred republicans throughout the land, are going headling with one accord and acclamation, for the held of Niagura; and if any semain behind, they will left high and dry, a monument of fully and tollenness .- Herald.

IP Hyatt on reading our leader on Saturday, was so struck with the trath of the remarks contained therein, that he went immediately home and took a dose of Resuffection pills, and made oath that he would never tell another political lie without it.

This day the fair commences, and may be considered an epoch in the annals of mechanicism in Western New York. It is expected that the display of the useful and ornamental will far exceed any thing of the kind ever before attempted. We promise ourself a rich treat indeed, in visiting the Fair.

We had the pleasure of seeing our friend Dawson on Saturday last, who informs us, the candidates for the Presidency, in Michigan.

UF Lether Durham Sirorthorn was nominated by the Convention of Saturday for Assembly among the rest. We suppose the gift of this office, will be a makewright, in the payment for political prostitution.

When a man stops his paper, we hate to hear him "beat around the bush" by giving a half dozen excuses for so doing. We would rather hear him say he don't want it at once, than to have him tell that which, we know to be lies.

A young scalper named Bracket, only twent, years of age, has just finished at Concennati, a statute large as life, of Nydia, the Blind Girl, in Bolwer's Last Days of Pompeii.

The New Orleans papers announce the explosion of the horier of the steamboat Adventure, as Van Buren, Arkansas, by which one men was killed. Ex Sheriff Parking again - The New York Express says; " Mr. Parkins seems doomed to trouble. Yesterday, in the Marine Court, a equabble took palace, in which Mr. P. was a prominent actor. He had a suit, it seems, in the court, in which he was defendant. During its progress, two Sheriff's officers who had a Recorder's warrant against him, entered the Court, and led, attempted to make his prisoner: Parkin's floorred the officer, and this led to a general fight; but order was at length restored, when he was taken to the police office. There one of the officers swore an assault and battery against bim, for which he was held to bail in the sum of \$200. 66 Mr. P. gave the required security, and was dis. charged."

A VAST ESTATE AND WONDEROUS STORY .- The Cincinnati Gazette supplies as with a condensed statement of particulars connected with a law suit which is to be tried at New Orleans during the ensuing winter: in which Major General Gaines, who has recently married a second wife. lays claim, in her right, to an estate now estimated to be worth twelve millions of dollars !

Mrs. Gaines claimes as Mr. Clark's daughter. Her story is a romantic one,

In 1802 or 1803, Mr. Clark married in New Orleans a lady, separated from her husband, The separation had taken place in consequence of proofe that he had a previous living wife-but befor a these proofs were effectively obtained. New York, 20th March, 1839. Dean Sm-It is with things of unbounded gratitude. I take this opplicantly of returning you my sincere thanks for a trailed you have aftered me, by using your a clicine. Acting in accordance to that last remedy. I took presage for this city; after my arrival I placed myself under the care of an old and eminent practitioner, who attended me continually for three months to no effect.-Perceiving, in the journals of the day, numerous proofs of the many successive cures which had been effected under your treatment. I called upon you without even the Peans of getting the medicine; but you cheerfullt gave it to me, and I am now sound, hearty and cure. I therefore, learlessly come forward, and tale that your medicine and treatment, (if stric ly tollowed,) is the only true and secure remedy or eradicating veueral and mercurial taints from the system that exists to the present day; and should you think proper to make there lines peaks, you are at lib. erry to do so; and any person wishing to see me

TEW DAVID'S OR HEBREW PLASTER The particulars of this Chemical Comon the adical fibre or nerves, ligaments and muscles, its virtues being carried by them to the immediate seat of disease or of pain and weak

However good any internal remedy may be, this, as all external application, will prove a powerful dexiliary, in removing the disease and faciliating the care in cases of Local Inflamma, tion. Schafulnes affections, King's Evil, Gout, Inflammatory, and Chronick Rheumatism, and in all cases where scated pain or weakness exist.

A gentleman travelling in the south of Europe and Palestone, in 4831, heard so much said in the latter blace, in praise of Jew David's Plas ter, and of the (as he considered) miraculous cures it had perfermed, that he was induced to try it on his own person, for a Lung and Liver affection, the removal of which had been the chief of his journey, but which had resisted the genial influence of that balmy and delicious cli-

He accordingly applied a plaster on the right side of the thest, where the pain was sested, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb-ten of laxative qualities. He soon found his health improving, and in few weeks his cough left him, the sallowness of his skin disappaared, his pain was removed, and his health became permanently remstated.

Since that time he has been recommending it

to his friends and acquintances, for all fixed pains whatever ; hach as rheumatism, gout, head ache, nervous tee h ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual cure. He has likewise witnessed the happy fifects of its softening and healing quantities in numberless cases of scroffulous humore, knots, wens, white swelling, hard tumurs, stiff joints, ague cakes, ague in the breast, and the like, to the united satisfaction of himself and

It has like wise been very beneficial in cases of weakness, Joch as weakness and pain in the stomack, weik limbs, lameness, affections of the spine, female weakness de. No female subject to pain or weakness in, the back or side, should be without it. Married Ladies, in delicate situations, find great relief from constantly wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughe, whihisic and long affections, in their primary stages. It destroys inflammation by producing a copious perspiration. No physicians should be without it. This plaster answers a far better parpose for dressing wounds, bruises and sores, then any plaster, salve or ointment now in use/

In view of the great benefits resulting from the are of this planter within his own observa-tion, his confidence in its infinite superiority over every other plaster, salve ointment or opodeldoc hefore the public, in this country, has induced this gentlemen to place the Hebrew Plaster in hand of those who will give it publicity; believcommunity at large.

No puffing to great spread of certificates is in-

tended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 of 8 plasters, for 50 cents; a sum not half sufficient to pay for the insertion of a single certificate into any of our most common prints, a single time. This trifling price per box, is placed upon it, in order that it may be within the meters of ansays efficient our statement. within the messes of every affected son or daugh-ter of the community; that all, whether rich or poor, may obtain the treasure of health, which results from its use.

HOW ARE THE MIGHTY FALLEN.

" We build the sepulchres fof our fathers, and " incorporate those who have imitated them."-Rev. Orville Divey.

When the American Colonies were in a state of rebellion against the crown of England, Benjamin Franklin was sent to France to obtain aid for the Colonies. He was cordially received by that gallant and chivalrous people. France was at that time at peace with England, yet in the holy capse of Freedom the hearts and hands of Frenchmen were opened wide, and with their as. sustance and the exertings of Franklin, the heroic John Pon Jones was farnished with vessels and munitions of war, with which he greatly harrassed British Commerce, and performed those naval actions, that encircle our naval history with a halo of glory. Yet Franklin was not imprisoned under any "neutrality laws" of France. His name is now venerated not less for efforts in the cause of Liberty, than for his achievements in the field of literature and science. In the language of the eloquent Dewey " we build his sepalchre" and enerate his memory. Under precisely the same eircumstances, W. L. McKenzie came to the United States to obtain aid for the enslaved Ca. nadians. That aid was accorded by an enthusinatic and generous People ; but alas! the Frd. eral Government, actuated by a base subservieucy to England, and a hatred of all that is malde and generous, has pursued McKenzie with the vigilance of a blood-hound, and he is "incarrers ted" in a dangeon, for " imitating our fathers." And who has been chiefly instrumental in goading the administration into its anti-republican and impatriotic course on Canadian affires? Who has forgotten the course of the Rochester Daily Advertiser in the winter of 1837-8, when by Mrs. Darrow. the Canadians made their ineffectual struggle for freedom ! It sneered at the awful sufferings of the homeless and houseless women and children of Canada-opposed all aid to Canadians-took sides with the Canada tories-and was in fact the organ of the tary-Canadian party in Rochester. Luther Tucker was then editor and proprietor of the Daily Advertiser. Great numbers of Tacker's political friends then freely admitted John Rose, Esq. that he was at heart a cold blooded Tony, and avowed a full determination ever after to oppose him. And yet, the faction of tory office holders in Rochester has dared to present the name of this same Tucker as a candidate for the State Legislature, and they ask Democrats, Freemen. such a man as Luther Tucker for a legislator. It is a marvel to as that a county convention claim n candidate. The election of Tucker is impossible, but his bare nomination is a disgrace to his party, that years will not wipe off. Every vote given for him is an endorsement of toryism, and a blow at Liberty betself. We hope that the Republicans of Rochester will take a course that will free them from the odium of having supported for the Legislature, a sworn enemy to Republican Institutions in America, and an apologist for monarchical tyranny on this continent.

LOSS OF THE SCHOONER NEW YORK

We have mentioned the loss of the schr. New York, on Lake Ontario, during a severe gale on the 15th inst. The following particulars of the melanchely event we copy from the Kingston Chronicle. They are contained in a letter from

To-day has been exhibited in this place an awful scene; during the severe gale of yesterday a vessel was discovered some eight or ten miles from shore, apparently in an angovernable situation. At about 12 o'clock she neared the land so as to be distinctly seen, when it was discovered to vote for him! The " mighty are fallen" in- she was lying on her beam ends, driven forward deed, if the high spirited and patriotic democracy by a mighty sea toward the shore. On crossing of Monroe County can be induced to vote for the bar at the entrance of the bay, whither she was approaching, she struck and went to pieces. Two men were then discoverd clinging to a piece ing to be Democratic, could be induced to nom, of the deck-one was seen washed off, the other mate not merely a federalist but a rank tory, as | continued to hold on till he came to near as to be heard calling for assistance, and beckoned with his hand for the people on shore to come off .-Attempts were made to launch a small boat into the boiling sorf, but all efforts were unavailing; the sea ran so high it was utterly impossible. He was cheered and encouraged from the shore for some time. At length, weary and exhausted, he was washed from the piece to which he held, and sank to rise no more.

"Hunter's Red Drop," after a long aid protracted suffering of twelve months, in the West Indies, under the care of five eminent and he famed physicians, all of which were of the Colleges of London and Edinburgh, could not so me any service; but after several courses of spectrial treatment, and the effects of the long confinement to bed in a tropical climate, second and the proposed to to that last remedy. It's passage for this city; after my arrival I placed myself under the care of an old and eminent proteiner, who attended me continually for three rounths to no effect .-Perceiving, in the journess of the day, numerous proofs of the many successful cures which had been effected under you treatment. I called upon you without even the means of getting the medicine; but you cheerfully gave it to me, and I am now sound, hearty but active. ORRISONS PILLS.—The celebrated Hygeian Universal Medicines of the Eritish Colege of Health, London-for sale by the subscriber, No. 13, St. Paul street, Rochester. Agent for the only Gennine Morrison Pills, sold WM. H. BURTIS. in this city

TEW DAVID'S OR HEBREW PLASTER The particulars of this Chemical Compound are owing to its extraordinary effects, upon the animal fibre or nerves, ligaments and muscles, its virtues being carried by them to the immediate seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful anxiliary, in removing the discuss and faciliating the core in cases of Lucal Inflamma. tion. Scroffulous affections, King's Evil, Gout, Inflammatory, and Chronick Rheumatosm, and in all cases where seated pain or weakness exist.

A gentleman travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plas ter, and of the (as he considered) miraculius cores it had perfermed, that he was induced to try it on his own person, for a Lung and Liver affection, the removal of which had been the chief of his journey, but which had resisted the genial influence of that balmy and delicious cli-

He accordingly applied a pleaser on the right side of the chest where the pain was seated. another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb tea of laxative qualities. He soon found his health improving, and in lew weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his be Ith became permanently remstated.

Since that time he has been recommending it to his friends and acquintances, for all fixed pains whatever; such as theumatism, gout, head ache, nervous teeth sche, pain in the side, hips back and limbs, in every case of which, it has proved an effectual cure. He has likewise witnessed the happy effect of its softening and healing quantities in numberless cases of scroffalous huknots, wens, White swelling, hard tumprs stiff points, ague cakes, ague in the breast, and the like, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, lameness, aff ctions of the spine, female weakness dec. No female subject to pain or weakness in the back or side, should be without it. Married Ladies, in deliwearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, whihisic and long affectious, in their primery stages. It destroys inflummation by producing a coppies per-piration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, bruises and sores, than any plaster, salve or ointment

In view of the great benefits resulting from the are of this plaster within his own observa tion, his confidence in its infinite superiority over every other plaster, salve ointment or apodeldoc before the public, in this country, has induced this gentleman to place the Hebrew Plaster in hand of those who will give it publicity; believing it will prove itself to a rich blessing to the community at large.

No puffing or great spread of certificates is intended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum not half sufficient to pay for the in-action of a single certificate into any of our most common prints a single time. This trifling price per box, is placed upon it, in order that it may be within the means of every affected son or daugh ter of the community; that all, whether rich or results from its use.

Prompt attention will be paid to orders addressed to Messrs. C. COMSTUCK, & Co., Rochester.

Frice per single box 50 cents. DIRECTIONS. -Spread the plaster on a soft piece of white leather, very thin-and once in 4 or 5 days respread it by adding a little more Plaster. Apply it to any part that may be affect ed with any of the above diseases. For sale at the Office of E. Chase & Co.

Where the hair is observed to be growing thin, nothing can be more prosperous than the use of oils, grease, or any fatty matter. Their application can only be recommended through the gross est ignorance, as they hasten the fall of the bair, by increasing the relaxation of the skin. When there is a harsh, dry, or contracted akin, and where the small blood vessels which carry nourishment to the bulb are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. GENERAL Dorr Green.

ton Telegraph, is referred to for the truth of the following:

General Green a few days since asserted in a public place, that he had used Hay's Liniment for the Piles, and that the effect was very astorishing, and that he felt it his duty to make known as far as in his power, to his suffering fellow men that such an extraordinary article was in existence. He said be would cheerfully lend his name, and aid in extending its usefulness. This is but one of which we may safely say hundreds who have given like testimony.

"MORE STATISTICS."

Henry O'Reilly is cramming hts "statistics" down the throats of the public again. We oh, served a table at the Fair flourished off with cuts from "The History of Rochester, by Henry O'Reilly" setting forth that the said table was made from the first house built in Rochester. Thus it will be, when "the shadows of the night that knows no morrow" has settled upon " our noble self" Then will some astiquarian obtain possession of our "dome of thought" and perhaps present it to some great Roscious, who will bring down three rounds of applause from the boxes, and cause the pit to rise, when he says, " Alas! poor Yorick," with our " brain case" in his hand Then the press will teem with paffs of the Actor, and our Caput. Thus " This evening Mr. Snooks wil make his first appearance on our boards, "since his return, from his tour in the Chinese Empire, in the character of Hamlet, and we are "happy to state that Mr. Snooks has procured the "skull of him who was the Privor of the ROCHES. "TER Sun, who, it will be remembered was the "first to advocate the cause of our much loved "President Gen. Scorr. This circumstance we "are certain will ensure a full attendance." For a rarity that paper would for once contain a truth in its columns, for the moment the curtain dropped upon the mimic scene, the stage, wings, and green room would be crowded by the great men of the day, that they might have the satisfaction of saying that they had laid their fingers upon our head-piece. This would be popularity indeed, and the mere idea of it will cause Henry O'-Cockrobbin to die of sheer envy.

We have repeatedly hinted, to the Trustees, Deacons or Elders of the Bethel Chappel, that noise made by the blinds in the cupalo of their place of worship is a source of great annoynace to the whole neighborhood in which it is located. But as the hint would not be taken, we would inform them, that the inhabitants in that vicinity have volunteered to defray the expenses of abating the nuisance, if the heads of the church will permit them.

IF All nervous people will agree with uswhen we say that sawfilers like varnish makers should be obliged to retire beyond the city limits, There is no less than two of these "infernal machines" between the place where v our "grab" and where we forge our thunder bolts. Thus six times per diem, do we undergo the punishment of those in purgatory, for we are told by those who have visited that region that the re. fractory inmates are sat upon a saw filer's bench as a little extra gunishment.

D' We have been asked, why our paper was not to be found on the table at the Young Men's Association Reading Rooms, To prevent a repetition of the same question, we would say, that our paper for several months was left there without charge, and to prevent to being seen. Henry O'Reilly placed it among the files of country papers on a side table, as he dare not thrust it out entirely. On these grounds we declined leaving it there at all.

Our friend the "Infant" was muleted in in the sum of three dollars for military fine yesterday. His excuse about belonging to William's Light Infantry would'nt take.

Our friend Dusn, in the Globe buildings, has just returned from New York and Canada, with all sorts and colors of Dry Goods,

Those who wish to keep their back warm this winter, had better look in upon him.

SUICIDE. On Tuesday morning Mr. Jocob Shaffer, a coach trimmer in the employ of Messrs. Eaton & Gilbert, hung himself in the chamber of his house in Seventh-st. Pecaniary distress is assigned as the cause, he having a large family to support. Counceted with this suicide is a singular coincidence; it occurred in the same room in which Mr. Brower, who was also in the employ of Mesers. Eaton & Gilbert, hung himself a few months ago. Mr. Shaffer was present at the time and assisted in taking him (down-he preserved the rope as a memento of his friend-and it was with this same rape that he bung himself, at once for the presidency; and this will give a Troy Whig.

THE CONVENTION AT SYRACUSE-THE NEXT PRESIDENCY.

The Convention to be held at Syracuse, on the 3d of October, will consist of a large number of those persons who were friendly to the measares and members of the present anninistration, but who have recently kept their support from the general government, or thrown it into the opposite scale. The business before this convention will be to deliberate upon all those great leading questions that will have a bearing upon the next presidency, and to adopt such measures as may secure to them a popular candidate for the next term; and the probability is, that the principal topic before the convention, will be the expediency of taking up General Scorr at once for the presidential candidate, and of dropping every other person. If they do this they will give a new tone and complexion to the prospects of the whig party, and render their success oure; if not, they will be routed at the next election, horse, foot, and dragoons.

In this city, Ulster, Oneida, and several other counties, the great body of the intelligent whigh are in favor of General Scorr for president, and so are a great number of professedly administration men. It is now about twenty six years since General Scott, after beating back the enemies of his country on the Ningara frontier, was carried through the northern and western part of this State, covered with wounds, and attended by a young officer ha aid de-camp. At that time he excited the popular feeling intensely in his favr, and though it has slumbered, it never died. There were then no roads there, but almost impassable woods. Within the last two years, at the end of a quarter of a century, this same gen eral officer, and this same aid-de-camp, Colone, Worth, have by a singular dispensation of Prov. idence, passed through the same tract of country, exciting the popular feeling ten times more than ever; the consequence is, that his wounds have broken out in a new form in every part of the State. And if the convention understands what they are about, they will nominate General Scott new and wholesome character to the whole pro-

TEW DAVID'S OR HEBREW PLASTE.R. The particulars of this Chemical Com and are owing to its extraordinary effects, upon the animal fibre or nerves, liguments and muscles, its virtues being carried by them to the immediate seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful auxiliary, in removing the disease and faciliating the cure in cases of Local Inflamma, tion. Scroffulous affections, King's Evil, Gout, Inflammatory, and Chronick Rheumatism, and in all cases where seated pain or weakness exist.

A gentleman travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plas ter, and of the (as he considered) miraculous cares it had perfermed, that he was induced to try it on his own person, for a Lung and Liver affection, the removal of which had been the chief of his journey, but which had resisted the genial influence of that balmy and delicious cli-

He accordingly applied a pluster on the right side of the chest, where the pain was seated, another between the shoulders, and one ever the region of the liver. In the meantime, he drank freely of an herb tea of laxative qualities. He soon found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his health became permanently remstated.

Since that time he has been recommending it

to his friends and acquintances, for all fixed pains whatever ; such as rheumatism, goat, head ache, nervous teeth ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual cure. He has likewise witnessed the happy effects of its softening and healing quantities in numberless cases of scroffalous hustiff joints, ague cakes, ague in the breust, and the like, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs. lameness, affections of the spine, female weakness 4.c. No female sub-ject to pain or weakness in, the back or side, should be without it. Married Ladies, in delicate situations, find great reltef from constantly wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, uhthisic and long affections, in their primery stages. It destroys inflammation by producing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, bruises and sores, than any plaster, salve or ointment now in use.

In view of the great benefits resulting from the are of this plaster within his own observa tion, his confidence in its infinite superiority over every other plaster, salve ointment or opodeldoc hefore the public, in this country, has induced this gentleman to place the Hebrew Plaster in band of those who will give it publicity; believcommunity at large.

No puffing or great spread of certificates is intended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum not half sufficient to pay for the insertion of a single certificate into any of our most common prints, a single time. Thus trifling price per box, is placed upon it, in order that it may be within the means of every affected son or daughter of the community; that all, whether rich or poor, may obtain the treasure of health, which results from its use.

Prompt attention will be paid to orders ad-dressed to Mesers. C. COMSTOCK, & Co., Roshester.

Frice per single box 50 cents.

DIRECTIONS.—Spread the plaster on a soft piece of white leather, very thin-and once in 4 or 5 days re-spread it by adding a little more Plaster. Apply it to any part that may be affect ed with any of the above diseases.

TIEETHING INFANTS .- Soothing Syrep-A substitute for the Lancet in painful dentition. By the use of the Lancet, the gums are not only rendered callous but the teeth are not unfrequently turned out of their true position, and made to ride over each other.

This syrup is calculated to obviate the necessity of the Lancet, by relaxing the tense membane which envelopes the tooth, thereby facilitation the passage through the gams; and by its soothing properties diminishing the irritability and consequently preventing the distressing and frequently fatal symptoms attendent on dentition.

nothing can be more prosperous than the use of oils, grease, or any fatty matter. Their application can only be recommended through the gross est ignorance, as they hasten the fall of the hair, by increasing the relaxation of the skin. When there is a barsh, dry, or contracted skin, and where the small blood vessels which carry nourishment to the bulb are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimulus to rouse the vessels from their torpor, and quicken the current of the blood .- Extract from Clirehugh's Treaties on the Hair.

PERMANENTLY CURED ID ALL CASES, GENESEE VEGET BLE

REMEDIES

These Medicines are faithfully perpared from the receipt of a distinguished practitioner of Medicines, by whom they were first invented, and used in the Hospitals of New York, in nearly all the cases of Fever and Auga that occurred during the years of 1812, 13, 14, and 1815, and

afterwards introduced into the Greece country, and used in his private practice, with a success unparralled in the history of Mr licine.

The Genese Remedies, which are prepared without Quinine or any preparation of Bark's.—
Consist of two kinds of Pills—ote of which operates by the country. erates by thoroughly cleansing the system from all the stale and acid Bile, which is the very seed of the disease. And the other by giving strength and vigor to the same, invariably restores the patient to perfect health in a very short time, and generally by the use of a single ackage, if the directions are adhered to.

As a precentative of Fever at Ague and all Billions Fevers, so prevelent at 'se West, they deserve a decided and distinct re ommendation: Were they used at short interval during the sickly season, they would be for it in every instance to keep of those distressis; disorders, to which the people every summer free the unfor-tunate victims. And which have not generally found a remedy in the too common use of Col-uine and Tonic Miztures; but in Easy cases ag

gravated and made worse.

Having the fullest confidence in the Medicine, they were in the beginning, in ed and have always been sold under a positif exervantee, to refund the money in all cases of fe ture. Within

refund the money in all cases of freque. Within the last year they have been used in many hundred cases, and out of the whole: there but one case has yet been made known, dere a permanent care has not been effected.

The proprietor has the utmost confidence that they will be found equally sure in the West—as they have already been used to some extent with the most happy results, as will be seen by referring to a few Certificates on a kinside directions. For sale by the Proprietor J. M. Wk (SLOW.

THE CHARTISTS.

We are not by any means cortain that out of our own country, there is at present a more interesting question for us to consider than this-"What is to be the end of the Charlist movements in England ! It is connected, and not very remotely, with all the other questions on which we speculate, in relation to the demestic affairs of Britain. For instance-suppose the Chartist agitations continue to increase even to the burning of cotton mills and the destruction of machinery, or even to a pro ty general susper s'on of labor in the cotton mit's-how are our planters to get ten peace sterling a pound for their five handred thousand bales of cotton ! Or suppose there should be a desultary civil war, preceded by runs on the banks, a great increase of taxes, a Lacrious interruption to agricultural pursuits, and spension of specie payments by the Bank of d-how will all this effect us in our com-

Suppose the Chartist commotions should ripen to insurrection, and finally to revolution, and timid capitalists in England-soblemen, and great land owners, and overgrown bankersshould bethink them to rather thereffects and flee across the Atlante for safety; or on the other hand, suppose the strong arm of Goverament should prove too enighty for the "white slaves," as their stimulators call them, and thousands of the "white slaves," ignorant, reckless and excited as they are, should find their way to our shores; what would be the effect upon us of one or the other alternatives f

These are questions-and there are more of the like nature-which we may as well put to ourselves in season; for although such extreme consequences as we have hinted at are not, perhaps, very probable, they are still postible, and in the event of their occurrence, we shall be mone the worse for having looked at them and thought of them beforehand.-Man did not foresee the French revolution, yet it came; and a terrible breaking up of the foundation of society in England is not without the range of things that may be.

For our own part, we confest that, although we have watched the commotions in England with close attention-predicted flore, our readers may remember, months before they began outtract notice either there or here-vet well have not been able to arrive at any definite conclusion is. As we said meanly a year ago, much will depend on the condition of the harvest; if that shall prove abundant, or even sufficient, the storm which now seems hasging over England will probably pass away, for a season, at least; but if there should be a scareity-if the discontent of the million, already so threatening, should be heightened by another winter of privation and distress-which heaven in its mercy forbid-we fear that England will become a scene of events on which the world will look with grief and the most painful anxiety.

In the meantime it is well for us, as we have already said, to be looking into the matter, and gathering up such information as may come within our reach. To which end we place before our readers to-day an assiole from the London Spectator, that seems to us deserving of attention .- N. Y. Com. Adv.

IF There seems to be the very devil to pay among the married folks in New York. Guess they find matrimony " is not what is cracked up to." First Mr. and Mrs. Barry kicked up a row now Mrs. Shaw the presiding genius of the Bowery Theatre, whose beautiful face, exquisite form, finely moulded bust, tuxue us ringlets, dazzling eyes, and bewitching emiles are so well known, bas been to the Chancelfor, to make her husband keep his hands off her herson. Some time since a pretty girl came from Canada, and called on Mr. Thompson, the poor master, and informed him that she was likely to become a mother, without being a wife. Mr. Thompson was shocked, as any man would be. at such immorality and proceeded to enquire who might have the honor of being the author of this naughty piece of business. She told him the person whom she had " loved not too wisely but too well" was a certain gay cabinet maker at B. tavia, by the name of ----, we won't tell his name, framed for steeling women's hearts. Upon this information a document was given officer Bowen, who brought the lady killer in town. He gave ball for his appearance at court, and was discharged.

IT We hear that the Rev. Culprit Fay, is to be reinstated. Let a man commit a murder or two, rob a whole community of their savings of years of toil, the widow and the fatherless of bread, or seduce those who have been put under his charge for protection and he immediately becomes the lion of the day.

ALARMING RAVAGES OF YELLOW FEFER AT New Onceass -It is with deep regret, not on. mingled with feelings of indignation at the obstinate and perverse opposition to quarantine laws in the South, that we have to record as one of the consequences of this fatal and suicidal policy, that the tropical pestilence of yellow fever has now made such progress in New Orleans that it has necome epidemic, and is mowing down its victims in every direction. Poor Hyatt is in " awful fix." Luther Durham Shorthorn, Henry O'Cockrobbin, and the Devil are all tagging at h m. It is not so bad however as it might be, as Shorthorn, Cockrobbin, and the Devil all pull one way. The amount of the business is this Luther Durham Shor horn, owns Hyatt heart and pluck, O'Cockrobbin owns Luther Durham Shorthorn, head and heels, and the Devil owns all three, body and soul. Now if a man placed in Hyatt's situation is not to be pitied, we are no judge of he matter. But Hyatt and Shorthorn are now in the seventh heaven, to what they will be when the Devil picks them up on the end of his fork, and sets forth homeward bound, upon the little end of a streak of lightning with its wheel greased, and carrying at the same time, the soul of O'Cockrobb n under his eyelid, un-Les the Devil thinks it good policy to suffer him to remain on earth to carry out some damnable project, his fertile brain has engendered. They will then get their reward for serving their master so faithfuly. Hyatt w I get a retty warm berth for suffering himself to be led into rasculity. Shorthorn will be placed in a medium heat between Hyatt and O'Cockrobbin, for leading Hyatt astray from the paths of vi tue and recitude, as he has not calibre to do so without a great deal of training. O'Cockrobbin, will find himself located in a quarter section, seven times hotter than a heated oven, as his deserts, for making tools of Hyart and Shorthorn, here will be an end to them, for they never can keep quiet untill his Satume Majesty carts them off, to keep them out of harms way. We hope our readers will take warning by by Culvin Fulton. their fate, and like us lead a moral and virtuous life.

When we hear O'Reilly dole out his "Statistics" our feelings, reminds as of Quin, the player, who was one day taking his soup at a coffee house in Bath, two gentlemen came in and blockaded the fireplace one of whom appeared to be a walking comp und of wig, lace, ruffies, rose water, and the Bath Directory. The room was rather full, and for this reason, the latter person commenced a detail of his fashionable connections and advantages. Quin immed ately desisted from eating, looked up and made ve y wry faces. The sprig of jesamine was pleased, however, with the notice he excited. and continued in an effectinate tone sufficiently audible to disturb and disgust a l around him, whose expressions he construed as the tokens of wonder and envy. Qu'n could contain himse f no longer, and rang the bell furiously, " Wait r," said he, bring me a bason,"-" A bason, sir !"- " A bas n , I am going to be sick." Away flew the waiter; and Quin stepped up to the o noxious person; begged he would de'ay his couversation a few minutes. The object stared as if thunder struck, but was stient. The eyes of the company were now directed to Quin, in supprise, the waiter retu ue 1; Quin took the bason and placed it near his soup the then unbut oned his cost, loosened his cravat, and then leaning his head over the utensils exclaimed, " Now sir, proceed when you like t I'm ready !"

ICP Some of those, who always turn ever a sixpence before they spend it, made quite a speculation in buying season ticke for the Fars, and then letting them out to their neighbors, at a shilling a head. This eystem of speculation would have been a repting out his only shirt.

TEW DAVID'S OR HEBREW PLASTER The particulars of this Chemical Comon the animal fibre or nerves, ligaments and muscles, its virtues being earried by them to the immediate seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful anxiliary, in removing the disease and faciliating the cure in cases of Local Inflamons, tion. Scroff clous affections, King's Evil, Gout, Infirminatory, and Caronick Kheamatism, and in all cases where seated pain or wearness exist.

A gentleman travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plaster, and of the (as he considered) miracelous cares it had perfermed, that he was induced to try it on his own person, for a Lung and Lover affection, the removal of which had been the chief of hes paraey, but which had resided the genial influence of that bulgy and delicious cli-

He accordingly applied a plaster on the right side of the chest, where the pain was sented, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb tea of laxative qualities. He soon found his health improving, and in few weeks his cough left him, the satiowness of his skin disappeared, his pain was removed, and his boolth become permanently remstated.

Since that time he has been recommending it to his friends and acquintances, for all fixed pains whatever; such as rheuthatism, gout, head sche, nervous teeth ache, pair in the side, hips back and limbs, in every case of which, it has proved an effectual cure. He has likewise witnessed the happy effects of its softening and heating people live that hav goods for Cash! quantities in numberless cases of scroffalors humore, knots, wens, white swelling, hard tumurs, stiff joints, ague cakes, ague in the breast, and the lize, to the united sausfaction of immeelf and

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, ladeness, aff-ctions of the spine, female weakness de. No female subject to pain or weakness; m, the back or side. should be without it. Married Ladies, in delicate situations, find great reltef from constantly wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, chthisic and long affections, in their primery stages. It destroys tuff immation by producing a copious perspiration. No physi-cians should be without it. This plaster answers a farbetter purpose for dressing wounds, bruises and sores, than any plaster, salve or ointment

In view of the great benefits resulting from the are of this plaster within his own observa tion, his confidence in its infinite superiority over every other plaster, salve ointment or opod-ldoc hefore the public, in this country, has induced this gentleman to place the Hebrew Plaster in hand of those who will give it publicity; believing it will prove itself to a rich blessing to the community at large.

No patting or great sprhad of certificates is intended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sofficient to spread 6 or 8 plasters, for 50 cents; a sum not half sufficient to pay for the insertion of a single certificate into any of our most common prints, a single time. This trifling price per box, is placed upon it, in order that it may be within the means of every affected son or daughter of the community; that all, whether rich or poor, may obtain the treasure of health, which results from its use.

Prompt attention will be paid to orders addressed to Mesers. C. COMSTOCK, & Co., Roshester.

THE BUILDING

Where the boir is observed to be growing thin. nothing can be more prosperous than the use of nils, grease, or any fatty matter. Their appliesoun can only be recommended through the gross est ignorance, as they hasten the fall of the bair, by increasing the relaxation of the skin. When here is a harsh, dry, or contracted skin, and where the small blood vessels which carry nourishment to the bulb are obscructed, then the oils, &c., may he good, as they tend to relax the skin ; but alone hey are of nouvail. There must be a stimulus to rouse the vessels from their torpor, and quicken the current of the blood .- Extract from Chirehugh's Treaties on the Hair.

The Bilm of Columnia is the only preparation that can have that effect, being entirely free from acrody substance.

FEVER AND A CUE PERMANENTLY CURED IN ALL CASES

GENESEE VEGET BLE

EMED

These Medicines are faithfull perpared from the receipt of a distinguished practitioner of Medicines, by whom they were carst invented, and used in the Hospitals of Me). York, in nearly all the cases of Fever and Am a that occurred during the years of 1812, 13, 17, and 1815, and afterwards introduced into the Casese country, and used in his private practice, with a success unpartalled in the history of Medicine.

The Genese Remedies, which are prepared without Quinine or any preparation of Bark's. - Consist of two kinds of Pills - on of which operates by thoroughly cleansing the system from all the stale and acid Bile, which is the very seed of the disease. And the other begiving strength and vigor to the same, invariably restores the patient to perfect health in a very short time, and generally by the use of a single package, if the directions are adhered to.

As a precentative of Fever and Agne and all Billious Fevers, so prevelent al the West, they deserve a decided and distinct Commendation. Were they used at short into role during the sickly season, they would be found in every int stance to keep of those distress at disorders, to which the people every sound at are the unfertunate victims. And which have not generally found a remedy in the too courstion use of Quil nine and Tonic Mixtures; but in pasey cases ag gravated and made worse.

Having the fullest confidence in the Medicine. they were in the beginning, webed and have always been sold under a post if a variantee, to refund the money in all cases of failure. Within the last year they have been used in many hundred cases, and out of the whole humber but one

case has yet been made known, where a permanent cure has not been effected.

The proprietor has the name confidence that they will be found equally suc in the West—as they have already been used to be extent with the most happy results, as will be seen by referring to a few Certificates and the inside directions. For sale by the Proprie of J. M. & CNSLOW.

FOR PRESIDENT

GEN. WITTIELD SCOTT

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY. -One Presidential term-No interference in elections by Government officers -A uniform currency of gold and silver; or bank notes at all times redeemable in specie on demand An Independent Treasury under the exclusive control of Congress-Opposition to monopolies, to irrel'inible Shinplasters and to trandulent banking.

The communication below, is the sent ments of the whole community, in regard to the shing as ers. The time has now arrived, when the suposition can be borne no longer, and that some action be taken on the subject:

To the Hiltor of the San :

Six-Allew me through the medium of your columns to direct the attention of your readers and the public, to the enormous burden imposed upon the community in the shape of " irre-inemable shinplasters." Our whole city is at the present time completely flooded with a currency which nobod will take, which nobbdy wants, pothing in the shape of money is to be seen, nothing to be had but the irredemable promises, to pay (some two years hence) of our Common Council. To look or ask for current money is out of the question. As long as they passed freely among ourselves, as long as a p-rson could purchase the common necessaries of life with them, without the payment of an enormous discount, as long as we could pay our debts or obtain commodities with them. the evil though bad enough, was tolerable. but it is so no longer-our brokers now refuse to buy them at any rate and no business man will touch them, un ess a discount of at least seven per gent-our merchants have their drawers fo for them, but they a e with them a dead weight. A note for instance of three or four hundred do lars b comes due, and although a man may have two or three thou and dollars in shin pl sters at his command, they are perfectly useless. The poor man earns his dollar per diem, and recoives a dollar sninplaster, what can he do ? and he can be no shooser, he must take it or nothing, he wishes to provide food &c. for his family, very few will take his money at al', and those that do, deduct some seven or eight cents from his dollar, enough to provide his family with flour or wood through out the day. There avils are not to be borne. and I would suggest the expediency of calling a public meeting on the subject, and there passing a Resolution that we will either take them for everything, or else not take them at all. More acon,

If ever one man was orry for another; we are sorry for Judge Wentworth. There he sits day in & day not, without any business. No house of doubtfu character to examine into, or the Abbess to be tried and fined with host of young ladi s to tes ify for and against het, with all the young fel lows in town to listen to it. No mur ers. No Assault and Balterys. No loafers taken up, going home from parties. No b dy lick ing their wives. No counterfei ers. No stealing. No body getting drenk. No trals for violating the excise law. No crime committed. No seductions. No excitements. No nothing. Unless something turns up, the Judge will die of ennui, for setting in his chair for weeks without a single case, is too much for "buman natur" to bear, and we should'nt be a tonishe; to hear of a coroner's inquest having been held on him, and the verdict " died of having nothing to do." Roc ester is decidedly too moral, and if we were in Judge Wentworth's place, we would shut up shot for stagging there without ousiness, is like the man being paid for turning the grindstone, and nobody coming to grind.

The Hocon R-flector estimates the lo-s of property at about \$12,000, on which there was an insurance of \$5,000. The Reflector pays a high compliment to the Ladies of Norwalk for their most commendable exertions to stay the destroying element that for a time threatened to les waste a considerable portion of the village - Albany daily fesigning their membership and dishanding the Advertiser.

The borough of Johnstown, in this city was nade the scene of one of those dreadful trugedies, last Monday, which have of late become never before enacted in this county

The circumstance of the case, as they came to our knowledge, are as follows: The erv of murder was heard in the house of a man named members of Bucket Company No. 2. We have heard no reasan assigned for this harrib's act, but learn hat Folmer has frequently threatened to kill his wife and then destroy himself." We know nothing of his previous character, but learn that he was about 60 years of age, and the father of arge family.

THE BRITI H QUEEN had two delays yesterday in getting off; one at the dock and he other at the entrance of the bay. The first was caused by an obstruction in one of the valves which prevented the condensation of the steam. The valve was examined and the obstruction found to be an iron bolt which had got there-perhals somebody knows how, but nobody will tell. The engineer is confident that it could not have been the result of ecident; and his opinion to even etened by the fact that on the first trip of the Queen from this port to London, a similar ob struction caused a like detention—the only difference being that the thing inserted in the valve was the neck of a bottle.

The second delay arose from the neglect of some purveyor to send on board the supply of eggs ordered for the voyage-which neglect was not discovered until after the ship had got under way. Of course there was no going to sea with-

TEW DAVID'S OR HEBREW PLASTER The particulars of this Chemical Comon the animal fibre or nerves, ligaments and muscles, its virtues being carried by them to the immediate seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful auxilisty, in removing the disease and faciliating the core in cases of Local Inflamma, tion. Scroffulous affections, King's Evil, Gout, Inflammatory, and Caronick Rheumatism, and in all cases where seated pain or wearness exist.

A gentleman travelling in the south of Europe and Palestone, in 4831, heard so much said in the latter place, in praise of Jew David's Plas ter, and of the (as he considered) miraculous cares it had performed, that he was induced to try it on his own person, for a Long and Liver affection, the removal of which has been the chief of his journey, but which had resisted the g-nitl influence of that balmy and delicious climale.

He accordingly applied a plaster on the right side of the chest, where the pain was seated, another between the shoulders, and one over the region of the livers In the meantime, he drank freely of an herb tea of laxative qualities. He soon found his health improving, and in lew weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his health became permanently remstated.

Since that time he has been recommending it to his friends and acquintances, for all fixed pains whatever; each at rheumatism, gout, head ache, nervous teeth ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual care. He has likewise witnessed the happy effects of its softening and healing quantities in numberless cases of scroffsloss baknots, went, white swelling, hard tumurs, stiff joints, ague cakes, ague in the breast, and the like, to the epited satisfaction of himself and others.

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak lights, lameness, affections of the spine, female w akness dec. No female subject to pain or we kness in the back or side, should be without it. Married Ladies, in delicate situations, fird great reitef from constantly wearing this plast ir.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, withisic and long offections, in their primery stages. It destroys inflammation he producing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, bruises and sores, than any plaster, salve or ointment now in use.

In view of the great benefits resulting from the are of this platter within his own observa tion, his confidence in its infinite superiority over every other plaster, salve ointment or opodeldoc hefore the public, in this country, has induced this gentleman to place the Hebrew Plaster in hand of those who will give it publicity; believing it will prove itself to a rich blessing to the community at large.

No putting or great spread of certificates is in-tended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum not half sufficient to pay for the insertion of a single certificate into any of our most common prints a single time. This trifling price per hox, is placed upon it, in order that it may be within the means of every afficied son or daugh-ter of the community; that all, whether rich or poer, may obtain he treasure of health, which results from its us

Prompt attentic a will be paid to orders addressed to Meser: C. COMSTOCK, & Co., Ro hester.

POR PRESIDEST GEN. WINFIELD & COTT

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY rence in elections by Government Officers -A uniform currency of gold and silver or bank notes at all times redeemable in specie on demand - An Independent Treasury under the exclusive control of Congress Opposition to monopolies, to irlent bankings

D' Some of the Scott men have received the harshest kind of treatment-been denounced as renegades, and called all some of hard names by their old political associates—(the men who work for the offices, and the office holders-the men who are more borne down by the iron voke of bondage, more submissive, and servile to their master than the claves of the south, or the menia subjects of an overbearing despot) for their honearly expressing hemselves disutisfied with Mr. Van Buren's insalting, arogant, and uncalled for coarse in appointing men to office de-titute o any claims, and totally unqualified to fill the same. But we find by examining Mr. Van Buren's for mer political manouvering, supposing him of course to be the pink of Republicanism, the puragon of Democracy, that the Scott men after all ere consistent and right-following exactly in his footsteps-laxuristing in his Democracy, and runticating in his Republicanism.

A writer to which the Daily Advertiser ba had frequent reflerence to convince its readers that Mr. Von Baren's political course has always been consistent Democratic and Republican, speaks as follows of the cause of Mr. Van Buren's forenking Gov. Clinton soon after his first election to the office of Governor.

"In March 1817, De Witt Clinton was nomi nated to the office of Governor of the State of New York, by a Republican Convention, in the place of Daniel D. Tompkins, who had been elected Vice President of the United States,-Mr. Van Buren acquiesced in this nomination .-During the first year of Mr. Clinton's adminis tration, but little occurred to disturb this singular coalition of associate political parties. But in the difficult task of making his appointments Gov. Cliaton gave great offence to the Republi cans who had yielded him their support. This difficulty widened into an open rupture; and a large majority of the republican party, Mr. Van Buren among their number, withdrew their support from Mr. Clinton's public measures and made preparation to oppose his re-election."

Although principles and measures of great importance was the grand cause of that portion of Mr. Van Buren's fdrmer friends, who were old and tried Republicans, withdrawing their support from him; yet if their only reason for doing so was the same that occasioned Mr. Van Boren to withdraw his support from Gov. Clinton, no blande certainly can be attached to them, for they are only following in the lootsteps of the leader of the great Republican Party.

SHINPLASTERS. -- Affairs are rapidly drawing to a crisis in regard to this nuisance. On Saturday an unusual excit ment was manifested by the working clas es, who are compelled to receive them for their labour, or starve. Many refused to take them at all for with them, they were not able to purchase the common necessaries of I fe, and we applaud them for resisting the efforts of the Common Council to cram the worthless trash down their throats. The case of the poor labouring man is a hard one indeed; he. earns perhaps, one dollar per dicm, with which he has to support a large family; he then can ill afford to lose the discount of from 5 to 10 per cent. before he can buy bread, to stop the clamor of his hungry offspring, nor are his prospects growing brighter; but each succeeding day more cloudy, for he has no afternative, he must t ke the vile stuff or resort to criminal reactices to keep body and soul together. Let the Common Council make a loan and redeem their promises to pay, if their credit is good enough, for the people, will bear this vile imposition no longer, but rise in their might and crush this attack upon their rights.

Wonder if Henry O'Reilly thought, Rochester, that it was to become a bankrupt, in so short a time, as to not be able to redeem a tag of the ninety thousand dollars, now in rirealstion.

In the course of the present month, the trial of West us Knapp, will be brought upon the carpet. The charge against Knaip. t is well known, is for stating that West kept a disorderly house, which with Kappi's arrest, raised quite an excitement here rock six months since. As to the statements be. ing true or fa se we know not, but shou d pr sume there was no foundation for the statement made by Knapp or the plaintiff would never suffered it to be brought to an issue. But the we do know that our city. is now infest d b. hordes of black'e s.wilo e proposities for plunder are as great, and schemes are as subtle, as the famous Thurst of India.

We will endeavour o explain the modus operandi chosen by one individual to grind the face of the p or man, by circultting shinplasters. The supe intendent of the new Acqueduct, who has as much bus ness of his hand as he can attend to, places the funds for paying the workmen, into the hands of a gro er, near the cana', who instead of paying the men wi hat ch mo ey as is dra'n from the bank, for that purpose; he pays them in the promises to pay of our Rag Barons, which he buys up at any price, from five to ten per cent discount. This man is a christian too, one that is looked up to as a pattern of morality and virtue.

Hyatt is very zealous in the cause of Luther Tucker, for he sees an office in per bears the raddy glow of health. She was a de-Ticker and O'Reitly; but alas! poor mis. *as frequent and most vernest in prayer, in guided man, you will never get anything which she was fervently engaged when she fell more than a birdseye view of it, for when such hito her present state. a thing comes to pass, as their having an of fice to d'spose of, they will find some others tool to bestow it upon.

The " Infant" begin to ' trow hissef on de extension' again. My fine fellow, you had better take in a reef or so, for your canvass won't draw, with the wind in the présent quarter.

THE BUNDA TELATER. Where the hair is observed to be growing thin.

nothing can be more prosperous than the use of oils, grease, or any fatty matter. Their application can only be recommended through the gross est ignorance, as they hasten the fall of the hair, by increasing the relaxation of the skin. When there is a harsh, dry, or contracted skin, and where the small blood vessels which carry nourishment to the bulb are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimulus to rouse the vessels from their torpor, and quicken the current of the blood.—Extract from Clire-

hugh's Treaties on the Hair.

The Balm of Columnia is the only preparation that can have that effect, being entirely free from any oily substance,

PRINCIPLES OF THE SCOTT REPUBLICAN One Prosi entint term-No interference in elections by Government Officers -A uniform currency of gold and silver; or bank notes at all times redeemable in specie on demitud - An Independent Treasury under the exclusive control of Congress-Opposition to monopolies, to irrefee nuble Shinplasters and to frauduleut banking.

If our authorities happen to come athwart of a lady who appears to have no visible means of support; she is immediate. ly hauled up, and if found guilty of any peccadillo, she is yent to keep company with Gilbert on the Island. But they never think of enquiring into the offairs of the hordes of genteel blackguirds, who throng our city. We can tell what supports them. They subsist on the plutder of the unwary traveler or citizen, or wheever happens to fall into their clutches. We would caution all young men to be upon their guard, for many a young man has been lared to the gaming table. looks on, is tempted to play, and is permitted to win. This seals his fate! All the admonitions he has received against the art of blacklegs are now lost, for he finds by his experience, that instead of invariably losing to the bank, one may win of it in the very first trial. Blated with present success and bright prospects he goes again and is certainly plandered. Young men have started in business with the fairest prospects, and in the most sacred of relations, with the purest reputation and the best of habits, and have soon sent a broken hearted wife to an early grave, consigned their little ones to beggary, and have inculfed themselves in hopeless, inxtricable profligacy, by partieipating in the iniquities of gaming houses, sight of them, and cried out to the ladies in the And to paint the anguish of fathers in beholding the ruin of of their hopes through the profligacy of soos corrupted by a "hell," would far exceed our limited powers.

A gentlemen travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in traise of Jew David's Plas ter, and of the (us he considered) miraculous cares it had perferfied, that he was induced to ter it on his own parson, for a Lung and Liver affection, the removal of which had been the chief of his journey, but which had resisted the genial influence of that balmy and delicious eli-

In the meantime, he drank freely of an herb tes of laxative qualities. He seen found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his health became permonently reinstated.

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY rence in elections by Government Officers -A uniform currency of gold and silver or bank notes at all times redeemable in sury under the exclusive control of Congress-Opposition to monopolies, to irre isemable Shinplasters and to fraudulent banking.

We have concluded not to run for Senator, this fa'l ; but we shall withdraw in favor of some of our good Scott folks, as we times. We shall slake our thirst for office however, by running for alderman of the 4th ward as it is there we intend to pitch our ten'. advise to reconcile himself to a defeat in the ensuing election, for if we listen to the wishes of our friends, our e'ection is sure. The way we wou'd put shinplasters among the things that were would be every bodys business, then such corporation dinners we would give ; no "corn bread and common doing," but "wheat cake and chicken fixens," then to ensure the comfort of the company, we would never permit Cockrobb'n to inflict upon them his " statistics." If " human natur" would ask for more, that he should be obliged to digest a supper of "historical reminiscenses."

IT Junge Breiste dend.

The individual who was drowned on Saturday night, did not fall in the race, in front of H. B. William's mill, as stated by the papers of this city; it occurred in front of the mill owned by the Jame's of New York, which has been open all summer and is nothing more or less than a man trup ; and that is not the only one upon the mee, we could point out a half dozen others that are equally dangerous. It is almost time now that the proper authorities looked into the ma ter, and cheek this wanton sacrifice of human life, for it is every now and then we hear of some one making a speedy exit through these dead falls.

Let them fine every one, who keeps the race uncovered in front of their premises, if they are fineable, if not, it is time the Common Council passed an ordinance to that effect, for this drowning people day after day is not exactly the thing.

There seems to be a fatality hanging over our two great commercial cities, New York and Philadelphia, no less than five conflagrations, two of them of immense magnitude, took place of the 5th of October .-Preperty, probably, to the amount of five millions, and many fives lost. This has happened at the moment of a great commercial pressure, and overwhelms thousands with its rulnous consequences.

Dropping into the Museum a few days since, to look after our friend Eishep, we were somewhat surprised to see the al. terations making there: Several new cases have been added, with many new specimens of conchology, besides divers other new things, as the advertisement say too numerous to mention. We make it a point, at least ence a week to go overand have comfortable chat with neighbour Bishop, and we think that our citizens should follow our example.

Oh Crackey! we have got a new subject-mount him directly.

THE PRESSURE IN WALL STREET .- FOR the past two days there has been a great pressure in Wall street. Crowds have assembled opposite the new Merchant's Bank, to witness the very interesting operations of raising two splendid granite columns to their proper places, at a cost of \$3,000 each, cash or tick, we don't know which. The street extending from the Exchange to the House was filled all day, and many curious remarks were made by those who were stopped short in a shining flight, at 5 minues before 3 o'clock, by the crowd. It appears strange to a person seeing the piles of granite recently time.

pressure in the money market. "Money tight, eh? Can it be possible! The banks are certainly aiding the merchants, aint they !" asked a gentleman of another vesterday. "Yes, aiding them on to bankruptcy as fast as the devil aids the sinner. They think more of ouilding splendid palaces like these," pointing to the several new build--One Presidential term-No interfe- ings, "with costly Corinthian columns and things to match," answered his friend. > After giving an account of a fire in Eldridge street by which two buildings and a number of small tenements were destroyed, "the News" proceeds:

TERRIBLE CONFLAGRATION!!

Asorusa !- While the above fire was in pro grees, the bells and illumination announced a econd in Water street, between Fulton s'reet and Burling stip. It cought in 189, a five story brick store, occapied by S. A. Halsey as a fur and skin store. At two o'clock, this present writ ing, it is spreading with great rapidity. All the engines are at the other fire, and we feer an extensive conflagration. The adjaining stores, on either side, occ pied severally by Gilbert and Jessep as a paint store, and A. II. Center and Son, seem to be fully in firmer. The done of the United States Hotel (late Holt's.) is on fire, b tit will be probably extinguished.

Ten minutes ofter two !- The adjoining build ings mentioned are a hear of ruins. The fire has crossed the street and has consumed the upper story of the sto e occupied by Stephen King and James A. Kissam, as a tin shop. It must go to Burling slip. The hotel is more seriously threat. ened than ever.

TERRIBLE: 3 A. M. Almost the whole square between Fuiton, Water and Pearl erreis and Burling stip is in flances !- In addition to the stores already given-on Water street, S. Dunn & Co., A. H. Lovy, Dewy & Everett, and a hat and cap store -on Burling slip, every store of the square, v Z:

Across Water street, S. Pearce, James A. Kissam, --- Storms, large navigation store and one or two others are also totally consumed!-The whole vicinity is threatened; the cinders fall in thick showers-the firemen are but as a drop in the backet, notwith-tending their tremendous efforts. The night is awfully grand!

Ten minutes after 3 ! It has crossed Front et. towards the water : Four stores are rapidly con suming on that block. The hotel is protected by net blankets. The shipping are hauling out -We must reluctantly go to press; what the full result may be, we shudder to conjecture!

[From the Sunday Morning News.] TREMENDOUS FIRE AND LOSS OF LIFE IN PHILADELPHIA

The city of Philadelphia was on Friday visited with a confligration the most extensive, it is said, that ever occurred there-destroying totally about forty buildings, most of them extensive warehouses, and more or less burning from 12 to 20 others. The total loss is variously estimated. from 350 to 600 thousand dollars-some carry it as high as a million. Some \$250,000 of the loss is said to be insured. Besides this dreadful destruction of property, several lives are known to have been lost, and it is seriously feared others unknown have fallen victims to the destruction,

The fire commenced about 11 on Friday night, in the large provision store of D. W. Prescott, No. 19 South Wharves, between Market and Chesnut streets; and aided by a high N. E wind, spread with appalling rapidity to the neighboring buildings. The firmes continued to spread till ten o'clock the following morning, with such fearful rapidity that but little was saved from the consumed buildings. The num_ her of persons killed and wounded by the falling of walls is not exactly known, but besides the following, it is believed there were other vic-

thrown up, when told that there is a heavy William Moreland, a member of the Goodwill Engine Company killed by the falling in of the walls of Enoch Allen's house. LYNCH LAW APPLIED TO MOCE AUCTIONEERS On Monday a number of stout young men from the upper eastern wards went down to the lower sets of the city on business and for pleasure .-(It their return about the middle of the afternoon, they stopped in at the mock auction store 152 Csatham street, a little above the new Chatham T craire, to chaffer for some bargains, and if they cauld find any worthy of attention, to purchase, the of them soon after bid for a lot of articles. which is due course were knocked off to him at so much a piece. When he went to get his bill br settle it, the old game of addition of such inferer articles as could be mustered was played off ugen him, at which he at once demarred, and refraged to pay it. As those in the store were preparing to coerce compliance with their demands. the young man and his companions, who had heard of mock auction tricks before, took a determined stand, resolving to resist the unreasonsble exaction. As the nuctioneers and their minions waxed impodent, the young men waxed bold, sud finding that there was no way of settling the quistion except by a resort to arms, they fell up methe auctioneers and clerks, Peter Funks, and al the snimal machinery of the e-tablishment, and gate them such a benefit of black eyes and bloody nites, as no gentlemen nuctioneer ever had befo e. One of the Peter Funks, however, contrived to escape, and making his way to the police office called upon officer Davis, almost out of breath, arring "the devil is to pay in our establishment want see to o me instantly and put a stop to The officer, however, professedly or really, having other business at the moment, did not immediately go- and when he arrived the flog ging was completed, and the inuntes of the aucis a room were most elegantly need up. The young men then left the store unharmed, and af. et giving three cheers for their victory over the vac byres of the auction store, marched in a body op Claucham and Division streets, and returned 15 heir several homes unsenthed -N. Beroffulous affections, King's Evil, Gout, Inflammatory, and Caronick Rhenmatism, and in all cases where sexted pain or weakness exist.

A gentleman travelling in the south of Europe and Palestine, in 4881, heard so much said in the latter place, in praise of Jew David's Plas ter, and of the (as he considered) miraculous cores it had perfermed, that he was induced to try it on his own person, for a Long and Liver affection, the removal of which had been the chief of his journey, but which had resisted the genial influence of that balmy and delicious chi-

In the meantime, he drank freely of an herb ten of laxative qualities. He soon found his health improving, and in lew weeks his cough left him, the sallowness of his skin disappeared, his painwas removed, and his be-lib became perfusionally remotated.

DAILY SUN

A. OAKLEY, EDITOR.

FRIDAY OCTOBER 11.

FOR PRESIDENT GEN. WINFIELD SCOTT

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY One Presidential term-No interference in elections by Government Officers -A uniform currency of gold and silver; or bank notes at ull times redeemable in specie on demand - An Independent Trea. sury under the exclusive control of Congress-Opposition to monopolies, to irredeemable Shinplasters and to fraudulent banking.

Friend Isaac, the Republican Scott men would deem it a p'easure to come up to the polls and deposit their votes for you for Senator of the 8th District, if you would publicly renounce Van Burenism and come out for Scorr. We cannot see any thing that need prevent your doing so. The Independent Treasury plan as proposed by the Scott men is more democratic and far prefer able to the one submitted to Congress by Silas Wrigh', and you professing to be a full blooded Democrat, ought to strike for the lowest current, the under current if necessary.

The Scott men are also opposed to a United States Bank, and so are you, in th s we all agree, both the upper and lower crust. The Scott men are in favour of one Presidential term, and so are you, only you are waiting for your master o say when it is time to come out on that point; and we ind pendent Re ubleans a cour own masters, and act when and where we pleas .

The Scott men are in favour of a uniform currency of gold and silver; or Bank notes at all times redeemable in specie on de nand. and so are you.

The S ott men are opposed to monopolies, and to are you in profession, but you are in favour of the Sub-Treasury scheme of the government, which we consider to be the worst kind of monopoly-more dangerous to the perpetuity of our Repub ican Institutions than all the rest put together-pl cing as it will in the hand of the Executive, in add tion to the sword, the contr l of the pubhe money. I would not go that any longer friend Isaac; for we believe in the language of the G obe, that "it is revolution ry and disorganizing, and would render the public treasury liable to be plundered by a hundred hands, where it is not now within reach of one."

Folks are sympathising with the corporation, and want to know why we abuse them. The whole upshot of the business is this; we have no one else to abuse, just at this moment; Cockrobb n and Luther Durham Shorthorn we find to be rather too small potatoes for our cooking; Wetumpka has left town; the millers we have laid upon the shelf untill the right time comes; the blinds have been stopped; Fenton we'll fix out presently; and the rest of our subjects have either sloped, or bought their peace, by subscribing for the paper. It therefore must be obvious to our readers, that our corporation is the only fit subject to be abused at present, for to make our appearance without a fling at some body, ours would be like the other two Dailies; "stale, flat and unprofitable,"

The beauty of abusing a body of men, is they never find fault ; each flatters himself that the thrust is meant for every one except himself, and slides along quite contented.

We shall be in a great stew next week, the jours are going to strike for wages, and the employers are going to strike their colors, before they give it. The overseer of the poor, is about to add a wing to the county poor house, as he anticipates accommodating both emp'overs and jours before spring.

INTERE-TING TRIAL -The Boston Atlas of vesterday tells us of one of the most interesting but awful cases in the second of crime, which was tried before the Supreme Judicial Court, at its recent session in Berkshire. George Norris, was indicted for an infamous assult on a female. or turned of fifteen years, and that female was his own daughter. She herself was of course the principal witness in the case, and the labor of coun-el was directed to the inquiry, whether it was a fabricated charge, combining conspiracy and perjury of the most foul degree, or was a true recital of a wrong most abborrent and detestable. The Adas gives the following partitu-

The child herself was little else than "angel ruised.' The publicity of the accusation had brought her into general notoriety, and villany had ma ked her for his own. Whatever she might have been before this cruel occurrence, she appeared on the witnesses' stand but as a falen spirit. Yet there was a personal beauty in her appearance, and an acuteness and self-possession in her replies, that for the moment forbade suspicion; and, indeed, if the story could have been with a fertility of invention hardly possible to belong to a being of her sex and age.

Although more than a year had elapsed between the time of the supposed deed and the time of the trial, the little creature-one of the mallest specimens of a woman-had hardly lost the simplicity of an infant, and while reciting her story, was overwhelmed with the agony of her situation. She had not yet "lost all her original

The inquiry was a most painful one; a man on trial for his life on the accusation of his own child, repeating his story under the solemnity of and oath ;-he defending himself on the ground that this wretched being was guilty of gross per jary, with intent to take his life, and destitute of all that moral principle which he had been at no pains to impress upon her. The thousand incidents that seemed to require explanation on his part; the wonder that such an accusation could be made at all,-could be invented with all these incidents, if false-could be persisted in without motive, and substantially adhered to at all times the startling nature of the discrepances that arose in the ingenuity of cross-examination; the bias now this way, and now that, of a breathiess and crowded auditory; the tear which more than once glisteged in the eye of the yeoman jury, -might have formed a study for the observer of human nature, unequalled in the records of justice.

The jury acquitted the prisoner. Whether the public voice confirmed their verdict is much more doubtful. One thing is certain; the child had better have met her death in the supposed field of her shame-or passed to another world from the presence of the Court.

Four years ago, at the commencement of the war, there were about 1000 Indians to catch or kill-500 have been killed-1500 sent west of t' e Mississippi, and there are now 1200 to catch or kill, which the Horald thinks will not be effecsed this side of the day of judgement. JEW DAVID'S OR HEBREW PLASTER The particulars of this Chemical Compound are owing to its extraordinary effects, upon the animal fibre or nerves, ligaments and muscles, its virtues being carried by them to the inhundrate seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a activerful auxiliary, in removing the disease and facilitating the care in cases of Local Influence, ion. Scroffalous Affections, King's Evil, Gout, Soffsmmatory, and Chronink Khammatism, and n all cases where seated pain or wenaness exist.

A gentleman travelling in the south of Europe and Palestme, in 4831, heard so much said in the latter place, in braise of Jew David's Place ter, and of the (as he considered) mirrorlins ofres it had perfermed, that he was induced to trait on his own person, for a Lung and Laver genial influence of that balmy and delicious cil-

He accordingly applied a plaster on the right hid, of the chest, where the pain was seated, heather between the shoulders, and one over the region of the liver. In the meantime, he drank anely of an herb ten of faxative qualities. He soon found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his health became permanently remstated.

Since that time he has been recommending it to his friends and acquintances, for all fixed paras wentever; such as rheumatism, gout, head acte, acryous teeth ache, pain in the side, hips back and hubs, in every case of which, it has proved this happy effects of its softening and healing people live that buy goods for Cash! in numberless cases of scrotfulous haface; knots, wens, white swelling, hard tamors, tiff joints, ague ciles, ague in the breast, and shy like, to the united satisfaction of immedia and others.

THE RESURRECTOIN OR PERSIAN I PILLS raise from the greatest weakness, distress and suffering, to a state of strength, health and happiness. Many there arc, who have said in their hearts, there is no help for me, who have been raised by them, to pristine health and vigor. They assuredly have healing virtues which no other medicine in this country possesses. Every individual has found, and will coutine to find them to supersode the necessity of any, and every other medicine, which can be produced in America. If the purchaser does not find them to be superior to any article advertised in the public prints, for the diseases nentioned in the large bills which accompanies each box, when taken according to the direction their moncy will be refunded on the return of the box. We discard the idea of publishing a long list of certificates, or putting them into use, by publishing a column in each periodical. A treatise on the prominent diseases, their symptoms, and manner of core, a history of the medicine, together with many valuable certificates, from physicians and others, the authors of which may be called upon, or referred to by written communication, can be obtained gratis, by calling on any one of the agents. Let no one be discouraged however despairing their case may be, until they have tried the Persian Compound, for the most incredulous have been obliged to acknowledge its superiority in quelling diseases which no other medicine could teach. They are the cheapest as well as the best medicine in use. Price 63 cents per box containing 73 pill, half box 31 cents containing 35 pills, &c. The use of one hox will be more convincing than a volume of certificates

THE HUMAN MAIN.

Where the hair is observed to be growing thin. nothing can be more prosperous than the use of oils, grease, or any fatty matter. Their application can only be recommended through the gross est ignorance, as they masten the full of the hair, by mcreasing the relaxation of the skin. When there is a harsh, dry, or contracted skin, and where the small blood vessels which carry nonrishment to the bulb are obstructed, then the oils, &c., may be good, as they tend to telax the skin; but alone they are of no avail. There must be a stimulus to rouse the vessels from their torpor, and quicken the current of the blood .- Extract from Clirehugh's Treaties on the Hair.

The Belm of Columnia is the only preparation that can have that effect, being entirely free from any ody substance;

FOR PRESIDENT GEN. WINFIELD SCOT

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY -One Presidential term-No interference in elections by Government Officers A uniform currency of gold and silver; or bank notes at all times redeemable in specie on demand - An Independent Trensury under the exclusive control of Congress-Opposition to monopolies, to irredeemable Shinplasters and to traudulent banking.

We have heard frequent complaint shout "Daniel's Block," to satisfy ourself we paid it a visit, and we do not marvel that the Common Council voted it a nuisance, for it is one in every sense of the word. Nigger Ally and Whiskey Hollow is a Paradise compared with it. Such a heterogenus compound we never saw'; misery and mice, vermin and vice; filth and fiddlers, white and blacks, brandy and bed bugs, lame and halt, small pox and swine, death and disease, thieves and thimble rigs, ladies of a low cast, and lades of no cast at all, were all combined in one mass. We do not believe that one half of our citizens have an idea, that such a den of corruption exist in the city of Rochester. And would it be believed, that the owners of this wretched hole are repairing it to render it tenantable, as if it was to stand for ages!!

There's every prospect now, that GEN. SCOTT will be nominated by the Harrisburgh Convention. If so, Cockrobbin O'Relll'ys "occupation's gone." We hope so at any rate, for a man who has been guilty of the little trick of refusing to place our paper upon the table with the others of this city, because it differed in political views with him, would be guilty of still smaller tricks, in his official capacity.

Will Cekrobbin mention us, in his next history of Rochester? We should die with mortification if not.

Mr. Kidney thinks the Grand Jury is no great shakes.

UNEPECTED BIRTH.-We were invited yesterday, by Mr. De Selding of the Museum, to look at the progeny of the large rattle snake, which, in its wire cage, has often attracted the notice of its visiters there. This serpent gave birth, a few days ago, to four young ones, lively little creatures, each about six or eight inches long. The old one has been in the Museum about two months. She is more than usually fierce since the birth of her young, violently agi. tating her rattles and darting out her tongue, when any one molests her cage. What is singular respecting this reptile we are told that du ring the two months it has been in Mr. De Seid ing's possession, it has eaten nothing, although small animals, such as mice and birds, have been frequently put into the cage .- Balt. Amer.

Mos Law ay Cincinnary.-On the night of Feiday the 27th ult., a mob of thirty or forty persons, in disguise, attacked the frame dwelling of Dr. Woodward, the colored physician who cruelly flogged two wemen, in order to care them of insanity. The meb tore out the front of the house, which, with the furniture, they put in the street and set fire to. The engines were called est, but on observing whose property it was, no attempts were made to rescue it from the flames.

house adjoining, which Woodward was creeting, but a cry from the crowd that the workmen had not been paid, prevented any further injury .-The Cincinnati News properly condemns this outbreak of popular violence, and expresses the opinion that the laws are adequate to the punish ment of crime, without the improper interference of disorderly mobs.

HARVEST.

The accounts from various parts of Great Britain in relation to the harvests are far from favorable, and in several districts in which previous favorable weather had encouraged hopes of good crops, subsequent bad weather has spread gloom and fear.

War in Spain has ended, and Don Carlos has retired to France.

Gen. Hamilton of South Carolina, who is passenger in the steamer Liverpool, did not succeed in negotiating a loan in Europe for Texas.

Marriage of Queen Victoria .- The Augsburg Gazette contains the following ssage respecting the marriage of the Qeen of England .- The speech of Queen Victoria on proroguing the parliament makes no mention of her marriage. As some journals have hence inferred that the matrimonial alliance with the Coburg family was still doubtful, we can affirm on good authority that the meeting of several members of the house of Saxe Coburg at London is for the purpose of settling the necessary preliminaries which must precede the marriage—that is to say, everything relative to the prerogatives and the revenue of the intended husband. As for the question of the marriage itself, and the mutual affection of the parties, all this has been some time decided. The Dutchess of Kent and the King of the Belgians, have been the most zealous promoters of the alliance."- [We believe there is some truth in this. The Duke has gone to the palace lately .- Ed. Liverpool Mail]

London Money Market, Sept. 6. - From the Chronicle.]-A much more cheerful an pearance has been apparent to-day in the city generally: and passing or coming events, as regards home affairs, have been looked upon with much less despondency; but, as we have often kown, a fine sunny day, like at last united and formed themselves into a the present, produce great effect upon the minds of our merchants and the frequenters ago. A Typographical Association is what of the Stock Exchange, and to this cause is we have long wanted, now we want Trade's chiefly a tributable the altered state of things to-day. Money has been much less in demand, and almost every description of British security has advanced in value.

PARIS MONEY MARKET AND COMMERCIAL Naws .- Monday, Sept. 16 .- The protesting of the ten millions of the bills of the Bank of the United States, on Hottinger & Co., still continnes to excite surprise in this market. It is a facof the greatest importance, and for which the Bourse was totally unprapared. It is asserted that the London agents of the Bank were acquainted with the intention of Messrs. Hottinger, and that the house here did it to prevent more serious loss, by thus compelling the Bank to make immediate remittances in specie-cotton, from its depreciation in price, of which large consignments have been sent to several of our ports, no longer being a sufficient guarantee.

It must also be remarked that the Bank of the United States have drawn further to a large to castom, on the 1st of October, and which will probably not be accepted by the Paris correspondents. This additional refusal, if it takes place, will cause a deep impression both abroad and at home, and efforts are making to ward off such a disaster. The consequence of these facts has renewed, to a certain extent, a commercial crisis, and the private banks of Paris have limited, dering the last week, their transactions; but to day the news of the entry of Don Carlos into France has given more confidence to capitalists and specplators. It is, in fact, beyond a doubt that the pacification of Spain will bring forward immense capitals which have hitherto been unemployed, and which will give a new impetus to the money market and to trade.

Accounts from the Cape of Good Hope speaks of great discontent in the colony, and official returns show a great falling off in both the exports and imports. Nearly five hundred of the emigrants were treacherously mussacred by the natives in June last.

AN ELOPEMENT .- On Sunday evening, about dusk, a genteel looking man, accompanied by a jady and followed by a servant carrying a trunk, called at the house of a respectable lady near the ticket office of the Baltimore and Susquehannah rail road, and asked permission to leave their trunk there, stating that they were strangers who had just arrived in the city and wished to take passage in the morning for York, but being unarquainted here, they did not know where to leave their baggage, or where to procure lodgings near the place of starting. The lady consented to their leaving the trank, and directed them where they could be accommedated for the night.

Yesterday morning the man and his supposed wife called for the trunk, but a third party, his brother, appeared on the scene, and disclo cret of the manceuvre. He said that the man had deserted his wife and a small child, who lived in Pratt street and the woman had run away from her husband, who lived up town. The lady of the house soon gave them their walking papers, and the man, after depositing in the cars the trunk and precious baggage he was about Swartwooting with, set off towards the outer depot on fout, blubbering like a child.

The woman, it would appear had more spunk for she, when his brother endeavored to persuade him to return to his deserted wife, cried out, Come with me, Charley : don't you go back." 'I will go with you," sobbed Charley, and sway he trotted to meet her at the depot. The brother procured an officer as soon as possible, and pursued him, but it is probable that the gay Lothario and his inamorato succeeded in making good their escape .- Balt, Sun,

DEAR SIR-It is with feelings of unbounded

DEAR SIR-It is with feeling a of unbounded gratitude. I take this opportunity of returning you my sincere thanks for the re lef you have afforded me, by using your meels us. "Hunter's Red Drop," after a long and profracted suffering of twelve months, in the West Lodics, under the care of five eminent and far faint I physicians, all of which were of the Colleges of London and Edinburgh, could not do me by service; but after several courses of mercurial treatment, and the effects of the long configuration to bed in a tropical climate, recommended the to proceed to a more northern latitude. Acting in accordance to that last remedy. I took passage for this city; after my arrival I placed myself he der the care of an old and eminent practitioner, who attended me continually for three months to no effect.— Perceiving, in the journals of the day, numerous proofs of the many successful efters which had been effected under your treate nat. I called upon you without even the mean of getting the medicine; but you cheerfully gas f it to me, and I am now sound, hearty and active. I therefore, fearlessly come forward, and state that your medicine and treatment, (if strictly f llowed,) is the only true and secure remedy for oradicating veuersal and mercurial taints from he system that exists to the present day; and should you think proper to make these lines public, you are at his erty to do so; and any person "rilling to see me on the subject, you can also gut them my address. And believe me to rendia, ever your grateful irrend.

R. Treese The public must be satisfied at once, if Hunter's Red Drop will cure a case of this kind, it will cure in any case. GUTHRIE & KEZZIER, Buffalo.

JEW DAVID SOR HEBREW PLASTER
The particulars of this Chemical Com pound are owing to its extraordinary effects, opon the animal files or nerves, ligaments and muscles, its virta being carried by them to the immediate seat of disease or of pain and weak

However good say internal remedy may be, this, as an externs, application, will prove a powerful auxiliary? In removing the disease and faciliating the core in cases of Local Inflamma, tion. Scroffulous affections, King's Evil, Gout, Inflammatory, and Chronick Rhoumatism, and in all cases where Gafed pain or weakness exist.

A gentleman travelling in the south of Europe and Palestine, in 4831; heard so much said in the latter place, in praise of Jew David's Plaster, and of the (as he considered) miraculous cures it had perferhed, that he was laddeed to try it on his own person, for a Lung and Liver affection, the removal of which had been the chief of his journey but which had resisted the genial influence of that balmy and delicious cli-

He accordingly applied a plaster on the right side of the chest, where the pain was seated, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb ted of laxative qualities. He soon found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his

herith became permanently remstated. Since that time hathas been recommending it to his friends and accidintances, for all fixed pains whatever ; such as rheumatism, gout, head ache, nervous teeth ache, pain in the side, hips back and limbs, in every bise of which, it has proved an effectual cure. Its has likewise witnessed the happy effects of its softening and healing quantities in number ess cases of scroffolous huknots, wens, stiff joints, ague cakes, ague in the breast, and the like, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, lameness, offections of the spine, female weakness dec. No female subject to pain or weakness in the back or side, should be without it. Married Ladies, in deliwearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, uhthibic and long affections, in their primery stages. Alt destroys inflammation by producing a copio perspiration. No physia far better purpose to dressing wounds, bruises and sores, than any plaster, salve or ointment now in nee.

In view of the great benefits resulting from the are of this plaster within his own observa tion, his confidence in its infinite superiority over every other plaster, safve ointment or opodeldoc hefore the public, in this country, has induced this gentleman to place the Hebrew Plaster in hand of those who will give it publicity; believing it will prove itself to a rich blessing to the community at large.

No putling or great pread of certificates is intended. Those who dish to satisfy themselves of the efficacy of this paster, can obtain sufficient to sprend 6 or 8 plasters, for 50 cents; a sum not half sufficient to gry for the insertion of a prints, a single time. This trilling price per box, is placed upon 3, in order that it may be within the means of every affected son or daughter of the community; that all, whether rich or poor, may obtain the steasure of health, which results from its use.

Prompt attention triff he paid to orders addressed to Messes. C., COMSTOCK, & Co., Rochester.

Frice per single box 30 cents.

DIRECTIONS. -Spread the plaster on a soft plece of white leather, very thin-and once in 4 or 5 days re-spread at hy adding a little more Plaster. Apply it to say part that may be affect eif with any of the above diseases.

THE BUMLY HARR.

Where the hair is observed to be growing thin, nothing can be more prosperous than the use of oils, grease, or any fatty matter. Their application can only be recommended through the gross est ignorance, as they hasten the fall of the hair. by increasing the relaxation of the skip. When there is a barsh, dry, or contracted akin, and where the small blood vessels which carry neurisburent to the bulb are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimula to rouse the vessels from their terpor, and quicket en the current of the blood .- Extract from Claslengh's Treaties on the Hair.

The Belm of Columnia is the only preparation that can have that effect, being entirely free from any ody substance.

PRINCIPLES OF THE SCOTT REPUBLICAN PART -One Presidential term-No interference in elections by Government Officers -A uniform currency of gold and silver; or bank notes at all times redeemable in specie on demand - An Independent Treasary under the exclusive control of Concress-Opposition to monopolies, to irreferentile Shinplasters and to trandulent banking.

We have heard frequent complaint about " Daniel's Block," to satisfy ourself Britain in relation to the harvests are far we paid it a visit, and we do not marvel that the Common Council voted it a nuisance, for it is one in every sense of the word. Nigger Ally and Whiskey Hollow is a Paradise compared with it. Such a heterogenus compound we never saw; misery and mice, vermin and vice; filth and fiddlers, white and blacks, brandy and bed bugs, lame and hait. small pox and swine, death and disease, thieves and thimble rigs, ladies of a low cast. and lades of no cast at all, were all combined in one mass. We do not believe that one half of our citizens have an idea, that such a den of corruption exist in the city of Rochester. And wou'd it be believed, that the owners of this wretched hole are repairing it to render it tenantable, as if it was to stand for ages!!

There is every prospect now, that GEN. SCOTT will be nominated by the Harrisburgh Convention. If so, Cockrobkin O'Relli'vs "occupation's gone." We hope so at any rate, for a man who has been guilty of the little trick of refusing to place our paper upon the table with the others of this city, because it differed in political views with him, would be guilty of still smaller tricks, in his official capacity.

Will Cokrobbin mention us, in his next history of Rochester? We should die with mortification if not.

Ustructed Biats.-We were invited yesterday by Mr. De Selding of the Museum, to look at the progeny of the large rattle snake, which, in its wire cage, has often attracted the notice of its visiters there. This serpent gave birth, a few days ago, to four young ones, lively little kreatures, each about six or eight inches long. The old one has been in the Museum about two months. She is more than usually fierce hines the birth of her young, violently agi, tating her rattles and darting out her tongue, when eny one molests her cage. What is singular respecting this reptile we are told that du ring the two months it has been in Mr. De Seld ing's session, it has eaten nothing, although small animals, such as mice and birds, have been frequently put into the cage. - Balt. Mos Law at CINCINNATI .- On the night of Friday the 27th alt., a mob of thirty or forty persons, in disguise, attacked the frame dwelling of Dr. Woodward, the colored physician who cruelly flogged two women, in order to cure them of ineanity. The mob tore out the front of the house which, with the furniture, they put in the street and set fire to. The engines were called out, but on observing whose property it was, no attempts were made to rescue it from the flames.

It is a facof the greatest importance, and for which the Bourse was totally upprapared. It is asserted that the London agents of the Bank were acquainted with the intention of Messrs. TEW DAVID'S OR HEBREW PLASTE.R The particulars of this Chemical Com pound are owing to its extraordinary effects, up-on the animal fibre or nerves, ligaments and muscles, its virtues being carried by them to the immediate seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, well prove a powerful auxiliary, is removing the disease and faciliating the cure in cases of Local Inflamma, tion. Scroffulous affections, King's Evil, Gout, Inflammatory, and Chronick Rheumatism, and in all cases whore seated pain or weakness exist.

A gentleman travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Placter, and of the (as he considered) mir eculous try it on his own person, for a Lang and Liver affection, the removal of which had been the genial influence of that balmy and dehcious cli-

He accordingly applied a plaster on the right eide of the chest, where the pain was seated, another between the shoulders, and one over the region of the fiver. In the meantime, he drank freely of an herb tea of laxative qualities. He soon found his health improving, and in few weeks his cough left him, the sallowness of his skip disappeared, his pain was removed, and his health became permanently remstated.

Since that time be has been recommending it to his friends and acquintances, for all fixed pains whatever; such as rheumatism, gout, head ache, nervous teeth ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual care. He has likewise witnessed the happy effects of its softening and healing people live that buy goods for Cash ! quantities in numberless cases of scroffalous humars, knots, wens, white swelling, hard tumurs, puitl' joints, agus cakes, ague in the breast, and the line, to the united satisfaction of himself and

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, uhthisic and long affections, in their primery stages. It destroys inflammation by producing a copious perspiration. No physimans should be without it. This plaster answers a far better purpose for dressing wounds, bruises and sores, than any plaster, salve or ointment now in use.

In view of the great benefits resulting from the ure of this plaster within his own observa tion, his confidence in its infinite superiority over every other plaster, salve ointment or opodeldoc before the public, in this country, has induced this gentleman to place the Hebrew Plaster in hand of those who will give it publicity; helievcommunity at large.

PHINCIPLES OF THE SCOTT REPUBLICAN PARTY One Presidential term-No interference in elections by Government Officers -A uniform currency of gold and silver; or bank notes at all times redeemable in specie on demand - An Independent Trea. sary under the exclusive control of Congress-Opposition to monopolies, to irredeemable Shinplasters and to fraudulent banking.

Nicho's of the Buffaionian will triumph over his enemies, notwithstanding they have the Bank of Buffalo to sustain them. His benefit at the Theatre was most briliant affair, ever got up in Buffalo. We give some extracts in relation to it, from the Buffalonian : THE BENEFIT OF T. L. NICHOLS.

" For many months, no circumstance has created such an excitement in our city, as

All classes entered into the matter with the utmost enthusiasm.

There were no meetings and committees and drumming up of recents, nothing was forced, but every thing was done con amore.

At an early hour the doors were thrown open, and in a few moments the whole house was crammed to its utmost capacity, with a highly fashionable audience, the first and second row of boxes were nearly filled with ladies, while both Pit and Gallery were crowded with those who had purchased tickets, but could not get no o her place. The house was never before so crowded. We regret to say that a great number of ladies and gentlemen. who had purchased tickets, were not able to gain admittance, and that many others only got an occasional view of the Stage from the lobbies. Another singular feature was, that up to the last act of the last play, tickets were constantly called for. No: only did the whole city-a few except ed-seem to join en masse in making the most of the cerasion, but people came from the distance of twenty, or thirty miles in the country, solely to attend the benefit, many of whom must have been disappointed. Such are the disadvantages of popularity.

The address written by Mr. Nichols, was recited by Mrs. Pierce; with exquisite effect, and in a manner which left nothing to be desired by another audience. The loud, repeated, and enthusiastic applause which greeted every sentence, were strongst proofs of the truth of our assertion.

Frank Johnson's unique and celebrated Band, who gave a concert the night before. and were to have departed on Wednesday morning, had no sooner heard of the Benefit, then without solicitation, and with a promptness and enthusiasm, which does them infinite credit, they volunteered their invaluable services.

Never in this day, has there been such a benefit, or such an enthusiastic expression of public feeling. Our only regret is that the Theatre for this night could not have been swelled to ten times its present capacity. for it would have assuredly been filled.

Even on this occasion Mr. Nicho's had to encounter the malignant opposition of the our town and melancholy in its results. clique, who made their impotent efforts to destroy the benefit. Two distinguished Italian singers, the Maroncelli gave a concert at the American, and we understand that more than 2,00 tickets, were bought and distributed gratuitously!! We are happy that they injured none but themselves, and benefited the talented artistes, whom for such a bad motive, they were assisting to a better house than they could have had under any other circumstances.

When the curtain had fallen, and the peo. ple had left the house and filled the streets. nine cheers were given for Mr. Nichols, and subsequently a large portion of the audience, mid their respects to him at the jail. which they surrounded, and after vociferous cheers, and a few dismal groans for some of the execrated ones and a very short "good night" from Mr. N. through the grates, retired in peace to their dwellings.

remembered by the citizens of Buffalo, and an insurance of \$300 on the building.

the friends of freedom every where, and this is the .

PEOPLE'S VERDICT.

We have only to state in conclusion that the entite receipts of the benefit amounted to one thousand one hundred and twenty. two dollars and twenty-five cents, the largest sum by several hundreds ever taken in this city."

The story of Mackenzie being shot at in jail, was a molehill magnified into a mountain. Some person was shooting birds on the wing it is supposed, as some of the shot went through the window of the Jailor's room as well as others. Instead of being ball it turned out to be bird shot,

We are indebted to the politeness o Messrs. Nichols & Wilson, for a copy of BLANCHE OF NAVARRE, a play in five acts, by G. P. R. James, the author of the Gipsey, Robbers, &c. The drama is worthy the author, saying more wou'd be needless .-Recollect it is for sale at Nichols & Wilson.

We have the pleasure of informing our readers that we are about to become a house-keeper, according to law, and if any fractured teapot, broken down bedstead, they are not expected lover. shattered looking glass, broken winded table a piece of snuffers, or in fact any thing the law allows us to keep, they will please fe chithem along, as they will be taken in part payment for bad debts.

Four of our watchmen were assaulted on Wednesday night, 18th inst, and severely injured by a party of young men. One watchman is at the point of death almost entirely despaired of; another at death's door with a mere chance of recovery; a third has shed a quantity of his blood on the pavement; and a fourth was three times knocked down and before have had, they are suspassed by none in taken senseless to a physician. BEYOND THE POWER OF BOASTED PRETENSION.

NEW YORK, 10th March, 1839.

DEAR Sin-It is with feetings of subbunded grantude, I take this opportunity of returning you my sincere thanks for the relief you have afforded me, by using your medicine. "Hunter's Red Drop," after a long and protracted suffering of twelve months, in the West Index, under the care of five eminent and far femed physicians, all of which were of the Colleges of London and Edmburgh, could not do me any service; but ofter several courses of merconist treatment, and the effects of the long confirement to bed in a tropical climate, recommended me to proceed to a more northern latitude. Acting in accordance to that last remedy. I took presinge for this city; after my arrival I placed myself under the care of an old and eminent practitioner, who attended me continually for three months to no effect.-Perceiving, in the journals of the day, numerous proofs of the many successful cares which had been effected under your trestment. I called upon you without even the mesh of getting the medicine; but you cheerfully give it to me, and I am now sound, hearty and active. I therefore, fearlessiv come forward, and stay that your medonly true and secure remedy for radicating venersal and mercurial taints from the system that exists to the present day; and a ould you think proper to make these lines public you are at lib. erty to do so; and any person poshing to see me on the subject, you can also tree them my address. And believe me to rinkin, ever your grateful friend.

R. Trees. The public must be satisfied of once, if Hunter's Red Drop will cure a case of this kind, it will core in any case. GUTHRIE & KEZPPER, Buffalo.

ORKISONS PILLS.—The celebrated Hygeian Universal Medicines of the Eri-

LEW DAVID'S OR HEBREW PLASTER The particulars of this Chemical Com nound are owing to its extraordinary effects, upon the animal fibre or nerves, ligaments and muscles, its virtues being carried by them to the semediate seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful auxiliary, in removing the disease and faciliating the cure in cases of Local Inflamina, ina. Scroffulms affections, King's Evil, Gout, Inflammatory, and Chronick Rheumatism, and in all cases where seated pain or weasness exist. A geatleman travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plas-

ter, and of the (as he considered) muraculous cures it had perfermed, that he was induced to try it on his own person, for a Lung and Liver affection, the removal of which had been the thief of his journey, but which had resisted the genial inflaence of that balmy and delicious cli-

He accordingly applied a plusser on the right fide of the chest, where thee pain was seated, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb tea of laxative qualities. He soon found his bealth improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his health became permanently remstated.

Since that time he has been recommending it to his friends and acquintances, for all fixed pains whatever; such as rhenmatism, goot, head ache, nervous teeth ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual cure. He has likewise witnessed the happy effects of its softening and healing quantities in numberless cases of scroffulous humore, knots, wens, white swelling, hard tumurs, stiff joints, ague cakes, ague in the breast, and the like, to the united satisfaction of himself and others.

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, lameness, affections of the spine, female weakness &c. No female subject to pain or weakness in, the back or side, should be without it. Married Ladies, in delicate situations, find great reltef from constantly wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, whthisic and long affections, in their primery stages. It destroys inflammation by producing a copious perspiration. No physigians shop! I be without it. This plaster answers a far better purpose for dressing wounds, braises and sores, than any plaster, salve or ointment

In view of the great benefits resulting from the are of this plaster within his own observa tion, his confidence in its infinite superiority over every other plaster, salve ointment or opodeldoc hefore the public, in this country, has induced this gentleman to place the Hebrew Plaster in hand of those who will give it publicity; believing it will prove itself to a rich blessing to the community at large.

No puffing or great spread of certificates is intended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum not half sufficient to pay for the insertion of a single certificate into any of our most common prints, a single time. This trifling price per box, is placed upon it, in order that it may be within the means of every afficied son or daughtor of the community; that all, whether rich or poor, may obtain the treasure of health, which results from its use.

Prompt attention will be paid to orders addressed to Messrs. C. COMSTOCK, & Co., Roshester.

Frice per single box 50 cents.

DIRECTIONS. -Spread the plaster on a soft piece of white leather, very thin-and once in 4 or 5 days re spread it by adding a little more Piester. Apply it to any part that may be affect

ed with any of the above diseases. For sale at the Office of E. Chase & Co Areade Hall, Rochester, near the Post Office. sept23 1839

THE MAYOR.

THE LATE MAYOR of Philadelphia has certified, under seal of the city, to the character of several Divines, Physicians, and gentlemen of high standing, who declare positively under their own hands(all of which may be seen at the drug store) that the Balm of Columbia is not only a certain preservative, but positively a restorative of the human hair; also a cure for dandraff. Who shall dispute, or who go bald ? Inquire at all respectable druggists.

THE MUMAN HARR.

Where the bair is observed to be growing thin, nothing can be more prosperous than the use of oils, grease, or any fatty matter. Their application can only be recommanded through the gross est ignorance, as they basten the fall of the bair, by increasing the relaxation of the skin. When there is a barsh, dry, or contracted skin, and where the small blood vessels which carry nourishment to the bulb are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimulus to rouse the vessels from their torpor, and quicken the current of the blood .- Extract from Clirehugh's Treaties on the Hair.

The Balm of Columnia is the only preparation that can have that effect, being entirely free from any only substance.

CAUTION .- None can be genuine without a splended steel plate engraving, on which is the Falls of Nagara, and Dr. Comstock's, the Ame. rican agent's, name, &c.

GENERAL Dute Creek.

So well known as Editor of the late Washington Telegraph, is referred to for the truth of the following:

General Green a few days since asserted in a public place, that he had used Hay's Linment for the Piles, and that the effect was very astonishing, and that he felt it his duty to make known as far as in his power, to his suffering fellow men that|such an extraordinary article was in existence. He said he would cheerfully lend his name, and aid in extending its usefulness. This is but one of which we may safely say hundreds who have given like testimony.

DEVERAND AGUE PERMANENTLY CURED IN ALL CASES,

GENESEE VEGETABLE

REMED

These Medicines are faithfully perpared from the receipt of a distinguished practitioner of Medicines, by whom they were direct invented, and used in the Hospitals of New York, in nearly all the cases of Fever and Aug's that occurred during the years of 1812, 13, 14 and 1815, and afterwards introduced into the Groeses country. and used in his private practice, with a success unparralled in the history of his heine.

The Genese Remedies, which are prepared without Quining or any preparation of Bark's.—Consist of two kinds of Pills—ofte of which operates by thoroughly cleansing the system from all the stale and acid Bile, which is the very seed of the disease. And the other by giving strength and vigor to the same, invariably restores the patient to perfect health in a very short time, and generally by the use of a single backage, if the directions are adhered to.

As a precentative of Fever at Ague and all Billious Fevers, so prevelent at the West, they deserve a decided and distinct r commendation. Were they used at short inter als during the sickly season, they would be fraud in every in stance to keep of those distress ig disorders, to which the people every summ rere the unforfound a remedy in the 100 cournon use of Qua nine and Tonic Mixtures; but it maey cases ag gravated and made worse.

Having the fullest confidence in the Medicine they were in the beginning a sued and have always been sold under a positive warrantee, to refund the money in all cases of failure. Within the last year they have been used in many han dred cases, and out of the whole number but one case has yet been made known, where a perma-nent cure has not been effected.

The proprietor has the utmost confidence that they will be found equally serving the West-as they have already been used to some extent with the most happy results, as a 'll be seen by re-ferring to a few Certificates of the inside directions. For sale by the Proprie or J. M. WINSLOW.

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY -One Presidential term-No interference in elections by Government Officers -A uniform currency of gold and silver; or bank notes at all times redeemable in specie on demand - An Independent Trea. sury under the exclusive control of Congress-Opposition to monopolies, to irredeemable Shinplasters and to traudulent banking.

PENNY PAPERS .- There is a grand secret in getting up a successful penny pa per, that has been dive ged only to a chosen few, and we of course include ourself among the number. Economy and good judgement are the two requisites to establish a penny it requires energy and perseverance to sustain it. Many suppose all that is necessary to start a paper into life, is to scribble away, and the money comes as a matter of course. Here is the rock on which all adyenturers split, for the last thing a man thinks of paying for, is his paper. Our city has occular proofs of these assertions, for since we established our paper, several sheets have started into life, if such a half organized existence can be called life, upon a little growling against the Sun. Some office holder whose schemes have been stripped of their mask, some swindler who has been exposed, or some other offender against the laws. complain that the Sun is too personal, and that a good penny paper would be well supported in this city. Some green-horn takes the hint, and some one who has beeen " rowed up" undertakes to drill him. They run about soliciting patronage, and promising to advertise for prices that would not pay for composition, and find some who are tempted by the low price of advertising to patronise them, and let the amount be drawn from them in orders; but very shortly find after paying a year in advance the paper is dead the proprietor has vanished, and they are humbuged.

The New York penny papers are raising a great hue and cry against the poor little newsboys, upon whom they built themsalves up. They now say they are a nuisance, and not tolerated, and recommend the public to buy their papers at the office. They have just opened their eyes to the fact that it has an immoral tendency, to permit the boys to hawk the papers about the street, af ter some six or eight year's experience in the business they have made this wonderful discovery.

They will discover very shortly that their new system won't work, and be obliged to take up their old mode of doing business, and be very glad to avail themselves of the assistance of the much abused newsboys to carry o their business.

By refering to our advertising columas, a boarding house advertisement will be found. Those in want of quet h me, would do well to call, it might be an object to those who wish to move in genteel society, for we stop there, and we flatter ourself that we are the tip top in these " diggings."

REMORSE OF CONSCIENCE.—The super cargo of the suspected slave schooner Catherine sent to New York, by the British brig of war Dorphin, committed suicide on Tuesday, by cutting his throat with a razor.

Mr. Harrison the tailor man, is at his old tricks again-borrowing our paper. This most be put a stop to Mr. Harrison.

A DARK TRANSACTION .- A South ern merchant, on Wednesday night, made lave to a darkie. She made love to his bocket-book, containing \$4,000, and ran down a cellar in Theatre Alley with her prize. She was pursued, and the whole of the money recovered, excepting \$2,50, which another colored girl had taken from her and made away with it. Our Southern friend may censider himself a very fortunate man. The girls having been committed to prison.-Albany Adv.

We could not imagine why or, friends looked so blue on Tuesday; but come to look into the case, we found that it was because they had not the Sun to peruse. In fact one of them told us, if he failed to read the SUN in the morning, he worked all day with a heavy conscience.

Who ever has taken several articles out of our office without leave, will please return the same and no questions asked.

The Hartford Courier reports three sucpaper, and after it has obtained a foo hold, cessive trials for adultery in the Superior Court, sitting in that city. Two of the accused were females, and one a male. The male was convicted by confession, but both the women were acquitted-one on the ground that she was drunk when she sinned, and the other because her marriage to her reputed husband was not sufficiently proved -consequently she could only be guilty, under the testimony, of fornication; and that she was not indicted for.

> An old lady in the West of England for twenty successive years has darned stockings with the same needle, in fact, so used was the said needle to work that frequently, on the lady's leaving the room, it would continue darning without her!-When the old lady died, the needle was found by her relatives, and for a long time no one could discover what obstructed the threads, when, by microscopic observation, they observed a tear in the eye of it.

> 'Mr. Shoemaker, I want you to mend these ere boots up for me nice-and 'snose you won't ax no mor'n half price !' 'Half price! why man your boots can't be mended at all-they are too far gone.' 'O no they arn't-just put new legs and new feet on them, and I guess they'll do,'

A MURDERER BY HIS CONFESSION. A man calling himself Alanson Theodore Herrick, went to the office of E-quire Hechman, at Easton, a few days since, and represented himself as the murderer of Zelierbach, the pedlar, who was killed on the race course near Lancaster, in March last. We learn from the Eastern Whig that Herrick told the Squire that he was greatly troubled in mind, on account of the deed he had committed; that he would rather die than live under the awful convictions of conscience. and in consequence had determined to make a full confession of the circumstances connected with the murder. He said that when he first fell in with Zellerbach, he was at Pitt-burgh and seeing him have a considerable sum of money, he followed him all the way to Lancaster, where he overtook him on the race course, and after saluting him with good evening, and speaking a few other words, he drew a darger and attacked him. That Zallerbach had a cane, but principally defended himself with his arms, and that he stabbed him more than a dozen times. After he had killed him, he took his money and goods, and went to Lancaster, where he purchased two trunks, in which he deposited some of the goods, and hid the remainder a few miles from Lancaster, under a bridge next the rail road. He then went to Philadelphia, where he disposed of one of the trunks a d its contents. That he received checks on different banks in the United States in pay.

He was committed to prison, and at a subsequent examination he denied having had any hand in the murder. The Justice had sent to Lancaster for the purpose of having the matter thoroughly investigated.

CANE OF POISONING BY DURASED FLESH .- On Suarday last a white woman named Deems died at Baltimore under the following circum-tances: A cow belonging to one of the neighbours had died, apparently from the effects of poison, and was t rown out upon the commons. The deceased, with two other women, resolved to skin he dead animal, which they did, on Friday, and he deceased also took a portion of the meat, and cooking it she, with several of her children ste a portion. They were all taken sick, and on Satorday the mother died. The other two women had not eaten any of the meat, but one of them is now suffering in tortures from her arm being inflamed and painful in such a manner as to threaten the lock-jaw.

You isn't got any cold wittles here to day, is you?' asked a ragged little urchin, the other day, of a house teep r. BEYOND THE POWER OF BOASTED PRETENSION.

DEAR SIR-It is with feelings of unbounded DEAR SIR—It is with feelings of unbounded gratitude. I take it is opportunity of returning you my sincers thanks for the reflet you have afterded me, by using your medicale. "Hunter's Red Drop," after a long and pro, racted suffering of twelve months, in the West, idies, under the case of five eminent and far family physicians, all of which were of the Colleges of Landon and i.dinburgh, could not do me by service; but after several courses of mercur a treatment, and the effects of the long confined out to bed in a tropical climate, recommended hie to proceed to more nothern latitude. Achieg in accordance to that last remedy. I took passage for this city; after my arrival I placed myself under the care of an old and eminent practitioner, who attended me continually for three mombeto no effect—Perceiving, in the journals of the day, numerous proofs of the many successful Gres which had been effected under your treatment. I called upon you widrout even the mes, sof getting the medicine; but you cheerfully go a it to me, and I am now sound, hearty and act ic. I therefore, fearlessly come forward, and state that your medsome and treatment, (if strictly pllowed.) is the unity true and secure remedy for tradicating venerail and mercurial taints from the system that exists to the present day; and rould you think proper to make these lines public, you are at lib. erry to do so; and any person weeling to see me on the subject, you can also goe them my address. And believe me to remain, ever your grateful friend.

ORRISONS PILLS.—The celebrated Hygeran Universal Medicines of the Entish Colege of Health, London-fer sale by the subscriber, No. 137 St. Paul street, Rochester, Agent for the only Genuine Marrison Pills, sold WM. H. BURTIS. in this city

JEW DAVID'S OR HEBREW PLASTER The particulars of this Chemical Com pound are owing to its extraordinary effects, upon the animal fibre, or nerves, ligaments and muscles, its virtues being carried by them to the immediate seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful auxiliary in removing the disease and faciliating the core in cases of Local Inflamma, tion. Scroffulous effections, King's Evil, Gout, Inflammatory, and Chronick Itheumatism, and in all cases where stated pain or weakness exist.

A gentleman travelling in the south of Europe and Palestine, in 4231, heard so much said in the latter place, in graise of Jew David's Plaster, and of the (as he considered) miraculatte cares it had perferened, that he was induced to affection, the removal of which had been the chief of his journey; but which had resisted the genial influence of that balmy and delicious cli-

He accordingly applied a plaster on the right side of the chest, where the pain was seated, another between the shoulders, and one over the region of the liver. 'In the meantime, he drank freely of an herb tea of laxative qualities. He soon found his health improving, and in lew weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his health became permanently remstated

Since that time hathas been recommending it to his friends and acquintances, for all fixed pains whatever ; such as thenmatism, gout, head ache, nervous teeth ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual cure. He has likewise witnessed the happy effects of its softening and healing people live that buy goods for Cash ! quantities in numberless cases of scroffclous humore knots, wens, white swelling, hard tumpers, stiff joints, ague cakes, ague in the breast, and the like, to the united satisfaction of himself and others.

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, lameness, affections of the spine, female weakness dec. No female subject to pain or weakness in the back or side, should be without it. Married Ladies, in delicate situations, find great reltef from constantly wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, uhthisic and long, affections, in their primery stages. It destroys inflammation by producing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, braises and sores, than any plaster, salve or continent now in use.

In view of the great benefits resulting from the are of this plaster within his own observa tion, his confidence in its infinite superiority over every other plaster, salve ointment or opodeldoc hefore the public, in this country, has induced this gentleman to place the Hebrew Plaster in hand of chose who will give it publicity; believing it will prove Eself to a rich blessing to the community at large.

No puffing or great spread of certificates is intended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum not half sufficient to pay for the insertion of a single certificate into any of our most common prints, a single time. This trifling price per hoz, is placed upon it, in order that it may be within the means of every afficied son or daughresults from its use.

Prompt attention will be paid to orders addressed to Mesers. C. COMSTOCK, & Co., Rochester.

Frice per single box 50 cents.

DIRECTIONS.—Spread the plaster on a soft place of white leather, very thin-and once in 4 or 5 days re-spread it by adding a little mere Plaster. Apply it to any part that may be affect ed with any of the above diseases.

THE RESURRECTOIN OR PERSIAN PILLS raise from the greatest weakness, distress and suffering, to a state of strength, health and happiness. Many there arc, who have said in their hearts, there is no help for me, who have been raised by them, to pristine health and vigor. They assuredly have healing virtues which no other medicine in this country possesses. Every individual has found, and will contine to find them to supersede the necessity of any, and every other medicine, which can be produced in America. If the purchaser does not find them to be superior to any article advertised in the public prints, for the diseases n entioned in the large bills which accompanies each box, when taken according to the directions their money will be refunded on the return of the box. We discard the idea of publishing a long list of certificates, or pulling them into use, by publishing a column in each periodical. A treatise on the prominent diseases, their symptoms, and manner of cure, a history of the medicine, together with many valuable certificates, from physicians and others, the authors of which may be called upon, or referred to by written communication, can be obtained gratis, by calling on any one of the agents. THE LATE MAYOR of Philadelphia has certified, under seal of the city, to the character of several Divines, Physicians, and gentlemen of high standing, who declare positively under their own hands (all-of which may be seen at the drug store) that the Balm of Columbia is not only a certain preservative, but positively a restorative of the human hair: also a cure for dandroti. TEE EUMAN MALLE.

Where the hair is observed to be growing thin. nothing can be more prosperous than the use of oils, grease, or any fatty matter. Their applicain can only be recommended through the g est ignorance, as they hasten the fall of the hair, by increasing the relaxation of the skin. When there is a barsh, dry, or contracted skin, and where the small blood vessels which carry nonrishment to the bulb are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimulus to rouse the vessels from their torpor, and quicken the current of the blood .- Extract from Clirehugh's Treaties on the Hair.

The Balm of Columnia is the only preparation that can have that effect, being entirely free from any oily substance.

CAUTION .- None can be genuine without a splendid steel plate engraving, on which is the Fails of Nagara, and Dr. Comstock's, the American agent's, name, &c.

FRIDAY OCTOBER 18.

FOR PRESIDENT GEN. WINFIELD SCOTT

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY One Presidential term-No interference in elections by Government Officers A uniform currency of gold and silver or bank notes at all times redeemable in specie on demand - An Independent Treasury under the exclusive control of Congress-Opposition to monopolies, to irredeemable Shinplasters and to fraudulent banking.

Our Scott friends Doct. Faulkner and Robert Haight must have felt most effectually used up the other day when the old federal dally Advertiser came down upon them, like a mouse apon an Elephant.

We wonder what office of any importance in the gift of the people the Locofocus could have bestowed upon these gentlemen, that would have been a sufficient inducement for them to swallow any longer the federalism, corruption, and servitude of the party.

Perhaps one of them might have been nominated for Senator and the other for Assemblyman, which would have been all the party could have done-a great inducement indeed for howest men to work for the office holders, and for measures that will concentrate still greater power in the hands of the Executive, and prevent the people-the hon est unsuspecting people, from having their just rights. They cannot be fettered in this

Can't the wiseacre of the Daily Adwarriser understand the difference between at 1"Independent Treasury" under the contra of Congress, and one under the control the Executive, and the Eederal office ho iders-between money in the hands of t very l'responsible person, Post Master Reilly and that efficient and vigorous ce holder Collector Smith, and between cing the public funds where it can be used ustain the Executive influence, and for 10 4 rupt and electioneering purposes, and in the emphatic language of the Globe, "to be pla adered by an hundred hands, where one 1 not reach now," and an "Independent easury" independent alike of the Federal ce holders, and of the banks and of "every wer or influence except that derived dially from the people."

The approaching winter promises to sone of the most brilliant, in the way of soi-7 es, conversar ones balls, parties, routs, pri-" vate concerts, tablean vivans, pickled oys- His body was concealed in the woods, and about ters, sandwichs, champa gn, pigs feet, jellied, shrimp sauce, ice cream, hock, ham, burgundy venison, duck, maderia, roast chickens, bottled porter, and baked possum. We also understand that several weddings are on the tapis, which may be expected to come off this winter, according to that, many of one belles who will flourish this season as bright gems in the diadem of beauty, will find themselves, next winter a guardian angel, over a gem of great price, in the shape of a cradle full of innocence. To make every thing go off with eclat where there is plenty of good eating and drinking, every one should go with a clear conscience so just before you start dear render, run around to the Sun office and pay that small balance, of perhaps when you are trying to masticate a deviled bone, and making love to some peerless beauty at the sometime, the thoughts of that small account, might "come ever the spirit of your dream" suddenly, and cause you to choke to death.

The very idea of such on occurrence makes us shudder, so to save us from un pleasant feelings, our delinquents will please give us a call on receiving an invitation to put their legs under their neighbor's mahogany.

We have a great number of communications on hand, some will be published as soon as convenient. We receive an abundance of them, some good, some bad, and many to which we can apply neither quality. We have many valuable communications from correspondents who do not seem to consider the necessity of brevity. We are bound to give all the news, foreign and domesti, of importance to the community,

ourselves, (and we like to talk,) occupies and all other equipments usually found on board too much space in our sheet to afford room for lengthly communications, unless they be of considerable importance.

We therefore say to correspondents, we are glad your favors but be brief.

The 4th, 5th, and 6th of November is fast crawling along: We then shall know who is who, and what is what. We shall know whether the whigs are to ruin the country by use ess expenditure of the people's money, or whether the locofocos are to ruin the country by absquilitating with the mint drops.

We are in luck indeed. We hold a winning hand-the cards come round to us, and we shall turn up a trump at last. We did not solicit in vain, for Col. SAWYER has presented us with a pig-a real berkshire. which we shall keep untill he gets to be as large as some other hogs of our acquain ance, then we shall sacrifice him to our love of pork, and every time we grease our chops with him, we shall bestow a thought upon the Colonel.

THE SLAVER CATHARINE.

Frederick Adolph Peterson, master of the schooner Catharine, of Baltimore, was brought up and examined yesterday before Justice Kirt. land, at the United States marshal's office, on a warrant issued on the complaint of Robert H. Dundas, of her Britanic Majesty's brig Do'phin.

The Catharine had been fitted out at Havanna, cleared there, and the necessary papers obtained through the office of the American vice consulate. The cargo consisted of tabacco and spir its: her crew of six American seamen and of twenty five Spaniards.

The following is a list of the persons sworn by Peterson to compose the crew : Eben Tucker, of Salem, Massachusetts, aged 35; Joseph Mache, of Portland, aged 21; Wm. Manning of Baltimore, aged 20; James Williams, of New Orleans, aged 41; John Francis, of Italy, aged 42; Henry Elliot, of Malaga, aged 18.

The twenty-five Spaniards were shippeddoubtless for actual service on the coast of Af-

The Catharine is said to be owned by Messrs. Thomas Wilson & Co., of Baltimore, a branch of a London house. The clearance and the necessary papers were obtained at Havanna, by a person named Ting, who acted as their agent

The Dolphin fell in with her on the 13th of August off the coast of Africa, about twenty miles from the harbor of Quipo. She gave chase and compelled her to bring to by firing several shots. The Dolphine boarded her, and found that although she was sailing under American colors

No slaves were found on board, however, but negro boy, said to be the son of an African Prince, educated in Havanna, whom they had shipped to be used on the coast of Africa.

Among other papers seized on board was the following letter of instructions.

The main thing for you to do on the voyage is to be ready in case you are boarded by a man of war to show your log book, which must be regularly kept from the time you leave here. Your ship's papers-your charter party for the voyage, Your ship's roll and instructions, and you are in that event to make all concerned with you American sailors according to your roll-all the others are to be passengers. You are to be very careful that in any cross questions you do not commit

Always stick to the same story. When the vessel is discharged, you must at once out your register in two pieces; one piece you must endorse direct and send to Messys. Thomas Wilson & co. Baltimore; the other piece you will bring with you and give to me when you return here, You must be very particular about that, and do not let any time pass after the cargo is out before you ent the register in two pieces, and be careful to keep them separete-throw one piece overboard if you are obliged to by being boarded by

The accused was committed in default of bail in the sum of \$3000 .- Times.

Sam Slick says that 'to talk about a parson having the power to weep on all occasions, is the height of moonshine. I'd like to see h man undertake to cry, with a pretty girl beside himpocket full of cash-no corns on his toes-and plenty of ice cream in his reach. EW DAVID'S OR HEBREW PLASTE.R The particulars of this Chemical Com pound are owing to its extraordinary effects, apon the animal fibre or nerves, liguments and maticles, its virtues being carried by them to the immediate sout of disease or of pain and weak

However good any internal remedy may be, ther, as an external application, will prove a powerful anxiliary, in removing the disease and faciliating the care in cases of bocal Inflamma, tion. Scrotfulous affections, King's Evil, Gout, Indicinatory, had Chronick Rheumatism, and in all cases where seated pain or weakness exist.

A gentleman travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plaster, and of the (as he considered) miraculous cares it had perfermed, that he was induced to try it on his own person, for a Lung and Liver affection, the removal of which had been the chief of his journey, but which had resisted the gould influence of that balmy and delicious cli-

He accordingly applied a planer on the right side of the chest, where the pain was seated, another between the shoulders, and one over the region of the liver. In the meantime, be drank freely of an hero tea of laxstive qualities. He soon found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his health became permanently remstated.

Nince that time he has been recommending it to his friends and acquintances, for all fixed pains whatever; such as rheumatism, gout, head ache, nervous teeth ache, pain in the side, hips back and limbs, in every case of which, it has proved an electual cure. He has likewise witnessed the happy effects of its softening and healing people live that buy goods for Cash ! mors, knots, wens, white swelling, hard tomors, stiff joints, ague cakes, ague in the breast, and the like, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, lameness, affections of the spide, female weakness 4c. No female subject to pain or weakness in, the back or side, should be without it. Married Ladies, in delicate situations, find great reltef from constantly wearing this plaster.

The application of this' plaster between the shoulders, has been found a certain remedy for colds, coughs, whihisic and long affections, in the opranery stages. It destroys inflammation by preducing a copious persoiration. No physicians should be wishout it. This plaster answers a far better purpose for dressing wounds, bruises and seres, than any plaster, suive or ointment now to use.

la view of the great benefits resulting from the use of this plaster within his own observa tion, his confidence in its infinite superiority over every other plaster, salve ointment or opodeldoc helora, the public, in this country, has induced this gentleman to place the Hebrew Plaster in hand of hose who will give it publicity; believing it will prove itself to a rich blessing to the commenty at large.

No pathing or great spread of certificates is in-tended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum not half sufficient to pay for the insertion of a single certificate into any of our most common prims a single time. This trifling price per box, is placed spon it, in order that it may be within the means of every affected son or daughter of the community; that all, whether rich or poor, may obtain the treasure of health, which remits from its use.

PERMANENTLY CURED IN ALL CASES.

GENESEE VEGETABLE

These Medicines are faithfull her pared from the receipt of a distinguished practitioner of Medicines, by whom they we en all invented, and used in the Hospitals of New York, in nearly all the cases of Fever and Auge that occurred during the years of 1812, 43, 14 and 1815, and afterwards introduced into the Greece country, and used in his private practice, with a success unpatrailed in the history of Merbeine.

The Genese Remedies, which are prepared without Quinine or any preparation of Bark's .-Consist of two kinds of Pills-one of which opcrates by thoroughly cleaning the system from all the stale and acid Bile, which is the very seed of the disease. And the other by giving strength and vigor to the same, invariably restores the parient to perfect health in a very west time, and generally by the use of a single pockage, if the directions are adhered to.

As a precentative of Fever and Igue and all Billious I evers, so pre lent at to West, they deserve a decided and distinct recommendation: Were they used at short interval during the sickly season, they would be for A in every in! stance to keep of those distression disorders, to which the people every summer re the unfortunste victims. And which have not generally found a remedy in the too commen use of Quil mine and Tomic Mistares; but in farey cases ag gravated and made worse.

Having the fullest confidence in the Medicine, they were in the beginning, issued and have always been sold under a positive tearrantee, to refeat the money in all cases of failure. Within the last year they have been used in many hundred cases, and out of the whole number but one case has yet been made known, where a permanage has yet been made known, nent cure has not been effected.

The proprietor has the ulmost of afidence that they will be found equally sure in he West-as they have already been used to soot textent with the most happy results, as will be seen by re-ferring to a few Certificates on the inside directions. For sale by the Proprietor

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY -One Presidential term-No interfe--A uniform currency of gold and silver; or bank notes at all times redeemable in specie on demand - An Independent Trea. sury under the exclusive control of Congress-Opposition to monopolies, to ir-redeemable Shinplasters and to fraudulent banking.

Run for office after office," and appointed to office after office, and who are they? Can it be the "Printer of the Laws." the collector of the Port and the Post Master? What a trio of influence, principle, benevolence, and virtue! What are they but tools, automatons, and hirelings? Did the people ever "appreciate their talents and merits" to bestow upon them any office of importance? "Indeed what a pity that such talents should go unrequited ?"

The printer of the Laws has been a perfeet maw upon the party for years, and now comes forward with his great claims for the office of Assemblyman-the people will "appreciate his talents and merits" and vote for whom they p'ease-"what a pity such talents should go unrequited!"

The printer of the Laws presented his strong claims for the office of collector of the Port: but the President in his wisdom "appreciated his talen's and merits," and he was under the painful necessity of still continuing to priot the laws. He was once nominated for the office of Alderman of the first ward in this city, but the people, the virtuous and enlightened people "appreciated his talents and merits" and he was under the painfal necessity of complying with their wise dec'sion, and let some more efficient man set in our Council. "Indeed what a pity such talents should go unrequited !"

We should like to know what prompted the Daily Advertiser to make such a despicable attack upon Dr. Faulkner. Was it because he had stopped his paper recently? Or was it because O'Reilly was overrun with bile, and was afraid that the hinges of his tongue would loose some of its oil, unless he gave it vent upon the first object that premented itself?

the address to the freemen, by Alderman Moore, if we thought the sale of it would be likely to defray the expense of printing.

awful to us, if they eatch us out after dark, The way we hurry home, when the shadows begin to lengthen, is sinful. "Beware of old maids and vidders Samivel !"

Some of our Wetumpka friends were hauled up before the church to take their trial, for several charges preferred against them. We have not beard the decision vet.

WATSON, in the Arcade says that he has some of the finest oysters ever opened in this city; as we did'nt believe him we went to ascertain the fact, and it turned out exactly as he stated, and if folks don't believe us, let them go and see.

Some infamous vagabond, entered our office yesterday, while our hands were at breakfast, and made pi of a case of type just distributed. We presume it must have been the work of some of the disaffected typos, who love vagabondizing and liquor, bet- full. ter than they do work, and think by this system of annoyance to bring us down to their terms, but they are sorely mistaken, and if we should have the good luck to catch a fellow at the pleasant business of destroying our property, we should give him good cause to wish he had never joined the strike, for we should make a "ten strike" of it, and knock his pins from under him somewhat quicker than a fellow could walk over a desert of gunpowder, shod with lightning.

Removing the Deposites .- Some

sistants digging among the ruins; and replied to interrogatories, that he was search ing for his daughter's bones. In the course of a few hours he found the said bones, in the shape of a vessel containing \$1,400 in gold, which he had deposited in the cellar of his now consumed dwelling for safe keeping. To remove the deposites from the ruined institution was, of course, the intended sequel of the digging process.

LIP LOSS OF A FRENCH SHIP OF WAR.-A letter to the editors of the Journal of Commerce, dated Monte Video, August 13th, says, "The French ship of war Active has been recently lost on the Island of Lobos crew all saved."

A Noble Set to .- A London paper mentions that a short time since, Lords Waldegrave and Castlereagh had a bout at fisticuffs in the Haymarket, where they happened to meet each other, when neither was in very amiable mood. Many blows were exchanged, and it is said the person of Lord Castlereagh suffered severely.

Ninety Feet of Children .- A man, up in Coventry N. H., is the father of nine sons and six daughters, all alive, and some of them probably kicking-who, were they to stand one on the head of another, after the manner of the Bedouin Arabs-whose queer feats at the Tremont and National as tonished peop'e so much last season-would form a living monument a trifle more than ninety feet high! and were the 'prop and support' of this progeny to be converted into a base - as he very properly might be-we should have a human family column, almost a hundred feet high! We should like to see such a co'umn locomoting up State street, on some pleasant day, during the hour of high 'Change,' as the Bedouin one used to do on the stage. It wouldn't be a bad move for them to exhibit themselves, coltemnarly, on top of what little there is of the Bunker Hill Monument. And by the way, another idea strikes us-pretty forcibly too-what a long "floating bridge" they would make .- Boston Trans.

At length the horse goes to the hammer -Some friends, who are put up to the scheme, get about him and keep you at a respectful distance. while an animated bidding goes on, until thinking the horse must be cheap to attract the attention of so many good judges, you are perhaps induced to nod your head to the auctioneer, when the hidding has reached 16 goiness. You find you just bid the very money he must be exactly worth-for, strange to say, no one of all the numerons host so anxious to possess him offers a penny above you. What is still more pleasant, you are urged on by some low vagabond at your elbow to hey the horse, who, when you have purchased him, hopes you will "remember him for his recommendation :" or, which is still more probable, he asks permission to bid for you assuring you that his brother dealers will not hid against HIM, and that you will thus get the horse cheap. This kind friend eventually asks a guinen for having him, and thus your £10 horse costs you about twice as much as he is worth.-Old Sporting Magazine for September.

A Fatal Duel was fought between Genera Gainme and General Bossier, near Natchitoches, on the 18th ult., and the former fell dead at the first fire. They fought with rifles. General Gainnie was the challenger. We have not learned the precise cause of the quarrel. Both gentleman were creoles, favorably known and highly respectable. The duel originated in some late circumstances connected with the affair of Dr. Normand and Rachel'e-an account of which we published not long since. General Gainnie, it appears, pobished an aritcle in one of the Natchitoches papers. reflecting, in some measure, on General Bossier, who had spoken favorably of Normand : this led to insulting words, when the parties (previously on v-ry good terms) met, a challenge was given General Gainnie, it is stated, was in the act of elevating his rifle, when it went off, the ball lodging in the ground. General Bossier, on the contrary, calmly and deliberately raised his rifle, and fire with deadly aim !- New York Sun.

Dran Sin-It is with feelings of unbounded gratitude, I take this opportunity of returning you my sincers thanks for the relief you have afforded me, by using your medicifie, "Hunter's Red Drop," after a long and protracted suffering of twelve months, in the West Indies, under the care of five eminent and far fames physicians, al of which were of the Colleges 1 London and Edinburgh, could not do me a r service; but after several courses of mercurial reatment, and the effects of the long confinem at to bed in a tropical climate, recommended to to proceed to a more northern latitude. Acting in accordance to that last remedy. I took passage for this city? after my arrival I placed myself ander the care of an old and eminent practitions and effect.—
Perceiving, in the journals of the laft, namerous proofs of the many successful cs to which had been effected under your treatment. I called open you withost even the means of getting the medicine; but you cheerfully gave it to me, and I am now sound, hearty and activ. I therefore, learlessly come forward, and stary hat your medicine and treatment, (if strictly lowed,) is the only true and secure remedy for so adjusting your medicine and secure remedy for so adjusting your ersal and mercurial taints from the system that exists to the present day; and should you think proper to make these lines public you are at lib erty to do so; and any person wishing to see me on the subject, you can also give them my address. THE HUMAN

Where the hair is observed to be growing thin. nothing can be more prosperous than the use of uils, grease, or any fatty matter. Their application can only be recommended through the gross est ignorance, as they hasten the fall of the hair, by increasing the relaxation of the skin. When there is a harsh, dry, or contracted skin, and where the small blood vessels which carry nonrishment to the bulb are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimulus to rouse the vessels from their torpor, and quicken the current of the blood. - Extract from Clirehugh's Treaties on the Hair.

The Bulm of Columnia is the only preparation that can have that effect, being entirely free from any oily substance.

CAUTION .- None can be genuine without a splendid steel plate engraving, on which is the Falls of Ningara, and Dr. Comstock's, the American agent's, name, &c.

We find the agitating typos begin to think that they can't have every thing as they would wish it, and are re-uming their work ag in. We do not dispute their claims to the amount asked, and think they should receive it, provided they are capa ble workmen, which is not the case with those who are now idle, for we believe all those who can set up a piece of cop as it should be, received all they a ked, and those who were the prime movers of this strike. and made the greatest outery, are never employed, except in case of emergency, when no others can be obtained. This is the sum total of the business, which made a "great ery and little wool."

There seems to be a great deal of specu ation on the subject of the Canadas. as to whether there will be another attempt made this winter to recue them from the thrall of monarchy. We have no doubt of it, the Patriots will persevere untill they have accomplished their end.

BEFORE ESQUIRE CLARKE. CRIM, CON.

An Etheopian vs. Black Jack the barber. This trial caused a great sensation in the espective circles in which the plantiff and efendant moved. For few very few ever arboured the idea that the amiable little Black Jack the barber was such a very Don Juan, as represented at the trial, to elo-e with another's wife, such however was the fac , little Black Jack the barber, insinu ted himself in the bosom of a family, and then destroyed he peace of a fond devoted husand, by cutting stick with his wife, the monster. The wretched husband did not call him out for coffee and pistols for two, but calmly let the law take its course. Here is subject for the moral reform society had they been as vigi ant as they should have been, little Black Jack the barber, would nev r had the law put in requisition against him, and the bereaved and broken hearted wou d have been following his daily occupation of loaferizing, as happy and delighted

We have always had our suspicions of lit le Black Jack the barber, ever since he would'nt pay us that dollar, but never thought he was such a lady killer, altho gh he wore false whiskers.

"Mesers. Brown & Wiley, hatters and partners: left this place in the stage about the 6th of July' and went to Mill's Point, where they embarked on the steamboat Wm. French for Smithland success of a cause depends somewhat upon Brown had appointed to meet a gentleman thereon business, and was to return home from that place-Wiley was to continue on to the Eastern cities to make a purchase of furs and trimmings for the use of their shop here-for which purpose they had been scouring this section of the country discount they had gathered three or four thou sand dollars in adver and carried it with them in

Brown not having returned and nothing being heard from either of them, a me-senger was despat led a few days ago to see if he could complices of their violence, and thus make gaber i dogs of them. He traced them to Mill's heavier the yoke under which we pretend Point-saw their names registered there-ascertained that they took passage on the steamboat Wm. French next day for Smithland; fell in with the captain of that boat, who said he landed them at Smithland. The gentlemen in jursuit then joine, with the eril design to impose upon the went to Smithland, where they were well public their pernicions trash, to the great injury known, and made diligent requiry, but n-body had seen them there. The gentleman that Brown was to meet there, waite till the 16th of July, and then wrote a letter to him there com thoning of his not coming. The inference is very strong that they have been murdered on board the steamboat or immediately after landing. (perhaps in he night) at Smithland, and that the trunk of dollar- was the inducement.

IT Here is a funny but from that droll genius, Prentice, of the Louisville Journal:

Our friend Kendall, of the N. O. Picayone. prived in Nashville on the 14th, on his way to this city. We expect him here hourly If any of our neighbours have occasion to hitch tired horses in the streets, we advise fistening them with very strong halters. Thus much we fel it our duty to say in vindication of our unlucky faced friend from an unmerited aspersion. Ugliness is not crime-and we never look upon the hideous features of poor K. without remembering, that, had an inscrutible Providence

ITALIAN FESTIVAL.

Having been told that a religious celebration, n n neig boring village on the sea shore, was well worth seeing, we drove there. A vast number of peasants, male and female, attired in their fete-day dresses, formed of such varied and bright colors, that at a distance they looked like a moving parterie filled with tulips, first attracted our attention. The women were richly embroidered boddice and white petticoats; their hair braided exactly as I have seen that of an antique statue, and crowned with flewers and large combs, or bodkins of gold filagres. Their carrings of the same costly material, nearly descended to the shoulders; and around their necks. were chains, from which hung crosses and medallions, with the images of Madonnas and saints, They were large rings, resembling the shields used by ladies to preserve their fingers when employed at needle work; and shoes of the most brilliant colors, with silver buckles that nearly covered the fronts of them. These gay dresses formed a striking contrast with the sombre black and brown rubes of the monks; and the gold brocaded vestments and stoles of the Priests were admirably releved by the snowy surplices of the boys who attended them The procession moved along under an areade of green foliage erected for the occasion, on the sen shore, the waves approaching to its very limit; and their gentle murmur, as they broke on the sand, mingling with the voices of the multitude as they chanted a sudorous hymn. The bine sky above, and the placid azure sea, by the side of which the procession advanced, with the nunbeams glanning The following narrative of the disappearance through the oren arches of folioge, on the bright of two respectable citizens of the town of Paris, colors of the dresses of the Priests and women, formed a beautifut picture ; from which, not even the deaths' heads, nor grotesque images of saints and martyrs, could detract. The monks, bearing these and mementoes of mortality, wore cowls, with holes cut for the eyes, and cross bones painted on their breasts. Some of them helbanners on which were represented various insignia of dea h: the whole scene reminding one of the old "mysteries" of the middle ages, in which the pomps and vanities of life were contrasted by the g'astly images of the grava .-Lady Blessington

TEW DAVID'S OR HEBREW PLASTER The particulars of this Chemical Com penad are owing to its extraordinary effects, upon the animal fibre or nerves, ligaments and muscles, its victues being carried by them to the immediate sout of disease or of pain and weak

However good any internal remedy may be, this, as on external application, will prove a powerful anxiliary, in removing the disease and faciliating the care in cases of Local Inflamma, tion. Scroffulous affections, King's Evil, Gout, Infismmatory, and Caronick Rheumatism, and in all cases where seated pain or weakness exist.

A gentleman trav-lling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plaster, and of the (as he considered) miraculous ourses it had performed, that he was induced to

He accordingly applied a planter on the right ride of the chest; where the pain was sented, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb ton of lazative qualities. He soon found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his peelth became permanently remented.

Since that time he has been recommending it to his friends and acquintances, for all fixed pains whatever; such as rheumatism, goot, head ache, nervous teeth ache, pain in the side, hips back and Jimbe, in every case of which, it has proved an effectual cure. He has tikewise witnessed the happy effects of its softening and healing people live that hay goods for Cash! qualities in numberless cases of scroffalous humore, knots, wens, white swelling, hard to nors, stiff joints, ague cakes, ague in the breast, and the like, to the united satisfaction of himself and others.

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, lameness, affections of the spine, female weakness dec. No female subject to pain or weakness in, the back or side, should be without it. Married Ladies, in delicate situations, had great relief from constantly wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, uhthisic and long affections, in their primery stages. It destroys inflammation by producing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, bruises and sores, than any plaster, salve or continent now'in use.

In view of the great benefits resulting from the are of this plaster within his own observa tion, his confidence in its infinite superiority over every other plaster, salve ointment or opodeldoc hefore the public, in this country, has induced this gentleman to place the Hebrew Plaster in hand of shore who will give it publicity; believing it will prove itself to a rich blessing to the community at large.

No puffing or great spread of certificates is intended. Toose who wish to satisfy themselves

of the efficiery of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum no half sufficient to pay for the insection of a single certificate into any of our most common prints a single time. This trifling price per box, is placed upon it, in order that it may be within the means of every affected son or daughter of the community; that all, whether rich or poor, may obtain the treasure of health, which results from its use.

Prompt attention will be paid to orders addressed to Messrs. C. COMSTOCK, & Co.;

DIRECTIONS. -Spread the plaster on a soft piece of white leather, very thin-and once in 4 er 5 days re spread it by adding a little more. Plaster. Apply it to any part that may be affect ed with any of the above diseases.

TARETHING INFANTS - Southing Syrup-A ashetitute for the Lancet in painful dentition. By the use of the Luncet, the gums are not only rendered callous but the teeth are not unfrequently turned out of their true position, and made to ride over each other.

This syrup is calculated to obviate the necessity of the Lancet, by relaxing the tense membrane which envelopes the tooth, thereby facilitating the passage through the gams; and by its soothing properties diminishing the irritability and consequently proventing the distressing and frequently fital symptoms attendent on dentition.

FOR PRESIDERT

GEN. WINPIELD SCOTT

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY -One Presidential term-No interference in elections by Government Officers -A uniform currency of gold and silver; or bank notes at all times redeemable in specie on demand - An Independent Trea. sury under the exclusive control of Congress-Opposition to monopolies, to irredes nable Shinplasters and to fraudulent banking.

CANDIDATES FOR THE LEGISLA. TURE.

The Van Buren party has nominated Tucker of Irondequoit-Seymour of Sweden, and Voorhees of Mendon. Thus we see, that the Rochester federal regency does not consider our city with a population of 20,000 entitled to a representative at Albany. The whigs have nominated Derick Sibley, an abolitionist as their centre cand date. So far then as a candidate for the city is concerne!, the only one now in the field is an Abo'itionist. The Democratic Scott Party propose to offer a candidate for the city who is no abo'itionist -no federal st -and no office holder. He is a man in whom men of all parties have confidence. and who would represent the city ably and honorably. Here is the nomination.

> FOR ASSEMBLY. ROBERT L. McCOLLUM.

The Republicans who are opposed to the dictation of O'Reilly, Tucker, & Co. will vote for the veteran Jackson man. McCollum. The whige who are opposed to abolition, will vote for McCollum. The friends of the Hero of Chippewa-the friends of our young and enterprising city -honest men of all parties will vote for McCollum. Our candidate is in the field! Rally to the rescue! Set the friends of McCollum to organize immediately; throw off the tramme,s of party and give their candidate a hearty sup-

GREAT NEWS.

THE U. S. BANK RESUMED!-We are happy to inform our reade s that the financial troubles are at an end. It will doub less be remembered that Mr. Nicholas Biddle the "Great Financer" a few months ago retired to his farm on the banks of the Delaware, and engaged in the culture of Morus Multicaulis. No wonder the Bank got into trouble after Mr. Biddle re ired. It was just so with the government at Washington when Gen. Jac'son left it "prosperous and happy," and retired to the Hermitage. But the Bank has called Mr. Biddle back, and the Government will be obliged to re-call General Jackson. We understand that when Mr. Biddle was sent for to consult with the gentleman of the Bank Parlour, he offered to furnish the Bank with any quantity of morus multicaulis trees, with which to redeem the rotes of the Bank. The trees will be counted at fifty cents each, and it is understo d the Bank will redeem at once.

Financering is the thing after all. It is also rumosed, that the Post Notes of the Bank will soon be redeemed principal and interest in full, in Rohan Potatoes. After all, Biddle and Jackson are the great men of the age. They left their respective Presidences with the people and the Bank " prosperous and happy," -- and both people and bank were in a devil of a fix, shortly afterwards - Laus Deo.

President Van Buren arrived at Baltimore on Tuesday afternoon, and took lodgings at Barnum's City Hotel, where he received the visits of his friends. In the evening there was a procession in honor of the recent victory obtained by the administration party in Maryland .- Public Ledger.

IF If Butterfield, the Star man, perpetrates any more witicisms, we shall have to get hooped, to save us from spliting our sides-we shall positively.

We shall relieve the anxiety of the public mind, by reporting from time to time how that serenading gets along.

BARON HACKETT, the celebrated commendian, died at New Orleans of yellow fever, last month.

IT We have ascertained all about that serepade on St. Paul Street. It appears that the beautiful and fascinating Miss ** " in whom all the lovliest attributes and qualities of woman are fully developed, has the misfortune to be beset with a brace of devoted admirers. Whether their admiration is bestowed upon the lovely creature we have mentioned, or upon the broad lands, leases, tenaments, mortgages bonds or bank stock of her father, the "deponent saveth not." It is to be one or the other, or perhaps both, the two gentlemen have laid seige, and as but one can have the desirable objects, they are trying to outvie each other in attention to the lady. Who ere the two that Cupid has winged? They are strangers, who have left home with the proverb, 'a prophet, &c." appermost in their minds .-One we believe is a Missouri lead mine speculator, who plames himself upon his fortune in perspective, the other is a travelled gentleman, not a strolling player reader, but a gentleman who has made the "grand tour" of the continent; has seen the tower of London, read the inscriptions in Westminister Abbey; crossed from Dover to Caltas; threw up his dinner during the voyage; saw Paris was inveigled into gaming boase, lost a couple of napoleons, was made love to by a sham duchess whose paste jewels, he mistook for diamonds; been all one moonlight night open the Rhine: was at Rome, discovered that it was not built in a day ; saw the interior of St Peters, with its handred lamps burning over the lumb of St. Peter, saw lovely female statue, covered with bronze drapery, because its exquisite beauty was thought dangerous to the morality of the young priests; was in the "Palaces of the Cusars;" stood when Brotes and the patriots, Cataline and the conspirators, and the great stranger in Rame, St. Panl, as he gazed at the false altars, and burning in his heart to reveal the "suknown God," berini palace, to see the portrait of Beatrice Cenci. by Guide, also the masterpieces of Raphael. Titian, Vandyck. Claude, Nata, Leonardo Da Vinci, and a thousand others. Then made tracks home again to tell of things he had seen, besides many he had not seen. Taking these things all into consideration, he almost took the wind out of the "lead mine man's sails, who, to k p alongside was obliged to hold out the idea that he had the "pewter." Then the way presents were showered down upon the lovely one by the contending parties, were sufficient to re-furnish her boudoir. Then the continual strain about lead mines, Palias Royall, Missouri indians went post haste to Phi'a., and immediately Italian princesses, searching for ore, borse races on the corse, amount of profits on last years specplation, and Taglioni, that is dinned in her same is not to be endured; besides flattery and flat speeches, gallantry and gummon are not the only annovances she is subject to ; but they both sere nade her. The "travelled gentleman" not content with making "night hideous" and disturbing the neighbourhood with rational music, must needs croak out "De tanti palpiti" Zitti Zitti" "Di piacer" "Pescutor del ouds," or something else he has heard Malibran or Grisi, warble forth while the "lead mine man" who has not travelled flares up, with, "Come down to me love," "Barney Bralagan" or "sittin on a rall. A few nights since when the clock commenced striking little ones, the "travelled gentleman" seated himself upon one of the gate posts and began to "carol forth bis lay" when the "lead mine wan" presen ces, now make a stipulation with their land- ted himself, and nothing daunted at the apparation of the "travelled gentleman" upon the gate post, seated himself upon another, and began to warble his notes. Shades of Mozart and Bellini what sounds! As neither of our heroes were to be "bluffed off ' daylight appeared and found them dos a dos, while they still in "dismal discord

Public expectation is not only on tiptoe, but like Mahomet's coffin half-way between heaven and earth, to see how this affair will terminate or who wins the lady. We prophecy neither, for the splendid creation, upon which all the artillery of these adventurers are brought to bear, will make a choice worthy of herself-she would have the substance, not the shadow.

MISERIES OF A POLITICAL PAGEANT!-The President's Philadelphia Pageant was signalized by a sacrifice of life and a complication of miseries, the recital of which makes the blood chill. The Philadeiphia papers groan with the account of human horrors which Van Buren's miserable parade inflicted upon their citizens. One man received a dangerous bayonet would. A child looking at the show, fell out of a window and was killed. A feeble old man was run over by a rail road car. An ther was crushed by an omnibus. Two boys were trampled on by the troop of dragoons which attended His Majesty. A man who was kicked by a horse was not expected to live.

All this suffering was occasioned for the purpose of promoting the political views of a man who is destitute of every human sym. pathy and every generous emotion-a man so sordid that he would not give a shilling to save the wives and children of the victims who were destroyed by his Juggernant, from

Naw Yoar, 50th March, 1839.

Dran Sin—It is with freeings of unbounded gratitude. I take this opportunity of returning you my sincere thanks for the relief you have afforded me, by using your net licine. "Hanter's Red Drop," after a long and protracted suffering of twelve months, in the West Indies, under the care of five eminent and far femed physicians, al of which were of the Colleges of Louden and Edinburgh, could not do it any service; but after several courses of mercognil treatment, and after several courses of mercognil treatment, and the effects of the long confin tment to bed in a tropical climate, recommend due to proceed to a more northern latitude. Acting in accordance to that last remedy. I took passage for this city; after my arrival I placed myself under the care of an old and eminent practitioner, who attended me continually for three months to no effect.—Perceiving, in the journals of the day, namerous proofe of the many successful cares which had been effected under your tree cment. I called upon you without even the mans of getting the medicine; but you cheerfully are it to me, and I am now sound, hearty and i live. I therefore, tearlessiy come forward, and i to that your medicine and treatment, (if strict) followed,) is the only true and secure remedy for eradicating yeuonly frue and secure remedy for eradicating veu-ersal and mercarial taints from the system that exists to the present day; and should you think proper to make these lines public, you are at lib erty to do so; and any person rishing to see me on the subject, you can also five them my ad-dress. And believe me to i main, ever your grateful friend.

However good any internal remedy may be, this, as an external application, will prove a powerful auxiliary, in removing the disease and faciliating the cure in cases of Local Inflamma. tion. Scroffulous affections, King's Evil, Gout, Inflammatory, and Chronick Rheumatism, and in all cases where seated pain or weakness exist.

A gentleman travelling in the south of Europe and Palestine, in 4971, heard so much said in the latter place, in praise of Jew David's Plaster, and of the (as he considered) miraculous cures it had performed, that he was induced to try it on his own person, for a Lung and Liver affection, the removal of which had been the chief of his journey, but which had resisted the genial influence of that balmy and delicious oimate.

He accordingly applied a pluster on the right side of the chest, where the pain was seated, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb tex of laxative qualities. He soon found his health improving, and in few weeks his cough fest him, the sallowness of his skin disappeared, his pain was removed, and his

health became permanently remstated.
Since that time he has been recommending it to his friends and acquintances, for all-fixed pains whatever; such as rhenmatism, gout, head ache, nervous teeth ache, pain in the side, hips back the happy effects of its softening and healing people live that hay goods for Cash ! quantities in numberless cases of scroffalous husuff joints, ague cakes, ague in the breast, and the line, to the united satisfaction of himself and

This plaster answers a far better purpose for dressing wounds, bruises and sores, thus any plaster, salve or ointment now in use. In view of the great benefits resulting from

the are of this plaster within his own observa tion, his confidence in its infinite superiority over every other plaster, salve ointment or opodeldoc hefore the public, in this country, has induced this gentleman to place the Hebrew Plaster in hand of those who will give it publicity : believing it will prove itself to a rich blessing to the community at large.

No puffing or great spread of certificates is intended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum no half sufficient to pay for the insertion of a single certificate into any of our most common prints a single time. This trifling price per box, is placed upon it, in order that it may be within the means of every affected son or daughter of the community; that all, whether rich or poor, may obtain the treasure of health, which results from its use.

Prompt attention will be paid to orders addressed to Messra. C. COMSTOCK, & Co.,

THE HUMAN THE ALEXA

Where the hair is observed to be growing thin, nothing can be more prosperous than the use of oils, grease, or any latty matter. Their application can only be recommended through the gross est ignorance, as they hasten the fall of the hair, by increasing the relaxation of the skin. When there is a harsh, dry, or contracted skip, and where the small blood vessels which carry nourishment to the bulb are obstructed, then the oils, &c., may be good, as they tend to relax the ekin; but alone they are of no avail. There must be a stimulus to rouse the vessels from their torpor, and quicken the current of the blood .- Extract from Clirehugh's Treaties on the Hair.

The Bolm of Columnia is the only preparation that can have that effect, being entirely free from any oily substance.

FEVERANDAGUE PERMANENTLY CURED IN ALL CASES,

GENESEE VE TETABLE

EMEDIES.

These Medicines are fat bfully perpared from the receipt of a disting alshed practitioner of Medicines, by whom they were first invented, and used in the Hospitals 6. New York, in nearly all the cases of Fever sol Auge that occurred during the years of 1812, 13, 14, and 1815, and

during the years of 1812, 13, 14, and 1815, and afterwards introduced into the Genesee country, and used in his private practice, with a success unparralled in the history of Medicine.

The Genese Remedies, which are prepared without Quinine or any preparation of Bark's.—Consist of two kinds of Pills—one of which operates by thoroughly cleaning the system from all the stale and acid Bile, i dich is the very seed of the disease. And the other by giving strength and vigor to the same, is ariably restores the patient to perfect health in a very short time, and patient to perfect health in a very short time, and generally by the use of a stigle package, if the

directions are adhered to.

As a preventative of Fer ir and Ague and all Billious Fevers, so preveloit at the West, they deserve a decided and district recommendation: Were they used at short nervals during the sickly season, they would be found in every instance to keep of those divising disorders, to which the people every summer are the unfor-tunate victims. And which bave not generally found a remedy in the too common use of Quanine and Tonic Mixtures; but in many cases ag gravated and made worse.

Having the follest confidence in the Medicine, they were in the beginning, issued and have always been sold under a costine conventee, to refund the money in all case for failure. Within the last year they have been used in many hundred cases, and out of the bole number but ope case has yet been made known, where a permanent case has not been effected. nent care has not been effer led.

The proprietor has the u most confidence that they will be found equally are in the West—as they have already been use to some extent with the most happy results, is will be seen by referring to a few Certifically on the inside direction.

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY -One Presidential term-No interierence in elections by Government Officers A uniform currency of gold and silver; or bank notes at all times redeemable in specie on demand - An Independent Treasury under the exclusive control of Congress-Opposition to monopolies, to irredeemable Shinplusters and to fraudalent banking.

THE GAME NOT WORTH THE AMMUNITION. -Sportmen never value their ammunition unless they are short. Being well supplied we hav been firing for a long time at small game, perfec ly regardless of our ammunition. 'We never considered the game worth looking after, but it was the best we could scare up among the loco-focos, and fire we must, let the game be ever so smal'. What kind of game is the Collector of the Port, the Post Master, and the would be Assemblyman, a ias the printer of the laws? Not worth a priming.

We have concluded for the future to pass by the eduor of the old Federal Daily Advertiser, and not fire, for our sights are fine, and it takes up too much time to get our eye upon-he is nothing but a shadow any how. We have squinted more than once to see Luther and the next time we get our eye fair'y upon him, we shall deprive the next Legislature of his valuable services. What a pity it will be to loose such brilliant talents in the Council of our State!

"O, blood, lago, blood."

The "travelled gentleman" and the "lead mine man" are about to bring their into the world, like one long buried, coming forth worldly affairs to a focus. The gate post for the fu ure will have but one, if any occu- ous life. pant. They are to decide the question by a resort to a sawpit, and like the Killenny cats, intend to use each other up. We shall have an excitement at last, a real bloodydouble-dis-illed out-and-out - yard-arm-andyard arm-eight-pace duel, is to come off somewhere in the vicinity of Mount Hope ; all of which originated in a dispute about their claims to the affections of the beautiful Miss -, who will probably bestow herself upon one, while the other like

" Tybalt, yet but green in earth, Lies festering in his shroud."

Mr. Harry Harrison! MR. HENRY HARRISON!! MR. HENRY HARRISON!!! of State street, list O! list. Your neighbors say they will pay for the Sun, if you will subscribe for it. To be obliged to wait every morning, until you have spelt the paper through before they can read it, is more than they can bear.

To We shall soon know, whether the folks on St. Paul-st. are to have their ears regaled with "Clore de Kitchen" &c. of the "lead mine man," or whether they are to be thrown in raptures with the more refined productions of Rossini, Bellini, Auber, and the centimentalities of Moore, by the ' travelled gentleman" who only comes the "tifies" with the grand masters, by this means they will be able to ascertain who was the survivor in this "doubtful shock of arms."

We would advise Fenton, the banker, to come or send some one, if he's afraid to trust himself in this vicinity to look after his vagabond shopboy, for at present he is walking in the "foots eps of his illustrious predecessor," and every day shortens the distance between him and the gallows.

Our friends, the Trues, are again replenishing their stock of goods, which for richness and variety surpasses anything they have ever before offered to our fair ones of Rochester. If there is anything we can boast of, it is our dry good stores, and for a specimen we would call attention to that of True's.

To One of the twain, who has figured so conspicuous'y on the top of the gate post was about to commit the rash act, as the newspapers would say, by blowing out his his powder, as he had no brains to spare.

"Possum up a gum tree."-A literary opossum lately entered the library of a gentleman in Norfo'k, and ensconsed himself on a vacant shelf. The ingress, for so studiously disposed a gent'eman, was made in rather a clandes ine manner, he having entered by means of the chimney. In his anxiety, it is supposed, to peruse some of the volumes, he kicked Ben Johnson off the shelf, opset Miss Edgeworth, and tore the knight of La Ma cha into fragments !- thus alar ming the household, who, unmindful of his literary-predilictions, fell on, and stoutly belabored him. We are free! We feel it in one general sensa. tion of glowing, thrilling extacy, which pervades every fibre of our flame. We feel it in the pure. delicious sir, in the bright and glorious sky, and the beauties of the earth around us. One day of aptarous existence, with sensations like these is worth months of life, to those who have never experienced what we have endured.

On Wednesday, between one and two o'clock, amid the cheers and congratulations of hundreds who had assembled to welcome us to liberty, the prison doors were thrown open and we waiked from the charnel house, into the world of beauti-

We drave off into the woods. We left the carriage and run into forest, out of sight and hearing, to enjoy all alone the wild delight of perfect freedom. We are free! The trial is past. We have tried to endure it like a philosopher; and though the glorious contrast we are now enjoying, increases the horrors of the past, yet in such a cause, and under the same circumstances, we would set as we have. THE BANKS .- There was nothing in Wall street yesterday-nothing in the city or in the tone of Public opinion, to change our opinions already so strongly expressed, of the continuance of the banks in the path of honor and honesty which they have marked our for themselves. The banks do not wish to suspend specie payments, the people do not wish them to suspend, the laws of the land forbid them to suspend, and the laws brains, but his friends advised not to waste of honor and probity forbid them. JEW DAVID'S OR HEBREW PLASTE.R.
The particulars of this Chemical Com. pound are owing to its extraordinary effects, upon the animal fibre or nerves, liguments and muscles, its virtues being carried by them to the immediate seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful auxiliary, in removing the disease and faciliating the cure in cases of Local Inflamma, tion. Scraffalous affections, King's Evil, Gout, Inflammatory, and Chronick Rheumatism, and in all cases where seated pain or weakness exist.

A gentleman travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plastor, and of the (as he, considered) miraculous cures it had performed, that he was induced to try it on his own person, for a Lung and Liver affection, the removal of which had been the chief of his journey, but which had resisted the genial influence of that balmy and delicious cli-

He accordingly applied a plaster on the right ade of the chest, where the pain was seated, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb ten of laxative qualifies. He soon found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his health became permanently remstated.

Since that time he has been recommending it to his friends and acquintances, for all fixed pains whatever; such as rheumatism, goot, head ache, nervous teeth ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual cure. He has likewise witnessed the happy effects of its softening and healing people live that buy goods for Cash! quantities in numberless cases of scroffulous humore knots, wens, white swelling, hard lumura stiff joints, ague cakes, ague in the breast, and the like, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the sumack, weak limbs, lameness, affections of the spine, female weakness dec. No female subject to pain or weakness in, the back or side, saduld be without it. Married Ladies, in deliwearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, uhthisic and long affections, in their primery stages. It destroys inflammation by producing a copious perspiration. No physia far better purpose for dressing wounds, bruises and sores, thin any plaster, salve or ointment

In view of the great benefits resulting from the are of this plaster within his own observa tion, his confidence in its infinite superiority over every other plaster, salve ointment or opodeldoc before the public, in this country, has induced this gentleman to place the Hebrew Plaster in hand of those who will give it publicity; believing it will prove itself to a rich blessing to the community at large.

No puffing or great spread of certificates is intended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum no half sufficient to pay for the insertion of a single certificate into any of our most common prints a single time. This trifling price per box, is placed upon it, in order that it may be within the means of every affected son or daughter of the community; that all, whether rich or poor, may obtain the treasure of health, which results, from its use.

Prompt attention will be paid to orders addressed to Messra. C. COMSTOCK, & Co., Rochester.

Frice per single box 50 cents.

DIRECTIONS .- Spread the plaster on a soft plece of white leather, very thin-and once in 4 or 5 days re-spread it by adding a little more Pinster. Apply it to any part that may be affect of with any of the above diseases.

THE RESURRECTOIN OR PERSIAN PILLS raise from the greatest weakness, distress and suffering, to a state of strength, health and happiness. Many there arc, who have said in their hearts, there is no help for me, who have been raised by them, to pristine health and vigor. They assuredly have healing virtues which no other medicine in this country possesses. Every individual has found, and will couline to find them to supersede the necesatt of any, and every other medicine, which can be produced in America. If the purchaser does not find them to be superior to any article advertised in the public prints, for the diseases a entioned in the large bills which accompanies each box, when taken according to the directions their money will be refunded on the return of the box. We discard the idea of publishing a long list of certificates, or puffing them into use, by publishing a column in each periodical. A treatise on the prominent diseases, their symptoms, and manner of core, a history of the medicine, together with many valuable certificates, from physicians and others, the authors of which may be called upon, or referred to by written communication, can be obtained gratis, by calling on any one of the agents. Let no one be discouraged however despairing their case may be, until they have tried the Persian Compound, for the most incredulous have been obliged to acknowledge its superiority in quelling diseases which no other medicine could reach They are the cheapest as well as the best medicine in use. Price 63 cents per hox containing 73 pill, half hox 31 cents containing 35 pills, &c. The use of one box will be more convincing than a volume of certificates

TREETHING INFANTS - Southing Syrap-A subsutute for the Laucet in painful dentition. By the use of the Luncet, the gums are not only rendered callous but the teeth are not unfrequently turned out of their true position and made to ride over each other.

This syrup is calculated to obviate the necessity of the Lancet, by relaxing the tense membrane which envelopes the tooth, thereby facilitating the passage through the gams; and by its soothing properties diminishing the irritability and consequently preventing the distressing and frequently

fatal symptoms attendent on deptation. Carefully prepared by Geo. W. Merchant, Chemist, Lockport, N. Y. Price 50 cents. J. M. WINLOW. For sale by

FRIDAY OCTOBER 25.

FOR PRESIDENT GEN. WINFIELD SCOTT

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY -One Presidential term-No interference in elections by Government Officers -A uniform currency of gold and silver; or bank notes at all times redeemable in specie on demand—An Independent Trea. sury under the exclusive control of Congress-Opposition to monopolies, to irredesmable Shinplasters and to fraudujent banking.

SCOTT REPUBLICAN CANDIDATE. FOR ASSEMBLY,

ROBERT L. McCOLLUM,

OF THE CITY OF ROCHESTER.

We've a tolerable voice and a banjo any person wishing to serenade their lady love, can hire us on reasonable terms. We can come the flourishes in all sorts of music, from the lulaby of Mother Eve, to music of the last opera. The way we put the "big licks" into " still so gently," and the seremades from "Il Giovani," "Tancredi," and " My native land" is nobody's business. We are just as familiar with every crochet, quaver, demisemiquaver in "Oh Hush" as Rice bimself. We would therefore offer our services to mount any gate post, or in opposition to any amateur vocalist, at reasonable rates, payable in advance.

N. B. Moonstruck gen lemen must per ceive they will possess superior advantages over any rival by securing our services.

The Democrat has got in the right track at last. Neighbour Sheppard goes f r Scorr, tooth and nail. We'll do something for him when we get that office under Scott. He shall have a nice " sop in the pan."

The Advocate is throwing its grape, canister, and chain shot at Hyatt; but they ean't hit him for he'll entreuch himself behind his cane. Rather "small game."

Equestrian exercise is becoming very fashionable among our fair ones. We onw our friend John I Riley who we believe sets the fashions, leads the fon, and is at the head of the exclusives, with some four or five ladies under his charge.

After trying to "come it" in every possible shape, our friend Betterfie'd, the Star man, has turned steam doctor at last, and proposes to administer every evening a dose of ipecac, not in the shape of lozenges who had swellowed a small item of it, heavfrom his body.

The "great card" and chief attraction in New York at the present writing, is plays the violin, leads the orchestra, and jumps Jim Crow. We have got a "bigger fish" than that; we have the great draught player, who can lose his \$25,000, at a single move without heeding it, as he never thinks of paying.

Half-qualified printers, vide Star.

Citizens in the neighborhood of St. Paul street have quite peaceable times of it, no more " midnight melodies."

Wonder if the "lead mine man" is not an acquaintance of Baron Leicrantz, who figured so extensively at New York some time since, and was afterwards discovered to be the valet of a German gentleman.

If he was not, probably he procured a leaf out of his book

The New York Westchester Spy, a loco foco paper, calls GENERAL SCOTT a " Hessian Emissary !" This is quite complimentary.

BANKS IN VIRGINIA-It appears from notice issued by the cashier of the Bank of the Valley in Virginia, that that institution is prohibited by the Banking Law of the State, from renewing any note, so long as it fully committed Raymond for trial at the Ses suspends the payment of specie.

Stocks have generally declined. The N. Y. Com. of Monday says: A highly respectable committee of merchants and traders presented a petition to the officers of our city banks, urging upon them to receive in deposit all the notes of the Safety Fund banks of this State, and to pay out the same in their usual business. We understand that the committee was assured that the subject would be duly considered.

The report of the suspension of the State Bank of New Brunswick is untrue.

PROVIDENCE MONEY .- The Providence Herald of Saturday says: "We are informed that Providence money was offered by the passengers in the Rail Road cars at Tauuton on Thursday last, which was refused, except every dollar!"

NORTH CAROLINA BANKS .- The Petersburgh Intelligencer states that the North Carolina Banks have suspended specie pay-

The new Methodist Episcopal Church, on the Jersey side of the river Delaware, opposite Philadelphia, was destroyed by fire on Sunday last.

The Ohio banks seem to be in a trepidation as to the consequences of suspension. Should that measure be necessary, every bank that suspends becomes by law sequestered property to the State, and is immediately handed over to the Sheriff by the Circuit Judge.

The Chevaller Candido de Fabia, who was received on the 2d instant, by the Secretary of State, as the Charge d'Affairs of her Most Kaithful Majesty, the Queen of Portugal, the Globe says was on Thursday presented in his official character to the Presi dent by Mr. Forsyth.

A Mr. E. P. Hitchcock, dentist, of Madison county, was found dead near Green ville, Tenn., on the 5th inst. The sulky in which he had been travelling, was near him overturned. As. Mr. H. was in the last stage of consumption, it was believed he died of that discase.

PRACTICAL AMALGAMATION-ITS HORRORS -On Saturday afternoon, a Scotch girl, of a very prepossessing appearance, named Hannah Hasksson, aged 20 years, was discovered in a room in the house, rear of No. 40 Roosevelt street, lying upon the bare floor, in a state of great exhaustion and suffering, from wounds and bruises she had received from a black rascal named Charles Raymond, with whom she said she had been living as his wife, and who had most ernelly beaten her on Wednesday night and left her, where she remained without nourishment or assistance till Saturday, when she was discovered or any other respectable form, but in the dis- in the situation we have above described. Through guine of the Star. We saw one poor fellow the kindness of some benevolent citizens she was removed to the Lower Police, where she reing and setting, as if his soul was parting ceived the proper care and attention, and the black villian was arrested and secured in the City Prison.

Yesterday morning the female was sufficiently revived to be enabled to be brought before Justice Mrs. Fitz Williams of the Park Theatre, who Bloodgood, where she related her piteous tale, in substance as follows:

"She was born in Glasgow, where her father, who is a respectable slater and plasterer is now living. For some thirteen months previous to August last she served in the capacity of chambermaid, in the family of an acquaintance of hers in Glasgow. In the same court where her employer resided, was also another family, with whom the negro above named, hired as a waiter, She once or twice met with the villain, who by representations that he possessed wealth and character in New York, induced her to elope with him to Liverpool, where they would take passage together. At Liverpool they embarked together, (she as the negro's wife) on board ship Isanc Carrington. The vessel left Liverpool on the 20th of August, and arriving in this city, they took the quarters we have before described, in Roosevelt st. In a few days, finding that she had been deceived by her "Othello," she begged of him to let her go to some other place, at which he became enraged, struck her several blows which felled her to the floor, then beat and kicked her till she became insensible, when he rifled the apartments of every article of value, even to her body lines, and decamped, leaving her in the helpless and deplorable condition in which she was found. Justice bloodgood having reduced her statement to the form of an affidavit, had her conveyed to the Almshouse Hospital, and sions. - Cour. & Enq

DEATH OF YOUNG COMEN. - Nathan Coben the young man who was on Thursday so severely wounded by a pistol discharged by Abram Sompowski, died in the city hospital on Saturday afternoon. The coroner held an inquest upon the body which resulted in a verdict of accidental .-Sompowski, who was till then confined in the city prison, was liberated from custody .- Cour. &

The Banks in Wheeling had not suspended at the last accounts. A meeting of civizens had been held at which the Banks were advised to suspend, but they had not determined to do so ou the 17th inst.

A negro servant having one day received a reprimand from her mistress for some trifling of fence, was so much irritated that she went directly out, kneeled down, and made the following with an addition of a ten cent piece to prayer, "O, good masse Lord! come take me rite out dis worl dis berry minute; if you can't come yourself, send de debble, or any body

> Van Amsuron .- The most absurd statements about Mr. Van Amburgh are making the round of the French press. In a sort of biography of that gentleman we are told that his favorite amusement in America was to walk into the woods and tame bears, which he left at liberty, and visited from time to time as old acquaintances. One bear, which he called Job, was, however, his travelling companion. Being at sea with this bear, Mr. Van Amburgh saw a shark, and jumped overboard with an iron bar in his hand, to tame the monster. The shark, however, got hold of the bar, and having let it drop to the bottom, was about to make a meal of the man who had volunteered the task of civilising him, when, in despair, Van Amburgh called to Job, who was quietly looking on, confident of his master's power, and expecting to see the shark come on board a docile pupil. Job obeyed the call, and jumped overboard to assist the shark tamer. He immediately (says the biographer) caught the monster round the waist, and with one fraternal hug squeezed the breath out of his body. The shark was drawn into the ship by means of a hook; and Job, as the reward of his valor, was permitted to partake of the soup which the crew made from his fins.

TEW DAVID'S OR HEBREW PLASTE R The particulars of this Chemical Com pound are owing to its extraordinary effects, up-on the animal fibre or nerves, ligaments and muscles, its virtues being carried by them to the immediate seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful auxiliary, in removing the disease and facilitating the cure in cases of Local Inflamma, tion. Scroffulons affections, King's Evil, Gout, Inflammatory, and Caronick Kheumatism, and in all cases where seated pain or weakness exist.

A gentleman travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plaster and of the (as he considered) miraculous cures it had perfermed. that he was induced to try it on his own person, for a Lung and Liver affection, the removal of which had been the chief of his journey, but which had resisted the genial influence of that beimy and delicious cli-

He accordingly applied a plaster on the right side of the chest, where the pain was seated, another between the shoulders, and one over the region of the liver. In the mountime, he drank freely of an herb tea of laxative qualities, He soon found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his health became permanently remarated.

Since that time he has been recommending it to his friends and acquintances, for all fixed pains whatever; such as then matism, gout, head ache, nervous teeth ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual care. He has likewise withesed the happy effects of its softening and healing people live that buy goods for Cash! quantities in numberless cases of scroff alaus humars, knots, wene, white swelling, hard to ours, stiff points, agne cakes, ague in the breast, and the like, to the united satisfaction of timself and

It has likewise been very heneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, lam-ness, affections of the spine, female weakness 4.c. No female subject to pain or weakness in the back or side, should be without it. Married Ladies, in deliwearing this plaster.

The application of this plaster between the colds, coughs, phthisic and long affections, in their primery stages. It destroys roflammation by producing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, bruises and sores, than any plaster, salve or eintment now in use.

In view of the great benefits resulting from the are of this plaster within his own observa. tion, his confidence in its infinite superiority over every other plaster, salve outment or opod-life hefore the public, in this country, has induced this gentleman to place the Hebrew Plaster in hand of hose who will give it publicity; believing it will prive itself to a rich blessing to the community at large.

No puffing or great spread of certificates is in-tended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters. for 50 cents; a soin not half sufficient to pay for the insertion of a single certificate into any of our most common prints a single time. This triffing price per box, is placed upon it, in order that it may be within the means of every affected son or daughter of the community; that all, whether rich or poor, may obtain the treasure of health, which results from its use.

Prompt attention will be paid to orders addressed to Messrs. C. COMSTOCK, & Co.,

THEETHING INFANTS - Southing Syrup-A substitute for the Laucet in painful dentition. By the use of the Lancet, the gums are not only rendered callous but the teeth are not unfrequently turned out of their true position, and made to ride over each other.

This syrap is calculated to obviate the necessity of the Lancet, by relaxing the tense membrane which envelopes the tooth, thereby facilitating the passage through the gums; and by its soothing properties diminishing the irritability and consequently preventing the distressing and frequently fital symptoms attendant on dentition.

SPECIE PAYMENTS.

THE POSITION OF NEW YORK.

The latest intelligence from New York represents the pressure in the money market as encreasing; in fact it has r ached a degree of intensity altogether unparalleled. The merchants are breaking by bundreds and those who continue to meet their payments at the Panks, are enabled to do so only by enormous sacrifices. It becomes a suffering and nearly ruined people, to examine carefully the present position of the Banks of this State. There is no demand for specie for domestic use. The public are satisfied of the perfect solvency of our Banks, and prefer their bills to specie. The demand for specie is to send abroad, to pay the merchants and manufacturers of England for British manufactures. These foreign debts were contracted with the expectation of paying them in cotton at about the price that staple bore when the debts were contracted. But the action of the Bank of England knocked the price of cotton down one half, and now, our merciless foreign creditors demands the ballance in specie. The Banks of Philadelphia, with a degree of patriotism worthy of all praise, refuse the " pound of flesh', to the foreigner. They have suspend ed, but no one doubts their solvency or the ultimate goodness of their notes. They are enabled now to discount freely, and the citizens of Philadelphia will ride out the storm in safety. Suppose the Banks of New York were to follow the example, and refuse to pay our merciless foreign creditors in coin? Would any citizen consider them bankrupt ? would the goodness of their bills be doubted? By no means. The foolish and wicked attempt of the N. York Banks to exact specie of its debtors, in order to pay specie to foreigners, will if persisted in long, ruin the State. The Banks in the city of N. York in by a black man, and put in the "hole in the make no discounts-but require their debt- wall." It was about 12 o'clock when he was those who keep up from day to day, do so by the most ruinous sacrifices. The farmers and merchanis of the interior will soon fe-1 the effects of the cat throat policy of paying specie to foreigners, in a degree ten fold more intense than they now do. The banks are afraid that if they suspend they shall loose their charters. And to the same the special privileges of a few chartered monopolies, the merchants must be ruined by thousands, and the farmers made to suffer the consequences of an enormous depreciation five o'clock, when a woman was brought in very of the value of their produce. The Banks drank, and as usual, went to put her in the hole of the city of New York are now trying the "experiment" recommended by the foreign radicals who follow in the wake of Tom Benton, viz: A REDUCTION OF PRICES TO THE STANDARD OF GOLD AND SILVER. This sud den reduction of every thing to the specie the prisoners after five o'clock. Have not seen standard by the New York Banks will carry the deceased since he died. Here the testimony devastation and destruction into every vil- ended. lage and hamlet in the State. It will make the Banks odious with the people-they will be looked upon by the entire business community as persecutors and oppressors. We are in favour of Bank notes for circulation redeemable at all times in specie on demand ; but when the question is presented in the shape it now is, viz : the payment of specie to foreigners at the cost of ruin to our citizens-or a temporary suspension-we go for the latter. And we warn the Banks of New York city, that if they persust in their nefa-

ricus Anti-American policy, they wal raise A Correspondent quotes the Revised Statute a storm of indignation that will sweep them thus vol 2, p. 662:on to destruction. The hombast of the New York papers about "commercial integrity" and the "honor of New York Banks" in paying specie to foreigners whilst her own citizens are ruined by scores, is sickening. The miserable six-penny papers know that temporary suspension is the true policy. But they dare not say so, for fear of injuring the parties of which they are the servile tools. Thus are the people ruined to promote the paltry views of miserable office holding and office seeking politicians.

Another excitement! an elopementnot with 'a lady, but with a lady's money A great sensation was created among the inmates of a house of doubtful reputation, over the railroad bridge yesterday morning. when it was discovered that the pretended husband of the lady abbess, had taken wings, and took with him about five hundred dollars from her strong box. As soon as the discovery was made, every thing was in an uproar, some went to one stage office, some to another, some went here, and some went there, and finally it was a certained the fugitive had taken the three o'clock stage, and was probably at the time they got upon his trail, some fifty miles ahead Mis res-C * * * nothing daunted by the breach of faith of which he had been guilty, or the d stance between them, ordered an extra and started in pursuit, with the determination of having her man or her money, or both. CASE OF MR. KITCHMAN IN THE CITY PRIS-N. WHOSE DEAD BODT WAS MUTICATED BY RATE -We have already given the Coroner's verdict opon this man, who was imprisoned in "the hole in the wall," so called, for drunkenness, where he died during the night, and in the morning was found mutilated by rats. The following is an extract from a report of the testimony,

James E. Hyde, keeper of the City Prison, sworn-Deceased was brought in on a cart, so entirely helpless that he was obliged to be carried When the Doctor came here yesterday, I told him there was a man in the "hole in the 'vall" and he had better look at him, and he told me this norning he had entirely forgotten it, and had not seen him. The "hole in the wall," is a place where we put persons who are very drapk or cit. The above papers were made expressly for noisy, or likely to become firthy, to keep them our own sales, and these in want of the smicle from making a nuisance in the prison, and we very seldom keep a person there over night.

David Kitchnar, one of the keepers of the city prison, sworn-Saw the prisoner yesterday about in the wall. I saw doceased then, and called to some of the men to take him out. I asked de ceased to get up, he sail he could not. I got a couple of men and had him taken opt and put insay he wanted any thing. We don't feed or vist soon, corner of State & Platt street.

The jury, after holding a consultation on the propriety of anpending to their verdict a clause censuring "the Doctor," recorded the simple verdict, "That the said William Kitchiman has died from intemperance."

The American comments strongly upon this verdiet of the Coroner, who it deems, should be held responsible, and in its view, both the keepthemselves open to indictment for manelaughter.

Of this culpable negligence this Correspondent deems the Prison officers guilty. A case occurred in England, (he quotes the King against Barnes and Huggins. 2d Strange's Reports) in which conduct of prison keepers, though stamped with more protracted negligence, yet destitute of some of the censurable qualities which are represented to exist in the present case, was even more severely visited. BEYOND THE OWER OF BOASTED PR TENSION.

DEAR SIR-It is with beings of unbounded gratitude. I take this on britandy of sciurning you my sincere thanks for the relief you have aftered me, by using your needicine. "Henter's Red Drop," after a long and protracted suffering of twelve months, in the West Indies, under the care of five cannent and for famed physicians, al of which were of the Codeges of Lundon and Edinburgh, could not do me any service; but after several courses of medicarial treatment, and the effects of the long confinement to bed in a tropical climate, recommended me to proceed to a more northern latitudes. Acting in accordance to that last remedy. I look passage for this city; after my arrival I placed reself under the care of an old and eminent practitioner, who attended me continually for three months to no effect.—Perceiving, in the journal of the day, numerous proofs of the many succe ful cures which had been effected under you treatment. I called upon you without even the means of getting the medicine; but you cheer! Ily gave it to me, and I am now sound, hearty a d active. I therefore, fearlessiy come forward, and state that your medicine and treatment, (if a notly followed,) is the ersal and mefcurial tain's from the system that exists to the present day; and should you think proper to make these lines public, you are at lib erty to do so; and any person wishing to see me on the subject, you can also give them my address. And believe me to resonin, ever your grateful irrend.

The public must be sal stied at once, if Hunt-er's Red Drop will cure case of this kind, it will cure in any case.

TEW DAVID'S OR HEBREW PLASTER The particulars of this Chemical Com pound are coving to its extraordinary effects, upon the animal fibre or nerves, figuments and muscles, its virtues being carried by them to the immediate seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful auxiliary, in removing the disease and faciliating the care in cases of Local Influmma, tion. Scroffolous affections, King's Evil, Gout, Inflammatory, and Caronick Rheumatism, and in all cases where sented pain or weakness exist.

A gentleman travelling in the south of Europe and Palestine, in 4831, heard so much said in try it on his own person, for a Lung and Liver genial influence of that balmy and deficious ch-

He accordingly applied a plaster on the right side of the chest, where the pain was sealed, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb tea of laxative qualities. He soon found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his be th became permanently remstated.

Since that time he has been recommending it to his friends and acquintances, for all fixed pains whatever; such as rhenmatism, gout, head ache, nervous teeth ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual cure. He has tikewise witnessed the happy effects of its softening and healing people live that hav goods for Cash ! antities in numberless cases of scroffulous hu more, knots, wens, white swelling, hard to nors, stiff joints, ague cakes, ague in the breast, and the like, to the united satisfaction of himself and others.

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, lam-ness, affections of the spine, female weakness dec. No female subject to pain or weakness in, the back or side, should be without it. Married Ladies, in delicate situations, find great reltef from constantly wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, whthisic and long affections, in their primery stages. It destroys inflammation by producing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, britises and sores, than any plaster, salve or outment now in use.

In view of the great benefits resulting from the are of this plaster within his own observa tion, his confidence in its infinite superiority over every other plaster, salve ointment or opadeldec before the public, in this country, has induced this gentleman to place the Hebrew Plaster in hand of hose who will give it publicity; believing it will prive itself to a rich blessing to the community at large.

No patting or great spread of certificates is intended. Those who wish to satisfy them-elves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum not half sufficient to pay for the insertion of a single certificate into any of our most common prints, a single time. This trifling price per box, is placed upon it, in order that it may be within the means of every affected son or daughter of the community; that all, whether rich or poor, my obtain the treasure of health, which zesnits from its use:

Prompt attention will be paid to orders addressed to Messrs. C. COMSTOCK, & Co., Rochuster.

DIRECTIONS. -Spread the plaster on a soft piece of white leather, very thin-and once in 4 or 5 days re-spread it by adding a little more Plaster. Apply it to any part that may be affect.

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY -One Presidential term-No interference in elections by Government Officers -A uniform currency of gold and silver; or bank notes at all times redeemable in specie on demand - An Independent Treasury under the exclusive control of Congress-Opposition to monopolies, to irredeemable Shinplasters and to fraudulent banking.

SCOTT REPUBLICAN CANDIDATE.

FOR ASSEMBLY,

ROBERT L. McCOLLUM,

OF THE CITY OF ROCHESTER.

[From the N. Y. Evening Star] GREAT DEMOCRATIC MEETING. An immense assemblage of Democratic Republicans crowded to overflow last night the National Hall, to hear the report of the

Syracuse Convention. About 7 o'clock, the meeting was called to order by Col. Charles B. Tappen, on whose motion John Delamater Esq. was called to the Chair.

On motion of Willet Seamen, Eeq. the following gentlemen were appointed Vice Presidents:

Henry W. Hicks, James D. Oliver, Charles B. Tappen, Abraham LeFoy, Andrew Sitcher. James Gillespi, Joseph Fleicher, Isaac H. Underhill. On motion of John Harlow, Esq. the following gentlemen were appointed Secreta ries :-

Caleb F. Linds'ev, Henry John R. Wheeler. Henry J. Seamen,

Edward Sandford, then rose, and in his accustomed felicitions and energetic manner stated the objects of the meering.

The report of the proceedings of the Convention was received with loud sclamations. par icularly the resolution pledging "uncompromising hostility to the re-election of Mar-

tin Van Buren." The meeting was then gratified by an address from Hugh S. Legare, late distinguished member of Congress from Charleston, S. C., who entirely enchained the at ention of his auditors for the space of an hour and a half, by those bursts of extemporaneous eloquences, mingled with clo-e and impressive argumentation, which are characteristic of southern oratory. Mr. Legare dwelt with great force on the danger of an overshadow. ing despotio power, assuming the disguise democracy -especially on the fatal tendency of the princip'e of re-eligibility in the Presi dent, leading to hereditary succession and a revolution in the form of our government He was justly severe on the anti-democratic designs of the present par y in power, further to secure the fruits of their usurpations by the establishment of a hard currency circulation, the odious feature of arbitrary despotism, and revolting to every American in this enlightened age of the credit system to which we owe our un-xampled prosperity. try which mark the genius of our people. He inveighed against the dangerous doctrine of the spoils party. their war on the banks and currency, and the gallant resistance made to this crusade on our commerce by the banks of our own state. The speech was a thrilling masterly effort, indicative of a powerful and acute mind, and was received with resterated demonstration of applause and warm approbation.

There is no truth in the report that the " lead mine man" had a client once.

CREATION-A CASTROPHE.-A down easter thus describes himself-"I am a real catastrophe-asmall creation-Mount Vesuvius on the top, with red hot lava pouring out of the crater and routing nations-my country. flats are the Rocky Mountains, arms liberty poles, with iron springs. [From the New Orleans Courier, 12th inst.] TEXAS.

The Steamer Columbia, arrived here yesterday morning, is reported to have left Galveston on the 8th inst., but we cannot discover that any person has received Texas papers later then the 4th of October. A person with whom we conversed yesterday on board the Columbia, informed as that there were about six deaths daily at Galveston in a population of 600 souls; and that the town of Honston was still more sirkly. The papers, however, do not indicate either places as

The Galveston Gazette of October 4th anounces the arrival of Commodore Moore, of the l'exan navy. This, we presume, is the Commander or Lieutenant Moore, formerly of the United States navy, who wrote such an ambiguous answer to Mr. Paulding, when officially inquired of whether he had accepted a foreign commission.

The same Galveston Gazette has a long article about frauds and speculations in the Custom House by which it seems that the Texan Government is no more fortunate than our own in finding trustworthy servants.

Augusta, Oct. 16. HEALTH OF AUGUSTA.-The long looked for nd much wanted rain has not yet made its appearance. Strangers would do well to beware of staying in it for the present. We learn that on board two vessels from Europe, and now in the river, there are about 300 passengers. We should be happy to great the arrival of these emigrants at any other time than this. If they come into town now, there must be great danger of the renewal of the epidemic with augmented violence. Would it not be practicable to give them a lodging beyond the limits of this city till all cause of apprehension shall have ceased ?

TEW DAVID'S OR HEBREW PLASTE.R The particulars of this Chemical Com-pound are owing to its extraordinary effects, up-on the animal fibre or nerves, ligaments and muscles, its virtues being carried by them to the immediate seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful auxiliary, in removing the disease and facilitating the core in cases of Local Inflamma, tion. Scroffulous affections, King's Evil, Goat, Inflammatory, and Chronick Rheumatiam, and in all cases where seated pain or weakness exist.

A gentlemen travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plaster, and of the (as he considered) miraculous cures it had perfermed, that he was induced to try it on his own person, for a Lung and Liver affection, the removal of which had been the chief of his journey, but which had resisted the genial influence of that balmy and delicious cli-

He accordingly applied a plaster on the right side of the chest, where the pain was seated, another between the shouldern and one over the region of the liver. In the meantime, he drank freely of an herb ten of laxutive qualities. He soon found his health improving, and in few weeks his cough left him, the sellowness of his skin disappeared, his pain was removed, and his be-lth became permanently remstated. Since that time he has been recommending it

to his friends and acquistances, for all fixed pains whatever ; such as rhaumatism, gout, head ache, nervous teeth ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual cure. He has likewise witnessed the happy effects of its softening and healing quantities in numberless cases of scroffelous humore, knots, wens, white swelling, hard tumurs, stiff joints, ague cakes, ague in the breast, and the like, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, lameness, affections of the spine, fomale weakness q-c. No female subject to pain or weakness in, the back or side, should be without it. Married Ladies, in delicate situations, find great reltef from constantly wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, uhthisic and long affections, in their primery stages. It destroys inflammation by producing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, bruises and sores, than any plaster, salve or ointment now in use.

In view of the great benefits resulting from the are of this plaster within his own observa tion, his confidence in its infinite superiority over every other plaster, salve outment or opodeldoc before the public, in this country, has induced this gentleman to place the Hebrew Plaster in hand of those who will give it publicity; believing it will prove itself to a rich blessing to the community at large.

No puffing or great spread of certificates is intended. Those who wish to satisfy them-elves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a som not half sufficient to pay for the insertion of a single certificate into any of our most common prints, a single time. This trifling price per box, is placed upon it, in order that it may be within the means of every affected son or daughter of the community; that all, whether rich or poor, may obtain the treasure of health, which results from its use.

Prompt attention will be paid to orders addressed to Messes. C. COMSTOCK, & Co., Rochester.

Frire per single box 50 cents.

DIRECTIONS.—Spread the plaster on a soft place of white leather, very thin—and once in 4 or 5 days re-spread it by adding a little more Plaster. Apply it to any part that may be affect, ad with any of the above diseases.

SCOTT REPUBLICAN CANDIDATE.

FOR ASSEMBLY,

ROBERT L. McCOLLUM,

OF THE CITY OF ROCHESTER.

OUR CANDIDATE.-The announce ment of the name of that veteran Jackson man and true democrat, Robert L. McColhum as a Candidate for Assembly, has carried dismey into the ranks of the Pos Office federalists, and the Tucker tories. Great numbers of the Democratic party will not vote for an old federalist like Tucker. They will crase his name and insert that of McCollum. 'Fucker has been a party pau per for years. He has received hundreds of dol'are every year for printing handbills, exthe de ste beyond what the printing was worth. He has held the office of public printer also for years. He has grown rich out of the patronage of the party, and now ank them to endorse his character by their votes-Tucker is a blue skin and a tory, and we expect all the blue skins and tories to vote for him. It is even said that Sir George Arthur has directed his spies and informers here to electioneer for Tucker, as a seward for the services be rendered the tory

It is we'l known that the Great Projector was the most active person engaged in pushing on the "speedy anlargement"-which Mr. Elwood condemns by lauding the policy of enlargement or part only as the revenu s of the canal would warrant. Unless the Scott men bring out a Candidate for Senator soon, we shall think serious'y of going for Elwood. his letter to the B falo Locos is better yet. On Saturday afterno in having nothing particularly to engage our attention, something rather usual for us, we accepted the polite invitation of a fr end to take a seat in his buggy, and accompany him to the race course, which we did and arrived there t accident, except a breakdown, when we had made half the distance; but by dint of ropes and splinters, we reached the course. Being somewhat early upon the ground we had an opportunity of taking an observation of " men and manners. The first object which greeted our vision was a tin pedler in high feather, who was astonishing the nafives with a volubility of gab truly amazing. We then progressed on the Judge's stand, where was congregated the most motly crew we ever dropped upon: there was gentlemen and gog brusers, thieves and thimblerigs robbers and roulette tables, loafers and liquor, sweatcloths and swellheads; blacklegs and bullies ; tutthroats and cardplaying, besides divers other things we never saw before, nor never wish to see again. Uuder the spectator's stand was several gaming tsblee, at which stood the keepers ca'ling out the result of the ball, while around the table will be determined so soon as the citizens have a crowd of players who were laying down leisure to bestow on his trial. For the better seand taking up their stakes, and strange it seemed to them, they layed down more than of the inhabitants, to place the city under martial

rear of this building was a field covered with stumps, every one of which, had a knot of juvenile blacklegs upon it, who were easing each other of small change. Here and there was a cutthroat with his thimble and tea, crying out " I'll bet any gentlemen from five to fifty dollars he can't tell where that ball is, - the more money you put down, the more you take up. I'm not playing for myself, but for a widow woman who was burnt out in New York," and sundry other persuasive exclamations. Near were several sweatcloths, at which loafers and vagabonds of all grades were playing for penny stakes. and as much excited as if it had been thousands. At the upper end of the field, and quite aloof from all the rest, was a little boy playing cards with a man; and looking into the greenhorn's hand, there was another boy, the confederate of the player, who was telling his partner by signs, what cards the man held, and was of course making a "clean thing" of it. About this time the judges took their stand, and the order of " bring up your horses" was given when a brown horse, and a bay mare, known by the name of Culpepper, and the Canada mare was brought to the scratch. The horse a fine looking animal, hardly in condition-too much flesh; the mare was a "wicked cae" to look at. The best three in five miles heats, was the race. The mare, the favo ite.

First heat .- Culpeper took the lead and kept it, both going at a lively lick; on the back stretch the mare, made up to Culpeper, but he soon cast her off and came in good two lengths to spare.

Second heat .- Culpeper again got the start, with the mare fastened upon him, untill they reached the last quarter, when the horse picked up and came home a length in advance.

Third heat .- 3 to 2 was on the horse, no takers. They both went off evenly. The horse leading the mare, untill near the last turn, when the mare railied and crept by the horse, who contested it, but the bottom of cessor" of rotation and one term in office. By the mare told, and she won the heat by two supporting a man to office who opposed with all lengths.

Fourth heat .- The borse again in advance, but on the back stretch, the fects of vigorous ' persuasives" were tried upon the mare with success and she brushed the horse, and won by a couple of lengths.

Fifth heat .- After two or three ineffectual attempts, they got off together; but the bottom of the mare stood her friend, and on the first quarter she changed places with the horse, who untill then had the lead, and beat him by four or five lengths.

After the race, we stopped to see a half and a half fight, which ended without b'oodshed, and seeing the gamblers pack up their "informal machines" we packed ourse'ves off home, perfectly satisfied that more disgustng scenes cannot be found than on a race

MY GENERAL JACKSON IS DEAD.

[From the New Orleans Bulletin, Oct. 14.7 A letter received in this city has been shown to oe, containing some forther particulars respect. ing the fire in Mobile, that we have not seen in print. The plot for firing the city was laid on an extensive scale. The attempts to kindle a fire in many places failed, as was manifested by the marks left by the extinguished fluxe. A number of buildings, besides those burned, were discovored on fire, and its progress arrested before it was too late to save the houses. Quite a crowd of suspicious characters were arrested. On searching, their pockets were found filled with matches, and having ignitable apparatus about their persons. One of the culprits was caught in the store of E. A. Ferguson. The matches Horse, sound and kind, with Waggon, Harness, that were concealed under his clothes were strong Saddle and Bridle, bolenging to Mr. Hill of this that were concealed under his clothes were strong evidences of his guilt. He was lodged in juil to await his trial. A person living in Dauphia street, named-, was suspected of being the incendiary who set fire to Pinto's house, from which resulted the tremendous conflagration ou Monday night, that destroyed fourteen squares, turning two hundred families out of a home and shelter. He was thought to be at the head of an extensive gang engaged in the infernal work. His fate will be determined so soon as the citizens have curity of the public, it was resolved at a meeting they took up. Immediately behind them law. > The members of the Scott Republican Central Committee of the County of Monroe, deem it advisable and proper at this time to state to their political friends, that they have had under consideration for some time the propriety of placing before the electors of this County, a ticket of their own for members of the Assembly.

> Upon mature deliberation, they have come to the conclusion, that they had better advise their political friends to make no nomination.

> The following reasons which have induced us to do so, will, we think, satisfy every judicious and prudent man, that this is the best course they can adopt.

> 1st, Because we are so imperfectly organized in the different Wards and Towns in the County, that we could not give a ticket that support the importance of our cause demands.

2nd. Because the result of this election so far as it affects Gen. Ecorr's prospects for the Presidency, is of no great consequence to us one way or the other.

3rd, Because if we should nominate a ticket of our own, and give it but a small support, it would serve to injure very materially Gen. Scott's prospects abroad, and be of no particular benefit to us at home.

We would for the allowing reasons also recommend to our Scott Republican friends in this county not to take any active part one way or the the other at the coming election.

To vote the Loce Foce ticket and aid them at this election, would only give them the power, if successful, of carrying out still farther their ruinous, aristocratic and Federal dectrines.

1st, By appeinting men to office after office regardless of the will of the people.

2nd, By concentrating still greater power in the Executive, by giving him the control of the public money, and allowing him to appoint the

Treasury officers.

3rd, By supporting for re election a man who stoops to use the high and dignified office of President of these United States, and the people's money for electioneering purposes-and for self agrandizement, regardless of the sound Demoeratie doctrine taught by his "illustrious predehis might the extention of the elective franchise, giving to the people the election of Justices of the Peace, and thereby securing to the Regency in Albany, of which this same man was leader, the control and influence of four men in each Town in this State, to operate spon the unsuspecting electors, by which means they could control and carry every election. By supporting a party who have made it their sole and only aim to risit spod every man among the seventeen senators. who voted against extending the elective franchise, and who have not been visited by the vengeance of Heaven, the best officers in their gift.

Dear Sir-It is with feelings of anbound

Dear Sir—It is with feelif go of anhounded gratitude, I take this opportunity of returning you my sincere thanks for the rahaf you have allorded me, by using your medituse. "Hanter's Red Drop," after a long and profacted suffering of twelve months, in the West Podles, under the care of five eminent and far fanted physicians, all of which were of the Colleges of London and Edinburgh, could not do me any service; but after several courses of marcariel treatment, and the effects of the long confinediant to bed in a tropical climate, recommended me to proceed to a more northern latitude. Acting in accordance to that last remedy. I took purge for this city; after my arrival I placed myself tunder the care of an old and eminent practition v, who attended me continually for three months to me effect.—Perceiving, in the journals of it day, numberous proofs of the many successful a real which had been effected under your treatment and getting the medicine; but you chearfully go it to me, and I am now sound, hearty and active. I therefore, fearlessly come forward, and state that your medicine and treatment, (if strictly sollowed,) is the only true and secure remedy for tradicating vouersal and mercurial taints from the system that exists to the present day; and should you think proper to make these lines public, you are at lib enty to do so; and any person websing to bee me on the subject, you can also gif them my address. MEETHING INFANTS .- Soothing Syrup A substitute for the Lancet in painful dentition. By the use of the Lancet, the gums are not only rendered callous but the teeth are not unfrequently turned out of their true position, and made to ride over each other.

This syrup is calculated to obviate the necessity of the Lancet, by relaxing the tense membrane which envelopes the tooth, thereby facilitating the passage through the gumz; and by its soothing properties diminishing the irritability and consequently preventing the distressing and frequently fital symptoms attendant on dentition.

POR PRESIDENT

GEN. WINFIELD SCOTT

PHINCIPLES OF THE SCOTT REPUBLICAN PARTY One Presidential term-No interference in elections by Government Officers A uniform currency of gold and silver; or bank notes at all times redeemable in specie on demnud - An Independent Treasury under the exclusive control of Congress-Opposition to monopolies, to irredeemable Shinplasters and to traudulent banking.

The members of the Scatt Republican Central Committee of the County of Monroe, deem it advisable and proper at this time, to state to their political friends, that they have had under consideration for some time the propriety of placing before the electors of this County, a ticket of their own for members of the Assembly.

Upon mature deliberation, they have come to the conclusion, that they had better advise their political friends to make no nomination.

The following reasons which have induced no to do so, will, we think, satisfy every judicious and predent man, that this is the best course they can adopt.

lat, Because we are so imperfectly organized in the different Wards and Towns in the County, that we could not give a ticket that support the importance of our cause deman is.

2ad, Because the result of this election so far as it affects tien. Scott's prospects for the Presidency, is of no great consequence to us one way or the other.

3 d. Because if we should nominate a ticket of our own, and give it but a small support, it would serve to injure very materially Gen. Scott's prospects abroad, and be of no particular benefit to an at home.

We would for the following reasons also recommend to our Scott Republican friends in this county not to take any active part one way or the the other at the coming election.

wate the Loco Foco ticket and aid them a this election, would only give them the power, if encossfel, of carrying out still farther their rainous, eristocrates and Federal dectrines,

let, By appointing men to office after office regardless of the will of the people.

2nd, By concentrating still greater power in the Executive, by giving him the control of the public money, and allowing him to appoint the Treasury officers.

3rd, By supporting for re election a man who stoops to use the high and dignified office of President of these United States, and the people's money for electioneering purposes-and for self agrandizement, regardless of the sound Democratic doctrine taught by his "illustrious predecessor" of rutation and one term in office. By supporting a man to office who opposed with all his might the extention of the elective franchise, giving to the people the election of Justices of the Peace, and thereby securing to the Regency in Albany, of which this same man was leader, the control and influence of four men in each Town in this State, to operate upon the unsuspecting electors, by which means they could control and carry every election. By supporting a party who hav - made it their sole and only aim to pisit upon every man among the seventeen senature. who voted against extending the elective franchise, and who have not been visited by the vengeance of Heaven, the best officers in their gift. By order of the Scott Republican

Committee.

We take the name of R. L McCollum Esq ou of our paper to-day as a candidate for the Assemb y. Our Scot friends hav ing come to the conclusion that it is not best to run an Ass mbly ticket at this election, and Mr. McCol'um himself not being in a situation from his private arrangements to accept of the sta ion in case of his election, we would still however advise our friends to vote for McCollum merely for the sake of voting for a man and not for a mere tool of a party.

Not a solitary case at the police office-what is this world coming to ?

The " lead mine man" informs bis lady love in some of his correspondence that his father is now at his summer residence, " Forest hal!," from which we would inter that his "papa" had ret red from the milk business. The Rochester Federal Regency, consisting of the federal Post Master, the federal Collector and the tory Printer of the Laws. is call ng lu-tily to the honest Republicans f Rochester to turn out and support the federal Ticket headed by Tucker. The old federal Daily taks as loudly about "Democratic principles" now, as it did in favour of torvism in Canada two yeas ago. Do the federalist expect to elect their ticket? Oh no. What then do they propose? What do they want? Why they want the "rank and file" of the party to turn out to the Polls, and do paired to his work as usual, at a tan-yard in the the dirty work of the office holders, so as to be able to write to Washington after election what great things the Post Master and the im orted Collector have done for Mr. Van Buren. They want the honest men of the party in Rochester to toil and sweat to get votes, and then cla.m the result as an approval of the course of O'Rei ly and Tucker in getting Smi h imported from Mendon against the wishes of nine tenths of the party in this city. These a e fine times for the federal office holders. They get the full am unt of their salaries in specie or its equiva ent, whi at the honest and hard working democratic mechanic and labourer is obliged to toil hard for reduced wages and get paid in shinplasters. Never mind. It is honour and "giory enough" to "serve under such chiefs" as the Rochester federal Regency, be ides they will furnish crackers and beer at the pu lic meetings gratis. Turn out then, tools of the Regency, and work for your masters! but don't undertake to meddle with appointments; the Regency will attend

S UNITED Reports Edward Rolling Register, Oct. 19th.] Honnible Aream - The peaceful neighborhood of Washington, Tazewell county, was recently the scene of one of the most diabolical acts ever perpetrated. The particulars are briefly these, gathered from a gentleman who was on the spot the same day.

> On Toesday morning of last week, a Mr. Bogar, a Frenchman, who had resided with his wife in Washington for two years past, and with whom he was known to have had several matrimonial quarrels, threatened her so severely as to cause her to determine to leave his roof the first opportunity. Bogar having, after breakfast resuburbs, Mrs. B. obtained a horse and set out for the house of her brother at Patridge Point, intending to claim his protection. On the way she was compelled to pass the tan yard, and was seen by her husband. He instantly returned to his house, took two pistols which he had purchased in Peoria the Saturday before, went in pursuit of his wife, and overtook her a mile from town. Seizing her with the fury of a fiend, he dragged her from the horse to the ground, and deliberately draw a pistol and shot her in the head. At that moment a young man approached on horse back, when Bogar drew the other pistol and fired another ball into the head of his victim. He then proceeded to load his pistols again, as he walked away on the prairie. All this was done while the young man was in sight, and who passed sufficiently near the sufferer to hear a groan, which he supposed was her last. He hastened towards Washington, and the next moment heard another discharge from the pistol.

As soon as he could make the horrid circumstance known, several citizens repaired to the place, and found Bogar weltering in his blood. with the upper part of his face blown off by the contents of the pistol, which he had himself discharged in his mouth. But his mife was not there! Incredible as it may appear, she had survived the two pistol shots, had risen from the ground, and ran to the nearest house (Mr. Trimble's,) a quarter of a mile distant. She remembered and related distinctly what passed until the first pistol was fired, but knew nothing more until she found herself at the house spoken of. Surgical aid he ing had, it was ascertained that the first ball did not pass through the skull, but was found in the hair, flattened by the resistance it had met with The second ball had penetrated the skull, and was found just within it, split in two. The pieces were extracted with some difficulty; in a few days the wound was healed, and Mrs. B. raised as it were from the grave, is now in per-

Bogar, as already stated, was a Frenchman -H.s wife is a native of Germany, about 30 years of age, of sprightly manners and rather hand some person. They were married in France about four years ago, had a child still living, 3 years old, and had been about that length of time n this country. Jealousy is said to have led the wretched man to the perpetration of this act of revenge, which through the mysterious agency of Divine Providence, has resulted in his own eath and escape of his intended victim.

TEW DAVID'S OR HEBREW PLASTE. The particulars of this Chemical Com-pound are owing to its extraordinary effects, up-the animal fibre or nerves, liguments and muscles, its virtues being carried by them to the immediate cent of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful auxiliary, in removing the disease and faciliating the core in cases of Local Inflamma, tion. Beroffulous affections, King's Evil, Gont, Inflammatory, and Chronick Rheumatism, and is all cases where seated pain or weakness exist.

A gentlemen travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plaster, and of the (as he considered) miraculous cures it had performed, that he was induced to try it on his own person, for a Long and Liver affection, the removal of which had been the chief of his journey, but which had resisted the genial influence of that balmy and delicious cli-

He accordingly applied a planer on the right side of the chest, where the pain was seated, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb ten of laxative qualities. He soon found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his health become permanently remstated.

Since that time he has been recommending it to his friends and acquintances, for all fixed pains whatever ; such as rheumatism, goot, head ache, nervous teeth ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual care. He has tikewise witnessed the happy effects of its softening and healing quantities in numberless cases of scroffulous hamors, knots, wens, white swelling, hard tumprs, stiff joints, ague cakes, ague in the breast, and the like, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, lameness, affections of the spine, female weakness dec. No female subject to pain or weakness in, the back or side, should be without it. Married Ladies, in delieste situations, find great reltef from constantly wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, couglis, whthisic and long affections, in their primary stages. It destroys inflammation by producing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, bruises and sores, than any plaster, salve or cintment now in use.

In view of the great benefits resulting from the use of this plaster within his own observa-tion, his confidence in its infinite superiority over every other plaster, alve ontment or spedeldoc hefore the public, in this country, has induced his gentleman to place the Hebrew Plaster in hand of those who will give it publicity; believing it will prove itself to a rich blessing to the community at large.

No puffing or great spread of certificates is in-tended. Those who wish to satisfy their selves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum not hill sufficient to pay for the insertion of a single cartificate into any of our most common prints, a single time. This trifling price per box," is placed upon it in order that it may be within the means of every affected son or daughter of the community; that all, whether rich or poor may obtain the treasure of health, which

results from its use.

Prompt attention will be paid to orders addressed to Memrs. C. COMSTOCK, & Co., Roohester.

Price per single box 50 cents.
DIRECTIONS. -Spread the plaster on a soft place of white leather, very thin-and once in 4 or 5 days re-spread it by adding a little more Plaster. Apply it to any part that may be affected with any of the above diseases.

THE RESURRECTOIN OR PERSIAN PILLS raise from the greatest weakness, distress and suffering, to a state of strength, health and bappiness. Many there arc, who have said in their hearts, there is no help for me, who have been raised by them, to pristine health and vigor. They assuredly have healing wirtnes, which no other medicine in this country possesses. Every individual has found, and will coutine to find them to supersede the necessity of any, and every other medicine, which can be produced in America. If the purchaser does not find them to be superior to any article advertised in the public prints, for the diseases a entioned in the large bills which accompanies each box, when taken according to the direction their money will be refunded on the return of the box. We discard the idea of publishing a long list of certificates, or puffing them into use, by publishing a column in each periodical. A treatise on the prominent diseases, their symptoms, and manner of core, a history of the medicine, together with many valuable certificates, from physicians and others, the authors of which may be called upon, or referred to by written communication, can be obtained gratis, by calling on any one of the agents. Let no one be discouraged however despairing their case may be, until they have tried the Persian Compound, for the most incredulous have been obliged to acknowledge its superiority in quelling diseases which no other medicine could reach They are the cheapest as well as the best medicine in use. Price 63 cents per box containing 73 pill, half box 31 cents containing 35 pills, &c. The use of one box will be more convincing than a volume of certificates

TEW DAVID'S OR HEBREW PLASTER The particulars of this Chamical Comad are owing to its extraordinary eff cts. upon the animal fibre or nerves, figurents and muscles, its virtue being carried by them to the mmediate seat of die asse or of pain and weak

However good any internal remedy may be, his, as an external application, will prove a powerful auxiliary, in removing the disease and faciliating the cure in cases of Local Luffamma, tion. Scroffulone affectione, King's Evil, Gout, laftem natory, and C ronick theomatism, and in all cases where seated pain or weavness exist.

A gentleman travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plas ter, and of the (as he considered) miraculous cares it had performed, that he was laduced to try it on his win person, for a Long and Liver affection, the removal of which has been the chief of his jearney, but which had resisted the genist influence of that balmy and delicious cli-

He eccordingly applied a plaster on the right side of the thest where the pain was seated, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb tes of lax-tive qualities. He so in found his health improving, and in tew weeks his cough test him, the sallowness of his skin disappeared, his pain was required, and his health became permanently remstated.

Since that time he has been recommending it to his friends and argain ances, for all fixed pains whatever ; such as rhoum strem gout, head ache, pervises teeth sche, pain in the side, hips back and limbs, in every case of which, it has proved an effectual cure. He has tikewise witnessed the happy effect of its softening and healing quantities in numb-riess cases of scroffaloss ha more, knuts, wens, white swelling, hard tu nurs stiff plints, ague cakes, ague in the breast, and the line, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as wakness and pain in the stomack, weak limbs lam ness, affections of the spine, female weakness dec. No female subject to pain or weakness in the back or side, should be without it. Married Lides, in delicute si nations, fi id great reltef from constantly wearing this plaster.

The application of this plaster between the shoul lers, has been found a certain remedy for colde, coughe, abthisie and long affections, in their primity stages. It destroys inflormation by producing a copious perspiration. Na physi-cians should be without it. This plaster answers a far better perpose for dressing wounds, bruises and sores, than any plaster, salve or ointment new in use.

In view of the great benefits resulting from the use of this plaster within his own observaevery other plaster, salve outment or oped-bloc hefore the public, in this country, has induced his gentleman to place the Hebrew Plaster in hand of show who will give it publicity; believing it will prove itself to a rich blessing to the community at large.
