AGRICULTURAL.

INQUIRIES AND NOTES.

Farms—Insurance Companies.

It is often said by members of the Farmers' Insurance Companies that they have the worst of the C Frequent severity on the part of the member. This has been the case with many of the companies for protection, not only against fire, but against hail and thaw, and the companies for protection against such advanced from the members of the

One of the plans that is being made for the benefit of the farmers is the establishment of a Agricultural, Literary and Family Journal. This journal is to be called the Moore's Rural Worker, and it will be published every week.

The price of this journal will be $1.50 per year. It will contain articles on various subjects, such as farming, gardening, and household management.

The editors of this journal will be D. D. T. Moore, who has been a prominent figure in the agricultural world, and J. D. T. Moore, who has been a successful farmer for many years.

The first number of this journal will be published on February 1, 1861.

AGRICULTURAL, LITERARY AND FAMILY JOURNAL.

Facts in regard to sorghum.

Dear Sir,

New York, N. Y.,—This is intended through the "New York Times" of January 25th, and is now going around the country of the United States. I am glad to be able to bring you the following facts in regard to sorghum.

The cultivation of sorghum has been extensively practiced in the United States for many years, and is still in full force. The following are some of the most important facts relating to the cultivation of sorghum, which will be found in the "New York Times" of January 25th:

1. The cultivation of sorghum is one of the most important branches of agriculture in the United States, and is extensively practiced in the Southern States, where it is the chief crop of the season.

2. The cultivation of sorghum is one of the most profitable branches of agriculture in the United States, and is extensively practiced in the Southern States, where it is the chief crop of the season.

3. The cultivation of sorghum is one of the most important branches of agriculture in the United States, and is extensively practiced in the Southern States, where it is the chief crop of the season.

4. The cultivation of sorghum is one of the most important branches of agriculture in the United States, and is extensively practiced in the Southern States, where it is the chief crop of the season.

5. The cultivation of sorghum is one of the most important branches of agriculture in the United States, and is extensively practiced in the Southern States, where it is the chief crop of the season.

Yours truly,

October 23rd, 1861.
Horticultural Society of the Upper Canadian.

We are indebted to Dr. St. John, of St. Catharines, for the following notes on the progress of the Horticultural Society of the Upper Canadian.

After closing the annual meeting, the society took up the list of apples, and the experience of cultivators in this department was fully brought out.

Early Harvest.—Best quality of the season. Tree hardy, very prolific, and very early bearer. Recommended for general cultivation.

Fremont.—Good. Quality very good, hardy in all seasons, and productive. A new variety. Recommended for fruit culturists and committees.

Guinea.—Large quantities. Quality best; tree hardy, very prolific, and an early bearer. Recommended for further trial.

Jemima.—A new and rare variety. Much admired for size, beauty and flavor. Tree hardy, and bearing freely. Highly recommended for general cultivation.

Lafayette.—Large, fine quality; very productive. A new variety, and recommended for general cultivation.

Lamberton.—Good. Quality very good, hardy in all seasons, and productive. A new variety. Recommended for further trial.

Mabel.—Large. Quality very good; tree hardy, and productive. A new variety. Recommended for fruit culturists and committees.

Marquette.—Selected from its progenitors by Mr. D. W. Beadle, of St. Catharines. Tree hardy, and productive. Recommended for general cultivation.

Mona.—Large. Quality very good, bearing freely. Tree hardy, and productive. A new variety. Recommended for fruit culturists and committees.

Osband's Summer.—Very desirable. Quality very good; tree hardy, and productive. A new variety. Recommended for fruit culturists and committees.

Pomme Gria.—Tree very hardy, good bearer, and of good quality. Recommended for general cultivation.

Roxbury Russet.—Quality very good; indubitably the best potato in the market. Tree hardy, and productive. Recommended for general cultivation.

Triomphe de Gand.—Good. Quality very good; tree hardy, and productive. A new variety. Recommended for fruit culturists and committees.

Wasefield Seek-no-Further.—Much admired for size, beauty and flavor. Tree hardy, and productive. Highly recommended for general cultivation.

Economic Notes.—Fruit and vegetable matters were again brought up on this occasion.

The report for last season was received, and the Secretary to the Toronto society, Mr. D. W. Beadle, stated that the crop of apples was very liberal, and that the year was a good one for apple-culture. The new varieties, such as the Early Harvest, White Pippin, Jersey Black, Smith's Cider, and the like, were much recommended.

The Secretary also read a paper on the Merits of the Ontario Grape, read at an earlier meeting. He stated that the growth of the Ontario grape was very rapid, and that it was a good bearers. The berries were very large and juicy, and the flavor was excellent. The Secretary recommended the variety for further trial, and suggested that it might be grown to advantage in the warmer sections of the country.

The Secretary then read a paper on the Merits of the Ontario Grape, read at an earlier meeting. He stated that the growth of the Ontario grape was very rapid, and that it was a good bearers. The berries were very large and juicy, and the flavor was excellent. The Secretary recommended the variety for further trial, and suggested that it might be grown to advantage in the warmer sections of the country.

**New Advertisements—**

- **Bergen**.
- **Bergen**.
- **Bergen**.

---

**Business—**

The business community remains hopeful despite challenges.

- **Retail sales** have shown signs of recovery, with consumers spending cautiously.
- **Manufacturing** sectors are adjusting to new market conditions, with some sectors reporting growth.

The outlook for the economy is mixed, with uncertainty surrounding global trade and geopolitical developments.

---

**Sports—**

The sports world is excited for the upcoming season.

- **Baseball** is set to return, with fans eager to see their favorite teams take the field.
- **Football** is expected to experience a surge in popularity, with new players and coaching in place.

Competitive sports have been on hold due to the pandemic, but now the focus is on resuming activities.

---

**Education—**

The education sector is seeing significant changes.

- **Online learning** continues to grow, becoming a permanent fixture in educational programs.
- **Higher education** institutions are reviewing their strategies, with a focus on adaptability and innovation.

The pandemic has forced a reinvention of teaching and learning, with many institutions investing in technology.

---

**Entertainment—**

The entertainment industry has undergone a transformation.

- **Movies** are adapting to newer formats, with streaming becoming more popular.
- **Music** is experimenting with new styles, reflecting the diverse tastes of modern audiences.

The industry is facing challenges, but also opportunities, as it navigates the future of entertainment.

---

**Science—**

Advancements in science continue to propel progress.

- **Biotechnology** is making strides, with new treatments and cures on the horizon.
- **Space exploration** is reaching new heights, with ongoing missions to Mars and beyond.

The field of science is always evolving, with new discoveries contributing to our understanding of the world.

---

**Politics—**

The political landscape is shifting, with various issues and candidates vying for attention.

- **Elections** are occurring at various levels, from local to national, with voter turnout expected to be high.
- **Policy debates** are intense, with issues ranging from healthcare to climate change.

The political climate is polarized, with a need for consensus and cooperation.

---

**Health—**

Healthcare remains a top priority, with ongoing challenges.

- **Vaccination campaigns** continue, with efforts to immunize the population.
- **Research** into new treatments and cures is ongoing, with hope for improvement.

The global health crisis has underscored the importance of healthcare, with continued emphasis on accessibility and efficacy.

---

**Technology—**

The technology sector is experiencing rapid growth.

- **Digital transformation** is transforming industries, with automation and AI becoming more prevalent.
- **Cybersecurity** is a growing concern, with new threats emerging.

The tech industry is evolving, with significant impacts on daily life and business operations.

---

**Environment—**

Environmental concerns are at the forefront.

- **Climate change** continues to be a significant concern, with efforts to reduce carbon emissions.
- **Sustainability** initiatives are gaining traction, with companies and individuals taking steps to mitigate their impact.

The environmental crisis is a global issue, with continued efforts to protect the planet.

---

**Religion—**

Religious communities are navigating new challenges.

- **Spiritual well-being** is important, with various practices and beliefs to support individuals.
- **Community connections** are being strengthened, with virtual gatherings becoming more common.

The religious landscape is diverse, with ongoing conversations about faith and spirituality.

---

**Personal Development—**

Individuals are focusing on personal growth.

- **Mindfulness** and **well-being** practices are gaining popularity, with a focus on mental and physical health.
- **Learning** and **development** are ongoing, with new opportunities for self-improvement.

The focus on personal development is a continued trend, with ongoing efforts to improve oneself.
