TEETHING INFANT'S .- Southing Syruptition. By the use of the Lancet, the gums are not only rendered callous but the teeth are not unfrequently turned out of their true position, and made to ride over each other.

This syrup is calculated to obviate the necessity of the Lancet, by relaxing the tense membrane which envelopes the tooth, thereby facilitating the passage through the gume; and by its soothing properties diminishing the irritability and consequently preventing the distressing and frequently fatal symptoms attendant on dentition.

shall dispute, or who go baid? Inquire at all respectable druggists.

CAUTION.—None can be genuine without a splendid steel engraving, on which is the Falls of Nisgara, and Dr. Comstock's, the American agent's, name, &c.

THE MUNIAN Where the hair is observed to be growing thin.

nothing can be more prosperous than the use of oils, grease, or any latty matter. Their application can only be recommended through the gross est ignorance, as they hasten the fall of the hair, by increasing the relaxation of the skin. When there is a barble, dry, or contracted skin, and where the small blood vessels which carry nogrishment to the bulb are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimulus to rouse the vessels from their torpor, and quicken the current of the blood .- Extract from Clirehugh's Treaties on the Hair.

The Balm of Columnia is the only preparation that can have that effect, being entirely free from any oily substance.

GENESEE VEGETABLE

EMEDIES These Medicines are faithfully perpared from receipt of a distinguished practitioner of Medicines, by whom they were first invented, and used in the Hospitals of New York, in nearly all the cases of Fever and Augo that occurred during the years of 1812, 13, 14, and 1815, and afterwards introduced into the Genesee country,

and used in his private practice, with a success unparralled in the history of Medicine.

The Genese Remedies, which are prepared without Quinine or any preparation of Bark's.—

Consist of two kinds of Pills—one of which op-N. B.—Ladies' please call and examine those all the stale and acid bile, which is the very seed of the disease. And the other by giving strength and vigor to the same, invariably restores the patient to perfect health, in a very short time, and generally by the use of a single package, if the directions are adhered to.

As a presentative of Fever and Ague and all Billious Fevers, so prevelent at the West, they deserve a decided and distinct recommendation. Were they used at short intervals during the sickly season, they would be found in every in-stance to keep of those distressing disorders, to which the people every summer are the unfor-tunate victims. And which have not generally found a remedy in the 100 common are of Quinine and Tonic Mixtores; but in maey cases aggravated and made worse.
Having the fullest confidence in the Medicine,

they were in the beginning, issued and have always been sold under a positive scarrantes, to refund the money in all cases of failure. Within the last year they have been used to many bandred cases, and out of the whole number has yet been made known, where a permanage has yet been made known. nent care has not been effected.

The proprietor has the utmost confidence that they will be found equally sure in the West—as they have already been used to some extent with the most happy results, as will be seen by referring to a few Certificates on the inside directions. For sale by the Proprieter J. M. WINSLOW.

FOR PRESIDENT

GEN. WINFIELD SCOTT

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY. -One Presidential term-No interference in elections by Government Officers. -A uniform currency of gold and silver; or bank notes at all times sedeemable in epecie on demand - An Independent Trea sury under the exclusive control of Conkress-Opposition to monopolies, to irredeemable Shiuplasters and to frau dulent banking.

In Ohio, Ganeral Scott seems equally popular as in Western New York. The last "Conneant Journal," a leading Ohio paper, has the following: -

GEN. Scorr .- The " Monroe (Rochester) Democrat" one of the most efficient Whig papers in Western New York, is out for our country's best and firmes: friend, GENER. AL SCOTT. It was in Rochester that one of the first moves was made in his favour. and his name is already begining to excite the inquiry, whether he ought not to be our man The Conservatives of New York, Connecticut and Virginia, have spoken in a voice not easily to be misunderstood.

The Whig press, so far as any expression has been elicited, is entirely favorable, not one within the range of our exchanges, have desented from the opinion that he is decidedly the strongest man that could be presented by our party. He has stood entirely aloof from the partisan warefare of the last ten years, scanning the whole with a statesman's eye, and were he elected, he would take the beim untrammelled with the prejudithan a sound and discriminating judgment the consequence must have proved fatal .would dictate the adoption or rejection of leading measures. An honest heart, a clear and comprehensive mind, and a steady hand. are needed to save us from certain ship. wreck, on the quick sands which we are rapidly approaching, or in which, we might say, we are already floundering. All these he possesses in an eminent degree, combined with the experience which his long and distinguished services have accumulated. Every well-wisher of his country should et at the enquiry, whether enough has not been developed at Washington to require a change of servants, and whether any other name can be brought before the people who will so certainly succeed not only in being elected, but in reforming whatever may be smiss. He must be nominated by the Whig National Convention.

We shall issue the first number of our evening paper this afternoon. We have established it for the purpose of placing before the public our surplus advertisements. which the crowded state of our columns oblige us to omit.

We had quite an idea of goining to Albany this winter to take care of Luther Tucker, but on taking the "sober second thoughts" we are very glad we declined the offers of a nomination Some men may attend a whole session of the legislature and go home with principles uncorrupted, but they are few and for between. For the generality of men, one winter in Albany is sufficient to render them totally unfit for anything the remainder of their days. Intrigues, bribery, corruption, quarreling, liquor, licentiousness, suppers, gambling, champaign parties, balls, pig thaves and tea squalls, are paramount to everything else, and how Luther would have steered clear of this votex of dissipation, without us at his elbow to warn him against the shoals and quicksands that would beset his p th, had he been so fortuna ely or unfortunate as to have gained his election we cannot tell. Had we been sent there this win er we should have known how to avoid all these temptations. You never catch us where we don't belong. We are a walking Moral Reform Society.

Rochester is coming round again Plenty of business at the police office. want Elder Knapp hele arom to parify us. We mu t have another great battle retween the Saints and Sinners, before we can be straightened out.

NARROW ESCAPE. - The stage which runs between Whitehall and Sandy Hill, contained on Friday la t 8 n s nge s inside, among member of Congress from the 13th Congressional District, the Hon. Mr. Boyd, of Whitehall, member of the assembly elect, and Judge Fish, of Keesville, and two passenone mile this side of Fort Ann and at the began to run with great speed to so fast that majorities against him. the driver and the outside passengers jumped off and left the stage and passenge a to their fate. At this juncture, Mr. Moore, one of the inside passengers supposing all was not right, looked out and discovered the driver's box was vacant and that the stage was approaching with frightful speed a large rock on one side of the road. He communicated their perilous situation to his fillow passengers, who with great presence of mind resolved to sit perfectly still and abide the event. The stage struck with tremendous force against the rock, and, forfunately broke the harness which attached it to the horses: the effect of which was the immediate turning of the stage upside down, without producing, we are happy to say, any injury to ces or predilections of either party, far her the passengers. Had not the harness broke, Troy Budget.

MR. BOITOR :-

Sir, I noticed an article in the Working man's Advocate Nov. 29 signed Justice, and beg through the columns of your paper to answer it. as I consider it a great injustice to have it unnoticed. The article proposes to cor ect an error made by you in stating that I was the person who drew the design for the deploma of the Mechanics' Literary Association, and farther that it was the production of the fertile genius of Mr. Course &c. I will state the facts as they are in order to show that I never copied any drawing of Mr. Arnolds, but that in the first place in order to assist his fertile genius he copied a view of the Aqueduct drawn by me some time since. To make a part of the design aliaded to by the Advocate the remainder of the drawing was a compound mixture of every thing haddled together (to use the expression of the designer) and which was handed over to me by Mr. Jackson, for the purpose of making a drawing from and in receiving it from him. I stated at the time that it needed many corrections, and that I should not be guided by it. I should very much like to have the original and the copy compared before the writer of the article, in order that he may see what a faithful copyist I am, and farther that if he is better pleased with the original than the copy, that it would be better for him to use all his interest in having the original to be engraved from rather than the copy, so that Mr. Arnold may obtain all the merit he is entitled to by his Yours respectfully,

J. T. YOUNG. P. S. I am sorry to have had any occasion to have written the article as I do not like newspaper controversies, as I have no ill will towards Mr. Arnold but rather the contrary and would wish to caltivate a further acquaintance with him, but I considered it my duty in order to render unto Ceasar &c.

MELANCROLY CIRCUMSTANCE -The Cornwall U. C.) Observer mentions, that between Friday night and Saturday morning of the 9th inst, as Major Donald Fraser, of the 1st. Regiment Glengarry Militia, Robert McFarlane, a native of Ireland, and an Indian of St. Regis, were crossing the St. Lawrence in a canoe from Fort Covington to Summers', the canoe upset, and the three unfortunate persons perished. Major Fraser left a widow and a helpless family to deplore his loss. The body of Mr. Macfarlane was respectably interred.

The same paper also states that Lawrence M'-Kay Esq. Bus been missing since the 4th inst. a which day no grossed over to St. Regis, in a cance by blinself. He left that place to return home, about dosk the same evening, and has not been heard of since. It is supposed that he perished by the apsetting of his canoe, during the high wind of that night, as his canoe was found turned up-side down on the lower end of the island, opposite to St. Regis Mr. McKay was one of the oldest Magistrates in the District, and generally respected.

Coming to it .- A western editor lately had the audacity to announce to his subscribers that he would not take in payment for his paper, either woodchucks, dried apples, terrier puppies, tow, birch brooms, axe handles, wool, or vegetables. But his subscribers, with that sturdy independence which such people generally possess, refused to pay him any thing else, and he now says that whom were the Hon Augustus C. Hand, a he is ready to take them at the market price. A public meeting is to be called, to see whether it is best to pay him at all.

WEAK POINTS.-It is a fact worthy of gers outside lesides the driver. When about note, that those counties of New York, in which Mr. Van Buren staid longest during, top of a hill, the horses got frightened and his recent tour, have given the strongest

An administration paper in Tennessee recently told us, that the object of Mr. Van Buren's tour was to ascertain by personal inspection where would be our country's weak points in the event of a war with Great Britain. It is not probable that, in looking for the country's weak points, he exposed his own .- Louisville Jour.

TORY INSOLENCE REBUKED .- Postmaster Ives of Westfield, during the balloting in hat town, on the 11th, stood near the ballotbox, to see how each man voted. He remained there, we understand, the whole time, intimidating some and tantalizing others. Seeing one man about to put in a whig vote he said to him, "The ox knoweth his owner"-to which the voter added, (looking him boldly in the face) "and the ass his master's crib."-Spring fleld Republican.

BEYOND THE POWER OF BOASTED PRETENSION.

BOASTED PRETENSION.

NEW Year, 20th March, 1839.

Dran Sin-It is with feelings of cabranded gratitude, I take this opportunity of roturning you my sincere thanks for the relief you have afforded me, by using your medicine. "Hunter's Red Drop," after a long and protracted suffering of twelve months, in the West Indies, under the care of five emicent and far famed physicians, all of which were of the Colleges of London and Edinburgh, could not do me any service; but after several courses of mercarial treatment, and the effects of the long confinement to bed in a tropical climate, recommended me to proceed to a more northern latitude. Acting in accordance to that last remedy. I took presage for this city; after my arrival I placed myself under the care of an old and eminent practitioner, who attended me continually for three mouths to no effect.—Perceiving, in the journals of the day, numerous Perceiving, in the journals of the day, numerous proofs of the many successful cures which had been effected under your treatment. I cailed upon you without even the means of getting the upon you without even the means of getting the medicine; but you cheerfully gave it to me, and I am now sound, hearty and active. I therefore, learlessly come forward, and state that your medicine and treatment, (if strictly followed,) is the only true and secure remedy for cradicating you ereal and mercurial taints from the system that exists to the present day; and should you think proper to make these lines public, you are at his erty to do so; and any person wishing to see me on the subject, you can also give them my address. And believe me to remain, ever your grateful friend. grateful friend.

The public must be satisfied at once, if Hunter's Red Drop will cure a case of this kind, it. will core in any case.

Screffulous affections, King's Evil, Gout, Inflammatory, and Chronick Rhoumatism, and in all cases where seated pain or weakness exist. A gentleman travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plaster, and of the (as he considered) miraculous cares it had performed, that he was induced to try it on his own person, for a Long and Liver affection, the removal of which had been the chief of his jearney, but which had resisted the genial inflaence of that balmy and delicious climate.

He accordingly applied a plaster on the right side of the chest, where the pain was scated, another between the shoulders, and one over the another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb tea of laxative qualities. He soon found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his health became permanently remstated.

Since that time he has been recommending it to his friends and acquintances, for all fixed pains whatever I such as rheumatism, gout, head ache, nearcons teeth ache, pain in the side, him back

He has likewise witnessed the happy effects of its softening and healing quantities in numberless cases of scroffulous huors, knote, went, white swelling, hard tumpra, stiff joints, ague cakes, ague in the breast, and the like, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, lameness, affections of the ae, female weakness 4-c. No female sub-

spine, female weakness dec. No female subject to pain or weakness in the back or side, should be without it. Married Ladies, in delicate aitastions, find great reltof from constantly wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, enthisic and long affections, in their primery slages. It destroys inflammation by producing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, bruises a far better purpose for dressing wounds, bruises and sores, than any plaster, salve or cintment

now in use. In view of the great benefits resulting from the use of this plaster within his own observation, his confidence in its infinite superiority over every other plaster, salve of atment or opodel doc hefore the public, in this country, has induced his gentleman to place the Hebrew Plaster in hand of those who will give it publicity; believing it will prove itself to a rich blessing to the mmunity at large.

No passing or great spread of certificates is in-tended. Those who wish to satisfy themselves of the officacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum not half sufficient to pay for the insertion of a single cartificate into any of our most common prints, a single time. This trifling price per box, is placed upon ir, in order that it may be within the means of every affected son or daughter of the community, that all whether ter of the community; that all, whether rich or poor may obtain the treasure of health, which results from its see.

Prompt attention will be paid to orders addressed to Mesers. C. COMSTOCK, & Co.,

THE RESURRECTOIN OR PERSIAN PILLS raise from the greatest weakness, distress and suffering, to a state of strength, health and happiness. Many there are, who have said in their hearts, there is no help for me, who have been raised by them, to pristine health and vigor. They assuredly have healing virtues which no other medicine in this country possesses. Every individual has found, and will contine to find them to supersede the ne. cessity of any, and every other medicine, which can be produced in America. If the purchaser does not find them to be superior to any article advertised in the public prints, for the diseases a cofficied in the large bills which accompanies each box, when taken according to the directions their money will be refunded on the return of the box. We discard the idea of publishing a long list of certificates, or puffing them into use, by publishing a column in each periodical. A treatise on the prominent diseases their according tise on the prominent diseases, their symptoms, and manner of cure, a history of the medicine, to-gether with many valuable certificates, from phy-sicians and others, the authors of which may be called upon, or referred to by written communione of the agents. Let no one be discouraged however despairing their case may be, until they have tried the Persian Compound, for the most incredulous have been obliged to acknowledge its seperiority in queiling diseases which no other medicine could reach. THE RUMAN BRARR.

Where the hair is observed to be growing thin. nothing can be more prosperous than the use of oils, grease, or any fatty matter. Their application can only be recommended through the gross ast imprance, as they basten the fall of the hair. by increasing the relaxation of the skin. When there is a barsh, dry, or contracted skin, and where the small blood vessels which carry nourishment to the bulb are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. There most be a sumulos to rouse the vessels from their torper, and quicken the current of the blood - Extract from Clirehugh's Treaties on the Hair.

The Belm of Columnia is the only preparation that can have that effect, being entirely free from any oily vabstance.

CAUTION .- None can be genuine without a splendid steel plate engraving, on which is the Falls of Niagara, and Dr. Comstock's, the Ame. rican agent's, name, &c.

GENERAL

So well known as Editor of the late Washington Telegraph, is referred to for the truth of the following:

General Green a few days since asserted in a public place, that he had used Hay's Limment for he Piles, and that the effect was very astonishing, and that he felt it his duty to make known as far as in his power, to his suffering fellow men that such an extraordisary article was in existence. He said he would cheerfully lend his name, and aid in extending its usefulness. This is but one of which we may safely say hundreds who have given like testimony.

REMEDIES. The first series are faithfully perpared from recoipt of a distinguished practitioner of Medicines, by whom they were first invented, and used in the Hospitals of New York, in nearly all the cases of Fever and Ange the occurred thiring the years of 1812, 13, 14, and 1815, and afterwards introduced into the Genesee country, and used in his private practice, with a success unparralled in the history of Medicine.

The Genese Remedies, which are prepared without Quinine or any preparation of Berk's.—Consist of two kinds of Pills—one of which operates by thoroughly cleaning the system from

erates by thoroughly cleansing the system from all the stale and acid Bile, which is the very seed of the disease. And the other by giving strength and vigor to the same, invariably restores the patient to perfect health in a very short time, and generally by the use of a single package, if the directions are adhered to.

As a pretentative of Fever and Ague and all Billious Fevers, so prevelent at the West, they deserve a decided and distinct recommendation.
Were they used at short intervals during the sickly season, they would be found in every instance to keep of those distressing disorders, to which the people every summer are the unfortunate victims. And which have not generally found a remedy in the too common use of Quinine and Tonic Mixtures; but in macy cases aggravated and made warse.

Having the fullest confidence in the Medicin they were in the beginning, issued and have always been sold ander a positive scarrenter, to refund the money in all cover of fathers. Within the last year they have been used in many handred cases, and out of the whole sumbar but one case has yet been made known, where a parma; nent cure has not been effected.

The proprieter has the utmost confidence that they will be found equally sure in the West—as they have already been used to some extent with the most happy results, as will be seen by referring to a few Certificates on the inside discetions. For sale by the Proprietor

ADVERTISING .- "I cannot afford to advertise now, the time are so bad."

This is a vulgar error of many persons in business. If ever there is a time when advertising is more essential than another, it is when the times are bad, for the public then requires to be tempted, which it can only be done, to any extent, through the widely circulated journals of the day.

The science of advertising is not so well understood here as the interests of persons ld so in a hewspaper will hardly open eir eyes: for the information coming thro' truths are, nevertheles, incontrovertible.

In London the utility of advertising is well understood, and the journals are so crowded with the advertisements poured in upon them, that the most popular are compelled to publish a double sheet two or three times a week to get them all inserted.

-Nor do tradesmen who well understand their business, stop at this primary mode of bringing their commodities before the eyes of the public, They have recourse to numb riess secondary plans to ensure the attention of the public; for a man would almost as soon think of living at ease in the great desert of Africa, as of doing any extent of business without advertising for custom.

Of the secondary modes of adopted, one is as follows :- The gardens of the houses on the outskirts of the town are frequently enclased with brick walls. On these are paint-, in white letters, several feet in height, the name of the commodity that is wanted to be made public. There is a song expla natory, which says,-

" Like Warren's blacking,

Done with whitening; alluding to the letters which are thus whitewashed on the wall. This system is carried to a considerable extent, and for ten or fifteen miles round the metropolis, the wall in many bear these standing advertisements.

Another plan is to employ a number of men to bear large placards, with the commodity vended and the vendor's name and residence, through the public streets. This plan is much vogue with public exhibitors of

Another plan is as follows : - There are men who have large wagons, adapted to the carrying of sign board, for which they make a regular charge. The wagon, thus covered with signs, is driven very slowly through the principal streets.

Another plan is to pay managers of thea-'res sums of money to introduce the names of persons desiring public notice to their offects in the Chrismas pantomimes. C Wright, of Champaigne notoriety, paid a great deal of money in this way.

The persons using these secondary means of making themselves, and the articles they have for sale, known to the public, are those who adopt the primary mode of advertising in the public journals, to the greatest extent

There is no form of advertising that is not used in the British metropolis, and the success of those who have gained the knowledge that has prompted them to it, is blazoned to the world. We want no experience however. Here we have abundant proof of the utility of advertising. What fortunes have not irregular practitioners of medicine defenses though I don't know but I will be choked

this course, their business must have been over the whole Union. Some of these practitioners have spent \$50,000 per annum in advertising through the Union. What of of money after paping all expenses. It is not the outlay, it is the returns that should he considered.

Advertising is an essential to nine-tenths of the people in business as the store in which their business is transacted. Those who have no custom to signify may acquire it by advertising the e who do much business may do yet more by the same means.

Advertise, ye who wish to do well; and if you benefit the press somewhat of this conduct, remember, you will benefit yourselves still more-Atlas.

We must apologise to our readers for the Sux appearing on such miserable paper this morning. It is all owing to the gross neglect of our paper maker who was well aware of the circumstance in which we were placed, and knew that we depended upon him entirely for paper, and regardless of his promises, suffers us to make our appearance this morning upon wrapping paper. This is all the excuse we can offer.

Or Thank Heaven, we shan't be troublein business should render it. Their being ad with duns, when we get over on the Islands. > ARBEST OF A HORSE THEEF. Officer A. M. C. Smith on Sunday arrested at Troy, N. Y. William Thomas, who in company with his brother Alfred Thomas, lately stole a valuable horse belonging to Dr. Cyrns Weeks of this City, Alfred was arrested by Mr. Smith some time since, and is at farge on bail. William, the one at present arrested, is an incorrigible thief, and only came from the State Prison in February last. The way William came to fall in to the hands of instice is cerious. He has been for some time at Troy conping a discepatable house. A few days since some of the officers of that city in searching for a runaway female, came across a letter written by William Thomas's mother, wherein she informs him that \$60 has been offered for his apprebension, that officer A. M. C. Smith is after him, and advises him to make himself scarce as soon as possible. Thus the very means used to put the rogue on his guard proved his undoing. The officers immediately sent word to Mr. Smith. who proceeded to Troy and arrested his man as above stated. Both of the thieves will now speedily be brought to trial .- N. Y. Express.

BOASTED PRETENSION

Naw York, 20th March, 182

Dran Sin—It is with feelings of enbounded gratitude, I take this opportunity of returning you my sincere thanks for the relief you have afforded me, by using your medicine, "Hunter's Red Drop," after a long and protracted suffering of twelve months, in the West Indies, under the care of five eminent and far farsed physicians, all of which were of the Colleges of Landon and Edieburgh, could not do no any service; but after several coarses of mercurial treatment, and the effects of the long confinement to bed in a after several courses of mercurial treatment, and the effects of the long confinement to bed in a tropical climate, recommended me to proceed to a more porthern latitude. Acting in accordance to that last remedy. I took passage for this city; after my arrival I placed myself under the care of an old and eminent practimener, who attended me continually for three menths to my effect.—Perceiving, in the journals of the day, namerous process of the many ancreasful cares which had Perceiving, in the journals of the day, numerous proofs of the many successful caree which had been effected under your treatment. I called upon you without even the means of getting the medicine; but you cheerfully gave it to me, and I am now sound, hearty and active. I therefore, fearlessly come forward, and state that your medicine and treatment, (if strictly tollowed,) is the only true and secure remedy for eradicating you ersal and mercurial taints from the system that exists to the present day; and should you think proper to make these lines public, you are at lib proper to make these lines public, you are at lib erry to do so; and any person wishing to see mo on the subject, you can also give them my ad-dress. And believe me to remain, ever your erateful friend.

TEW DAVID'S OR HEBREW PLASTER The particulars of this Chemical Cost pound are owing to its extraordinary effects, upon the animal fibre or parves, ligaments and muscles, its virtues being carried by them to the inquiridate seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful auxiliary, in removing the disease and faciliating the cure in cases of Local Inflamma, tion. Scroffelous affections, King's Evil, Gout, Inflammatory, and Chronick Rheumatism, and

is all cases where seated pain or weakness exist.

A gentleman travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plaster, and of the (as he considered) miraculous cares it had performed, that he was induced to try it on his own person, for a Lung and Liver affection, the removal of which had been the chief of his journey, but which had resisted the genial influence of that balmy and delicious cli-

He accordingly applied a plaster on the right side of the chest, where the pain was seated, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb tea of laxative qualities. He soon found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeased, his pain was removed, and his health became permanently remstated.

Since that time he has been recommending it to his friends and acquintances, for all fixed pains whatever ; such as rheumatism, gout, head ache, nervous teeth ache, pain in the side, hips back the happy effects of its softening and healing quantities in numberless cases of scroffulous humore, knots, wens, white swelling, hard turnurs, stiff joints, ague cakes, ague in the breast, and the like, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as weakness, and pain in the stomack, weak limbs, lam-aces, affections of the spine, female weakness de. No female subject to pain or weakness in the back or side, should be without it. Married Ladies, in delicate situations, find great reitef from constantly wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, uhthisic and long affections, in their primery stages It destroys inflammation by producing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, bruises and sores, than any plaster, salve or ointment now in use. In view of the great benefits resulting from

the use of this plaster within his own observa tion, his confidence in its infinite superiority over every other plaster, salve ointment or opodeldoc hefore the public, in this country, has induced his gentleman to place the Hebrew Plaster in hand of shore who will give it publicity; believing it will prove itself to a rich blessing to the community at large.

No puffing or great spread of certificates is in-tended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum not half sufficient to pay for the insertion of a single certificate into any of our most commos prints, a single time. Thus trifling price per box, is placed spon it, in order that it may be within the means of every afficted son or daugh-ter of the community; that all, whether rich or poor may obtain the treasure of health, which results from its use.

Prompt attention will be paid to orders ad-dressed to Messes. C. COMSTOCK, & Co., Roohester.

Rochester.

Price per single box 50 cents.

DIRECTIONS.—Spread the plaster on a soft piece of white leather, very thin—and once in 4 or 5 days respected it by adding a little more Planter. Apply it to any part that may be affected with any of the above diseases. For rais at the Office of E. Chase & Co. Arado Hall, Rosagener, near the Post Office.

THE RESURRECTOIN OR PERSIAN PILLS raise from the greatest weakness, distress and suffering, to a state of strength, health and happiners. Many there arc, who have said in their hearts, there is no help for me, who have been raised by them, to pristine health and vigor. They assuredly have bealing virtues which no other medicine in this country possesses. Every individual has found. and will contine to find them to supersede the ne. cessity of any, and every other medicine, which can be produced in America. If the purchaser does not find them to be superior to any article advertised in the public prints, for the diseases entioned in the large bills which accompanies each box, when taken according to the directions their money will be refunded on the return of the box. We discard the idea of publishing a long box. We discard the idea of publishing a long list of certificates, or puffing them into use, by publishing a column in each periodical. A treetise on the prominent diseases, their symptoms, and manner of care, a history of the medicine, torether with many valuable certificates, from physicians and others, the authors of which may be called upon, or referred to by written communi-cation, can be obtained graus, by calling on any one of the agents. Let no one be discouraged however despairing their case may be, until they have tried the Persian Compound, for the most incredulous have been obliged to acknowledge its superiority in quelling diseases which no other medicine could reach They are the cheapest as well as the best medicine in ose. HE WORLD REDEEMED.-Let inha itants rejoice and be grateful. The da has come when they can arm themselves with th precious relie, which almost delies disease, in re its various ramifications, and gladens the hea: sinking noder the grevious burthen of weaknes and disease. Doctors with all their bouster

science step aside, and contemplate the ushering in of a new and eventful era, in which the inhab itants are their own Physicians. The seals are broken; the mystery is revealed,

the remedy is in their own hands, the East, the fountain of all light, has opened her vast store house, and is pouring fourth to mortals the pre-cious sap of life and health.

Persia and India, the adored of the present, and the worshipped of future ages are lavishing upon us their richest boons, causing the heart to leap for joy, at seeing the nick healed, the lame walk and presenting to those that are whole, a parantee for 31 cents, for preserving the shield f health and enjoyment.

The Persian and India extracts, the wonder of

the age, have been so thoroughly tested, proved. and ananimously patronised, and conceded to by all professions and classes, physicians not accept ed, who have become acquainted with their unparalleled virtues; the universal and anbounded confidence they insure, added to the grateful and oncalled for testimonials in their favor, is suffi cient to warrant every individual with confidence to make a trial of them.

A treatise on most diseases, their symptoms and cure, with certificates from many influential person who have been raised, where the skil, of the best physicians had failed, and the various medicines of the day had been tried in vain, ac company each box.

DOWNER AND ACTUE PERMANENTLY CURED IN ALL CASES

GENESEE VEGETABLE

REMEDI

These Medicines are faithfully perpared from receipt of a distinguished practitioner of Medicines, by whom they were first invented, and used in the Hospitals of New York, in nearly all the cases of Fever and Auge that occurred during the years of 1812, 13, 14, and 1815, and afterwards introduced into the Genesee country, and used in his private practice, with a success unparralled in the history of Medicine.

The Genese Remedies, which are prepared without Quiring or any preparation of Bark's.—Consist of two kinds of Pills—one of which operates by thoroughly cleaning the system from

erstes by thoroughly cleaning the system from all the stale and acid Bile, which is the very seed of the disease. And the other by giving strength and vigor to the same, invariably restores the patient to perfect health in a very short time, and generally ly the use of a single package, if the directions are adhered to.

As a pretentative of Fever and Ague and all Billions Fevers, so prevelent at the West, they feserve a decided and distinct recommendation Were they used at short intervals during the sickly season, they would be found in every in-stance to keep of those distressing disorders, to which the people every summer are the unfor-tunate victime. And which have not generally found a temedy in the too common use of Qui-mine and Tonic Mixtures; but in many cause ag-

gravated and made worse.

Having the fullest confidence in the Medicine, they were in the beginning, instead and have always been sold under a partitive correspond to refund the money in all cases of failure. Within the last year they have been used in many bendred cases, and out of the whole number but one case has yet been made known, where a purmagnent case has yet been made known, where a purmagnent case has not been effected.

The proprietor has the utmost confidence that they will be found equally sure in the Wast—as they have already been used to some extent with the most happy resalts, as will be seen by referring to a few Certificates on the iniside directions. For sale by the Proprietor

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY. -One Presidential term - No interference in elections by Government Officers A uniform currency of gold and silver; or bank notes at all times redeemable in specie on demand - An Independent Trea sury under the exclusive control of Cougress. Opposition to monopolies, to irlent banking.

A beautiful day was last Saturday. boThe Sun shane out on all its splender; eveby body seem to feel its influence, and ta. king advantage of the fine weather, made it on excuse for a ride to the race course. The road bet ween Buffalo street and Mount Mismery, or the Landing, was thronged with bug. olgys, hacks, dunkey, carts, waggons, drays, horsemen, formen, and every thing else with the powers of locomotion which were going as fast as eager haste could propel them to the race course. This course like all others is a seen of depravity and corruption, and on Saturday it presented its usual appear ance of all other race days here and there was a groom walking up and down, a horse with his training bankets on across the track come running two or three diminutive specimens of the human race, with saddles on their backs from which was juf red they owere riders around the starting point were of the different horses and arranging their hets; around the her were groups of indivi-date discussing the metits of ginslings and

But the great feature of place was the gambling operations going on. They were not only confined to the stand, but the whole field in the rear of it was covered with blacklegs on a small scale; every stump had its sweat cloth or thimble ring, or some other gaming aparatus, while the apartment under the stand was Pandemonia itself. Several farge rolette tables and wheels of fortune. were moving with their bankers or coupiers behind them calling out the game, and heaps of specie piled up before them, as a temptation to the simpletons, who were unable to withstand it, and were laying down their money, which the gamblers raked up as fast. All went on as happy as a marriage le", where who should make their ill-timed apple, with a posse of officers at their back.

This unlooked for visit caused a scene of consternation and confusion which baffles description of The officers, blacklegs, foafers, lookers on boys and blackguards made a sumultaneous dash for the heap of mint droper "to victors belong the spoils" was the word, and on they rushed some got more and some less. Some poor devils whose " looped and windowed raggedness" would scarce keep the rough winds of heavens, and to whom a good belly full was a thing, that had only existed in their imagination have lived like fighting cocks ever since.

The gamblers were routed horse and foot, teaving their property in the hands of the enemy, who found, when counting their

A FOREIGN AMBASSADOR IN TROUBLE.

The Hon. J. Pinckney Henderson, Envoy Exrandinary from the Government of Texas to the Court of France, arrived in New York by the British Queen on Saturday last. He was on Monday arrested for debt at the suit of Messrs. La Holbrook and Couley goods dealers in Pine creet, and for want of the requisite bail, was ommitted under custody of the Sheriff.

A motion was made in the Superior Court by is counsel, D. Lord, Jr. Esq for his release, on the ground that a Foreign Ambassador was, woder the law of nations, exempted from all liability of arrest for debt; and in support of his position, Mr. Lord produced in evidence the credentials of G. n Henderson, and a treaty entered into through his agency, between the Governments of France and Texas.

The motion was opposed by M. S. Bidw II, groups of individuals discussing the merits Esq. of connect for the plaintiff. He contended that the law of nations exempting from arrest foreign agents and ambassadors, intended only to apply to their residence in such countries as they were commissioned to visit, and to ensure their safety in their journey from and their retern to their own country; and inasmuch as the mission of the defendant had no reference to this country, and it not being a necessary part of his route, he was as much liable to arrest as any other individnal. The subject was argued at length by counsel on both sides, and numerous authorities cited both in favor of and against the motion. The result was, that the Court announced that a decision would be given on Priday.

> COUNTERFEIT BILL .- A \$500 post note of the U. S. Bank, was recently presented at that in-titution, which, though well executed, was pronounced to be counterfeit, because no notes from that plate are out. The imitation of Mr. Biddle's signature was the best ever seen before.

BROTHER JONATHAN OUTDONE. - The GOVernment," says the Piesse, "a few years ago, left to three criminals condemned to death; the choice of dying on the gailows, or adopting the following conditions :- The first was to take tea. the second coffee, and the third chocolate, and to live as long as they could, but were to eat nothing with either; these conditions were eagetly accepted. The last who took chocolate died in eight months; he who took coffee, lived two years; and the tea drinker survived three years. The man who took chocolate died in a state of complete decomposition, and so much eaten by worms, that, during his life, his limbs seperated one by one from his body. The man who drank coffee was so distigured after his death, that one would have said that the fire of heaven had burnt his entrails, and calcined him from head to foot. The tea drinker became so thin and almost for town, leaving the gamblers to bear up diaphanous, that it was perfectly easy, with a candle in one's hand, to read a newspaper through tion. Beaver st. Albany, the only places must of New York, where Hanter's Red Drop, Hanter's Mixture, and Hanter's Anti-Mercurial Sysup, with all other Humar's Medicines can be obtained.—
These medicines are incontroverably the only medicines on earth that can be depended on with the atmost confidence, to quickly, asfely, and permanently eradicale from the system, the most destructive poison that ever afflicted offending men. This mighty conqueror has never been known to fail in a single instance, where the directions have been attended to, to save an unfortenate sufferer from an untimely and diagraceful end, when all other powerful remedies have failed; even in the most desperate and investenate cases. Cure confidently warranted in avery cise, and under all circumstances in either end, without restraint, or the pay returned—many man. All medicine sent to a distance will be packed secure from observation; and all latters, post pand, describing case, will be promptly attended to, and a confidential correspondence continued until the patient gets well. Beware of a parage ric preparation sold under the name of Hunter's Red Drop, in Rochester. This is about as near as the rest of spurious imitations. See that each bottle bears the signature of Dr. Uriah Lovison, which is the only genuine, and sold only as above. The price of the Red Drop is \$1 per vial; Hunter's Mixture and Powders for Genorrhost, \$3; Hunter's Anti-Mercurial Syrap for the effects o-mercury and the remains of a certain disease, \$2 per bottle. This is the most thorough purifier of second door from Main Buffalo at Planter's Anti-Mercurial Syrup for the effects omercury and the remains of a certain disease, \$2
per bottle. This is the most thorough purifier of

They have passed away from the hundreds that are daily launched upon the tide of experiment, and now stand before the public as high in reputation, and as extensively employed in all parts of the United States, the Canadas, Texas, Mexico and the West Indies, as any medicine that has over been prepared for the relief of suffer I ing men. They have been introduced whetever it was found possible to carry them; and there it was found possible to carry them; and there are but few towns that do not contain some re-markable evidence of their good effects. The certificates that have been presented to the pro-prietor exceed twenty thousand operands of five hundred of which are from regular practis-ing physicians, who are the most competent judges of their morits.

Often have the cures performed by this medi-cine been the subject of editorial comment, in various newspapers and journals, and it may with truth be asserted, that no medicine of the kind has ever received testimonials of granter value than are attached to this. They are in general use as a family medicine, and there are thousands of femilies who declars they are never satisfied acless they have a supply always are hard.

#### LICINA CORDIAL

"To Dr. Magnin, Inventor of the Lucine Cordial, or Elixir of Love,

" Respected and Honored Sir,-We have all, in a variety of cases, tested the remarkable effec of your great discovery, and have assembled for the purpose of bearing evidence to the facts, and tendering you the honor which is your dise.—
The "Lucius Cordial" is, in our opinion, an infallible remedy for the "prostration of the procreant functions, and aruficial barrenness;" and therefore must prove a blessing to the human rane. We can also bear evidence that there is nothing in it of a mercerial or deleterious nature; and, in short, that it is one of the noblest medicinal dis

coveries of any age.

"With feelings of admiration and respect, we remain, dear Sir, your obedient servants.

Josselin Bessuit,

Sigismond De La Mardne. Adrien Decras-Octave Nicols, ; Jean Blanc. mobert Stevenson Louis Guineans Pietre Baren.

The Lucina Cordial is also an indubitable cure for the Floor Albos, obstructed, difficult, or painful Menstruction: also for the incontinence of lirine, or the involuntary decharge thereof. It is likewise an invaluable and unrivalled medicine in cases of Chronic Ecuptions of the Skin, and in

the dropsical affections of the aged.

Be especially particular to observe that a fleurde-lis is printed on the directions which are given with each bottle, it is also beautifully embossed on the colored showbills which are hung in the stores where the genuine Cordial is for sale.—Purchasers would also do well to remark that the neme Lucius Cordial?—is stamped in the glass of each bottle, and also that a fac smile of the American Agent's signature, (M. A. F. Herrison) will be found on the outside label.

Rochester, May 28, 183 TEETHING INPANTS .- Soothing Syrup-Lancet in painful den-tition. By the use of the Lancet, the gums are not only rendered callous but the teeth are not anfrequently turned out of their true position, and made to ride over each other.

This syrup is calculated to obviate the necessi ly of the Laucet, by relaxing the tense membrane which envelopes the tooth thereby facilitating the passage through the gams; and by its southing properties diminishing the irritability and conse-

quently preventing the distressing and frequently fatal symptoms attendant on dentition.

OLDRIDGE'S BALM OF COLUMBIA FOR THE HAIR.

Its positive qualities are as follows: 1st-For infants keeping the head, free scurf, and causing a luxuriant growth of hair.

2d-For ladies after child birth, restoring the

skin to its natural strength and firmness, and pre-

venting the falling out of the hair.

3d—For any person recovering from any debility, the same effect is produced.

4th—If used in infancy till a good growth is started, it may be preserved by attention to the latest period of life.

5th-It frees the head from dandruff, strengthens the roots, imparts health and viger to the cir culation, and prevents the hair from changing co-

for or getting gray.

6th—It causes the hair to curl beautifully when

done up in it over night, By No ladies' soilet should ever be made with-

7th-Children who have by any means con-tracted vermin in the head, are immediately and perfectly cared of them by its use. It is intallible. For sale by nearly all respectable draggists. Apply to Comstock & Com., 2 Fietcher-street, New York.

CAUTION .- None can be gentine without a splendid steel plate engraving, on which is the Falls of Ningara, and Dr. Comstock's, the American egent's name, &c.

THE MAYOR.

or THE LATE MAYOR of Philadelphis has certified, under seal of the city, to the character of several Divines, Physicians, and gentlemen of high standing, who declare positively under their own bands (all of which may be seen at the drug store) that the Balm of Columbia is not only a certain preservative, but positively a restorative of the human hair; also a cure for dandruff. Who shall dispute, or who go bald? Inquire at all respectable druggists.

CAUTION.—None can be ganning without a

THE HUMAN BRARR.

Where the hair is observed to be growing thin nothing can be more prosperous than the use of oils, grease, or any futty matter. Their application can only be recommanded through the gross est ignorance, as they hasten the fall of the bair, by increasing the relaxation of the skin. When there is a karsh, dry, or contracted skin, and where the small blood vessels which carry hourishment to the balb are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but slone they are of no avail. There must be a stimulos to rouse the vessels from their torpor, and quicken the current of the blood, - Extract from Clirehugh's Treaties on the Hair.

The Balm of Columnia is the only preparation that can have that effect, being entirely free from

any oily substance. CAUTION .- None can be genuine without a splendid steel plate engraving, on which is the Falls of Ningars, and Dr. Comstock's, the Ame.

THE HERO OF CHIPPEWA.

In the federal Daily Advertiser of Nov. 26, there was published a long communication signed "Prescott." The signature is certainly significant, appearing as it does, in a paper that has always been the champion of Canadian Toryism. "Prescott," is the place where the brave Woodruff and Von Should were made prisoners by infuriated Tories, and at " Prescott" they were cruely murdered. It was at " Prescott" that a gallant little band of the Sons or LIBRARY athstood for a long time the prowess of a aree force of Her Majesty's loyal bloodounds, and were finally overpowered by suerior numbers. The signature of "Prescott" is therefore an appropriate one over which to assail the Hino or Chippewa. The Prescott Tories on both sides of Lake Ontarie cordially hate Gen, Scorr for his gallantry and bravery in the last War. The severe drubbing he gave the red coats will never be forgotten or forgiven. But we should hardly have expected that a paper claiming to be "democratic," and that supported for eight years the Hero of New Orleans, would dare to throw off the mask at once, and show the cloven foot of apostacy by attacking the Here of Chippewa. The following extract from Mr. Tery Prescott's communication, shows the genuine spirit of the Massachusetts federalists as exhibited throughout the

And this man is now gravely brought forward to be little the highest office in the Union by being made a candidate for it."

Realy, the " signs of the times" begin to indicate pretty clearly in which Toryism and Federalism are to be found. The vile tory crew who tried to rob old Hickory of the honor of the victory at New Orleans, are now busy in their endeavours to defame his brother in arms, the gallant Scott! We hope the Albany Argus will follow suit, to its brother of the old federal Daily. Let them carry on the war against the defender of American Freedom in the second war for Independence, Such attacks will rally all true Americans under the Star Spangled Banner, and the watch word of " Scott and their gift. ARREST OF COUNTERFEITERS.

We extract from the Evening Journal the following important information:

The following is an extract of a letter, received o day by a gentleman of this city, from a distinished gentleman residing at the place of its date. There can be no question of the truth of the statement. Dunham is in Lower Canada, djoining Freleighsburg, and is about 10 miles north of the Vermont line.

> FRELEIGHSBURG, Lower Conada, November 29, 1839.

We have just finished a campaign against a gang of Counterfeiters in Dunbam, near this place. The result is, aundry presses, rollers, Bank plates and a large amount of bills. The following is the description of the plates:

I's, on the Bank of Auburn, N. Y.

. ...

In all foorteen plates. Besides, there are bills on the Oneida Bank, Utica, 3's-well executed, of 50's on the United States Bank. These plates we intend to find yet, as one of the fellows has promised to do so, and turn witness. Seven were marched off by the Police, hand-cuffed, and are by this time safely lodged in Montreal jail.

The Oneida Bills appear to be a new issue here. The vignette on the 3's is, I believe a Rail Road, dated, I think, 2d Sept., 1839.

The following very good "take off" upon the nodern practice of proposing questions to candidates for office, is from the Vicksburgh Whig:

TAKE CARE OF YOUR TRUNKS.

A man of genteel appearance, who calls himself John Jones, was arrested on Wednesday evening hy officer Moody, charged with stealing the trunk of the Hon. Judson Allen, now on his way to Washington. He came from New York on Wednesday in the rail road line, and got into the emnibus at the depot, and proceeded down Third to Market street, where he (Jones) stopped, and calling a porter, ordered him to take charge of his trunk, at the same time pointing ont the trunk of Mr. Allen, which was delivered to the porter. On arriving at the Marshall house Mr. Allen found that his trunk was gone, and apon enquiry, learned that it had been delivered to a gentleman, who appeared to be in a great burry, at the corner of Third and Market street, An officer was soon procured, and the porter found, who stated that he carried the trunk in a great hurry for the gentleman to a hotel in Bank street;-thither they went, and were told that the gentleman had got another porter and taken the trank to a house in south Front street : but before the party had got there, the gentleman in a great hurry had broken open the trunk and torn off the plate, on which was the name of the owner. Jones, who is also known by the name of Bond was taken before Alderman Radger, who, after bearing the facts, com? itted him to Moyamensi prison, where it is to be boped that he will be allowed to remain until his harry is over.

Mr. Allen was fortunate enough to recover all the contents of the trunk. On the top of the emnibus was another trunk, very similar in appearance and size to Mr. Allen's, which contained securities to the amount of upwards of 100,-900 dollars, in the care of one of the passengers, for a South Western Bank; and there is no doubt but that Jones had come on from New York in company, and with a view of obtaining it instead of Mr. Allen's-Phil. These medicines are incontroverably the only medicines on each that can be depended on with the utmost confidence, to quickly, safely, and permanently eradicate from the evateur, the most destructive pole as that ever affected offending men. This mighty conquent has never been known to fail in a single instance, where the directions have been attended to, to save an unfertunate sufferer from an untimely and degracofel ced, when all other powerful remedies have tailed; even in the most desperate and invergrate cases. Care confidently warranted in every case, and under all circumstances in either ser, without restraint, or the pay returned-map THAT. All medicine sent to a distance will be packed secure from observation; and all letters, post paid, describing care, will be promptly attended to, and a confidential correspondence continued ontil the patient gets well. Beware of a paregular preparation sold under the name of Hunter's Red Drop, in Rochester. This is about at more as the rest of spurious imitations. See that each boottle hears the signature of D. as the rest of spurious imitations. See that early bottle bears the signature of Dr. Uriah Levison which is the only gennine, and sold only as above. The price of the Red Drop is 31 per vial; Hentier's Mixture and Powders for Gonorrhors, 33 Hunter's Anti-Mercurial Syrup for the effects omercury and the remains of a certain disease, 32 per bottle. This is the most thorough purifier of the blood and restorer of the broken down constitution, ever known. Charges according to cir comstances and medicine suited to the care.

BEYOND THE POWER OF BOASTED PRETENSION.

BOASTED PRETENSION.

May Your, 20th March, 1839.

Draw Sin.—It is with feelings of returning you my sincere thanks for the relief you have afforded me, by using your medicine. "Hunter's Red Drop," after a long and protracted suffering of twelve months, in the West Indies, under the care of five emicent and far femed physicians, all of which were of the Colleges of London and Ediaburgh, could not do me any service; but after several courses of mercurial treatment, and the effects of the long confinement to bed in a tropical climate, recommended me to proceed to a more northern latitude. Acting in accordance to that last remedy. I took passage for this city; after my arrival I placed myself under the care of an old and eminent practitioner, who attended me continually for three manufact to no effect.—Perceiving, in the journals of the day, namerous proofs of the many successful cures which had been effected under your treatment. I called spon you without even the means of getting the medicine; but you cheerfully gave it to mo, and I am now sound, hearty and active. I thurefure, fearlessly come forward, and state that your medicine and treatment, (if strictly tellowed,) is the only true and secure remedy for aradicating you ersal and mercurial taints from the system that exists to the present day; and should you think proper to make these lines public, you are at jib erty to do so; and any person wishing to see me on the subject, you can also give them my aderty to do so; and any person wishing to see the on the subject, you can also give them my address. And believe me to remain, ever your grateful friend.

The public must be satisfied at once, if Hunter's Red Drop will cure a case of this kind, if

TEW DAVID'S OR HEBREW PLASTER The particulars of this Chemical Com-pound are owing to its extraordinary effects, up-on the animal fitte or nerves, ligaments and nimal filtre or nerves, ligements and its virtues being carried by them to the te seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful auxiliary, in removing the disease and faciliating the care in cases of Local Inflamma, too. Scrolfulous affections, King's Evil, Goot, Inflammatory, and Chronick Rheumatism, and in all cases where seated pain or weakness exist. A deatleman travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plaster, and of the (as he considered) miraculous cares it had perfermed, that he was induced to try it on his own person, for a Lung and Liver affection, the removal of which had resisted the gonial inflaence of that below and delicious climate.

He accordingly applied a plaster on the right side of the chest, where the pain was seated, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb tea of laxative qualities. He soon found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his health became permanently remetated.

Bince that time he has been recommending it to his friends and acquintances, for all fixed pains whatever; such as rheumatism, gout, head ache,

whatever; such as rheumatism, gout, head ache, hervous teeth ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual cure. He has likewise witnessed the happy effects of its softening and healing quantities in numberless cases of scroffalous hamore, knots, wene, white swelling, bard tomurs, stiff joints, ague cakes, ague in the breast, and the like, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, lameness, affections of the spine, female weakness of the back or side, should be without it. Married Ladies, in delisate situations, find great reltef from constantly

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, anthisic and long affections, in their primery stages. It destroys inflammation by producing a copious perspiration. No physi-cians should be without it. This plaster answers a far better purpose for dressing wounds, bruises and sores, than any plaster, salve or pintment

In view of the great benefits resulting from the use of this plaster within his own observaevery other plaster, salve ointment or opodeldoc he fore the pablic, in this country, has induced his gentleman to place the Hebrew Plaster in hand of those who will give it publicity; helieving it will prove itself to a rich blessing to the community at large.

No pathing or great spread of certificates is in-tended. Those who wish to satisfy themselves tended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 conts; a sum not half sufficient to pay for the insertion of a single cartificate into any of our most common prints, a single time. Thus trifling price per box, is placed upon it, in order that it may be within the means of every affected son or daughter of the community; that all, whether rich or ter of the community; that all, whether rich or poor may obtain the treasure of health, which

Prompt attention will be paid to orders addressed to Masses. C. COMSTOCK, & Co., Rochester.

Price per single box 50 cents.

Price per single box 50 cents.

DIRECTIONS.—Spread the plaster on a soft place of white leather, very thin—and once in 4 cer 5 days re-spread it by adding a little more Plaster. Apply it to any part that may be afficient with any of the above diseases.

THE RESURRECTOIN OR PERSIAN PILLS raise from the greatest weakness, distress and suffering, to a state of strength, health and happiness. Many there are, who have said in their hearts, there is no help for me, who have been raised by them, to pristine health and vigor. They assuredly have healing virtues, which no other medicine in this country possesses. Every individual has found, and will contine to find them to supersede the necassity of any, and every other medicine, which can be produced in America. If the purchaserdoes not find them to be superior to any article advertised in the public prints, for the diseases nentioned in the large bills which accompanies each box, when taken according to the directions their money will be refunded on the return of the box. We discard the idea of publishing a long list of certificates, or puffing them into nest, by publishing a column in each periodical. A treatment on the prominent diseases their areas. publishing a column in each periodical. A trea-use on the prominent diseases, their symptoms, and manner of cure, a history of the medicine, to-gether with many valuable certificates, from phy-sicians and others, the authors of which may be called upon, or referred to by written communi-cation, can be obtained grous, by calling on any one of the agents. Let no one be discouraged however despairing their case may be, until they have tried the Persian Cotspound, for the most incredulous have been obliged to acknowledge its superiority in quelling diseases which no other medicine could reach. THE VICE PRESIDENCY.

From the signs of the times we infer that the administration party have resolved to sacrifice Colonel Johnson, or in other words not to propose him for re-election to the Vice Presidency. The truth is, he never was the choice of the party proper; and owed his aomination to an intrigue, which would have broken up any party not corrupt to the core, and his nomination would not have been tolerated as it was, but that Mr. Van Bu ren's own nomination at Baltimore was brought about by similar means. When the cher Convention assembled, the Magician wanted strength-he was fearful of Virginia and the South-Col. Johnson would bring in his influence at the West, against Gen. Harrison, it on the ticket, which Van Buren and might be thrown into the opposite scale if the killer of Tecumech were neglected. How multiform are the intrigues of unprincipled politicians ? Col. Johnson has now no strength to give Mr. Van Buren. He cannot carry Kentucky-he cannot promise an electoral vote-he is as unpopular as ever with the South, and has lost strength in the West.

Mr. Van Buren stands in the same predicment with regard to his own State. He hee no hope from her vote. A Blow or .- To give us an idea of the lower regions, our devil yesterday, threw a paper of gunpowder into the stove, and a a more correct idea of that naughty piece, we can't conceive. The consequence of which was the blowing up of the stove, and knocking the devil into a cocked hat. Springing the mine under the Krimlin at Moscow was a foot to it. We intend to hire our devil out to the great Metropolitian Theatre to get up explosions. The ghost of Gay Faux will size out of his grave, for sheer envy.

If there is any one thing we dislike its an extravagant use of perfum by young men. There is a fellow we meet in the street some times, who is so redolent of sweets, that we can scent him an hundred yards off. We some times strongly suspect there kings of Cologue, and assess the

> TALLAMASS, Nov. 20. INDIANS.

On Saturday evening last, as Mr. Isler, living about four miles from town, was out driving for deer, with some of his neighbors, the dogs suddenly took off in a new direction, apparently eager in pureait of some other game from that which they had just Leen running. Mr. Isler was attracted to follow his dogs from their extraordinary movements, and after proceeding a short distance, discovered what he supposed to be a runaway negro, standing behind a small tree, and asked him what he was doing there. As soon as he spoke, however, he discovered that it was an upon the Indian, and wounded him. Mr. Isler also shot him, and the Indian was killed on the sibly save Tennesee, by taking the Vice spot. His scalp was taken off and brought to

Eleven Indians were seen to cross the St. Angustine mad, on Sunday. In thirty minutes from the time the news above related reached the town, foe for several miles, but lost their winding way in the hammock. MORE BORES DISINTERRED. In digging the canal below this village, the workmen have discovered human bones frequently, and last week they found the skeletons of three bodies, which had been buried back of a stone wall, near the road. Canajuhario Rudii.

Possoning enous Jeaconar, The Springfield, Mass. Republican of Saturday, contains a belef account of the supposed poisoning of a young man named James Stanton, a shoemaker, in Monson, by a respectable widow lady of that place, from jeelousy. If the facts shall turn out to be as they are supposed, the case presents a shocking instance of the depravity to which the fearful passion of jealousy can debase the female heart. The story, as it is told by the Republican, is as follows: Stanton, with two of his workmen. boarded with a widew Norton: he sickened and died suddenly on the 8th, and was buried on the 10th. As strong suspicions existed that he was poisoned; he was disinterred on the 11th, and his stomache examined by physicians. The stom ache was found to contain, in their opinion, arsenic enough to kill three mea. Mrs. Notion bought arsenic, professedly to kill rats, the same week on which Stanton died. Mr. Stanton was engaged to be married to a young woman in the neigh borhood; and Mrs. Norton having wishes of expectations of marrying him herself, was chagrined at the prospect of his marrying another. She had been heard to say that he should not marry the girl, or would never live in his new house, or something to that purport. Her repd. tation has never been good. She was examined before a magistrate in Monson, on the 27th, and committed to juil for trial. N. F. Sun.

THE BEAUTIES OF STREET SHOPESO. A smull volume has been published in London, the production of a witty gentleman who calls himself Joseph Fame, in which is the following graphic sketch of a street smoker ,

" Tailors' trottees, young medical students walking the hospitals, till duly licenced to kill, haunters of low billiard rooms and sexpenny bell, foruffick awaggers in saloons, and pawnbroker's shopmen, are generally food of smoking by their segars in the street not indeed for any pleasure which it affords them, but from the opinion that it gives them a buckish air. The sight of a slim tailow faced, young men, with a dirty shirt and a pair of drills to match, looking as if he were about to pake when he takes his Indian, who raised his rifle to shoot Isler, and eigar out of his mouth to spit," as he strats along did fire, his ball grazing the breast of feler. At the street, it is almost enough to excite the risible this moment's white man in his company, fired | muscles of a carman's horse, and to fet sympahetically as an emetic on the stomach of a de cent Christian."

BEYOND THE POWER OF BOASTED PRETENSION.

BOASTED PRETENSION.

New York, 20th March, 1839.

Draw Siz.—It is with feelings of unbounded gratitude, I take this opportunity of returning you my stocere thanks for the rolof you have also forded me, by using your medicine. "Hanter's Red Drop," after a long and protracted suffering of twelve months, in the West Indies, under the care of five eminent and far famed physicians, all of which were of the Colleges of London and Edinborgh, could not do me any service; but after several concess of insecurial treatment, and the effects of the long confinement to bed in a tropical climate, recommended me to proceed to that last remedy. I took passage for this city, after my arrival I placed myself under the care of an old and eminent practitioner, who attended me continually for three months to no effect.—Perceiving, in the journals of the day, numerous proofs of the many successful cutes which had been effected under your treatment. I called upon you without even the means of getting the medicine; but you cheerfully gave it to me, and I am now sound, hearty and active. I therefore, fearlessly come forward, and should you think proper to make these lines public, you are at lib erty to do so; and any person wishing to see me on the subject, you can also give them my address. TEW DAVID'S OR HEBREW PLASTE.R The particulars of this Chemical Com pound are owing to its extraordinary effects, ap-on the animal fibre or nerves, ligements and muscles, its sirtues being carried by them to the luminostate coat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful auxiliary, in removing the disease and faciliating the care in cases of Local Inflamma, tion. Scroffulous affections, King's Evil, Gout, Inflammatory, and Caronick Rhoumatism, and in all cases where seated pain or weakness exist.

A gentlemen travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plaster, and of the (as he considered) miraculous cares it had performed, that he was induced to try it on his own person, for a Lang and Liver affection; the removal of which had been the chief of his journey, but which had resisted the genist influence of that balmy and delicious climate.

He accordingly applied a plasser on the right side of the chest where the pain was seated, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb tea of laxative qualities. He soon found his health improving, and in few weeks his cough left him, the sallowness of his shin disappeared, his pain was removed, and his health became permanently rematated.

Since that time he has been recommending it

to his friends and acquintances, for all fixed pains whatever; such as thenmatism, goat, head ache, nervous teath ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual cure. He has likewise witnessed the happy effects of its softening and healing quantities in numberless cases of ecroffulous humor, knots, went, white swelling, hard tumurs, stiff joints, ague cakes, ague in the breast, and the lige, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, lam-ness, effections of the spine, female weakness of the back or eide, should be without it. Married Ladies, in deli-

cale situations, find great relitef from constantly wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, abthisic and long affections, in their primery stages. It destroys inflammation by producing a copious perspiration. No physiby producing a copious perspiration. No physi-cians should be without it. This plaster answers a far better purpose for dressing wounds, bruises and sores, than any plaster, salve or cintiment

now in use.

In view of the great benefits resulting from the use of this plaster within his own observation, his confidence in its infinite superiority over every other plaster, salved interest or opodelded his gentleman to place the Hebrew Plaster in hand of these who will give it publicity; believing it will prove itself to a rich blessing to the community at large.

No puffing or great spread of certificates is intended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum not half eafficient to pay for the insertion of a single cartificate into any of our most common prints, a single time. This trifling price per hoz, is placed upon it, in order that it may be within the means of every affected son or daughter of the community; that all, whether rich or poor may obtain the treasure of health, which results from its use.

Present attention will be paid to orders addressed to Mesers. C. COMSTOCK, & Co., Rochester.

### THE MAYOR

THE LATE MAYOR of Philadelphia has ertified, under seal of the city, to the character of several Divines, Physicians, and gentlemen of high standing, who declare positively under their own hands sill of which may be soon at the drug store) that the Balm of Columbia is not only a certain preservative, but positively a restorative of the human bair; also a cure for dandruff. Who shall dispute, or who go bald? Inquire at all respectable druggists.

CAUTION.—None can be genuine without a splendid steel engraving, on which is the Falls of Niagera, and Dr. Comstock's, the American agent's, some, &c.

agent's, name, &c.

THE HUMAN THE ALTER

Where the hair is observed to be growing thin, nothing can be more prosperous than the use of oils, grease, or any fatty matter. Their application can only be recommended through the grossest ignorance, as they hasten the fall of the hair, by increasing the relexation of the skin. When there is a harsh, dry, or contracted skin, and where the small blood vessels which carry nourishment to the bulb are obstructed, then the oils, &c., may he good, as they tend to relox the skin; but alone they are of no avail. There must be a stimulus to rouse the vessels from their torpor, and quick-en the current of the blood.—Extract from Clirehugh's Treaties on the Hair.

The Balm of Columnia is the only preparation that can have that effect, being entirely free from any oily substance.

CAUTION .- None can be genuine without a splendid steel plate engraving. on which is the Falls of Niagara, and Dr. Comstock's, the Ame. rican agent's, name, &c.

#### GENERAL Durk Green.

So well known as Editor of the late Washing ton Telegraph, is referred to for the truth of the following:

General Green a few days since asserted in a public place, that he had used Hay's Liniment for the Piles, and that the effect was very astonishing, and that he felt it his duty to make known as far as in his power, to his suffering fellow men that such an extraordinary article was in existence. He said he would cheerfully lond his name, and aid in extending its usofulness. This is but one of which we may safely say handreds who have given like testimony.

PERMANENTLY CURED IN ALL CASES

GENESEE VEGETABLE

# MEDI

These Medicines are faithfully perpared from receipt of a distinguished practitioner of Medicines, by whom they were first invented, and used in the Hospitals of New York, in nearly all the cases of Fever and Auge that occurred during the years of 1812, 13, 14, and 1815, and afterwards introduced into the Genesee country, and used in his private practice, with a success angurralled in the history of Medicine.

The Genese Remedies, which are prepared without Quinine or any preparation of Hark's.—Consist of two kinds of Pills—one of which operates by thoroughly cleaning the system from all the stale and acid Bile, which is the very seed of the disease. And the other by giving strength and vigor to the same, invariably restores the patient to perfect health in a very short time, and generally by the use of a single package, if the enerally by the use of a single package, if the directions are adhered to.

As a pretentative of Fever and Ague and all .
Billious Fevers, so prevelent at the West, they deserve a decided and distinct recommendation. Were they used at short intervals during the sickly season, they would be found in every in-stance to keep of those distressing disorders, to which the people every summer are the unfor-tunate victims. And which have not generally found a remedy in the too common nee of Quenine and Tonic Mistures; but in many cases aggravated and made worse.

Having the fullest confidence in the Medicine,

they were in the beginning, issued and have they were in the beginning, issued and have always been sold under a positive correster, to refund the money in all cases of failure. Within the last year they have been used in many hundred cases, and out of the whole number but one case has yet been made known, where a positionent care has not been effected.

The proprietor has the utmost confidence that they will be found equally save in the West-cast they have already been used to some extent with the most happy results, as will be seen by referring to a few Certificates on the inside diceations. For sale by the Proprietor

LADIES FAIR AND FAIR LADIES

We are informed that the Fair Ladies of Grace Church have been industriously plying their pretty little fingers for severil months in preparations for a Fair. Of all the charming, sweet, sentimental and delightful methods ever invented for easing us male bipeas of our loose change or " surplus revenue," the ladje's fair is the most exquisite. The inimitable grace graceful commodities for sale will meet the stubbornheart of the most graceful bachellor in the city.

Grace 'tis a charming sous Harmonious to the car."

and we may aild, to the pocket, for if it don't make the small change gingle in the pockets of the begue before this week is out, then we are greatly mistaken. We are not yet advised of the place that will be honored by being made the mart of these female traders in fancy wares; but the Fair will probably come off during this week. We shall inform the patrons of the Sun of the "time when and place where they can lighten their pockets to a charm, in buying Holliday presents for their Mothers, Sisters, Wives and Sweethearts. In the mean time ye beaus and bachellors prepare. Comb your headswash your faces-trush your boots-and Ladies; and above all, | pay no debts till after the Fair (except your subscriptions to the Sun.)

#Start a man down hill and every body will give him a kick" is an old proverb, and is verified in the case of our neighbour of the Eagle. No sooner was he pitched into precarious. He was not wholly out of his mind. by one of the Dailies, than they all joined in |coald converse, and appeared rational and otherthe hoe and cry with the determination of wise, by turns. Various rumors are in circulation. being in at the death. The consequence of as to supposed stretch of power in his office of which was, the ejection of all the Dailies from his premises. These proceedings in a stranger's eye must appear very curious, for a hotel to be without the city papers, is something unheard of. To remedy this evil, we would suggest to Mr. Hall, if we are not making too bold, that he subscribe for the TATTLER, and let it take the place of a sensation of deep regret among our citizens. the Democrat and Advertiser, in his reading rooms. He can have no objections to the TATTLER, as that very respectable paper has always remained neutral on the "Striped Pig" question.

Cales Quotem - An Ohio paper advertises for a good practical printer, who would take the charge of the mechanical department of a printing office, read proof, make selections, scribble a paragraph when necessary, rock the cradle, dig potatoes, cut wood and go with the cats to singing school, and neighbourhood quiltings.

A cow on the Amboy and Philade!phia Rail Road, put her carcase in the way of the cars and threw them from the track-nobody injured. Such concumbers are quite common on the railroads of late.

A SHORTHAND ACCOUNT OF THE WHOLE much actual wealth as they were before all the world failed.

The report in circulation, of J. W. Dwindle, having set the Genesee on fire is wholly without foundation. We hasten to relieve our esteemed friend of the imputation so maliciously cast upon him.

DATEST NEWS .- Our friend -- , is going to inflict another Indian murder story upon us. Lord deliver us from evil.

We shall get out the President's Message in an extra.

The " Great Unprincipled" need nt make a hog of himself, if he has got bristles.

Washington is overrun with officeeekers from beggars of secretaryship, down to messengers of clerks, and clerks of committees. Some are worthy and well qualified, and deserves employment, but the majority are lazy, and worthless characters, who would better fill the lot which nature designed for them, by chopping logs in the pine woods, than log-rolling about the lobbies of the Capitol. John Randolph used to throw off his sarcasms at the race, and for a time kept them at bay; so that there were rarely more than three or four applicants for every vacant office; but now there are as many scores almost for every office, from highest to lowest.

It is said that George M. Dallas, of Pennsylvania, late Minister to Russia, is to succeed Mr. Grandy in the office of Attorby General. It is also said that C. C. Cambreleng will soon be nominated as Minister to Rossia. There are divers hungry applicants for the place of the Secretary of the Treasury; but as Mr. Woodbury does not choose to give up his office, and is moreover the only real workey in the Administrarion, notwithstanding his blundering as a financer-the President will hardly dare to displace him.

MELANCHOLY ATTEMPT AT SUICIDE.

We learn that yesterday morning, Michael E. Israel, Esq., Cashier of the Western Bank of this city, passed over to Camden, proceeded t, a secladed spot about half a mile from the river and attempted to commit suicide by shooting himself through the head with a pistol. The ball passed under the right ear, and out towards the make ready to appear in the Society of the neck. He then returned on hoard the boat, recrossed the river, and fell in the street, after he had relanded in I hiladelphia. On his way back, he kept his hand over the wound, and thus concealed it from observation. The moment his situation was discovered. Dr. Parish was called in, and every possible attention was rendered.

It is feared that the brain is injured, and last evening, the case of the sufferer was considered Cashier, and we believe, that a committee is now investigating the accounts of the cashier. Stories of that kind should, however, always be received with great cantion, under circumstances like the present. Mr. 1srael is a married man, about 47 years of age, and has always been considered estimable in private life, and upright as a member of the community. The affair has produced

We last evening conversed with a gentleman who met Mr. Israel between twelve and one o'clock yesterday, walking up Arch street. He said that his face was stained with blood; and observing him more closely, remarked that he staggered somewhat and held a handkerchief to one side of his head. Surprised no little, our informant hesitated for a moment, then went ap to the wounded man, and asked if his name was Israel. His neck cloth was covered with bloodhis face had an awful appearance : but he did not reply to the query, and was evidently desirous of passing on. Our friend then supposed be had been mistaken in the person, and left him .-Shortly after, he fell, and was taken to the house of Dr. Parrish as above mentioned. Ledger.

CHINESE SWEARING .- An instance occurred of the Chinese attesting the truth of an assertion by cutting off the head of a fowl, which is done only on special occasions, with great solemnity. implying that if what has been asserted be not true, may be suffer as the fowl does. There is nothing among the Chinese similar to an oath TROUSER .- All the world owes all the world exacted by the magistrates when they take evimore than all the world is worth, and all the dence! Appeals to the Gods are only made world calls upon all the world to pay. All the amongst private individuals, when they question world, therefore, are in reality worth just as the veracity of each other; and this is done not only in the manner street above, but in various others; as, on de a potter's vessel to pieces

and wishing that if they speak falsely it may be done unto them in like manner; or by blowing out a candle and wishes they in like manner may be extinguished. On some occasions, they go to the temple, and before the idols atter improcation . Practices very similar are, alas, too common in our own country. Indeed, there is nothing here among the heathen that is a thousandth part so bad as the constant and irrational profanation of the names of the Div no Being, and of sacred things, so common in Europe. They do not, whether in good homor or bad humor, in earnest or jest, call upon heaven to render them miserable in time and sternity; as wicked men informed, but not influenced by the gospel, do a countries called Christian .- Dr. Morrison.

A PERILOUS VOYAGE .- The negro whom we mentioned as having been swept away down Canal street by the great flood of Saturday evening last, was found the next morning lodged in the top of a boney locust out at the swamp, where e was held fast by the thorns, and with some difficulty extricated. When asked how he liked his trip he replied.

"Fuss rate all but de landin-dat was de debil. 'You see when I fuss started, tort I'd fetch op somewhere mighty quick, but den l'stales-De way I went ober dem bridges was rader fara dan oderwise. Gosh a mighty! Rader fink an alligator would have found work to keep up if he'd a been tied fass. Well I want ober ebery bridge without touchin till I came to de lussdat one I tort I would dibe under. But I happen 'zackly to go deep enough, my bead hit de plank, riped him right off, I couched hold of him and sailed along on de cummotions billers until I otch up in dat locus. Dat was de most unkindest hit of all, as de poet says. Declar, if I dida's tink I'd run right into a nest ob galling snapping turtles, den I'm a white man, dat's all. BEYOND THE POWER OF BOASTED PRETENSION.

BOASTED PRETENSION.

New York, 20th March, 1839.

Dean Bin—It is with feelings of unbounded gratitude. I take this opportunity of returning you my street thanks for the relief you have his forded me, by using your medicine. "Huntar's Red Drop," after a long and protracted suffering of twelve months, in the West Indies, under the care of five eminent and far famed physicians, at of which were of the Colleges of London and Edinburgh, could not do me any service; i.e.t after several courses of instructed treatment, and the effects of the long confinement to hed in a tropical climate, recommended me to procved in a more northern latitude. Acting in accordance to that lest remedy. I took passage for this city; after my arrival I placed myself under the care of an old and eminent practitioner, who attended me continually for three months to no effect.—Perceiving, in the journals of the day, namer maproofs of the many successful cares which had been effected under your treatment. I called upon you without even the means of getting the medicine; but you cheerfully gave it to me, and I am now sound, hearty and active. I therefore, fearlessly come forward, and state that your medicine; for the care of the day come forward, and state that your medicine; fearlessly come forward, and state that your medicine. I am now sound, hearty and active. I therefore, fearlessly come forward, and afate that your medicine and treatment, (if strictly followed,) is the only true and secure remedy for eradicating you eraal and mercurial taints from the system that exists to the present day; and abould you think proper to make these lines public, you are at liberty to do so; and any person wishing to see one on the subject, you can also give them my address. And believe me to remain, ever your exected friend. grateful friend.

The public must be satisfied at once, if Hunter's Red Drop will cure a case of this kind, it will care in any case.

TEW DAVID'S OR HEBREW PLASTE.R The particulars of this Chemical Com-and are owing to its extraordinary effects, up-the animal fibre or nerves, ligaments and scles, its virtues being carried by them to the mediate seat of discuss or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful auxiliary, in removing the disease and faciliating the cure in cases of Lucal fuflamma, tion. Scroffulous affections, King's Evil, Gont, Inflammatory, and Chronick Rhoumatism, and in all cases where seated pain or weakness exist.

A gentleman travelling in the south of Europe and Palestme, in 4831, heard so much said in the latter place, in praise of Jew David's Plaster, and of the (as he considered) miraculous ource it had perfermed, that he was induced to try it on his own person, for a Lung and Liver

try it on his own person, for a Long and Liver affection, the removal of which had been the chief of his journey, but which had resisted the genial influence of that balmy and delicious cli-

He accordingly applied a plaster on the right side of the chest, where the pain was seated, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an berb tea of laxative qualities. He soon found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his health became permanently remstated.

Since that time he has been recommending it to his friends and acquintances, for all fixed pains whatever; such as rheumatism, gout, head ache, nervous teeth ache, pain in the side, hips back

nervous teeth ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual care. He has likewise witnessed the happy effects of its softening and healing quantities in numberless cases of scroff does he-mors, knots, wens, white swelling, hard tenurs, stiff joints, ague cakes, ague in the breast, and the like, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, lameness, affections of the spine, female weakness dec. No female subject to pain or weakness in the back or side, should be without it. Married Ladies, in delioate situations, find great relief from constantly wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, uhthisic and long effections, in their primery stages. It destroys inflammation by producing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for drossing wounds, bruises and seres, than any plaster, salve or ointment now in 1164.

In view of the great benefits resulting from the use of this plaster within his own observal tion, his confidence in its infinite superiority over every other plaster, salve ointment or opodeldoc hefore the public, in this country, has induced his gentleman to place the Hebrew Plaster in hand of those who will give it publicity; believing it will prove itself to a rich blessing to the nunity at large.

No puffing or great spread of cartificates is in-inded. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum not half sufficient to pay for the investiganot half sufficient to pay for the insertion of a single certificate into any of our most common prints, a single time. This trifling price per box, is placed upon it, in order that it may be within the means of every afficted son or daughter of the community; that all, whether rich or poor may obtain the treasure of health, which results from its use. salts from its use.

Prempt attention will be paid to orders ad-dressed to Messrs. C. COMSTOCK, & Co., Roohester.

Price per single box 50 cents. piece of white leather, very thin—and once in 4 or 5 days re-spread it by adding a little more Plaster. Apply it to any part that may be affected with any of the above diseases.

#### LUCINA CORDIAL

"To Dr. Magnin, Inventor of the Lucina Cordial, or Elizir of Lore.,

" Respected and Honored Sir .- We have all, in a variety of cases, tested the remarkable effec, of your great discovery, and lave assembled for the purpose of bearing evidence to the facts, and tendering you the bonor which is your die.-The "Lucina Cerdial" is, in our opinion, an infallible remedy for the "prostration of the procreast functions, and artificial barrenness;" and there fore must prove a blessing to the human rave. We can also bear evidence that there is nothing in it of a mercarial or deleterious miture; and, in short, that it is one of the noblest medicinal dis coveries of any age.

"With feelings of admiration and respect, we remain, dear Sir, your obedient servants.

Josselin Bossuit, Sigismond De La Martine. Adrien Decrae. Octave Nicols, ; Jean Blanc, Rubert Stevenson. Louis Onissais Pierre Button."

The Lucius Cordial is also an indubitable care for the Finer Albus, obstructed, difficult, or painful Menstruation; also for the incustinence of Urine, or the involuntary discharge thereof. It is likewise an invaluable and unrivailed medicine in cases of Chronic Eraptions of the Skin, and in the dropsical affections of the aged.

Be especially particular to observe that a fleurde-lis is printed on the directions which are given with each bottle, it is also beautifully embossed on the colored showbills which are hang in the stores where the genuine Cordial is for sale .-Purchasers would also do well to remark that the name-Lucius Cordial !- is stamped in the glass of each bottle, and also that a fac simile of the American Agent's signature, (M. A. P. Harrison) will be found on the outside label.

Sold only at the Medical Office in Liberty street, one door west of Groenwich street.

Price, Three Dollarsa bottle. For sale also by Hawks and Brothers 23 Ex change st. Rochester, to whom orders enclosing cash may be directed.

Rochester, May 29, 163 TEETHING INFANTS - Southing Syrup-I A substitute for the Lancet in painful den-tition. By the use of the Lancet, the gums are not only rendered callous but the teeth are not

unfrequently turned out of their true position, and made to ride over each other.

This syrup is calculated to obviate the necessito of the Lancet, by relaxing the tense membrane which envelopes the tooth, thereby facilitating the passage through the gams; and by its soothing properties diminishing the irritability and consequently preventing the distressing and frequently fatal symptoms attendent on dentition.

THE THOUGHT or FRA LER DOR VI LOR

Where the hair is observed to be grewing thin, nothing can be more prosperous than the use of pils, grease, for any fatty matter. Their application can only be recommended through the gr est ignorance, as they haster the fall of the hair, by increasing the retaxation of the wim. When there is a harsh, dry, or contracted skin, and where the small blood vessels which carry neurishment to the bulb are obstructed, then the oils, fee., may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimulus to rouse the vessels from their lorpor, and quicken the current of the blood.—Extract from Clive-

hugh's Treaties on the Hair.
The Balm of Columnia is the only preparation that can have that effect, being entirely free from any oily substance.

We have been held to bail again, for a libel upon J. W. Dwindle's character !!! The effects of the system pursued to drive us from the city, will prove centrary to the wishes and expectations of our persecutors. Here we have pitched our tent, and here we intend to stay through thick or thin. The citizens of Rochester extended to us the hand of friendship when we came here friendless and unknown, and to their liber ity do we owe our success, and we do not scheve they will desert us no

A man in Georgia, nine feet and a half tall, says he would like to see the little fellow they call the Kentucky Giant,

Our city was thrown into a great ferment on Monday morning, by the announcement of the abequadulation of a bar keeper over the river. The gentleman it appears, has run his face for everything, from a jewsharp to a three hundred dollar shawl, and then runaway. The way be has come it over the natives is not to be sneezed at. The most of the goods he evaporated with, were obtained on Saturday with the promise of paying for them on Monday. Several of the bitten ones are in pursuit of him ; but a day's start in these times of railroads and other power of locomotion, is considerable.

RESUCTION OF POSTAGE.-There is no earthly reason of any validity, why the postage on letters should not be considerably reduced throughout the United States. It is now oppressively high: and the rates, especially upon pamphlets and newspapers, sent from one state to another, might especially be diminished, Public men, who have large correspondences, feel the postage of their letters to be quite too enerous an item in their yearly lump of ' sundries.' It ought to be lessened .- U. S. Gazette.

The Resurrection Pills are carrying all the world before them. A gentleman up the street having taken rather a large dose fell asleep in his chair, and the next morning there was nothing left of him except his boots buttons and breastpin! A Jew David's Hebrew Plaster was put upon the boots and in less than half an hour, the gentleman was drawn out, though considerably debilitated. A regular dose (four pills) was then administered to him, which quite restored him, he ate seven pounds of beefstake for dinner, and next day was a well man! Those who doubt this story, if they will call on the gentleman, can have the privilege of examining the boots.

TIME TO GO HOME.-Paulding in his life of Washington, gives the following little an ecdote of the mother of this great man :

" She was once present and occupied the seat of honor, at a ball given to Washidgton at Fredericksburg, while in the full measure of his well earned glory, and when 9 o'clock came, said to him with perfect simplicity, " Come George, it is time to go home."

It would, perhaps, be well if many, to-day, would remember when it is "time to go home,"

IT The N. Y. Times, says: Mr. Cameron. of Lancaster, Pennsylvania, who was wounded in an affrey with R. W. Middleton the Editor of the Examiner, is in a fair way of recovery."

SHOCKING DRATH .- A young man, whose nam re have not ascertained, was found dead on Monday last, in a saw mill, at, or near Pactory ville, in this county. He was suplayed in or ing the mill, and when found, it appeared the while engaged in drawing logs into the mill by means of a windless, his hands had become forned under the rope, which it is supposed h was attempting to arrange while it was winding up, thus drawing him around the beam of the windless, the rope first passing over his arms, and then his head, and continuing to wind about him, until it had completely encompassed his body, literally crushing him to death, -Owego Gazetts,

SEXTY DOLLARS FOR A LADY'S HAT. - The Philadelphia Saturday Courier says, that on a pertain occasion, Joseph Benaparte was in the city of Philadelphia, with some members of his family, and one of the young ladies expressing a desire to purchase a fashionable hat for the season, they entered a ton store, on Chesnut st., and the lady selecting a Leghorn hat, which she fancied, the price was siked, and Count Surveitlers was told sixty dollars! He replied, "I must decline to buy it then: true, I can afford it, but I will not set so foolish an example."

A day or two afterwards, adds the above paper the fippent daughter of a dealer in merchandise. pped into the same store, to get a fashio hat for the season. The one which the young lady of the Count's family had selected, was shows. She was delighted with it, especially, "as the Bonaparte's had fancied it." and of course it was sent bome, and the father passed a check for the sixty dollars. Well, it was admired and telked about, but whose business was it, "since her father was so very rich, and they could afford it ?" "Ave, there's the rub," for in less than four months, the father failed for four or five hundred theseand dollars, but the daughter had previously thrown aside the sixty dollar hat as "out of season."

A PRACTISED MURDERER. A wretch named Bradley, at Pass Christian, Mississtopi, who some years ago shot a man by mistake for another he intended to kill, was recently pursued by officer Beston of New Orleans, for shooting some mules belonging to a Mr. Hearne. On their approach Bradley threatened to shoot them, if they should advance. Baston turned to go away, remarking to Hearne, that he had a family to support, and could not afford to risk his life in the arrest, when he was instantly shot by Bradley, who fied, but was wounded by the immediate discharge of H.'s rifle. Baston died of his wounds and though a large number of citizens were in pursuit of Bradey, he had not yet been taken.

Tooch or THE SUBLINE .- "It was a dark and dismal night, the wind howled mournfully, the lightning shook its fiery tresses through the air. load peals of thunder followed in quick succesion, rain and hail fell from an overburdened easket, and an awful sublimity pervaded all nature when Eagene Sommers, with his horrid purone at heart, and the weapon of destruction firmly grasped in his hand, stole forth, like an mamin, to kill-bed bugs !"

A ROAD DESTROYED ST FIRE. The Savan nah Republican of the 21st says: We have been requested to state for the information of those travelling between this and Charleston, on the

"Don't HURRY HAGGINS" This proverbial Kentucky phrase originated in the addition of a curious protecting clause to a note given by the worthy Mr. H. After the usual promise to pay, in twelve months, with ten per cent, interest, value received, &c, the following promise was prudently subjoined : "and it is expressly understood that in the payment of said note, oard Hag gins is not to be hurried."

COURT MARTIAL BROKEN UP BY A RIOT .-A rumor has reached us, but upon no very direct authority, of a most scandalous outrage said to have been enacted a few days since in Cramabe, during the sitting of a Court Martial on some delinquent militia of the 24th Northumberland regiment, liable to be fined for not attending training. A mob, headed by two individuals from the River Trent, named Weaver, are stated to have broken into the room where the court was sitting, and driven the officers composing it by violence away, upsetting the table and destroying their papers. If true, a severe and prompt example must be made of the offenders, or military authority will become a force among us .- Cobourg (U. C.) Star.

If such an outrage had occurred in the United States, we should not have heard the ast of it very soon

New Counterpart .- Sylvester & Co., of 156 Broadway, editors of the New R have shown us a counterfest just issued, purporting to be a \$2 bill of the Bank of Monroe, at Rochester-No. 1334-dated 17th June, 1839-Letter A .- P. BOASTED PRETENSION.

Naw Your, 20th March, 1629.

Draw Sim—It is with feelings of onbounded graitude, I take this appartenity of returning you my sincere thanks for the relief you have alforded me, by using your medicine, "Hantur's Red Drop," after a long and protracted suffering of twelve menths, in the West Indice, under the care of five eminent and far famed physicians, el of which were of the Colleges of London and Edinburgh, could not do me any service; but after several courses of mercurial treatment, and the effects of the long confinement to bed in a tropical climata, recommended me to proceed to a more northern intitude. Acting in accordance to that last remedy. I took passage for this city; after my arrival I placed myself under the care of an old and eminent precitioner, who attended me continually for three months to me effect.—Perceiving, in the journals of the day, numerous proofs of the many successful curse which had been effected under your treatment. I called appos you without even the means of getting the medicine; but you cheerfully gave it to me, and I am now cound, hearty and active. I therefore, fearlessly come forward, and state that your medicine and treatment, (if strictly followed,) is the only true and secure remedy for erudienting van erual and mercerial taints from the system that exists to the present day; and should you think proper to make these lines public, you are at lib erty to do so; and say person wishing to see me on the subject, you can also give them my address. ITS A most awuful catastrophe lately occurred at a meeting of politicians up town Some dozen or so had met at a grocery and liquor store, to arguly a little, and conjecture what detained the Message, and to make a few remarks upon the proceedings of the Convention at Harrisburg. One thoughtles fellow placed his now to the bunghole of a barrel containing rather pures alcohol than he had been accustomed to, when most mel-ancholy, mysterious, and miserable to relate, the spirit took fire, blew up, not only the arrel, but the whole company, with build-ag to boot. At the last accounts none of he fragments had come down.

By It is really autonishing with what ed. Day before yesterday every body was all agog to find out what was going on down at the landing; some said that a schooner, belonging to the patriots, had come up the river with the intention of robbing the armo-Ty ; some said it was no such thing, that the vessel was fitting out to take Quebec; another mid it was a vessel arrived with freight, in fact no two persons told the same story. We observed however that those who told the most extravagant story was listened to with much more interest than he who teld a simple one.

Every one seem to be opening their eyes to the benefit that would accrue to them if the reduction of postage is carried into effect. The rates of postage are too enormously high, in fact the poor man is deprived of corresponding in consequence of it. The penny postage system in England, works to a charm, and we move that our folks in Washington try the experiment

We should like to oblige Mr. O'. Reilly by delivering our oration before the Young Men's Association, but we can't make our mouth go off before an audience. Hhowever, if any hody will speak for us we will hold his hat.

EXTRAORDINARY CHANCE OF PORTORE, IF Tava.-Mr. John Mobbs, who died at Islington shoet the and of the year 1789, by his will be-questhed a large and valuable estate, then known as the Wesleak Parm, to assentere, upon trust for the benefit of his two some, then of the ages of three and four years, who were to have "propdistricts, to be qualified to become of esciety, and to be brought up to the a of the trust reposed to them, at a proper age last of it very soen.

apprent ced the boys to shoemakers in the neigh- Mr. Editor : borhood of Shoreditch, and they have, up to the present time, undergone many vicissitudes, totally ignerant of the splendid patrimouy to which they were entitled. The property, which during the present century has been considerably improved, comprises about 200 acres of land, now nearly all built upon, and several old satablished and first rate public houses in Hoxton Old Town and its vicinity, among which are the Old Ivy House, the Rosemary Branch, the Queen's Head, the Cock and Greyhound, the Kmg of Pressin, the Britannia, the Bacchus, the Plough, the Green Man, the College House, the Whitemore's Head, the Robinhood, and the Noah's Ark. The will of Mr. Mobbs, after having been secreted by the different parties in whose hands it has been until within the last few weeks, having some into the possession of his sons, has just been proved by them in the Doctors' Commons. The property must at the present time be worth apwards of 300,000 pounds.

" If you have a good wife, take care of her, and if you have not, get one immediately."

VERY PROBABLE.—A wag isteningto a vain and pompus fellow, who boasting of the amount expended by his uncle, while he was a member of Congress, for segars, exclaimed-" I suppose you think your uncle was a great smoker, but he was nothing to be compared to an aunt I had in Rhode Island, who was the greatest smoker in the world. she smoked for two years with two pipes constantly in her mouth—and ot length she was not satisfied with that, and so she tookher old china tea pot and filled it with tobacco and smoked regularly every day out of the spout.',

In a country paper is an advertise-ment of a property to let forever, or longer if required. Wonder if they but for the sesson. The one which the youn want the rent in advance.

THE LAST YANK ER STORY-A lady passing through New Hampshire observed the following notice on a board: " Horses taken in to grass.-Long tails three shillinge and sixpence short tails two shillings." The lady asked the owner of the land the reason for the difference of price. He answered-" You see, ma'm, the long tails can brush away the flies, but the short ones are so termented by them that they can hardly eat at

COURT MARTIAL BROKEN UP BY A RIOT .-A rumor has reached us, but upon no very direct authority, of a most scandalous outrage said to have been enacted a few days since in Cramabe, during the sitting of a Court Martial on some delinquent militia of the 24th Northumberland regiment, liable to be fined for not attending training. A mob, headed by two individuals from the River Trent, named Weaver, are stated to have broken into the room where the court was sitting, and driven the officers composing it by violence away, upsetting the table and destroying their papers. If true, a severe and prompt example must be made of the offenders, or military authority will become a force among us .- Cobourg (U. C.) Star.

If such an outrage had occurred in the United States, we should not have heard the

I was forcibly reminded of the beautiful words of Cowper, not long since, wherein he reproves cruelty to animals. As they are so universally known, (but I fear not appreciated) it is useless to repeat them. Cruelty to animals is punishable to a cerain extent by the laws of the land,-But there are cases wherein the law cannot take cognizance. Not long since a man (?) turned loose a poor worn out horse upon the common, to die or to starve, whichever shouldsnit his convenience, He was in sight of water, but unable to reach it; and he could only get food by gnawing the dried grass upon a common. sooner was he removed than another takes his place. I send you this, Mr. Editor, hoping that you will mention it in your evening paper, and may it meet the eye of the cruel master, and stir up some latent feeling of humanity in his cold and senseless heart. If it will not, some other means must be resorted to, for the digut sight must be removed, and that soon.

SEXTY DOLLARS FOR A LADY'S RAT. - The Philadelphia Saturday Courier says, that on a rtain occasion, Joseph Bonaparte was in the city of Philadelphia, with some members of hi and the lady selecting a Leghern hat, which sh acied, the price was asked, and Count Sur saiflets was told sixty delians! He replied, "I sust decline to buy it then: tran, I can afford it, bat I will not set so foolish an example."

A day or two afterwards, adde the above p the fippast daughter of a dealer in men dropped into the same store, to get a fashion lady of the Count's family had selected, was shown. She was delighted with it, aspecially, "as the Bonaparte's had fancied it," and of course it was sent home, and the father passed a check for the sixty dollars. Wall, it was admired and talked about, but whose business was it, "eig turned out on trial that the wife actu- it ?" "Aye, there's the rub," for in less than her father was so very rich, and they could afford four months, the father failed for four or five handred thousand dollars, but the daughter had previously thrown saids the sixty dollar hat as 'out of season."

JEW DAVID'S OR HEBREW PLASTE.R
The particulars of this Chemical Compound are owing to its extraordinary effects, upon the animal fibre or nerves, figuments and
muscles, its virtues being carried by them to the
immediate coat of disease or of pain and weak.

Horovog good soy interest remedy may be, this, at an atternal application, will prove a powerful analizer, in removing the disease and faciliating the care in case of Local Inflamme, tion. Rerofulous affections, King's Evil, Gont, Inflammatory, and Chronick Rhoumatism, and in all came where reated pain or weakness exist.

A gentleman travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plaster, and of the (as he considered) mirabalous cares it had performed, that he was induced to try it on his lower person, for a Lang and Liver affection, the removal of which had resisted the genial influence of that bulmy and delicious climate.

mate.

He accordingly opplied a plaster on the right side of the chest, where the paid was sexted, sucher between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb test of laxative qualities. He soon found his health improving, and in few weeks his cough left him, the selfowness of his skin disappeared, his pain was removed, and his health became permanently rematated.

Bince that time he has been recommending it to his friends and acquintances, for all fixed pains whatever; such as shemantism, gout, head ache, hervoes testh ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual cure. He has likewise witnessed the happy effects of its softening and healing quantities in numberless cases of scroffulous hu-

more, knote, wene, white swelling, hard tumure, stiff joints, wene cakes, ague in the breast, and the like, to the united estisfaction of himself and

It has likewise been very beneficial is cases of weakness, such as weakness and pain in the stomack, weak limbs, lameness, affections of the spine, female weakness &c. No female subject to pain or weakness in the back or side, should be without it. Married Ladies, in deli-

wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for coids, coughs, shthisic and long affections, in their primery stages. It destroys inflammation by producing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, bruises and seres, thus my plaster, salve or cintment.

and series, these any plaster, salve or distinguished in use.

In view of the great benefits resulting from the not of this plaster within his own observation, his confidence in its infinite superiority over very other plaster, salve ointment or opadeldee afore the public, in this country, has induced is gentlemen to place the Hebrow Plaster in and of shose who will give it publicity; believing it will prove itself to a rich blessing to the summanity at large.

No putling or great spread of certificates is in-

mmunity at large.

Ro pathing or great spread of certificates is included. Those who wish to satisfy themselves f the afficacy of this plaster, can obtain sufficient a spread 6 or 8 plasters, for 50 dents; a sum of half sufficient to pay for the insertion of a ingle certificate into any of our most nommon wrists, a single time. This trifling price per text, is placed upon it, in order that it may be estimate the treasure of the community; that all, whether rich or nor may obtain the treasure of health, which cents from its use.

THE RESURRECTOIN OR PERSIAN PILLS raise from the greatest weakness, distress and suffering, to a state of strength, health and happiness. Many there are, who have said in their hearts, there is no help for me, who have been raised by them, to pristine health and vigor. They assuredly have healing virtues, which no other medicine in this country possesses. Every individual has found, and will coutine to find them to supersede the necessity of any, and every other medicine, which can be produced in America. If the purchaser does not find them to be sujerior to any article advertised in the public priots, for the diseases a entioned in the large bills which accompanies each boz, when taken according to the directions their money will be refunded on the return of the box. We diseard the idea of publishing a long list of certificates, or puffing them into use, by publishing a column in each periodical. A trastise on the prominent diseases, their symptoms, and manner of care, a history of the medicine, together with many valuable certificates, from physicians and others, the authors of which may be called opon, or referred to by written communication, can be obtained gratis, by calling on any one of the agents. "To Dr. Magnin, Inventor of the Lucina Cordi-al, or Elizir of Loce., "Respected and Honored Sir,—We have all, in a variety of cases, tested the remarkable effec-of your great discovery, and have as-embled for the purpose of bearing evidence to the facts, and tendering you the honor which is your due.—
The "Lucina Cordial" is, in our opinion, no infallible remedy for the "prostration of the procreent functions, and artificial barrenness;" and there fore must prove a blessing to the human race. We can also bear evidence that there is nothing in it of a mercurial or deleterious natures, and, in ort, that it is one of the noblest medicinal dis

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY.

One. Presidential term—No interference in elections by Government Officers -A uniform currency of gold and silver; or bank notes at all times redeemable in specie on demand—An Independent Trea sury under the exclusive control of Congress-Opposition to monopolies, to ir-redeemable Shinplasters and to Irau duent banking.

REVOLUTIONARY MOVEMENT!

We look upon the attempt of the Administration at Washington to exclude the members of Congress from New Jersey holding the legal certificates of election, as a measure more revolutionary in its character than any that has been attempted since the alien and sedition laws of John Adams. It is contrary to the practice of both Congress and t a sure Legislatures since the organiza ion of the Government. The rule has ever been where seats have been contested, to a mit in the first instance those holding t e regular corbficates and a terwards if it ap. pe'd upon investigation that others were entitied to their sea s to ous! the sitting memb r . Mr. Van Buren himse f whilst Attorney General of this State, sanctioned this practire in the famous contest between Henry Fellows and Peter Allen. But what are bust utions, Laws, or precedents, when they stand in the way of the despot of the White House or the corrupt faction that surrounds him? what is consistency to Martin Van Huten when it stands in the way of his progress to supreme power? with an annual expenditure of 40 millions of dollars tion with Mr. Dwinell, and simply from a with which he keeps in pay thousands of office holding electioneers in every State, he yet aspires to unlimited away over the Tressury. The attrinment of such power, will make the President a more Soverige Monarch than any crowned head in Europe. The Senate contains a decided majority of his supple tools, and if he can obtain a majority of the House of Representatives by robbing a sovereign State of its rights, and dishonoring her certificates of election signed by the Governor and sealed with the seal of the State, every barrier to the attainment of supreme of power, is removed. Are the peoprepared for a revolution? Will they submit to a Monarch under the name of a President? Will they be content with the shadow of freedom without the substance Alas I the royal pageantry which marked to go below. the "royal progress" of Van Buren last autumn, was indicative of the Monarchy under Republican forms, if this usurpation is tolerated. Would that we had a "trumpet tongue" to sound the alarm, ere it is too late. Have the people forgotten Yorktown, Samtogu, and Bunker Hill? Did our patriot forefathers spend blood and treasure to found a Monarchy for the benefit of Martin Van Buren, "his heirs and assigns forever." Such will be the case unless the people arouse from their lethargy.

Misfortune seems to follow every thing connected with the ill-starred Explor- graceful trim of the Yankho were seen. ing Expedition. The e-timable man who planned it, was neglected by the government-there was a lavish expenditure in one year, and a degrading parsimony in another, towards the fitting out-there was a disgusting court favoritism in detailing the officers who were to go out in the expedition, a neglect of the proper talent and the energy required for such a duty, and the consequence of all is, what every body expected, dissention and difficulties that will render the whole thing a complete failure. Neither science or civilization will be benefitted one whit. So much for corruption and imbecility in those who manage our public af-

Lieutenant of the Peacock was sent home under charges from this port, before our arrival. The crews of the different vessels are deserting at every opportunity, and I do candialy believe that the whole expedition is a complete humbug. In the end it will disgrace the navy flag, and country, and could it be recalled by government it would eave us from a great disgrace, which will be heaped upon us at the expiration of the cruise. AN "AMENDE HONOURABLE."

It is never the design of the editor of this paper to do intentional injustice to any one. Sometimes when I think I am imposed upon or illtreated, in the heat of excitement I am apt to indulge in a degree of asperity which my cooler judgment condemns. Such was the case in my paper of the 20th of November, in some comments I made upon J. W Dwinell Esq. Attorney at Law, of this city. My property had been stolen and I sought redress through the tribunals of the Law when presto in tead of o' taining satisfaction for my loss. I found myself sued for slander. In the excitement of the moment I said some hard things against Mr Dwinell the Attorney, I consider it magnammous to acknowl. edge an error, and shall never hesitate to make all the reparation in my power. I do therefore retract all I said against Mr. Dwinell in my article of Nov. 20-and fur thermore am happy to say, that Mr. Dwinell I believe to be a young gentleman of good his profession. It is proper here to say, that conviction of its justice.

FEMALE COURTSHIP IN ROME.

The women of Rome know nothing of the setraints which delicacy, modesty and viltag sm some upon the sex in Northern Europe. A Roman ady, who takes a liking to a young foreigner, do s not cast down her eyes when he, looks at character, and one that bids fair to rise in her, but fixes them upon him with avident pleasure ; na , she guzes at him alone shengver she this apology is made without any consultar meets him in company, at thurch, at the theatre, or in her walks. She will say without ceremony to a friend of the young man's, "Tell that gentleman I like him.' It the man of her che feels the like sentiments, and asks, 'Are you fond of me?' she replies with the utmost frankness 'yes, deat.' In this simple and unembellished cranner commence connexions which last for years, which, when they are dissolved, plunge the men into despair. "NEPLUSULTRA." MAGES VEGETABLE HAIR UIL -- pos-Deesses many superior qualities over any other article of the kind offered to the public. It has been proven invaluable for all deseases to which the human hair is subject. Over three hundred Certificates can be produced testifying to the wonderful effects of Sage's Vegetable Hair Oil, in preserving and restoring the hair, removing dandruf, preventing gray hair and premature baldness, in all its froms; but only a law will be introduced, as the Proprietos chooses to have his composition stand upon his own merits. It is a powerful specific for producing a new growth of hair, by stimulating the action of the vessels supplying the roots, and inducing their firm adhesion to the skin; added to perfume for dressing and mightening the beauty of the hair. No Ludies or Gestlemen's Toilet should be complete without a bettle of Sare's best. See certificates, &c. in the treaties on the growth and decay of the hu-man hair, that accompany each bottle, which is aveloped in a splendid Lithographic Labil, with a fac-simile of the Proprietors hand writing.

PILLS raise from the greatest weaknam, distress and suffering, to a state of
strength, health and happiness. Many there
are, who have said in their hearts, there is no
help for me, who have been raised by them, to
pristing health and vigor. They assuredly have
healing virtues which no other medicine in this
country possesses. Every individual has found,
and will coutine to find them to supersede the necessity of any, and every other medicine, which
can be produced in America. If the purchaser
does not find them to be superior to any article
advertised in the public prints, for the diseases
mentioned in the large bills which accompanies
each box, when taken according to the directions
their money will be refunded on the return of the
box. We diseased the idea of publishing a long
list of certificates, or puffing them into use, by
publishing a column in each periodical. A treatise on the prominent diseases, their examptones,
and manner of care, a history of the medicine, together with many valuable certificates, from physicians and others, the authors of which may be
called upon, or referred to by written communication, can be obtained gratis, by calling on any
one of the agents. Let no one be discouraged
however despairing their case may be, natil they
have tried the Persian Compound, for the most
incredicion have been obliged to acknowledge its
superiority in quelling diseases which no other
medicine could reach. They are the chespest as
well as the best medicine in use. Price 63 cents
per box containing 73 pill, half box 31 cents containing 35 pills, &c. The use of one box will
be more convincing than a volume of certificates.

IDETER'S PILLS! —These Pills are no longer among those of doubtful utility. They have passed away from the hundreds that are daily launched upon the tide of experiment, and now stand before the public as high in reputation, and as extensively employed in all parts of the United States, the Canadas, Texas, Mexico and the West Indies, as any medicine that has ever been prepared for the relief of soffer I ing men. They have been introduced wherever it was found possible to carry them: and there are but few towns that do not contain some remarkable evidence of their good effects. The certificates that have been presented to the proprietor exceed twenty thousand—upwards of five hundred of which are from regular practising physicians, who are the most competent judges of their marks.

Often have the cares performed by this medicine been the subject of editorial comment, in various newspapers and journals, and it may with truth be asserted, that no medicine of the kind has ever received testimocinis of greater valse than are attached to this. They are in general use as a family medicine, and there are thousands of families who declars they are never satisfied unless they have a supply always on hand.

The next morning, having bent another foresail, we had the misfortune to carry away the fore yard in a squall. We got up what spare spars we had, fished the fore yard, and got that hundred English troops had been ordered to up for a main yard; bent our spare sails, and Madawaska, sent up a party of men, and proceeded on to the west as well as we could, the wisd still from the westward, and very severe weather. On the 15th we spoke the Victoria, Capt. Lenex, who kindly supplied us with some provisions. On the 21st ult. the wind still continging from the west, we being in the longitude of Bermuda, and our spars and sails being in

such had condition, and the steerage passengers being short of provisions, I decided to bear up for this piece, which we entered on the evening of the 224.

In entering, the pilot ran on shore, which caused the ship to leak 750 strokes per hour, which will compel us to discharge the cargo, and heave the ship out; and if we have to copper, I doubt if we get to sea again for less than \$20,000-every dle, from Samuel Briggs of Brighton, which thing being so very high at this place. I do not think that the ship is much injured. I shall make all dispatch possible. I have consigned the ship to Mr. Tucker, the American consul, have made my protest, and shall do all in my power to do justice to all interested.

Respectfully, your o'bt, servant, CHARLES STODDARD.

A VETERAS.-The army of the revolution is now rapidly passing away, but now and then remain some striking specimens of the motley materials and hardy frames it was composed of, at this time, as we learn from the "Monthly Visiter:"

"There resides in Andover, N. H. a pensioner of the United States, nemed Samuel M'Goinn, who was born at a place called Wick in Scotland; his father, he says, was a farmer. He was impressed and porch board the ship Arabel, of Greenock, in Scotland, in the year 1775, when he was in his fortieth year; she was a private tranport vessel. The Arabel having been captured, on her voyage by an American armed vosse', he arrived at Boston a prisoner. He was exchanged at West Point, but instead of joining the British army, enlisted into the American service, and served long enough to be entitled to a pension ander the act of 1818. He is at this time 104 years of age, and lives with a wife younger than himself; he is poor, but lives comfortably, is extremely nest and cleanly, and retains his reason and recollection perfectly. He never returned to or corresponded with his relations in Scotland, fearing the forfeiture of his life would be the enosequence of his discovering himself."

GENESEE VEGETABLE

# REMEDIES

These Medicines are faithfully perpered from receipt of a distinguished practitioner of Medicines, by whom they were first invented, and used in the Hospitals of New York, in nearly all the cases of Fever and Auge that occurred during the years of 1812, 13, 14, and 1815, and afterwards introduced into the Genesee country, and used in his private practice, with a success unparralled in the history of Medicine.

The Genese Remedies, which are prepared without Quinine or any preparation of Bark's.—
Consist of two kinds of Pills—one of which operates by thoroughly cleansing the system from all the stale and acid litle, which is the very seed of the disease. And the other by giving strength and vigor to the same, invariably restores the patient to perfect health in a very short time, and generally by the use of a single package, if the directions are adhered to.

WEDNESDAY DECEMBER 18.

FOR PRESIDENT GRN. WINFIELD SCOTT

PRINCIPLES OF THE SCOTT REPUBLICAN PARTY.

One Presidential term—No interference in elections by Government Officers

—A uniform currency of gold and silver;
or bank notes at all times redeemable in
specie on demand—An Independent Treasury under the exclusive control of Cones-Opposition to monopolies, to irout banking.

Our patrons of both parties are hereby informed that we have concluded to turn Loco Foco for one week. During that week we shall go for Van Buren "right o wrong" according to the uniform practice of the federal press. We shall imagine ourself a "Printer of the Laws" and in the pay of the federal office holders, just to see how it will seem. We shall tell all sorts of lies in favour of the President or "His Democratic Majesty," and do all we can to blacken the name of Harrison, according to the most epproved party usage. After supporting the Hero of Kinderhook one week, we shall then turn a short corner, and next week go for the Hero of Tippacanoe. Perhaps we may conclude to support Birnie the nigger candidate one week, but of that we are not yet fully and. After thus boxing the political am for two or three weeks we shall ettle down upon Scorr, and perhaps finaly get up an electoral ticket pledged to support for squalls—thunder and lightning about those days - Apogeo. In the mean time send along your advertisement, for our paper will be read by all parties, and have a wider circolation than any other Daily is the city. The era of humbug is fast drawing to a close, and the effulgent beams of the Sun will soon dispel the thick clouds that blacken the political horizon. We pity the cabbage head of Kinderhook-his followers in this part of the State are so dispirited, that we fear they will not get up a decent show of fight, unless we give them a left.

O'There is but a very small portion of son and officer Goodrich on a tour of duty, in Europe t" and as their course was previously marked out, we made for Harmony Row, this place is generally as much like the lower regions as possible, but on this evening a more than neual rampus was being kicked up. The officer after reconitering the premises, walked upstairs followed by the rest, where a scene presented itself that is beyond description, on one side of the room, reading aloud sat a vagabond looking chap, who on hearing the officer had a caught up a tract, a little farther off sat another ill-looking varmint, and in the middle of the floor, upon her knees, was a woman in a state of nudity almost, eursing, swearing, praying and tearing her hair, and when the officer bid her to rise and dress herself, she alt red her tones an octave higher, nor did she cease untill she reached the police, when she was carried by main force, and from there to jail,

lay something, we suppose, meant to represstate?" said the clergyman to a peice of meat, the trial of Wilber "examin- is the future condition of men and woing our hopes to Eternity," a tract, a few men ?" Why, replied the girl, hesitadishes and a bottle of whiskey, the author of ting," I suppose they are to be marall the trouble, completed the furniture of the ried." spartment. This is not a solitary case of misery and wretchedness, other quarters of the city present the same scenes nightly.

The we shall do unto others, as others do unto us. If we owe a man a dollar we dividual of that city who recently have no rest untill its paid, therefore those that owe us shall have so rest untill they wife a severe floggiog before the honfork over,

HALIPAX, Nov. 27 .- The Mackerel Fishery this Fall has, we are happy to learn, been unusually good, particularly along the Western Coast-prompt sales and high prices have also encouraged the fishermen -at present Mackerel are selling here at \$83-4 per barrel; about 2000 barrels we understand have been sent to this market from Margaret's Bay alone. This is, indeed, drawing wealth from the ocean. Our Agriculturists have also been successful this year-a good harvest has rewarded their industry, and they have no difficulty in making satisfactory sales of their spare produce .- Royal Gaz.

Our city is about to be visited by Mr. DEAN the manager of the Buffalo Theatre, who brings with him his dramatic corps to amuse us this winter.

The Buffalonian has started up again, under the guidance of a Mr. Keeler, who divesalong as if he knew how.

Since the close of navigation, our city has been infested with theives, and loafers of all descriptions. Look out for your movables and keep your doors locked.

The arrival of Prince Louis Napoleon Bonaparte, in New Orleans, is announced in the papers of that city.

"Subscribers will confer a favor by not lending their papers. Borrowers are always turning up their noses at something it contains.—Newburyport Herald.

A young ledy rouiding in Water street, Balti ore, a few days since eccidentally fell from the p to the bottom of a pair of stairs, thereby posicionably injuring her. At is said by two en for her busk, which she struck spon and soke it in two pieces, the fall would undoubtedly ave caused her death. Who will hereafter say that those little strips of shingles, vulgarly called sks, sliss rules, are not of some use to the etter portion of creation .- Balt. Sun.

Manesco, Napoleon's Wan Horse.-The sheleton of Marengo, the borse which Napoleon rode at Waterloo, and at most of his great bettles, was recently presented to the Museum of the United Service Institution in England. Marcago was a beautiful formed Arab steead, of the pureut blood, about thirteen hands and a half high. He was frequently wounded, and was hit by a masket ball in the hip at Waterloo. What awfel scenes have not these bones passed through? Their careful preservation shows the great value at tached "to every thing belonging to the great captain. What a commentary upon British policy and feeling is the singular fact, that, "the our citizens that are aware of the minery and bones of the horse are bonered and preserved wretchedness existing in this city. A few with religious care, by a people who have denied evenings since, we accompanied Mr. Thomp- to the dust of the illustrious rider's resting place

VISITING IN ENGLAND .- None of the presentations of Americans to the royal family this season, are quite equal to that of the Connecticut sailor as related by himself to his old ac quaintances after his return from his first voyage to the father land.

Striped Jacket had been absent from Woodstock and his friends, for four months, and on his return, old and young flocked around him to enquire who and what he had seen.

Stripe understood how to set off thing or two as well as any play actor and all enquiries of the gaping audience was answered to their satisfac-

" Well did you see the King?

Oh, yes, I saw him often ?" " And where did you see him ?" " Why, I met him in the road and

he ax'd me where I was from." " And did he speak to you then ?" "Law yes," he invite me to his house-palace they call it there."

" Well and did you go, said a number of voices at once.

"Yes? do you think I would not go when he axed me?"

"Well, and what did he say to

"Oh, he ax'd me how I did." "Now what did you say to him? "Why, I said I come from the free States, and I hoped him and his folks all well."

"Did be give you any thing to

"Yes he told the lad to make a mug of flip, for a friend had come a great way to see him-so be and I sits down and drank it together."

"Now, do tell us, did you see the Queen, and how she was dressed?

"No, I could not see her, -the King made her excuses and said as Monday was washing day with her, she is not fit to be seen in the forenoon. So came away.

NEW York, 20th March, 1839

DEAR Six—It is with feelings of unbound

resistade, I take this opportunity of resemi
se my emoore thanks for the relief you have

unled me, by using year medicine. "Hunte forded use, by using year medicine. "Hentur's Red Drop," after a long and pretracted suffering of twelve ments, in the West Indies, under the care of five emisent and far famed physicians, all of which were of the Colleges of London and Edinburgh, could not do me any service; but after several courses of mercurial treatment, and the effects of the long confinement to bed in a tropical climate, recommended us to proceed to a more northern latitude. Acting in accordance to that last remedy. I fook passage for this city; after my arrival I placed myself under the care of an old and eminent practurence, who attended me continuently decades among the day, numerous proofs of the many successful cures which had Perceiving, in the journals of the day, numerous proofs of the many successful ceres which had been effected under your treatment. I called upon you without even the means of getting the medicine; but you cheerfully gave it to me, and I am now suand, hearty and active. I therefore, feeriessly come forward, and state that your medicine and treatment, (if strictly followed,) is the only true and occure rewedy for eradicating you erast and mercurial taints from the system that exists to the present day; and should you think proper to make these lines public, you are at liberty to do so; and any person wishing to see me on the subject, you can also give them my address. And believe me to remain, ever your grateful friend.

The public must be entinfied at once, if Hunt-er's Red Drop will cure a case of this kind, it

TEW DAVID'S OR HEBREW PLASTER The particulars of this Chemical Comthe animal fibre or nerves, ligaments and socies, its virtues being carried by them to the mediate seat of discuse or of pain and weak

or good any internal remedy may be, an external application, will prove

powerful auxiliary, in removing the discuss and faciliating the case in game of Lucal Inflamma, tion. Screenstons affections, King's Evil, Gost, Inflammatory, and Circuisk Ilheumation, and in all cases where scated pain or weakness exist.

A gentleman travelling in the south of Enrope and Palestane, in 6221, heard so much said in the latter place, in praise of Jew David's Plastor, and of the (as he considered) miraculous certs it had perferenced, that he was induced to try it on his own person, for a Lung and Liver affection, the removal of which had been the chief of his journey, but which had been the gental influence of that balmy and delicious climats.

He accordingly applied a pluster on the right side of the chest, where the pain was seated, another between the shoulders, and one over the region of the liver. In the meantime, he drauk freely of an herb tea of laxative qualities. He soom found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his health became permanently remstated.

Since that time he has been recommending it

to his friends and acquir tan res, for all fixed pains whatever; such as rheumatism, gout, head ache. morving testh ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual curs. He has likewise witnessed the happy effects of its suffering and healing quantities in numberless cases of scroff does haefff joints. Type cakes, ague in the breas!, and the like, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs. Ism-ness, aff-etions of the spine, female weakness dec. No female subould be without it. Married Lader, in delicate situations, find great rollef from constantly wearing this plaster.

The application of this plaster between the shoulders has been found a certain remedy for colds, coughs, shibisic and long affections, in their primery stages. It destroys infisumation by producing a copious perspiration. No physi-cians should be without it. This plaster answers a far better purpose for dressing wounds, brnices and soces, than any plaster, salva or ointment

In view of the great benefits resulting from the see of this plaster within his own observation, his confidence in its infinite superiority over tion, his confidence in its infinite superiority over every other plaster, salve ointment or opedeldec before the public, in this constry, has induced his gentleman in place the Hebrew Plaster in hand of those who will give it publicity; believing it will prove itself to a rich blessing to the monity at large.

No putting or great spread of certificates is ind. Twose who wish to satisfy themselves of the officacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum set half sufficient to pay for the invertion of a single certificate into any of our most common prints, a single time. This trifling price per boz, is placed apon it, in order that it may be within the means of every affected one or daughtor of the community; that all, whether rich or poor may obtain the treasure of health, which results from its use.

Proupt attention will be paid to orders ad-Lookester.

Price per single box 50 cents.

THE RESURRECTOIN OR PERSIAN PILLS raise from the greatest weakness, distress and suffering, to a state of strength, health and happiness. Many there are, who have said in their hearts, there is no help for me, who have been raised by them, to pristine health and vigor. They assuredly have healing virtues which no other medicine in this country possesses. Every individual has found, and will coutine to find them to supersede the necessity of any, and every other medicine, which can be produced in America. If the purchaser does not find them to be superior to any article does not find them to be superior to any article advertised in the public priors, for the diseases a entioned to the large bills which accompanies each box, when taken according to the directions their money will be refunded on the return of the box. We diseard the idea of publishing a long list of certificates, or puffing them into ase, by list of certificates, or puffing them into ase, by publishing a column in each periodical. A treatiss on the prominent diseases, their symptoms, and manner of core, a history of the medicine, together with many valuable certificates, from physicians and others, the authors of which may be called upon, or referred to by written communication, can be obtained gratis, by calling on any one of the agents. EW DAVID'S OR HEBREW PLASTER The particulars of this Chemical Com-and are owing to its extraordinary effects, ap-the animal fibre or nerves, ligaments and ascles, its virtues being carried by them to the mediate sout of disease or of pain and would

However good any internal ramedy may be, this, as an outernal application, will prove a powerful auniting, in removing the disease and facilizing the cars in cases of Local Inflamma, tion, Scroffulous affections, King's Evil, Gost, Inflammatory, and Chronick Rheumatism, and in all cares where seated pain or weakness exist. A gastleman travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plaster, and of the (as he considered) missequent cares it had perfermed, that he was taduced to try it on his own person, for a Lang and Liver affection, the removal of which had been the chief of his journey, but which had resisted the genual influence of that halmy and delicious climate.

He accordingly applied a plaster on the right side of the chest, where the pain was coated, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of as herb tea of laxative qualities. He soon found his health improving, and in few weeks his cough left him, the sailowness of his skin disappeared, his pain was removed, and his health became permanently remetated.

Since that time he has been recommending it to his friends and acquintances, for all fixed pains

Since that time he has been recommending it to his friends and nogaintances, for all fixed pains whatever; such as rhenmatism, goat, head sche, nervous teeth sche, pain in the side, hips back and limbs, in every case of which, it has proved an effectual cure. He has likewise witnessed and healing the side of the softening and healing. the happy effects of its softening and healing quantities in numberless cases of scroff sloss hemore, knots, wens, white swelling, hard tumurs, stiff joints, sque cakes, ague in the breast, and the like, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs lam-ness, affections of the spine, female weakness &c. No female subject to pain or weakness in the back or side, should be without it. Married Ladies, in delicate situations, find great reltef from constantly

wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, uhthisic and long affections, in their primery stages it destroys inflammation by producing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, bruises and sores, than any plaster, mive or ciatment

In view of the great benefits resulting from the use of this plaster within his own observathe use of this plaster within his own observa-tion, his confidence in its infinite superiority over every other plaster, salve sintment or spedeldec before the public, in this country, has induced his gentleman to place the Hebrew Plaster in hand of those who will give it publicity; believ-ing it will prove itself to a sich blessing to the community at large.

No putting or great spread of certificates is intended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum not half sufficient to pay for the insertion of a single certificate into any of our most common prints, a single time. Thus triffing price per box, is placed upon it, is order that it may be within the means of every efficient or daughter of the commonity; that all, whether rich or poor may obtain the treasure of health, which results from its use. results from its use.

Prompt attention will be paid to orders addressed to Messee. C. COMSTOCK, & Co., Roohoster.

Price per single box 50 cents.

DIRECTIONS.—Spread the plaster on a soft place of white leather, very thin—and once in 4 or 5 days re-aproad it by adding a little more Plaster. Apply it to any part that may be affected with any of the above diseases.

THE RESURRECTOIN OR PERSIAN PILLS raise from the greatest weakness, distress and suffering, to a state of strength, health and happiness. Many there are, who have said in their hearts, there is no help for me, who have been raised by them, to pristine health and vigor. They assuredly have healing virtues which no other medicine in this healing virtues which no other medicine in this country possesses. Every individual has found, and will coutine to find them to supersede the necessity of any, and every other medicine, which can be produced in America. If the purchaser does not find them to be superior to any article advertised in the public prints, for the discuses mentioned in the large bills which accompanies each bex, when taken according to the directions their money will be refunded on the return of the box. We discard the idea of publishing a long list of certificates, or puffing them into use, by box. We discard the idea of publishing a long list of certificates, or puffing them into use, by publishing a column in each periodical. A treatise on the prominent diseases, their symptoms, and manner of care, a history of the medicine, logether with many valuable certificates, from physicians and others, the authors of which may be sicians and others, the authors of which may be called upon, or referred to by written communication, can be obtained gratis, by calling on any one of the agents. Let no one be discouraged however despairing their case may be, until they have tried the Persian Compound, for the most incredulous have been obliged to acknowledge its superiority in quelling diseases which no other medicine could reach. Where the hair is observed to be growing thin, nothing can be more prosperous than the use of oils, grease, or any faity matter. Their application can only be recommended through the gros-est ignorance, as they hasten the fall of the hair, there is a harsh, dry, or contracted skin, and where the small blood vessels which carry nonrishment to the bulb are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. "Incidente" of the Wan Among the humorous occurrences springing out of the Heilderberg troubles; now happily terminated a mistake occurred in New York, which, for a short time filled the city with uproar. It had been determined that as soon as orders were received from Albity for the troops to march, six gues should be fired, in quick succession from the City Arsend as a signal to the men to assemble.

It so happened that the Texian schooler Colorado, on coming up abreast of the city on Thursday, discharged exactly six guns as a salute to the Commercial Emperium. No sooner were these warlike sounds heard, cornding as they did with the concerted signal, than there was a general rush to the several places of rendezvous. Fortunately some one observed that no colors were hoist-ed, and no notices put up on the bulletins of the city papers, as had also been agreed upon a and on farther inquiry the whole matter was explained. For a few moments, however, the belief was general that the marching orders had arrived.

No. 90 State areset.

THE RESURRECTOIN OR PERSIAN PILLS raise from the greatest weakness, distress and suffering, to a state of
strength, health and happiness. Many there
are, who have said in their hearts, there is no
help for me, who have been raised by them, to arc, who have said in their hearts, there is no help for me, who have been raised by them, to pristing health and vigor. They assuredly have healing virtues which no other medicine in this country possesses. Every individual has found, and will contine to find them to supersede the necessity of any, and every other medicine, which can be produced in America. If the purchaser does not find them to be superior to any article advertised in the public prints, for the discusses mentioned is the large bills which accompanies each box, when taken according to the directions their money will be refunded on the return of the box. We discard the idea of publishing a long list of certificates, or puffing them into use, by publishing a culumn in each periodical. A treatise on the prominent discusses, their symptoms, and mapper of cure, a history of the medicine, together with many valuable certificates, from physicians and others, the authors of which may be called upon, or referred to by written communication, can be obtained gratis, by calling on any one of the agents. Let no one be discouraged however despairing their case may be, until they have tried the Persian Compound, for the most incredulous have been obliged to acknowledge its superiority in quelling discusses which no other medicine could reach. They are the cheapest as well as the best medicine in use. Price 63 cents per box containing 73 pill, half box 31 cents containing 35 pills, &c. The use of one box will be more convincing than a volume of certificates. In removing disasses the Hygown, Brandreths, Evans, and Tomato Pills, the high styled Panaceas, Catholocons and Arcaniums, bow their heads in humble reverence to the supreme excellencies of the Vegetable Persian Compound.

They have passed away from the lundreds that are daily launched upon the tide of experiment, and now stand before the public as high in repatation, and as extensively employed in all parts of the United States, the Canadas, Texas. Mexico and the West Indies, as any medicine that has ever been prepared for the relief of suffer ling men. They have been introduced wherever it was found possible to carry them: and there are but few newns that do not contain some semarkable evidence of their good effects. The certificates that have been presented to the proprietor exceed twenty thousand—upwards of five hundred of which are from regular practicing physicians, who are the most competent judges of their meetls.

Often have the carrie performed by this medicine been the subject of editorial comment, in various newspapers and journals, and it may with truth be awarded, that no medicine of the kind has ever received testimunials of greater value than are attached to this. LUCINA CORDIAL

"To Dr. Magnin, Inventor of the 'Lucina Cordial, or Elizir of Lore.,

"Respected and Honored Str.—We have all,
in a variety of cases, tested the remarkable effect
of your great discovery, and have assembled for
the purpose of bearing evidence to the facts, and
tendering you the honor which is your dus.—
The "Lucina Cordial" is, in our opinion, an infallible remedy for the "prostration of the procream;
functions, and artificial barrenness;" and there
fore must prove a blessing to the human race.
We can also bear evidence that there is nothing
in it of a more original or deleterious entero; and, in in it of a mercarial or deleterious untere; and, in short, that it is one of the noblest medicinal dis-

coveries of any age.
With feelings of admiration and respect, we

remain, dear Sir, your obedient servants.

SATURDAY DECEMBER 21.

FOR PRESIDENT.

MARTIN VAN BUREN OF KINDERBOOK.

We have briefly recapituated the military services of the Hero of Kinderhook. Had we time we should delight to recount some of the brilliant achievements of our Here in personal combat at the battle of Monmonth and the storming of Stones Point. Time will only admit of our menming one little incident in the brilliant mil-Hary career of O'Buren, during the menorable period of our revolutionary struggle. One dark and stormy night, a scouting party of Hesnians attacked an outpost at which our Hero was stationed, at the time of the attack he was engaged in making a dish of sour cross for the mess of which he acted as cook. His experience at that time in cullinary opperations doubtless on slife d him for oring the well ordered kitchen that has distinguished his Presidential career. At the time of the attack O'Buren happened to hold in his hand an enormous cabbage head, with which he fell upon a valiant Hers and so belaboured him that the attacking party best a basty retreat. The only dam age received by our Hero in this encounter se a certain unpleasent giving way, occa ned by a relaxation of important mus after the effect in repulsing the Hessians. As a soldier, the name of Van Buren will go down to posterity associated with all that is brave and chivalrous. As a statesman he immeasurably excels every man now living, entiquity. In his views of great national questions he is distinguished for looking far heyond all personal or party results, and ing his determinations with a single regard to the public welfare. As a gentleman, Mr. Van Buren is an "Admirable Crichton," a Chevalier Bayard, and a Cheserfield, united in one person. With the la dies, the sweetness of his smile is said to be irresistable. Such is his regard for personal clean inces, that after being compelled to " shale bands with the democracy" in sev. eral of our large cities during his Presidende colonge in purification and sweetening pital. of his invaluable person. How much more worthy the support of a refined and enlightened people is such a candidate, that a miserable "granny" like old Harrison. This wretch has spent his whole life in the western wilderness, and knows nothing beyond shoeting bears and Indians. He is entirely ignorant of the beauties of fashionable lifeknows not the difference between pomistum and tallow or eas de colonge and whi key. The old savage never wore a fashiona le garment in his life; indeed, it is said that he once visited Washington accountered in a pair of trowsers so unfashionably large, that the young Princes at court swore that he was a potticoats," and he has thus been properly named the petticeat candidate. Who will support such a savage as Harrison? Certainly ao one who makes the least pretensions to refinement.

The Russian Minister has published an ukase allowing the free exportation of beat, flour, and biscuit made of it for seven cars, and offering a premium on these exports of 30 silver copees for a barrel of five or air pude (200 to 240 lbs.) for the first two years, 20 for the fifth year, 15 for the sixth, and 10 for the seventh year from the date of the ukase.

Curious Document.-The following is a ver batim et literatim copy of an entry on the watch returns at the City Prison :

"James Crasto couloured man was brought in by watchman Wilson from Albany basen drown- plaints, &c did Coroner held a gury over him. Verdict suicide by voluntarily drownding his self."

On Saturday last, Mr. Edward R. Bates, of Woolwich. N. J., while on a gunning exentsion with several of his neighbors, was killed by the accidential discharge of his gan. He had been trying to extract a rabbit from a hollow tree with his ramrad, but being unsuccessful, he picked up his gon with the mazzle toward him with the intention of joining his companions, when the cock was caught by a bush which fired it off, the charge entering his breast. He arose, proceeded ten or fifteen paces, and fell dead. He was 27 years old, and has left a wife and two small children to moure his less .- N. Y. Signat.

> COUNTERPEITERS TAKEN .- On Saturday last, Charles McMillen and William McMillen, Jr. were committed to prison by Alderman Boileau, on a charge of being concerned in the manufacture of spurious half dollars. It appears that they were connected with a young man by the name of Jacob Fgley, who was a few weeks since committed by the same magistrate for passing four pieces of this base coin in the upper part of the Northern Laberties. On Friday last, Egley gave information with regard to these two individuals. When they left the city. Wm. R. Caffrey, constable of the second ward of Kensington, went in pursuit and caught them at Nerristown, and brought both of them safely to the city, when they were duly committed. About a week ago, Egley was ought br before Judge Hopkinson on a writ of habeas corpus for the purpose of being admitted to bail, and these two individuals appeared and proposed to enter bonds, but the judge not being satisfied with their represented abilities remanded the prisioner. They are brass found ers, and have a shop in Fourth street, a few doors below Poplar street, in the N. Liberties. Both of them have families. The half dollars are dated 1836, and it is supposed that they have carried on this MOSEY WARING business for one or two years .- Philadelphia Sentinel.

TUESDAY DECEMBER 24.

FOR PRESIDENT, MARTIN VAN BUREN OF KINDERHOOK.

We predict the triumphant re-election of our candulate Martin Nam Buren of Kinder book at the next election. Lest our read should think we are over confident or invincers, we give some reasons why we believe the President's re-election certain. In the first Llace our party is much better organiz d and drilled than the opposition, and our leaders have higher motives to impel them to activity. The very bread they and their children eat, is staked upon the issue of the contest. If Harrison should succeed, all the Post Masters, Revenue officers, and other Executive dependants would be thrust from the stations they have so ably and patriotically filled for years. Their salaries would be minus and they compelled to labour for support or go to the Poor House. Here is a motive for effort that will help our candidate amazingly. Its efforts are already apcatent in the Fourth Ward of this city, the residence of our very efficient, popular and patriotic Post Master, where a meeting of "Democratic young men" has already been held to "set the ball in motion." The near proximity of the County Poor House to the Fourth Ward, will exert such a stimulating effect upon certain residents, of that ward, that we count with certainty upon its giving a Van Buren majority. The patriotic excitement in favour of Van Buren will extend to every neighborhood where an officer under the Federal Government resides, and will exert a powerful influence. We also calculate with certainty upon the electoral votes of all the slave-holding States. Our candidate in "the northern man with southern principles," and has won the confidence of the South by his devotion to its " poculiar institutions," and by constant subsurviency to its interests and to the views of its leading men. At the west, we have the control of the Land Offices, and of the vast sums of money received for the public lands. A judicious use of these funds, properly deposited for eafe keeping with the "pillars of democracy" will work wonders. Here then we have " office and its spoils" at the Norththe slave holding interest at the Souththe Public Lands and Public Money at the on Mrs. Taylor from the character she had heard West; all brought to operate with the accu- of her from a missionary who had visited Albany racy and force of a Steam Engine in our fa. from New York with whom she had become and diseases of the stomach and bowels, &c. can your. At the East, the prospects brighten ing. Old Massachusetts, the unwavering foe of Jefferson and Madison, is so well pleased with the measures of the President, that she shows strong symptoms of coming over to his side. After glaccing at this state of the campaign, who can doubt Van Buren's re-election? We advise the opposition to disband at once, as all resistance to such a copted. combination of causes, is useless. It will be a waste of time and money to attempt the overthrow of an Administration so firmly fixed in the affections of the people. As well might raw militia engage with regulars, as the opposition attemnt to whip our well-drifted train bands.

HURRA FOR THE HERO OF KINDERHOOK.

CORRECTION.

We anderstand that our article of a few days since in relation to an amende made to Mr. J. W. Dwinell, has been construed by some portion of the public into an attempt at special pleading on our part, to convey the impression that we retracted all the imputations reflecting upon Mr. Dwinell, while our article really should have reference to a single publication. To correct this impression we take this opportunity of stating that we thereby intended, and hereby intend, to retract all imputations which we have heretofore published, reflecting in any manner upon Mr. Dwinell, either as a gentleman or as a lawyer. We do this most cheerfully, as we are anxious to make reparation to every one whom we have injured, as far as lays in ALFRED DAKLEY.

AN ARTFUL DECEIVER.

At out a weak since Mrs. Taylor, No. 70 Grand street, whose homene and charitable disposition a well known, was waited on by a young woman careely in appearance sixteen years of age, who related to her a piteous story of the inhumanity of her relations with whom she lived, being an orphan, who wished, she said, to sagrifies her to the dishenorable at d ibertise views of a wealthy and libertine morehant of Albany, from which city she had fled to avoid such a disgrace, and had arrived in this city by the steamboat that morning. She had been induced, she added, to call mainted, and she wished to gain Mrs. Taylor's aid in procuring ledgings.

The faccinating tones of the young stranger, ser artless and modest demeanor-her youth and extreme beauty and heroism in flying from destruction, so wen upon the heart of Mrs. Taylor that she invited her to stay with her, and begged the fair unknown" to make her house her home. which offer was with a profusion of thanks ac-

A day or two after "the wonderer" was installed in Mrs. Taylor's residence, that lady had ecasion to leave home for a few hours, and left her protegee in charge during her absence.

Before her departure the fair fagitive requested ome sewing, not wishing as she observed, to remain idle, and Mrs. T. gave her a white pocket handkerchief with a blue border to hem for her. On Mrs. Taylor returning, great was her surprise to find that the young lady was missing .-Awful thoughts of ravishers and abduction floated across her mind, but these were soon dispelled

when she found that every valuable article of dess, amounting to over \$100, had been spirited away, as well as their unhappy victim. The true stain of the case flashed upon her, and on applisation at the police office, she discovered that this ame "damsel in distress," had perpetrated a similar deception at a house in Elm street, from whence she had carried off a valuable gold watch, and other articles of jewelry. The whereabouts of this young adopt in the art of deception is at present "wrapt in mystery."-N. Y. Gazette.

> [From the Philadelphia Spirit of the Times.] DISGRACEFUL FIGHT.

Yesterday at one o'clock a fight, the most outrageous perhaps, that ever disgraced our city, came off at the corner of Seventh and Small streets, in Moyamensing. The combatants numbered at least a hundred blacks, of both sexesthe ringleader, a notorious mulatto, named Blake. Officer McLean, white endeavoring to disperse the rioters, was seized by Blake, felled to the ground, and severely beaten. The officer finally got the better of him, and with the assistance of ome two or three others, succeeded in arresting him. He was taken before Alderman Manderfield, and after a hearing in default of \$1000 bail, was fully committed, to answer at the Criminal Sessions, the charges of riotous conduct, abetting to riot, and assault and battery upon the officers, while in the discharge of his duty.

BEYOND THE POWER OF BOASTED PRETENSION.

New York, 20th Merch, 161 Dran Sm-It is with feelings of unbour DEAR Sin—It is with feelings of unbounded gratitude, I take this opportunity of roturning you my student thenks for the relial you have afforded me, by using your medicine. "Hinter's Red Drop," after a long and protracted sufficing of tweive months, in the West Indiae, under the care of five eminent and far famed physicians, all of which were of the Colleges of London and Edinburgh, could not do me any sorvice; but after several courses of mercurial treatment, and the affects of the long confinement to her in a tropical climate, recommended me to proceed to a more northern latitude. Acting in accordance to that last remady. I took passage for this city; after my arrival I placed myself ander the care of as old and eminent practitioner, who attended me continually for three menths to me effect.—Perceiving, in the journals of the day, numerous proofs of the many assecuted cares which had been effected under your treatment. I called upon you without even the means of gutting the medicine; but you cheerfully gave it to me, and I am now sound, hearty and active. I therefore, fearlessly come forward, and state that your medicine and treatment, (if strictly followed,) is the only true and secure remedy for eradicating you erial and mercurial taints from the system that exists to the present day; and should you think proper to make these lines public, you are at lib erry to do so; and any person wishing to see me on the subject, you can also give them my address. And believe me to rounsin, ever your grateful friend.

The public must be estisfied at once, if Houtwed Theb will of will cure in any case.

THE HUMAN MAIN.

Where the hair is observed to be growing thin, nothing can be more prosperous than the use of oils, grease, or any faity matter. Their application can only be recommended through the grossest ignerance, as they hasten the fall of the hair, by increasing the relaxation of the skin. When there is a harsh, dry, or contracted skin, and where the small blood vessels which carry nourishment to the halb are obstructed, then the oils, con, may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimulus to rouse the vessels from their forpor, and quicken the current of the blood .- Extract from Clivehugh's Treaties on the Hair.

FRIDAY DECEMBER 27.

FOR PRESIDENT, MARTIN VAN BUREN OF KINDERHOOK.

We predicted, some time since, that this would be a brilliant season in the way of marriages, fetes, soirces, balls, &c., and as usual we were correct, for on Christmas ere, not less than seven couple united " for better for worse" at the Universalist Church. which was brilliantly illuminated for the oceasion. So great was the anxiety among the young folks to behold the interesting ceremony, that the church was filled as soon as the doors were open, and thousand went away without being able to gain admission. We hope our young friends will profit by the example set them, and go and do like-

The Buffalonians seem determined to get up a patriot excitement at all events. Col. Bankhead cool the heels of the military under his command, by marching them down to Black Rock now and then to que'll disturbances that was never dreamed of.

We believe these turkey shoots are no great shakes, for a gentleman of our acquaintance, who had fatted a turkey for our especial use, and had just got him dressed to present to us, was waylaid by a turkey shooter who offered him a dollar for our Christmas dinner, which temptation our friend was unable to withstand, and sold the turkey, so we have good reason to be a aworn enemy to turkey shoots.

The TRUES are just receiving their stock of goods by land, which was detained on the canal by the cold weather. They will open very rich indeed, and as the fashionable season is just commencing, the ladies would do well to look in at the Trues, and examine their new stock, which consists of all kinds of silks, satins, and divers many things for which we know no name.

III If there is two good looking young men, if there is two clever young men, if there is two modest young men in town they are our friends MILLARD & TREADWAY, over the river, where can also be found a first rate assortment of groceries, crockery, and other vegetables, which they told us, they were selling at cost, and sometimes a great deal below it. If any of our friends should want any thing in their line, they can't do better than drop in and make the acquaintance of MILLARD & TREADWAY.

We begin to believe that those who owe us, think we are a wood-cock and live on air, or some other specimen of the vegetable kingdom, they are confoundedly mistaken, and will find out presently that we are half sea serpent with a small dash of Pietry well for a man of 70. MARRIAGE OF THE QUEEN.

All the members of the Privy Council were summoned to attend her Majesty on the 23d of November, to receive a "special message." The papers all intimate that the communication was to be her Majesty's royal determination to take unto herself a up a foolish story that Prince ALBERT is a Catholic, and that by marrying him the Quen will forfeit the crown; but whatever his secret opinions may be, there can be little question as to the profession the Prince will make, with a crowned bride, and she young and pretty, in prospect.

Sir John Colborne arrived at Plymouth on the 17th of November, in 25 days from Quebec.

Much alarm had been caused throughout December 27. the country, and especially in the Conservative circles, by a report that the Duke of Wellington had had an apopletic attack, at Walmer Castle, and was in serious danger. It turned out, however, that his fit was only one of fainting, caused by abstinence and severe exercise in following the hounds .faintness came over him, he fell from his chair, but subsequently had a good night's very well.

The trials of the Chartists in Wales were going on before a special commission at Newport. Many additional arrests had been made. The examination of the insurgents taken led to the belief that the conspiracy kingdom.

> Correspondence of the Courier and Enquirer. PHILADELPHIA, Dec. 18-P. M.

The annexed expose of the late fraud in Kentucky Bank matters, I have extracted from the National Gazette of this evening-there are various ramors in circulation, but it is probable that the following is as near the state of matters as

We have been at some pains to collect authentic information regarding the act of stupendous and desperate fraud practised by H. J. Levis late cashier of the Schuylkill Bank of this city. In noticing this transaction it behoeves the press to call things by their right names. A criminal act, deserving the penalties of the law, should receive its proper appellation and denunctation; and if the guilty have a great stake and stand in society, the heavier should be the infamy.

The Directors of the Schuylkill Bink have been most industriously investigating the con-IF A man in Georgia, nine feet and a cerns of the institution since yesterday, and we ha!f tall, says he would like to see the lit le are enabled to give in round numbers the results of their labors. These will satisfy the rightful coriosity of the public for the present, until a full and particular statement can be made. The board have discovered that Mr. Levi's account of the Kentucky Bank Stock shows a deficit of over thirteen tilensand shares. Besides it has been ascertained that there have been overdrafts to the amount of upwards of two hundred thousand dollars-for a large portion of this, however, it is understood security is held. It is discovered that the fradulent trustees of the Kentucky BankStock were began as far back as January 1837. The Schuylkill Bank owed to the city banks at one time previous to the bank resumption of August, 1838 about six hundred thousand dollars, and to the surprise of many it suddenly paid these balan ces. The liquidation of this amount may now be accounted for by the over issue by Mr. Levis of four thousand five hundred shares of Kentucky Bank Stock from February to October of that year, (1838.) There is to Mr. Levis's credit on the book three hundred and fifty thousand dollars which he alleges to be part of the money.

In May, 1838, according to our informant's statement, Mr. Maxwell, the transfer clerk in the Schoyihill Bank, was aware that the Kentucky Bank stock account was overdrawn 10 or mate. Some of the Tory papers have got 12,000 shares, by warrants from Mr. Levis. Mr. Maxwell left the Schuylkill Bank in May, 1839, and the account -as still 10,000 shares.

> At the instance of the Kentucky Bank, the doors of the Schaylkill Bank were closed yes terday by an injunction through the Sheriff, John P. Wetherill, Esq., was on Monday elected President, in place of Mr. Levis.

"NEPLUS ULTRA." AGE'S VEGETABLE HAIR OIL-por recess many superior qualities over any other article of the kind offered to the public. It has been proven invaluable for all deseases to which the human hair is subject. Over three hundred Certificates can be produced testifying to the wonderful effects of Sage's Vegetable Hair Oil, in preserving and restoring the bair, removing dandruf, preventing gray hair and premature beldness, in all its forms; but only a few will be introduced, as the Proprietos chooses to have his composition stand upon his own merits. It is a powerful specific for producing a new growth of hair, by stimulating the action of the vessels supplying the roots, and inducing their firm adhesion to the skin; added to perfume for dressing and beightening the beauty of the hair. No Ladies or Gautlemen's Toilet should be complete without a bottle of Sage's best. See certificates, &c. in the treatise on the growth and decay of the hawan hair, that accompany each bottle, which is enveloped in a splendid Lithographic Labil, with | for ready pay, an extensive and splendid assorta fac-simile of the Proprietors hand writing, without which, none is genuine-

#### BEYOND THE POWER OF BOASTED PRETENSIC

NEW YORK, 20th March, 1839. DEAR SIR-It is with feelings of unbounded gratitude, I take this opportunity of returning you my sincere thanks for the relief you have alforded me, by using your medicine, "Hunter's Red Drop," after a long and protracted sufferior of twelve months, in the West Indica, under the care of five emment and far famed physicians, all of which were of the Colleges of London and Edinburgh, could not do me any service; but after several courses of mercavial treatment, and the effects of the long confinement to bed in a tropical climate, recommended me to proceed to a more northern latitode, Acting in accordance to that last remedy. I took passage for this city: after my arrival I placed myself under the care of an old and eminent practitioner, who attended me continually for three months to no effect.proofs of the many successful cures which had been effected under your treatment. I called open you without even the means of getting the medicine; but you cheerfully gave it to me, and I am now sound, hearty and active. I therefore, learlessiy come forward, and state that your medicine and treatment, (if strictly tollowed,) is the only true and secure remedy for eradicating veu ersal and mercurial taints from the system that exists to the present day; and should you think proper to make these lines public, you are at lib erty to do so; and any person wishing to see me on the subject, you can also give them my address. And believe me to remain, ever your grateful friend.

JEW DAVID'S OR HEBREW PLASTER The particulars of this Chemical Com pound are owing to its extraordinary effects, upon the animal fibre or nerves, ligaments and muscles, its virtues being carried by them to the immediate seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful auxiliary, in removing the disease and faciliating the cere in cases of Local Inflamma, tion. Scroffulous affections, King's Evil, Gout, Imlammatory, and Chronick Rheumatism, and in all cases where seated pain or weatness exist. A gentlemen travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Pinster, and of the (as he considered) miraculans cures it had pariermed, that he was induced to try it on his own person, for a Lung and Liver affection, the removal of which had been the chilef of his journey, but which had resisted the gerirl influence of that balany and delicious cli-

He accordingly applied a plaster on the right side of the chest, where the, pain was somed, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb tea of laxative qualities. He woon found his health improving, and in low weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his health became permanently remstated.

Since that time he has been recommending it to his friends and acquintances, for all fixed pains whatever ; such a rheumatism, gout, head acae, nervous teeth ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual cure. He has likewise witnessed plied with Goods at New York prices. the happy effects of its softening and healing quantities in numberless cases of scroffelous bumore, knots, wens, white swelling, bard tumurs. stiff boints, ague cakes, ague in the breast, and the fixe, to the united satisfaction of himself and

It has bkewise been very beneficial in cases of weakness, and as weakness and pain in the stomack, weak limbs, lam ness, affections of the spine, female weakness &c. No female onbject to pain or weakness in the back or side, should be without it. Married Ladies, in delicate situations, find great relief from constantly

wearing this plaster. Me The application of this plaster between the choulders, has been found a certain remedy for colds, coughs, uhthisle and long affections, in their primary stages. It destroys inflammation by pro scing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, britises and sores, than any plaster, salve or ointmen! now in use.

In view of the great benefits resulting from the use of this plaster within his own observa! tion, his confidence in its infinite superiority over every other plaster, salve ointment er opodeldec before the public, in this country, has induced his gentleman to place the Hebrew Plaster in hand of those who will give it publicity; believing it will prove itself to a rich blessing to the community at large.

No putting or great spread of certificates is intended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum not half authorent to pay for the insertion of a single cartific ne into any of our most common box, is placed upon it, in order that it may be within the means of every affected son or daughter of the community; that all, whether rich or poor may obtain the treasure of health, wh' h rosalts from its use.

Prompt attention will be paid to orders ad-Roohester.

Price per single box 50 cents. DIRECTIONS. -Spread the plaster on a soft piece of white leather, very thin-and once in 4 or 5 days re-spread it by adding a little more Plaster. Apply it to any part that may be affectd with any of the above diseases.

THE HUMAN

Where the bair is observed to be growing thin, nothing can be more prosperous than the use of oils, grease, or any faity matter. Their application can only be recommended through the grossest ignorance, as they hasten the fall of the hair, by increasing the relaxation of the skin. When there is a harsh, dry, or contracted skin, and where the small blood vessels which carry nourishment to the bulb are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimulus to rouse the vessels from their torper, and quicken the current of the bland .- Extract from Cirehugh's Treaties on the Hust.

The Bulm of Columnia is the only preparation that can have that effect, being entirely free from any oily substance.

CAUTION.-None can be genuine without a

## FEVER AND AGUE

PERMANENTLY CORED IN ALL CASES

GENESEE VEGETABLE

# REMEDIES

These Medicines are faithfully perpared from receipt of a distinguished practitioner of Medicines, by whom they were first invented, and used in the Hospitals of New York, in nearly all the cases of Fever and Auge that occurred during the years of 1812, 13, 14, and 1815, and afterwards introduced into the Genesce country, and used in his private practice, with a successe upparralled in the history of Medicine.

The Genese Remedies, which are prepared without Quinine or any preparation of Bark's. Consist of two kinds of Pills-one of which operates by thoroughly cleansing the system from all the stale and acid Bile, which is the very seed of the disease. And the other by giving strength and vigo to the same, invariably restores the pair to perfect health in a very short time, and generally ty the use of a single package, if the directions are adhered to.

As a precentative of Fever and Ague and all Billious Fevers, so prevelent at the West, they deserve a decided and distinct recommendation.

Were they used at short intervals during the sickly season, they would be found in every inwhich the people every summer are the unforinnate victims. And which have not generally found a remedy in the too common use of Quigravated and made worse.

Having the fallest confidence in the Redicine, they were in the beginning, issued and have always been sold under a position source refund the money in all cases of failure. Within the last year they have been used in many hun-dred cases, and out of the whole number but one case has yet been made known, where a permenent cure has not been effected.

The proprietor has the atmost confidence that they will be found equally were in the West-as they have already been used to some extent with the most happy results, as will be seen by telerring to a few Certificates on the inside directions. For sale by the Proprietor

The Royal household troops still prezen fixed bayonets in the House of Representa tives, against the admission of five of the legal representatives of New Jersey. How much longer the interests and business of the Nation are to be kept back by this disgraceful struggle between the Executive Wiland a Sovereign State, it is impossible to conjecture. Nearly three weeks of the present Session of Congress, have been already squandered in the contest. If the American people had not before them abundant and convincing testimony of the usurpations and daring profligacy of the dominant federal administration, we should perhaps deem the light elicited by the discussion, which has so long occupied the House of Representatives, a sufficient equivalent for the time it has exhausted. But the necessity for forcing upon the popular mind a perfect conviction of the destructive tendencies of Van Burenism, has gone by. The people feel and understand them. , The record was full and complete before this last outrage was conceived. The broad seal of popular condemnation was stamped upon the present federal government before that government determined to condemn the broad seal of an Independent State. Let the administration rest under the responsibility it has assumed. Further debate cannot make the iniquity of the transaction more manifest or glaring. If the Nation cannot be permitted to have the benefit of the legislative action of a Congress legally constituted, let us at least have the action, for good or evil, without further delay, of such a one as the party may find it conve nient to grant,

Martin Van Buren, or rather O'Bu. | dently true and so exceedingly important had ren, has sent us a line stating that he was overjoyed to find us on the right track (?) and likewise thanking us for the many compliments paid him in our remarks upon his character, and hoping we would continue our endeavours to promote his re election next fall. The document winds us with something about fat office, Minister Plempotentiary, sub-treasurer and something else, but the letter was so blotted we were unable to decypher it. It is N. o. we have promised our patrons to put in for Harrison for one week, and we can't break our promise for all the offices in the gift of "His Majesty." We are not to be bought-not we ; we are perfeetly disinterested in a pecuniary point of view; there is too much patriotism within us to to be tempted by a bribe. If Matty insults us with another offer of an office, we shall turn against him and defeat his re-elec-

tion -- we will by the living Jingoes. TO THE CITIZENS OF ROCHESTER. You have, in common with the rest of my countrymen, been so long accustomed to see and hear my name associated with " bran bread," saw dust puddings" and other ridiculous and disrespectful epithets, that it is very extraordinary if you have not largely imbibed the strong prejudice that has every where prevailed in relation to me. Much as I have rea. son to deprecate this prejudice as injurious and unjust in its bearings upon myself. I cannot but regard it as infinitely more mischievous in its effects on those who cherish it, than upon me. From this consideration it is that I now with great deference and respect appeal to your candor, to your sense of justice, to your magna. nimity. All along my journey from New England to this city, I have been told, at every place where I have stopped, that I should find the citizens of Rochester a high-minded, liberal people. I have confidence that this statement is true; and this confidence induces me to make this appeal-a measure which I have never tak. en before in any place. It is several years since some individuals among you, first invited me to come to your city, and deliver a course of my lectures on Human Life, Health, &c. That in. vitation has been frequently repeated, and the only answer I have heretofore ever been able to make was that I would comply with it at the earliest opportunity. I am at last, among you: prepared to serve you according to the best of my abilities. But I have not come to tell you that you must live on "bread and water." I have not come to dictate to you any particular mode of living. I shall not presume to tell you has taken any active measures to secure the what you shall, nor what you shall not eat or drink, or do. I have devoted the greater part of a life of nearly fifty years, with intense in. dustry-with the utmost cautiousness and con- eity, and one who will not associate or hardscientiousness, to the investigation of those great principles on which human life, and now Mr. Editor I wish to mention Mr. Fredhealth and happiness depend; and for the last erick Whittlesey a partner of this Mumford ten years, I have been endeavoring to promulgate those principles as extensively as possible. for the good of my fellow creatures. And without fear of contradiction, I can publicly and boldly say, that my lectures have every where been well received by all that have attended a regular course of them; while those who have ridiculed and reviled me and what they suppose to be my doctrines, really know nothing of me, low Weed, who to secure their own selfish nor of what I actually teach. Nor is it true as many have supposed, that my hearers have generally consisted of the more unintelligent class of society. Some of the most eminent physicians and other professional gentlemen in this country, and many of the best informed and most refined portions of society have been among my hearers: and it has ever been true that my lectures have been best received and most highly appreciated by the best educated and most intelligent part of my audiences. have recently delivered such a course of lec. tures in Utica as I now propose to give here. Most of the physicians of that city, several members of the bar, and other professional, lit. erary and scientific gentlemen were among my hearers. They, like almost every body else, came in at first, from sheer curiosity, with minds

strongly prejudiced, and expecting to witness a

silly display of ultraism and extravagance, or at

best, to listen to an ingenious and declamatory

attack on the harmless indulgences and habits

of society. But they soon found that the whole

matter was so entirely different from what they

had anticipated-that what I had to say so fully

commended itself to the reason and common

sense of mankind, and withal, was of so much

only surprise was, first, that principles so evi-

not long ago, and every where been deduced from the universal experience of the human race; and second, that a prejudice so extensive, so powerful, and so unjust, should ever have been excited against an individual for teaching such principles. The result was that those who came most strongly prejudiced against me, went away most fully convinced of the general correctness and utility of my doctrines; and many of the most decided friends I acquired in Utica, are among the most intelligent and respectable citizens of that place. Now, then, No. 33, State street, nearly opposite City Bank. with great respectfulness, I ask the intelligent citizens of Rochester to give me a hearing, and then judge for themselves. Should I claim to be entirely free from that natural selfishness which, in a greater or less degree, is a moving spring of all human actions, I should not be perfectly honest; but I do with thorough honesty, declare that with a reasonable regard to my own welfare, I sinc ely and deeply seek the good of others; and for that purpose, earnestly urge them to hear what I have to say. I do not claim to be infallible, and therefore, neither presume nor expect that every one who shall give me a hearing will unhesitatingly and fully approve of every word that I may utter: but this I say with great deference and sincerity, all past experience warrants me in believing that after the intelligent citizens of Rochester have given me a full hearing, they will judge my lectures to be in the main correct, and of great value, and consider me less deserving of popular prejudice than of the confidence and good will of my fellow creatures.

Very respectfully, &c., S. GRAHAM. Rachester, Dec. 27, 1839. .

We are requested to say that Mr. GRAHAM will give his Introductory Lecture on Sunday evening, at Le Bethel Church, at half past 6 o'cl o All are invited to attend-Gratis.

To the Editor of the Daily Sun: You must be aware that at the present time there is considerable contention. between certain individuals in relation to the officers of Surogate of this county, among these are Mr. J. H. Mumford, C. E. Gibbs, Abelard Reynolds, Jaspar W. Gilbert, Enos Pomeroy, and a fellow named Wood. That the first named individual ( he being Frederick Whittlesey's candidate) is most likely of success, there can be little doubt, but I would ask you Mr. Editor, and the public generally, what this Mr. Mumford, has done for the Whig party, that entitles him to the office. Ho has never been seen at any of he meetings, or caucuses, of the party, and if he always has voted the whig ticket, he never result of any Election, or any thing else which could benefit the party. He is more. over one of the richest men in the county, a ruffled shirt leader of the aristocrats of the ly speak with any but a " chosen few." And in the practice of law. Of his character I have been acquainted some ten or twelve years, and you as well as all who have known and watched him as long as I have, must admit that his ruling passion is avarice, and that he will sacrifice his dearest friends to his God Gold. You must recollect the manner in which Gov. Seward got the nomnation for the Governorship through the intrigue of this individual assisted by Thurviews, and make a tool of Seward, defeated the wishes of a large majority of the Whig Electors, in the nomination of Granger, and who have given to Seward, a very reluctant support. He has received for his slice of the poils, the office of Vice Chancellor, for another partner of his, Mr. Isaac Moor, a very moral mun he has given the office of Superintendent of the Canal, which he now holds. Heat this present time is pushing his Brotherin-law, Mr. Selah Mathews for the office f Recorder, of this city. His Brother, Mr. Whittlesey is now Notary Public, and it is currently reported that he is pushing his two friends and fools, Ezra M. Parsons, for a Commissioner, and Samuel G: Andrews for he office of Bank Commissioner.

Now, Mr. Editor, I would ask the whig lectors of this county, if they are prepared to submit to such a monopoly. A SUBSCRIBER.

BEYOND THE POWER OF BOASTED PRETENSION.

New York, 20th March, 1829, DEAR SIR-It is with feelings of unbounded Dan Sin—It is with feelings of unbounded gratitude, I take this opportunity of returning you my stocker thanks for the relief you have afforded me, by using your medicine. "Eranter's Red Drop," after a long and protracted authoring of twelve months, in the West Indies, under the care of five eminent and far famed physicians, at of which were of the Colleges of London and Edinbargh, could not do me any service; but after several courses of mercurial treatment, and the effects of the long confinement to bed in a tropical climate, recommended me to proceed to a more northern latitude. Acting in accordance to that last remedy. I took passage for this city; after my arrival I placed myself under the care of an old and eminent practitioner, who attended of an old and eminent practitioner, who attended me continually for three months to no effect. Perceiving, in the journals of the day, numerous proofs of the many successful cures which had been effected under your treatment. I called apen you without even the means of getting the medicines but you cheerfully gave it to me, and I am now sound, hearty and active. I therefore, fearlessly come forward, and state that your medicine and treatment, (if strictly followed,) is the only true and secure remedy for eradicating ven ereal and mercernal taints from the system that exists to the present day; and should you think proper to make these lines public, you are at lib erty to do so; and any person wishing to see me on the subject, you can also give them my ad-dress. And believe me to rumain, over your gratefal friend.

R Tosser The public must be satisfied at once, if Hunter's Red Drop will cure a case of this kind, it will care in any case.

TEW DAVID'S OR HEBREW PLASTER J The particulars of this Chemical Comon the suimal fibre or nerves, ligaments and muscles, its virtues being carried by them to the immediate seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful auxiliary, in removing the disease and faciliating the care in cases of Local Inflamma, tion. Scroffulous affections, King's Evil, Goet, Inflammatory, and Chronick Rheumatism, and in all-cares where seated pain or weakness exist.

A gentleman travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plaster, and of the (as he considered) miraculous sures it had perfermed, that he was induced to try it on his own person, for a Lung and Liver affection, the removal of which had been the chief of his journey, but which had resisted the genial influence of that balmy and delicious cli-

He accordingly applied a pluster on the right side of the chest, where the pain was sented another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb tea of laxative qualities. He soon found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his health became permanently remstated.

Since that time he has been recommending it to his friends and acquintances, for all fixed pains whatever; such as rhenmatism, goot, head ache, nervous teeth ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual cure. He has likewise witnessed appy effects of its softening and healing quantities in numberless cases of scroffglous humore, knots, wens, white swelling, hard tomure, stiff joints, ague cakes, ague in the breast, and the like, to the united satisfaction of himself and

It has blowing been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, lam-ness, affections of the spine, female weakness 4-c. No female subject to pain or weakness in the back or side. should be without it. Married Ladies, in delicate situations, find great reltef from constantly wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, ahthisic and long affections, in their primary stages It destroys inflammation by producing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, bruises and sores, than any plaster, suive or ointment

In view of the great benefits resulting from the use of this plaster within his own observal tion, his confidence in its infinite superiority over every other plaster, salve ointment or epedelded before the public, in this country, has induced his gentleman to place the Hebrew Plaster in band of shore who will give it publicity; believing it will prove itself to a rich blessing to the sommunity at large.

No puffing or great spread of certificates is intended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum not half sufficient to pay for the insertion of a single cartificate into any of our most common prints, a single time. This trifling price per box, is placed upon it, in order that it may be within the meens of every affected son or daughter of the community; that all, whether rich or poor may obtain the treasure of health, which resulte from its use.

Prompt attention will be paid to orders addressed to Messrs. C. COMSTOCK, & Co., Rochaster.

Price per single box 50 cents.

DIRECTIONS. —Spread the plaster on a soft pince of white bather, very thin-and once in 4 or 5 days re-spread it by adding a little more Plaster. Apply it to any part that may be affect-

BETER'S PILLS !!- These Pills are so longer among those of doubtful utility. They have passed away from the hundreds that are daily launched upon the tide of experiment, and now stand before the public as high in repu. tation, and as extensively employed in all parts of the United States, the Canadas, Texas, Mexice and the West Indies, as any medicine that has ever been prepared for the relief of suffer I ing men. They have been introduced wherever it was found possible to carry them; and there are but few towns that do not contain some tomarkable evidence of their good effects. The certificates that have been presented to the proprietor exceed twenty thousand-upwards of ave hundred of which are from regular practice, ing physicians, who are the most competent

Often have the cures performed by this medicine been the subject of editorial comment, in various newspapers and journals, and it may with truth be asserted, that no medicine of the kind has ever received testimonials of greater value than are attached to this. They are in general use as a family medicine, and there are thousands of families who declars they are never satisfied unless they have a supply always on hand.

## THE MAYOR.

THE LATE MAYOR of Philadelphia has ertified, under seal of the city, to the character of several Divines. Physicians, and gentlemen of high standing, who declare positively under their own hauds(all of which may be seen at the drog store) that the Balm of Columbia is not only a certain preservative, but positively a restorative of the human hair; also a cure for dandruff. Who shall dispute, or who go bald ! Inquire at all respectable druggists.

agent's, name, &c. THE HUMAN ELAIL.

Where the hair is observed to be growing thin, nothing can be more prosperous than the use of oils, grease, or any lutty matter. Their application can only be recommended through the grossest ignorance, as they hasten the fall of the hair, by increasing the relaxation of the skin. When there is a harsh, dry, or contracted skin, and where the small blood vessels which carry noorishment to the bolb are obstructed, then the oils, &c., may be good, as they tend to relax the skin; but alone they are of no avail. There must be a stimulus to rouse the vessels from their torpor, and quicken the corrent of the blood, - Extract from Clirehugh's Trecties on the Hair.

The Bulm of Columnia is the only preparation that can have that effect, being entirely free from any oily substatice.

CAUTION .- None can be genuine withouts splendid steel plate engraving, on which is the Falls of Nagara, and Dr. Comstock's, the Ame. rican agent's, name, &c.

MONDAY DECEMBER 30.

FOR PRESEDENT. WILLIAM H. HARRISON, of Ohio.

We this day hoist the flag of " Granny Harrison" for the Presidency. For one week we shall do battle in behalf of the "petticoat candidate," and make the supporters of Van Buren "shake in their shoes." It is a remarkable fact that the opponents of Harrison can bring nothing against his character as a man or a patriot, and can urge no substantial reason against his being made the President of this mighty Republic. They are thus driven to the miserable school boy play of giving him nick names, and we hear nothing from the federal papers but the senseless cry of 'granny-granny-granny' -"petticoat-petticont-petticoat." What a dignified and honorable occupation for the Van Buren Press | For a quarter of a century Martin Van Buren has devoted himself to the low and vulgar occupation of party p lities as an instrument for advancing his own personal interest and ambition. By a then-it is then.' fortunate combination of circumstances, and using the popularity of old Hickory as a clock to cover his own wretched and threadbare character, he has reached a station that is degraded by such an incumbent. To retain that station for another four years (salary \$25,000 per year.) he inst gates his contemptible tools to blacken the repu ation of a war worn veteran by calling him "grainy" and " pet icoat." Such conduct will recoil upon the party guilty of it. The people of these United States are not ungrateful; missed from the army, a few days since by neither a e they such fools as the Van Bu ren men seem to imagine. They may cry "gianny" and "peticoat" til the are accounts. hearse, but it will not avail them. What if the trowsers worn by the old veteran are not as grateely cut as those that adorn the spin dle shanks of the Kinderhook cabbage eater. It is no reason he should be called a " pettcoat." Who hat is familiar with the history of of our glorious revolution, does not admirer the character of Wayne, better known at that day as Mad Anthony of the Pennsylrania Line? Who wil believe that he would select a "granny" for his aid de-camp. in his campaigns against the Indians ? We romiting, and from the symptoms exhibited advise all our reade s to purchase the life of suspicions were entertained that they had Harrison and read it. They can't en judge been poisoned in some unknown and mysas to the truth of his being a "granny" or a " petticoat." If Harrison is elected, it will rill were speedily summoned, and such remnot be owing to the real strength of the whig edies admin stered as in a short time mitigaparty so much as to his own services and sed the symptoms of the sufferers, and they personal populari v. and the abuse that will be heaped upon him by the Van Buren press. It was to this cause Gen. Jackson owed his elec ion, a d not to any party organizate n. It was after his election that Van Buren and the Albany Argus jumped on and rod old Hickory's popularity. Let the cry go up " THE PETTICOAT FOREVER."

Our city came very near being the scene of a real double distilled murder a few evenings since. It appears that a bussing bee,lickchop, gumsucker or some other kind of an affair came off at which several of our young blades were present, with any quantity of the fairer portion of creation, who endeavoured to amuse themselves by p aving at forfeits. blind man's buff, puse in the cor ner and divers other harmless games; between which they discussed the merits of the plumcake, cordial motto and other small matters, they also made suitable comments upon the wedding which took place at the Universalist Church, talked over all the scandal stirring, wondered who would be the next sacrafice at the after of Hymen, and then things progressed as emooth as a ribbon untill a gentleman attempted to press the lies of one of the fair ones, when another sen leman Mr. H \*\* \* \* \* started up and swore by all the " great gods and little fishes" that none but himself should dare to taste them, much less he who attempted it. More was a precious row, some of the ladies with the Blue-noses this winter.

The Fourthwarders will bear in mind that the election for Aiderman is close at hand, and that we propose running as a stump candidate. We would merely say that if elected, and who doubts, we go for a repeal of the Market ordinance and death to shinplasters. If that is not enough to recommend us, we know not what is.

There is a piece of scandal affoat concerning some of the ton The Moral Reform S. ciety should be on the alert and put a stop to these proceedings.

#### BEYOND THE POWER OF BOASTED PRETENSION

New York, 20th March, 1820. DEAR SIR-It is with feelings of unbounded gratitude, I take this opportunity of returning you my success thanks for the relief you have alforded me, by using your medicine. "Hunter's Red Drep," after a long and protracted suffering of twelve mouths, in the West Indien, under the care of five eminent and far famed physicians, at of which were of the Colleges of London and Edinburgh, could not do me any service; but after several courses of mercural treatment, and the effects of the long confinement to bed in a tropical climate, recommended me to proceed to a more northern latitude. Aging in accordance to that last remedy. I took passage for this city; after my arrival I placed myself under the care of an old and eminent practitioner, who attended me continually for three months to no effect.—
Perceiving, in the journals of the day, numerous proofs of the many successful cures which had been effected under your treatment. I called upon you without even the means of getting the medicine; but you cheerfully gave it to me, and I am now sound, hearty and active. I therefore, learlessly come forward, and state that your medicine and treatment, (if strictly tollowed,) is the only true and secure remedy for eradicating you: e sal and mercurial taints from the system that exists to the present day; and should you think proper to make these lines public, you are at lib erry to do so; and any person wishing to see me on the subject, you can also give them my address. And believe me to remain, ever your grateful friend.

The public must be satisfied at once, if Hunter's Red Drop will cure a case of this kind, it will cure in say case.

ORRISONS PILLS.—The celebrated Hygeian Universal Medicines of the Erish Colege of Health, London—for sale by the sabscriber, No. 13, St. Paul street, Rochester, Agent for the only Gennine Marrison Pills, sold WM. H. BURTIS. n this city

TEW DAVID'S OR HEBREW PLASTER The particulars of this Chemical Comon the animal fibre or nerves, liguments and muscles, its virtues being carried by them to the immediate seat of disease or of pain and weak

However good any internal remedy may be, this, as an external application, will prove a powerful auxiliary, in removing the disease and faciliating the care in cases of Local Inflamma, tion, Scroffulous affections, King's Evil, Goat, Inflammatory, and Chronick Rheumatism, and in all cases where seated pain or weakness exist.

A gentleman travelling in the south of Europe and Palestine, in 4831, heard so much said in the latter place, in praise of Jew David's Plaster, and of the (as he considered) miraculous ourse it had perfermed, that he was induced to try it on his own person, for a Lung and Liver affection, the removal of which had been the chief of his journey, but which had resisted the genial influence of that balmy and delicious cli-

He accordingly applied a pluster on the right side of the chest, where the pain was seated, another between the shoulders, and one over the region of the liver. In the meantime, he drank freely of an herb tea of laxative qualities. He soon found his health improving, and in few weeks his cough left him, the sallowness of his skin disappeared, his pain was removed, and his

health became permanently remstated.

Since that time he has been recommending it to his friends and acquintances, for all fixed pains whatever; such as rheumatism, gout, head ache, nervous teeth ache, pain in the side, hips back and limbs, in every case of which, it has proved an effectual care. He has likewise witnessed the happy effects of its softening and healing quantities in numberless cases of scroffulous hamors, knots, wens, white swelling, hard tumurs, stiff joints, agae cakes, ague in the breast, and the like, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, weak limbs, lameness, affections of the spine, female weakness &c. No female subject to pain or weakness in the back or side, should be without it. Married Ladies, in delicate situations, find great reltef fron constantly wearing this plaster.

The application of this plaster between the shoulders, has been found a certain remedy for colds, coughs, whthisic and long affections, in their primery stages. It destroys inflammation by producing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, bruises. and sores, than any plaster, saive or ointment now in use.

In view of the great benefits resulting from the use of this plaster within his own observat tion, his confidence in its infinite superiority over every other plaster, salve ointment or opadeldoc hefore the public, in this country, has induced his gentleman to place the Hebrew Plaster in hand of those who will give it publicity; believing it will prove itself to a rich blessing to the community at large.

No patting or great spread of certificates is intended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to spread 6 or 8 plasters, for 50 cents; a sum not half sufficient to pay for the insertion of a single cartificate into any of our most common prints, a single time. This trifling price per box, is placed upon it, in order that it may be within the means of every affected son or daughter of the community; that all, whether rich or

results from its use. Prompt attention will be paid to orders addressed to Messrs. C. COMSTOCK, & Co., Roohester.

poor may obtain the treasure of health, which

## TUESDAY DECEMBER 3: FOR PRESIDENT,

WILLIAM H. HARRISON of Ohio.

With this Number, the publication of the Sun will cease for the present. In the course of a week or two we shall resume with an enlarged sheet, and a weekly. One reason for suspending is that we may have an opportunity to make arrangements in our office, another, to endeavour to bring our pecuniary affairs into a better shape. Our friends will then perceive that is necess ry that our bills are promptly paid, those that are not, we shall place in the hands of an ficer with order to collect them at all baz-

It would seem that our city had become infected with a mania for masqueroding of late. We perceive by an advertisement in the Democrat that a masked ball is to take alace on the eighth of January, if subscriers enough to pay the shot can be mustered. The thing is to be kept perfectly private for the purpose of excluding the canaille, the common rable who often intrude themselves into the presence of their superiors, the anistcracy and mar the pleasures of society. We supposed the managers or getters up ofthis masquerade have caught he idea of secrecy from hearing what good effect it had at the one given by Mrs. C \* \* \* at her mansion last week, which we also suppose prompted them to get one up at all. The masquerade given by Mrs. C \* \* \* was nded only by the beautiful, talented, and intellectual, which of course included ourself, and was kept quite under the rose for reasons above mentioned. We shall attempt to give a faint description of the affair. Previous to our entering the portals of this worthy and interesting lady, we glanced at the scene which presented itself at the outside. The show of equipages was very brilliant, and the dashing liveries of the servants of the aristocracy showed to a great effect by lamp light, as they whipped their horses and d-ned each other eyes. Upon entering the anti-chamber we were presented with a domino, in which we encased our carcase, placed in the Bank on special deposite, \$75,000 and proceeded to the grand saloon. The of which he a short time since received \$25,000. appearance of this magnificent apartment and after the recent explosion, he collect to was beyond description, it was to be beheld enquire about the balance, and learned, with to be appreciated; the innumerable lustres and candlelabres hanging from the huge col umns of the dome, diffused the effulgance of nonaday, splendor over the crimson and gold of the rich tapestry which hung in mossive folds from the ceiling and over the maserpeices of the old mastersthat decorated the walls of this superb hall, which little as is said out, might vie in magnificence of arvangement with the gorgeous apartments of European palaces. So much for place now for the brilliant assemblage within it. At the upper end of the saloon we were presented to the lady of this splendid mansion, who in the character of a sultana greated us with one of her loviest smiles, and desired us to be seated by her side, while she described the different characters we beheld, among which were turks and toadies, greeks and grenadier hunters, and hobnails, gypseys and ginger. breadmen, prophets, and pillsellers, footpads and fools, clowns, and card nals, popes and parsons. Richards, Romeos, Hamlets, Hanibals, Ronypartes, Bolivars, Ivanhoes, Iagos, Faulconbridget, Frankinsten, Glaucus, Mannering, Robroy, Robert the devil, Massanuo, Mac beth, Flora MacIvor, Heleu Mac Gregor, Joan of Arc, Mary Queen of Scots, Queen Elisabeth, Victoria, Desdamona, Mary of Burgundy and Maria Monk. "What in angelic figure !" we exclaimed, as Flora Mac Ivor passed us hanging on the arm of a greek soldier. BEYOND THE POWER OF BOASTED PRETUNSION.

NEW YORK, 20th March, 1839 DEAR Sm-It is with feelings of unbounded Dan Sm—It is with feelings of unbounded gratitude. I take this opportunity of returning you my sincere thanks for the relief you have afforded me, by using your medicine. "Hunter's Red Drop," after a long and protracted suffering of twelve months, in the West Indies, under the care of five eminent and for famed physicians, elder which were of the Colleges of London and Edinburgh, could not do me any service; but after neveral courses of marcurial treatment, and the effects of the long confinement to bed in a tropical climate, recommended me to proceed to a more northern latitude. Acting in accordance to that last remedy. Hook passage for this city; to that last remedy. Hook passage for this city to that last remedy. Hook passage for this city to after my arrival I place myself under the cure of an old and eminent practitioner, who attended the continually for three months to no effect. Perceiving, in the journals of the day, numerous proofs of the many successful cares which had been effected under your treatment. I called spon you without even the means of getting the medicine; but you cheerfully gave it to me, and I am now sound, hearty and active. I therefore, learlessly come forward, and active. I therefore, tearlessly come forward, and state that your medicine and treatment, (if strictly followed,) is the only true and secure raisedy for aradicating was: ersal and mercurial taints from the system that exists to the present day; and should you think proper to make these lians public, you are at liberty to do so; and any person wishing to see me on the subject, you can also give them my address. THE RESURRECTOIN OR PERSIAN PILLS reise from the greatest weakness, discress and suffering, to a state of strength, health and happiness. Many there are, who have said in their hearts, there is no help for me, who have been raised by them, to pristing health and vizor. They assuredly have or aperient is needed. They are exceedingly my friends are cantioned against any preparation pristing health and vigor. They assuredly have healing virtues which no other mediciae in this country possesses. Every individual has found, and will contine to find them to supersede the necessur of eny, and every other medicine, which can be produced in America. If the purchaser bee not find them to be superior to any article advertised in the cable prints, for the diseases a cotioned in the large bills which accompanies each box, when taken according to the directions their money will be refunded on the return of the box. We discard the idea of publishing a long list of certificates, or putting them into use, by publishing a column in each periodical. A treaties on the prominent diseases, their avantoms, and manner of care, a history of the madeine, together with many valuable certificates, from phyicians and others, the rothers of which may be called upon, or referred to by writtin communis-cation, can be obtained gratis, by calling on any one of the agents. Let us one be discouraged however despairing their case may be, until they have tried the Persian Compound, for the most incredulous have been obliged to acknowledge its superiority in quelling diseases which no other medicine could reach. They are the cheapestas. well as the best medicine in use. Price 63 cents per box containing 73 pell, half box 31 cents containing 35 puls, &c. The case of one bex well be more convincing than a volume of certificates In removing diseases the Hygean, Brandrettis,

Evans, and Tamato Polls, the high styled Paurenas, Catholocous and Arcanoums, box their bearts in humble reverence to the supreme excel lencies of the Vegetable Pers an Compound.

ORRIGONS PILLS.—The celebrated IN Rygeisn Consent Medicines of the Erisa Colege of Health, London—for sale by the Agent for the only Genuine Marrison Pills, sold a this city WM. H. BURTIS.

TEW DAVID'S OR HEBREW PLASTER The particulars of this Chemical Com pound are owing to its extraordinary effects, upmuscles, its virtues being carried by them to the immediate seat of disease or of pain and weak

However good any internal remady may be, this, as an external application, will prove a powerful auxiliary, in removing the disease and faciliating the care in cases of Local luflamma, tion. Scroffulous affections, King's Evil, Gout, Inflammatory, and Chronick Rheumstism, and and cases where seated pain or weakness exist.

A gentlemna travelling in the south of Europe and Palastone, in 4831, heard so much send in the latter plane, in 1831, heard so much send in the latter plane, in-praise of Jew David's Planter, and of the (as he considered) miraculous cares it had performed, that he was induced to truit as his own person, for a Lung and Liver affection, the removal of which had been the chief of his journey, but which had resisted the growth influence of that beliny and delicious climate.

He accordingly applied a plaster on the right side of the chest, where the pain was seated, another between the shoulders, and one over the regios of the liver. In the meantime, he drank freely of an herb ten of laxative qualities. He wooks his cough left him, the sallowness of his skin disappeared, his hain was removed, and his health became permanently remstated.

Since that time he has been recommending it

to his friends and acquintances, for all fixed pains whatever; such as rheamatism, goat, head ache, nervous teeth sche, pain to the side, mos back ad limbs, in every case of which, it has proved an effectual cure. He has likewise witnessed tie happy effects of its softening and healing quantities in numberiess cases of scroff alone has mors, know, wens, white swelling, hard to nate, stiff joints, ague cakes, ague in the bresst, and the like, to the united satisfaction of himself and

It has likewise been very beneficial in cases of weakness, such as weakness and pain in the stomack, wouk Bubs, lameness, affections of the spine, female weakness &c. No finale subject to pain or weakness in the back or side, should be without it. Married Ladies, in delte cate situations, find great relief from constantly

wearing this plaster. The application of this plaster between the oulders, has been found a certain remerly for solds, coughs, shthisic and long affections, in their primery stages It destroys inflammation by producing a copious perspiration. No physicians should be without it. This plaster answers a far better purpose for dressing wounds, bruises and seres, than any pluster, salve or ointment

In view of the great benefits resulting from the use of this plaster within his own observation, his confidence in its infinite superiority over every other plaster, salve continent or opodeldoc his gentleman to place the flebrew Plaster in band of those who will give it publicity; believing it will prove itself to a rich blessing to the community at large.

No puffing or great spread of certificates is re-tended. Those who wish to satisfy themselves of the efficacy of this plaster, can obtain sufficient to appear 6 or 8 plasters, for 50 cents; a sum not half sufficient to pay for the insertion of a single certificate into any of our most common prints, a single time. This trifling price per bex, is pleased upon it, in order that it may be within the mouns of every affected son or daughter of the community; that all, whether rich or poor may obtain the treasure of health, which results from its use.

Prompt attention will be paid to orders ad-
