Portrait of Dr. Henry S. Durand To Be Exhibited at Art Gallery

D.C. Oct. 25, 1931

Portrait of Dr. Henry Strong Durand made from a picture at the age of 35.

Recently Completed Painting, After Fortnight Here,
Will Be Given to Yale on 50th Anniversary
of College Song Penned by Rochesterian

The memory of Dr. Henry Strong Durand, co-benefactor with George Eastman in giving Durand-Eastman Park to the city, will be honored in Rochester and at Yale University during the next two

weeks. A recently completed portrait of Dr. Durand will be hung in the Memorial Art Gallery tomorrow, to remain for the next two weeks after which it will be given to Yale University.

Presentation of the portrait will take place during the celebration of the 50th anniversary of the Yale song, "Bright College Years," which was written by Dr. Durand in 1881 while an undergraduate.

Written as Stunt

The song was written with the idea of being merely a contribution to a "stunt night" program and required only 15 minutes of actual work. However, the number immediately struck the fancy of the student body and became one of Yale's most popular songs.

The portrait was painted by C. Bernard Pereire of New York City from a picture taken of Dr. Durand at the age of 35 years and is expected to be viewed by former friends and Yale men during its exhibition here. Dr. Durand's 50-year-old song as written, follows:

BRIGHT COLLEGE YEARS

Bright College years, with pleasure
rife.
The shortest gladdest years of life,
How swiftly are ye gliding by!
Oh! why doth time so quickly fly?
The seasons come, the seasons go.
The earth is green, or white with
snow,
But time and change shall naught
avail
To break the friendship formed at
Yale.

In after years should trouble rise
To cloud the blue of sunny skies,
How bright will seem, through mem-
ory's haze,
Those happy golden bygone days!
Then let us strive that ever we
May always let our watchword be,
Where'er upon life's sea we sail
For God, for Country and for Yale.

LEADERS PAY HIGH TRIBUTE TO DUTCHER

D.C. Feb. 29, 1932

Veteran County Judge Active in Masonry— Burial Tomorrow

Rochester and Monroe County yesterday mourned the passing of County Judge Frederick L. Dutcher, 62, who died at his home, 140 Birr Street, early Sunday morning after an illness of four months.

As arrangements were made for the funeral tomorrow, men high in judicial, legal, civic and fraternal circles united in paying tribute to the deceased jurist and in expressing their regrets at his death.

Public funeral services will be conducted at the home at 3 o'clock tomorrow afternoon, with the Rev. George E. Norton, D. D., rector of St. Paul's Episcopal Church, officiating.

Masonic Burial Service

Burial in Riverside Cemetery will be private, with Masonic rites in charge of Yonondio Lodge, F. and A. M., of which Judge Dutcher was a past master.

Former Supreme Court Justice Adolph J. Rodenbeck will preside at a meeting of the Rochester Bar Association at the Court House at noon tomorrow to adopt memorials and appoint committees to attend the funeral.

Judge Dutcher's illness first manifested itself during the campaign last fall, when he was re-elected as county judge for his second term, but he never was able again to sit on the bench. In an effort to recover his health he went to Miami, Fla., returning home Jan. 15. He began his judicial career in 1920, when he was elected special county judge. He was re-elected

Taught District Schools

Judge Dutcher was born at Lane Tree, Ia., Oct. 1, 1870, moving with his parents to Avon, Livingston County, when he was 4 years old. Following his graduation from Avon High School in 1889, he taught district schools for a time, studying law in the offices of Judge E. A. Nash and William Carter at Avon during his spare time. He took his degree of Ph. B. at Syracuse in 1894 and became viceprincipal of Palmyra Classical Union School. He soon resigned to enter the law offices of Stuart & Sutherland in Rochester.

He was admitted to the bar in 1896, soon after opening his own law offices. In 1904 he formed a partnership with his brother, Arthur G. Dutcher, under the name of Dutcher Brothers, which continued until his death.

In 1924, Judge Dutcher served as grand high priest of the Grand Chapter of New York, Royal Arch Masons. His advancement in Masonry was rapid from the time he was raised in Avon Springs Lodge 570 at Avon in 1892 while he was home from college on a vacation. He was past master of Yonondio Lodge 163; past high priest of Hamilton Chapter 62, R. A. M.; past illustrious master of Doric Council 19, R. & S. M.; member of Monroe Commandery 12, Knights Templar; Rochester Consistory, Damascus Temple, Shrine, and Lalla Rookh Grotto 3.

Headed Humane Body

Keenly interested in work of the Humane Society, Judge Dutcher served as a director of that organization for two decades and was its president from 1917 to 1920. He was also a director of the American Humane Association for the Prevention of Cruelty to Children and Animals, and its president in 1916.

Judge Dutcher was a member of the University Club, the Washington Club, and the Rochester Ad Club. He belonged to Christ Episcopal Church. He married Clara J. Welch here in 1902. Besides his wife he is survived by three children, Donald A., Richard, and Ruth; two brothers, Charles A. and Arthur G. Dutcher; and three sisters, Mrs. Cora A. Colson of Genesee; Mrs. Marion L. Boyink of Irondequoit, and Mrs. Rosamond A. Welsh, 265 Magee Avenue.

Among those who gave expression of their admiration and appreciation of Judge Dutcher and his career were the following:

Friends Express Regret

Justice Willis K. Gillette: I am naturally shocked and grieved over the death of Judge Dutcher. Our relations for five years were close during the period when we were associated on the County Bench. He had a great interest in children and his work in Children's Court was exceptional and was characterized by kindness and sympathy. He was a hard worker and an able and conscientious jurist and feel that his death was due to overwork.

Harry J. Bareham, Republican county chairman: I was deeply grieved at the news of Judge Dutcher's death, especially when we hoped he was on the way to recovery. The community surely has lost a valuable and faithful servant. He always was considered a fair judge and always tried to do what was right. He had an unlimited number of friends.

Former Supreme Court Justice Adolph J. Rodenbeck: Judge Dutcher was an industrious and conscientious judge. He died right in the height of his career on the bench. His death is a great loss to the judiciary.

County Judge William C. Kohlmetz: I feel the loss of Judge Dutcher keenly because not only have we been associated in the County Court, but have been friends for years. We grew up together and have been comrades in court work as well as life. He was a conscientious worker and a lawyer and judge of ability and a true friend.

Supreme Court Justice Marsh N. Taylor: The death of Judge Dutcher is a great loss to the community, particularly along the lines of child welfare and his interest in the development of Children's Court. When he was special county judge in charge of Children's Court he did a great deal of constructive work and can be remembered for his reorganization of the parole system.

Special County Judge Henry D. Shedd of Children's Court: The death of Judge Dutcher is a considerable shock to the community. I feel a great personal loss. The community has lost a faithful capable and sympathetic judge.

Surrogate Joseph M. Feely: Judge Dutcher literally spent himself in the service of this county. His career will rank high in the splendid history of our County Court. Exact with himself he was generous and true to his friends and broad-minded and sympathetic toward all. I shall miss him greatly.

State Superintendent of Insurance George S. Van Schaick: Frederick L. Dutcher was an able, painstaking judge. His wide experience as a trial lawyer gave him an excellent training for judicial service. It was with very deep regret that I learned of his death.

JUDGE DUTCHER FUNERAL WILL BE TOMORROW 9.7.24 Civic Leaders Mourn Death of Man Who Sat on Monroe County Bench for Dozen Years

Expressions of regret at the death of County Judge Frederick L. Dutcher today came from leaders in legal, civic, and fraternal circles.

Judge Dutcher, for the past dozen years occupant of the Monroe County bench, died yesterday morning at his home, 140 Blir Street, after a four-month illness. He was 62.

Funeral services will be conducted at the home tomorrow at 3 p. m. with the Rev. George E. Norton, D. D., rector of St. Paul's Episcopal Church, officiating.

Burial in Riverside Cemetery will be private, with Masonic rites in charge of Yonondio Lodge, 163, F. and A. M., of which Judge Dutcher was a past master.

Former Supreme Court Justice Adolph J. Rodenbeck will preside at a meeting of the Rochester Bar Association at the Court House at noon tomorrow to adopt memorials and appoint committees to attend the funeral.

Ill for Months

Judge Dutcher's death ends ill health that first was manifested during the campaign last November when he was re-elected as county judge.

The oath of office was administered at his sick bed but Judge Dutcher never occupied the bench in his new term. A sojourn at Miami, Fla., from which he returned Jan. 15, failed to restore sufficient vigor for him to resume his judicial duties.

Judge Dutcher was born in Lane Tree, Ia., Oct. 1, 1870. His parents brought him to Avon, Livingston County, when he was four years old. There he attended district school and was graduated from Avon High School in 1889.

For the next winter, the youth taught district school in Livonia and Conesus and in his spare time read law in the offices of Judge E. A. Nash and William Carter at Avon. Then he secured a scholarship and matriculated at Syracuse University in the "Latin scientific course." In 1894 he was graduated with the degree of Ph. B.

He became vice-principal of Palmyra Classical Union School but the fascination of legal tomes persisted and he soon resigned to enter the law offices of Stuart & Sutherland at Rochester.

On Nov. 30, 1896, Judge Dutcher was admitted to the bar and opened his own offices in the Wilder Building. Evenings he taught bookkeeping classes in Rochester night schools. In 1904, he formed a partnership with his brother, Arthur G. Dutcher and this firm continues today under the name of Dutcher Brothers with offices in Powers Building.

Friend of Aldridge

In 1898-99, Judge Dutcher served as Second Ward school commissioner. In the ensuing decades, though he was an active Republican and a staunch friend of the late George W. Aldridge, he devoted his chief energies to practice of law.

It was in 1920 that Judge Dutcher began his judicial career, being elected special county judge on the Republican ticket. He was re-elected in 1923 and in 1925 was elected to his first term as county judge.

In 1924, Judge Dutcher served as Grand High Priest of the Grand Chapter of the State of New York,

Royal Arch Masons. His advancement in Masonry was rapid from the time he was raised in Avon Springs Lodge 570 at Avon in 1892 while he was home from college on a vacation. He was Past Master of Yonondio Lodge 163; Past High Priest of Hamilton Chapter 62, R. A. M.; Past Illustrious Master of Doric Council 19, R. & S. M.; member of Monroe Commandery 12, Knight Templar; Rochester Consistory, Damascus Temple, Shrine, and Lalla Rookh Grotto 3. Keenly interested in work of the Humane Society, Judge Dutcher served as a director of that organization for two decades and was its president from 1917 to 1920. He was also a director of the American Humane Association for the Prevention of Cruelty to Children and Animals, and its president in 1916.

Judge Dutcher was a member of the University Club, the Washington Club, and the Rochester Ad Club. He was a member of Christ Episcopal Church. He married Clara J. Welch here in 1902. Besides his wife he is survived by three children, Donald A., Richard, and Ruth; two brothers, Charles A. and Arthur G. Dutcher; and three sisters, Mrs. Cora A. Colson of Genesee; Mrs. Marion L. Boyink of Irondequoit, and Mrs. Rosamond A. Welsh, 265 Magee Avenue.

County Judge Dies

JUDGE F. L. DUTCHER

this morning, after an illness of four months.

Judge Dutcher's death ends ill health that first was manifested during the campaign last November when he was re-elected as county judge.

The oath of office was administered at his sick bed but Judge Dutcher never occupied the bench in his new term. A sojourn at Miami, Fla., from which he returned Jan. 15, failed to restore sufficient vigor for him to resume his judicial duties.

Judge Dutcher was born in Lone Tree, Ia., Oct. 1, 1870. His parents brought him to Avon, Livingston County, when he was four years old. There he attended district school and was graduated from Avon High School in 1889.

For the next winter, the youth taught district school in Livonia and Conesus and in his spare time read law in the offices of Judge E. A. Nash and William Carter at Avon. Then he secured a scholarship and matriculated at Syracuse University in the "Latin scientific course." In 1894 he was graduated with the degree of Ph. B.

He became vice-principal of Palmyra Classical Union School but the fascination of legal tomes persisted and he soon resigned to enter the law offices of Stuart and

Sutherland at Rochester.

On Nov. 30, 1896, Judge Dutcher was admitted to the bar and opened his own offices in the Wilder Building. Evenings he taught bookkeeping classes in Rochester night schools. In 1904, he formed a partnership with his brother, Arthur G. Dutcher and this firm continues today under the name of Dutcher Brothers with offices in Powers Building.

In 1898-90, Judge Dutcher served as Second Ward school commissioner. In the ensuing decades, though he was an active Republican and a staunch friend of the late George W. Aldridge, he devoted his chief energies to practice of law.

It was in 1920 that Judge Dutcher began his judicial career, being elected special county judge on the Republican ticket. He was re-elected in 1923 and in 1925 was elected to his first term as county judge.

In 1924, Judge Dutcher served as Grand High Priest of the Grand Chapter of the State of New York, Royal Arch Masons. His advancement in Masonry was rapid from the time he was raised in Avon Springs Lodge 570 at Avon in 1892 while he was home from college on a vacation. He was Past Master of Yonondio Lodge 163; Past High Priest of Hamilton Chapter 62, R. A. M.; Past Illustrious Master of Doric Council 19, R. & S. M.; member of Monroe Commandery 12, Knight Templar; Rochester Consistory, Damascus Temple, Shrine, and Lalla Rookh Grotto 3.

and Arthur G. Dutcher; and three sisters, Mrs. Cora A. Colson of Genesee; Mrs. Marion L. Boyink of Irondequoit, and Mrs. Rosamond A. Welsh, 265 Magee Avenue.

EUGENE J. DWYER, member of the law firm of Sutherland & Dwyer, was born in Rochester, Feb. 12, 1873. He attended St. Bridget's Parochial School, Rochester Free Academy and the University of Rochester. Upon completion of his course at the New York Law School he returned to this city and was admitted to the bar and became second assistant corporation counsel. Later he was promoted to the rank of first assistant.

Mr. Dwyer served several terms in the Assembly and was president of the Common Council from 1910 to 1917. He has also taken an active part in subsequent political campaigns.

On Oct. 23, 1900, Mr. Dwyer married Clara Connell. The wedding took place in St. Bridget's Church. They have five children, Mary C., Robert, Thomas, William and Philip Dwyer. The home is at 3 Burke Terrace.

Mr. Dwyer is a member of the American Bar Association, the Rochester Chamber of Commerce, the Knights of Columbus, Oak Hill Country Club, the Society of the Genesee and the Rochester Bar Association.

F. L. DUTCHER DIES; AILING FOUR MONTHS County Judge Confined To Home by Illness Since His Election

County Judge Frederick L. Dutcher, 62, died at his home, 140 Burr Street, shortly after 2 o'clock

GEORGE E. EDDY, principal of Washington Junior High School, has a birthday today. He was born Mar. 15, 1876. For two years following his graduation from Colgate University in 1904 he served on the faculty of Robert College, Constantinople.

Mr. Eddy joined the faculty of East High School in 1906. He was principal of the East High School Annex in 1921 and was acting principal of East High School in 1923. The following year he was reappointed principal of the annex and in 1925 was named head of Washington Junior High School. Mr. Eddy lives at 30 Fourth Avenue, Fairport.

1906. He was principal of the East High School Annex in 1921 and was acting principal of East High School in 1923. The following year he was reappointed principal of the annex and in 1925 was named head of Washington Junior High School. Mr. Eddy lives at 30 Fourth Avenue, Fairport.

LEWIS EDELMAN, 83 years old today, is the oldest coal dealer in Rochester, and president of the Edelman Coal Company. Mr. Edelman has been in the coal business for nearly half a century and in spite of his advanced age takes an active interest in his concern.

He emigrated from Germany when but 6 years old; attended Rochester public schools and then obtained work as a typesetter in a German printing office. Later he worked for the George Engert Coal Company, and then established a business for himself. Mr. Edelman lives at 101 Avenue B.

EDWARDS, POSITION HEAD, PASSES

Nationally Known Through
His Success with City's
Fair and Horse Show

BORN IN ENGLAND, 1875

Formerly Printer, Reporter
and City Editor of Herald;
Was 33d Degree Mason

Edgar F. Edwards, manager of the Rochester Exposition, former newspaper man, and prominent in Masonic orders and Rochester civic clubs, died last night at his home, 133 Palmerston Road, after an illness of six days, aged 64 years.

Mr. Edwards was born in Birmingham, England, on Feb. 10, 1875, the son of Edwin and Elizabeth Ann Edwards. He came to Rochester with his parents in 1888.

Learned Printing Trade

After attending English public schools, he discontinued active study when he came to Rochester, and at the age of 13 years learned the printing trade under his uncle, Fred M. Southgate, one of the men who founded The Rochester Morning Herald in 1879. His first job in Rochester was under the employ of George R. Fuller, former president of the old Home Telephone Company.

When he had been taught the printing trade thoroughly, Mr. Edwards entered the editorial rooms of the old Herald as a reporter, and three years later was made city editor. He held this position

Active Civic Worker

EDGAR F. EDWARDS

from 1899 to 1911, when he became manager of the Exposition.

His position as secretary and general manager of the Rochester Exposition brought Mr. Edwards prominently into the public eye. He was elected president of the International Association of Fair and Expositions in 1925. He conducted an exposition for the Syracuse Chamber of Commerce in 1913, and appeared as a speaker frequently before fair associations.

Development of the Exposition was Mr. Edwards' chief hobby. He built the institution up from one paying \$23,000 in 1911 to its present size, an exposition known throughout the United States and Canada and with a horse show feature which is prominent nationally.

As city editor of The Rochester Herald, Mr. Edwards had a hand in training many well known Rochester newspapermen, and was employer of several Rochesterians who achieved prominence in other walks of life after leaving the newspaper field.

Mr. Edwards was a member of all Masonic orders. He was past master of Rochester Lodge, past high priest of Ionic Chapter, Royal Arch Masons; past master of Roch-

ester Lodge of Perfection, and trustee of Rochester Consistory. He received the 33d degree in 1921.

He was prominent in the old Rochester Newswriters' Club and an associate member of the Rochester Press Club. He was roaster at the first roastfest, staged by the newswriters more than twenty years ago.

From 1908 to 1911, Mr. Edwards was deputy commissioner of elections. He was president of the old Brown & White Cab Company.

He had been active in many civic enterprises besides the Exposition. He was chairman of the publicity committee of the first Liberty Loan and member of many other campaign committees, hospital drives, the Roosevelt Memorial Association, the Edgerton Memorial and Red Cross seas drives. He was director of publicity and advertising for the Republican County Committee campaign in 1918 and helped the state committee at its New York headquarters in 1918.

Besides his membership in Masonic orders, Mr. Edwards was a member of the Rotary, Kiwanis and Ad Clubs, the Shrine Lunch Club, and the Chamber of Commerce.

On Jan. 18, 1900, Mr. Edwards married Miss Jane L. Davidson, formerly well known in musical circles. Besides his widow, he leaves three brothers, Harry J. Edwards of New Haven, Conn., and Arthur E. and Frank G. Edwards of Rochester, and three sisters, Miss Emily B. and Miss Louise M. Edwards and Mrs. Harriet F. Southgate, all of Rochester.

SON OF STORE HEAD DIES

Aug 28, 1938
E. W. Edwards & Son's department store in Rochester, like others of the chain, will be closed all day tomorrow, when the funeral of Daniel Murray Edwards Jr., eldest son of the present head of the corporation, will take place.

The service will be held at 2 o'clock tomorrow afternoon at the Edwards home, No. 953 James Street, Syracuse. Burial will be in Morningside Cemetery, Syracuse.

Mr. Edwards was thirty-three, and for seven years had been identified prominently with the business that bears his grandfather's name. He died at the family summer home on Friendly Island, Thousand Islands, yesterday.

ILLNESS WAS SUDDEN

Mr. Edwards was stricken ill suddenly while at the Thousand Islands Yacht Club Saturday night. Dr. Harold L. Gokey of Alexandria Bay was summoned to attend him and pronounced him too ill to be taken to the nearest hospital in Watertown, advising his immediate removal to the family's summer home.

Mr. Edwards' condition was somewhat improved Sunday morning. In fact, he was laughing and joking with members of the family. Early Monday morning, word was received at the family home in Syracuse that the stricken man was on the road to recovery. It is said that he told his mother, who was at his bedside, that he felt well enough to go downstairs and talk with his father. The word of his death came unexpectedly yesterday afternoon.

HEART DISEASE CAUSE

Dr. Gokey gave heart disease as the cause of death, hastened by intestinal hemorrhage. W. A. Fancher, undertaker, brought the body to Syracuse last night.

Mr. Edwards' early education was gained at Andover and Taft, New England preparatory schools. He was graduated from the latter and entered Yale, where he attended classes up to the outbreak of the World War. He was granted a degree with the class of 1918. During the war, he served with the avia-

tion corps and also in the navy. Following his release from the service, he returned to Syracuse, and in June, 1921, married Miss Beatrice Hopkins of Brooklyn. Upon the opening of the Buffalo branch of the Edwards chain of stores, Mr. Edwards went to that city and served in the capacity of manager of the new store for several years. He entered the employ of the Syracuse store a few months ago.

Mr. Edwards is survived by his wife, his parents, Mr. and Mrs. D. M. Edwards of Syracuse; two sisters, Mary Elizabeth Edwards of Syracuse and Mrs. J. A. Slocum of Rochester, and two brothers, Walker and Wells Edwards of Syracuse.

Mr. Edwards' father and mother have been spending the Summer at the islands. Their son visited them on several occasions.

Aug 24, 1938
JAMES M. ELLIS, former Rochester police captain, observed his 52nd birthday anniversary today, and the beginning of the sixth month since his retirement from the force.

in 1927. R.T.H. Og. 19, 1932

Captain Ellis commanded the traffic squad for several years and was installed at the Fourth Precinct at the time of his retirement in 1927. He is a member of Yonondio Lodge, Rochester Consistory, Ionic Chapter, Cyrene Commandery, Lalla Rookh Grotto and Damascus Temple. Captain Ellis is a life member of the Rochester Lodge of Elks, Y. M. C. A. and Locust Club. He is past commander of L. Boardman Smith Camp. He lives at 480 Electric Avenue.

86th Birthday Observed By George Einsfeld, Last Survivor of G. A. R. Post

Eighty-six years old today and the last surviving member of Peissner Post, G. A. R., George Einsfeld of 36 Birch Crescent finds his years weighing lightly.

Mr. Einsfeld, but for lameness which keeps him from walking freely outside the house, enjoys good health and frequently goes for automobile rides about the city. He has not missed a Memorial Day parade, although of late years he has ridden instead of marching. His eyesight is excellent and he enjoys reading The Times-Union.

Mr. Einsfeld was born in Rochester in a house near Cumberland Street, Aug. 19, 1846. He served for 18 months in the Civil War as a member of the 137th Infantry, Company B, receiving his honorable discharge in 1865, at the close of the war, after having taken part in five major engagements without a wound.

On his return to Rochester Mr. Einsfeld became a woodturner, working for Bantleon Brothers for many years, until his retirement at the age of 76. He has been a member of Genesee Falls Lodge of Masons for more than 50 years, and is a member of the Independent Order of Odd Fellows, Koer-

Begins 87th Year

George Einsfeld

ner Lodge, from which he received a 50-year jewel Mar. 3, 1931.

Mr. Einsfeld lives with a son and daughter, Emile Einsfeld and Irene Einsfeld.

Rochester Public Library
44 Court St.

Edward Ellsworth Passes at 87; Long Active in Politics of City

D. & C. Dec. 2, 1929
Lifelong County Resident

Born in Penfield Was
Sixth Ward Leader
64 Court St.

Edward Franklin Ellsworth, 87, a lifelong resident of Monroe County and at one time a potent factor in city politics, especially in the Sixth Ward, died yesterday at the home of his daughter, Mrs. Eugene Jelenasperger of 1 Fairmount Street.

Mr. Ellsworth was born in Penfield, the son of Edward and Keziah Ellsworth when he was 4, his family moved to Rochester where his father established a blacksmith shop in Field Street near Monroe Avenue, later the site of the old Pinnacle Club. The family lived in Alexander Street where Monroe High School now stands.

Later his father entered the nursery business and Edward worked at this until he entered the employ of A. S. Mann, leading dry goods merchant of the town in those days. He then entered politics.

Throughout his life, he was a staunch admirer and supporter of the late George W. Aldridge and held a number of public positions. He was a deputy at the Rochester State Hospital; congressional clerk at Albany; a deputy sheriff and captain of the court officers at the Court House.

In 1887 he moved into the Sixth Ward and soon thereafter he was elected chairman of the ward committee, a position which he held until very recently. He was a member of the Board of Supervisors

EDWARD F. ELLSWORTH

from 1893 to 1903 and was chairman of the board for two terms. For several years he engaged in the real estate business.

In 1865 he married Miss Mary Douglass Thayer who died in 1883. In 1887 he married Miss Mary Howard. She died in 1922. He leaves three daughters, Mrs. Jelenasperger, Mrs. A. J. Fisk of Mount Vernon and Mrs. Charles E. Percy of Cleveland. He was a member of Brick Presbyterian Church.

Funeral services will take place Monday afternoon at 3:30 o'clock from 137 Chestnut Street.

WILL WRITE ROCHESTER MAN'S LIFE

D. & C. Dec. 11, 29
G. H. Ellwanger Biography
to Be Prepared by Author
and Traveler

COLLECTING MATERIALS

Alleyne Ireland, Who Knew
and Wrote of Pulitzer,
Chosen for Task

A biography of George H. Ellwanger, who died in 1906 after a brilliant career in this city, is in course of preparation. Members of the Society of the Genesee and others interested in colorful figures of the Genesee country, have asked Alleyne Ireland, who is perhaps best known in the United States for his "An Adventure into Genius," a biography of Joseph Pulitzer, to undertake the work. Mr. Ireland is now in this city studying the record of Mr. Ellwanger's life as it may be found in the libraries, in newspapers, in other documents and in the recollections which older Rochesterians may have of him.

"George H. Ellwanger," says the Rochester Historical Society in the first volume of its Publication Fund Series, "came so near being a genius at essay writing that it would be hard to say he was not. His first book, 'The Garden Story,' gave him high literary standing at once. This was followed by 'The Story of My

House,' a small volume entitled 'In Silver and Gold,' and a large one on the pleasures of the table. His story of 'The Silver Fox' is as exquisitely beautiful as any thing with which it can be compared."

George H. Ellwanger was one of the sons of George Ellwanger, who with Patrick Barry, founded Ellwanger & Barry Nurseries. George

H. at one time was editor of the Post Express.

Mr. Ireland's vocation is comparative study of government; his avocation is biography. He ran away to sea from his home in Manchester, Eng., at the age of 15, and his sea life was contemporary with that of Joseph Conrad. He has been in almost every country in the world. Of two volumes which he wrote on Burma, the Boston Transcript wrote: "The book as a whole may be designated as a typical English masterpiece, and one of the noblest specimens of individual single handed efforts which has been done in this or any other country." Many other works of his pen have been published. His latest book is entitled "The New Korea." In reviewing that book. The Royal Colonial Institute of Journalism of London said, "Mr. Ireland is rightly described as 'one of the foremost living authors on Colonial Government.' Hardly any man now living has brought to the study of the administration of colonies and dependencies so much untiring industry, personal research, and mastery of detail."

The biography of Joseph Pulitzer was written as the result of personal experiences with the great publisher, for Mr. Ireland was one of Mr. Pulitzer's secretaries, and also was a member of the staff of The New York World. Of that biography, the New York Life wrote, "The book holds its readers like a vice and haunts them like a vision."

Mr. Ireland expects it will take him six months to prepare the biography of the Rochester man, which will be published under the title, "A Son of the Genesee."

L. DOUGLAS ELY FUNERAL RITES WILL BE TODAY

Rochester Public Library
54 Court St.
Pioneer Monroe County
Resident to Be Buried
In Mount Hope

Dec. 7, 1932

Funeral services for L. Douglas Ely, 81, pioneer resident of Monroe County, who died Saturday, will be conducted this afternoon at 2:30 o'clock at the home of his sister, Mrs. Howard A. Smith, 70 East Boulevard. Burial will be made in Mount Hope Cemetery.

Mr. Ely was born in 1850 at the old Ely homestead at East Avenue and Barrington Street, the son of the late Lorenzo D. and Caroline C. Culver Ely. His grandfather was Oliver Culver, one of the earliest Monroe County pioneers. The house at 70 East Boulevard is the old Culver homestead. He inherited from his father a number of farms in Brighton and Irondequoit and for a number of years engaged in the raising of blooded cattle and horses.

He was one of the first to raise blooded Jersey cattle in this county and for years was one of the largest Jersey breeders in Western New York. He also raised Morgan horses, many of which he sold the United States and Mexican governments for cavalry mounts and breeding purposes.

Much of Mr. Ely's farm lands were gradually absorbed by the East Side residential sections in the East Avenue and Culver Road district and he devoted much of his time to his real estate interests until he retired 20 years ago. He lived all his life in the section where he was born, his last residence being at 1335 University Avenue.

He was a member of the Gen-

see Valley Club, the Rochester Historical Society and for a number of years of the Rochester Country Club.

Besides his sister he leaves a number of nieces and nephews.

NO OPPOSITION TO FILING WILL OF MRS. ELWOOD

Document of East Avenue Resident Disposes of More Than \$20,000 Realty and Personality

Tell-June 1934
The will of Mrs. Frederica Hewitt Elwood, 577 East Avenue, disposing of more than \$20,000 in real and personal property, was admitted to probate Tuesday, contrary to rumors that it would be contested.

Value of the estate will not be learned until appraisal is made, the will merely stating "upwards of \$10,000" each in personality and real property. Two daughters, Mrs. Victoria R. Powers of the East Avenue address, and former wife of Walter Powers, and Mrs. Dorothy E. Mack of Arlington Heights, Mass., are the beneficiaries.

Mrs. Elwood was the widow of Frank W. Elwood. Mrs. Powers was daughter of an earlier marriage, but Mrs. Mack was the daughter of Mr. Elwood. Frank W. Elwood, once owner of the Elwood Building, died in 1899, and left his estate, valued at \$275,000, to be divided equally between Mrs. Elwood and his daughter, Mrs. Mack. Mrs. Elwood, more than 80 years old, and blind, died Dec. 15.

Under her mother's will, Mrs. Powers receives the East Avenue property and household effects. She is residuary legatee. An income of \$6,000 is left Mrs. Mack who, until a week ago, was a patient in a private sanitarium. She also receives her father's books. The Rochester Trust and Safe Deposit Company and Eugene Van Voorhis, are executors.

W. H. EMERSON APPOINTED U. S. COMMISSIONER

Sworn in by Federal Judge Adler to Fill the Post Recently Vacated by Fithian Zimmerman

Dec. 15, 1932
William H. Emerson of the law firm of O'Brien & Emerson, Wilder Building, today was sworn in by U. S. Judge Simon L. Adler as U. S. commissioner.

He succeeds Fithian F. Zimmerman, recently resigned.

Mr. Emerson, a resident of the 12th Ward, residing at 20 Girton Place, was born in Warsaw in 1893, a son of William N. Emerson and a great-grandson of William H. Smith, first county judge of Livingston County. He has been a resident of Rochester since 1899. He graduated from East High School, Syracuse University and the Syracuse University Law School, class of 1915, and was admitted to the bar in 1916.

Following his admission to the bar he was associated with Wile, Oviatt and Gilman until the outbreak of the World War. He enlisted in the regular army in 1917 and was commissioned second lieutenant of infantry, regular army, in August of that year.

Served in France

He served a year and a half in France with the 49th Infantry, was promoted to first lieutenant and captain, respectively, and assigned in 1920 to the Army War College and to the First Division, regular army, in 1921, and to the Infantry School at Fort Benning, Georgia, in 1922. He resigned as captain of infantry Dec. 19, 1922. He has since served in the reserve corps as captain and major and is at present commander of the First Battalion, 391st Infantry.

Following his resignation from the army he became associated with the law firm of Hubbell, Taylor, Goodwin & Moser, remaining

with the firm until 1923, when he formed a partnership with James C. O'Brien. He has since been engaged in the general practice of law with offices in the Wilder Building. He has a summer home at Silver Lake.

Mr. Emerson is a member of Phi Delta fraternity, Phi Delta Phi legal fraternity, Rochester Bar Association, University Club, American Legion, Silver Lake Golf and Country Club, Rochester Chapter, Reserve Officers' Association, and is a member and former president of the Alumni Council of Syracuse University.

EMERSON GETS U. S. POST

Dec. 15, 1932
Rochester Public Library
Following his assignment from Washington, William H. Emerson of the law firm of O'Brien and Emerson, was sworn in as United States Commissioner by Fledera Judge. Simon L. Adler today.

Emerson succeeds F. Fithian Zimmerman.

Emerson, a resident of the Twelfth Ward, residing at No. 20 Girton Place, was born in Warsaw in 1893, a son of William N. Emerson and a great grandson of William H. Smith, first county judge of Livingston County. He has been a resident of Rochester since 1899. He graduated from East High School, Syracuse University and Syracuse University Law School, class of 1915, and was admitted to the bar in 1916.

Following his admission to the bar he was associated with Wile,

W. H. Emerson

out and Gilman until the outbreak of the World War. He enlisted in the regular army in 1917 and was commissioned second lieutenant of infantry, regular army, in August of that year.

He served a year and a half in France with the Forty-ninth Infantry, and was promoted to first lieutenant and captain, respectively, and assigned in 1920 to the Army War College and to the First Division, regular army, in 1921, and to the Infantry School at Fort Benning, Georgia, in 1922. He resigned as captain of infantry December 19, 1922. He has since served in the reserve corps as captain and major and is at present commander of the First Battalion, 391st Infantry.

Following his resignation from the army he became associated with the law firm of Hubbell, Taylor, Goodwin and Moser, remaining with the firm until 1923, when he formed a law partnership with James C. O'Brien under the firm name of O'Brien and Emerson, and has since been engaged in the general practise of law with offices in the Wilder Building.

Birthday Greetings

R. J. Embury, July 17, 1841

The Times-Union congratulates Albert R. Embury, who will observe his birthday anniversary tomorrow.

ALBERT R. Embury, Civil War veteran, was born July 17, 1841, and enlisted in Company G, 108th Infantry at Rochester when he was 21 years old. He served the army until the close of the Civil War, fighting at Shiloh, Antietam, and in the Battle of the Wilderness. He also marched with Sherman to the sea and was wounded in action.

For many years after peace was established Mr. Embury lived as a Michigan farmer. Since the death of his wife six years ago he has lived with his son, Albert M. Embury of 710 Seward Street. Mr. Embury is a member of Pierce Post, G. A. R.

Greetings Birthday

R. J. Embury, June 14, 1864
The Times-Union congratulates George L. English and Thomas H. Green on their birthday anniversaries.

GEORGE L. ENGLISH, consulting mineralogist for Ward's Natural Science establishment, was born in Philadelphia, June 14, 1864. He has traveled extensively in Europe and North and South America collecting mineralogical specimens.

Some years ago Mr. English was head of the George L. English & Company of Philadelphia and New York, dealers in scientific minerals. From 1903 to 1913 he was monazite expert in charge of the monazite mines in North and South Carolina for the National Light and Thorium Company.

In 1913 Mr. English joined Ward's establishment as manager of the department of mineralogy and petrography. He has lectured on mineralogy for the New York City Board of Education and for various societies.

Mr. English is a member of the Rochester Academy of Science, New York Academy of Sciences, Philadelphia Academy of Sciences, life member of the Brooklyn Institute of Arts and Sciences, member of the New York Mineral Club, the Mineral Society of America, the Mineral Society of Great Britain and other institutions.

CHASE TO PAINT ERBE PORTRAIT AS STAFF GIFT

R. J. Embury, May 24, 1880

Manufacturing Firm Founder Given Plaque, Photos of Officers for Birthday

Through contributions made by every member of the Yawman & Erbe Manufacturing Company, including all employees of branch offices, Joseph Cummings Chase, well known portrait painter of New York City, has been engaged to paint a portrait of Gustav Erbe, who, with Phillip H. Yawman, founded the company May 1, 1880. The acceptance by Mr. Chase of this commission was made known to Mr. Erbe yesterday, his 78th birthday.

As a further expression of esteem for Mr. Erbe, the members of the Y. & E. Club, an organization of employees of the factory and home office, yesterday presented Mr. Erbe with a 16-inch bronze plaque which shows an animated trademark of "Y. & E." containing the pictures of Mr. Yawman and Mr. Erbe in relief. This was accompanied by a large bouquet of flowers.

Given Book of Photos, Names

The most personal tribute to Mr. Erbe was a book bound in blue levant and morocco, with gold tooled lettering, containing the signatures and photographs of all the "Y. & E." executives and department heads and the signatures of all the officers in each of the 300 "Y. & E." agencies all over the United States. Besides these expressions, tokens and gifts, the Office Specialty Company, the Canadian plant of the company, through Charles Slemen, managing director, sent

to Mr. Erbe a gold engraved plate containing a picture of the Canadian plant.

Mr. Erbe was at the plant yesterday looking and acting, according to his associates, like a man 70 years his junior, although, in connection with the celebration of his own birthday, the company was observing the fiftieth anniversary of its founding.

Mr. Erbe was born in New York City, May 23, 1852. When he was a young boy his father died and he began to learn the trade of making scientific instruments. He always recalled with pride that before the construction of the famous Brooklyn bridge, he made all the surveying instruments used by W. A. Roebling, who designed and built the bridge. In 1878 he came to Rochester to take charge of a department in Bausch & Lomb Optical Company.

Small Quarters At First

Mr. Erbe and Mr. Yawman became acquainted when they were working for the Bausch and Lomb Optical Company. When they left that concern and organized their own company early in 1880 the business was housed in a small room, 20 by 30 feet, on the ground floor of a building at Exchange Street and the Erie Canal.

In 1907 the company purchased 14 acres in Jay Street, Gates, just outside of the city. Several additions since have been made to the plant erected on that site. Today, in addition to the Rochester plant, there are 17 branches and sales offices, nearly 300 agencies and 3,000 dealers in the United States, besides representation in more than 50 foreign countries.

Gustav Erbe
 Although he kept pace with the mechanical progress that has profoundly changed the methods of industry, Gustav Erbe retained something of that fine craftsmanship which made the skilled worker a dominant factor in business in the days of his youth. He had the craftsman's pride in his work, and it was this that kept him close to his employees, who understood him because he understood them. He will be mourned as a friend by many to whom he was also employer.

The business story of Mr. Erbe is a story similar to that of other older industries in Rochester. It carries back to the days when hands were called upon to do what machines now do with rather less finesse, although with considerably more efficiency. It is interesting that his early training was gained with the Bausch & Lomb Company, which was itself at that time a young business with an uncertain future. The partnership that Mr. Erbe formed with Philip H. Yawman, while both were working in the optical factory, was not unlike that which led to the partnership of Messrs. Bausch and Lomb.

Mr. Erbe moved with the times, and the development of the business which he helped to establish is a monument to the sound principles, to the honesty and the "humanness," with which the business has been conducted. It was characteristic, however, that he should take special pride in recalling some of the triumphs of his early days, when he was a worker at the bench. He was fond of recalling that he made all the instruments used in the survey of the site on which the Brooklyn Bridge was built.

For more than fifty of his 79 years, Mr. Erbe had lived in Rochester and his name is firmly established with the business pioneers whose careers have typified the best spirit of American industry. Last year the Yawman & Erbe Company observed its fiftieth anniversary. Mr. Erbe's death means the passing of a useful and influential figure from the city's life.

Gustav Erbe Dies at Age of 79

Rochester Public Library
 54 Court
 Rochester, N. Y.
**Manufacturer Succumbs To
 Heart Attack While Weak-
 ened by Cold.**

Gustav Erbe, pioneer Rochester manufacturer, died at his apartment home in The Sagamore at 8 a. m. today, after a two-day illness. He was seventy-nine.

Mr. Erbe was president and co-founder of the Yawman & Erbe Manufacturing Company and also president of the Office Specialty Manufacturing Company of Toronto.

A heart attack, brought on by a severe cold, was given as the cause of death. Up to the time he was taken seriously ill, two days ago, Mr. Erbe went to his office daily to direct his extensive business affairs. In spite of his advanced years, he had retained the guiding power in both companies.

LEAVES FAMILY OF 4

Survivors are the widow, Antonia Schmidt Erbe; two sons, Frederick G. and Gustav Jr., and a daughter, Mrs. Rose Erbe Slein of Toronto. Mr. and Mrs. Erbe would have celebrated their golden wedding anniversary January 4, 1932.

Private funeral services will be held Monday at 2 p. m., followed by a public service in the chapel of Mt. Hope Cemetery at 3. The family has requested that flowers be omitted.

Mr. Erbe was a director of the Lincoln-Alliance Bank & Trust Co., Rochester Trust & Safety Deposit Co., Mechanics Institute, a trustee of the Rochester Dental Dispensary and an active member of the Chamber of Commerce.

MEMBER OF CLUB

He was a member of the Genesee Valley Club, Oak Hill Country Club, Rochester Club, Country Club of Rochester and the Society of the Genesee.

Rise of the Yawman & Erbe Manufacturing Company from a little concern employing twenty men and occupying a 20 by 30 room, to

GUSTAV ERBE

Mr. Erbe, who fifty-one years ago founded, with the late Francis J. Yawman, the great industry that bears their names, died early today. He was seventy-nine.

one of the world's leading manufacturers of office equipment, is another of Rochester's business romances.

Mr. Erbe and the late Philip Yawman founded the business May 1, 1880, and the partnership endured for forty-one years—until Mr. Yawman's death on April 5, 1921. Last year the company's fiftieth anniversary was celebrated.

Messrs' Yawman and Erbe were brought together for the first time a few years after the Civil War, in the Bausch & Lomb Optical Company's plant, where both were employed at highly technical work. Mr. Erbe was foreman in the micro-

scope department and his partner-to-be was a master mechanic, engaged in inventing, designing and proving new machinery and methods.

Finally they decided to go into business for themselves and rented a twenty by thirty room in the heart of downtown Rochester. The business prospered from the start and within a short time the partners found it necessary to buy a plot of ground and put up a brick building. The plant was enlarged again in 1890, in 1907, the present modern factory was built.

For twenty-five years the company made, in addition to its office equipment, the Cutler Mail Chute. It also made the first model film-roll holders and the first model No. 1 Kodak for the Eastman Kodak Company.

Mr. Erbe bought interest in the Office Specialty Manufacturing Company of Toronto in 1883 and since that time has built it up to be a concern doing business throughout the British Empire. He operated it entirely apart from his Rochester interests and it had no connection whatever with the Yawman & Erbe Manufacturing Co.

Mr. Erbe was born in New York City on May 23, 1852, but came to Rochester when he was a young man.

GUSTAV ERBE PASSES AWAY AT AGE OF 79

Left School for Mechanic's Bench and Became Founder Of World-Known Firm

Gustav Erbe, president and a founder of the Yawman & Erbe Manufacturing Company of Rochester and the Office Specialty Manufacturing Company of Toronto, died yesterday morning in his apartment at The Sagamore. He was 79.

Death ended a career which in the last 50 years had been instrumental in making Yawman & Erbe one of Rochester's largest industries, and known internationally for the quality of its products, office furniture and equipment. Mr.

Erbe, born on May 23, 1852, in New York City, founded, with the late Philip T. Yawman, the company which bears their names.

Began at Bench

Mr. Erbe's career began at a mechanic's bench, where he received a thorough grounding in mechanical work, which supplemented a common school education. After leaving school, Mr. Erbe was apprenticed to a machinist, and worked on surveying and optical instruments. Moving to Rochester, he obtained employment with the Bausch & Lomb Optical Company as a maker of microscopes, and eventually became head of his department.

It was there that he became acquainted with Mr. Yawman, then a master mechanic, who was to become his partner.

They embarked on business in 1880 as manufacturers of mathematical, optical and surveying instruments, and in the early days made spring rollers and cameras. Three years afterward they contracted with the patent owners to make certain types of files, binding cases and similar office equipment. They are said to have been among the earliest manufacturers of the arch file, the forerunner of modern filing systems.

In 1898 Yawman & Erbe ceased to manufacture for other companies and was incorporated under the name of the Yawman & Erbe Manufacturing Company, taking over the business of the Office Specialty Company, a Rochester concern engaged in selling office equipment. At the same time the firm opened the Canadian factory and began training a sales organization to dispose of its products.

Active in Civic Life

Mr. Erbe, always in the best of health, was at his office daily when in Rochester; and even when away on the travel in which he delighted, maintained a close contact with the company's activities. He was an ardent golfer. Although

Rochester Public Library
R. T. Yawman & Erbe
Rochester, N. Y.

Another of the builders of Rochester has laid down his tools and passed on. He is Gustav Erbe, president of the Yawman & Erbe Manufacturing Company of Rochester, and the Office Specialty Manufacturing Company of Toronto.

Mr. Erbe was next to being a native Rochesterian, although he was born in New York. He had lived here since prior to 1880. In that year he and Philip T. Yawman, then master mechanic at the Bausch & Lomb Optical Company plant where Mr. Erbe was a foreman, organized their company.

Yawman & Erbe had as humble a beginning as an industry could have and survive. They set up shop in a 20 by 30 room and went after business. Their earnest efforts in handling various kinds of machinery first, then manufacturing the film rollers for the Eastman Kodak Company, and finally branching into the office fixture business, insured complete success from the start.

But Mr. Erbe's time and money did not all go to the industry he helped to build. His benefactions were many, his gifts generous. He had an unflinching interest in civic development, and participated from time to time with the same thoroughness with which he attended to his private business.

He will be long and greatly missed.

GUSTAV ERBE OBSERVES HIS 78TH BIRTHDAY

Yawman & Erbe Company
Also Marking Fiftieth
Anniversary of Found-
ing—Growth Rapid.

Today the Yawman & Erbe Manufacturing Company is observing the 78th birthday of Gustav Erbe, its president, and the 50th anniversary of the founding of the firm.

Early in the year 1880 two young men, Philip T. Yawman and Gustav Erbe, were employed by the Bausch & Lomb Optical Company, the former as master mechanic and the latter as foreman of the microscopic department.

Mr. Yawman was born in Rochester Sept. 1, 1839. Mr. Erbe was born in New York May 23, 1852. He made all the surveying instruments used by W. A. Roebling, who designed and built the Brooklyn Bridge.

Yawman & Erbe was organized May 1, 1890 in a little room about 20 by 30 feet on the second floor of a building at Exchange Street and the Erie Canal.

Made Batteries

In its early years it made electric batteries for medical purposes, bottling machinery, fishing tackle and the Cutler mail chutes. The company continued the manufacture of this chute until August, 1908. It also made photographic roll-holders for camera film, and the first model No. 1 Kodak for the Eastman Company. In 1895 the Eastman Company built its own plant and began to manufacture its own products.

In 1877, James Shannon of Chicago produced the Shannon arch file and a few years later the Yawman & Erbe Company began the manufacture of this file, still an important part in its line.

In 1883 the company purchased land in North St. Paul Street and

RITES PLANNED AT CHURCH FOR WILLIAM ERDLE

Rochester Public Library
64 Court St.
President of Perforating
Company Dies After
Illness of Month—Former
Yacht Club Chief

Funeral services for William J. Erdle, who died yesterday at his home, 495 Maplewood Avenue, will be held Wednesday at 2:30 a. m. at the home and 10 o'clock in the Church of the Sacred Heart.

Interment will be in Holy Sepulcher Cemetery.
Mr. Erdle was a former commodore of the Rochester Yacht Club and led the movement for construction of the present yacht club basin at Summerville. He

Death of Secretary Of Yawman & Erbe Follows Father's

Funeral services will be conducted Monday afternoon for Frederick G. Erbe, 49, secretary of the Yawman and Erbe Manufacturing Company, who died early yesterday morning at his home, 35 Berkeley Street, after a week's illness of pneumonia. His death occurred less than five months after that of his father, Gustav Erbe, one of the founders of the company.

After attending the University of Rochester, Mr. Erbe became associated with his father's company in 1903. After two years of practical machine work and toolmaking, he was placed in charge of the electro-chemical department. Later in the same year he was appointed assistant superintendent. One of his first tasks was the rehabilitation of the St. Paul Street power plant.

In 1906 the company decided to expand by building a new plant in Gates and Mr. Erbe was placed in charge of the supervision of building operations. When the new plant was completed in 1908, he took charge of all manufacturing in it.

He was elected a director in 1908 and in 1921 he was made secretary, an office which he held until his death. Recently he was elected a director of the Office Specialty Manufacturing Company of Toronto, Ont.

For a number of years Mr. Erbe was active in Y. M. C. A. work. He also was a member of a number of clubs, organizations and fraternal bodies.

He leaves his wife, Mrs. Elnora Graham Erbe; a son, Frederick G. Erbe Jr. of New York; a daughter, Miss Jeannette Erbe, an art student in New York; his mother, Mrs. Antonia Erbe; a brother, Gustav Erbe Jr. and a sister, Mrs. Rose E. Slemin of Toronto, Ont.

production manager and finally was elected a director and made secretary of the corporation.

Mr. Erbe for several years had been an active Y. M. C. A. worker. He also was a member of the Genesee Valley Club, Rochester Club, Oak Hill Country Club, Country Club of Rochester, Rochester Athletic Club, Rochester Automobile Club, Society of the Genesee, Alpha Delta Phi fraternity and several Masonic bodies.

He leaves his wife, Mrs. Elnora Graham Erbe; a son, Frederick G. Erbe Jr., of New York; a daughter, Miss Jeanette Erbe, an art student in New York; his mother, Mrs. Antonia Erbe; a brother, Gustav Erbe Jr., and a sister, Mrs. Rose E. Slemin of Toronto, Ont.

Funeral arrangements will be announced later.

Gustave Erbe died Oct. 30, 1931.

built a four-story factory building. The Franklin Institute of Pennsylvania on Feb. 3, 1904, awarded a medal and diploma to the Yawman & Erbe Company for a rapid roller copier.

Additions Made

In 1907 the company purchased 14 acres of land in Jay Street, Gates, just outside the city. Several additions have since been made. Today in addition to the Rochester plant there are 17 branch sales offices, nearly 300 agencies and 3,000 dealers in the United States, besides representatives in more than 50 foreign countries.

The "Y and E" Club, an organization of employees, presented Mr. Erbe a bronze plaque and flowers. He also was given a book containing the signatures of all department heads. A large oil portrait of him is to be painted by Joseph Cummings Chase, a well known New York artist. This project is being handled by a committee obtaining contributions from the entire organization.

BUSINESS MAN PASSES AFTER BRIEF ILLNESS

Frederick G. Erbe Succumbs to Attack

Of Pneumonia
Dec. 7, 1931

Frederick G. Erbe, 49, secretary of Yawman & Erbe Manufacturing Co., died early this morning at his home, 35 Berkeley Street, after an illness of a week of pneumonia.

Mr. Erbe was the son of Gustav Erbe, one of the founders of the company. He attended Rochester schools, the Bradstreet Preparatory School and the University of Rochester. After leaving college in 1905 he became associated with the firm as mechanical and electrical engineer, later being advanced to

was president and treasurer of the Erdle Perforating Company. He had been ill about a month.

Mr. Erdle was the son of the late Frederick and Ellen Kelly Erdle and was born in Rochester. His father established the concern of which he was an official. Mr. Erdle attended St. Bridget's parochial and other schools and then entered his father's plant. In 1905 it was incorporated and in 1909 he became its president and treasurer. In 1913 the present plant at 171 York Street was built.

Mr. Erdle was commodore of the Yacht Club for three years. He also was a member of the Rochester Club, Rochester Lodge of Elks, Chamber of Commerce, Society of the Genesee, Automobile Club and the United States Chamber of Commerce.

He is survived by his widow, Esther Weis Erdle; a daughter, Virginia M. Erdle; a son, William J. Erdle Jr.; a brother, Frederick J. Erdle, and three sisters, Mrs. Frances Schenck, Mrs. Leo Leach of Rochester, and Mrs. Catherine Charbonneau of Canandaigua.

Rochester Churches

Funeral services for Lorimer Eshleman, 46, who died unexpectedly at his home, 26 Pinnacle Road, yesterday, will be conducted in Mt. Hope Chapel Tuesday afternoon at 2:30 o'clock. Burial will be in Mt. Hope Cemetery.

Mr. Eshleman was a native of Kitchener, Ont., and came to Rochester when a child. He had served as organist in the old Park Avenue Baptist Church, the United Presbyterian Church, First Methodist, Baptist Temple and at the time of his death was organist at the First Church of Christ, Scientists.

He was a member of Corinthian Temple Lodge, F. & A. M., and the Consistory. He was also a member of the Guild of Organists and the First Methodist Church.

He leaves his wife, Mrs. Ethel Kuhn Eshleman; a daughter, Jean Eleanor; three brothers, Edgar, Herbert and Arthur Eshleman, and a sister, Mrs. Alvin Waters.

FREDERICK H. EVANS was born in Fleming County, Kentucky, in 1881 and attended primary

and intermediate schools there. He graduated from the University of Kentucky in 1903 with a degree of bachelor of engineering. Three years later he received his master's degree in mechanical engineering.

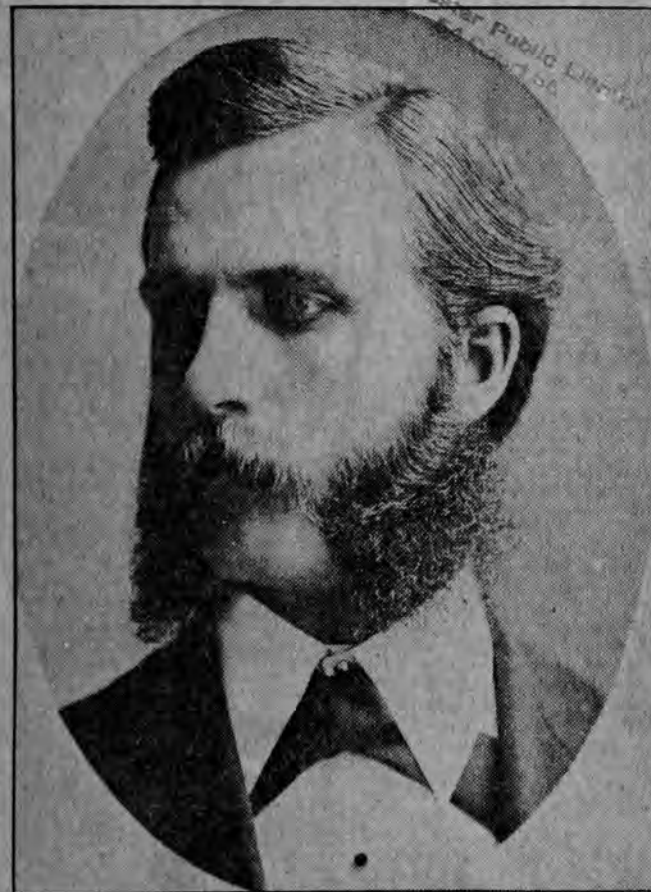

Mr. Evans was affiliated for 12 years with the Bradley Polytechnic Institute of Peoria, Ill., as superintendent of vocational courses. For a time he served as dean of Toledo University College of Industrial Science. During the years 1918 and 1919 Mr. Evans worked on the general staff of the War Plans Division of the United States government. In 1921-22 he acted as chief attorney in the central office of the Veterans' Bureau at Washington, D. C. Mr. Evans came to Mechanics Institute in the Fall of 1923 and took up the work of the mechanical courses. He and John A. Randall, president of Mechanics Institute, founded the co-operative courses plan now in use there.

Mr. Evans was married in Iron-ton, Ohio in 1908. He is the father of one daughter, Mary. Royler Evans, a freshman at Cornell University.

Mr. Evans is a member of the American Society of Mechanical Engineers, the Society for Promotion of Engineering Education, and the Rochester Engineering Society.

THE ROCHESTER ALBUM

ON a visit to mother's house, or perhaps to grandmother's an interesting diversion is to turn the leaves of the old family album. How strange, yet how familiar, are the faces; how odd the styles of a bygone day! The Times-Union invites you to peek into the Rochester album.

Herman LeRoy Fairchild, D. Sc.

A Junior at Cornell University in 1873

Teaching farmers' children—some of them older than himself—in a country district school at the tender age of

16 was the first job Herman LeRoy Fairchild, D. Sc., professor emeritus of geology at the University of Rochester, ever had.

"I took an examination to become a teacher just for fun," he said. "I passed it with ease. Then the school directors presented me a certificate and coaxed me to teach in a school four miles from my farm home at Brooklyn, Pa. I followed the old-time custom of "boarding around" among the families of my 20 or 30 pupils. The pay was about \$20 a month.

The above photograph was taken in 1873 when Professor Fairchild was a junior at Cornell University preparing for the field in which he has since become so widely known. Back in those days "side-burns" were all the style. It was comparatively easy to enter college in a scientific course then, he averred.

DOCTOR FAIRCHILD was born in Montrose Pa., Apr. 29, 1850, the son of Herman C. and Mary A. Fairchild, English New Englanders. In 1869 he went to work in the freight office of the Delaware, Lackawanna & Western Railroad at Scranton, Pa. He was graduated from Cornell in 1874 with a B. S. degree. From 1874 to 1876 he taught in Wyoming Seminary, Kingston, Pa. During the years 1877-88, he lectured on natural science and geology in New York schools. He was secretary of the New York Academy of Sciences and editor of its publications from 1881 to 1888.

He was 32 when invited to Rochester by the university president, Martin B. Anderson, to take the chair of geology and natural

Prof. Fairchild

sciences. He taught physical geography, geology, botany, zoology and physiology. He was curator of the Geological Museum for 33 years.

In 1888 he was one of a group of 13 geologists who organized the Geological Society of America, and for six years has been the only surviving founder. He was secretary of the society from 1891 to 1906 and president in 1912. He reorganized the Rochester Academy of Science in 1889, was president from 1901 to 1912 and patron in 1920.

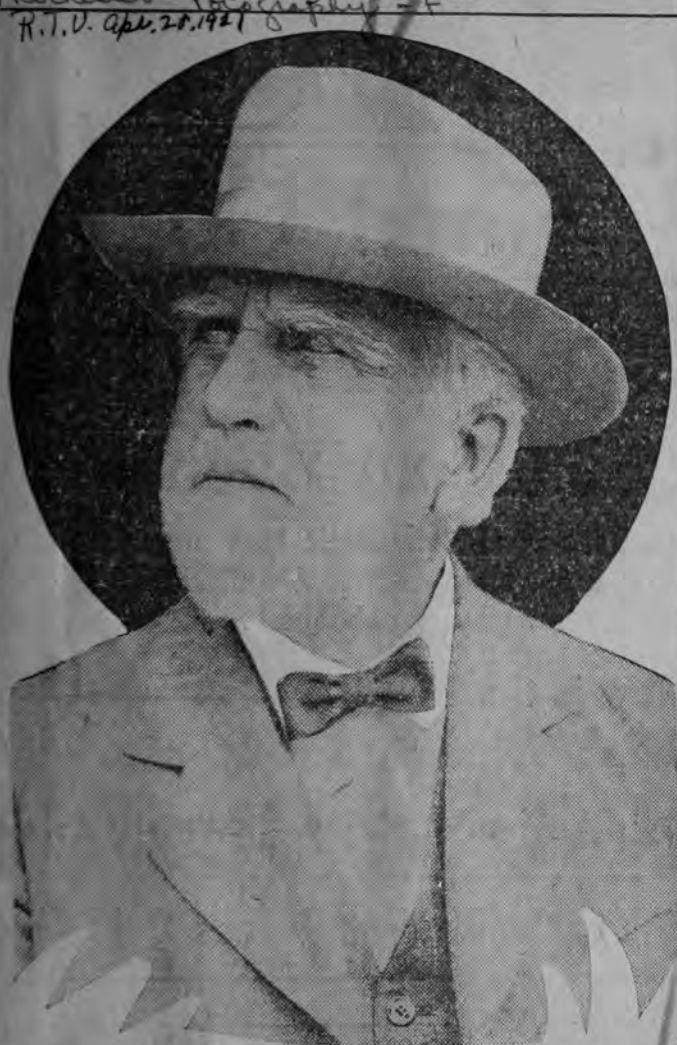

PROFESSOR FAIRCHILD was a member of the University of Rochester faculty from 1888 to 1920 when he was retired as professor emeritus. In 1910 he received the degree of doctor of science from Pittsburgh University. He was assistant and expert in geographic geology of the New York State Geological Survey from 1906 to 1920.

Regarded as one of the foremost geologists in the world, Professor Fairchild has made glacial geology his special field. He has unfolded an account of the Genesee Valley as it was before the appearance of man. He has told how the Pinacle Range was built by glaciers, shown how relatively modern is the present gorge of the Genesee, and explained the stream's ancient river bed in the Irondequoit Valley.

HIS books have become popular with the masses of readers fascinated by the story of the Genesee's history. Among his volumes are: "Geological Story of the Genesee Valley and Western New York," "History of the New York Academy of Sciences, and The Geological Society of America." Doctor Fairchild, now in his 84th year, is the author of 253 books and papers. Several more papers are now in the making. Best known among his papers are: "Pleistocene Uplift of New York and Adjacent Territory," "Postglacial Continental Uplift," "Glacial Lakes of Western New York," "Drumlins of Central-Western New York," and "The Rochester Canyon and the Genesee River Base Levels."

R. V. F.
Rochester - Biography - F
R. T. U. Apr. 20, 1921

Sturdy At 81

Dr. Herman LeRoy Fairchild of 106 Winterroth Street, most widely quoted geologist in America, will celebrate his 81st birthday anniversary tomorrow. He is professor emeritus of geology of the University of Rochester faculty.

Dr. Fairchild Will Spend 81st Birthday Finishing Work On His Latest Book

Dr. Herman Leroy Fairchild of 106 Winterroth Street, America's most widely quoted geologist, will be 81 tomorrow and plans to spend the day touching up the manuscript of his latest book, "The History of the Geological Society of America," a story of the evolution of geology.

The Rochester scientist is the only survivor of the 13 founders of that society, established in 1888. He is widely known in his department of science as another Rochesterian, the late Lewis Henry Morgan, is in ethnology. He expects to complete revision of his history on his birthday anniversary and then take the manuscript to New York City. In the evening he will gather his family about the dinner table.

Born April 29, 1850 at Montrose, Pa., Dr. Fairchild at 16 was teaching a country school and boarding with farmers of the district. He was graduated at Cornell in 1874 with the B. S. degree, and in 1910 received his doctorate in science from Pittsburgh University.

He was 38 when invited to take the chair of geology and natural sciences at the University of Rochester by President Martin B. Anderson and was a member of the faculty from 1888 to 1920. From this chair he lectured on geology, botany, zoology, physiology, and physical geography. After establishment of a department of biology he expanded the science course and included palaeontology, mineralogy, and meteorology. He became professor emeritus in 1920 and ever since has devoted his time to writing.

In his special line of research he has written voluminously for science journals, contributed several hundred papers to scientific societies, and has led in the organization of a number of science groups.

In 1889 he reorganized the Rochester Academy of Science, of which he was president in 1901 and patron in 1920. With colleagues he revived the New York Academy

of Sciences, was secretary of that organization, and for years editor of its publications.

Locally Dr. Fairchild has contributed valuable lore on the rock story of the Genesee Country. He has unfolded the geological history of this district and explained the formation of the sugar loaf, the drumlin, the valley, the Pinnacle range, the ancient bed of the Genesee through Irondequoit, and the relatively recent formation of the present Genesee gorge.

His books have become popular with masses of readers to whom the mystery of the Genesee's dark ages appeals. In his Geologic History of the Genesee he wrote: "It is not difficult for us, in this heaven-favored Western New York, to realize that not long ago the entire region was in the condition of present Central Greenland. Ice, probably a mile thick, lay over the site of Rochester when the south margin of the ice-sheet was in Pennsylvania."

Dr. Fairchild returned from Miami, Fla., six weeks ago.

Bust Of Fairchild

To Be Given U. R.

The Chester Dewey Building, which houses biology and geology classes of the University of Rochester on the River Campus, will probably have a new decoration in September or October when a bust of Herman L. Fairchild, professor emeritus of geology at the university, will be presented.

The Rochester Academy of Science, of which Prof. Floyd C. Fairbanks is president, sponsored the project. Commission for the bronze casting has been given Miss Blanca Will, sculptor.

Fairchild Bust Is Unveiled In Ceremony at University

Rochester Public Library
54 Court St.
Friends, Associates
Pay Tributes to
Noted Geologist

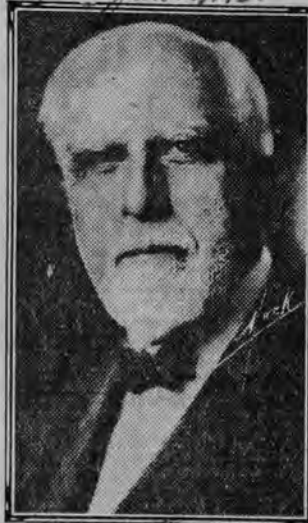

By AUGUSTA S. ANDERSON

Such things as a man might hope to have said of him when he has left this world; such praise as often comes too late for mortal ears, were spoken last evening in the hearing of Herman LeRoy Fairchild, professor emeritus of geology of the University of Rochester, when a bust of himself was unveiled in the Chester Dewey building, on the river campus.

This memorial was a gift to the University from the Rochester Academy of Science, of which Professor Fairchild is honorary president and served as active head for 14 years. The bust was modeled from life by Blanca Will of the Memorial Art Gallery and unveiled by little Miss Jean Kathryn Fairchild, granddaughter of the original. The bust was accepted on behalf of the University by Dr. Rush Rhees, with an eloquent tribute.

"It is an exceptionally felicitous thing when a man's friends are able to express in his lifetime their regard for him and to erect a fitting memorial while he is living," Doctor Rhees said. "It is difficult for us to realize the significance of Professor Fairchild's work. In 1888 he began a study of the present Western New York and the wider area of the state affected by the great glacial period. We have been impressed by the enthusiasm with which this work has been carried on. The doing of a great work without adequate facilities is one of the greatest achievements a man can make.

"Another and an abiding memorial is the men who, after studying under Professor Fairchild, have gone out to teach or serve as

geologists in this and other countries."

"To you, my friend and colleague," Doctor Rhees said, after thanking the academy for its gift, "I give my warmest congratulations. The longer you stay with us to mock this metallic imitation the more will be thank God."

Put Academy on Its Feet

The first to pay tribute to Professor Fairchild was Floyd Fairbanks, president of the academy, who presided. He related how the geologist had put the New York State Academy of Science on its feet, adding that it is doubtful if it would have continued had he not done so. Mr. Fairbanks explained that the professor was a member of the first chapter of Sigma Psi, honorary fraternity, founded at his alma mater, Cornell University, as well as an honorary president and charter member of the American Geological Society.

Because Professor Fairchild is an alumnus of Cornell, Dr. Hein-

rich Ries, professor of geology in that university, made the chief address. Before plunging into his subject, "Industrial Applications of Geology," Doctor Ries told that Professor Fairchild in the near future will have completed a history of the American Geological Society, soon to be published.

"Every science has two sides; its theoretical and its practical sides, and so it is with geology," Doctor Ries said. "For certain industrial activities geology is as necessary as is anatomy for the physician. Doctor Fairchild may be said to have laid the base of much industrial geology."

Regrets from Dr. Hill

Mr. Fairbanks read regrets from Dr. David Jayne Hill, former American ambassador to Germany, sent from Washington, and from Herbert S. Weet, superintendent of Rochester schools. He said that one of the valuable contributions of the academy to the University was a herbarium of 50,000 specimens, now in the building.

Dr. Harold L. Alling, professor of geology at the university, and a former pupil of Professor Fairchild, in paying him tribute, said that so great was his ability to portray the glacial fields of this country that "he needed neither lantern nor motion picture."

Another eulogy came from president of the Rochester Chapter of Sigma Psi.

When Professor Fairchild was called on to respond, the entire gathering rose and applauded.

The inscription on the pedestal of the bust is:

Herman LeRoy Fairchild, professor of geology, University of Rochester, 1888-1920, eminent scientist and author. Modeled from life by Blanca Will. Presented to the University by the Rochester Academy of Science, 1932."

Members of the Academy and of Rochester Chapter Sigma Psi attended an informal dinner, to which they brought guests, in Todd Union.

Birthday Greetings

To Rochesterians

The Times-Union congratulates Dr. Herman LeRoy Fairchild on his birthday anniversary.

DR. HERMAN LE ROY FAIRCHILD, professor emeritus of geology of the University of Rochester, will be 78 years old tomorrow. Dr. Fairchild gained a world-wide reputation in his chosen field and is an acknowledged authority on the geology of Western New York.

He retired from the faculty of the University

of Rochester in 1920 following 32 years of service with that institution. In 1924 he accompanied the Marsh-Darion expedition into the Panama region, where he gathered quantities of material and scientific data for American museums.

Dr. Fairchild is a past president of the Rochester Academy of Science, a past secretary of the Geological Society of America and was president of the society in 1912. He was chairman of a section of the American Association for the Advancement of Science in 1898 and has been geologist of the New York State Geological Survey.

Dr. Fairchild lives at 106 Winter- roth Street.

Herman LeRoy Fairchild

Is 80 Tomorrow; Writes Genesee Geologic Story

Herman LeRoy Fairchild of 106 Interroth Street, Rochester's best widely known scientist since his Henry Morgan, will complete his 80th trip around the sun tomorrow. The octogenarian plans to observe his birthday quietly, perhaps chop down a tree or two, but he is hale and hearty, and in the evening attend a dinner in his honor at which his son, two daughters and Mrs. Fairchild will be present.

Dr. Fairchild was born April 29, 1850 at Montrose, Pa., and at 16 was teaching a country district school, getting meals and lodging among the farmers. In 1874 he was graduated at Cornell University with the B. S. degree. In 1880 he received the degree of doctor of science from Pittsburgh University. From 1888 to 1920 he was a member of the faculty at the University of Rochester. He was 38 when invited to Rochester by the University president, Martin B. Anderson, to take the chair of geology and natural sciences. This means that he taught geology, botany, zoology, physiology and physical geography. After establishment of a department of biology, he expanded the geology course and included paleontology, mineralogy and meteorology. Dr. Fairchild was retired as professor emeritus in 1920.

He has written voluminously on subjects relating to his special field of research for scientific journals, contributed several hundred papers to learned societies and has been a leader in the organization of scientific groups. He was one of a group who in 1888 organized the Geological Society of America, and today he is the only surviving member. He reorganized the Rochester Academy of Science, in 1889, was president in 1901 and patron in 1920. He revived the New York Academy of Sciences with other colleagues. He was secretary of the organization and for years editor of its publications.

Heaven-favored Western New York, to realize that not long ago the entire region was in the condition of present Central Greenland. Ice, probably a mile thick, lay over the site of Rochester when the south margin of the ice-sheet was in Pennsylvania," Dr. Fairchild wrote in his geologic history of the Genesee.

Morgan, writing in Rochester, described the mysterious races occupying the Rochester area before the coming of the European, and Fairchild, also of Rochester, has unfolded the mysteries of the land in which they lived.

Noted Scientist

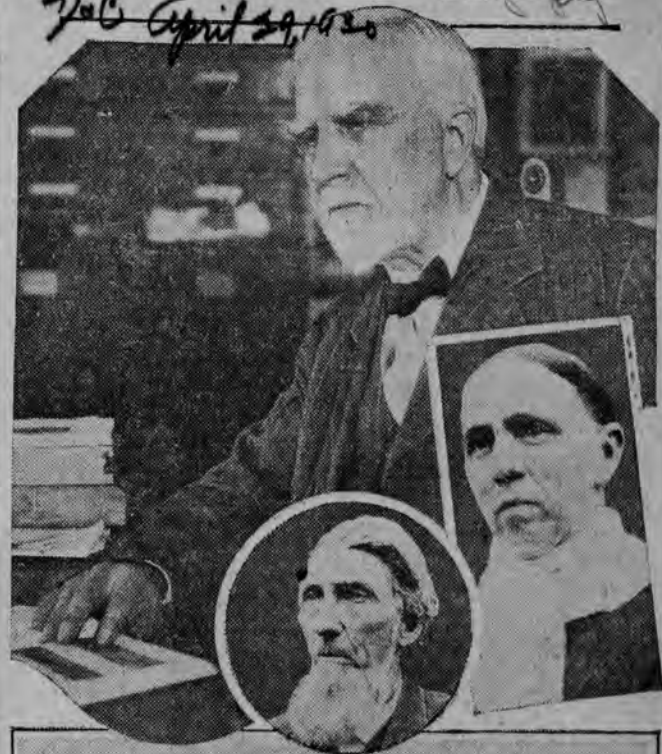

Herman LeRoy Fairchild

Dr. Fairchild has unfolded the story of the Genesee as it was before the appearance of man. He has told how the Pinnacle Range was formed by glaciers, shown how relatively modern is the present lower gorge of the Genesee, and explained the stream's ancient river bed in the Irondequoit Valley.

Of late years, however, his work had made

Dr. Herman LeRoy Fairchild, Whose Attainments in His Chosen Science Have Earned International Reputation, Still Vigorous in Mind and Body

By AUGUSTA S. ANDERSON

Dr. Herman LeRoy Fairchild, professor emeritus of geology of the University of Rochester, will this evening celebrate his eightieth birthday at a family dinner at the home of his son and daughter-in-law, Mr. and Mrs. LeRoy F. Fairchild, in Lake Avenue. Miss Jessie E. Fairchild, another daughter, will come from her ranch at Keuka Lake to join the party. Another daughter, Katherine, is Mrs. Charles F. Lewis of Coffeyville, Kansas, where her husband has charge of a division of the Bell Telephone.

Contrary to what the term "emeritus" sometimes implies, Professor Fairchild seems still in his prime. He has lost neither health nor a sense of humor. Every little while he produces a new article or a book on natural science. He is regarded as one of the foremost geologists in the world. His works are now in fourteen volumes, and his activities are such that another

book is likely to be added any year.

In the Publication Fund Series of the Rochester Historical Society, Edward R. Foreman, the editor, says that Professor Fairchild's "enduring reputation will rest on his investigations and studies and his writings in geologic sciences." In the field of glacial geology, Dr. Fairchild has won international reputation.

The future scientist was born on April 29, 1850, at Montrose, Pennsylvania. His parents, Herman C. and Mary A. Fairchild, were English New Englanders. Reared on a farm through boyhood, at the age of 16 Herman Fairchild had won sufficient confidence in his community to be hired to teach a country school, and he followed the oldtime custom of "boarding around" among the families of his pupils.

Three years afterward, in 1869, he got another line of experience on entering the employ of the Delaware, Lackawanna & Western Railroad at Scranton, Pa. One year later he began preparation for the

field in which he has since become so widely known, by entering Cornell University. He was graduated in 1874 with the degree of bachelor of science.

Brought Here by Dr. Anderson

His first two years following were passed as professor of natural sciences in Wyoming Seminary, Kingston, Pa. Then, in New York, he passed eleven years in public speaking, teaching, and scientific activity. Professor Fairchild was brought to Rochester by Martin B. Anderson, for years president of the University, and was appointed to fill the chair of geology and natural science on the afternoon of the day he arrived.

While filling this chair, he also taught first-year botany, zoology, physiology, and physical geography. After the department of biology was established, he amplified the subject of geology until there were several branches. For ten years he was registrar, and actually made all the academic records himself, from 1890 to 1900. In the latter year he was retired with the title of professor emeritus. Seven years afterward he gave his own library to the University.

In the two years from 1888 to 1890, Professor Fairchild found time, besides all his work at the University, to classify the great Ward collections in geologic science, which had been thrown out of order by removal from Anderson Hall to Sibley Hall. By June 13, 1890, he had installed the Geological Museum. This was opened to the public with a reception on that date. For twenty-two years following his undertaking to restore order there, Dr. Fairchild was curator.

Helped Form Geological Society

In 1888, he joined other geologists in organizing the Geological Society of America, and for seventeen years he was its secretary and publisher. In 1912, he was president. He gave of his time and ability to the American Associa-

tion for the Advancement of Science. In 1887, he was secretary for the first New York meeting. He brought the society to Rochester for its meeting in 1892, attending to plans and entertainment. In 1893 he was its general secretary.

Professor Fairchild was assistant and expert in geographic geology of the New York State Geological Survey from 1906 to 1920.

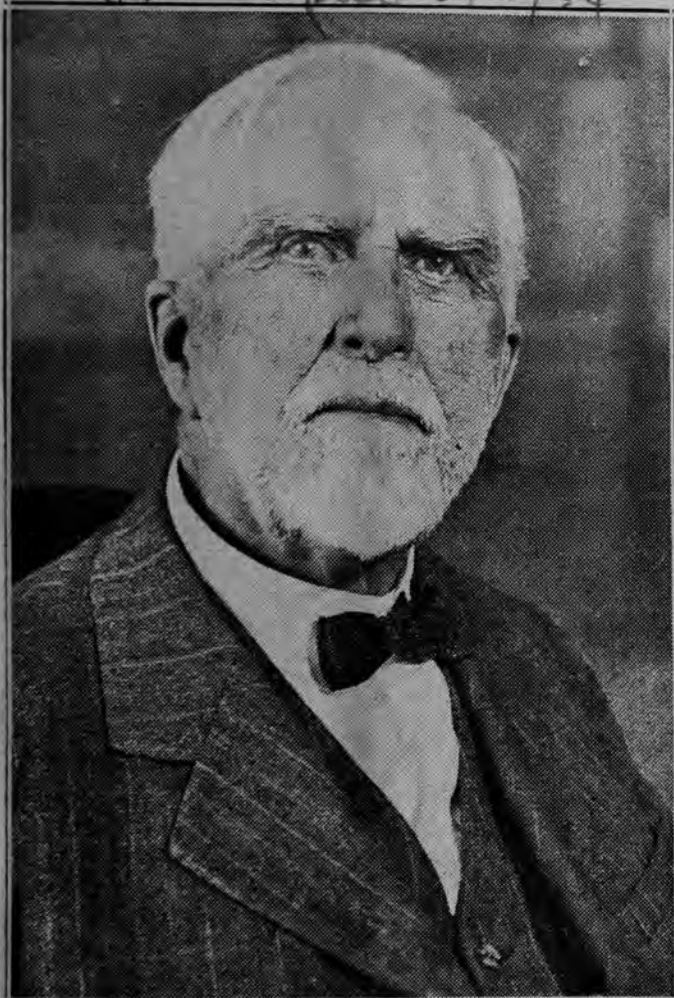

Civic matters also interest Dr. Fairchild. He helped to form the Rochester City Club. He was delegate to the Conservation Congress, called by President Roosevelt in 1910. In the same year he was made chairman of a group of Rochester citizens he had called together to form the Rochester Commission Government Association. This continued and he remained chairman until the World War ended its existence. Such was the association's influence that its successor, the Municipal Government Association, obtained from the Legislature the Optional Charter bill, granting autonomy to the cities of this state. Dr. Fairchild is an honorary member of the University Club.

R.T. 4 Jan 6, 1932
Plan Merited Tribute
In presenting to the University of Rochester on Jan. 14 a bronze bust of Herman Leroy Fairchild, professor emeritus of geology, the Rochester Academy of Science will be paying a well deserved tribute to a man who has not only made valuable contributions to scientific knowledge, but has done much to spread and popularize that knowledge. The recent geological history of Western and Central New York is most interesting. To the changes which the glacial period brought we owe the beautiful chain of lakes to the south and east of Rochester and many other notable aspects of the region.

If some degree of knowledge of how this came about is more widely spread than might ordinarily be expected, it is largely due to Dr. Fairchild's lucid and attractive exposition in his teaching, writings and addresses.

He has helped us view our landscape with informed eyes.

Young at Four Score and Four

Looking ahead to more active years, Dr. Herman L. Fairchild, University of Rochester professor emeritus of geology and nationally known scientist, will mark his 84th birthday today.

Dean of Geologists 84 Today But Plans New Rock Studies

Now an eighty-fourth birthday may be a milestone, and in man's span of life loom long.

But Dr. Herman LeRoy Fairchild, dean of American geologists and professor emeritus of the University of Rochester, thinks he won't pay much attention to his birthday today. Compared with the thousands of years in the earth's building he's pretty much of a youngster. Characteristically he's looking ahead to new research studies rather than back upon his own significant leadership in his chosen field.

Hailed as the pioneer and father of glacial geology in New York State, Doctor Fairchild is the author of some 260 scientific writings, many of which relate to Rochester and the Genesee Valley. The only survivor of the 13 charter members of the Geological Society of America, founded in 1888, has many times been honored by that Society. In 1912 he served as its president.

In his home at 106 Winterroth Street yesterday, the white-haired scientist discussed new geological investigation and the romance of man's explorations of the earth's mysteries.

Born April 29, 1850, at Montrose, Pa., he studied at Cornell University, being graduated in 1874 with the degree bachelor of science. Before coming to the geology department of the University of Rochester in 1888 he taught at Wyoming Seminary, Kingston, Pa., and in the public schools and Cooper Union in New York City.

During his teaching years at the University as professor of geology and curator of the geological museum, Doctor Fairchild continued his scientific investigations, winning national and international recognition for his studies of the Western New York country. His writings and maps on the subject have been accepted as authoritative and made official by the New York

State Museum.

He was the first professor at the university to use visual instruction in his classes. Taking his own photographs and making his own slides, he gathered a library of illustrations numbering more than 3,000.

Characteristically his retirement in 1920 did not mean the end of his scientific career. In 1923 he represented the University of Rochester on the Marsh-Darien expedition into Panama in search of the "Blond Indians" and brought back valuable collections for augmenting the University collection.

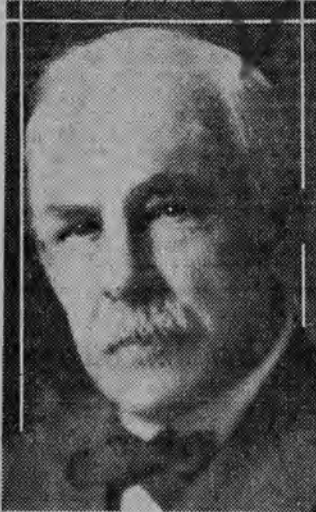

He was president of the Rochester Academy of Science from 1889 to 1891 and recording secretary of the New York Academy of Science from 1885 to 1888. He was secretary of the Geological Society of America from 1890 to 1906 and president in 1912. He was chairman of a section of the American Association for the Advancement of Science in 1898 and served for some time as geologist of the New York State Geological Survey.

Many expressions of congratulations from leading American scientists will be received today by Doctor Fairchild.

One of his works which has proved of particular value in teaching is an article published in "Science" about a decade ago, comparing in parallel columns the planetesimal theory of the formation of the earth with the Laplace or nebular theory.

Funeral Tomorrow

104611, 1920

Rochester Public Library
54 Court St.

LAST SERVICES TOMORROW FOR JOSEPH FARLEY

Funeral services for Joseph W. Farley, 93, retired shoe manufacturer, of 109 Ambassador Drive, who died Saturday night at Genesee Hospital, will be conducted tomorrow afternoon at 3 o'clock at the home.

The Rev. Justin W. Nixon, pastor of Brick Church, will officiate. Burial will be in Mt. Hope Cemetery.

Twenty-four years ago, Mr. Farley was treasurer of the E. P. Reed & Co. When he relinquished his active participation in business, he continued as secretary of the board of directors of Mechanics Institute. He continued also his attendance at Brick Church, and his work as director of the Roch-

ester Trust & Safe Deposit Company.

He was organist of Brick Presbyterian and other churches.

Prior to his association with the E. P. Reed Company, Mr. Farley engaged in the milling business at Brown's Race, under the firm name of Farley, Ferguson & Wil-

son. He was a member of the Country Club of Rochester, the Genesee Valley Club, Rochester Historical Society and Mayflower Society.

He is survived by a son, Joseph Allen Farley; two daughters, Mrs. George Motley and Mrs. Harry E. Johnston, all of Rochester; a sister, Miss Mary A. Farley of Pacific Grove, Calif.; eight grandchildren and three great-grandchildren.

JOSEPH FARLEY DIES AFTER A SHORT ILLNESS

Formerly a Miller and
Shoe Manufacturer
—In 95th Year

A long life of civic interest and continuing responsibility was closed with the death Saturday evening of Joseph Farley, 94, of 109 Ambassador Drive, Brighton.

Mr. Farley died at the Genesee Hospital after a short illness. Funeral services will take place tomorrow afternoon at 3 o'clock from the Ambassador Drive residence with the Rev. Justin W. Nixon, D. D., minister of Brick Presbyterian Church officiating. Burial will be in Mount Hope Cemetery.

Some 24 years ago Mr. Farley retired as treasurer of E. P. Reed & Company, formerly the Reed & Farley Company, shoe manufacturers. When he relinquished his active participation in business, he did not content himself

with an equally passive role in his other interests. Up until the time of his death he acted as secretary of the board of directors of Mechanics Institute, transacting all of the business of that office. He continued also his attendance at Brick Presbyterian Church, and his work as director of the Rochester Trust & Safe Deposit Company.

Prior to his association with the E. P. Reed Company, Mr. Farley engaged in the milling business at Brown's Race, under the firm name of Farley, Ferguson & Wil-

son. He was a member of the Country Club of Rochester, the Genesee Valley Club, Rochester Historical Society and Mayflower Society.

He is survived by a son, Joseph Allen Farley, two daughters, Mrs. George Motley and Mrs. Harry E. Johnston, all of Rochester; a sister, Miss Mary A. Farley of Pacific Grove, Calif.; eight grandchildren and three great-grandchildren.

To Become Army Pilot

104611, 1920

Charles L. Fairman

Rochesterian Named U. S. Flying Cadet; Reports October 31

Charles L. Fairman, 27, son of Mr. and Mrs. Harry Fairman of Brighton-Henrietta Town Line Road, Rochester, has received appointment as a flying cadet in the United States Air Service Primary Flying School, March Field, Riverside, Cal.

Fairman was graduated from the University of Rochester in 1924. He attended high school in Victor and Canandaigua, graduating from the latter school in 1920. He passed the U. S. Air Service physical examination in New York City in September. Fairman will report to March Field Oct. 31.

To 4611, 1920 Joseph Farley

Death has come to Joseph Farley in his 95th year, ending a long and fruitful life.

Mr. Farley was originally engaged in the milling business at Brown's Race. He later was a member of the firm of Reed & Farley, predecessor of E. P. Reed & Company, shoe manufacturers. He retired as treasurer of the latter firm 24 years ago, but remained active as secretary of the board of directors of Mechanics Institute and in several other connections until the time of his death.

Joseph Farley was not only one who observed the highest standards in all business dealings, but was a man who displayed a remarkably open and liberal mind at a time when such an attitude was perhaps less common than now. He was keenly interested in worthy civic enterprises, giving freely of his time and money for their advancement.

He will be remembered as a citizen of solid worth and usefulness, who did much for the progress of Rochester along desirable lines during many years in which he was active in business and civic affairs.

R.V.F. Rochester - Biography
CHARLES W. FAXON
rites CONDUCTED

Funeral services for Charles W. Faxon, 64, commercial artist and yachtsman who died Sept. 22, 1934, at his home, 1857 Clinton Avenue North, were conducted this afternoon at 2:30 o'clock at the home. The Rev. Arthur O. Sykes officiated.

The bearers, nephews, were Howard, Donald, Paul and John Coolidge, Malcolm Weber and John Faragher.

Burial was in Mt. Hope Cemetery.

Mr. Faxon was for years a member of crews sailing against Canadian challengers in the international races and was prominently identified with the Rochester Yacht Club. In addition to his Canadian Cup experiences, Mr. Faxon was a prominent figure in developing small boat sailing on the lake.

Mr. Faxon was one of the first to espouse the cause of the eight-meter Conewago, two times cup defender, after her first disappointing year here in 1930 and was a member of the committee which selected her both in 1932 and 1934. Besides his work as an official for local races and selection groups, Mr. Faxon was many times an official for regattas of the Lake Yacht Racing Association.

Ill health compelled him to relinquish his activities two years ago.

FLOUR MILLS
OWNER IS DEAD
AT AGE OF 79

Rochester Public Library
 54 Court St.

John Ferguson, Linked
With Industry Since
16, Had Retired

John Ferguson, 79, retired miller, who formerly was connected with flour mills in Rochester, Honeoye Falls, Rush and North Bloomfield, died yesterday in his home in North Bloomfield.

Born in Canada, Mr. Ferguson came to Rochester at the age of 16 to learn the milling business. Later he became superintendent of the Foley, Ferguson and Wilson Mill at the Lower Falls here. In 1887, he moved to Honeoye Falls where he formed a partnership with Henry Boardman in operating the Lower Mill in North Main Street in that village.

At a later period he became superintendent of a mill in Rush and owner of a flour mill in North Bloomfield. He retired about eight years ago.

Surviving are his widow, Mrs. Lucy Ferguson; two daughters, Mrs. Jack Loux of North Bloomfield and Mrs. G. W. Slorah of Rochester, and three grandchildren. Funeral will be Wednesday.

Clubs—Lions, Masonic, Odd Fellows.

FINCH PLANS SCHOOL POST RESIGNATION

Rochester Public Library
64 Court St.

Veteran of 29 Years in Citizenship Work to Retire in June

Charles E. Finch, director of junior high school grades and citizenship, yesterday announced that he would retire in June after 29 years of service in the Rochester public schools.

Mr. Finch was a pioneer in organizing Americanization classes in Rochester, later an author of a new liberal type of citizenship texts and finally a pioneer in social studies education by radio.

May Not Continue Position

It is not planned at present to continue Mr. Finch's position beyond his retirement in June. Many of his duties will be taken over by the newly appointed assistant superintendent of schools, Theodore A. Zornow, whose work will lie primarily in the field of secondary

education, said James M. Spinning, Superintendent of Schools.

Mr. Finch came to Rochester in 1905 as principal of Andrews School 9, then one of the largest eighth-grade grammar schools in the city. He was not only principal of the evening schools, but was made director of immigrant education for the entire city, and carried on the social center activities there through a critical period of that movement. He was chairman of the first Americanization Committee of the Rochester Chamber of Commerce, which later became the Council for Better Citizenship.

To Continue Broadcasting

In June 1915, he was made director of junior high school academic work at the Washington Junior High School. As junior high schools were added to the system, Mr. Finch assumed supervision of instruction in the seventh, eighth and ninth years, and the seventh and eighth grades still remaining in many elementary schools.

During the last school year he has been broadcasting three days a week to pupils in social studies. This work he plans to continue under the extension department of the Harvard-Boston University University Service, besides devoting considerable time to lecturing and writing.

Mr. Finch is a graduate of the Hyannis State Normal School in Massachusetts and the University of Rochester. Before he came to Rochester he was teacher and principal in Southington, Conn., later grammar school principal in Meriden, Conn., and then grammar school principal in Quincy, Mass.

Dr. Thomas Edward Finegan

So many and various were the services of Dr. Thomas Edward Finegan to the public school system, both as affecting teachers and pupils, that it is difficult to single out any as more important than the others. To Rochester, however, he gained an especially intimate distinction through his pioneer work in the use of motion picture films for educational purposes, and it was in this branch of public service, perhaps, that his progressive mind found fullest room for expansion. It has become evident since the organization of the Eastman Teaching Films Inc., in 1928, with Doctor Finegan as president, that here is a new movement in public instruction which may in time change all the old standards.

Almost every worth while movement in the schools has suffered a loss in the death of Doctor Finegan. His career was remarkable in the single minded purpose with which he devoted himself to this one form of public service. Although a lawyer by profession, he had been devoted almost continuously since 1904 to the cause of public education. In 1908 he became assistant commissioner for elementary education in this state, and in 1915 deputy commissioner. Many of the reforms with which his name is associated were revolutionary in character; under his leadership laws were written into the statute books improving the standards of the teaching profession, providing for better systems of class room work, eliminating politics from many phases of the educational system and contributing to better health and mental standards in the schools.

From 1919 to 1923 Doctor Finegan carried his reforms into Pennsylvania as head of the school system of that state. Upon resigning from that post he was able to apply himself in earnest to the possibilities of the moving picture as a means of instruction, and from this interest grew the pioneer movement now centered in the Eastman Kodak Company. Perhaps his crowning effort along this line was the Washington bicentennial film covering the official life of George Washington which was released for the schools this year.

Doctor Finegan was honored by many degrees and was at home in many cities. Of late years, however, his work had made

him a Rochester citizen and one whom all who knew him were glad to honor. His death severs ties of friendship and affection which were made the more binding because of his distinguished service for the public good. Dec. Nov. 26, 1932

FINEGAN RITES ARE TO TAKE PLACE MONDAY Bearers for Funeral Of Educator Will Be Named Today

Bearers for the funeral of Dr. Thomas Edward Finegan, president of Eastman Teaching Films Inc., who died Friday at 66, will be named today, it was learned last night.

The services are planned to take place at 3 o'clock tomorrow afternoon in the funeral parlors at 137 Chestnut Street, where comrades of the dead pioneer in visual education will gather to say their last farewell. Burial will be made in Schoharie. Special rites will be conducted there at 2 o'clock Tuesday afternoon.

Death came to Doctor Finegan at Strong Memorial Hospital after he had suffered blood-poisoning.

Aside from his work in the improvement of educational films, Doctor Finegan had worked for the betterment of educational conditions in New York and Pennsylvania. In 1908 he was named assistant commissioner for elementary education in this state, and in 1915 became deputy commissioner. In 1919 he was appointed state superintendent of public instruction in Pennsylvania, where he revised the educational system by raising the status of and providing for systematic state aid to schools.
