To The Rochester Reading Public

We, the newsstand operators of Rochester, protest the many rumors and published reports in some outof-town newspapers that New York newspapers, daily and Sunday, are being sold at exorbitant prices during the local newspaper strike.

While there may be some bootlegging going on in out-of-town papers, they are not New York City papers, and the fact remains that the newsstand operators, realixing their responsibility to the public, sell New York papers at regular prices. The Manson News Agency, who are distributors of New York newspapers in this area, are taking proper precautions to see that all dealers in this area sell New York papers at regular prices and have seen to it that illegitimate news vendors cannot obtain any New York newspaper to bootleg.

While there is only a limited amount of New York papers arriving in Rochester, we are making this statement with the knowledge that those readers who are able to purchase one can attest to the fact that they pay regular prices and we are prepared to furnish written statements

To paraphrase a line from the title song, this reviewer has never seen the stars shining so bright. The tireless Crosby sings song after song, vocalizing no less than sixteen of the thirty-two sock Berlin tunes in the film. Besides such out-tending hits as White Christthe film. Besides such out-'standing hits as White Christ-mas" and "Blue Skies", Bing introduces two new Berlin tunes written expressly for him. They are a haunting bal lad, "You Keep Coming Back Like A Song," and a little nursery number entitled "Get-ting Nowhere," which he sings to his little screen daugter.

CAPITOL SCREEN

Joining the list of motion pictures that have been made from great novels, Paramount's picturization of Richard Henry Dana's "Two Years Before The Mast" is now playing at the Capitol Theatre. The cast is headed by Alan Ladd, Brian Donlevy, William Bendix, Barry Fitzgerald, and Howard Da Silva.

"Two Years Before The Mast" tells of the torturous yovage of a two-masted sailing vessel from Boston to California. It describes the hardships and cruelties inflicted upon the crew by a heartless captain and pictures the mutiny of the men and their eventual vindication by the Amgrican people.

Spine-tickling chills and riotous comedy distinguish RKO Radio's "Genius at Work," the Capitol's companion feature, starting Walley Brown and Alan Carney with Anne Jeffreys.

Bers will be selected to appear on "The Quiz of Two Cities."

Onick action on the part of two City Hall employes and two deputy sheriffs Fri-day morning was credited with averting a major fire disaster by Battalion Chief George Kummer.

The fire chief said that Miss Olive Schoenherr, 160 Hamilton St., and Deputy Sherff Harry Ovenburg, of 67 Alexander St. were on a Roch-ester Transit Company bus enroute downtown when Miss Schoenherr saw flames belch out of a window in an apart-ment house at 412 South Ave.

TRAFFIC DEATH TOLL INCREASES THROUGHOUT U.S.

The nation rang out 1946 with a total of about 34,000 traffic deaths for the year, the National Safety Council in-

Ned H. Dearborn, council Ned H. Dearborn, council president, estimated that 4,000 lives were saved by a vigorous nation-wide safety campaign launched by President Truman's Highway Safety Conference. If the traffic death rate for the first four months of the year had continued, he said, the total would have been about 38,000

"However," he declared, "I don't call a traffic death toll of 34,000 much of a success story." New York City had the high-

The eleven-month total was 30,730 — 22 per cent higher than 1945, but 14 per cent less than in 1941. The council's esti-mated toll of 34,000 for the year is based on the eleven-month total and the current accident trend.

For the eleven-month period For the eleven-month period, only three of thirty-nine States reporting had decreases. They were Arizone, with an 11 per cent decrease; Connecticut, with a 2 per cent decrease, and Maryland, a 1 per cent decrease. Rochester is particularly well suited to an atom bomb attack, a City Club audience was told yesterday by Dr. Staf-ford Warren, University of Rochester professor and chief of the medicial section of Manhattan District, the Army's atom bomb project.

Brown St., has many grave concerns with which to start the new year.

Thursday in City Court he pleaded innocent to charges of reckless driving, drunken driving and driving without an operator's license. The case was adjourned to Jan. 8. He was arrested Tuesday after an accident in which no one was injured.

William N. Drew, 45, of Scottsville, pleaded innocent in City Court Tuesday after an accident in which no one was injured.

STORE MANAGER

According to Neiman's complaint, the two men, Negroes, came into the store and purchased a bottle of liquor. When they tendered their money, they tried to manipulate several bills in a manner to confuse the store operator, he told the detectives. However, he realized their fumbling was an attempt to short change him and he outwitted them.

Police list the description of the two men as: No. 1. — dark skinned Negro, 30 to 35 years old, about 5 feet 8 inches tall weight, 170 pounds, has a scar on left side of mouth; wearing a brown soft hat, brown rain coat. Second man was described as the same age, height and weight, has buck teeth and was wearing a dark blue coat.

Merchants on the West Side are warned by police to be on the alert for these men.

Safety Research

Engineering studies by the committee on winter driving hazards show that the principal causes of high winter accident rates are inadequate traction and poor visibility, according to Prof. Ralph A. Moyer of lows State College, committee chairman. Traction is greatly reduced on snow or ice, and to a lesser extent on wet or muddy road surfaces poor visibility results from snow, frost or fog-covered windshields, sleet or snow storms and longer hours of dark ness.

To combat these added hazards of winter driving, the committee recommends that vehicles which must operate during severe snow and ice conditions be equipped with anti-skid chains, of equal importance for reducing winter driving accidents are devices used to obtain good visibility, such as windshield wipers, defrosters or frost-shields, and adequate motor vehicle lighting equipment.

As a sort of warm-up, to get him camera-wise, Fairbanks first had Bruce cast in a small sing my chest and ultering jungle noises if I hadn't fracture. The "Tarzan" its was to follow immediately.

On one recent morning he got in sequence four false alarms within an hour, starting at 4:30. He decided to play detective, by golly, after the four alarms, all false, made a pattern in his mind. He got into his official car and parked himself where he figured the false-alarmist might hit next. He was right, the gaught the gauge coming out two make four. On one recent He caught the guy coming out of a darkened doorway, ready for the next firebox.

Bandit Gets \$130 At Point Of Gun

Another armed holdup was added to police files Mon-day night after a bandit, holding a liquor store proprietor's wife and customer at gun point, scooped \$130 from the cash register and fled

Scene of the holdup was in the store of Alexander Kaminski at 1023 Joseph Ave., where the holdup man, armed with a revolver strode in and asked Mr. Kaminski for a bottle of whisky, at about 6 p. m.

When Mrs. Kaminski turned

when Mrs. Kaminski turned from the stranger to take a bottle from a shelf, the bandit produced the gun from his pocket and announced a stickup. He ordered Mrs. Kaminski into a back room and wheeled around in time to intercept Elmer Kick, of 78 Weaver St., who operates a market next door to the liquor store and who had just walked into the store.

The stickup man then scooped the \$135 cash from the register and fled from the store. Fruitless search of the neighborhood a few minutes after police were notified of the robbery led investigators to the conclusion that the bandit had fled in an automobile waiting in front of the store and probably driven by an accomplice.

The worst way . . how do I do ft."

The worst way I can think of, he replies, "is to start walking right out South Ave. to 5 and 20." And he blows his whistle to change the tide of traffic so that I almost get killed. When I tried another question, just to sort of clarify things in my own mind, the big bully turns on me and screams, "Listen, you melted down Martini — why don't you go home and sleep it off. It's all right to welcome the New York, but don't carry the celebration into February, Now best it, Bum!" And THAT is the reason I never did get to Florida to enjoy the sunshine for a few weeks, just like my boss told me.

ELEVATOR BOOM HITS TOWN IN \$550,984 FLOOD

The city's new elevator ordinance, making it mandatory that all elevators in the city be equipped with safety devices, has resulted in a flood-like boom in new elevator construction and in elevator repairing, reports John D. Albert, city elevator inspector.

Permits for new elevator construction amounting to more than \$500,000 were filed in Rochester in December. Sixteen Rochester firms will spend \$550,984 in new elevator

Fourteen new passenger and 15 freight elevators are to be installed in the city, Albert said, as well as two new escalators.

installed in the city, Albert said, as well as two new escalators. The new city elevator ordinance became effective Jan. 1, but, probably because of many elevator accidents, most of the new installations were contracted for before that date.

It is now mandatory that all city elevators be equipped with safety devices. As well known, all Rochester passenger elevators were not so equipped, but permits for equipping them properly with interlocks and safety devices has now been issued for all lifts.

Now Kiddies, put your big red apples or the teacher's desk, and we'll have our first lesson in Frequency Modulation. Ninety per-cent of the people in the world know as little about FM as they do any other subject. The other ten percent are either radio "hams" or other ten percent are either radio "nams" or work for a broadcasting company. To begin with, there are two types of modulation used in broadcasting today. The type of modulation regularly used in ordinary broadcasting is known as "Amplitude Modulation" (AM), while the modulation employed in the new system is "Frequency Modulation," or FM. (Isn't that easy?)

This is the way the boys in the know explain it: Suppose that you have a powerful searchlight and point its beam of light so as to reach a "listener's" home. This beam of light can be compared to the carrier wave of a radio broadcasting station.

In AM the program is brought to you by VARIATIONS IN THE INTENSITY or power of the light, while the beam itself remains motionless. In FM, the program is carried to you by the MOTION OF THE BEAM, while the power remains constant. In other words, AM is like this, — — — — — — , (and it comes out here!)

In AM modulation electrical interference is identical with the converted sound waves so that interfere AND the desired sound waves CANNOT be separated. Not so in FM, in modulation on the FM system, the sound waves are added to a carrier wave in such a way as to produce a wave form that is DIFFERENT. The interfering static that is actually "hitch-

Are there any questions?
You there — that little tall boy with the fat back — what did you ask? Does FM radio sound better? The answer is YES. Programs come through your radio clear and bell-like, egainst a background of total silence. Next . . Can you hear all types of programs on FM radio? Certainly All present types of radio programs are broadcast by FM stations. My present radio works pretty well, what more will FM radio do? It will enable you to hear more pro-

Mrs: Margaret Ritchie, magpaper writer, is the mother of
twin girls born Sunday in General Hospital. The former housing expert for the Times-Union
and her kusband, Donald,
printing instructor at Rochesier Institute of Technology,
have named the two little housing problems Janet and Margaret.

But housiag no longer offered any problem to the Ritchies.
When the twins, arrival became imminent the pair purchased a home in Gates-Chill
Town Rd. They formerly lived
in an apartment.

Mrs. Ritchie recently gained
considerable fame for herzelf
and her native city by authoring an article in Better Homes
and Garden magazine concernting Rochester's Fernwood
housing project.

CLEARED OF IN LARCENY, 'UNFAIR' CHARGES ASSAULT CHARGES

Officials of Bausch & Lomb Optical Co. had a perfect right to close off Suntru St. And, further, they committed no unfair labor practice in distributing a pamphlet, "Let's Face the Facts," expressing opinions regarding "disadvantages of labor organizations."

That was the decision of the National Labor Relations Board this week in dismissing CIO union complaints of unfair labor practices by the optical concern.

The board reversed the conclusions of Trial Examiner David Rein, who, in an intermediate report last August, supported complaints of the Optical & Instrument Workers Organizers of America.

The board, in a review asked by the company, found "insufficient evidence" to back Rein's finding that the company had discriminated against union organizers in closing off the street adjacent to its plant. The board also said the company-distributed pamphlet contained no coercive statements.

DIRECTORS NAMED BY FIRST FEDERAL

In his annual report to the members of the First Federal Savings and Loan Association of Rochester President Willis J. Almekinder announces the re-election of the following directors: Frederick C. Albrecht, George A. Dertinger, John C. Hohe, August M. Mura, Carey B. Ostrander, and Truman G. Searle.

Reviewing the association's business in 1946, Almekinder points to a gain of 18.91 percent in First Federal assets.

in First Federal assets.

Looking forward to the housing situation in 1947, Almekinder foresees an acceleration of the present trend for buyers to be more discriminating in their choice of existing dwellings. Although the price of new construction is apt to remain close to its present level, this trend will force down the prices of those older homes that have been inflated beyond their warranteble limit, he asserts.

DETROIT, Mich., Jan. 19—
The Ford Motor Company, in
the first post-war move of its
kind in the automotive industry,
has announced a reduction of
prices for all Ford models ranging from \$15 de \$50.

After first apprising the
United Automobile Workers,
CIO, of its decision, the company made known its action
at a press conference where
Henry Ford 2nd, president,
celled the price slash an "investment in the future."

The company was closing

The company was closing the books, Ford said, on its post-war losses, accepting them "as an item of cost in a great and victorious war.

Calling upon all other companies able to to do to follow suit in halting the upward trend in prices, he said his company believed that the "shock treatment" of prompt action was needed to halt the "insane spiral of mounting costs and rising prices and to restore a sound hase for the hopeful period of post-war production we are now entering."

The prices of Ford models

duction we are now entering."

The prices of Ford models were reduced by the following amounts: Deluxe Six, Tudor, \$25; Super Deluxe, Tudor, \$50; Super Deluxe Fordor, \$50; Super Deluxe Eight, Tudor, \$25; Cuper Deluxe, Eight, Tudor, \$15; Super Deluxe, Eight, Tudor, \$15; Super Deluxe, Eight, Fordor, \$15; Super Deluxe, Eight, Fordor, \$15; Super Deluxe, Eight, Fordor, \$15; Super Deluxe, Eight, Convertible Cuh Coupe, \$25.

Tord said that the reduction

Ford said that the reduction had been made in the price of Ford models "because that is our most popular line," and countered questions regarding a possible cut in the cost of Mercury and Lincoln models by saying that this was all that the company could afford to do now.

After losing more than \$50,-000,000 during the first nine months of 1945, Ford made "a modest profit" during the last quarter, Ford said.

Ford said that the reduction in prices would mean the com-pany could underself the Gen-aral Motors Corporation, larg-sit company in the business, by \$2 or so on the lowest priced model made by Chevrolet.

What makes it all the more peculiar it that mayors of both cities are Republicans — the same as in Rochester, proving (Continued From Page 1) that even a Republican can give

Complaints against collection
— or rather — lack of it — are
widespread throughout the city.
But the most troublesome spots,
strangely enough, appear to be
the 19th and 10th wards —
both good residential sections—
and both — politically speaking — overwhelmingly Republican.

Many observers see a tieup
between the two facts. They say
with the areas already so Complaints against collection

with the areas already so strongly Republican there is no need to woo the voters with good public service.

This apparently is true. Re-sidents of the two wards are paying the penalty of political regularity.

weeks; one month; and just once in a great while, , George Oliver one of the Superintendents of the Madison Theatre on Genesee St., showing a Sun photographer the barrel after barrel of ashes piled up in the areaway also pointed to a pile outdoors unde pointed to a pae outdoors inder a fire escape. He said he had been forced to pile them there — and had still more in the theatre's basement. "They haven't been around here in four weeks," he said Thursday. Several others expressed their opinion of the DPW and its methods. Here are some samples of the "printable" com-

ments:
"It's about time The Sun, or somebody did something about this city government gang. The ash men haven't been here for over three weeks. I have my cellar full, all the ash cans full and now I'm putting ashes right on my cellar floor because I haven't any more room any-where else."

Mrs. Mary E. Cultion, Seepworth St.:

Norma Beyers, 310 Epworth

"Our ashes haven't been col-lected for three weeks. They are all piled up and spilling over everything." Roland H. Potter, 1083 Dewey

"They finally came yesterday. It's the first time in four weeks our ashes have been collected.' Beatrice Tuchrello, 83 Flow-

weeks ago."

City Angered By Lack Of Ash Collections

CORRECTION—Last Sunday The Sun reported that ash and rubbish collections were inefficient, inept, and lacadesical mainly in the 19th and 10th Wards. A deluge of phone calls and letters since that story appeared convinces this newspaper it was wrong—the collections are appearently just as terrible in other sections of the city. Our apologies to our other readers residing in the many trouble spots reported. We should have said that the antics of the ash gang were troubling house-holders ALL OVER THE CITY.

We have taken our share of "demonstration" of last May, the hundred odd phone calls received at The Sun this week from residents of wards everywhere in the city commending us for publicizing the deplorable conditions that a slap-happy Department of Public Works has permitted to exist in the city for months. We had been very courteous to these nice people. We never once said "that's what you voted for." But we were many times so tempted.

There will never be any improvement in public service on the part of the boys in City half as long as it's such a cinch to be re-elected each time. I when you squawk about public service, the "boys" know savory record in labor relations.

The content simply to ask other citizens to support the March of Dimes for the National Foundation for Polic. Mayor Dicker takes his own suggestion and adds his bit to the cause. A folded bill was dropped into an Exchange but the first properties and the properties of politicians is even more fantastic at least from an administration with such an unpublic service, the "boys" know savory record in labor relations.

Douglas V. Lutzken of Webster, charged with first degree assault after threatening his exgirl friend with a revolver in an affort at reconciliation, also faces a second felony count—possession of a revolver when he appeared in City Court Tuesday morning.

He was arrested by detectives on the possession charge shortly before court convened. He pleaded innocent to the charge and Judge Michael L. Rogers adjourned both cases until Feb. 20.

Since that time, the burly brewery truck driver has found his troubles increasing, each time he appears in court. Last Friday he faced a charge of third degree assault when he first came into court. Then Assistant District Atterney John Lattle succeeded in getting the court to change it to first degree. Now Lutzken has the new charge against him.

He's ready to agree that he's in a pack of trouble, police say, But, he told investigators, he still is in love with Mrs. Randall.

FINDLAY BROTHER CENTRAL TRADES GETS LOOSE AND TO RENAME IS CAUGHT AGAIN ANTHONY CAPONE

Livingston County people breathe easier. Bernard Findlay, 17, younger of the Phantom Findlay Brothers, is again in custody after his escape Saturday from the Cheshire Reformatory at Bethamy, Conn. Bernard had made a getaway after knocking out a guard with smilk bottle.

Last Fall the Findlays, Bernard and his brother, Austin, 21, became locally notorious after they made their escape from officers who were loading the youths into a car at Livingston County jail. The brothers were handcuffed when they made their spectacular escape. They avoided capture for weeks, and mothers referred to them as bogey men to frighten children. Frightened women thought they saw them everywhere. They were finally captured in Massachusetts and sentenced to the reformatory for car theft and burglary.

DFFICER NAMED BY

10th WARD REPUBLICANS

Anthony A. Capone, president of the Central Trades and Labor Council (AFL) who resigned last fall only to have the body refuse to accept his resignation is scheduled, to be renamed to that post this evening at the meeting of the trades organization. He was nominated without opposition on Jen. 9.

Capone, who led labor forces in a city wide strike last May, resigned his post because of poor health. He was given instead a leave of absence. Hospitalization followed with Capone directing work of the organization by remote control with the aid of Anthony Schneider, acting president.

Capone has indicated he will accept the "mandate" of the body only if they provide him with enough committee assistance to lighten his load. This, the council has promised to do. Schneider will continue acting president.

'RING' HERE A Federal Grand Jury sitting in Elmira yesterday heard the evidence gathered by Rochester police, federal marshals and the FBI against a gang of alleged car thieves, four of whom were apprehended in Rochester last Dec. 14. The ring, one of the largest uncovered by authorities in recent years, is said to have operated between this city and Toledo, O. and as far south as Athens, Ga., and to have been involved in theft of nearly a quarter-million dollars worth of late model motor vehicles. First break in the case came when four men were named as Robert O'Leary, who gave a downtown hotel as his address; James R. McCawley, Alfred Smith and Anthony Grubbs, all of Toledo. Following that the FBI came on the scene and arrested Edward Craig in Toledo and Roy Watkins and Fred White in Athens. Assistant U. S. Attorney Austin J. A reduction of one cent aquart in the price of milk in this area was held out yesterday as a possibility for February by the United States Department of Agriculture.

But if the price cut comes, it won't be with the approval of the Dairymen's League, the largest producers cooperative in New York State.

The government agency said the price paid to producers would undoubtedly be lower next month than during the past several months and inferred that the lower cost would be passed on to the consumer.

"Tain't fair" says the Dairymen's League. Officials of the cooperative say that increased cost of production makes it imperative that the retail price of milk not only be held stationary, but eventually increased. Decline in price to dairy farmers at this time is entirely unjustified. D airy league officials declare. To lower the price of milk to consumer would produce ill effects on the entire agricultural economy in the northeast section of the country, is the dairymen's contention. They say that, right now, in terms of hours worked, they are the lowest paid workmen of all.

'I REMEMBER MAMA' HELD AT COMMUNITY

Posting of "standing room only" signs in the lobby of the Community Players Theater at Clinton Ave. S. at Meigs St., has forced an extra pelformance of their current production, "I Remember Mama."

Robert Stevens, director, said today the production, scheduled to close with tomorrow night's performance, will run through Saturday. The play opened Saturday, Jan. 11, and attendance has been at a near record with a continuing demand for seats. The production was particularly notable because of inclusion of 15 new actors and actresses in the cast and because of brilliant work on the part of the stage crews in overcoming staging difficulties.

Rochesterians who have seen the play have been near unanimous in praise of the work of the performers and appreciation for the intricate stage, settings. It is the fourth play of the current season.

ROUNDELAY

(Continued From Page 1-A)

When the gang came to work Monday morning, MacMillan was already there, with his office door locked!

They listened from outside in the corridor. There were groans, and cries and screams of anguish! "It's impossible!" came the pitiful cry... "not only ALL the winners correct, but All the losers, too!"

"By all that's human... how could this happen to me!???!!"

Finally, just before lunch time, Mac's door flew open and out he came. His face was ashen, his collar wilted, and his hair a mat of twisted snarls.

"Listen," he cried, grabbing an innocent script-girl by the elbow, "I've got to talk to someone. I'm losing my mind!!!

Look... look at this score. EVERY winner right, AND the correct scores... and EVERY loser correct to the last digit. Its impossible — its unhead of—the chances are 1,054,335, 092 to 1 that it could ever happen!"

"You mean," queried the girl, "it can't be done?"

That was the first time that

The involved business of selecting baseball players, old ones, for the Hall of Fame at Cooperstown, N. Y., now goes on, as it has been going on for years, and the reason that so few new names have been selected of late is that II the baseball writers have been selected of late is that II the baseball writers have been selected of late is that II the baseball great property of the property of the selected of their own in stead of getting together and naming one popular candidate. The manes are good ones, all admit, but, after all, a name has to have a certain number of votes before selected for the Hall of Fame.

Every fan has a lot of favorties to name and, in Rochester especially, Frankle Frisch, the indomitable Dutchman, who the late John J McGraw once selected to succeed him as Giant leader, is practically a favorite of all.

The Fordham Flash, was as good a second baseman, as anybody, and also as good a three hall of Fame, admit and proved that they were the best, or at least as good as any who had preceeded them.

Dean at his peak was something to dream about, the man becamed and hasn't been up to this writing, is your old friend, serome (Dizzy) Dean who lashed in the baseball firmament so brilliantly and for so short a time with the St. Louis Cardinals, That would be the teem against him, his shortness of service in the majors. But as there over a more brilliant, also screwball, performer extent, for the time he worked? Probably not?

A scout, also screwball, of no cost at all, is always venerated by Branch Rickey, who profited by the discovery.

Dizzy, like the late screwball who preceded him in baseball, Rube Waddell, was not at all modest, and probably no really great performer in anything at all ever is, Richard

est, full of heart and "know

And there is that giant of a man, Harry Heilmann of the Detroit Tigers who lead the American League in batting in off years. 1921, 1923, 1925 and 1927.

One time when the late George T. Stallings "tribe", then of Rochester, was playing the Tigers an exhibition game in Savannah, Ga., Stallings' team was leading by one run in the ninth and, with the base filled and two out, Heilmann strode up 15 the plate for Detroit.

Detroit.
Stallings was in a predicament. He wanted to win that game, even an exhibition one, as much as he wanted to retain his right arm, but it appeared he was about to lose it. All Heilman had to do was to hit the ball and Stallings' vic-

All Heilman had to do was to hit the ball and Stallings' victory would go to smash.

There was Heilman at plate, with the bases loaded. Wat to do? A crackpot by the name of Thormahlen was pitching, or trying to, for Stallings. He was not the veteran Thormahlen who once pitched for the Yankees. but another southpaw, oddly enough, named he same.

Stallings could have allowed his Thormahlen to pitch and ake a chance, but he didn't leet to do that. Instead to got n. s row with Ty Cobb, then cading the Tigers, which he preceded to do.

Cobb realized perfectly what Stallings was trying to do, and he openly accused Stallings befare the crowd.

Fut Stallings scheme worked, had all the while Heilmann stood there at the plate swinging his bat threateningly.

"You're a no good, and never was," Stallings yelled to Cobb.

"And this Heilmann, the big bim, con't hit a cream cake with a paddle!" Stallings roared.

A notorious character, by the same of Staembeat, Johnen.

A notorious character, by the mame of Steamboat Johnson, was umpiring. Steamboat loved to be a show-off, and he sensed opportunity to show off.

"Gentlemen," yealled Steambeat, as he tossed his mask to the ground, "Both Mistah Cobb and Mistah Hellmann have insulted in my presence, and hetere all these people."

"Beanness" yealled Stellings

the ground, "Both Mistah Cobb
and Mistah Heilmann have
insulted in my presence, and
hefore all these people."

"Banans:" yelled Stallings
in derision.

"I hereby call off this game,"
Steambeat yelled. "This game is forfetted to Detroit, 9 to 0."
There was a broad grin on
Stallings' face. He jumped off
the bench and motioned to his
ball players to follow.

"That's one way to keep
from ? knocked silly," tuanted
Cobb.

"It's a darned good way,"
answered Stallings.

Whether or not Heilmann
w tild have hit the ball out of
the lot that time will never be
innown. Probably he would
have. At least, Stallings feared
he would do that very thing.
It would not have happened
except in an exhibition game,
even in Georgia, but it happened there, and the fans, some
500 of them, sensed they had
been cheated or, at least the
next day they informed the
Savannah newspapers they had.
So Harry Heilmann, should
be elected to the Baseball Hall
of Fame, with no friends lost.
And another question is:
which Rochester team had the
greatest outfield. The average
local fan will say that the outfield of Worthington, Watkins,
and Southworth himself, with
Southworth's champion Red
Wings of the 1929 period was
by far the best.

But was it? George Stallings
had a great outfield in Rochester in Bob Futhergill, Homer

However one of these questions can be settled even by arguments, no more can everybody be made to agree on who shall be selected for the Hall of Baseball Fame.

Pie Traynor of the Pirates has been mentioned for third hase. All should agree on Traynor. Traynor was the man who made it stylish for big men to play infield.
For Rochester, though, Joe Brown, the Buffalo Polish boy,

HOCKEY BISONS FACE
PITSBURGH AT BUFFALO

Unbeaten at home since December 15, the Buffalo Bisons will stack up against one of their most formidable opponents when they take on Max Kaminsky's Pittaburg Hornets to-night at Buffalo Memorial Auditorium.

With only one-third of the American Hockey league's schedule left to play, the Western Division finds itself in one of the hottest races for playoff positions in the league's history. Only six points in the league standing separate the fourthplace Hornets from the dead-locked, top spot Cleveland Barons and Indianapolis Cavitoles.

Fazio, the Canadian Open champion, carded a 277 total at Richmond in following up and has since gone right to the top as a professional, earning several Madison Square Garden dates. The Italian-American fighter, still a welter, now makes Cleveland his home.

His record compares with the best. He's kayoed Norm Condaro, Al Beauhold, Jim McCormack and Mitsos Grispos and beaten such well known performers as Babe Thompson. Stan Murcyzak, Tito Taylor, Ra me y McKnight, Beauford positions in the league's history. Only six points in the league standing separate the fourthplace Hornets from the dead-locked, top spot Cleveland Barons and Indianapolis Cavitoles.

As a professional, earning standing created a 277 total at Richmond in following up his recent first place tie vietory in Bing Crosby's \$10,000 golf tournament.

This will be the nearest approach O'Mahoney has made ing the announcement. It do of the 161 cast. This will be the nearest approach O'Mahoney has made to a title shot since he lost the championship some years ago. It will also mark one of the few eastern jaunts of the season for Wild Bill. Longson does not entertain much of an inclination to risk his prize in eastern mat halls and customarily confines his activity to the midwest, where he can pick his spots. He has earned buckhis spots. He has earned buck-ets of money with his champ-ionship and he intends to continue in the same direction

However, all champions must risk their glory at least on occasion. The occasion is usually created by ambitious promot-ers who are willing to post a sizeable purse in order to sec-ure the talents of a titleholder

O'Mahoney is expected to give the champ a run for his money. It was Danno who eventually lifted the title from the great Jim Londos, who held the mantle for years.

A match that would ur edly get top billing if it weren't for the visit of the champ, will occupy the semi-final spot. Ray (Sandy) O'Donnell, the St. Lou-is villian, and Paul Boesch, who recently held Frank Sexton to a draw, will supply the

Their regular "High Jinx" program will be sponsored by the clothing concern three days each week starting Feb. 16. Finds 'Brick' Is Horseshoe —With The Horse Attached

One of the horses in the George Elam Co. barn at 9 Wood frightened and kicked the inter-St., objects to being crowded out of his stall by a human companion, according to the experience of Jack Codder, 36, of 86 belavan St.

lence of Jack Codder, 36, of 86
Delavan St.

Police were brought into the case when a report of a man injured by an unknown person was received early Tuesday morning from a restaurant at 600 Portland Ave. When they arrived they found Codder suffering from a deep laceration over the left eye, caused he said, by someone hitting him with a brick. He was taken to Municipal Hospital in the City ambulance and then the detectives began an investigation.

Instead of o brick-throwing human, they discovered, the injury was caused by a hard-kicking horse in the barn. Police said Codder had been drinking and had fallen asleep in one of Feb. 12.

Palace Sets Daily Opening At 10 A. M. LAVALLE SAYS BATONS MAY BE ON WAY OUT For 'Razor's Edge' Showing

Darryl F. Zanuck has trans-formed W. Somerset Maugham's 'The Razor's Edge" into one of "The Razor's Edge" into one of the finest motion pictures ever to reach the screen. The picture starring Tyrone Power, Gene Tierney, John Payne, Anne Bax-ter, Clifton Webb and Herbert Marshall, opens today at RKO Palace theatre.

Palace theatre.

"The Razor's Edge" is the powerful and deeply probing story of one man's passionate search for true peace and inner contentment, a search that tore him from all love and sent him plunging into strange places half-way across the world. And, too, it is the story of the woman who loved him, and of her desperate and ruthless plot to save him from himself and for herself.

Tyrone Power gives one of the finest performance of his career in the role of the sensitive and in the role of the sensitive and introspective Larry Darrell. Are batons on the way out?
Paul Lavalle, "Highways in follow their lead. Lavalle, who Melody" conductor points out hasn't used a stick in years, that Stokowski and Mitropolus two of the outstanding symphonic maestros never use and convey more nuances to the batons and the trend is to musicians than a stiff baton.

TIME, PLACE AND GIRL' MOVES TO REGENT SCREEN

The star-studded, tuneful and

The star-studded, tuneful and joyous Technicolor musical, "The Time, The Place and The Girl," has moved to the Regent for a third big week. The popular screen combination of Dennis Morgan and Jack Carson is starred and for plenty of romantic interest, Martha Vickers and Janis Paige.

The film spins an entertaining story of a night club singer (Morgan) and an orchestra leader (Carson) whose plans for opening a night club are temporarily stymied by symphonic conductor Ladislaus Cassel's (S. Z. Sakall's) styffy manager, (played by Donalds Woods) who feels that the noise emanating from the club will greatly disturb the musical genius.

Three of the outstanding musical numbers are "I Happened to Walls Down First Street"

sical numbers are "I Happened to Walk Down First Street,"
"Through A Thousand Dreams"
and "A Rainy Night in Rio."
Carmen Cavallaro and his orchestra are featured in a lavish

IRVING BERLIN'S BLUE SKIES' AT CAPITOL

Three million dollars worth Three million dollars worth of musical entertainment, in technicolor fashioned by America's master of melody, arrives today at the Capitol Theatre with Irving Berlin's "Blue Skies," starring Bing Crosby, Fred Astaire and Joan Caulfield. The melodic masterpiece features Billy De Wolfe and Olga San Juan, the Bombshell from Puerto Rico, via Brooklyn.

"Blue Skies" contains more of Berlin's music than any oth-er picture Hollywood has ever made. Berlin wrote four new songs, and composed new ly-ries for an old time favorite, to make a total of 32 hit tunes of the past and present which are heard in the movie.

Against this melodic back-ground a love story involving Bing, Fred and Joan is unfoldod, with Bing singing no less than 16 songs and Fred offering what previewers have called the greatest display of his tal-ent ever seen on stage or screen.

Republics most exciting action film to date, "Rainbow Over Texas" starring Roy Rogers will be the second feature on the program starting today at the Capitol.

Indians Primed For St. Kit's Return Tomorrow

St. Catherines moves into town tomorrow night for a return engagement with the Rochester Iroquois in what promises to be one of the top attractions on the local lacrosse schedule. Game time at the Main St. Armory is 8:30.

The chips are down in this one, particularly for the locals. Slow in hitting their stride, the Indians dropped a 12-9 decision to St. Kitts' Dominion champions here a month ago, but have been coming along fast since. They showed more polish than they have all season in their last two starts, and should rate on even terms with the visitors tomorrow.

The return of Maxie Martin, rugged defenseman, to the line.

Take it from a fellow who has had a piece of one and now handles the other, Allan Faulkner, Buffalo's up and coming Negro welterweight, will have whipped Sammy Secreet when the smoke of battle has cleared in the Sports Arena next Monday night.

Burba, veteran matchmaker at the Eiks Club, is the man who launched Secreet on his procareer after Sam had fought in some 250 amateur scraps. Secreet had about six fights under Burba before he hauled stakes and moved to Detroit. Since then he's been in with and beaten some of the best in the land and for that reason figures to be favored over Faulkner.

Faulkner, '45 National Añul champion, has taken 28 of 28 pro starts and looks like the best prospect to hit Buffalo in years. Burba is now a part-time manager of the Buffalo lad and expects him to do big things, one of which is defeat Secreet. "But," adds Burba, "it should be one of the best bravel seen here in some time."

FORMER MAYOR'S SON WINS FIRST COURT TEST

A young Rochester lawyer who served with the Federal Bureau of Investigation during the war was winner in his first trial of a court case Friday. The lawyer, Percival D. Oviatt Jr., admitted to the bar last September, was assigned by County Court Judge Charles B. Brasser to defend Jack Hagen, 65, of 119 E. Commercial St., East Rochester, charged with first degree grand larceny. Hagen was indicted for theft of a car owned by a Penfield woman, Esther Mundnich, last Dec. 19.

A jury acquitted the defendant after deliberating only a half hour.

WATER DISTRICT APPLICATION

An application to run a water line into a proposed West Lake Road Water District. Town of Williamson, has been denied by the state department of audit and control, it was revealed this week.

The area adjoins the present Pultneyville water district on the west and runs from the lake shore to a line approximately 500 ft. south.

According to the state bureau, denial of the petition was based on the "undue burden of taxation which would be necessary to amortize the debt." The state of the well of the population of property in the district for debt service alone.

In denying the application the audit and control department said that a new application the said that a new application the said that a new application might receive favorable attention if the work of the price of materials and labor, or if new construction in the area or a reassessment made the proposition economically feasible.

teachers appointed committees to lay the edict before the local and state educators, political leaders and teacher association representatives as well as to bring it to the attention of the press and radio.

"Dignity' Out

The teachers definitely were tossing overboard their dignity which had failed to get them any additional funds all through the rising-price years.

West High School teachers also met on Friday, but the salary subject was sidetracked whenever mentioned. One teacher, demanding immediate action, was advised to wait until the state budget had been presented to the legislature. This, he pointed out was exactly what the teachers had been doing locally with the city council for years — and it had gained them nothing. He warned that after the state budget was approved it would be too late to seek increase salaries this year.

to seek increase salaries this year.

While many of the assembled teachers failed to support the speaker's plea for some definite action, none could, nor even tried, to deny his logic.

With each passing day it became more apparent that unless the legislature was ready to act—quickly and favorably during the current session, Rochester teachers were ready, willing and able to join their sisters and brothers throughout the state in a walkout.

Meanwhile board officials say Meanwhile board officials sat quietly in their offices wonder-ing what effect the announce-ment that local teachers would probably not even share in the already-granted \$300 temporary raise voted by the state might have on those who would suffer. The board is already operating at a \$360,000 deficit for the year at a \$500,000 deficit for the year and it is expected that whatever funds are turned over to the city by the state will be used to make up that deficit. That leaves the local teachers strictly holding the well known bag. Living Room Suite

The pro promoters have dotted the underneath card with several ex-Elks Club favorites, notably Jim Saunders, Ernie Pelaia, Moe Harvey and Jesse Riddle. Saunders, fresh from a long tour with Uncle Sam, is going good as a pro now in Ohio and will be featured in the eight-round semi-final, facing Pelaia. Pelaia, native of Beaver Falls, Pa., is a stablemate of Secreet. A rugged, tough hombre, Pelaia is rated a good trial horse and should give the Rochester fans a line on Saunders' ability.

Saunders' ability.

One of the two sixes will show the popular Moe Harvey, Warren, Ohio, against Tony Sciolino, Buffalo veteran who is making a comeback. Harvey lost his one pro start here, a close one to the clever Tal-madge Bussey of Detroit. Scio-lino in the late '30s was one of the best boys around, boasting a win and a loss with Tommy Paul, former NBA champ and a close nod over Wes Ramey. The rest of the card follows:

MOTORCYCLIST HELD AFTER **CRASH HURTS 4**

When Clarence Vik, 19, of 39 S. Union St., mounted the motorcycle operated by his foster brother, allegedly with-out permission, in Division St. Monday noon a chain of events was unleashed that sent four to the hospital with injuries and resulted in his appearance in City Court Tuesday on charge of second degree grand larceny and driving without an operator's license.

According to police, Vik took the motorcycle, owned by Heinrich Motor of Lake Ave., from Division St. Monday noon and, with Ernest Connor, 20, of the Oak Hill Country Club, on the sidebox drove around the block through Clinton Ave. N., Mortimer St. and St. Paul St. On the second turn around the block, Vik lost control of the vehicle as he attempted to turn left into Clinton Ave. and the machine jumped the curb striking Gloria Weise, 18, of 145 Rossiter Rd. and Rita Jaroszewski, 12. of 181 Furlong Rd., who were walking on the sidewalk. The crash also smashed three doors of the Sibley. Lindsay & Curr Co. entrance and a large plate glass window in the department store. of the Oak Hill Country Club,

Operator of the motorcycle. Operator of the motorcycle, an employe of the Heinrich firm, was George R. Kelly of the Union St. address. Vie, Connor and the two pedestrians were treated for minor injuries at Genese Hospital. When Vik made his appearance in City Court before Judge James F. Sheehan he pleaded innocent and the case was adjourned to Feb. 20.

Apple filling, too in Pyequick!

Crisp, firm epple siles and spice come in the larger carton inside the Pyequick package. Empry into bowl. Add 19% cups warm water. Let stand 10 minutes, just while you roll out the pastry. (The apple slices have been quick-dried and puffed. Firm, crisp. Not leathery or wrinkled.)

Piecrust mix comes in smaller carton. Enough for a two-crust 8-inch pie. Empty into a second bowl. Sprinkle with ½ cup cold water. Mix, roll out. The pastry will stand considerable overhandling. That's due to the quality of the pastry ingredients, and their expert blending.

Just befere emptying apple filling into pastry-lined pan, add ½ cup sugar, and sitr. No peeling of apples! A delicious pie every time. Pyequick is made by the millers of Gold Medal Flour. Recommended by our General Mills staff. Do try Pyequick! Betty Crocker

True love culminates in a true and faithful marriage for James Steward and Donna Reed in "It's A Wonderful Life," Frank Cappra production open-ing today at the Capital Thea-tre. This romantic comedy-dra-ma about the lives of small town Americans is filled with humor and pathos.

Featured are Lionel Barry-more, Thomas Mitchell, Henry Travers, Beulah Bondi, Ward Bond Frank Faylen and Gloria Grahame. The screen play was written by Frances Goodrich, Albert Hackett and Frank Ca-pra.

Those doves of peace have become pestering pigeons which deface Ben Franklin and the stiffer with this as a Kalsomiear would smear a fence. Last November 7th The Record got smeared, too, by a strike. Last week The Record decided it wasn't worth while to scrub off the smear, threw the sponge into the laps of the strikers and went out of existence. For 77 years it had told its story; since 1932 had fought for a philosophy which finally destroyed it— the New Deal.

Application of Emil Muller Construction Company to build a group of eight apartments in a garden-court arrangement at 1059 Lake Ave., was granted Thursday by the City Zoning Board of Appeals on one condition.

New Bridge

A proposed new girder bridge across the Barge canal on East Henrietta Rd. will cost approximately \$333,000, if estimates of New York State District Engineer Elmer C. Lawton are correct. The structure, for which construction bids will be received in Albany on Feb. 19 will have one 99-ft, span and two 85-ft, spans.

But if Engineer Lawton's cost estimates aren't any closer to fact than the time estimates computed for completion of a bridge across the canal at Brooks Ave., the Henrietta Rd. structure is going to cost considerably more than the present estimated figure.

Contracts for the Brooks Ave span were let last year and the bridge was to be opened in November, 1946.

It isn't anywhere near completion yet. In fact, residents in the area are resigned to having the bridge out well into next summer.

Take it from an authority—kindness will win over

Take it from an authority—kindness will win over almost anyone—even the most hardened criminal.

So says Mrs. Mary Barbara Kerber who recently completed a 37-year term as matron in Police Headquarters.

She feigned great indignity, when charged with her crime, denied in completely and then refused to talk to anyone Lodged in a headquarters cell she was finally turned over to Mrs. Kerber. As the former police matron recalled this week, after two or three days of kindness and gentle treatment she won the confidence of the Melbert word may be decided she deserved a real iter and resigned from "the force" effective Jan. 15.

Mrs. Kerber recalled that and resigned from "the force" effective Jan. 15.

Mrs. Kerber received her appointment in February, 1911 from Charles S. Owen, then commissioner of public safety. A start interession had been made for her by her former employer, Benjamin Chase, at the attime president of the National Casket Co. and the Central Trust Co.

She worked under Chief Quigley and all the polic, head since, up to and including the present Chief, Henry Complexed with her crime in all its details to Mrs. Kerber and then, at her request, repeated that confession in front of Chief Joseph Quigley and a court stenographer.

Returned to Schenectady for her remained to 20 years in Aubuurn. Edith Melbert was found dead in her cell one morning about two years after her commitment.

Rassle' Fans Await Sexton-Von Schacht The Rochester Sun, Sunday, February 9, 1947 DODGE

Frankie Sexton, claimant to the world's wrestling champ-tonship who copped a dubious victory over Paul Boesch herc last week, will return to the Edgerton Park Sports Arena Wednesday night for a date with Friedrich Von Schacht, the bad baron from Milwau-

The National League should present a better pennant chase this year than the American. Over in the Junior Loop, Boston should lead the race with Detroit and New York trying to get in some damaging punches. But in the older circuit, there are half a dozen teams either strong or definitely on the upswing. The Cardinals naturally are contenders and we picked them as the Number 1 contender earlier this year. The Dodgers are rated even stronger by many writers this year and are almost certain to be among the top at the season's end. Then the Chicago Cubs, champions in 1945, are due to hit their stride again this year after a season of injuries and a third place lapse lest year — so they say.

tago Cuos, champions in 1946, are due to hit their stride again this year after a season of injuries and a third place lapse lest year — so they say.

But the Boston Braves, who finished fourth last season, pourin' on the coal and breathing down the Cubs' collective necks, are also to be considered. If they play the same kind of ball this year as they did in August and September of last, they might finish everywhere from first to fourth place.

Even the Philadelphia Phillies, who zoomed out of the gutter and into the top rung of the lower division last season, are counting on doing better this year. That already puts five in the first division. And that isn't all.

Take the Pittsburgh Pirates, for example. There's a team with the two leading homerum hitters of each league last season. When Greenberg joined the Pirates and Ralph Kiner decently, he gave the Pirates a two-man 65—plus run producing combination—as of 1946. Thus, the Pirates might be a threat to somebody this year themselves.

63—plus run producing combination—as of 1946. Thus, the Pirates might be a threat to somebody this year themselves.

Only two teams that don't seem to be much of a threat are the once-proud New York Giants and the Cincinnati Reds. The Grants don't offer much of a threat to anyone this year in the opinion of most writers. The Reds' last great surge was in 1940, when they won the world championship. Since that time they have steadily gone down until Manager Bill McKetchnie finally hung up his gloves. They seem to be no threat again this year.

The Chicago Cubs are in for a rough season unless they come up with a very-much-improved ball club. They are playing with better teams this year than last and, instead of regaining first place, they might find thmselves below the Braves or Pirates if they let up. The Phillies are in for a let-down this season also. As for the Cardinals, they must be rated tops until someone beats them out. Any team that did what they did in as desperate a finish as that of last year. would be hard to defeat. They will be hard to down if

AUDITORIUM SHOW NIXES EMCEE 'CORN'

With a full two hours Scheduled to vaudeville the gala show planned for the Auditorium Theater Feb. 20, under sponsorship of the Rochester Consistery will be missing one feature — much to the relief of the audience. There will be no master-of-correnous! no master-of-ceremonies!

"Vaudeville, not corn is what the customers want", say offi-cials of the show, so a master of ceremonies is out as far as we are concerned."

The step has met with whole hearted approval among pro-spective patrons.

Headlining the show is "Frank Paris and His Marionet "Frank Paris and His Marionet-tes" who were twice featured at Radio City Music Hall dur-ing the past year. Only local talent on the program is 'Alfie' Monk and his 12-piece orches-tra. And his inclusion has also met with acclaim. The name Monk and vaudeville are almost synonomous in Rochester where that musical family furnished the bands in the pit at all the once-famous local vaudeville

once-famous local vaudeville houses.

Other acts include:
Eddie, Jack and Betty, sensational roller staters who have just completed a season with Ringling Bros., Theirma King, dance stylist of New York's Latin Quarter; Carlton King and Dorothy, magicians; "Blackie" Schnacker, harmonica virtuoso featured with Rudy Valley and Fred Allen; Ben Yorst's Viking quartet and Joe "Quiz Show" Martin, who guarantees "20 minutes of belly laughs."

Tickets will go on sale at the Auditorium box office on Monday.

FACT — Both the Times-Union and the Democrat & Chrönicle tried their best to locate non-union printers to get out the papers in spite of the union. They tried to get advertisements both in newspapers and over the air asking for non-union printers to work in AN OPEN SHOP. Most newspapers in the area turned down the copy as did The Sun and the radio station to which the mesage was offered. But the advertisement did appear in scattered rural communities adjacent to Rochester. cent to Rochester.

FACT—While it is true that there is no printed newspaper record of happenings in the city for those who depended on the Democrat & Chronicle during the past three months — those who depended on The Sun (70,000 out of the 80,000 homes in the city) had a full and complete record of the city's happenings without intercuption during the strike. Neither the Democrat & Chronicle nor the Times-Union has a God-given right to the news nor a corner on the intelligence needed to print it. The Sun proved that during the strike.

So gentlemen of the press, let's try to stick to facts in our news columns — even if doing so forces you to give credit where credit is due. Don't worry about our competition for the news — we promise we don't even try to compete with the news columns in your two-aday editions with our once-aweek edition. But we will continue to tell "the other side of the news" — those items you find it convenient to forget. Come on — 'fess up — join with the thousands of Rochester newspaper readers who have already told us that The Sun did a pretty fair job of carrying on while you straightened out your salary disputes with your emsalary disputes with your em-ployees. Rejuvenated' Eddie Smith Ready For Monday Foe

Tireless Eddie Smith, Rochester's most popular pro-fessional, goes back into action Monday night at the Sports Arena, meeting Johnny Mazanoble, up and coming Scheneetady welter in the 10-round main event on the Peter Provenzano Club's semi-monthly show.

Four sixes are planned for Monday in addition to a four, according to Matchmaker Angelo Rose. One of the sixes will mark the professional debut of Harry Smith, better known as Snuffy, baby member of the Smith clan.

Harry is just out of service after more than a year in Germany. A bantamweight before Pearl Harbor, Snuffy now works at 135 pounds and gave amateur fans at the Elks Club a look at his prowess last month, beating the veteran Connie Thies of Buffalo.

Snuffy is due to meet one Al Victory, a battle-scarred Syracusen. The rest of the card is in the making, according to Rose.

Political Red Cross Campaign Starts Monday

Every so often a ray of sunshine comes out of City Haul and we realize that an administration, no matter how bad it is. Can't be wrong ALL the time.

The decision of the City Fathers to put the bite on some of the downtown rent gougers is truly commendable. The city needs the dough if they are to do half what they promise and half what they should do. There is little reason why, when times are so good for downtown landlords that they shouldn't be asked to part with a fraction of those one hundred to three hundred per cent hikes they have been slicing off the profits of their tenants.

Most apt to get the attention of the assessors is the Clinton St. South sector where property conscienceless. It will be a comparatively easy task for even such a politically minded administration. Few if any of the new names on the assessment of workers in the plant chaining Republican connections.

Swartzenburg, director of the Western New York District of the War Assets Administration thas started a campaign in his Buffalo office to improve letter writing in his own balliwick. Who knows? May be it will start a nation wide reform movement in a lost art?

"Our WAA district is writing letters at the rate of 200,000 a year at an average of between \$1.00 and \$1.50 a letter? he said in a memorandum to the 500 employees in the district. "It is necessary that we conduct much of our business by mail, but at least these letters should be as expressive as possible."

"Be brief. Dictating a letter is a temptation for an executive to ramble on, because he knows he will not have to do the actual physical work typing it. If he had to write it out in a longhand, you can be surehe would not make it long."

Swartzenburg warned WAA employee against use of stilted expressions, such as: "Your letter wa duly received," and "We bag to advise that..."

"These expressions" he said, "should have gone out with hoop skirts, but they still are being used. Be prompt, be brief, and above all be polite in answering letters, for the individual who receives letters from the WAA is your employer."

As has been pointed out in these columns before, pedestrians in the older age groups are particularly susceptible to violent death from traffic hazards. According to Leon H. Now we ask you!

GOVERNOR DEWEY SAYS: "Teachers are local employees, paid by school districts out of funds raised locally and supplemented in part by state aid."

SENATOR FEINBERG SAYS: "You just made a statement that the Constitution provides that education is a state function. Where do you find that in the state Constitution?"

SENATOR GRIFFITH SAYS: "There is no provision in the Constitution that legislators must appropriate one penny for the support of schools."

Here are the facts!

- 1. School boards and districts are state agencies of local jurisdiction. This issue was settled in the Gunnison Case: "There is no contract or official relation expressed or implied between the teachers and the city. All this results from the settled policy of the State from an early date to divorce the business of public education from all other municipal interest or business and totake charge of it as a pecular and separate function through agents of its own selection and immediately subject and responsive to its own Control." (176 N.Y. 11)
 - 2. The Constitution reads, "The legislature shall provide for the maintenance and support of a system of free common schools—" (Article XI, Section 1) "Nothing in this article contained (Home Rule) shall apply to or affect or be deemed to restrict the power of the legislature in relation to the maintenance, support or administration of the public school systems in any city—" (Article IX, Section 13)

EDUCATION IS A STATE FUNCTION

This points out clearly the State's responsibility. Yet, if the State fails to provide an adequate, equitable, long-range tax program the burden must fall on the local communities.

LADY OF LETTERS

Few of the big night-time radio stars have a following as ardent as that of serial Quee Lucille Wall. She's the star of "Portia Faces Life," which usually rates amoung the

Smartly dressed, pretty, the actress has been with the the seven -year - old show since the beginning. She is the performer who always grips a handgerchief in hand for fear during a broadcast she may suddenly sneeze. To date she never has.

Be she maid or widow; angel of mercy or gunmoll, Ann's characterizations are well nigh perfect With script in hand, Ann has the stage-presence of a real trouper when on the air. It is a pelasure to watch her perform before a mike.

Amn's present job is that of writing commercial copy and musical continuity specialties for WRNY, and with her pass experience we know that she will do all right.

Dave Curtin attended the public schools in Rochester, Aquinas Institute and Notre Dame University. An officer in the Marine Corps during the last big shin-dig, Dave saw plenty of action in the Pacific. As a thespian, Dave has plenty to back him up there, too. He has worked with the Community Players. has worked with the Com-munity Players, the Black-friars and was east in many a dramatic and musical produc-tion at N. D. U. Another graduate of the "State Troop-ers" program, Dave is a per-fect reader, and possess's a fine sense of the dramatic. (I must admit, though, he's not half so pretty as Ann.) Two grand

The way they toss my nonsense in and out of this paper is giving me the hiccups! Last week there were thousands of phone calls asking where was my column. Hundreds, I should say . . Well, anyway, my wife missed it!

But to get on the air . . . let me tell you a bit about this WRNY, Rochester's newe at sound-depot. It's the snazziest, most beautiful decorated station that I have ever seen! Small in comparison with Radio City, but for good-looking, up to date fixtures and layout . . . Brother, you ain't seen nothing like it!

To my own surprise, I have discovered that a couple of the gang that run the place are friends of mine . . . or, at least they were before I started this column. Dave Curtin and Ann Houlihan. Lots of nice people at WRNY, but I em esay a word about Ann and Dave.

Loretta Young and David Ni-ven are the "ideal couple." Ironically and foolishly, they turn their tenth wedding anniver-sary into a domestic squabble, suddenly becoming bored with each other, and hating the in-timate little things in their mar-riage that had previously en-deared one to the other. Hila-rity and tenderness are brilli-antly combined in the eventual solution of their marital mad-ness, a solution which might well become a "good lesson" to people everywhere who have been affected by the same en-nui in their marriage that ef-fects the screen characters. GIRL SCOUT FASHIONS—As a feature of the 35th anniversary celebration of the founding of the Girl Scouts, the Rochester Museum has arranged an exhibit and demonstration of girl scout equipment and activities for Sunday. Modeling the original uniform, owned and worn by Miss Mary A. Paris when she organized the first troop in the city is Mrs. Rufus C. Crain. (left) leader of Brownie Troop 183. At Sunday's event members of Troop No. 35 and No. 67 will be stationed in the museum. Two movies about girl scout activities will be shown at 3 p.m.

Lovely Mary Lou Nelson will play the role of Snow White, Peter Brysac will portray the Prince, and Michael Stewart will be the witch.

The story of Snow White involves a beautiful queen who receives the gift of a magic mirror which has the power of speech. When sh asks th mirror, "Who is the most beautiful the most be tiful person in the world," the mirror answers, "Snow White."

This enrages the queen, who is the foster mother of Snow White, and she orders Snow White to be taken into the for-est to be killed by the old witch. Instead, Gertrude, the queen's attendant, takes the girl to the home of the seven dwarfs who care for her.

But through the magic mir-ror, the queen learns where Snow White is and sets out her-self to obtain the witch's help in doing away with Snow

White.

Through the intervention of the Prince, the queen's plot not only fails, but is turned against herself, while the Prince and Snow White are married and, of course, "live happily ever after."

The Red Cross drive is on...

Yes, the war is over.

But the Red Cross war against misery and suffering never ends. In peace, as in war, the Red Cross keeps on fighting - fighting for human happiness and welfare all over the world.

THE VICTIMS OF DISASTER. Hurricanes, floods and epidemics strike at

thousands of American families every year. This year, as always, the Red Cross will be there — with emergency medical aid for the injured . . . food, clothing and shelter for the homeless . . . rehabilitation for the needy. War against human suffering never ends!

OUR WOUNDED VETERANS. They know at first hand how the Red Cross helps them through their suffering, and makes their days less drab. Right now, the Red Cross is providing thousands with guidance in personal and family problems . . . furnishing representation for their claims . . . aiding readjustment to civilian life.

Concern for our veterans' welfare never ends!

OUR GIS. The Red Cross is a link with home. It helps maintain the GIS morale with recreational programs and many personal services. The need for this touch of home continues!

THE VICTIMS OF ACCIDENTS. Every year, 100,000 are killed and 10,000,000 injured by accidents in the U. S. Red Cross First Aid, Water Safety, and Accident Prevention programs help reduce this tragic toll. The war on accidents never ends!

... So the Red Cross asks you to Give!

For this vital, humanitarian work, the Red Cross needs your help. Your contributions will help thousands of our fellow-Americansmany of them in our own community.

So, won't you give now to the American Red Cross? It depends on you . . . just as countless Americans will depend on it. We know you won't let them down!

GIVE—so your RED CROSS

can carry on!

The delicate flavor of a den-cious almond sponge pie has an appetite appeal few can resist, Topped with toasty slivered almonds, this specialty is a Harry McNaughton, Lulu Mcome-on favorite anytime.

The rich tender crust adds to the extra fineness of such at almond pie. It's made with lard that is bland in flavor and produces an especially flaky pastry—a delight to use for its amooth fine creamability.

ALMOND SPONGE PIE

Pastry: One 8-inch baked shal Filling: 2 the butter, % c. sugar, itsp. lemon juice, Grated rind of 1 lemon 2 egg yolks, 1/2 c. toasted, chopped almonds, 2 egg whites, 1/2 t. salt.

Cream butter with lemon juice and rind. Add sugar, gradually, creaming until fluffy. Beat egg yolks until light and add to creamed mixture with almonds. Mix well. Beat egg whites with salt until stiff but not dry. Fold into mixture, blending lightly and thoroughly. Pour into baked 8-inch shallow pastry shell. Bake in moderate Pour into baked e-inch shallow pastry shell. Bake in moderate oven (350 degrees F.) about 30 minutes or until set, when silver knife inserted in center of pie comes out clean. Garnish with sliced buttered almonds.

New York Vignette

fibber if you like, but it is a fact that New York City's 237fact that New York City's 237-mile subway system — that's working trackage including El lines — has three times the passenger volume of all other American railroads combined. Just to give you an idea, in the Times Square stations of the IRT and BMT lines alone, 78,000,000 passed in through the turnstiles last year. The combined subway and El systems collect over 6,250,000 nickels a day, yet they're losing money. That's why the resumption of a cry by some for an increased fare.

fare.

ONLY A DIME, FOLKS: Ten cents was a lot more sugar a century ago than it is now, but the Broadway stages of those days charged a dime a ride. And when the El lines came into being in 1868, ten cents or more a trip was the fare. Of course some of those first El lines had plush seated lounge and smoking cars. But right now the city still doesn't seem to be able to make a great deal of headway toward boosting the price of a subway trip. Even today 7,000,000 seven-cent tokens, manufactured in 1928 in anticipation of a fare raise, still le in a warehouse, acquiring neat coats of tarnish.

SARDINES IN STAINLESS.

tarnish.

SARDINES IN STAINLESS STEEL: The average subway rider is apparently less concerned about the higher fare at the moment than he is in getting a seat, or even what is laughinly called standing room Congestion in the subways, which the increased fare is supposed to eliminate, has led to what we would characterize as the largest regular display of mass discourtesy ever seen in a city of this nation. Incoming passengers stand before doors and get into fights frequently when outgoing ones try to get off at the ir destination. Now city officials are asking for 10 stainless steel cars with special air requilitioning and heaters, will officials are asking for 10 stain-less steel cars with special air conditioning, and bacteria-kill-ing lamps, at \$11,950 a car. The cars will seat 54 apiece, but, by golly, aren't we almost back where we started from? Each unit will also accommodate 250 standing.

WISTFUL HOPE: We were somewhat moved by the comment of a charming young radio actress in the MBS studios here the other day. The subject was subways, from one of which Kay Stewart had just emerged to get to her broadcast. The matter concerned particularly the "Subway Sun" which is running concerned particularly the "Subway Sun" which is running a car card series urging passenger courtesy. "There's one," she observed, "that shows a well-upholstered lady loaded with bundles squeezing herself into a narrow seat gap not big enough for a scare-crow. 'Lady! Puleaze' it says. But they still don't seem to pay any attention Can't New Yorkers read?" Dut can read all right, Kay. They just can't heed. Perhaps, though, those 1,500 new posters planned for the IND will help. Three posters, 26 by 15 inches each, are to be suspended across the tracks at each platform, and will start with a campaign plaa for subway cleanliness. If the rares can't heed those—well, who knows, Kay?

"With increased numbers of workers on new construction projects in the near future," said Commissioner Corsi, "we must provide maximum safety in working conditions. The men whom I have named to accomplish this by revising the Construction Code are all outstanding in their field, noted for their knowledge and understanding of safety problems and measures."

Objective of the committee, will be to bring the code up to date in conformity with present-day engineering practices. Existing rules found to be inadequate or obsolete because of new methods developed in the construction industry in the last several years will be revised or replaced by new rules.

FIFTY-YEAR FIGHT FOR FREEDOM — Time was (they call them the "good old days") when the college girl took her physical culture exercise with considerable covering to protect her from the elements. Back in 1892, at Mt. Holyoke college, South Hadley, Mass, special uniforms, then considered quite dashing, were introduced with the arrival of the first trained physical culture instructor. Today's Mt. Holyoke gymnasts go through the same physical education program. But the resemblance stops there as the 1947 class in modern garb line up at the stall bars ready for their exercise.

LEGION POST TO DEDICATE BANNER AT DANCE

Plans are complete for the launching of the local Bishops' Relief Campaign for the Victims of War on Sunday, according to Bishop James E. Kearney, of the Rochester diocese.

*Simultaneously with the opening of the appeal here, Catholics in over 15,000 parishes throughout the nation will be asked to continue their support of the Bishops' Emergency Relief Committee and War Relief Services, National Catholic Welfare Conference. The two groups seek to raise \$5,000,000.

Since 1940, the two Catholic relief organizations have dedicated their efforts to alleviating the tragedy and want left in the wake of war for millions of helpless men, women, and children.

In 1946, 678 shipments of relief found their way to shattered countries. The sgencies distributed 119,884,000 pounds of food, clothing and medicines.

Bond talks turkey about your **TWO TROUSER SUITS**

You're right-it's high time for some plain talk. When a fellow gives up something he wants, as a wartime measure, that's one thing. Now, when the bars are down, you want action. And so far as we are concerned, you're 'going to get it!

Yes, WE HAVE TWO TROUSER SUITS. Not as many as we'd like. Not [as many as our friends want. But we bave them! And our tailors in Rochester and New Brunswick are sending you more and more, every week.

Why haven't we said this sooner? Frankly, we didn't dare! The pent-up demand for TWO TROUSER SUITS is enormous. Had we closed our eyes to fabric quality, had we been willing to settle for careless, hurried workmanship, we could have had bulging show cases long ago.

But this is one time we did not want to be first! Instead, we want to be right!

Better type worsteds and woolens from America's topflight weavers are still like crown jewels. Good tailors needleworkers who meet our exacting standards - are coming back a few at a time. Until we have enough of both satisfactory materials and expert hands -we'll play it slow-but-sure. We'd rather show you one good suit than a dozen not so good.

Before the war, Bond was the world's largest maker and seller of TWO TROUSER SUITS. We're taking the driver's seat again. But not at the expense of our reputation, or the sacrifice of your good will.

These are the facts, gentlemen - the way we think you want them. And here is your invitation. If you want a TWO TROUSER SUIT-one you can buy with confidence and wear with satisfaction we'd like you to see ours.

The jury was very much un-impressed with the D. A's pre-sentation. The cinch first degree murder verdict still was re-turned "manslaughter." Mr. O'Mora could have seved him self the emberasument by following his usual proceedure, permitting the prisoner to pleed guilty to the lessen charge, thereby maintaining his un sullied and remarkable record.

It must be true, Mr. Gallup says so. The public has already changed it's mind again. The Republicans are no longer the fair-haired boys they seemed in November. Plans and promises have proven to be pre-election hot air completely devoid of "can do." Mr. Gallup says that from a low down low in November the Democrats are now the more popular by 51-49.

As the eminent pollster was found guilty of padding it a few percentage points during the last FDR run it's quite likely that the Democratic adge is a very generous SI percent.

The State of New York has a surplus big enough to choke a horse, in fact several horses, in fact all the horses in the state. TENTH YEAR-No. 36

A TREE CROWS IN ROCHESTER—LEMON THAT IS — California and Florida will have to look to their citrus fruit laurels if Rochesterians generally follow the example of John Taurmina who grows his own right here in the city. His experiment began three years ago when his son, Sgt. Casper Taurmina sent him some infant citrus plants from California where he was then stationed. The elder Taurmina planted the trees in barrels of muck and set them in the window of his hardware store at 148 Wilder St. He is pictured above holding two of this year's crops of giant California lemons. That's an orange tree towering above him—and he also has tangerine and grapefruit trees almost ready to give fruit. Taurmina who grows his own right here in the city. His wants the state (us) to pay off the \$400,000,000 soldier bonus "in our time" without touching the surplus (which is HIS we guess, and not OURS). This means a nice fresh set of taxes. At this writing one cent more on each package of cigarettes and a ten per cent bite via personal income taxes. What more the Republican controlled legislature will dream up in the tax line is yet to come.

As if this were not enough our little surplus hoarder will take the bows for the well deserved teacher pay increase (only it isn't enough) while he tosses the responsibility for raising the chunk right back in the taxpayer's front yard. The state isn't going to spring for a nickel. The problem of teacher's pay is going to spring for a nickel. The problem of teacher's pay is going to more (See POLKA Page 5)

Just ask Evelyn DiGarmo, 953 Jay St. or Beverly Crowe, 700 Genesee St. who found out for themselves — the hard way. Yesterday they donned swim suits and hied themselves down to the municipal beach. Despite the calendar's cheery note that Spring is just around the corner, the two young ladies found the beach closed. And with good reason. It is covered with snow and ice and a fierce wind howls. The girls shiveringly reported the water colder than a banker's heart.

for him. Numerous "incidents,"
several blackouts, and endless
meetings of air raid warden
groups, proved that the OCD
boys were in top notch shape—
ready, they hoped, for come
what fnay.

Of course, all this paraphenalia, training, and insignia
cost money. And, as might have
been suspected, it was up to
the taxpayers to foot the bill.
When, in 1943 the city slapped
an extra dollar per thousand
tax on real estate to pay for
OCD activities here, few there
were who complained. Little
enough, they figured, to pay
for such superior protection.
That dollar per thousand esmessment changed an apparent
53 cent saving into an actual
47 cent boost. But, as we said

before, few kicked about it, and, after all, it was only temporary—the war was bound to end someday.

War Ends — But Not Tax
And it did too, as you may already have read in your newspapers. The war came to an end, the OCD was dissolved, the UN was set up and even now they're getting around to writing peace treaties that will insure no more war — for the next ten or fifteen years anyway.

way.

But what about that dollar-per-thousand-tax for the benefit of the OCD?

per-thousand-tax for the benefit of the OCD?

Like the cost of the salesmen's overcoat on h is expense account—you can't see it—but it's there all right.

Starting in 1944, the added dollar was absorbed right into the general city tax — and the revenue derived therefrom dumped into the general city fund. That made it easier to keep the tax in force after the need for it hed passed.

And if the city administration continues to "reduce" taxes year after year, eventually the taxpayer will be back almost to where he was before the extra dollar was slapped on him. Here are the city tax figures per thousand dollars of assessed valuation for the past six years:

sessed valuation for the passiax years:

1942 — \$29.95

1943 — \$29.42 — plus \$1 for the OCD (remember?)

1944 — \$30.38 (Where's that extra dollar? Right in there.)

1945 — \$30.37 (Still in there,)

son.) 1946 — \$30.10 (Hey, Mac —

the war's over!)

1947 — \$30.08 (You see, they've reduced the tax each year — it's almost back to the figure from which they starting "reducing").

And what happened to the tin hats? They're so round, so firm, so adaptable — they gave them to the erstwhile air raid wardens to be used as they wished — with or without handles.

Mr. Dewey never asked anyone whether or not we wanted his much publicized "Thruway" but it's obvious that this memorial to himself and "team" is going through, thus making for the above unbusiness-like conduct and added tax burden. The Thruway and the surplus are beginning to mean one and the same thing — a slush fund to strengthen political organization. It should make a lot of Democrats out of the traditional businessmen-Republicans. but it's obvious that this mem businessmen-Republicans.

The new state law to permit running races on half-mile tracks was a cinch to steam through the legislature. In fact it was so obviously simple that the land for the one to be opened just outside of town was purchased before the bill was introduced.

By CURT GERLING

It's not news that the Demo-cratic Party is contemptuous of Republican Chairman Reece and his flannel mouthed mutterings but it is decidedly newsworthy that many GOP leaders and staunch Republican newspapers have come to share similar views.

sauchly Republican Buffalo Evening News had this to say about Mr. Recee:

"The ough his intemperate language may strike some of his friends as more amusing than confusing. National Republican had confusing. National Republican had supporters and 'took care' of them. He governor of their state was an honorable man — he remembred his party no service with his unseemly charge that President Truman is "sabotaging" the G. O. P. legislative program in Congress.

"Mr. Truman is a Democrat, after all, and if he were trying to "sabotage" the Republican propalm, the normal voter's reaction probably would be with eirony of Mr. Recees charge is that the Republicans have not yet developed a program to be sabotaged. Until it sends the President some legislation to sign or veto, the Republicans Congress can hardly pick a fight with him about it, and one would suppose that the party's national spokesman, in this in terim period when the G. Last week newspapers that would never print the name Roosevelt without spitting between crossed flingers, and who had blamed the Democrats for white shirts to the scarcity of Hershey bars, proceeded to go to work on Mr. Reece — and to a large degree on the "accomplishments" of his party—you remember the one that had a "mandate" from the people. CITY TO TURN CLOCKS AHEAD

Rochester will join other major cities throughout the nation and set its clocks ahead one hour on April 27. But whether or not this is the last year for daylight saving time in this area is a question voters will have to decide in a referendum at next fall's election.

Tuesday, the City Council looked over the results of an informal newspaper poll regarding the time question and decided that Rochester should observe the "fast" time. The vote was reported as 8,854 in favor and 2,523 against.

Opponents of daylight saving time have won seevral past referendums, but lost the last one held several years ago.

Ex-Congressman To Continue Aid To Small Business

Former Democratic Rep. even though he is no longer a member of Congress. The pop-ular 10th ward grocer who was sent to Congress in 1944 by a traditionally Republican contraditionally Republican con-stituency was this week named business specialist in the Roch-ester field office of the U. S. Department of Commerce. In that capacity he will aid small business enterprises in a 10-county area in both on advis-ory and technical capacity. He will also give assistance to veterans destring to set up their veterans desiring to set up their

own businesses.

Many years of practical business experience, plus two year's of fighting for the "little fellows" while in Congress give Rogers a particular fitness for the job.

Those in the high income tax brackets!

Take the case of the average man with a wife and two children. If he earns \$2,500 a year (even that is above the average) he pays no income tax — with or without a 50 per cent slash.

But jump his income up to \$25,000 per year and see what happens. He saves approximately \$700!

Or, if you want to soar into the tyeoon bracket (oh yes, we have them here in the city assume our taxpayer has an income of \$250,000 a year (sure some of them make that much). He saves a neat \$8,600. (Not had for just a little campaign contribution, is it?)

Then who is apt to be hit by the proposed new taxes which the City of Rochester and Monroe County will certainly clap on in a hurry now that the legislature has given them the green light?

That too, takes no Einstein to answer:

Every purcheser of any article except food or drugs (retail sliquor license tax);

Every theater patron (admission tax);

Every small, medium and large business man (business idense);

Every smoker (proposed clgarette tax for soldiers' bonus).

Meanwhile the "cconomy-minded" Governor continues to sit on a state surplus of more than half a billion dollars. He will allow no craids' on the treasury, unless it happens to be the little man's treasury of pennies.

Had enough?
