CITY SEES BRIGHT PROSPECTS FOR NEW YEAR

Political Polka

By CURT GERLING

Tuesday was New Year's day (remember?) and the Republican party worked out on their customary campaign balance by tossing the traditional New Year's party at the Powers. The faithful were in attendance (it was free). The great and the near great came and brought along their hangovers in various degrees of virulence — all the way from the slight Schenley sinus to the Martel migraine.

No one knows how these parties started or whether they are intended as Victory buffets or love feasts — although we presume it is the latter. It's plausible that with the new year all is forgiven. If Boss Tom double crossed you on that appointment for Joe Schmalz you forgive him. If you failed to carry the umpteenth district of the stenth ward, he forgives you. Anyways Ross E. "Tex" Erwin and Bill Doane were present and fellow councilmen refrained from openly drawing their knives as they circulated about the premises. An unconfirmed report stated that the Boss and Tex even smiled as they shook hands.

At the head of the reception line (you guessed it) was Thomas E. Broderick (usually harder to find than a minimum rate room at the Seneca). He did his

DEMOCRATS SEEK BOARD RECOGNITION

Name Ogden Supervisor As Minority Leader; Seek Approval of Resolution

The Monroe County Board of Supervisors will get into line with other major legislative bodies in the state and nation in giving the minority party members representation on important committees — if they adopt a resolution which was to be introduced today by William Geier, supervisor of the 22nd Ward.

The resolution was drawn up at an organizational meeting of the Democratic supervisors Monday for presentation at today's session of the newly organized body. It calls for Democratic representation on all committees — including the important fiscal committees which, at present are composed entirely of Republicans.

Minority Leader Named

At the same meeting, Raymond A. Morgan, Ogden town supervisor, was named Democratic leader of the board. He announced that his first task would be to work for the adoption of the resolution to be proposed today.

Pointing out that it is essential to good government that members of the minority party be properly informed at all times and be given an opportunity to be heard.

Permanent Peace Most Needed, Say City Leaders

By Orville Allen

If Rochester business, professional and civic leaders carry out their New Year's resolutions, see their predictions come true, and have their ideas as to what this world needs put into force — 1946 is going to be a great year for Rochester.

That is the only conclusion to be drawn from a survey of thinking among the city's leading citizens.

To find out just how Rochester could expect to fare during the year which started two days ago, this reporter conducted a one-man poll among educators, industrialists, merchants, bankers, ministers and politicians on the last day of the old year. With one exception, all expressed the belief that 1946 would be a great year for Rochester, for business, for education, for employment, for world peace.

Hallauer, president of the Bausch & Lomb Optical Co. saw 1946 as a "year of challenge" and added that from present indications Bausch & Lomb would be "utilizing the capacity of its plant to the fullest extent."

Only Dr. Hugh Chamberlain Barr, executive secretary of the Federation of Churches looked at 1946 with a slightly skeptical eye. But even he saw a bright future if mankind could only learn "patience during the convalescence of the world from sickness of war."

"Favorable in every respect," was the way Mayor Samuel B. Dicker summed up his opinion of the city's outlook for '46.

Businessmen Optimistic

Perhaps the brightest picture of all was painted by business and industrial leaders. Carl S.

even greater year for the retail business than 1945." C. C. Godshall, general manager of Sears Roebuck & Co. agreed that 1946 looked "very good," as did Gilbert J. C. McCurdy, president of McCurdy & Co., Raymond N. Ball, president of the Lincoln-Rochester Trust, Theodore Levy, manager of Rudolph's Jewelry Store and Frank Weisberg, president of Daw Drug Stores.

\$25 Winner

Mrs. Kathryn Knitter of 47 Copeland St. is the lucky winner of this week's \$25 cash prize, offered by the Sun each week to its sustaining subscribers. This is the reward Mrs. Knitter gets for paying her Sun carrier, Robert Doerrier of 46 Heidelberg St., 10 cents. Bob incidentally collects an extra five dollar bonus.

Train, Bus Heads Hopeful

Bus and train passengers have a right to expect great things this year if John F. Uffert, president of the Rochester Transit Co. and Frank Courneen, division passenger agent

for the New York Central Railroad are any good as prophets. Uffert hinged his predictions of "better service" on the company's ability to "obtain delivery of new buses which have been on order for more than a year. But Courneen stated flatly that service would be better — much better. While he said the demobilization would not be complete for some months yet, already new locomotives are being put in service, more are being built and still more under consideration. The passenger agent also revealed that 300 of the newest type passenger coaches are under construction and are slated for service this year.

KAY'S COMMENTS by kay shearer

It's RIPTON'S every time. Especially in this year of 1946. A dress for every woman who walks into the shop — this is the aim of RIPTON DRESS. And for years they have been successful. So why not in 1946? Mrs. Van, who "buys" for his progressive shop — does a wonderful "job". She "shops" on the market — and with what results. Hundreds of "well-dressed women" in Rochester — those clothes bear the label RIPTON DRESSES — 739 MONROE AVE. — Open Eve.

LOYD'S When the occasion calls for FLOWERS CANDY — LOYD'S FLOWERIST is your best bet. The freshest of flowers — in the widest selection — at GENTLE PRICES. ANDY is the newest LINE added at LOYD'S. It is one of the finest quality — and selections are ample. You know candy and flowers go together don't you agree. Novelties of all kinds are also available. Two stores for our convenience — POWERS HOTEL — and REYNOLDS RCADÉ — Main 7688 is the telephone number. LOYD'S LEAD AGAIN.

A month is that long interval between pay days.

TWILIGHT OF A ROMANCE
An absorbing novel complete in this issue. The drama of a girl engaged to one man but secretly in love with another. A novel that will appeal to women.

Harper Method Shop
THE HARPER COLD PERMANENT (as featured in Vogue and Harper's Bazaar) is yours for the asking — at the new HARPER METHOD SHOP — located at 302A Alexander St. — a few steps from East Ave. Skilled Harper Method graduates using the finest Harper Method materials work wonders with thin or difficult hair, lasting. Ideal for dyed, bleached hair. Another hint from MRS. G. FISCHER — owner of this delightful shop — is you simply can't have a glamorous hair-do without a healthy scalp. Before your HARPER COLD WAVE — arrange for a series of scalp treatments. They are relaxing — as well as effective. And how about a MANICURE . . . that is really a hand treatment. HARPER METHOD SHOP — 302A Alexander St. — Stone 2557 — Open every Wednesday evening for your convenience.

SALE If your wardrobe is in most of the doldrums — and most of them are — at this time of the year — why not drop into the "800" SHOP — and "buy yourself" a new frock. If you have a "nose for bargains" you'll find a group of dresses at this shop — reduced below cost. Of course the selection is limited — for the early bird will do the best. But regular "stock" is ample and the usual "800" SHOP quality. Prices start at \$8.95. Pastels, blacks — and all highly styled of finest workmanship. MATERNITY DRESSES — arrive daily — also start at the modest sum of \$9.95. This shop is "Moresa" sponsored as you must know. Located corner Monroe & Canterbury Rd. Open Eve.

Time may be money but it takes intelligent work to cash it.

FINAL CLEARANCE SAVE DOLLARS in EDWARDS FINAL CLEARANCE of luxurious upstairs FURS — in EDWARDS DOWNSTAIRS STORE. Here it is — A once-in-a-lifetime clearance of fur coats. Some are samples, others originally bought to be sold in EDWARDS — Third Floor Salon. But because of Edwards new policy for higher price levels on fur coats to be sold on their third floor, these marked down and brought into the basement store of EDWARDS. Beautiful pelts luxurious linings, handsome in every detail. You'll have to get there early for yours. They range in size from 10 to 20. Prices are \$35 — \$77 — \$99. Of course the tax is extra. Little Things
About The Stars...
"Senator Claghorn." Fred Allen's latest stogie character (a Southern who won't listen to "Mr. & Mrs. North" on the radio) is a success role for Boston born ex-announcer Kenny Delmar. Delmar not long ago had leaner days. He was tossed off a top program by a hair groom sponsor who didn't like his unruly locks. It's the biggest year yet for Sen. Claghorn for stogees, many of whom are becoming as popular (sometimes more so than name comedians who build the mup. Another new-comer: high-powered press agent, "Steve Bradley" of the Jack Benny program. In "Bradley" there is a little more fact than fiction. The character is not too much of an exaggeration of Benny's real life press agent, ex-Miami Beach's (now Park Avenue) Steve Hannagan.

The spread of religion is often handicapped by the ignorance of those who think they have it in excessive quantities.

Don't Neglect That Cold

There may be no cure for what we call the common cold, now widely prevalent, but experience has developed sensible treatment that minimizes the danger of complicated illnesses. Nobody should neglect a cold. The best thing to do, we are advised is to go to bed, rest and get well. It is only a question of a few days, as a rule, and this short loss of time is much better than inviting serious ills that often develop when a cold is neglected.

Scene and Word by Ed Randall

I am indebted to Maxwell (Insurance) Posner for the following little gem. It seems that a bomber was flying over an airport when suddenly a frantic radio message came from the plane. "Pilot to control tower—pilot to control tower—altitude 40,000 feet—carrying atomic bomb and 3,000 gallons of gasoline—plane out of control—what shall I do?" There was an eloquent silence from the control tower as the officials pondered the problem. Soon came the frenzied appeal again. "Pilot to control tower—pilot to control tower—altitude now 20,000 feet—still carrying atomic bomb and 3,000 gallons gasoline—plane definitely out of control—what shall I do?" Again no reply from the ground. Then, in a final desperate appeal, came the next message from the stricken plane. "Pilot to control tower—pilot to control tower—altitude only 500 feet—plane still out of control—still carrying atomic bomb, 3,000 gallons gas—please, what shall I do?" Finally, came the instructions the pilot had been awaiting. "Control tower to pilot—control tower to pilot—here are your instructions—repeat slowly after me—Remember thou art dust and unto dust thou shalt return."

I read somewhere that administration officials are in a quandary over what to do with the huge, sprawling Pentagon Building, now that the war is over. My suggestion would be to make it the world's largest tourist home. Above its doorways they could place a sign reading: "WASHINGTON SLEPT HERE."

Once upon a time there was a girl who fell in love with a real estate man. Then they were married and now they have lots and lots.

Many people have evolved ways to defraud insurance companies but most of them have failed. Take the case of the sharpie who bought several hundred expensive, imported cigars and had them insured against fire. After he had smoked them all he put in a claim that they had been destroyed by fire. The insurance company refused to pay and the man sued. He won his case and the insurance company paid. Then they sued him for arson.

During the last days of the war in the Pacific, a young Lieutenant Commander heard, with consternation, a rumor that the Waves were going to be assigned to the ammunition room below deck on ships. best to look pleasant and act as if he were enjoying himself. On his right, the Republican party's sole remaining asset, Judy Weis, looked mighty fetching in a new Lily Dache job.

Also much in evidence was Hizzoner Mr. S. Dieker whose highly humorous fairy tale entitled "We Wain't to Blame" accomplished to Republican minds a satisfactory whitewash of the last snow removal failure. (Snow White and the seven dwarfs is also good reading.)

We would be the last to deny that the GOP'ers were restrained. They are strictly mighty easy boys with a buck. The following bowl did just that and we are svelte enough to remark that it should, or could have been "contributed" by those twenty-five or thirty gentlemen who received package stores "puns" from the party last year. The provender and victuals were also in abundance. Heaping bowls of artfully contrived and beautifully garnished salads; Hors d'oeuvres dainty and delectable, plus turkey, chicken, salmon, ham, and lox. Bread from biscuits to bagels. Sumptuous, succulent and gastronomically satisfactory and even more important—the "club" picks up the check.

Everyone wears a white carnation, another old tradition. This year they were more beautiful than last—and their heady fragrance was nearly strong enough to drown out the stink of City Hall inefficiency, just across the street.

The 20th Century, most famous of all trains, still doesn't think Rochester important enough to stop here—and no one has ever been able to convince the N. Y. Central that we are.

The 27th: The only city of its size with a subway, etc.

No mention was made of its cost to the taxpayer. Its years of disuse. Its short life of service during the war—nor its predicted demise as soon as we return to autos and the Rochester Transit Co. can find a way to toss it in the ashen along with the taxpayers' money.

The 28th: Rochester is the largest city in the U. S. to eliminate all its street cars and first to substitute all buses.

And they could have added—how the Rochester public wishes they had the street cars back come a three inch snow fall.

PROSPECTS...

(Continued From Page 1)
University To Expand
In the field of education Dr. Alan Valentine, president of the University of Rochester saw an opportunity for "even greater service to our student body and to the community." Expansion plans, he said, would add to the opportunities offered its students by the university.

Dr. Valentine did see one serious problem which would have to be solved—that of housing the many war veterans he expects to enroll at the river campus.

James M. Spinning superintendent of Rochester Public Schools thinks it wisest to talk about prospects "when they become retrospects." But he has some very definite ideas as to what problems are most pressing for the Rochester educational world during the year.

Chief of these, Spinning saw as the need for continuing to "build backgrounds of information and attitude which citizens must have if world-cooperation is to be achieved. The school system head added that we must continue to meet the needs for veterans' education and then made a plea for improved salaries for teachers to meet mounting living costs.

Democratic Victory Seen
Even Roy Bush, Democratic county chairman forswore good

things for his party this year. He predicted the re-election of Congressman George F. Rogers and the defeat of Governor Thomas E. Dewey. As if that weren't enough, he looked into his charts and graphs and came up with the prediction that after the November elections, Monroe County would have a Democratic sheriff and district attorney.

Congressman George R. Rogers of the 40th District continued his prophecy for the year with one sensible provision. "The year," he said, "will bring the greatest prosperity this country has ever seen—providing everyone uses common sense and understanding."

Leaders Make Resolutions
Rochester's outstanding citizen's have made resolutions, too, which should benefit the community as, if and when they are put into effect. The resolution ranged all the way from "getting more merchandise and giving more service" from several merchants to Raymond N. Ball, undoubtedly one of the hardest working men on "no pay" jobs during 1945. Ball, who was chairman of both 1945's war bond drives, as well as a worker on other patriotic endeavors says he has resolved to "devote to the family of Ray Ball some of the time no longer

'MARCH OF DIMES' OPENS DRIVE HEADQUARTERS

Plans for the 1946 fund-raising appeal in the fight against infantile paralysis moved forward this week with the opening of headquarters of the Monroe County campaign on the mezzanine floor of Hotel Seneca.

The fund-raising appeal will take place Jan. 14-31.

As in the past, coin collection boxes will be placed at convenient spots throughout the county and coin cards will be distributed. Fred J. Odenbach (usual) will be in charge of the wishing wells in Main Str.

In the light of widespread public knowledge of the National Foundation's tremendous achievements in recent epidemic years, Harry B. Crowley, campaign director, said "the local appeal committee is expecting a greater response this year than ever before."

"Once again we have an opportunity to share in the unrelenting battle against infantile paralysis, the dread crippler that annually attacks America's children.

"We can hope that the children of our community will be spared in the year before us. We cannot be sure. No one can predict where, when or how severely the Great Crippler will strike. It therefore behooves us to be prepared."

THE LAST DAY

FOR MEN NOW IN THE ARMY TO RETAIN THEIR PRESENT GRADES BY REENLISTING...

Men now in the Army who reenlist before February 1 will be reenlisted in their present grade. Men honorably discharged can reenlist within 20 days after discharge in the grade they held at the time of discharge, provided they reenlist before February 1, 1946.

There's a long list of attractive reenlistment privileges in the new Armed Forces Voluntary Reenlistment Act of 1945. The ability to keep your present grade is only one of them, but this privilege expires on January 31.

There are plenty of other reasons why many thousands of men have enlisted, and more thousands are enlisting every day. You'll certainly want to know all of the opportunities open to you. If you'll read them carefully, you'll know why a job in the new peacetime Regular Army is being regarded today as "The Best Job in the World."

Inside Hollywood...

Glenn Ford has just made arrangements to purchase the arc light that stands on the roof of the Wilshire Theater, in Santa Monica, Calif.

Ford, who is co-starring with Rita Hayworth in Columbia's "Gilda," was a movie struck kid a decade ago, with hopes, but no prospects, of getting into films.

In order to see previews, he got the manager of the Wilshire Theater to permit him to rotate the arc light atop the filmhouse, heralding to the public that a new picture was to be screened that night. For his services, Glenn was permitted to have a free seat at the showing later in the evening.

Glenn grew to love the light because through operating it he was permitted to see movies. He plans to stand it in the garden of the house he and Eleanor Powell live in. They will convert it into a vast flower pot in which to grow geraniums.

David Niven, who gave up his first starring role the day after England declared war so that he could report for duty in the British Army, has a five year contract with Samuel Goldwyn which promises to be very active. He is scheduled to co-star with Loretta Young in "The Perfect Marriage" and after that he will do "The Bishop's Wife" with Teresa Wright. He will also share top place with Raymond Massey in "A Matter of Life and Death."

"Caesar and Cleopatra" will probably be released sometime in February at the Winter Garden. It stars Vivien Leigh and Claude Rains and was written by George Bernard Shaw. More than six million dollars was spent producing it.

A physiological triangle drama "You Were There" will have Katherine Hepburn and Robert Taylor for the leads.

A story about a New England school teacher who masquerades as the author of a best selling novel, in New York will co-star Joan Davis and Jack Oakie. The title of the picture is "Love Takes a Holiday."

Douglas Fairbanks, Jr. is out of the Navy and has signed with RKO for the title role in the technicolor picture "The Strange Adventures of Sinbad the Sailor." It will be his first picture in five years.

Realism in movie-making may be all right in its place, believes Ruth Warrick, but its place definitely should not include desert scenes showing live cactus.

During shooting on Columbia's "Perilous Holiday," in which she plays the feminine lead opposite Pat O'Brien, Ruth made the mistake one day of brushing too close to a spine-studded cactus which she had thought was just a prop.

A first-aid attendant, using tweezers, had to remove the barbs from her leg before she was able to continue her chores.

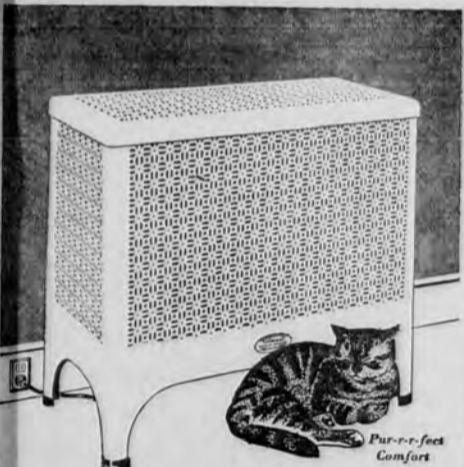

A new screen play is being written of "The Millionaire" which starred George Arliss in 1931. Sydney Greenstreet will have the lead in this new picture.

Marc Platt will be the dancing partner of Rita Hayworth in "Down to Earth."

The screen rights to "Portrait in Black" have been acquired at a reported \$100,000 by Universal. The play will open in New York on Jan. 17 and will co-star Geraldine Fitzgerald and John Howard. In London Diana Wynyard will head the cast.

Bing Crosby will be starred in a musical "Coming Through the Rye" which is a semi-biographical story of Robert Burns.

DECREES OF FASHION

Cutting a pretty figure on ice, active CBS actress Pattee Chapman of the "Young Dr. Malone" cast proved the effective warmth of an all cotton skating outfit for cold weather wear. Over a knitted, black leotard, Pattee wore a short, circular skirt of bright green corduroy which she topped with a beige jacket of water-repellent and wind-resistant poplin. Under the jacket Pattee had a quilted cotton vest that permitted perfect arm freedom through deep armholes and body-fitting lines. Setting off her auburn curls, Pattee had a helmet of corduroy, matching her skirt, and echoed the gay color in mittens of the same fabric.

Expect to see in the future—household gloves with roughened fingers to insure a non-slip on soapy dishes. Heated coats for chilled feet. Rolls of wallpaper with adhesive on one side and a water-resistant treatment on the decorated side.

Stressing the importance of early education in personality development, experienced youth counselor Mrs. Harry Hult stated recently that beauty begins at seven—beauty of body, mind and spirit. Mrs. Hult draws this conclusion from years of experience in helping young American girls grow into useful, happy adults. Beauty, she teaches, is more than physical. It has as many facets as a diamond whose beauty radiates from within. A girl's first need is appreciation. "Make a girl feel that she's appreciated and attractive, and you give her

self-confidence." In a simple course of twelve phases, taken up one by one, posture comes first because so much depends on it. Then follows body grooming, diet, hair, skin, hands, feet and clothes. Sewing is included in the latter, teaching the art of making over dresses as well as the elements of individual good style. Last three steps are voice, manners and finally beauty of mind and spirit.

In this post-war world—it will be Nylon-Nylon and more Nylon. Lace curtains as well as marquisette and tulle net, velvets and brocades. Nylon fabrics will wear longer, resist tearing and because of an unobtainable surface will not soil easily. Rapid drying after laundering and resistance to mildew and molds are other features of nylon.

Glancing over a display of Christmas cards, it was quite obvious that dark-haired cherubs are as great a rarity as fairy tale princess with raven locks. The romantic premium paid on golden tresses is not without constant attention by the possessor.

Wise mothers of little blondes early teach the care of preserving the ethereal crown of glory. Petite Lorna Lynn tells us her mother requires her to brush her hair twice a day, each time wiping off the bristles on a damp cloth to insure absolute cleanliness for the next session. This daily removal of all accumulated dust, plus a weekly shampoo, keeps Lorna's hair in shining beauty.

It Worked
Chicago. —Arnold Olsen was just back from Germany and he fixed up a fine trap in the pantry window for burglars. But when a friend came over to help with the holiday cleaning and wandered into the pantry an explosive shook the house. The booby trap was a training trap and while it made a lot of noise it did very little harm.

PAROCHIAL SCHOOL ANNUAL BANQUET

Second annual banquet of the Lubavitzer Yeshiva, Hebrew Parochial School, will be held at the Congregation Bnai Israel, 692 Joseph Ave., on Sunday, February 24. Coincidental with the affair will be the dedication of the school's new building at 29 Vick Park A, recently acquired by the group. Frank Cohen is chairman of the banquet, assisted by Mrs. Leon Aussenberg, Mrs. Louis Michaels and Mrs. Jacob Schwartz.

Some strategists assert that the day of the heavy bomber is over, that the next war will find atomic weapons dispatched from afar and with submarines, perhaps, operating off-shore to deliver the devastating bombs.

HOPE HE MAKES IT

BY JAMES

Capitol Chatter

By Hugo Sims
An outstanding farce was the recent appearance of Private George L. Mark before a Congressional committee where he sounded off against the "Pentagon Boy Scouts," the "hemedaled fourflushers," the "aristocratic phony's" and others "in the Army as officers because they cannot make a fight in the competitive game."
This nonsense got a big play in the press and some columnists and radio commentators, hunting the bizarre, gave Private Mark and his gripes a hand. The officer system is not perfect but it is necessary and, in the Army, like in private business, the higher you get the more you enjoy conveniences and recognition.
It might be a good idea for the committee to hear from sensible enlisted men but there is nothing worth while in the performance of the private quoted, who had "a no more impressive background than ten months in uniform" in a camp in New Jersey.
The War Department's "Appointment in Tokyo" is a fifty-four minute fact film covering a phase of the Pacific war and is being publicized as an official resume, being compared to "The True Glory," the splendid European war film.
Bosley Crowther, writing in the New York Times, says any comparison "is purely expeditious and should not be accepted publicly." He says the film "employs such cliches as the melodramatic school as hands plunging bloody daggers into maps and spectral soldiers on the screen. It also goes in very heavily for the personal glorification approach — the hero here being General MacArthur, who is shown no less than twenty-six times."
In conclusion, Mr. Crowther says that "such studied coloration is a mockery, almost, of those scenes which show the anonymous foot soldier fighting grimly on Leyte and in Manila's streets."
Critics of the President's labor policy assert that his demand that industry should be required to open its books, in connection with arguments about ability to meet wage demands, is an invasion of the rights of private enterprise.
In 1944 the President, as Senator from Missouri, contributed an article to a magazine, asserting that our armed forces must be unified. Consequently, as President Mr. Truman continues to advocate such a unity.
Three weeks after Japan capitulated Congress received from the President suggestions for seventeen measures. When it adjourned, just before Christmas, action had been taken on six, which had been approved by both houses.
The Pearl Harbor investigation has so far utterly failed to disclose any fact that indicates that the late President Roosevelt tried to lure Japan into war, as some of his adversaries have alleged.
The expected 450,000 homes to be built in 1946 are far from the 703,000 annual average in the twenties. Experts say 1,200,000 units a year are required to meet the housing shortage.
There is general approval of the idea that veterans, who have returned from overseas, should have priorities in the matter of materials necessary for home construction.
The arrival of Gen. Marshall in China is not expected to produce sudden results inasmuch as there are fundamental differences between the Chungking government and the Communists.

necessary for war loan drives and other patriotic causes.

Another interesting series of answers was found to the question, "What one idea or invention do you think would most benefit mankind during 1946?" Here are some of the highlights:

Raymond Hall — "Closer world cooperation is what we most need because cooperation will maintain world peace."

Gilbert J. C. McCurdy — "The creation by individuals as well as nations of a plan to maintain world peace."

Roland Roberts — "Cooperation among the nations of the world will prove a greater force for peace than individuals now suspect."

Walter Hart, Jr. — "The acceptance of the teaching that all races, creeds and colors must live together without prejudice."

John Uffert — "The United Nations machinery of averting aggressive wars. If this machinery is successful, most of mankind's troubles will be eliminated before they even occur."

Mayer Dieler — "The blasting to annihilation of all bigotry, racial discrimination and religious intolerance, to the end that we might be, in fact, as well as in theory, a United Nation."

Teodore Levy — "The idea that we must get along with our neighbors whether they be those next door or those 3000 miles away."

James M. Spinning — "The invention of the ego-reducer which would be advice for letting each one of us see ourselves just exactly as the other fellow sees us. My, there would be some change in our lives!"

Dr. Hugh Chamberlain Burr — "A Manhattan project subsidized by the government to invent a way to pull the world together!"

Not impossible — "If only we felt its need. And what hope and happiness it would bring! The 'Angeles' song was 'peace on earth among men of good will.' One need is to increase the stock of good will — and to add good will — to make the good will effective."

Roy Bush — "A permanent and just peace and also industrial peace between employer and labor to star maximum production to relieve unemployment and satisfy civilian demands for the necessities of life."

Dr. Alan Valentine — "The idea which would most benefit mankind is an old one — but never more applicable than now. That is — adherence to the golden rule by individuals, neighbors, communities, labor

and capital and nations. If this principle is applied universally, the peoples of the world can enjoy untold benefits in the way of medical gains, international cooperation, better food and living conditions, greater educational advantages and many others. Unless nations can agree to end wars, the only alternative facing civilization is destruction."

Text of Statements
Here are the complete statements from several of those questioned about Rochester's prospects for 1946:

Mayer Dieler — "In my opinion, prospects for 1946 in Rochester are most favorable in every respect. We are financially in good shape, and we are bending every effort to prove to our returned veterans that their sacrifices and accomplishments are appreciated by every one of us."

Gilbert J. C. McCurdy — "Looks like an excellent year. If labor, management and government are able to uncover a workable basis for solving their disagreements early enough in the year, 1946 may surpass 1945 as a year of prosperity."

Walter Hart, Jr. — "It is unlikely that shortages will be sufficiently corrected during the year to make the furniture business any better than 1945."

Frank S. Courteen — "With new equipment in service and more under construction, 1946 should be a great year for the New York Central Railroad — from the company's standpoint as well as the community. Many former railroad workers are returning from the armed services so, providing strikes do not interfere with our building program, we expect to be able to render an even better service."

National parks and summer resorts will be opening next summer which means vacationists will again be looking to the railroads to provide speedy, safe, transportation. We hope to be ready for them. Already we have 18 new locomotives in service and more are being built. Three hundred of the newest type passenger coaches are under construction and will be put into service during the year."

Dr. Hugh Chamberlain Burr — "The prospects for 1946 are not yet bright. The goodwill and team spirit of the war years are wearing thin — yet they are more than ever needed. The world has been sick unto death. The fever has been stopped. Restoration to health cannot be immediate. Daring convalescence great patience is needed and sympathetic understanding and service. Too many in the United States are becoming impatient with each other — with conditions — with Europe — with Asia. Our lack of suffering compared with others is one handicap. No, the prospects are not yet bright."

Dr. Alan Valentine — "The University of Rochester is looking forward to even greater service to its students and to the community during 1946 with expansion and strengthening of its program in many fields — particularly in physics, medicine and engineering, a new neuro-psychiatric clinic will be built at the school of medicine and dentistry at an approximate cost of \$800,000. The university anticipates the largest enrollment in its history during 1946 with many war veterans expected to swell the registration at the college for men. This will bring many pro-

blems, especially in the matter of dormitory accommodations at the river campus, but these we hope to solve."

John F. Uffert — "Prospects of the Rochester Transit Corporation for 1946 hinge almost entirely upon one factor, the delivery of new buses which have been on order for more than a year. If delivery is made of the buses, the company will be able to put into effect planned changes in routings and schedules calculated to satisfy

many requests from the riding public. From the viewpoint of profitable operations, receipt of new equipment and new parts for repair of older equipment, should make a noticeable improvement. The number of passengers the company will carry is expected to remain at almost the high level of 1945 due to the post-war production boom anticipated in Rochester as in other cities. Costs should begin to decline. The outlook is definitely bright."

The Wrong Turn
Atlanta. — A motorman lost his way on the trolley line here recently. Going west when he should have gone east at an intersection he wound up with his tired passengers in the car barn. He carried them back down town where a supervisor boarded the car and took charge.

Harper Method Shop

As you know milady — a poor permanent is something you just have to put up with. There's no turning back — once you're "unwound." So why take chances. The average woman only has two permanents a year or less. Talk it over with an expert like MRS. MABEL FISCHER who owns and operates the "HARPER METHOD SHOP" located at 302A Alexander St., a few steps from East Ave. Their HARPER COLD PERMANENT is "tops." First you are given a careful analysis of the hair — if your hair needs conditioning — you'll be advised so. Remember only when the hair is in good condition — does it take any kind of permanent successfully. HARPER METHOD PERMANENTS last longer. This is pleasant, quiet, immaculate little shop renders all kinds of HARPER METHOD PERMANENTS, skin, hair and hands. All the operators are Harper Method Graduates. Doesn't that mean something. Call them today for an appointment. Stone 2657 — HARPER METHOD SHOP — 302A Alexander St.

(Exhale). It's a masterful demonstration of how to get something over with in a hurry and when the National Association of Train Callers have their next contest I suggest that Frank Courmeon of the New York Central enter Lee Wiles as a ringer. Meanwhile Lee might brush up on such words as Cheektowaga, Tonawanda (and that old favorite that winds 'em up) — junction.

Do not construe that I wish to make light of the proceedings. The roll call, with the "here," "hi," "hip," "hyah," "present" and "hey" of the various supervisors is just a dodo of traditional parliamentary procedure. Mr. Wiles, Mr. Bausch and all the supervisors know that the eagle eye of deputy clerk Pastorella has already noted the empty desks and duly recorded the absentees. So you can't blame Wiles for trying to get the darn thing over with in one breath. The afternoon paper's F.P.P. and I lounged at a long table provided for the press and the proceedings droned on. Mr.

about them. Some with rich cranberry glass fronts — some with clear crystal standards — others with quaint frosted glass chimneys. All have heavy marble bases and parchment shades alight with gorgeous flowers. Many other styles also are to be found. A particular beauty is a floor lamp with cranberry glass front priced at \$24.44. A table lamp with crystal standard and parchment shade at \$14.95. A Victorian table lamp with hand-painted roses — priced at \$13.99, all to be found at EDWARDS' — LAMPS — Second Floor. In Housewares at EDWARDS' on the Sixth Floor, you'll find many a value. Space doesn't permit telling you about each and every one — but here are a few. A washing machine filler hose — all rubber for 47c. Half-gallon mastic foam quick cleaner — that acts in a flash on upholstery rugs, curtains etc. for \$1. Ten Gallon Garbage Can for \$1.39. Half-gallon Wilbert's No-Rub Wax for \$1.29. Unfinished Bookcases — from \$7.95 to \$11.95 to paint as you like. Unpainted sidely table with bench priced \$6.95. Ironing pad and cover priced \$1.29. Sturdy yard clothes dryers priced at only \$10.95. Strongly constructed on steel posts to give years of outdoor service. All the above are to be found at EDWARDS' in their January Home Furnishing Event.

GOOD NEWS Yum, Yum — Chocolate pie — topped with REAL SEALTEST CREAM — whipped light as a feather — doesn't that sound good. That's what we had for dessert last Sunday — and did my family "lap it up." You know REAL SEALTEST CREAM is now available again — and let's hope to heaven its stays available. As for it keeping — this actually happened to me. I had carefully placed a pint of REAL SEALTEST CREAM in my refrigerator — we were out a couple of nights and I completely forgot about it. When I discovered it — it had been there exactly one week. It was perfectly sweet — and whipped perfectly — so don't tell me "you can't keep cream." BRIGHTON PLACE DAIRY — will deliver this REAL SEALTEST CREAM to your door — by simply calling Glenwood 144 — or buy from your nearest dealer. BRIGHTON P. L. & C. E. DAIRY asks me to remind you to PLEASE, PLEASE return empty bottles — there is a severe shortage — 45 Fulton Ave. — BRIGHTON PLACE DAIRY — (Division of General Ice Cream.)

Wiles was in high gear most of the way and seemed to be doing a typewritten page in about 49 seconds flat for resolutions without figures and 63 for those with. At the end of each of the first four resolutions, Mr. Averill popped up as though signaled via an electrically charged buzzer and said "I move the resolution be adopted," some one seconded and immediately "ayes" came from here and there. For variation on the next few Mr. Gordon Howe, majority leader and the GOP's sex appeal in pants, did the moving for adoption.

With the exception of the short resolution — designating genial Joe Boyle, legal adviser for the board (and it couldn't happen to a nicer guy) the rest of the motions were just so much greek about condemning lots for unpaid taxes, or selling those already seized, etc. But as the Mighty Mr. Moss opined this was all just a re-hash, the Republican majority had met a few nights before in caucus and the resolutions had all been thrashed out and decided upon — and even if the Democrats had been able to understand what it was all about their objections would have been easily over ruled. Mr. M. did say however in the previous meeting of the board the Democrats had indicated that they were to be a bit "thornish" and after the season was under way they were apt to be more voluble and critical of proceedings. The members of the various committees have not as yet been announced. The Republicans of course will do the announcing. Mr. Broderick will probably decide who goes where. The Republicans will get all the important posts on the important committees (such as finance, ways and means, and highways) — the Democrats will be put on the Committees in charge of planting gladioli in South Park or the Committee for the abandonment of the roller towel. At the close of the meeting, Mr. Wiles, still breathing a bit

Grab your Christmas check — and catch the next bus to CARTER HAT SHOP — located 636 MONROE AVE. — Open Eve.

ALICE A group of very very smart wearable dresses have been reduced at the ALICE DRESS SHOP. You know this shop is comparatively new — so there's shouldn't be any question of the type of merchandise on sale. The shop has become well known for fresh new dresses — all highly styled — and of superb quality. So why not take advantage of this timely sale. Included are pastels — the beloved blacks and browns — greens etc. As for price — let me assure you there are DRASTIC REDUCTIONS — to insure "room" for the new spring clothes — coming in soon. Alice Dress Shop also carries: BLOUSES — SWEATERS — lovely in themselves — Drop in and say "Hello!" 330 MONROE AVE. — corner Wilmer — Open Eve.

LOOK A new series of demonstrations has been planned by your R. G. & E. for the month of January and February. It is called "Entertaining for Everyone." Each demonstration will feature a different kind of party, giving you all the recipes and tips you need to make your party a success. The demonstrations are free, and are held in the HOME SERVICE auditorium at 89 East Ave. on Wednesday afternoons at 2 P. M. — and also Wednesday evening at 7:30 P. M. On January 8th — the subject will be "Luncheon and Supper Parties." On January 30th — the subject will be "Buffet Suppers." Doesn't that sound interesting — you know what a "headache" it is to plan for even the simplest of entertainings.

LLOYD'S "FLOWERS" f r o m LLOYD'S of course. Flowers as your messenger — send cheerful greetings to the sick — congratulations to the new Mother — comfort to the sorrowing — and express birthday and other occasions like nothing else. CANDY is also available at LLOYD'S

back to the wall and Ray Lee (the "Judge") from Perington a practicing attorney and friend, on my right, and Gus Muehlisen who's family is an old friend of our family and used to buy flour from my grandfather, on my left. Joe Boyle sat opposite me. The first two Republicans were for protection, and Joe because he is dieting and let me snatch his butter. Mr. Bausch introduced every one. There were new Republican supervisors as well as Democrats. There were no fights and both parties got along on the basis of a temporary truce. The food was good and so was the liquid preamble. The press behaved well too. They want to be invited again. Yep, the most interesting part of a supervisors' meeting is the luncheon afterwards.

At this time of the year your wardrobe is generally in the doldrums. So why not "perk it up" with a new frock from R I P T O N DRESSES. A new shipment of "Spun Rayons" in colorful prints have arrived in the modest sum of \$6.20 and up. COTTONS have also made their appearance — a sure sign of spring. These are also available in half sizes. The beloved BLACK is to be found — also in half-sizes. All adorable — all tailored to the usual RIPTON correctness. Of course there are plenty of regular sizes — and uniforms — priced attractively. R I P T O N DRESSES — 739 MONROE AVE. — Open Eve.

HALF PRICE SALE Would you like you like a REAL BARGAIN — you would lend an ear. There is a HALF-PRICE SALE at CARTER HAT SHOP. Now don't get the idea just 'cause they are half-priced — they aren't up to the usual Carter quality. They are — each and every one of them. BAGS are drastically reduced — including the famous Corday. You've seen those new FLOWERED HATS — nodding on the smart milady — Carter's have these also. In all color combinations. JEWELRY at Carter — include earrings — pins — bracelets priced \$1 and up. Ask to see the Seal Pins — in groups of three — also the Fish Pins in groups of three.

hard, stepped into the press box to invite us to the supervisor's luncheon at the Powers, as the guest of Mr. Bausch (when the press goes to lunch it's always on somebody). Mr. Wiles assured me that it was perfectly safe, he said in fact, that as soon as he got a few new cars in his Rush show room he intended to sell me one, and it would be silly for him to permit fellow Republicans to kill or maim a likely prospect. It's quite possible that Mr. Bausch also observed my tendency to squint when reading small type and considers me a fair potential for bi-focals.

With a stop in the lap room where Democrats and Republicans alike paused briefly to rub and bend elbows we adjourned to the ball room and roast beef. To be fairly safe, I sat with my

SALE DRASTIC REDUCTIONS on a special group of winter dresses — where at the "800" SHOP. Of course not all sizes in all styles are included, so my suggestion is make this shop your first stop. Of typical "800" SHOP quality: they will see you through many an occasion — and marked at substantial savings. Regular merchandise at the "800" is marked \$8.95 and up. MATERNITY DRESSES arrive daily — also marked \$8.95 and up. These maternity dresses are very nice — with gadgets sewed "in" for expansion purposes. Of course you must know by now — this shop is "Mores sponsored." Drop in and take advantage of the SALE — Located corner of Monroe & Canterbury — Open Eve.

Collection Boxes Readied
Coin collection boxes have
been distributed throughout the
county. Boxes and cards have
been sent to all schools through
a committee headed by Super-
intendent of Public Schools
James M. Spinning and the
Rev. Charles V. Boyle.

Half of the contributions will
remain with the Monroe
County Chapter and the other
half will go to the National
Foundation with offices in New
York City.

\$20,000 To U. of R.
The Monroe Chapter has dis-
bursed \$99,860.43 since Jan. 1,
1945, to Nov. 30, 1945. In order
to meet its expenses it was
necessary to have advances
from the National Foundation
amounting to \$70,000. The
grant for 1945 to the University
of Rochester School of Medi-
cine and Dentistry was \$20,000

You owe it to yourself to visit our new store and see for yourself what a really modern music and appliance store we have.

DEPEND ON COLUMBIA TO BE FIRST WITH THE FINEST

If you've been down Clinton Avenue South during the past seventeen days, you've undoubtedly blinked and rubbed your unbelieving eyes when, right at the corner of Johnson St., you saw a bright new store. But the store itself, probably didn't surprise you as much as the items you saw in the windows. There right before your eyes was a brand new 1946 model electric refrigerator. And a stove. Yes, a new radio too. Other items while perhaps just as tempting, were not quite so "out of this world" as the beautiful appliances you haven't seen around since shortly after Pearl Harbor.

You were gazing upon the new home of the Columbia Music and Appliance Store — a firm that in a few short years had grown from a small record shop to Rochester's most beautiful music and appliance store. Popular demand for Columbia service had brought the growth. And now that we have grown, we don't intend to stop giving you the things you've learned to expect from such a wide awake, friendly store.

Even though we have them in the windows, we're sorry, but you can't just walk in a say, "I want a refrigerator" and expect to get one to carry home. There just aren't that many around yet — but they're on their way. The same goes for radios. Our stocks haven't yet arrived — but we're looking for them any day. With stoves — it's a different story. We've got 'em—and we're selling them — every day—to satisfied, happy customers.

And so the story goes throughout the store. Many items we already have — the variety will amaze you (harmonicas are back, for instance, and they've been off our shelves for a long, long time.) Other items are on their way — and we've got the floor all swept and shined waiting for them.

We know you'll want to know about these appliances as soon as we do. So, to provide you with instant service the minute they arrive, we've provided a coupon on this page. Fill it out—tell us what you're interested in having and mail it in to us. Of course there is no obligation to buy anything at any time — but, with your coupon in our files — you can be sure that you'll be among the first to be informed of the availability of your appliance needs from a store that has made being "first" a cornerstone of its business.

SERVICE DEPT. TO HAVE DEMONSTRATIONS

A series of free demonstrations designed to help those with problems of home entertainment is announced by the Home Service Department of Rochester Gas and Electric Company, beginning January 18th and continuing through February 27th. The demonstrations will be given twice every Wednesday at 2:30 and 7:30 p. m. in the House Service Kitchen at 89 East Ave.

Home Service Director Irene Muntz. "With this in mind each demonstration has been planned to feature a different kind of party with all the recipes and suggestions needed to make a party success. Menus, table settings and entertainment ideas of many kinds will be demonstrated and discussed."

The schedule follows:
Jan. 18, Luncheon Parties;
Jan. 23, Buffet Suppers;
Jan. 30, Brunch and Bridge Parties;
Feb. 6, Children's Parties;
Feb. 13, Dinner Parties;
Feb. 20, Teas;
Feb. 27, Eats for the Teen-Age-Shindig.

OVER 100 MILLION BOTTLES SOLD—simply great for MONTHLY FEMALE PAIN

Do you suffer from monthly cramps, headache, backache, feel nervous, jittery, cranky, "on-edge," weak, tired—at such times—due to functional period disturbances?

Then try famous Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound does more than relieve such monthly pain. It also relieves accompanying tired, weak, nervous feelings—of such nature. The reason it's so effective is because it has a soothing effect on one of woman's most important organs.

Taken through the month—Pinkham's compound helps build up resistance against such symptoms. Thousands upon thousands of girls and women report remarkable benefits. Also a great stomachic tonic! All druggists.

Bank Announces New Three-Way Savings Plan

A three-way savings plan was announced this week by the Rochester Savings Bank to give depositors a combination of United States Savings Bonds, cash in the bank and Savings Bank Life Insurance for one regular deposit.

According to Edwin Allen Stebbins, president of the bank, the plan was designed for those who want a well-balanced savings program. Under the plan, small deposits build a steadily growing amount of U. S. Savings Bonds, a constantly increasing bank balance and a life insurance policy for protection. The plan is flexible and the bank is said to have worked out plans to fit every pocket-book.

TAXES . . .

(Continued From Page 1)

and hiked the snow cleaning costs in dollars with the result that the Rochester citizen has to pay out more money for city taxes even while he is being told there is a reduction.

"It would be bad enough," he concluded, "to have an increase at this time even if we had had efficient service and the kind of snow cleaning we have a right to expect, but all we got for our extra money was a repetition of inefficiency and carelessness which seems to be part and parcel of the Department of Public Works."

Increase City-Wide

A check of financial institutions who are large residential mortgage holders in the city showed that the increase was citywide—jumping anywhere from 35 to 50 percent.

'Higher Costs,' Says Cartwright.

City Manager Louis Cartwright attributed the increased cost to "higher wage rate for snow cleaners, higher rates to contractors, more repairs to equipment and the heavier snows of last year." Cartwright pointed out that last year's cost was nearer the five-year average than was the preceding year's.

But no explanation could make Rochester taxpayers believe they were getting a reduction when their tax bills called for more money than last year—before the "Republican Reduction" took effect.

Signs of Old-fashioned Hospitality

★ There's a quality about William Penn Whiskey that recalls the great days when men dined at quaint wayside inns and rolled their liquors critically on the tongue. ★ Actually, it's a genial, old-fashioned kind of goodness, both in flavor and fragrance, that one meets with too rarely in these hurried times, and that comes of great skill and long experience. Try William Penn . . . today.

Political Polka

By CURT GERLING

The political intelligentsia that may be encountered more often than not at the O'Brien Coca Cola Emporium on Exchange St. were up to their elbows in beverages and their ears in debate the other day. Fiorello La Guardia, known variously as the "Little Flower" and "the Hat," one time New York mayor, was under discussion.

The gent with the nasal twang opined that "Butch" (yeah they call him "Butch," too) could have been mayor again had he chosen to run. Whether or not it was a plot to deliver Father Knickerbocker back into the hands of big bad Tammany, and what the Democrats may have promised Mr. La G. for withdrawing took up the first two rounds. Mr. O'Dwyer's whopping plurality over his two opponents indicated not only how thoroughly New York City was back in Tammany's grip but how tough it's going to be for little Thomas Dewey to overcome a similar one when the New York machine starts to roll this fall. Thus far Mr. O'Dwyer has been masterful in allocating patronage to the right people.

Along about the time the house was able to collect for the first three rounds the little fellow with the broccoli on his vest ventured to say that "the Hat" had given up a mighty soft touch (at least according to local political standards) when he eschewed a yearly recompense of 25 G's, a house and a couple of cars for his mayoralty stint — to say nothing of free rides to fires, banquets, a baseball

N. Y. BANKERS TO HEAR CITY BUSINESSMEN

Folsom To Report On Europe; Finucane To Preside

Two Rochesterians prominent in local banking circles will participate in the mid-winter meeting of the New York State Bankers Association, scheduled for the Waldorf-Astoria hotel in New York City next Monday.

Bernard E. Finucane, president of the Security Trust Co., who is also president of the association will have charge of the commercial, savings, investment and industrial banks, which are expected to attract 1,200 representatives of the state's business sessions.

Marion B. Folsom, treasurer of Eastman Kodak Co. will speak on economic reconstruction in Europe at the group's morning session.

Principal speaker at the dinner which will climax the sessions will be Allan Spraul, president of the Federal Reserve Bank of New York.

Folsom, as staff director of the House of Representatives special committee on postwar economic policy and planning, recently accompanied seven members of that committee on a tour of inspection in eleven European countries, Iran and Egypt.

THE REV. WALTER FOERY
To Keynote Drive

CAMPAIGNERS PLAN SEMINARY DRIVE SENDOFF

Campaign workers from every parish in the Rochester Catholic Diocese are expected to attend the opening dinner on February 7 of the half-million dollar drive for a new St. Andrew's Preparatory Seminary.

The drive will be conducted from Feb. 7 to 22.

Chief speaker at the dinner, which will be held in the Chamber of Commerce will be the Rev. Walter A. Foery, Bishop of Syracuse and an alumnus of St. Andrew's.

Indications are that large delegations will be on hand from parishes in Geneva, Auburn, Corning and Elmira as well as the Rochester area.

The Syracuse Bishop was graduated from St. Andrew's in 1910 and ordained to the priesthood following completion of his studies at St. Bernard's in June 1916. He held pastorates at Mount Carmel and Holy Rosary.

VOLUNTEERS AID ENLISTED FOR PICKUP

Warm Clothing Sought For Victory Collection January 27

Sixty trucks contributed by various local organizations and manned by crews recruited from four local high schools will scour the city on Sunday, Jan. 27 to gather up Rochester's contributions in the nationwide Victory Clothing collection for overseas relief. Residents are asked to leave bundles of wearable clothing on their front porches.

All types of clothing and shoes are sought in the drive, but emphasis should be on warm, practical garments, according to William T. Nolan, chairman of the local committee. Durable shoes tied in pairs are welcomed but such items as flimsy dancing slippers are out. As Nolan says, "They're not doing much dancing in Europe this winter."

The collection in this area is already underway with churches, firehouses and Salvation Army headquarters on Exchange St. daily receiving bundles. The Jan. 27 pickup will climax the campaign here.

Dollars Join Dimes In Polio Fund Drive

TAKES OWN ADVICE—Not only did Mayor Dicker exhort the citizens of Rochester this week to join the "March of Dimes" by contributing to the polio fight fund drive, but on the opening day of the campaign he took his own advice—dropping his contribution into one of the three wishing wells located in the downtown area.

MAYOR CALLS ON CITY TO SUPPORT PARALYSIS FIGHT

The March of Dimes fund appeal of the National Foundation for Infantile Paralysis got off to a flying start this week with contributions reported from all sections of the city, county and state.

The drive had the official support of the city, with Mayor Samuel B. Dicker issuing a proclamation calling upon all citizens to "cooperate and participate in the fund-raising appeal for this worthy cause."

No Quota Set

Harry B. Crowley, county director of the drive, said that the amount of contributions to date had not been tabulated but they appeared "satisfactory." The chairman explained that, following a custom of past years, no quota had been set in the drive.

"We haven't set a quota," said Crowley, "our goal is simply to get every penny we can raise to carry on the vital work of the national foundation."

He added that half the funds raised in the campaign would be used right here in Monroe County with the University of Rochester receiving a large grant to carry on experimental work in the fight against the disease.

Wishing Wells Placed

Three wishing wells, under the direction of Fred Odenbach, have been placed in the downtown area and, according to reports, were returning "sizeable" contributions.

RED CROSS LISTS NUTRITION COURSE

Red Cross nutrition service is now taking registrations for a 20-hour nutrition course to begin at 1:30 p. m. next Tuesday. The class will meet each Tuesday for 10 weeks from 1:30 to 3:30 p. m. Mrs. George D. Greenwood, nutrition chairman said this week, that meal planning, new cookery methods and economical food buying will be stressed. Feeding the family for health, and also methods of following the doctor's orders in preparing food during illness will be taught.

Those interested may register by calling Nutrition Service, Main 7420.

TO MEET MONDAY

HALF SIZES! NEWS IN
TAILORED WHITE UNIFORMS

by White Swan

3.50

Something new has been added to your stand-by uniform! For the first time, White Swan tailors your favorite white poplin to half-size proportions. Just a bit fuller through the bust and hips, and a mite shorter. The smoother fit adds beautifully to your crisp picture of efficiency and spic-and-span grooming. Long-sleeved, with a trim set-in waistband, and grippers in the skirt. White only. Half-sizes.

Harper Method Shop

So you're dyed-bleached—your hair—well that's all right. But what about that permanent—you've been planning on. You can't just have ANY permanent when your hair has been treated with you know. So why consider a HARPER CO. D PERMANENT. They are ideal for dyed or bleached hair. This HARPER CO. D PERMANENT is also ideal for thin or difficult hair. You'll find after one of these permanents—your waves are soft—lustrous—long lasting. Your friends will admire and envy your smart appearance. Where to find this kind of permanent HARPER METHOD SHOP—located at 302 A Alexander St.—a few steps from East Ave. This shop is owned and operated by MRS. M. FISCHER—a graduate of Harper Method—as are all her operators. Skin treatments are a particular hobby with this shop—if you have any—consult them—also hand treatments—(Manicure to me) are delightful and helpful. Call them today for your appointment—Stone 2657—HARPER METHOD SHOP—302A Alexander St.—a few steps from East Ave.

DECORATING

You know there's nothing like a professional opinion—don't you agree? Did you know that EDWARDS—home planning—department help—and decorating problems are at your service—at no additional charge. Have you ever had the experience of a professional decorator coming into your home—and with no more "buying"—so even you wouldn't know it. This has happened to me—me who "thought" "she" knew something about decorating. It is really a revelation. At EDWARDS—who are headquarters for well known makers of Mattresses and box springs, you'll find a Mattress and Box Spring combination \$69.95 for both. They are Stearns and Foster's Century old tradition of quality in your price range. Mattress upholstered with cotton lacy felt—padded top and bottom with hair. Sagging prevented by pre-built borders and inner-roll topped edges. Side handles for easy turning. Covered in 3 ounce hairproof woven stripe ticking. Matching box springs with coil construction. Single or full sizes—Legs for box springs \$2.95 set. There are other MATTRESSES of comparable construction. For instance the IMPERIAL LUXURY MATTRESS for \$32.95. Produced by Stearns and Foster Upholstered with "insulo cushion" construction which guarantees an inner cushion of heavy layer felt which will not lump or shift. Covered with a durable heavy woven striped ticking. Single or full sizes. Another value at \$35.95—upholstered with better quality felt and then padded top and bottom with hair which guarantees a comfortable and stable mattress. Covered in an eight ounce hairproof ticking. Available in either single or full size. Another "buy" is the Famous Style A. Mattress \$39.50 another Stearns and Foster's most noteworthy production. Upholstered with white cotton felt—with the nationally advertised seat edge construction. Pre-Built and quilted with reinforced French-taped inner-roll edges. Covered in a high quality damask ticking. In a high quality damask ticking. Twin or double sizes at the same price. Remember EDWARDS—Fifth Floor—MATTRESSES.

GOOD NEWS

Let's hope it's here to stay—what—REAL SEALTEST CREAM—delivered from BRIGHTON PLACE DAIRY—45 Fulton Ave. And what cream—and what "keeping" qualities. It stays fresh for days on end. It whips to perfection—and tastes like the nectar of the Gods. It is so versatile—you can make almost any ordinary dessert and have it taste like a party dessert if topped by this delicious REAL SEALTEST CREAM. For instance—the lowly gingerbread—topped with whipped cream is a dish fit for even the most fussy of individuals—so why not place your order with BRIGHTON PLACE DAIRY—today—Call Glenwood 144—45 Fulton and your cream will be delivered promptly. Also BRIGHTON PLACE—ask me to remind you to please—please return your empty bottles at once—there is a severe shortage—deliver them to your nearest dealer or call BRIGHTON PLACE DAIRY—45 Fulton Ave.—Glenwood 144—(Division of GENERAL ICE CREAM.)

Food mixers

have been designed with an eye to compactness. Only eight inches high they have built-in power units with 12 speeds and the beaters are of double action type. The mixing bowls are of stainless steel. The same manufacturer is introducing a non-electric vacuum sweeper which draws power from a wheel contacting the floor. It weighs only 7½ pounds. Another item of interest is an electric flour sifter.

LLOYD'S FUNERAL WORK

—LLOYD'S FLORIST. It isn't the kind of buying we like—but it is the kind of buying that comes to all of us. **ARCTIC EXPLORER
TO LECTURE HERE**

The Rochester Museum As-
sociation will present Bob Bart-
lett, Dean of Arctic Explorers,
in a free illustrated lecture
"The Arctic in Color" at 8:15
p. m. next Tuesday, January
22, in the museum.

"Captain Bob" is known as
a great talker and winning
story teller. The natural color
film which he will use to il-
lustrate his talk in the museum
is rich in human interest, pre-
sents many shorts of Eskimo
life, as well as close-ups of
such wild animals as the wal-
rus, polar bears, and porpoises.
It was taken from the schooner
Effie M. Morrissey, aboard
which Bartlett made many ex-
peditions into the far north.

**'HOME FUN' TOPIC

Here's the One
THE FAMILY GOES FOR

All any youngster asks of food is that it taste good, and
that's where Maltex Cereal shines—children love its rich, nut-
like flavor and delicate, natural sweetness.

But mothers have an added reason for serving Maltex. This
two-grain cereal—Wheat, toasted and Barley, malted—is as
rich in wholesome nutrition as it is in delicious flavor. As you
watch your children eagerly eat their steaming bowlfuls right
down to the last, good spoonful, you can know they are storing
up the kind of nourishment they need to keep them strong and
healthy.

Is your family getting nourishment this easy, delightful way?
Get a box of Maltex Cereal, today—serve it to the whole
family. Adults, too, enjoy its hearty, different flavor.

Pain Quickly**

If you suffer from rheumatic arthritis or
sprain, try this simple, effective home
remedy that thousands are using. Get a pack-
age of Lifebuoy Soap, a few-week supply,
wash this with a quart of water, add the
juice of 4 lemons. It's easy. It's cheap. It's
safe. You need only 2 tablespoons
of the lemon juice. Other vitamin C prepa-
rations are sold, but they cost 40 cents a
bottle. If one bottle does not quickly relieve
the pain, get two bottles. Return the
empty package and Lifebuoy will send you
a 50-cent coupon to pay for your second pack-
age. A 10-cent money-back guarantee. Lifebuoy
is for sale and recommended by
the doctor everywhere.

G's would buy 54,876 drinks not counting tips, at the Pillars. "Butch" has been the best copy New York reporters have had since the days of dapper James Walker. They're sorry to see him go but they certainly can't condemn the ex-mayor for his departure. "Butch" is stepping out and into the big money and the 25 G's he used to get will look like very small change indeed.

Fiorello for only two broadcasts a week will receive the not trifling sum of 100,000 bucks. In addition he will do a stint for Marshall Field's PM; and at the moment is engaged in that task, dissecting and lambasting the editorial policy of the New York Daily News. He is also entitled to about 12 or 13 thousand as a pension from the city of New York. This, plus other little odds and ends, that may come his way, will elevate the take to around 150,000 per annum. Which is substantially more than the combined salaries of his successor Mr. O'Dwyer, Governor Dewey, Harry Truman and our own Sam Dickler.

"The Hor", apparently has something under it.

Governor Dewey made a speech before a group of contractors and builders recently. In commiserating with them on the shortage of materials he confessed that alterations to the McKinley bathroom in the Executive mansion were delayed because of the lack of a most necessary adjunct — a toilet seat.

A few days later the Governor received a stack of letters promising him that the need would be fulfilled, four others did even better — they each sent a toilet seat. Alterations to the McKinley bathroom went forward.

For decorative effect we might suggest that the extra seats be used to frame photos of various members of the Republican Old Guard.

There may be something to the rumor that the Police Department will toss a dinner for the editorial staff of The Sun as a reward for their campaign to get them more dough—which took form in a \$100 clothing allowance. Steaks?

Paul Lockwood asked by a at the Alfred University what degrees he held, said "MD, DD, and LLD." "What do the letters mean?" inquired the reporter. "Why, Mairzie Doates, Dosey Doates and Little Lamsie Divesy," quipped Lockwood.

That's a joke, son, a Republican Rascal dezzler.

Signs of Old-fashioned Hospitality

In days gone by, an inn sign was greeted with cheers and horn-blasts because it stood for genuine old-fashioned hospitality. And that's precisely what the name William Penn means today. You'll find it a mellow, fragrant whiskey, born of long experience. And its genial, old-fashioned goodness is the kind men relished before their inn fires long ago. Enjoy William Penn . . . soon. ED RANDALL'S
Scene & Word

We might just well start with a silly story, because it will creep into the column somewhere, so here goes. This dilly concerns the screwball who was seen rushing out of his burning house, carrying his cat under his arm. "Say," one of the firemen called to him, "is your wife out of the house?" "Nope," said the screwball. "Then why don't you get her out instead of the cat. You want her to burn to death?" "Oh, she won't burn," was the reply, "She's taking a shower."

Then there's the one about the pigeon that returned home in an exceedingly bedraggled condition. His feathers were ruffled and several of them were missing, one eye was blackened, and he really looked tough. His spouse cocked her wings on her hips, if pigeons have hips, and nastily remarked: "So! Drunk again, ha. You ought to be ashamed of yourself." The injured one pulled himself together and angrily retorted: "Drunk nothing. Here I am peacefully flying along and the first thing you know I'm mixed up in the damndest badminton game you ever saw."

The following classic remark is supposed to have been turned in by a schoolboy writing the answer to an anatomy test: "Your legs is what if you ain't got two pretty good ones you can't get to first base, and neither can your sister."

Maybe you've already heard about the little bee that was so very, very happy because it got a little bumble from Heaven.

Overheard at the Peacock Room bar: "I'm keeping a record of all the good times we've had together." "You are? I never knew you kept a diary." "I'm not, but I have stubs in my check book."

The young fond mother was shocked to learn that her little Jerome had told a lie. So she took the lad on her knee and tried graphically to point out to him the consequences of falsehood. "Now here's what happens, dear, to little boys who tell lies. A tall, black man with red fiery eyes and two sharp horns grabs little boys who don't tell the truth and he carries them off at night. He takes them to Mars, where they have to work in a dark canyon for 50 years. Now, you won't tell a lie again, will you?" "No, Mom," said Jerome cheerfully. "You can tell better ones."

ICY PEACH — Mae Ross, titian-haired beauty, is known as the greatest feminine interpretative skater on ice today. She will be featured in "Ice Follies" which comes to the Buffalo Memorial Auditorium on Jan. 30 for a five-day stand.

Political Polka

By CURT GERLING

The sons of lawyers who wish to follow in the footsteps of their parent are often told that "there isn't much in the practice of law, but it is loaded with business opportunities." They could have added "political opportunities" as many a bar rister augments his income from legal practice with political job holding.

This dual income system is not restricted to the legal profession, most minor political officials are obliged to have a "regular" business or they are unable to accept political office. The American idea seems to be that it is an "honor" to be a supervisor, councilman, state assemblyman or State senator. The emoluments of office are not paid in cash but in publicity, banquets, and being able to get Joe Smith a job on the ash gang. It's small wonder that many of our more alert citizens shun political office. The criticisms and uncertainties are too great for such a niggardly recompense.

We are well aware that there are a number of "angles" and extra curricular, undercover "takes" in politics but as many as there are, they usually go to those who pull the party strings rather than to the job holder.

Here in Rochester if you are a supervisor your salary is \$1200, if you are a councilman it's \$1500. The mayor receives \$2250. No one could get rich on that. These men have to have other income. We realize that these are part time jobs but when something goes wrong John Citizen wonders where his

GOP Shapes Fight For Roger's Seat

That the 40th congressional district embracing a majority of Rochester, will come in for a lot of attention when next fall's election rolls around was seen this week in word from the Republican National committee that this area was being surveyed by Republican leaders as "part of a national battleground of the polls in November."

Specifically, they have marked Rep. George F. Rogers for defeat.

But, say political observers, if local campaign managers keep the promise of Republican national committee leaders, Rogers can confidently renew the lease on his Washington apartment for another two years.

The Republicans are going to try to defeat Rogers on the basis of his voting record.

And that, according to Rogers, is okeh with him.

"It's almost funny," said Rogers from Washington this week, "how far the Republicans will go to prove the statements I made during the 1944 campaign. The very fact that the Republicans will try to defeat me on these votes bears out the criticism of Republican Senator Wayne Morse of Oregon that his party (Republican) was still controlled by the same old reactionary elements of the Herbert Hoover type."

"My record," continued Rogers, "speaks for itself. I have tried consistently to vote for the greatest good for the greatest number of people. I have voted the way the people of my district have wanted me to vote."

The national committee's statement pointed to these votes of Rogers as calling for his defeat.

To transfer food control from

OPA to the Agriculture Department, "no," to give small meat packers relief from OPA, "no," to give the Secretary of the Agriculture a veto on OPA food regulations, "no," to defer farm workers from the draft, "no," to kill an amendment barring the War Labor Board from action in farm labor disputes, "yes," to give either house the right to veto the President's reorganization of executive agencies, "no," to return employment service to state control, "no."

Voters in this area who had noted the announcement several days ago that the Secretary of Agriculture had proposed an 18 cents per pound increase in the cost of butter were more than ever grateful to Rogers for helping to kill the movement to take food controls out of the hands of OPA and give them to the man who had made that butter price hike proposal.

TO CELEBRATE OPENING

Locust Hill Country Club will celebrate the reopening of its newly redecorated dining room with a dinner dance on Saturday evening.

\$25 Winner

Mrs. Ethel Miller of 446 Tremont St., is the lucky winner of this week's \$25 cash prize, offered by the Sun, each week, for its sustaining subscribers. This is the reward Mrs. Miller gets for paying her Sun carrier, Philip Polizzi of 43 Olean St., 10 cents. Phil incidentally, collects an extra five dollar bonus.

POLIO FUND CAMPAIGN NEARS CLOSE

Accelerated Effort In 'March of Dimes' Urged By County Directors

As the fund-raising appeal of the Monroe County Chapter of the National Foundation for Infantile Paralysis went into its final week today Harry B. Crowley, county campaign director, and Mrs. Francis P. Beattie, head of the women's division, urged workers to accelerate their efforts to make the current drive the banner one in the history of the "March of Dimes" for this cause.

Crowley outlined the expenses of care and treatment that make poliomyelitis one of the costliest diseases known to medicine as he urged workers to make sure that everyone receives an opportunity to participate in the fight the disease. "Hospitalization for a single infantile paralysis patient costs more than \$2,500 a year," he said. "Iron lung cases, requiring special nursing attention 24 hours a day, may run to over \$7,000 a year. Some cases cost less, some much more, depending on the severity of the attack, hospital location and other factors."

"Few families," Crowley declared, "can meet the cost of extended poliomyelitis treatments. That is why the National

NATIONAL LEGION COMMANDER TO VISIT CITY

John H. Stelle, former Governor of Illinois and recently elected national commander of the American Legion will be greeted by local legionnaires at a welcoming dinner slated for Wednesday, Feb. 6, in the Powers Hotel.

Stelle will be making his first official visit to Rochester and the 40th district since his elevation to the post of commander.

Legionnaires from the eight counties in the district will gather at the dinner here to honor their national chief.

Monroe County Commander George G. Kingston in co-operation with Seventh District Commander Arthur A. Gates, has appointed George M. Clancy as general chairman of the event.

Lawyer, soldier, farmer, statesman and businessman, Stelle is said to be one of the most colorful personages to represent the national veterans' body ever to visit the city. Prior to his election he was chairman of the Legion's special committee which drafted the G. I. Bill of Rights for World War II veterans. He is given chief credit for steering the legislation successfully through Congress.

Area Quota Sought In Clothing Pickup

YES—AND NO—While the Victory Clothing Collection for Overseas Relief is anxious to get all the warm clothing and bedding possible there are some items that will be less than useful if donated in the drive. Mrs. Thomas Katsampes 626 Thurston Rd., donned some of the apparel already turned in at the Salvation Army headquarters on Exchange St. to show what is and what isn't wanted. She points to her openwork dance slippers as one "horrible example" of what cold and needy Europeans and Orientals will hardly appreciate. Her flimsy party dress, while pretty, is also useless to keep out the cold winds of winter. Meanwhile Maj. Alex Nicol, in charge of the Salvation Army's part in the drive looks approvingly at the fur coat which Mrs. Katsampes is wearing and which has been donated. Coats need not be of fur, but they should be warm and wearable. Blankets and other heavy bedding are also sought.

TO CELEBRATE BIRTHDAY OF ROBERT BURNS

The Clans MacNaughton will celebrate the 187th anniversary of the birth of Robert Burns, Scottish poet, with a concert and dance next Saturday at the Eagles Auditorium, N. Washington St. Executive chairman Francis Love reports that plans are nearing completion and a large crowd is expected. Highlight of the evening will be the appearance of Miss Mary Bonar, Scottish contralto, from New York. Local artists will also take part.

Following the concert dancing will be held with music furnished by Alf Monk's orchestra.

Tickets are in the hands of committee members or they may be obtained.

'FRONT PORCH' DRIVE SET FOR SUNDAY

400,000 Garments From Area Needed for Overseas Clothing Collection

While donations of clothing, bedding and shoes are being received at city and area collection depots, in steadily increasing quantities, hopes of reaching this area's quota in the Victory Clothing Collection for Overseas Relief rest on Sunday's scheduled city-wide front porch pickup.

According to William T. Nolan, local chairman of the campaign, 400,000 garments are needed before Feb. 1 to fill this area's quota in the nationwide campaign.

Sunday's collection will be made by a fleet of 70 trucks donated by local business organizations and manned by teams of students from four high schools. City residents who have not yet taken their donations to collection depots are asked to wrap bundles in paper or cardboard cartons and place them on their front porches not later than 8 a. m. Sunday.

In announcing details of the Sunday pick-up Nolan stated that all clothing collected will be shipped with all possible speed to the poverty-stricken people of Europe, the Philippines and the Far East. It will be distributed by the UNRRA.

ANIMALS FEATURED IN CHILDREN'S FILMS

Five movie shorts make up the program of free films for children to be shown in the Rochester Museum of Arts and Sciences at 10:30 a. m. Saturday.

Include are: "The Calico Dragon", a cartoon; "Zoo's Who" the social register of the animal kingdom filmed in a modern zoological garden; "Battle of the Centuries" with ants versus termites; "Crocodile Thrills" an adventure film, and "Little Bonamweight" in which a chick grows up to be a champ.

Vet Benefits Sought For Ex-GI Strikers

Pressure to bring unemployment benefits to striking ex-GI workers was being brought upon the state legislature this week as a result of the strike at the Delco plant of General Motors here.

According to Hugh Harley, international representative of the United Electrical and Machine Workers of America, the CIO union bargaining agent for Delco workers, a committee headed by Elwood Baker and Larry Howard, both veterans of World War II has been appointed to see what can be done to eliminate "this discrimination against veterans." He explains that under the terms of the present GI Bill of Rights, veterans can receive no unemployment benefits while out on strike. Other workers, by contrast, are eligible for benefits after being out for seven weeks, whether striking or just unemployed.

No production work can be undertaken by the company under terms of the agreement. One of the first tasks performed by the returned office workers was to prepare payrolls for the striking workers. Spokesmen for the company said that checks for the pay would be mailed to workers homes as soon as they were completed.

"Soup Kitchen" Donated

With the strike entering its eighth day tomorrow, plans have been made for the continuation of the "soup kitchen" established by the union, according to local representatives of U. E. The kitchen was established last week in a restaurant at 411 Lyell Ave., when the owner offered use of the premises for the pay hike.

It will come in the form of checks to be mailed to the workers home for back pay due them when they walked out last Friday morning to enforce their demands for the pay hike.

Would you believe that sewing machine needles sold for as much as \$25, American money, in Korea during the Japanese occupation? Well, they did.

A delightful salad for children is one made of celery and carrot sticks and tomato wedges served with a bowl of mayonnaise. Kiddies love the "dunking".

Increased amounts of beef and pork on the market have good effects on other products, too. More tallow will eventually mean more soap fats. Corn that doesn't have to feed these animals will result in corn oil for food and corn syrup for candy production.

KAY'S COMMENTS by kay shearer

Carousel! Let's make a date for SUNDAY—JANUARY 27th. It will be another banner evening at the EASTMAN THEATRE. And rightly so, 'cause JOHN RAITT—male star of the reigning hit "CAROUSEL"—will appear as soloist with the Civic Orchestra. Of course you know that Carousel is the hit of New York. It's the brain-child of the Theatre Guild; remember—they produced that great musical "Oklahoma." Those arm-chair generalists said "They can't do it again!" but they did—and how!—in their current success "Carousel." It is based on the Moinar play "Lilium." The same "crack" was made about getting together the same excellent cast—that made "Oklahoma." But here also the Theatre Guild managed that too. And one of the chief reasons was Raitt, hitherto unknown, who came to Broadway unheralded—but who scored an unqualified triumph. So call your friends today—and make your date for this coming SUNDAY—January 27th—at EASTMAN THEATRE. Our own Guy Fraser Harrison will conduct the program.

Wait 'til you've seen the new spring prints at RIPTON DRESSES. They are adorable—and are just what the Doctor ordered to spruce up your winter wardrobe. Come in half-sizes and colors that you'll love. Priced at \$12.95—they are a REAL VALUE. The styles are becoming and they are perfectly "scaled" for the woman who wears half-sizes. Another half-size "line" is also available at RIPTON DRESSES. These frocks are priced \$8.30. Of course regular and junior sizes are to be found at this popular shop. Located 739 MONROE AVE. Open Eve.

Making its bow at exactly the moment when you are looking for a new fresh note in mother—are two new COLOR NOTES by REV-LON. First my favorite called "HILDEGARDE ROSE." It's not pink—not red—but a sparkling new champagne personality color. A pink gold rose that only Hildegarde herself could inspire. The lipstick is smartly cased—with matching nail-polish. The other COLOR NOTE is called Revlon's new "TOR-TOISE SHELL" sort of burnish-rod russet in nail enamel, lipstick and face powder to harmonize. Ask for these products at your favorite cosmetic counter after February 1st.

LOOK "Home service" at R. G. & E. extended their sincere apologies to you who missed their Home Service Demonstration last Wednesday because they didn't have space to take care of all of you. The large auditorium when these demonstrations were scheduled to be held was not completed—but has since been finished. This means there will be plenty of room for everyone and everyone will be comfortable. These demonstrations are called "Entertaining for Everyone." It looks as though they are going to be very popular so why not plan to attend. Every Wednesday at 2 P.M. and also every Wednesday evening at 7:30 P.M. at ROCHESTER GAS & ELECTRIC—89 East Ave.

SALE It's CLEARANCE TIME at ALICE DRESS SHOP. And what a clearance—drastic reduction—for your benefit. Smart wearable merchandise to keep you that well-dressed woman that you are. You'll find patterns—blacks—browns—greens etc. in this hand-picked collection. All styles—all of typical ALICE DRESS SHOP quality—and as I said before DRASTIC REDUCTIONS. So "make tracks" for the ALICE DRESS SHOP—located at 630 MONROE AVE—corner Wilmer. Open Eve. Blouses and Sweaters are also "stocked" at this popular friendly little shop. Priced very reasonably.

Here are a few JANUARY VALUES from EDWARDS GIFT SHOP. Novel Felt Bowls—ideal for a modern room with Victorian overtones. For the center of your dining room or to accent your end tables. Bowls are pretty pastel green—filled with colorful berries and assorted fruits. Priced at \$2.50—the larger size \$3.50. Bent Glass Hostess Trays designed by Peter Hunt. Unusually lovely they are decorated with the quaint, old-fashioned primitive designs that Peter Hunt has revived. The fantastic "horse motif" is outlined in "pastel yellow." The chop plate is very very smart, priced at \$4.25. Novel Tidi—Bite tray of this lovely bent glass, naive design in delicately blended colors priced at \$3.90. The large Hors d'Oeuvres tray will win compliments for the hospitable and charming hostess priced at \$6.98. A Two-Tier Tidi—Bite tray with a silver like handle priced at \$6.50. Back again at EDWARDS are the 10-oz. Crystal Clear Pilchers. Ideal gift suggestion or for yourself. Priced 39c each. Penetray Infrared lamp to give quick temporary relief from aches and pains. Simply plug it in your light socket. Dried hair after shampoo and has many different applications. Priced at \$1.60. Another useful item is the one-burner electric stove. Cord attached—has a black enamel base—takes 660 watts. Either A. C. or D. C. Ideal for a small apartment or furnished room. Priced \$3.99. You know how hard DOWN FEATHER PILLOWS are to find. Well EDWARDS have them, filled with 25% down and 75% waterfowl feathers, covered with blue and white striped linen finish ticking. Makes sleeping really enjoyable. Priced at \$9.94 each. Two piece Bath Mat set in a assortment of colors priced at \$4.99.

Boot Mills Printed Toweling in gaily printed designs on this famous sturdy absorbent toweling 17" wide. Can be used for kitchen curtains and placemats as well as towels. Priced 39c per yard. Also CANNON DISH TOWELS to make dish drying easy. Smart multi-colored stripes. Liberal size priced 24c. Remember all these remarkable values are to be found at EDWARDS.

SALE How they do it—I don't know—but wait till you see the group of dresses marked at only \$3.95 at the "800" SHOP. They are wonderful. Of course there aren't "many" but at this price—what do you expect. So get there "early" and take advantage of this remarkable CLEARANCE SALE. Rest "stock" at the "800" SHOP is marked \$6.95 and up. MATERNITY DRESSES arrive daily—to make your selection easier. They are smart and becoming—and gals you know at this trying time—if you're "well-dressed" it helps to keep you happier—with no curdling of social engagements. So drop in and say "hello" to those friendly people at the "800" SHOP—Located corner Monroe and Canterbury—Open Eve. Mornings sponsored—this shop—you should know—that's what I keep telling you.

You're going to have to do without heavy meat courses—but you won't miss it—when you "finish up" your meal with a really delicious dessert. And what is a dessert without REAL SEALTEST WHIPPED CREAM from BRIGHTON PLACE DAIRY. Even the economical "bread pudding" is wonderful with a "gob" of whipped cream heaped over it. I tried that on my family last week and they loved it. REAL SEALTEST CREAM is available in both half-pint and pint size. The pint is the "best buy" and it will "keep." Call BRIGHTON PLACE DAIRY—Glenwood 144—and have this REAL SEALTEST CREAM delivered to your home—or buy it at your dealer—but be sure to ask for REAL SEALTEST CREAM. BRIGHTON PLACE asks me to remind you to please return your empty milk bottles—there is a severe shortage. BRIGHTON PLACE DAIRY—48 Fulton Ave. Glenwood 144.

Decrees of Fashion

Harbored in practically every clothes closet in this country are a few wardrobe skeletons in the form of out-moded or hastily bought and unbecoming garments that are still wearable and can now serve a useful life again as part of the Victory Clothing Collection for Overseas Relief. Millions of war victims consider just such clothing in terms of sheer protection, with no thought of style.

Depots have been set up in every community to relieve all donations during January. Climatic conditions throughout the many war-devastated countries of the world vary so greatly that usable clothes of all weights and degrees of warmth are needed. Success of the immense collection project can be assured if each person followed the practice of Patrice Munsel who makes a special point to make requests and spread information regarding locations of collection depots, plus giving the simple helpful suggestions of tying donated shoes together in pairs and fastening complete suits or dresses firmly together. Patrice also gave her contribution of a suit a personal touch by inserting in the pocket a cheery greeting to the unknown recipient.

String gloves, once confined to sports wear because of their coarse weaves, now are appearing for street wear in delicately fine workmanship and yarn. Hand-crocheted shorties that should appeal to every woman who washes her own gloves are the white nylon sets worn by CBS actress Elizabeth Reller who tells us they shed soil with minimum lathering effort and dry in practically no time. A peep at the label shows they're one of the new Aris glove creations.

Warmth without bulk has been attained in a wool stole which Edith Arnold of the "F.B.I. In Peace and War" cast resigned to wear over light radio weight dresses or atop her silk blouse and skirt costumes. The stole is a rectangular piece of tweed suiting, measuring 54 inches in length and 20 inches in width. The sides are turned back with 1 1/2 inch hems and the lower edge of front and back panels are merely fringed, a simple unraveling of the fabric for 1 1/2 inches. The front panel is slit half way up—27 inches—and cut 3 1/2 inches side-wise to each shoulder to the neck opening. A four-inch facing finishes the front opening while the back of the neck takes a facing of 1 1/2 inches. Edith nips in the straight stole with a tight, wide belt. Clarifying the procedure, Edith explains it's like sitting a Mexican poncho up the front in order to don or doff without disturbing the coilure.

ALHAMBRA TO HONOR RETIRING OFFICERS

A testimonial dinner for retiring Grand Commander George A. Conway and other retiring officers of the Alhambra, will be held at Powers Hotel next Thursday at 6:30 p. m.

Others to be honored are Scribe of the Exchequer Clarence M. Lofink, Grand Chamberlain William J. Woerner and Historiographer William A. Zweigle.

National officers will attend. Supreme Scribe Alfred J. Peters of Baltimore having accepted an invitation sent out by Supreme Vizier Norman A. O'Brien of Rochester, chairman of the dinner.

Grand Commander Conway has served two terms, Lofink and Woerner six years in their respective offices and Zweigle, two terms.

Vice Grand Commander Elmer J. Bloomer will preside in the absence out of the city of Grand Commander Lewis J. Zwierein.

AIRLINE APPOINTS AREA DIRECTOR

Appointment of Colonel Richard E. Fell, a key figure in wartime operations of the Air Transport Command and for 18 years a leader in aviation, as eastern regional vice-president of Pennsylvania-Central Airlines, was announced this week by PCA President C. Bedell Monro.

Fell will direct all PCA activities in New York, Baltimore, Washington, Pittsburgh, Clarksburg, Wheeling, Morgantown, Youngtown, Erie, Buffalo, Rochester, Elmira, Corning, Williamsport, and Harrisburg. He is one of three PCA regional vice-presidents filling posts recently created by this airline in decentralizing its operations to conform with its postwar expansion program. He will maintain offices in New York.

Nothing Personal

San Francisco. — A major was assigned a room by the Army-Navy Hotel Bureau. When another major was sent to share the room he phoned to be changed. The bureau told him that he could move into the street if he didn't like his room but apologized when he told them that the other major was a WAC.

BROADWAY STAR TO SING WITH CIVIC SUNDAY

John Raitt, who has risen from an obscure singer to a Broadway sensation in less than four years will give Rochesterians their first opportunity to hear him in person when he comes to the Eastman Theater on Sunday evening as soloist with the Civic orchestra.

Raitt is the male star of the reigning Broadway hit, "Carousel," and has been acclaimed by critics as the equal of any star in the companion production of "Oklahoma."

His athletic figure and robust voice make for a swaggering performance in the role of "Carousel's" leading character, Billy Bigelow.

Raitt's singing ability came to general public attention when he had the lead role in a "Barber of Seville" production on the coast in 1942. He has appeared in several motion pictures. After that he was engaged to sing the role of "Curly" in the Chicago company of "Oklahoma."

When the Theater Guild decided to produce "Carousel," they turned to Raitt as their leading man. He earned applause as one of the most important new singing actors on the New York stage.

He will sing several operatic arias in addition to some of the hit songs from his show.

YOUTH HOSTEL DANCE SCHEDULED TOMORROW

Another of the square dances sponsored by the Rochester Council of American Youth Hostels will take place tomorrow evening from 8:30 to 11:30 in Gannett House on Cortland St. Bill Kern will call for the square sets, and his orchestra will play.

Daan Zwick, chairman of the event, is being assisted by the Misses Laura Daense, Beatrice Shumaker, June Zimmer, and Betsy Phillips.

Weather permitting, the hostellers will ski this Sunday, at Durand-Eastman Park. They will meet at the entrance to the park at 2:30 p. m. Prospective skiers are advised to take the Sea Breeze via Peart bus to the entrance of the park, where they will be picked up and taken to the ski run. Those planning to join in the event are asked to phone reservations to Monroe 1210.

EAGLES EXTEND
MEMBER DRIVE
THROUGH MARCH

Renewed efforts to obtain
new members to the Rochester
Aerie, Fraternal Order of Eagles
were being made this week as
Joseph L. Wurzer, president of
the local lodge announced de-
tails of a prize contest between
series of Massachusetts and
New York.

Because of the contest the
"New York State Goes For-
ward" drive will be extended
through March, according to
Wurzer.

In their first initiation of
members brought in through
the drive, the local group will
induct approximately 200 mem-
bers. Ceremonies have been set
for next Sunday in Eagles' Hall,
and will be conducted by the
Lodge officers and degree
team.

District Director Paul Ayres
will deliver the principal
address.

Following the initiation, the
four team captains who have
served during January will be
feted at a dinner in the lodge's
Rainbow room. New members
will be guests of the lodge.

business and social meeting.

Dance Teachers To Gather Sunday

Members of the Western
New York Council of Dancing
Masters will gather in the city
Sunday for a one-day dance
congress, arranged by Miss
Gladys D. Bliss, newly elected
president of the group.
The session will be held in
Odenbach's Peacock Room.
Plans have been made to

have George Chaffee of New
York City, instruct in ballet
dancing. Chaffee is a member
of the Russian ballet, former
premier dancer in the Fokine
Ballet and soloist at the Me-
tropolitan. The faculty will also
include Fred LeQuorne of New
York, who will instruct in the
new trends in social dancing.

MUSEUM PLANS
SUNDAY MOVIE BILL

Two films from far and

"Karakatoa" shows the active
submarine volcano located in
the Indian Ocean. It is con-
sidered more deadly and specu-
lar than any other volcano
in existence.

"Grass" tells the story of the
semi-annual migration of the
Baktyari tribe in Persia, trek-
king with their flocks and
herds of 500,000 head for a
month and a half over streams,
rivers, barren wastes and
snow-capped mountains in search
of food.

ED RANDALL'S Scene & Word

Lunching at the Liederkrantz one noon last week, the discussion at our table turned to a comparison of Hemlock water with that of Ontario. One of the boys said he could notice no difference in the taste, that Ontario water would sometimes be cloudy in the glass but tasted all right when the cloudiness settled. Another of the group was a staunch Hemlock water supporter. He insisted he would drink no other water, that Ontario water didn't taste good, etc., etc. Finally, one of the lunchers was moved to tell a story of what happened in one small town on the subject of drinking water. It seems that a very inquisitive woman took up residence in this certain town. She made a pest of herself asking questions about the town and it finally came to a point where the townspeople would avoid her whenever possible. One day, however, she cornered one of members of the town board and proceeded to heckle him with a flood of questions. "Now, listen, Mr. Smith," she said, "are you sure that the sewage system here is in good working condition? Isn't it possible that some pollution comes from the river? Is our drinking water pure? Smith replied: "Don't worry about the drinking water, Mrs. Jones. It's absolutely pure. First we filter it, then we take the iron out of it, then we add chemicals to it, and then we drink beer."

Frank (Five Pin) Spiegel says the trouble with people who drink like fishes is that they don't drink the same thing fishes drink.

No, junior, a sewer didn't break at the corner of East Avenue and Chestnut Street. That large stagnant pool of water you saw was just the overflow from the tears of the audience watching The Bells of St. Mary's.

Overheard at the Royal Palm bar: "By the way, Joe, is your wife as pretty as she used to be?" "Oh, yes, but it takes her quite a bit longer."

Then there is the quip that Marshall Field relates about the automobile executive at the board meeting who argued against a big advertising appropriation. He said it wouldn't be necessary to advertise people needed new cars, wanted them badly, and would be lined up for years to buy cars anyway. "Sure," said the advertising manager, "but in whose line?"

Definition of an optimist: A man who comes home to find the ashtrays in his house littered with cigar butts and says: "Thank God, my wife's finally

gives up smoking cigarettes."

Ed Wolff, advertising tycoon, tells about the lecturer who told his audience that the world would probably come to an end in seven billion years. "How long did you say?" came a frightened voice from the audience. "Seven billion years," repeated the lecturer in a firm voice. "Thank God," said the voice. "I thought for a moment you had said seven million!"

Laffs from Life

On Second Thought
They had a slight difference of opinion, and he acknowledged his error quite generously by saying: "You are right and I am wrong, as you generally are. Good-by, dear—and he hurried off to catch his train."
— So nice of him to put it like that! — she said to herself.
And then — well, then she began to think about it.

paid hands were at the time, for John C. thinks that they should be on the job all the time.
Without further ado just let's say that if John Citizen would pay his help more, maybe he'd get better government, attract higher types and have his office holders a little more alert to his problems.
Let's look at the top full time jobs:
At the moment the County of Monroe is a \$708,000,000 corporation, it has an income of about \$9,000,000 (taxes), yet the president of this corporation County Manager Smith gets \$10,000, his take home to the family pay is somewhat less. Ditto City Manager Cartwright, who handles and disburses about \$16,000,000 each year, he too receives \$10,000 for the task and responsibility. That's his gross pay, it's subject to withholding taxes, retirement deductions, insurance, hospitalization, etc. His take home pay shrivels up just like John Citizen's.

To many who draw substantially less than \$10,000 each year this may seem like a very nice salary and in dollars and cents, it may be, however as a comparative it is not. Salaries paid to business executives for similar responsibilities are more apt to be five to ten times as great. The vice president in charge of filling big new towns in a big baking corporation receives \$15,000 and an assistant in charge of filling the same cookie gets \$9,000. Many an executive in Rochester whose firm does as little as \$150,000 per annum draws \$10,000 or better.

Back in the late twenties when Stephen Story became Rochester's first city manager he received \$20,000 per year and paid no income tax. In depression days when it was imperative as well as fashionable to cut salaries the post suffered along with the rest. Increased living costs and responsibilities have been ignored and no increase has been granted or apparently considered.

We hope that we have convinced the idea that few, at least among these parts, will ever get rich holding political office and if there is occasional political "shenanigans" on contracts and public works the taxpayer is probably as much to blame as anyone else. First of all he doesn't seem to pay what the jobs are worth, and he doesn't use his ballot to vote "shenanigans" offenders out of office.

With all the talk about higher living costs (and it isn't all talk) and the epidemic of strikes, maybe it's time the boss in the coat house and city hall start to picky the home of John Q. Citizen.

Hattie Lutz the Court House "Quiz Kid" can answer most any question put to her. No one has been mean enough to ask her the unanswerable yet— "where in the place can I find efficiency?"
Probably out to lunch.

Walter Ryan who supervises the 7th Ward for the Republican party in spite of all the Salome boys did to prevent it, was called to task the other day by brother supervisors concerning a rough and tumble and a minor knife. Said Walter, "Don't be too snug boys. We solve the murders in the 7th—and I've got plenty of votes doing time. Which is considerably more than Brigham, Pittsford and the blue stocking wards can say."

In fact Walter you might say "No other word can make that statement!"

FOREIGN AIR EXPRESS OFFERED LOCAL FIRMS

International air express and air freight service will be available to local shippers under the recently announced inauguration of combined facilities of the American Airlines System and the Railway Express Agency, V. L. Garrett, local REA General Agent, stated this week.
Under the already effective agreement, Rochester, as one of the 23,000 express points in the United States, will offer through two-way service to and from all cities on American Airlines' foreign and overseas routes, Garrett said.

Simplified procedures, Garrett added, have been set up in the larger, international airport cities such as Washington, Philadelphia, New York, Chicago, Detroit, Dallas, Ft. Worth, San Antonio and El Paso. At these points international shipments will be cleared two ways, he stated and shipments from Rochester will probably be coordinated through New York.
Thus, Garrett pointed out, Railway Express Agency's pick-up and delivery service and coordinated air and rail transportation is combined with the international routes of American Airlines with simplified handling and waybillings for local shippers with an eye to international trade.

INSTALLMENT BUYING BOOM SEEN FOR NATION

Installment purchasing is in for a boom, according to an article in Today's Woman magazine for February. Now that the government order which froze installment buying during the war is less stringent, the author of the article predicts a coming installment spree which will make 1940, when one out of every ten dollars was spent on consumer goods was spent via the installment plan, look like a depression year.

If you are thinking of buying on installments, the article suggests you take this checklist along:

1. Keep your head; installment buying mortgages your future.
2. Installment buying is emergency buying.
3. It is most useful when applied to durable goods.
4. It always costs more than cash buying.
5. Know your dealer.
6. Read what you sign.
7. Consider other sources of credit.

TRADE OLD CLOTHES FOR NEW FRIENDS!

**WHAT CAN YOU SPARE
THAT HE CAN WEAR?**

● Clothing that you may consider old can bring new life to some suffering family to whom war brought years of despair and utter destitution.

Bring them new life . . . and bring America new friends!

Goal of the Victory Clothing Collection is 100,000,000 garments, plus shoes and bedding. If your contribution seems negligible, bear this in mind: Every garment you give means one more human being saved from cold or sickness or possibly death. Your spare clothing will be distributed free, without discrimination, to victims of Nazi and Jap oppression in Europe, the Philippines, and the Far East.

Dig into your attics, trunks, and closets today . . . dig out all the clothing you can spare . . . take it to your local collection depot now. If you doubt the need for it overseas, ask the boys who've been there!

What YOU Can Do!

- 1 Get together all the clothing you can spare.
- 2 Take it to your local collection depot immediately.
- 3 Volunteer some spare time to your local committee.

Declarer that "when Delco workers don't work neither do I." Joseph Polito, proprietor of the restaurant invited the workers to use his premises without charge. Four former cooks, along with two helpers were rounded up from within the union's membership and put to work furnishing fuel for pickets "boilers." Meals are served pickets throughout the day.

Present plans of the union call for mass picketing by the entire membership each morning between 7 and 9 a. m. Thereafter during the day, pickets work in two-hour shifts.

Union Seeks New Members

In a drive to augment the union's membership, an organizational committee has been set up and is contacting the 280 reported non-union members affected by the strike. According to union spokesmen 45 have already been signed. The union is said to have approximately 950 of the 1180 production employees on its rolls.

The local union is marking time in its strike here while negotiations are carried on between national headquarters and the corporations affected by the strike which include General Motors and Westinghouse Electric Co.

Strikers receive no financial strike benefits, "because," said Harley, "with 200 thousand members you'd need a million dollars a day to pay strikers." But he did admit that he and other union officials were continuing to receive their regular pay even during the strike. He explained that they, in turn, returned 20 percent of their salaries back to the union and added that he contemplated contributing his entire salary to the effort in the near future.

(Continued From Page 1)
Foundation and its chapters throughout the country are pledged to see that no victim of infantile paralysis goes without treatment for lack of funds, regardless of age, race, creed or color.

"Infantile paralysis attacked nearly 14,000 persons in the United States in 1945, making it the fourth worst polio year on record. Infantile paralysis incidence the past three years exceeded that of any previous five-year period on record.

"The National Foundation and its local chapters throughout the country disbursed more than \$6,500,000 in 1945 for the treatment of polio. Over \$1,500,000 was advanced to local chapters by the national organization in emergency epidemic aid during the past twelve months.

"In addition, the National Foundation has set aside more than \$3,000,000 in the past 17 months for educational purpose and for scientific research in poliomyelitis covering virus studies, prevention and treatment after-effects, public health, and nutrition as related to susceptibility."

CITY AROUSED AS MAYOR SCORNS HOUSING AID

Shuns Mass Meet, Snubs Committee

BY ORVILLE ALLEN

While the question of proper housing for any of its citizens and any housing for many of them, occupied most of Rochester this week, one segment of the population appeared to be untouched by the acute shortage of homes in this area.

To date the Republican city administration's only contribution to the problem's solution was an insulting snub of a mass meeting of interested citizens called at Convention Hall last Friday evening to discuss the problem, and the throwing of a large bucket of cold water on the efforts of a committee charged with the duty of forcing the administration to act.

Didn't Attend—Won't Act

The city fathers didn't even show up, much less participate in the mass meeting sponsored by the area's two Republican and only daily newspapers. And when the committee, headed by Mrs. Harper Sibley called on Mayor Samuel B. Dicker at his City Hall office on Monday they were informed by that august leader that not only was there no need for a citizens' committee, but that nothing could be done in regard to long-range building "until materials are available."

Other Cities Building

Meanwhile reports reached Rochester that such cities as Newark, N. J., had already started work on 3,500 living units, Salt Lake City had 1000 started, Baltimore 1000 units, Denver 2000 units and Los Angeles had 10,000 new units started with 47,000 living units in various stages of construction. Whether or not these cities had citizens' committees was not revealed, but it was certain that somehow, somewhere, someone had found building materials and refused to believe that "nothing could be done."

One fact had emerged crystal clear from Friday's Convention hall forum—the people wanted a public housing authority in Rochester. And they wanted one appointed pronto!

Public Housing Wanted

But here again they were stumped in their efforts by a "do-nothing" city administration and its leader, Mayor Dicker is reported to have "held to his previously expressed views on the inadvisability of public housing."

How far the unhoused public's temper could be stretched was a matter for much speculation in Rochester this week. But adequate and immediate housing was still the big problem. And regardless of the Mayor's continual hold on his views, the public at long last realized its need for a public housing project.

Prophetic Democrats

That's what the Democrats and the Better Housing Association had been telling the city right along. But the city hadn't believed it until now—when it was too late to immediately help those in immediate need.

The same city administration which was not now interested enough in the people's problem to officially attend a meeting dealing with that problem had, suavely answered "private enterprise can do the job" every time it was proposed that Rochester join the other cities of the nation in procuring state or federal funds to alleviate its housing shortage.

Most, but not all, of the people had forgotten earlier attempts to get beyond the talking stage in providing adequate housing. Among those who remembered were the ones who had worked hardest, though unsuccessfully, to make those in control of the city see the desperate need before it arose for sufficient housing to take care of returning war veterans, their wives and their families, as well as those members of Rochester's citizenry who were and are living in substandard dwellings.

Silverstein Tried It

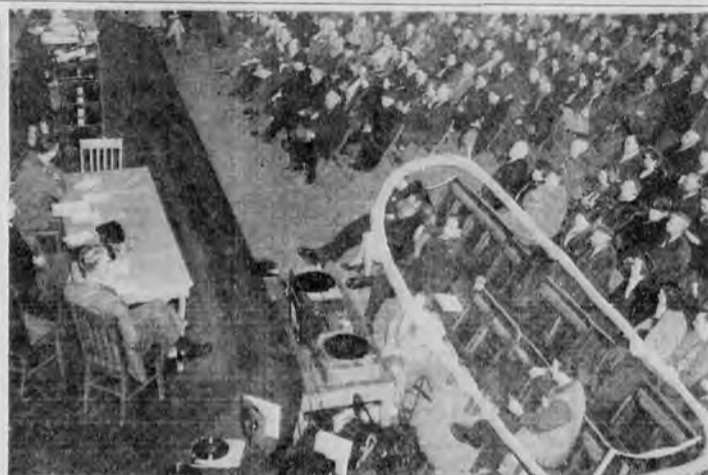

There was Joseph E. Silverstein, for instance. How well he remembered his attempts to get the city council to consider the proposal that a public housing authority be created here. That was back in 1940. But the council turned down Silverstein's plea. You see, Silverstein was a Democrat.

And this week as the people began to recall other attempts to give them what they would surely need, the finger they had used to pull the voting machine levers last November began to itch and burn. Yes, they had voted the Republicans back into office. They had given an OK to the same gang which had let them down before—and since—and were now proving that they could and probably would let them down again.

\$25 Winner

Mrs. H. Richter of 111 Northview Terr., is the lucky winner of this week's \$25 cash prize, offered by the Sun each week to its sustaining subscribers. This is the reward Mrs. Richter gets for paying her Sun carrier, Carol Ann Winterkorn of 256 Avenue B, 19 cents. Carol Ann incidentally, collects an extra five dollar bonus.

(See HOUSING Page 2)

ABSENCE DOESN'T MAKE THE HEART GROW FONDER—More eloquent than a thousand words in telling how the present city administration feels about the local housing situation is revealed in this photo of Convention Hall during last Friday evening's mass meeting. The two rows of vacant chairs (circled) were reserved for the Mayor and other city officials. That's why they're so empty—the city fathers didn't even bother to show up!

Political Polka

By CURT GERLING

Several prominent Rochesterians who in the past had contributed generously, if foolishly, to the Republican war chest each year were in the words of one, "shocked," at the disinterest displayed by the city's elected officials in the Friday night mass meeting to help solve the housing problem. "Disinterest" is hardly the word. They just weren't there—and as far as being interested, we can assure you that their interest is purely platonic and conversational.

The Republicans locally are great believers in sweeping dust under the city hall rugs and they intend to treat the housing problem in much the same way. The dust is there but if they don't see it it doesn't bother them.

The GOP has mighty good reason to follow this technique and line of reasoning. They have had a couple of snow storms which caused them to fall on their political pusses; a spending scandal; a water pollution scandal; a high tax rate headache (for the citizens); poor garbage and ash collection and a host of other indications that they are not the best group in the world to run our city or handle our money. But no matter how much noise the taxpayer and voter made, no matter how great his clamor or indignation, the temporary

HALF MILLION GOAL SET BY RED CROSS

Campaign Here To Open March 1; Hargrave Again Heads Drive

Even though "Your Red Cross Must Carry On" during peacetime as well as in war days, the Rochester Chapter of the American Red Cross is going to try to get along during the year on a little less than half the money they asked for last year.

Quota in the campaign which is scheduled for March 1 to 18 has been set at \$354,000. Last year the chapter sought \$1,232,000 and that sum was oversubscribed. But that doesn't mean campaigners expect easy sledding in their efforts to fulfill the quota. Last year there was a war on—both in Germany and Japan. And day after day the homefront was given continually mounting evidence of the outstanding work done by the Red Cross in battle areas.

Fear Lethargy

Now that phase of the work is over. There aren't any more battlefields. And along with it, has come a lull on the home front. Campaigners will be fighting against lethargy when they set out to round up the dollars needed by the Red Cross to carry on its war and peacetime work. Yes, the war emergency still exists for the Red Cross even though the

Dewey Ave. Site Chosen For St. Andrews Seminary

Decision to locate the new \$500,000 St. Andrew's Preparatory Seminary in Dewey Ave. just north of Winchester St., was announced today by Bishop James E. Kearney. The site, now owned by the Holy Sepulchre Cemetery Association, will be deeded and construction work will start as soon as building materials become available, the bishop said.

Selection of the site comes on the eve of a diamond jubilee campaign to raise the necessary funds for the new structure. The drive opens with a dinner at the Chamber of Commerce

OPTICAL WORKERS GET WAGE HIKE

Workers at the Art-Craft Optical Co. had fatter pay envelopes today as the result of a wage increase announced by Bert DeChau, official of the local company manufacturing spectacle frames and mountings.

According to DeChau, the raise, effective yesterday, gives workers increases totaling 16 per cent since V-J Day. Also announced by the firm was an expansion program which will increase the floor space by about one-third in the firm's building at Allen St. and Plymouth Ave.

HOME FINANCE
LOAN PLANS**

The Dime Banking and Loan Association, officers at 941 Clinton Avenue North, in its 59th annual report stated it enjoyed the most prosperous year in its history.

Fred W. Erath, chairman of the public relations committee, predicted that as soon as the bottleneck in the housing situation is broken the association would have a larger period inasmuch as the association is ready to finance future home building.

The association at its recent annual meeting reelected officers as follow: President, Edward F. Mayer; vice-president, Fred Erath; treasurer, Frank J. Hilberer; secretary, Eugene H. Wolf; directors, August E. Gefell, William Ludwig and Michael Reinhardt; attorney, Henry H. Wicks.

Mayer was reelected for his 24th term. The financial statement shows assets of \$2,062,255.54 including \$300,000 in U. S. Government bonds. Saving shareholders received dividends at 2 per cent.

**PLAN CARD PARTY AT
SS. PETER AND PAUL'S**

A card party to raise funds for improving the church hall will be held at SS Peter and Paul's Church Hall on Thursday evening, Feb. 21. It will be sponsored by the Women's Sodality of the Immaculate Heart of Mary.

Mrs. William E. Burdick, general chairman, will be assisted by a large committee.

**GERMANIA CHAPTER

HAIL AND FAREWELL—More than 100 employees of the Lincoln Store gathered Tuesday to honor both their new and retiring managers. Burt Goss (left) took over the reins of the store Monday while Arthur W. Kane (right) has been advanced to the Syracuse unit of the chain. Goss came to the city from Norwich, Conn., where he managed the Lincoln Store for 11 years.

**Don't Flunk-You'll
Get Indigestion**

So sure is the Nutrition Service of the Red Cross that they can teach women to cook—they're going to prove it—or have a lot of indigestion on their hands.

In a course designed to aid servicemen's wives and young homemakers the Red Cross has announced plans for a series of classes from 11 a. m. to 2 p. m. for eight Thursdays starting next week. The pupils will learn the preparation and serving of foods and then test their teaching by eating the luncheons they prepare. No doubts as to their aptitude will be left in their minds (or should we say stomachs?).

Those interested may register by calling Nutrition Service, Main 7420.

**CHILDREN'S, ADULTS
MOVIES ARRANGED
FOR MUSEUM**

The Rochester Museum of Arts and Sciences has scheduled the following five film shorts in its free program for children on Saturday at 10:30 a. m.

"Africa Squeaks" a Flip the Frog cartoon; "Yosemite", the four seasons depicted in this national park; "A Day at the Zoo" in which every type of animal is seen; "Sky Riders", the history of aviation from the Wright Brothers to the Flying Fortresses; and "Jack Frost" a cartoon in which OLD MAN WINTER catches a run-away bear cub.

On Sunday at 3 p. m. the Museum will show two films free to the public.

"The Perfect Tribute", based on a story by Mary Shipman Andrews, reveals the spirit of Abraham Lincoln and his attitude toward the South.

**65 LIVES SAVED
BY INHALATOR
CREWS IN 1945**

Sixty-five persons were snatched from death during 1945 through efforts of inhalator crews of the Rochester Gas and Electric Co. who responded to 134 calls for help during the year. In 40 of the other 69 cases the victim was dead when the rescue crews arrived. The other 29 victims of shock had already revived and required no resuscitation efforts.

Most common cause of trouble was poisoning from carbon monoxide, coal gas and illuminating gas. Other cases included drownings, heart attacks, ammonia and fertilizer fumes, convulsions, strangulations, smoke and suffocation.

The resuscitation service was started by the company several years ago for use of its employees. It was later extended to cover the entire community.

**24th WARD DEMOCRATS
FETE NEW MEMBERS**

Several new members were welcomed into the 24th Ward Democratic Social Club at a meeting held last Saturday at 85 Fairgate St. Plans for a membership campaign were discussed. It was also announced that the next meeting of the group would be held on Feb. 16 at 1193 Lyell Ave.

**DANCE PROGRAM
PLANNED AT CHURCH**

A program of round and Squire dances will be held in Epiphany Church Hall on Jefferson Ave. on Feb. 18.

**ED RANDALL'S
Scene & Word**

With a bow to Royal Crown Cola we open the festivities this week with a "pome" entitled: "LIQUOR LENGTHENS LIFE."
The horse and mule live 30 years and never get wise to liquor and beers.
The goat and sheep at 20 die and never taste of Scotch and Rye.
The cows drink water by the ton and at 18 are mostly done.
The dog at 15 cashes in without the aid of rum or gin.
The cat is milk and water soaked and than at 12 short years it croaks.
The modest, sober, bone-dry

hen lays eggs for nogs, then dies at 10.
All animals are strictly dry, they sinless live and swiftly die.
But sinful, ginful, rum-soaked men survive for threescore years and ten."

Overheard in the Glass Bar:
"I'm going to marry a sailor and rear admirals."

Larry Berghash, the Clinton Avenue beverage dispenser recently returned from occupation duties in Germany, tells the story about a GI in his outfit. This lad was outstanding in many ways, but mostly in the matter of clothes. He was strictly a tropical worsted kid, shoulder stripes, pleats, hand-made patches and chevrons. Quite a fashion plate, in other words. While in Paris, this Beau Brummel had met a pretty French girl, fallen in love and married her. In time, she went to the States to live with the guy's parents until he could return. Knowing his fatal weakness, the girl made him promise that he would tone down his wardrobe until they could be together again. For a couple of months after his ever-loving wife left for the States the lonesome GI was a model of deportment, but eventually the glamour of Paris became too much to withstand and one evening he decided that no harm could befall him if he got out just once and tossed his feet around. So, he put on his sharpest uniform and set out to find some soft lights and sweet music. As he strolled down one of the

COME ON—BREAK IT UP By JAMES

brightly-lighted streets he happened to put his hand into a trouser pocket. Discovering a piece of paper there, neatly folded, he drew it out. There, in his wife's handwriting were these words: "Oh, you're all dressed up tonight! Why?"
Here's the weekly silly story. This one concerns a chap who was walking down the street carrying a beautiful cat. A stranger asked him how much he wanted for the cat and was told, "\$100,000." The prospective purchaser laughed in scorn and forget all about the incident until he met the same guy again a week later. Asking about the precious cat, he was informed that it had been disposed of. "For how much?" asked the stranger. "For \$100,000." "Cash?" queried the skeptic. "No, not cash," conceded the other. "But I got two \$50,000 cats in exchange."

Political Polka

By CURT GERLING

At Friday's meeting of the "bored" of supervisors, slightly lickered, impeccably clad Gordon Howe, the GOP Grecian majority leader finally got around to blaming the shortage of housing on the Democrats. What took him so long nobody knows! If the Republicans fall on their pusses in the solution of any problem it's either God or the Democrats who are to blame. Some think that the GOPers were undecided whether to call the housing fiasco an "Act of God" or tie it in with the butter shortage.

The gorgeous Gordon condemned Congressman Rogers for not getting the GOP the building materials, then he and his thirty-four club members voted down a resolution advanced by Democratic Supervisor Beckler calling on the council to set up a housing authority.

WOODY HERMAN AND JIM DENNIS SIGNED FOR BALL

Dance fans in Rochester will have special reason for looking forward to the Police Benefit Ball this year, for Woody Herman, one of the nation's top band leaders, will fill the spotlight on the bandstand.

Deputy Chief George Steinmiller who announced that Herman's Band had been signed for the big event, guaranteed music to suit all kinds and ages of dance lovers who are expected to crowd the Main Street.

Much Talk, Little Action City's Answer To Housing Shortage

CONGRESSMAN REPLIES TO ACCUSERS

Neatly dumping the blame for Rochester's housing shortage right back into the lap of the mayor, but promising to help however he could, Congressman George F. Rogers this week made public his reply to Mayor Samuel B. Dicker's letter addressed to him last week.

Seeking to trap the congressman, Mayor Dicker had asked Rogers' help in procuring critically needed materials with which to build homes in Rochester.

And while Rogers promised to take whatever steps he could which would help in easing the critical housing situation in Rochester, he coupled his promise of aid with a verbal spanking for the mayor and the present Republican administration in general for the current mess.

Sees Authority Need
Rogers reiterated his belief, stated last fall and shared by Democrats here who have been trying to force the project since 1939, that only a Public Housing Authority could meet the needs of returning servicemen. He pointed out that he had repeatedly stated that Rochester should long since have had a Public Housing Authority.

(See ROGERS Page 5)

DUE FOR SURPRISE—When this quartet of energetic builders learns that materials are "unavailable" for houses, they're going to get a distinct shock. Somehow or another they are building very real homes with very real materials. Maybe they haven't had time to "talk" about the situation. That's why they are able to produce action. Already started on a 75-home project, plans for several others are rapidly taking shape. Shown directing operations on their Midland Ave. project are four officials of The Rochester Development Corporation who refuse to believe that "nothing can be done" about the housing situation. They are: Arthur L. Gifford, in charge of sales, William Sproul, construction superintendent; Don Woods, president; and Robert Hartman, vice-president. Returning GIs will have first crack at the homes when they are completed.

POLITICIANS FIDDLE WHILE PEOPLE BURN

The local housing situation, as might have been expected, had degenerated into a battle of words this week as the politicians again moved in on a serious situation, trying to make political capital out of the returning veterans and others miserably due to lack of decent place to live.

Seeks Rogers Help
Mayor Dicker, who last week had added only confusion to the situation by saying that "nothing could now be done" this week had changed his mind. In addition to giving out several statements to the press, he posed for some pictures and finally got down to business by going to Congressman George F. Rogers to seek his advice and help in solving the heretofore unsolved housing problem in Rochester.

And while Congressman Rogers was recalling his earlier efforts to help Dicker out of a bad spot he promised to take all possible steps to help ease the critical situation in Rochester.

Of course the Republicans were blaming the Democrats in general and Congressman Rogers.

Division Leaders Named For Civic Music Fund Drive

Plans for the 17th annual maintenance fund campaign of the Civic Music Association to keep Rochester "America's most musical city" were nearing completion this week with the naming of men's and women's division leaders for the 10-day drive opening Feb. 15.

Goal of this year's appeal has been set at \$86,000 according to L. Dudley Field, president of the association. The amount represents a slight increase over the mark set last year, but is still about \$2,000 below the actual sum raised by campaigners in 1945.

To head the men's division, Edward R. Farrow, Jr., chairman of the campaign, has named Frank M. Huston, who will be serving in that capacity for the fifth straight year. Mrs. F. Hawley Ward, named

Furniture Stores Retain Monday Evening Hours
Because they believe that many people still like to shop in the evening, particularly for home furnishings, Rochester's downtown furniture stores will continue their Monday evening hours.

While most retail stores will revert to their pre-war schedules next week, eliminating the Monday evening shopping hours, furniture stores will remain open until 9 p. m.

CONCERT SET BY EASTMAN SCHOOL BAND

The 126 piece Eastman School Symphony Band, Frederick Fennell, conductor, will be presented in concert next Saturday evening in the Eastman Theatre.

Fennell has returned this year as conductor of the organization which he founded ten years ago. During the past two years he has been National USO music adviser and was active in the organization of musical assemblies for the spare time enjoyment of musicians in the service. While in California he conducted several concerts with the Service Symphony which won acclaim from the thousands who heard them. Press comment on his concerts here this season has heaped further praise on the brilliant young conductor.

At Saturday's concert band will present Arthur Schoep as baritone soloist singing the part of Wotan in the two excerpts from Wagner's Music Drama "Die Walkure" . . . the "farewell of Wotan to Brunnhilde and the music of the Magic Fire Scene." Another feature will be an uncut performance of Moussorgsky's popular suite "Pictures At An Exhibition." Other works to be heard are Rossini's Overture to "Semiramide" and Wagner's Elsa's Procession To The Cathedral from "Loengrin".

LINCOLN ROCHESTER TRUST COMPANY

HOUSING...

(Continued From Page 1) gers in particular for the city's housing dilemma.

Where Is Wadsworth

But Gus Q. Citizen wasn't too much concerned by the battle of words. He was still looking for a place to hang his hat. He wanted a home and he realized that talk, statements and press interviews would be very unlikely to get him one. He was, it is true, a bit curious as to whether Congressman Rogers had voluntarily taken over the task of caring for all Rochester or whether west side citizens would receive no help in the housing shortage. Dimly aware that Congr. James Wadsworth was supposed to be more or less represent a large segment of the city, Gus Citizen wondered where he had hidden, what he was doing, and why the Republicans were not heaping blame on his head as well as on Rogers.

Big Business Accused

Roy Bush, bat in hand, came up swinging for another inning in the wordy battle with a statement about one of the local Democrats pet projects. He said he was for a public housing project, had always been for one and predicted that sooner or later even Rochester would demand one loud enough to be heard in the Union Trust Bldg. headquarters of the county GOP. Bush also knew right where to place the blame for the previous lack of a housing authority here. He hadn't changed his mind on his charges last fall that "big business" was stopping such a project in the city.

During the 1945 campaign Bush had leveled such a charge. And at that time he had pointed to an official of the Better Housing Association, Inc., for corroboration.

"If you don't believe me," said Bush, "you can check that with Mrs. Jones." Mrs. Jones was then and still is president of the better housing group.

Queried as to who was against a public housing authority in this area, Mrs. Jones told a Sun reporter, "Nobody is against it except the Citizens' Tax League, the Rochester Real Estate Board, the banks and the Republican government in general."

It was evident to the public this week that the same groups were still against the most important move toward adequate housing.

Yet, as the battle of adjectives rushed on no one had yet

UNWELCOME SERENADE

BY JAMES

Some Swap

Beloit, Wis. — Unable to find a white dress shirt in local shops, Sam Meister advertised that he would swap a pint of whiskey for one. He got the white shirt, with offers to spare.

Too Little Too Late

But, it was pointed out, waiting until January 1946 to begin to think about housing was what had created the havoc. Back in 1940 when Joseph Silverstein offered a resolution to the City Council proposing the creation of a public housing authority he had been hooted down. He was told then that such a thing was not needed in Rochester. The year before Democratic members of the County Board of Supervisors had made a similar proposal only to meet with loud "no's."

Now the Republicans were trying to blame their old time adversaries for the city's plight. But it wasn't setting well with Rochester.

The city still wanted houses. It needed houses and was becoming more restless, more fed up with "much talk" and more determined to act with each passing day.

Perhaps Congressman Rogers could find solution and help the city administration out of the hole it had itself dug.

The people of Rochester hoped so.

AREA DISTRIBUTORS NAMED BY DISTILLERY

Ontario Liquor Distributors have been appointed Rochester area distributors for Schenley Products, according to Frank O'Brien of the distributing firm. The firm is also selling agent for DuBouché Cordials, Cresta Blanca and Roma Wines plus a line of imports.

Associated with O'Brien in the new firm are Art Muhs, Phil Weintraub and Dave Shestak, all well-known to the liquor trade in Rochester and surrounding area.

ROSARY SOCIETY PLANS CARD PARTY

A card party, sponsored by the Rosary Society of St. Augustine's Church will be held on Friday evening, Feb. 15 at 8 p. m. in the school hall on Chili Ave. Mrs. John Hoag has been named honorary chairman with Mrs. William R. Sullivan as general chairman.

Other committee chairmen include: Miss Mary Dowling, Mrs. Chester McCann, Mrs. George Kleisley, Mrs. James Kavanagh, Mrs. Leonard O'Connell, Miss Ruth Newell and Mrs. Edward Quigley.

Lemons will yield more juice if you steep them in hot water, a few minutes before squeezing.

EAGLES BREAK STATE MEMBERSHIP RECORDS

All state records for new memberships were broken last Sunday by the Rochester Aerie, Fraternal Order of Eagles when they initiated 207 men, in a class honoring State Organizer Michael T. Gaffney.

Participating in the day's events were officers of the Lockport lodge headed by Paul Ayres, also delegations from Batavia, Auburn and Syracuse. State officers of the lodge who were guests here included State Secretary Charles G. Maraldo of Staten Island, and Vice President George O'Neil of Elmira.

QUINTUPLETS CHEST COLDS

Always rely on this great rub for chest colds. To relieve Coughs—Aching Muscles. At the first sign of a cold—the Quintuplets' chest, throat and back are immediately rubbed with Musterole. Musterole instantly starts to relieve coughs, sore throat and aching muscles of colds. It actually helps break up painful local congestion. Makes breathing easier. Great for grown-ups, too!

Does the Atom Bomb Explain Bible Miracles?

According to Edwin J. Dingle, world-renowned geographer, honored by leading geographical societies, the power of the atom as disclosed in the atom bomb is small compared with little known and seldom used powers of the human brain. He maintains that man, instead of being limited by an average man power mind, has within him the mind power of a thousand men or more, as well as the energy power of the universe, which can be used in his daily affairs.

According to him, this sleeping giant of mind-power, when awakened, can make man capable of surprising accomplishments. It is as amazing as the atom bomb is compared with former sources of energy. Many thousands of people throughout the world have already tried his methods. Many report improvement in power, in mind, achievement of brilliant business and professional success. Others report improvement in health, increased strength, courage, poise or energy, or a more magnetic personality.

He tells how he found these strange methods in far off and mysterious Tibet, often called the land of miracles by the few travelers permitted to visit it. Here, he discloses, he learned rare wisdom and long hidden practices, closely guarded for three thousand years by the sages, which enabled many to perform amazing feats. These immense powers, he maintains, are latent in all of us, and methods for using them are now simplified so that they can be used by almost any person with ordinary intelligence.

As part of a great movement to make his methods available to more people, a 9000-word treatise is offered absolutely free for the time being. It reveals many startling results. Readers of this announcement can get their free copy by sending a post card or letter to the Institute of Mentalphysics, 213 S. Hobart Blvd., Dept. #W-335, Los Angeles 4, Calif. Readers are urged to write promptly, because this offer may be withdrawn at any time.

Signs of Old-fashioned Hospitality

There's a quality about William Penn Whiskey that recalls the great days when men dined at quaint wayside inns and rolled their liquors critically on the tongue. ★ Actually, it's a genial, old-fashioned kind of goodness, both in flavor and fragrance, that one meets with too rarely in these hurried times, and that comes of great skill and long experience. Rochesterians Named On N.Y. Citizens Committee

Three Rochesterians have been named directors of the Citizens Committee on the Courts, Inc. of New York City, a group formed "to promote, foster and improve the administration of justice by methods designed to preserve the integrity of the Bench and the Bar."
Local directors are Carl S. Hallauer, of the Bausch & Lomb Co.; T. Carl Nixon and Charles S. Wilcox, attorneys. Others who are active locally in the group are labor representatives Anthony Capone, president of the Central Trades and Labor Council AFL; John Cooper, Rochester chairman of Amalgamated Clothing Workers CIO; Julian Loos, secretary Allied Printing Trades Council AFL; William F. Strang, president of the Chamber of Commerce; and Roland F. Woodward, member of the New York State Board of Regents.

The committee is pressing for the adoption of the Williamson-Reoux joint resolution for a Constitutional amendment to provide machinery for removal and retirement of judges to replace the present impeachment process.
Samuel Seabury, president of the committee, has declared that the proposed judicial tribunal would function with more efficiency and greater fairness than the present system. He emphasized that under the resolution the independence of the judiciary is preserved

HEALTH RESORT OFFERS GI FREE TREATMENTS

Free treatment for veterans suffering from nervous and digestive disorders as the result of their war experiences is the offer made by Bernard MacFadden's Physical Culture Hotel at Dansville.
The offer is contained in the March issue of P. C.'s Health Review, official organ of the health resort. Other items in the current issue are an account of Bernarr MacFadden's talks with the late General Patton written by MacFadden himself, and a description of the Genesee Valley countryside surrounding Dansville, home of the health resort.
Personal experiences of several patients at the resort are also contained in the magazine.

PAUL CHAPTER, O.E.S. TO HAVE CARD PARTY

TOMMY DORSEY BAND COMING TO ARENA

Rochester readers of The Saturday Evening Post who read of the battling Dorsey brothers in last week's issue will have an opportunity to meet half of the famous duo when brother Tommy brings his band, his sentimental trombone and his soloists, to the Sports Arena Friday, Feb. 15.

Coming with the Dorsey aggregation is Stuart Foster and Charlie Shavers, soloists known as "The Sentimentalists."

Tickets for the Dorsey dance are on sale at Levis Music Stores and will be available at the Arena box office on the night of the affair.

ED RANDALL'S Scene & Word

The other day I attended a most impressive ceremony. It wasn't exactly an invitation affair nor was it a command performance, but all the pomp and circumstances of a Hollywood opening surrounded the fete. The waiting crowd stood with bated breath before a massive iron gate stretching from floor to ceiling. People had been gathering for some time and one could sense the atmosphere of expectancy that gripped everyone in the growing throng. As the sweeping minute hand on the large gilt clock approached the magic hour, the suspense grew and grew and the tension of the crowd stretched almost to the breaking point. Finally an audible sigh went up from the multitude as a man in uniform approached the gate. With a dignified and imperious gesture, the uniformed one gave the signal that all had awaited so impatiently, the bronze barriers swung wide and . . . the Lincoln-Rochester Main Office was open for another day's business.

While watching Spellbound at Loew's one evening last week, (how that Randall gets around) a couple seated in our aisle were carrying on a very animated conversation. Now, this is strictly not kosher because Spellbound deals with psychoanalysis or something, and to properly enjoy and understand the picture requires strict silence and attention, someone told me. However, the aforementioned couple were not so much enraptured in the action on the screen as they were in their own affairs and as I said before were chewing the fat with each other to the extreme discomfort of people in their immediate surroundings. Finally, and at long last, one guy sitting in the aisle ahead of the verbose couple reached the limit of his patience, turned in his seat and said, in a nasty tone of voice: "Pardon me, but we can't hear a word." The male half of the monologue team re-

torted: "So what? Is it any of your business what I tell my wife?" Such nice people attend the movies here.

You can park for an hour on a downtown street.
You can gaze a cake when the sun starts to heat.
Candy bars full of iron, chewing gum by the pack,
and at Woolworth's, "most anything that you may lack."
All of these for a nickel, and all good value, too.
But, misgiving, why a nickel for the DC and T.U.

Then there is the unverified tale about the fashionable party given on the East Side a week or so ago which was attended by a very mixed crowd. Among those present were clergymen, professional men and plain citizens, all gathered at the invitation of their hostess, a woman with one purpose in life, to establish herself as a good and generous person. After a lavish dinner the guests disposed themselves about the spacious house. Some of them selected foursomes for bridge, some played gin, and it is said that a small and select crap game got underway in the Butier's pantry. However, in the living room sat a stern and staid clergyman, gazing with disapproving eyes at a group of young people who had started the record player and were jitterbugging like all get-out in the center of the room. Finally, he rose from his overstuffed chair and approached one of the more active babes. "Young lady," he thundered, "some day you are going to die and when your time comes, do you think St. Peter will let you in if he detects the odor of tobacco on your breath?" The jittering damsel removed the cigarette from her lips, blew a cloud of smoke in the general direction of Heaven, and said: "Listen, pop, when I go to Heaven I expect to leave my breath behind."

Good manners does not require any person to acquiesce in unreasonable conduct.

ROGERS ...
(Continued From Page 1)
making use of available federal funds.
Rogers again tried to make it clear to Mayor Dicker that the housing situation should have caused concern years ago when materials were available and when houses could have easily been built. Even he admitted it was now too late to get a sufficient supply of immediate housing.
Rogers letter to Dicker is as follows:
I have, as you know, made every endeavor to assist you in procuring such materials. Needless to add, the demand for such materials is widespread and they must as a matter of fairness, be allotted to the various localities.
With reference to my radio talks and my other criticism of the way housing has been handled in Rochester, you seem to overlook the critical point. I have repeatedly stated that Rochester should long since have had a Public Housing Authority making use of available federal funds for Public Housing projects. Only such projects, in my judgment, could at this time meet the needs of returning servicemen — large numbers of whom are family men. Their prospective earnings at this time are such that six, eight or ten thousand dollar homes are of little use to them.
I note from the press that a large group of Rochester citizens recognizing the complete failure of the City Administration to accomplish anything, has held mass meetings. These citizens have decided to take matters into their own hands. I notice too, that one of their principal demands is for public housing which you, representing the City Administration, have again repudiated.
Believe me, Mr. Mayor, I am, as I have said before, prepared to take any steps whatever which will help in easing the critical housing situation in Rochester. I shall again make the rounds to the various agencies here in the endeavor to get you home help. I should think by now, however, that your Administration would be convinced that private building costs are prohibitive for most servicemen and other low-income groups, even if the cost of lots is nominal. I should think that by now you would listen to the voice of the people, apparently heard by the Republican Governor of our State, and admit that your Administration was short-sighted in not having adopted Public Housing long ago. Certainly, there is no excuse now for persisting in your opposition.
After I have contacted the various agencies, I shall again be pleased to communicate with you. I wish to repeat that my criticism of your attitude on Public Housing has no bearing whatsoever on my desire to assist you in any type of housing which will help Rochester.

thority and to apply for state and federal housing aids.
It would seem that they didn't want the aid that Congressman Rogers could give them anyway. Federal housing aids must come through federal channels and that's how Mr. Rogers can provide it.

Although most Rochesterians have learned to take the announcements of the daily press with several large grains of salt. They do consider "All skating rinks open" entirely without political significance and hence reliable. Even the incredulous residents of the 18th Ward thought they could believe it this time — although they have been fooled before. Saturday night the youngsters flocked to the rink at No. 11 School playground to find just as they had twice before this winter — that there was ice — but the skating house was closed tight. Indignant parents kept Mr. McFarlin's innovation — the Republican information and complaint bureau — busy most the night.

They even got Councilman Kreckman on one end of a heated conversation. Mr. Kreckman being just re-elected and a Republican naturally didn't have any reasons or excuses as to why — he couldn't blame it on those hired to supervise the rink and house — they just forgot to show up — and they're Republicans too.

You may have read that if you don't want to sell your business you're quite apt to get conked on the noggin with the carpenter's best friend — the hammer.
This highly fictionalized report on the part of the proprietor thus assailed you must admit smells slightly like a decayed dolphin.
It's hard to believe that any regular cigar store in Rochester is worth anything more than the inventory of fixtures, the Nu-way cigar store included — unless there are certain extracurricular lines added to cigars, cigarettes, the sale of the Ladies Home Journal and the Racing Form.
Most of Rochester's reading public smell more than the red herring drawn across the facts of the story — they smell a little grey mouse.

We note that enrollment figures again show a Republican three-to-one enrollment. This year there are 111,240 Republicans on the books for political and protective reasons. As usual at voting time everyone will wonder how the Democrats poll double and sometimes nearly triple their own registration — this year 31,199.

Brighton supervisor, Roy Draper, paragon of efficiency, is firm but gentle with indignant taxpayers who complain about unplowed roads and walks. At the behest of High-

way Superintendent George Klem the supervisor spent a blustery night or two with the snow gang. Roy knows now just about what the boys can do with what they have — and he realizes that round the clock snow fighting isn't a picnic.

Another snow-fighting supervisor, Harry Barham Jr. He passes up many a friendly poker game to ride the plow. "It's good for the figure but hell on the disposition," opines Harry.

Political Polka

By CURT GERLING

Fog that whitish vapor that bedevils the seaman and has ruined more Cape Cod picnics than the ant family, might be more aptly described by Col. Stoopnagle as "Fog" — that in which the Rochester City Fathers are in a constant mental state of. Whether this fog which springs from the mental processes of our local government is intended to spread throughout the minds of the electorate is not definitely known but is generally suspected. It would seem that the local brain trust would like to have the citizenry just as confused as it is.

You will recall that one of the first news accounts stated that temporary structures inspected by our officials to relieve the housing shortage were turned down flatly as "unsuitable." Then when the shouting of the homeless and near homeless gained in pitch, the "boys" took another gander at a second Latch and decided they were just "jim dandy." Of course they were exactly the same type of house as the others. You will also recall the mayor was pretty "uppity" with the Citizens Committee. Since, he has discovered that perhaps he has offended a lot of the right

AREA METHODIST YOUTH TO RALLY HERE SATURDAY

Youth of the 84 Methodist Churches of the Rochester district will conduct a Methodist Youth Crusading for Christ rally in Grace Methodist Church on Driving Park Ave. Saturday evening to climax a series of rallies conducted by the denomination in Rochester and five area towns. In addition to members of local churches, representatives from the six sub districts centered in Fairport, Albion, Brockport, and Tonawanda will be present.

This Dog Leads Musician's Life

Many musicians claim that they live a dog's life, but few dogs can claim leading the life of a musician. "Freckles," a cocker spaniel belonging to Woody Herman, whose band comes to the Main St. Armory on March 4 for the annual Police Ball, is one dog that lives up to that claim. He attends rehearsals is always nearby when the band plays and travels with the outfit when it is on tour. The cocker spaniel has crossed the country more than 16 times and has made countless side-trips.

\$86,000 Civic Music Fund Drive Opens Here Tomorrow

RED CROSS 'REC' HALL EXHIBIT PLANNED HERE

The war is not over for the boys in the Army and Navy hospitals, nor for the Red Cross which is charged with the task of keeping patients happy, amused and busy by furnishing recreation.

In order to show one phase of Red Cross hospital recreation, a facsimile of a Red Cross recreation hall found in Army and Navy hospitals will be on display in Convention Hall from Saturday Feb. 23 through Wednesday, Fe. 27. Doors will be open from 7:30 to 9 p.m. daily except Sunday when they will be open to the public from 3:30 to 5 p.m.

Each day the Red Cross will bring 30 ambulatory patients from the Naval Hospital at Sampson. A hot supper will be given them by the Red Cross canteen and they will then be taken by Red Cross Motor Corps to Convention Hall where an evening's entertainment will be provided. The public is invited to see the entertainment for it is through the Red Cross Recreational Director in the General Hospitals entertainment is provided for the men — U.S.O. shows, boxing matches, concerts, prize fights and various other forms of entertainment.

Samuel H. Feldman is chairman of the project, assisted by Mrs. Donald Reamer

MONEY PUNCH—Preparing to lead the men's forces in the Civic Music Association's \$86,000 "battle of the sexes" Frank M. Houston indulges in a bit of shadow boxing.

When the drive opens tomorrow evening, Houston will doff his gloves and really get down to business signing pledges to the music group's maintenance fund. He will direct 15 men's teams while Mrs. F. Hawley Ward will head the 18 women's teams.

Two (Count 'Em) Two Bands Listed For VFW Dance

Leave it to the veterans to do things in the grand manner! Not content with securing a nationally famous dance band for their first annual benefit dance, members of the Veterans of Foreign Wars have signed two headliners to play in the Main St. Armory on Feb. 23.

200 VOLUNTEER CAMPAIGNERS TO SEEK PLEDGES

A friendly "battle of the sexes" will get underway tomorrow evening when a dinner for campaigners on the stage of the Eastman Theater will signal the opening of the 17th annual fund drive of the Rochester Civic Music Association.

Goal of the drive, which will be undertaken by 200 volunteers divided into 36 teams is \$86,000 which is needed to "Keep Rochester America's most musical city."

The teams are equally divided between men and women with each side numbering 18 teams. They will vie for subscriptions and memberships to the Civic body which maintains the Rochester Philharmonic and Civic Orchestras and the series of concert artist recitals given annually in the Eastman Theater.

According to Edward S. Farrow, Jr., general chairman, the \$86,000 sought is the minimum amount necessary to insure maintenance of the city's music program at its present high artistic level. The fund supplements box office receipts in making Rochester music possible.

Veteran campaigners lead both divisions — Mrs. F. Hawley Ward, the women, and Frank M. Houston, the men. Arthur M. See, executive secretary of the CMA is campaign manager and John D. Roche is publicity chairman.

Report luncheons will be held next Monday, Wednesday and Friday with a special dinner climaxed the campaign on Feb. 25.

ISN'T IT TRUE?

- that most menfolk like to have a hand in the selection of furniture for their homes . . . particularly when one has to live a long time with their selection?
- that most wives want the advice and counsel of their menfolk when buying a suite or a household of furniture?
- that a large expenditure, which is sometimes the first and last, entails careful and unhurried consideration?
- that Monday night opening provides just such time for man and wife to make careful selection of things they want for their home?

SALE ALICE DRESS SHOP—a lovely little intimate shop—staffed by the kind of people you "like." Fresh merchandise—carefully selected—at the source—recently priced at \$8.95 and up. Dresses—so right for spring—new prints and of course the beloved black and "some" navy. That CLEARANCE I've been telling you about is still in progress—drastic reductions—of winter wearables—priced at prices you'll like. Drop into ALICE DRESS SHOP—and say "hello"—you'll like them—and I'm sure they'll like you. Sweaters—and blouses for your selection—lovely ones—at prices you'll like. ALICE DRESS SHOP—located 630 MONROE corner Wilmer—Open Eve.

Where your FLOWERS are, you are—One call to LLOYD'S arrangements to have a remembrance sent—this SAINT VALENTINE DAY isn't confined to Mothers—it is really a day of romance—for those in love. FLOWERS with their old-fashioned sweetness express the things not easy to tell. So call LLOYD'S now—and send flowers to your wife—Mother—

your sweetheart. There is nothing like FLOWERS to warm the cockles of the heart—of those nearest and dearest to us. Order a box of Candy—LLOYD'S have this also. Two stores for your convenience—P O W E R S HOTEL—and REYNOLDS AIRCADE—LLOYD'S LEAD AGAIN—Main 7688.

It's going to be a gay spring—when it comes to "clothes" especially from RIPTON DRESSES. You must know about Ripton's—I've been "yelling" about them for years. They are real artists in the art of dressing "women," but I will qualify that by saying that Juniors are also included in their wide scope of buying. However HALF-SIZES are their first love—and they do well by their first love—they have them in profusion. Drop in and see if I'm right. Prints—pastels—the well-loved blacks—and some navy. Prices start at \$8.95. RIPTON DRESSES—739 MONROE AVE.—Open Eve.

Have you paid a visit to EDWARDS BASEMENT lately? If you haven't—you're missing a "b e t." Today—Valentine Day—there are special VALENTINE TOKENS for the home. For instance something new in COUCH THROWS Perfect to tuck round you on chilly nights. Grand to protect your sofas. Nice for short drapes. In soft plaids of tan, brown and gold, green, and natural. Red, gold and black. And here's the best of all—they are priced \$4.97 each—and are 60 x 100. Why don't you treat yourself and your family to one. They are outstanding values. Here's another item easy to clean CHAIR CUSHIONS. Well filled, boxed cushions with tapes to fasten them to your chair. Pyrexin fabric in red, green and blue. Priced at 75c. Also PRINTED DISH TOWELS priced at only 15c. Fast colors for laundering. Cotton bleached crash printed with bright flowers. Size 15 x 32. Another value to my way of thinking is a 86 x 105 "Fieldcrest" Colonial Spread—\$4.97. It will keep its original appearance a f t e r countless launderings. In solid colors of rust, blue and rose with trelis and floral patterns in white. Honestly these are really a VALUE—plus. And last but by no means least—are the MANUFACTURER'S CLOSE OUT—of BLANKETS—priced at \$5.95. The size is 72 x 84 in a long wearing blend of 25% wool—25% cotton and 50% rayon. Cotton rayon satin binding. Slightly imperfect. In blue only. EDWARDS—Domestics—Basement. Here's a P.S. On the Main Floor in EDWARDS—Notions—you'll find ANOTHER GOLD FISH SALE—Two Gold Fish and Bowl complete 23c. Golden household pets—alight with loveliness. They'll make your home more livable. Easy to care for—they require little feeding. Edwards offer includes—pretty colored pebbles—greens—and fish food. Sorry no mail or phone orders—so hurry—hurry to EDWARDS—Notions—Main Floor.

LOOK R. G. & E. says—Children don't mind frequent cleanups when the water is warm—Dad's shave is quicker, smoother and cleaner with hot water—Frequent hot water baths are an aid to good health and beauty—Washing and rinsing in hot water—results in cleaner more sanitary dishes—Hotter water makes the wash whiter—makes washing easier. Well if that isn't enough for you—go without. But I'm not through yet—AUTOMATIC GAS WATER HEATER provides all the hot water you want whenever you want it. Plenty of it—for bathing—dish washing etc. No waiting. Just turn on the tap and it's there. Available soon—through your R. G. & E. or your favorite plumber or appliance dealer. ROCHESTER GAS & ELECTRIC—89 East Ave.

Roses are red—violets are blue—REAL SEALTTEST is sweet—and so are you. It's VALENTINE DAY folks—so give your family a SWEET TREAT—grab your empty bottle, and get to the nearest dealer who sells BRIGHTON PLACE DAIRY—Real Sealttest Cream. Whip it—top it—on almost any kind of dessert—and your family will really enjoy it. Try a dash of almond extract in it. Order it regularly from BRIGHTON PLACE DAIRY—by the half-pint—or pint. It WILL KEEP, placed well back in your refrigerator. A simple call to GLENWOOD 144 will do the trick. Tell them I told you about this REAL SEALTTEST CREAM. BRIGHTON PLACE DAIRY—wants me to remind you—please—please—return your empty bottles. There is a severe shortage. BRIGHTON PLACE DAIRY—445 Fulton Ave. Glenwood 144. (Division of General Ice Cream.)

CARTER HAT AT this time of the year—you feel like "touching a match" to all your clothes—particularly your hats—and starting "fresh." Well milady you're no different from us all—you need a new HAT and new BAG. And why not—it will "spruce up" that winter fur or cloth coat like nothing else. So here's your answer—CARTER HAT SHOP—located 630 MONROE AVE.—Mrs. Carter has the most adorable FLOWERED BONNETS—with gorgeous pastel flowers—close to the face—with flattering effect. Try one and see if I'm wrong. Ask Mrs. Carter to show you those smart SHOULDER STRAP GENUINE LEATHER BAGS. They are knock-outs—your choice of black, blue or red. (The red is adorable.) Try it. JEWELRY at Carter's start at the gentle price of \$1. Earrings—pins—bracelets. Smart—wearable and lovely. CARTER HAT SHOP, 630 MONROE AVE.—Open Eve. P.S. I forget—ask to see the new HOMBURGS. Sophisticated not suitable for all—but for those who can wear them—they are knock-outs. Hats—at Carter's start at \$3.95.

SALE I would love a new SPRING DRESS wouldn't you? Not one of those silly looking prints you see on everyone—but a large print—a clever one—a print to inspire conversation—with a dark background—with just enough color to be flattering and becoming. Well I found it—at the "800" SHOP. Gently priced too—and fit to perfection. Of course there are several others—pastels—navy and the adored black. All priced \$8.95 and up. The SALE is still in progress—priced \$5.95—values to \$15.95. Real "buys" for you thrifty women—and believe me—these dresses are wearable—beautiful—typical of "800" SHOP quality. You must know by now this shop is Moresa sponsored—located corner Monroe & Canterbury Rd. Open Eves.

VOCAL VALENTINE—Just because today is Valentine's Day we show you this picture of one young lady receiving her valentine from her boy friend. Yes, it was a telephone call, but what makes it unusual is that the B. F. was in Paris, France and the young lady Miss Evelyn Spinelli was seated comfortably in her home at 184 Curtis St.

The lucky swain (his picture is there on the table) is Sgt. Arthur D'Angelo whose home is next door to Miss Spinelli. They were childhood sweethearts, but for the past three years it had been strictly a mail and telephone romance (more mail than phone calls, as you may readily guess.) Sgt. D'Angelo is with the Third Army "sweating it out in France."

From the surplus property of the Army Air Corps... We were able to secure these utility suits. They were worn as flying suits—that means they passed the most rigid standards for material, fit, utility! Now they're being released for you to wear for a dozen different purposes. You'll find them wearable, comfortable—they're made of water repellent, wind resistant 5½-ounce cotton twill—and amazingly sturdy. Short, regular or long.

Periodic FEMALE WEAKNESS
Make You Feel
"A Wreck" On Such Days?
Do you suffer from monthly cramps, headache, backache, feel nervous, jittery, cranky, "on edge"—at such times—due to functional periodic disturbances?
Then try Lydia E. Pinkham's Vegetable Compound to relieve such symptoms. Pinkham's Compound does more than relieve such monthly pain. It also relieves accompanying tired, weak feelings—of such nature. It has a soothing effect on one of woman's most important organs. Taken throughout the month—Pinkham's Compound helps build up resistance against such symptoms. It's also a great stomachic tonic.

Political Polka

By CURT GERLING

The local legal fraternity got a slap in the puss last week when the corporation counsel's office designated Mr. Fred J. Wilkins, a New Yorker, to fill the post made vacant by the resignation of Glenn L. Buck.

The post of deputy corporation counsel pays the new job holder \$4,100 per year which isn't exactly a 32nd degree plum but should keep the wolf at a safe distance from a young attorney's door.

With so many competent attorneys in Rochester, qualified and willing to accept the job and salary, why it should be awarded an outsider remains somewhat of an eight-karat mystery.

As we may have said before, the boys of the local GOP are often dirty, dark, devious, — and dumb.

Music Drive Passes Halfway Mark

Pledges to the tune of \$23,908 reported yesterday at a noon luncheon meeting in the Eastman Theater brought cheers from 300 campaign workers in the Civic Music Association drive for \$86,000 maintenance fund. Designed to "Keep Rochester America's most musical city," the fund is used to support the Philharmonic and the Civic orchestra as well as the program of artists recitals sponsored annually in the Eastman Theater by the association.

Adding yesterday's pledges to the \$24,829 previously recorded makes a total of \$48,737 or 56.7 percent of the quota receiving to date have until next Monday noon to reach the \$86,000 quota.

Leading division was No. 6 headed by Carl Lauterbach who reported 70 percent of quota. The men retained their lead over the women in the "battle of the sexes" between the 18 men's and 18 women's teams with a total of 67.6 per cent against the women's total of 62.

Two teams went over the top with honors divided between Charles Pritchard's team and Mrs. James M. Wile. They were first to report passing their quotas.

Another report meeting has been scheduled for tomorrow noon.

WOODY HERMAN 'TRIPLE THREAT' MUSIC MAKER

When Woody Herman brings his band to play at the Police Ball, in the Main Street Armory March 4, Rochester can expect not just a band leader, but a multiple-threat music man.

Besides the clarinet which gives him the nickname - name 'licorice stick' - Herman is an expert at the saxophone, and he also makes a big hit with his vocalizing of either sweet or hot songs. And among the many popular songs he has written are "Blues on Parade," "Apple Honey," and "Northwest Passage."

In many appearances on coast-to-coast radio shows, Herman has developed the humorous side of his personality until today his ability to banter is one of the outstanding attractions of his appearances on the bandstand.

In his Rochester appearance Herman will be supported by Frances Wayne, his lovely featured vocalist; Bill Harris, trombonist; Joe "Flip" Phillips, tenor sax; Trumpeter Pete Candoli, and Chubby Jackson, bass.

Jim Dennis and a local orchestra will alternate with Herman at the ball, for which tickets may be bought from any policeman or at any precinct station. Proceeds will go to the Police Benevolent Association for aid to survivors of members of the Police Bureau.

Civil Actions In '45 Top 10 Year Record

War period prosperity is reflected in the annual report of the activities of the Civil Division of the Sheriff's Office released this week by Sheriff Albert W. Skinner.

With a total of 4,378 services in civil actions to its credit, the Courthouse unit broke all records of the decade for this type of work last year. However, the total of 1,384 immediate collections on judgments and the total of 1,695 garnishments for the year were only half the volume of the prewar period as the result of quick settlements by the parties involved, the report shows. The total number of papers served by which fees were paid to the county totaled 7,457 during 1945. This total was only two per cent below the 1944 figures and 11 per cent under the peak year total of 1942.

County papers on which no fees were collected reached a seven-year high of 4,189. District attorney subpoenas were at a four-year high of 1,671. This was nearly double the 1942 total and more than double the 1943 figure.

Council Heeds Suns Advice

That the City Council is not above taking a bit of advice now and then was evidenced in its decree this week that sellers of wood alcohol products must hereafter label the product.

Such a rule was first suggested in The Sun last October after a man had died from effects of drinking the lethal "smoke."

The Council, however, could not refrain from displaying its naivete when it added to the ruling that the seller "must enquire of buyers as to the use to which the alcohol is to be put."

What the seller is to do if the customer frankly admits that he's going to drink the stuff was not revealed. Probably the seller will be obliged to give the customer a short temperance lecture.

REMOVAL SALE SHAFER'S
are going to move. So the result is a COMPLETE CLEARANCE — of every fur in stock GREATLY REDUCED. Here's your chance to buy a REAL FUR COAT — at a REAL PAVING. All prices include TAX. Prices range from \$82 to \$882. Here are a few of the values: A beaverette — six sealine — three sealine — form-mouton — three sealine — form-mouton — three sealine — one grey American broadtail formerly \$200 to \$245 for \$162. One Silver Fox — formerly \$475 for \$352. Two Leopards — formerly \$500 to \$565 now \$382. If you're interested in PERSIAN LAMB and who isn't SHAFER'S name some wonderful buys. Ranging from \$495 values — now \$382 — to former values of \$995 now \$382 — they are beautiful. You know SHAFER QUALITY. You know the fashion in high style of typical PERSIAN LAMB — are coats suitable to the old and young. Why not consider one? KISS RAY COATS are another BUY. RAY values to \$320 now priced \$222 — others valued from \$995 to \$750 — now priced \$582. As I read this over — it may seem very confusing to you — with this maze of figures, but take my word for it — this REMOVAL SALE is your chance to make the BEST BUY in FURS — you'll see in many a moon. So "git" to SHAFER FUR CO. — located at 51 EAST AVE. — and get value received.

BRIGHTON PLACE DAIRY
Order it by the pint — it's more economical — and IT WILL KEEP — What am I talking about — REAL SEAL-TAST CREAM — from BRIGHTON PLACE DAIRY. Of course if your family is small and you would rather order a half-pint — that is available also. There are so many uses for REAL SEAL-TAST CREAM these days. It is a vitamin protection as far as your families are concerned — (with the butter shortage) but apart from that — consider it for its delicious flavory selection — to make your choice easy. Are you a daring female? — you are? — then I'm for you. You'll certainly go for the daring new fragrance called "SHAMBLESS". Distinctively packaged in a slim, round bottle and capped with a gold lid crown and associated green tie leaf — it's just what it's called — "SHAMBLESS" — is a longer lasting and more delicate perfume than a regular perfume — but not as heavy as most perfumes. It comes in 1, 2, 4 and 8 ounce bottles from \$1 to \$5. Sold at McCarley & Co. — Corner Main Floor.

For the "Head Man" in your life — have that buy him — a magnificent masculine toiletries. Called "Carroll Men's Toiletries" — they are clean, virile scents. He'll be doubly impressed with the superb genuine porcelain containers — in massive sizes — in a man's hand — richly colored to match the accessories of his room in smart shades of Dabney, Sable, Tan, White, etc. These distinguished grooming accessories are available in individual packages or in sets in your choice of colors — at B. Forman Co. — and McCarley & Co.

When your husband has a cold — never even notice he has finished the cookies — emptied half the bottle — and slyly been through all the magazines — tell him not to answer the phone while you are away — he will hate you for leaving him — he will begrudge your having stayed away for hours — but will welcome you with open arms — Give him a complete blackout on all other sufferings — never mention you have a headache from listening to his complaints — but never forget your man may be the hero, the inventor of a new atomic bomb — but for the love of all that's holy — remember when he has a cold — he is a very sick man.

LOOK In a recent issue of Life Magazine the matter of ventilation, which has been promoted for more than a year by ROCHESTER GAS & ELECTRIC is featured in an article on "Tomorrow's Home". Among other things the article says: "The average kitchen is a 'Pittsburgh' in miniature, where particles of soot, burned food and grease fly off into the atmosphere and eventually settle on walls, windows etc. The ordinary kitchen exhaust fan is only a partial answer. There should be a hood over the range connected to a fan and duct system. This is the only way that unwanted heat — dirt and offending odors can be carried off quickly and effectively. A proper ventilation system enables the housewife by push-button control to use any speed of cooking she wishes and still have a clean cool kitchen. Inquire about it at R. G. & E. — 89 East Ave.

DECREES OF FASHION
Potentialities of the powerful force that color television will exert in the broadening of fashion news of the near future were clearly shown last week at public demonstrations of ultra high frequency full color television by the Columbia Broadcasting System. Actual fashion shows, when televised under the new system, will provide color values more true to life than that of motion picture film processes. In these demonstration broadcasts, many examples of educational, artistic and commercial advantages of color were revealed. Beyond the striking effectiveness of fashions modeled in high style shades, a few plays in a football game demonstrated how color separates opposing players who are indistinguishable in black and white. Identifying colors worn by jockeys in a horse race stepped up the excitement of the sports review. Shots of flowers and birds and reproductions of famous paintings gave further illustration of this high-power transmission which, it is hoped, will be entering home receiving sets within a year's time.

LLOYDS Traditionally — the B r i d e c a r r i e r LLOYD'S FLOWERS. And how beautiful she looked. Individual bouquets — by a well-trained staff to advise and assist. The Bride's bouquet is not the only consideration when it comes to weddings. House decorations — table decorations — church decorations — all are to be had at LLOYD'S. Drop in and ask the advice of Mr. LLOYD HIGBIE — the genial gentleman — who presides over this shop. Located at POWERS HOTEL — Main 7388. NILES ARCADE — Main 7388. Candy has also been added to this progressive shop. High quality — for your enjoyment. LLOYD'S LEAD AGAIN.

FURS FOR SALE
If you've been looking for a contactable fur coat — here's your chance — a woman just will amaze you — you will be able to buy a BLACK CARACUL FUR COAT — one new — size small collar — also new — size 14 to 16 — lining without a flap — worn by a fashionable individual — only reason for selling — is having grown tired of this lovely coat. Call Hillside, 2868M for details.

Stocking shortage, in both nylon and rayon, will continue unrelieved for at least another year unless every woman voluntarily relations herself to one pair a month, according to Roy E. Tilles, president of Gotham Hosiery Company. As long as material shortages exist and women try to get more than their fair share, no stocking can be built up to ease the present situation. If one pair a month isn't enough, CBS singing star Hollace Shaw advises taking up the old "duration" game of saving all odd, undamaged or mendable hose for re-dyeing after removing the original color. Practically every department store notion counter or five-and-ten carries the necessary remover and dye.

Superbly tailored, as if it were a heavy fabric — is the lightweight suit of brown Tia-Crepe. The shoulders are smooth and square — and looking delectable on the jacket supplies the very original Mergans touch.

SITUATIONS WANTED MALE

ARMORY READIED FOR VETERANS' DANCE SATURDAY

Rochester's rug cutters are in for a double dose of their favorite music Saturday when the Veterans of Foreign Wars stage their first annual benefit dance in the Main St. Armory.

Two famous dance bands are scheduled to alternate throughout the evening, thus giving the dancers no time to catch their breath, get lonesome or think of their sore feet.

"Cootie" Williams and his orchestra will come to Rochester from the Zanzabar Cafe in New York where the outfit is now playing. Also on the bill is "Mal" Hallet and his band. Hallet is now making a series of one-night stands in New England. He has maintained a fame gained early in the 30's as an outstanding radio band.

BOWLING PARTY, DANCE ON YOUTH CALENDAR

A square dance program tomorrow and a bowling party Sunday make up the weekend activities calendar of Rochester youth hostellers.

Bill Kern and his orchestra will furnish music for tomorrow evening's dance program to be held in the Gannett House on Cortland St.

Sunday's bowling party is scheduled for 7:30 p. m. in the Bowlodrome on Plymouth Ave. S. Bill Foos is chairman of the event.

Red Cross Names Publicity Head

Caspar Clark, acting advertising manager of Pfaunder Co., has been appointed coordinator of Red Cross publicity for the Rochester Industrial Editors' Association by William Corwin, president of the association. Clark replaces Corwin who was the coordinator for several years.

Clark will work with Mrs. Saul Frankel, chairman of publicity for the Rochester Chapter.

MONROE ASSOCIATION PLANS PROGRAM

While Monroe High School pupils dance in the Girls' gymnasium this evening, mothers, dads and friends will gather in the auditorium for a program presented by the Monroe Community Association.

A patriotic pageant, the

singing of several Jerome Kern numbers by the senior chorus and an address by Dr. H. C. Seymour, director of child services for the public schools will

make up the program which will start at 8:15 p.m. The subject of Dr. Seymour's talk is, "Attacking Some Present Day Youth Problems."

Eversharp

with service guaranteed

When have you ever seen a better value in a pen and pencil set? When have you ever seen better workmanship for your money? The pen writes quick-as-a-blink; the magic feed cold-shoulders frequent refillings. You don't even have to pamper the pencil—it only needs refilling about every 6 months. And, the set's good-looking enough to hand to rich Uncle Harry as a gift! Come, write, phone. Edwards Stationery—Street Floor.

- **MAGIC FEED** prevents flooding or leaking, even in a plane in rarefied atmosphere! Makes your pen write more words with less refillings.
- **MAGIC POINT** is so smooth you can't hear it write . . . you just see it write. Fine or medium points.
- **MAGIC BUTTON**—click the magic button of your repeater pencil with your thumb. It feeds new points like a machine gun. Barrel holds and automatically feeds approximately a 6 months' supply of lead.
- **NEW BEAUTY**—All streamlined for perfect writing balance and finer comfort. All with deep pocket clips.
- **SERVICE GUARANTEED FOREVER BY EVERSHARP.** If your Eversharp ever needs service, Eversharp will put it in good order for 35c. This service is guaranteed forever by Eversharp.

4 QT. SIZE \$12.50

BECAUSE PRESTO COOKERS are so remarkable, and because, up until recently, their manufacture was totally restricted for four years, the nation-wide demand for these wonder-working pressure cookers is tremendous. The production facilities of the manufacturer of these cooking utensils are great, but the needs of the Government for certain essential war materials must still be supplied.

As a result, such quantities of PRESTO COOKERS as we are receiving now are, and will be, far too few to supply the demand, for some time to come. In fairness to all, requests for PRESTO COOKERS will be filled in the order in which they are received.

11th WARD DEMOCRATS SET BANQUET DATE

Plans for a banquet at the Powers Hotel on March 2nd have been announced by members of the 11th Ward Women's Democratic Club. Mrs. Verne Belknap is chairman and Mrs. Ernest Ades, co-chairman, according to Mrs. Harry Schroth, executive committee woman.

NOTICE IS HEREBY GIVEN THAT License No. GD-12996 has been issued to the undersigned to sell beer at retail under the Alcoholic Beverage Control Law at 647 Park Avenue, City of Rochester, County of Monroe, for off-premises consumption.

Bridge Awaits Outcome of 'Tis 'Taint Argument

If the state can find someone to build it, Brooks Avenue will have a new bridge spanning the canal at the city's western limits.

But the hitch is that to date the state has been unable to find a contractor to build its bridge at the price it wants to pay.

Another attempt will be made on March 7 when bids, if any, will be received by the Department of Public Works in Albany. Twice before, dates for the reception of bids on the project have been set only to be ignored by the state's contractors. So far as could be learned the state is still sticking to its original estimate that \$290,596.60 will build the bridge. That's what the state says it will cost. But contractors do not agree with that estimate. They say the figure is too low. Unless building costs drop sharply before the March bid deadline date it is expected that the state will again find its quest in vain.

WINTON CHURCH INSTALLS PASTOR

Special services at the Brighton Community Church on Winton Rd. N. Tuesday evening marked the installation of the Rev. W. Millar Crawford as pastor. He succeeds the Rev. Dean S. Bedford who retired recently after serving the church for 22 years.

Four local and out-of-town ministers participated in the installation service with the Dr. George Alden Cole of the Prospect Avenue Baptist Church, Buffalo delivering the sermon.

The Rev. M. Bedford gave the charge to the new pastor and called upon him to maintain the church "free from all union with so-called modernistic alliances."

In his charge to the congregation the Rev. John Betlem of the North Baptist Church said that the church was "not an opera, a theater or place of entertainment" and warned members to expect perfection in neither the minister nor the church. He pointed out that it was impossible to please everybody all the time.

The Rev. H. Clifford Bristow, formerly chaplain with the First Army, and the Rev. William Kouwe, superintendent of the Gospel Tabernacle also participated.

The Rev. M. Crawford comes to Rochester from the Ruggles Street Baptist Church, Boston, where he was assistant pastor. Prior to that he was pastor of a church in Augusta, Me. He is a graduate of Gordon College and Gordon Theological Seminary.

A reception for members at the home of the Rev. and Mrs. Bedford followed Tuesday's service.

CLINIC AT STORE**

Mothers, prospective mothers and mothers' helpers are invited to attend a series of lectures and demonstrations in a Baby Development Clinic sponsored by Sibley, Lindsay & Curr Co. First session will be held in the store's Infants' Shop next Monday at 2:30 p. m. The clinic will continue daily at 2:30 p. m. through next Friday. A special session has been planned for Monday evening at 7:30 o'clock.

The clinic will be under the direction of Miss Ethel Ransom, R. N., a staff member of the Baby Development Clinic of Chicago.

The program is known to the American Medical Association, the Academy of Pediatrics and has been presented at several medical meetings. Included in the clinic are lectures on the care of infants from birth to nursery school age, a full color movie entitled "Babies Can Be Fun," and demonstrations on child care technique.

The sessions are open to the public free of charge.

ED RANDALL'S Scene & Word

Last week, as one or two of you may recall, this column didn't appear. I realize that The Sun didn't seem complete without it but it wasn't my fault. I try to keep faith with our readers and I did write a column but it never saw the light of day. I wrote about St. Valentine's Day. Last Thursday was St. Valentine's Day, and I thought a few remarks about the day would be appropriate. I really knocked myself out composing the thing and I still think it was a good column, but the editor told me on Thursday, after I had vainly looked for my brainchild, that limitations of space prevented its appearance. That, in newspaper parlance, was a polite way of telling me he was able to find something better to fill the space I had labored so hard to fill.

But that's life, I suppose. I was disappointed to think that my efforts were so lightly regarded, but other people have disappointments also. Take the case of the Salvation Army lassie who was soliciting funds and in the course of her travels happened to encounter an old guy of several winters and summers. "Would you like to give a contribution to the Lord?" she asked, holding her collection plate before him. "How old are you, young lady?" asked the ancient. "I'm twenty-two, sir," she replied. "Well, I'm past 85. I'll be seeing him before you, so I'll hand it to him myself." That was a disappointment.

Or take the case of the babe who swished into one of our downtown bistros the other night and suffered a terrible disappointment. She had obviously made a gallant effort to pattern herself after one of the pages of Harper's Bazaar, but on her it didn't look good. The lines in her nylons were crooked, her fingernail polish didn't match the shade of her lipstick, but nevertheless, she thought she looked like something out of this world and so did her escort, an elderly gentleman who evidently took quite a bit of pride in having a date with such a gorgeous creature. They seated themselves in a booth and ordered a couple of drinks. Suddenly from the next booth came a sibilant whisper: "Hey Mame, did you get a load of what just went by? She looked as if she was dressed in flour bags." "I'll say. I know her, too. She should look as if she was dressed in flour bags. Gawd

knows she's been through the mill." So, it's things like these that renew my faith in human nature and remind me that other people have disappointments as well as I.

Last week, you will recall, we had a few rather warm days. On one of these days a Lyell Avenue bus was uncomfortably filled with workers and shoppers in the late afternoon when two women sitting in the rear over the motor became engaged in a heated argument as to whether or not the window of their seat should be opened or closed. One of them insisted that she needed more air. "If this window remains shut," she said, "I shall certainly suffocate." The other woman was just as firm that it should remain closed. "This window must not be opened. I'm sure I shall catch cold, develop pneumonia, and probably die." So it

went for several blocks. Finally the bus stopped to discharge several passengers and a disgusted gent sitting near the front of the bus addressed the driver in a tired tone of voice: "Hey, driver. Why don't you open the window, that will kill one. Next, shut it; that will kill the other. Then we'll all have some peace."

mory.

Times change and Wash-
n has set a new style in open
cketbooks that even the states
ek to emulate—and of course
is a gubernatorial year and
e GOP is priming the pump.
What smooths the way is the
ppy phrase "state aid" which
lls the residents and cities
d counties into thinking he
going to get help on his tax
ll "strictly for no." All of
hich is a long way from the
uth. All that these citizens are
tting is part of their money
ck. Money that rightfully be-
ngs to them and to their com-
munities. It's money from your
to license plates, your gas tax
id the pennies on that pack of
garettes. It's the State cut on
e dough you won or lost at
stavia Downs, local business
id corporation taxes and a
hole lot more, including your
ome tax.

So don't be misled by this
lib guff about State Aid money
your town or county. You're
lly getting back some small
rt of what you've kicked in.
e dear old State of New York
id the apparently generous
r. Dewey can well afford to
it and if you believe to the
ntrary—as well as Mr. Allen's
nator would say—"That's a
ke, son."

The hidden ball, cross-buck
d plain old-fashioned double-
oss plays practiced at City
all are running second only
a conference of oldtime foot-
ball coaches. Nothing strictly
ignal, just variations of the
d theme, "if he's down—and
s one is looking—kick him."

In these days of skyrocketing
rices and inflationary trends
e white collar man (if he is
cky enough to have a white
irt to go with it) is the guy
at gets kicked. In private in-
dustry or business it's bad but
you are a city or county em-
ployee it's worse—particularly
tose whose pay falls in the
1500 to \$3000 per year bracket.
hey haven't had a raise since

ourage to go on strike as if
ey were big boat employees
r steel workers, and being
litical appointees they never
uite learn that there is nothing
uite as dependable as a poli-
cian's promise. The "big
raas" at City Hall (all in the
omfortable brackets) hand out
as "I'll see what I can do"
salakey, or that guff about
holding the line til '49" all of
hich does not pay the butcher
or slow meat.

These "brush offs" are not
alf so irritating as the com-
mon knowledge that many re-
ceiving over the \$3500 per year
re getting raises right along.
ne worthy (and we don't mean

Political Polka

By CURT GERLING

For some months past whenever our substantial citizens gather, the expensive clubs, the stockbrokers office or at the bouquets to award medals or scrolls to someone or another, the principal pastime, from cocktails to cordials, is damning labor.

Franklin Roosevelt has gone to his reward and the boys in the blue chips have found a group now, rather than an individual, on which to vent their ire. To hear them go on, Labor is responsible for every economic ill, social maladjustment, price rise, tax, shortage — in fact everything up to and including their wives' stomach ulcers.

Their big complaint is of course, the strikes — Labor's only weapon when peaceful across-the-table conversations get nowhere. Strikes, according to the aforementioned gentry, are generally reprehensible measures to which no right-thinking American would be a party. Most any paunchy plutocrat views such goings on "with alarm."

As is the case elsewhere in the world — it's always the other fellow who is a crook, an imperialist, and a treaty violator but, if we may quote from the world's most popular book, "let he who is without sin cast the first stone." These Caliphs of Commerce have ignored the quotation and have been heaving rocks of varying shape and size (to bring up another old stand-by) — that they have long lived in "glass houses."

Labor is not the only one to succumb to "government by pressure."

Council Dodges 'Summer Time' Issue

(SEE BALLOT PAGE 6)

Continuing their tradition of "doing nothing" until forced by public opinion to act, members of the City Council this week let it be known they would follow their usual procedure on the question of daylight saving time for Rochester during the summer of 1946.

Admittedly a ticklish question, with advocates and opponents equally vociferous, the councilmen took the "safe road" by adopting an individual program of inertia in the matter.

Change of Pace

Such action, or more properly, inaction caused quite a stir among the city's voters who had become accustomed to watching the council ride rough shod over the public and its collective opinion. Rarely had such a solicitous attitude toward the public pulse been displayed by the tightly knit body of Republicans who usually "saw" matters the way they were ordered in pre-meeting party caucuses.

As the governing body of the city it had been supposed their duty was to investigate legislation of benefit to the public, to protect the public interest and guard against the encroachment of minority groups in controlling the city.

In the Dark

Now they had admitted for the record that let alone attempting to guard the public interest, they didn't even know what that interest was — at least in the matter of daylight saving time.

It was their duty to go on record favoring or opposing the measure. It was their task to determine which was best for the city and act accordingly.

Instead, they were going to see which pressure group turned on the most heat — those favoring the measure or those opposed.

They admitted they would succumb to "government by pressure."

Display Timidity

While several councilmen (See DAYLIGHT Page 6)

FOCAL POINT OF DISCUSSION—Whether Bausch & Lomb Optical Co. and the Rochester Gas and Electric Corp. want to close off Suntru St. as a public thoroughfare to facilitate operations' or 'to discourage union activities' is a matter the City Council will have to decide. Permission to keep the street closed as it has been during the war has been requested by representatives of the two concerns. Members of the United Electrical Radio and Machine Workers Union are opposed to the move saying it is contemplated to hamper them in their organizing work at the optical company plant. Above is shown the intersection of Suntru and Bausch Sts. adjacent to the Bausch & Lomb building. Circled at left, near the parked truck, is a police "No Parking Sign." In the circle at right is a sign posted on the company guard shanty reading "No Entry Without Permission" signed by the War Council.

RED CROSS DRIVE OPENS TOMORROW

6000 Workers To Seek Half Million Dollars As Area Goal

It will be "speeches without words" at the opening dinner of the Red Cross drive fund for \$554,000 tomorrow evening in the Chamber of Commerce. Seated at the speakers table, instead of the customary array of bosom-friended civilians, will be representative of all the armed forces, including W.A.C.S., WAVES, SPARS and Army and Navy Nurses, as well as soldiers, sailors, marines and coast guardsmen. Their presence is expected to serve as a silent reminder of the work the Red Cross has carried on, and must continue to carry on, over the world. Heading the guest list will be Forrest Vester, winner of the Congressional Medal of Honor and now a student at Syracuse University. He will fly to Rochester for the dinner.

Canvass Readied

Tomorrow morning 6,000 volunteers will begin their quest for funds in a house-to-house canvass of the county. The drive here will coincide with similar efforts throughout the nation to raise \$100,000,000 for the Red Cross.

Thomas J. Hargrave, chairman, on the eve of the drive admitted there was a big job ahead in meeting the goal. He declared "It is up to all of us to raise our quota" and pointed out that "the war is not over for thousands of our boys."

POLICE CHIEF HEADS BALL RECEPTION LIST

The Chief of Police and his top aides will make up the reception committee for the Police Ball, to be held in the Main Street Armory Monday, March 4, it was announced today.

Chief Henry T. Copenhagen will be assisted by Deputy Chief George Steinmiller. Policewomen Rose obles and Florence Williams and the captains of the precincts. They are: George Hensel, traffic bureau; T. Herbert Killip, first precinct; Edward Willey, 2nd precinct; James Moran, third precinct; William Pohl, fourth precinct; George Ruthenberg, fifth precinct; Herbert Leary, sixth precinct; and Edward Dohberton, seventh precinct.

Chief attraction for dancers at the ball will be Woody Herman's orchestra, which will alternate with Jim Dennis and his local band. Featured with Herman will be Vocalist Frances Wayne, Joe Flip Phillips, tenor sax, trombonist Bill Harris, trumpeter Pete Candoli, and Chubby Jackson, bass.

The ball is sponsored by the Police Benevolent Association, for aid to survivors of Police Bureau members.

Charges Fly In 'Housing' Debate

To be or not to be, that was the great question for Rochester to decide this week in the matter of public housing.

Two speakers, equally able, equally intelligent, and equally voluble this week condemned and extolled the idea with such vehemence the net result was only to add still more confusion to an already badly confused public mind.

Donald A. Lum, a realtor, thinks little of the public housing idea. And what he does think about it is not good. He said so before members of a ward Republican club last week.

John Hill, a social worker and chairman of the committee on housing of the Community Service Society in New York thinks much of it—all good.

Lum told his political club audience that "the minute we break up or impair the combination (production and competition) were headed for trouble."

But a few nights later, speaking before a meeting of the Rochester branch, American Association of Social Workers, Hill thought people living in the city slums were

CRIME INCREASE HERE SEEN IN SHERIFF REPORT

Crime is on the increase in Monroe County but it's still below prewar peak levels.

Sheriff Albert W. Skinner, pointing out that the county is following the national trend, revealed this yesterday in his eighth annual consolidated report.

BRIGHTON PLACE DAIRY Breakfasts are different in our house—since I placed my order for REAL SEAL-TEST CREAM from BRIGHTON PLACE DAIRY—our coffee is better with the addition of REAL SEAL-TEST CREAM. Cereal is better—in fact luscious—fruit topped with cream is a real treat. This REAL SEAL-TEST will keep—don't tell me otherwise. I have kept cream in my refrigerator for a week. Another feature of this REAL SEAL-TEST CREAM is it will whip in a minute—well say three minutes. You may order this cream by the pint, which is more advisable—being more economical—but you prefer the half pint—you may order it. Simply call GLENWOOD 144—BRIGHTON PLACE DAIRY—45 Fulton Ave.—Division of General Ice Cream.

LLOYDS I've said it before—I'll say it again—so listen—you get VALUE RECEIVED from LLOYD'S FLORIST. Prices are right—flowers are always fresh—lasting and beautiful. Arrangements are unique—and will always please. At this time of the year—flowers are so thoughtful—the recipient so grateful—you'll be happy—you had the idea. So call Main 7688—LLOYD'S FLORIST—Two stores for your convenience—POWERS HOTEL—and REYNOLDS ARCADE. A new CANDY LINE has been added to LLOYD'S. Don't you agree this is a darned good idea?

NEWS Mrs. Zweig has just returned from New York City—with a wonderful selection of SPRING DRESSES, Prints—with interesting necklines—pastels—navies—and plenty of blacks. The House of Seagram Congratulates Ray Milland on His Magnificent Performance in "The Lost Weekend"

TO THE APPLAUSE of motion picture critics who hail Ray Milland's inspired performance and this brilliant screen drama, "The Lost Weekend," as the finest screen achievement of the year...we, of the House of Seagram, wish to add our own sincere and enthusiastic acclaim.

For, not only has Paramount Pictures produced a masterpiece of suspense-filled entertainment...they have succeeded in burning into the hearts and minds of all who see this vivid screen story our own long held and published belief that... **some men should not drink!**

Yes, that is our most earnest conviction.

Indeed, we published back in 1938 a moderation message titled with those identical words... "SOME MEN SHOULD NOT DRINK"... which might well have been the name for this great picture instead of "The Lost Weekend."

Ever since Repeal in 1934, the House of Seagram has exerted all its influence to further the cause of moderation in drinking. In newspapers and magazines from coast to coast, we have published such significant statements as "Drinking and Driving Do Not Mix," "We Don't Want Bread Money," "Pay Your Bills First," and "We Don't Want Bond Money."

Again and again we have expressed our abiding conviction that "liquor is a luxury"...that it should always be used reasonably and with restraint as a welcome addition to gracious living. For, as is the case with other good things of life, the harm lies not in use, but in abuse.

That is why we are so deeply impressed to have our heartfelt sentiments come to flaming life upon the screen.

That is why...knowing how truly its dramatic emotional impact will stir the hearts of all Americans...we say...

"Don't Miss 'The Lost Weekend!'"

Asks Government To Release Office Space

Now that positive action in the housing crisis has been taken, the next step is for the government as fast as possible to turn back for private use the millions of square feet of office, loft, warehouse and other occupied by war created agencies and war expanded bureaus and the military, says the magazine Practical Builder.

The continued use of this space is forcing private business to build new buildings, thus aggravating the already acute shortage of materials, the magazine points out. Much loft and warehouse space is suitable for light manufacturing and other business purposes.

"In practically every large city the government is still occupying some 10 to 13 percent of the available office space, very little of it having been relinquished since the close of the war," Practical Builder says. In Chicago, considered typical of most large cities, government war agencies, the Army, Navy and other government bureaus occupied at peak 12 percent of the total office, loft and warehouse space available.

According to Sen. Harry A. Byrd (Dem. Va.) government payroll on Nov. 1, 1945, still carried 3,377,673 employees as against 932,953 in August, 1939. Only one out of 28 federal employees has been released since the end of the war. Sen. Byrd pointed out, compared with one out of six soldiers. Most of these employees are using desk space somewhere.

The magazine charges that the slowness with which the government is cutting down its war time working force and relinquishing office, warehouse, loft and other space, is contributing seriously to the building material shortage and thus to the shortage of homes, by forcing private business to build new quarters instead of renting those which the government is holding.

State Spends \$45,157 For Office Rent Here

The state paid \$45,157 rent for office space in Rochester last year, according to Public Works Superintendent Charles H. Sells. It cost the state \$1,269,627 last year for extra office and storage space in 78 communities.

RECORD ENTRY SEEN FOR STATE PIN TOURNEY

With more than 300 out-of-town teams already applying for dates, indications were that the 21st annual State Bowling Tournament opening here April 18, would attract a field even larger than the record-breaking 1,100 entry list at the last event held in Utica.

Last year's scheduled tournament here was cancelled because of the war and transportation situation.

For the first time in history of the state association, the tourney will be conducted simultaneously in two halls, according to Edwin Wildey, tournament manager and secretary of the Rochester Bowling Association. Buonomo's and Weeber's halls will share the honors.

The tournament will be decided in three classes with separate prize lists for each.

24th WARD DEMOCRATS INSTALL NEW OFFICERS

Installation of new officers and plans for a picnic next summer were made at a meeting of the 24th Ward Democratic Social Club last Saturday.

George Jackman heads the list as president. Others who assumed office Saturday include Earl McCombs, v-pres.; William Krebs, sec.; James Stavajone, treas.; Edward Kelly, John Talban and D. Northrup, trustees.

The picnic, to be held sometime in July, will have as its guests returned veterans of the war.

Task Outlined

In speaking of the job ahead, Hargrave said: "FOR YOUR MEN OVERSEAS the Red Cross must help maintain the morale of our occupation forces by providing these men with comfort, relaxation, entertainment and a link with home."

For the men in hospitals who may well spend years, not days, in a wheelchair or a hospital bed, your Red Cross must ease the tedious hours with entertainment, help, comfort and advice.

For the Veterans confronting now the difficult, perplexing problems of the peace, your Red Cross must offer counsel and guidance, help when they are in need.

Peacetime Service

And, too, the Red Cross must help the American people combat disasters and the problems of community health. It must expand its efforts in the conservation of human resources. It must help serve hungry civilians overseas as well as assist Americans at home. Your contribution to this year's Red Cross Campaign will be a vital one in helping build the peace in America and throughout the world.

Sunday Museum Program

Sunday will be Junior Red Cross Sunday at the Rochester Museum with the afternoon program in charge of the Junior Red Cross.

There will be demonstrations of Junior Home Nursing, Nutrition, and First Aid, together with a Water Safety exhibit. Elementary school pupils will fill gift boxes, knit afghan square, and cut out holiday favors at special tables.

At 3 o'clock there will be a program conducted by the Junior Red Cross Council, at which Foster Pate, chairman of the council, will preside. Richard Percy, former Red Cross Field Director in Italy, now connected with the veterans' classes at Jefferson High School, will interview three students back from service with the armed forces. Special Red Cross films and a cartoon will be shown. East High orchestra will play under the direction of Wilfred Fidiar.

Evolution of fashion seemingly favors one particular type of woman each season. At the moment it's the shorter than average type for the longer daytime skirts of current acclaim graciously create an illusion of added height to the petite. DAYLIGHT...

(Continued From Page 1)
timidly said they were personally in favor of daylight time. Others would not even dare express an opinion. As Councilman Gregory F. Mills said in refusing to discuss the matter, "I know too much about expressing my opinion beforehand." Observers were sure that he had studied well the lessons taught his councilmanic brethren by party headquarters after they dared to publicly protest against the slipshod handling of snow removal by the Department of Public Works.

Sun to the Rescue
To aid the council in its lately formed desire to learn what the public wanted done about a matter of such importance, The Sun this week is printing a ballot on the Daylight Time question. Fill out the ballot with your name and address and mail it to the City Council Prodder, The Sun, 133 Clinton Ave. S., Rochester 4, N. Y. This paper will help "turn the heat" on the slow moving legislative body.

HOUSING...

(Continued From Page 1)
seem amazement that "a city like this should refuse to recognize the fact that it has slums." (Wait'll he finds out how many other facts of life this city fails to recognize.) Hill stated that slums could be eliminated through public housing.

Realtor Lum, in his talk, charged that "class-conscious public housing advocates are trying desperately to exploit the veteran angle... without telling just how they propose to help the veteran."
On the same platform with Social Worker Hill was the Rev. John S. Randall, speaking for the temporary Citizens Housing Committee headed by Mrs. Harper Sibley. He said the committee "approves their (the Veterans' Housing Committee) fervent plea for a local housing authority to meet the needs of the low-income groups."

Whether or not Lum had included the Rev. Randall and Mrs. Sibley as "class-conscious public housing advocates" had not been made clear. Few, in any, would agree that the were—but they very definitely were among those who could see more "trouble" in current slums than in proposed slum clearance project.

CRIME...

(Continued From Page 1)
crime report for the area outside Rochester, compiled from the records of his Criminal Division deputies and co-operating town and village police forces.

In his report the sheriff noted that the 1945 total of 756 offenses recorded was 15 per cent above the 1944 total and 11 per cent below the 1941 six-year peak of 846. At the same time, criminal arrests totalling 491 were 22 per cent above 1944 and seven per cent below the 1940 six-year peak of 526.

Felonies at Six-Year High
Felonies arrests in the county were at the highest level in six years, Sheriff Skinner reported. Last year's total was 83 per cent above 1944 and 27 per cent above the 1942 peak. Misdemeanor arrests were nine per cent under 1944 and 25

per cent under the 1940 peak. Miscellaneous minor offense arrests were 40 per cent above 1944 and 13 per cent below the 1941 peak.

Traffic Arrests Up
Traffic arrests, reflecting an increase in traffic following the lifting of gasoline rationing, were 20 per cent above 1944. However, the 1945 total of 461 was 54 per cent below the peak of 1941, last full unrestricted "normal" driving year.

In a breakdown of criminal offenses, Sheriff Skinner's report shows that crimes against the person were one per cent under 1944 and that of the total 87 per cent were cleared by police action. Crimes against property, however, were 11 per cent above 1944 and of the total 35 per cent were cleared. Value of property reported lost or stolen, totalling \$28,047, was 12 per cent above 1944 while recoveries amounted to 71 per cent of the total.

WANT IT—
a few years from now?

CHANCES ARE you've partly paid for this postwar home already in the many War Bonds you've bought.
And, if you keep on buying Bonds, it won't be long before the key to the front door is actually yours.
For, if you're like most people, you've probably found you can save more money, more easily through your regular Payroll Savings Plan than by any other means you've ever used.

So... wouldn't it be wise to build upon the fine investment you already have in your War Bonds... with a continued investment in U. S. Savings Bonds?
You can buy your U. S. Savings Bonds just as easily as you bought your War Bonds

...through your Payroll Savings Plan or other official Bond outlets. You get the same high return on them too—\$25 for every \$18.75 you invest!
In fact, U. S. Savings Bonds are the same as War Bonds in everything but name!
So put all your extra dollars into U. S. Savings Bonds. You'll be mighty glad you did... on the day they help you buy your new home!

Buy all the Bonds you can...
keep all the Bonds you buy!

gain its points by strikes. Capital has and is still using the same device to achieve its ends. To-day strikes are objectionable because they impede reconversion and the return to a normal life of peace and peaceful pursuits — but Capital used it when the nation was on the eve of attack and its life and that of its people were in serious danger. Today Labor may be unpatriotic, but in those days Capital was guilty of Treason.

Of course Big Business didn't say it was on strike, in fact its representatives said little if anything — they just refused to produce goods, no matter how much we needed the goods for war. That is they refused until they got the kind of tax and profit legislation they wanted. There haven't been any strikes on the part of Labor that could be called as treacherous as that one.

Today Big Business is on strike just as much as Labor is and its tactics are just as hard-headed and high-handed. It is out to smash price controls with utter disregard for the inflationary consequences. It is deliberately withholding goods from the market, notably in clothing, yardgoods, domestics and smallwares. It won't ship or manufacture until its members get what they want in price raises, and to heck with the civilian and returned serviceman.

The public doesn't realize that Capital plays the strike game a whole lot better than Labor. The chief reason perhaps is that Labor has a mighty poor "press." Every Labor strike is smeared across the front pages of the daily newspapers and the stories don't, in treatment, give the worker any the best of it. This inimical attitude is easily attributable to the fact that most newspaper publishers are definitely capitalists and if they are interested in fighting their own battles first it's an all too human failing, even if it is digging a deeper grave for that overworked phrase "Freedom of the Press." Labor apparently can't find a high powered public relations or publicity man to steal space

and favorable notices in the daily newspapers. It owns no daily newspapers of its own. It does have weekly sheets circulated to its union members — an inconsistent idea — like sending your minister or priest a new bible every week, when it's the fellow who doesn't go to church who needs converting.

Newspaper capitalists in reporting derelictions on the part of big business may not garble the facts, but they don't draw any fancy diagrams or pictures either. The reader is left to dig out the facts and do his own "reading between the lines."

Few of us care to take that trouble, hence Labor gets the black eye.

This is not intended as a brief for Labor. There are more cracks in its ranks than in Congress. Some of their stuff is too high handed for public approval and consumption and they'll have to learn to run Labor as a business instead of a racket. Union books should be subject to scrutiny just as a corporation's are. As the public is so widely affected by its conduct they too should publish their balance sheets and P. and L. statements. They will have to muster the courage to purge the Petrillos and other egomaniacs who rile the public, flout governmental regulations and are eternally showing off for the benefit of their press books

and additional newspaper clippings. They still have a long way to go to win the public over to their side. Support of favorable political candidates will not do it alone. There are too many citizens that are not union men. They'll have to clean their own houses of the strong-armers and the crackpots — the hard way — without the love of the press.

Just to round out this narrative, Capital and Labor are not the only strikers. Take a peek at our Congress. If the filibuster isn't a strike, what is? Talking a bill to death and refusing to relinquish the floor to others is an old Congressional device wherein militant minorities can stifle legislation and the passage of particular bills. Filibustering congressman sometimes hold the floor for hours.

So when you read those heavy hostile headlines of an evening and you prepare, just like the blue chip boys to blast Labor; remember that two and even three can play the strike game — and what's more, the latter two play it a whole lot better!

Ed Randall's Scene & Word

Time-Union, Wednesday,
Feb. 20, 1946

"A fun rally for some 3,000 Bausch & Lomb Company employees will be held tonight at Edgerton Park's Sports Arena. Boxing, wrestling matches, a jitterbug contest and dancing to the music of Kenny Unwin and his band will highlight the program."

Democrat & Chronicle,
Thursday, Feb. 21, 1946

"Nearly 3,000 Bausch & Lomb Optical Company employees will attend a 'fun rally' tonight at Edgerton Park Sports Arena. Included in the program are boxing bouts, wrestling matches, a jitterbug contest and dancing."

"WELL, MAKE UP YOUR MIND: WHICH NIGHT WAS IT?"

Maybe you have never heard the story of the two fishermen who rose in the wee small hours of the morning, loaded their fishing duffel into a car and took themselves off to a small stream miles away from their home. Eventually they arrived at the scene of operations, parked the car, donned their waist-high boots and began whipping the stream for the trout with which the brook was said to abound. Noon came, our heroes stopped for lunch without ever having had a nibble. Nothing daunted, they began to retrace their weary way to the spot where they had left their car. Things were no better. Either the fish were not hungry or the two sportsmen were using the wrong bait. In any event no speckled beauty rose to the lure. Eventually they arrived at their jumping-off place and realized that their day had been an utter failure. "Well," said one, "I suppose we might as well call it a day. It's getting pretty late and we haven't caught a single fish." Replied the other: "Guess you're right. Let's let two more big ones get away and then go home."

The heavy snowfall we're having today (Tuesday) reminds me of the tale of the Irish

farmer who prayed for rain because his fields were too dry. The rain finally came in answer to his fervent pleas: but it would not stop. Soon there was too much rain and the crops were being ruined. The farmer then prayed for the rain to stop. But it didn't stop. Finally he looked up to the sky through the curtain of rain and cried: "Now, don't be ridiculous."

Then there's the one about the house-to-house salesman who rapped on the screen door

of a house. Visible through the door was a small boy painfully practicing on a piano. The salesman who obviously didn't know small boys very well called to the miniature musician: "Hey, sonny, is your mother at home?" The boy cast a murderous look over his shoulder and scornfully replied: "What do you think?"

In all companies there are more fools than wise men, and the greater part always get the better of the wiser.—Rabelais.

Our Home was lost.

But the Red Cross gave it back!

"It's SOMETHING we'll never forget... the heavy rains... the darkness and cold... the river rising so rapidly we had to leave our home.

"We lost everything in that flood... the house and furniture... our clothes, everything. When you're faced with that, you're desperate. We knew no one to turn to... We had no money, nothing. Then—the Red Cross came to help us.

"They took over completely.

"Clothes... food... shelter... money... they provided everything until they could arrange to have our home rebuilt. And when the baby was sick, they found a good doctor to care for her.

"I guess there's hardly any way the Red Cross doesn't help

in emergencies... no problem too big for it to solve... nothing too small."

That's right, there's nothing too big for the Red Cross... no calamity too widespread... no picture too black. Its symbol means food to the hungry... shelter for the homeless... a friend to the friendless.

You are the Red Cross. It is because of you that this agency of mercy is able to mean so many things to all men... to do all it does. It is because of your contribution that the Red Cross is able to help those in need. When disasters strike... when great tragedies or epidemics come... the Red Cross is there by the side of everyone who needs it. Your gift keeps it there.

Keep Your Red Cross at Their Side.

\$201,405 Reported In Red Cross Drive

In the first tally from city wards in the Red Cross Drive for \$554,000 from Monroe County, wards west of the river and ward 14, yesterday reported 3,044 pledges totalling \$13,610 or 43.6 per cent of their quota. This amount, added to the \$123,645 reported Monday makes a total of 201,405 to date or 36.4 per cent of quota.

Political Polka

A gentleman whose extraordinary name might easily be mistaken for a burp at a Ukrainian picnic has been engaged by the city "master minds" to diagnose "city needs" and behave like a planning expert. According to the somewhat confused report of the daily press Mr. Ladislav Segoe "began his studies here more than a month ago" although a report on Feb. 25 stated he was engaged the day previous. Even the City "haul press releases are undependable these days.

The appointment of a planning expert came as a distinct shock to those who read Mr. Harold MacFarlin's political ads in last fall's campaign. Harold was forever saying that Rochester was a "great Republican city," run by Republicans and only good old Republicans knew how to run it. Apparently the line is dying out and it's necessary to import brains to solve anything more difficult than an appropriation for painting park benches.

Mr. Segoe is no doubt a gentleman of parts, not the least of which is his ability to make a plan. (See POLKA Page 7)

SHERIFF SEES RISING TRAFFIC TOLL AHEAD

Accident Report Notes Sharp Rise In County Since V-J Day

One traffic death was recorded for every 11 injury accidents on Monroe County's highways last year. It was the highest fatality frequency of the last six years.

The report tabulates a total of 30 persons killed and 561 injured in 326 traffic mishaps and points out that while the number of accidents was 12 per cent above 1944, the total was still 50 per cent below 1941, the last prewar "normal" unrestricted driving year.

Sheriff Skinner, in the report, credits wartime restrictions with cutting traffic accident totals to subnormal levels and warns that all comparisons of war years with prewar or postwar years must be weighted by these factors or the comparisons are valueless.

"To show the trend of what we may expect in the way of 'highway slaughter' when cars and tires become plentiful," Sheriff Skinner said, "we made a special study of the last four months of 1945, when gasoline was ration-free, and compared the figures with those for the same periods in 1944 and 1941. These comparisons are convincing proof that we are moving at a rapid pace toward establishing new records of death and destruction on the highway."

The report's special analysis of this period shows a 64 per cent increase in accidents over the 1944 period along with a 44 per cent increase in injury victims and a jump of 217 per cent in traffic deaths. In the comparison with 1941, traffic deaths were the same while accidents were down 49 per cent.

Daylight Time Demands Force City Council Action

SUN POLL SHOWS 75% FAVOR MOVE

Stores Circulate Petitions; Jaycees Ask Council To Advance Clocks

Rochester will have daylight saving time this summer! This prediction can be safely made now that action stirred by The Sun's report last week that the council was going to "dodge" the issue if possible, has caused a change of heart among those councilmen charged with initiation of the clock-moving measure.

Developments swiftly followed last Thursday's Sun report with these results: More than 70 per cent expressed preference for Daylight Saving Time in an informal poll conducted by The Sun among its readers.

The Junior Chamber of Commerce has forwarded a petition to the City Council pleading for Daylight time; Councilman Ross E. Erwin who had announced on Feb. 19 that he didn't plan to bring up the subject this year, has changed his mind and promised he would discuss the matter with his Public Safety Committee at a meeting in City Hall tomorrow.

Several large department stores and industrial concerns (See DAYLIGHT Page 3)

STATE HEALTH OFFICER JOINS CITY BUREAU

Dr. Robert S. Westphal, for the past year district state health officer in this area has been named city deputy health officer, succeeding Dr. Burt D. Breese, resigned.

According to Thomas C. Woods, public safety commissioner, Dr. Westphal's appointment becomes effective in mid-April. Dr. Breese will continue with the department on a part-time basis until then.

Dr. Breese joined the department less than three months ago but resigned to return to his practice of pediatrics here, interrupted in 1940 when he joined the Navy.

Dr. Westphal received his medical degree at Rush Medical College in Chicago. He has served with the state health department for four years. His successor to the state post has not yet been named.

HERE'S HOW — To those who attended the Police ball in the Armory Monday evening, but couldn't get near enough the bandstand to see just how Woody Herman and his orchestra looked, these closeup shots of the peppery director and his percussion and brass sections are dedicated. More than 10,000 people crowded into the big drill shed for the event. Some of them actually dance—brave souls! But dance or not, everyone seemed happy—particularly Deputy Chief George Steinmiller, ball chairman. Proceeds from the event have been turned over to the Police Benevolent Fund.

PARKS DEPT. CLOSES CITY SKATING RINKS

After 51 days of skating on municipal rinks during the winter, the city has closed the rinks, according to Patrick Slavin, parks director. Closing of the rinks this week was accomplished by draining water from the Genesee Valley, Danforth and Carter St. sites. Last season Rochester had 48 days of skating, according to Slavin.

If you have an unerring sense of fashion — the "800" SHOP is for you. Their frocks are as brilliant as the new Paris fashions — as provocative as the women in your set — whom you consider the "best-dressed." The daring colors are becoming — the blacks — as always flattering — and slenderizing — the navies — a breath of Spring — in other words — any frock from this popular shop will start you on the way to becoming — a well-turned-out woman. Prices start at \$8.95 and up. MATERNITY DRESSES are yours for the asking — at the "800" Shop. Prices also start at \$8.95 and up. Becoming and expandable — they are what you've been looking for. The "800" SHOP is a dress sponsor as you know. Located corner Monroe & Canterbury Rd. — Open Eve.

Gardener's note — Rakes made of aluminum weigh only one pound. Broom type they are one-piece construction and are rustproof. Hurrah!

Try figs for winter desserts. They are wonderful. Ideal for puddings, cakes or puddings, fritters or the everyday turnovers.

ALICE DRESS For smart people prefer the ALICE DRESS SHOP — as their source of "buying." Stock is always fresh — carefully selected — with an "array" of dresses that will amaze you. Patterns — Navies — all beautifully tailored with that air of simplicity that "gets you." Prices start at \$8.95 and up. Sweaters — and Blouses are included in the stock of Alice. And they are knock-outs. Sweaters are 100% wool. Blouses are of high quality — gorgeous colors and marked with an eye on your budget. So what are you waiting for — make your next stop — ALICE DRESS SHOP — 630 MONROE AVE. — corner Wilmer St. — Open Eve.

LOOK My family is healthier and happier with the HOT WATER HABIT. It's easy with AUTOMATIC GAS HEAT. WATER SERVICE. Here's a suggestion — if you come home at night — tired and nervous — ease the tension with a relaxing tepid bath. It induces sleep at bedtime. Try it and see if I'm wrong. To start your day with lots of pep take a quick HOT bath followed by a cold splash. Remember bathing daily makes you feel better — every day. Start that HOT WATER habit NOW. An automatic gas water heater provides instant hot water for everyone in the family. Day or night — for health — household or emergency use, there's always an adequate supply. Automatic Gas Water Heaters will be available soon — through R. G. & E. — and at your plumber or appliance dealer.

CARTER Roses fall down the side of a soft straw cloche — or a bonnet brim comes to a "talking point" — from a circled crown — or maybe you're the "sailor type" and these are exceptionally "smart" this Spring. Or maybe you would like a flowered half-hat — to lend a becoming "glow" to your tired "puss." Where to find this kind of hat — CARTER HAT SHOP. Prices for hats at Carter's start at the modest sum of \$3.95 and up. BAGS are another value at Carter's. Corday — Genuine Leather Bags at modest sums. JEWELRY starts at \$1 and up. Earrings — bracelets — pins — beautiful "things" — to brighten up your Spring wardrobe. So what are you waiting for — it's CARTER HAT SHOP — every time — located 535 MONROE AVE. — Open Eve.

She's gay — bright and charming in the liveliest little frock that will cross her path this season — where she found it — RIPPON DRESSES — of course. She will wear it with a festive air — for it's a highly styled correct frock — a glad dress — fashioned correctly — by — highly styled priced \$8.95 and up. Whatever your size — RIPPON DRESSES have it. They stock half-sizes — and smart ones — regular and junior. You'll like the service at RIPPON'S too. Every dress to leave the shop has been carefully inspected — carefully altered — and pressed to perfection. RIPPON DRESSES — 739 MONROE AVE. — Open Eve.

If your SHOW-ER CURTAINS are shabby — your bathroom looks down at the heel — even the walls are spotted — the windows shining — etc. — so why not take advantage of the value offered by EDWARDS — in SHOWER CURTAINS. Here's the "dope" — a 70 x 70 Plastic Shower Curtain with 54x34 tailored DRAPEES to match — priced \$23.95 each. They are easy to keep spotlessly clean, because they are water repellent. Simple sponge off. The Shower curtains have eyelet hooks. The tailored curtains can be used with or without the tie-backs. Your choice of blue, green, rose, gold, peach and white. Remember the price is \$23.95 for Shower curtain — and \$23.95 for drapes to match. You will find the above at EDWARDS — Domestic — Basement. Here's another value — BED PILLOWS — sizes 17 1/2 x 21 \$1. — Super comfort and budget priced don't you agree? Ideal for single beds. Make your own covering and use them as sofa pillows. ACA ticking covered, filled with crushed chicken feathers. DISH TOWELS — multi-colored — in a new Early American design. Five color combinations: burgundy, blue, green, tan and grey. They rest perfectly smooth on your floors and are a joy to clean. Other sizes are as follows: 27" x 54" — \$2.15 — 38" x 63" — \$2.85 — 4" x 7" — priced \$5.50, and so on up to an 8' x 12' for \$12.50. Another value to my feeble way of thinking is the Striped Slip Covering 48 inches wide — priced \$1.16 per yard. For chairs, stools, stools and sofas. Looks like more money I think. Unusually strong and durable for only \$1.16 per yard. EDWARDS Domestic — Basement.

BRIGHTON It's everything you've ever wanted in a whipping cream — it's rich in quality — it whips in a few minutes — the result is the most delicious REAL SEAL TEST CREAM. The possibilities of this product are "out of this world." You turn any ordinary dessert into a party "affair." Try it on pie, baked apples, the luscious bread pudding, etc., and your family will "yum yum" all over the place. As for coffee, my "old man" says — it is a different beverage. And he doesn't mean "Alexander's." As for cereal — it is wonderful. Why don't you call BRIGHTON PLACE DAIRY — Glenwood 144 — and order your REAL SEAL-TEST CREAM today — it is available by the pint — or half-pint. You know of course BRIGHTON PLACE is a Division of General Ice Cream — 45 Fulton Ave.

Casade drapery gives an interesting outline to this black rayon crepe. The effect is of front fullness with a back fishpoint point. Short sleeves and a keyhole neckline to show off your jewelry.

I would love a gabardine suit. Would you? Saw a royal blue one the other day that was a knockout. Push up sleeves with collarless jacket — and easy skirt. I bet you to it — I bought it.

Trees To Get Beauty Bath
Rochester's elm trees will again have the opportunity for a "beauty treatment" this summer. City Purchasing Agent Fred W. Erath announced this week that privately owned trees will be sprayed under city auspices at the owner's request at the same price the city pays for the work on its own trees. This plan was inaugurated last year.

The city will receive bids for spraying city owned trees tomorrow. Private owners must sign for the service and pay the same price per tree as the city under its contract. Last year the contract price was 50 cents per tree.

Forms requesting the service will be available at Erath's office after March 15.

Girl Scouts Arrange Observance At Museum

Next Sunday the Rochester Museum will observe Girl Scout Day in Bausch Hall from 2 to 5 p. m.

The main floor of the museum will be the scene of many Girl Scout activities and demonstrations. Local girls will make up "friendships bags" for Girl Scouts and Girl Guides in war-torn countries.

Other Girl Scouts will present woodcraft demonstrations, supervised by Mrs. Floyd Slater and Mrs. Glenn Denison. The Girl Scout Mariner Ship "The Sea Witch" of St. Paul's Church, under the leadership of Mrs. Paul Schimms, will have a nautical corner in which they will show some completed mariner projects. In other corners, girls from all over the city and county will show some of the community service projects which they pursue during the year in cooperation with the Tuberculosis and Health Association, Visiting Nurses Association and Girl Scout Office. They will also show a sample of the "Goodie Basket".

The essence of law is that laws be enforced without favoritism and exceptions; the law even expects obedience from law enforcement officers.

Lemon Juice Recipe
Checks Rheumatic
Pain Quickly
If your suffer from rheumatic arthritis or neuritis, try this simple inexpensive home recipe that thousands are using. Use a half cup of fresh lemon juice, a two-week supply, use of 4 lemons. It's easy, it's quick, it's all and pleasant. You need only 2 tablespoons for two times a day. Give within 48 hours—sometimes overnight—spry joints are relieved. If the pain do not quickly leave and if you do not feel better, return the empty package and you will receive a new one to try as it is sold by your druggist under the name "Lemon Juice Compound". This compound is for sale and recommended by our store everywhere.

NATIONAL F. O. E. TO VISIT LOCAL LODGE MAR. 14
Edward F. Poss of Toledo, O., grand worthy president of the Fraternal Order of Eagles, will pay an official visit to Rochester Aerie next Thursday.
A civic leader in Toledo, Poss was elected to his present post last August. He has been active in furthering the humanitarian and social legislation programs of the Eagles. Poss is expected to give the local lodge a first hand report of the objectives of the organization in the fields of aid for returning servicemen, juvenile delinquency, extension of social security and the guaranteed annual wage.

INTERMISSION MOVIES PLANNED AT YOUTH DANCE
Colored movies will highlight the intermission of the American Youth Hostel's square dance planned for tomorrow evening at 8:30 o'clock, in the Gannett House on Cortland St.
The movies, depicting the activities of the local hostel unit were filmed by Daan Zwick. They include bicycle trips to regional hostels, hikes and other outdoor activities.
Bill Kern will call and his orchestra will play for tomorrow evening's dancing.

POLKA...
(Continued From Page 1)
mesmerize the City Fathers into forgetting their corny gag "Hold the line 'til '49." The elastic "line" was stretched again and Mr. Segoe was permitted to shake down the taxpayer for another \$4,000 per annum. Amusing as it may seem to those who pay taxes in Brighton, Mr. Segoe's year consists of two days per month or a total of 24 days. For those mathematically inclined that's \$166.66 per day.
It has not been reported whether or not Mr. Segoe packs his lunch thereby giving the citizens the benefit of a long day.
To show you the high caliber and profound quality of the work our new expert turns out, a fistful of his initial ponderings was released for public consumption. Rochester's metropolitan district was compared to that of six other cities of similar size and character. Mr. Segoe revealed that:
1. With the exception of Toledo in the decade 1930 to 1940 our population increase was the lowest of all six cities. (Mr. Segoe did not say "why" but a squint at our tax rate would have told him why people prefer to buy a farm outside of Rochester and let the other guy carry the tax load.)
2. On the subject of average ages he found that Rochester was rapidly becoming a town of "fuddy-duddys" as 31.9 of our population was 45 or more years old. (There are many who believe that its nearer 99 per cent "fuddy-duddys".)
3. Rochester's percentage of population engaged in industry and mechanical industries (42.4) was the highest of the lot. (Which is a mighty interesting little statistic for only \$166.66 per day.)
4. The percentage of negro population was lower than the other five districts. (As Houston, Tex. and Memphis, Tenn. are among the cities compared you can see for yourself what an extraordinary revelation that was. How does he do it so cheap?)
Thus ended the first table. There was a second table of a similarly unimportant nature. (We've got our newspaper quota to think of) prepared by Mr. Segoe for the edification of the City Fathers.
Somewhere it was reported that Ladidas was to bring up to date, revamp and streamline the Bartholomew Plan. Those with average memory will recall this Republican brain child of the year 1929. Thousands of dollars were spent getting facts,

figures and the plan together. Just where this heavy investment of the taxpayers' money has been gathering dust all these years is a moot question. On the list of cities Mr. Segoe services is Cincinnati. As far back as twenty years ago Mr. Segoe prepared a plan for that city and at the moment our new and widely subdivided expert says his organization is receiving \$300,000 to bring the plan up to date. (There isn't much we can say about that except—"Vass you offer in Zeinzinat-tie")
Rochester continues to spend thousands on "talk" but never a nickel on "do."

THAT AIN'T HAY, BROTHER BY JAMES

Political Polka BY CURT GERLING

Long before the shooting his return to town. Political stopped we recall mentioning that most of the civil service jobs would be filled by the political faithful and the returning heroes would find mighty slim picking. Not only were they conveniently filled but those who were in civil service came back to find that the promotions just ahead of them had already been filled by the stay-at-homes who were just behind them.

We know one gentleman who gave up a mighty good four years to serve his country and

advisers for whom he had always worked hard at election time professed great concern that he was being treated so shabbily. They made a great "do" about calling this one and that one. They promised everything would be fixed. "The matter straightened out" — in fact all the old political dodges were used to placate the serviceman-victim of the old GOP double cross. One "well-wisher" and "friend" promised he would arrange an interview with Mr. (See POLKA Page 11)

RED CROSS SIGHTS GOAL WITH 82% IN Campaign Windup Set For Monday In Chamber of Commerce

Confident that once again Monroe County would join the "over the top" group Red Cross campaign workers today girded for the final spurt before the fund drive's end next Monday.

Already they have pledged totaling \$455,301 which represents 82.1 percent of the \$554,000 area quota.

Yesterday noon residential and downtown wards west of the river, and Ward 14, reported (See RED CROSS Page 11)

\$25 Winner

Mrs. Russell Jones of 136 Leighton Ave. is the lucky winner of this week's \$25 cash prize, offered by The Sun, each week to its sustaining subscribers. This is the reward Mrs. Jones gets for paying her Sun carrier, Edward Eidman of 21 Breck St., 16 cents. Ed incidentally collects an extra five dollar bonus.

MYSTERY TRUCK—Residents of the Flint-Genesee St. section are still trying to solve the mystery of the DPW truck which is reported parked in front of 531 Flint St. daily between the hours of 10 a. m. and 3 to 3:30 p. m. Inquiry at the DPW garage has elicited no information other than that the driver of the truck, No. 469, is Martin LaBiondo who is listed in department records as living at 12 Austin St. Neighbors are irked by the placid appearance of the parked truck in Flint St. throughout the middle of the day while ashes and rubbish pile up all over the city because of a reputed "lack of manpower."

Kodak Wage Dividend Awaited

Rochester stores were anticipating a "rushing business" this weekend as the city's thousands of Kodak workers received their 34th annual wage dividend, slated for distribution today. Approximately 40,000 employees of the company throughout the western hemisphere will share in the dividend. Bulk of the workers are in Rochester, home office of the concern.

The dividend is expected to total approximately \$6,250,000 which represents employees share of the company's profits for the year Eastman Kodak Company recently reported a net profit of \$32,715,632 for 1945 on a gross volume of \$301,501,854.

Living Rooms Available! — But They're In Jail

Untouched by the housing shortage, the Monroe County Jail did a record "business" during 1945 but still had rooms to spare.

The steel-doored hostelry of Spartan appointments tallied a total of 18,965 days of cell occupancy during the year, the largest aggregate in eight years, Sheriff Albert W. Skinner disclosed in his annual report yesterday.

The sheriff noted that a total of 1,537 prisoners, including 211 women, were registered during the year for temporary detention pending arraignment, trial or transfer to penal institutions. The average daily jail population was 32 and the average stay per prisoner was 12 days, Sheriff Skinner's report points out.

The total number of prisoner days in 1945 was six percent higher than 1944 while the total

DAYLIGHT TIME SEEKERS HOLD 4 to 1 LEAD

People Quick To OK Measure But Council Defers Action To April

Despite the four-to-one majority of city residents shown to be in favor of daylight saving time and despite their knowledge that eventually they will have to decide the issue one way or the other, members of the city council have decided to delay as long as possible, a decision on whether or not Rochester is to have the advanced time in 1946.

Numerous polls in department stores, industrial concerns and newspapers have all had approximately the same result—Rochester overwhelmingly wants daylight saving time.

Sun Starts Balloting

First poll was conducted by The Sun with a ballot appearing in the Feb. 28th issue. Up to last Thursday it had produced 437 ballots—344 favoring and 93 opposed to the fast time. These were turned over to Councilman Ross E. Erwin for consideration by the Public Safety Committee of the council in determining city sentiment in the matter.

Newspapers Finally Join In

When it was decided to take an unofficial vote through newspaper ballots, Erwin turned over the Sun ballots to City Clerk Thomas P. O'Leary who has been named to make the count. The two daily newspapers then jumped on the bandwagon and started printing daily ballots for readers. After the blanks had been published in the Saturday and Monday issues of the Times-Union and the Sunday and Monday issues of the Democrat & Chronicle O'Leary reported a total of 1774 ballots recorded with 1555 favoring and 219 opposed to the measure.

Sun Outpicks Dailies

In this connection it was interesting to note that one issue of The Sun had produced more ballots than four issues of the daily newspapers. Out of the 1774 recorded ballots, 550 had come from E. W. Edwards Store employees, 390 from McCurdy's, and 437 from The Sun. This left a total of 397 ballots received from the daily papers. The advertising department of this paper was sure that the significance of these figures would be interesting to Rochester advertisers.

Latest figure on the unofficial referendum stood at 2,208 for and 586 against, released by O'Leary yesterday.

Sixty-three additional ballots have since been returned to the Sun office with 50 for and 13 opposed.

Council Action April 8

Council action on the matter has been delayed until April (See DAYLIGHT Page 4)

KAY'S COMMENTS by kay shearer

Yes the sugar shortage still persists. But just as persistent is the family's desire for a really good dessert. Something special to put a bright finish on a simple meal perhaps. And when the company is expected hospitality demands that dessert be on the menu. So ladies here's your answer—a supply of REAL SEALT TEST CREAM always on hand. With this wonderful cream in your refrigerator there's no limit to the number of delicious desserts you can get together on a minute's notice. So why not simplify this one household problem by calling GLENWOOD 144—BRIGHTON PLACE DAIRY—46 Fulton—and say REAL SEALT TEST CREAM please delivered—your choice of either half-pint or pint.

LLOYD'S FUNERAL WORK entails the business of planning—and there isn't a florist in town—who gives it more thought—and turns out more beautiful work. LLOYD'S Fresh flowers are always used—delivery is prompt—prices are RIGHT—and a simple telephone call is all you have to do to carry out your sad but necessary obligation. Of course Funeral work isn't the only operation that is "done right" at LLOYD'S. Cut flowers arranged beautifully—pot plants—are just as beautiful and just as inexpensive. CANDY has also been added for your convenience. A superb line—of high quality—Two stores for your convenience—POWERS HOTEL—and REYNOLDS ARCADE. Main 7883—LLOYD'S LEAD AGAIN.

SPRING HAS COME—with a spiking of green leaves with a open crown to show your pretty hair—in the hat for your most so many dresses. And you'll find them at CARTER HAT SHOP. Or maybe you'd like a beautiful MILAN STRAW. Mrs. Carter says, "they are the most beautiful hats she's seen in ages." All styled each one perfection itself. Or how about a smart HAT & BAG SET for that new Spring suit or coat. Or maybe you will make your selection from the famous GAGE line—also "stocked" at this shop. BAGS are another item CARTER'S excels in. Also jewelry price \$1. Big "hunks" of gorgeous "stuff" for pure adornment. The hat selection starts at the modest sum of \$3.95 and up. Well—what more do you want? CARTER HAT SHOP—636 MONROE AVE.—Open Eve.

RIPTON DRESSES have scooped the fashion world. It's hard to find clothes! So why not take advantage of their back-breaking load—and shop RIPTON'S early. Half-sizes are a particular pet at this popular shop. They are beautiful, wearable and so becoming to a majority of women. Of course regular and junior sizes are also in evidence. As for colors, you'll be sure to find your favorite, whether pastel, black or navy. Prices start at \$8.95 and up. RIPTON DRESSES—739 MONROE AVE.—Open Eve.

How'll you have your 10 a. m. Of course understand, says R. G. & E.—their trouble shoots on the storm swept pole aren't actually worrying about whether you want your toast light or dark. If that means, gold-brown toast for your breakfast Okay then that's why they're battling the elements. This kind of service is routine stuff for the R. G. & E. because in a fraction of the business. So thanks R. G. & E.

All eyes right as you pass by—in brief—nipped—in line—deep cut sleeves—what am I talking about—a dress from the "300" SHOP. Their frocks are something you will be proud to wear—highly styled and selected with typical Moresse good taste. As for colors—space doesn't permit my telling you about all of them. Enough to say they are beautiful—as for price—they start at \$8.95. MATERNITY DRESSES are also "stocked" at the "300" SHOP. Beautifully hiding dresses to keep you happy and well-dressed. These also start at \$8.95 and up. Located corner Monroe & Canterbury Rd. Open Eve.

Navy blue is back in the fashion scene. So are heads bright colors, checks and stripes. Try grey with clean crisp white accessories, or royal blue with dead black accessories.

CARTER a ring—around of lightly clustered roses—with a spiking of green leaves with a open crown to show your pretty hair—in the hat for your most so many dresses. And you'll find them at CARTER HAT SHOP. Or maybe you'd like a beautiful MILAN STRAW. Mrs. Carter says, "they are the most beautiful hats she's seen in ages." All styled each one perfection itself. Or how about a smart HAT & BAG SET for that new Spring suit or coat. Or maybe you will make your selection from the famous GAGE line—also "stocked" at this shop. For the girl who's at her best in sophisticated settings—dresses of neutral beige and grey—marbled with black. Shoulders reflect the softer rounder look—the neckline is narrow!—the skirt is gathered beneath a wide band of shiny patent leather, spiked with golden bangles.

HEALTH SOCIETY REPORTS ON T B SCHOOL TESTS

Results of tuberculin patch test programs in county schools were reported at the meeting of the County Health Committee of the Tuberculosis and Health Association of Rochester and Monroe County, Inc. held last week at the Chamber of Commerce.

John C. Malloch, chairman, conducted the meeting at which Mrs. Jessie Howard Steitz, field secretary of the association, stated that 577 pupils had already been given the test in cooperation with the local health officers in each community.

Mrs. E. P. Curtis, Jr., was welcomed back to membership on the committee after an absence during the war years when she served with the Red Cross.

Edward A. Roeser reported on the Christmas seal sale in the absence of Mrs. Thomas A. Duryea, chairman, and announced that \$26,673.84 had been raised up to March 1st. More funds will be received during March, and the books will be closed on April 1st according to Mr. Roeser.

Iola's Mobile X-ray unit will make spring visits to the towns of Henrietta, Irondequoit, Hilton and Gates, and local town committees are now working with the County Health Committee in preparation for these visits.

It is my principle that the will of the majority should always prevail.—Jefferson.

EDITOR TO TELL WHAT'S ON RUSSIA'S MIND

If Gerhard H. Seger of New York is able to answer his own question — even partially — he should have a large and enthusiastic audience Sunday at the Labor Open Forum in the Labor Lyceum, 580 St. Paul St.

Seger is going to speak on the subject, "What About Postwar Russia?" If he knows the answer to that one, he will display knowledge currently sought by most of the world's best minds.

Seger was born in Germany and was a member of the Reichsta guntill imprisoned by the Nazis in 1933. He eventually escaped and came to the United States in 1934. He is currently the editor of "The Neue Volkszeitung" an anti-Nazi German language newspaper published in New York.

(Continued From Page 1)

9 with the referendum closing April 1. While no serious opposition to the measure is expected to develop, the farmers, as was forecast, had already taken up cudgels against the measure. The usual suggestions of having stores and factories start an hour earlier in the morning had already been made by the minority opposed to the move. The morning paper, with a large rural circulation had printed pictures and written stories telling how hard daylight saving time was on cow and farmer alike, but even that newspaper's readers had shown the usual preference for the measure.

In the state outside the city, it was reported that all cities of Rochester's size or larger and many smaller communities had already made plans to institute daylight saving time on April 28, to run until the final Sunday in Sept.

But the Rochester Council continued to hesitate. It was possibly waiting for word from Republican headquarters as to what action they should take in the matter. To date only the people had expressed their opinion.

Again this week The Sun is printing the ballot for readers to record their sentiments about the measure. Mail them to the City Council Prodder, Rochester Sun, 133 Clinton Ave. S., Rochester 4, N. Y. and they will be turned over to City Clerk O'Leary before the referendum's deadline.

STATE LEADERS TO ATTEND K OF C BREAKFAST

Members of Rochester Council, Knights of Columbus and their sons will attend a Communion Mass and Breakfast, Sunday, March 24 at which state and district leaders will be honored. Grand Knight Francis T. Toomey announces.

The Mass will be celebrated at St. Patrick's Church, Plymouth Ave. North at 7:45 a. m. by Bishop James E. Keane, past state chaplain. Arrangements for the Mass are being made by the Rev. Leo C. Mooney, pastor of St. Patrick's and a member of the council.

Breakfast will follow at the Powers Hotel where the speaker will be State Deputy M. Foley of New York. District Deputy William E. Hanover of Canadaigua will also attend.

General arrangements are in the hands of Lecturer Raymond L. Navy as chairman and Thomas T. Fien as ticket chairman. Raymond J. Haasauer of Aquinas Institute faculty will have charge of music at the Mass and breakfast.

Reservations are being made with Financial Secretary Joseph M. Miller in the K. of C. club-rooms, Columbus Civic Center.

NO. 52 SCHOOL PTA EXPRESSES GRATITUDE

Neighborhood merchants, theater owners and friends of the No. 52 School PTA, this week had the thanks of that organization for their help in making the group's recent bazaar a success. According to Mrs. Alfred B. Burns, president, their donations of merchandise and prizes contributed largely to the financial success of the affair. Mrs. Burns reports that more than \$300 has been turned over to the PTA's benefit fund which is used to support the school library, the PTA-sponsored Scout Troop and the graduates' party fund.

HIBERNIANS COMPLETE ST. PATRICK'S DANCE PLAN

It will be a great day for the Irish when the Ancient Order of Hibernians and its Ladies Auxiliary stage their annual St. Patrick's Day dance on Saturday at 9 p. m. in the Sheraton Hotel.

Jimmy Dennis and his orchestra will play for both square and round dancing. Highlight of the evening will be an exhibition of hornpipes, jigs and the highland fling. Patrick Ryan will play his Irish concertina and sing Irish songs.

Mrs. Bride Shannon and John Crowley are co-chairman of the affair.

Inside Hollywood..
With Sydney Greenstreet doing a comedy role for the first time in years, in "A Very Rich Man" reminds one that he played comedy with the Alfred Lunt for years. It seems only natural that Hollywood would have made a bogey-man out of him, doesn't it?

Teresa Wright has to age over sixty years in her top acting role in "Dr. Susan." The story is based on the life of Dr. Susan M. Dorsey, who for many years was superintendent of the Los Angeles schools.

Rumor has it that Producer David Lewis wants Greta Garbo for the lead in "Arch of Triumph" while some think that the author, Erich Remarque had his ex-fiance, Marlene Dietrich, in mind when he wrote the story.

While David Niven and Loretta Young were doing a waltz scene for "The Perfect Marriage," four top ballet dancers walked in on them. All of the pose the two possessed deserted them and the scene had to be shot again.

Dorothy Lamour is the proud mother of a 6 pound 8 1/2 ounce baby boy, born on January 8. Pacing the floor at the hospital, in best tradition of fatherhood, was William Ross Howard III, formerly of Baltimore, recently discharged from the Army as a Major. He and Miss Lamour were married nearly three years ago.

CLOTHING FOR SALE
I'll make my life — you'll never be given the opportunity of a better buy — if you pass this up. MAN'S BROWN WOOLLEN SUIT — size 34 — like new. In fact it was only worn a few times. The condition is perfect — naturally — immaculate — like cut shirt — in fact it was made to order "to start with." The price is \$65 — and in my humble way of thinking — it's a steal. So call HILLBORN 1251 — if you prefer more details — but my first thought would be — if I were you — to get to 1 Continental Drive. At this same address "right" also find Tom BROW JACKETS — suitable to wear with slacks. The colors are BROWN — the other Blue. The sizes 12 and 14. DECREES OF FASHION

Weatherproof hats, defying elemental changes with the fortitude of the proverbial postman on his appointed rounds, enter the fashion scene this Spring. They're made of synthetic fabrics, and we've seen beautiful creations in fragile shades of spun glass, in transparent crystalline and plexon like the model worn by CBS star Marian ("Road of Life") Shockley. Her high-draped black and white pillbox was created by Roxie Sapphire to headline either tailored or dressy costumes. The plastic-coated yarn from which the fabric is woven refuses to be affected by rain, snow, sunshine or soot-laden winds.

Bowing to the inevitable in this era of vanity, millinery and coiffure designers are working hand-in-hand on complementary styles to bring out the ultimate in feminine beauty. There's a specific, romantic hat for every hairdo, be it short bob, upswept arrangement or sophisticated side roll. Remembering that she is seen most when not wearing a hat, it behooves each woman to consider carefully a really becoming mode of dressing her hair and then select one of the flattering new hats to set off her crowning glory.

Softness is the keynote of new styles. Rounded hips and

puffs give that feminine touch to the spring frocks. The cut and draping of a dress is more important than the trimming and a clever dressmaker can do wonders with the new materials.

How'll You Have Your Toast?

Perhaps these R. G. & E. trouble-shooters on the storm-swept pole aren't actually worrying about whether you want your toast light or dark... or whether you want toast at all.

What they are worrying about is keeping your electric service flowing along as usual. If that means golden-brown toast for your breakfast, okay then, that's why they're battling the elements.

They'll stay with the job until the line is repaired, in spite of hot wires sputtering around them... in spite of zero temperature, snow and a howling wind that seems to mock their efforts... You won't have to send these men a check for their trouble nor pay any more on your electric bill. The chances are that most of you will never even know a line went out.

This kind of service is routine stuff for the R. G. & E, because it is a tradition of the business that service must go on and that interruption be held to the shortest possible duration.

Storms... and consequent repairs... are prepared for and handled efficiently. It isn't an easy job but business-managed electric power companies like the R. G. & E. take pride in keeping your electric service dependable and cheap.

SCHOOLS STUDY G. I. MAIL COURSE PROGRAM

A plan to make it possible for ex-service men to take up their correspondence courses where they left off when they were discharged was under consideration in at least one city high school this week.

Under the plan now being formulated the student will enroll through his local high school under the G. I. Bill of Rights for courses related to his job or in line with his chosen profession. The high school will provide a supervisor to direct the study program. Written lessons and drawing plates will be sent to the International Correspondence Schools at Scranton, Pa., for correction and further counsel.

During the war about a million service men and women were said to be enrolled through the Armed Forces Institute to study courses of the International school.

M. H. O'Neal, superintendent of the Rochester Division of the ICS has revealed that the plan is being considered by Aquinas Institute here.

According to ICS officials the plan has already been inaugurated at the Canandaigua High School.

It is expected to appeal mainly to veterans with family obligations and without high school diplomas who might find it difficult to undertake college training under the G. I. bill.

"MELODY MEN" HEADLINE VETS HOSPITAL SHOW

Jimmy Devine, "The Singing Master of Ceremonies" and his all-star variety show, will present a St. Patrick's program at the Veterans Hospital in Bavia on Sunday evening.

"The Melody Mutators" will be featured as the headline attraction, presenting a program of rhythm numbers.

Also appearing on the bill will be Stan Ward, comedian, Mary Lou and Betty Ann, Lore and Joey Cameron, Bill Fleming, Chips Bartlett, Evelyn Benham, Bob Pierce, Jerry Dennis and Alfred Bradshaw.

Red Cross station wagon will be at Broad and Exchange sts. at 3 p. m. Sunday to provide transportation for the entertainers.

LODGE NAMES NEW OFFICERS

Daniel Clark will preside as Court Deputy of the Court Flower City No. 336, Independent Order of Foresters, for the first time at the lodge's next meeting scheduled for Thursday, March 21 at 86 State St. Clark was named to his new post at the lodge's annual election meeting last week. INTRODUCING THE NEW ALLSTATE MOTOR OIL

You Can Now Have Compounded Motor Oil For Your Car

Yes, in our new ALLSTATE Motor Oil you get the lubricant that is refined and compounded by the same advance methods used for oil developed for the Army and Navy.

What Is Compounded Motor Oil?

Compounded Motor Oil is to ordinary motor oil what fine alloyed steel is to pig iron. So-called "additives" have been used to improve penetrative quality between close-tolerance moving metal parts—and to insure its adherence to friction exposed surfaces, and therefore its dependable lubrication qualities.

Why Was It Necessary to Improve Motor Oil?

Because of greatly increased horsepower, heat, motor speed, and greatly decreased tolerances between pistons and cylinder walls. Under changed lubrication requirements, brought about by engineering refinement and developments, yesterday's motor oils simply could not properly lubricate today's more powerful, hotter, more closely fitted, faster running engines.

What Other Improvements Are Present In Compounded Motor Oil?

Compounded Motor Oil, in addition to meeting the new lubricant requirements, contains a "detergent" which dissolves gum and sludge, and keeps it in solution so it can be drained away.

Compounded Motor Oil reduces motor "carbonitis" by at least 80%—imagine what this means to the smoother operation of your car, and to its longer life, with freedom from frequent overhaul.

What Compounded Oil Will Do For Your Motor

Specifically, Compounded Motor Oil will eliminate piston-dross—produce a much livelier, smoother, more powerful engine. It contains "Anti-Oxidant" which keeps oil from carbonizing—prevents forming varnish and lacquer deposits on pistons and cylinder walls—thus locking piston rings in caked grooves, rendering them useless—meaning lost compression and power.

Put New Life In Your Car With This New Motor Oil Equivalent to 35¢ Oils. On Sale Both Stores and Super Service Station.

Polka Political

By CURT GERLING

The recent press report that our own Thomas E. Broderick was being mildly boomed for the lieutenant governor's spot on the Republican ticket next fall brought on a paroxysm of tittering in local political circles. A lot of the boys remember 1938 when Mr. Broderick was being advanced for the same post. Mr. Dewey said "NO" then. Said it in a rather nasty way according to legend. The N. Y. gangbuster didn't "want any farmers on his ticket," although he may have said "upstaters." Mr. Fred Bonfecou from the metropolitan area was named to run and history shows that the GOP team had its ears pinned back in a howl when Governor Lehman who made a habit of such things.

We have our doubts that Mr. B (for Broderick) aspires to the post and we are equally confident that the dapper Dewey would not accept him any quicker in 1946 than he did in 1938. It just seems that Tom doesn't like Tom and Thomas doesn't like Thomas. You will recall that on recent visits by the Governor, no flags were unfurled, no red carpets unrolled, and all GOP local leaders were "out to lunch." We understand that Mr. Broderick is far more popular in Albany than Mr. Dewey is in Rochester—but not with the governor. At least it is not on record that the Iron-deposit melon breeder has access to the powder room or the ice box of the Albany executive mansion.

Nevertheless, no one has ever (See POLKA Page 5)

City Tin Pick-up Slated for Sunday

Because foreign shipments of tin to this country have not been resumed since the war and because the need for tin in industry is so vital to full production of American peace-time manufacturing processes, the nation's housewives are again being called upon to aid recovery by salvaging tin cans.

Next pickup for the Rochester area will be made on Sunday, March 30, the first roundup in the city since last October. The pickup should come as no surprise to housewives, as the Rochester Salvage Committee, headed by William T. Nolan has been publicizing the coming event throughout the winter and has continually pleaded for the cooperation of housewives in saving their used tins for just such a pickup. And because during the war years, Nolan has worked up a good healthy faith in the willingness of the public to cooperate in such campaigns, he and his committee are confidently expecting that the drive will net 8 to 10 cars of flattened tins. A recent checkup by the committee disclosed that approximately 70 per cent of the city's housewives have been saving tins for the drive.

The pickup will follow the pattern of those previously staged in the city, with a cavalcade of trucks starting out early on the morning of the 30th, manned by volunteers, and making curb collections from every address within the city limits. Plans for pickups at the same time in the surrounding towns and villages have not yet been definitely announced, but it is expected that they will follow the lead of the city.

OPPOSITION TO DAYLIGHT TIME INCREASES

Opponents of daylight saving time have either thought the proposition over more thoroughly before expressing their views, or else they just naturally think more slowly.

In early returns of an informal poll conducted by local newspapers stores and industries city council in deciding the matter, the "nays" were swamped under a 7 to 1 lead by those favoring the measure for the city during 1946. But as later returns continued to pour in, the proponents' lead has been cut, first to a 4 to 1 margin and later to a 3 to 1 advantage.

This week returns received at The Sun office showed an even more marked pickup in the vote of those against as compared with those for advanced summer time. Since last Thursday and up to noon yesterday, 48 vote against daylight time had been recorded at The Sun office while 73 favored the measure. This means slightly less than 2 to 1 for the measure.

However, because of the early lead they piled up, proponents of daylight time still held an overall 3 to 1 advantage over those against the measure. In the citywide referendum, City Clerk Thomas O'Leary has reported a total of 8,067 persons in favor of the change and 2,843 opposed.

Residents of Rochester have three days left in which to cast their votes, with the polls set to close April 1.

Police Deny Blame For Heavy Traffic Toll

IN THE SPRING A YOUNG MAN'S FANCY—Yes, his fancy is very apt to turn toward the young ladies—especially if it's the first day of Spring. Even though he is only six years old, young Norman Holtman, 245 Newton Rd., has an eye for beauty—you should see the little bundle of cuteness with whom he is here posed. She is seven-year old Jeanne Wittman, 2484 Ridge Rd. W. If you want proof that they're a cute couple, look on Page 5 for another view of this pair.

ARRESTS JUMP 600 PERCENT OVER '45 PERIOD

Rochester's traffic accident toll is on the increase! All are agreed on that—newspaper reporters, police department officials, traffic engineers and even the man on the street who has taken the trouble to read the figures.

But there is very little agreement as to the reason for the higher toll.

Recent newspaper reports have largely blamed the police department, intimating that enforcement of traffic regulations has "let down."

Police Dispute Charge

But you can't make Capt. George V. Heisel, the police director of traffic, believe that! And he has some mighty interesting figures to back up his assertions that "increased driving due to the absence of gasoline rationing" is more responsible than anything else.

Accidents Up

In a report of traffic violation arrests for the first ten weeks of 1946, Heisel today showed that while accidents are up from 50 to 75 percent over last year, the enforcement record for the same period has risen 602 percent.

His report shows that fatalities from traffic accidents during the first ten weeks of 1946 have doubled over the same period of 1945. Personal injury accidents are up 76 percent while property damage accidents are up 45 percent.

Arrests Jump 600 Pc.

Comparing police work during the 10-week period, department records show that arrests for moving violations—which are the real criterion of traffic law enforcement say the experts—have increased from 115 in 1945 to 807 in 1946.

This, thinks Capt. Heisel, proves conclusively that it is hardly the police department's fault because more cars traveling more miles are having more accidents. He points out that last year strict gasoline rationing was in effect. This year motorists can get all the gas they want. But the same cars which were considered "old buggies" last year are still on the road, still older, and still more vitality in need of major repairs.

KAY'S COMMENTS

"Gals" if you would like to hear about a LIQUOR STORE—that's building its business on service—here it is—MONROE AVE. LIQUOR STORE—located at 985 Monroe corner of Shepard Street. You get what you ask for—a ample stock makes selection easy. As a week-end SPECIAL—they are offering POWER'S MADEIRA very pale—fine dry WINE—imported from Portugal—for exactly \$1.35 a fifth. Drop in and "stock up." You'll be welcomed. MONROE AVE. LIQUOR STORE—985 Monroe corner of Shepard.

Like mother—like daughter—matching print dresses made of brown and green cotton—yoked in a crisp white eyelid and buttoned down the back. Mother's dress is about thirteen—daughters—about four dollars each. Cute idea—for Louise and her fast haired daughter Ann.

A pleasing contrast of beige and navy is good this season. The sweater suit has a single-buttoned jacket cut to reveal the navy crepe vest—with cuffs to match. Other color choice is navy with beige or Kelly green. About fifty bucks.

Neatest trick of the week—the addition of a SMART LINE OF SUITS at ALICE DRESS SHOP. Included are the long jacket—(so good this season)—also the beloved bolero—and the becoming tie front. Priced \$15 and \$17.95. SKIRTS have also been added—boosting superb tailoring—gay plaids and of course blacks. Priced \$4.90 to \$8.95. SLIPS also are yours for the asking—tailored to perfection—in wonderful quality satin.—Of course as I always say—ALICE DRESS SHOP have adorable dresses—highly styled—priced \$8.95 and up. The selection is adequate for easy selection. Located 630 MONROE—corner Wilmer—Open Eve.

Anywhere you wear it—you'll be prettier—and smarter—in a frock from the "800" SHOP. Their selection this Spring is "out of this world." At this "Moresse" sponsored shop—clothes are carefully selected at the source for every type of women. Tailoring is superb—prices are right—\$8.95 and up—colors are beautiful—pastels—black with color combinations—prints—navies—etc. Did you know that the "800" SHOP make a specialty of MATERNITY DRESSES—and they are adorable—also priced \$8.95 and up. If you're in need of this type of dress drop into "800" SHOP located corner of Monroe & Canterbury—Open Eve.

Smart spring pleats—in—at RIPTON DRESSES. And what does a mother for you than a becoming dress. BEST WISHES

It is a privilege to welcome to this column a NEW DRESS SHOP. It is under the supervision of HILJA MAXNER—who has named her shop—DELLETTE SHOP. Hilja was recently discharged from the Army—she held an important post—working on no less—if you please the "Atomic Bomb." Isn't that interesting? This pleasant shop is "stocked" with beautiful fresh merchandise—all sizes—all styles—all shades of lovely dresses marked \$6.20 up. The EVELYN AUDEN junior line is also included, starting at \$12.95 up. Skirts are also in evidence. Why don't you drop in and select your spring wardrobe. You'll be pleased I know. DELLETTE SHOP, 889 MONROE AVE., two doors from Woodlawn. Open 12 to 9 P. M. daily.

Mrs. Carter's luck is still holding—she continues to be able to find the most adorable HATS you'll see round. SAILORS laden with Daisies are adorable—the Flowers hats are smart as all get out. Simple but elegant. As for BAGS, they are lovely at this popular shop. Plastic Patent—Genuine Leathers etc., at modest sums. CARTER HAT SHOP—located 638 Monroe Ave.—Open Eve.

Much Value—Little Money—this is the motto for Spring dresses at ZWEIFG'S. They were never lovelier, smarter—and more becoming. You'll find jerseys, rayon on in pastels—and blacks. Half-sizes priced \$6.75 and up. Dressmaker SUITS 100% wool in sizes 12-14-16 beautifully tailored—in gorgeous pastel shades.—Drop in and say I sent you, make it today while the selection is at its best—ZWEIFG'S DRESSES—240 ROSEDALE—Off Monroe—Open Eve.

TANGY LOBSTER

Place 1/3 cup butter or margarine, 1 teaspoon Worcestershire sauce—1/2 teaspoon salt, pepper to taste—1 tablespoon lemon juice and 1 teaspoon dry mustard in top of double boiler. Melt butter over hot water, stirring to blend well with seasonings. Then add two cups canned lobster pieces and cook for just five minutes. Longer cooking may toughen the lobster meat. Serve on toast with lemon wedges. Serves three or four, if you're not a pig.

A tiny capelet adds a gentle feminine touch to a quaint dress of rustling velveteen—soft in me—one of the new fabrics. It has a molded bodice—big skirt—and nosegay of roses at the pinched-in waist. Sells for about twenty bucks—A mere bag of shells.

DECREES OF FASHION

Dominating the coat scene for spring are short, boxy jackets with deep armholes and big sleeves bloused midway between wrist and elbow. Practical version of the new style chosen by CBS actress Fran Carlton has a cuff with two buttons which holds the sleeve at bare-arm length or fits the wrist to cover dresses and suit jackets with long sleeves. Fran selected her Spring topper in the season's newest green—called "hunter," a soft but deep shade that complements or blends with red, brown, navy grey and a multitude of pastel hues.

Individualistic as the various collections of high style designers have been, one common note is built up by practically every one of the pace-setting costume creators. It's the printed dress and matching jacket. This simple, wearable type of dress takes on great personality in the hands of expert cutters and fitters who accent their adept use of material with novel self-fabric trimming devices, like

applying the pattern outline against an inserted belt or yoke of solid color. Exclusive print patterns in each review indicated definitely that the all-over flower design has been replaced by interesting geometric figures, filigree variations and conversational scene artistry in unusual color combinations.

Stepping directly from the kitchen into the social register, the once-lowly kitchen apron is perfectly at home in every party scene. Having grown style-conscious during the war-time years, these utilitarian standbys assumed a glamor befitting their important position. Original form of the little tie-on numbers remains the same but shining satin, rich faille and gay crepes replace stodgy fabrics of scullery use. If you're clever with the needle, try the plan of Edith Evans who makes bright style with a regular apron pattern and luscious fabrics, adding sequin or floral applique trim.

Grocers Push Repeal Of Tax On Margarine

The New York State Food Merchants Association, Inc., has called upon congressmen from this area to reveal their positions on the association's proposals for action on legislation which would relieve margarine of Federal taxes now penalizing the distribution of the product.

The request was made in letters sent to each member of the state's congressional delegation and signed by A. F. Guckenberg, executive secretary. The letter cited the currently intensified shortage of both butter and margarine and specifically called for passage of "that portion of H. R. 579 which would eliminate the \$6 Federal license fee retailers of margarine are required to pay. The letter described the license fee as "unnecessary and unjust."

"Why should we have to be licensed to sell this product," the letter asked. "To make matters worse," it continued, "the supply is so short retailers can't get enough to warrant paying for the licenses they have secured."

Current inability of grocers to obtain enough margarine to cope with customer demands is attributed in part to limitations imposed by government allocation of essential food fats to production of the bread spread. Thus many grocers have begun to point out that they are required by old-fashioned statutes to pay a Federal license for the right to sell a food product that is limited in supply by newer Federal regulations.

The bill, now pending before the House Committee on Agriculture, also would abolish other Federal taxes on margarine including the special 10 cents per pound tax on the colored product.

NEW LEGION POST ELECTS OFFICERS

Charles Stauber has been named commander of the newly-formed Julius Stoll Post of the American Legion. The group, with 35 charter members has sent its charter to legion headquarters for approval.

Other officers named by the group which is composed of World War II veterans are: Otto Voelz, 1st v. c.; Phillip Grubb, 2nd v. c.; Werner Haynes, 3rd v. c.; Melvin Sals, post adj.; John Pankrath, sgt.-at-arms; Joseph Harritty.

Inside Hollywood..

"Forever Amber" the much-discussed-torrid novel, is being translated to the screen by Twentieth Century-Fox. Estimates of the cost of producing the film version range as high as \$13,000,000, which is \$1,000,000 more than the production budget of "Wilson." Peggy Cummins, the "Amber" of the film, will appear in all but one of its 318 major scenes, which means that the English actress, who makes her American debut in this film, will work continuously during the 103 days of filming, except for one half-day.

Director John Stahl insists that the screen play of "Forever Amber" is definitely not a "synthesized affair." It is an exceptionally faithful adaption of the book, story-wise, but without its definite expressions and dialogue. He does not expect censor trouble.

Douglas Fairbanks, Jr., back in Hollywood to resume his film career after an interesting and exciting experience in the Navy, has the title role in RKO's Technicolor picture "Sinbad the Sailor." It is expected to cost more than \$2,500,000 but is strictly ersatz as far as relationship with "Sinbad" of Arabian Nights fame is concerned. Only the character of Sinbad and a suggestion for the settings have been borrowed. The rest will be essentially Hollywood and imaginative.

known as the Highway to the Stars.

Jeffrey Berneer wants the story of Alcoholics Anonymous and has offered \$25,000 for it. However, the authorities appear to want to remain anonymous because so far, they haven't replied to Berneer's bid.

Frank Morgan is scheduled to take over for Jack Benny on the radio during Benny's summer vacation.

Boris Morros and Bill Le Baron plan to bring the greatest musical artists of the day to millions of listeners in their Technicolor musical, "Carnegie Hall," which will be released through United Artists. Already signed are John Charles Thomas, Mischa Elman, Vladimir Horowitz, Jose Iturbi, Lauritz Melchior, Bruno Walter and the Philadelphia Symphony Orchestra, Serge Koussevitzky and the Boston Symphony, Walter Damrosch, Alec Templeton, Lilly Pons and Arthur Rubenstein. On the popular side will be Tommy Dorsey, Vaughan Monroe and Benny Goodman with their orchestras.

George Raft, who once played professional baseball, is sponsoring a softball league among his 90 fan clubs. The winning team will be given a free trip to Hollywood this summer.

Specialty Shops Renew Monday Evening Hours

Because many Rochesterians seemed to miss the wartime Monday evening shopping hours, more than a dozen downtown specialty shops this week renewed the practice of remaining open on Monday evening for three hours after the regular 5:30 p. m. closing time. At least until Easter, the following stores will remain open until 8:30 p. m. each Monday evening: Darling Shop, 190 Main St. E.; Everybodys, Inc., 46 State St.; Jenny Shop, 15 Clinton Ave. N.; Joel's, 215 Main St. E.; Jonas Shoppes, 170 Main St. E.; La Bori, 60 Clinton Avenue S.; Outlet Credits Clothing, 105 Clinton Ave. S.; Sally Frocks, 218 Main St. E.; Stephen's, 210 Main St. E. and 78 Clinton Ave. S.; Whitney's, 267 Main St. E. and Wilbur-Rogers, 172 Main St. E. Others are expected to join the plan.

Downtown furniture stores will also continue their Monday evening shopping hours, a custom which they never dropped.

Reports from the first Monday evening period were encouraging, according to spokesmen for the affected stores.

Military information: Controlled bombs, in the next war, will make it unnecessary for bomber crews to fly over enemy territory.

CHAIRMEN NAMED FOR LOCUST HILL EVENT

Mr. and Mrs. C. James Gibbons have been named chairmen of the committee making arrangements for the next Sunday night supper at Locust Hill Country Club, scheduled for March 24.

Dinner will be served from 6 to 9 p. m. with reservations limited to 150 persons.

Announcement has also been made that music for dancing will be provided at Locust Hill on Saturday, March 23 and 30.

RABBIT BREEDERS PLAN SPRING EXHIBITION

Annual spring show sponsored by the Rochester Rabbit Breeders Association will be staged in Convention Hall on April 13 and 14, according to plans announced by President Glenn Taylor this week.

The show will be held in conjunction with the mid-year meet of the Eastern Rabbit and Cavy Fanciers' Association. Entry blanks have been mailed to all local members of the organization as well as to fanciers and breeders throughout the east. Additional blanks may be had from Fred Stone, 10 South St., Pittsford, N. Y.

POLKA

(Continued From Page 1)
said that our Mr. Broderick was not a good politician and come election time he will put his personal feelings under the Headquarters orientals and do his darndest to turn out the vote. Although, if Mr. Dewey runs a wee bit behind the local ticket it's unlikely that Mr. Broderick's appetite will in any way be affected.

Mr. Jim Meade is a very nice guy and an able statesman and we would just as soon he received the nomination for Governor on the Democratic ticket as any one else we can think of at the moment. However and contrary to the apparent belief of many, including Congressman (ex) George Kelly we think that there are a whole lot of "smoke-filled" rooms to be aired before the candidate for the post is set.

The opposition sounds slightly like the members of MacNamara's Band. The leader of the band being none other than James Aloysius Farley. A Mr. Kelly of King's county (playing the Bassoon), a Mr. Flynn of the Bronx (on the pipes) and a Mr. O'Dwyer who could tootle a few unmelodious bars on the flute if he chose.

These sons of the Old Sod have a lot to say on who's going to be the candidate and as a hand they haven't made any selections that any one knows of, and if they have, they haven't rehearsed it in three part party harmony.

Try as many have to make something of the Brownell resignation as chairman of the Republican National Committee it all simmers down to four reasons, ranging in age from four to eleven years. Mr. Brownell who is not stoop shouldered from carrying around pockets laden with kronen and keopeks felt that he had had honor enough and better scoot back to his law practice and the business of making an honest buck. His four reasons probably find wheateas far more palatable than a bowl full of press clippings and even a Republican can't pay the rent with a sheaf of handshakes. Brownell probably did as much for Dewey as any chairman could have and it's the opinion of many that he got him closer to the White House than he'll ever get again.

The other day Harold E. Stassen went on record as saying that Republicans should nominate "a young man" in 1948.

It's quite a coincidence that Harold is the youngest, by nearly ten years, of any thus far mentioned.

The rumor hath it department says that Roy Bush is grooming a veteran to wrest the D. A. job from Danny O'Mara. The veteran has seen lots of "action," something Mr. O'Mara seems to be short of these days.

There is even talk of a Democratic Judy Weis to charm a few votes into the Democratic column this fall.

The residents of Flini St. who called to thank The Sun for being instrumental in the dis-

Letters To The Editor . . .

When is the danger to subway passengers and crews due to the negligence of the company in not putting safety glass in the subway cars going to be recognized and cured?
Several accidents which could have been serious have occurred but no reports of them have been seen in the local papers. Anyone talking with the crews could get the truth.

Obstacles have been placed on the tracks such as chairs, logs, etc. which derailed one train and will cause a very serious accident unless the company hires a live detective or detectives instead of a half dead one to ferret out this thing.
Boys stand on the banks and throw rocks and hard snow balls through the windows throwing broken glass all over the motormen and passengers. One motorman is in the hospital and others have been cut from flying glass. Someone shot a bee bee gun through one of the car windows and the glass got into a woman passenger's eye. Nothing of which, as I have said, gets into the papers.

Ed Randall's Scene & Word

I don't know if J. Allan Doyle of the Rochester Convention and Publicity Bureau is responsible for it or not, but our thriving community is receiving nationwide publicity through the most recent issue of Captain Marvel Adventures Comic Magazine.

The popular (with the young or set) Captain Marvel takes one of his mythical trips and Rochester, N. Y. is the scene of his adventure this time. He is pictured arriving at the Municipal Airport, being greeted there by news distributor Moey Manson, who whisks the gallant Captain around the city to view some of our more noted sights. He meets Frank Gannett and other Gannett executives, performs one of his gallant deeds of derring-do and departs with a loud and resounding "Shazam!"

I don't believe there is any truth to the rumor that the dashing Captain's fabulous

strength was unable to break up the Main Street nylon line.

The other day a call came into the Road Service Bureau of the Automobile Club. The caller, after identifying himself as a member of the club, requested that a service car be dispatched to his garage. "I need help," he pleaded. "I have a singing tire on my car." "A what?" asked the dispatcher. "I never heard of that. What in the world is a singing tire?" Came the reply: "A flat."

Social work is a laudable calling and it has developed many noble and world-famous characters. Here is the story of one whom it did not benefit at all. The central character of this little tale is a shy, wealthy young lady who decided one day she was living a selfish, worthless life and that there must be something she could do to help her fellow human beings get a little more from their sojourn on this mortal sphere. So she went to an agency and told them she wanted to help in their good work. "I can't do much," she explained, "because I have always lived a sheltered life. However, I would be glad to do what I can and call upon some of the more unfortunate families and bring what little sunshine I could into their drab existence."

So they threw the book at her. They gave her a railroad ticket and instructions on the best way to treat the families

in the particular community she was to visit. Lightheartedly she boarded the train and started on her mission of mercy. Finally, the conductor called the name of the place to which she was bound and she alighted. The village consisted of a windowless waiting room and four or five shacks, with sagging roofs, shaky walls and a general air of destitution. Discouraged but not daunted, she made her way to the nearest shack and knocked on the door. Shuffling footsteps finally proclaimed the approach of an answer to her knock and the door opened. Standing in the doorway was a figure approximating that of a boy, with the difference that it

stood about two-and-a-half feet high, had a head nearly the same size as a full-grown watermelon and a body of roughly the same shape.

Our heroine finally recovered her breath and said: "Hello, little boy." "Huh?" came the answer. She tried again: "Are you all alone here? Are your mother and father at home?" "Uh, uh," he replied with some emphasis. "Have you any brothers and sisters?" she asked. Finally, the wall of reticence crumbled. "Uh, yeah," said the apparition, "I got a brother. He's at Harvard." This came close to flooring the bewildered gal, but she gave it another try. "What's he doing there?" Slowly closing the door, the boy replied: "He's in a bottle, lady. He's got two heads."

NABS FOOT-LONG PIKE FROM HIGHWAY

Snow Hill, Md.—While driving his automobile about four miles from the city, Fred Pennewell, farmer near here, saw something flapping on the road. He stopped and nabbed a one-foot pike. It was two miles to the nearest mill pond.

A Surprised Thief

Portland Ore.—A woman, waiting for a bus, was delighted when a thoughtful man offered to hold her heavy shopping bag for her. She had the laugh on him, though, when he ran off with the bag—the bag contained the body of a dead dog that she was carrying to a relative's farm to bury.

Asks Cooperation
In making his report, Capt. Heisel warned that the city was face to face with a rising toll "which cannot be checked by a single agency." He admitted, that the overall traffic picture was "not good" and called for "cooperation of the entire community to keep the accident rate within bounds."

That Knock May Bring You \$25 In Cash

When your Sun carrier knocks at your door to collect a dime each month, he is offering you a golden opportunity to win \$25 in cash without further effort on your part. Some sustaining subscriber wins each week. You may be next. The payment of 10c enrolls you as a sustaining subscriber for the month marked on your official receipt.

THE PLAN
Each month Sun carriers collect 10c from those readers who wish to pay them. The subscriber is given a receipt and his or her name and address is entered on the receipt stub. This stub is turned in to The Sun office where it is entered in a weekly drawing for \$25 in cash. Each stub is valid for all drawings during the following month.

Your Carrier keeps a large portion of your dime as his performance bonus (in addition to his regular salary.) Balance of the dime is returned to subscribers in the form of cash awards.

Polka Political

By CURT GERLING

Last week the local Republicans' big mouth piece touched off the first of the verbal barages designed to unseat Congressman George Rogers in the forthcoming election. The humiliation of having a Democrat represent a Rochester district is slightly more than Mr. Broderick and his boys can stand.

Mr. Harold S. W. MacFarlin, in his address at the eighteenth ward Republican Club, stated that Mr. Rogers got in by 1377 votes, but he didn't explain how or why. Harold was filling his ads with chatter about Rochester's three-to-one GOP registration preference just last autumn, but the voting record shows it is getting so there are only enough Republicans to eke out a slim plurality in what has always been considered a safely Republican city.

Dear Mac accused the Democratic administration of bungling, padding payrolls and otherwise cutting up. He was too much of a gentleman to mention what a lousy job his own party had done in the city of Rochester, in public works, housing, and tax relief. He kept a straight face all through his tirade of generalities and for (See POLKA Page 6)

\$25 Winner
Mrs. G. W. Gleislauf of 89 Nellis, Park is the lucky winner of this week's \$25 cash prize, offered by The Sun each week to its sustaining subscribers. This is the reward Mrs. Gleislauf gets for paying her Sun carrier, Norman Shaddick of 8 Ethel St., 10 cents. Norm incidentally collects an extra five dollar bonus.

TIN CAN PICK-UP SET IN CITY FOR SATURDAY

Tomorrow evening is the time to place those saved and flattened tin cans at the curb for the spring pickup slated for Saturday in Rochester. William T. Nolan, chairman of the Rochester Salvage Committee, sponsors of the drive, this week stressed the importance of proper preparation of the cans before placing them at the curb. Tops and bottoms should be removed and then the cans flattened. (See TIN PIC-KUP Page 5)

CHEERED — Robert F. Wagner, Jr. (left) drew large rounds of applause from a Convention Hall audience Tuesday evening when he said he was "amazed" to learn that Rochester, at this late date, didn't even have a housing authority. Veterans at the rally called for immediate action to get adequate housing — and quickly.

Vets 'Razz' City's Housing Efforts

While the august City Council was meeting in solemn session Tuesday evening to adopt measures toward alleviating the housing shortage in Rochester, members, friends and guests of Rochester Veterans Committee for Housing met in Conventional Hall to give the solons the "raspberry" for their "inadequate efforts" and formulate plans of their own to get increased action on homes for veterans.

The council okayed the plan of Rochester banks to erect homes for 152 families on a city-owned plot at Waring Rd. and Fernwood Ave. Previously, the city had announced plans for construction of 300 temporary homes in the northwest section of the city.

But this, said the veterans, was not enough. They quoted the results of a survey showing that there were 450 families in the city with no homes whatsoever, 500 families tripped up, several thousand doubled up and more veterans returning to the city at the rate of 300 a week.

AXED FIREMEN LEARN POLITICS 'THE HARD WAY'

Seventeen wartime members of the Rochester Fire Department have learned more than proper methods of fighting fires since they joined the smokestacks 16 months ago.

They have learned considerable about the ways of politics and politicians. And they also know what the words "run around" mean in political circles.

Recruited from the ranks of auxiliary firemen during the war manpower shortage, the firemen, who are to be dismissed Monday night, they were warned when hired the posts were only temporary. But, making a strong effort to retain their places in the department they contacted anyone and everyone who might be able to help them. City council members, ward leaders, former members, (See FIREMEN Page 5)

Snow Gone — But Cost Lingers On

The winter's snow may be over, but the excitement in City Hall over the costs of its removal are just beginning, according to reports emanating from the nerve center of the city's government.

OPPONENTS HIKE DAYLIGHT TIME VOTE TOTAL

The Department of Public Works, which has had more than its share of adverse publicity during the past 18 months is "in the soup" again, and as usual, the subject is "snow."

According to City Hall informants, the storm broke on Monday, March 18 when City Manager Louis B. Cartwright and Deputy Comptroller Robert P. Aex called for a conference with Public Works Commissioner August Wagoner, after figures revealed that the department was \$27,000 in the red beyond the regular and special appropriations of the City Council for snow removal.

Originally the Council set aside \$400,000 for highway snow removal, plus \$125,000 for sidewalk snow removal. Then, along came the November storm and as might have been expected, the department fell flat on its face in its usual and customary manner. Whereupon, in early January, the council tapped the till for another \$400,000 and tossed it into the department hopper.

More Money — Less Snow
Figures now show that the department spent all of that too, and added to it another \$27,000 on the cuff, as compared with a total city expenditure of \$645,000 for highways and \$147,000 for sidewalks in the 1944-45 season. It is interesting to note that this year's official fall was recorded as 48 inches, against a 96 inches fall for the previous year. Apparently the (See SNOW Page 4)

KAY'S COMMENTS

Thirty three leading brands of WHISKEY — and fourteen leading brands of GIN — this fact makes your selection easy at MONROE AVE. LIQUOR STORE. This store is built on service plus much a plentiful selection so when you shop you don't just stand there and "ponder" what to buy. Don't hesitate to ask questions — as to "mixing" the perfect drink at MONROE AVE. LIQUOR STORE. Located 955 MONROE AVE. corner of Shepard.

No button pushing — no waiting for water to heat — when you have an AUTOMATIC HOT WATER HEATER in your home. You'll find a constant supply of hot water for bathing — dishwashing — clothes and other needs. Just turn the tap — and there it is. These wonderful AUTOMATIC HOT WATER HEATERS will soon be available at your nearest appliance dealer — or your favorite plumber. Place your order NOW. Drop in and talk it over with your ROCHESTER GAS & ELECTRIC — located at 89 East Ave. AUTOMATIC HOT WATER HEATER.

LLOYD'S The flowers that bloom in the Spring — and how they're blooming at LLOYD'S. To my feeble way of thinking — there isn't any other time of the year that flowers are so beautiful. So when the occasion demands FLOWERS — Call Main 7693 LLOYD'S FLORIST. They make a specialty of FUNERAL WORK — their flowers to the sick and shut-ins — are always beautifully arranged — delivered promptly — and most important you don't have to pay, the family silver to buy a "good showing." LLOYD'S LEAD AGAIN — POWERS HOTEL — Reynolds Arcade — Candy has also been added to the already imposing line of LLOYD'S. Main 7693.

WOMEN'S DRESSES at Ripton's are the usual super value — super beauty — this shop is famous for. Finely finished — beautifully detailed this type of dress is ideal for the woman who requires half-sizes. Flattering color combinations — also pastels — checks — and prints. Of course black too is included. Prices start at \$8.95. Regular and Junior in profession; dresses also to be found at RIPTON DRESSES. Pastels — color combinations in becoming styles all are yours for \$8.95 and up. You'll like the "treatment" you receive at this popular shop — the personnel is always gracious — never hurried — their one aim is to please YOU. So make RIPTON DRESSES your headquarters — for your Spring wardrobe. Located 739 MONROE AVE. Open Eve. PS. Cottons are "in" — hurry if you're wise.

necklines and front the belts. All WOOL shetlands and wool creps. And here's the best news of all — they are marked just \$20. Sizes range from 10 to 20 — and the colors are as follows: BLUE — GREEN — GOLD — GREY STRIPES — CHECKS. You know of course by now that this year's crop of suits are softer, younger and so much more attractive and easier to wear. Next BOY COATS breathing Spring freshness. These Boy Coats are the favorite of many woman and small wonder — they are easy to wear — their bulkless weight is prophetic of Spring — 1946. They are all WOOL with two big patch pockets. Dress them up or down as the occasion demands. They are suitable for street wear — but are just as smart over your dressy clothes for a gala evening. These Boy Coats are marked just the same price as the Suits — just \$20. Sizes 10 to 20. Try a suit under one of these smart coats — and there you have it — your Spring ensemble. For you like like SHIRT COATS — you'll find new youth and beauty in these coats. You'll find, you look different in this year's shirt coats. Try a tried model to accent a tiny waistline. You'll go anywhere and everywhere in a boxy shirt. They are for the young woman of course or for the small woman. You may choose your favorite color from creamy pastels or checks. The size range is from 10 to 20. At EDWARDS you may use budget or payment plan to purchase the above. REMEMBER EDWARDS — Basement for value. — PS. In EDWARDS — Buy-Way Basement grab yourself a copy of the HANGY HANGERS. Sturdy all metal skirt hangers with easy-to-work clips priced just 13c. — Combination coat and skirt hangers. Choice of two styles — Wood and metal or all metal for only 23c. So hurry to EDWARDS BASEMENT — for these wonderful "buys."

Spring alterations call for blue or pink crepe — a two-piece — shirred for fullness across the hips — The buttoned jacket is prettily smocked and detailed with tucking.

In these days of shortages — you'll find, if your refrigerator is "stocked" with REAL SEAM TEST CREAM — most of your troubles are over as far as the lesser question is concerned. Even if you "run out" of cream — you'll have to buy — for instance — a "store pudding" — and heat it through again — and top it with fluffy heaping REAL SEAM TEST CREAM — whipped to perfection — add a dash of flavoring — vanilla or almond and you have the dessert your family will rave about. To accomplish all this — all you have to do is pick up your phone — and call GLENWOOD 144 — BRIGHTON PLACE DAIRY — and ask this friendly company to deliver REAL SEAM TEST CREAM to your door. It is available in half and pint size — but the pint is more economical — and it WILL KEEP. Order these 75 cents — BRIGHTON PLACE DAIRY (Division of General Ice Cream) — 45 Fulton Ave. — Glenwood 144. PS. Please return your empty bottles — there is a shortage. Thanks.

Because you love nice clothes — shop the "800" SHOP — cause that is exactly what you'll find. Beautiful tailored clothes — dressy clothes — casual clothes — all priced \$8.95 and up. As for selection it is excellent — as for color — you'll find striking color combinations. Black and navy MATERNITY DRESSES are a specialty at the "800" SHOP. They are just as smart as the regular dresses — and all cut with an eye on your ever expanding future. These dresses are marked — \$8.95 and up. A group of dresses have been reduced to \$3.95 — and they are nice wearables and worth much more. "800" SHOP located corner MONROE & CANTERBURY — Open Eve.

DELLETTE HILJA MAYNIER is to be complimented on her selection of frocks in her new shop — called DELLETTE SHOP. They are adorable — in perfect taste — with a selection that will amaze in these times — of hard to get items. The EVELYN ALDEN Junior lines is also in evidence. — and what honeys these dresses are. Starting at \$12.95. Other dresses are marked \$6.20 up. Blouses and skirts are also to be found. Drop in and say "hello." You know Hilja was recently discharged from the Army and would appreciate your patronage. DELLETTE SHOP — 489 Monroe Ave. — two doors from Woodlawn. Open 12 to 9 daily.

CARTER There's something about a lady wearing a CARTER HAT — that turns all heads. Those MILAN STRAWS are "out of this world." Some trimmed with black satin — they are really beautiful. The off-the-face — FLOWERED HATS are becoming — and ideal for this time of the year. As I have said before — the GAGE LINE is also carried by CARTER'S HATS. This popular shop start at the modest sum of \$3.95. JEWELRY start at \$1 and up. Ask Mrs. Carter to see the CHOKERS — and BRACELETS to match. They are smart as you know what. Also the MEXICAN DANCING GIRL — and the JEWELLED CROWN BAGS if you're interested and who isn't? This season see Mrs. Carter — Corday — Genuine Leather and Plastic Patterns are included in this stock. So grab your money — and make for CARTER HAT SHOP — located 636 MONROE AVE. — Open Eve.

Spending a little — get a lot — with very little time and effort — how to accomplish this — "Shop ZWEIG DRESSES. The selection is at its peak — including jerseys, rayon in pastels and of course blacks. Also half sizes priced \$8.75 and up. DRESS-MAKER SUITS 100% wool in sizes 12-14-16 beautifully tailored. Your choice of beautiful pastel shades. Drop in and see Mrs. Zweig — you'll like her — and you'll like her merchandise. ZWEIG DRESSES — 240 ROSEDALE — off Monroe — Open Eve.

They're everything you've ever wished for in a COTTON DRESS — those new arrivals at ALICE DRESS SHOP. They are superb quality — perfectly tailored — and selection included all sizes — even half sizes. Stripes in popular colors — plain colors etc. are yours for the asking. SUITS have also arrived — gorgeous shades — several styles including the longer jackets — the boleros — and the tie front. Of course the frocks at ALICE DRESS SHOP are as always — highly styled — wonderfully tailored in all sizes and colors. You'll find SLIPS — of luscious satin — also other outstanding buys in lingerie. ALICE DRESS SHOP — located 630 MONROE — corner Wilmer — Open Eve.

Clothes lines — that require no pins are available now. Clothes are drawn between two strands of rope and are then held securely with a pull. All the wash can be hung up from one post since the line goes around pulleys even when loaded with wet wash. Line comes in set with three pulleys. I can just see Glazy hanging out the window yanking on those pulleys.

PLAY AREA TO BE DISCUSSED AT PTA FORUM

Representatives of youth groups, recreational agencies, churches, businessmen and PTA organizations in the 10th ward are expected to participate in a "town meeting" type of discussion this evening in No. 7 school auditorium. The event is sponsored by the No. 7 school PTA and will get underway at 8 p. m. Such questions as, "Do boys and girls play in your yard?" "Are play spaces adequate in this area," and "Do we need a teen center in the Tenth Ward?" will be discussed.

Chairman is Dr. James Wishart, of John Marshall High School. Other speakers will include Ralph Cogswell, principal of No. 41 School; Howard Stone, a merchant; The Rev. Charles McCarthy, of Holy Rosary Church; Mrs. Mary T. Kinsella, principal of the sponsoring school; Vernon Parker, of the Y.M.C.A.; Mrs. Phillip Harris, representing the mothers; Charles Hawkins, a businessman; and Elmer K. Smith of the Board of Education physical department.

HOUSING . . .
(Continued From Page 1)

tion Hall meeting was Robert F. Wagner, Jr., who urged his audience to write their representatives in Congress urging passage of the Wagner-Elender-Taft bill. He said that only the "get-rich-quickers" and the "speculators" were opposed to the bill, but warned that while small in number, they were very powerful and advised the congressional letter-writing campaign to inform Congress of what "the people" think. He pointed to the approval of the bill by Senator Robert Taft as supporting his statement that even the conservatives of the nation saw the need for and were in favor of the housing bill.

Other speakers aimed their sharpest barbs at the city administration declaring plans for 300 temporary homes was the only result of four months of effort.

Arnold Miller, a representative of the CIO Veterans Committee declared that "the only language politicians can understand is the language of votes." He declared the veterans committee directly represent 15 to 20 thousand returned vets and would influence 40 to 50 thousand voters. He threatened that the day of reckoning for lack of adequate action would come on election day "in the language the city fathers can understand."

Other speakers included Bruce Percy, of the American Legion; Gerald Schaflander of the CIO committee, John Barrow, who acted as chairman and represented the American Veterans committee; Mrs. Leonard W. Jones, of the Better Housing Association, Lawrence

ROCHESTER REBEKAHS TO MEET APRIL 5

Members of Rochester Rebekah Lodge No. 174 will meet in IOOF Temple, 11 Clinton Ave. N. on Friday, April 5 at 8 p. m. Grand Noble Evelyn Tait will preside. The business session will be followed by a special program under the chairmanship of Helen Keegan honoring the lodge officers.

some reason never mentioned that Rochester, with its over-taxed down-at-the-heel Main St., is the laughing stock of a community calling itself a city. He never breathed a word that the Republicans have, but for a few short years always been in complete control of city and county government and only they can be held responsible for the fact that Rochester has had to fight its way out of bankruptcy and is to-day examined carefully by banking groups before it is granted loans for anything more than the price of a ham sandwich. If you are a Republican politician, such things are kept very, very quiet, like your uncle Joe's Saturday night benders.

The GOP is out to get George Rogers' extremely sparse scalp and will pour thousands of dollars into the effort and no

doubt hundreds of thousands of words, with both words and music by Mr. MacFarlin, and the dough by the job holders and easily-assessed Rochester economic royalists.

As it's City Hall policy never to let the right hand know what the left one is doing — quietly, without publicity and strictly sub rosa sixteen members of the Department of Public Works received pay boosts recently. Raises varied from one hundred to three hundred and fifty per person. (Incidentally and for Mr. MacFarlin's information here is a department for spending that makes the administration at Washington look like rank amateurs.)

Members of the nineteenth ward who occasionally voice displeasure with the leadership of Emmett Gauhn might note that of the sixteen members of the DPW getting pay hikes, nine of them were from the nineteenth. There are still twenty-four wards in the city, so it seems that leader Gauhn continues to do alright for his flock.

When Syracuse grabbed off the important "Port Of Entry" stop of the Colonial Airlines thus linking Southern and Western United States with the British Empire, Rochester again proved that its officials lacked the necessary qualifications to make it any thing but "a great Republic City."

Harold S. W. MacFarlin who also performs as Commerce Commissioner may have, and certainly should have, been somewhat taken aback. However Harold harrumphed, cleared his throat and said sententiously "the news was of no significance."

One of the outstanding possibilities for housing a generous group of "homeless" servicemen and their families has been carefully overlooked. The city-owned, tax-exempt Bausch home adjoining the Museum on East Ave., contains 24 rooms and lends itself nicely to inexpensive remodeling.

At the moment ex-museum director Arthur C. Parker, now retired as Director Emeritus, and Mrs. Parker are rattling around the establishment all by their lonesomes. Dr. Parker it seems has not only a whale of a lot of space to fill but a mighty soft touch. We understand that the good doctor pays no rent, enjoys janitor service and all the better points in finer living. Gas heat for example, and a bill one month

of \$233.00 for which the City Treasurer dipped into the taxpayer's till to meet and get his discount.

The boys who are "holding the line till '49" need a refresher course in accounting at the R.B.I. and a short talk from Ray Ball on property management with diagrams of how two and two still make four.

It is not our intent in any way to disturb the Director Emeritus, maybe he can't find a place to live either (certainly not one where the landlord doesn't come around each month) but he might at least, for the sake of appearances,

take in a few ex-G.I. roomers. We sincerely hope that Dr. Parker reads the daily papers and will fill out and mail a coupon to the Mayor's Housing Committee as suggested in their advertisements.

some reason never mentioned that Rochester, with its overtaxed down-at-the-heel Main St., is the laughing stock of any community calling itself a city. He never breathed a word that the Republicans have, but for a few short years always been in complete control of city and county government and only they can be held responsible for the fact that Rochester has had to fight its way out of bankruptcy and is to-day examined carefully by banking groups before it is granted loans for anything more than the price of a ham sandwich. If you are a Republican politician, such things are kept very, very quiet, like your uncle Joe's Saturday night benders.

The GOP is out to get George Rogers' extremely sparse scrap and will pour thousands of dollars into the effort and no

doubt hundreds of thousands of words, with both words and music by Mr. MacFarlin, and the dough by the job holders and easily-assessed Rochester economic royalists.

As it's City Hall policy never to let the right hand know what the left one is doing - quietly, without publicity and strictly sub rosa sixteen members of the Department of Public Works received pay boosts recently. Raises varied from one hundred to three hundred and fifty per person. (Incidentally and for Mr. MacFarlin's information here is a department for spending that makes the administration at Washington look like rank amateurs.)

Members of the nineteenth ward who occasionally voice displeasure with the leadership of Emmett Gauhn might note that of the sixteen members of the DPW getting pay hikes, nine of them were from the nineteenth. There are still twenty-four wards in the city, so it seems that leader Gauhn continues to do alright for his flock.

When Syracuse grabbed off the important "Port Of Entry" stop of the Colonial Airlines this linking Southern and Western United States with the British Empire, Rochester again proved that its officials lacked the necessary qualifications to make it any thing but "a great Republican City."

Harold S. W. MacFarlin who also performs as Commerce Commissioner may have, and certainly should have, been somewhat taken aback. However Harold harrumphed, cleared his throat and said sentimentously "the news was of no significance."

**Ward Red Cross
Team Plans Party**
The 1946 Red Cross fund gathering campaign is all over in
Rochester, but happy memories
of the drive linger on. At
least in the 24th Ward where
the soliciting team, under the
direction of Mrs. John Drexel
rolled up a record of 360 per-
cent of its quota to lead all
residential ward teams in the
city.

Plans have been made by the
group to celebrate that victory
at an informal party late next
month in the home of Mrs.
Drexel at 138 Canton St.
Other members of the team
besides Mrs. Drexel were: Mrs.
John Klemmer, Mrs. Nicholas

TIME FOR DECISION

Political Polka

By CURT GERLING

The orchidaceous Judy Weiss is keeping many an aspiring male on the proverbial "pins and needles." The uncomfortable aspirants are waiting for the lovely lady to say "no" definitely rather than "perhaps" to the Republican Congressional nomination.

One doesn't have to be a political sage to know that La Weiss is the greatest natural that the decidedly decadent local GOPers have in their bag of tricks. Mr. Average Voter would chivalrously pull down the lever under her name regardless of his politics. Partisans and non-partisans would like to have Monroe County contribute a bit of glamour to what is considered a pretty dull legislative body. The fact that Claire Luce, who mistakenly believes that changing her religion seriously affects her political chances for re-election thus leaving the lower House quite glamorous, would enhance the election of Mrs. Weiss. Mrs. Luce has either forgotten

COUNCIL VOTE AWAITED ON DAYLIGHT TIME

Poll Shows City Favors Measure By 2 to 1 Ratio

Whether or not Rochester has daylight saving time this summer is now strictly in the lap of the City Council. Polls of the informal referendum closed Monday night and City Clerk Thomas O'Leary reports that those in favor of the measure outnumber those opposed by more than two to one. The final count was 13,846 favoring and 5,659 against the time change.

It is expected that the council will take action on the matter at their regular scheduled meeting next Tuesday. Predictions are that the measure will be speedily passed. That being the case, Rochester will set its clocks ahead one hour on Sunday, April 28th along with the majority of other cities and towns in the

N. Y. CENTRAL SLATES TRAIN TIME CHANGES

After April 28 the Twentieth Century Limited, queen of the New York Central's fleet of passenger trains will chalk up the fastest time in history for the trip between New York and Chicago. Pushing the throttle ahead still another notch, the new running time will be 18 hours flat. It will pass through

FREE CONCERT—Members of the City Council have been invited to a free concert by the newly-organized Veteran's Little Symphony orchestra, a section of which is pictured here. Reason for the free musicale is the organization's desire to garner a contract to perform in city parks this summer, supplementing the efforts of the Park Band. They believe that once the council hears their sweet refrains it will be unable to turn them down. The matter of music in city parks is expected to be taken up at an early council session.

Newcomers Join Vets As Chest Drive Leaders

The Community Chest, due to launch its 29th annual campaign May 13, is going to have some seasoned veterans and some likely newcomers heading its soliciting divisions. Raymond F. Leinen again will be chairman of the Special Committee, which has the job of raising approximately half of the total quota—a quota that won't be set, of course, until the Budget Committee finishes its conferences with the 46 local agencies and makes its final report to the directors.

James W. Gray is succeeding George L. Todd as Individual Subscriber Division leader. Gray has worked in former campaigns in this same division as team worker, team captain, and district chairman.

NEW AGENCY TO HANDLE PERMITS FOR CONVERSION

A new agency to handle construction permits where the cost of converting a single dwelling into a double will exceed the \$400 limit set on such construction by presidential order is being created here, according to the Mayor's Advisory Committee on Housing.

In addition to pushing the construction of temporary units and permanent housing developments, the committee is active in aiding home owners convert their single dwellings to double units to help lick the current housing shortage.

Pointing out that the immediate

ARE MANY DPW EMPLOYEES OVERWORKED?

Payroll Records Show 'Padding' Or Illegal Overlooking

Is the City of Rochester deliberately overworking its employees in defiance of state law—or is the municipality a victim of padded payrolls? One or the other of these questions must be answered in the affirmative if payroll records of the Department of Public Works are to be believed. Among employees of the city division it is common gossip that at least one welder working out of the Dewey Ave. garage made as much in 1945 as did the Deputy Commissioner of Public Works. Another employee, a foreman working out of the Winton Rd. garage drew down nearly \$4,000 last year—at the rate of one dollar per hour. Several other foremen paid at the same hourly rate edged the \$3,500 class for their 1945 endeavors.

Two crane operators working out of the Oak St. garage got themselves into the higher brackets drawing more than \$4,000 each—all at one dollar an hour.

According to state law, the department is entitled to work

\$25 Winner

Mrs. George Stark of 23 Raymond St., is the lucky winner of this week's \$25 cash prize, offered by The Sun each week to its sustaining subscribers. This is the reward Mrs. Stark gets for paying her Sun carrier, Jack Bills of 8 By Street 10 cents. Jack incidentally collects an extra five dollar bonus.

KAY'S COMMENTS

SATURDAY
APRIL 20th

The season's most OUTSTANDING SOCIAL EVENT—the presentation of the "MET" at the EASTMAN THEATRE—Saturday evening April 20, "THE BARBER OF SEVILLE" is the opera selected. PATRICE MUNSSEL will lead a brilliant cast of Metropolitan Opera Co. Miss Munsel is just as lovely to look at as she is to hear. She is young and more important AMERICAN. Salvatore Baccaloni is the dominant role. This jolly, 360-lb. bass soloist will sing the role of Dr. Bartolo. One New York Critic after watching Baccaloni in the "The Barber" a few weeks ago wrote: "This opera might well be called 'Dr. Bartolo' since Baccaloni completely overshadows the remainder of the cast with the single exception of Edio Pini. Again his incredible acting—clear-cut diction, so understandable to those who speak Italian—his big resonant voice—his management of each telling gesture—all add up to the most perfect of all Metropolitan characterizations of the day. Doesn't all this sound like a perfect evening for opera lovers? I would suggest you "git" to the BOX OFFICE—EASTMAN THEATRE—today—and "buy" your seats for "BARBER OF SEVILLE"—scheduled for Saturday evening APRIL 20th.

REDUCE MILADY—Y O U R BULGES ARE SHOWING—in those new Spring clothes of yours. Why not cut down on that figure down to a size 16 and be able to look like "something" in your wardrobe. Here's how—call PETTIS Stone 6219—and LaPetitis will whittle you down to your own size—with the help of her BATTLE CREEK REDUCING LOUNGE—comfortably—with lasting results—and it won't cost you any more than a new "outfit." Make your appointment today.—Tel LaPetitis—I told you about her—you'll find her in the BURKE BLDG.

LLOYD'S In the Spring a young man's fancy—etc—while they confine it to young fancies—and for FLOWERS usually—at least—I have—and I'm young—(what am I saying)—down to "cases" order your FLOWERS from LLOYD'S. They will always "come through" with the kind of arrangement—you'll be proud to attach your name to. FLOWERS FOR ALL OCCASIONS. TWO STORES for your convenience. POWERS HOTEL—and REYNOLDS ARCADE—Main 7688 is the phone number. GANDY has also been added—it's an idea when you order flowers for the sick—the shut-in—or just for that glad you love.

While last year's sound extravagant but they are flustering and high up in the scale of fashion. There is nothing quite so lucky for evening.

With the pressure of increasing short-pleasure it is a pleasure to walk into the MONROE AVE. LIQUOR STORE—and find what you "want." It is also a pleasure to find such a charming "guy" to dispense with the liquid refreshments—in the manner "born." Any question on the subject "mixing" you'll receive expert "info." So why not receive expert "info." MONROE AVE. LIQUOR STORE when you think of what you "want" and seldom "find" 285 MONROE AVE.—corner Shepard.

Ever catch your breath over a dress—a less clean-cut perfectly appointed dress. Well if you haven't for a long time—"make" your hat and bag and "make" your RIPTON DRESSES. Here are "clothes" cut with grace—dedicated always to the feminine figure. WOMEN'S DRESSES are included in the imposing stock at RIPTON'S. And what hip-diminishing dresses, are these—priced at \$8.95 and up. Black, navy—stripes—checks—pastels—cut to fit the larger figure—or even the smaller—but shorter figure—without costly alterations. Of course REGULAR and JUNIOR are also to be found at RIPTON'S also starting at the modest sum of \$8.95 and up. Pastels—darks—color combinations—that are "just beautiful." COTTONS are also "in." Well for heaven's sake what more do you want RIPTON DRESSES—739 MONROE AVE.—Open Eve.

Charming young washables with company manners—are those COTTONS at ALICE DRESS SHOP. All styles—all sizes—even including the tie-front—the bolero the longer jacket—and of course the regular "stock" at ALICE DRESS SHOP is up to it's usual high standards. All sizes—all colors—in adorable becoming styles. Lingerie—has also been added—beautiful—slips—luscious satin—and other "must" items. All prices at ALICE DRESS SHOP have an eye on your budget—so why not drop in and say "hello." Located at 430 MONROE—Corner Wilmer—Open Eve.

DELLETTE SHOP—turns up with the REVELYN ALDEN line—in the comfortable guise of the most adorable frocks—you'll see in a dog's age. Combinations of stripes, pastels—darks—starting at \$12.95. Of course DELLETTE SHOP has their regular line starting at \$6.20 and up. These are very very nice too. All sizes—all styles—in those dresses you'll seldom find. I have told you before—but begging your indulgence—let me tell you about the owner of this shop

HILJA MAYNIER—recently discharged from the Army—she bears watching in this retail business. Why don't you give this shop a "whirling spree" when it comes to your Spring wardrobe. DELLETTE SHOP—489 Monroe Ave.—two doors from Woodlawn. Open 12 to 9 daily.

CARTER This combination is your answer to being well-dressed—this Spring. A beautiful WHITE MILAN STRAW TIE BAG—a GORGEOUS HUNK OF JEWELRY—in the shape of HANDS—earrings and pin to match—and presto—you are match—and presto—you are well-dressed. Of course you've been dreaming about. Of course you're not interested in White Milan—you'll find all colors—CARTER'S of course you've guessed by now—I am going on with Carter's stock MATRON HATS—in size 22—priced at \$5.95 and up. Other hats start at \$3.95 and up. Jewelry starts at \$1 and up—you'll find CHOKERS in this price group. Well—don't that enough for you?—CARTER HAT SHOP—636 MONROE AVE.—Open Eve.

The fitted dressmaker waist returns to us—with its narrow waist and dropped shoulders. Nice for those who can wear them.

ZWIG DRESSES have turned up the eye-catchers. A few of the eye-catchers are a few of the eye-catchers. Half sizes—priced \$3.75 and up. Your choice of pastels—darks—and prints. DRESSMAKER SUITS—100% wool in sizes 12—14. Your choice of beautifully tailored. Pastel shades. Hurry while you'll find what you want—at ZWIG DRESSES—240 ROSEDALE—Off Monroe—Open Eve.

I am one of those hostesses who are stymied—when it comes to planning dessert. But now—when I always have REAL SEALTEST CREAM stored in my refrigerator. Last Sunday—up until four o'clock—I didn't have any idea what to give my family for REAL SEALTEST CREAM—I threw a chocolate pie together—and whipped that delicious cream and there it was a perfect dessert—my Brother's favorite—and did they love it. You know REAL SEALTEST CREAM is delivered by BRITTON PLACE DAIRY—all you have to do—is call GLENWOOD 144—order it by the pint or half-pint. The pint is more economical. IT WILL KEEP—BRITTON PLACE DAIRY—45 Fulton Ave. Please return your empty bottles—if it will help loads.

It's automatic—it's always boiling hot—there never isn't enough of what am I talking about—AUTO-MATIC HOT WATER HEATERS—soon to be released to you by ROCHESTER GAS & ELECTRIC CO. No pushing of buttons—and waiting for water to heat—all you do is turn on the faucet—and there it is—ready for dishes—washing showers—cleaning—a supply that cannot be exhausted. You will be able to order this AUTO-MATIC HOT WATER HEATER—at your dealer—soon—or your favorite plumber. So hold your horses 'til then—R. G. & E.—89 East Ave.

Look your waist's diameter appeared now that you're wearing one of those adorable BOILER DRESSES from the "300" SHOP. The skirt is full in front—to cover that "tummy" of yours—the color is navy—trimmed with bright red. This is only one of the "adorable" you'll find at this well-stocked shop. Prices start at \$8.95—and almost any color you've seen in your mind to. MATERNITY DRESSES are also "stocked" and what an imposing line. Gadgets sewed in to "let your figure out" as you progress—and the colors are many—the styles varied—the quality of material—superb. Prices also start at \$8.95. The "300" SHOP is located corner MONROE & CANTERBURY—Open Eve. (Moress sponsored as you must know by now.)

At long last—EDWARD BISHOP are setting a new pace in Rochester—where—in their LINGERIE—SECOND FLOOR—Sleep as a second skin is the "ATLAN" Midriff Slip. Liberal Groups Plan United Action Drive

Plans for co-ordinated action to fight for the retention of OPA, to kill conscription, and to push for adequate housing, were discussed by representatives of Rochester's liberal, labor, Jewish and negro groups Tuesday evening in the Sheraton Hotel at a meeting sponsored by the PM Club of Rochester.

Declaring that the problem of liberals was to get united action and, together to take their message to the entire community, Dr. Kenneth E. Gell, chairman, called upon the group to appoint a co-ordinating committee to "explore the possibilities of united action among all groups sympathetic to the liberal cause."

Organizations represented included: Rochester Teachers Union, Council of Jewish Women, Thursday Action Group, PM Club, Rochester Group for Liberal Action, Central Trades and Labor Council, the CIO, American Labor Party, Saturday Action Group, National Association for the Advancement of Colored People, and two other groups who would not "permit their names to be publicized."

Speakers besides Dr. Gell included Miss Judith Wellerstein and Bernard Berlowitz.

SPEAKER LISTED FOR NOON LENTEN SERVICE

The Rev. James A. G. Moore, state associate congregational superintendent will be the speaker at tomorrow's special noon lenten service from 12:15 to 12:45 p. m. in the Baptist Temple under sponsorship of the Federation of Churches.

CONFUSION CLEARED IN LEGION POST NAME

That Charles Stauber is commander of a newly formed American Legion Post is certain. But just exactly which post he heads is another matter. Last week, it was reported that the name of the group was the Julius Stoll Post. However, some of its members now claim that it is the Richard Stoll Post. They point out that the post was named to honor Richard Stoll, killed in action during World War II and not for his brother Julius, who recently returned to the city from war duty.

Not every prediction comes from a prophet.

SCOUT TROOP PLANS COURT OF HONOR

Arrangement for a Court of Honor next Tuesday at Boy Scout Troop No. 193 headquarters in the Genesee Baptist Church are nearing completion under the direction of Troop Committeeman Harold MacDowell.

The court will open with a dinner for 125 scouts to be served by scout mothers at 4 p. m. Dr. Frank O. Erb, pastor of the church will attend, as well as several city scout officials. Scoutmaster Edward Cooper hopes to have every member of the troop prepared to receive at least one scout award. Several other surprise events have been listed for the honor court.

Thirty-three members of the troop with their fathers recently completed a week-end campout at Camp Cutler.

There are many truths still to be learned; there is no reason why you cannot discover some.

diate problem facing the city is to secure rapid conversion and quarters that can be rented at an early date. C. Storrs Barrows, a member of the committee, this week revealed formation of the new agency to care for emergency cases. In many instances says Barrows, cost of conversion will be less than the \$400 limit. He says that less material is involved in such an operation than in nearly any other kind development.

Barrow pledged continued aid of the committee in aiding individual conversion work. He pointed out that while an acute shortage of materials has plagued many building efforts, through its representatives in labor and materials, the committee should be able to offer assistance.

ED RANDALL'S Scene & Word

Reprinted from the "IT HAPPENED HERE" department of the Times-Union of Thursday, March 21st: "8:40 p. m.—Man and woman FLIGHTING in a Nassau Street grill. They must have been drinking Old Crow.

It's about time we had a love story in this space. The vernal season is upon us, and all the world loves a lover, as Shakespeare or someone once said, so here goes. This tender little romance concerns the eligible bachelor who had managed to escape the toils of marriage, despite the obvious and desperate machinations of many anxious mothers and their willing daughters.

The night upon which our story opens the debonair young gent was attending a dinner party. The hostess, a born matchmaker, had paired him at dinner with a very gorgeous doll, and out here, for the first

Labor To Participate

Organized labor again will play an important part in the Community Chest campaign this year, with the CIO and APL unions joining forces on a "Labor Advisory Committee" which has again chosen Julius Hoestery as chairman. Chest officials agree that this committee, formed for the first time last year, was most helpful, not only during the campaign, but in the between-campaign interval since last May.

Rochester's Smartest Furs

WILL SUMMER AT SIBLEY'S . . .

Pricessless furs deserve Sibley protection on their Summer vacation. Here in Sibley's Certified® Fur Storage, your furs will be inspected and all surface soil removed by compressed air, then tagged, catalogued and hung in our vaults. Most important of all, Sibley's vaults have below-freezing temperatures to keep your furs soft and supple and prevent drying out.

Sibley's Safe Cold Storage Offers Six-Way Protection

1—SAFE FROM HEAT . . . below-freezing temperatures and moisture-laden air prevent your furs from becoming hard and brittle. Instead, they stay as supple as they are upon entering the vaults. Be sure your fine furs enjoy this unique protection afforded by temperatures kept steadily below 32 degrees Fahrenheit.

2—SAFE FROM MOTHS . . . no larvae can survive the frigid temperatures of the fur storage vaults—your furs are guaranteed safe from the devastation produced by moths during the Summer months.

3—SAFE FROM FIRE . . . Sibley's Certified® Fur Storage vaults are completely fire-proof, especially constructed to afford complete protection for your valuable furs.

4—SAFE FROM DUST . . . no dust lurks behind the closed doors of Sibley's storage vaults. The air is clean and refrigerated, constantly changed; free from dust-laden particles.

5—SAFE FROM THEFT . . . all garments are insured by Sibley's under a plan that offers complete protection against theft.

6—SAFE FROM DAMAGE . . . all furs are thoroughly inspected before they are hung in the vaults. They are individually tagged and catalogued with extreme care by competent, bonded personnel.

*Certified by the American Institute of Refrigeration.

that all males consider it a woman's privilege "to change her mind" (even on religion) or isn't "man" enough to run the risk of taking a licking at the polls. Therefore she will refuse to run.
Mrs. Weis won't run either but not because she has any fear of defeat. She has several other reasons, the oldest of which may be about sixteen.

Strange as it may seem to many who see her name and photos so frequently in the press, Judy Weis is a wife and mother first and a politician afterwards. Thus it's extremely unlikely that Mr. Broderick's best congressional candidate would accept the nomination—this time anyway.

Unless some other part of the country can offer a candidate that can wear the Dutch jobs with facility, it looks like Congress next year will be duller than ever.

By Post and Courier Dept.:
Dear "Much Perturbed Reader of Our Paper": There was no desire on our part to put your friend in an unfavorable light. We understand, however, that there is much discussion concerning the whole set-up. Call us up sometime. We guarantee not to bite nor ask your name if you care to remain anonymous.

Excerpts from the Political Racing Form: Glamour Boy Howe of the Board of Supervisors is acclaimed as the great fore-closer and re-seller, (that a house must be built is we believe mandatory on all purchasers of repossessed lots) Gordon might well jog the City Council to see to it that three lots on East Ave between Alexander and Upton Park come back to the city for the approximately \$14,000 back taxes on them. . . . Others would suggest that the apartment can be removed also, and the purchaser required to build apartments.

Most everyone is predicting that Jim Mead is the lad to snatch the nod for the Democratic gubernatorial nomination with the Liberal Party and American Labor party solidly behind him. . . . The Democrats and a great many independents as well, believe he can pin Tom Dewey to the mat with one arm tied. . . . Ex-Governor Lehman, indifferent health or not, seems to have the inside track as Mead's running mate for the Senate post. Politicians think they can convince Lehman that he should run in order to clinch victory for the party.

You're Telling Us? Department: The City announced a new plan to aid small business and it was reported exhaustively in Monday's T. U. The story specifically stated that: "The new program is not intended to bring additional manufacturing facilities into Rochester — that (it says) is handled by another division of the Department of Commerce." Are you kidding?

The rapid demobilization of American forces in Europe leaves nothing to restrain Russian ambitions.

Just occasionally, try to do something unselfishly and see about your reaction.

DPW . . .

its employees up to 60 hours per week providing the time beyond the regular work week is listed as "emergency work." No extra bonus beyond straight time is paid for such overtime hours.

Long Hours of Toil
Therefore, if the payroll records of the department are correct, several of these highly paid workmen were just as diligent as they were valuable to their employers. Take the case of one of the crane operators — the one who drew \$4,141.10 in 1945. At one dollar per hour (his reputed rate) he must have worked an average of better than 79 hours per week — every week in the year — with no time off for Christmas, New Year, Thanksgiving Day or other holidays. A hard worker, to say the least.

Or has his time card been padded?
Laborers Also Industrious
Not only were many of the department's foremen so diligent in their work that they toiled beyond the legal limits set by state law, but several laborers showed a similar love for their work. Laborers are paid at the rate of 80 cents per hour. They are supposed to work no longer than 60 hours per week — even on emergency duties. But that didn't stop a group of 17 laborers in the department who went beyond that limit. According to department records these hard-workers drew down to the tune of \$391 in excess of the amount they could legally have earned even had they worked the full 60 hours every week in the year — with time off for the six legal holidays.

Dawn of New Day
It has been suggested that the same type of "peculiar arithmetic" was used by the department's cinder truck dispatchers who arrived at a total of 33 hour per day — instead of the usually accepted 24 hour day. Their time cards showed two of them working 12 hours each per day and a third man was supposed to work only an eight hour shift.

According to employees of the department, all time cards are checked by the foremen and are supposed to be given another check by the department commissioner's office for payment before they go to the comptroller's office for payment. Therefore, it is assumed that these inflated time cards are no secret among the department's high-ups.

REMODEL YOUR HOUSE

To Rent Rooms or Apartments for **VETERANS** and Families

Outline of Necessary Steps to be taken will be furnished by Mayor's Committee

REMODELING or alteration of single houses can quickly provide rooms or apartments for rental to Veterans and their families. Double houses . . . multiple family dwellings . . . and other types of property can also be converted to accomplish the same purpose — make available immediately more housing for Veterans.

Surveys made by experts on Mayor's Housing Committee indicate that many houses require little or no structural alterations to create extra rooms or apartments. In many cases a minimum of materials is needed for remodeling.

Property owners will find on looking at examples of floor plans shown that many houses can easily be converted. In some cases

cutting in a doorway, partitioning, enclosing open area, knocking out a wall is all that's necessary to furnish space for a bathroom or added rooms, or a complete apartment.

In most instances reasonable alterations or remodeling can result in a permanent income-producing investment.

In an outline that will be furnished by the Mayor's Housing Committee property owners will receive expert advice on the necessary steps to be taken to complete procurement of materials and hiring of essential contractors.

Need for immediate housing facilities for Veterans and their families is imperative. Fill in completely and mail coupon signifying your interest today. No obligation.

New, Iron-Fortified Liquid B-Complex Tonic Brings Amazing New Health, Vigor and Vitality to Those Who Are Weak, Nervous and Feel Generally Run-Down!

Recommended, also, for Stomach Sufferers with Gas and Indigestion.

If you feel RUN DOWN, TIRED, LISTLESS or suffer from GAS, INDIGESTION and NERVOUS IRRITABILITY because the things you eat are deficient in Vitamin B VIGOR and VITALITY in this new pleasant-tasting tonic called BIPELEX ELIXIR, BIPELEX is a tasty, palatable LIQUID product containing the 4 essential factors of the B-Complex with Iron which tends to build healthy body tissue. These elements also protect the body from certain nerve conditions. In other words, BIPELEX contains many of those Vitamins and Minerals considered essential for proper Health and Well-Being. Although these B-Vitamins and Minerals are present in commonly used foods, modern food processing, cooking, plus improper rotation of crops, storage, etc. tend to rob or deplete. Therefore, in order that the human system may have its proper quota of these necessary B-Vitamins and Iron, BIPELEX should be taken as a supplemental diet. BIPELEX was developed by a firm of famous Research Chemists... rationally and general use... products so highly regarded by Doctors and Hospitals, BIPELEX was designed specifically to aid in the correction of lack of vitality, nervousness, loss of appetite, and general "run-down" condition when due to a deficiency of B-Vitamins and Iron.

Recommended for both Children as well as Adults... BIPELEX is easy and PLEASANT to take... start taking it today... the results will amaze you!

Political Polka

By CURT GERLING

"High-handed Harold" is the latest appellation to be earned by our worthy Commissioner of Commerce and the name inventors are the gentlemen who own property and established businesses at the present public market. Under ordinary circumstances these food brokers and merchants can put up with quite a bit but they do not wish to see their investments chucked into an ash can with a stroke or two of Mr. MacFarlin's "guaranteed forever."

It is quite likely that the Harold will have to forgo his plans to finagle subway riders into the use of this now rapidly deteriorating means of transportation or have a first class scrap on his hands.

The elevation of B. Carroll Reece to the national chairmanship is a tip off on just how little the Republican party has changed in its thinking. Mr. Brownell's successor is strictly Old Guard and such reactions as, isolationists and shallow unprogressive thinkers of the Elephant banner as Taft, Landon, and Bricker are overjoyed at his selection. In fact, they are the lads who saw to it that he got the job.

The nominating banquet was the biggest flop on record and the vilification and denunciation of all progressive legislation passed under the Democrats so displeased a number of the GOPers attending that they stood right up in the press meeting afterwards and told the newsmen that "the kind of theories advanced by our speakers tonight is just what has made

MINISTER - MECHANIC - ASTRONOMER

When This Preacher Refers To The Heavens-He Knows Whereof He Speaks

The Reverend, Astronomer, Mechanic John Betlem giving the heavens the once-over through his recently completed giant telescope.

BY ORVILLE ALLEN

When the Rev. John Betlem steps into his pulpit at the North Baptist Church and speaks to his congregation of the heavens, he speaks like the apostles of old, "as one with authority." Because when he isn't busy ministering to his flock, the good Reverend is very apt to be studying those heavens through one of his array of telescopes. You see, the Rev. Mr. Betlem is not only a popular pastor, but in scientific circles is known as one of Rochester's crack amateur astronomers.

Curiosity Aroused
His interest in celestial bodies was awakened during his theological school days. Of course he never really doubted the veracity of Holy Writ, but just the same he wanted to see for himself. Hence his introduction to the fascinating study of the stars.

Mechanic, Too
But that's not all. Least one get the idea that the Rev. Mr. Betlem has confined his activities only to preaching and star gazing, let it be mentioned that he is also an expert mechanic. He explains that ability this way—in order to study astronomy, one must have a telescope—and you don't just (See STAR GAZER Page 6)

Want To Get Butter? How About Some Nice B. V.

Can't get butter, can you? Or perhaps you do get a bit now and then — providing you purchase a jar of B. V. or some other preparation you didn't really want. If your grocer has tried to pull that one on you — he's violating regulations of the OPA.

According to local OPA officials complaints have been pouring into its office about tie-in sales in conjunction with (See BUTTER Page 8)

FIRST OVER THE BARGE — To the good ship Hy-Grade No. 6 goes the honor of being "first" into Rochester for the 1946 shipping season on the Barge Canal. She was nudged into the city Sunday by the tug Chancellor under the command of Captain Louis Ennist of Waterford, N. Y. Beating the time schedule of the old mule-drawn barges (but not by much) the ship made the trip from New York in four days.

Sun Given Credit For Daylight Time Action

Another "assist" for the public was credited to The Sun this week when the City Council approved a daylight saving time measure effective April 28 and continuing to the last Sunday in September.

The citizens of Rochester had previously approved of the measure by a 2-1 majority.

Agitation on the question was started February 28 by this paper when it took up the challenge laid down by members of the council who had declared they would "do nothing about daylight time until the citizens demanded it." The Sun on that February date charged that the council was ducking its responsibility and printed the first of a series of ballots designed to show the legislative body how strong was the sentiment in Rochester concerning the measure.

The response was as immediate as it was definite. In fact so definite was the response that two days later local daily

DPW SHAKEUP DICTATED BY CITY MANAGER

Cartwright Advances Fellow 19th Warder; Shears Power From Deputy Commissioner

While the Department of Public Works was quick to rush into print with a story outlining a reorganization for "more efficient refuse collection" and a general tightening up of its admittedly loose organization, no answer to the questions posed by The Sun last week have been forthcoming from the much-publicized city division. Last week The Sun asked whether the department's payrolls had been padded or the city had been overworking its personnel.

No Answer Made
Facts and figures in the story were cited to prove that one or the other was the case. Up to a late hour last evening no explanation had been given to press or public. But they did announce a new setup for the department which is expected to take the public's mind off the fact that wages earned last year by laborers, foremen, crane operators and welders were above the limit which could have been earned legally in the legal number of hours employees are allowed to work.

What's Behind Move?
While the man in the street who read Monday's story admitted it was a simple task to find room for improvement in the department's operation, knowing the antics of the division, he wondered what really (See DPW Page 6)

**ED RANDALL'S
Scene
& Word**

I See By The Papers That—
"The government's food conservation order limits the use of grain in beer supplies used to 70 per cent of supplies used in 1945, which means 30 per cent less beer. Under the 30 per cent reduction, there will be a loss of \$3,500,000 to New York State in taxes. The drop in production also will result in the layoff of approximately 5,000 men."

"Russian breweries have resumed production, with the Ministry of Food Industry announcing plans to brew 347,000,000 liters of beer for summer consumption."
Hmmm!

One of my operators tells about a woman who approached the copper guarding the nylon line in Main Street one day last week and asked him: "Officer, do you know what size nylons are on sale today?" The guardian of the law told her the sizes being sold. "Do you happen to know what color they are?" The officer was able to supply this information as well. "I wonder what gauge they are?" This could have been the \$64 question, but the well-informed copper knew all the answers and was able to satisfy the lady's curiosity on this point too. Having learned that her favorite size, color and gauge was on sale, the curious shopper joined her fatigued sisters in the line.

From the Times-Union of Monday, April 1, 1946: "Announcement is made of the marriage of Miss Mary Mozneck, daughter of Mr. and Mrs. John Mozneck of Rome Street to Lt. Norman J. Gibson, USNR, son of Mr. and Mrs. Arthur Gibson in a pretty simple ceremony on Mar. 9 in St. Luke's Church." Well, if your marriage can't be elaborate, it might as well be "pretty simple."

If you'd like to read a story of selfless devotion and undeviating courage, I can recommend "Children in Shadow" in the May issue of Pageant Magazine, written by Ralph Amdursky, Rochesterian and former newspaper photographer. From first-hand knowledge, Dursk has written the tragic story of cerebral palsy, an affliction which affects 200,000 Americans, mostly children. Amdursky's son, Stuart, is a victim of the disease and the story details the efforts of the Amdurskys to help their son overcome his pitiful handicap. Most victims of cerebral palsy are shunned, locked away and regarded as feeble-minded. But the Amdurskys were convinced there was a cure and they have proven there is a chance for "children in shadow" to grow up to be normal, healthy boys and men. How Amdursky and his wife accomplished this tremendous task, and the photographs which accompany the article, make up one of the most heart-warming tales I have read in a long time.

In case you haven't read it, the Gannett Newspapers have installed Acme Telephoto News Service. The line will form on the right for all who want to say "So what?"

Democratic victories inevitable since 1932?

Stassen, the one Republican who might be able to inject a little progressive thinking into the oft-defeated party, was not end displeased with the Reece stewardship. He issued a formal and somewhat guarded statement which by implication spoke volumes. He said he "did not like Reece's stand on many issues in the past" and that he feared that he (Reece) was something of an isolationist which, judging from the Reece backwoods voting record in Congress, seems like the height of understatement.

Other disgruntled Republican banqueters who wanted progressive John Danaher of Connecticut as chairman indulged in plain and fancy reminiscing on the Reece career. They cited the Reece slogans the first time he ran for office, "Pass around the Political Pie" and "Ten years in Congress are enough for any man." On the latter point Mr. Reece got his wish when he tried for an additional term after his ten-year stint, an upstart knocked him off.

The best Reece qualification seems to be that he will not require a salary in assuming the post. The Congressman had the foresight to marry a very charming and very rich daughter of former Senator Goff of West Virginia.

The world moves on but never Old Guard thinking.

Senator Mead has yet to officially declare himself a gubernatorial candidate. The spectre of James Farley still seems to haunt party councils. It is being generally assumed, however, that the former brick merchant will in the end come through with a left-handed blessing and the party to put Mead in the Governor's chair will be on.

With that in mind the Democrats are busy strengthening their ticket and have in view such great New York city vote-getters as Henry Epstein for Attorney General and Sam Rosenmann the late PDR's alter ego, as candidate for the Court of Appeals.

Meanwhile the Republicans conceding New York city by a whopping plurality are concentrating on the upstate build-up. They want to come downstate to the Metropolis with 800,000 votes to the good, otherwise they are quite apt to be given the "heave ho" according to GOP masterminding.

Eight hundred thousand anything is much. A Republican plurality of 800,000 from regions north and west of the Bronx is not only a lot, it is also impossible. Which makes a very pretty picture for Mr. Mead and a rather dark one for the GOPers — who admit that even 700,000 upstate plurality would not tip the scales in Dewey's favor.

Said one Republican snidely: "Washington and dear Harry can make an even worse mess of things and we still won't win with Dewey — New York City is too strong for us and we have slipped badly in many upstate counties."

Don't tell us that Tom is going to have more time for his Peking estate next year!

With all the damning of the OPA, seven polls taken by such distinguished gentleman as Mr. Gallup show that the general public is not dumb enough to want the controls removed; 62

percent of the citizenry want them to stay.

Congress, Republican and Democratic, isn't going to annoy 62 per cent of the voting public.

During the past week one of the Gannett papers editorially advocated a more "practical" view of the gambling urge. We are not going to say that The Sun touched on the subject exhaustively several months ago — we're just going to say that

it was very nice going and (for them) broad and intelligent thinking.

If things like this persist their comics will once more top their editorial pages as a laugh getter.

Joe Boyle looking mighty chipper these days in a new suiting. . . . Ugly discontent in Brighton smouldering, lacking as usual someone with "guts" enough to bring the cause out in the open thus pre-

world what he learned there under the guidance of the greatest mystic he ever encountered during his twenty-one years in the Far East. He wants everyone to experience the greater health and the Power, which there came to him.

Within ten years, he was able to retire to this country with a fortune. He had been honored by fellowships in the World's leading geographical societies, for his work, as young in appearance, it is hard to believe he has lived so long.

As a first step in their progress toward the Power that Knowledge gives, Mr. Dingle wants to send to readers of this paper a 9,000-word treatise. He says the time has come for it to be released to the Western World, and offers to send it free of cost or obligation, to sincere readers of this notice. For your free copy, address The Institute of Mentalphysics, 213 S. Hobart Blvd., Dept. X-154, Los Angeles 4, Calif. Readers are urged to write promptly, as only a limited number of the free books have been printed.

BROADCASTERS—Shirley Hall and Gordon B. Baldwin who will represent Rochester on an international "Junior Town Meeting of the Air" between this country and Great Britain next Sunday. The program will be broadcast locally over Station WHEC starting at 2:30 p. m.

Two Named For Sunday Trans-Ocean Broadcast

Two young Rochesterians and the "Junior Town Meeting of the Air" radio program will participate in a trans-Atlantic broadcast between the United States and Great Britain next Sunday. The special program will be broadcast over WHEC, starting at 2:30 p. m.

Shirley Hall of Nazareth Academy and Gordon B. Baldwin of Harley School have been selected to represent the city on the broadcast. They were chosen from a group of sixty-five who have participated in the B. Forman Company's "Junior Town Meeting of the Air" program. The selections were made by the Junior Town Meeting Advisory Board, a group of prominent Rochester educators and civic leaders.

On the international broadcast Baldwin and Miss Hall will discuss "Private Enterprise or Public Ownership?" in a two-way overseas forum, with British youngsters at the other end of the hook-up. C. E. Pettigrew, executive secretary of the Junior Town Meeting League, an international organization to foster discussion of current affairs, will act as moderator on the program. It will be carried over an extensive British Broadcasting Corporation network overseas.

Rochester is one of six cities participating. The others are: Toledo, Cleveland, Des Moines, Baltimore and Columbus. The series of trans-Atlantic broadcasts is made possible through the collaboration of the British Broadcasting Corporation, the

Attorneys Resume Law Practice Here

Two local attorneys have returned to Rochester to resume their practice of law after service for the government. One, Albert E. Goldman, spent more than two years in the army, while Leo T. Sawyko, who has opened offices at 39 State St., has for three and a half years been connected with the U. S. Department of Justice as naturalization examiner. Goldman's offices are in the Wilder Bldg.

TO INSTALL OFFICERS

Junior Deputy Erna Taylor will install officers of the Fidelity Triangle No. 4 at a special meeting of the group at 8 p. m. Saturday in Room A, Masonic Temple. The public is invited.

NO. 37 PTA TO DISCUSS "OPPORTUNITIES"

"Opportunity" will be the theme of the No. 37 School P. T. A. meeting to be held next Tuesday at 8 p. m. Floris Ferwerda of the Eastman School of Music will speak on "Opportunities in Music"; Marjorie Lish of the Art Department of the Board of Education on "Opportunities in Art"; and Victor Brook on "Opportunities in Business." "Safety Education for Adults" will be presented by Mrs. Julian Matthews. The parents of Miss Cliffe's grade will be hosts.

BANQUET PLANS TO BE MADE AT D. E. S. MEETING

Members of Germania Chapter No. 72, O. E. S. will meet Monday at 8 p. m. in Room A of Masonic Temple to discuss plans for a birthday banquet scheduled for May 6th. Louise Sibley and Ernst Zarpentine will preside.

WARD REPUBLICAN WOMEN PLAN SALE

Plans for a white elephant sale to be held sometime in May will be made by members of the Third Ward Women's Republican Club at a meeting in the Union Trust Bldg. Republican headquarters this evening at 8 p. m. Refreshments will be served following the meeting.

BUTTER . . .
Continued From Page 1)
the very hard-to-get butter. And the bulk of the complaints name the product B. V. as the item they are told to buy if they want butter. But, complainants don't seem to blame their grocer — they lay the blame on Wilson & Co. producers of B. V. Consumers have been told by their grocer that "we had to buy 25 cases of the stuff to get butter and that's the way we're going to sell it. Take it or leave it."
Local officials of the giant meat packing concern flatly deny they have fostered such sales. In fact, said they on Tuesday, they hadn't even heard of such sales, nor even any complaints for that matter. On the other hand, OPA says they questioned the same officials about the same sales earlier in the month.
A survey of grocers chosen at random from the telephone directory showed a majority declaring they had had to purchase the B. V. in order to get butter from the company.

GROUP TO LAY WREATH AT LINCOLN STATUE
Annual wreath laying ceremony at the Lincoln monument in Washington Square will be conducted Sunday at 3 p. m. by members of the Abraham Lincoln Association. The event commemorates the 81st anniversary of the Emancipator's assassination.
Members and color bearers will meet at Hotel Seneca and march to the monument where services will be conducted by the Rev. William A. Hallock.

TOWNSEND MEETING
A meeting of the Monroe County Townsend Women's Auxiliary has been called for this evening at 8 p. m. in the home of Mrs. W. M. Bendis, 1259 Lyell Ave.
Some said they hadn't made a deal, but it had been proposed to them.
Enforcement officials of OPA are investigating the complaints. Meanwhile Rochester was getting very little butter — with or without B. V.

SYNTHETIC FABRICS
The better-tanned synthetic fabric offers a real promise of better clothing that will last longer, look better and cost less.

Political Polka

By CURT GERLING

They say if you work in a fish market you are bound to smell of the product sold there. We presume it is also true that if a man works long enough for any company he acquires its point of view, no matter how narrow, and becomes the sometimes unwitting tool in contributing to its injustices. No one ever called the Gannett papers "Liberal", nor lauded them for profundity of thought, nor defended them when they were accused among many other things, of being "smug."

The Gannett papers are a magnificent illustration at least on the editorial side, of our previously mentioned fish market and the writings of an old friend, Henry Clune, have taken on not only the flavor but the odor of the sea's products.

His Saturday column in which he quoted a letter from what must be an ever lighter mail bag, it wanted to know what Frank Sinatra, a crooner, was doing at a meeting of the UN Council. Mr. Clune has, in the past, made a few side observations about Sinatra's fragile frame and he no doubt pounced on the letter with great delight causing it to be published with his blessing as having a "pertinent point."

Facts Refute DPW Pay 'Explanation'

Two weeks ago The Sun revealed that many employees of the Department of Public Works had received excessive salaries during 1945 and charged that the inflated incomes were due, either to padded payrolls in the department, or the working of an illegal number of hours by the affected employees.

No official answer to the charges has as yet been made by any responsible city official. In fact, City Manager Louis B. Cartwright and Public Work Commissioner August Wagener have refused to even discuss the matter with friendly reporters of the very friendly morning newspaper.

It was so reported Sunday.

But in the same story, without crediting the source from which it obtained its information, the newspaper reported that it had learned that "workmen on snow clearing and ash and garbage collection got extraordinarily high pay." The story then followed with its own explanation of the inflated incomes. It was assumed that this explanation was the city's answer to The Sun's charges.

If that be the case, the explanation fell completely flat. Sunday's story said that the high pay resulted from the fact that workmen spent hours in standing by when alerted for snowstorms; that many of them doubled in ash and garbage collecting, at times on the same day; that incentive pay higher than the prevailing rate paid the men was given when

SPEAKER — Dr. Wilbur E. Saunders, Headmaster of The Peddie School, will speak at the Peddie-Rochester dinner next Monday in the University Club. Donald W. Rich, Jr., alumni secretary, will also participate in the dinner for Peddie alumni, patrons and friends. Edwin C. Strassenburgh is chairman of the affair.

\$25 Winner

Mrs. F. R. Ladd of 67 Earl St., is the lucky winner of this week's \$25 cash prize, offered by The Sun each week to its sustaining subscribers. This is the reward Mrs. Ladd gets for paying her Sun carrier, Gordon Cochrane of 143 Barton St., 10 cents. Gordon incidentally collects an extra five dollar bonus.

RED FEATHER ADOPTED AS DRIVE SYMBOL

Chest Workers, Donors To
Wear Red Feathers During
May Fund Drive

A successful Community Chest campaign this year will be, literally and figuratively, "a feather in Rochester's hat," for the Red Feather, national official symbol of the country's 849 Chests, has been adopted for use in the 1946 canvass scheduled for May 13 to 20.

Over 4,000 Chest campaigners will wear feathers, dyed a bright red, as worker's badges; actual Red Feathers will be given to every contributor in place of the familiar giver's button of celluloid. Posters and leaflets will be splashed with Red Feathers.

Although adopted for the first time in Rochester this year the Red Feather has long been used as a Community Chest emblem, and was accepted on a nation-wide basis in 1945. Some cities have used it for so many years that participating agencies in their Chests have won the title of "Red Feather Services" instead of "Community Chest services."

SENATOR JAMES M. MEAD

MEAD MAY 'WRITE HISTORY' IN SPEECH HERE

By Curt Gerling

The Democratic banquet scheduled for next Wednesday at the Hotel Seneca, even at seven dollars the plate, is rapidly approaching the sellout and standing room only class.

The Roy Bush presentation includes not only series of gastronomic delights but a star studded floor show with such nationally known figure as Senator James Mead, Tom C. Clark, Attorney General of the United States and Paul Fitzpatrick, state chairman.

City On Spot In Milk Strike

With little hope of an early settlement, Rochester went into its third near-milkless day today confronted with a stubborn deadlock between 47 dairy owners and the AFL Milk Drivers local of the Teamsters Union. The strike was called Tuesday when negotiation between the dealers and the union representing the drivers reached an impasse and collapsed.

And while tempers of both dealers and drivers mounted ever nearer the boiling point another segment of the community was drawing ever closer to an exceedingly embarrassing position. Shortly, officials of the city government would have to decide upon one of three courses of action:

1. Remain neutral and let the strike take its apparently long natural course, or
2. Bring pressure upon the 47 dairies involved to settle the strike, or
3. Bring pressure against the union to effect a settlement.

In this position, the city fathers today found themselves between the proverbial devil and the deep blue sea.

Enemities in the Making
If they choose to do nothing, they will have to face the wrath of the public at large which is little concerned with the merits of the case but is vitally concerned about getting its necessary supply of milk. Whereas if they attempt to bring pressure against the union they will invite the wrath of organized labor in Rochester. And with an important election coming up in November, it is evident they want no more difficulties than they already have with powerful labor. As for bringing pressure against the deal-

State May Be Drawn In
That the State Government might be brought into the picture was more than a remote possibility yesterday as union officials discussed the advisability of calling upon Governor Dewey and the State Attorney General to investigate their charges that some of the dairies involved were trying to force a monopoly on milk in Rochester by "putting the squeeze" on small operators. Fred J. Keldorf, business agent of the union claims that several of the smaller dairies are willing to sign agreements on the union's terms and begin immediate delivery if they could only find a source of supply. He charges that the large dairies are responsible for the sudden drying up of their normal supply sources.

Of course you've planned your EASTER DINNER MENU—but have you thought about what kind of COCKTAIL you are going to serve. How about a MANHATTAN—or a MARTINI—or maybe your family or guests would like a DAIQUIRI. Drop into MONROE LIQUOR STORE you'll find all the leading brands of whiskey—gin and rum. Selection is made easy—and as for "mixing" you'll receive expert instructions. You'll like MONROE LIQUOR STORE you'll like the people there. Tell them I sent you. Located 965 MONROE AVE., corner Shepard.

KEYS have been added to the stock at DELLETTE SHOP. HILJA MAYNIER owner of this popular little shop—wishes to thank you for your patronage and extends best of EASTER GREETINGS. Located 499 MONROE AVE., two doors from Woodlawn. Open 12 to 9 daily.

Es—when preparing a roast of lamb—put whole onions on skewers—and stuff them through the lamb—the result is delicious. Try it and if you don't like it—don't bother me—call Es.

CARTER Petal upon petal making an adorable FLOWERED HAT suitable for wear right now. Where at CARTER HAT SHOP of course. Priced \$5.95 and up. MATRONS HATS in size 23 priced also \$5.95 and up. The regular line at Carter's start at \$3.95—all beautiful—all flattering—all typical Carter quality. As for JEWELRY—plenty of new arrivals. For instance the SILVER PIN and EARRING set priced at \$1 for carting and pin. Also the HAND SET—these are beautiful BAGS at CARTER HAT SHOP are lovely also. Genuine Leathers and the new PLASTIC PATENTS. Mrs. Carter—that gracious "lady" who owns this friendly little shop—wants me to extend to her many customers—and friends a HAPPY EASTER—CARTER HAT SHOP located at 636 MONROE AVE.—Open Eve.

DRESSES with company managers—are those found at RIPPON TON'S. A do-rables—within the reach of everyone. Your choice of soft pastels in tweeds, wools that are smooth textured as whipped cream—but hurry—they won't last long. Sizes 38 to 44—You'll find them at EDWARDS'—in SPORTSWEAR—Third Floor.

Just for fun—and for your own info—compare your electric bills of last year—and the year before—and notice—even with added appliances—in your home—your bill is lower. Actually the average American family is now getting nearly twice as much electricity for its money as it did twenty years ago—thanks to the efficient operation of the power companies of the country. In these days of higher prices—don't you consider—this interesting. Congratulations—ROCHESTER GAS & ELECTRIC—49 East Ave.

DELLETTE She wears a EVELYN ALDEN—and creates a small stir wherever she goes. You never dreamed that one little store could offer you so many wonderful fashions for Spring. For instance—COTTONS—in all styles—all sizes—even the half-size—in quality materials—highly styled. Yours for the selecting. LINGERIE is also at this little store. Slips of luscious satin—also other "musts." Of course you've guessed by now—I'm talking about ALICE DRESS SHOP. Their regular "stock" in lovely frocks—is up their usual standards. All styles—all sizes—in breath taking combinations and of course the beloved "darks." Drop in say "hello." ALICE DRESS SHOP—630 MONROE AVE.—Open Eve. Alice says "Happy Easter."

Please, Please—read Daphne du Maurier newest novel "THE KING'S GENERAL". It is delightful. Read it and let me know.

One of the most talked-about two-piece costumes of the season is Bruno's cavalier suit. The skirt is slim and the top flares with exaggerated dash below the waist. It is fashioned of black tulle. The V-neck ends in a soft flowing bow.

"800" SHOP has a very special talent for "line clothes." Askie from the "r knowledge (Mo-reas) of fine fabrics—and expert tailoring—they possess a highly specialized eye for line—an awareness of what women need and demand in a frock. Prices start at \$8.95 and up. Regular Junior and larger sizes are included in the stock. MATERNITY DRESSES are up to their usual standard. New arrivals daily. These Maternity dresses are the unusual kind—all bought with an eye for detail—highly styled—with gadgets "sewed in" for expansion purposes. "800" SHOP is located corner MONROE & CANTERBURY—Open Eve. This shop wishes to extend an EASTER GREETING to all their many customers and friends.

Curry powder, adds distinctive flavoring to leftover meats for a grand main dish to be served with bland noodles or spaghetti or rice.

For children the joy and happiness of Easter belongs to the first hours of the day. Breakfast can be made important, even to the children—it should be a family affair—and of course your food must be delicious—and I can't make a better suggestion than the following—steaming cereal—with REAL SEALEST CREAM—with REAL SEALEST CREAM—floating. Of course the traditional ham and eggs—and try having dessert—for a change—yes for breakfast—fruit—topped by this REAL SEALEST CREAM. All you have to do—is pick up your phone and call BRIGHTON PLACE DAIRY—45 Fulton Ave.—Glenwood 144—and ask to have this delicious cream delivered to your home. It is available by the pint or half-pint. IT WILL KEEP. PS. Please return your empty bottles—BRIGTON PLACE DAIRY says: "There is a severe shortage."

Easter Date Formula Settled In 325 A. D.

Now it can be told—Easter doesn't just "happen" at the whim of the calendar makers! There is a definite formula for determining the correct celebration date—correct, that is, according to an edict formulated by churchmen back in 325 A. D.

Did it ever occur to you that it was peculiar that Easter, of all the holidays, always falls on a Sunday? That group of churchmen in 325 A. D. "planned it that way."

If you are a stickler for accuracy, you might as well know right now that you're too late for the celebration this year. Actually, April 9 was the correct date of the Resurrection, according to our present calen-

dar. Don't feel too badly, however, as the whole world will join you in celebrating next Sunday.

Let's go back to 325 A. D. again for enlightenment:

Because April 9 would not always fall upon a Sunday and church adherents decided that Easter should be celebrated on that day, The Council of Nicea in 325 A. D. hit upon the present system. Easter, the Council ruled should be the first Sunday after the first full moon on or after the vernal equinox, March 21. This year that Sunday is April 21.

Astronomers have a "short" formula by which they can de-

termine Easter Sunday in any year. It goes like this:

Divide the number of the year by four, by seven and 19 and call the remainders A, B and C. Divide 19C plus 24 by 30; the remainder is D. Divide 2A plus 4B plus 8D plus 5 by 7; the remainder is E. The Easter full moon then will be D days after March 21 and Easter will be the 22d plus D plus E day of March or the D plus E minus 9th day of April.

The only trouble is that if the year you want isn't in the 20th Century you have to change the numbers 24 and 5, and have to use a special table for the various centuries.

WIDE INTERESTS REPRESENTED ON AD CLUB SLATE

The butcher, the baker and the candlestick maker will all be represented among the new officers to be chosen by the Rochester Ad Club at their annual election on May 2.

One candidate is now in the advertising business, another a printer. One other is connected with a radio station. Balance of the slate is composed of insurance salesmen, doctors, lawyers, a butcher, a banker and an automobile service manager, a wholesaler and a member of the clothing trade.

Membership in the club, founded shortly after the turn of the century, was originally confined to those active in, or affiliated with the advertising business. But today, among its wide membership are representatives of almost all trades, professions and businesses.

The slate is headed by Frederick R. Metzinger and Basil R. Weston as candidates for president. Other nominees include: Ray F. Healy and Albert E. Manchee, for first vice presidents; Ellsworth Nichols and Dr. Charles A. Parenteau, second vice president; Glenn E. Carter and Albert S. Willey, treasurer; Arthur J. Bauman, Herbert L. Gaylord, Dr. John G. Hart, Lawrence K. Maisel, Edwin S. Ruda and LeMoine C. Wheeler, for directors. Three directors will be chosen.

CHOIR TO PRESENT GOOD FRIDAY CANTATA

The Andrew Street Baptist Church choir will present the cantata, "The Seven Last Words of Christ," by Theodore Dubois tomorrow evening at 7:45. Soloists who will assist include Marion O'Neil, soprano, Roger Schmidt, tenor and Oscar Ratschkowsky, baritone. The choir is under the direction of Earl Abel with Anna Friess at the organ.

An offering will be taken for the benefit of the World Emergencies Relief Fund.

DISABLED SCHOOL VETS MAY TAKE PART TIME JOBS

Disabled veterans going to school under Public Law 16, the disabled veterans bill, may hold part-time employment only if this work does not impair their health or interfere with their studies, the Disabled American Veterans has warned.

Capt. Cicero F. Hogan, assistant national DAV adjutant, recently brought to public attention that government regulations do not prohibit disabled veterans who are taking part in government vocational training programs to seek part-time employment to aid in their subsistence.

"However," he said, "the Veterans Administration carefully supervises all Public Law 16 trainees and this part-time work must not interfere with the student's health or training."

WHY A MILK STRIKE?

The people of Rochester are entitled to ask why should there be a strike involving such an extremely important food as milk. This is a fair question, irrespective of the merits of the dispute between the milk dealers and the union. The answer is it was wholly unnecessary for the union to call the strike.

The contract between the dealers and the union expired March 31, 1946. It was extended by mutual consent to April 15, 1946. On April 15th the United States Government Conciliation Service proposed to both parties that the contract be extended another week in the hope of reaching an amicable settlement. The dealers agreed and the union refused.

In a final effort to avoid the strike which the union seemed bent upon calling, the United States Conciliation Service recommended an arbitration and the terms of arbitration. The dealers again agreed to this proposal of the United States Government and the union refused and struck.

The dealers again proposed to the union an extension of twenty-four hours, not to benefit the dealers but to permit suitable arrangements to be worked out for the disposition of the incoming milk to prevent spoilage and to insure that there would be milk in Rochester for the cases of necessity. This was also refused by the union.

The conclusion, therefore, is inescapable that the union wanted the strike for their own selfish purposes without regard for the health and best interests of the men, women and children of Rochester. A review of the record will disclose to any fairminded person that the union's claim that they were forced into a strike is utterly without foundation. If they were right and sincere in their position they certainly had nothing to fear from an arbitration by an impartial arbitrator as recommended by the United States Government and agreed to by the dealers. The fact that they refused arbitration and called the strike answers once and for all the claim that they did not desire a strike.

MUSEUM LISTS SIX FELLOWSHIP AWARDS FOR YEAR

Two scientists, a state senator, a writer, an educator and a social worker comprise the six persons named for Fellowship in the Rochester Museum of Arts and Sciences for 1946 to be awarded at the Museum's annual convocation on May 9.

Unique this year is the honoring of both a husband and his wife. State Senator Thomas C. Desmond will be named for his work in the field of social legislation while his wife, Mrs. Alice Curtis Desmond will be honored for her work in the field of historical writing. They, along with Charles R. Toothaker, a pioneer in school museum work will be named non-resident Fellows. Others appointed to resident fellowships are:

Sherman C. Bishop, professor of zoology of the University of Rochester; Lee A. DuBridge, professor of physics noted for his work on atomic energy; and Oscar W. Kuolt, general secretary of the Rochester Council of Social Agencies.

LOCAL INSURANCE MAN NAMED GENERAL AGENT

Announcement has been made of the appointment of Jerome W. Roche as general agent for the Loyal Protective Life Insurance Co. specializing in non-cancellable sickness, accident and hospitalization insurance.

Roche, who lives at 140 Albarmarle St. has opened an office in the Granite Bldg. He has been connected with the insurance business in Rochester since 1928 and was formerly manager of the Employers Group Companies here.

The Rochester Inter-Faith Good Will committee has published an address, "The Role of Brotherhood in 1946" delivered by Rabbi Philip S. Bernstein of Temple B'rith Kodesh at the annual Inter-Faith Forum in February.

The pamphlet is available to the public upon request to the Rochester Inter-Faith Good Will Committee, 1010 Temple Bldg.

NEW VFW POST TO RECEIVE CHARTER

A new post of the Veterans of Foreign Wars, organized under the name of Keith Miller Post, 6595, will receive its charter in special ceremonies at the Red Men's Club, 46 Fitzhugh St. on Tuesday, April 30. The post was named in honor of Pvt. Keith Miller who was killed while serving with the Army Medical Corps in Africa.

Heading the group as commander is Joseph R. Vay. Other officers elected for the year include Gerald Scully, Sr. vice-comm.; Arthur Cicarelli, Jr. vice-comm.; Thomas Scally, post advocate; Henry Mandara, chaplain; Milton Roberts, surgeon; Ray Shatzel, adj.; Charles Cotter, quartermaster; Edward Chamberline, Leo Yehl and Gus Schwartz have been named trustees.

AUXILIARY MEETS

A meeting of the Frank E. Robertshaw Post Auxiliary, American Legion was held last evening in the home of Mrs. Erma Karle, 48 Bloomfield St. Mrs. Myrtle Connors assisted the hostess in the social hour which followed the business session.

'POP' CONCERT FINALE TO HAVE IGOR GORIN

Soloist for the final "Pop" Concert of this season—Sunday evening, April 28—will be the latest of baritone stars to capture America's fancy—Igor Gorin.

He came to this country after scoring operatic successes in Czechoslovakia. In 1935, he appeared on the "Hollywood Hotel" series of broadcasts and was an immediate success. In the succeeding years, he has become a regularly invited guest star on some of the most famous musical programs of the networks.

Gorin received his musical education at the Vienna Conservatory of Music and really began his career in Europe. Nevertheless, he has found his real home in this country, of which he is now a naturalized citizen, far from his native Ukraine.

Movie fans, too, will recall Gorin's appearance as a virtual unknown in "Broadway Melody," when he played a singing Barber and gave the screen its most entertaining version of "Largo el Factotum" from "The

Barber of Seville." Gorin will be soloist with the Rochester Civic Orchestra, with Guy Fraser Harrison conducting.

Rochester's Smartest Furs

HAVE THEIR BEAUTY TREATMENT AT SIBLEY'S!

Just storing your priceless furs in the restful dry cold of Sibley's Certified* Fur Storage Vaults does wonders for them. When they need restyling or repairing as well as rest, Sibley's master furriers can give them fastidious attention—without your furs once leaving our premises. If you wish, we will have them cleaned before storing.

Sibley's Safe Cold Storage Offers Six-Way Protection

- 1—SAFE FROM HEAT... below-freezing temperatures and moisture laden air prevent your furs from becoming hard and brittle. Instead, they stay as supple as they are upon entering the vaults. He sure your furs enjoy this unique protection afforded by temperatures kept steadily below 32 degrees Fahrenheit.
- 2—SAFE FROM MOTHS... no larvae can survive the frigid temperature of the fur storage vaults—your furs are guaranteed safe from the devastation produced by moths during the Summer months.
- 3—SAFE FROM FIRE... Sibley's Certified* Fur Storage vaults are completely fire-proof, especially constructed to afford complete protection for your valuable furs.
- 4—SAFE FROM DUST... no dust lurks behind the closed doors of Sibley's storage vaults. The air is clean and refrigerated, constantly changed, free from dust-laden particles.
- 5—SAFE FROM THEFT... all garments are insured by Sibley's under a plan that offers complete protection against theft.
- 6—SAFE FROM DAMAGE... all furs are thoroughly inspected before they are hung in the vaults. They are individually tagged and catalogued with extreme care by competent, bonded personnel.

to signify the knight's oath that bound him to defend the weak and rescue the oppressed. Feathers have played an important part in the ceremonies and customs of the American Indians. The dyed eagle plumes that the Indian wore on his war-bonnet were not for ornamental purposes only; each feather was token of a deed of valor in combat. The Red Feather, therefore, worn in men's hats, on women's millinery or blouses, will dominate the spring style picture during the weeks of May when the campaign is on in Rochester and Monroe County.

Committees Organizing
Meanwhile, in 160 industrial plants, in 550 commercial establishments and offices, in schools, utility firms, and public offices, the work of organizing campaign committees is progressing rapidly. Also under way this week is a series of conferences at which representatives of the 46 local agencies will confer with the Budget Committee, to review their financial needs for the coming 12 months. When these conferences are completed, the Budget Committee will make its report and recommendations, to the Board of Directors of the Chest, as to the amount to be raised in the May 13-20 campaign.

there was exceptional snowfall. So Much "Palaver" That "explanation" might read well to the average layman, but to insiders at City Hall it is just so much "palaver." Webster defines "palaver" as "empty talk, especially that intended to flatter or deceive." And, lest there be any misunderstanding the insiders didn't mean "flatter" when they correctly termed the explanation "palaver." There are several reasons why the "explanation" failed to satisfy Rochester: 1—Not one of the workers referred to in The Sun's charges is, or was, connected in any way with ash or garbage collection. 2—Neither of the crane operators referred to in The Sun's charges is, or was, connected in any way with ash or garbage collection.

MILK STRIKE ...

(Continued From Page 1)

Denies Reports
However, George Blumh, operator of the Parkside Dairy, yesterday denied reports that the Dairyman's League had refused him milk. He said that he was getting his normal supply and was making his usual deliveries.

Labor Aid Sought
A campaign to enlist the aid of organized labor throughout the city was also being discussed by union advisers. According to plans now in the making, the CIO Council and the Central Trades and Labor Council will be asked to have their members name their present milk dealers. "Then," said Keldorf, "we'll tell'em the facts, we'll name names and request their boycott of the dairies responsible for this strike."

Crux of the deadlock is the rate of salary and commission to be paid drivers for delivery of milk and collection of money. While the contract which just expired was in force, drivers were paid \$39 weekly salary plus eight percent commission on collections plus 1 1/2 cents for each quart handled over 260 per day. The union wants to continue this scale. Dealers demand a plan of \$25 base pay, plus eight percent commission on Collections. It is the union's contention that to arbitrate would surely mean a loss for them. They say that by bargaining

with the dealers they already have, they risk losing some of that with no hope of gaining anything they don't already have.

Dealers Deny Charges
Spokesmen for the dealers and the producers co-operatives deny that they are interfering with any milk dealer whose plant is not struck in obtaining milk. They also assert their willingness to arbitration "as recommended by the United States Government." Dealers say the strike was "unnecessary" and that the unions claim they were forced into a strike "utterly without foundation."

front pages of the entire U. S. A. if Senator Mead decides to "officially" announce his candidacy for governor at the affair.

Senator Mead conceded by Democrats and Republicans alike to be the logical candidate to unseat Thomas E. Dewey has been going through the motions of seeking the nomination without having officially tossed his hat into the ring.

Reports that James A. Farley is about to give Mead his official blessing, thus making the endorsement of the Democratic powers unanimous impends, and lends credence to the rumor that Rochester may be the scene of the important political news.

Another rumor going the rounds this week is that Attorney

General Clark might be

placed at the speakers table by the result of an attack on him by the CIO Political Action Committee. But while Chairman Bush was not available for comment political observers are of the opinion that Clark will go on as scheduled.

Come what may the Democratic banquet promises to be a top-notch show and give its critics something to rave about.

Now...no wheat used in beer or ale

And wheat alone can solve the problem of feeding the world's hungry

Actually wheat has never been a large item in the brewing process—only $\frac{8}{10,000}$ of the entire United States wheat crop was used in 1945.

In accordance with U. S. Government policy, the brewing industry has used no wheat whatever since March 1, 1946.

OTHER MATERIALS CUT 30%
The other grains used have been reduced by 30%—that is, to 70% of the 1945 amount.

Wheat alone can solve the problem of feeding the hungry. The grains to which the industry is now restricted, are of a variety and grade not normally consumed by the people of the world as food.

LESS BEER AND ALE
Altogether, the brewing industry is using

30% less materials than in 1945. This results in a proportionately lower production. But since the current demand for beer and ale is about 25% greater than a year ago, the real shortage is nearer 50%.

Consequently, your dealer will not be able to supply you with all the beer and ale you would like. We know you will understand the reason for this.

Your attention is earnestly directed to the recommendations of President Truman's Famine Emergency Committee, which are summarized in the box below.

This statement tells in clear, simple terms what each of us *individually* can do to help during the emergency.

What the President's Famine Emergency Committee asks us all to do

1. Save and share wheat and fat products . . . Go light on all foods that take wheat, fats and oils—save breads, macaroni, cakes, cookies, pastries and deep-fried foods. Use drippings for pan-frying. Save salad oil—use boiled dressings.
2. Buy and serve more plentiful foods . . . Balance diets with the more plentiful foods, such as potatoes, fresh fruits and vegetables.
3. Waste NO food . . . Dress up today's leftovers for tomorrow. Make every crust count with melba toast, crumb-toppings, bread puddings and stuffings. Take no more than you can eat. Clean your plate. Turn in unusable fat savings promptly.

Los Angeles — Little Robert Westfall narrowly escaped death recently when a navy plane crashed in his backyard, tearing out two of the three lines supplying power from Boulder Dam and killing the pilot. Decrees of Fashion

By Helen Bratrud

Famous New York millinery designer Lilly Dache, heard from Paris during a CBS "Feature Story" broadcast, described current French collections as "young, pretty and fresh looking, reflecting a great happiness and freedom." Much smaller hats—pillbox and off-the-face models—in very exciting, bright colors are favored, frequently worn with short veils. Commenting on the dress collections, Mme. Dache stressed the Directorate trend with very tiny, pinched-in waistline. She told that a new corset had been designed "just like the 1913 hour glass figure. It is very tight and makes you curve above and below."

Speaking from Hollywood, reporter Chet Huntley told that designers in the film capital are also campaigning "to reveal" that American women have hips and bosoms. Hip-lines are to be highlighted by clever draping and peplums. There will be subtle bustles, fuller skirts, tiny waists and more gently contours. Shoulders will have a tendency to be softly rounded and adhere to the natural. The almost-off-the-shoulder arrangement will be seen, making for what should be slower and more studied movement of midday. An intemperate or impulsive gesture would simply be too risky. Generally, American womanhood is going to appear as a much more feminine creature, a few ruffles, a bit of drapes, a few ruffles, a bit of flounce, here and there. An availability of material will soften lines, permitting draping, fuller skirts and even a bit of material just thrown away, like an exclamation point.

The word picture from New York sketched a following of the same softer contour. Favorite color in window displays of Fifth Avenue retail stores and specialty shops is grey for suits, dresses and coats—all with white, red or blue hats. In the field of high style designers, delicate hues carry out the softly moulded creations. Illustrating the trend to muted shades are Hattie Carnegie's spring colors—ash-beige, hydrangea blue, smoke-brown, dawn-grey, smoke-pink and lime.

But Where's the Billfold?

Beatrice, Neb. — Discovering that he had lost his billfold containing \$148, O. L. Clarke made a bee-line to a movie house which he had left a few minutes before. He found his \$148 but was unable to locate the billfold.

WAR SERVICE TRIBUTE — Secretary of War Robert P. Patterson pins the Medal for Merit on William S. Paley, Board Chairman of the Columbia Broadcasting System, who as a civilian, was head of radio operations of the Army Psychological Warfare Branch in Europe. Mr. Paley, later commissioned a Colonel, also holds the Legion of Merit and French Croix de Guerre with Palmes.

(Continued From Page 1)
all nations, that so frivolous and irrelevant a note should be interposed in a conference of such magnitude.

"It really makes one wonder who and what to have faith in, other than God and possibly hope — Mr. Hope."

"An American" the lady is, is altogether too obvious, and Mr. Clune's lack of the facts about Sinatra somewhat appalling.

Frank Sinatra has done more good work in the interests of racial and religious tolerance in the several years he has been at it than the chain of newspapers for which Mr. Clune works has in its entire existence. What would be more interesting to people with Mr. Clune's (and his correspondent's) point of view is that he has spent more money on it than his boss declares in his income tax in any one year. — And he has given more hours to it than Mr. Clune has made trips to Scottsville.

What is important about Mr. Sinatra's talks on anti-discrimination is that his audiences admire him and listen to him because they are young enough not to be too interested in what columnists have to say, they honestly try to put in practice what their hero endorses.

A young man with Frank

Sinatra's chunk could buy himself a yacht, polo ponies, an airplane and a country villa here and there, and lead the pointless playboy existence that Mr. Clune so often infers is "the life." Instead, the young man is prowling in and out of smelly spots as well as packed auditoriums preaching the gospel of tolerance and doing a much better job than the press could — and with the right people — the kids, — the bobby-soxers whose views, far more than those of our present generation, will decide whether or not we will have bigotry, misunderstandings, and wars in the future.

Frank Sinatra is justly famous for his crooning, which apparently bores Mr. Clune as much as it does us, but Frankie has found a rich market for what he has to sell. What he is giving away is less conspicuous but more valuable. It is laudable that he would take the time from the business of making more money to contribute his share to a better future world.

For the enlightenment of both Mr. Clune and his correspondent, the greatest newspapers in the country such as the N. Y. Times, Herald-Tribune, PM, the Chicago Sun (yes even the bigoted News) have given columns of space to Mr. Sinatra and his work among the youngsters in the interests of racial and religious tolerance. The world's most widely circulated magazines have also made generous mention of his work, including those publications that our intelligentsia carry conspicuously under their arms as they stalk to the lunch tables of our better clubs.

Yes, Frank Sinatra of the humble origin and the voice, had every reason to be not only a guest, but an honored guest, at the Security Council meeting of the United Nations. Without tolerance, and without such men as Sinatra working for it, the present council meetings and all others that follow may be destined to failure.

If Jane Corin, one of Mr. Clune's favorites, has "bumped" her way through a routine of the Council meeting no doubt it would have cost two columns of Mr. Clune's tri-weekly stov.

The latest rumor from the political grab bag is that the Republicans will urge either Col. Kenneth Townsend or Col. Kenneth Keating to run against George Rogers for Congress. If Mr. Broderick had the courage, however, he would give the nod to George Manning, serving his last term as N. Y. state assemblyman.

Last Saturday's Albany dinner for Mead is hailed as "significant." Not so much because more than a thousand attended but because "Mead for Governor" was openly espoused by the powerful Dan O'Connell whose advice last time went unheeded when Bennett received the nomination and the licking, — just as Dan had predicted. It looks as though Mr. O'Connell's advice this time will be heeded, regardless of what Jim Farley may or may not have to say.

The American Labor party is in a bargaining mood. It intends to demand a place of its very own on the Democratic ticket and if it doesn't get it the party may make serious overtures to the Republicans. ALP is currently eyeing the Comptroller's spot on the Democratic slate.

**ED RANDALL'S
Scene & Word**

I know the war is over, but stories about it still persist. Here is one I heard recently with which you may not have been afflicted until now. It concerns a certain Army camp in this country which shall be nameless. One of the companies billeted there had a tough sergeant in command, at least I imagine he was tough as I never heard of a meek and mild one. Anyway, one day this sergeant issued the following order to his troops drawn up at attention before him: "Men, I want this area policed today like it never was before. Pick up every blankety-blank thing that isn't growing and the Lord help any Joe who dogs it." So the boys hopped to it with a right goodwill. Suddenly a cute blonde teen-ager cut across the grass and two of the more eager beavers forgot all about police duty and started after her. "Hey, cut that out," shouted the sergeant. "That's still growing."

Definition of a fox: A wolf who sends flowers.

Then there is the one about the inebriated gentleman who barged into a saloon during a howling blizzard with at least an inch of sleet and snow on his shoulders. He made his uncertain way to the bar and heaved a large sigh of relief when he felt the solid oak under his elbows. He stood there weeping for a few minutes, then reached into his mouth, removed a set of upper and lower plates and arranged them carefully before him. Then, bending forward with a menacing scowl on his features, he shook a forefinger at the m. "Now then, dadblast it!" he growled. "Stop chattering!"

I understand that a group of professional writers of thrillers have formed a new organization, Mystery Writers of America, Inc. They have adopted a club motto, which, appropriately enough, is: "Crime Does Not Pay—Enough."

Then they tell of the Broadway actor who died and left his widow apparently inconsolable. At least she was still weeping three days after the funeral when the adjuster for the insurance company in which her husband had a large policy called upon her. The insurance man tried to cheer up the wailing widow. He said: "I know how much you miss Edgar. He was a wonderful man and must have been a marvelous husband. However, he was ever thoughtful of your welfare and I am sure the check which I have will provide for you the rest of your life." The widow refrained from crying long enough to grasp the check and take a good gander at the amount—\$50,000. You may not believe it," she told the agent earnestly, "but I'd give twenty thousand dollars of this to have my husband back."

Lemon Juice Recipe Checks Rheumatic Pain Quickly

If you suffer from rheumatic, arthritic or neuralgic pain, try this simple inexpensive remedy. Take a glass of water, add a few drops of lemon juice, and a few drops of Rock Compound. A two-week supply, ready mixed with a quart of water, will last you a long time. It's easy. No trouble at all. You need only 3 tablespoons of lemon juice and 3 tablespoons of Rock Compound. The two times a day. (Other brands of lemon juice are not recommended.) If you do not get better, return the empty package and Rock will send you nothing to try as it is sold by your grocer and all other "reputable" grocers. Rock Compound is for sale and recommended by one store everywhere.

Bridge To Pleasant Yesterdays

William Penn is a whiskey that dates back, in character, to coaching days and old-fashioned wayside hospitality. It warms like a tavern hearth; cheers like a tavern song. And its flavor will convince you that whiskey, when properly made as our ancestors made it, can be as gentle and mellow as candlelight—as genial as a roadside inn. Try William Penn and see for yourself!

Political Polka

By CURT GERLING

In some circles both candidates for governor have not only been nominated but elected. Official word, lacking as it is, has not deterred these masters of political prognostication from assuring their public that Mr. Dewey is nominated and will win and that Mr. Mead has been accepted and is an absolute cinch. Predicting a landslide for one's candidate is an old political trick. There will always be that band of voters who want to ride with a winner. The side that shouts the loudest and the most convincingly is supposed to attract this element to their standard.

This year's gubernatorial race as F.D.R. would say looks a bit "iffy." Some of the "ifs" are how strong Mead will run upstate. Republicans with their hair down and off the record will concede his home county, Erie, and Albany, Cayuga and Onondaga. These coupled with a heavy vote in New York city on the Democratic side would cinch it for Mead. The big "if" depending on how heavy the enrollment in the metropolis turns out to be. One expert states that a registration of over 2,100,000 means that Mead will win; under that figure Dewey's chances are good. O'Dwyer carried New York in the last mayoralty election by around 700,000 with a registration of approximately 1,900,000. It would seem that Mead's plurality could be even a 100,000 less than that and he'd still make the grade. (See POLKA Page 2)

Democrats Hail Mead as 'Governor'

Prediction — The Democrats will sweep the gubernatorial and congressional elections next fall; by 1948 the populace will be hailing Truman for a second term; Governor Dewey will join the rest of the "reactionary Republicans in political limbo and peace will be rampant throughout these United States."

Note—the above predictions are based solely upon reactions to last evening's dinner meeting of city and county Democrats who filled the Seneca Hotel ballroom to overflowing. The only reason the elections will be held as usual in November, instead of conceding everything to the Democrats right now is the fact that last night's crowd was definitely not a cross section of the nation's populace. If there were any Republicans present — they were very quiet about it.

And while good cheer pervaded the ballroom there were some who were definitely disappointed. Believing advance newspaper predictions that Senator James M. Mead would declare himself a candidate for governor, they waited, with bated breath, for the personable Buffalo salon to speak and speak he did. But, as for running for governor — he didn't say "yes," he didn't say "no," he didn't say "I'm thinking of it."

\$25 Winner

Mrs. W. R. Mitchell of 225 Kenwood Ave. is the lucky winner of this week's \$25 cash prize, offered by The Sun each week to its sustaining subscribers. This is the reward Mrs. Mitchell gets for paying her Sun carrier, Richard Rasbridge of 26 Arnett Blvd., 14 cents. Dick incidentally collects an extra five dollar bonus.

Community Chest Directory Lists Agencies Served

Booklet Prepared By Service Division To Cut Aid Delays

As another step in familiarizing Rochester and Monroe County residents with the services available to them through Community Chest agencies, the chest this week began the distribution of a new agency directory prepared by its service division.

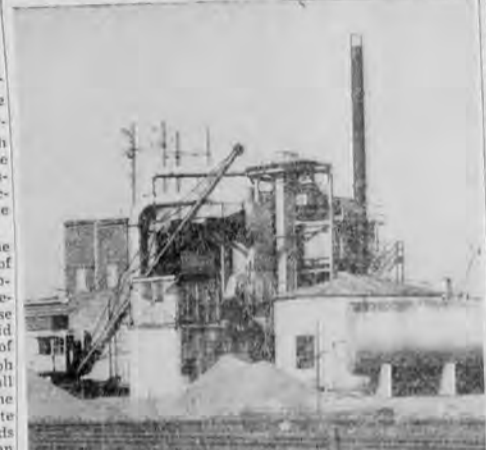

The directory explains the type of work done by each of the 46 participating philanthropies, and tells how a person requiring the assistance of these agencies may obtain the aid needed. The service division of the chest, headed by J. Joseph Burke, was established last fall "to bring together, with the least possible delay and waste motion, the person who needs help and the agency which can best help him."

"You don't have to be poor to be in trouble," Burke explained yesterday. "The 46 local agencies offer a wide variety of services — services that in most cases are available not only to the citizens of Rochester, but to residents of the county."

Carmon J. Tyner, manager of the local U. S. E. S. office points out that nearly 30,000 veterans out of a total of 43,000 have already returned to this area and says that 4,000 of them are now seeking employment through his office. He is asking employers to file as many of their job orders as possible with him and stresses the importance of offering veterans as wide a job selection as possible so that their varied skills may be fully employed. He says this is sound from both a business standpoint, as well as social economy.

The campaign here will be in effect at 2 a. m. Sunday. (See VET JOBS Page 3)

City 'Soaks' Taxpayers To Reward Contractor

CLOSES ASPHALT PLANT; TO BUY FROM HOLAHAN

Manpower Shortage 'Excuse' Used As Coverup

Grimbling taxpayers in Rochester this week had a new grudge against the city administration in general and the Department of Public Works in particular when it was announced that contracts for the production of city-used asphalt materials had been let to a private contractor and that the municipal plant for the production of the paving material built at a cost of \$150,000 would again remain closed.

Help Shortage Claimed

The city department's report that the manpower shortage had forced the move was found after investigation to be untrue. Inquiry proves that the city plant on Scottsville Rd. could be operated with the six or seven men who carried on the work between 1930 and 1944 when the plant was shut down. Those same men are still in the city service, scattered in other divisions. One of the men is right now, in fact, at the plant as watchman. He is relieved by two others who act as night watchmen. Another former asphalt plant employee is working at the city garbage disposal. (See ASPHALT Page 9)

MANPOWER SHORTAGE — OR CAMPAIGN CONTRIBUTION?

The city-owned asphalt plant on Scottsville Rd. will remain closed again this year while the Department of Public Works buys its paving supplies from a private contractor — at nearly 50 percent higher cost than its own former production cost. City officials say the plant was closed because of a lack of competent labor. Others say that the contractor was favored because of his contributions to the Republican organization.

Daylight Saving Time Starts Sunday

By virtue of an edict of the City Council, Rochesterians and their rural neighbors will lose an hour over the weekend when daylight saving time takes effect at 2 a. m. Sunday.

VIRGINIA'S SPECIAL
REGULAR \$10
PERMANENT WAVE
\$6 50

Virginia of Virginia's Beauty Salon has just returned from Mexico's of Miami Beach with the latest styles and ideas for permanent, bleaching, tinting and hair styling.

Ask Virginia about the NEW RAY CREAM TREATMENT. The very first treatment makes your hair look better — feel better. Especially beneficial to dry or over-processed hair. Contains a special ingredient to give body to your hair — depth to the waves — and better curl strength. A silky texture — after only one treatment.

HALF-PRICE HALF-PRICE
a group of SPRING HATS — at CARTER HAT SHOP. These particular groups are lovely and wearable — all this season's hats — and just imagine — marked just half of their original price. I know you won't be able to resist those DUSTY PINKS champagne at CARTER'S. They are infectious in color — and smart as you'll ever see. PANAMAS are also "in." Buy yours NOW. They won't last long. They are the nicest I've seen in years. PLASTIC BAGS have also arrived — Ideal for summer — in beautiful colors. Priced \$5 and up. Now about that JEWELRY. — Ask about the HORSE — earrings and pin to match. Priced \$2 for the set. Other "hunks" of jewelry one more beautiful than the other. Well, what in Heaven's name more do you want under one roof? CARTER HAT SHOP — 636 MONROE AVE. — Open Eve.

The little topper coat is one of the season's favorites. One fashioned of Brighton's linen-like fabric is white and goes over a navy blue dress. But it will go over almost anything. Think about one for summer. They are bubble also.

Belts do wonderful "things" for outlines this season. But be sure you are the "type" for a flashy belt. If you have a large waistline—avoid them like a plague.

You must have guessed by now — my favorite LIQUOR STORE is the MONROE — located 985 Monroe — corner Shepard.

At this friendly store — you'll find all leading brands of whiskey — gin — wines — cordials etc. There should be no debating on your part — what to buy — it is all so easy — with such an outstanding selection. As for quantity — this advice is yours for the asking — and that is a problem — to most of us — but not to this store. As for "mixing" that will be "duck-soup" — after a little "info." So when your wants are "liquid" — drop into MONROE LIQUOR STORE — 985 MONROE corner Shepard and tell "him" I sent you.

No matter your size — see your self in the mirrors at RIPTON DRESSES — and you'll marvel at the magic that line and color can achieve. Dresses at this shop are bought for YOU — whether you're a JUNIOR — REGULAR — or WOMAN'S SIZE. Every garment is skillfully selected at the source — from the best "houses" — and when they arrive at RIPTON'S — they are carefully inspected to assure you a "perfect" piece of merchandise. Then they are placed on "racks" for your inspection and service to you by a personnel trained for your pleasure. Prices are right — \$3.95 and up. RIPTON DRESSES are located at 739 MONROE AVE. — Open Eve. — PS. COTTONS ARE "IN."

Fortunate are the women who shop the "800" SHOP. Everything is there just for you. Little afternoon frocks, smart enough to make your public swoon before they have had their first martini — daytime dresses to keep you well dressed while shopping or lunching — and last but not least the most adorable Cottons — to keep you cool and collected in the humid days to come. All are priced \$8.95 and up — all sizes. MATERNITY DRESSES arrive daily. There is nothing like a REAL MATERNITY DRESS to keep you the well dressed "lady" you've always been. Plenty of styles suitable for expansion purposes. Starting at \$8.95 also. "800" SHOP is located corner Monroe & Canterbury — Open Eve. — "Moresa sponsored" as you know.

KAY'S COMMENTS

It's unseasonably warm these Spring days — you must admit — and it does influence your meal planning doesn't it? Your thoughts turn to feed coffee — fruit salad — etc. — and why not — they are the ideal foods for warm weather. But let me remind that this summer — they will be more enjoyable — with the aid of REAL SEALEST CREAM — at your disposal. You'll find this delicious cream will "whip" in a minute — even after you let it stand for twenty-four hours. REAL SEALEST CREAM is the pet of BRIGHTON PLACE DAIRY — located at 45 Fulton Ave. — Glenwood 144.

This is going to be an important season for COTTONS. — where to find them — ALICE DRESS SHOP of course. Buy yourself enough tubulars to last you 'til September. Alice has them in all sizes — even the half-sizes — in all colors, stripes, plain pastels, the materials are par excellence. Gingham, chambrays, eyelets etc. ALICE DRESS also "stocks" lingerie — and it is beautiful — especially the alpine. Other wearables also. As for the regular "stock" of dresses, they are just as lovely as everything else. All merchandise priced with an eye on your budget. ALICE DRESS SHOP — is located 639 MONROE AVE. — Open Eve.

SALE SALE — SALE — Entire stock greatly reduced in ZWEIG DRESSES. You'll find regular sizes and even the hard to find half-sizes included in this SALE. All typical Zweig quality — all beautiful — and just "right" for wear now. It will "pay you" to drop in and make your selection EARLY. Judging from the price — tags — I don't think the merchandise will last long. So grab your hat and pocketbook — and make for ZWEIG DRESSES — 240 ROSEDALE — Off Monroe. — Open Eve.

NEWS Here's NEWS gals — For the Month of May — ONLY — DAGGETT & RAMSBELL's satiny-smooth GOLDEN CLEANSING CREAM. It is a superb luxurious cleaner. I know why cause I use it the year round. It removes pore — clogging dirt and grime and helps to keep the skin soft and smooth. It's delicate tint is due entirely to the presence of one of its bene-

cial ingredients. The \$2.50 size is being offered for less — than — half-price at \$1. At such a low cost, every woman can afford the luxury of a cream that never goes off its "Golden" standard. May be purchased at all DAW DRUG STORES.

EDWARDS COSMOPOLITAN SHOP

Are you familiar with these dress makers? If you're not — you've missed the best "bet" in dresses. Here they are — LORRAINE FROCKS, MIL — JAY by Shampkin and C. A. CRANE — Abrams. They are to be found at the COSMOPOLITAN SHOP — at EDWARDS — on the Third Floor. The Dog Collar Neckline Dress by Lorraine — is all soft curves and teems with feminine wiles. Deep, deep yoke — into — sleeve shoulders, draped skirt, halter-like top. Nosegays drift over grey or navy blue rayon crepe. Contrasting belt, and a beautiful embroidered chataiaine. Only comes in Misses' sizes and is priced at a modest \$19.95. MIL — JAY'S "Sequins in Print" — is new and exciting. Delicate sprinkles of sequins glimmer throughout, the bodies of this cocktail dress. Shirred — to — flatter bodice and skirt (that's mid-riff cut.) Gay whirling gypsies on black rayon crepe. This model is priced at \$39.95 and worth it. JAY'S "Magic" by CRANE and ABRAMS — it's voluminous skirt will float about you like a dream below the deep-shirred corsetlette waist line. Romantic shirred sleeves, drawing keyhole neck. It is Spring color — prints on sheer chiffon dark rayon. Misses sizes only — priced \$29.95. But just to describe these frocks to you on paper isn't half doing them justice — drop into EDWARDS Cosmopolitan Shop — Third Floor and see for yourself. On the same floor — (Third in Coat Fashions — ask to see "SHOWER-SHEDDERS" for Girls and their Mothers. The Misses' Belted Fly Frontier — a waist minimizer if ever I saw one — with its wide set-in-belt and flared skirt. Sleek — as — a — streak closing, slash, pockets — Your choice of many colors — "Shes" at \$22.95. THE WOMEN'S OPTICERS' COAT — styled like a Captain's trench coat in lustrous water-proof rayon gabardine. Slash pockets also — small belted waistline, flared skirt. In silver grey only — sizes 35 to 45 — priced at only \$25. Remember EDWARDS are setting a New Pace in Rochester.

Here you will see in operation the latest developments in kitchen equipment, suitable for new or remodeled kitchens. The Center introduces a new method of ventilation, adaptable to every range and every kitchen, so that you may have a cleaner cooler kitchen. A trained staff to help you with Kitchen Planning, Ventilation and Heating problems. They're at your service at the KITCHEN CENTER — 89 East Ave.

LLOYD'S FUNERAL WORK is a specialty with LLOYD'S. It isn't a pleasant task — to order flowers for the dead — but it is one of those "things" we must do — on occasions. So listen — for REAL VALUE — call LLOYD'S FLORIST, Main 7688. Fresh flowers are always used — delivery is prompt — and your floral offering will be something you'll be proud to bear your name. Of course Lloyd's have flowers for all occasions — weddings — the shut-in's — the sick etc. So make your florist call — LLOYD'S — you'll always be happy with the results. Two stores for your convenience. POWERS HOTEL — and Reynolds Arcade — Main 7688.

Louise told me a new one. Split plain fried-cakes — spread with butter — pop under the broiler — after dusting with cinnamon. Try them for breakfast.

For sports — think about a grey coat — and add maroon collars that look like a shirt both back and front.

MacArthur Smear Unfair And Untrue Says Writer

No foundation for a campaign of vilification against General Douglas MacArthur, said by virtually unparalleled in history, has been found by Clark Lee, war correspondent who was with the general during the terrible days on Bataan. Lee made a personal investigation of the campaign and has reported his findings in the April Cosmopolitan.

Lee declares the campaign has been intensive and, from the standpoint of those who promulgated it, successful. The writer claims rumored charges against MacArthur range from cowardice to downright villainy.

"I have discussed MacArthur," says Lee, "with at least 5,000 men of all ranks in the Navy during the last four years, and I have not found more than a dozen who were not convinced that MacArthur was a coward or a villain or both."

How the MacArthur stories originated is not too clear. Lee points out, but persons close to the General believe that some of them were started by a

FIVE DIRECTORS ADDED BY HEALTH GROUP

Five members have been added to the board of directors of the Tuberculosis and Health Association of Rochester and Monroe County according to an announcement made this week by Joseph P. MacSweeney, president. The new Directors are Mrs. Frank Gannett of Brighton, Henry W. Kimmel also of Brighton, Dr. Estelle Hawley of Pittsford and A. Edwin Crockett and Rabbi Stewart Rosenberg of Rochester.

"It is with genuine pleasure and a sense of gratification to me to announce these new appointments to our governing board," said Mr. MacSweeney. "The willingness of such outstanding leaders to associate themselves with the health work of our association gives evidence of the widespread interest of leading citizens in public health."

Mrs. Gannett has been associated with the work of the association in connection with the Mobile X-ray Unit. Kimmel and Crockett are industrial leaders and their appointment is indicative of the growing interest of the Tuberculosis and Health Association in health industry.

NEW KITCHEN IDEAS UNVEILED AT RG & E

A new Kitchen Center comprising three kitchens and a laundry was opened to the public at the Rochester Gas and Electric showrooms, 89 East Ave. this week. According to utility officials, the Center was built to show how to make most effective utilization of available space in these days when the trend is to smaller homes. The new display kitchens also demonstrate the "Rochester plan" of kitchen ventilation which has been developed by R. G. & E. engineers. It is claimed that this ventilation system rids the kitchen of oily vapors arising from cooking operations and also eliminates objectionable cooking odors.

The Kitchen Center will be open from 9 a. m. to 5 p. m. Mondays through Fridays and 9 a. m. to noon on Saturdays.

A MODEL HOUSEWIFE IN A MODEL KITCHEN — It shouldn't be difficult for Miss Florence Woodward of the Gas & Electric's Home Service Dept. to look happy and contented in this ultra modern ventilated kitchen developed by engineers and laboratory experts of the company. The model room is part of the new Kitchen Center opened at the company's East Ave. display rooms this week.

VIRGINIA EDITOR TO BE HONORED AT UNIVERSITY

The greatest danger confronting the South today is that the attacks being made upon it from other sections will have the effect of stifling the progressive movements which are under way in the region, in the opinion of Virginia Dabney, editor of the Richmond, Va. Times-Dispatch, who will speak in Rochester May 1.

Dabney will give the annual Phi Beta Kappa lecture at 8:15 p. m. on that date in Cutler Union, Prince Street Campus, at which 28 University of Rochester students recently elected to membership in the honorary scholastic society will receive their gold keys. His subject will be "The New South: Fact and Fiction." He will be introduced by Harold W. Sanford, editor of the Democrat and Chronicle and president of the Rochester Phi Beta Kappa chapter.

by Douglas Southall Freeman, to whom the University of Rochester awarded an honorary degree a few years ago.

Here's an idea recently expressed: "Why learn a foreign language when you cannot use your own intelligently?"

Candidates will be initiated at private ceremonies at 8 p. m. preceding the lecture, which is open to the public. The initiates include 19 students at the College for Women, and nine at the College for Men.

Dabney, eminent in Phi Beta Kappa circles, was selected by the University of Rochester chapter, Iota of New York, because of his interest and leadership in Southern liberalism. He has been a member of the editorial staff of the Richmond Times-Dispatch since 1928 and editor since 1935. Previously he was on the staff of the Richmond News Leader, edited

"CHILD GUIDANCE"
SUBJECT AT NO. 19 PTA

A talk on the subject, "Does My Child Need Guidance" by Dr. Howard C. Seymour and a style show under the direction of Mrs. Iva Corcoran, sewing instructor, will highlight a meeting of the No. 19 School PTA scheduled for Tuesday at 8 p. m.

Dr. Seymour is coordinator of child services for the Board of Education. In his message it is expected he will call on many of his experiences and observations to give his listeners an accurate picture of the necessity for the correct type of guidance for the growing child.

Children of pupils of the school's adult sewing class will model in the fashion show. Refreshments will be served at the conclusion of the meeting by a committee headed by Mrs. Claude Arnold and Mrs. John Short.

Twenty Million Radio
Sets Forecast For 1946

Radio manufacturers will produce 20,000,000 receivers this year, nearly sixty per cent more than the previous annual output; television receivers ranging in price from \$150 and up will be ready by mid-summer and substantial increase in the number of standard, FM and television stations is forecast before the year's end. Gross billings for all types of radio advertising in 1945 which reached nearly \$412,000,000 is expected to rise even higher in the current year. These are a few of the many industry observations in the ninth edition of Radio Annual published by Radio Daily, which is off the press this week.

Brig. General David Sarnoff, president of RCA, writing in the 1946 Radio Annual, declares that reconversion continues to be the dominant factor both in research and production. In the same issue, Frederic R. Gamble, president of the American Association of Advertising Agencies declares that advertising of all branches will be charged with the great responsibility for distributing the vast volume of goods following unprecedented production now under way. Gamble further states that should the peacetime ratio of advertising to national income prevails postwar, then advertising volume should reach 3.3 to 3.6 billion dollars annually.

Record Radio Audience

The number of radio homes in the United States, according to 1946 estimates, has reached an all-time high, 34,398,302 — a national family coverage of 91 per cent.

With the next four years, according to official estimates, there will be between two and four thousand frequency modulation stations operating in the U. S. The number of standard stations, at present near the 1,000 mark, is expected to increase by 50 per cent by next year.

HAVE THEIR BEAUTY
TREATMENT AT SIBLEY'S!

Just storing your priceless furs in the restful dry cold of Sibley's Certified* Fur Storage Vaults does wonders for them. When they need restyling or repairing as well as rest, Sibley's master furriers can give them fastidious attention—without your furs once leaving our premises. If you wish, we will have them cleaned before storing.

Sibley's Safe Cold Storage
Offers Six-Way Protection

1—SAFE FROM HEAT . . . below-freezing temperatures and moisture-laden air prevent your furs from becoming hard and brittle. Instead, they stay as supple as they are upon entering the vaults. Be sure your fur furs enjoy this unique protection afforded by temperatures kept steadily below 32 degrees Fahrenheit.

2—SAFE FROM MOTHS . . . no larvae can survive the frigid temperature of the fur storage vaults—your furs are guaranteed safe from the devastation produced by moths during the Summer months.

3—SAFE FROM FIRE . . . Sibley's Certified* Fur Storage vaults are completely fire-proof, especially constructed to afford complete protection for your valuable furs.

4—SAFE FROM DUST . . . no dust lurks behind the closed doors of Sibley's storage vaults. The air is clean and refrigerated, constantly changed, free from dust-laden particles.

5—SAFE FROM THEFT . . . all garments are insured by Sibley's under a plan that offers complete protection against theft.

6—SAFE FROM DAMAGE . . . all furs are thoroughly inspected before they are hung in the vaults. They are individually tagged and catalogued with extreme care by competent, bonded personnel.

CHEST GUIDE...

(Continued From Page 1)
Monroe County towns and villages.

"In preparing this new directory, it isn't the chest's purpose to bring a flood of 'new business' to the agencies, which already are swamped with work.

"Rather, we believe that the directory will help in steering people to the agencies early—when their problems are in their early stages, and when they can be straightened out with a minimum of time and effort, and with happier results to the individual and to the community.

"The agencies, contrary to widely-held opinion, don't exist merely to serve the unfortunate; everybody can use them. Community chest support enables them to give better service to all; it enables them to give free and part-pay service to people of limited means."

The service division is a modernized, streamlined, and year-round version of the old "Complaint and Appeal Division," formed in the early days of the chest and functioning largely at campaign time.

The local agencies, Burke said, serve a far higher proportion of the community's residents than is commonly realized. Over 30,000 people, for example, are bed patients in Rochester's community chest hospitals yearly; other tens of thousands are reached by the youth associations, Scouts, and settlements.

The Visiting Nurse Association was used by 9,530 patients in 1945, and a total of 75,144 visits were made to homes to give skilled nursing care and health instruction. Fifty-three per cent—40,121—of these were free visits; 13,150 were part-pay visits, and 21,873 were full-pay, made to homes where part-time nursing service was needed. This is another instance, Mr. Burke said, of an agency that gives a vast amount of essential service to people of limited means, but which is also available to all who need it, regardless of financial status.

ED RANDALL'S Scene & Word

Let's dwell today upon the housing shortage. It's a tough problem and some of the so-called better minds in the country are beating their brains out in Washington trying to find a solution to the nasty mess.

Many reasons have been given for the lack of dwellings. Some blame it on the number of new families produced by the war. Which is a very logical conclusion. Let's take an average couple, a guy and a gal who had been going together for a few years. Marriage was something to look forward to in the dim future but in the meantime, let's have a good time, a lot of laughs, and get married when we have piled up enough rocks to make a down payment on the bedroom set.

Suddenly the lad finds his number coming up in the draft and sweetie-pie says: "Joe, dear, let's get married before you go to war. I'm sure you'll make a better soldier if you realize you're married and that your little wife is praying for your safe return. Besides, your big lug, you might get to Paris and if what my dad told me about Paris in the last war is still true, it's no place for a single guy, especially a wolf like you, to be running around loose. Just remember that you're married to me when those ma'am's start trying to make you."

So poor Joe takes the line of least resistance and they exchange the fatal vows. He's due to leave for Camp Dix in two weeks so they have a short honeymoon and the bride stays home with her family to sit the war out.

Eventually, Joe returns to his turtle dove and everything is peaches and cream for a while. He is a father, his old job is waiting for him, and he soon settles into the old familiar civilian routine. But not for long. He finds that living with his in-laws is no bargain. Oh, they're nice people, all right, and they think a lot of their son-in-law and grandchild, but it is inevitable that friction develops and Joe wants out. But where to go? He can't find a house to rent and is compelled to buy a home to find a place to live. This means that the occupants of the house he buys are forced to move, they in turn buy a house and another family is forced to move and so the vicious circle goes on. Multiply our Joe by the thousands of returned service men in similar circumstances and it's very easy to understand why there is such a pronounced shortage of dwelling places.

Others blame the shortage on the thousands of families who moved to the large cities from farms and villages, lured by the golden magnet of high war wages and the thrill of living in a big city. Another reason offered for the shortage of available houses is that fact that so few homes were built dur-

ing the war because of the lack of building materials. As I said, the master minds are more concerned with solving our current number one problem than they are with finding the reasons for it, but in my opinion a student in one of our larger universities hit the nail squarely on the head. During a history examination, one of the questions to be answered by the students was: "How can you account for the large increase in urban population?" And the classic answer from one of the more profound thinkers was: "Everybody went to town!" That apropos observation might serve very well as the answer to many of our postwar problems.

Ingrid Bergman is to have the leading feminine role in "Arch of Triumph," which is as perfect a blending of actress and part as has been seen in some time. Lewis Milestone, who did such a wonderful job directing Erich Remarque's first novel, "All Quiet on the Western Front," will also direct the film version of this one.

Paulette Goddard has been chosen by Cecil B. DeMille for the lead opposite Gary Cooper in his forthcoming Technicolor historical production, "The Unconquered." In the picture, which will have a background of pioneer life in the Alleghenies, Paulette will portray an English girl who is convicted of murder and deported to America as a slave.

Edward G. Robinson's next will be in the forthcoming Sol Lesser production of "The Red

House," the George Agneau Chamberlain novel.

After a year on the stage, Frances Dee is returning to the screen in a top supporting role in the Loew-Lewin film, "Bel Ami."

Brian Donlevy is to have the part of Maj. Gen. Leslie R. Groves in MGM's atomic bomb picture, "The Beginning or the End," in which Robert Walker and Beverly Tyler will also have featured parts. Walker will portray an Army officer assigned to the atomic project and Miss Tyler, the "Allison Keith" of "The Green Years," will play his war bride.

Hal B. Wallis, now in England, is said to have bought, for a reputed \$100,000, the screen rights to "For Her to See," a mystery novel by the British writer, Margaret Long.

Frank Capra, who offered his services to the Signal Corps just five days after Pearl Harbor, is now a civilian and will go back to making pictures. His first film will be "It's a Wonderful Life" starring James Stewart. James has recently been discharged from the Army Air Forces and this will be his first appearance in the movies since joining the A. A. F.

Paramount is facing the problem of the grape season being over before they are ready to film "California" so they are planning to transplant 2,000 vines from Northern California to San Fernando valley and tie two tons of grapes on them by hand.

plant and another at the incinerator. At least two more are connected with the Dewey Ave. garage operated by the DPW. One of these men was the foreman in charge of the asphalt plant who had held that position since the opening of the plant. He also had charge of all its remodeling stages. Inquiry develops that he now works on snowplows, spending both winter and summer repairing them.

No wonder observers are of the opinion that the plant could be reopened if authorities wanted it that way.

Costs Mount

What really has taxpayers aroused, however, is the difference in cost to them of asphalt produced by the city and that purchased from private sources. According to records the municipal plant was producing material at slightly over four dollars a ton while the contractor was asking six dollars per ton. His present charge is \$7.10 per ton. The plant was built and put into operation by former city manager Harold Baker purely as a money-saving venture.

Several significant facts emerge from investigation of the present set-up:

1. The plant operated right up to the beginning of 1944, but closed down coincidentally with the appointment of August Wagener as Commissioner of Public Works.
2. The men who had operated the plant remained in the city service but were scattered through other divisions of the department.
3. Since closing of the plant, the contract has been let annually to Thomas Holahan Co., Inc. contractors. According to published reports Thomas Holahan contributed \$300 to the Republican organization last fall.
4. While the current contract calls for 5,000 tons of hot binder and 5,000 tons of fine-graded material at a total cost of \$69,200 the city last year purchased nearly 25,000 tons of material to the tune of \$150,000 from this same contractor. With the extensive program of street resurfacing and repairs which the department has announced it will undertake, it is expected that this year's total will equal, or surpass last year's total.

Some Republicans predict that a 650,000 upstate plurality will offset anything Mead can pile up in New York City. Yet 650,000 upstate votes is substantially more than the "little man" is likely to poll.

With all the "ifs" both sides admit a close race while still claiming their candidate will win overwhelmingly. That's what is laughingly called sharp political thinking.

Locally the GOP are a bit squeamish about their chances of re-electing Dan O'Mara to another term as D. A. His record for unsolved murders still runs Chicago a close second. It is rumored that his recent report on 1945 accomplishments was sharply criticized by members of the bench and bar (privately of course).

What is known as the "organization" never throws overboard any of the faithful and you can look for a squeeze play any day now. Things may be kicked upstairs to another place rather than run the risk of his taking a shelling at the polls.

The OPA business now being kicked around in the mental processes of the Senate got there on a forward pass and double cross from the House. The original bill was torn to pieces in an effort to please big business while still seeming to protect the public from an ever increasing inflationary trend.

The lower House had no doubt that the Senate would also do a little revising on its own hook. They in turn would pour out oratory and double-talk that would make good reading back home and in the panelled directors rooms of our upper crust corporations.

When the Senate has kicked the bill around it will go back to the House and they will kick it around some more and it'll go back to the Senate and when it is totally confused and completely unrecognizable it may reach Truman's desk for signatures. If he vetoes it they both can say it was all Harry's fault and wipe their hands of it, except for the purposes of political capital.

Our Federal government doesn't seem to be any better at "holding the line" till '49 than our city fathers.

Elsewhere in this newspaper you may find a report that one of Rochester's most successful contractors - particularly in getting city contracts, made a contribution of \$300 dollars to the Republican war chest last fall.

That of course is the official contribution.

"no." If it had been for last night's crowd to decide, Mead could start for the Albany executive mansion this morning.

Heavyweight puncher of the evening, however, was State Democratic Chairman Paul Fitzpatrick who unlimbered the heavy artillery in the general direction of Governor Dewey, whose name brought anything but cheers from the diners. Other and sundry Republicans got their share of brickbats at the hands of the Buffalo chairman, too. Congressman George Rogers, the home boy who upset the Republican machine two years ago was a masterful master of ceremonies.

While there were many satisfied smiles noted, none was more pronounced than that worn by Roy Bush, county chairman. He had good reason to smile. At seven dollars a head, the Democrats treasury this morning was more than \$2500 richer because of last night's affair.

WHAT THE ATOM BOMB WOULD DO TO US

The atom bomb, dropped on any major American city, would be expected to destroy its buildings, utility and wipe out its population, say the experts. Read the facts in this article.

John L. Lewis is out to show his miners that more can be accomplished by the sharp tongue than the soft word. He will ballyhoo his unfriendly attitude toward the White House thus ridiculing Phil Murray who is considered friendly to that famous residence.

After his usual series of allegorical utterances John will get most everything he wants and play that up when he undertakes the domination of the AF of L and later begins his raids on the CIO membership.

Jowly John has the politicians uneasy as he may be instrumental in dividing the labor vote. Although just what the GOP would do with any labor vote after if they got it has never been satisfactorily explained.

In Sam Cooper's time Brighton had four cops. They sharply criticized him—three, they said, was enough. Today there are twelve and all mighty stout lads. But some Brighton burglar is out to humiliate them. Recently a prowler (probably a Democrat) stole a typewriter and Chief Conklin's chair right out of the police station.

According to smily Hosmer who occasionally invades the province of his co-worker Alfredo Moss, Mr. MacFarlin's newly acquired bower Harold S. Rand states that among other duties of the publicity department is the defense from censure of the innocent public servant.

Political Polka

By CURT GERLING

Even after a bang-up dinner in Rochester and subsequent ones elsewhere, Senator Mead has shown no inclination to throw his hat in the ring and definitely declare himself a candidate for governor.

There is obviously a whole lot of "behind the scenes" work still going on. Factions are jockeying for position and attempting to get favored sons named for other offices on the state slate.

In the opinion of many, Mead himself is uncertain whether or not to accept the nomination regardless of his willingness to accept the pre-nomination build-up. Mead is sounding out not only support but the Dewey strength and some believe that he is reluctant to give up the certainty of re-election as a senator to run the risk of possible defeat for the governorship.

The average person doesn't realize that it costs money to be governor, at least an honest one. The niggardly salary of \$25,000 for the longest richest state in the union doesn't even keep up the table and general household expenses of the executive mansion. All of which seems strange to the uninitiated who have never seen the milk, grocery and the butcher bills for the governor's establishment.

Al Smith went to Albany with \$100,000 in Liberty Bonds and left the governorship broke. Smith made his fortune after leaving the post giving up his first nest egg to help make both ends meet in the Albany executive mansion and to keep up gubernatorial front.

Jim Mead would not only re-

Two Divisions Open Chest Drive Monday

The 1946 Community Chest fund drive, officially slated to run from May 13 to 20, will actually get under way in scores of stores and factories next Monday, with the Industrial and Commercial Divisions making an early start so that their work may be completed in time.

These two divisions last year accounted for 102,413 pledges amounting to \$606,489, and the results of their efforts next week will give an important index to the success of the 1946 Community Chest canvass. Their first reports will be turned in on Tuesday, May 14.

Although 19 National War Fund agencies, including the USO and Allied Relief organizations, are to be included in the Chest budget this year, major attention, and a major share of the funds to be raised will center upon the local philanthropies. There are 46 of them; 38 of the 46 serve not only the citizens of Rochester, but the people of Monroe County's towns and villages, and the campaign committee this year includes, for the first time, a Monroe County Division.

Reports from the 46 agencies, now being reviewed by the Budget Committee headed by Chairman Joseph Goldstein, show that the agencies in general are handling a greater volume of work than at any time in their history.

\$25 Winner

Mrs. H. Legg of 290 Hayward Ave. is the lucky winner of this week's \$25 cash prize, offered by the Sun each week to its sustaining subscribers. JUST ANOTHER WEEK HERE — This is Music Week throughout the nation, but in Rochester schools it's just another five-day period. Not that Rochester lags behind the country in things musical. Quite the contrary! According to Music Director Alfred Spouse "every week is music week in Rochester schools." With all elementary school pupils participating in some music activity and with instrumental and vocal courses ranking highest in popularity with high school pupils, Rochester is considered one of the brightest spots on the nation's music map. Typical of courses offered here, under the direction of Paul W. Allen, vocal instructor at Charlotte High School. The group is composed of: Shirley Newman, Patricia Weld, Paulina Cartland, Barbara Schmid, Madeline Mann, Sue Phillips, Joan Stevens, Shirley Titus and Kirk Anderson.

POLICE PLAN HOLY NAME BREAKFAST

Upwards of 200 members of the Rochester Police Department's Holy Name Society are expected to attend the group's annual communion breakfast at St. Joseph's Church next Sunday at 6:30 a. m.

The Policemen will meet in uniform at the Elks Club at 6:15 a. m. and march in a body to the church where mass will be celebrated by Bishop James E. Kearney, assisted by the Rev. John S. Randall and the Rev. Guttenberger, pastor of the church.

The mass will be followed by a breakfast in the Hotel Seneca at which Msgr. John O'Grady, Ph. D. L. L. D. will be the principal speaker. Msgr. O'Grady has a wide reputation as an author and editor. At one time he was professor of sociology at the Catholic University of America and later served as secretary of the National Conference of Catholic Charities. Other speakers will include Bishop Kearney, the Rev. John S. Randall, Mayor Samuel B. Dicker, Commissioner of Public Safety Thomas C. Woods, City Manager Louis B. Cartwright, Deputy Commissioner of Public Safety William Lang, Police Chief Henry Copenhagen, Sheriff Al Skinner and Frank J. Smith.

LUNCHEON, INSTALLATION PLANNED BY NO. 36 PTA

"Spring Entertaining" will be explained to members of the Henry Wadsworth Longfellow School No. 36 PTA at their regular meeting scheduled for next Wednesday at 1:30 p. m. in the school. A dessert luncheon will precede the meeting and installation of new officers will follow. A speaker from the Home Service Department of the Rochester Gas & Electric Corp. will discuss spring entertaining.

OPA Office Hours Bar Aid To Many

While the OPA is fighting for its life in Congress, its Rochester office continues to give opponents of the price control plan valuable ammunition for its closing. In fact, that's the trouble with OPA offices here, according to the complaints of many Rochesterians—they're closed too often.

Workers in Rochester's industrial plants and retail stores are practically barred from registering complaints or seeking advice from the local offices unless they want to lay off from their work during the few short hours the OPA offices are open and suffer the consequent loss in pay. This, many are reluctant to do.

The main offices of the war price and rationing boards on Main St. W. are open from 8:30 a. m. to 4:45 p. m. Monday through Friday. The rent control offices in the Cutler Bldg. have an even shorter working day. That office is open only from 9 a. m. to 5 p. m. Monday through Friday. Saturdays they are both shut down tight.

Backers of the price control plan, and officials of the plan itself are right now shouting themselves hoarse in the halls of Congress declaring that OPA was set up to help the "little fellow", the "common people", and the workers of the nation. But their own offices right here in Rochester remain shut down tightly on the only day the aforementioned "little people", etc. are free to seek advice, register complaints and otherwise commune with OPA officials.

Whether or not OPA realizes it—or actually cares, for that matter—the average worker is usually free only on Saturday—and many only Saturday afternoon. Even if they are working only 40 hours a week, they are busy on the job before 8:30 in the morning and are not yet through at five o'clock in the afternoon. That is—unless they work for the OPA. Then, unless they have no lunch period whatsoever, they work only seven hours daily—five days a week.

It has been suggested by many of those who have trekked to the highly-important rental office only to find it locked up tight that, if employees and the rent director can work only 35 hours weekly, they at least rearrange their schedule so that the offices can be opened Saturday until 5 p. m. Closing Monday might be a step in the right direction.

Like all other government bureaus and offices, the OPA is technically the servant of the people. And when people hire servants, they usually are able to dictate the hours during which those servants shall have to labor. But when it comes to government bureaus the servant idea has grown to be more of an ideal than an actuality. That's why the people who need the protection of OPA most are least able to get it. That's why many of those same little people the OPA is supposed to be protecting are suffering on the whole business

KAY'S COMMENTS

Of course the housewife has known for some time — that her kitchen — and all kitchens as a matter of fact — could stand VENTILATION. But it took a staff of engineers of our own ROCHESTER GAS & ELECTRIC to really solve the problem. It has become national news this so-called PACKAGED VENTILATION and has been called the "Rochester Plan." After installation — all the homemaker has to do is flip a switch at the range and the ventilation is turned on. All the home cook sees is a wall grill above her range. No steam — no odors — you save many a paint bill to say nothing of the comfort of an always perfectly ventilated kitchen. Ask for particulars at R. G. & E. 89 East Ave.

SHORTY JAMAS. The top will work overtime with suits and skirts. The well-cut tailored shorts are quality rayon and cotton in gay floral design. In blue and rose. Sizes 32 to 36. Priced at \$3.95. RUSTLING TAFFETA SLIPS. They're rayon taffeta in black white or teal — they're wonderfully swifty for spring smartness (thank the 4-gore skirt) cut to fit without a wrinkle and the faced and moulded V-bodice. Sizes 34 to 44 and priced at only \$1.90. GLAMOROUS RAYON SATIN GOWNS — fresh cut garden flowers glow against white, softest teal or hush blue in sways of luxurious rayon satin with waistlifting midriff inset and flattering halter-like top. These are trousseau treasures. Sizes 34 to 40 priced at only \$5.98. You'll find all these beauties at EDWARDS — Lingerie Fashions — Second Floor. EDWARDS — Setting a new pace in Rochester.

Have you noticed — that liquor is getting scarce — Nowadays it isn't always possible to buy exactly what you want at just any store you happen to park in front of. But not MONROE LIQUOR STORE. Here you will find all the leading brands of whiskey — gin — cordials and wines in profusion. Your favorite brand is always there for you. Plenty of the right kind of advice as to how many bottles to serve so many people — and plenty of advice on the subject of "mixing" etc. You'll find MONROE LIQUOR STORE exactly to your liking — I know. Located 985 MONROE cor. Shepard — with plenty of parking space always available. Tell them Kay sent you. — Thanks.

DELLETTE SHOP Been looking high and low for a really smart dress — here it is milady. An Evelyn Alden — stocked at DELLETTE SHOP. They are adorable — and the combinations of color and line will "floor you." Priced at \$12.95 and up. Juniors only. The regular "line" at this intimate little shop starts at \$6.30. They are carefully selected by Hills Maynaier owner of the shop — and a recently discharged member of our armed forces. Drop in and say "Hello." Polo Shirts and Dickcys are there for your inspection. Located 489 Monroe Ave. two doors from Woodlawn. Open daily from 12 till 9.

LLOYD'S How LLOYD'S do it at the prices they charge — I don't know. They are the one florist I know — where you get value received. Arrangements are always in good taste — fresh flowers are always used — which is the feature to insure lasting qualities. Whatever the occasion — LLOYD'S should be your florist. Sickness — death — or just a gesture — etc. CANDY has been added to LLOYD'S — and what a nice thought — a spray of flowers — and box of their delicious confection. Here is a condensed version of Miss Post's opinion. "If your Sitter arrives after supper, she should not expect food to be provided for her — nor by the same token help herself to anything in your home, unless permission is given. If she comes before supper and there is no one in the kitchen, it may be stipulated that she is to cook supper for the child and herself, bathe him and

put him to bed — wash the dishes she has used and leave the kitchen in order. No boy friends or even girl friends may accompany her unless she has been told she may invite someone. As for payment, Emily says: this naturally varies with the locality and the experience of the sitter. I say try and find a "SITTER."

A frock bearing the RIPTON DRESSES LABEL — plus a hat and gloves and there's the lovely slender way you'll greet the month of May. At RIPTON'S there are dresses for everyone — from the Junior — to the WOMEN'S DRESSES — all beautiful — all carefully selected — tailored to perfection — and as for price — they start at the modest sum of \$8.95. Materials at this popular shop are outstanding in quality. COTTONS are "in" — and my advice is to shop early for these tubables. They are selling like the proverbial "hot cakes." RIPTON DRESSES are located 730 MONROE AVE. — Open Eve.

Yes I know — you're about ready to blow your top — 'cause you can't buy a vacuum cleaner — but when you are able to buy one — try it out if possible. Here are a few suggestions, think about its weight — is it light enough to carry up and down stairs — is it on wheels so that it need not be lifted. Is it compact when boxed so it can be stored easily? Is there a complete seal between the nozzle and the rag? Is it easy to clean?

Even when you're "stuck" for an idea for dessert — and you simply can't "get it" — like I was last night — if you have REAL SEALTEST CREAM in your refrigerator — it's as simple as this. You always have fruit — or a box of prepared pudding in your pantry — so just combine the two with a dash of flavoring — such as almond — or vanilla — and there you have it — a dessert that will bring sighs of delight not only from Pa but from those youngsters of yours. Order this delicious REAL SEALTEST CREAM from BRIGHTON PLACE DAIRY — today. Their telephone number is GLENWOOD 144 — their address 45 FULTON AVE. (Division of General Ice Cream). PS. Brighton Place asks me to tell you to please, please, return your empty bottles. There is a shortage. Thanks, Kay.

REDUCE Wait till you start wearing those revealing summer clothes — and you'll find those pounds you've been storing up all winter — are going to look pretty terrible in a cotton for instance. Well — why don't you do something about it NOW. You still have plenty of time. Call PETTIS — Stone 6210 — and make an appointment for her famous BATTLE CREEK REDUCING MACHINE. It is the simple, easy, pleasant, lasting way to reduce. LaPetitis will give you all the details. Located in the BURKE BLDG.

SPECIAL OFFER In celebration of her return to Rochester — VIRGINIA is offering a SPECIAL on her \$10 PERMANENT WAVE — for exactly \$6.50. You know Virginia has just returned from Mario's of Miami Beach — and what that gal has learned. The very newest of hair styles — and ideas for permanents, bleaching, tinting, etc. Never content to "stand still" in the field of hair-dressing. Virginia has learned all the newest — and best way to make your noggin more beautiful. For instance ask her about the NEW RAY CREME TREATMENT. Your very first treatment makes your hair look better — feel better. Especially beneficial to dry or overprocessed hair. Call Stone 346 for an appointment with beauty. VIRGINIA'S BEAUTY SALON — Present Bldg. — fourth Floor. Stone 346.

HALF-PRICE Calling all women who appreciate a value. There's a HALF-PRICE SALE in progress at CARTER HAT SHOP. The group are all this season's hats — smart as you'll always find at CARTER'S. And at half of their original price — they really are a bargain. Ask Mrs. Carter to show you the new line of Panamas. They are really beautiful — and so nice to own — they go with everything. Have you thought about MOTHER'S DAY — It's May 12th you know — and what would Mother like — maybe a lovely PLASTIC BAG — an ideal gift — perfect for sum-

mer — and assortment of colors \$5 and up. Or maybe she would like a gorgeous "hunk" of JEWELRY. Carter's have a beautiful "line". Starting at \$1.95 up. The HORSE earring and to match is stunning and sells for \$2 a set. Drop in make your selections early — it's CARTER HAT SHOP every time for value. Located 636 MONROE AVE. — Open Eve.

In your pleasure of finding the COTTONS you want — don't overlook the immaculate tailoring — of the merchandise — at ALICE DRESS SHOP. All sizes — in the much in demand half-price sale. All styles. As for material — I'll find the beloved eyelid — the chambray — the gingham — Crepes included in the all season "line" are just as lovely. Also the "Suits." Lingerie for your inspection, slips and other wearables. Prices at ALICE DRESS SHOP have an eye on your budget. Drop in and see for yourself. Located 630 MONROE AVE. — Open Eve.

Stain measures are necessary to protect woollens against moths. Guard your precious woollens. Don't neglect the preliminary cleaning of garments. Don't do a half-way job. It is worth doing a thorough job. Follow the directions on the type of protection you plan to use — they are all good.

Edwards Home Furnishings EXHIBITION

All This Week On Edwards Entire Sixth Floor

OVER a period of many years Edwards home furnishing buyers visited America's leading manufacturers, planned with them for the future, and now we present the fruit of that long-term planning. This week Edwards brings you modern post-war equipment in the making... exhibits that show how various products are made and how they will be used most effectively in your home. Plan to visit Edwards home furnishing exhibition this week... it's a "must" for homemakers with an eye toward the future!

says) and promises an investigation of District affairs. To which the "big interests" who have run D. C. under both Democrats and Republicans, say "Ho-Hum", and stifle a knowing yawn.

Half the personnel have been in this country only a short six or seven weeks, and already they're "hep".

Do you remember how Mr. Dewey when running for the presidency predicted a post war slump (unless he got in) and poked fun at Wallace and his talk of fifty million jobs? Right now there are more than fifty-three million employ-

ed and newspapers all over the country are carrying advertisements begging for help. Less than three million are reported to be out of work. A figure considered normal. Just the usual

number of people changing jobs or shifting around.
Predictions as to the outcome of the race, for local offices are sketchy. The Democratic

chances of pushing out the GOP incumbents depend largely upon how hard Labor tries to get out the vote — which will have to be substantially harder than they tried last time.

Congress, quick to criticize many communities for inefficient and corrupt government, has earned a nauseous reputation for its inability to govern its own District of Columbia.
At the moment D. C. is in the midst of several scandalous governmental lapses. Two murderers broke jail with the aid of a can opener and a few "understanding" guards. Doctors at a famous Washington hospital openly admit the death of at least fifty babies "because of insufficient help".

Mellow With Memories

Where William Penn Whiskey is served you'll usually find plenty of old-fashioned hospitality too. This fine whiskey is a great favorite with people who like the old, familiar, genuine things—old friends, old songs, old books, and the old mellow flavors and bouquets. Years of faithful skill have made it what it is—a tried and true favorite. Try a glass of William Penn soon.

X-RAY UNIT TO VISIT NO. 24 SCHOOL AREA

All persons fifteen years of age and over who live in the neighborhood of School No. 24 may secure free chest X-Ray next Monday and Tuesday, when Iola Sanatorium's Mobile X-Ray Unit will be located at the School on Linden St.

The service, sponsored by the Tuberculosis and Health Association of Rochester and Monroe County, Iola Sanatorium, Rochester Health Bureau and Rochester District State Department of Health, provides a positive means of detecting tuberculosis in early stages. The Tuberculosis and Health Association does the advantage work and provides the educational materials. Iola Sanatorium takes the x-rays, diagnoses them and sends the reports.

DOES YOUR DAUGHTER DARE approach marriage

Without Knowing These Intimate Physical Facts? Mother! It's your solemn duty to tell your daughter how important domestic cleanliness is to feminine cleanliness, health and marriage happiness. Tell her how weak, hormone-misbalanced, nervous, and irritable she can become if she does not give the great germicidal and deodorant action of modern Zonite.

You can use Zonite as directed as often as necessary! Zonite actually destroys odor. Helps guard against infection. It kills every germ it touches. You know it's not always possible to contact all the germs in the tract but you can be sure—Zonite immediately kills all reachable germs and keeps them from multiplying.

Zonite Principle Developed by A Famous Surgeon and Chemist. All drugstores.

Political Polka

By CURT GERLING

Pity the poor congressman who must run for re-election this fall. He is beset by powerful lobbies who urge him for "the good of the country" to banish OPA to the dungeons under the Pomotac, only to find that the public doesn't want it banished, and threatens him with everything including defeat at the polls if he harms it as much as the Greek Iota.

Labor howls for more dough with every other breath. The alternate breath and howl is to keep prices down while its pay check goes up. Even Congress whose slight of hand performances are considered the eighth wonder of the world, is incapable of such legerdemain.

Merchants scream for goods and wire their congressmen and prod their manufacturer, who in turn have their lobbies turn on the heat so they can get OPA relief on ceilings to pay the wages that the unions say their workers must have. The circle is complete when Mr. and Mrs. Public insist that they have the goods without paying any more, and definitely tell their representatives so, by wire, letter and phone.

It seems like a whole lot of abuse to take for 10,000 bucks a year — and it would seem that there are wiser ways to make a living.

Mr. J. Lewis of the carbon clan has the country, the politicians and Labor itself pretty upset. The public temper is rising to a point that anything with the name of union begins to smell pretty bad — even the best of them whose ends have

JUST PICTURE YOURSELF—Here is the view winners of the "Sentimental Journey" Contest, sponsored by the Century Theatre, the Pennsylvania-Central Airlines and The Rochester Sun, will get of Washington, D. C., when they visit the nation's capitol as guests of the contest sponsors. Complete details will be found in this issue.

Weekend Air Trip To Washington Offered In Sun-Sponsored Contest

Someone is going to enjoy a flying three-day trip to Washington, D. C. next month, see the sights, visit the landmarks in the nation's capital and live at the Statler hotel there as guest of The Century Theatre, the PCA-Capitaliner and The Rochester Sun.

The someone will be the winner of a contest sponsored jointly by the theater, the airline and this newspaper in conjunction with the showing here of 20th Century Fox's new picture, "A Sentimental Journey."

To enter the contest all you have to do is write a letter of 200 words or less on "Why I

Would Like to Take a Sentimental Journey to Washington, D. C. on a PCA Capitaliner" and mail it to the Contest Editor, Century Theatre, Rochester, N. Y. before midnight, May 29.

Not only will the winner make the trip via new giant 58-passenger PCA-Capitaliner for the week-end, but he or she will take a chosen guest—also with all expenses paid. Here are some of the things the lucky pair will do and see:

Fly, round trip, from the municipal airport on a Pennsylvania Central Airlines Capitaliner;

Stay in a deluxe room at the world-famous Statler Hotel;

Dine at the hotel except when at night clubs or special affairs;

Enjoy a complete sightseeing tour of Washington including the White House, Capitol Buildings, both houses of Congress, government buildings including the making and printing of money and stamps, the Lincoln Memorial and Mt. Vernon;

Visit leading night spots and theatres;

Visit the famous Variety Club where all the celebrities stop;

Have time for shopping the stores and specialty shops.

GOP OFFICIAL EXPOSED AS KKK SPONSOR

Rochester Republicans joined their New York State brethren this week trying to find ways and means of hiding faces caused by the news that one of their own state officials was a sponsor of the Ku Klux Klan.

Republican Attorney General Nathan L. Goldstein recently set out to investigate the Klan in New York State in what observers said, was a "grandstand play" to the Catholic, Jewish, Colored and foreign-born voters.

But, as is customary with such "investigations," the deal backfired. One of the first to be turned up in the Attorney General's dragnet was Horace A. Demarest, Deputy State Motor Vehicle Commissioner.

That much of the story was reported in the daily newspapers here this week. But what they didn't report is that this same Demarest is a Republican leader in Queens County and was appointed to his state post shortly after Governor Dewey took over the administration.

Demarest was accused of being one of the sponsors of the Alpha Pi Sigma fraternity which later changed its name to the Knights and Women of the Ku Klux Klan. He admitted the charge but denied he

Mrs. Ethel Grant of 1256 Mt. Hope Ave., is the lucky winner of this week's \$25 cash prize, offered by The Sun each week to its sustaining subscribers. This is the reward Mrs. Grant gets for paying her Sun carrier, Florence Ross of 1437 South Ave., 10 cents. Florence incidentally collects an extra five dollar bonus.

Chest Drive Victory Up To Small Giver

They need less, but you'll be asked for more! That's the seemingly paradoxical situation facing Community Chest campaigners on the eve of their 29th annual canvass which opens Monday. For, despite the fact that the new budget is lower than last year's, contributors will still have to give as much, if not more.

The dilemma arises from fact that the Community Chest has sustained staggering losses in the ranks of potential givers. Death has reduced the number of larger givers — givers upon whom the Chest must depend for at least half of its total goal.

Further serious losses stem from the fact that many special pledges, made in 1945 were made for that year only and are not renewable this year. Reconversion has had its casualties in the givers' list also. Industrial layoffs, due to the

fact that some factories have not completely swung over from wartime to peacetime manufacture, will reduce the number of possible contributors by from 3,000 to 5,000. Corporate giving also will be affected by tardy reconversion, as corporation earnings, in some cases, have naturally not been as great as when war orders kept plants operating at capacity-plus.

Losses Total Quarter Million
These losses reach an estimated total in excess of a quarter-million dollars. While the 1946 budget — the total (See CHEST DRIVE Page 9)

Fire Victim Soured By Loss of Sweet Stuff

Consider now the case of William Gaesser. He's in a sweet mess, if you'll pardon the pun. But don't get the idea that Gaesser is sweet about it — he's completely soured on the whole incident.

It all started April 13 when fire broke out in the back room of Gaesser's Market at 872 Jay St. When the fire companies finally did arrive, they couldn't get any pressure out of the hydrant right across the street from the market, making it necessary to detach the hose lines and cart them up Ames St. seek-

ing a hydrant in working order. This, they finally located at Lorenzo St., two blocks away. Then they went to work on the fire and soon had it out. But not before Gaesser had suffered a \$1500 loss of stock, which, according to him, was not covered by insurance.

That was bad enough. But then, says the market man, when the blaze had been overcome, one of the firemen stepped into his refrigerator, tucked a fat hen under his arm and walked off. That's Gaesser's (See VICTIM Page 8)

RIFTON DRESSES know that Mothers come in all ages and sizes — and they all appreciate a new dress. At this well-stocked shop you'll find dresses for the Mother who still wears the small size — and the Mother who wears the WOMEN'S DRESSES. Materials are such at RIFTON DRESSES — to please the most exacting of Mothers. Prices start at \$8.95. So don't wait 'til the last minute — either shop alone or better bring "Mom" along. RIFTON DRESSES are located 739 MONROE AVE. — Open Eve.

DELLETTE Mother is a career woman or a housewife. She'll love a little gift to match her personality on Mother's Day. For instance a smart wearable frock from DELLETTE SHOP. You know this fast growing shop "stocks" the EVELYN ALDEN line — a junior line — but after all — some of our Mothers are Juniors. Hilda Maynard presides over this friendly shop — and would appreciate your patronage. Miss Maynard is recently discharged from the Armed Forces. Prices at DELLETTE SHOP start at \$8.00. Located 439 MONROE AVE. — two doors from Woodlawn. Open daily from 12 till 9.

Here's a quick trick for a spread on your table — are levers of honey sprinkled over with the following mixture. One half cup crushed corn flakes — one tablespoon melted butter — two tablespoons brown sugar — dash of salt and one-half cup nut meats, finely chopped. For-press mixture into honey — quicker than Blitzen. And good too.

Don't you agree that this would be a nice gesture for Mother's Day. May 12. Call BRIGHTON PLACE DAIRY — and arrange to have REAL SEALTEST CREAM delivered to your Mother's home every day. It would be a reminder of your love the entire year — and what pleasure and enjoyment it would give her. Always in the refrigerator — whipped to perfection in a minute — a simple way to solve the problem of dessert throughout the year. The number of BRIGHTON PLACE DAIRY — is Glenwood 144 — and your order for Mother's Day will be given special consideration. BRIGHTON PLACE DAIRY — 45 Fulton Ave. Glenwood 144 (Division of General Ice Cream) — PS. Please return your empty bottles. There is a shortage.

Blouses can be useless if a new product on the market is as good as the manufacturer claims. This useful killing hormone can be mixed with water and sprayed on early. It will not harm common lawn grasses. 4 1/2 package treats 1,000 square feet.

Mon's a grand gal — so here's a chance to show how much you love her with a grand gift of a smart dress from A L I C E DRESS SHOP. You know Alice has very good taste when it comes to choosing "clothes". They are "stocked" for the young and old. Prices are right with eyes on your budget. COTTONS a couple of them (at these prices you can afford them) are yours for the asking. All sizes including the half-size. LINGERIE is also a thought for Mother — Blips — deluxe — in satin — also other wearables. ALICE DRESS SHOP is located at 630 MONROE — corner Wilmer — Open Eve.

Are you going to entertain a few friends including your Mother — on Mother's Day? Of course you are — nothing will please her more — her family and a few close friends to drink a toast to HER. Where to buy the "supply" — MONROE LIQUOR STORE of course. All the leading brands of whiskey — gin — cordials are available. And the "info" in mixing and the quantity when it comes to "buying". You'll like the service. This store is built on service. Located 985 MONROE cor. Shepard — with plenty of parking space always available.

Buy six thick pork chops and have the butcher cut a packet in each of them. Combine 1/4 cup dry old bread crumbs with 1/4 cup minced onion. 1/4 cup finely chopped hot spices if you can get them. 1/4 cup chopped raisins. 1/2 teaspoon salt — a dash of pepper and one of sage — 1 teaspoon sugar and 2 tablespoons melted butter or drippings. Stuff packets of chops with dressing and tie with string. Bake in shallow pan. When well browned on both sides — add a tablespoon of water in shallow pan. Cook slowly and simmer until chops are tender. Or bake 350 F. for 40 minutes. Serves six.

Don't you agree that this would be a nice gesture for Mother's Day. May 12. Call BRIGHTON PLACE DAIRY — and arrange to have REAL SEALTEST CREAM delivered to your Mother's home every day. CARTER Come Sunday — and it is MOTHER'S DAY HAT — May 12th. Nothing pleases my "Mom" more than a new hat — and here's a suggestion — drop into CARTER HAT SHOP — and pick "out" a MATRON HAT — available in even size 23. Priced at \$5.95 and up. Or maybe your Mother would like a GENUINE PANAMA — directly from South America. They are beautiful. Maybe a BAG would please — Carters have them in all the Pastels — and also White. JEWELRY is another thought — Carters have beautiful "stuff". Earrings and pins to match priced \$1 and up. Clocks priced \$1 and up. Bracelets to make her feel young again. So it's CARTER HAT SHOP — for your "Mom's" present — come Mother's Day. May 12. 636 Monroe Ave. — Open Eve.

MAY 12th ZWEIF DRESSES — that gracious lady MRS. ZWEIF — invites you to visit her newest collection of frocks — she recently purchased in New York. They are lovely. Included are the HALF-SIZES so suitable for your favorite lady MOTHER. But if "Mom" doesn't wear half-sizes — you'll find these also at ZWEIF DRESSES. Prints — checks — pastels and of course the beloved navy and blacks. So drop into 240 ROSEDALE ST. off Monroe. They are open eve.

Rose-Mary — tells me that a new frock arrived at one of our leading stores — with "Hubba Hubba" outfitting the hem line. Rose said it was "Very cute for the young" — If you're as old as I am — for the love of you know what — don't buy it.

MAY 12th She's the most wonderful Mother in the world. Show your gratitude and love with a distinctive Mother's Day gift from her own favorite store — "800 SHOP". They know what she would like. She must have shopped this popular shop many a time — I know — so they will know what she likes and wants. Crepes — in pastels — prints — checks and of course her favorite blacks and navies. Priced \$8.95 and up. If she's about to become a young Mother don't neglect her — she would love a MATERNITY DRESS from "800 SHOP" — they are adorable, suitable for the young Mother about to begin her career in this toughest of "jobs". Remember "800 SHOP" is located corner MONROE & CANTERBURY RD. Open Eve.

Edward has just the Coats to flatter Mothers. Of course you know that a MOTHER'S Day is May 12th. This year give her something extra special — a coat she'll wear and love for seasons to come. Do some hunting around. Find out the style she'd prefer. Then come quick it out at EDWARDS. EDWARDS are ready with a huge selection of lovely all wool coats — in a large variety of colors, styles and fabrics. You're bound to find just the coat to become your Mother. Slim sizes 33 to 43. But listen 'til you hear all about them. A fitted dressmaker coat — gored princess style with rounded flange shoulders and nipped-in waistline — available in all wool navy crepe — priced \$44. Another lovely is the Craighleigh Tweed Casual — It's so classic so versatile so flattering — she'll be wearing it years from now. Light blue and brown all wool beautifully tailored. Priced \$35. Another beauty is a Dressy Short Coat — boxy tuxedo with wide cuffed sleeves. Lighted with down-the-front and yoke — Traquinto work. In light blue wool crepe. Priced at \$39.50. Where to find these lovely coats for the Mother you love — EDWARDS — Coat Fashion Third Floor. Here's another idea — a SUZY PERETTE. Personality Dress to please your Mother. Edwards knows there's no size — limit where Mothers are concerned. She might wear bobby socks and a glamor bob and still have a gal in high school. Whatever her age, her size, her preferences — EDWARDS have Suzy Perette to match her personality. And they're so conveniently priced you might even fall for two of them. Priced at \$14.95 and up. You'll find them at the BUDGET DRESSES — Third Floor, at EDWARDS — Setting a New Pace in Rochester.

Have you visited the new R. G. & E. KITCHEN CENTER — featuring kitchen ventilation. How about arranging for your "Mom" to have this famous Kitchen Ventilation installed in her kitchen. With the present housing shortage anything that helps to make more efficient utilization of available space contributes to better living. The new R. G. & E. KITCHEN CENTER shows three completely equipped kitchens and a laundry, all designed for Modern Living. Here you will see in operation the latest developments in kitchen equipment, suitable for new or remodeled kitchens. Drop in and talk it over. R. G. & E. 89 East Ave.

LLOYD'S "Mom's" really "Queen" for a day on Mother's Day. She won't be wearing ermine trimmed robes but she'll feel just as regal with a corsage of orchids or gardenias — and for an added touch of thoughtfulness send her a dozen long — stemmed roses. Where from LLOYD'S FLORIST — the favorite florist of thousands of Rochesterians. If she is a candy lover like my "Mom" — include a box of delicious confections from LLOYD'S. This "new line" is a recent addition to LLOYD'S. So when you call MAIN 7698 — ask to have this candy included for that first lady in your life. Two stores for your convenience. POWERS HOTEL — and REYNOLDS ARCADE.

GUARD RECRUIT DRIVE CLIMAX SET FOR SUNDAY

A sham battle on Sunday at 4 p. m. followed by a retreat parade and review will bring to close the week-long recruiting drive now being conducted by Co. L of the 21st Regiment, New York Guard at their Culver Rd. armory.

An exhibition of arms, clothing and guard equipment has been on display on the armory grounds all this week and troops are on duty to answer questions, act as guides and seek to interest men between 17 and 45 years of age in becoming members of the unit.

According to First Lieut. Carl Corbin, acting commander of the company, the New York Guard needs recruits to carry out duties assigned when it was organized. Principal mission is to be prepared to maintain order and to prevent destruction of property in civil and military emergencies. Guardsmen receive training corresponding to that of the regular army infantryman plus practice in control of riots and other civil disturbances.

One of the lures held out to prospective candidates is the 12-day camping period at Camp Smith, Peekskill, N. Y. Weekend shoots with various army weapons are also conducted at the 3rd Battalion's rifle range at Rush.

FURRIER NAMES NEW AIDE

In line with the new expansion program planned by Projansky Inc., furrier, 39 East Ave., Henri Projansky has announced that William J. DeMallie has joined the organization.

DeMallie has been associated with the retail fur trade in Rochester all his life, having started with the old Meng & Shafer Co. He comes to Projansky from Bernard Held, Inc. where he was employed during the past five years.

ED RANDALL'S Scene & Word

Have you too often wondered why golf courses have 18 holes? I know there are some 9-hole courses, but a standard course consists of 18 holes and I never knew the reason until just the other day. It could be a true story so if you're curious just read on and the old Professor will give forth with the facts.

It seems, according to my information, that the board of St. Andrews in Scotland set down one day 'way back in 1858 to try to settle the selfsame question. At that time there were 7-hole courses, 13-hole courses and St. Andrews itself was made up of 22 holes. So the worthy sportsmen met in solemn conclave to try to decide on a standard number of holes to make up a course.

Well, they had trouble, and after a full day's discussion had still not arrived at any satisfactory solution. Finally, one of the Scottish members of the board and a member in good standing arose to his feet and made the following remarks:

"You good gentlemen have been considering the situation for many hours and I have been hoping you would decide along lines agreeable to me without any insistence on my part. I see, however, that I must speak for myself.

"Now, gentlemen, I have here a small glass, which contains about an ounce and a half of liquid when not filled so full that a drop may escape.

"Naturally I find it pleasant to play golf so long as there is a drink left in the bottle. On the other hand, it would be unhealthy for me to continue the game when the bottle is exhausted.

"I have found that one bottle will fill this little glass just 18 times, so it has been my custom to play 18 holes each afternoon, no more, no less. I see no possible way of deviating from this custom, unless the bottles are made larger, which I fear would be too drastic a change in our manufacturing life."

And so, according to the dope I have, the board members could not think of a better solution of their problem and that is why golf courses have 18 holes.

If you are skeptical take an ounce and a half jigger, fill it full, but not too full, and you'll get 18 drinks out of a fifth of Scotch. That is, if you can find a bottle of Scotch and have a soft spot to land after taking the test.

And since we're delving into ancient history, I might as well let you in on the secret of how bowling ten pins got its start.

During the Civil War the State legislatures of Vermont and New York banned the game of nine pins, claiming it was detrimental to the war effort.

So bowling enthusiasts neatly evaded the ban by adding another pin and making it ten pins—the game we still play today.

Come In . . . Browse Around . . . Make Measurements, Sketches, Etc. . . . Three Beautiful
Kitchens and a Modern Laundry Are Here To Help You Plan For Better Living.

Featuring Kitchen Ventilation

With the present housing shortage anything that helps to make more efficient utilization of available space contributes to better living. The new R. G. & E. KITCHEN CENTER shows three completely equipped kitchens and a laundry, all designed for Modern Living. Here you will see in operation the latest developments in kitchen equipment, suitable for new or remodeled kitchens. The Center introduces a new method of ventilation, adaptable to every range and every kitchen, so that you may have a cleaner, cooler kitchen. It shows variety in arrangement, appliances, equipment and decoration so you may choose the features, or combination of features, you prefer and which will best suit your family's needs and living habits. Rochester Gas & Electric maintains a trained staff to help you with Kitchen Planning, Ventilation and Heating problems. They're at your service at the Kitchen Center.

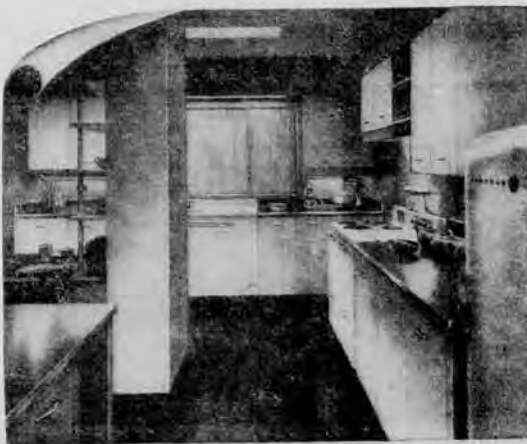

The Salmon Kitchen

You'll say that this kitchen is nice enough for a party. Its efficient arrangement, with glistening white wooden cabinets, gas refrigerator and range, along with a whole collection of time and labor-saving gadgets, make it a joy to work in. There's a new idea in dishwashers, with a garbage disposal unit, too. You'll thrill at the completeness of this unusual kitchen! Cooking odors, grease and unwanted heat are carried out through a ventilator concealed in the cabinets above the range.

The Blue Kitchen

A strictly modern workshop is this kitchen. The first thing you will notice is the striking color scheme—clean blue walls, gas red work surfaces, and yellow curtains of a marvelous plastic material. Appliances of gleaming, streamlined beauty, simple sized refrigerator, electric range and, that friend of every housewife, an automatic dishwasher—make this a kitchen where the work almost does itself. There's a handy built-in table for breakfasts and snacks. The range is ventilated, of course, to keep the kitchen clean and cool.

The Yellow Kitchen

This is the kitchen which attracted thousands of visitors during the time it was on display originally. Here it is again, all dressed up in a new color scheme, new wall paper—(gas little piglets are the theme this time)—and new appliances. Best of all practical ideas, there is a special play area for the children in this kitchen. Here you will see the ideal system of ventilation in operation. Ovens and broiler of the gas range are directly connected to the ventilating duct to eliminate cooking odors and soil. A grill in wall above range takes care of top-burner operations.

Designed for Modern Living

Clean

These kitchens practically keep themselves clean. Greasy cooking vapors are whisked outside instead of soiling walls and ceiling. Cooking odors vanish, too.

Cool

These kitchens are cooler in summer because unwanted heat is carried outside through the modern ventilating system. It's fun to prepare meals in such surroundings.

Comfortable

Homemakers will find every convenience that contributes to modern living in these beautiful kitchens. Attractive colors and a feeling of airy spaciousness make them models of cheer and comfort.

What is Wrong When Prayer Fails?
Thirty years ago in Forbidden Tibet, behind the highest mountains in the world, a young Englishman named Edwin J. Dingle found the answer to this question. A great mystic opened his eyes. A great change came over him. He realized the strange Power that Knowledge gives.
That Power, he says, can transform the life of anyone. Questions, whatever they are, can be answered. The problems of health, death, poverty and wrong can be solved.
In his own case, he was brought back to splendid health. He acquired wealth too, as well as world-wide professional recognition. Thirty years ago, he was sick as a man could be and live. Once his coffin was bought. Years of almost continuous tropical fevers, broken bones, near blindness, privation and danger had made a human wreck of him, physically and mentally.
He was about to be sent back to England, to die, when a strange message came. They are waiting for you in Tibet. He wanted to tell the whole world what he learned, hence, under the guidance of the greatest

VICTIM...
(Continued From Page 1)
story and he says he can produce witnesses to back it up. But his troubles, like those of Job of old, had just begun. When he toted up his loss he discovered that it included an item of 800 pounds of hard-to-get sugar. And because it takes sugar coupons to replace sugar, Gnesser went to the OPA where he learned it would be necessary to fill out numerous forms and accompany the forms with proof of his loss.

And that, gentle reader, was the catch. He couldn't prove it to the satisfaction of the authorities. They told him a newspaper clipping about the fire might be accepted as proof of loss. But still he was stumped. As most newspaper readers already know, Rochester's two enterprising journals of fact and opinion "cover" only the stories they choose. And they didn't happen to choose to cover Gnesser's fire story. Not a line, he will tell you, appeared in either of the papers about his fire.

Now the Jay St. tradesman is reconciled to the loss of part of his store building, yes, even his stock of groceries and meats damaged or destroyed. But not his sugar — nor his fat hen. Those two items or reasonable facsimiles thereof he would like returned.
To get back once more, to the recalcitrant hydrant — it appears that only the firemen were surprised to find it so reluctant to pour forth water. Neighbors in the area claim it is in a non-working condition more often than not. They point to the disastrous fire two years ago in the same neighborhood when a young man was burned to death in a house fire. The hydrant wasn't working then — and many blame the man's death on that cause.

But it is nice to know that two blocks away on Ames St. there is a hydrant which can be depended upon. At least it could be up to now. When it is going to decide to act up is anybody's guess. Property owners in the vicinity hope it isn't soon.

Senator Claghorn told Fred Allen last Sunday that as a young collegian he was voted "most likely to succeed."

knew anything of the "nature of the fraternity."
Tuesday he was dismissed from the state service after New York City newspapers had exposed his earlier activities. The New York Times reported that Demarest has been active in Republican politics for 16 years, running unsuccessfully for the State Senate in 1930 and for Representative in 1932.

IRE IGNORANCE and FALSE MODESTY wrecking your marriage?

Every Wife Should Know These Intimate Physical Facts!

So many married women still do not realize how important something as simple as feminine cleanliness, health, charm and marriage happiness is to them. And so very important—many of them do not know about this secret, the modern method of detaching the menses.

No other type liquid antiseptic is available for the removal of all those irritating menses. It is SO SAFE & PAINLESS as ZONITE. Weak, home-made solutions of salt, soda or lime will not only give the great abdominal and deodorant action of ZONITE. Yet despite its great strength it is positively non-poisonous, non-irritating. Buy today!

Use ZONITE as directed as often as necessary without risk of injury. ZONITE destroys odor. Helps guard against infection. It KILLS every germ it touches. You know it's not always possible to contact all the germs in the tract. BUT YOU CAN BE SURE ZONITE immediately kills all reachable germs and keeps them from multiplying. Buy today!

(Continued From Page 1)

The local agencies are going to need more funds this year than last, Theodore C. Briggs, Community Chest president and campaign chairman, said yesterday. It costs more to run an agency in 1946 than it did a year ago. Food costs are up. Everything an agency buys costs more — soap, surgical equipment, paint, bed-linen.

Rising wages make it more expensive for a hospital to launder sheets for a children's agency to have a floor scrubbed, for a home for the aged to have a dining room painted. Some agencies which operate in downtown offices are paying more for rent.

All of the youth agencies are taking care of records of public resentment. It has made broad gains during the last two decades, largely because the public went along with them. They are now fearful that the pendulum will swing in the opposite direction and the gains of two decades will be lost or seriously impaired.

(Continued From Page 1)

The politicians don't know whether to show signs of life and get after Mr. Lewis for fear that Mr. Lewis' boys would balk and thus indicate that they thought more of John than they did of the U. S. government and its wishes.

Politicians are aware, too, that the Labor factions can support or fight a party and they are undecided which would be worse at this time. Many feel just as many votes would be lost by Labor support, as gained.

Labor itself is not unaware of public resentment. It has made broad gains during the last two decades, largely because the public went along with them. They are now fearful that the pendulum will swing in the opposite direction and the gains of two decades will be lost or seriously impaired.

That General Motors dropped a mere eighty-eight million in the first period of the year. They were somewhat saved by the bell when the Government returned fifty-six million out of the taxpayer's pants via the Excess profits tax.

Fifty-six million is a little over a dollar each for each American family and it'll be on your next federal tax bill.

There is a scandal brewing in City Hall that should rock Rochester but because the Republicans are responsible it will be hush-hushed and red-herried in time to get out the usual vote this fall. You may rest assured that the daily papers will ignore the facts and omit carrying details — paper shortage, you know.

In New York last week two charming daughters of Jack Kenyon, former member of the Dewey for President steering committee, with more courage than good judgment volunteered to ride herd on the younger members of the clan McGerling while the Mrs. McGerling and father harangued the N. Y. advertising agencies.

For four days the magic personalities and fortitude of these young ladies stood them in good stead. The children were both entertained and enchanted.

On the final day of their stewardship the girls whisked their charges into the offices of Kenyon pere. On their return to the hotel, Bill, aged 8, spotted a button as big as a picture hat which proclaimed "I Told You So." Jon, aged 4 brought up the rear wearing a button half the size of a small man-hole cover which bore the likeness of one Thomas E. Dewey and the words "For President."

The pitfalls and pollution of the big city may forever leave their mark on these boys. Paternal protests have gone unheeded. They wear them on their hats that they call "beanies" by day and on their pajamas at night.

The GOP is getting 'em young these days.

You may have read, and probably in a New York paper

Interest Aroused By Free Air Trip To Washington Offered By Sun

WINNER TO VISIT CAPITOL — One of the featured stops on the "Sentimental Journey" to Washington, D. C. to be awarded some lucky Sun reader is a visit to both houses of Congress and a trip through the nation's famed capitol building pictured here. The winner, with his or her guest, will fly to Washington, and return on one of the big PCA-Capitaliners.

When a man bites a dog, that's news! so say the journalism professors in our colleges. And while no bites are involved, when The Sun offers a free trip to Washington, via airplane, with all expenses paid, for writing a simple 200-word letter, that should properly rank as HEADLINE NEWS.

Fantastic as it may seem, The Sun, in conjunction with the Century Theatre and the PCA-Capital Airline, is offering just such a trip to some lucky reader who, before the end of this month, submits the best letter of 200 words or less telling why you would like to take a "Sentimental Journey" to the nation's capitol.

The contest is being staged in conjunction with the showing of the new 20th Century-Fox picture "Sentimental Journey" which opens at the Century on May 29th.

Complete Itinerary Planned
And when the winner steps aboard the giant PCA Capitaliner on the evening of June 14 he or she will have the companion of his or her choice along as special guest. Expenses of both for the entire journey and for their very exciting stay in Washington, D. C. will be paid in full by the contest's sponsors.

There are dozens of reasons why almost anyone would like to take a trip to the nation's capitol but the itinerary of the contest winner makes the trip doubly attractive: a deluxe room at the famous Hotel Statler; choice meals in the hotel's

'AMERICAN DAY' OBSERVANCE SET AT EASTMAN

Members of the city council, headed by Vice-Mayor Frank E. Van Lare will join with members of the county board of supervisors and justices of the courts in welcoming new citizens at the "I Am An American Day" rally in the Eastman Theatre Sunday evening.

Principal speaker at the affair will be Edward Corsi, N. Y. industrial commissioner and an early advocate of officially adopting the third Sunday in May as a day to honor new citizens and those reaching their majority. Corsi will be introduced by Judge Charles Lambias.

More than 5200 citizens who have attained their 21st birthday during the past year and 800 newly naturalized citizens will be feled.

Two heroes of the War in the Pacific will hold featured spots on the evening program. Lt. (See AMERICAN DAY Page 7)

Chest Drive Hits 43 Pc. of Quota

Rapidly nearing the half-way mark in their quest for \$1,860,256 to support Community Chest activities, campaigners reported \$337,422, from 25,128 pledges at their second report meeting yesterday noon in the Chamber of Commerce. This amount added to the \$593,390 pledged on Monday brought the total to date to \$800,822 or 43 percent of quota.

For the first time within the memory of veteran campaign workers one team had already gone over the top with the team headed by Charles Cline in the Individual Subscribers Division reporting "quota completed" on the second day of the drive.

Leading the division pack were the industrials headed by Thomas L. Lee with 40,642 pledges amounting to \$268,268 or 53.8 percent of their quota.

Chief speaker at yesterday noon's meeting was publisher Frank E. Gannett who told of deplorable food conditions he found in Europe during his recent inspection trip through the former war zones. He exhorted campaigners to put forth their best effort to reach the Community Chest goal to help Europe's starving. He pointed out that of the 266,000 allocated to the chest's war activities funds approximately half would be

Political Polka

By CURT CERLING

The dear old Fighting Tenth has long had a reputation as a ward where politics are taken seriously. A great community for "organization" you have to "belong" to get Uncle Julius on the ash gang or Aunt Min into the old ladies' home.

Politics is an important "industry" in the Tenth, squabbles are frequent and often bitter, and leaders find their thrones precarious perches.

LIQUOR DEALERS FIGHT CHARGES OF PROHIBITIONISTS

Declaring that current prohibition "pressure groups" are composed of a handful of "self-righteous do-gooders" who will not stop at distorting the truth, local wholesale liquor dealers this week are taking the offensive in the liquor-food controversy now arousing the country.

(See LIQUOR Page 6)

5-Point Program Outlined For Building Trades

The day that the lamb lays down with the lion may not be far off, if proposals of the magazine Practical Builder are adopted by members of the building trades.

The magazine which is circulated among building contractors and members of the building industry, this week proposed that the building trades adopt a five-point program of action to speed the building of homes for veterans. But the catch is that most of the five points proposed by the magazine are con-

cerned with prefabricated housing, and the use of newest, most efficient methods, materials and equipment.

Move Shows Courage
Asking members of the building trades to, not only approve of, but work for the adoption of ultra-modern building practices using factory-made parts and materials is considered courageous to say the least. For years, building trades unions and city

\$25 Winner

Mrs. E. Albert of 384 Columbia Ave., is the lucky winner of this week's \$25 cash prize, offered by The Sun each week to its sustaining subscribers. This is the reward Mrs. Albert gets for paying her Sun carrier, Donald Satter of 410 Champlain St., 10 cents. Don incidentally collects an extra five dollar bonus.

KAY'S COMMENTS By Kay Shearer

LOOK Fresh Stock — courteous service — budget prices are all yours at ZWEIG DRESSES. Mrs. Zweig has just returned from New York — and has the "cream-of-the-crop" ready for your early selection. All sizes — including the half-size — all styles — in pastels — prints etc. Prices are such that you'll find yourself buying more of these smart frocks. Located 240 ROSEDALE — Off Monroe — Open Eve.

BRIGHTON PLACE DAIRY will deliver REAL SEALTEST CREAM to your home. It is delicious and what "keeping" qualities. It stays fresh for days on end. It will whip to perfect cream — and tastes like the nectar of the Gods. It is so versatile — you can make almost any ordinary dessert and have it topped with this REAL SEALTEST CREAM. Strawberries are a real treat at this time of the year — and with the addition of SEALTEST CREAM — it is a dish your family will rave over. Well — what are you waiting for — pick up your phone — and call GLENWOOD 144 — BRIGHTON PLACE DAIRY — 46 Fulton Ave. — and ask for REAL SEALTEST CREAM to be delivered to your home. Available by the half-pint or pint. (Division of General Ice Cream.) Please return your empty bottles. Thanks — Kay.

It's important to arrange appliances in such a way that they're easy to use. In the KITCHEN CENTER at R. G. & E. you'll see that there is plenty of work and storage space around each major piece of equipment — the range, the refrigerator and the sink. Step shelves — half shelves — knife racks and lots of other gadgets expand the usability of the other equipment in the kitchen. Another thing that will delight you is the clever use of color in the kitchen. Color is one easy and inexpensive way to help achieve a smart-up-to-the-minute looking kitchen, and R. G. & E. will show you how to accomplish it. Drop into 88 East Ave.

SPECIAL OFFER It's PERMANENT TIME, so VIRGINIA with her usual foresight — is offering a SPECIAL PRICE on one of her very best permanents. Regular \$10 wave for only \$6.50. Make your appointment today — time is limited. You know Virginia has just returned from the famous Mario's in Miami Beach — with all kinds of new ideas on bleaching — tinting — and new methods on permanent waving. Ask her about the NEW RAY CHERIE TREATMENT. You'll notice the difference after only one treatment. VIRGINIA'S BEAUTY SALON — Present Bldg. — Fourth Floor — Stone 348.

EDWARDS DOWN-STAIRS STORE — have a D A R-BROOK MAGIC DRESSES ready for you. Priced at \$8.30, they come in stunning H A L F S I Z E S. Why are these Darbrook dresses outstanding in style, quality and price? Because Darbrook spins its own yarns, weaves its own fabrics and designs especially for the full-figured woman or miss. So, when you buy a "Darbrook" fashion, you get finer materials and workmanship and the cost of production is also passed on to you. You will enjoy the pleasure of nipped-in waistlines, and hip-hugging tucks and gores. Darbrook has left nothing out. Every new style trend and detail has been added, at no extra cost to you. Here is a description of these famous dresses: The beloved polka dot classic, sored skirt — V neckline — your choice of navy or black in sizes mentioned and remember only \$8.30. Another darling is the sheer rayon print on navy background. Buttons down the front. The usual half-sizes and also \$8.30. A two piece in another Darbrook crepe, with set-in belt. Spaghetti halter size of course and priced \$8.30. Another is the beautiful Narco North American rayon slim skirt loop trimmed, V neckline in black or navy — sizes 18's to 24's also priced at \$8.30. Of course there are others to choose from, the selection is really outstanding. Your choice of the following: Print, crepes, Polka Dots, Blacks, Navy Sheers, White Accents, Clever Necklines — as for color they have Black, Navy, Powder Blue Grey and Lime. Remember it's EDWARDS DOWNSTAIRS STORE — and ask for DARBROOK DRESS — MAGIC IN STUNNING HALF-SIZES.

"200" SHOP has a sane sound theory about "clothes" and they have built their shop around it. They are always glad to suggest and advise and — if you listen — you'll find yourself in a becoming frock. Crepes — in beautiful color combinations are there — also the beloved "darks" COTTONS are just as smart — and the selection is outstanding. MATERNITY DRESSES arrive daily in adorable styles and colors. There is a SPECIAL GROUP of dresses marked at a clearance price of \$3.95, if you're interested. Prices start at \$4.95. "200" SHOP is a dress sponsored as you must know. Located corner of MONROE & CANTERBURY RD. — It is open Eve.

Let's celebrate — this first post-war Spring. Good liquor — good wine are more than melting in the subtle civilized pleasure in themselves. At MONROE LIQUOR STORE you'll find the "where-all" for good entertaining — and the "how-to" on just how much to buy and how to "make" delicious tasting drinks. All the leading brands of whiskey — gin — cordials — wines are yours for the asking. This store has made a host of friends. Why — you'll find out when you drop in and say "Hello." Located 965 MONROE AVE. — corner Sheppard.

A four piece play mit — Mack stripes on yellow can change over in a minute from pagan to prim and that covered up look. The shorts are styled like a boy's and the bandeau is a crisscross of fabric. A straight skirt and jacket with peplum flare. Under fifteen dollars.

DELLETTE SHOP Have you heard about H I L J A MAYNIER — owner of DELLETTE SHOP — receiving a CITATION from the Army. — It is a Commendation Ribbon — for outstanding service — in the field of Atomic Bomb work. Isn't that "something"? DELLETTE SHOP in my opinion should receive a Citation for the merchandise stocked there. All outstanding all beautiful — including the Evelyn Alden line, priced at \$12.95 and up. Other dresses start at — \$8.30. Polo Shirts and Dickie's are also "stocked." DELLETTE SHOP is located 489 Monroe Ave. — two doors from Woodlawn. Open 12 til 9 daily.

The more mature woman must follow skin care routine with vigilance for best results. This business of one night just forgetting about your cleaning "act" is wrong. Cleanse your face every night — it isn't so much what products you use — it is the way you use them — and how often.

PETTIS Last call for the SPECIAL DAY TIME COURSE — with PETTIS. A very very special price has been placed on the Daytime course. It is ideal for housewives and Mothers — the hours are from 9 A. M. til 4 P. M. You'll be given a treatment on the famous BATTLE CREEK REDUCING LOUNGE — and also a Pettis-tone Hand Massage to help relax you — Call LaPettis today. Her telephone number is Stone 6210 — Burke Bldg. Open Mon., Wed. and Fri. Eve.

CARTER A setting in PANAMA HAT background. And are they beautiful. Mrs. Carter says they are the very smartest hats she has seen — and she knows. Versatile also — wearable with anything. Or maybe you would like a MILAN — available in black or white — these are also lovely. Flowered Bandeau in assorted colors, are becoming to everyone. As for BAGS — Carter's have summer bags ready for you NOW. JEWELRY is a must these days. Newest of these are the Bracelets, Cuffs, Pins, Earrings, etc., \$1 and up.

RIPTON DRESSES boasts infinite work-manship details in all their frocks. Their stock includes an adorable JUNIOR LINE — just as smart as a REGULAR LINE and as for WOMEN'S DRESSES — they are knock-outs. Prices start at the modest sum of \$8.95. Why don't you plan to visit RIPTON'S when your needs are for a smart beautiful dress. Located 739 MONROE AVE. — Open Eve.

Yes — Yes — a thousand times yes — it's ALICE DRESS SHOP for smart wearables for right now and summer. Their stock includes — smartly tailored — Suits — fashioned after Dame Fashion's latest fancy — COTTONS in all styles and sizes — even the half-size. Prices are within the reach of everyone — and you'll find the shop friendly and helpful. LINGERIE — such as slips — and other "musts" are also at ALICE DRESS SHOP. The slips are particularly beautiful of quality satin. Drop in, say "hello" — ALICE DRESS SHOP — located — 630 MONROE — Corner Wilmer — Open Eve.

When broiling lamb chops — try pork sausage — bacon strips — tomato halves, fresh mushroom caps with your grill. You may even broil sliced potatoes — along with the meat — throw on a dash of butter — and a sprinkle of paprika.

Looks like the name Crosby won't be the only thing Bing and Bob have in common. The Bob Crosby's are expecting their fourth child in the Fall.

used for allied nations relief purposes. Chest workers also heard General Chairman Theodore C. Briggs laud them for their efforts during the first two days, but warned that the same tempo would have to be continued for the rest of the campaign to insure the attainment of the chest goal before the drive's close at Monday. Another report meeting was scheduled in the Chamber of Commerce for this noon.

LLOYD'S It's those inconspicuous little details that go into the making of a FLORAL PIECE that make such a big difference in the result. At LLOYD'S you'll find every order given personal consideration. Whether your floral arrangement cost little or lots — you receive the same consideration. FUNERAL WORK is a speciality with LLOYD'S. Fresh flowers are always used to insure lasting qualities. A simple call will do the trick. The telephone number is Main 7888 — LLOYD'S have two stores for your convenience. POWERS HOTEL — and REYNOLDS ARCADE CANDY has also been added to LLOYD'S. Delicious confection a perfect addition to your floral offering.

Jerri Sullivan was besieged with flowers and wires Wednesday when she made her first appearance as the regular of the Bob Crosby Show.

Here's timetable for BROILING: Beefsteaks, sirloin, porterhouse, club or rib — one inch thick — allow six minutes on each side for rare — seven minutes on each side for medium — eight minutes on each side for well done. Preheat your oven of course — ten to fifteen minutes.

A Citizens Committee set up by the Central Trades and Labor Council (AFL) and the CIO Industrial Council, leading proponents of the OPA here are sponsoring the mass meeting. Sponsoring organizations cooperating in the drive to save the government price control measure include the PM Club, Council of Jewish Women, Industrial Citizens Committee of the Arts, Sciences and Professions, Thursday Action Club, Rochester Group for Liberal Action, Veterans and Wives, Saturday Political Action Club, Busy Bees of the local Price Control Office, American Veterans Committee, Religion and Labor Council, Citizens Committee to Promote Industrial Peace and the Genesee Co-operative.

GUARDS SEEK COMMUNICATION UNIT RECRUITS

The Communications Section of the 21st Infantry, New York Guard is anxious to recruit 23 men between 17 and 45 years of age. Both veterans and non-vets are welcomed. Although the unit prefers men with radio, telephone or electrical training; experience is not necessary, according to Lieut. Bernard Levinson, Communications Officer. All recruits will be trained in the use of communications equipment and message center procedure. Lieut. Levinson said that recruits will be trained in the use of all the weapons with which the Guard is armed and will be eligible to compete with the Headquarters Company rifle and pistol teams. Local training will be climaxed by the annual 12 day training tour of duty at Camp Smith. Those wishing further information may contact Lieut. Levinson at the East Main St. Armory any Monday or Friday evening.

Now is the time to Store Your Furs In EDWARDS New FRIGID VAULTS
Located On the Premises

Ordinary fur storage just won't do—your precious furs deserve the best. They deserve the GUARANTEED PROTECTION of Edwards New Frigid Vaults... where they're utterly safe from dust, dirt, summer heat and moths, ... where expert attendants keep a constant watch on your furs from now till you pick them up in the fall.

Don't delay! Bring your furs to Edwards now... before warm weather robs the pelts of "life"... before storage facilities become unavailable. And, if it's not convenient to bring your furs to our third floor, call STONE 2300, and a bonded messenger will pick them up at your home.

And for the Ultimate In Fur Cleaning HOLLANDERIZE Your Furs

Hollanderizing means more than just fur cleaning. Not only does it clean — it glazes and restores the natural oils in the pelts — actually rejuvenates furs. Hollanderizing is the process that most furs go through before they're made up into coats — the process responsible for their original beauty. And, Hollanderizing, performed at Edwards, costs no more than ordinary fur cleaning.

TUNA-EGGS-ASPARAGUS - Good dish!

Look for BREAST-O'-CHICKEN BRAND TUNA

Finding just what you want isn't always easy but it pays to keep on the lookout for BREAST-O'-CHICKEN Brand, the fancy, solid-pack tuna with the quality reputation. Chosen and prepared for tenderness and flavor... it's the tuna that never disappoints. Use it to make left-over menus taste better. Help save food!

TUNA AND ASPARAGUS WITH SHIRRED EGGS - Four Servings
1 7-oz. can Breast-O'-Chicken Tuna salt, pepper
1 lb. can asparagus paprika
8 eggs 1/2 cup light cream

Drain oil from tuna, use tablespoon in each ramekin. Divide tuna in pieces, arrange across center of each ramekin. Place pieces of asparagus across on each side of the tuna. Break eggs, one on each side of asparagus. Sprinkle eggs with salt and pepper, tuna with paprika. Pour tablespoon cream over each egg. Bake in moderate oven, 350° about 15 minutes, or until eggs are set.

ED RANDALL'S Scene & Word

Signs of the times. Notice in the front window of a Bronson Avenue tavern: "CLOSED — OUT OF BEER."

Then there is the story about the observant gentleman walking down a street, who happened to notice a sign in the window of an attractive, homey-looking sort of house which read: "ROOM FOR RENT."

Feeling that such a glaring error should be corrected, he went to the door of the house and rang the bell. A motherly-looking woman came to the door and the good samaritan said: "Pardon me, madam, but that sign in your front window has a word in it which is spelled incorrectly." "Oh, no," replied the lady of the house. "The sign is perfectly proper. The room I wish to rent has a very low ceiling." And I guess there is nothing Chester Bowles can do about it.

"THE COMMUNITY CHEST HAS A REAL JOB TO DO"

IN the wake of war there is a tremendous need for the work of your Community Chest. Family and child welfare, hospital and health care become big problems for every community.

The local agencies of the Community Chest are working constantly to make better, healthier and happier citizens of those youngsters who are desperately in need of help and guidance. Its Neighborhood Service works out the problems of living conditions and delinquency. And its regular aid to hospitals and youth associations fills a great need.

The Community Chest asks you once again to do your part in supplying the funds required to carry on this vital work. So, be a good neighbor, as you have always. Let's all share together and wear the red feather, symbol of your Community Chest.

Share Together... Wear the Feather

THESPIANS READY
MUSICAL COMEDY**

A musical show "Spring's
The Thing," with original songs
and dances written and execut-
ed by Taylor Instrument Com-
panies employees, will be pre-
sented at the Auditorium Thea-
ter on Saturday evening by the
Fellowship Club, local orga-
nization of the concern.
Included in the cast will be
the Fellowship Club chorus
which is currently making regu-
lar radio appearances here.
The scenes, representing a
fantasy, are laid in a mythical
department of the company
plant. Many amusing incidents
are staged around the boy-
meets-girl theme.

**BAND MEMBERS
TO BE HONORED
AT SUNDAY SHOW**

Joe Nolan and members of his
orchestra are going to have a
busy evening next Sunday. Not
only will they participate in
Jimmie Devine's All-Star Show
at Immaculate Conception audi-
torium, but they are scheduled
to play for dancing after the
show, as well. In between
times they will receive a silver
plaque in recognition of their
voluntary appearances in mili-
tary canteens and in veterans
hospitals to entertain service-
men.

Devine, who will act as the
master of ceremonies at Sun-
day's shindig will present a
variety show, featuring "stars
of tomorrow" recruited from
among talented high school
youngsters. Included are a
comedian, a piano virtuoso,
magicians, a harpist, an acro-
batic dancer, a piano duo, a
singer and an accordionist.

**MERCY GUILD PLANS
DESSERT CARD PARTY**

St. Ambrose Church Hall on
Culver Rd. will be the scene of
a dessert card party next Thurs-
day at 1 p. m. under sponsor-
ship of the Mercy Guild of the

Wear the Feather**

Badge of honor, pledge of valor . . . since the days of
chivalry the red plume has flourished its generous
message for all to see — help for the weak,
rescue for the oppressed, succor for neighbors in need.
Today, the red plume flashes into a hospital room
and a crippled child is taught to walk. It goes
into a lonely house and lifts a blind man from
the darkness of despair, as he is taught to work
and learns to see a hopeful light in his new independence.
Today, the red plume can shine in your lapel, telling
again its tradition of mercy.
Wear it proudly

slot machines. There is an old saying "if you play that way you pay that way" and its pretty true in the Tenth. The irregular activities which...

The people of the Tenth Ward, or any ward for that matter, are frequently unaware of this type of "goings-on" and are somewhat horrified and indignant when such facts are revealed — just as they were when The Sun last year with pictures showed that the one-named bandits were placed within easy access of the Tenth Ward school kids.

Over in the city-owned D. P. W. building on Dewey Ave. there has been a slot machine at the little refractory whose proprietor is stone blind. Now it wasn't put there by the Commissioner, and it's quite possible he knows nothing about it, which seems to be the rule rather than the exception in that office.

The machine is played by the adults who work in the D.P.W. plant, probably on their lunch hour when they crowd around this little snack bar and cigar stand. It's their money and they are old enough to know better so we see no reason to raise any objection. (In fact if they would scatter a few around city hall and the court house it might help the city fathers to hold the line till '49.)

word letter. That means anyone can win. All residents of Monroe County 18 years or more are eligible to enter. There are no puzzles to solve—no box tops to mail—no merchandise to buy—just a neatly written letter will serve as your entry. And yours may be the winning entry, too. It doesn't take a scholar or a genius to tell why he or she would like to fly to Washington and see the sights for free.

greater feed value than the total of the grain originally mashed." The appeal for "clear thinking" is aimed at representatives in Washington who are reminded that "if Prohibition II actual-ly does come on the heels of World War II, the resultant wave of enforcement and gangsterism and graft and immorality, will make the Twenties look like a basket lunch."

It's their money and they are old enough to know better so we see no reason to raise any objection. (In fact if they would scatter a few around city hall and the court house it might help the city fathers to hold the line till '49.)

We also think that running a snack bar for a possible 100 employees offers pretty poor pickings at the end of any one week and the unfortunate proprietor is entitled to have one little nickel machine as long as our better clubs are permitted to have dozens of them.

With 50 more important strikes on the agenda of unions for the next ten months Washington continues to play politics. The Democrats pussy-foot, equivocate and wring hands. The Republicans, always anti-labor under the skin, are content to talk big and do nothing. As usual the Old Guard can't see its opportunity. Today sentiment is overwhelmingly against the big unions (not the little ones), and more particularly the brass band to-bell-with-the-government type of Labor leader. It's the chance of a life time for the GOP to prove that it can lead the nation out of its mess by whipping the unions and employers into line by labor and employer legislation with teeth.

Unhappily the tub-thumping "we-could-do-it-better" Republicans are crawling right into their holes, satisfied that at election time criticism of the administration's labor policy will be sufficient to gain them votes. Courage and intellectual capacity they have not.

as it did shortly before the first national prohibition laws were enacted.

Heretofore members of the liquor industry appear to have chosen to remain silent as they were accused of "having all the sugar and of gorging themselves with grain and other food stuffs while the world faces starvation." But, through a paid advertisement in The Sun today, they militantly state their case, explode arguments put forth by the prohibitionists and list their contributions, both to the war and post-war effort.

The message warns that the same type of "hysterical thinking, muddled emotionalism and half-cocked misinformation" responsible for the original prohibition amendment are the tools being used today to "mislead the public and its representatives in Washington."

According to the liquor industry's story, no sugar is used by the industry; no edible grains are used today and recovered animal feeding material has "a

Commander Francis C. Pegnam, now Father Pegnam and assistant pastor of the Blessed Sacrament Church, will deliver the Prayer for America. Father Pegnam, chaplain on the aircraft carrier Belleau Wood, wears nine battle stars and the American and Pacific Theatre ribbons. He is the son of Mr. and Mrs. Raymond Pegnam, 451 Raines Park. Ensign Edward L. Kummer, who with Miss Helen M. Bauman of Nazareth College will represent the new 21 year old citizens, as a beribboned Naval pilot. Ensign Kummer, now studying at the Jefferson High School's Veteran's Unit in preparation for a career in architecture at the Cornell University, won two distinguished Flying Crosses and six air medals.

The Inter-High Band of the Rochester Public Schools, led by Karl Van Hoesen, and the Glee Club of Our Lady of Mercy High School will furnish the musical selections for the rally.

BUILDERS...

(Continued From Page 1)
building code framers have fought that very thing. Unions have worked out elaborate sets of rules as to jurisdiction, methods and procedures to insure maximum employment for their members.

Program Outlined
Here are the five points naively proposed by the magazine for the building trades to adopt:

1. No reduction in wage scales but a fair day's work for a day's pay.
 2. Co-operate with builders in the use of newest, most efficient methods, materials and equipment.
 3. Permit the use of sound, economical, factory-produced materials and equipment even where they use factory labor in place of job-site labor.
 4. Work with the building industry and the government in modernizing building codes to permit utmost freedom in the use of materials and equipment consistent with sound construction practice.
 5. Assume leadership in the rapid training of large numbers of skilled men without which any large scale building programs must fail.
- The magazine declares that the cost of new homes has risen from 50 to 80 percent above 1941 levels and attributes much of the increase to higher labor costs.
- Challenging the building trades to adopt its five-point program, the magazine says: "Labor has always claimed to be the champion of public interest and the common man. The present desperate situation offers to the building trades an unparalleled opportunity not merely to co-operate, but to take the leadership in the industry's efforts to provide homes for all the people, veterans and others alike, who want them."

LET'S GET THIS GRAIN SITUATION STRAIGHT, ONCE AND FOR ALL

KEYWORD: Thanks to a type of hysterical thinking, muddled emotion and half-cocked misinformation seldom seen in America, the Prohibition pressure groups — by misinforming the public and thus using their Congressional representatives as tools — are seeking by means or foul to deprive the American public of an inalienable privilege. They are even taking advantage of Europe's starvation in their ends. But what you see below is the truth, and you owe it to yourself to read it.

PRESENT conditions in the beverage distilling industry call for some clear thinking, if America is to escape a repetition of the "Noble Experiment" which turned out to be one of the most ignoble that ever befell this country.

What is needed, and needed now before it is too late, is a cold and dispassionate exploration of the actual facts — so that the American public will not be misled into another such moral catastrophe.

The facts themselves indicate that the forces now seeking to inflict Prohibition again upon this country, will not stop at distorting the truth to do it.

What are the facts? What is the truth? Let's tear away the layers of hysteria, political pressure, and well-meaning but misguided judgment — and see what the actual situation is.

There are three truths which give you an idea just what the Prohibition pressure groups are up to:

Prohibition pressure groups declare that the whiskey distillers "have the sugar." *Whiskey distillers use no sugar.*

Prohibition pressure groups declare that the whiskey distillers consume so much grain that today "it's a question of bread or liquor." The grain used by distillers today includes corn, rye and barley — they are using no wheat whatever. *Even in 1936, a year of peak whiskey production when distillers were trying to replenish prohibition-depleted aging facilities, the wheat they then used represented only .0069% of the available wheat supply. AND THEY USE A GRADE THAT IS NOT USABLE FOR HUMAN FOOD!*

Wonder we say that it is time to think straight.

Today, largely through the efforts of these same Prohibition pressure groups (and certain political interests who have much to gain and little to lose) a good part of the blame for the current world food crisis seems to have fallen on the shoulders of the beverage distilling industry.

They say the distillers have been "gorging themselves with huge quantities of grain and other precious foodstuffs while the world faces starvation."

Here is the truth:

The nation's meat supply (83% of which is now reaching the consumer through Black Market channels) could be increased by a half-billion pounds per year if distillers were given the grain to operate at capacity.

And you, this increase in world meat supplies could be accomplished automatically, without any additional planting or increased use of manure. It would result entirely from the use, in balanced animal feed rations, of the high protein and vitamin concentrates in distiller's dried grain — recovered by distillers as a by-product.

It is a scientific fact that one pound of this high-protein concentrate will replace 3.7 lbs. of corn when used to balance the diet of steers. This is because distillers use only the starch content of the grain; all the fibre, protein and oil, plus all the vitamins and the minerals of the yeasts which were used by the distiller for fermentation) are retained in the recovered distiller's grain.

In short, this recovered feeding material has a greater feed value than the total of the original grain originally mashed.

Thus, far from impairing the world's food supply even indirectly, distillers could add to the world's food supply where the greatest shortages exist, if they were allowed to do so.

Let's go a step further, and suppose for the moment that the beverage distilling industry did consume unrecoverable grain. It is a fact that out of the 4,550,000,000 bushels of grain consumed in America for all purposes per average year for the four pre-war years, the distilled beverage industry's average pre-war annual share was less than 1 1/2%!

Does this look as though the distillers were gorging themselves with huge quantities of grain?

Does this look as though they were even remotely responsible for a world food crisis?

On the contrary, the distillers, with a mere by-product, have annually fed and fattened hundreds of thousands of cattle—until their production was cut short by the same type of cock-eyed thinking that afflicts this country in so many directions today.

How did Prohibition I, the "Noble Experiment" of the "Twenties, come about in the first place? *In exactly the way as is being brought about now.*

The minority forces behind the Prohibition I were closely organized, completely and ruthlessly unscrupulous — whereas those opposed to it were hardly organized at all.

When America entered World War I, the prospect of National Prohibition still seemed remote.

But World War I accustomed the country to drastic legislation that conferred new and wide powers upon the Government, necessitated the saving of food, and thus commended the Prohibitionists to a patriotic grain-saving measure.

These were the sentiments and conditions which led to Prohibition I. And they are being lined up again today to bring forth Prohibition II.

Let America be warned now: Public opinion must and shall be turned against the Prohibition pressure groups who are trying to bring this about.

ONCE THE TRUTH PREVAILS — ONCE THE PUBLIC GETS THE FACTS — THE AMERICAN PEOPLE THEMSELVES WILL KNOW WHAT TO DO — AND WILL DO IT.

While World War II was giving these Prohibition pressure groups their second opportunity to mislead the public and its representatives in Washington, look what the distilled beverage industry was doing to wipe the war.

When the explosion at Pearl Harbor woke up the country, America was tragically unprepared, pitifully weak.

We had an Army of foot-soldiers, a Navy sunk in the harbor mud, a blue-print Air Force and Tank Corps.

We needed to mechanize our army immediately. Build ships and planes. For this job we had the industrial know-how and the plants. *The one thing we did not have was rubber.*

America's rubber need was 750,000 tons annually. Our deficit was 500,000 tons annually. Rubber — we had to have it — or America faced defeat.

BUT WHAT AMERICA DID HAVE WAS 127 DISTILLERIES, EQUIPPED, MANNED, AND WILLING TO GO TO WAR ON AN INSTANT'S NOTICE.

Beverage production stopped overnight. And shortly, oceans of high-proof distiller alcohol started moving to butadiene plants to wipe America's rubber deficit off the map.

It was distiller alcohol rubber that started the army rolling. Moved trucks, jeeps, tanks, guns and men into action. Sped the navy across the seven seas. Covered half the earth with bombers and fighting planes.

It was distiller alcohol that saved the Russian rubber industry by coming through with 100,000,000 gallons.

It was distiller alcohol that made millions of tons of explosives which alone consumed 102,000,000 gallons. Yes, of distiller alcohol.

Distiller alcohol, used in aviation gasoline, "kept 'em flying."

Distiller alcohol, used as anti-freeze, made winter victories possible.

Distiller alcohol—75,000,000 gallons of it—met the vital demands of the plastics industry.

Distiller alcohol, to the tune of 70,000,000 gallons more, went into rayon cloth and dyes for parachutes, tire fabrics, and a thousand-and-one other fabric needs.

Disinfectants, insecticides, chemicals, shellac, enamel, all manner of other war production, used distiller alcohol.

Miracle drugs saved thousands of lives, and men were kept in action—thanks to distiller alcohol.

But even distiller alcohol from these 127 patriotic distilleries—whole oceans of it, millions upon millions of gallons of it—was not the distilled beverage industry's only contribution to the winning of World War II.

Cattle feed, produced by distillers and brewers from coast to coast, relieved dire feed shortages and thus upped meat, egg and milk production.

Remember, while all this was taking place the distilling industry's salesmen were breaking bond-selling records.

Its equipment and manpower was taking on other war jobs.

Its taxes were helping to finance the war and helping avert runaway inflation. In fact, the excise taxes alone paid to the Federal Government by the beverage distilling industry during the war, totalled more than \$6,000,000,000—enough cash to pay not only for the two-billion-dollar atomic bomb development, but the fleet of ships and planes that opened the way for it to beat Japan.

Yes, distiller alcohol was the Invisible Fighter that helped win the war.

But while it was doing this fighting, the Prohibition pressure groups were gathering their forces to hit this patriotic industry another sneak punch.

And to top it all, so weak is the case advanced by these Prohibition pressure groups, that today they have to take cheap political advantage of a life-and-death situation abroad, a period of postwar confusion at home, and a whole series of distortions of the truth, to bolster their cause sufficiently to have a chance to put it across on an American public preoccupied with so many other things.

The beverage distilling industry is not taking a nickel's worth of food out of anybody's mouth.

We are not strangling the world's grain supply.

We are not using sugar.

Our contributions to war and peace, any way you look at them, are enormous, praiseworthy and strictly on the level.

We defy any other American industry, in its dealings with business and the public, to show ethically a cleaner bill of health, a finer machinery for self-government, than the beverage distilling industry.

We make the unqualified statement that the sole and only reason the beverage distilling industry may seem to be "on trial" today before the bar of American public opinion, is because a handful of self-righteous do-gooders who think they know what is best for everybody, are trying to inflict their way of living and thinking upon 142,000,000 people who, once they knew what was going on, would stop the do-gooders short overnight.

This is an appeal to the people's representatives in Washington—by whose unwitting means the Prohibition pressure groups hope to accomplish Prohibition II.

Are some of you unaware of the facts?

Or is it that mass starvation just means nothing to you, when in the face of world food conditions as they are today, you threaten to shut down the efficient and right now, invaluable grain recovery plants operated by the nation's distillers.

As you vote on these measures that are before you, keep in mind that the corn used in the production of whiskey, for example, is not consumed in the process—but is fed enriched to cattle, hogs, and poultry, and is then returned to the public in the form of meat, eggs and milk and other essential foods — to a total greater than that of the original corn.

Keep in mind that sugar and wheat are not even on our list of ingredients.

Keep in mind that if Prohibition II actually does come on the heels of World War II, the resultant wave of "enforcement" and gangsterism and graft and murder and immorality, will make the "Twenties look like a basket lunch."

In view of these facts—in view of the world's need for food—how can you, or any one else argue that America's distilleries should be closed?

This, Mr. Congressman, is not altogether a rhetorical question.

We'd really like to know.

Rochester Wholesale Liquor Dealers Ass'n.

Political Polka

By CURT GERLING

The Cartwright-DPW lockout or strike, whichever you wish to call it, has the public in a dither of confusion. Although sympathies are pretty well defined if not well divided, the basic issue is beclouded in the customary cumulus of fiery charges and redundant rhetoric. Like the shell game of old there is plenty that doesn't meet the naked eye. Members of the Republican administration are first of all politicians. The fact that they muddle through the business of running the city is a secondary consideration. As politicians the important thing to them is to stay in office. In order to stay in office you must have organization. To have organization you must control patronage.

You can't control patronage if your Public Works and service departments are in the hands of a union. Thereby hangs the tale and the fundamental reason for the administrative move. They want to retain the old political system. The traditional procedure has long been beneficial to organization. For example, you're tired of giving Uncle Mike five bucks every Saturday. You believe the easiest way out is to get him a job with the ash gang. So you see your district leader. He remembers that you are an enrolled Republican and that most of your family are too. He takes you to the ward leader, or if he is very efficient he sees the ward leader for you. The ward leader explains to the Contest Editor, at the Palace Theatre. Little wonder, too, that Rochester is showing such

(See POLKA Page 9)

WHEWW! AH-H-H, THAT'S BETTER! Downtown shoppers had reason to hold their noses as they passed the ever larger garbage heaps piled in the main streets of the business section. Their only hope of relief was a quick trip to Highland Park for a few sniffs of lilac aroma. That's just what Miss Evelyn DeGarmo and Joseph Crawford pictured here, did. Notice their reactions to a Clinton Ave. E. garbage heap and to the Highland Park lilacs.

'SENTIMENTAL JOURNEY' TEST DEADLINE NEARS

With the deadline only eight days away entries in the Sentimental Journey Contest are pouring into the office of the Contest Editor, at the Palace Theatre. Little wonder, too, that Rochester is showing such

Lilacs Strive To Outdo City's Garbage Odors

This was Lilac Week in Rochester. And a fortunate coincidence it was, too. What with the stench of tons of uncollected garbage which lay rotting in the streets, thousands of long suffering citizens flocked to the park to see if the perfume of the lilacs could remove the stink of the garbage from their nostrils. But the homes—and to their garbage difficulty was that they could and its own peculiar brand of perfume. As the warm spring Then they had to return to their

RATS RAMPAGE AS REFUSE PILES UP IN STREETS

Regardless of the outcome of the city government-organized labor controversy, one thing was certain: City Health officer Albert Kaiser had taken a severe setback in his rat elimination campaign. The rats were

Nation Eyes City's Anti-Labor Crusade

By Orville Allen

While the controversy between the labor-baiting Republican city administration and dismissed workers in the Department of Public Works continued to rage unabated this week, three facts stood out crystal clear for those who wanted to see them:

CITY AWAITS NIGER MOVE

Is Councilman Frank Niger a Republican or a Labor man? That was the question many in Rochester wanted answered and one that the "Labor Front" of the city council would have to decide. Originally appointed to the council by the Republicans as a sop to the labor vote, Niger now had to decide with which side in the DPW Union vs. Republicans controversy his sympathies lay. He could no longer continue playing both sides of the street. He could no longer remain a member of a Republican-controlled, organized-labor-baiting city government and still pose as a staunch supporter of that same organized labor. Whether the barbers would have a new business agent or the city council a new member was an item the record books still awaited. But it will be interesting to now learn, at long last just where his loyalties actually were.

\$25 Winner

Mrs. D. Harris of 2 Merton St. is the lucky winner of this week's \$25 cash prize, offered by The Sun each week to its sustaining subscribers. This is the reward Mrs. Harris gets for paying her Sun carrier, Edward Eldman of 51 Breck St. 10 cents. Ed incidentally collects an extra five dollar bonus.

1.—No longer could there be any doubt as to the true attitude of the Republican party in Rochester, or, more particularly in Monroe County, toward labor, and, more specifically, toward organized labor.

2.—No longer could there be any doubt as to just who was running the City of Rochester.

3.—While administration spokesmen threw down a smoke screen arguing whether or not city employees had the right to strike, 489 workers in the Department of Public Works had committed no more serious crime than to join a labor union. Regardless of the merits of the controversy, it remained a fact that no strike had been called nor strike threats voiced when City Manager Louis B. Cartwright abruptly abolished jobs more than half the public works of department employees.

Yes, at last the Republican party had gone on record organized labor was all right for the rest of the nation, but "no soap" in the so-called "best governed city." The present city administration has forever alienated the support of Rochester's organized workers. They no longer merited it nor, apparently did they want it.

Broderick 'Takes Over'

Few citizens were surprised when Republican County Chairman Thomas E. Broderick "took over" shortly after Cartwright had fired the DPW help, with Broderick issuing the state-

KAY'S COMMENTS

By Kay Shearer

Louise said to me the other day, "Kay you're right—I have tried them all but that REAL SEAL-TEST CREAM—you are always raving about in your column is all you say it is. It tastes like that whipped cream of long ago—heavy—fine in texture and whips like a charm—in nothing flat and stays whipped." So why don't YOU call BRIGHTON PLACE DAIRY—and have this delicious REAL SEAL-TEST CREAM delivered to your home. It is available in pint or half-pint size—IT WILL KEEP. So the pint is the more economical buy. A simple telephone call GLENWOOD 144 will bring this cream to your home. At this time of the year with fresh fruit available—REAL SEAL-TEST CREAM always on hand—your problem is made easy. BRIGHTON PLACE DAIRY—45 Fulton Ave., Glenwood 144—(Division of General Ice Cream.) P.S. Please return your empty bottles—Thanks, Kay.

EDWARDS If you find me always telling you about EDWARDS STORE—downstairs—you must bear with me—but I feel that you choose to call it—has such outstanding values—I MUST TELL YOU ABOUT THEM. Priced \$8.95 and up. COTTONS are there also—in a beautiful array of colors and styles. MATERNITY DRESSES are a special pet with this shop. New arrivals daily. Gadgets sewed in for expansion purposes. Also priced modestly. "800" SHOP is Moresse now. Located at corner MONROE & CANTERBURY RD.—They are open Eve.

LOOK Don't blame me—if you haven't been taking advantage of the fresh merchandise at ZWIG DRESSES. I have been harping about it long enough. If you're minded—and what woman isn't—drop into this well-stocked shop and buy your summer wardrobe. Don't put it off—Mrs. Zweig has just returned from NY with wearables—in beautiful styles—plenty of color combinations—in crepes—cottons—rayons, etc. Prices are LOW—when you see the tags—you'll buy a couple of dresses. I know. ZWIG DRESSES are located 340 ROSEDALE—Off Monroe—Open Eve.

CARTER Summer begins with a touch of white. And at CARTER SHOP you'll find whites in profusion. BAGS—HATS—large and small. MILAN are very good this season. Says Mrs. Carter—also LARGE BLACK PELTS beautifully fashioned of felt and lace with open crown. . . PANAMAS are also good—and Carter's have them in even 23 head size. Prices at this popular shop start at \$3.95 and up. BAGS of straw in a wide choice of pastels—also White as I said before—of Plastic. JEWELRY new arrivals every day—a particular CUFF BRACELET is adorable and an addition to any costume. CHOKERS are also very smart this season—and of course the beloved earrings and pine sets. Priced \$1 and up. CARTER HAT SHOP located 639 MONROE AVE.—Open Eve.

A well arranged kitchen is every woman's dream. Appliances arranged in such a way that they're easy and convenient to use. In the KITCHEN CENTER at R. G. & E—you'll see the way it is done. Each major piece of equipment the range, refrigerator and the sink—with appliances handy as you'll ever see them. Half-shelves—step shelves—knife racks and lots of other gadgets to expand the usability of the other equipment in your kitchen. Color is important—and this also has been given consideration. Drop into 89 East Ave.—and R. G. & E. will show you how to accomplish it. Ask for KITCHEN CENTER.

**Ontario Principal
Takes RBI Post**

LT. COM. WM. H. DREWS

Lieutenant-commander William H. Drews, USNR, a former principal of Ontario, N. Y., High School and native of Buffalo, has taken up his duties as assistant to the president of Rochester Business Institute here, according to Ernest W. Veigel Jr., RBI president.

Drews, scheduled to receive his final honorable discharge papers this month, served Ontario High School from 1929 until 1943 when he left to enter the Naval Reserve. After receiving training at Ohio State University he was assigned to the Naval Air Station at Brunswick, Me., where he was placed in charge of aircraft recognition training for British fighter pilots. He also served as liaison officer for the British.

While principal at Ontario, Drews served as president of the Wayne County Schoolmen's Association and was a member of the House of Delegates of the New York State Teachers' Association. He also headed the Wayne County High School Athletic Association.

At RBI Drews will have general administrative and personnel duties, taking an active part in the school's current expansion program.

Refreshments will be served by Mrs. John Short, Mrs. Claude Arnold and their committees.

**MONKEY CHOOSES
VET AS NEW OWNER**

Denver, Colo. — A veteran from the South Pacific, carrying a pet monkey, sat next to Glen Howard, 42, on a bus. All at once the soldier said, "His name's Bill. Bill likes you. I like you, too. You and Bill ought to be together." Before Howard could protest, the soldier was gone and Bill had an unwilling new owner. Now Howard hopes someone else will like Bill or Bill would like someone else.

**Have Reunion
-But Not for Long**

Macon, Ga. — After being separated for 20 months, Jesse Beryl Tharpe, of Australia, and her U. S. Navy husband, Chief Machinist Mate Herbert Tharpe of Macon, were united, Tharpe's 24-hour liberty from the Jacksonville Naval Air Station ended twelve hours after her arrival and he had to return. He is scheduled to take part in the atomic bomb tests in the Pacific.

Something unusual will happen next month; the nation debt will be reduced a little.

**BENEFIT DINNER SET
FOR JEWISH FUND**

It will cost diners \$25 a plate to partake of a Kosher dinner to be served at the Seneca Hotel on June 13 under the auspices of the Jewish National Fund. But the \$25 will buy more than just the dinner. A major por-

tion of the money will be turned over to the fund to finance the purchase of land for Jews in Palestine.

Edgar Mowrer, a correspondent on the staff of the New York Post, will be the guest speaker. Reservations can be made by phoning Glenwood 2121.

Chief speaker at the dedication will be Dr. Francis E. Townsend, founder and present leader of the movement.

Motoring to Cleveland with Mrs. Jockey will be Mrs. Emma Kramer, Mrs. Josephine Laney, Mrs. W. M. Bender and Mrs. Jessie Bennett. All are members of Townsend Club No. 23 of Rochester.

**HAMBURG RACE
MEET TO START
NEXT MONDAY**

Sixty nights of harness racing will get underway at the Buffalo Raceway in Hamburg, beginning next Monday evening.

Up-to-date pari-mutuel equipment has been installed which furnishes accurate odds on an instant's notice on the infield board. Prices also can be flashed on the board when the "official" sign goes up.

The spring harness meeting will be marked by the reappearance of a number of popular performers from New York State and Canada. Arion Volo L., which emerged as the champion pacer of last spring's meeting at Hamburg, is due to arrive Monday, heading the stable of George Collins of Waterloo.

Lou James, capable young Canadian driver, has checked in with six horses, five of which are owned by Alec Parsons of Pine Ridge Farm, London, Ontario. The six horses were winter trained at Pine Ridge Farm and appear to be in excellent condition.

HOSTS—Liquor dealers, wholesalers and their friends were guests at a cocktail party in the Seneca Hotel Tuesday afternoon given by McKesson & Robbins and Hiram Walker, Inc. Playing host to the group were (from the left) Earl Yaky, manager of McKesson & Robbins liquor division; A. L. Manhan, district supervisor for Hiram Walker; and R. A. Hutchinson, N. Y. state mgr. of Hiram Walker, Inc.

**SPORTSWEAR
FIRM ANNOUNCES
EXPANSION PLANS**

An expansion program announced this week by Samuel B. Levin will more than triple the space occupied by Vines Sportswear store, whose headquarters are at 159-61 Joseph Ave. directly opposite Sears, Ave. A new building will be erected on Monroe Ave. directly opposite Sears, Roebuck & Co. as soon as current building restrictions are removed.

Five houses now on the site have been purchased by the sports-wear firm and will be demolished to make way for the new structure which Levin says, will have about two and one-half times as much space as the present store.

Featuring many nationally-known brands, Vines has been in its present location for nearly 25 years. With the opening of its branch on Monroe Ave. it is expected that it will increase its scope of nationally-known brand lines handled.

According to Levin, the new structure is being built to "supplement the service we have been rendering Rochester for the past quarter century."

Where rent controls have been abandoned there has been a strange phenomenon, rents have jumped up! This proves, according to some people, that price control does not work.

**HEALTH PROGRAM
GETS RADIO AWARD**

"The Constant Invader", a series of radio dramatizations produced by the National Tuberculosis Association and broadcast in this area over Rochester Station W.H.E.C. by the Tuberculosis Association of Rochester and Monroe County, has received one of two first awards by the Institute for Education by radio.

The Institute based its award on excellence in "interpreting civic and service organizations." The series tells the story of the fight for the eradication of tuberculosis with Dr. A. J. Cronin, famous English author, as narrator. Hu Chain of New York City wrote and directed

RATS . . .

(Continued From Page 1)

having a field day with tons of uncollected garbage making their artful difficult food hunt a simple matter. The rats were waxing fat. It wasn't expected to affect their fecundity adversely, either. With so much good rat food to be had just for the picking "now was definitely the time for romantic rats to fall in love." And with that happening, Rochester's rat population was expected to soar.

But the health of the city and its citizens was of minor importance this week to the groups who were fighting separately — not to save lives — not to guard the public health, but to guard to the death of the "little" people if necessary, the "rights" of a political machine to its "patronage."

**PROLETARIANS TO HEAR

IN NEWS AGAIN**

Vancouver, B. C. — The Jokers Club at the University of British Columbia announced that if students made their quota in an international students' fund drive, one of the members of the club would swallow a live goldfish. The drive was a success and, sure enough, Paul Chutter, an engineering student, dipped his hand into a bowl, yanked out a wriggling fish and swallowed it.

ED RANDALL'S Scene & Word

Signs of the times. Large placard on the rear of a truck parked at the corner of Court and Exchange Streets last Friday afternoon: "IF YOUR CITY STINKS — BLAME CARTWRIGHT!" And by the same token, I suppose that if Cartwright stinks, it's the city's fault.

Roy McGregor's horse auction last week reminded me of the character who attended a similar affair one day and strayed from the straight and narrow path on the way home. He became involved with a group of cronies and the drinks flew freely so that our hero, on awaking in the morning, had a far from complete recollection of what had occurred the previous day. When he finally managed to stagger out of bed and reach downstairs, his irate wife was awaiting him with a baleful gleam in her eye. In fact, wife was burned, to put it rather mildly. "Why didn't you come home early last night as you promised?" was her greeting. "I'm sorry, dear, but I was detained at the horse auction," was the first explanation that came into the chastened husband's mind. "Oh, so you were detained, were you?" asked the ball and chain. "Maybe, then, you can tell me what that piece of rope is doing on the hall tree?" That was the 64 dollar question without a doubt. Hangover Joe had no recollection of how he might have come into possession of a piece of rope, but he was a pretty fast thinker and came back with this quickie: "Well, I either lost a horse or found a piece of rope!"

Here is a story about a group of people who started on a trip, got nowhere, and consumed over five hours doing it. A week ago Tuesday, May 14th, an American Airliner took off from our Municipal Airport at 6:20 p. m., bound for LaGuardia Field in New York City. Aboard were thirteen passengers, some of them Rochesterians. The plane arrived over LaGuardia and the pilot was told not to land because of fog. He was ordered to proceed to Hartford and disembark his passengers at that airport. Arriving over Hartford, the same weather conditions were found to prevail and the pilot was instructed to proceed to Albany. Same thing happened in Albany, adverse landing conditions, and the plane was dispatched to Syracuse. No dice in Syracuse and the plane returned to Rochester

FIREMAN FOUGHT THIS BLAZE WITH VIGOR

Baltimore, Md. — Irvin M. Harter, fireman, was working around the engine-house when an alarm came in. Harter thought the fire must be pretty close to his house but he didn't realize his vehicle until the fire truck, with him on top of the apparatus, turned into the street on which he lived and Harter saw that the fire was right at his home. An oil stove had exploded and badly damaged two rooms of Harter's house.

MUNICIPAL JOB IN SAME FAMILY SINCE 1833

Retford, England. — In 1833 William Newton was appointed town clerk and since that time the position has been a family affair, until the recent resignation of W. Percival Jones. William Newton, grandfather of Jones, turned the job over to his son-in-law, Samuel Jones, in 1876. When Samuel died in 1902, his son, Percival, carried on until this year.

MODESTO, CALIFORNIA

Letters To
The Editor

Editor, Rochester Sun.
After reading your article about the Gaesser fire on Jay St. I would like to put forth a couple of questions which I would like answered in a future issue of the Sun.

As your staff probably doesn't know, bonfires were started over that particular fire plug on V-J Day and Election Day thus rendering it useless after the rabbit had melted inside from the heat of the fire. Many policemen were stationed in the neighborhood on those nights and could have as well as not prevented the starting of fires over the hydrant. Inspector Burns gave all police orders to arrest anyone starting fires but as far as I know there were no arrests made. The question is where were the police when these fires were started?

The other question is about the sugar. I hope Mr. Gaesser isn't blaming the firemen for the missing sugar. I can't possibly see how anyone could make away with 800 pounds of sugar without any person seeing it being done. Surely the fire drew many spectators who could spot any foul play going on. I wonder if Mr. Gaesser is true with his statements or trying to get someone in trouble. Is he positive the sugar wasn't destroyed in the fire?

A Neighborhood Resident.
Ed. Note — Wrong on two counts, neighborhood resident! The Sun staff did know that bonfires had been lit at that hydrant on the dates mentioned. But election day was in November and the fire occurred in April. If we knew it, the neighbors knew it, the police knew it, why didn't the fire department located right in the neighborhood and charged with maintaining equipment know and do something about it? As for the sugar, loss Mr. Gaesser never claimed, nor did the Sun story intimate that anyone swiped his sugar—it was the big fat hen that was kidnapped, remember? You'd better read last week's story once more—but carefully this time!

CONTEST

(Continued From Page 1)

widespread interest in the affair. First prize for writing a letter of 200 words or less on the subject "Why I Would Like To Take a Sentimental Journey to Washington, D. C." is a gala weekend trip to the nation's capital, flying both ways on one of the big PCA Capitaliners.

The picture "Sentimental Journey," featuring John Payne, Maureen O'Hara and William Bendix, originally scheduled to play at the Century Theatre has been transferred to the Palace Theatre where it will open on Thursday, June 29. The date and theatre change will not affect the Sentimental Journey contest now being staged by the Palace Theatre, the PCA Capital Airlines and The Rochester Sun.

Of course the contest is easy to enter. And it will probably be just as easy to win. Hardly a person in Rochester but what can think of a dozen or more reasons why they'd like to visit Washington, D. C. Especially when someone else is footing the bills. Doubly interesting is the fact that the winner will be allowed to take the person of his or her choice as special guest. The guest, too, will have all expenses paid. Included in the scheduled journey are visits to government buildings, a visit to the Mint, the White House, both houses of Congress and other important segments of the government. The lighter side of the tour shows scheduled visits to famous night clubs, the Variety Club where all the celebrities stop and other surprise features. The winner and guest will stay at the famous Statler Hotel in a deluxe double room which has been reserved especially for them. And all meals, except those in the night clubs, will be taken in the big hotel's main dining room.

The contest closes on Friday, May 31 at midnight. All entries must be in the hands of the theatre contest editor by that time, or if mailed must be postmarked not later than mid-

night of that date. The winner will be announced in the June 6th issue of The Sun and the journey will be made leaving Rochester on the evening plane of Friday, June 14, returning the following Sunday. The judges, whose decision will be final, will be composed of executives of the newspaper, the theatre and the airlines.

If you haven't yet written your letter as to why you would like to take a journey to Washington, D. C. tonight is not too early to get it underway. Address your entries to the Contest Editor, Palace Theatre, Rochester, N. Y. or take it to the theatre boxoffice. Then watch this paper for the announcement of the winner's name.

GALA MIDNIGHT SHOW PLANNED BY MUSICIANS

Ten headline acts plus a varied and popular program by the Rochester Philharmonic Orchestra will be staged in a gala midnight show at the RKO Palace Theatre tomorrow night by the Rochester Musicians' Union in order to raise funds for the musicians' convention which will be held in Rochester this summer.

Tickets, to be exchanged at the box office of the theatre are being distributed by members and friends of the union. They are also on sale at the theatre. All seats are reserved for the

occasion and are priced at \$1.20 each. Its participation in the event will mark the last appearance for the season of the Philharmonic Orchestra.

Ignorance of Intimate Physical Facts Has Wrecked Many A Happy Marriage!

If your husband seems indifferent—perhaps you don't realize how important doubling doses is to feminine cleanliness, health, charm and marriage happiness.

Many women still foolishly use weak, home-made mixtures of soda, soda or vinegar which do more and can't give the great germicidal and deodorant action of Zonite.

And many use unwholesome mixtures of harmful poisons which can burn or severely irritate. But Zonite is different. No other type liquid antiseptic is so gentle for the body as all those tested in so numerous yet so many delicate instances. You can use Zonite as directed or when necessary, without risk of injury.

...ents, doing the talking and admitting that it was he who controlled Rochester. And while administration bigwigs were busy decrying the "coming in" of outsiders to try to run the city, they conveniently forgot that the Republican administration had, for years, been run by an outsider, a citizen of Irondequoit who had never been elected to any city office. Observers presumed that the current crop of Republicans

meant only labor organizers when they spoke of "outsiders." For surely they couldn't mean Thomas L. Broderick, an esteemed resident of Irondequoit.

Admits No Strike Called

Even City Manager Cartwright admitted there was no strike. As late as Friday he had said, "That action on the part of those employees is not, and cannot be considered a strike." And even though he quoted the lofty words of Calvin Coolidge who, during a policeman's strike in Boston, said, "There is no right to strike against the public safety by anybody, anytime, anywhere," the fact remained that DPW workers were locked out of their jobs; they had not struck. Even the daily papers which, obviously, could find no wrong in the Broderick-ordered, Cartwright-announced action swept legality out of the window when they accused the "labor front" of using "legal arguments" as a screen. On Tuesday, the Times-Union editorial page boldly proclaimed a new policy of governing the city when it said:

"The city's officials saw trouble brewing. In spite of the law, they realized that it would be hard to avert undue and harmful control of the city's working forces if unions, now in militant, aggressive mood throughout the country, perfected their organization."

The people of Rochester in all walks of life clearly understood those words "in spite of the law . . . hard to avert control if unions . . . perfected their organization."

Now the battle was joined. Now the issue could be clear if only the people would not let their emotions overcome their good judgment. The city administration admitted it took its unwarranted action for the one purpose of "breaking" the union. The great battle against organized labor had at last been brought into the open. Throughout the country eyes were turned on Rochester. Because Rochester, always suspected of being an anti-union town, had leaped into the forefront as leader of the anti-labor forces in America. It was a dubious honor.

DRENCHED ROBBERS CAUGHT BY A NOSE

Hulbert, Okla.—Surprised in the act of robbing the Hulbert National Bank by a bus load of students returning from Muskogee after participating in a parade, two men attempted to elude capture by fleeing in an automobile. Pursued by a lime-spreader and the bus load of students, the men submerged themselves in a creek and left only their noses protruding above the water. State troopers spotted them and fired into the water. They came out with their hands up. The value of their loot, two sacks of silver coins, was about \$35.

POLKA...
(Continued From Page 1)
can probably swing quite a few votes into the right column each fall if Uncle Mike gets a job. Headquarters calls the DPW office and sooner or later Uncle

Mike is gainfully employed and paid by the taxpayer and you're ahead five bucks each week—that is almost.

During the course of the year you buy quite a few tickets to the ward raffles and cigambakes and just before election time when headquarters lets it be known that now is the time for all good men to dig into their jeans and aid their party, your district leader calls on you. He reminds you of the political favor. He shakes you down for ten as a party contribution. Uncle Mike gets the business too. On election day you're probably given a blue badge and told to use your family chariot to haul out the vote in your district. Uncle Mike is under pressure too. He buttonholes his old cronies and hustles a few votes for the party on the "personal favor" basis.

That's the system with variations that builds political machines. It's the essence of "organization" and if you think that any political party is going to hand that important angle on how to get votes over to a union you are very, very much mistaken. The old and above-mentioned system has kept a very indifferent group of officials in office for years. The City Fathers would be unhappy indeed if the union card was to supplant the political favor.

In the aforementioned ruckus Mr. Cartwright is the recipient of the bricks and vituperation only because he is the handiest target. In all fairness to Mr. C. he is just the "fall guy" for Mr. Broderick's group who manipulate our marionette officials on strings that reach from Republican headquarters and beyond.

No doubt Mr. Cartwright now realizes how Jack Hanover felt when he (Mr. Cartwright) made Hanover the goat for the first snow storm fiasco.

The trouble, as you may well believe, was no whim of Mr. Cartwright's. Some pretty cozy lads figured it out well in advance and handed Mr. C. his orders.

The timing to gain public approval of the move was perfect. John L. Lewis had just set the country on its ear and the majority of our citizens were highly indignant—all union labor was in disfavor, right or wrong. November too, is still a long, long way away.

Private polls of the past few days indicate that the city administration still has the public overwhelmingly with them.

Sympathy will decide in direct proportion to the height of the garbage

There has been plenty of behind-the-scenes cat and dog fighting among high officials as their well laid plans misfired here and there. It is reported that Harold S. W. (says volumes) MacFarlin after a bitter exchange of words with Mr. Cartwright demanded "I hope you still have your engineer's license Cartwright—you may need it."

To which Mr. C. replied: "Yes, I have, and I hope you will be able to find an advertising agency silly enough to take you on, when you go."

The kids were pretty mad, weren't they?

On Main St. Monday pamphlets were being distributed. Entitled "The Right to Organize is Real Americanism" it attacked the administration and the Eastman Theatre American Day rally which proved so embarrassing to Vice-Mayor Van Lare.

Because the sheet was signed by the Communist Party, its approval of the labor side of the controversy was tantamount to the "Kiss of Death." It closed with a paragraph that was extremely interesting:

"And the people will not for-

get in November when this whole rotten clique of Republicans, who control the party machine, will get its biggest defeat in its history. Rochesterians are wising up to the Republican game. Our city is learning the need for an independent labor and progressive administration which will represent the people and not the monopolies of Rochester."

If you are mad at the Republicans the above makes very satisfactory reading but the memory of the Rochester voter is notoriously short. Two snow storm fiascos, years of favoritism and pedantic public services fitted to be important enough for Father Rochester to switch levers come November and it's quite likely this fall the old gentleman won't do much about it either.

Who is to oppose George Rogers in the congressional race is still the subject of considerable conjecture in the better bars around the Four Corners.

Just the other day so it was reported, an "insider" offered to wager \$100 against the field that Sir Thomas Broderick would muster the necessary courage and show better than average judgment by nominating State Assemblyman George Manning to carry the ball.

According to reports, the Democrats would prefer that the GOP picked someone else.

PREVENT GARBAGE CONTAMINATION
During the present emergency the Health Bureau warns Rochesterians to take special precautions with garbage and other refuse. Keep garbage covered, spray garbage with a solution of DDT. Keep area around rounding garbage cans free from dirt. We recommend and suggest that you supply yourself with an

Political Polka

By CURT GERLING

In the vernacular of the Clinton St. parlay players, "Who Win It?" is still a moot question. Last Wednesday morning when the demonstration was called off, the burly Tony Capone was congratulated on all sides. Labor leaders hailed the capitulation of the administration as one of the greatest victories for labor of all time.

The following day Mr. Broderick indicated to the press that he was very happy about the whole thing. That the people had been behind him (that's what the man said, he did) and that everything proceeded just the way he planned it and furthermore he proved that the workers had no right to strike against government. Tom shouted mightily (after it was all over) that never, never would he have let the unions take over the DPW or any city departments. He was a very brave and determined man was Thomas when the heat was no longer on.

Thus, it seems, both sides "win it." The loser, as usual, was Mr. Ordinary Citizen who was caught in the middle. He lost hours from his job by being late or unable to get to his task at all—or if he had a business and he did get it open no one got in to buy anything. What he had to say about both sides was frequently unprintable. When his wife took a look at his paycheck or he tallied up his store's score for the week.

Capitol Newsman Signed By WSAY

Two events this week marked another milestone in the progress of Station WSAY under the ownership and management of Gordon P. Brown.

Of interest to Rochester radio listeners is the announcement of the signing of Stephen V. Feeley as exclusive WSAY news reporter in the nation's capital. Feeley, a former editor and Washington newspaper correspondent will specialize in reporting Washington news of interest to Rochesterians. Special offices have been opened in the National Press Club Bldg., according to Brown, as well as remote pickup arrangements in both houses of Congress. Feeley will feed the news into the station here by teletype where it will be aired over WSAY's regular news broadcasts. Arrangements for on-the-spot broadcasts from the capitol have also been completed.

Second event is the return of many of the American Broadcasting Company's hit show programs to the local air (See WSAY Page 6)

\$25 Winner

Mrs. M. Brennan of 477 Magee Ave. is the lucky winner of this week's \$25 cash prize offered by the Sun each week to its sustaining subscribers. This is the reward Mrs. Brennan gets for paying her Sun carrier, David Petrilli of 555 Clay Ave., 10 cents. Dave incidentally collects an extra five dollar bonus.

City Shows Interest In Aluminum 'Shower'

By ORVILLE ALLEN

If there's anything worth making that hasn't yet been made from aluminum, it's nine chances out of ten that some-one already has designs of the item on the drawing boards.

That's the impression one of aluminum utensils, furniture from a view of Sibley's, pure cameras, machinery, Lindsay & Curr Co's. Fourth floor where a gigantic display (See ALUMINUM Page 6)

Union-City Fight Flares Up Again

New clouds of conflict between the city administration and organized labor appeared on the horizon this week with a renewal of the "we won't—you will" argument between City Manager Louis B. Cartwright and Anthony Capone, head of the AFL Central Trades and Labor Council. This time it was revised to "You did—we did not!"

TRAFFIC TOLL SPIRAL EYED BY SHERIFF

With 17 traffic fatalities already chalked against motorists on Monroe County's highways, the 1946 toll may surpass even the anticipated increase over the peak year 1941, in the opinion of Sheriff Albert W. Skinner.

During the first four months of 1946, one traffic death occurred for every nine injury accidents in the area outside Rochester. Sheriff Skinner pointed out yesterday. During the same period in 1941, when only nine fatalities were recorded and the year's total was 46 deaths, there was one traffic death for every 20 injury accidents, he added.

MacFarlin Recovers

As was expected by those who know him, Harold S. W. MacFarlin, commissioner of commerce and Republican party spokesman recovered his breath first. And he released it quickly, too in the form of a speech before the State Mayors Conference which met earlier in the week in the Seneca Hotel.

Despite the city's reluctantly signed agreement with Anthony Capone and the unions, MacFarlin proclaimed loudly that the city would have nothing to do with the "untouchables" of the unions. Listeners who had no other knowledge of the dispute or its settlement might well have believed that the City of Rochester did a grand and complete job of "licking" a budding union of city workers. Up to the time MacFarlin's speech, however, the city at large and even the politicians in particular had been under the impression that (See CONTROVERSY Page 6)

There was a time in the history of this country when the word "breadlines" was used to devote a lineup of hungry, destitute human beings waiting for a handout. Today, however, the word means exactly what it stands for, a group of people standing in line to buy one of the simplest necessities of life, a loaf of bread. Nice people no longer scoff at the suggestion that they may some day be standing in a breadline.

Of course, we all know the reason for the palpable scarcity of bread and other foods made from wheat. We are aware that a large proportion of the wheat and other grains formerly used in baking are being diverted to feed starving people in other parts of the world. No one, I am sure, resents sharing food with the less fortunate, but the situation reminds me of Greenbaum and I often wonder what his reaction would have been to the bread shortage.

This Greenbaum was a bachelor in his late forties and a lover of the flesh-pots. He really made a business of eating. When he sat down at a table it meant bringing everything on the menu from soup to finger bowl.

Greenbaum dined every night at an eatery called The Happy Homelike Restaurant and Soda Bar. (The owner always denied that the Soda Bar part of the name referred to bicarbonate of soda spelled backwards but many of the patrons argued otherwise.) However, as I was saying, Greenbaum dined there every night of the week and always did full justice to the plentiful helpings put forth by myne host.

One night, though, our friend Greenbaum was feeling a bit grouchy and, after he had finished his sumptuous repast, wiped the grease spots from his vest, and burped delicately a few times, he waddled to the cashier's counter to pay his check. He produced his wallet, peeled off a bill from a sizable roll, and proffered it to the proprietor with his dinner check. As the owner, a character named Stengbush, reached for the money, Greenbaum spoke up and said: "Listen, Stengbush, the food by The Happy Homelike Restaurant and Soda Bar is very good. Mind you, I'm not complaining about the food, but why are you so stingy with the bread? Every night you give me only two sliced brad." The proprietor handed Greenbaum his change and consoled him thusly: "Greenbaum, old friend, you

have long time been customer mine restaurant. If you want more brad, you get more brad. Depend on it."

So the next night Greenbaum received three slices of bread with his meal. When he paid his check he grumbled: "Only three slices brad, phooey!" Four slices he got the next night and five slices the night after that. Still he wasn't satisfied. He wasn't getting enough brad and he told Stengbush so in short, terse, to-the-point words.

Finally, when he came in the place on Saturday night, Stengbush said to the waiter: "Here comes that squawker Greenbaum again. Take a long French loaf, the longest you can find, cut it in two, and serve it to

What Is Wrong When Prayer Fails?

Thirty years ago, in Forbidden Tibet, behind the highest mountains in the world, a young Englishman named Edwin Dingle found the answer to this question. A great change came over him. He realized the strange Power that Knowledge gives.

That Power, he says can transform the life of anyone. Questions, whatever they are, can be answered. The problems of health, death, poverty and wrong, can be solved.

In his own case, he was brought back to splendid health, he acquired wealth, too, as well as world-wide professional recognition. Thirty years ago, he was sick as a man could be and live. Once his coffin was bought. Years of almost continuous tropical fevers, broken bones, near blindness, privation and danger had made a human wreck of him, physically and mentally.

He was about to be sent back to England to die, when a strange message came. They are waiting for you in Tibet. He wants to tell the whole world what he learned there, under

the guidance of the greatest mystic he ever encountered during his twenty-one years in the Far East. He wants everyone to experience the greater health and the Power, which there came to him.

Within ten years, he was able to retire to this country with a fortune. He had been honored by fellowships in the World's leading geographical societies for his work as a geographer. And today, 30 years later, he is still so athletic, capable of so much work, so young in appearance, it is hard to believe he has lived so long.

As a first step in their progress toward the Power that Knowledge gives, Mr. Dingle wants to send to readers of this paper a 9,000-word treatise. He says the time has come for it to be released to the Western World, and offers to send it free of cost or obligation, to sincere readers of this notice. For your free copy, address The Institute of Mentalphysics, 213 South Howard Blvd., Dept. 25-464, Los Angeles 4, Calif. Readers are urged to write promptly as only a limited number of the free books have been printed.

him. I'll shut that schmuck up once and for all!"

The French loaf must have been nearly three feet long, so long that the waiter had to serve it to Greenbaum on a platter. As he paid his check, Stengbush smiled at him and said: "So, Greenbaum, I hope everything was alright to-night."

"All right!" barked Greenbaum. "I see you're back to two slices brad again!"

Yes, I often wonder how Greenbaum would have reacted to the bread shortage.

HOME OWNERS GROUP TO HEAR PETTINGILL AT C.

Simultaneous with similar gatherings in principal cities throughout the nation on Tuesday, a dinner meeting will be held at the Chamber of Commerce to explain aims and purposes of the National Home Property Owners' Foundation. The dinner here is sponsored by the Citizens' Tax League, Rochester Home Builders Association and the Real Estate Board of Rochester.

Principal speaker at the gathering will be Samuel Pettingill, former congressman and now a newspaper columnist. Chief aim of the foundation, he said, is the "organization of property owners of America to foster, maintain and promote property and to assert the rights of private ownership."

Pettingill, since his retirement from Congress, has been active in the Committee to Abolish Constitutional Government, headed by newspaper publisher Frank E. Gannett.

AMERICAN VETS LIST MEETING

All veterans are invited to attend a meeting of Chapter II, American Veterans' Committee listed for Saturday at 7 p. m. in Polish People's Hall, 818 Hudson Ave.

Officers, recently installed are: Edward Badura, chairman; Fred R. Knapp, secretary and Theodore R. Lipinski, treasurer. The group is currently interested in veterans' housing facilities and the fight to retain the OPA.

OFFICER INSTALLATION SET FOR No. 35 PTA

Installation of new officers and a square dance are scheduled to wind up the season's activities of the No. 35 School PTA next Monday evening. Herb Kern will act as "caller" and instructor for the dancing. His orchestra will play.

The new officers are headed by Mrs. Earl Spillberg, president. Others are Mrs. Paul Reed, Michael Novick and Miss Anna Buell, vice-presidents; Mrs. Isador Polsky and Mrs. Harley Rittenhouse, secretaries and Miss Marilyn Wagner, treasurer.

COBourg CRUISE SCHEDULED BY VETS

First annual cruise to Cobourg will be made by Monroe County Voiture III, 40 & 8 on Sunday, June 23, aboard the steamer Ontario II, which leaves the Genesee Docks at 9 a. m.

Tickets for the event, which are in the hands of members, will include a buffet luncheon on the trip over as well as on its return, according to John Keenan, general chairman. Keenan has appointed the following committee chairmen: Harold Howell, Joseph Ruby, Albert Siebold, Earl Courneen and Walter Mura.

UNION VET SONS AUXILIARIES PLAN ENCAMPMENT

A department encampment of the auxiliary of the Sons of Union Veterans of the Civil War will be held at Hotel Sheraton starting Monday with Department President Mrs. Rose Isaac presiding. The program will open Monday eve-

ning at 7:30 p. m. with ritualistic work presented by the New York City staff. On Tuesday, Mayor Dicker will offer the city's greetings to the group. In the afternoon a joint memorial service will be held by Sons of Union Veterans and their auxiliary.

On Tuesday at 8 p. m. a dinner on the hotel's starlight roof will be followed by a grand ball at 9 p. m. New officers will be elected on Wednesday and a campfire will be staged at Hotel Seneca that evening. Thursday will bring the close of the encampment and the installation of new officers.

Mrs. Marie Colwell is chairman and Mrs. Eda Hunt co-chairman.

NOVICE WINS FIRST TWO TRYS AT HAMBURG

The opening week of the Buffalo Trotting Association's meeting at the Buffalo Raceway in Hamburg was marked by an occurrence which is thought to be unparalleled in the long history of harness racing. It happened when Roy Butler, middle-aged novice from Lockport, drove the winner in each of his first two starts. Butler had never been in a sulky until six weeks ago and he brought his Elwyn Guy down in front on Wednesday night, paying \$26.60

and combining with Grattan McKinney for a daily double return of \$127.60.

On the following evening, with 6,300 spectators in the stand, on the lawn and along

the rails, Butler piloted Jose-dale Guy to victory in the second dash. This time the returns were greater. Jose-dale Guy paid \$39.70 and with Bert Spence, made up a daily double of \$606.

the city had taken an ignoble "boating" for its unjustified action in firing 489 workers in the DPW and later, by unwarranted stalling, causing a complete tieup of the city.

Capone 'Burns'

No one was more surprised at the tone of MacFarlin's speech than Capone. Loud cries of "weilding by the city emanated from the Central Trades and Labor Council headquarters when the speech was reported to the heads of that body. Capone sent out a hurry call for the reappearance of Frederick H. Billen, State Mediation Board director, who helped straighten out last week's mess. Capone addressed his plea to Harold Hanover, secretary-treasurer of the State Federation of Labor.

To date no reply has been received by Capone.

Meanwhile, their efforts to organize not only DPW workers, but all other city, county and state workers went forward, "at an accelerated degree," said Capone.

Cartwright, Broderick Silent

Strangely enough, City Manager Louis B. Cartwright who acted as "front man" for the Republican organization in precipitating the mess, remained quietly in the background this week as MacFarlin pushed himself into the limelight. Another occupant of the "quiet background" was Republican County Leader Thomas Broderick who had made the faux pas of condemning interference of "outsiders" in city affairs only to later realize that he, too, was an "outsider"—a resident of Irondequoit. No one, regardless of their sentiment in the unionizing effort was so naive as to believe that Broderick was not taking a prominent role in running the city.

While acclaiming Mrs. Sherwood's letter, the contest sponsors are taking this opportunity to thank all the contestants for their efforts, their fine letters and their interest.

POLKA...

(Continued From Page 1)
he knew darn well that he didn't "win it."

Sources close to the courageous clergy who suffered some humiliation in their honest efforts to intercede in behalf of the plain citizen swallowed their pride as befitting men of the cloth until the powers behind the GOP throne put the Open Sesame on Mr. Cartwright's door. Labor leaders volubly praised their work. The city fathers, if they said anything at all did so grudgingly and with what has become their customary ill grace.

The private opinion of those close to the negotiations is that "the demonstration" was totally unnecessary, and was caused only by the high-handed, "God and the GOP Can Do No Wrong" attitude of the administration. Private off-the-record talks and unofficial conferences with an honest and impartial committee to referee the bout would have saved the citizens of Rochester thousands of dollars and great inconvenience. Results would have been essentially the same.

If your political party is in power a long time, its blindly and oft re-elected officials sooner or later suffer from hardening of the cerebral arteries and petrification of the mental processes.

You can rest assured that if Labor won this skirmish it will be a hollow victory. The "boys" are already cooking up their own union for the city workers. The DPW lads must decide whether they want to take the risk of crossing the politicians and maintain allegiance to the City-Capone agreement and the

fact understanding that Capone will represent them, or renege. Thus Mr. Capone after all his honest effort and his success in paving the way for a general wage increase to all city employees is quite apt to find himself holding a very empty bag. If you think that the gentry who have been crying "Hold the Line til '49" had any intention of granting a general wage increase before Capone, Steves & Co. came on the scene you're probably a relative of one of the councilmen or live in Irondequoit where the King Can Do Wrong.

The City administration's viceroy (music by Broderick, words by MacFarlin) played a brand new cutting before the meeting of Mayors on Monday. Nothing lively for the younger set, strictly long hair and loud. A tone poem with four sides.

The man with all those initials played the score all over again for the assemblage and never missed a note. The music lovers learned via MacFarlin's unsympathetic symphony just how they did the trick. (And "trick" is a good word.)

In the first suite, according to

the conductor, "municipal employees have no legal right to demand such things" (andante). "The city made it quite clear it wouldn't recognize any union" (lento). "The threat of an organization of public employees for purposes for which were not only contrary to public policy" (he might have said but didn't) and "against the best interests of political machines" (pizzicato) then (scherzo) and no doubt for laughs "as a constitutional duty," persons were arrested for disorderly conduct in connection with the illegal strikes.

A crash of cymbals and hot licks from the brass section awakened the audience in time for mild and polite applause. Monroe county mayors accustomed to Broderick-MacFarlin music as is their custom, danced.

The following day the critics "raved"—the critics being Messrs Capone and Steves and what they had to say about the MacFarlin Silly Symphony indicated that the Republican clifering was "warmly received."

At this writing critics Capone and Steves are accusing the ad-

ministration of re-writing the work on which they had so laboriously collaborated and by so doing injecting many an unharmonious chord.

Labor and its heads now realize that nothing is more dependable than a politician's promise — and in Rochester that goes double in spades.

TRAFFIC . . .
(Continued From Page 1)
keep their mind on their driving and their eyes on the road the toll may be even greater than that predicted.

Accidents Down, Deaths Up
In a special study made by the sheriff's traffic safety division, it was noted that the total number of fatal and injury accidents in the first four months was 15 per cent below the total for the same period in 1941 while traffic deaths were 89 per cent higher.

The report shows that the heavy increases were recorded in pedestrian and non-collision, out-of-control accidents. Seven pedestrians were killed and 18 injured during the first third of 1946 while in the same period of 1941 three were killed and 21 injured. All seven pedestrians killed were in the age group of 45 and over.

year took a toll of four dead and 60 injured in 46 mishaps while in the same period of 1941, two were killed and 80 injured in 37 accidents.

Night Mishaps Increase
The report shows a sharp increase in darkness-hour accidents. Twelve of the 17 traffic deaths, it was noted, occurred in the 7-hour period, 5 p. m. to midnight.

Eleven of the 15 fatal accidents—two resulted in two deaths each—occurred on dry pavements; all 15 in clear weather, and only three of the 15 in daylight hours.

Of the drivers involved in accidents 27 per cent were Rochester residents, 23 per cent were from other counties and one per cent from outside the state. Twenty-four per cent were under 25 years of age, 83 per cent between 25 and 44, and 23 per cent over 44.

Nineteen per cent of the accidents occurred on Saturdays and 16 per cent on Sundays.

Meet Steve Feeley

... your WSAY Washington Reporter. Born in Western New York and a working newspaperman for 22 years, has been reporter, music, drama and city editor and feature writer. He learned his way around the Capitol as Washington correspondent for the Buffalo Courier-Express and a Rochester newspaper. Western New York history and political research are among his many interesting hobbies. WSAY listeners can count on Steve not only to supply them with Washington news of general national interest, but to give them an "As-Feeley-Sees-It" service on developments of importance to Rochester and vicinity. Mr. Feeley resigned his position as city editor of the Buffalo Courier-Express recently to become WSAY's Washington Reporter.

WSAY

proudly announces its own

WASHINGTON REPORTER

Stephen V. (STEVE) Feeley

... thus inaugurating an unbiased, impartial news service for Rochester exclusively! Steve Feeley is not just another commentator, he is your Capitol Reporter. From WSAY's own news bureau located in the National Press Building, just two blocks from the White House, or from substations in the Senate and House press galleries, Steve Feeley will teletype Washington news direct to the WSAY newsroom to reach you on regularly scheduled newscasts; or, if it is of unusual importance, programs will be interrupted to relay it to you.

WSAY is the first Rochester radio station to have its own Washington News Bureau. Its reports will feature such timely topics as: the future of Rochester's optical and photographic industries; the national housing program as it affects our city; Rochesterians' activities and life in Washington; the civil service program in relation to Rochester's federal employees; congressional and gubernatorial elections; Rochester veterans' relations with the government and legislation and regulations affecting them; farm and dairy policies as they apply to Monroe County agriculture; the St. Lawrence Seaway and power project and their relationship to Rochester and Monroe County.

Political Polka

By CURT GERLING

The dear old City Fathers just can't seem to play the game on the level. The alleged three hundred dollar raise to the city white collar workers is a case in point. The press releases were so phrased as to indicate that the "alert" administration had conceded that there was a marked rise in the price of groceries and that three hundred dollars per annum was to be handed out willy-nilly to the clerical and minor office holders.

The fact is that starched blouse and white-collar workers of the city are very little better off than before. The one hundred and fifty dollars "emergency pay" they have enjoyed for three years is included in their magnanimous three hundred which cuts the actual raise to one hundred and fifty. They get only fifty dollars of that raise now with the other hundred, we're told, coming in dribbles of \$50.00—six months apart. By then, of course, inflation will have gobbled that sum up as if it were a dainty tea cake.

Just who the administration thinks it's kidding has not been revealed, but we presume it is the public, as usual. They can fool the workers who are going to get the checks—and in July, when the first of them are received, the mutterings and squawks may be heard as far east as Democratic headquarters. How hard these double-crossed members of the Rep-

SENTIMENT—FULL JOURNEY PLANNED BY PRIZE WINNER

"Surprised? Why, I was simply flabbergasted!"

That says Mrs. Rexford Sherwood, was her first reaction when she picked up The Sun from her 186 Raeburn Ave. porch last Thursday and read her own name as winner of the Sentimental Journey Contest sponsored by The Sun, The Century Theatre and the PCA-Capitol Airline.

As winner, Mrs. Sherwood, along with her husband was awarded a free tour of Washington, D. C. They will travel via PCA Capitaliner leaving Municipal airport tomorrow at 5:46 p. m. and arriving in Washington two hours later. There the Sherwoods will be entertained at the beautiful Statler Hotel during a gay weekend of activities programmed for their stay in the nation's capital.

The contest was staged here in conjunction with the showing of "Sentimental Journey" starting next Thursday at the RKO Palace Theatre.

The journey will have a doubly sentimental meaning for the Sherwoods—they spent their honeymoon in the capitol just 25 years ago and had planned for years to repeat the journey on their 25th anniversary. This they celebrated on May 23—the day Mrs. Sherwood entered the contest which won the trip for her. But they had almost given up hope of attaining their goal this year. A new roof on their home and insulation of the attic had used up

MUTUAL CONGRATULATIONS—To celebrate the 40th anniversary of the founding of their business, Rudolph's Jewelers are presenting gift trays to all couples celebrating their 40th wedding anniversaries this month. First to receive one of the gifts were Mr. and Mrs. William Stanat, 294 Marlborough Rd. Ted Levey (right) manager of the local Rudolph store made the presentation.

40-Year Wedded Couples Share Firms Birthday Fete

Because Rudolph's Jewelers is this week celebrating its 40th anniversary, all couples in the Rochester area who have been wedded for 40 years have special gift trays awaiting them at the local Rudolph's store on Main St. at South Ave.

First to receive one of the today Headquarters of the business are in Syracuse where the first store was opened with a stock of sheet music, records and photographs. Previously they had been in the wholesale jewelry business. They really entered the jewelry business in 1917 when they added a line of war-popularized wrist watches to their stock.

The concern was founded in 1906 by brothers B. G. and M. H. Rudolph who remain active operating heads of the business

BOND OFFERED LOUIS-CONN FIGHT 'EXPERTS'

Here it is, Sport Fans! Will Louis win by a knockout? Will Conn win by a knockout? Here is your chance to test your skill as a fight expert—and maybe win a \$25 Savings Bond given by The Sun and the RKO Palace Theatre. Anyone can be an expert in this contest. Mom, Dad, Sister or Brother.

Here's all you have to do. Choose the fighter you think will win the heavyweight championship contest on June 19 by a knockout. Pick the second and the minute of the knockout round. Fill in your prediction on the simple entry coupon you will find elsewhere in this paper, and mail it to the Fight Contest Editor, The Rochester Sun, 133 Clinton Ave. So, postmarked no later than midnight, Tuesday, June 18. Be sure to include your name and address on the coupon. You may send in as many predictions as you wish.

Winning selection will be announced in the June 27 issue of The Sun. The person guessing nearest time to actual official knockout time will be awarded the bond.

Food Saving Program Pushed

While yesterday was Rochester's first "official" meatless day during the current drive to conserve food for starving peoples all over the world, it actually wasn't any novelty to many housewives who have been having "meatless days" right along. Yesterdays absence of meat was by no means a new thing.

Mayor's edict. But previously, the only reason for the lack of a steak or chops, or even a stew from the family dinner table was just the simple fact that there wasn't any meat in the markets!

And that's why Rochester took "meatless Wednesday" in stride. So many in the city were accustomed to it.

Next week the "wheatless Mondays" will start but with breadlines all over the city, that day too, would be something less than sensational from a consumer's point of view. Only it hasn't stopped with Mondays. Bread has been absent from many Rochester tables for two or three weeks.

But if the current food conservation drive does nothing else, it will have accomplished one thing—it will prove to all of us how abundant are our resources, how little we actually have been inconvenienced by what we have lightly called "war shortages" and how really important food is—not only to us—but to those starving millions who can get less than the minimum requirements to even sustain life.

The drive here is part of a nation wide program to share food in a food short world. Mayor Dicker's proclamation, following the meeting.

USO TO STAGE FAREWELL DANCE FOR SERVICEMEN

A farewell party for Rochester's USO which will close its doors June 30 will be given in honor of all servicemen and women, either in uniform or discharged by the Rochester Citizens' Committee on Sunday, June 23 starting at 8 p. m. Guests may bring their wives, sweethearts or attend stag.

Continuous music for an informal dance will be offered by several bands which have been popular at the USO during its wartime service. Included are bands by Bob Bruce, Jim Dennis, Norbert Klem, Vic Sweet and Gene Zacher.

TO INITIATE

Germania Chapter No. 72 will meet at 8 p. m. next Monday in Room A, Masonic Temple with Worthy Matron Louise Silsbe and Worthy Patron Ernest Zarpentine presiding. Initiation will be conferred. Officers are asked to wear white formals. Refreshments will be served following the meeting.

A Little Oil Goes A Long Way
Tulsa, Okla. — When customers insisted that they hear feline "meows" when they passed through a certain door into a local department store, fears that a cat had been walling up during a recent remodeling grew. Investigation ceased, however, when a maintenance man happened along and oiled the door's hinges. The "meows" stopped immediately.

HAMBURG TRACK MARK BROKEN BY HANOVER

Buffalo Raceway at Hamburg opened its third week of harness competition with a new track record.
Wallace Hanover provided the thrill on Monday night before a crowd of larger than average proportions. Adrian Duggett, driving his second winner of the night, brought the trotter home in 1:11 1/4 for the nine-sixteenths sprint distance, clipping three-quarters of a second off the previous mark held by four horses.
Harness fans have noticed that the sixth race at Hamburg has been marked by box-car mutual returns. The latest was Carrier Reynolds, which came down last week at \$187.50, the record price in Hamburg trotting history.
Post time for the first race is 8:30 o'clock, with the daily double widows closing at 8:15 p. m.

TROOP 88 SCOUTS TO HAVE FIELD DAY

Highlighting a three-day boy scout camporee next weekend, members of Troop 88 will stage a field day on Saturday, June 22, at Laurelton School on Helendale Rd. The troop is sponsored by the PTA of that school.
Competitions among the scouts and demonstrations of scouting activities will make up the program starting at 2 p. m. After a flag-raising ceremony, a baseball game and several contests, the group will have a basket picnic from 5:30 to 6:30 p. m. This will be followed by scouting demonstrations, an outdoor court of awards and a huge campfire.

BROKERAGE FIRM EXPANDS OFFICE SPACE

Enlarged office space in the Wilder Bldg. has been taken by Francis I. duPont & Co., members of the New York stock and curb exchanges and leading commodity exchanges to handle the firm's increasing business here. Equipped with a direct wire to the New York City headquarters, the local office is said to have every facility needed by investors. John F. Martin, the manager, has long been associated with the firm at its New York office.
The firm has 11 offices in the New York metropolitan district, as well as branches in Eastern cities and one in London, England. The company was organized in 1931 by the late Francis I. duPont, who at one time was head of the research division of the duPont de Nemours Co. in Wilmington.

CARNIVAL TO SHOW ON SCOTTSVILLE RD.

Rochester's outdoor carnival and circus season will get underway next Monday when the James E. Strates Shows open on Scottsville Rd. opposite the airport for a week's stand. The show will make its annual appearance here under the auspices of the Kaufman Post, Jewish War Veterans.

Comprised of 17 tented shows and more than a dozen rides the carnival will arrive in the city Sunday morning aboard its own 37-car train and unload at the Erie terminal in Exchange St.

Highlighting the show's midway will be the return appearance of Nate Eagles Hollywood midgets who proved such a favorite with both young and old last year. Also returning for the second successive year will be the Great Wilno who is shot out of a cannon, over two giant ferris wheels and into a huge net. His free act will be presented nightly on the midway as well as on Saturday afternoon at the special kiddies matinee.

REBEKAHS MEET TO PLAN PICNIC

A meeting of the lodge on June 21 and the group's annual picnic on Saturday, June 22 will occupy the attention of members of Rochester Rebekah Lodge No. 174 next week.

Members of the lodge's degree at the later meeting. The picnic will be held in Ontario Beach Park on Grounds No. 5 Helen Keegan is in charge of reservations.

the past, RKO Theatre will announce the fight results on Wednesday night, June 19, and will show the exclusive official fight pictures beginning Thursday, June 20, at the RKO Palace Theatre. These pictures will show the highlights of the fight, round by round, taken from a ring-side seat.

Come on all you sport fans! Don't miss this opportunity to match your judgment against that of the experts. This contest is open to everyone except members and their families of RKO Theatres and The Rochester Sun. Send in your entry tonight.

TO GIVE RECITAL

A piano recital will be given by students of Miss Concetta T. Mazza in her home at 312 Clifford Ave. tomorrow, Friday evening at 7:30 p.m. Mrs. Elise M. Tosti, sister of Miss Mazza will be guest soloist. Parents and friends of the students are invited to attend.

RVA ROCHESTER POST TO MEET JUNE 21

A meeting of the recently organized Rochester Post No. 143 Regular Veterans Association is scheduled for June 21 at the home of Jackson Sigal, post welfare officers and inspector, Ted Hoffman, commander, will preside.

The national veterans group was reorganized in 1934 and is interested chiefly in promoting legislation for the benefit of both peacetime and wartime army, navy and marine veterans. The local post was organized last winter.

HOBBIERS

Sports continue to be a hobby of Wathen R. Knebelcamp, general manager of four Kentucky subsidiaries of Schenley Distillers Corporation. Formerly secretary of the Louisville Baseball Club, he has been appointed on the Louisville municipal athletic commission and named secretary-treasurer of the National Assn. of Thoroughbred Clubs.

FOOD . . .

(Continued From Page 1)
issued Monday recalled that "hungry people often start little wars and little wars may become conflicts that extend throughout the civilized world." The mayor urged Rochester housewives to sign the food conservation pledge and follow

it explicitly. While the action of obeying the pledges provisions and even observing the meatless and wheatless days will be on a voluntary basis, officials of the drive who have seen previous demonstrations of Rochester housewives' cooperation during the war are counting on heavy compliance here.

Morris Levinson, who heads the local Emergency Famine Committee to coordinate the overall drive in the city has helped map out an educational campaign in which retail merchants, schools, food stores, theatres, newspapers, radio stations, advertisers, churches and other instruments of public appeal have been enlisted.

While the meat situation in the city looked increasingly dark, representatives of the baking industry meeting earlier in the week with T. Franklin Slater, district director of the U. S. Department of Agriculture

were able to report that the bread situation in the city was "easing up" a bit. They attributed much of the shortage to a bread buying hysteria which seemed to grip the city during the last two weeks, but observed that it was now subsiding. While they admitted the bread supply would continue somewhat short of normal demands, they were hopeful that there would be enough to go around if everyone cooperated in seeking only their minimum requirements.

Youngster Gets in Navy on Sis' Name

Kansas City. — In order to get into the Navy when he was only 14, William Robert Endsley, now 16, used the birth certificate of his 17-year-old sister, Sammy Louise Endsley, after erasing the "E" in Louise. His mother, Mrs. Mary Endsley, disapproved but declared her son's pleas persuaded her not to notify the Navy until after the war with Japan was over.

JOURNEY . . .

(Continued From Page 1)
funds originally set aside for the anniversary trip. Another reason for their excitement over the trip is that their son, S. I. c. Rexford Jr., is stationed in Washington with the Naval Research Laboratories and by making the journey this weekend, young Sherwood will be able to celebrate Father's Day with his dad.

Pride Falls—So Does Painter

Seattle, Wash. — Straining to open his paint-stuck hotel room window, Bill Lawrence was catapulted out of it he a first, when it suddenly popped open. He fell 30 feet to the sidewalk below but suffered only a slightly sprained ankle and injured pride. By profession, Lawrence is a painter of high buildings.

Much Ado About Not Very Much

Chicago. — Although four fire engines, two trucks, a rescue squad, a pressure truck, a water tower and the Fire Chief responded to a fire alarm at Seventh Street and Wabash Avenue in the Loop, only one fisherman was necessary to take care of the business at hand — a fire under the hood of a taxicab.

PULLS CASEY JONES COMES TO SAD END

Buffalo, N. Y. — Angry because he thought a freight train was passing a crossing too slowly, a motorist pulled a coupling lever, "breaking" the train into two sections. He was fined \$50 after being arrested by police.

A Lot of Squirts

Paris, Ill. — In case you would like to know it takes from 340 to 350 "squirts" of milk to make a gallon. Allen Stigler, 72, says he has milked ten to seventeen cows twice daily for the last 15 years and thus he ought to know. He figures he has milked 109,500 gallons in 15 years, or 37,777,500 squirts.

PICNIC SUPPER

The Frank E. Robertshaw Post Auxiliary, American Legion will meet next Wednesday at 6 p. m. for a picnic supper at the home of Mrs. Margaret Maid, 111 Illinois St. A business meeting and social hour will follow.

VETS' BEAUTY—A beautiful entrant in the Miss American Veteran contest to be held in Atlantic City is Gayle Bellott, 20, who has red hair, is 5' 9" tall, and weighs 125 pounds; bust 34", hips 34", waist 24".

Present estimates are that more than 30,000 Americans will die horrible deaths on our highways in 1946 while many Americans are worrying about the snakes in India.

A LARGE PRESCRIPTION — During ground breaking ceremonies for the new Daw Drug Co. store on Clinton Ave. S., Frank Weinberg, company president, mounted the steam shovel to make the first "bite." On hand to see that Weinberg carried out the "prescription" carefully was L. A. Williams (left) prescription department chief at the present Clinton Ave. store.

stores in New York and New Jersey and is said to be the second largest jewelry group in the country.

In commenting on the firm's anniversary-sharing plan with 40 year wedded couples, Levey said, "This business was founded upon recognition of the

trustworthiness of the public. It is an expression of appreciation of the public response that Rudolph's is asking husbands and wives married in 1906 to visit us and obtain their anniversary gift as a token of pleasant remembrance." Officials of the firm estimate that 3,000 couples in the trading areas served by Rudolph stores are eligible to receive the gift.

ESKIMO MOE
IS A HAPPY JOE!
SINCE HE FOUND OUT ABOUT THE GALLO WINE GLACIER

"Come be our star," said the talent scout to Eskimo Moe. So, Moe came out of the frozen North and joined the circus. Then, sizzling heat waves hit Moe like a kick on the shins. "I quit," he said, dreaming of his pet iceberg. "You can't quit," said the manager. "Icebergs," said Moe and started to pack his parkas. Then the manager mixed that new icy cold drink — the Gallo Wine "Glacier." "I stay," said Moe as he took a sip of its frosty goodness.

Now when it's hot, Moe just sips a Gallo Wine "Glacier" and forgets the heat. If you don't think it's the finest summer drink, just eskimo.

HOW TO MAKE A GALLO WINE GLACIER
Fill a tall glass with ice. Pour in your favorite Gallo Wine. Add a slice of lemon or lime and a dash of soda water. Frost in refrigerator and serve. (Add sugar if a table wine is used.)

Strange and wonderful things sometimes happen in our large department stores. Take for instance, the case of the eager young lady who bore down on the yarn counter in Sibley's one day with a determined look on her face and began looking excitedly over the array of various-colored yarns on display.

The saleslady approached and said: "Can I help you?"

"Well, I don't know exactly what I want," replied the customer. "I'm going to knit a sweater for my dog and I can't

decide exactly what color he'd like. Besides, I've never done any knitting before and I'm wondering if you have a book of instructions that will help me in making the sweater."

"How big is the dog?" inquired the clerk. "We have instructions on knitting a sweater, but I'll need the dog's size in order to know how much yarn you will require."

The young lady spread her arms to show the approximate size of her dog but it was too indefinite to help the clerk decide on the exact size. So she told the girl: "I'm sorry, but that doesn't help very much. Why don't you bring the dog in some day and let me measure him. Then I'll be able to tell you just how much yarn you will need."

The girl thought a moment, then said brightly: "Oh, I'm afraid that wouldn't do. I want it to be a surprise."

POLKA . . .
(Continued From Page 1)
lican political organization will work at election time remains to be seen.
Just to add insult to injury (and if at any time, the City Hall boys are good at that) they have reshuffled the maximum salaries that minor officeholders can receive and, as you can well imagine, the aforesaid officeholder gets none the best of the deal.
As usual and according to form, the upper bracket officials are getting their sly and substantial raises with no strings attached.

Harold "Initials" MacFarlin was awarded the prize for un-diplomatic utterances last week when he rattled the saber at the state conference of Mayors. The Republican party's flannel-mouth, not content with the usual cut and dried tripe on city services usually handed out to dozing mayors from outlying communities, proceeded to repudiate the agreement the city made with the unions and the clergymen who sponsored it.
GOP leaders and well-wishers were shocked at MacFarlin's lack of tact and were loud in their criticism (for all the good that will do). Harold is entrenched deep in the affection of Thomas E. and is sorely needed to run the public at election time. No one can doubletalk like the little man with the initials. He is the past master at making election time consumption—and this fall more than ever he'll have to cut up a lot of baloney on and with rye to push the doubtful back into the fold.
What irritated the party big-

"RADIO'S TOP COUPLE OF 1946"—That's the designation given Jim and Marian Jordan, better known to radio listeners as "Fibber McGee and Molly." The award was announced by the Father's Day Committee at its annual luncheon in New York. The Jordans have a son, daughter and granddaughter.

Wigs was the idea of rubbing salt into the union's wounds. Most everyone who knows two and two make six at City Hall were sure that no matter what the agreement, the fast moving politicians would soon sidestep, stiffen and eventually gyp the unions out of it—and if the clergymen didn't realize that then, they probably do now.
The GOP gestapo is working overtime. Every employee is being called in and sweated on their union interests. The stock charge being that they were told that the "sweetie" was present at a union meeting and definitely "how come?" The inference being that "any more of that, sister, and you will be back in Kresge's basement bra department." It works like a charm in this "Great Republican City."

In case the city fathers are interested, our spies tell us that only six answered Mr. Mitten's "call" for the last meeting. Even Joe Stalin couldn't have kept 'em away in any greater numbers.
What makes the national picture even more ludicrous than usual is balding Bobby Taft taking the part of Labor in the Truman "spank the striker" bill. That's as funny as Roy Bush and Thomas E. playing ring around the rosy in Sibley's corner window.
Mr. Taft's stand is about as sincere as a gulo's kiss. Each word in opposition is carefully designed to work a wider rift in the ranks of the Labor-Democratic coalition.
The truth of the matter is that Congress is mighty jittery—they don't want to offend the labor vote and lose its support at election time. Yet the mail from home indicates that their constituents are fed up on strikes and want Washington, and particularly Congress, to do something about it, or "else."
In an election year congressmen attempt to play both ends against the middle. They want to make a show of doing something to keep the vote in line. They side-step and fiddle-faddle to pass the buck to someone else. Bills are passed by the lower house with a rousing plurality as they know full well that the Senate will kick them full of holes and send them back to the House. Then they will stall and revise and back it will go again, and perhaps come back once more or go to the president who will never recognize it and will have to toss a coin to decide whether or not to veto it. In the meantime the second Tuesday in November gets closer—and they will have a lot to talk about in a confused way to a confused electorate who will perhaps, still confused, vote them back into office.
There must be easier and more honorable ways to make a living.

Meif Bag Dear E. H. There is quite a little difference between Mr. Capone's Federation of State, County and Municipal Employees Union (AFofL) and the Rochester and Monroe County Civil Service Association. One is a real union with a bargaining agent who can fight for the employee's rights. The latter is an association which can suggest and recommend pay raises and benefits but can go no further than that.
The Rochester and Monroe County Civil Service Association in the past permitted membership only among civil service employees who were in on a competitive status. They have recently expanded their

"FIBBER" NAMED FOR FATHER'S DAY HONOR

HOLLYWOOD. — Jim and Marian Jordan, better known as "Fibber McGee and Molly," have been honored by the National Father's Day Committee with a citation as "radio's top couple of 1946."

The Jordans are not only parents of a son and daughter, but also have a granddaughter. Shortly after the child was born, Jim was asked how it felt to be a grandfather. He said, in the Fibber McGee manner, that it felt fine, but it did seem a little odd to be married to a grandmother.
Their one-year old grandchild, Diane, is a prime interest of the Jordans, and they proudly show pictures of the baby to anyone near at hand.

Diane is the daughter of the Jordans' oldest child, Kathryn, who is married to Adrian Goodman. He served as a Navy doctor during the war.
Jimmy, the Jordans' son, is married to Carmela Bergstrom, film actress. He enlisted in the Army Air Forces in 1942, but received a medical discharge shortly after. He wants to become an actor and has done some radio and movie acting.

JUNE 30 A BIG DATE FOR ARMY MEN!

If you have been discharged from the Army—if you held a grade and wish to retain it—if you have dependents—then act now. . . . June 30, 1946, is the last day on which you can enlist in the Regular Army and still take advantage of two important benefits . . . retention of your old grade and family allowances.
Family allowances for your dependents will be continued throughout your enlistment only if you enter the Regular Army before July 1, 1946.
If you have been discharged from the Army and wish to re-enlist at your old grade, you must enlist within 90 days after your discharge. And before July 1, 1946. Think it over. Act now.

Political Polka

By CURT GERLING

There is at least one man in every corner of City Hall who will tell you "in strict confidence and from a fellow who plays pinocle with Tom" just who the GOP will designate to attempt to unseat George Rogers. Of course, no two pick the same man.

Mr. Rogers is to be quite unconcerned who the candidate is. George has done a first class job; a whale of a lot better than his Republican predecessor and he has a record to be proud of and to stand on.

Just why there hasn't been more talk about who to run for the U. S. Senate and why it isn't time that Rochester had a nominee for the office is cause for considerable wonderment. Rochester has an outstanding candidate for the post in Frank Gannett. He is unquestionably Rochester's best known citizen. A successful business man and one who has gained national recognition for his fights and efforts in causes that the Republican party holds most dear, make him a logical choice.

Whether or not Mr. Gannett would choose to set aside the more tranquil life of watching his newspapers grow and prosper for another active fling at politics is a question; and whether or not the local GOP organization would urge him to is another.

One of the failings of the local machine is that they have always been more interested in edroit politicians than good statesmen. All of which might leave Mr. Gannett out of the

Sun Contest Winner Says Washington Air Journey, 'Like a Dream Come True'

By Mrs. Rexford Sherwood

A delightful dream come true! That's about the only way I can describe the "Sentimental Journey", which my husband and I made to Washington D. C. as winners of the contest sponsored by The Sun, The Century Theatre and the PCA-Capitol Airlines. Every minute of it was exciting, every phase thrilling — from the moment we took off at the municipal airport in the big PCA-Capitoliner "Rochester" until our big silver bird swooped into that same airport some 55 hours later.

You see, you don't have to figure travel time in days anymore. With the airliners — it's only a matter of hours.

We took off from the Rochester airport last Friday at 5:46 p. m. and hardly had time to eat a lovely turkey dinner served by our hostess, Miss Betty Kirkland when, lo and behold, we were over the National Airport at Washington. I looked at my watch. It was just 7:49 p. m. We landed about five minutes later. Our son, S. C. Rexford Jr. who is stationed in Washington was at the airport. What a lovely family reunion that was. You see, we took our 11-year-old son Burton along with us — so there we were the four of us — reunited once again — and right in time for Father's Day. The trip was also sort of a 25th wedding anniversary for Mr. Sherwood and I. We had visited Washington on our honeymoon just 25 years ago.

Also at the airport was Mr. Wally Allen of the 20th Century-Fox Film Co., who made the picture, "Sentimental Journey". He acted as host during our entire journey. And a real host he was, too. Restaurants, sight-seeing trips, journeys to Arlington National Cemetery and to George Washington's home at Mt. Vernon — all were arranged and conducted by him.

START OF A SENTIMENTAL JOURNEY—"Like a dream come true," is the way Mrs. Rexford Sherwood described the trip she and Mr. Sherwood made to Washington last week-end as winners of the "Sentimental Journey". They are pictured here just as they boarded the PCA Capitoliner "Rochester" while bidding goodbye to William Keller, Jr., of the airline staff.

\$25 Winner
Mrs. E. Renner of 50 Boardman St., is the lucky winner of this week's \$25 cash prize offered by The Sun each week to its sustaining subscribers. This is the reward Mrs. Renner gets for paying her Sun carrier, Ellen Beckett of 30 Allmeroth St., 18 cents. Ellen, incidentally collects an extra five dollar bonus.

'LEARN TO SWIM' CAMPAIGN SET HERE NEXT WEEK

Rochester's annual "Learn to Swim" campaign sponsored by the swimming and water safety committee of the Council of Social Agencies will be held next week, Monday through Friday in all high school and Columbus Youth Association swimming pools and at the City Natatorium on South Ave.

Thomas C. Woods, commissioner of public safety, in endorsing the campaign points out that four persons were accidentally drowned in the city during 1945, while total for the nation during the same period was 6,900 persons. Woods has assigned the two school safety officers, William H. Keeler and Henry H. Jensen from the Bureau of Police to supervise and assist in swimming instruction during the week.

Five-Lesson Course
The campaign will consist of five introductory lessons, after which boys and girls will be referred to city beaches and pools, or to the character agency pools for additional swim instruction during the summer. Last year 1,300 children participated with an average daily attendance of more than 1000 youngsters.

Jensen, a veteran of 25 years of life-saving and swimming instruction for the American Red Cross, the Y. M. C. A. and the Royal Life Saving Society of London, England is said to have taught the art to more than 10,000 persons. In stressing the importance of a knowledge of swimming Jensen points to Red Cross figures showing that for the average person who knows how to swim, even a little, drowning is entirely unnecessary. The average

Fight Contest Winner To Be Named Next Week

As this edition went to press early last evening the eyes and ears of the nation were focused on the Yankee Stadium for the second Louis-Conn prizefight, scheduled for last evening. By the time you read this the fight will be history and the winner known to all. However, announcement of the winner of the 25-dollar war bond offered by The Sun and the RKO Palace Theatre for the nearest guess as to the actual knockout time (if there was one) will have to wait until next issue.

Hundreds of contest entries were received with the bulk choosing Louis to administer the KO somewhere along about the middle of the fourth round. Watch for the winner's name next week.

Meanwhile movies of the fight will go on exhibition starting tonight at the RKO Palace Theatre.

SIX NEW BUSES GO INTO SERVICE; MORE ON WAY

Six ancient vehicles of the Rochester Transit Corp. retired without pension this week as an equal number of sleek new buses went into service on the city streets. According to John F. Uffert, RTC president the new buses are part of a 150-unit order valued at \$1,900,000 placed with the Twin-Coach Co. of Kent, O. to be delivered to the local transit company this year. An estimated 50 buses are due here by mid-July.

The new coaches are expected to make bus riders forget many of their wartime inconveniences. How the transports will work in deep snow-covered streets remains to be seen but, anyway, they look better, it is claimed they'll ride better and they'll hold more people. That last fact alone insures for them a warm welcome from bus riders.

Old Sol Slates Season's Longest Visit Tomorrow

The sun may not shine its hottest in the city tomorrow, but it will be around the longest. For tomorrow is the longest day of the year. After tomorrow, the sun will start its not so slow apparent journey back toward the south.

The astronomical summer lasts until the September equinox. During this period the sun, being north of the equator shines more directly upon our area and by August the earth is hot and dried and we have the full effect of summer's heat.

While you are enjoying old sol's long visit tomorrow, give a thought to the southern hemisphere where winter now holds sway. Tomorrow is their shortest and bleakest day. But don't waste too much sympathy on our Australian and other southern neighbors. Next winter when we're shivering in our boots and arguing about who, or what city department is to blame for our snowstorm tieups, those same southerners will be enjoying mid-summer's heat.

Maybe it'll be cloudy tomorrow, anyway. We may not even get a peek at the sun all day.

Sponsors of the Louis A. Wylie Fishing Contest have issued a word of caution to all entrants from the Rochester area.

They have requested that entry blanks be filled out completely. Some blanks are reported to have been received, with only one witness, or with weight data omitted. Such entries are not valid, according to the sponsors, and cannot be considered by the judges.

Participants in the contest are asked to mail their entries promptly and, if possible, include a photograph of the catch.

ROCHESTER AAF CAPTAIN JOINS PCA PILOT STAFF

Fred Siems, 1063 Goodwin St., N. is going to put his job training to good use now that he is out of the service. This week he joined the Civilian Pilot Staff (PCA) as a pilot. After a training period he will become a co-pilot of the company's Buffalo-Rochester Washington run.

More than 200 veteran-pilots are reported to be working the fast-growing airline which started out in 1927 with a single open type plane carrying between Pittsburgh and Cleveland. Today it covers most of the important cities in the midwest.

Siems is one of a group of six flyer-veterans who joined the company this week. The group includes Mr. Fred J. Siems, who was a captain in the 48th and logged nearly 3000 hours of wartime flying.

RECORD FALL CONTINUES AT HAMBURG TRACK

Now in its fourth week, the harness meeting of the Buffalo Trotting Association at Hamburg continues to break records. Monday night's entry list contained the names of 116 horses, the largest number in the history of the track.

Disproving the old adage that "they never come back" Ed Stout, Jr., of Pontiac, Michigan, decided to bring his 11-year-old gelding, Javadale, out of retirement. Javadale had been one of the best.

Tom Winn brought Javadale out for the first time on June 8th. He finished fourth after breaking early in the race. Javadale's comeback was crowned with success in short order. Winn drove him to victory last week in a 3-horse photo finish. The gelding trimmed a star-studded field and has been staked into the rich stake events that are proving so popular with Raceway followers.

Post time tonight and every night is 8:30 o'clock, with the daily double windows closing at 8:15.

One of Russia's major grape varieties is said to be a direct descendent of what legend implies was the world's first grape vine planted by Noah near the town of Erivan in Armenia.

THRILLING THRILL ARENA — One of the attractions pulling large crowds to the James E. Strates Shows appearing all this week on Scottsville Rd. opposite the airport is the Thrill Arena featuring trick and fancy motorcycle riders. According to Louis Coler, chairman of the J. W. V. Kaufman Post sponsoring the shows here, special bus service direct to the grounds has been arranged with special buses leaving Scottsville Rd. and Genesee St. every 15 minutes.

COBOURG CRUISE SUNDAY FOR 40 & 8

Voyageurs of La Societe des 40 Hommes et 8 Chevaux, better known as the Forty and Eight, their families and friends will take over the Steamship Ontario II for their first annual cruise to Cobourg, Ontario, Canada on Sunday.

All will depart at 9 o'clock from the Municipal pier at Charlotte for a full day's program including entertainment and a buffet luncheon. Reservations should be made at once according to chairman, Commodore Jack Keenan.

War-Interrupted Glider Meets Resumed At Elmira

The largest number of gliders and sailplanes ever to be assembled in peace-time America is expected for the 13th annual National Soaring Contest August 3-18 at Harris Hill, Elmira. The glider meet will be

the first since 1941, the war having interrupted the annual contests, which started here in 1930. Outstanding figures in the aviation world will attend as glider pilots and enthusiasts from civilian, military, and naval circles bring their motorless craft to complete for the prizes to be awarded for superior performance flights.

Sponsored by the Soaring Contest Committee of the Elmira Association of Commerce, the meet is sanctioned by the Soaring Society of America, and the National Aeronautical Association.

Efforts will be made by competing pilots to break previous records, including the 290-mile distance record made in 1940 by John Robinson of Altadena, California. Robinson, national soaring champion in 1940 and 1941 will fly in this year's meet to defend his title. A feature of the meet will be emphasis on specific distance and return flights, in contest competition.

**Maybe Your New House
Will Be Made Of Cotton**

Construction material made from cotton laminates may prove to be one answer to the shortage of building materials, the National Cotton Council reports from Memphis, Tenn. Strong as steel, the new boardlike laminates are said to be ideally adapted to prefabricated housing structures.

Subject of experiment at the Council's research laboratories for almost two years, the laminate board may soon go into large commercial production to help solve the housing shortage.

The plastic laminate capitalizes on the strength of individual cotton fibers, which is said to approach that of tempered steel. The cotton fibers are combed out into parallel layers and impregnated with plastic resins. Subjected to tremendous heat and pressure, the impregnated cotton emerges as a solid boardlike substance.

Stronger Than Steel

Cotton chemists say that the new material is stronger than steel, weight for weight, and that it is lighter than aluminum. It can easily be given permanent color during the manufacturing process, and will not rust or corrode.

Of particular interest to the home builder is the fact that the laminates can be fused together by a process similar to welding. This process will result in considerable lowering of labor costs.

**NYLON SHORTAGE
SEEN CONTINUING
UNTIL NEXT YEAR**

Last year about this time it was generally reported that those who expected ample supplies of nylon hosiery would have to wait a full year—meaning until approximately June, 1946. Now that date is here, but the nylons are still scarce, as all shoppers only too well know. And, according to Cosmopolitan magazine, milady will have to wait some more. According to a survey conducted by the magazine and reported in its June issue, abundant supplies of nylon hosiery will not be available before next year.

The article reporting the results of an exhaustive investigation of the situation gives several reasons for the continuing nylon hosiery shortage. Chief among them are:

1. The country is depending almost entirely on nylon to fill its hosiery needs formerly met with silk;
 2. Rayons formerly used for stocking are now going into other clothing items; and
 3. A lack of both machinery and sufficient skilled labor is still hampering the industry from making a large enough output of hosiery.
- Charges that hoarding by manufacturers who hoped for higher prices were said to be untrue. Another rumor scotched by the magazine was that the shortage here was due to manufacturers allegedly shipping the nylons out of the country for sale in foreign cities.

Marla Montez and her husband, Jean Pierre Aumont, will soon do a picture together. It's titled, "Queen of Hearts."

standees—more of 'em can sit down.

A 'Post War' Product

The new coaches are not only larger and smoother than their predecessors, they are a bit more eye-filling, as well. Designed and engineered "from the rubber up" the new coaches are touted as a "truly post-war product." Rochester is said to be the first city in the country to obtain delivery of the model.

Other features cited by Transit Corp. officials are the hydraulic drive which eliminated the traditional gear shift as well as the traditional jerk when the average bus starts. The engine is located below the floor which will eliminate the noise an heat at the rear end experienced in some older models.

To Replace 'Oldies'

As fast as deliveries of the new coaches are made old pre-war vehicles will join the retirement list. They have long since deserved such a rest, but wartime shortages and the added strain of heavy bus patronage during war years has

kept them in service. Few will shed tears at their departure. Another benefit the new equipment will offer bus riders is the contemplated route and schedule changes promised by Ufert. Plans for changes have been pending for months but, according to Ufert, lack of sufficient equipment has been holding them up. Now the way is cleared to get some of the buses off over-crowded Main St.

It looks like Rochester bus riders' Utopia is just around the well known corner.

picture unless the Union Trust building master minds should be suddenly overtaken by an attack of good judgment.

We note that Mr. Hallauer of the higher GOP councils was awarded another medal for another something or other last week. This, according to our score card, puts Mr. H. one medal up on last year with six months still to play.

The announcement by Rodney James that he would retire from politics and devote more time to the art of making money in his greeting card business caused slightly more than a ripple on the political beaches.

There are those who think that Rodney did not intend his retirement to be taken seriously; that there might be some question of redesignations among the state senators from this area and by playing "hard to get," which is an oft used political device, assure himself of early overtures from the party heads.

There are others who think Mr. Broderick has made some assurance he will be "taken care of" and that James is quitting to give genial George Manning an opportunity to make the run. Mr. Manning, because of assembly reapportionment, would otherwise be back selling insurance on a full time basis next year.

Whatever is behind the motive the Democrat and Chronicle helped Mr. James burn his bridges. They editorialized his value as a senator and "regretted his decision to withdraw from politics."

This rather puts Mr. James in the Cal Coolidge class. You will recall that the silent Cal coined a phrase that could be interpreted in several ways. His "I do not choose to run" was taken too literally by the Republican bigwigs and they ditched him as a candidate for re-election—and Mr. Coolidge was very, very annoyed for the rest of his days.

Only three things are obvious in the James proclamation. Mr. J. could probably use the hours devoted to the dull tasks of Albany to better advantage in his own business; that George Manning could very capably fill his boots as a senator; and that such an arrangement would cause the Union Trust Building brass fewer headaches and less embarrassment.

The answer to the \$64 question is not so much whether Senator Mead is going to run for Governor but when he will announce the fact. His reluctance to toss his hat into the ring officially gives rise to countless rumors that he intends to keep his senatorial post and let someone else try to beat Dewey. Reasons advanced are 1. He thinks his work in the Senate is more important at

the moment; 2. He feels he needs more than apathetic support on the part of the New York city party factions to win; 3. He is playing coy until that support is forthcoming or he won't run; 4. He feels that a man with presidential aspirations (if he has any) has as good a chance as Senator as he has as Governor.

Whatever it is, at the moment the Senator seems to be holding a lot of cards, mostly aces. You can rest assured they will be played close to the chest, and well.

What has the election prognosticators slightly a tree is the statistical evidence on Mr. Dewey. Four years ago Thomas E. ran for governor against a divided Democratic party and rolled up a majority of 600,000 votes. Two years later as a presidential candidate he lost his state by 320,000 votes. This difference of nearly a million votes sets some sort of a record for a reversal of form. How many votes Mr. Dewey may have picked up in his attempt as a middle-roader after his 1946 shellacking is conceded to be few. A united Democratic party with the New York group all-out and the upstate boys fighting for gains would make Mead a favorite. The GOP boys, however, not too assuredly claim Dewey a 6 to 5 favorite in the spring book. But they admit a lot can happen between now and the first Tuesday after the first Monday in November.

THOU SHALT NO COVET
The story of Helga Larson, to whom love meant marriage, a man's name, and children. She was to learn that love and possession were sometimes things apart.

SHADOW OF ANOTHER WOMAN
The thrilling tale of a woman who wanted her husband for herself alone. But the shadow of another woman constantly hovered over their home. There are only two of many complete true stories, including a book-length true story and a complete true story. Also the usual sensationalizing features and the True Story Romances.

DON'T FAIL YOUR DAUGHTER when she comes to you...

For The Real Truth About These Intimate Physical Facts!

Don't let your daughter dare approach marriage without first having her hair treated with Zonite. The idea is to stimulate cleanliness, health, charm and happiness. Tell her how weak, brittle, made mixtures for hair and can not give her the great germicidal and deodorant action of Zonite — how no other type liquid soap can give the double of all these virtues in so few drops, yet so safe to use.

Caution her against overwashing solutions of harmful poisons which can burn and severely irritate. With Zonite there's no risk of injury! It's positively non-poisonous, non-irritating, non-staining. You can use Zonite as often as necessary.

Zonite destroys odor. Helps guard against infections. It kills every germ it touches. You know it's not always possible to contact all the germs in the tract but you can be sure — Zonite immediately kills all responsible germs. Buy a bottle of Zonite today! All drugstores.

Zonite Principle Developed By A World Famous Surgeon and Chemist

New York Telephone Company

ED RANDALL'S Scene & Word

We'll open the clam bake this week with a whimsical little fable which has to do with clocks, whistles, a telephone operator, a mystery man and various other appurtenances. It seems that in a certain small town a mysterious gentleman was in the habit of calling the local telephone operator about the same hour every morning and asking for the correct time. This went on for several years and one day the operator awoke to the fact that she had been supplying the time to her daily caller without having any idea who the man was or why he wanted the time every day. So that morning when the usual call came in, she said: "Pardon me for asking, mister, but would you mind telling me why you call up every morning like this and ask for the time?" The man said: "Why, sure I'll tell you. I imagine you are curious about my calling so often. I want to be very careful to get the exact time every day because I'm the man who blows the town whistle at noon." "Well," the girl replied. "That's a funny one. Every noon I set our clock by your whistle."

Overheard in the Park Avenue Grill: "Joe's a nice guy and I like him. Only trouble is that when it comes time to pay the check he suddenly discovers an impediment in his reach."

Then they tell about the Hollywood producer who received a movie script entitled "The Optimist." He called in one of his several vice presidents and handed him the opus saying: "Here, Plumpkin, take this script back to your office, read it very carefully, and let me know in exactly three days if you think we can make a picture from it that will gross maybe three million." At the end of the third day, Plumpkin pre-

JOURNEY . . .

the Senate and the House of Representatives, along with a dozen other interesting government buildings and bureaus and "saw the sights" in general.

By the way, when we arrived at the Hotel Statler we found a huge bouquet of 25 roses, our 25th wedding anniversary, (our know) awaiting us. They had been sent by co-workers of my husband's at the General Railway Signal Co. We were thrilled by them.

The trip marked a number of "firsts" for me too. It was the first time I had ever ridden in an airplane, eaten dinner high about the earth, stayed in the Statler Hotel in Washington, eaten in a Chinese restaurant, had my two sons with me in the Capitol, and the first time I have ever won a contest.

And this much I can say, as long as I had to wait until now to win a contest, I surely picked a wonderful one. Our trip will last forever in my memory and the Century Theatre, The PCA-Capital Airlines and The Rochester Sun have my complete and sincere thanks.

Only one last item remains and then our prize-winning tour will be over. Tomorrow evening we are going to see the movie, "Sentimental Journey" which opens at the Palace Theatre today. I understand it is a great picture. Anyway, it was a great journey.

RED CROSS VETERANS FORM ASSOCIATION

More than one hundred Rochesterians are eligible to join the new Red Cross Veterans Association, it was announced this week. All persons who have served with the American National Red Cross, either overseas or in this country, during World War II or after, are automatically members.

The purpose of the organization is to maintain interest in the Red Cross, renew friendships, and perpetuate the group.

Real Old-Fashioned Goodness.

IT'S the "winning combination" used by Genesee that accounts for its real old-fashioned goodness. It's a hit with everyone who tastes it. . . it's "safe at home" until the thirsty gang walks in. Right now, you may not be able to get all the Genesee you want, but try again, won't you. Call it Genesee or "Jenny" . . . ask for it by name.

CITY EYES PINBALL MACHINE DECISION

'Illegal', Says Syracuse Judge

A place in the backroom along with the slot machines, card games and other gambling paraphernalia loomed this week for the city's pinball machines as operators, players, and the city's legal fathers turned their eyes Syracuse-ward for further clarification of a Police Court Judge's ruling that a Syracuse ordinance licensing the machines was illegal. Rochester has a similar ordinance.

May Affect City Law

While the ruling of a Syracuse city court would have no effect on a Rochester ordinance, the case was being watched with keen interest here because its final outcome might throw Rochester's ordinance out of the books. The Salt city's district attorney's office immediately announced plans for an appeal to a county court. It was predicted that the case would eventually land in the Appellate Division. Upon the ruling of that court would depend the legality of Rochester's licensing ordinance which each year produces approximately \$8000 in license fees. At present there are 1189 licensed machines in the city.

In the Syracuse case, City Judge Homer V. Walsh declared that the city of Syracuse "cannot license a slot machine" and contending that pinball machines are in effect slot machines ruled that the city ordinance governing their licensing is illegal.

Judge Cites State Law

Under section 983 of the State Penal Law there is a quotation directing "every authorized officer to make arrests and to seize every machine."

See PINBALL Page 5

IN THE BALANCE — Fate of Rochester's 1189 City-licensed pinball machines hung in the balance this week as law enforcement agencies eyed a Syracuse judge's decision that the machines were, in effect "slot machines" and therefore illegal. The above scene is duplicated daily throughout the city as youngsters and oldsters alike plunge their nickels happily into the nickel-hungry machines. What will they do for lights, whistle and bells if the machines are tossed out? And, what's more interesting, how many more nickels will they have left in their pockets at the end of the week?

Fight Contest Winner Only 1 Second Off

When Joe Louis chose the 19th second of the second minute of the eighth round to KO Billy Conn in their heavyweight title match at New York last Wednesday night, he not only won for himself more than half a million dollars, but by choosing that particular moment, he won for James Gooney, 227 West Ave., a \$25 war savings bond as winner of the Sun-RKO Palace Theater Fight Expert Contest. Gooney predicted the knockout at 2:29 of the eighth round — just one second away from the actual official time. Two interesting sidelights of the contest were noted in that the ratio of Louis to Conn adherents was approximately 8 to 1 while betting odds at fight time were reported as 18 to 5. Eleven other contestants chose Louis in the eighth round, but Gooney's guess was nearest.

Political Polka

By CURT GERLING

In more normal times the county leaders would be fighting, cajoling, and supplicating with the big brass of their respective parties to have the state conventions held in their bailiwicks. Today it's a deep silence. The only town that seems to want the convention of the Parties is Saratoga Springs.

Number one reason is hotel accommodations. You have to find rooms for about three thousand people for either the Republican or Democratic conventions. A request for three rooms in Rochester is apt to have the Seneca's Charlie Wickes jump right out of his two hundred dollar special drape model designed by Jesse Horwitz and into a pair of overalls from the basement of the same store. Yes, if you are looking for a hotel room in the Flower City you'll find the answer "No" and that the managers speak in and out of their establishments in convenient disguises.

Number two reason is the food shortage. Citizens don't relish the idea of heavy feeding delegates descending on their restaurants and eating the places right down to the linoleum.

Scotch is short too — and see POLKA Page 7

\$25 Winner

Mrs. E. Robinson of 307 Sherman St., is the lucky winner of this week's \$25 cash prize offered by The Sun each week to its sustaining subscribers. This is the reward Mrs. Robinson gets for paying her Sun carrier, William Van Sice of 179 Cameron St., 10 cents. Bill, incidentally collects an extra five dollar bonus.

'DADDY SUNSHINE' OUTING SET FOR JULY 17

As surely as the advent of summer to Rochester each year comes the announcement of the annual "Daddy Sunshine" outing for the city's handicapped, aged, orphans and veterans of foreign wars.

They both arrived on schedule during the last week.

The outing this year will be held July 17 in Red Wing stadium and will be open free to those of the mentioned groups.

Julius Friedrich, who originated the outings idea 29 years ago and says that it is still the only affair of its kind in the country again heads the sponsoring committee which includes Mayor Dieker, Carl Bauseh, R. C. Meisenzahl and other civic leaders.

Donations are sought, according to Friedrich, of almost everything but money. The committee accepts no money contributions. In addition to ice cream, lollipops, pretzels, potato chips, popcorn and other suitable foods, the committee seeks 140 automobiles and volunteer drivers to carry guests to the outing.

The sponsors have made plans to care for approximately 3000 guests.

Volunteers who wish to donate foods or their services have been asked to call Friedrich at Main 6069.

KAY'S COMMENTS — by kay shearer

The right dress or dresses in the summer time will go a long way to keep you happy. At ZWEIG DRESSES — the selection of summer things are outstanding. Sheers — jerseys — in assorted colors — all tailored to perfection. All sizes even the much wanted half-sizes. As for price when you see them — I'll bet you'll buy more than one frock at ZWEIG DRESSES — 240 ROSEDALE — Off Monroe — Open Eve.

There is nothing that makes a woman feel worse — than a noggin — that needs attention. Stringy hair is a curse any time — but in summer when your hair is under constant observation — it is the one thing that will keep you looking well-groomed or just the opposite. So what in heaven's name are you waiting for — I've been telling you about that SPECIAL OFFER — at VIRGINIA'S BEAUTY SALON. An honest to goodness top flight permanent for \$6.50 — regularly priced \$10. Ask Virginia about the NEW RAE TREATMENT... Your tresses will shine after one application. AT EDWARDS — in the furniture department — on the first floor — you'll find a two-piece SOLID MAPLE SUITE — priced at \$137 — that is a knock-out. It isn't just ordinary maple — but honey-hued Solid Rock Maple with a very special sort of charm that never dulls. Both sofa and chair have spring-filled reversible cushions with a plump comfiness you dote on for years to come — and both pieces are covered in rough textured fabrics that take to hard use admirably. They will be a beauty spot in any home — and should be given special thought for the bride — who must watch that budget. Remember \$137 for both pieces. Another suggestion — I'll make you — drop into EDWARDS lamp department — located on the Second Floor. For your own home — or for a wedding gift — there is nothing like a beautiful lamp. Think about a pair of CHINA BASE LAMPS with sleek rayon shades priced at only \$2.98 each. Or a MAPLE BRIDGE LAMP with its drop shade made of Linex fabric — ideal for summer cottages — or for your porch. Priced at \$6.98 you'll find this lamp — useful for small spaces — "cause the table is combined. CRYSTAL BOUDOIR LAMPS — the kind you haven't seen for ages are also among EDWARDS' collection. Their glowing smartness radiates luxury — but the price is trifling. \$3.98 each. This price includes the base and parchment shade in assorted hues. They really are lovely. Another MUST on my list for you at EDWARDS — first in Rochester — are NEW NYLON CURTAINS. They will lend more beauty to your windows than you have ever known before. Side hemmed and stitched with mercerized thread to insure that these curtains will hang straight without ruckling. 41 in. long, 41 in. wide. Soft eggshell only. No mail — phone or COD orders. Priced at \$7.98 per pair. For those expensive pictures of your loved ones, you have been neglecting to have framed — here's good news for you. 10% off regular prices — for the balance of the week — that means two days for PICTURE FRAMING. Merely select mouldings from their huge stocks. EDWARDS expert framers will do the rest. Your frames will be completed and waiting for you one week from the day you bring them in. EDWARDS — Second Floor. Remember EDWARDS — Setting a new pace in Rochester.

CARTER HAT For your City Summer — a gay PANAMA from CARTER HAT SHOP. They are an investment for seasons to come. "Good" with anything, they are worn by the smartest women. BLACK MILANS are another find at CARTER'S. These are also a worth while investment. Flattering to boot. BIG LACY STRAWS are another find. Prices at CARTER for the hat line start at \$3.95. STRAW BAGS are being carried by loads of women this summer. I like them 'cause they are practical — and wearable with everything. PLASTIC BAGS are a reality — you'll adore them. JEWELRY at CARTER'S start at \$1. You'll find pins, earrings, chokers — all beautiful — all a must in the wardrobe of every woman. CARTER HAT SHOP — 638 Monroe Ave. — Open Eve.

Doing the summer in a cool way — in a sheer from ALICE DRESS SHOP. All frocks at this popular shop are casual in manner, simple in line, tailored to perfection. Cottons are there in adorable styles — and all sizes — also half-sizes suitable for the larger woman. As for price — every garment is marked with an eye on your budget. LINGERIE — is also to be found at ALICE DRESS SHOP. Beautiful "things" fashioned of unusual materials — and also priced modestly. ALICE DRESS SHOP — is located 630 MONROE — Corner Wilmer — Open Eve.

The Bride was beautiful — of course all brides are — but not all bride's bouquets are beautiful. Don't risk this — for your wedding. Order your flowers from LLOYD'S — and you can take my word for it your flowers will be outstanding. Mr. Lloyd Higbie — the owner of

'WALK-UP START' WINS APPROVAL AT HAMBURG

The "Walk-Up Start" has made a distinct hit at the Buffalo Raceway in Hamburg which is now in its fifth week of harness racing.
After a series of tests and dress rehearsals the "Walk-Up Start" was used at Hamburg for the first time last Thursday evening. It was eminently successful from the very beginning and has proved popular with both patrons and horsemen.
Under the new system, after the horses have completed their preliminary scores, they are again led by the marshal in parade to a point about 100 feet beyond the starting judge. The marshal then leads the number one horse across the track to his position and the other horses take their positions as they are reached. Once the field is aligned the Starting Judge starts his count of three and at the word "Go" the horses are all on their gait and off together at the barrier.

COMMUNITY CHOIR SEEKS NEW MEMBERS

A drive for new members is being conducted by the Community Choir of Rochester, recently reorganized under the direction of Ernest Ahearn, supervisor of music at West High School.
Formed in 1934, the choir at one time flourished on the local musical scene but the inroads of war and war work depleted its ranks during recent years. Now it is having a new lease on life and is making an attempt to complete its roster. According to William P. Reed, president of the group, men's voices are particularly needed. Concerts and social activities are being planned by the recently elected officers. Others besides Ahearn and Reed who are serving include: Miss N. Underhill, accompanist; Fred Roloff and Mrs. J. Kliek, L.P.; Mrs. Ruth Willschlegel, sec.; Earl Cooley, treas.; Kenneth Sanderson, bus. mgr.; Frank Columbo, asst. bus. mgr.; and Wilfred Dolman and William Ambrose, librarians.

SALVATION ARMY HEAD SOUGHT FOR CITY VISIT

General Albert Orsborn, newly-elected International Commander-in-Chief of The Salvation Army may visit Rochester during his American tour this fall if efforts of Brig. John Brunner, local Salvation Army head are successful.

Gen. Orsborn, who will formally take office in London next week, will come to the United States in September for a three months' visit to the four Salvation Army territories. A reception for the new chief will be held in New York City on Sept. 27 at which time Maj. Brunner will present the local invitation.

During his visit to the United States, Gen. Orsborn will make an inspection trip to Canada and before returning to England, he is slated to visit Jamaica and South America to inspect Salvation Army Work there.

PLASTICS EXHIBITION — If Rochester is particularly "plastics minded" this week, don't blame Sibley, Lindsay & Curr Co. They planned it that way! Hundreds of new and dozens of old uses for plastics in industry are on exhibition on Sibley's Fourth floor this week. In the picture above Clark Simmons, of the Durez Plastics Corp. to Harold Batsch, a visiting newspaperman, points out new products of this firm's material made in Rochester by Samson-United Co.

SYLVESTER BUELTE NAMED POST HEAD
Sylvester Buelte is the new commander of the Memorial Post No. 206 of the American Legion. He, along with an entire slate of officers, was named by the post at an election held this week.

Five vice-commanders were named in this order: Frank Donnelly, Thomas St. Aubin, Charles Franklin, John E. O'Neill and David Rogers.

Other officers who will guide the post during the next year include: Michael Kelly, adjutant; Ray Morrison, treasurer; Sarsfield Kelly, sgt.-at-arms.

GLIDER PIONEER NAMED FOR ELMIRA MEET
Selection of Earl R. Southey, pioneer in both gliding and power flying, as manager of the 13th Annual National Soaring Contest, to be held at famous "Harris Hill," Elmira, N. Y., has been announced by the Contest Committee of the Elmira Association of Commerce.

Southey, who has been identified with aviation and gliding development for more than 30 years, is manager of the Aviation Dept. The Hilliard Corp. He will be given a leave of absence by the plant for the duration of and a short time preceding the meet.

PINBALL

(Continued From Page 1)
chine, apparatus or device" an-
swering to the description con-
tained in Section 982.
This section, as Walsh point-
ed out in his decision, makes
it unlawful for any person to
"manufacture, own, store, keep,
possess, sell, rent or lease a slot
machine or device."
This in short, would affect
every storekeeper, amusement
center proprietor, etc., who
kept any such device on his
premises.

Text of Decision
The text of Walsh's decision,
which may eventually affect
Rochester's pinball addicts, in
part, follows:

"It is the opinion of this
court that practically every pin-
ball machine in the city of Sy-
racuse is a slot machine and a
gambling device. It is not a
game of skill, and has a distinct
element of chance, and in all
instances, the attainment of a
certain score is rewarded by
payment of money or the re-
ward of so many "free plays"
on the machine. Whether the
reward is given by the machine
itself or by the proprietor is
immaterial. It is the great ele-
ment of chance and the reward
that governs. To say that it is
a game of skill is the same sort
of argument as to say a golfer
could make a certain score by
banking his shots off the trees
and rocks along the golf
course."

"That is what you do on
pinball machines. The ball hits
different objects in its course
and after hitting the first ob-
ject, to say the course of the
ball can be controlled by any
skill on the part of the player
is ridiculous.

"The fact that the shifting of
one or two electric wires to
stop the "free plays" when the
occasion demands or when the
police approach, does not
change the fact that such slot
machine is a gambling device.

In that regard it is the same as
a quarter machine, which every-
one knows can be set to do
just as the operator wants it to
do. By the manipulations of
these electric wires the pinball
machine will do also, just as
the operator wants it to do."

Delinquency Increased
Turning to the problem of
juvenile delinquency, which he
maintained was increased by
pinball machines, Judge Walsh
said.

"In the case at hand, it ap-

pears from the reports of the
police officers, that four or five
of the boys playing these ma-
chines secured money to play
them by stealing pocketbooks
and in other public gathering
places. These boys are from
12 to 15 years of age. There
were some six or eight cases
of this sort within a period of
a few days. I consider this a
very dangerous condition and
one which should be immedi-

ately stopped. There are a great
many of these pinball machines
located in the neighborhood of
practically every one of our
public schools, and it seems a
poor public policy to allow the
youth of this city to become
gambling conscious before they
are out of the elementary
school grades. These machines
are properly before this court.
This court feels that this
ordinance, in the past, and at
present, has, and is, creating
a bad influence on the youth
of this city.

The city of Syracuse, by or-
dinance, cannot license a slot
machine. It is my opinion that
these pinball machines in Sy-

racuse, are slot machines, and
are absolutely prohibited by
Section 982 of the penal law
of the State of New York.

HEALTH UNIT ARRANGES VACATION SCHOOLS PROGRAMS

Health education measures among school children continued to occupy the attention of

the Tuberculosis and Health Association this week even though the schools were officially closed for the summer vacation. This week the health group began its work among the vacation schools, bible schools and day camps which

had taken up where the schools had left off. A program of health and safety films, short talks, question periods and songfests had been prepared and was given its initial tryout at the Immanuel Baptist Church School. Two films on nutrition — "Kids Must Eat" and "Moo To You" were shown followed by health talks. The Brighton

Presbyterian and the Bethany Presbyterian schools also saw and heard health association programs.

Next Monday at 10:45 a. m. a program will be given at the Brighton Reform Church and at 3 p. m. at St. Francis Center for Girls. On Tuesday at 9:45 a. m. at Emmanuel Lu-

A St. Bernard Grows in BROOKLYN

GOOD OLD BROOKLYN—WHERE EVERYONE
BEATS THE HEAT WITH A

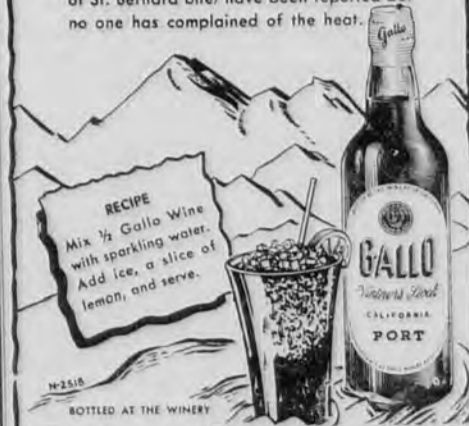

GALLO WINE GLACIER

Residents of Flatbush, Greenpernt, and Canarsie can't get enough of those tall, frosty Gallo Wine "Glaciers."

Naturally, the Gallo "Glacier" is so icy and so cold that parlors turn into igloos.

So they're sending St. Bernards to rescue these snow-bound Gallo "Glacier" lovers.

Many cases of frost-bite (and a few cases of St. Bernard bite) have been reported but no one has complained of the heat.

POLKA
(Continued From Page 1)

Legates want nothing but the best. The Spa just wont have any competition this year and the average community is gladly passing up its annual opportunity to grab up the folding money that is so carelessly tossed about at political conventions.

The Republicans seem to be somewhat lethargic regarding their candidate for the U. S. Senate and their apparent disinterest may be attributed to Mr. James Mead who seems equally indecisive. If Mead would forgo the gubernatorial nomination and decide that his place is in the Senate — it's doubtful that the Republican's old dream up, dig up or build up any member of their party who could beat him.

Albany master minds consider Assembly Majority Leader Ives the strongest man in their bag and they don't want to waste him and discredit him by pitting him against the incumbent Mead, where a first place shellacking is a forgone conclusion. They'd prefer to find some whipping boy who would go to the post just for the exercise.

If Mead should run for the governorship it would be quite a different story.

Wonder what became of the Union-City contract?

THREE GOOD REASONS

Why St. Joseph Aspirin is the choice of millions. (1) It's as pure as money can be. (2) Goes to work fast with speed unexcelled in field of aspirin. (3) Offers real economy in either size. Get St. Joseph Aspirin, world's largest seller at 10c. Save even more in 100 tablet size for 35c. As you get nearly 3 tablets for only 1c.

If only this young wife HAD KNOWN THE TRUTH EARLIER

Ignorance of Intimate Physical Facts Has Wrecked Many A Happy Marriage!

If your husband seems indifferent—perhaps you don't realize how important dominating often is to feminine cleanliness, health, charm and marriage happiness—

Many women still foolishly use weak, home-made mixtures of salt, soda or vinegar which do more and can not give the great germicidal and deodorant action of **Zonite**—

And many use overstraining solutions of harmful poisons which can burn or severely irritate. But **Zonite** is a different! No other type liquid antiseptic-germicide for the douche of all those tested is so powerful, yet so safe, to delicate tissues. You can use **Zonite** as directed as often as necessary without risk of injury!

Zonite destroys odor. Helps guard against infection. It kills every germ it touches. You know it's not always possible to contact all the germs in the tract, yet you can be sure **Zonite** immediately kills all reachable germs. Buy a bottle of **Zonite** today!
