MORRIS RURAL NEW-YORKER. A JOURNAL, LITERARY AND FAMILY NEWSPAPER. COMPILED BY D. R. MORSE, M. D. RUSSEL, AMERICAN ASSISTANT EDITORS. HENRY S. RANDALL, LL. D., JOHN W. HAMLIN, AND A. A. BARTON.

SPECIAL CONTRIBUTIONS:

THE Rural New Yorker is designed to meet the wants of the farmer throughout the State. It contains a large variety of articles and communications, and is taken by thousands of farmers in every part of the State, as well as in the rural districts of other States. It is a thoroughly practical and useful periodical, and the best medium for communicating information and good advice to the farmer.

**Horticultural Notes and Queries.**

**NEW YORK, July 39th, 1873.**

To the Editor of the New-Yorker:

I have noticed a communication in the New-Yorker, of Jun 30th, from one of the members of the Agricultural Society of this State, to the effect that he has made a trial of Italian Poplar, and that from a certain district in a southern county he procured a number of this species which, he said, the society should have some interest in sending to all the counties as soon as the season permits, because he thought it would thrive very well in the New-Yorker's territory. The reason he gave was, that he had put the trees in a cold frame, and had since planted them in the soil. He said the trees were in a condition to be planted and would thrive very well in the New-Yorker's territory.

Yours truly,

[Signature]

**ANSWERS TO INQUIRIES.**

**Country Gentleman.**

**R. H.**—I have a number of Italian Poplar that I would like to send to the Agricultural Society, and I would be glad to do so, if you will give me some information as to the care of them for the winter. I have put them in a frame, and I would like to know how long they will remain in it.

**Mr. A.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. B.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. C.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. D.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. E.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. F.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. G.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. H.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. I.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. J.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. K.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. L.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. M.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. N.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. O.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. P.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. Q.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. R.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. S.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. T.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. U.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. V.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. W.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. X.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. Y.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.

**Mr. Z.**, your request is understood, and I will send you a number of Italian Poplar from the same district. I have put them in a cold frame, and I would like to know how long they will remain in it.
HEART SONG.

One of the songs in my school's music class, called "Heart Song." It's a simple tune, with just a few verses, and it's often used to teach children about the importance of kindness and empathy. The words are usually something like this:

Verse 1: Let us love one another, for charity is love. Let us be kind to one another, and try to understand each other's feelings. Let us be gentle and patient, and never be cruel.

Verse 2: Let us be honest, and always tell the truth. Let us be fair, and never cheat or deceive. Let us be helpful, and always offer to lend a hand.

Verse 3: Let us be kind, and always treat others with respect. Let us be considerate, and think before we speak. Let us be generous, and share what we have with those who need it.

Verses 4 and 5: Let us be friends, and always help each other in times of need. Let us be guides, and always lead others to the right path. Let us be teachers, and always pass on the knowledge we have learned. Let us be servants, and always give of our best.

The song ends with a prayer, asking God to help us live up to these ideals, and to guide us on our path to kindness and understanding.
She worked hard, and made a good deal of money. She would enlist. "And so she went for $6; a month to procure an exception in my favor, but in vain. However, I will not shut my heart to him. I got him a new coat, and did not change. Her mind was made up."

Our Institution is remarkable and interesting, and through gives its a voluminous work, the purpose of reading down again. The ice-boat can only be kept outside its tracks on the Cape. A man could not slip on its glassy surface if he were to walk on it. But the most surprising thing in all this is the apparent possibility of the resolvent of its author.

There was a cabinet dinner at Lord Harrowby's; the guests arrived shortly afterwards. 'That in less than a fortnight I shall be at Ghent.'

The Institution is exerting upon the nation, and the growth of every thing must be seen. They can never meet with but indifferent success because of the President, Prof. EASTMAN, in introducing the Institution. The Institution is patronized very largely, by gentlemen and philanthropists. As might be expected, imitators of his system have sprung up like mushrooms in a bed of manure. The first took us to his country house, now called the education house. with its banks and insurance offices, its exchanges, and all the appointments of a gentleman's house. It is a beautiful institution, if he can picture to himself Wall Street.

MAY SHINE AND JAB. MILLER.

Written for Moore's Rural New-Yorker.

BY R. A. WILDE.

As I promised, my dear Aunt Bina, tomorrow morning when my brother the lawyer returns from the office I will bring over the umbrella, which is my property, with which I hope to make the best of time, and as I understand the neighborhood who has any trouble or joy, I will be there to hear all about it.

But I only hope to hear what happened to you. And I long to read your story. You are like the girl you ever saw. She wasn't handsome, not a good-looking girl, but she didn't seem to care, and she was always smiling. She was the only girl in the neighborhood who knew how to keep her mouth shut.

I was with the lawyer when she was in the room, and I heard everything she said, but I don't know what it means. She was very kind, and she told me I could tell her anything.

But she sat up so late last night, and I heard her crying. She woke me up and told me she was going to change her name, and she was going to go away. She said she had been in love for so long that she had forgotten how to live.

She said she had been in love for so long that she had forgotten how to live. She had been in love for so long that she had forgotten how to feel. She had been in love for so long that she had forgotten how to love.

I don't know what to do. I don't know what to say. I don't know what to think.

But I only hope to hear what happened to you. I only hope to hear what happened to you.
