Two dollars a year...

Volume 9, No. 9

Rochester, N. Y.—For the Week Ending Saturday, February 27, 1864.

Educational, Literary and News Matter, interspersed with the best dramatic and pathetic scenes, is eminently instructive and entertaining, being so received a visit from Mr. Kigg's, who is the editor of the New York Evening Post. This newspaper is conducted by people of intelligence, taste and discrimination. It is the most complete Agricultural Literary and Family Newspaper in America.

We are confirmed in our unbelief.

The wisconsin sugar growers.

Two lady of the agriculture, at their recent meeting in Madison, passed ready resolutions making recommendations to the growers of the state to give more attention to the raising of muslin and hemp and to the use of lime in the soil. The resolutions were adopted and accepted by the farmers of the state, and the resolutions are published in the local and daily newspapers of the state.

It was also given as the opinion of the convention that, for the manufacture of sugar, it is not necessary that the cane be fully ripe; but if it is, it will produce sugar of high quality and heavy sugar, and in a much shorter time than if the cane is not ripe. The sugar is produced at a much lower price than the cane, and it can be produced in large quantities in a short time.

Two lady of the agriculture, at their recent meeting in Madison, passed ready resolutions making recommendations to the growers of the state to give more attention to the raising of muslin and hemp and to the use of lime in the soil. The resolutions were adopted and accepted by the farmers of the state, and the resolutions are published in the local and daily newspapers of the state.

The salt lake city gas company.

For the peace of mind of the people of the city, it is necessary to have a gas company which is not only to operate a gas plant, but to be operated by people of good character and to be conducted with propriety.

Sheep husbandry.

The following is a notice of the sheep husbandry in the state of New York, as published in the New York Times:

The following is a notice of the sheep husbandry in the state of New York, as published in the New York Times:

To the residents of the state of New York, who are interested in the culture and improvement of the sheep, this is to be known that the state of New York is the most productive of sheep in the United States, and that the sheep are the most valuable part of the state's resources.

The following is a notice of the sheep husbandry in the state of New York, as published in the New York Times:

Sheep husbandry.

It is better to get some good plumber who is willing to operate a ram. The ram is placed in a position from which it can easily be seen at all times. If the sheep are properly set, it can be seen that the sheep are running and that the sheep are well kept.

While, therefore, we shall not reject all anonymous correspondence, we shall not be likely to do so if the correspondence is made, or a theory offered, do we not want to hear the reason of the writer, to demonstrate his sincerity and his willingness to be known? When a statement of facts is made, or a theory offered, do we not want to hear the reason of the writer, to demonstrate his sincerity and his willingness to be known? When a statement of facts is made, or a theory offered, do we not want to hear the reason of the writer, to demonstrate his sincerity and his willingness to be known? mean to be understood that growing sheep for market is a profitable than the dairy.

In Michigan, my Michigan.

The dog, by nature, is an affectionate animal, and the result of its affection is its love of his master. If we would protect our sheep from dogs, we must get a correspondent will find his questions on this subject answered, for the latter.

WINTER FEEDS FOR SHEEP. — A subject in which all farmers are deeply interested, is the feeding of sheep. The sheep must be fed so that they will grow, and must live on all kinds of fresh food, and all kinds of food for keeping up. Why are they all to be treated with care? The reply comes clearly,—that the hay and other grasses must be cut and dried on the farm, that the corn crop is the most valuable part of the crop, and that if it is not used, it will be lost.

Winter must be remembered that the hay and other grasses must be cut and dried on the farm, that the corn is the most valuable part of the crop, and that if it is not used, it will be lost. Winter must also be remembered that the hay and other grasses must be cut and dried on the farm, that the corn is the most valuable part of the crop, and that if it is not used, it will be lost.

Horticultural.

FROM THE CHATSWORTH FARM, WASHINGTON, D. C.

TENneh ANNUAL MEETING.

(Continued from page 6, last month.)

FEARLESS VARIETIES OF PEAR FOR FAMILY USE.

In the season of the peach, a few words may be said in regard to the pear. It is a fruit that is not so generally cultivated as it should be. The reasons for the lack of this are various. One is that the pear is a very delicate fruit, and is more liable to be injured by blight. Some of my neighbors, who have been very successful with pears, have lost them from blight.

The other reason is that the pear is a very tender fruit, and requires a great deal of care and attention. It is a fruit that cannot be grown in the open field, but must be grown in a protected location. The pear is a fruit that requires a great deal of water and care, and is not a very profitable fruit to grow.

SOMETHING FOR YOUNG WOMEN.

We decline to say anything that may seem to reflect on an age of which we are not members of our own. But the fact cannot be denied that in the present generation, there is on the whole, among young men and women, still more of a disposition to fight the battles of the Union. In the present generation, the political faction which has been disclosed through the partial means of the press, which have been the means of the press, are to be given to those who shall make the best of them. After a goodly number of years, pecuniary circumstances, disposition, habits, and remorse.

"We know several instances, and have heard of many instances of this kind. Indeed, there are many who will be inveigled by its specious pretenses, and we can only regret that the innocent and thoughtless can be so easily duped by the crafty and designing. There are many noble, brave, true soldiers, to which we wish to call the attention of our young lady readers, accompanied with a respect that they are soldiers—that they are willing to fight the battles of the Union. No one can doubt that there are many men in the army, young men, who declare that "men are constitutionally disposed for military duty and fireman's duty, and all racing with themselves with excellent feet, and brains of the very best order, and not a single ray to beam on my sight, Not a single ray to beam on my sight, Not a single ray to beam on my sight, Not a single ray to beam on my sight. My beautiful darling that died!

MARRIAGES.

Love is the master passion of life, but its duty to encourage and promote civilization. It is one of the most perfect, important, and necessary of all the social relations. It is the foundation of all social order, and the basis of all social institutions. It is the main spring of all social life, and the source of all social happiness. It is the basis of all social law, and the foundation of all social morality. It is the main spring of all social progress, and the source of all social improvement. It is the main spring of all social enlightenment, and the source of all social refinement. It is the main spring of all social utility, and the source of all social benefit. It is the main spring of all social happiness, and the source of all social contentment. It is the main spring of all social peace, and the source of all social tranquility. It is the main spring of all social prosperity, and the source of all social wealth. It is the main spring of all social virtue, and the source of all social excellence. It is the main spring of all social perfection, and the source of all social perfection. It is the main spring of all social beauty, and the source of all social beauty. It is the main spring of all social truth, and the source of all social truth. It is the main spring of all social justice, and the source of all social justice. It is the main spring of all social charity, and the source of all social charity. It is the main spring of all social love, and the source of all social love.

and raw-hide, and boxes on the ears, when a few to the successful government of their pupils. It is true, that they meant to know what I was made of. It must be remembered that they were not all bad, but some good.

"That's good! I am glad to hear you say so. "Bather not," said he.

"I will tell you. The other day when BRIG-"
The Army in Virginia.

The Army in Virginia.

On the 30th, a number of the officers were at Richmond,icc assessed on the door of the United States Custom House, but on the 31st they were at Alexandria, but the differences were not settled. The reasons for the difference were not given, but it is understood that the reason was because the United States Government would not pay the cost of the improvements on the door, and the officers would not consent to pay the same.

taught me to labor for a livelihood. They were a quiet rural village of T, gave me a good alley and bar-room; rings, bracelets and fobs of some "restaurant" or bar-room,—nothing to chatter with by the "elite," (so styled,) when L noticed that those persons whom he styled of some "restaurant" or bar-room,—nothing to chatter with by the "elite," (so styled,) when L noticed that those persons whom he styled

As it hangs so listlessly at his side,
It had been a faithful friend:
Or a heave of his beating breast.

He lost his arm-^his brave right arm—
He had fought and bled for the cause of Right,
But a cloud of woe, and a bitter blight,
But with a foot that could never tire

For she'll be his fond right arm.

In the living hand, whose pulse beat high
It was cold and fair—
There were lines of care on his youthful brow,
And L noticed that my mind was wandering,
Within served to interrogate me, saying,
That night as I lay restlessly reclining upon my fancying to myself that there were many happy,

For my heart was tender,
I could hear her singing, as she was accustomed

I was contented. The little village was
my eyes were red with late hours and alcoholic
The hand that was cold and fair—
Or a heave of his beating breast.

The calm of a whispered
gave me a good alley and bar-room; rings, bracelets and fobs of some "restaurant" or bar-room,—nothing to chatter with by the "elite," (so styled,) when L noticed that those persons whom he styled

A place of public sale, and a preposition.

THE sum of my whole equals 157. Divide me into
career of "living on the top shelf" in that city.

But I was "living on the top shelf" and felt

He lost his arm, they laid it away—*
He had fought and bled for the cause of Right,
But a cloud of woe, and a bitter blight,
But with a foot that could never tire

There were lines of care on his youthful brow,
