Manufactory,

East End of Andrews Street Bridge,

Rochester, N. Y.

Forsyth & Co., 88 Michigan Avenue, Chicago, Ill.
Forsyth & Co., 87 Water Street, Cleveland, Ohio.
MONROE COUNTY BUSINESS DIRECTORY.

Cancers Cured!

OR NO CHARGE

DR. KINGSLEY,

Has discovered a perfect cure for Cancers without the use of the knife. Thousands of cases cured can testify to the efficacy of this plan of treatment. This preparation will destroy the specific nature of most Cancers in from ten to sixty minutes. Even in those large Cancerous affections of the breast, from which so many females die annually, my specific is equally as effectual as in those smaller surface Cancers. Ninety-nine out of a hundred of all those persons who have died from Cancer, could easily have been cured. Cancer has been considered from time immemorial the greatest scourge of the human race; but the time will come when all shall see that it is as remediable as any other disease. At the same time remedies are given to purify the blood and fortify the system against a renewed attack. In all cases, if the Cancer is not too far advanced, a perfect cure is warranted, or no charge.

Most persons are greatly deceived in regard to the first symptoms and appearance of Cancer, considering it very painful from the commencement. This is a sad mistake, (causing the death of thousands,) there being but little or no pain until the Cancer is far advanced. The only symptoms for months, and in some cases even for years, is occasionally either a stinging, itching, smarting, burning, creeping or shooting sensation; and in some cases not even any of these. Nearly all of those kernels or lumps that occur in the female breast, and also those unnatural appearances in the form of crusts or warty excrescence, which appear in either sex on the face, lips, nose, eye lids, or any other part of the surface, are cancers. Cancer is very easily cured in its early stage, consequently it is of the very greatest importance that all thus afflicted should have immediate treatment; as thousands of very valuable lives have been lost from pure neglect, having been misguided by physicians having no knowledge of the disease, who, by calling it Scrofula, Erysipelas, Salt Rheum or some other non-terrifying disease, lull this unfortunate class in the cradle of ignorance, until upon the very verge of death, when, to hide such ignorance, the physician tells the patient that it has finally turned to Cancer, and cannot be cured. There is no such thing as turning to Cancer. Whatever ends in Cancer, began in Cancer. Be no longer deceived. If you have the slightest suspicion of trouble, seek immediate relief and thereby preserve life.

Consumption, Bronchitis, Catarrh, Asthma, Heart Disease, Dyspepsia, Liver Complaint, Fits, St Vitus' Dance, Neuralgia, Scald Head, Piles, Tape Worms, or Worms of any kind, all Diseases of the Skin, Pimples, Scrofula or King's Evil, Fever Sores, Spinal Diseases, Rheumatism, Gout, Dropsey, Diabetes, Kidney Diseases, gravel, and all Diseases peculiar to Males or Females, successfully treated.

Warts, Corns, Bunions, Moles, Wens, Birth-Marks, Tumors &c, removed. Special attention given to the treatment of Crooked Feet, Legs, Arms, Spine, Neck, and all other deformities. Cross Eyes straightened, Hare-Lips cured by an entirely new plan of operating. Operations for Stone in bladder, Polypos, Strangulated Hernia, Fistula, or the cure of False and Crooked Joints, and all deformities of the Eye Lids, Nose, Lips, Neck &c, resulting from Burns or Wounds, performed upon the most scientific principles. All Diseases of the Eye and Ear treated with very great success.

Special attention given to the treatment of all diseases originating from the errors of misguided Youth.

Patients from a distance, except in Surgical and Cancer cases, by sending a full description of their symptoms, can have medicines sent by Mail or Express, and be treated at home.

All letters promptly answered, and medicines ordered, immediately forwarded.

The Doctor is a graduate with an experience of over fourteen years in the practice of medicine, twelve of which have been spent in Rome.

N. B.—All persons troubled with Asthma should send for Dr. Kingsley's ASTHMA SPECIFIC, which is warranted to relieve any case or money refunded.

Send for DR. KINGSLEY'S AGUE SPECIFIC, which is purely vegetable and never fails to cure.

All troubled with a Congh of any kind should be sure to send for DR. KINGSLEY'S COUGH BALSAM, which cures as by magic.

For Further Particulars, Write the Doctor.
THE CO-OPERATIVE FOUNDRY COMPANY!

1869
THE REYNOLDS

MANUFACTURE!* EXCLUSIVELY BY US, UNDER REYNOLDS' PATENTS for Tempering Steel without the aid of any liquids, received the only award at the Great National Implement Trial, held at Auburn, in 1866. They possess the following superior qualities:

1. They are made with a fine Cutlery Temper at the edges.
2. They hold only a Spring Temper at the center and at the heel.
3. They are warranted perfectly uniform, every knife being exactly alike in temper.
4. We warrant they can be ground from 8 to 10 times without losing their cutting edge.
5. Finally, we will warrant them to cut from 40 to 50 acres of grain or grass without being once ground.

We are the sole Manufacturers of these Knives in the United States.

REYNOLDS, BARBER & CO.,

Steel Tempering Works, Auburn, N. Y
INTRODUCTION.

In presenting the initial number of the "Gazetteer and Directory of Monroe County" to the public, the publisher desires to return his sincere thanks to all who have so kindly assisted in obtaining the valuable information which it contains, and without whose aid it would have been impossible to collect, in the brief space of time in which it is essential that all such works should be completed. Especially are our thanks due to the several editors of the Union and Advertiser, the Chronicle, the Express, the Democrat, and the Observer, of Rochester; and the Brockport Republic, Brockport, for the uniform kindness which has been evinced in calling public attention to the author's efforts; and to the following persons, viz., Charles J. Powers, County Clerk; Frank B. Hutchinson, Clerk of Board of Supervisors; Erastus Darrow; Col. Aaron Newton, Sec. Pioneer Association; C. M. Crittenden, the Librarian of the Rochester Atheneum and Mechanics Association (for his kindness in granting access to the Library,) and to many others in various sections of the County who have kindly volunteered their aid.

The following works were consulted in its preparation: "French's Gazetteer of the State of New York;" "Turner's Pioneer History of the Holland Purchase;" "Turner's History of the Phelps and Gorham Purchase;" "Hotchkin's History of the Presbyterian Church in Western New York;" "O'Reilly's Pioneer History of Rochester and Western New York;" "C. C. Drew's admirable Directory of the City of Rochester for 1869-70;" "Maude's Journal;" "Census Reports of 1865;" "Proceedings of Board of Supervisors for 1868."
INTRODUCTION.

That errors may have occurred in so great a number of names and dates as are here given, is probable, and that names have been omitted that should have been inserted is quite certain. We can only say that we have exercised more than ordinary diligence and care in this difficult and complicated feature of book-making. To such as feel aggrieved in consequence of error or omission, we beg pardon, and ask the indulgence of the reader in marking such as had been observed in the subsequent reading of the proofs, and which are noted in the *Errata*, following the Introduction.

It is also suggested that our patrons observe and become familiar with the explanations at the commencement of the Directory.

The Map of the County was engraved with great care by Messrs. "Weed, Parsons & Co.," of Albany, and, it is believed, will prove a valuable acquisition to the work. It was the intention of the publisher to locate upon the map the route of the proposed railroads in the County, but he was unable to procure a correct location of the surveys.

The *Advertisers* represent some of the leading business men and firms of the County, and also many enterprising and reliable dealers in other parts of the State. We most cheerfully commend them all to the patronage of those under whose observation these pages may come.

With thanks to friends generally, we leave our work to secure the favor which earnest endeavor ever wins from a *discriminating* business public.

HAMILTON CHILD.

Buckeye Mower and Reaper.—This celebrated machine, of which a greater number are used in the United States, than any other, are so well known in Monroe Co. that a *recommendation* from us would seem superfluous. Hiram Curtis, of Albion, manufactures this machine, and several other agricultural implements. He has agencies established in various sections of this Co. See particulars in advertisement on page 140.
ERRATA.

ADDITIONS AND CORRECTIONS.

GAZETTEER.

County.—MOORE'S RURAL NEW YORKER was commenced in 1850 by D. D. T. Moore, its present proprietor. Since January 1st, 1869, it has been published simultaneously at Rochester and New York.

Ogden.—John Wonsey, one of the first settlers, came to Ogden from Cayuga county in 1804. He is still living in town and has resided on the farm he now occupies, for 53 years.

Rochester.—Rochester was incorporated as a village by the name of Rochesterville, March 21, 1817, instead of 1827, as printed.

On page 115, second paragraph, for "Hundreds of acres in the vicinity of the City is covered with nurseries," read "Thousands of acres &c."

Sweden.—Sweden Centre, (Sweden p. o.) contains two churches, viz: Presbyterian and Episcopal; a school house, a blacksmith shop and about a dozen houses.

West Sweden, in the south-west part of the town, contains two churches, viz: Baptist and Methodist; a school house, a cheese factory, a blacksmith shop, a wagon shop and about a dozen dwellings.

The first frame house erected in the town of Sweden was built by Major Stickney, about one-fourth of a mile south of Sweden Center, on the lake road. This occurred about the year 1809. The people from all parts of the town turned out, both men and women, and after using one barrel of whisky the first day, adjourned for two days, and sent two men with a hand sled to LeRoy for another barrel of the stimulating beverage. The settlers then assembled, completed the raising of the house, used up the whisky and had a dance in the evening. The house was erected on an eminence called "Hog's Back," but more recently known as "Light House Hill." It is a two and a half story house and still standing. John Reed, father of John B. Reed, now residing in the town, purchased his land in 1805, and the next year removed with his family from Hebron, Tolland County, Conn. The journey, which occupied thirty days, can now be performed in twenty-one hours. Aaron Root moved from Charton, Saratoga County, in June 1818, and located on the farm now occupied by F. P. Root.

Webster.—On page 136, second line from foot of the page, the name Asa Boss should be Asa Bass, (colored.)

DIRECTORY.

Brighton. — CASE, LEONARD S., (Brighton,) proprietor of Nurserymen's Hotel and constable.

COZZENS, GEO. B., (Rochester,) farmer 10.

Elly, L. D., (Rochester,) farmer 500.

The Brockport Republic, published by Uoratio N. Beach, Brockport, N. Y., is a good local paper and worthy of the patronage of the community in which it circulates. As an advertising medium it commends itself to the business public.—The Job Office is fitted up with the facilities for executing all kinds of work, in a manner unsurpassed by any office in Western New York, outside of the cities. See advertisement on page 308.

M. V. Beemer, manufacturer of French Yoke Shirts and dealer in Mens' Furnishing Goods, No. 33 Buffalo and 3 Exchange Streets, Rochester, N. Y., is prepared to furnish everything in his line at as low a rate as any house in the city. No one can visit this establishment and witness the great variety of goods and fail to find something to his taste. Mr. B. is the wholesale agent for the Washington Paper Collars and Cuffs. See card on page 314.

Robert N. Cory, manufacturer and dealer in Harness, Saddles, Trunks, &c, Webster, N. Y., advertises on page 376. Mr. Cory uses the best of stock and his work may be relied on. He keeps a general assortment of all goods in his line, and sells as cheap as the cheapest. Blankets and Fly Nets, which everybody wants for their horses, are always for sale.

V. Fleckenstein & Son, corner of Brown and Maple Streets, Rochester, N. Y., are the proprietors of a large Steam Bakery, where they are supplying the public with all kinds of bread and crackers not excelled by any establishment in this city. They make the celebrated pic nic crackers, so highly prized by all who have tried them. Twenty-eight years in the business has given them an extensive trade, which is the best recommendation they can have. See card, page 322.

Charles S. Hall, proprietor of the Joseph Hall Agricultural Works, South Water Street, Rochester, N. Y., is the son and successor of the late Joseph Hall, and well sustains the reputation these works have previously acquired. Thrashing Machines, Horse Powers and Clover Threshers are sent out in large numbers from this establishment, and the largely increasing demand is the best evidence of their value which they give in the community. Mr. Hall advertises on page 419.

C. J. Hill & Son, Merchant Mills, Rochester, N. Y., manufacture a superior quality of family Flour which has an enviable reputation throughout a wide extent of country. It is nearly forty years since the senior member of the firm began the manufacture of the "C. J. Hill" Flour, and during all that time it has been kept rigidly up to its high standard. Housekeepers have found this flour superior to any other for Pastries and Bread, and this superiority is due to the unremitting labors of the manufacturers in selecting the wheat and converting it into flour. The Mill of Messrs. Hill & Son has six runs of stones and the best of machinery for the manufacture of flour, while it is well understood by those who have what to sell, that the proprietors of this Mill buy the best white wheat that the soil produces, for which they pay the highest price. Having made the manufacture of a superior grade of flour a specialty for many years, they are prepared to furnish flour equal to any in the country. See advertisement on page 70.

Chauncey W. Clark, dealer in Hats, Caps and Furs, has recently removed from his old stand to No. 56 State Street, Rochester, N. Y., where he has a large store fitted up in the best style, with a plate glass front, glass cases and everything to correspond. He has leased these premises for a term of years, and his old customers and the public generally will find him ready to furnish them with anything in the line of Hats, Caps and Furs. There is no store in the city that is superior to this in all respects. Mr. Clark is extending his trade in manufacturing and selling, and keeps constantly on hand a complete stock of fashionable goods. He advertises on page 418.

Rochester Scale Works, advertised inside 1st cover, were established in 1841. The business has increased to such an extent that branches have been established at Pittsburgh, Cleveland and Chicago to accommodate the public. Over 150 varieties of scales are manufactured. This establishment, in the extent and accuracy of its scales, is second to none in the United States. Copying Presses, Warehouse and Baggage Trucks are also manufactured.

Dr. E. J. Reynolds, Rochester, N. Y., advertises on page 412. Let those interested read.

R. O. T. Stearns, wholesale and retail dealer in Ready Made Clothing, No. 3 Main Street Bridge, Rochester N. Y., has a large and select assortment of Clothing which he is selling to all customers at such extremely low prices that no one need go cold or ragged. Call on Stearns and see for yourselves. He advertises on page 404.

H. & P. Bender, Undertakers, No. 103 Main Street, Rochester, N. Y., have a large and elegant assortment of caskets, coffins and everything usually kept in a first class Undertaking establishment. Coffins of all kinds, from the most elegant rosewood to the cheapest desirable, can be procured at all times. They have just received a new and elegant Hearse, which will be used when desired. They advertise on page 396.

Sargent & Greenleaf, patentees and manufacturers of Magnetic Locks, Combination Safe Locks and Unpickable Locks for any desirable place, Pool Building, rear of No. 3 Buffalo St., Rochester, N. Y., advertise on colored page 189. These locks are in reality what many others profess to be. We are confident that their merits only need to be known to bring them into general use. Their sales room is No. 10 Arcade.

Liberal Discounts to the Trade.

D. E. CORBITT, P. P. BRADISH.
THE STATES,
THEIR SETTLEMENT, ADMITTANCE TO THE UNION, POPULATION,
SUFFRAGE LAWS, ETC.

ALABAMA was settled near Mobile, in 1702, by the French; was formed into a Territory by act of Congress, approved March 3, 1817, from the eastern portion of the Territory of Mississippi; framed a Constitution August 2, 1819, and was admitted into the Union December 14 of the same year. Area 50,722 square miles, or 32,462,080 acres. Population in 1860, 964,201, of whom 435,080 were slaves. It is the chief cotton growing State of the Union. White male citizens who have resided one year in the State and three months in the county, are entitled to vote. An election for a Convention was held December 24, 1860, and a majority of over 50,000 votes cast for secession; the Convention met January 7, 1861, and on the 11th passed the ordinance of secession, by a vote of 61 to 39, which was followed on the 21st by the resignation of its members of Congress.

ARKANSAS settled at Arkansas Post in 1685, by the French, and was part of the Louisiana purchase ceded by France to the United States, April 30, 1803. It was formed into a Territory by act of Congress, March 2, 1819, from the southern part of the Territory of Missouri; its western boundary was settled May 26, 1824, and its southern, May 19, 1828. Having adopted a Constitution, a memorial was presented in Congress, March 1, 1836, and an act for its admission into the Union passed June 15 of the same year. Area 52,198 square miles, or 33,406,720 acres. In 1860 its population was 435,450, of whom 111,115 were slaves. It is an agricultural State, its staples being corn and cotton. Citizenship and residence in the State for six months, qualify voters in the county and district where they reside. January 16, 1861, its Legislature ordered a State Convention, which assembled, and on May 6, voted to secede, 69 to 1. January 4, 1864, a Convention assembled in Little Rock, which adopted a new Constitution, the principle feature of which consisted in a clause abolishing slavery. The Convention adjourned January 22. This body also inaugurated a Provisional Government. The Constitution was submitted to the people, and 12,177 votes cast for it, to 226 against it. The State was re-organized under the plan contained in the Amnesty Proclamation of President Lincoln, in pursuance of which an election was held March 14, 1864. The vote required under the Proclamation was 5,405. About 16,000 votes were cast.
CALIFORNIA was settled at Diego in 1768, by Spaniards, and was part of the territory ceded to the United States by Mexico, by the treaty concluded at Guadaloupe Hidalgo, February 22, 1848. After several ineffectual attempts to organize it as a Territory or admit it as a State, a law was passed by Congress for the latter purpose, which was approved September 9, 1850. Area 188,981 square miles, or 120,947,784 acres. Population in 1860, 305,439. It is the most productive gold mining region on the continent, and also abounds in many other minerals.—White male citizens of the United States, and those of Mexico who may choose to comply with the provisions of the treaty of Queretaro, of May 30, 1848, who have resided in the State six months and in the county or district thirty days, are entitled to vote.

CONNECTICUT was settled at Windsor, in 1633, by English Puritans from Massachusetts, and continued under the jurisdiction of that Province until April 23, 1662, when a separate charter was granted, which continued in force until a Constitution was formed, September 15, 1818. It was one of the original thirteen States, and ratified the United States Constitution, January 9, 1788. Area 4,674 square miles, or 2,991,360 acres. Population in 1860, 460,147. It is one of the most densely populated and principal manufacturing States in the Union. Residence for six months, or military duty for a year, or payment of State tax, or a freehold of the yearly value of seven dollars, gives the right to vote.

DELAWARE was settled at Wilmington, early in 1638, by Swedes and Finns; was granted to William Penn, in 1682, and continued under the government of Pennsylvania until the adoption of a Constitution, September 20, 1776; a new one was formed June 12, 1792. It was one of the original thirteen States, and ratified the United States Constitution, December 7, 1787. Area 2,120 square miles, or 1,356,800 acres.—Population, in 1860, 112,216, of whom 1,798 were slaves. It is a grain and fruit growing State, with some extensive manufactories. Residence in the State one year, and ten days in the election district, with payment of a State or county tax assessed ten days prior to an election, gives the right to vote, except that citizens between twenty-one and twenty-two years of age need not have paid the tax.

FLORIDA was settled at St. Augustine, in 1565, by Spaniards; was formed from part of the territory ceded by Spain to the United States by treaty of February 22, 1819; an act to authorize the President to establish a temporary government was passed March 3, 1819; articles of surrender of East Florida were framed July 10, and of West Florida, July 17, 1821, and it was then taken possession of by General Jackson as Governor. An act for the establishment of a Territorial Government was passed March 30, 1822, and by act of March 3, 1823, East and West Florida were constituted one Territory. Acts to establish its boundary line between Georgia and Alabama were passed May 4, 1826, and March 2, 1831. After several ineffectual attempts to organize it into two Territories, or into a State and Territory, an act for its admission into the Union was passed March 3, 1845. Area 59,268 square miles, or 37,930,520 acres. Population, in 1860, 140,425, of whom 61,745 were slaves. It is an agricultural State, tropical in its climate and products. Every free white male citizen, who has resided in the State two years and in the county six months, and has been enrolled in the militia (unless exempt by law,) is qualified to vote; but no soldier, seaman
or marine can vote unless qualified before enlistment. Its Legislature called a Convention, December 1, 1860, which met January 3, 1861, and passed a secession ordinance on the 10th by a vote of 62 to 7.

**Georgia** was settled at Savannah, in 1733, by the English under General Oglethorpe. It was chartered June 9, 1732; formed a Constitution February 5, 1777; a second in 1785 and a third May 30, 1798. It was one of the original thirteen States, and ratified the United States Constitution January 2, 1788. Area 58,000 square miles, or 37,120,000 acres. Population, in 1860, 1,057,286, of whom 462,198 were slaves. It is a large cotton and rice growing State. Citizens of the State, six months resident of the county where voting, who have paid taxes the year preceding the election, are entitled to vote. November 18, 1860, its Legislature ordered an election for a State Convention, which assembled and passed a secession ordinance January 19, 1861, by a vote of 208 to 89, and on the 23d of the same month its members of Congress resigned.

**Illinois** was settled at Kaskaskia, in 1683, by the French, and formed part of the northwestern territory ceded by Virginia to the United States. An act for dividing the Indiana Territory and organizing the Territory of Illinois, was passed by Congress, February 3, 1809; and an act to enable it to form a State Constitution, Government, &c, was passed April 18, 1818; a Constitution was framed August 26, and it was admitted into the Union December 23 of the same year. Area 54,405 square miles, or 64,819,200 acres. Population, in 1860, 1,711,951. It is the chief “prairie” State, and the largest grain growing and second largest cattle raising State in the Union. All white male inhabitants, who have resided in the State one year and election district sixty days, can vote in the district where actually residing.

**Indiana** was settled at Vincennes, in 1690, by the French, and formed part of the northwestern territory ceded by Virginia to the United States. It was organized into a Territory May 7, 1800, from which the Territory of Michigan was set off in 1805, and Illinois in 1809. An act was passed to empower it to form a State Constitution, Government, &c, April 19, 1816, and it was admitted into the Union December 11 of the same year. Area 33,809 square miles, or 21,637,760 acres. Population, in 1860, 1,350,428. It is an agricultural State, chiefly devoted to grain growing and cattle raising. A residence of one year in the State entitles males of 21 years of age to vote in the county of their residence.

**Iowa** was first settled at Burlington by emigrants from the Northern and Eastern States. It was part of the region purchased from France; was set off from the Territory of Wisconsin and organized as a separate Territory June 12, 1838; an act for its admission as a State was passed and approved March 3, 1845, to which the assent of its inhabitants was to be given to be announced by Proclamation of the President, and on December 28, 1846, another act for its admission was passed. Area 50,914 square miles or 32,584,960 acres. Population, in 1860, 674,913. It is an agricultural State, resembling Illinois, and contains important lead mines. White male citizens of the United States, having resided in the State six months and county twenty days, are entitled to vote.
Kansas was formed out of the original Louisiana purchase, and organized into a Territory by act of Congress, May 30, 1854, and after several ineffectual attempts was finally admitted into the Union in January, 1861. Area 78,418 square miles, or 50,187,520 acres. Population, in 1860, 107,206. It is an agricultural State, with a soil of rich and deep black loam, except the central portion, which is partly a desert. The western portion is a fine grazing country, well wooded. Residence in the State six months, and in the township or ward thirty days, confers the right of suffrage on white male citizens. It also abounds in minerals.

Kentucky was settled in 1775, by Virginians; formed into a Territory by act of the Virginia Legislature, December 18, 1789, and admitted into the Union June 1, 1792, by virtue of an act of Congress passed February 4, 1791. Area 37,680 square miles, or 34,115,200 acres.—Population in 1860, 1,155,684, of whom 225,483 were slaves. It is an agricultural State, raising more flax and hemp than any other. Loyalty, a residence of two years in the State and one in the county are the requirements to vote. "Any citizen of this State who shall enter the service of the so-called Confederate States, in either a civil or military capacity; or into the service of the so-called Provisional Government of Kentucky, in either a civil or military capacity; or having heretofore entered such service of either the Confederate States or Provisional Government, shall continue in such service after this act takes effect, (March 11, 1862,) or shall take up or continue in arms against the military forces of the United States or State of Kentucky, or shall give voluntary aid and assistance to those in arms against said forces, shall be deemed to have expatriated himself, and shall no longer be a citizen, except by permission of the Legislature by a general or special statute."

Louisiana was settled at Iberville, in 1699, by the French, and comprised a part of the territory ceded by France to the United States, by treaty of April 30, 1803, which purchase was erected into two Territories by act of Congress March 26, 1804, one called the Territory of Orleans, the other the District of Louisiana, afterwards changed to that of Missouri.—Congress, March 2, 1806, authorized the inhabitants of Orleans Territory to form a State Constitution and Government when their population should amount to 60,000; a Constitution was adopted January 22, 1812, and the State admitted into the Union April 8 of the same year, under the name of Louisiana. Area 41,255 square miles, or 26,403,200 acres. Population in 1860, 708,002, of whom 331,726 were slaves. It is the chief sugar producing State of the Union. Two years' residence in the State and one in the parish are the qualifications of voters. December 10, 1860, the Legislature ordered a State Convention to be held, which assembled and passed an ordinance of secession January 26, 1861, by a vote of 113 to 17. The people voted on the question, and on March 28 the following was announced as the result: For, 20,448; against, 17,296; a majority of 3,152. The Convention ratified the 'Confederate' Constitution March 11, 1861, by a vote of 107 to 7, and refused to submit it to the people by 94 to 10. On the 11th day of January, 1864, Maj. Gen. Banks issued a Proclamation for an election of State officers and delegates to a Constitutional Convention, for the purpose of affecting a reconstruction of the State Government under the plan suggested in the Amnesty Proclamation of President Lincoln. The election was held on the 22d day of February, 1864. The officers thus elected were installed March 4. The total vote cast was 10,725. The vote requisite under the Proclamation was 5,051. The Convention amended the Constitution so as to abolish slavery. The new Constitution was adopted by the people by a vote of 6,836 for, to 1,566 against.
MAINE was settled at York, in 1623, by the English, and was formerly under the jurisdiction of Massachusetts. October 29, 1819, the inhabitants of the District of Maine framed a Constitution; applied for admission December 8, 1819. Congress passed an act March 3, 1820, and it was admitted as a State March 15, of the same year. Area 31,766 square miles, or 20,330,240 acres. Population, in 1860, 628,279. It is largely engaged in the lumber trade and ship building. Citizens of the United States, except paupers and persons under guardianship, who have resided in the State for three months next preceding the election, are entitled to vote.

MARYLAND was settled at St. Mary, in 1634, by Irish Roman Catholics, having been chartered June 20, 1632. It was one of the original thirteen States; formed a Constitution August 14, 1776, and ratified the Constitution of the United States April 28, 1788. Area 11,124 square miles, or 7,119,260 acres. Population in 1860, 687,049, of whom 87,189 were slaves. It is mainly an agricultural State, producing grain and tobacco. A residence of one year in the State, and six months in the county, gives the right to vote to every white male citizen who takes the oath of allegiance prescribed in the Constitution. January 28, 1864, a bill passed the Legislature submitting to the people the question of a Convention to revise the Constitution of the State. The popular vote on the question was as follows: For Convention, 32,203; against, 18,337. The Convention assembled and adopted a Constitution abolishing slavery, which was submitted to and adopted by the people; and in accordance with its provisions, on the 29th of October, 1864, the Governor issued his Proclamation declaring the slaves in that State free from the 1st day of November.

MASSACHUSETTS was settled at Plymouth, November 3, 1620, by English Puritans, and Charters were granted March 4, 1629, January 13, 1630, August 20, 1726, and October 7, 1731. It was one of the original 13 States; adopted a Constitution March 2, 1780, which was amended November 3, 1820, and ratified the Constitution of the United States February 6, 1788. Area 7,800 square miles, or 4,992,000 acres. Population in 1860, 1,231,066. It is a largely commercial, the chief manufacturing and most densely populated State in the Union. A residence of one year in the State, and payment of State or county tax, gives the right to vote to male citizens of 21 years and upward, except paupers and persons under guardianship.

MICHIGAN was settled at Detroit in 1670, by the French, and was part of the territory ceded to the United States by Virginia. It was set off from the territory of Indiana, and erected into a separate Territory January 11, 1805; an act to attach to it all the territory of the United States west of the Mississippi river, and north of the State of Missouri, was passed June 28, 1834. Wisconsin was organized from it April 30, 1836. In June of the same year an act was passed to provide for the admission of the State of Michigan into the Union, and a Constitution having been adopted, it was admitted January 26, 1837. Area 56,243 square miles, or 35,995,552 acres. Population in 1860, 749,113. It is a grain growing and cattle rearing State, with rich and extensive mines of copper and iron in the Northern Peninsula. A residence in the State of six months preceding the election, entitles white male citizens to vote.
MINNESOTA was settled about 1846, chiefly by emigrants from the Northern and Western States. It was organized as a Territory by act of Congress approved March 3, 1849, and admitted into the Union February 26, 1857. Area 95,274 square miles, or 60,975,536 acres. Population in 1860, 172,123 whites, and about 25,000 Indians, many of the tribes being of a warlike character. It is an agricultural State, chiefly devoted to Northern grains. The right to vote is extended to male persons of 21 years of age, of the following classes, if they have resided in the United States one year, the State four months, and the election district ten days: White citizens of the United States, and those of foreign birth who have declared their intention to become citizens; persons of mixed white and Indian blood who have adopted the customs of civilization, and those of pure Indian blood who have been pronounced capable by any district court of the State.

MISSISSIPPI was settled at Natchez, in 1716, by the French, and was formed out of part of the territory ceded to the United States by South Carolina in 1787, and Georgia in 1802. It was organized as a Territory by act of Congress, April 7, 1789, and enlarged on the north March 27, 1804, and on the south May 14, 1812. After several unsuccessful attempts to enter the Union, Congress finally passed an act March 1, 1817, enabling the people of the western part of the Territory to form a State Constitution and Government, which being complied with August 15, it was admitted December 10 of the same year. Area 47,156 square miles, or 30,179,840 acres. Population in 1860, 791,305, of whom 436,631 were slaves. It is the second cotton growing State of the Union. Citizens who have resided one year in the State, and four months in the county, and having performed military duty or paid taxes, are entitled to vote. A Convention met January 7, 1861, and on the 9th passed an ordinance of secession by a vote of 84 to 15.

MISSOURI was settled at Genevieve in 1763, by the French, and was part of the territory ceded by France by treaty of April 30, 1803. It was created under the name of the District of Louisiana, by an act approved March 26, 1804, and placed under the direction of the officers of the Indiana Territory, and was organized into a separate Territory June 4, 1812, its name being changed to that of Missouri; and was divided March 2, 1819, the Territory of Arkansas being then created. An act authorizing it to form a State Constitution and Government was passed March 6, 1820, and it was admitted into the Union December 14, 1821. Area 67,380 square miles, or 43,123,200 acres. Population in 1860, 1,182,012, of whom 114,931 were slaves. An act of gradual emancipation was passed July 1, 1863, by a vote of 51 to 30. On the 6th of January, 1865, a Constitutional Convention assembled in St. Louis, and on the 8th of April adopted a new Constitution, declaring the State free, prohibiting compensation for slaves, and adopting many other radical changes. On the 6th of June the Constitution was adopted by the people by a vote of 43,670 to 41,808, and pursuant to a Proclamation issued on the 1st of July, the Constitution went into effect July 4, 1865. It is an agricultural and mining State. Citizens of the United States who have resided in the State one year, and county three months, are entitled to vote. By an act passed by the Legislature of 1863, voting by ballot was adopted, and the poll system abolished.
NEBRASKA was settled by emigrants from the Northern and Western States, and was formed out of a part of the territory ceded by France, April 30, 1803. Attempts to organize it were made in 1844 and 1848, but it was not accomplished until May 30, 1854. Area 75,955 square miles, or 44,798,160 acres. Population 28,841, besides a few roving tribes of Indians. A Convention adopted a State Constitution February 9, 1866, which was submitted to the people on the 22d of June, and adopted by a vote of 3,938 for, to 3,838 against, and State officers were elected. A bill was passed by Congress, July 27th, admitting the State, but the President withheld his signature. In February, 1867, Congress passed an act imposing certain conditions to admission, which were promptly accepted, and the territory became a State. It is an agricultural region, its prairies affording boundless pasture lands.

NEVADA was organized as a Territory March 2, 1861. Its name signifies snowy, and is derived from the Spanish word nieve (snow.) It comprises 81,539 square miles, or 52,184,960 acres, lying mostly within the Great Basin of the Pacific coast. Congress, at its session in 1864, passed an act which was approved March 21, to enable the people of the Territory to form a Constitution and State Government, in pursuance of which a Government was organized and the Territory admitted as a State by Proclamation of the President, October 31, 1864. At the time of its organization the Territory possessed a population of 6,857 white settlers. The development of her mineral resources was rapid and almost without parallel, and attracted a constant stream of immigration to the Territory. As the population has not been subject to the fluctuations from which other Territories have suffered, the growth of Nevada has been rapid and steady. At the general convention election of 1868, 10,934 votes were cast. During 1864 great accessions to the population were made. It is probably the richest State in the Union in respect to mineral resources. No region in the world is richer in argentiferous leads. It also contains an immense basin of salt, five miles square. Quartz mills are a very important feature in mining operations. The State is barren for agricultural purposes, and is remarkably healthy.

NEW HAMPSHIRE was settled at Dover, in 1623, by English Puritans, and continued under the jurisdiction of Massachusetts until September 18, 1679, when a separate charter was granted. It was one of the original thirteen States, and ratified the United States Constitution June 21, 1788; its State Constitution was framed January 5, 1776, and amended in 1784 and 1792. Area 9,280 square miles, or 5,939,200 acres. Population in 1860, 326,073. It is a grazing and manufacturing State. All male citizens, except paupers, are allowed to vote.

NEW JERSEY was settled at Bergen, in 1624, by the Dutch and Danes; was conquered by the Dutch in 1655, and submitted to the English in 1664, being held thereafter under the same grants as New York, until it was surrendered to the Crown in 1702. It was one of the original thirteen States, adopted a State Constitution July 2, 1776, and ratified the United States Constitution December 18, 1787. Area 8,320 square miles, or 5,324,800 acres. Population in 1860, 672,035. It is a grain and fruit growing region, its orchard and market products being relatively greater than those of any other State. A residence of one year in the State gives the right to vote, except to paupers, &c.
NEW YORK was settled at Manhattan, in 1614, by the Dutch; was ceded to the English by grants to the Duke of York, March 20, April 26, and June 24, 1664; was retaken by the Dutch in 1673, and surrendered again by them to the English, February 9, 1674. It was one of the original thirteen States; ratified the United States Constitution July 26, 1788; framed a Constitution April 20, 1777, which was amended October 27, 1801, and November 10, 1821; a new one was adopted November 3, 1846. Area 47,000 square miles, or 30,080,000 acres. Population in 1865, 3,831,777. It is the most populous, wealthy, and commercial of the States. White male citizens of the United States, who have resided in the State one year, in the county four months, and election district thirty days, are entitled to vote; and all men of color who have resided in the State three years, and own and pay taxes on a freehold assessed at $250.

NORTH CAROLINA was settled at Albemarle, in 1650, by the English, and was chartered March 20, 1663. It was one of the original thirteen States, and ratified the United States Constitution, November 21, 1789; its State Constitution was adopted December 18, 1776, and amended in 1835. Area 50,704 square miles, or 32,450,560 acres. Population in 1860, 992,622, of whom 331,059 were slaves. It is an agricultural State, with some mines and extensive pine forests. Every freeman of 21 years of age, having resided one year in any county in the State, may vote for a member of the House of Commons, but must own fifty acres of land to vote for a Senator. A State Convention passed an ordinance of secession May 21, 1861. An election for delegates to a State Convention took place September 21, 1865. The Convention assembled October 2. On the 2d of October it passed an ordinance forever prohibiting slavery. The Legislature ratified the Constitutional amendment December 1. An election was held on the first Thursday of November, for Governor, Members of Congress and the Legislature.

OHIO was settled at Marietta, in 1788, by emigrants from Virginia and New England; was ceded by Virginia to the United States October 20, 1783; accepted by the latter March 1, 1784, and admitted into the Union April 30, 1802. Area 39,964 square miles, or 25,576,960 acres. Population in 1860, 2,339,511. It is the most populous and wealthy of the agricultural States, devoted principally to wool growing, grain and live stock. A male of 21 years of age, who has resided in the State one year, and has paid or been charged with a State or county tax, is eligible to vote.

OREGON, although it had previously been seen by various navigators, was first taken possession of by Capt. Robert Gray, who entered the mouth of its principal river May 7, 1792, naming it after his vessel, the Columbia, of Boston. Exploring expeditions soon followed, and fur companies sent their trappers and traders into the region. In 1811 a trading post was established at the mouth of the Columbia river by the American Fur Company, who named it Astoria. For some time a Provisional Territorial Government existed, but the boundary remained unsettled until the treaty with Great Britain in 1846, when the 49th parallel was adopted. It was formally organized as a Territory August 14, 1848; was divided March 2, 1853, on the 46th parallel, the northern portion being called Washington and the southern Oregon. November 9, 1857, a State Constitution was adopted, under which it was admitted February 14, 1859.
about one-third of it on the east being added to Washington Territory, its northern boundary following the Columbia river until its intersection with latitude 46° north. Area 102,606 square miles, or 65,667,840 acres. Population in 1860, 52,465. It is an agricultural State, possessed of a fertile soil, extensive pastures, genial climate, and is well wooded. Gold and other precious metals are found in considerable abundance.

**Pennsylvania** was settled at Philadelphia, in 1681, by English Quakers, and was chartered February 28 of the same year. It was one of the original thirteen States, ratifying the United States Constitution December 12, 1787; adopted a State Constitution September 28, 1776, and amended it September 2, 1790. Area 46,000 square miles, or 29,440,000 acres. Population in 1860, 2,906,115. It is the second State in wealth and population, and the principal coal and iron mining region in the Union. Residence in the State one year, and ten days in the election district, with payment of a State or county tax assessed ten days prior to an election, gives the right to vote; except that citizens between 21 and 22 years of age need not have paid the tax.

**Rhode Island** was settled at Providence in 1636, by the English from Massachusetts, under Roger Williams. It was under the jurisdiction of Massachusetts until July 8, 1663, when a separate charter was granted, which continued in force until the formation of a Constitution in September, 1842. It was one of the original thirteen States, ratifying the United States Constitution May 29, 1790. Area 1,306 square miles, or 835,840 acres. Population in 1860, 174,620. It is largely engaged in manufactures. A freehold possession of $13; or, if in reversion, renting for $7, together with a residence of one year in the State and six months in the town; or, if no freehold, then a residence of two years in the State and six months in the town, and payment of $1 tax or military service instead, are the qualifications of voters.

**South Carolina** was settled, at Port Royal, in 1670, by the English, and continued under the charter of Carolina, or North Carolina, until they were separated in 1729. It was one of the original thirteen States, ratifying the United States Constitution May 23, 1798; it framed a State Constitution March 26, 1776, which was amended March 19, 1778, and June 8, 1790. Area 29,385 square miles, or 18,806,400 acres. Population in 1860, 703,708, of whom 402,406 were slaves, an excess of 101,270 over the whites. It is the principal rice-growing State. Whites, who have resided in the State two years and district six months, and have a freehold of fifty acres of land, or have paid a State tax, are entitled to vote. December 17, 1860, a Convention assembled in Columbia, adjourned to Charleston, and on the 24th unanimously adopted an ordinance of secession, which was followed the next day by a Declaration of Causes claimed to be sufficient to justify the act. An election for delegates to a State Convention was held September 4, 1865. The Convention assembled September 13, and adjourned on the 28th. It repealed the ordinance of secession, abolished slavery, equalized the representation of the Senate and taxation throughout the State, giving the election of Governor and Presidential electors to the people, ordered voting in the Legislature by **viva voce**, endorsed the Administration unanimously, and directed a commission to submit a code to the Legislature for the protection of the colored population. The Legislature ratified the Constitutional Amendment November 13, 1865.
TENNESSEE was settled at Fort Donelson, in 1756, by emigrants from Virginia and North Carolina; was ceded to the United States by North Carolina, December, 1789, conveyed by the Senators of that State February 25, 1790, and accepted by act of Congress April 2 of the same year; it adopted a Constitution Feb. 6, 1786, and was admitted into the Union the 1st of June following. Area 45,600 square miles, or 29,184,000 acres. Population in 1860, 1,109,601, of whom 275,179 were slaves. It is a mining and agricultural State, and is largely productive of live stock. Citizens of the United States who have resided six months in the county are entitled to vote. A military league was formed between the Governor, Isham G. Harris, and the rebel States, May 7, 1861, ratified the same day by the Senate by a vote of 14 to 6, and a Declaration of Independence submitted to the people, the election to be held June 8, the result of which was declared by the Governor, June 24, to be 104,913 for, and 47,238 against. This movement not being acceptable to the people of East Tennessee, which had declared against separation by a vote of 32,923 to 14,780, they, in a Convention held at Greenville, June 18-21, repudiated it. Andrew Johnson, Provisional Governor of the State, called a State Convention to be held in Nashville the second Monday in January. Delegates were elected, the Convention met, declared slavery forever abolished, prohibited compensation to owners of slaves, and abrogated the secession ordinances. These amendments of the Constitution were submitted to the people 22d of February, 1865, with the following result: For ratification, 22,197; rejection, 63. The United States Constitutional Amendment was ratified April 5, 1865.

TEXAS Was first settled at Bexar, in 1694, by Spaniards; formed a part of Mexico until 1836, when she revolted from that Republic and instituted a separate Government, under which she existed until admitted into the Union by a joint resolution approved March 1st, 1845, imposing certain conditions, which were accepted, and a Constitution formed July 4 of the same year, and another joint resolution adopted by Congress, consummating the annexation, was approved December 29, 1845. Area 237,504 square miles, or 152,002,500 acres. Population in 1860, 604,215, of whom 182,566 were slaves. It is an agricultural region, principally devoted to grain, cotton and tropical fruits. Free white male citizens of 21 years of age, who have resided in the State one year and district six months are entitled to vote. A Convention assembled at Galveston January 28, 1861, and on February 1 passed an ordinance of secession, by a vote of 166 to 7, to be submitted to the people February 23, and on March 4 they declared the State out of the Union, and Gov. Houston issued a Proclamation to that effect.

VERMONT was settled in 1724, by Englishmen from Connecticut, chiefly under grants from New Hampshire; was formed from a part of the territory of New York, by act of its Legislature March 6, 1769; framed a Constitution December 25, 1777, and was admitted into the Union March 4, 1791, by virtue of an act of Congress passed February 18 of the same year. Area 10,212 square miles, or 6,535,680 acres. Population in 1860, 315,098. It is a grazing region, producing more wool, live stock, maple sugar, butter, cheese and hay, in proportion to its population, than any other State. Any citizen of the United States who has resided in the State one year, and will take the oath of allegiance, is entitled to vote.

VIRGINIA was settled at Jamestown, in 1607, by the English, and was chartered April 10, 1606, May 23, 1609, and March 12, 1613. It was one of the original thirteen States, ratifying the United States Constitution June 25, 1788; it framed a State Constitution July 5, 1776, which was
amended January 15, 1830. The State was divided in 1863. Present area 37,352 square miles. Population in 1860, 1,314,532, of whom 45,410 were slaves. It is a large corn producing, and the chief tobacco growing State. Every white male citizen of the age of 21 years, who has been a resident of the State for one year, and of the county, city or town where he offers to vote for six months next preceding an election, and has paid all taxes assessed to him, after the adoption of the Constitution, under the laws of the Commonwealth after the re-organization of the county, city or town where he offers to vote, is qualified to vote for members of the General Assembly and all officers elective by the people. A Convention sitting in Richmond on the 17th of April, 1861, passed an ordinance of secession, by a vote of 88 to 55, which was submitted to the people at an election held May 23, the result of which was announced June 25 to be 128,824 for, and 32,134 against. The State Government was re-organized by a Convention which met at Wheeling, May 11, 1861. Upon the division of the State in 1863, the seat of Government was removed to Alexandria. A State Constitutional Convention, March 10, 1864, adopted a section abolishing slavery.

WEST VIRGINIA.—On the passage of the ordinance of secession by the Virginia Convention, a Convention of the western and other loyal counties of the State was held at Wheeling, which assembled May 11, 1861, and on the 17th unanimously deposed the then State officers and organized a Provisional Government. On the 26th of November, 1861, a Convention representing the western counties assembled in Wheeling and framed a Constitution for West Virginia, which was submitted to the people on the 3d of May, 1862, and adopted by them by a nearly unanimous vote. The division of the State was sanctioned by the Legislature May 13, 1862, and ratified by Congress by an act approved December 31, 1862, conditioned on the adoption of an amendment to the Constitution providing for the gradual abolition of slavery, which was done on the 24th of March, 1863, by a vote of the qualified electors of the proposed State, 28,318 voting in favor of the amendment, and 572 against it. In pursuance of the act of Congress, the President issued a Proclamation, April 20, 1863, admitting the State sixty days from the date thereof, and on the 20th of June the new State Government was formally inaugurated. Area 24,000 square miles. Population in 1860, 350,599, of whom 12,754 were slaves. It is a large corn producing State, and abounds in coal and other minerals. The Alexandria Legislature adopted the United States Constitutional Amendment February 9, 1865. White male citizens, residents of the State one year and county thirty days, unless disqualified by rebellion, are entitled to vote.

WISCONSIN was settled at Green Bay, in 1669, by the French; was a part of the territory ceded by Virginia, and was set off from Michigan December 24, 1834, and was organized into a Territory April 30, 1836. Iowa was set off from it June 12, 1838, and acts were passed at various times setting its boundaries. March 3, 1847, an act for its admission into the Union was passed, to take effect on the issuing of a Proclamation by the President, and by act of May 29, 1848, it was admitted into the Union. Area 53,924 square miles, or 34,511,360 acres. Population in 1860, 775,881. It is an agricultural State, chiefly engaged in grain raising and wool growing. Both white and colored citizens of the United States, or white foreigners who have declared their intention to become citizens, are entitled to vote. Colored citizens were admitted to the franchise, by a decision of the Supreme Court, rendered the 27th day of March, 1866, holding that, whereas an election was held in 1849, under the provisions of chapter 137, of that year, at which election 5,265 votes were cast in
favor of the extension of the right of suffrage to colored men, and 4,075 against such extension, therefore, the section of said law conferring such right had been constitutionally adopted and is the law of the land.

---

THE TERRITORIES,
THEIR BOUNDARIES, AREA, PHYSICAL FEATURES, ETC.

**ALASKA**, our new territory, recently purchased of Russia; comprehends all the north-west coast on the Pacific, and the adjacent islands north of the parallel of 50 degrees 40 minutes north, and the portion of the mainland west of the meridian (about 140° west) of Mount St. Elias. The area is computed at 481,276 square miles. The climate, although warmer than in the same latitude on the eastern coast, is too rigorous to admit of successful agricultural operations, and the chief value of the country and adjacent seas is derived from their fisheries and hunting grounds. The southern and central portions are mountainous; the northern portion along the Arctic ocean is quite flat, nowhere rising more than fifteen or twenty feet above the sea. The population is estimated at about 80,000, mostly Esquimaux.

**ARIZONA** was organized by the Thirty-Seventh Congress, in the winter of 1863, out of the western half of New Mexico, the boundary between the two Territories being the 109th meridian (32° west from Washington,) and includes the greater portions of the valleys of Colorado and Gila, which two rivers drain its entire surface, with parts of Utah, New Mexico and Nevada, and yet convey, it is reported, a less volume of water to the sea than the Hudson at Albany. The fertile Messilla Valley was left with New Mexico. The Territory forms a block nearly square, and contains 136,141 square miles, or 80,730,240 acres. Its white population is probably considerably less than 10,000. For agricultural purposes it is probably the most worthless on the Continent, owing to the absence of rains, but it is reputed to abound in silver mines.

**COLORADO** was organized March 2, 1861, from parts of Kansas, Nebraska and Utah, and is situated on each side of the Rocky Mountains, between latitude 37° and 41°, and longitude 25° and 32° west from Washington. Area 104,500 square miles, or 66,880,000 acres. Population 50,000, besides numerous tribes of Indians. By an enabling act passed March 21, 1864, the people of the Territory were authorized to frame a State Constitution and organize a State Government, and a Convention accordingly met in 1865, and on the 12th of August adopted a Constitution, which was submitted to and adopted by the people September 5, and State officers elected November 14. A bill to admit the Territory as a State passed Congress, but was vetoed May 25, 1866. It is said to be a superior grazing and cattle producing region, with a healthy climate and rich soil. An extensive coal bed, and also gold, iron and other minerals abound.
DAKOTA was first settled by emigrants of the Hudson Bay Company, but is now being peopled by emigrants from the Northern and Western States. It was set off from the western portion of Minnesota when that Territory became a State in 1857, and was organized March 2, 1861. Area 148,932 square miles, or 95,316,480 acres. Population 2,576 whites, and 2,261 Indians, besides the roving tribes.

IDAHO was organized by the Thirty-Seventh Congress, at its second session, in the winter of 1863. Its name means 'Bead of the Mountains,' and it embraces the whole breadth of the Rocky Mountain region, and has within its bounds the head waters of nearly all the great rivers that flow down its either slope, but the greater portion lies east of the mountains. Its southern boundary is the 41st, its northern the 46th parallel of latitude. It extends from the 104th meridian on the east to the 110th on the west. Area 326,373 square miles, or 208,870,720 acres. For agricultural purposes it is comparatively worthless, but abounds in gold and other valuable mines.

MONTANA was settled by emigrants from the Northern and Western States. Organized in 1864, with the following boundaries: Commencing at a point formed by the intersection of the 27° L. W. from Washington with the 45° N. L.; thence due west on said 45th degree to a point formed by its intersection with the 34th degree W. from Washington; thence due south along said 34th degree of longitude to its intersection with the 44th degree and 30 minutes of N. L.; thence due west along said 44th degree and 30 minutes of N. L. to a point formed by its intersection with the crest of the Rocky Mountains; thence following the crest of the Rocky Mountains northward till its intersection with the Bitter Root Mountains; thence northward along the crest of said Bitter Root Mountains to its intersection with the 39th degree of longitude W. from Washington; thence along said 39th degree of longitude northward to the boundary line of the British possessions; thence eastward along said boundary to the 27th degree of longitude W. from Washington; thence southward along said 27th degree to the place of beginning. This makes it the northermost Territory next the States east of the Missouri Valley. It is a good mining and agricultural region. The total population is put down at 15,822. Large accessions have been made since the census was taken.

NEW MEXICO was formed from a part of the territory ceded to the United States by Mexico, by the treaty of Guadaloupe Hidalgo, February 2, 1848, and was organized into a Territory September 9, 1850. Area 121,201 square miles, or 77,568,640 acres. Population 83,000, besides large tribes of warlike Indians. The principal resource of the country is its minerals.

UTAH was settled by the Mormons, and was formed from a part of the territory ceded to the United States by Mexico, by the treaty of Guadaloupe Hidalgo, February 2, 1848, and was organized into a Territory, September 9, 1850. Area 106,382 square miles, or 68,084,480 acres. Population, 40,273, of whom 29 were slaves. Brine, sulphureous and chalybeate springs abound; limestone, granite, sandstone and marble are found in large quantities; iron is abundant, and gold, silver, copper, lead and zinc have been found. Not one-fiftieth part of the soil is fit for tillage, but on that which is, abundant crops of grain and considerable cotton are raised. A Convention was held at Great Salt Lake City, January 22, 1852, and a State Constitution formed, but it has not been acted on by Congress.

WASHINGTON was settled by emigrants from the Northern and Western States, and was organized into a Territory, March 2, 1858, from the northern portion of Oregon, to which was added another portion from the
eastern part when the latter Territory was admitted as a State, February 14, 1859. Area 69,994 square miles, or 48,636,800 acres. Population 11,168, besides numerous tribes of Indians.

WYOMING was organized in July 1868. It lies between the 27th and 34th meridians of longitude west from Washington, and between the 41st and 45th parallels of latitude. The Territory is rich in mineral wealth, having large quantities of iron, coal, gypsum and building stone, besides vast quantities of gold, silver and copper. Salt springs of great value are found within its limits. The western portion of the Territory embraces what is generally known as the "Sweet Water Mines." The climate is healthy, and the Territory is rapidly filling up with an enterprising and hardy population. The act of Congress organizing the Territory, provides that "There shall be no denial of the elective franchise or any other right, on account of color or race, and all persons shall be equal before the law."

istration; where the estate and
effects for or in respect of which
such probate or letters of ad-
ministration applied for shall be
sworn or declared not to exceed
the value of $1,000,

Exceeding $1,000, and not ex-
ceeding $2,000,

Exceeding $2,000, for every ad-
ditional $1,000, or fractional
part thereof, in excess of

$2,000, 100

Promissory note. (See Bill of ex-
change, inland.)

Deposit note to mutual insurance
companies, when policy is sub-
ject to duty.

Renewal of note, subject to the
same duty as an original note.

Protest of note, bill of ex-
change, acceptance, check, or draft, or

any marine protest.

Quit-claim deed to be stamped as a
conveyance, except when given
as a release of a mortgage
by the mortgagee to the mort-
gagor, in which case it is exempt;
but if it contains cove-

nants may be subject as an
agreement or contract.

Receipts for satisfaction of any
mortgage or judgment or de-
cree of court, exempt.

Receipts for any sum of money or
debt due, or for a draft or other

instrument given for the payment of money; exceeding

$20, not being for satisfaction
of any mortgage or judgment

or decree of court.

(See Indorsement.)

Receipts for the delivery of pro-

perty.

Renewal of agreement, contract or
charter, by letter or otherwise,
same stamp as original instru-
ment.

Sheriff's return on writ or other
process.

Trust deed made to secure a debt,
to be stamped as a mortgage.

Warehouse receipts.

Warrant of attorney accompanying
a bond or note, if the bond
or note is stamped, exempt.

Weigher's returns.

Official documents, instruments,
and papers issued by officers of
the United States Government.

Official instruments, documents,
and papers issued by the offi-
cers of any State, county, town,
or other municipal corporation,
in the exercise of functions
strictly belonging to them in
their ordinary governmental or
municipal capacity.

Papers necessary to be used for
the collection from the United
States Government of claims
by soldiers, or their legal rep-
resentatives, for pensions,
back pay, bounty, or for prop-
erty lost in the service, exempt.

CANCELLATION.

In all cases where an adhesive stamp is used for denoting the stamp duty upon an instrument, the person using or affixing the same must write or imprint thereupon in ink the initials of his name, and the date (the year, month, and day) on which the same is attached or used. Each stamp should be separately cancelled. When stamps are printed upon checks, &c, so that in filling up the instrument, the face of the stamp is and must necessarily be written across, no other cancellation will be required.

All cancellation must be distinct and legible, and except in the case of proprietary stamps from private dies, no method of cancellation which differs from that above described can be recognized as legal and sufficient.

PENALTIES.

A penalty of fifty dollars is imposed upon every person who makes, signs, or issues, or who causes to be made, signed, or issued, any paper of any kind or description Whatever, or who accepts, negotiates, or pays, or causes to be accepted, negotiated, or paid, any bill of exchange, draft, or order, or promissory note, for the payment of money, without the same being duly stamp-
ed, or having thereupon an adhesive stamp for denoting the tax chargeable thereon, cancelled in the manner required by law, with intent to evade the provisions of the revenue act.

A penalty of two hundred dollars is im-
posed upon every person who pays, nego-
tiates, or offers in payment, or receives or takes in payment, any bill of exchange or order for the payment of any sum of money drawn or purporting to be drawn in a for-
egn country, but payable in the United States, until the proper stamp has been af-
fixed thereto.

A penalty of fifty dollars is imposed upon every person who fraudulently makes use of an adhesive stamp to denote the duty re-
quired by the revenue act, without effec-
tively cancelling and obliterating the same in the manner required by law.

Attention is particularly called to the fol-
lowing extract from section 155, of the act
of June 20, 1864, as amended by the act
of July 13, 1866:

"If any person shall wilfully remove or
cause to be removed, alter or cause to be al-
tered, the cancelling or defacing marks on
any adhesive stamp, with intent to use the
same, or to cause the use of the same, after
it shall have been used once, or shall know-
ingly or wilfully sell or buy such washed
or restored stamps, or offer the same for
sale, or give or expose the same to any per-
son for use, or knowingly use the same or prepare the same with intent for the further use thereof, or if any person shall knowingly and without lawful excuse (the proof whereof shall lie on the person accused) remove, restore, or alter stamps, which have been removed from any vellum, parchment, paper, instrument or writing; then, and in every such case, every person so offending, and every person knowingly and wilfully aiding, abetting, or assisting in committing any such offence as aforesaid, shall, on conviction thereof, ** * be punished by a fine not exceeding one thousand dollars, or by imprisonment and confinement to hard labor not exceeding five years, or both, at the discretion of the court."

It is not lawful to record any instrument, document, or paper required by law to be stamped, or any copy thereof, unless a stamp or stamps of the proper amount have been affixed and cancelled in the manner required by law; and such instrument or copy and the record thereof are utterly null and void, and cannot be used or admitted as evidence in any court until the defect has been cured as provided in section 158.

All willful violations of the law should be reported to the United States District Attorney within and for the district where they are committed.

**GENERAL REMARKS.**

Revenue stamps may be used indiscriminately upon any of the matters or things enumerated in Schedule B, except proprietary and playing card stamps, for which a special use has been provided.

Postage stamps cannot be used in payment of the duties chargeable on instruments.

The law does not designate which of the parties to an instrument shall furnish the necessary stamp, nor does the Commissioner of Internal Revenue assume to determine that it shall be supplied by one party rather than by another; but if an instrument subject to stamp duty is issued without having the necessary stamps affixed thereto, it cannot be recorded, or admitted, or used in evidence, in any court, until such stamps shall have been affixed as prescribed by law, and the person who thus issues it is liable to a penalty, if he omits the stamps with intent to evade the provisions of the internal revenue act.

The first act imposing a stamp tax upon certain specified instruments took effect, so far as said tax is concerned, October 1, 1862.

The impression which seems to prevail to some extent, that no stamps are required upon any instruments issued in the States since October 1, 1862, to make it admissible in evidence, or to entitle it to record.

Certificates of loan in which there shall appear any written or printed evidence of an amount of money to be paid on demand, or at a time designated, are subject to stamp duty as "promissory notes."

When two or more persons join in the execution of an instrument, the stamp to which the instrument is liable under the law, may be affixed and cancelled by either of them; and "when more than one signature is affixed to the same paper, one or more stamps may be affixed thereto, representing the whole amount of the stamp required for such signatures." No stamp is required on any warrant of attorney accompanying a bond or note, when such bond or note has affixed thereto the stamp or stamps denoting the duty required; and, whenever any bond or note is secured by mortgage, but one stamp duty is required on such papers — such stamp duty being the highest rate required for such instruments, or either of them. In such case a note or memorandum of the value or description of the stamp and the name of the instrument made upon the margin or in the acknowledgment of the instrument which is not stamped.

Particular attention is called to the change in section 154, by striking out the words "and cancelled in the manner required by law." The acceptor or acceptors of any bill of exchange, or order for the payment of any sum of money, drawn or purporting to be drawn in any foreign country, but payable in the United States, must, before paying or accepting the same, place thereupon a stamp indicating the duty.

It is only upon conveyances of realty sold that conveyance stamps are necessary. A deed of real estate made without valuable consideration need not be stamped as a conveyance; but if it contains covenants, such, for instance, as a covenant to warrant and defend the title, it should be stamped as an agreement or contract.

When a deed purporting to be a conveyance of realty sold, and stamped accordingly, is inoperative, a deed of confirmation, made simply to cure the defect, requires no stamp. In such case, the second deed should contain a recital of the facts, and should show the reasons for its execution.

Partition deeds between tenants in common, need not be stamped as conveyances, insasmuch as there is no sale of realty, but merely a marking out, or a defining, of the boundaries of the part belonging to each; but where money or other valuable consideration is paid by one co-tenant to another for equality of partition, there is a sale to the extent of such consideration, and the conveyance, by the party receiving it, should be stamped accordingly.

A conveyance of lands sold for unpaid taxes, issued since August 1, 1866, by the officers of any county, town, or other mu-
A conveyance of realty sold, subject to a mortgage, should be stamped according to the consideration, or the value of the property unencumbered. The consideration in such case is to be found by adding the amount paid, or to imply to the amount to be paid to the mortgage debt. The fact that one part of the consideration is paid to the mortgagee and the other part to the mortgagor does not change the liability of the conveyance.

The stamp tax upon a mortgage, is based upon the amount it is given to secure. The fact that the value of the property mortgaged is less than that amount, and that consequently the security is only partial, does not change the liability of the instrument. When, therefore, a second mortgage is given to secure the payment of a sum of money partially secured by a prior mortgage upon other property, or when two mortgages upon the same property are given at the same time to secure the payment of the same sum, each should be stamped as though it were the only one.

A mortgage given to secure a surety from loss, or given for any purpose whatever, other than as security for the payment of a definite and certain sum of money, is taxable only as an agreement or contract.

The stamp duty upon a lease, agreement, memorandum, or contract for the hire, use, or rent of any land, tenement, or portion thereof, is based upon the annual rent or rental value of the property leased, and the duty is the same whether the lease be for one year, for a term of years, or for the fractional part of a year only.

Upon every assignment or transfer of a mortgage, a stamp tax is required equal to that imposed upon a mortgage for the amount remaining unpaid; this tax is required upon every such transfer in writing, whether there is a sale or assignment, or portion thereof, is based upon the annual rent or rental value of the property leased, and the duty is the same whether the lease be for one year, for a term of years, or for the fractional part of a year only.

Upon every assignment or transfer of a mortgage, a stamp tax is required equal to that imposed upon a mortgage for the amount remaining unpaid; this tax is required upon every such transfer in writing, whether there is a sale or assignment, or portion thereof, is based upon the annual rent or rental value of the property leased, and the duty is the same whether the lease be for one year, for a term of years, or for the fractional part of a year only.

An assignment of a lease within the meaning and intent of Schedule B, is an assignment of the leasehold, or of some portion thereof, by the lessee, or by some person claiming by, from, or under him; such an assignment as subrogates the assignee to the rights, or some portion of the rights, of the lessee, or of the person standing in his place. A transfer by the lessor of his part of a lease, neither giving nor purporting to give a claim to the leasehold, or to any part thereof, but simply a right to the rents, should be subject to stamp tax as a contract or agreement only.

The stamp tax upon a fire insurance policy, is based upon the premium. Deposit notes taken by a mutual fire insurance company, not as payment of premium nor as evidence of Indebtedness therefor, but to be used simply as a basis upon which to make rateable assessments to meet the losses incurred by the company, should not be reckoned as premium in determining the amount of stamp taxes upon the policies.

When a policy of insurance properly stamped has been issued and lost, no stamp is necessary upon another issued by the same company to the same party, covering the same property, time, &c, and designed to supply the loss of the policy. The second policy should recite the loss of the first.

An instrument which operates as the renewal of a policy of insurance, is subject to the same stamp tax as the policy.

When a policy of insurance is issued for a certain time, whether it be for one year only or for a term of years, a receipt for premium, or any other instrument which has the legal effect to continue the contract and extend its operation beyond that time, requires the same amount of revenue stamps as the policy itself; but such a receipt as is usually given for the payment of the monthly, quarterly, or annual premium, is not a renewal within the meaning of the statute, and simply prevents the policy from expiring, by reason of non-performance of its conditions; a receipt given for such a payment requires a two-cent stamp, if the amount received exceeds twenty dollars, and a two-cent stamp only. When, however, the time of payment has passed, and a tender of the premium is not sufficient to bind the company, but a new policy or a new contract in some form, with the mutual consent of the parties, becomes necessary between the insurer and the insured, the same amount of stamps should be used as that required upon the original policy.

A permit issued by a life insurance company changing the terms of a policy as to travel, residence, occupation, &c, should be stamped as a contract or agreement.

A bill single or a bill obligatory, i.e., an instrument in the form of a promissory note, under seal, is subject to stamp duty as written or printed evidence of an amount of money to be paid on demand or at a time designated, at the rate of five cents for each one hundred dollars or fractional part thereof.

A waiver of protest, or of demand and notice, written upon negotiable paper and signed by the indorser, is an agreement, and requires a five-cent stamp.

As written or printed evidence of an amount of money to be paid on demand or at a time designated, at the rate of five cents for each one hundred dollars or fractional part thereof.

A waiver of protest, or of demand and notice, written upon negotiable paper and signed by the indorser, is an agreement, and requires a five-cent stamp.

When, as is generally the case, the caption to a deposit receipt contains other certificate in addition to the jurat to the affidavit of the deponent, such as a certificate that the parties were or were not notified, that they did or did not appear, that they did or did not object, &c, it is subject to a stamp duty of five cents.

When an attested copy of a writ or other
STAMP DUTIES.

process is used by a sheriff or other person in making personal service, or in attaching property, a five-cent stamp should be affixed to the certificate of attestation.

A marriage certificate issued by the officiating clergyman or magistrate, to be returned to any officer of a State, county, city, town, or other municipal corporation, to constitute part of a public record, requires no stamp; but if it is to be retained by the parties, a five-cent stamp should be affixed.

The stamp tax upon a bill of sale, by which any ship or vessel, or any part thereof, is conveyed to or vested in any other person or persons, is at the same rate as that imposed upon conveyances of realty sold; a bill of sale of any other personal property should be stamped as a contract or agreement.

An assignment of real or personal property, or of both, for the benefit of creditors, should be stamped as an agreement or contract.

Written or printed assignments of agreements; bonds, notes not negotiable, and of all other instruments the assignments of which are not particularly specified in the foregoing schedule, should be stamped as agreements.

No stamp is necessary upon the registry of a judgment, even though the registry is such in its legal effect as to create a lien which operates as a mortgage upon the property of the judgment debtor.

When a power of attorney or proxy for voting at any election for officers of any incorporated company or society, except religious, charitable, or literary societies, or public cemeteries, is signed by several stockholders, owning separate and distinct shares, it is, in its legal effect, the separate instrument of each, and requires stamps to the amount of ten cents for each and every signature; one or more stamps may be used representing the whole amount required.

A notice from landlord to tenant to quit possession of premises requires no stamp.

A stamp tax is imposed upon every manifest for custom-house entry or clearance of the cargo of any ship, vessel, or steamer for a foreign port. The amount of this tax in each case depends upon the registered tonnage of the vessel.

If a vessel clears in ballast and has no cargo whatever, no stamp is necessary; but, if she has any, however small the amount—a stamp should be used.

A bond to convey real estate requires stamps to the amount of twenty-five cents.

The stamp duty upon the probate of a will, or upon letters of administration, is based upon the sworn or declared value of all the estate and effects, real, personal, and mixed, undiminished by the debts of the estate, for or in respect of which such probate or letters are applied for.

When the property belonging to the estate of a person deceased, lies under different jurisdictions and it becomes necessary to take out letters in two or more places, the letters should be stamped according to the value of all the property, real, personal, and mixed, for or in respect of which the particular letters in each case are issued.

Letters de bards non should be stamped according to the amount of property remaining to be administered upon the under, regardless of the stamps upon the original letters.

A mere copy of an instrument is not subject to stamp duty unless it is a certified one, in which case a five-cent stamp should be affixed to the certificate of the person attesting it; but when the instrument is executed and issued in duplicate, triplicate, &c, as in the case of a lease of two or more parts, each part has the same legal effect as the other, and each should be stamped as an original.
POSTAL RATES AND REGULATIONS.

LETTERS.—The law requires postage on all letters (including those to foreign countries when prepaid), excepting those written to the President or Vice President, or members of Congress, or (on official business) to the chiefs of the executive departments of the Government, and the heads of bureaux and chief clerks, and others invested with the franking privilege, to be prepaid by stamps or stamped envelopes, prepayment in money being prohibited.

All drop-letters must be prepaid. The rate of postage on drop-letters, at offices where free delivery by carrier is established, is two cents per half ounce or fraction of a half ounce; at offices where such free delivery is NOT established the rate is one cent.

The single rate of postage on all domestic mail letters throughout the United States, is three cents per half ounce, with an additional rate of three cents for each additional half ounce or fraction of a half ounce. The ten cent (Pacific) rate is abolished.

NEWSPAPERS, ETC.—Letter postage is to be charged on all handbills, circulars, or other printed matter which shall contain any manuscript writing whatever.

Daguerreotypes, when sent in the mail, are to be charged with letter postage by weight:

Photographs on cards, paper, and other flexible material, (not in cases), can be sent at the same rate as miscellaneous printed matter, viz., two cents for each four ounces or fraction thereof.

Photograph Albums are chargeable with book postage—four cents for each four ounces or fraction thereof.

NEWSPAPER POSTAGE.—Postage on daily papers to subscribers when prepaid quarterly or yearly in advance, at the mailing office or office of delivery, per quarter (three months), 35 cts.; six times per week, per quarter 30 cts.; for tri-weekly, per quarter 15 cts.; for semi-weekly, per quarter 10 cts.; for weekly, per quarter 5 cents.

Weekly newspapers (one copy only) sent by the publisher to actual subscribers within the county where printed and published, FREE.

Postage per quarter (to be paid quarterly or yearly in advance) on newspapers and periodicals issued less frequently than once a week, sent to actual subscribers in any part of the United States: Semi-monthly, not over 4 oz., 6 cts.; over 4 oz. and not over 8 oz., 12 cts.; over 8 oz. and not over 12 oz., 18 cts.; monthly, not over 4 oz., 8 cts.; over 4 oz. and not over 8 oz., 6 cts.; over 8 oz. and not over 12 oz., 9 cts.; quarterly, not over 4 oz., 1 cent; over 4 oz. and not over 8 oz., 2 cts.; over 8 oz. and not over 12 oz., 3 cts.

TRANSIENT MATTER.—Books not over 4 oz. in weight, to one address, 4 cts.; over 4 oz. and not over 8 oz., 8 cts.; over 8 oz. and not over 12 oz., 12 cts.; over 12 oz. and not over 16 oz., 16 cts.

Circulars not exceeding three in number to one address, 2 cts.; over 3 and not over 6, 4 cts.; over 6 and not over 9, 6 cts.; over 9 and not exceeding 12, 8 cts.

On miscellaneous mailable matter, (embracing all pamphlets, occasional publications, transient newspapers, hand-bills and posters, book manuscripts and proof-sheets, whether corrected or not, maps, prints, engravings, sheet music, blanks, flexible patterns, samples, and sample cards, photographic paper, letter envelopes, postal envelopes or wrappers, cards, paper, plain or ornamental, photographic representations of different types, seeds, cuttings, bulbs, roots and scions,) the postage to be pre-paid by stamps, is on one package, to one address, not over 4 oz. in weight, 2 cts.; over 4 oz. and not over 8 oz., 4 cts.; over 8 oz. and not over 12 oz., 6 cts.; over 12 oz. and not over 16 oz., 8 cts. The weight of packages of seeds, cuttings, roots and scions, to be franked, is limited to thirty-two ounces.

Any word or communication, whether by printing, writing, marks or signs, upon the cover or wrapper of a newspaper, pamphlet, magazine, or other printed matter, other than the name or address of the person to whom it is to be sent, and the date when the subscription expires, subjects the package to letter postage.

MONEY ORDERS.—Absolute safety in sending money by mail is secured by obtaining a Money Order, on any Money Order Office, for which the fees are:—Orders not exceeding $20, 10 cents. Orders not exceeding $50, 25 cents. NEVER PUT MONEY IN A LETTER—ALWAYS PROCURE A MONEY ORDER.

Valuable Letters should be carried to the Post-office. If money is to be remitted, a Postal Money Order should be obtained. If upon points where there is no Money Order Office, then the letter should be registered. Money should never be enclosed in an ordinary letter.

STAMPS AND ENVELOPES can be obtained at the BOX DELIVERY. Envelopes in numbers not less than 500 with the "address of the purchaser," and a "return request," across the end, can be procured (by leaving an order with the Postmaster) at the same price as ordinary stamped envelopes.

REGISTERED LETTERS.—Valuable Letters for any part of the United States, Holland, United Kingdom, Italian States, Africa, East Indies, Falkland Islands, China, and Australia, will be registered on application at the office.

Rules:—
1. Direct Letters plainly to the street and number, as well as the Post-office and State. Sign them with full name, and request that answer be directed accordingly.

2. Letters sent to strangers or transient visitors in a town or city, whose special address may be unknown, should be marked on the lower left hand corner with the word "Transient."

3. Place the postage stamp on the upper right hand corner, and leave space between the stamp and direction for post marking, without interfering with the writing. N.B.—A request for the return of a letter to the writer, if unclaimed within thirty days or less, written or printed, with the writer's name, Post Office and State, across the left hand side of the envelope, on the face side, will be complied with. Letters bearing such indorsements will be returned to the writer free of charge.
### ADDITIONAL TABLE OF FOREIGN POSTAGE.

The * indicates that, unless the letter is registered, pre-payment is optional; in all other cases it is required. \% Pamphlets and Periodicals, ten cents per four ounces or fraction thereof.  \% Pamphlets, Magazine*, &c., two cents per four ounces or fraction thereof.

</table>

The recent postal treaty with Great Britain provides that besides letters and newspapers, "book packets," and "packets of patterns and samples," may be sent. Such packets—

1. Must contain no writing.
2. Must be fully prepaid (6 cents per 4 ounces from the U. S., or 3 pence sterling from Great Britain.)
3. Must be open at the ends to allow inspection.

Samples of merchandise must not be of intrinsic value.

Dutiable articles—books, music, &c., sent from Great Britain to the United States, must in addition to the postage, pay the regular duties, which are—On books and engravings, 25 per cent.; music and photographs, 20 per cent.

If letters or articles sent to Italy are not prepaid, or are insufficiently paid, they will be charged with deficient postage, and subject to fine, on arrival at their destination.
Infallible Rules for Detecting Counterfeit or Spurious Bank Notes.

1st.—Examine the shading of the letters in title of Bank called LATHEWORK, which in genuine notes presents an even, straight, light and silky appearance, generally so fine and smooth as to appear to be all in one solid, pale body. In the counterfeit the lines are coarse and irregular, and in many of the longer lines breaks will be perceived, thus presenting a very inferior finish in comparison to genuine work.

2d.—Observe the dies, circles and ovals in the genuine; they are composed of a network of lines, which, by crossing each other at certain angles, produce an endless variety of figures; SEE THE ONE CENT STAMP ATTACHED. The fine line alone is the unit which enables you to detect spurious work. In the counterfeit, the REPRESENTED white lines are coarse, irregular, and cross each other in a confused, irregular manner, thus producing blurred and imperfect figures.

3d.—Examine the form and features of all human figures on the note. In the genuine, the texture of the skin is represented by fine dots and lines intermixed. In the eyes, the pupil is distinctly visible, and the white clearly seen; the nose, mouth and chin, well formed, natural and expressive; the lips are slightly pouting, and the chin well thrown out; and the delicate shading of the neck perfectly harmonizes with the rest of the figure. Observe the fingers and toes; they should be clearly and accurately defined. The hair of the head should show the fine strands and present a natural appearance. The folds of the drapery of human figures should lay natural and present a fine, finished appearance. In the counterfeit the female figure does not bear the natural prominence in outlines; observe, the eyes and shading surrounding does not present the lifelike appearance it should. The fingers and toes are not properly and proportionately defined; the hair does not bear that soft and finished appearance as in the genuine.

4th.—Examine the imprint or engraver's names in the evenness and shape of the fine letters. Counterfeits never bear the imprint perfect. This rule should be strictly observed, as it is infallible in detecting counterfeit.

5th.—In the genuine note the landscapes are well finished: trees and shrubs are neatly drawn; the limbs well proportioned, and the foliage presenting a fine natural appearance; clear sky is formed of fine parallel lines, and when clouds or heavy skies appear, they cross each other, and bear a soft, smooth and natural appearance. The perspective, showing a view of the surrounding country, is always clear and distinct. The small figures in the background are always plainly seen, and their outlines and general character recognized. Ships are well defined and the canvass has a clear texture; railroad cars are very accurately delineated; in examining a train observe carefully the car most distant. In the counterfeit the landscape is usually poorly executed; the leaves of trees poorly and unnaturally defined. The lines representing still water are scratchy rather than parallel, the sky is represented generally in like manner, and where rolling clouds are to be seen, the unnatural effect is obvious. Domestic animals are generally poorly executed, particularly the head and limbs; the eyes are seldom clearly defined. Ships are poorly drawn, the texture of the canvass coarse and inferior in style of workmanship, thus giving an artificial appearance. Railroad cars are also poorly executed; the car farthest from the eye is usually the most imperfect. The perspective is always imperfect, the figures in the background can seldom be recognized.

6th.—Bills altered from a smaller to a higher denomination, can readily be detected by a close observer, in consequence of the striking difference between the parts which have been extracted and the rest of the note. This difference is readily perceived in the lack of color, body and finish of the dye; we have seen bills where the surrounding shading in altered dies was...
too dark, but from the back or finish of the
white lines you have a sure test. Again observe
particularly the words "Five" or "Ten Dollars" as the case may be, denot-
ing the denomination of the note; the parallel outlines and shading (if any) are
coarse and imperfect. Alterations are
fre-quently made by pasting a greater denomini-
ation over a smaller, but by holding the
bill up to the light, the fraud will be per-
ceived. Another method resorted to is to cut
out the figures in the dies as well as the
words one dollar, or the words two or
three as the case may be, and with a sharp
eraser, scrape down the ends and also the
edges of the pieces to be inserted; when
the pieces thus prepared are affixed they
are hardly perceivable; but by passing
the note through the hand, so as to feel
the die both with the finger and thumb
at the same time, the fraud will be de-
tected by the stiffness of the outer
edges, "occasioned by the gum or method
adopted" in affixing the parts. The letter
S should always be examined, as in many
alterations it is pasted or stamped at the
end of the word "dollar;" and even when
stamped there, the carrying out of the out-
lines for its shading will readily show the
fraud. Bills of broken banks are frequent-
ly altered by extracting the name of bank,
state and town; they may readily be de-
tected by observing first the State, second
the title or name of the bank, third the
town or location.

GENERAL REMARKS IN REFERENCE TO
COUNTERFEITS.—The paper on which they
are printed is generally of a very inferior
quality, with less body, finish and tough-
ness than bank note paper has. The ink
generally lacks the rich luster of the gen-
uine; the red letters and figures are gen-
erally imperfect, and the ink does not pre-
sent the vermillion hue as it should. The
printing is generally inferior, usually ex-
hibiting specks of white in the most promi-
inent let-ters. The date and filling up, and
the President's and Cashier's names are
generally written by the same person,
although in many instances they present
a different appearance. There are Dies in
circulation bearing either genuine dies or
vignettes; but upon close examination
you will be enabled to detect any spurious
bill, whether counterfeit or altered, by the
instructions here given, if persevered in for
a short time. We beg to suggest, if time
will admit, the learner should examine
minutely every bill he receives. A pow-
erful pocket magnifying glass, which can
be purchased for from fifty cents to one dol-
lar at any of the opticians, will greatly en-
able you to see and comprehend the differ-
ence between genuine and spurious work

HOW TO SUCCEED IN BUSINESS.

What will my readers give to know how
to get rich? Now, I will not vouch that
the following rules will enable every per-
son who may read them to acquire wealth;
but this I will answer for, that if ever a
man does grow rich by honest means, and
retains his wealth for any length of time,
he must practice upon the principles lay-
down in the following essay. The re-
marks are not original with me, but I
strongly commend them to the attention
of every young man, at least as affording
the true"secret of success in attaining
wealth. A single perusal of such an essay
at an impressionable moment, has sometimes
a very wonderful effect upon the disposi-
tion and character.

Fortune, they say, is a fickle dame—full
of her freaks and caprices; who blindly
distributes her favors without the slightest
discrimination. So inconstant, so wavering
is she represented, that her most faith-
ful votaries can place no reliance on her
promises. Disappointment, they tell us,
the lot of those who make offerings at
her shrine. Now, all this is a vile slander
upon the dear blind lady.

Although wealth often appears the result
of mere accident, or a fortunate concurrence
of favorable circumstances... of skill or foresight, yet any
man of sound health and unimpaired mind
may become wealthy, if he takes the pro-
per steps.

Foremost in the list of requisites are
honesty and strict integrity in every trans-
action of life. Let a man have the reputa-
tion of being fair and upright in his deal-
ings, and he will possess the confidence of
all who know him. Without these qualities
every other merit will prove unavailing.

Ask concerning a man, "Is he active and
capable?" Yes. "Industrious, temper-
te and regular in his habits?"—Oh yes;
"Is he honest? Is he trusted?" Why, as to that, I am sorry to say that he
is not to be trusted; he needs watching;
he is a little tricky, and will take an undue
advantage, if he can. "Then I will have
nothing to do with him," will be the in
HOW TO SUCCEED IN BUSINESS.

variable reply. Why, then, is honesty the best policy? Because, without it, you will get a bad name, and everybody will shun you.

A character for knavery will prove an insurmountable obstacle to success in almost every undertaking. It is the straight line, in business, in geometry, the shortest. In a word, it is almost impossible for a dishonest man to acquire wealth by a regular process of business, because he is shunned as a depredator upon society.

Needy men are apt to deviate from the rule of integrity, under the plea that necessity knows no law; they might as well add that it knows no shame. The course is suicidal, and by destroying all confidence, ever keeps them immured in poverty, although they may possess every other quality for success in the world.

Punctuality, which is said to be the soul of the art of money-getting, is of the utmost importance in the art of money getting. The man known to be scrupulously exact in the fulfillment of his engagements, gains the confidence of all, and may command all the means he can use with advantage; whereas, a man careless and regardless of his promises in money matters will have every purse closed against him. Therefore be prompt in your payments.

Next, let us consider the advantages of a cautious circumspection in our intercourse with the world. Slowness of belief ... those who have lost their property how it happened, and you will find in most cases that it has been owing to misfortunes of action; who are his friends and enemies, and what are his good or bad qualities and disadvantages; all of which a little more foresight and a little more distrust would have prevented. In the affairs of this world men are not saved by faith, but by the want of it.

Judge of men by what they do, not by what they say. Believe in looks rather than words. Observe all their movements. Ascertain their motives and their ends. Notice what they say or do in their uncrowded moments, when under the influence of excitement. The passions have been compared to tortures which force men to reveal their secrets. Before trusting a strange with an unknown, make due allowance for exaggeration in both. Finally, examine carefully before engaging in anything, and act with energy afterwards. Have the hundred eyes of Argus beforehand, and the hundred hands of Briarius afterwards.

Order and system in the management of business must not be neglected. Nothing contributes more to dispatch. Have a place for everything and everything in its place; a time for everything, and every thing in its time. Do first what presses most, and having determined what is to be done, and how it is to be done, lose no time in doing it. Without this method all is hurry and confusion, little or nothing is accomplished, and business is attended to with neither pleasure nor profit.

A polite, affable deportment is recommended. Agreeable manners contribute powerfully to a man's success. Take two men, possessing equal advantages in every other respect, but let one be gentlemanly, kind, obliging and conciliating in his manners; the other harsh, rude and dissembling; and the one will become rich, while the other will remain poor.

We are now to consider a very important principle in the business of money-getting, namely—industry—persevering, indefatigable attention to business. It is the diamond on which all virtues shine. It turns everything to gold. Constant, regular, habitual and systematic application to business, must in time, if properly directed, produce great results. It must lead to wealth, with the same certainty that poverty follows in the train of idleness and inattention. It has been truly remarked that he who follows his amusements instead of his business, will, in a short time, have no business to follow.

The art of money-saving is an important part of the art of money-getting. Without frugality no one can become rich; with it, few would be poor. Those who consume as fast as they produce, are on the road to ruin. As most of the poverty we meet with grows out of idleness and extravagance, so most large fortunes have been the result of habitual industry and frugality. The practice of economy is as necessary in the expenditure of time as of money. They say if "we take care of the minutes, the days will take care of themselves," So, if we take care of the minutes, the days will take care of themselves.

The acquisition of wealth demands as much self-denial, and as many sacrifices of present gratification, as the practice of virtue itself. Vice and poverty proceed, in some degree, from the same sources, namely—the disposition to sacrifice the future to the present; the inability to forego a small present pleasure for great future advantages. Men fail of fortune in this world, as they fail of happiness in the next, because they are unwilling to deny themselves momentary enjoyments for the sake of permanent future happiness.

Every large city is filled with persons who, in order to support the appearance of wealth, do not mortally live beyond their income, and make up the deficiency by contracting debts which are never paid. Others, there are, the mere drones of so-
How to Secure the Public Lands,

OR THE ENTRY OF THE SAME UNDER THE PRE-EMPTION AND HOMESTEAD LAWS.

The following circular gives all necessary information as to the procedure necessary in purchasing and securing the public lands:

DEPARTMENT OF THE INTERIOR,

GEN'L LAND OFFICE, July 19, 1865.

Numerous questions having arisen as to the mode of procedure to purchase public lands, or acquire title to the same by bounty land locations, by pre-emptions or by homestead, this circular is communicated for the information of all concerned.

In order to acquire title to public lands the following steps must be taken:

1. Application must be made to the Register or the district land office in which the land desired may be situated.

A list of all the land offices in the United States is furnished by the Department, with the seats of the different offices, where it is the duty of the Register and Receiver to be in attendance, and give proper facilities and information to persons desirous of obtaining lands.

The minimum price of ordinary public lands is $1.25 per acre. The even or reserved sections falling within railroad grants are increased to double the minimum price, being $2.50 per acre.

2. By the applicant filing with the Register his written application describing the tract, with its area; the Register will then certify to the receiver whether the land is vacant, with its price; and when found to be so, the applicant must pay that price per acre, or may locate the same with land warrant, and thereafter the Receiver will give him a "duplicate receipt," which he is required to surrender previous to the delivery to him of the patent, which may be had either by application for it to the Register or to the General Land Office.

3. If the tract has not been offered at public sale it is not liable to ordinary private entry, but may be secured by a party legally qualified, upon his compliance with the requirements of the pre-emption laws of 4th September, 1841, and 3d March, 1843; and after such party shall have made an actual settlement for such a length of time as will show he designs it for his permanent home, and is acting in good faith, building a house and residing therein, he may proceed to the district land office, establish his pre-emption claim according to law, by proving his actual residence and cultivation, and showing that he is otherwise within the purview of these acts—then he can enter the land at $1.25, either in cash or with bounty land warrant, unless the premises should be $2.50 acre lands. In that case the whole purchase-money can be paid in cash, or one-half in cash, the residue with a bounty land warrant.

4. But if parties legally qualified desire to obtain title under the Homestead Act of 20th May, 1862, they can do so on com-
plying with the Department Circular, dated 30th October, 1862.

5. The law confines Homestead entries to surveyed lands; and although, in certain States and Territories noted in the subjoined list, pre-emptors may go on land before survey, yet they can only establish their claim after return of survey, but must file their pre-emption declaration within three months after receipt of official plat, at the local land-office where the settlement was made before survey. Where, however, it was made after survey, the claimant must file within three months after date of settlement; and where actual residence and cultivation have been long enough to show that the claimant has made the land his permanent home, he can establish his claim and pay for the same at any time before the date of the public sale of lands within the range in which his settlement may fall.

6. All unoffered surveyed lands not acquired under pre-emption, homestead, or otherwise, under express legal sanction, must be offered at public sale under the President's Proclamation, and struck off to the highest bidder, as required by act of April 24, 1820.

J. M. EDMUNDS,
Commissioner General Land Office.

---

LAW MAXIMS.

1. A promise of a debtor to give "satisfactory security" for the payment of a portion of his debt, is a sufficient consideration for a release of the residue by his creditor.

2. Administrators are liable to account for interest on funds in their hands, although no profit shall have been made upon them, unless the exigencies of the estate rendered it prudent that they should hold the funds thus uninvested.

3. Any person who voluntarily becomes an agent for another, and in that capacity obtains information to which as a stranger he could have had no access, is bound in subsequent dealing with his principal, as purchaser of the property that formed the subject of his agency, to communicate such information.

4. When a house is rendered untenable in consequence of improvements made on the adjoining lot, the owner of such cannot recover damages, because it is presumed that he had knowledge of the approaching danger in time to protect himself from it.

5. When a merchant ship is abandoned by order of the master, for the purpose of saving life, and a part of the crew subsequently meet the vessel so abandoned and bring her safe into port, they will be entitled to salvage.

6. A person who has been led to sell goods by means of false pretenses, cannot recover them from one who has purchased them in good faith from the fraudulent vendor.

7. An agreement by the holder of a note to give the principal debtor time for payment, without depriving himself of the right to sue, does not discharge the surety.

8. A seller of goods who accepts, at the time of sale, the note of a third party, not endorsed by the buyer, in payment, cannot in case the note is not paid, hold the buyer responsible for the value of the goods.

9. A day-book copied from a "blotter" in which charges are first made, will not be received in evidence as a book of original entries.

10. Common carriers are not liable for extraordinary results of negligence that could not have been foreseen by ordinary skill and foresight.

11. A bidder at a Sheriff's sale may retract his bid at any time before the property is knocked down to him, whatever may be the conditions of the sale.

12. Acknowledgment of debt to a stranger does not preclude the operation of the statute.

13. The fruits and grass on the farm or garden of an intestate descend to the heir.

14. Agents are solely liable to their principals.

15. A deposit of money in bank by a husband, in the name of his wife, survives to her.
16. Money paid on Sunday contracts may be recovered.
17. A debtor may give preference to one creditor over another, unless fraud or special legislation can be proved.
18. A court cannot give judgment for a larger sum than that specified in the verdict.
19. Imbecility on the part of either husband or wife, invalidates the marriage.
20. An action for malicious prosecution will lie, though nothing farther was done than suing out warrants.
21. An agreement not to continue the practice of a profession or business in any specified town, if the party so agreeing has received a consideration for the same, is valid.
22. When A consigns goods to B to sell on commission, and B delivers them to C, in payment of his own antecedent debts, A can recover their value.
23. A finder of property is compelled to make diligent inquiry for the owner thereof, and to restore the same. If, on finding such property, he attempts to conceal such fact, he may be prosecuted for larceny.
24. A private person may obtain an injunction to prevent a public mischief by which he is affected in common with others.
25. Any person interested may obtain an injunction to restrain the State or a municipal corporation from maintaining a nuisance on its lands.
26. A discharge under the insolvent laws of one State will not discharge the insolvent from a contract made with a citizen of another State.
27. To prosecute a party with any other motive than to bring him to justice, is malicious prosecution, and actionable as such.
28. Ministers of the gospel, residing in any incorporated town, are not exempt from jury, military, or fire service.
29. When a person contracts to build a house, and is prevented by sickness from finishing it, he can recover for the part performed, if such part is beneficial to the other party.
30. In a suit for enticing away a man's wife, actual proof of the marriage is not necessary. Cohabitation, reputation, and the admission of marriage by the parties, are sufficient.
31. Permanent erections and fixtures, made by a mortgagor after the execution of the mortgage upon land conveyed by it, become a part of the mortgaged premises.
32. When a marriage is denied, and plaintiff has given sufficient evidence to establish it, the defendant cannot examine the wife to disprove the marriage.
33. The amount of an express debt cannot be enlarged by application.
34. Contracts for advertisements in Sunday newspapers cannot be enforced.
35. A seller of goods, chattels, or other property, commits no fraud, in law, when he neglects to tell the purchaser of any flaws, defects, or unsoundness in the same.
36. The opinions of witnesses, as to the value of a dog that has been killed, are not admissible in evidence. The value of the animal is to be decided by the jury.
37. If any person puts a fence on or plows the land of another, he is liable for trespass whether the owner has sustained injury or not.
38. If a person, who is unable from illness to sign his will, has his hand guided in making his mark, the signature is valid.
39. When land trespassed upon is occupied by a tenant, he alone can bring the action.
40. To say of a person, "If he does not come and make terms with me, I will make a bankrupt of him and ruin him," or any such threatening language, is actionable, without proof of special damage.
41. In an action for slander, the party making the complaint must prove the words alleged; other words of like meaning will not suffice.
42. In a suit of damages for seduction, proof of pregnancy, and the birth of a child, is not essential. It is sufficient if the illness of the girl, whereby she was unable to labor, was produced by shame for the seduction; and this is such a loss of service as will sustain the action.
43. Addressing to a wife a letter containing matter defamatory to the character of her husband is a publication, and renders the writer amenable to damages.
44. A parent cannot sustain an action for any wrong done to a child, unless he has incurred some direct pecuniary injury therefrom in consequence of some loss of service or expenses necessarily consequent thereupon.
45. A master is responsible for an injury resulting from the negligence of his servant, whilst driving his cart or carriage, provided the servant is at the time engaged in his master's business, even though the accident happens in a place to which his master's business does not call him; but if the journey of a servant be solely for a purpose of his own, and undertaken without the knowledge and consent of his master, the latter is not responsible.
46. An emigrant depot is not a nuisance in law.
47. A railroad track through the streets is not a nuisance in law.
48. If an agreement upon which a party relies be oral only, it must be proved by evidence. But if the contract be reduced to writing, it proves itself, and now no evidence whatever is receivable for the purpose of varying the contract or affecting its obligations. The reasons are obvious. The law prefers written to oral evidence, from its greater precision and certainty, and because it is less open to fraud. And where parties have closed a negotiation and reduced the result to writing, it is presumed that they have written all they intended to agree to, and therefore, that what is omitted was finally rejected by them.

49. Delivery of a husband's goods by a wife to her adulterer, he having knowledge that she has taken them without her husband's authority, is sufficient to sustain an indictment for larceny against the adulterer.

50. The fact that the insurer was not informed of the existence of impending litigation, affecting the premises insured, at the time the insurance was effected, does not vitiate the policy.

51. The liability of an innkeeper is not confined to personal baggage, but extends to all the property of the guest that he consents to receive.

52. When a minor executes a contract, and pays money, or delivers property on the same, he cannot afterwards disaffirm such contract and recover the money, or property, unless he restores to the other party the consideration received from him for such money or property.

53. When a person has, by legal inquisition been found an habitual drunkard, he cannot, even in his sober intervals, make contracts to bind himself or his property, until the inquisition is removed.

54. Any person dealing with the representative of a deceased person, is presumed, in law, to be fully apprized of the extent of such representative's authority to act in behalf of such estate.

55. In an action against a railroad company, by a passenger, to recover damages for injuries sustained on the road, it is not compulsory upon the plaintiff to prove actual negligence in the defendants; but it is obligatory on the part of the latter to prove that the injury was not owing to any fault or negligence of theirs.

56. A guest is a competent witness, in an action between himself and an innkeeper, to prove the character and value of lost personal baggage. Money in a trunk, not exceeding the amount reasonably required by the traveler to defray the expenses of the journey which he has undertaken, is a part of his baggage; and in case of its loss, either at any time, the plaintiff may prove its amount by his own testimony.

57. The deed of a minor is not absolutely void. The court is authorized to judge, from the instrument, whether it is void or not, according to its terms being favorable or unfavorable to the interests of the minor.

58. A married woman can neither sue nor be sued on any contract made by her during her marriage, except in an action relating to her individual property. The action must be commenced by or against her husband. It is only when an action is brought on a contract made by her before her marriage, that she is to be joined as a co-plaintiff, or defendant, with her husband.

59. Any contract made with a person judicially declared a lunatic is void.

60. Money paid voluntarily in any transaction, with a knowledge of the facts, cannot be recovered.

61. In all cases of special contract for services, except in the case of a minor, the plaintiff can recover only the amount stipulated in the contract.

62. A wife is a competent witness with her husband, to prove the contents of a lost trunk, or when a party.

63. A wife cannot be convicted of receiving stolen goods when she received them of her husband.

64. Insurance against fire, by lightning or otherwise, does not cover loss by lightning when there is no combustion.

65. Failure to prove plea of justification, in a case of slander, aggravates the offence.

66. It is the agreement of the parties to sell by sample that constitutes a sale by sample, not the mere exhibition of a specimen of the goods.

67. An agent is liable to his principals for loss caused by his misstatements, tho' unintentional.

68. Makers of promissory notes given in advance for premiums on policies of insurance, thereafter to be taken, are liable thereon.

69. An agreement to pay for procuring an appointment to office is void.

70. An attorney may plead the statute of limitations, when sued by a client for money which he has collected and failed to pay over.

71. Testimony given by a deceased witness on first trial, is not required to be repeated verbatim on the second.

72. A person entitling himself to a reward offered for lost property, has a lien upon the property for the reward; but only when a definite reward is offered.

73. Confession by a prisoner must be voluntarily made, to constitute evidence against him.

74. The defendant in a suit must be served with process; but service of such process upon his wife, even in his absence from the State, is not, in the absence of statutory provisions, sufficient.
75. The measure of damages in trespass for cutting timber, is its value as a chattel on the land, where it was felled, and not the market price of the lumber manufactured.

76. To support an indictment for malicious mischief in killing an animal, malice towards its owner must be shown, not merely passion excited against the animal itself.

77. No action can be maintained against a sheriff for omitting to account for money obtained upon an execution within a reasonable time. He has till the return day to reader such account.

78. An interest in the profits of an enterprise, as profits, renders the party holding it a partner in the enterprise, and mistakes him presumptively liable to share any loss.

79. Males can marry at fourteen, and females at twelve years of age.

80. All cattle found at large upon any public road, can be driven by any person to the public pound.

81. Any dog chasing, barking, or otherwise threatening a passer-by in any street, lane, road, or other public thoroughfare, may be lawfully killed for the same.

82. A written promise for the payment of such amount as may come into the hands of the promisor, is held to be an instrument in writing for the payment of money.

83. The declaration of an agent is not admissible to establish the fact of agency.—But when other proper evidence is given, tending to establish the fact of agency, it is not error to admit the declarations of the agent, accompanying acts, though tending to show the capacity in which he acted. When evidence is competent in one respect and incompetent in another, it is the duty of the court to admit it, and control its effects by suitable instructions to the jury.

84. The court has a general power to remove or suspend an attorney for such immoral conduct as rendered him unworthy of confidence in his official capacity.

85. Bankruptcy is pleadable in bar of all actions and in all courts, and this bar may be avoided whenever it is interposed, by showing fraud in the procurement of the discharge, or a violation of any of the provisions of the bankrupt act.

86. An instrument in the form of a deed, but limited to take effect at the termination of the grantor's natural life, is held to be a deed, not a will.

87. A sale will not be set aside as fraudulent, simply because the buyer was at the time unable to make the payment agreed upon, and knew his inability, and did not intend to pay.

88. No man is under an obligation to make known his circumstances when he is buying goods.

89. Contracting parties are bound to disclose material facts known to each, but of which either supposes the other to be ignorant, only when they stand in some special relation of trust and confidence in relation to the subject matter of the contract. But neither will be protected if he does anything, however slight, to mislead or deceive the other.

90. A contract negotiated by mail is formed when notice of acceptance of the offer is duly deposited in the post-office, properly addressed. This rule applies, although the party making the offer expressly requires that if it is accepted, speedy notice of acceptance shall be given him.

91. The date of an instrument is so far a material part of it, that an alteration of the date by the holder after execution, makes the instrument void.

92. A corporation may maintain an action for libel, for words published of them and relating to its trade or business, by which it has incurred special damages.

93. It is unprofessional for a lawyer who has abandoned his case without trying it, a term or two before trial, to claim a fee conditional upon the success of his client, although his client was successful.

94. Although a party obtaining damages for injuries received through the default of another, was himself guilty of negligence, yet that will not defeat his recovery, unless his negligence contributed to cause the injury.

95. A person may contract to labor for another during life, in consideration of receiving MB support; but his creditors have the right to inquire into the intention with which such arrangement is made, and it will be set aside if entered into to deprive them of his future earnings.

96. A grantor may by express terms exclude the bed of a river, or a highway, mentioned as boundary; but if without language of exclusion a line is described as along, or upon, or as running to, the highway or river, or by, or running to the bank of the river; these expressions carry the grantee to the center of the highway or river.

97. The court will take pains to construe the words used in a deed in such a way as to effect the intention of the parties, however unskillfully the instrument may be drawn. But a court of law cannot exchange an intelligible word plainly employed in a deed for another, however evident it may be that the word used was used by mistake for another.

98. One who has lost his memory and understanding is entitled to legal protection, whether such loss is occasioned by his own misconduct or by an act of Providence.
52

LAW MAXIMS.

99. When a wife leaves her husband voluntarily, it must be shown, in order to make him liable for necessaries furnished to her, that she could not stay with safety. Personal violence, either threatened or inflicted, will be sufficient cause for such separation.

100. Necessaries of dress furnished to a discarded wife must correspond with the pecuniary circumstances of the husband, and be such articles as the wife, if prudent, would expect, and the husband should furnish, if the parties lived harmoniously together.

101. A fugitive from justice from one of the United States to another, may be arrested and detained in order to his surrender by authority of the latter, without a previous demand for his surrender by the executive of the State whence he fled.

102. A watch will not pass under a bequest of "wearing apparel," nor of "household furniture and articles for family use."

103. Money paid for the purpose of settling or compounding a prosecution for a supposed felony, cannot be recovered back by a party paying it.

104. An innkeeper is liable for the death of an animal in his possession, but may free himself from liability by showing that the death was not occasioned by negligence on his part.

105. Notice to the agent of a company is notice to the company.

106. An employer is not liable to one of his employees for an injury sustained by the latter in consequence of the neglect of others of his employees engaged in the same general business.

107. Where a purchaser at a Sheriff's sale has bid the full price of property under the erroneous belief that the sale would vest the property of all liens, it is the duty of the court to give relief by setting aside the sale.

108. When notice of protest is properly sent by mail, it may be sent by the mail of the day of the dishonor; if not, it must be mailed for the mail of the next day; except that if there is none, or it closes at an unseasonably early hour, then notice must be mailed in season for the next possible mail.

109. A powder-house located in a populous part of a city, and containing large quantities of gunpowder, is a nuisance.

110. When the seller of goods accepts at the time of the sale, the note of a third person, unindorsed by the purchaser, in payment, the presumption is that the payment was intended to be absolute; and though the note should be dishonored, the purchaser will not be liable for the value of the goods.

111. A man charged with crime before a committing magistrate, but discharged on his own recognizance, is not privileged from arrest on civil process while returning from the magistrate's office.

112. When one has been induced to sell goods by means of false pretences, he cannot recover them from one who has bona fide purchased and obtained possession of them from the fraudulent vendor.

113. If the circumstances attendant upon a sale and delivery of personal property are such as usually and naturally accompany such a transaction, it cannot be declared a legal fraud upon creditors.

114. A stamp impressed upon an instrument by way of seal, is good as a seal, if it creates a durable impression in the texture of the paper.

115. If a party bound to make a payment use diligence to make a tender, but through the payee's absence from home is unable to find him or any agent authorized to take payment for him, no forfeiture will be incurred through his failure to make a tender.

Government Land Measure.
A township, 36 sections, each a mile square.
A section, 640 acres.
A quarter section, half a mile square, 160 acres.
An eighth section, half a mile long, north and south, and a quarter of a mile wide, 80 acres.
A sixteenth section, a quarter of a mile square, 40 acres.
The sections are numbered from one to thirty-six, commencing at the northeast corner, thus:

<table>
<thead>
<tr>
<th>6</th>
<th>5</th>
<th>4</th>
<th>3</th>
<th>2</th>
</tr>
</thead>
<tbody>

</table>

The sections are all divided in quarters, which are named by the cardinal points, as in section one. The quarters are divided in the same way. The description of a 40 acre lot would read: The south half of the west half of the southwest quarter of section 1 in township 24, north of range 7 west, or as the case might be; and sometimes will fall short, and sometimes overrun the number of acres it is intended to contain.
THE DECIMAL SYSTEM
OF
WEIGHTS AND MEASURES.

As Authorized by Act of Congress—Approved July, 28, 1866.

STANDARDS.
In every system of Weights and Measures it is necessary to have what are called "Standards," as the pound, yard, gallon, &c., to be divided and multiplied into smaller and larger parts and denominations. The definition and construction of these Standards involve philosophical and Scientific principles of a somewhat abstruse character, and are made and procured by the legislative department of the government. The nominal Standards in the new system are the Meter, the ABB, the LITER, and the GRAM. The only real Standard, the one by which all the other standards are measured, and from which the system derives its name of "Metric," is the METER.

THE METER
Is used for all measures of length, distance, breadth, depth, heighth, &c., and was intended to be, and is very nearly, one ten-millionth of the distance on the earth's surface from the equator to the pole. It is about 39.3 inches, or 8 feet, 3 inches and 3 eighths, and is to be substituted for the yard.

THE ARE
Is a surface whose side is ten Meters, and is equal to 100 square Meters or about 4 square rods.

THE LITER
Is the Unit for measuring solids and capacity, and is equal to the contents of a cube whose edge is one-tenth of a meter. It is about equal to 1 quart, and is a standard in cubic, dry and liquid measures.

A cubic Meter (or Kiloliter) is called a stade, and is also used as a standard in certain cubic measures.

THE GRAM
Is the Unit of weight, and is the weight of a cube of pure water, each edge of the cube being one one-hundredth of a Meter. It is about equal to 15.5 grains. It is intended as the Standard in all weights, and with its divisions and multiples, to supersede the use of what are now called Avoirdupois, Apothecaries and Troy Weights.

Each of the foregoing Standards is divided decimally, and larger units are also formed by multiples of 10, 100, &c. The successive subordinate parts are designated by the prefixes Deci, Centi and Milli; the successive multiples by Deka, Hecto, Kile and Myria; each having its own numerical signification, as will be more clearly seen in the tables hereinafter given.

The terms used may, at first sight, have a formidable appearance, seem difficult to pronounce, and to retain in memory, and to be, therefore, objectionable; but with a little attention and use, the apprehended difficulty will be found more apparent than real, as has been abundantly proved by experience. The importance, also, of conformity in the use of commercial terms, on the part of the United States, with the practice of the many nations in which the system, with its present nomenclature, has already been adopted, must greatly overbalance the comparatively slight objection alluded to.
DECIMAL SYSTEM OF WEIGHTS AND MEASURES.

### TABLES.

#### OLD.

<table>
<thead>
<tr>
<th>4 farthings make</th>
<th>penny.</th>
</tr>
</thead>
<tbody>
<tr>
<td>12 pence</td>
<td>shilling.</td>
</tr>
<tr>
<td>20 shillings</td>
<td>pound.</td>
</tr>
</tbody>
</table>

#### NEW.

<table>
<thead>
<tr>
<th>10 mills make</th>
<th>1 cent.</th>
</tr>
</thead>
<tbody>
<tr>
<td>10 cents</td>
<td>1 dime.</td>
</tr>
<tr>
<td>10 dimes</td>
<td>1 dollar.</td>
</tr>
</tbody>
</table>

### LONG AND CLOTH MEASURE.—NEW.

<table>
<thead>
<tr>
<th>10 millimeters make</th>
<th>1 centimeter.</th>
</tr>
</thead>
<tbody>
<tr>
<td>10 centimeters</td>
<td>1 decimeter.</td>
</tr>
<tr>
<td>10 decimeters</td>
<td>1 meter.</td>
</tr>
<tr>
<td>10 meters</td>
<td>1 dekameter.</td>
</tr>
<tr>
<td>10 dekameters</td>
<td>1 hectometer.</td>
</tr>
<tr>
<td>10 hectometers</td>
<td>1 kilometer.</td>
</tr>
<tr>
<td>10 kilometers</td>
<td>1 myriameter.</td>
</tr>
</tbody>
</table>

### SQUARE MEASURE.—NEW.

<table>
<thead>
<tr>
<th>100 square millimeters make</th>
<th>1 square centimeter.</th>
</tr>
</thead>
<tbody>
<tr>
<td>100 square centimeters</td>
<td>1 square decimeter.</td>
</tr>
<tr>
<td>100 square decimeters</td>
<td>1 square meter or CENTARE.</td>
</tr>
<tr>
<td>100 centares</td>
<td>1 ARE.</td>
</tr>
<tr>
<td>100 ares</td>
<td>1 hectare.</td>
</tr>
</tbody>
</table>

The denominations less than the Are, including the Meter, are used in specifying the contents of surfaces of small extent; the terms Centare, Are, and Hectare, in expressing quantities of land surveyed or measured.

The above table may, however, be continued beyond the Meter, thus:

<table>
<thead>
<tr>
<th>100 square meters make</th>
<th>1 square dekameter.</th>
</tr>
</thead>
<tbody>
<tr>
<td>100 square dekameters</td>
<td>1 square hectometer.</td>
</tr>
<tr>
<td>100 square kilometers</td>
<td>1 square kilometer.</td>
</tr>
<tr>
<td>100 square myriameters</td>
<td>1 square myriameter.</td>
</tr>
</tbody>
</table>

### CUBIC MEASURE.—NEW.

#### For Solids.

<table>
<thead>
<tr>
<th>1000 cubic millimeters make</th>
<th>1 cubic centimeter.</th>
</tr>
</thead>
<tbody>
<tr>
<td>1000 cubic centimeters</td>
<td>1 cubic decimeter or LITER.</td>
</tr>
<tr>
<td>1000 cubic decimeters</td>
<td>1 cubic meter or STERE.</td>
</tr>
<tr>
<td>1000 cubic meters</td>
<td>1 cubic dekameter.</td>
</tr>
<tr>
<td>1000 cubic dekameters</td>
<td>1 cubic hectometer.</td>
</tr>
<tr>
<td>1000 cubic hectometers</td>
<td>1 cubic kilometer.</td>
</tr>
<tr>
<td>1000 cubic kilometers</td>
<td>1 cubic myriameter.</td>
</tr>
</tbody>
</table>

#### For Dry and Liquid Measures.

<table>
<thead>
<tr>
<th>10 milliliters make</th>
<th>1 centiliter.</th>
</tr>
</thead>
<tbody>
<tr>
<td>10 centiliters</td>
<td>1 deciliter.</td>
</tr>
<tr>
<td>10 deciliters</td>
<td>1 LITER.</td>
</tr>
<tr>
<td>10 liters</td>
<td>1 dekaliter.</td>
</tr>
<tr>
<td>10 dekaliters</td>
<td>1 hectoliter.</td>
</tr>
<tr>
<td>10 hectoliters</td>
<td>1 kiloliter.</td>
</tr>
<tr>
<td>10 kiloliters</td>
<td>1 myrioliter.</td>
</tr>
</tbody>
</table>

A LITER, the standard of Measures of Capacity, usually in a cylindrical form, is equivalent to a cubic Decimeter, or one-thousandth part of a cubic Meter, the contents of which are about one quart.

The Kiloliter, or STERE, is a cubic Meter, and is used as a unit in measuring firewood and lumber.

<table>
<thead>
<tr>
<th>10 decisteres make</th>
<th>1 stere.</th>
</tr>
</thead>
<tbody>
<tr>
<td>10 steres</td>
<td>1 dekastere.</td>
</tr>
</tbody>
</table>

### ALL WEIGHTS.—NEW.

<table>
<thead>
<tr>
<th>10 milligrams make</th>
<th>1 centigram.</th>
</tr>
</thead>
<tbody>
<tr>
<td>10 centigrams</td>
<td>1 decigram.</td>
</tr>
<tr>
<td>10 decigrams</td>
<td>1 GRAM.</td>
</tr>
<tr>
<td>10 grams</td>
<td>1 dekagram.</td>
</tr>
<tr>
<td>10 dekagrams</td>
<td>1 hectogram.</td>
</tr>
<tr>
<td>10 hectograms</td>
<td>1 kilogram.</td>
</tr>
<tr>
<td>10 kilograms</td>
<td>1 myriagram.</td>

<td>1 quintal.</td>
</tr>
<tr>
<td>10 quintals</td>
<td>1 millier or tonneau.</td>
</tr>
</tbody>
</table>
Acts and Resolutions of Congress.

PUBLIC—No. 183.

AN ACT to authorize the use of the metric system of weights and measures.

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

That from and after the passage of this act, it shall be lawful throughout the United States of America to employ the weights and measures of the metric system; and no contract or dealing, or pleading in any court, shall be deemed invalid or liable to objection, because the weights or measures expressed or referred to therein are weights or measures of the metric system.

SEC. 2. And be it further enacted, That the tables in the schedule hereto annexed, shall be recognized in the construction of contracts and in all legal proceedings, as establishing, in terms of the weights and measures now in use in the United States, the equivalents of the weights and measures expressed therein in terms of the metric system; and said tables may be lawfully used for computing, determining and expressing, in customary weights and measures, the weights and measures of the metric system.

MEASURES OF LENGTH.

Central Library of Rochester and Monroe County · County Directories Collection
Discount and Premium.

When a person buys an article for $1.00—20 per cent off, (or discount,) and sells it again for $1.00, he makes a profit of 25 per cent, on his investment. Thus: He pays 80 cents and sells for $1.00—a gain of 20 cents, or 25 per cent of 80 cents. And for any transaction where the sale or purchase of gold, silver, or currency is concerned, the following rules will apply in all cases.

RULE 1st.—To find premium when discount is given: Multiply 100 by rate of discount and divide by 100, less rate of discount.

RULE 2d.—To find discount when premium is given. Multiply the rate of interest by 100, and divide by 100, plus the rate of premium.

Suppose A has $140 in currency, which he wishes to exchange for gold, when gold is 27 per cent, premium, how much gold should he receive? In this case the premium is given, consequently we must find the discount on A's currency and subtract it from the $140, as per rule 2d, showing the discount to be a trifle more than 21 per cent, and that he should receive $110.60 in gold.

Table of Weights of Grain, Seeds, &c.

ACCORDING TO THE LAWS OF NEW YORK.

| Barley weighs | 48 " per bushel. |
| Buckwheat | 48 " |
| Clover Seed | 60 " |
| Corn | 60 " |
| Flax Seed* | 60 " |
| Oats | 32 " |
| Peas | 60 " |
| Potatoes | 60 " |
| Rye | 56 " |
| Timothy Seed | 54 " |
| Wheat | 60 " |

* Flax Seed by custom weighs 56 lb. per bush.

Facts on Advertising.

The advertisements in an ordinary number of the London Times exceed 2,600. The annual advertising bills of one London firm are said to amount to $200,000, and three others are mentioned who each annually expend for the purpose $50,000. The expense for advertising the eight editions of the "Encyclopaedia Britannia" is said to have been $15,000.

In large cities nothing is more common than to see large business establishments, which seem to have an immense advantage over all competitors, by the wealth, experience, and prestige they have acquired, drop gradually out of public view, and be succeeded by firms of a smaller capital, more energy, and more determined to have the fact that they sell such and such commodities known from one end of the land to the other. In other words, the establishments advertise; the old die of dignity. The former are ravenous to pass out of obscurity into publicity; the latter believe that their publicity is so obvious that it cannot be obscured. The first understand that they must thrust themselves upon public attention, or be disregarded; the second, having once obtained public attention, suppose they have arrested it permanently; while, in fact, nothing is more characteristic of the world than the ease with which it forgets.

Stephen Oiirard, than whom no shrewder business man ever lived, used to say: I have always considered advertising liberally and long to be the great medium of success in business, and the prelude to wealth. And I have made it an invariable rule too, to advertise in the dullest times as well as the busiest; long experience having taught me that money thus spent is well laid out; as by keeping my business continually before the public it has secured me many sales that I would otherwise have lost.

Capacity of Cisterns or Wells.

Tabular view of the number of gallons contained in the clear, between the brick work for each ten inches of depth:
Brilliant Whitewash.

Many have heard of the brilliant stucco whitewash on the east end of the President's house at Washington. The following is a recipe for it; it is gleaned from the National Intelligencer, with some additional improvements learned by experiment: Take half a bushel of nice unslacked lime, slack it with boiling water, and stir it well, and let it stand a few days covered from the dirt.

It should be put on right hot; for this purpose it can be kept in a kettle on a portable furnace. It is said that about a pint of this mixture will cover a square yard upon the outside of a house if properly applied. Brushes more or less small may be used according to the neatness of the job required. It answers as well as oil paint for wood, brick or stone, and is cheaper. It retains its brilliancy for many years. There is nothing of the kind that will compare with it, either for inside or outside walls.

Coloring matter may be put in and made of any shade you like. Spanish brown stirred in will make red pink, more or less deep according to the quantity. A delicate tinge of this is very pretty, for inside walls. Finely pulverized common clay, well mixed with Spanish brown, makes a reddish stone color. Yellow-ochre stirred in makes yellow wash, but chrome green and makes a color generally esteemed prettier. In all these cases the darkness of the shades of course is determined by the quantity of coloring used. It is difficult to make rules, because tastes are different. It would be best to try experiments on a shingle and let it dry. We have been told that green must not be mixed with lime. The lime destroys the color, and the color has an effect on the whitewash, which makes it crack and peel. When walls have been badly smoked, and you wish to have them a clean white, it is well to squeeze indigo plentifully through a bag into the water you use, before it is stirred in the whole mixture. If a larger quantity than five gallons be wanted, the same proportion should be observed.

How to get a Horse out of a Fire.

The great difficulty of getting horses from a stable where surrounding buildings are in a state of conflagration, is well known. The place of covering their eyes with a blanket will not always succeed.

A gentleman whose horses have been in great peril from such a cause, having tried in vain to save them, hit upon the expedient of having them harnessed as though going to their usual work; when, to his astonishment, they were led from the stable without difficulty.

The Chemical Barometer.

Take a long narrow bottle, such as an old-fashioned Eau-de-Cologne bottle, and put into it two and a half drachms of camphor, and eleven drachms of spirits of wine; when the camphor is dissolved, which it will readily do by slight agitation, add the following mixture: Take water, nine drachms; nitrate of potash (saltpetre) thirty-eight grains; and muriate of ammonia (sal ammoniac) thirty-eight grains. Dissolve these Baits in the water prior to mixing with the camphorated spirit; then shake the whole well together. Cork the bottle well and let the top be taken off, but afterwards make a very small aperture in the cork with a red-hot needle. The bottle may then be hung up, or placed in any stationary position. By observing the different appearances which the materials assume, as the weather changes, it becomes an excellent prognosticator of a coming storm or of a sunny sky.

Leech Barometer.

Take an eight ounce phial, and put in it three gills of water, and place in it a healthy leech, changing the water in summer once a week, and in winter once in a fortnight, and it will most accurately prognosticate the weather. If the weather is to be fine, the leech lies motionless at the bottom of the glass and coiled together in a spiral form; if rain may be expected, it will creep up to the top of its lodgings and remain there till the weather is settled; if we are to have wind, it will move through its habitation with amazing swiftness, and seldom goes to rest till it begins to blow hard; if a remarkable storm of thunder and rain is to succeed, it will lodge for some days before almost continually out of the water, and discover great uneasiness in violent throes and convulsive-like motions; in frost as in clear summer-like weather it lies constantly at the bottom; and in snow as in rainy weather it pitches its dwelling in the very mouth of the phial. The top should be covered over with a piece of muslin.

To Measure GRAIN in A BUSHEL.—Find the number of cubic feet, from which deduct one-fifth. The remainder is the number of bushels—allowing, however, one bushel extra to every ten. If you wish to know how many buhshels there would be 224 there would be 225 bushels. In a remainder of 448 there would be 450 bushels &c.
VALUABLE RECIPES.

[The following recipes are vouched for by several who have tried them and proven their virtues. Many of them have been Bold singly for more than the price of this book.—PUB.]

HORSES.

RING BONE AND SPAVIN.—2 oz. each of Spanish flies and Venice turpentine; 1 oz. each of aqua ammonia and euphorbium; ¥ oz. red precipitate; ¥ oz. corrosive sublimate; ½ lbs. lard. When thoroughly pulverized and mixed, heat carefully so as not to burn, and pour off free from sediment.

For ring-bone, rub in thoroughly, after removing hair, once in 48 hours. For spavin, once in 24 hours. Cleanse and press out the matter on each application.

POLL-EVIL.—Gum arabic, ß oz; common potash, ß oz; extract of belladonna, %. Put the gum in just enough water to dissolve it. Pulverize the potash and mix with the dissolved gum, and then put in the extract of belladonna, and it will be ready for use. Use with a syringe after having cleansed with soap suds, and repeat once in two days till a cure is affected.

SCOURS.—Powdered tormentil root, given in milk, from 3 to 5 times daily till cured.

GREASE-HEEL AND SCRATCHES.—Sweet oil 6 ozs.; borax 2 ozs.; sugar of lead 2 ozs. Wash off with dish water, and, after it is dry, apply the mixture twice a day.

CHOLIC IN HORSES.—To ¥ pt. of warm water add 1 oz. laudanum and 3 ozs. spirits of turpentine, and repeat the dose in about ½ of an hour, adding ¥ oz. powdered aloes, if not relieved.

BOTS.—Three doses. 1st. 2 qts milk and 1 of molasses. 2d. 15 minutes after. 2 qts. warm sage tea. 3d. After the expiration of 30 minutes, sufficient lard to physic. Never fails.

MISCELLANEOUS.

PILEs—PERFECTLY CURED.—Take % oz. of sulphur 1 oz, rosin 3 ozs., pulverize and mix well together. (Color with carmine or cochineal, if you like.) Does.—What will lie on a five cent piece, night and morning, washing the parts freely in cold water once or twice a day. This is a remedy of great value.

The cure will be materially hastened by taking a table-spoon of sulphur in a half pint of milk, daily, until the cure is affected.

SURE CUBE FOR CORNS, WARTS AND CHILBLAINS.—Take of nitric and muriatic acids, blue vitriol and salts of tartar, 1 oz. each. Add the blue vitriol, pulverized, to either of the acids; add the salts of tartar in the same way; when done foaming, add the other acid, and in a few days it will be ready for use. For chilblains and corns apply it very lightly with a swab, and repeat in a day or two until cured. For warts, once a week, until they disappear.

HOOF-AIL IN SHEEP.—Mix 2 ozs. each of putter of antimony and muriatic acid with 1 oz. of pulverized white vitriol, and apply once or twice a week to the bottom of the foot.

COMMON RHEUMATISM.—Kerosene oil 2 ozs.; neats-foot oil 1 oz.; oil of organum. ¥ oz. Shake when used, and rub heat in twice daily.

VEET FINE SOAP, QUICKLY AND CHEAP-LY MADE.—Fourteen pounds of bar soap in a half a boiler of hot water; cut up fine: add three pounds of sal-soda made fine; one ounce of pulverized rosin; stir it often till all is dissolved; just as you take it off the fire, put in two table-spoonfuls of spirits of turpentine and one of ammonium: pour it in a barrel, and fill up with cold soft water; let it stand three or four days before using. It is an excellent soap for washing clothes, extracting the dirt readily, and not fading colored articles.
VALUABLE RECIPES.

WATER PROOF FOR LEATHER.—Take linseed oil 1 pint, yellow wax and white turpentine each 2 ozs. Burgundy pitch 1 oz., melt and color with lampblack.

To KEEP CIDER SWEET.—Put into each barrel, immediately after making, \( \frac{3}{4} \) lb. ground mustard, 2 oz salt and 2 oz. pulverized chalk. Stir them in a little cider, pour them into the barrel, and shake up well.

Acute Cure.—Procure \( \frac{1}{4} \) table spoons of fresh mandrake root juice, (by pounding) and mix with the same quantity of molasses and take in three equal doses, 2 hours a part, the whole to be taken 1 hour before the chill comes on. Take a swallow of some good bitters before meals, 1 hour before the chill is broken and the cure will be permanent.

CURE FOR SALT RHEUM OR SCURVY.—Take of the pokeweed, any time in summer; pound it; press out the juice; strain it into a pewter dish; set it in the sun till it becomes as thin as tea, then put it into an earthen mug; add to it fresh water and bees wax sufficient to make an ointment of common consistency; simmer the whole over a fire till thoroughly mixed. When cold, rub the part affected. The patient will almost immediately experience its good effects, and the most obstinate cases will be cured in three or four months. Tested.—The juice of the ripe berries may be prepared in the same way.

Superior Paint—For Brick Houses.—To lime whitewash, add for a fastener, sulphate of zinc, and shade with any color you choose, as yellow ochre, Venetian red, etc. It outlasts oil paint.

How to Judge a Horse.

A correspondent, contrary to old maxims, undertakes to judge the character of a horse by outward appearances, and offers the following suggestions, the result of his close observation and long experience:

If the color be light sorrell, or chestnut, his feet, legs and face white, these are marks of kindness. If he is broad and full between the eyes, he may be depended on as a horse of good sense, and capable of being trained to anything. As respects such horses, the more kindly you treat them the better you will be treated in return. Nor will a horse of this description stand a whip, if well fed.

If you want a safe horse, avoid one that is dish-faced. He may be so far gentle as not to scare; but he will have too much go-ahead in him to be safe with everybody.

If you want a fool, but a horse of great bottom, get a deep bay, with not a white hair about him. This face is a little dish-ed, so much the worse. Let no man ride such a horse that is not an adept in riding—they are always tricky and unsafe.

Felons.—Stir 1 oz. of Venice turpentine with \( \frac{1}{3} \) tea spoonful of water, till it looks like candied honey, and apply by spreading upon cloth and wrapping around the finger. If not too long delayed will cure in 6 hours. A poke root poultice is also said to be a sure remedy.

Water Proof Blacking and Harness Polish.—Take two and a half ounces gum shellac and half a pint of alcohol, and set in a warm place until dissolved; then add two and a half ounces Venice turpentine to neutralize the alcohol; add a tablespoonful of lampblack. Apply with a fine sponge. It will give a good polish over oil or grease.

Mosquitoes.—To get rid of these tormentors, take a few hot coals on a shovel, or a chafing dish, and burn upon them some brown sugar in your bed-rooms and parlors, and you effectually banish or destroy every mosquito for the night.

Cheap Outside Paint.—Take two parts (in bulk) of water lime ground fine, one part (in bulk) of white lead ground in oil. 4 parts (in bulk) of water lime ground fine, one part of the leaves of the pine, sweetened with loaf sugar. Take a wine-glass warm on going to bed, and half an hour before eating three times a day. The above is sold as a cough syrup, and is doing wonderful cures, and it is sold at a great profit to the manufacturers.

If you want one that will never give out, never buy a large, overgrown one.

A black horse cannot stand heat, nor a white one cold.

If you want a gentle horse, get one with more or less white about the head; the more the better. Many persons suppose the parti-colored horses belonging to the circuses, shows, &c, are selected for their oddity. But the selections thus made are on account of their great docility and gentleness.

Measurement of Hay in the Mow or Stack.—It is often desirable, where conveniences for weighing are not at hand, to purchase and sell hay by measurement. It is evident that no fixed rule will answer in all cases, as it would require more cubic feet at the top of a mow than at the bottom. The general rule adopted by those who have tested it, is \( \frac{7}{8} \) cubic feet of solid Timothy hay, as taken from mow or bottom of stack. The rule may be varied for upper part of mow or stack according to pressure.

#### Explanation
- Find the Year and observe the Letter above it; then look for the Month, and in a line with it find the Letter of the Year; above the Letter find the Day; and the figures on the left, in the same line, are the days of the same name in the month.
- Leap Years have two letters; the first is used till the end of February, the second during the remainder of the year.
MONROE COUNTY

THIS COUNTY was formed from Ontario and Genesee, February 23d, 1821. It lies on Lake Ontario, northwest of the center of the State. It is centrally distant 202 miles from Albany and contains 682 square miles. The surface is generally level or slightly undulating, with a moderate inclination towards the lake. East of the Genesee River the surface is somewhat broken, and drift hills of a moderate elevation appear. The shore of the lake is low for the most part, but in some places rises in bluffs from ten to thirty feet in height, and slopes gradually to the Lake Ridge, a distance of from five to eight miles from the lake. The summit of the Ridge is 160 feet above the lake, and from it the surface declines slightly towards the south for a short distance, and then rises gradually to the summit of the Mountain Ridge, which is from one to three miles distant and 310 feet above the shore of the lake. The surface south of this is gently rolling, and the ridges extend in a north and south direction. The summits of the ridges along the south border are about 400 feet above the lake and from 600 to 700 above tide.

Genesee River is the principal stream and flows in a northeasterly direction through the County in a valley from half a mile to two miles in width. The ridges which border the valley are from thirty to sixty feet high. At Rochester the river flows over the limestone which forms the Mountain Ridge, in a series of rapids and falls, the highest of which is ninety-six feet. About two and a half miles below Rochester are two other falls, one of twenty-five feet, and a short distance below another of eighty-four feet. From this point the
river is navigable to the lake. The principal tributaries of the Genesee from the west are Oatka and Black Creeks, and Honeoye Creek from the east. The other principal streams of the County are Sandy, Little Salmon, Salmon, Buttonwood and Long Pond Creeks, west of the Genesee, and Irondequoit and Four Mile Creeks east of the river, all flowing into Lake Ontario or some of its bays. Nearly all of these streams, in their passage from the central parts of the County to the lake, flow over the limestone ridge in a succession of falls, forming an abundance of water-power. The principal bodies of water are Lake Ontario, which forms the north boundary of the County, Irondequoit and Braddocks Bays, and Buck, Long and Cranberry Ponds, all indentations from Lake Ontario and connected with it by narrow and shallow straits. Irondequoit Bay is a narrow, deep body of water extending inland about six miles from the lake shore. A deep valley extends south, several miles from its south extremity, forming the deepest ravine along the north border of the State. It is supposed by some that Genesee River formerly flowed through this valley, as there are indications of the action of a more powerful agent than the stream now flowing through the valley, which has been partly filled with drift deposits.

The Medina sandstone, which extends in a broad belt along the lake shore, is the lowest rock in the County. A thin stratum of the Clinton group lies next above this and almost disappears upon the west border of the County. The highest rock is the Niagara group, which forms the abrupt terrace of the Mountain Ridge. This rock is extensively quarried in various parts of the County, and forms an excellent building material. The underlying rocks in the south part of the County belong to the Onondaga salt group, which yield salt springs in various localities, at some of which salt was formerly manufactured. Lime is extensively manufactured from the Niagara limestone, and from the rocks in the south part large quantities of plaster and water-lime are obtained. A large part of the County is covered with drift deposits, which for the most part assume the character of ridges and rounded hills, many of them rising from fifty to one hundred feet in height, above the general surface. Calcareous tufa and marl are found in several localities, forming invaluable elements of fertility to the soil. Iron ore in small quantities is found in various places associated with the Clin-
ton group. The soil of the County is generally fertile. Along the lake shore it consists of a red, clayey and gravelly loam, derived from the disintegration of the Medina sandstone. Towards the Genesee River the soil contains more sand, and in some places clay, formed from the disintegration of the Clinton and Niagara shales. In the south part lime and gypsum are important elements of the soil, making it valuable for raising wheat.

Agriculture is the leading pursuit. Wheat is raised to some extent, but not as much as formerly, barley, corn and oats being raised more extensively. Fruit is raised extensively in most parts of the County, all the varieties adapted to this latitude flourishing here. In the vicinity of Rochester are some of the most extensive nurseries in the State. Dairying, stock and wool raising are receiving considerable attention. The manufacture of flour, machinery, edge tools, cars and a great variety of other articles of wood and of iron, are carried on extensively in Rochester and vicinity. The canals and railroads centering at Rochester give it facilities for an extensive trade which is carried on with the surrounding country. The river is navigable for about five miles from Lake Ontario, affording water facilities for a limited amount of commerce in that direction.

The County Seat is located at Rochester. The first county officers were Elisha B. Strong, First Judge; Timothy Barnard, Judge; Joseph Spencer, Assistant Justice; James Seymour, Sheriff; Nathaniel Rochester, Clerk, and Elisha Ely, Surrogate. The first Court House was built in 1821, soon after the organization of the County. It was removed to give place to the present structure in 1852. The present Court House is situated upon Buffalo street, corner of South Fitzhugh, near the center of the city. It is a commodious brick structure with an Ionic portico, supported by four massive pillars. The building is surmounted by a dome 150 feet high. It contains the usual rooms for courts and county officers, and for the city officers. The corner stone of this building was laid with appropriate ceremonies. Among the contents of the stone were deposited copies of the first and last City Directories, copies of each of the newspapers, a bill of each of the banks, samples of United States coin, a phial of the first gold dust found in California, and various articles representing the state of the arts at the time.
The Jail is a stone building situated on the bank of the river, a short distance south of the Court street bridge.

The Alms House is located upon a farm of 94 acres in the town of Brighton, a short distance from the city limits. The products of the farm for the year 1868 amounted to about $4,000. The personal property upon the farm October 1, 1868, was valued at $1,624.

The number of paupers at the Alms House, October 1, 1868, was 217. Admitted during the year, 610. Born in the House during the year, 16. Died, 27. Sent to the Insane Asylum, 2. Sent to Orphan Asylum, 33. Sent to Truant's Home, 2. Discharged, 621. Remaining in the House, October 1, 1868, 158.

The cost of supporting the poor for the year was $19,330.27. The average cost per week for each was 1.45.

The Monroe County Insane Asylum is located in the immediate vicinity of the Alms House. The number of inmates, September 30, 1868, was 89. The whole amount expended the last year for the support of the Asylum, including salaries of officers and insurance, was $8,823.79. Thirty-five of the inmates were males and fifty-four females.

The Monroe County Penitentiary is located in Brighton. The principal employment of the convicts during the past year has been manufacturing boots and shoes, tubs and pails, and seating chairs.

The expenditures for the year were $30,684.51. The income was $25,705.11. The number in confinement, October 1, 1867, was 186.
MONROE COUNTY.

Received from Oct. 1, 1867, to Oct. 1, 1868, 585

The Press of Monroe County will compare favorably with that of any county in the State. The first paper published in the County was

The Rochester Gazette, started in 1816, by Augustine G. Dauby. John Sheldon and Oran Follett were subsequently associated with him; and in 1821 the paper passed into the hands of Levi W. Sibley, publisher, and Derick Sibley, editor, and its name was changed to

The Monroe Republican. In 1825 Whittlesey & Mumford became proprietors. In July, 1827, it passed into the hands of Luther Tucker & Co., who changed the name to

THE ROCHESTER REPUBLICAN and continued its publication, in connection with the Rochester Daily Advertiser, until 1839, when the establishment passed into the hands of Thomas H. Hyatt. After passing through various hands it was published by Curtis, Butts & Co., until 1864, when it passed into the hands of Curtis, Morey & Co., the present publishers.

The Rochester Daily Advertiser, the first daily paper west of Albany, was commenced October 25, 1826, by Luther Tucker and Henry C. Sleight, under the firm of Luther Tucker & Co. In 1828 the partnership was dissolved and the publication continued by Tucker. January 1st, 1829,
MONROE COUNTY.

the paper was united with the *Rochester Daily Telegraph* and issued as

*The Rochester Daily Advertiser and Telegraph*, by Tucker & Martin. In 1829 Martin retired from the firm, and in 1830 Tucker dropped the sub-title of *Telegraph*. Henry O'Reilly, H. L. Stevens, Thomas W. Flagg and Hiram Bumphrey were successively interested with Tucker in its publication as associate editors, until May, 1839, when the establishment was transferred to Thomas H. Hyatt, who became editor and proprietor. After passing through several hands the paper was united with the

*Rochester Daily Union*, September 1, 1856, and has since been published as

**THE ROCHESTER DAILY UNION AND ADVERTISER.** It was published for several years by Curtis, Butts & Co., and in 1864 it passed into the hands of Curtis, Morey & Co., the present publishers; Wm. Purcell and George G. Cooper, editors. A semi-weekly edition is issued from the same office.

*The Rochester Telegraph* was commenced July 7, 1818, by Everard Peck & Co. In 1824 Thurlow Weed became its editor, and in 1825 he and Robert Martin purchased the establishment. In 1827 they commenced

*The Semi-Weekly Telegraph*, which in a short time was changed to

*The Rochester Daily Telegraph*. In 1828 Weed retired and the daily and weekly papers were continued by Martin. On the 1st of January, 1829, the daily was united with the *Rochester Daily Advertiser*, and in 1830 the weekly was merged in the *Rochester Republican*.

*The True Genesee Farmer* (monthly) was published a short time about 1824, by William A. Welles; N. Goodsell, editor.

*The Rochester Album* was commenced in October, 1825 by Marshall, Spaulding & Hunt. In 1827 it was united with the *Telegraph*.

*The Rochester Observer* was commenced in 1827; Luther Tucker & Co., printers; Rev. G. G. Sill, editor; Jostah Bissell, Jr., proprietor. After several successive changes of editors and proprietors it was united with the *New York Evangelist* in 1832.

C. J. Hill & Son,

Merchant Millers!

Rochester, N. Y.

We Manufacture the Celebrated "C. J. Hill Flour," which has been a favorite brand with housekeepers in this city and throughout a wide extent of country for the past THIRTY-EIGHT YEARS, during which it has maintained an unblemished reputation for UNIFORM EXCELLENCE AND SUPERIORITY OF QUALITY.

We pay the highest price for Choice White Wheat.
The Rochester Mercury was commenced in January, 1827, by Luther Tucker & Co. It was issued weekly in connection with the Daily Advertiser and was merged in the Rochester Republican when that paper passed into the hands of the Advertiser.

The Rochester Balance was commenced in January, 1828, by D. D. Stephenson. It soon passed into the hands of Thurlow Weed and Samuel Heron, who changed its name to The Anti-Masonic Inquirer. In 1830 D. N. Sprague succeeded Heron, and Weed retired. In 1831 Erastus Shepard united the Western Spectator, of Palmyra, with it. In 1832 Alva Strong became connected with Shepard in the publication, and in 1834 the paper was merged in the National Republican.

The Craftsman (Masonic) was commenced at Rochester in 1828, by E. J. Roberts. It was published about a year and a half and removed to Albany.

The Western Wanderer was commenced at Rochester in 1828, by Peter Cherry. It soon after passed into the hands of Edwin Scranton, who changed its name to The Rochester Gem. It subsequently passed into the hands of Strong & Dawson and was discontinued in 1843.

The Spirit of the Age, a semi-monthly, was published at Rochester in 1830, by Ames & Barnum.

The Rochester Morning Courier was published in 1830, by E. J. Roberts.

The Genesee Farmer was commenced at Rochester in January, 1831, by Tucker & Stevens, with N. Goodsell as nominal editor. It was continued by Tucker until January, 1840, when it was united with the Cultivator at Albany.

The National Republican was commenced at Rochester in the spring of 1831, by Sidney Smith. In 1833 a daily edition entitled

The Morning Advertiser was issued from the same office. It was soon after changed to

The Evening Advertiser, and in 1834 Smith sold the establishment to Shepard & Strong, who united the Republican with the Inquirer and changed the name to

The Monroe Democrat, and the daily to
The Rochester Daily Democrat. In 1836 George Dawson became interested in the paper and acted as editor until 1839. In 1846 Alva Strong, Samuel P. Allen and Henry Cook were editors and proprietors. In December, 1857, the papers were united with the Daily and Weekly American, and the daily issued as

The Daily Democrat and American, by Strong, Allen & Huntington, proprietors, and S. P. Allen, editor. A tri-weekly was issued from the same office. In 1864 it passed into the hands of W S. King & Co., and resumed its former name.

THE EOCHESTEE SEMI-WEEKLY DEMOCRAT and

THE MONROE DEMOCRAT are issued from the same office.

The Rochester Mirror was published in 1832, by Scranton & Holstein.

The Age was published at Rochester in 1833.

The American Revivalist and Rochester Observer was published in 1833, by ff. C. Saxton.

Goodsell's Genesee Farmer was commenced at Rochester in 1833, by Nahum Goodsell, and published a short time.

The Rights of Man was published at Rochester in 1834, by the Anti-Slavery Society.

The Family Journal and Christian Philanthropist was published at Rochester in 1834, by W B. Van Brunt.

The Monthly Genesee Farmer was commenced in 1836, by Luther Tucker. It was made up from the weekly Genesee Farmer, and, with that paper, was united with the Cultivator at Albany in 1839.

The Watchman was published at Rochester in 1838, by Delazon Smith.

McKenzie's Gazette was published at Rochester in 1838-9, by Alexander McKenzie.
The New *Genesee Farmer* (monthly) was started in 1840. M. B. Bateman, editor. Its name was afterwards changed to *The Genesee Farmer*.

It was successively edited by Henry Coleman, Daniel Lee, D. D. T. Moore and James Vick, and subsequently edited and published by Joseph Harris. January 1st, 1866, its name was changed to *The American Farmer*, and on the 1st of January, 1869, it was united with *The School Visitor* and its name changed to

**THE AMERICAN FARMER AND SCHOOL VISITOR**, under which name it is now published by J. R. Garretsee & Co.

*The Workingman's Advocate* was commenced October 19, 1839, and published daily by the Typographical Association, with Henry C. Fränk, editor. A weekly edition was also issued from the same office. In April, 1840, it was purchased by James Tick and George P. Frost, who changed its name to *The Evening Advocate*. In 1841 it passed into the hands of John J. Reilly & Co., who changed its name to

*The Evening Post*, and published it in connection with a weekly paper called

*The Western New Yorker*. Erastus Shepard became proprietor on the 1st of April, 1843, and in November following the papers were discontinued.

*The Rochester Daily Whig*, a campaign paper, was published in 1840, by Ym. A. Welles.

*The Daily Sun* was published in Rochester a few months in 1840, by Alfred Oakley.

*The American Citizen* was published at Rochester and Perry (Wyoming Co.) in 1841, by W L. Chaplin.

*The Jeffersonian* was published daily at Rochester for a short time in 1842, by Thomas L. Nichols.

*The Christian Guardian* was published a short time in 1842, by Rev. J. Whitney.

*The Mechanics Advocate* was published a short time in 1843.

*The Rochester Daily American* was started December 23, 1844, by Leonard Jerome and J. M. Patterson; Alexander
Mann, editor. A tri-weekly and a weekly edition were also issued. In July, 1845, Lawrence E. Jerome became a partner, and in 1846 the establishment passed into the hands of Leonard and Lawrence R. Jerome. In 1846 Dr. Daniel Lee became assistant editor, and in 1847 Reuben D. Jones tilled the same position. December 1st, 1857, the paper was united with the Rochester Daily Democrat and issued as the Democrat and American.

The Rochester Herald (daily) was published in 1844, by E. S. Watson.

The Voice of Truth and Glad Tidings of the Kingdom of the Hand was commenced at Rochester in 1844, by Elder Joseph Marsh. In 1848 it was changed to

The Advent Harbinger, and in 1849 to

The Advent Harbinger and Bible Advocate. It was subsequently changed to

The Prophetic Expositor and Bible Advocate, and after a time discontinued.

The Rochester Temperance Journal was commenced in 1846 and continued a short time.

The Genesee Evangelist was commenced at Rochester in 1846, by Rev. John E. Robey. It was subsequently published semi-monthly, by E. W. Hill, and shortly after discontinued.

The Christian Offering was published at Rochester for a short time in 1847, by S. B. Shaw.

The Penny Preacher was published a short time by Erastus Shepard.

The Genesee Olio, a semi-monthly, was published at Rochester in 1847, by Franklin Cowdrey.

The North Star was published at Rochester in 1847-8.

Algemeen Handeelsblad was published at Rochester in 1848.

Frederick Douglass' Paper was commenced at Rochester in 1848, by Frederick Douglass, editor and proprietor. It was continued for several years and finally discontinued.

The Washingtonian was published at Rochester in 1848,
The Rochester Germania was published in 1849.
The Groning Courant was started in 1849 and discontinued after a few months.
The Christian Sentinel was commenced in 1849 and continued a short time.
Brewster's Insurance Reporter was published in 1849, by H. A. Brewster.
The Rochester Daily Magnet was published in 1849, by Lawrence & Winants; C. H. McDonald & Co., proprietors. It was discontinued in 1850.
The Wool Grower and Stock Register was a monthly, commenced in July, 1849. It was subsequently merged in the Rural New Yorker, while in the hands of T. C. Peters and D. D. T. Moore.
The Investigator was published a short time in 1850.
The Medical Truth Teller was published for a short time by Dr. J. Gates.
The Annunciator was published in 1850.
The Cygnet was published in 1850, by the Young Men's Temperance Association.
The Flag of Freedom was published in 1850, by Calvin H. Chase.
The Advent Review and Sabbath Herald, a semi-monthly, was commenced in November, 1850, by James White. In connection with it was published
The Youth's Instructor.
MONROE COUNTY.

MOOEE'S RURAL NEW YORKER was commenced in 1850, by D. D. T. Moore. It was published at Rochester until January 1st, 1867, when it was removed to New York City and greatly enlarged. Its publication is continued by the original proprietor.
The Western Luminary was commenced at Rochester, by Rev. G. M. Cook. It was afterwards removed to Buffalo.
The Rochester Daily Herald was commenced in 1850, under the editorship of T. K. Falkner. In a few months it passed into the hands of G. G. Cooper, who changed its name to
The Rochester Daily Times. It was discontinued in 1851.
Anzeiger des Nordens (weekly and tri-weekly) was commenced in 1852, by Kraneer & Felix. Its name was subsequently changed to the ROCHESTER VOLKSBLATT, under which name it is still published by L. W Brandt.

The Youth's Temperance Banner was published monthly for a short time, by a committee of the Temperance Society.

The Evening News was issued about three months in 1852, by R. Chamberlain & Co.

The National Reformer was published a short time about 1852.

Beobachter am Genesee was commenced in 1852, by Adolphe Nolte. In 1860 its name was changed to THE ROCHESTER OBSERVER and its publication is still continued.

The Rochester Daily Union was commenced August 16, 1852, by Curtis & Butts; O. Turner, editor. In December following, Isaac Butts became editor. In September, 1858, it was united with the Rochester Daily Advertiser. A weekly and a tri-weekly edition were issued from the same office.

The Rochester Daily Tribune was issued in 1855-6, by Snow & Ingersoll.

The Rochester Daily Free Press, a campaign paper, was issued in 1856 by John N. Ingersoll.

The Mercantile Journal was issued for six months in 1856, by C. H. McDonnell.

The Evening American, a campaign paper, was issued in 1858; A. H. L. Germaine, editor.

The Rochester Daily Times was commenced January 24th, 1859, by Charles W. Hebard, editor and proprietor. It was discontinued in the following April and revived in June as THE DAILY EXPRESS. It was published by Mr. Hebard until May, 1860, when it passed into the hands of C. D. Tracy & Co., by whom it was published until 1866, when Wilder, Tracy & Co. assumed its publication and continued until 1868, when it passed into the hands of Tracy & Rew, its present publishers.
THE JOURNAL OF THE HOME, a monthly, connected with the Home for the Friendless, is published at Rochester. Mrs. Dr. Arner is the present editor.

The Industrial School Advocate and Soldiers' Aid was started in 1864. It was published monthly and edited by Miss R. B. Long. In 1865 it took the name of THE INDUSTRIAL SCHOOL ADVOCATE, under which title it is still published by the Industrial School Association. It is edited by Mrs. J. M. Parker.

THE EARNEST CHRISTIAN, monthly, is published at Rochester by Rev. B. F. Roberts, editor and proprietor.

THE ROCHESTER DAILY CHRONICLE was started September 12, 1868, by the Rochester Publishing Association; it is edited by Charles S. Collins. Weekly and semi-weekly editions are issued from the same office.

THE HOSPITAL RECORD is published by the managers of the City Hospital.

The Brockport Recorder was commenced in 1828, by Abiathar M. Harris. It was published about two years.

The Brockport Free Press was published in 1831, by Harris & Hyatt, and in 1832 by Thomas H. Hyatt.

The Western Star was published at Brockport in 1832, by Justin Carpenter.

The Monroe Chronicle and Brockport Advertiser was published in 1833.

The Atlas was published at Brockport in 1835, by D. D. Wait.

The Brockport Watchman was published in 1844, by E. F. Bridges.

The Brockport Weekly Journal was commenced in September, 1852, by William Gardiner & Co. It was published about one year.

The Brockport Gazette was commenced Oct. 1, 1855, by Wm. Haskell, and continued three months.

THE BROCKPORT REPUBLIC was commenced in January, 1857, by Horatio N. Beach, the present publisher.
The Jeffersonian was published at Clarkson in 1830, by Balch.

The Honeoye Standard was published at Honeoye Falls in 1839, by Garry A. Hough, and subsequently by Harris & Vedder.

The School Visitor was published at Spencerport for several years previous to January 1st, 1869, when it was united with the Genesee Farmer.

HONEOYE FALLS FREE PRESS, (monthly) published by S. Francis Joy, was started in 1852.

The Public Works of the County are important and quite extensive. The Erie Canal extends east and west through the County, near the center. It crosses the Irondequoit Valley upon the highest embankment upon the whole line. At Rochester it crosses Genesee River upon an aqueduct built of Onondaga limestone. The Genesee Valley Canal intersects the Erie Canal at Rochester and extends southerly, following the valley of the river, and opens into the Allegany River at Olean, near the Pennsylvania line. The New York Central R. R. extends through the County, several of its branches radiating from Rochester. The direct branch east extends along the Erie Canal, through Brighton, Pittsford and Perinton, to Syracuse. The Auburn branch extends south-east, through Brighton and Pittsford, to Auburn and Syracuse. The Buffalo branch extends south-west, through Gates, Chili and Riga, and the Niagara Falls branch extends west, through Gates, Greece, Ogden and Sweden. The Genesee Valley Railroad extends south from Rochester, through Brighton, Henrietta and Rush. The Canandaigua & Niagara Falls branch of the New York Central R. R. extends through Rush and Mendon, and the Rochester and Charlotte branch extends from Rochester, north, to the lake shore.

The territory now forming Monroe County was a part of the hunting grounds of the Seneca Indians, although it contained none of their principal villages. The region was frequently visited by French missionaries and explorers, but no permanent settlements were made until after the Revolution. The County was embraced in the Phelps and Gorham Purchase. The colonial charter of the State of Massachusetts embraced an indefinite amount of territory included between
certain degrees of latitude and extending from the Atlantic to the Pacific Ocean. The charter of the State of New York, granted subsequently, embraced a portion of the same territory. This gave rise to a conflict of claims, which was continued for several years. The claim of Massachusetts to that part of New York which was settled previous to the Revolution appears to have been relinquished without any serious contest, but when the struggle for Independence was over, when there was no longer fear of a foreign foe, the fertile lands of "Western New York were deemed of sufficient importance to justify a struggle for their possession. Each State asserted its claim upon the ground of law and equity. At length the contest was settled by a convention of commissioners appointed by the parties, held at Hartford, Connecticut, on the 16th of December, 1786. According to the terms of the settlement, Massachusetts surrendered to New York all claim to the sovereignty and jurisdiction of all territory lying west of the east boundary of the State of New York, and the State of New York granted to Massachusetts the right of pre-emption to the soil of all that part of the State lying west of the meridian passing through a point upon the south border of the State, eighty-two miles west of the north-east corner of Pennsylvania, except a strip of land one mile wide, lying along the whole length of the east bank of Niagara River. It now remained for Massachusetts to purchase from the Indians the possessory title to this vast territory, embracing about six millions of acres. In 1788 Oliver Phelps and Nathaniel Gorham, of Massachusetts, purchased of that State all the land ceded by New York, agreeing to pay three hundred thousand pounds in the consolidated stocks of the State of Massachusetts, which were then at a discount of more than fifty per cent. The immediate advance in the value of these stocks rendered Messrs. Phelps and Gorham unable to fulfill their contract, and they relinquished to the State all of their purchase except what was purchased of the Indians at a treaty made at Buffalo Creek in July, 1788, and subsequently called the Phelps and Gorham Purchase. At this treaty the Indians were disposed at first to sell a portion of their territory, but were determined to make the Genesee River the western boundary. The treaty was finally consummated; the east boundary was the Massachusetts pre-emption line; the west boundary was a meridian passing through a point at the junction of Canas-
craga Creek and Genesee River to the Pennsylvania line, and northerly from this point, along the Genesee, to a point two miles north of Canawagus village, thence due west twelve miles, thence northerly to Lake Ontario, so as to be twelve miles distant from the Genesee, embracing about 2,600,000 acres. The tract west of the Genesee, about twenty-four miles long and twelve wide, was called the Mill Tract. Messrs. Phelps and Gorham explained to the Indians the great benefit that would arise from having a mill at the Genesee Falls, and in consideration of this they sold this tract west of the river for a mill yard. Their surprise at the sight of the mill when erected can easily be imagined. The sum which Phelps and Gorham agreed to pay the Indians for the whole purchase was five thousand dollars and an annuity of five hundred dollars forever. Preparations were immediately made for the survey of the tract, which was laid out in ranges six miles in width, numbered from east to west, and into townships numbered from south to north. It will be seen from this that most of the country west of the Genesee belonged to the Mill Yard Tract. The three towns upon the west border belonged to the Triangle Tract.

The first settler was Ebenezer Allan, a notorious Tory, who settled upon the flats, upon Allan's or Oatka Creek, near the present village of Scottsville. He kept a large stock of cattle and had sometimes fifty or sixty acres of land under cultivation. He erected mills at the present site of Rochester in 1788-9, having received from Phelps and Gorham one hundred acres of land for that purpose. He was an Indian trader and also received cattle, stolen by Butler's Rangers from the settlers upon the Mohawk and Susquehanna, and after keeping them upon the river until they became good beef, drove them to Fort Niagara and Canada, where they commanded a high price. He subsequently removed to Canada. A man by the name of Walker, one of Butler's Rangers, located at the mouth of the Genesee, on the east side, and lived there in a log cabin for several years, but finally returned to Canada. An early map of all this region, engraved in London, has upon it no sign of any habitation on the lake shore between Oswego and Niagara, except the picture of a log cabin at the mouth of the Genesee, and underneath it the word Walker's. In 1789 John Lusk, of Massachusetts, purchased fifteen hundred acres at the head of
Irondequoit Bay, and with his son Stephen, then fifteen years of age, and Seeley Peet, a hired man, commenced a settlement, erecting a log cabin and clearing twelve acres which he sowed to wheat. They all suffered from fever and ague and returned to Massachusetts in the fall. In the spring of 1790 Mr. Lusk came on with his family and settled permanently. In December, 1789, Peter Shaeffer, the elder, and his sons, Peter and Jacob, came to Wheatland, where they found Ebenezer Allan the owner of 470 acres of the finest land in that region, about sixty of which were under cultivation, for which they paid $2.50 an acre, which was a high price at that time. At this time Allan was living with a white woman, who was joint partner in his affections with some half dozen natives. Settlements progressed slowly down the river, and in other parts of the County the land was covered by a dense forest, and the low lands sent forth such a miasma as caused a great deal of sickness, ague and bilious fever prevailing to such an extent that in some communities there were not well ones enough to take care of the sick.

The only roads were Indian trails until better ones were made by the settlers. An Indian trail extended from the mouth of the river to Fort Niagara, along near the lake shore. Another trail was along the west bank of the river, from Canawagus to the mouth of the river. Peter and Jacob Shaeffer laid out a road from Oatka Creek to the Falls, in 1792; they had no compass, but took ranges from trees. It was improved and the streams bridged with logs so as to be passable with teams, in the winter of 1793-4. A constant intercourse was kept up between the Indians upon the river and the British at Fort Niagara and in Canada. A majority of the Indians inclined to the British interests and the idea was constantly inculcated by Governor Simcoe, of Canada, that the British would soon want their aid against the United States. Sometimes the Indians were menacing and insolent, engendering a feeling of insecurity among the settlers, which was not entirely allayed until the surrender of Fort Niagara. When the British held Oswego and Fort Niagara a mail was carried between these points, by water in the summer, and by a runner in the winter, traveling on snow shoes.

In April, 1797, all the region between the Genesee River and Lake Erie was organized into a separate town of Ontario County, called Northampton. The first town meeting was
MONROE COUNTY.

held at the house of Peter Shaeffer. Josiah Fish was chosen Supervisor and Eli Granger, Town Clerk. There were only three road districts, and these were on the river, between Canawagus and Lake Ontario, no road leading into the interior. In 1799 fifty dollars were raised for town expenses, and a like sum, payable in labor or produce, for the erection of bridges. Peter Shaeffer was Town Collector in 1800, and had upon his tax roll less than one hundred and fifty names, many of these being the names of non-residents. The whole tax was about $8,000, less than $200 of which was paid by residents. In 1801 it was decided that "from the extensive boundaries of the town it is necessary that it should be divided." The records of 1802 show that settlements were progressing westward. The town meetings were still continued at the house of Peter Shaeffer, and Col. Fish was continued Supervisor, but the pathmasters were extended over a wide range of territory. Abel Rowe was a pathmaster in what is now the town of Greece; Asa Utley, near Scottsville; Daniel Buell, at LeRoy; James McNaughton, at Caledonia, and Ezekiel Lane, at Buffalo. In 1803 the towns of Leicester, Batavia and Southampton were erected from Northampton, and Elijah Kent, R. M. Stodard, Samuel Tupper and John Thompson were appointed commissioners to fix the boundaries of these four towns.

The first general election for all the region west of Genesee River was held in April, 1800. For Congress, Thomas Morris received 37 votes. There were three candidates for Members of the Assembly; Nathaniel Norton received 37 votes; Lemuel Chipman, 25, and "William Dunn, 10. The first road recorded was that from Braddocks Bay to the distillery of Stephen Peabody, on the river, a short distance below Shaeffer's. The second road was from the landing below the Falls to the landing above Allan's mill. Another road was laid out from the "mouth of the river to Canawagus, thence to the east bounds of Peter Campbell's lot at the upper end of Scotch Settlement." Col. Josiah Fish, the early Supervisor of the town of Northampton, was from Windham, Vermont. In the spring of 1795, with his son Libbeus, he came on and commenced a settlement at the mouth of Black Creek, on land previously purchased. He hired his team work of Shaeffer and put up a log hut, broke a few acres of the open flats, and after planting it, went down to board with a man by the name of Sprague, who was in charge of Allan's
mill. The bill of fare, according to the son, was "Raccoon for breakfast, dinner and supper, with no vegetables; and upon extra occasions, cakes fried in raccoon oil." Such fare, with the fever and ague, was not calculated to excite great enthusiasm for the new country. Col. Fish returned to Vermont, and in April came on with his family to their new home on Black Creek, living in the cabin erected the previous year, without door, floor, window or chimney. In November Col. Fish took charge of the Allan mill and moved down to the Falls, where he occupied a board shanty for cooking, having their sleeping rooms in the mill. They had for neighbors Messrs. Hencher and Hosmer, at the mouth of the river, and soon after a family of Atchinsons, at Braddock's Bay. Col. Fish remained in charge of the mill until 1804, when he went upon his farm. In 1807 he sold out and moved upon the Ridge, near Parma, where he died in 1811. In 1804 John Swift, Grover Smith and John Ellis were appointed Commissioners to lay out a road four rods wide from Salina, Onondaga Co., to the north-west corner of Galen, in Wayne Co., thence through Palmyra and Penfield, to a point near the mouth of the Genesee River, the expense to be paid by the counties through which the road passed. In 1810, Micah Brooks, Hugh McNair and Matthew Warner were Commissioners for laying out a road from Arkport, on the Canisteo River, to Charlotte, on Lake Ontario, at the mouth of the Genesee. In 1812 the bridge across the river at Rochester was completed; it was the only place where the stream could be crossed, between Avon and the lake. In 1813 the Legislature appropriated $5,000 to clear a road and build bridges on the Ridge. The mail was brought from Canandaigua on horseback, sometimes by a woman. In 1815 Samuel Hildreth, of Pittsford, commenced running a stage and carrying the mail twice a week between Canandaigua and Rochester, a distance of twenty-eight miles. The same year a private weekly mail route was established between Rochester and Lewiston, the proprietor receiving the income of the post offices for his trouble. In 1816, General Micah Brooks, Member of Congress from western N. Y., whose district included all west of Seneca Lake, introduced into the House a resolution inquiring "as to the expediency of establishing a post route from Canandaigua, via Rochester, to Lewiston." In 1810 DeWitt Clinton passed through this region on an exploring expedition for a canal. In his journal
he says: "We crossed the Gerundegut at Mann's Mills. We arrived at the tavern at Perrins, in the town of Boyle, (now Perinton) 21 miles from Canandaigua, four and a half from Irondequoit Landing, and fourteen from Charlotteburgh. A vessel of thirty tons can go to the head of this from Lake Ontario. The sign of the tavern contains Masonic emblems and is by S. Felt & Co. Felt is in the landlord's employ, and the object of the masked sign is to prevent debtors from avoiding him." "We drew lots for choice of beds, and it turning out in my favor I chose the worst bed in the house. I was unable to sleep on account of fleas." He speaks of eating "the celebrated white fish, salted, it is better than shad and costs at Irondequoit Landing $12 per barrel." From this point he went to the "Ford of the Genesee, about one and a half miles from the Great Falls and seven and a half from the lake." "An excellent bridge of uncommon strength is now erecting at this point. We took a view of the upper and lower falls, the first is 97 feet and the other 75 feet." This bridge, it will be remembered, was the first one erected at Rochester and was not completed until 1812.

The war of 1814 created great excitement in this County and greatly retarded immigration to this section. In May, 1814, Sir James Yeo, with a fleet of thirteen vessels, appeared off the mouth of the Genesee River, threatening to land and destroy the settlements. All the able bodied men in the vicinity were called out to defend the infant settlement from the invading foe. Rochester could raise only 33 men able to bear arms; but collecting the men from adjacent towns, they threw up a breast work near Deep Hollow, called "Fort Bender," and hastened to the lake shore. Two old men and a few boys were left behind to remove the women and children to the woods in case the British should land and destroy the town. Isaac W. Stone was the Major and Francis Brown and Elisha Ely were the Captains. They marched and countermarched to make their number appear as large as possible to the British. At length an officer with a flag of truce was dispatched from the fleet, and a militia officer with ten men was detailed to receive it at Light House Point. In order to be ready for any emergency, the valiant soldiers advanced with muskets cocked and fingers on the triggers. The British officer was greatly astonished at this and said to the officer in command: "Sir, do you receive a flag of truce
under arms with cocked triggers?" "Excuse me, excuse me, sir, we backwoodsmen are not well versed in military tactics," replied the American officer, and to atone for his want of courtesy, immediately ordered his men to ground arms. This astonished the British officer still more, and delivering his message, he returned hastily to the fleet, being very suspicious that the ignorance was feigned and designed to bring the British into a snare. In the afternoon of the same day another flag of truce was sent, and Capt. Brown was detailed to receive it. The officer looked suspiciously upon the Captain and his guard, and then grasping his pants about the knee, said: "Your cloth is too good to be spoiled by such a bungling tailor." Brown replied that he "was prevented from dressing fashionably that morning, by his haste to salute such distinguished visitors." The British officer proposed that if the Americans would give up the provisions and military stores in and around Rochester and Charlotte, Sir James Yeo would spare the settlements. "Blood knee deep, first," was Brown's laconic reply. While this parley was going on, an American officer with his staff returning from Niagara was seen passing from one wooded point to another, confirming the suspicion that a considerable army was at this point, and that the ignorance was feigned to entice the British ashore. After the return of the flag of truce a vigorous bombardment was commenced by the fleet, and the forest was thoroughly shelled for a few hours without doing the Americans any damage. It was replied to by an old six pounder, burnished up for the occasion. The fleet then ran down to Pulteneyville, sixteen miles distant, where they learned how they had been outwitted by the Yankees.

After the close of the war, settlers came in rapidly and a great business began to develop itself in Rochester, the influence of which was felt throughout the County. The completion of the Erie Canal and the construction of railroads gave an impetus to business that has steadily advanced until Monroe is among the first counties in wealth, population and everything that contributes to make it desirable as a residence for the business man or the man seeking retirement where he can enjoy the fruits of a busy life.

When the news of the fall of Fort Sumter and the call of the President for 75,000 men reached Monroe County and was published in the newspapers of Rochester, on Monday, April 15, 1861, every loyal heart beat with emotion and re-
solved that the insult to the flag should be avenged at whatever cost of life and treasure. The City Council of Rochester unanimously pledged their support to the Nation's cause, and appropriated $10,000 to defray immediate contingent expenses and also fitted up a building for barracks. A public meeting was held at which addresses were made and resolutions adopted, and within one week not less than one thousand men had volunteered to serve their country in putting down the Rebellion. A subscription was started for the benefit of the families of volunteers, which in a few days amounted to over $40,000. Prof. Isaac F. Quinby, of the Rochester University, a graduate of West Point, entered at once upon the work of organizing a regiment. On the 3d of May nine companies from this County left for Elmira, where they were united with one company from Livingston County, forming the Thirteenth New York Volunteers. A beautiful stand of colors was presented by the ladies of the County, and on the 29th of May they departed for Washington under command of Isaac F. Quinby, Colonel; Carl Stephan, Lieutenant Colonel, and Oliver K. Terry, Major. This regiment, with the Twelvth N. Y., passed through Baltimore on the 30th, being the first volunteers that reached that city after the attack on the Massachusetts Sixth. The regiment was in the battle of Bull Run, and out of 600 engaged, lost twelve killed, twenty-six wounded, and twenty-seven missing. We have not space to follow the regiment in all its campaigns during the two years of its service, nor have we the data to show how many from this County volunteered in the service of our country during the war. Let it suffice to say that Monroe County promptly responded to the various calls and was not behind the foremost in furnishing men and means to sustain the Government until the Stars and Stripes floated triumphantly from every fortress and from every State in our Union.
BURKE, FITZSIMONS, HONE & CO.,
Importers, Jobbers and Retailers
OF
DRY GOODS AND FANCY GOODS,
AND MANUFACTURERS OF
WOOLEN GOODS,
No. 53 Main Street,
AND
Nos. 1, 3, 5, 7 and 9 North St. Paul Street,
ROCHESTER, N. Y.

Having established the most extensive Dry Goods House in the State outside of New York City, we can offer advantages to buyers of Dry Goods unequalled by any other dealers in the country. We import directly and keep constantly on hand full lines of
Broche and Paisley Shawls; Pim Bros. Genuine Irish Poplins,

Geneeese Falls Cassimeres, "our own make;" Mohair and Cashmere Dress Goods;
Shaker and Ebenezer Flannels; White, Scarlet and Opera Wool Flannels;
Damask Table Cloths and Towelings; Napkins, Doylies and Wine Cloths;
Linen Sheetings and Pillow Casings;
3-4, 4-4, 5-4, 6-4, 7-4, 8-4, 9-4, 10-4, and 11-4 Cotton Sheetings;
French, American & Scotch Gingham; English, French & American Calicoes.
Woolen and Cotton Yarns; Blankets, Quilts and Counterpanes;
Real Laces and Embroideries; Swiss Nainsook and Victoria Muslins;
Fancy Goods and Yankee Notions; Ribbons and Trimmings; Hosiery,
Wrappers and Drawers; Balmoral and Hoop Skirts; &c., &c., &c., &c., &c.

Our Jobbing business, which now extends from the Eastern portion of the State to the "Far West," offers inducements to city and country Merchants equal to any house in the United States. In addition to our advantages as Manufacturers and direct Importers, we have the sale of several makes of Brown Cottons and Woolen Mills in this locality.

Price Lists and Samples furnished on application, and orders sent by mail or entrusted to our agents, will receive prompt attention, and Dealers can rely upon purchasing of us the year around

At New York Jobbers' Prices.
BRIGHTON was formed from Smallwood, March 25, 1814. The original town of which this was a part was organized April 6, 1806, under the name of Boyle, and embraced the six towns in the north-east part of the County. Penfield was taken off in 1810 and Perinton in 1812. In 1812 or 1813 the name was changed to Smallwood, and in March, 1814, it was divided into two parts, one taking the name of Brighton and the other of Pittsford. A part of Rochester was taken off in 1834 and Irondequoit in 1839. It is an interior town, lying upon the east bank of the Genesee, a little east of the center of the County. Its surface is gently rolling and inclines gradually towards the north. The deep valley of Irondequoit Bay is on the north-east border. Its streams are small brooks flowing into the Genesee and Irondequoit. The soil is a sandy loam in the east and a clay loam upon the river. Near the center are extensive beds of gypsum, formerly yielding a large amount of that article. Gardening is extensively carried on and vegetables to a large amount are furnished for the Rochester market. Several extensive nurseries are located in this town.

Brighton, (p. v.) situated in the north-east part of the town, contains a church, a hotel and about 30 houses. It is a station on the canal and the "N. Y. C. R. R., where the two branches from the east unite.

The Glen & Hall Manufacturing Company have extensive works near this village for the manufacture of thrashing machines, horse powers and grain drills.
Samuel A. Heart has an extensive steam saw mill for the manufacture of all kinds of lumber.

West Brighton (p. v.) is near the Genesee River, south of Rochester, and contains two hotels, a wagon shop, two blacksmith shops and about twenty houses. Near this place are located the Monroe County Penitentiary, Alms House, Insane Asylum, Mount Hope Cemetery and several manufactories. The Monroe County Fair Ground of twenty acres is located in this vicinity.

The large Glue and Neats Foot Oil Manufactory of Loder & Chapin is located on the Genesee River, about a mile above Rochester.

The first settlement was made by John Lusk, of Massachusetts, who purchased 1500 acres at the head of Irondequoit Bay and came on in 1789 and made a beginning, but did not remove his family to this place until the spring of 1790. The township was Number 13 of the 7th Range, and was sold to Gen. Hyde, Prosper Polly, Enos Stone, Job Gilbert and Joseph Chaplin.

It is probable that Mr. Lusk was one of the original purchasers. He, with his son Stephen and his hired man Seely Peet, came to Schenectady, where they put a small stock of provisions upon a bateau in charge of Mr. Lusk, while the son and hired man came by land, driving some cattle. They followed the Indian trail via Onondaga Hollow and Skaneateles, some of the way having little more than blazed trees for a guide. They crossed Cayuga Lake on a raft, their cattle swimming. At Canandaigua Mr. Lusk joined them, and constructing an ox sled they made their own road to their place of destination. They erected a log cabin, cleared twelve acres which they sowed to wheat, procured from Ebenezer Allan upon the Shaeffer farm. While here they saw none of their own race except the surveyors of the township. In the spring of 1790 Mr. Lusk moved his family from Massachusetts, coming all the way from Schenectady to the head of Irondequoit Bay by water. His sons, Stephen and Erastus, came on foot, with Enos Stone and others.

Orange Stone, a son of one of the original proprietors of the township, with his family, Joel Scudder and family, Chauncey and Calvin Hyde and Timothy Allyn were among the other settlers who came in 1790. Mr. Allyn erected a log cabin on a tract of 500 acres, on the creek which bears his name, and lived alone during the summer, when he sold
out and left. Orange Stone located a little east of Brighton village.

Several of these settlers, with others in other towns, united together and started a drove of cattle and hogs to this new country. Stephen Lusk, Jacob Lobdell and Adams were the drivers. From Utica they traveled about twenty-five miles a day, camping at night. They crossed Cayuga Lake on Durham boats, the passage requiring four days. Their provisions fell short, and from Thursday morning until Sunday night they were without food. They were nearly famished on their arrival at Geneva, where their wants were supplied.

Oliver Culver, from Orwell, Vt., and Samuel Spafford, were early settlers of the town. They came out on foot in March, 1796. At Irondequoit Landing they found Asa Dunbar, a mulatto, with his family, the only occupants of the place. They remained here several weeks, when a large company, consisting of the proprietors of the newly purchased Connecticut lands in Ohio, with their surveyors and two families, came up the lake in five boats, on their way to survey the land and commence a settlement. Culver and Spafford joined the expedition. The party landed upon the present site of Cleveland. Mr. Culver was migrating back and forth for several years, but at length became a permanent resident of Brighton. In 1798 Judge John Tryon, of Lebanon Springs, became the owner of a tract of land about three miles above the Bay, where he erected a store and warehouse and called the place "Tryon's Town." Augustus Griswold, the agent of the proprietors, came on with five sleigh loads of goods, and in the fall a boat load was brought from Schenectady, the freight upon which was three dollars for 112 pounds. Asa Dayton kept an inn at this place about the same time, and Stephen Lusk started the tanning and shoe making business soon after. The store at this place doing business under the firm name of Tryon & Adams, was the first one west of Canandaigua. A large part of its business consisted of barter for furs and peltry with the Indians, and white trappers and hunters. An ashery and a distillery were added to the store soon after. For several years there was quite a thriving village at this place, but the shipping business finally went to the mouth of the Genesee, rival stores sprung up in other places, and in 1810 Mr. Griswold left, and a few years later there remained scarcely a trace of the
GAZETTEER OF TOWNS.

"City of Tryon." For several years it was supposed that this would be the great commercial point of this region. In 1802 a log school house was erected, and a Mr. Turner, who had been a clerk in Tryon & Adams' store, became the first teacher. Ira West was the first merchant and Silas Losea, the first blacksmith. John and Solomon Hatch and Oliver Culver built the first saw mill, on Allyn's Creek, in 1806. About the same time Oliver Culver, Orange Stone, George Dailey, Samuel Spafford and Miles Northup cut out a road two rods wide from Orange Stone's to the river, a distance of four miles. In 1811 Mr. Culver built the schooner Clarissa, of 47 tons, and drew it to the landing with twenty-six yoke of oxen. He afterwards built three other schooners and put them upon the lake. In 1822 he built a packet boat at Brighton, the first built as far west as that, and the fourth one that was built on the canal. Rev. Solomon Allen, of Northampton, Mass., preached the first sermon and was the first settled minister.

The population of the town in 1865 was 3,590; its area is 14,218 acres.

It contains nine school districts, employing eleven teachers. The number of the school population is 1,292; the number attending school, 770; the average attendance, 300, and the amount expended for school purposes during the year ending September 30, 1868, was $3,540.10.

CHILI was formed from Riga, February 22, 1822. It is an interior town situated upon the west bank of Genesee River, south-west of the center of the County. The surface is level or gently rolling and inclines slightly towards the east. Black Creek flows east through the town near the center. The soil is a clay loam mixed with sand. South of Black Creek are several peculiar gravelly knolls, one of which, called "Dumpling Hill," is near the river.

Chili, (p. v.) in the north part, contains a church and about 20 dwellings.

North Chili (p. v.) is a station on the N.Y. C. R. R. and contains a church, a hotel and about 25 or 30 houses. A fine building for the public school has recently been erected.

Clifton, (p. v.) in the south-west part, contains a church, a saw and grist mill, a store, several mechanic shops and about 40 dwellings.
South Chili is a hamlet in the southern part.

The first settlement was made in the east part of the town in 1792, by Joseph Morgan. Andrew Wortman came in 1794, and Stephen Peabody and Col. Josiah Fish and his son Libbeus, from Vermont, came in 1795. Morgan's; farm joined Sheaffer's. Mr. Peabody erected a distillery on the Morgan farm a few years afterwards. Col. Fish purchased a farm at the mouth of Black Creek in 1795, and erected a log cabin which he employed the Indians to cover with bark. In April, 1796, he came on with his family. His cabin was a sorry place for a family, being nothing more than a piece of bare earth inclosed by logs and covered with bark. There was neither door, floor, window or chimney, but these were soon constructed after the most approved pioneer style. Among the other early settlers were Jacob Widener and his sons Jacob, Abraham, William and Peter; Joseph Carey, Lemuel and Joseph Wood, Samuel Scott, Joshua Howell, Benj. Bowen, John Kimball, and families named Sottle, Dillingham and Franklin, all settling previous to 1800.

The first birth in the town was that of a child of Joseph Wood, in 1799. The first death occurred in the family of Joseph Morgan. James Chapman kept the first store, in 1807, and Joseph Carey built the first mill.

The population of the town in 1865 was 2,242; its area is 20,774 acres.

There are eleven school districts, employing the same number of teachers. The number of the school population is 646; the number attending school, 489; the average attendance, 205, and the amount expended for school purposes during the year ending September 30th, 1868, was $4,062.56.

Clarkson, named from Gen. Clarkson, an extensive landholder, who gave 100 acres to the town, was formed from Murray, Orleans Co., April 2, 1819. Union (now Hamlin) was taken off in 1852. It lies on the west border of the County, north of the center. Its surface is level with slight undulations in the south. It is drained in the northeast by Salmon and Little Salmon Creeks. The soil is a sandy loam mixed with clay.

Clarkson, (p. v.) in the south part of the town, contains two churches, a hotel, several stores and mechanic shops and about 300 inhabitants.
East Clarkson, (p. v.) in the south-east corner, contains a church and about 20 houses.

West Clarkson, in the west part of the town, contains about 30 houses.

The first settlement was made at Clarkson in 1809, by James Sayres, Moody Truman and Elijah Blodgett. David Forsyth and Deacon Joel Palmer, from Connecticut, came in about the same time. In 1810 Eldridge, John and Isaac Farwell came in and settled a short distance west of Clarkson village. Doctor Abiel Baldwin, from Saratoga, located in the town in 1811.

The first male child born was a son of Mrs. Clarkson; the first female child born was Betsey Palmer, in 1812. Charlotte Cummings taught the first school, in 1812. The first store was kept by Henry McCall about the year 1810.

The population of the town in 1865 was 1,843; its area is 20,774 acres.

There are ten school districts, employing eleven teachers. The number of the school population is 644; the number attending school, 477; the average attendance, 204, and the amount expended for school purposes during the year ending September 30, 1868, was $3,188.92.

Gates, named in honor of Gen. Horatio Gates, was formed March 30, 1802, as Northampton. Its name was changed June 10, 1812. Parma and Riga were taken off in 1808, and Greece in 1822. It is near the geographical center of the County. The surface is undulating with a gentle inclination towards the north. Genesee River forms a part of the boundary on the south-east corner. It is drained by several small streams. The soil is a fine quality of calcareous loam, intermixed with clay. The people are engaged extensively in agriculture, raising a large amount of fruit and vegetables for the Rochester market.

Gates is a post office about a mile north of Gates Center. Gates Center contains about a dozen houses with a blacksmith and wagon shop.

Cold Water (p. o.) is a station on the N.Y. C. R. R.

West Gates is a hamlet.

The east part of Gates is quite thickly settled and is destined ere long, to become a part of the city of Rochester.
An effort was made daring the last session of the Legislature to annex it, but failed. The population is from 800 to 1,000. There is a German Catholic Church and a school in connection with it.

The first settlement was made in 1809, by Isaac Dean, from Vermont. John Sickles and Augustus B. Shaw came in the same year. Among the other early settlers were Ezra Mason, Eichard, Paul, Philip, Lisle and Lowell Thomas, all of whom came into the town in 1817, or previous to that time. William Williams settled here in 1819.

The first child born in the town was a daughter of Ezra Mason, in 1818. Ira West kept the first store and Isaac Dean erected the first mill.

As that part of Rochester west of the river originally belonged to Gates, the early settlements of the town are now included in that city.

Some of the other settlers whose names have not been mentioned are Joshua Beaman, who settled on the farm he now occupies in 1811; he is now 74 years of age. Charles Graves came into the town the same year.

The population of the town in 1865 was 2,783; its area is 13,329 acres.

There are nine school districts, employing the same number of teachers. The number of the school population is 1,191; the number attending school, 616; the average attendance, 238, and the amount expended for school purposes during the year ending September 30, 1868, was $2,259.64.

**GREECE** was formed from Gates, March 22, 1822. It lies near the center, on the north border of the County. Genesee River forms its east boundary and Lake Ontario the north. The surface is gently rolling with a slight inclination towards the lake. It is drained by several small streams which flow into the bays that indent the shore. There are six of these bays, and their names, beginning at the west, are Braddocks Bay, and Cranberry, Long, Buck, Round and Little Ponds. They are of little importance in a commercial view on account of the changing sandbars at their mouths. The soil of the town is a clay loam with large tracts of drift sand along the lake shore.

**Charlotte,** (p. v.) in the north-east corner, near the mouth of the river, is a U. S. port of entry in the Genesee District, and the lake port for Rochester, seven miles above. It con-
tains two churches, a light house, a ship yard, a steam mill for sawing and dressing lumber, a large establishment for the manufacture of iron and a population of about 500. The Royal Mail Line of Steamers, running from Montreal to Hamilton, stop at this place. Steamers also run from this place to Colborne, Coburg, Port Hope and other Canadian ports.

West Greece, (p. v.) on the line of Parma, contains two churches, a store, a hotel and about 30 dwellings.

North Greece (p. v.) contains a church, a hotel, a carriage shop and about 20 dwellings.

South Greece (p. v.) contains a church, a store, a wire weaving establishment and about 25 dwellings.

Greece (p. v.) contains a church, a hotel, a carriage shop and 20 houses.

Hanford's Landing, (p. v.) in the south-east corner, at the head of navigation on Genesee River, contains two hotels, several mechanic shops and 25 dwellings.

Greece Center and Read's Corners are hamlets.

The first settlement was made at the mouth of the Genesee, by William Hencher and family, in 1792. Mr. Hencher was a native of Brookfield, Mass. He was engaged in "Shay's Rebellion," and took refuge from the authorities in the wilds of Western New York. He first located at Newtown Point, but in 1791, with his son William, he went to the mouth of the Genesee River, where he found Walker, the Ranger, living in a log hut on the east side of the river. Having decided to settle at the mouth of the river he erected a log cabin on the west side, cut wild grass at Long Pond for the stock which they intended to bring on, and returned for the family, having in the meantime laid in a stock of fever and ague which lasted most of the following winter. In February, 1792, upon ox sleds, he and his family started for their new home. They came via Seneca Lake and Catherine's Town to Irondequoit, where the road terminated. From this point they cut their own road to the Genesee Falls, and thence down the river on the east side to Walker's, where the family remained until the last of March, when they crossed over and took possession of the first house erected upon the lake Bhore between the Genesee and Fort Niagara. The family consisted of the parents, one son and seven
daughters. Mr. Hencher cleared a few acres and soon commenced a brisk traffic with boatmen, emigrants and Indians, who frequented this region. He carried on quite an extensive trade in fish and other articles, upon which he made large profits. He purchased 600 acres of land which he paid for twice, the first title proving defective, and supported a large family. Some of the hogs brought here by Mr. Hencher became wild and were a match for all other animals wild or tame that inhabited the country. One boar became so powerful that he was alone more than a match for a bear or for all the dogs in the settlement. Dens of rattle snakes were all along the banks of the river below the Falls. In the spring, when warm weather first commenced, they would come out and lie in the sun so torpid that multitudes of them could be killed in a very few hours. They would go upon their summer rambles and return on the approach of cold weather. On one occasion several settlers assembled together and went up the river on a hunt, killing 300 rattle-snakes in one day.

John Love settled here in 1793. Messrs. Hencher and Love, on one occasion, went to Sheaffers, near Scottsville, and purchased some corn, took it to the old Allan mill, ground it themselves, carried it on their backs to a point a short distance above Hanford's Landing, where they made ropes of bark and let it down into a canoe. Game was very abundant. Braddock's Bay was a famous place for trapping otter, mink and muskrats, while geese and ducks were so abundant that their eggs could be procured in any desirable quantity.

Zadoc Granger and Gideon King settled at the Lower Falls in 1796. The place was formerly called King's Landing, now Hanford's Landing. In 1796-7 there was quite an accession to the population, consisting of Eli Granger, Thomas King, Simon King, Elijah Kent, Frederic Bushnell and Samuel Latta. In 1799 Eli Granger and Abner Migells built a schooner at the Landing; it was the first merchant vessel built by Americans on Lake Ontario. Frederic Hanford kept the first store in 1810, it was the first one on the river between Avon and the lake. Silas O. Smith opened a store at the Landing the same year, but in 1813 removed to the village of Rochester, which was just attracting the attention of settlers.
In 1810 DeWitt Clinton passed through this town, with others, looking for a route for a canal. He says in his journal: "We dined and slept at Hanford's tavern, who is also a merchant and carries on a considerable trade with Canada. There is a great trade between this country and Montreal in staves, potash and flour." He says the exports this season (1810) were 1,000 barrels of flour, 1,000 barrels of pork, 1,000 barrels of potash and over 100,000 staves.

In 1798 Bradford and Moses King, Dr. Stone, Graham, and four brothers by the name of Rowe, settled in the neighborhood. The country was very sickly, and many deaths occurred. Asa Rowe died soon after coming in and his brothers were so sick at the time as to be unable to go for help to lay him out and bury him until he had been dead twenty-four hours. After recovering from their sickness they returned to Oneida County. The first settlers procured their first boards by repairing the old Allan saw mill at the Falls, but within a few years Nathaniel Jones built a saw mill on a small stream that flows into the river near the Landing. Dr. Zacheus Colby and Dr. Sylvester Atchinson were early physicians in this town. The first marriage was that of Thomas Lee and a daughter of William Hencher.

The Atchinsons, from Connecticut, settled at Braddock's Bay at a very early period. Bezaleel, Stephen and John, were there as early as March, 1796. They came from Naples, via Canawagus, crossing the river on the ice. At the Allan mill they found a hunter whom they hired to pilot them to the Bay, not having the benefit of marked trees. They were three days in making their journey. On their arrival they made a shelter of the boards from their sleds and some blankets, in which they lived six weeks until they could build a log cabin without boards, nails or glass. They started from Naples with four oxen, lost one on the way and two soon after their arrival, leaving only one ox for all their team work. With this ox they logged eight acres and prepared it for summer crops. Michael Beach had settled there the previous year. George Goodhue, Silas Leonard, Timothy Madden and their families, settled in the town within a few years after the Atchinsons. Mr. Leonard went to the salt works in Onondaga Co. the next winter to chop, and was killed by the fall of a tree. Jonathan Leonard, his son, afterwards married a daughter of William Hencher. Like other early settlers in this region they suffered greatly from...
sickness. Money was scarce and nothing but cattle could be sold for cash. Mrs. Bezaleel Atchinson lived eight months without seeing a white woman. Indians often came to the Bay to hunt, trap and pick cranberries. Salmon were abundant and large quantities of them could be taken in a short time. Beavers were here when the settlement commenced but soon disappeared.

The population of this town in 1865 was 4,400; its area is 30,559 acres.

There are 17 school districts, employing 19 teachers. The number of the school population is 1,535; the number attending school, 1,138; the average attendance, 543, and the amount expended for school purposes during the year ending September 30, 1868, was $6,290.00.

**Hamlin** was formed from Clarkson, as Union, October 11, 1852. The name was changed in 1861. It is the north-west corner town of the County, Lake Ontario forming its north boundary. Its surface is slightly rolling and inclines towards the lake. It is drained by a number of small streams flowing into the lake, the principal of which is Sandy Creek. The soil is a sandy, clayey and gravelly loam. Salt was manufactured to a limited extent by the early settlers.

**Hamlin, (p. v.)** situated in the south part of the town, contains about 40 houses.

**North Clarkson (p. o.)** is a hamlet.

**Kendall Mills,** near the south-west corner, partly in Orleans County, is a hamlet.

The first settlement was commenced in 1810, by Aretus Haskell. Josiah and Samuel Randall, from Maine, settled in the town the same year. In 1811 Stephen Baxter and John Nowlan came in, and—Strunk settled at the mouth of Sandy Creek. Alanson Thomas and a man by the name of Billings settled in the town soon after. The town belonged to the Triangle Tract and was not settled as early as many other towns. Messrs. LeRoy, Bayard and McEvers were the purchasers of this tract of Robert Morris. But few settlers came in until the close of the war.

The first death was that of Mrs. Strunk, in 1812. A. D. Raymond kept the first inn, and Daniel Pease the first store. Alanson Thomas built the first mill for LeRoy & Bayard.
A Fourierite community was organized and located at the mouth of Sandy Creek, in 1843, by Doctor Theller, who was quite conspicuous during the Canadian Patriot War. It proved a failure.

The population of the town in 1865 was 2,392; its area is 26,387 acres.

There are 15 school districts, employing the same number of teachers. The number of the school population is 821; the number attending school, 675; the average attendance, 303, and the amount expended for school purposes during the last year was $4,340.20.

HENRIETTA was formed from Pittsford, March 27, 1818. It is an interior town, lying south of the center of the County. Genesee River forms its western boundary. The surface is rolling and the soil is a fertile argillaceous loam. The streams are small and most of them dry in summer.

East Henrietta, (Henrietta p. o.) in the east part of the town, contains two churches, the Monroe Academy and about 200 inhabitants.

West Henrietta, (p. v.) situated south-west of the center of the town, contains a church, a steam saw mill, a manufactory of agricultural implements and about 40 dwellings.

The first settlement was made in 1806, by Jesse Pangburn and Warren and Lyman Hawley, in the west part of the town. Major Isaac Scott received 900 acres in the southwest part of the town, for military services, and in 1790 attempted to make a settlement but abandoned it in 1792. In 1806 Charles Rice, William Thompson, Thomas Sparks, Moses Goodall, George Dickinson, Selah Reed and Gideon Griswold settled in the town. The next year Ira Hatch, Jonathan Russell, Benjamin Hale and a family by the name of Baldwin settled on what was called the Wadsworth road. In 1809 the Spring family settled near the center. Charles Baldwin located here in 1809 and has lived in the town longer than any other man. He is 75 years old. In 1811 Jacob Brininstool, Isaac F. Nichols and James McNoll settled in the town. The last named was killed at Fort Erie, in 1814. Ebenezer Ketchum came in 1810. He cut the timber from the site of East Henrietta in 1811. George L. Beckwith settled in the town in 1815.
Sarah Leggett taught the first school, in 1809; James Smith kept the first store and Jonathan Smith built the first saw mill.

Garrett Kindlan, a resident of this town, is 103 years old, retains his faculties remarkably well and can walk ten miles. He has never employed a doctor.

The first church (Bap.) was organized in 1811.

The population of the town in 1865 was 2,207; its area is 21,651 acres.

There are eleven school districts, employing the same number of teachers. The number of the school population is 645; the number attending school, 482; the average attendance, 228, and the amount expended for school purposes dining the year ending September 30, 1868, was $3,951.16.

**Irondequoit**, named from the Bay which the Indians called *Neo-da-on-da-quat*, was formed from Brighton, March 27, 1839. It lies upon the north border of the County, east of the center. Irondequoit Bay lies upon the east, Lake Ontario on the north and Genesee River on the west. Its surface is rolling, with an inclination towards the lake in the north part and towards the deep valley of Irondequoit Bay in the east. The streams are small and flow into the lake and the bay. The soil in the north is sandy and in the south a clay loam.

Irondequoit, (p. v.) near the center of the town, contains about a dozen houses. A thickly settled suburb of Rochester, in the south-west part of the town, contains about 50 houses.

The first settlement was made by William Walker, in 1791. He was one of Butler's Rangers and settled at the mouth of the Genesee, where he remained until his departure for Canada. He hunted, fished and carried on a considerable traffic with boatmen. John Parks, and a mulatto family by the name of Dunbar, were among the first after "Walker. Dr. Hosmer, Elisha Scudder, Emmer Reynolds, Jesse Case and Adonijah Green came in and settled here at an early day. Oliver Culver, who spent a few weeks here in 1796, speaks of Dunbar as the only settler in the place.

On the shore of the lake, near Irondequoit Bay, the high bank caved off, revealing a large quantity of human bones, much larger than those of our own race. Mr. Culver also
speaks of finding a large quantity of lead balls and flints, while excavating for a storehouse. The remains of a battery were also found on a knoll on the bank of the creek.

Elisha B. Strong settled at Carthage, in 1817. The year previous he and Elisha Beech purchased 1,000 acres of land in that vicinity. Caleb Lyon had commenced operations here and a few shanties had been erected. It was destined to become the city of Western New York, but, like a great many others, its projectors failed to realize their anticipations. The best lands in the region were valued at five dollars an acre, and the prices ran from that down to half a dollar. Mr. Strong was one of the company who erected the Carthage bridge in 1819. It consisted of a single arch, the chord of which was 352 feet, the versed sine 54 feet and the summit of the arch above the water 196 feet. The length of the bridge was 718 feet, its width 30 feet and it contained about 70,000 feet of timber running measure, besides 64,620 feet board measure. This immense structure across the Genesee River was warranted by the builders to stand one year; it stood one day over the time. The immense weight, pressing unequally upon the arch, threw up the center, and the whole structure fell into the river. It was seen by only one person. A suspension bridge at the same place, erected in 1856, stood less than a year.

Among the early adventures of the pioneers of this region, the following instance of cool impudence on the part of a bear is rarely equaled, even by man: Mr. Scudder was crossing the bay in a canoe, when he discovered a bear swimming towards him; not caring to take a passenger of that kind he aimed a blow at Bruin's head, missed, and the ax went overboard. The bear took no offense at the rudeness of the boatman, but got aboard and remained until the canoe reached the shore, when she marched off without even thanking the ferryman for his kindness.

John Parks, on one occasion, wounded a bear, which became so enraged as to attack him. They clinched, and after a desperate struggle, Parks killed the beast with his knife, though he was severely bitten and scratched in the encounter. He crawled several miles to the house of Mr. Hencher, where Dr. Hosmer dressed his wounds.

The population of the town in 1865 was 3,420; its area is 13,192 acres.
There are six school districts, employing seven teachers. The number of the school population is 1,615; the number attending school, 562; the average attendance, 236, and the amount expended for school purposes during the year ending September 30th, 1868, was $3,214.65.

**Mendon** was formed from Bloomfield, Ontario County, May 26, 1812. It lies upon the south border of the County, east of the center. Its surface in the north and east is rolling, and in the south-west moderately hilly. Honeoye Creek flows through the south-west corner and Irondequoit Creek through near the center. There are three small ponds in the north-west part. The soil is a clayey calcareous loam.

*See *supplement at the close of Gazetteer.

---

**See** supplement at the close of Gazetteer.
place was first visited by Methodist Itinerants in 1797. Men named Smith and Wicks were among the first, and soon after ministers named Scull and Talburt, from Philadelphia, preached here. Mr. Norton and Jacob Young, his son-in-law, were among the first members of the society. Their house of worship was a log one erected by Mr. Norton for a dwelling and afterwards given up for church and school purposes. This house was occupied for several years until a frame building was erected, where they continued to worship for several years. On the 21st of February, 1820, the society was first organized under the statute of the State as the "First M. E. Chapel in Mendon," with Francis Smith, John Sines and Eldrich York, Trustees. A subscription for a new church was immediately started, people subscribing grain, work, lumber, live stock, whisky, &c., each contributing what he had. The church was finished and dedicated in 1821. In 1833 the Genesee Annual Conference held its session in this church, Bishop Hedding presiding. The church edifice has undergone extensive repairs several times, the last in 1864. The society has been a prosperous one and now numbers about 200 members.

The population of the town in 1865 was 2,959, and its area is 23,353 acres.

There are twenty school districts, employing the same number of teachers. The number of the school population is 944; the number attending school, 819; the average attendance, 419, and the amount expended for school purposes during the year ending September 30, 1868, was $6,375.84.

OGDEN, named in honor of William Ogden, was formed from Parma, January 27, 1817. It is an interior town, lying west of the center of the County. The surface is level or gently undulating, with a slight inclination towards the north. The streams are small, forming the head branches of Sandy, Salmon and Little Black Creeks. The soil is a fine quality of calcareous and clayey loam. It is one of the best wheat growing towns in the County.

Spencerport, (p. v.) in the north-east part of the town, on the canal and railroad, contains four churches, a hotel, a general merchandise store, two groceries, several mechanic shops, a grist mill, a saw mill and about 600 inhabitants.
Adams Basin (p. v.) is a station on the N. Y. C. R. E. and the Erie Canal, in the north-west part of the town, and contains a church and about 30 houses.

Ogden Center contains a church and about 30 houses.

Ogden is a post office in the south-west part.

The first settlement of the town was made by George W. Willey, from East Haddam, Conn. Abraham, Ephraim, Isaac and Timothy Colby came in the same year. Each of the Colbys lived until his death upon the farm upon which he first settled. In 1803 and 1804 William H. Spencer, Josiah Mather, Jonathan Brown, Henry Hahn, Daniel Wandle, Benajah Willey, Benjamin Freeman, Daniel Spencer and Col. Eastman Colby, a brother of those before mentioned, settled in the town. The last named was an officer in the war of 1812. Dr. John Webster came to this town in 1803. He was the father of Stephen and Alvin Webster, now living in the town. Judge William B. Brown and Daniel Arnold came in 1805, and Austin Spencer in 1808. These settlers were all from Connecticut. Among the other early settlers were Stephen Gridley, who came from Oneida County in 1811. He cleared his farm and resided upon it until his death in June, 1861. He was married to Miss Sarah Kirkland in 1810, and they celebrated their Golden Wedding, December 10th, 1860. Mrs. Gridley is still living, at the age of 82. Samuel Kilburn came from Broome County, in 1813. He was one of the early Supervisors of the town. He had a family of nine children, all of whom died of consumption. William Hiscock, from Schenectady County, came in 1817, Ansel Chapman, in 1814, and Aaron Robinson, in 1817. Joseph Niles, from Albany County, settled in Sweden, in 1815, and in 1827 came into Ogden. David Spencer, from Connecticut, settled in 1804, on the site of the village of Spencerport. A. Spencer settled in 1808, and J. P. Patterson in 1810. Mr. Patterson was the first Supervisor of the town, and after the organization of Monroe Co. was Sheriff.

The first religious meeting was held in 1805; the first settled minister was Ebenezer Everett; the first physician was Gibbon Jewett.

The first male child born in the town was John M. Colby, son of Abraham Colby, in 1803; he died in 1830. The first female child was Betsey Colby, daughter of Ephraim Colby, in October, 1803. She is now Mrs. Fincher. The first death
was that of Mrs. G. W. Willey, in 1803. The first school was taught by Miss "Willey, in 1807. George Huntley kept the first inn; Charles Church, the first store, and William H. Spencer built the first saw mill. He brought his mill irons from Connecticut with an ox team. The first preacher was Rev. Daniel Brown, in 1807, and the first church (Presb.) was organized in 1811.

The population of the town in 1865 was 2,791; its area is 21,841 acres.

There are 14 school districts, employing 16 teachers. The number of the school population is 1,020; the number attending school, 742; the average attendance, 345, and the amount expended for school purposes for the year ending September 30, 1868, was $4,789.10.

**Parma** was formed from Northampton, now Gates, April 8, 1808. Ogden was taken off in 1817. It lies upon Lake Ontario, west of the center of the County. The surface is level in the north and gently rolling in the south, with a slight inclination towards the north. The principal streams are Salmon, Little Salmon, Buttonwood and Long Pond Creeks. The soil is principally a gravelly loam, intermixed in places with sand and clay. Several weak salt springs exist south of Unionville.

Parma Corners (Parma p. o.) is situated upon the Ridge Road, in the south part of the town, and contains a church, an academy and about 100 inhabitants.

Parma Center, (p. v.) near the center of the town, contains two churches and about 100 inhabitants.

Unionville, situated north of the center, contains two churches and about 150 inhabitants.

North Parma is a post office in the north part.

The first settlement was made in 1794, by Bezaleel Atchinson and his sons, Stephen and John, from Tolland, Conn. They settled in the north-east part, near Braddock's Bay. Among the other early settlers were Michael Beach, Silas Leonard, George Goodhue and Timothy Madden, who name in and settled in 1802; Jonathan Underwood, Gibbon Jewett, George Huntley, Abner Brockway, Jr., James Egbert and Jonathan Ogden, in 1805; Hope and Elisha Downs, in 1809; Augustus Mather, Lendell Curtiss, Samuel Castle and
Kinnicome Roberts came in and settled in 1810, and Joshua Whitney, in 1811.

The first marriage was that of Captain Jonathan Leonard and a daughter of William Hencher. Alpheus Madden taught the first school, in 1804; J. Thompson kept the first store, and Hope and Elisha Downs the first inn. The first mills were erected by Jonathan Whitney. The first town meeting was held in 1809; Gibbon Jewett was chosen Supervisor, and Justin Worthington, Town Clerk. The first church (Bap.) was organized May 27, 1809.

The population of the town in 1865 was 2,936; its area is 25,128 acres.

There are 16 school districts, employing 16 teachers. The number of the school population is 1,099; the number attending school, 909; the average attendance, 413, and the amount expended for school purposes during the year ending September 30, 1868, was $4,485.16.

**PENFIELD,** named in honor of Daniel Penfield, an extensive landholder during the early settlement, was formed from Boyle, March 30, 1810. Webster was taken off in 1840. It lies upon the east border of the County, north of the center. The surface is rolling and much broken in the western part. Irondequoit Bay enters the north-west corner, and Irondequoit Creek flows through the south-west corner and forms a part of the west boundary. The creek falls about 90 feet in the village of Penfield, affording a valuable water-power. The other streams are small brooks. The soil is drift sand over argillaceous loam.

*Penfield, (p. v.)* situated in the south-west part, on Irondequoit Creek, contains three churches, viz., Baptist, Presbyterian and Methodist; a hotel, a paper mill, a grist mill, several stores and mechanic shops, and about 50 dwellings.

*Lovett’s Corners, (East Penfield p. o.)* in the south-east part, contains a F. W Baptist church and about a dozen dwellings.

*Penfield Center (p. o.)* is a hamlet.

General Jonathan Fassett, of Vermont, was the original purchaser of Phelps and Gorham of this township. In company with his son Jonathan, Caleb Hopkins, —— Maybee and others, he attempted to make a settlement in 1791 or
1792, but sickness and other hardships to which they were exposed, caused Gen. Fassett to abandon the enterprise and return to Vermont. Hopkins and Maybee remained. Gen. Fassett located at the old Indian Landing, on the east side of the bay, about two miles below the present village of Penfield. A town plat was surveyed and laid out in lots and then abandoned. He soon after sold out his interest to Gen. Silas Pepoon, who sold to Samuel P. Lloyd, and soon after it passed into the hands of Daniel Penfield. Mr. Maybee came from the Mohawk, by water, to Palmyra, and then mounted his bateau on wheels and cut his own road to Penfield. Libbeus Ross and Calvin Clark settled in the town in 1801. As early as 1804 Josiah J. Kellogg, Daniel Stilwell, Benj. Minor, Jonathan and David Baker, Isaac Beatty and Henry Paddock came in and located in different parts of the town. Daniel Penfield, for whom the town was named, did not settle here until 1810.

The first birth was that of a child of Mrs. Fiske, and the first death was that of Benjamin Stilwell, in 1804. Joseph Hatch taught the first school; Daniel Stilwell kept the first inn, in 1806, and William McKinster the first store. The first mills were built by Daniel Penfield. The first church was organized about 1806, and consisted of fifteen members. It was Congregational at the time of its organization, but adopted the Presbyterian form of government in 1814.

The population of the town in 1865 was 3,059; its area is 22,420 acres.

There are twelve school districts, employing the same number of teachers. The number of the school population is 952; the number attending school, 825; the average attendance, 305, and the amount expended for school purposes during the year ending September 30, 1868, was $4,315.47.

PERINTON, named in honor of Glover Perrin, the first settler, was formed from Boyle, May 26, 1812. It is the south town on the east line of the County. Its surface is uneven, a ridge from the south-east terminating near the center. Turk Hill, in the south part, is the highest land in the County. The town is drained by the head waters of Irondequoit Creek and its branches. The soil is a sandy loam.

Fairport (p. v.) is situated a little north-west of the center of the town, on the Erie Canal and the N.Y. C. R. R., and
contains five churches, a hotel, a saleratus factory, a sash, door and blind factory, a grist mill, several other mills and mechanic shops and about 1,000 inhabitants.

Bushnell's Basin, (p. v.) in the west part, on the canal, contains a church, a hotel, a grocery and about 200 inhabitants.

Egypt, (p. v.) in the east part, contains a church and about 20 houses.

Fullam's Basin is a hamlet on the canal.

The first settlement was made in 1793, by Glover Perrin. Jesse Perrin came in and located in 1794; Abner Wright in 1795. William Walker, the local agent for Phelps and Gorham, purchased this township, and his brother, Caleb Walker, moved in and erected a log cabin; Perrin accompanied him. Asa and Edward Perrin, Levi Treadwell, Major Norton, John Scott, John Peters and Gideon Ramsdell came in soon after.

The first birth was that of Asa Wright, in 1797. Glover Perrin kept the first inn; Gregory and Dean the first store, and Richard Lincoln built the first grist mill. Rev. Crane preached the first sermon.

The population of the town in 1865 was 3,209; its area is 20,827 acres.

There are twelve school districts, employing thirteen teachers. The number of the school population is 997; the number attending school, 782; the average attendance, 382, and the amount expended for school purposes during the year ending September 30, 1868, was $3,659.68.

PITTSFORD was formed from Smallwood, March 25, 1814. Henrietta was taken off in 1818. It is an interior town, lying east of the center of the County. The surface is undulating, with a gentle inclination towards the north. Irondequoit Creek flows through the north-east, and Allyn's Creek through the west part. The soil is sandy in the north and clayey and gravelly in the south.

Pittsford, (p. v.) situated on the Auburn Branch of the N. Y C. R. R., and the Erie Canal, was incorporated in 1827 and contains six churches, viz., Presbyterian, Baptist, Methodist Episcopal, Free Methodist, Dutch and Episcopal; a number of hotels, stores and mechanic shops, and about 700 inhabitants.
Irondequoit Mills is a hamlet in the east part of the town. The first settlement of this town was commenced in 1789, by Israel and Simon Stone, Silas Nye, Joseph Farr, Alexander Dunn and Daniel Davis, from Washington County. They settled near the center of the town and were followed soon after by Thomas Clelland, Ezra Patterson and Josiah Girnison. A large part of this town was purchased by Messrs. Simon Stone and———Dodge, for an association, many of whom became permanent settlers. William Acer, Israel Canfield and Benjamin Miller located in the town at an early day. Orrin Stone, a son of Simon Stone, settled in the town in 1791, and is now said to be the oldest pioneer in the County. Mr. Solomon Stone was born in Pittsford in 1800, and still lives on the farm upon which he was born. He is undoubtedly the oldest inhabitant who still resides where he was born. Noah Norton settled in the town on the farm now occupied by Wm. Thornell, and erected the first framed house in the town, about 1795. Mr. Wm. Acer came in and settled in 1791 on the farm now occupied by his granddaughter, Mrs. G. N. Fisher, of Rochester. It is known as the old David Acer Farm, and in the yard stands a tree which has sheltered five generations of descendants from the first owner.

The first school was taught in 1794, by Mr. Barrows, in a log school house situated about a mile south of the village. This house served as a place of religious worship for several years. The first marriage was that of N. Armstrong and Miss E. Cole.

The first mill was built upon the site of the present Irondequoit Mills, in the east part of the town. Mr. Stone erected a dam across this creek in 1796, and a saw mill, and in 1805 a grist mill. Mr. Stone run this mill until 1814, when he sold out to Wm. Mann, who erected a new mill, which was burned immediately after its completion. Another mill was erected which was run by Mr. Mann until his death in 1825 or 1826. In January, 1827, the property was deeded to Thomas Emerson and Richard Richardson, by James K. Guernsey, John Acer and Simon Stone, 2d, and completely overhauled, repaired and new machinery put in, and was then run as a flouring and custom mill. In 1830 Mr. Richardson became the sole owner, and still further enlarged and improved the mill. In 1858 it passed into the hands of Cavie Richardson, the present owner. It is the
only mill in the town of Pittsford. There is a farm of about 100 acres attached to the property, and a pond of twenty-five acres. Mr. Richardson has commenced the cultivation of the grape, having a vineyard of four acres of Delawares, Conords, Isabellas, Dianas and some other varieties.

The first sermon preached in the town was by a traveling missionary from Virginia, who visited them on a week day during harvest. The services were held in a barn, where all who came were accommodated. For several years no stated public worship was established. Rev. James H. Hotchkin, in his History of the Presbyterian Church, says that he preached six Sabbaths in the interval between Nov. 8th, 1801, and Feb. 1st, 1802, and this was probably the first instance in which a preacher of the Congregational or Presbyterian denomination was ever employed. In 1809 a church was organized by Rev. Solomon Allen. It consisted of ten persons, and was received into connexion with the Ontario Association.

Hartwell Carver, M. D., came to Pittsford in 1816. He is a descendant of John Carver, who came over in the May Flower. He was born in Rhode Island in 1789, and removed with his parents to Otsego County in 1794. In 1813 he became a student of Hamilton College, but soon left and went to Ithaca, where he graduated in 1816 with the degrees of A. M. and M. D., and came to Pittsford, where he commenced practice April 21st. He was in debt $2,000 on his arrival, but was so successful in practice as to clear $1500 the first year. The next year he paid his debts, built a house, kept two horses and enjoyed a lucrative practice, which continued six years. He then went to New York, took a full course of medical lectures, returned and engaged in mercantile pursuits. He has traveled extensively and engaged in various schemes of profit, and still resides in Pittsford, enjoying the fruits of an active business life. He claims to be the first who suggested the idea of a railroad to the Pacific. Though not prepared to pass judgment upon that question, it is certain that he wrote and spoke of it as entirely feasible more than thirty years ago, and labored to bring about this glorious enterprise when most people regarded it as a visionary scheme which would never exist outside of the brain of some impracticable enthusiast.

The population of the town in 1865 was 2,029; its area is 14,256 acres.
There are ten school districts, employing the same number of teachers. The number of the school population is 575; the number attending school, 494; the average attendance, 222, and the amount expended for school purposes during the year ending September 30, 1868, was $4,342.56.

**Riga** was formed from *Northampton*, April 8, 1808. Chili was taken off in 1822. It lies on the west border of the County, near the south-west corner. The surface is level or gently undulating. Black Creek, a dull, sluggish stream, flows east, in a tortuous course, through near the center. The soil is a clayey loam.

**Churchville**, (p. v.) incorporated in 1867, situated on Black Creek, in the west part of the town, is a station on the N. Y. C. R. R. and contains four churches, viz., Congregational, Methodist, Baptist and Universalist; two hotels, a manufactory of agricultural implements, a grist mill, a saw mill, several stores and shops, and about 500 inhabitants.

**Riga Center** (Riga p. o.) is situated near the center and contains a church, an academy, and about 25 dwellings.

The first settlement was commenced in 1806, under the auspices of James Wadsworth. Many of the early settlers were from Berkshire Co., Mass. Elihu Church settled on lot 94, in 1806; Amasa Frost on lot 82, where his descendants still reside, and *Wm.* Parker the same year. Nehemiah Frost, Richard and Samuel Church moved in the same year. Richard Church was the father of Elihu and Samuel Church; he settled on lot 53, and Samuel Church on lot 84; Samuel Baldwin settled on lot 81, and Henry Brewster on lot 90. The last two came on in 1806, but did not move their families until the next year. Among the other early settlers were Samuel Shepard, Ezekiel Barnes, James Knowles, Thomas Bingham, Joseph Tucker, Enos Morse, George Richmond, Joseph Emerson, and Eber and Chester Orcutt. Nehemiah Frost settled on lot 114, and Samuel Shepard on lot 113.

The first birth in the town was that of a daughter of Samuel Church; the first male child born was Hiram Shepard, son of Samuel Shepard, in 1806. The first marriage was that of Joseph Sibley and Clarissa Church, daughter of Richard Church. The first death was that of Richard Church, in 1807. Samuel Church built the first saw mill, in 1808, and
the first grist mill, in 1811, at Churchville. The first school was taught by Thomas Gay. Joseph Thompson opened the first inn, and Thompson and Tuttle the first store, in 1808.

Previous to the construction of the Erie Canal the means of transportation were so limited that only a very low price was realized for the products of the soil. Mr. Brewster in one year raised 3,000 bushels of wheat; the price was very low and he tried the experiment of transporting it to an eastern market. For this purpose he had enough ground to make seventy barrels of flour. With four sleds, to which were attached six yoke of oxen and four horses, he carried this to Northampton, Mass., where he sold it for six dollars per barrel. The oxen were also sold at a profit and the enterprise proved successful. In 1808 wheat sold in Geneva for 12 1/2 cents a bushel. One man purchased a barrel of whisky, paying for it six bushels of wheat for a gallon.

Among the mishaps of pioneer life the following is related: Elihu and Samuel Church, Amasa Frost, Samuel Shepard and their wives, with an ox sled, started on a visit to Jehiel Barnes. As they were ascending the bank, after crossing Black Creek, the rear end board came out, letting them into the water. The nearest house was two miles distant and thither they were compelled to go before any change of clothing or fire could be procured.

The first church (Congregational) was organized in the fall of 1809. Rev. Allen Hollister was the first pastor. He was ordained and installed by an ecclesiastical council two or three years after the organization of the Church, and continued pastor until sickness prevented his performing its duties.

The population of the town in 1865 was 2,141; its area is 21,009 acres.

There are twelve school districts, employing thirteen teachers. The number of the school population is 767; the number attending school, 616; the average attendance, 316, and the amount expended for school purposes during the year ending September 30, 1868, was $4,138.65.

ROCHESTER, named from Col. Nathaniel Rochester, one of the original proprietors, was taken from Brighton and Gates and incorporated as a village by the name of Rochesterville, March 21, 1827. Its name was changed April 12, 1822, and it was enlarged and incorporated as a city April
28, 1834. It is located a little north of the center of the County, upon the Genesee River, seven miles from its mouth. The surface is level or gently undulating. The New York Central R. R. track is 280 feet above Lake Ontario, and Mount Hope Ridge, the highest point upon the south border, is 440 feet above the lake. The City has a solid foundation of Niagara limestone which crops out along the river, but in other parts is covered by a deposit of drift. The Genesee flows north, dividing the City into two nearly equal parts. Its course through the City is a succession of rapids and falls, affording a very extensive and valuable water-power which is well improved for manufacturing purposes. The whole fall of the river below the south line of the City is 265 feet. The upper fall, just below the railroad bridge, is 96 feet, over the perpendicular edge of the Niagara limestone, underlaid by shale. Below this the river flows through a deep ravine, bounded by perpendicular walls, a distance of one and three-fourths miles, to the middle fall, where the water descends 25 feet. About one-third of a mile below, the water descends over a ledge of Medina sandstone, a distance of 84 feet, to the level of Lake Ontario. Several sulphur springs flow out of the rocks below the middle falls. The City is quite regularly laid out and the river is crossed by substantial bridges at Andrews, Buffalo, Court and Clarissa streets. The Court and Andrews street bridges are of iron and cost $12,000 each; the Buffalo street bridge is of cut stone and cost $60,000; upon the north side it is surmounted by a block of buildings. The streets generally are broad, well paved and bordered by side-walks, along which many trees have been planted which add greatly to the beauty of the City. The Erie Canal crosses the river on a magnificent stone structure which cost $600,000. The canal is crossed by several substantial iron bridges built by the State. The manufacturing of the City is extensive and consists of flour, which is manufactured to a greater extent than in any other City in the State; scales, safes, carriages, flour barrels, chairs, cabinet ware, machinery of various kinds, edge tools, cotton and woolen goods to a limited extent, and various other articles usually made in a manufacturing City.

The Rochester Scale Works were started in 1841, by Chauncy Duryee and Orrin Forsyth, with a small capital. Their business has increased to such an extent that they have been compelled to establish houses in different parts of the
west for the sale of their goods. They manufacture over 150 varieties of scales, besides railroad and warehouse trucks, copying presses and sugar mills. The Weigh Lock Scale at Rochester was manufactured by them and has a capacity of 400 tons. It is the largest scale in the world. They employ about fifty hands and sell their wares in all of the western and south-western States.

The Rochester Paper Company, at the Lower Falls, was established in 1864, with a capital of $175,000. They employ about 70 men and make about 400 tons annually of printing, seed and colored paper.

The culture of fruit and ornamental trees has for several years formed an important branch of industry. Hundreds of acres in the vicinity of the City are covered with nurseries which are among the most extensive in the country. The commerce of the City is large and carried on by means of the canals, railroads and Lake Ontario. The exports consist of the products of the Genesee Valley and the manufactures of the City.

The population in 1865 was 50,940, and at present cannot fall much short of 70,000. There are about fifty churches, some of them very fine. Many of the business blocks and other structures are highly ornamental, being constructed of brown stone and Onondaga limestone, as well as of the more common materials. The Court House, which contains rooms for the City officers, has already been described in connection with the County.

Corinthian Hall is a substantial structure containing the Library and Reading Room of the Athenaeum and Mechanic's Association, and one of the finest public halls in the City.

The Arcade, fronting Buffalo street, is a commodious building containing the post office, telegraph offices and a variety of other offices, stores, &c. A broad promenade extends through the center, from which the various rooms open on either side. The rooms of the upper stories open upon galleries which extend the entire length of the building above the main promenade on either side.

The Central Railroad Depot is one of the finest buildings of the kind in the State. It contains accommodations for the various offices, passengers, &c, and for cars which arrive on the various roads centering there. The roof is supported by iron.
The City is not wanting in literary institutions, the most important of which are the Public Schools. They are under the control of a Board of Education, consisting of two members from each ward and a Superintendent appointed by the Board. The schools are graded and the course of instruction embraces all studies, from the primary to those of a first class academy. Most of the school buildings are commodious structures and well adapted to the accommodation of the pupils. The number of teachers employed, according to the last annual report, is 124; the number of children, between the ages of 5 and 21 years, is 23,365; the number attending school, 9,761; the average attendance, 5,298. The expenditures for the last year amount to $79,878.43. About $60,000 of this was for teachers' wages. There are a large number of private schools and academies in the City, many of which are in a flourishing condition.

The Rochester Collegiate Institute was established in 1854 and is still in a flourishing condition.

De Graff's Collegiate Institute was opened Sept. 1, 1868, with twenty-five students. The number rapidly increased until it amounts to 100. The military discipline and the thorough course of instruction render it one of the best in the City.

The University of Rochester was incorporated in January, 1850, and is under the patronage of the Baptist denomination. The buildings occupy a site of twenty-one acres, on University Avenue, in the east part of the City. Two courses of study are pursued, a Classical and a Scientific, each extending through four years. There are over 8,000 volumes in the library and the geological and mineralogical cabinets embrace over 40,000 carefully selected specimens, collected during extensive foreign travel and visits to the most fruitful localities in South and North America. The number of students in attendance, according to the last catalogue, was 116. The number of graduates since the institution has been in operation, is 392.

The Baptist Theological Seminary occupies a commodious building near the site of the University. It is well endowed, possesses a good library and other facilities for a first class institution.

The Rochester Athenæum and Mechanics Association was organized in 1849 by a union of the two societies, the former
of which was founded in 1830, the latter in 1836. It occupies commodious rooms in Corinthian Hall for the Library of about 17,000 volumes, and the Heading Room, which is furnished with the principal publications of the country.

The Rochester Home for the Friendless was organized in 1855, and has for its object the relief of homeless and indigent females. It is managed by seven Trustees and thirtyDirectresses. The Journal of the Home is a periodical published by the society.

There are several orphan asylums in the City in connection with which are schools.

St. Patrick's Female Orphan Asylum was established in 1844 and is now providing for 90 orphans. A day school in connection with it numbers 160 pupils.

The number of pupils enrolled in St. Mary's Asylum, between Sept. 1, 1868, and January 1, 1869, was 143; Rochester Protestant Asylum, 62.

The Industrial School, established for idle and vagrant children, is connected with the School Department of the City.

The Western House of Refuge, for juvenile delinquents, a State institution, is located on a farm of forty-two acres, about one mile and a quarter north of the central part of the City of Rochester, on a slight elevation, between the Erie Canal on the west, and the road leading to the mouth of Genesee River on the east. Six and one-half acres are surrounded by a stone wall twenty-two feet in height, within which are all the buildings belonging to the institution except the barns. Twenty acres are inclosed by a stockade fence nine feet high, formed of cedar posts connected together by iron rods. This inclosure and some six acres besides are under constant cultivation. The grounds within the walls are tastefully laid out into walks, play grounds and lawns, and ornamented with trees and shrubbery, which add greatly to the beauty of the place and to the comfort of the inmates. The entire front of the buildings is three hundred and eighty-two feet, and the height from three to four stories. There are rooms arranged for all the various operations to accommodate five hundred inmates. The institution was established in 1849 for the reformation of juvenile delinquents.
From the Superintendent's Report we learn that the number of inmates present Jan. 1, 1868, was 484. Number received in 1868 was 160. Number returned in 1868 was 29. Total number in 1868 was 673. Number discharged in 1868 was 258. Number present Jan. 1, 1869 was 415.

The ages of the inmates range from seven to eighteen, there being one of each of these ages, but the average age is thirteen; by far the largest number are from twelve to fifteen. Of the whole number committed during the year, 123 were for petit larceny. Forty-eight had no fathers, and twenty had no mothers. The products of the farm are valued at $2,417.16. The labor received from the inmates during the last year was valued at about $20,000. Total expense of the institution, exclusive of labor of inmates, about $40,000. The Superintendent says of the inmates: “The great majority of them are ignorant, indolent and guilty of crime. Hence they are required to attend school and to labor, receiving proper moral and religious instruction during the week and on the Sabbath. "We have here three fine school rooms, where they attend school from two and a half to three hours daily, under the instruction of eight teachers, two male and six female. Many of them make as good progress in school as the majority of pupils in our public schools. That they may acquire habits of industry, all are required to labor daily from seven to eight hours. The length of time is subject to modification, making a distinction in favor of the younger boys. They have been employed for some years and are still employed at chair making, brush making and shoe making, at which the most of them acquire the expertness of men.”

Mount Hope Cemetery is located in Brighton, near the south line of the City, upon the highest land in the vicinity, and completely overlooking the City. From a tower erected upon its summit, a fine view of the surrounding country and of Lake Ontario is obtained. The grounds are laid out in good taste and are ornamented by some fine monuments, rendering it one of the finest rural cemeteries in the country. St. Patrick's and St. Joseph's Cemeteries are smaller, but exhibit many marks of good taste and beauty in their arrangement.
The first settler upon the present site of the City was Ebenezer Allan, a notorious Tory, sometimes called Indian Allan. In 1788 or 1789 he built a mill on what has since been called the "Hundred Acre Tract," which he received from Phelps and Gorham as a consideration for erecting the mill. Allan erected a saw mill at first, and soon after a grist mill. The latter was of heavy timber, 26 by 30 feet. This was a formidable structure for those times and required the assistance of all the able bodied white men in the Genesee Valley to raise it. Fourteen were all who could be rallied, and for two days they labored diligently to erect the structure that was to furnish them some better means of obtaining meal than the old stump mortar. While engaged in this laudable work, a trading boat entered the mouth of the river, and from its crew some rum was procured with which they made merry and had a dance in the mill. Allan after a few years sold out to Williamson, agent for the Pulteney Estate. Christopher Dugan, a brother-in-law of Allan's, took charge of the mill for several years, as will appear from the following letter, supposed to be the first business letter ever written on the site of the City of Rochester:

"Falls of Genesee, Aug. 9, 1794.

"The mill erected by Ebenezer Allan which I am informed you have purchased, is in a bad situation, much out of repair and unless attention is paid to it, it will soon take a voyage to the lake. I have resided here several years, and kept watch and ward without fee or recompense, and am pleased to hear that it has fallen into the hands of a gentleman who is able to repair it, and whose character is such that I firmly believe he will not allow an old man to suffer without reward for his exertions. I wish to have you come or send some one to take care of the mill, as my situation is such as makes it necessary soon to remove. I am sir, with respect your most obedient, humble servant

Christopher Du'gan."

Charles Williamson, Esq.

The mill was afterwards in charge of Sprague. In 1796 or 1797 Col. Josiah Fish took charge of the mill and remained in charge of it until 1804. The mill went to ruin and there was no other at this place for several years. An Englishman by the name of Maude passed through this place in 1800 on a tour from New York City to Niagara Falls. He
was on horseback and accompanied by a servant. He says in his journal: "As Col. Fish, the miller, had not those accommodations which I expected, not even a stable, I was obliged to proceed to Mr. King's, at the Landing, where I got a good meal on wild pigeons, &c. Mr. King is the only respectable settler in this township, in which there are at present twelve families, four of whom have established themselves at the Landing."

Aaron Burr visited the place in 1795 and made a critical survey of the Falls. In 1797 Louis Philippe, and his two brothers, then in exile, visited the place in company of Robert Morris.

In 1802 Nathaniel Rochester, William Fitzhugh and Charles Carroll, of Maryland, purchased 300 acres, including the One Hundred Acre Tract, for $17.50 per acre, and in 1812 caused it to be laid out for settlement. In 1807 Charles Harford erected a grist mill, the first after the old Allan mill. It was located near the site of the Phoenix Mills. It was a rude affair, but was better than none. Enos Stone visited the place in 1794 and subsequently purchased a tract of land on the east side of the river, south of Main street. He did not remove to this place until several years after.

In 1810 the citizens of Pittsford, Perinton and other towns in the vicinity, petitioned the Legislature for a bridge across the Genesee at this point, and Mr. Stone went to Albany to use his influence in its favor. The measure was strenuously opposed on the ground that a bridge was unnecessary; there was one at Avon, twenty miles distant, which was sufficient for the whole region. One of the grave Solons of the Legislature declared that "It was a God-forsaken place, inhabited by muskrats, visited only by straggling trappers, and through which neither man nor beast could gallop without fear of starvation or fever and ague." The measure was carried and a bridge completed in 1812, near where the present Main street bridge stands. It cost $12,000 and was erected at the expense of Ontario and Genesee counties, which then lay adjacent to the river. Previous to the erection of the bridge there was a ford a short distance below the canal aqueduct, where fatal accidents frequently occurred.

About this time Matthew and Francis Brown and Thomas Mumford purchased a tract of land north of the Hundred Acre Tract and laid it out in lots, built a mill-race and started a store. This was called "Frankfort," and had upon it, in

1812, Harford's mill and two log houses. Opposite Frankfort a tract was purchased and laid out by Samuel I. Andrews and Moses Atwater. The farm of Enos Stone, on the east side of the river, south of the Andrews and Atwater Tract, was not laid out in lots until 1817.

The completion of the bridge and the laying out of the 100 acres may be regarded as properly the commencement of the City of Rochester. The first house built upon this Tract was by Hamlet Scranton, on the corner of Buffalo and State streets, the site of the Powers Block. Ira "West opened a small store of goods the same year. Abelard Reynolds located here this year and purchased two lots upon which he subsequently erected the Arcade, now owned by his son, William A. Reynolds. Mr. Reynolds was the first post master; the proceeds of the office for the first quarter were $3.42. Three houses were erected this year on the west side of the river. The land upon which the Court House, First Presbyterian Church and other buildings in that vicinity now stand, was cleared in 1813, sown to wheat and afterwards used for a pasture. During the summer of 1813 quite a number of settlers came in; among them were Elisha and Hervey Ely and Josiah Bissell. They erected a store on the corner of Buffalo and State street, opposite the Powers Block; it was occupied by "H. Ely & Co." In 1814 they erected the old "Red Mill," which stood at the west end of the bridge, and put in operation four runs of stones. This was the first mill erected for the manufacture of flour in the City. A few hundred barrels were sent this year to the troops on the Niagara Frontier. The next year a few hundred barrels were sent to Montreal and other places on the lake and the St. Lawrence, and in 1816 several thousand barrels were sent to the same markets. This was the beginning of the immense trade in flour that has since made Rochester one of the greatest flour and wheat markets in the country. Mr. Hervey Ely, whose name has been mentioned, became extensively engaged in milling and shipping. In one year he shipped 80,000 barrels of flour manufactured from his own wheat, at his own mills. In 1816 Matthew and Francis Brown completed a mill race on the west side, at the head of the Great Falls; it was 84 rods long, 30 feet wide and three feet deep. The mill races constructed during the first year after the town was laid out, occupy the same positions now though they have since been enlarged.
In 1812 Jehiel Barnard erected a building, 18 by 26 feet, which became the first tailor's shop, the first shoe maker's shop, the first school house and the first meeting house. It was erected on a lot near where the Arcade now stands. Mr. Barnard was the first tailor. Mr. Reynolds erected a house where the Arcade now stands and became the first inn keeper on the west side of the river, and erected the first frame house on the east side of the river also. Dr. Jonah Brown was the first physician; he came in 1813 and purchased a lot on Exchange street. It was very sickly and Dr. Brown was obliged to be nurse and cook as well as doctor, as whole families were sometimes sick. Col. Isaac Stone kept a tavern on the east side of the river, the bar room floor of which was usually so well occupied at night by lodgers that Dr. B., who was often called there to attend the sick, found it difficult to pass through the room without stepping on them. The Doctor is still living, as well as Mr. Reynolds, both of whom are enjoying the fruits of their early toil and hardships.

Mr. Enos Stone had several acres of corn on the east side of the river in 1811; an old bear commenced harvesting it, and so long as she confined herself to what she wanted to eat, she was not molested; but not satisfied with that she at length began to destroy to such an extent that means were used for her capture, when she proved to be one of the largest ever killed in this region. Game of all kinds was plenty, deer were killed in what is now the most thickly settled portion of the City. Several families of Seneca Indians wintered here as late as 1813. Some were located on St. Paul street, a little south of Atwater; others were in the south-east part of the town, near the Cemetery. A few wigwams were near where the canal crosses Buffalo street. At the last named place, in 1813, the Indians celebrated for the last time, in this place, their annual feast and its accompanying rites for the close of the year. Some of the settlers witnessed the closing ceremonies. In 1817 E. Johnson purchased 80 acres of the west side of Enos Stone's farm and laid it out into building lots. The population in December, 1815, was 331.

The first public conveyance established in Rochester was by Gideon Cobb, from Vermont, a pioneer peddler of scythes, axes, and afterwards of hollow ware. He came here in 1813, and established a public conveyance from Rochester to the
Landing. It consisted of a four ox team, with which he made the trip twice a week. He carried merchandise chiefly, and lived upon pork and beans put up once a week by Mrs. Culver. Mr. Cobb became one of the wealthiest farmers of Brighton.

In 1815 the "Genesee Cotton Manufacturing Company" was incorporated, embracing some of the most substantial of the settlers, among whom were Enos Stone, Oliver Culver, S. O. Smith, Matthew Brown, F. Bullard and \\text{ and } m. Kempshall. They contracted with Russell Smith, of Hopkinton, Mass., for 1,392 spindles and the apparatus to operate them. The machinery was put in the building erected for the purpose on Brown's Race, and was the first cotton mill west of Whitestown. The first bell west of the Genesee River was put upon this building. In the spring of 1816 the mill was put in operation, the Company paying thirty cents a pound for cotton in New York, and $3.75 per hundred for transport- ation. Lamp oil was five dollars per gallon, and chalk twenty-five cents a pound. After using all the oil that could be procured of S. O. Smith, of Rochester, it was purchased in Canandaigua for $3.75 per gallon. The Company purchased pork at $35.00 per barrel and retailed to their em- ployees at 20 cents per pound. Money was very scarce, but they kept the mill running until 1818, when it all went into the hands of the Sheriff. Most of the stockholders preferred to forfeit their stock rather than pay the balance due on it. A few paid up in full for their stock, and the mill and ma- chinery were bid off for them at a nominal value. There is one cotton mill now in operation in the City.

In 1817 a village charter was granted under the name of Rochesterville, and on the tenth of June the first election of Trustees took place with the following result: Francis Brown, William Cobb, Everard Peck, Daniel Mack, Jehiel Barnard, Hastings R. Bender and Frederick F. Backus. The first fire company was organized in October the same year. In 1819 the name of the village was changed to Rochester. In 1825 the charter was amended so as to give increased powers to the Trustees. In 1834 a City charter was granted and Jonathan Childs was elected Mayor; Louis Brooks, Thomas Kempshall, Elijah F. Smith, Frederick F. Backus and A. W. Ripley, Aldermen; John C. Nash, Clerk, and E. F. Marshall, Treasurer. In 1817 the village charter embraced 750 acres; in 1834 the City included in its jurisdic-
tion about 4,000 acres. It has since been enlarged several times and must eventually occupy a much larger territory than at present. The following extract from the Inaugural Address of the first Mayor may not inappropriately be recorded in a sketch of this kind:

"The rapid progress which our place has made from a wilderness to an incorporated City, authorizes each of our citizens proudly to reflect upon the agency he has had in bringing about this great and interesting change. Rochester, we all know, has had little aid in its permanent improvement from foreign capital. It has been settled and built for the most part by mechanics and merchants whose capital was Economy, Industry and Perseverance. It is their labor and skill that has converted a wilderness into a City, and to them surely this must be a day of pride and joy. They have founded and reared a City before they have passed the meridian of life. In other countries and times the City of Rochester would have been the result of the labor and accumulations of successive generations; but the men who felled the forest that grew on the spot where we are assembled, are sitting at the Council Board of our City. Well then may we indulge an honest pride as we look upon our history and let the review elevate our hopes and animate our exertions. Together we have struggled through the hardships of an infant settlement and the embarrassments of straightened circumstances, and together let us rejoice and be happy in the glorious reward that has crowned our labors."

The first public religious services were held in 1813; they were brought about, as many other good works are, through the influence of woman. Mrs. Scranton and Mrs. Wheelock were the movers in this enterprise, while only eight or ten families were located in the place. The exercises were held in the upper part of Mr. Barnard’s tailor shop, and were conducted by Mr. Barnard and Warren Brown, and consisted of singing, prayer and the reading of a sermon. Rev. D. Brown, a Baptist minister from Pittsford, and Rev. Mr. Parmelee, a Presbyterian from Victor, held meetings here occasionally. The first church organized was Presbyterian, in 1815. It consisted of sixteen members and was at the time of its organization the only one in a tract of 400 square miles. At the organization of the Church, Oliver Gibbs, Daniel West, Warren Brown and Henry Donnelly were elected ruling elders. Rev. Comfort Williams was the first pastor, in-
stalled Jan. 16, 1816. At its organization the society worshiped in a school house, which was soon exchanged for a temporary edifice erected for the purpose.

*St. Luke's (Episcopal) Church* was organized July 14, 1817, under the name of *St. Luke's Church of Genesee Falls*, by H. U. Onderdonk. In 1820 a house of worship was erected on the site now occupied; it was presented to the society by Rochester, Carroll and Fitzhugh.

*The First Baptist Church* was organized July 13, 1818, with twelve members. Rev. Asa Spencer was the first pastor.

*The First M. E. Church* was organized Sept. 20, 1820. The first Trustees were Frederick Clark, Abelard Reynolds, Elam Smith, Daniel Rowe and Nathaniel Draper. Elisha Johnson and Enos Stone presented a site, and a house 20 by 52 feet was erected on South St. Paul street, opposite the first frame dwelling erected in Rochester.

The Roman Catholics built a church in 1823, on Platt street, near State.

The first Sabbath School was organized in 1818, with 30 scholars, and in 1819 the number was increased to 120. The school was held in the old school house which occupied the site of the present High School. In 1822 several schools were organized, but all were discontinued during the winter until 1826.

The first school in Rochester was taught by Miss Huldah M. Strong, in 1814. Enos Stone's barn was the school house, in which assembled fifteen or twenty pupils, some of whom came several miles. The school was afterwards kept in Mr. Barnard's tailor shop. Miss Strong was a sister of Mrs. Abelard Reynolds, and in 1816 became the wife of Dr. Jonah Brown. She is still living to see a City of nearly 70,000 inhabitants and more than 10,000 pupils attending school, where fifty-five years ago she was the sole teacher.

The first child born within the present limits of Rochester was a son of Enos Stone, in 1810. The first birth after the village was incorporated was a son of Abelard Reynolds.

To give the reader an idea of what were the facilities for traveling in Western New York forty-two years ago, we insert the following advertisement taken from the first Directory of Rochester, published in 1827, which may be compared with the time table of the railroads centering in Rochester at the present time:
"General Mail and Pilot Coach Office, cor. Buffalo and Carroll St., directly opposite the Eagle Tavern.

Two coaches leave this office every day for Canandaigua, Geneva, Auburn, Utica and Albany.

One every morning for Lockport, Lewiston, Niagara Falls and Youngstown.

One every morning for Avon, Geneseo, Dansville, Hornellsville, Bath and Olean Point.

One for Palmyra, Lyons, Montezuma, Syracuse, Manlius, Cazenovia, Cherry Valley and Albany, every Tuesday, Thursday and Saturday.

One for Batavia and Buffalo every Tuesday, Thursday and Saturday.

Rochester, March, 1827.

In addition to the stages the facilities for traveling were greatly increased during the summer by the packet boats. The Directory referred to says: "The Packet Boats daily arrive at and depart from Rochester, both east and west during the season of navigation, and afford excellent and comfortable accommodations. During the whole of the summer months, or from the first of May to November, the traveler is sure to meet in these boats a large company of the most respectable of both sexes, while the easy motion and rapid progress of the boat, with the opportunity of alternate reading and conversation beguile the tediousness of a long journey. These boats run night and day, and accomplish about eighty miles in twenty-four hours. The fare, including all expenses, is generally about four cents a mile."

The first railroad in the City of Rochester was operated by horse-power, and extended from the canal to the Landing below the Falls. It was in operation only a few years. The Tonawanda Railroad was commenced in 1835; it was first laid on sleepers twenty feet in length, three by four pine scantling and a two and a half inch rail spiked on it. This lasted only a short time. Several other changes occurred before the adoption of the present style of rail. Mr. L. B. Langworthy, now residing in Rochester, was the superintendent of the road at the time of its construction.

On the 8th of November, 1829, Sam Patch leaped from the summit of the main fall into the river and came up without injury. On the 13th of the same month he made his last leap
from a platform twenty feet above the summit, making the height more than a hundred feet above the point where he struck. An immense crowd had assembled upon the banks of the river to witness the feat. Patch was intoxicated, and after going through with some gymnastics and making a speech to the crowd, he made the leap and died as the fool dieth. His body was found the next spring and buried at Carthage.

Among the early lawyers of Rochester were John Mastick, Hastings R. Bender, Moses Chapin, Ashley Sampson and Vincent Mathews. Mr. Mathews was admitted to the Bar in 1790, and for several years was the oldest practicing lawyer in the State.

The early physicians were Jonah Brown, James W. Smith, John D. Henry, Frederick F. Backus, John B. Elwood, Anson Colman and O. E. Gibbs.

The following early settlers of Rochester and vicinity are still living: Dr. Jonah Brown and wife, Abelard Reynolds and wife, Col. Aaron Newton, Dr. Hartwell Carver, of Pittsford, William Brewster, Ebenezer Watts, Charles J. Hill, Preston Smith, William Wilber, John B. Elwood, Orrin Harris, Addison Gardiner and Mrs. D. R. Carter.

We are indebted to Col. Aaron Newton, Secretary of the Pioneer Association, for many facts and incidents of the early settlement of Rochester.

The population of Rochester December 1, 1815, was 331; in 1818 it was 1,049; in 1820 it was 1,502; in 1826, 7,669; in 1830, 9,269; in 1840, 20,191; in 1850, 36,403; in 1860, 48,204; in 1865, 50,940. The City is rapidly increasing in population, and cannot be much less than 70,000 at the present time.

Rush was formed from Avon, Livingston Co., March 13, 1818. It is situated near the center of the south border of the County. Its surface is rolling with a slight inclination towards the west. Genesee River forms its west boundary and Honeoye Creek, flowing west through the town, enters the river near the center of the west border. In the west part, along the river, are extensive flats. The soil is a sandy calcareous loam on the uplands and a rich alluvium on the flats.
East Rush, (Rush p. o.) situated in the east part of the town, contains a church, a hotel, a saw mill, a grist mill, a carriage manufactory, several other mechanic shops and about 200 inhabitants.

West Rush, (p. v.) on the Canandaigua and Niagara Falls R. E., contains a hotel, a mill and about 30 dwellings.

North Rush, (p. o.) about a mile west of Scottsville Station, is a hamlet.

Genesee Valley R. R. Junction is one mile west of West Rush.

The settlement of this town was commenced in 1799, by Major William Markham and Ransom Smith, from New Hampshire. Among the other early settlers were Joseph Morgan, who had previously settled on the west side of the river, and Spraker, from the Mohawk. Philip Price came from Frederick County, Maryland, in 1800, and settled about a mile from East Rush, where he remained until his death. He raised a family of six sons and one daughter, one of whom, George Price, remained upon the old homestead until his death in 1854. Jacob Stull came from Maryland the same year and located where his son, Jacob Stull, now resides. John Bell, from the same State, settled in 1802. Elnathan Perry came from Bennington, Vt., in 1806. He was a soldier in the war of the Revolution, serving three years, a part of the time under LaFayette. Thomas Daily was one of the first settlers in the town. He emigrated from Ireland in 1793 and settled in Pennsylvania, afterwards came to Genesee and then to Rush. He raised a large family, some of whom are still living in the town. Among the other early settlers were Chrystal Thomas, Joseph and Elisha Sibley. The last named were from Rensselaer County and settled in 1804.

The first birth in the town was that of a son of Joseph Morgan, in 1799, and the first deaths were those of Mr. and Mrs. Markham, in 1801. John Webster kept the first inn; Benjamin Campbell the first store, and John Webster built the first grist mill. The first settled minister was Rev. Mr. Goff, of the Baptist denomination.

The population of Rush in 1865 was 1,700; its area is 18,343 acres.

There are eleven school districts in the town, employing ten teachers. The number of the school population is 546;
the number attending school, 525; the average attendance, 266, and the amount expended for school purposes during the year ending September 30, 1868, was $5,347.25.

**Sweden** was formed from Murray, Orleans Co., April 2, 1813. It lies on the west border of the County, near the center. The surface is generally level, or gently rolling. A high ridge extends east and west through the town, north of the center. Salmon Creek rises in the south-west part and flows in an east and north-east course through the town. The soil is a clay loam.

*Brookport, (p. v.)* in the north part, is a station on the canal and N. Y. C. R. E., and contains six churches, *viz*: Presbyterian, Methodist Episcopal, Free Methodist, German Lutheran, Baptist, Episcopal and Roman Catholic; a newspaper office, a bank, State Normal and Training School, three mower and reaper manufactories, a pump factory, a carriage factory, various other manufactories and about 3000 inhabitants. The streets are regularly laid out and bordered by beautiful rows of shade trees, and lighted with gas.

The manufacture of *Mowers and Reapers* forms so important a branch of business in this village that it deserves more than a passing notice. Through the kindness of the proprietors we are enabled to place before our readers the following facts in relation to the manufacture of this almost indispensable article for the farmer by *Seymour, Morgan & Allen*:

"In the year 1845, when reaping by machinery was almost universally believed to be impracticable, and mowing machines were as yet scarcely thought of, the firm of Seymour, Morgan & Co., commenced the manufacture of the McCormick Reaper. This was the first considerable attempt at this branch of manufacture which met with any degree of success. To-day this stands the oldest manufactory of reaping and mowing machines in the world! Numerous were the difficulties they encountered; the machine was clumsy and unwieldy, the cutting apparatus very imperfect, and the most favorable circumstances were required for even a tolerably satisfactory result in the harvest field. The labor of men and horses, too, necessary to operate it, was almost insurmountable. After two or three years they threw aside the "McCormick" and commenced the manufacture of an
improved machine. The ground wheels were made larger, the gearing and cutting parts perfected, the driver and raker placed in positions convenient for their work, the side draft obviated, and other important alterations made; and they finally produced the machine that was afterward for a long time so widely known and so highly esteemed as the Seymour & Morgan, or New York Hand Raking Reaper. For the purpose for which it was designed, this machine has unquestionably never been equaled.

"The labor of discharging the grain from any reaper by hand is severe, however, and at the season when reapers are used, labor is difficult to be obtained and commands exorbitant prices. Automatic raking was the next important point to be gained after having established the fact that reaping could be done by machinery. Almost simultaneously, Mr. Vm. H. Seymour and Mr. Aaron Palmer commenced experiments in this direction about 1848 or '9. For several years the "Seymour & Morgan" and "Palmer & Williams" Self-Baker were made at two establishments in Brockport, while every other manufacturer of reaping machines in the country declared it "could not be done". To-day every such manufacturer in the country pretends to have a good self-rake, while every one that has any great measure of success and adaptability to general work, pays a patent fee to the Company owning the combined patents of Seymour & Morgan and Palmer & Williams. In 1860 the two machines were consolidated, and the result of their combined patents—together with many purchased from other parties—were put into one machine, at which time they perfected the combination of a complete mower with the self-raking reaper. From the time when this new machine, which is called the "New-Yoker," was perfected, which was in 1862, this Company have crowded their large factory to its full capacity, and found ready sale for all they could produce. The combined machine is of five feet cut, rather wider than other combined machines, and yet of easy draft for one span of horses. In 1866 they first made the "New Yorker" single reaper of six feet cut, which being on larger divider wheel and somewhat lighter frame, draws as easily as the combined machine. This Self-Bake and this Self-Baking Beaper took the Gold Medal 1st Prize over all other self-rakes and self-raking reapers which were entered at the Great National Field Trial in Auburn, in 1866. The combined machine
also received a second prize of twenty-five dollars. At all the great trials of the world this Rake has been triumphant. Geneva National Trial, 1857; Bloomington, Ill. State Trial, 1854; Hamburg World's Trial, 1863; Paris World's Trial, 1867, &c., &c. In 1867 the present proprietors of this establishment, Seymour, Morgan & Allen, were obliged to greatly enlarge their factory and add to their power and machinery. They found it necessary, in the fall of 1868, to again enlarge. They added 16,000 square feet of floor, and proportionate machinery, &c., &c, to their already immense establishment, so that now when they have completed the contemplated enlargement of their foundry, they can turn out a machine every twelve minutes ready to go into the field.

"To estimate the saving of labor this factory has made to the country is not an easy task, but some idea of it can be formed when we consider that each machine, with a team, which, in the old system of operation would have been running idle in the pasture, and a driver, who may be a lad of fourteen, or a female, can cut at a low estimate four times as much grain or grass in a day as can be done with a scythe or cradle, leaving either in much better condition, and that the yearly production of this factory is counted by thousands, and that the machines made here will average six to twelve years of successful operation, some idea can be formed of the immense army of laborers this factory supplies."

Johnston, Huntley & Co. have a large establishment for the manufacture of Johnston's Self-Baking Reaper and Johnston's Cycloid Mower.

"This Reaper is made expressly for harvesting grain. It is perfectly adapted to gathering, cutting and delivering, either in gavels or a continuous swath, wheat, rye, barley, oats, buckwheat, clover, timothy seed and sowed corn. It gathers the worst pieces of lodged grain perfectly clean without the extra labor of carrying the swath. It cuts the shortest and thinnest of grain and saves it all; and it may be left either in bundles or in large bunches, and the bunches in rows. This machine is of the most simple construction, strong and durable. It has no side draft, no bearing down on the necks of the horses, and turns at the corners as readily as a cart. The rakes perform the work of gathering or reeling, and in a much more perfect manner than the ordinary
reel, from the fact that all are provided with teeth that catch hold of the grain and bring it up to and brush it back from the cutters, thus preventing clogging and running over the grain. It is the only self-raking reaper, cutting a six feet swath that can be easily handled by one span of horses, the draft being less than the lighest mowers having four feet cut. The machine is so constructed that it may be set to cut stubble at any hight, from three to eighteen inches, and the driver, while passing along, can, by a lever at the side, raise or lower the cut to suit standing or the worst conditions of lodged grain."

The proprietors of this establishment removed from Syracuse in March, 1868, and have been compelled to enlarge their works during the last year to double their former capacity, and should the demand for their machines continue to increase in the same ratio they will be compelled to greatly enlarge their works next year. The works now cover an area of about three acres. One building is 160 by 40 feet, and another 160 by 45 and three stories high. In addition to these there are a blacksmith shop and other outbuildings. They employ about 100 hands.

*The Little Giant Mower and Reaper* is manufactured by H. W Seymour, and for a low priced machine is unsurpassed. It meets the demands of a class of farmers better than any other machine. Mr. Seymour also manufactures Pease's *Patent Rotary Force Pump*, which is a favorite with brewers, distillers, &c. These pumps are of various sizes and capacities and admirably adapted to various uses where a powerful pump is required.

*State Normal and Training School*, late Brockport Collegiate Institute, occupies a beautiful site, commanding a view of the village and the surrounding country. The edifice is constructed of dark Medina sandstone, and is in the Norman style of architecture. It is 300 feet long and consists of a main or central building, 50 by 60 feet, and two wings, each 40 by 75 feet, to which have been added two transverse wings, each 50 by 84 feet. The central building is four stories high and the wings each three stories above the basement. The grounds embrace six acres, finely shaded and laid out with gravel walks. The design of the school is to furnish teachers for the public schools of the State, thoroughly trained for their profession. It consists of a Nor-
mal and a Training School. The object of the Normal School is to provide a thorough drill in the primary and academic studies, conducted in accordance with the most approved methods of teaching. The object of the Training School is to test the ability of pupil teachers to reproduce the drill they have received in the Normal School. A competent Board of Instruction is employed, at the head of which is Charles D. McLean, A. M., LL. B.

Sweden Center, (Sweden p. o.) near the center of the town, contains two churches and about twenty dwellings.

West Sweden, near the south-west corner, contains two churches and about a dozen dwellings.

The first settlement was commenced in 1807, by Nathaniel Poole and Walter Palmer. Samuel Bishop, Isaiah White, Stephen Johnson and a Mr. Hopkins came in the same year. John Eed, Timothy Tyler and Edward Parks settled in the town in 1818, and Reuben Moon, with his sons James, Amos and Isaac, settled in the east part in 1809 and 1810. James Scott was the first settler in the south part; he was a colored man and settled in 1809. John Phelps, Eufus Hammond and——Knight were the original purchasers of the site of Brockport. James Seymour, George Allen, Thomas R. Eoby, Ralph W Goold, Luke Webster and Charles Richardson were early settlers. Samuel Bishop kept the first inn, in 1809, and Charles Richardson the first store. Brockway and Blodgett built the first mill.

The population of the town in 1865 was 4,126; its area is 20,942 acres.

There are 13 school districts, employing 16 teachers. The number of the school population is 1,423; the number attending school, 819; the average attendance, 421, and the amount expended for school purposes during the year 1868, was $6,143.91.

WEBSTER was formed from Penfield, February 6, 1840. It lies on Lake Ontario, in the north-east corner of the County. Irondequoit Bay forms the west boundary. The surface slopes gently from the Ridge towards the lake on the north. In some places the shore rises from 40 to 50 feet above the lake, and on the west from 80 to 100 feet above Irondequoit Bay. The streams are small, flowing north into the lake. The soil in the north is a sandy loam,
and south of the Ridge a clay loam. Salt was manufactured to some extent by the early settlers.

*Webster,* (p. v.) in the south part, on the Ridge, contains four churches, viz: Methodist, Presbyterian, *Universalist* and Baptist; Webster Academy, five stores, one carriage factory, one foundry, one tannery, one harness shop, one hotel and about 400 inhabitants.

*West Webster,* (p. v.) in the south-west part, contains about 50 houses, a Methodist church, a hotel, a store and several mechanic shops.

There are four churches in the town outside the villages, one German Methodist, east of Webster, on the Ridge; one German Lutheran, west of Webster, on the Ridge; one Methodist Episcopal, on the County line, and one Catholic, about a mile east of Webster, on the Ridge.

The first settlement was commenced in 1805, under the agency of Caleb Lyon. The early settlers were chiefly from New Hampshire and Vermont, with a sprinkling from the east part of this State. Among them were John Shoecraft, from Ulster County, Isaac Straight, Daniel Harvey, Abram Foster, Paul Hammond, William Mann, William Harris, Samuel Pierce, Samuel Goodenough, and Benjamin Burnett, all of whom settled about 1806.

The first birth was that of a child of Caleb Lyon, and the first death that of a child of N. Caines. William Harris taught the first school, in 1810. John Letts kept the first inn, and F. B. Corning the first store, in 1825. Caleb Lyon built the first saw and grist mills, in 1826. The first church (M. E.) was organized in 1812 by Rev. Solomon Pierce.

John McLaren came from Johnstown and settled in Webster in 1803. Ebenezer Spear came from Mass., to Palmyra in 1806, and to this town in 1807, and cleared the farm upon which he lived until his death in 1856. Ebenezer Clark came from Green Co. and settled here in 1811, and served in the war of 1812-15. John Letts came from Sharon in 1811. Lewis Crippen came from Lima to this town in 1813, Alpheus Crocker, from Conn., the same year; Reuben Cobb, Asa Robb and Nathaniel Knight came in 1817; the last located on the farm where he now lives. Asa K. Jennings came from Saratoga Co. in 1811, Nathan Bollard from Montgomery Co. in 1812, and Asa Boss from Mass. the same year. Among the other early settlers were Joshua Vosburgh from
Columbia Co., Justin Dwinell from Cayuga Co., Isaac Drake from New Jersey, John Williams, Jr., first came to Greece from Dutchess Co., Nelson Stearns from Vermont, Mark Curtis from New Hampshire, Seba Granger from Cherry Valley, Luther Parker, Ziba Curtice and William P Preston from New Hampshire.

The population of the town in 1865 was 2,775; its area is 19,909 acres.

There are twelve school districts, employing twelve teachers. The number of the school population is 1,042; the number attending school 746; the average attendance 347, and the amount expended for school purposes during the year ending September 30, 1868, was $3,656.97.

WHEATLAND was formed from Caledonia, Livingston Co., February 23, 1821. It was called Inverness at first but its name was changed April 3 of the same year. It lies in the south-west part of the County, on the south border, having Genesee River for its east boundary. It has a gently rolling surface and a soil of loam mixed with clay in the interior, and with sand and gravel in some localities, the whole underlaid by limestone. Gypsum is found in large quantities. Oatka or Allan's Creek flows east through near the center of the town. At Mumford it is joined by the outlet of Caledonia Springs, forming an excellent water-power.

Scottsville, (p. v.) situated in the east part of the town, contains three churches, viz., Presbyterian, Methodist and Roman Catholic; three hotels, several stores, two flouring mills, a saw mill, a plaster mill and a population of about 1,000. Oatka Creek furnishes the water-power, through a race that has been constructed, affording one of the finest water-powers in the County. A new school house has recently been erected at a cost of $12,000.

Mumford, (p. v.) in the south-west part, contains two churches, a hotel, two dry goods stores, two flouring mills, two plaster mills, one woolen factory, a saw mill, a machine shop and about 500 inhabitants. The water-power for this village is furnished by Spring Creek, the outlet of Caledonia Spring, which flows into Oatka Creek near this village. The stream is well supplied with speckled trout, supplying several private ponds with this delicious fish.
Garbuttsville contains several mills and about twenty dwellings.

Wheatland Center is a hamlet.

In 1789 Peter Shaeffer, Sen., and his sons Peter and Jacob, came from Pennsylvania, and after stopping a while at Geneva and in Bloomfield, came in December to the present town of Wheatland. Ebenezer Allan was already located here and living in a comfortable log house, near the mouth of Oatka Creek, where the village of Scottsville is now located. The Indians had given Allan 300 acres of land, he had purchased 170 more of Phelps and Gorham and had fifty or sixty acres of the open flats under cultivation and twenty acres of wheat upon the ground. The Shaeffers purchased this tract for $2.50 an acre, including one acre of wheat and a pig. Allan was living with a white wife at this time, as his affections seem to have oscillated between the red and the white race. Mrs. Dugan, his sister, had been his housekeeper for some time. The Shaeffers shared the house with Allan until spring, when he went to Mount Morris. He purchased goods for the Indian trade and was the most extensive farmer in the region. In 1790 Allan had one hundred acres of wheat, besides considerable corn. He employed Indians, paying them for their labor with rum or trinkets.

Joseph Morgan located on a farm joining Mr. Shaeffer's in 1792. Andrew Wortman settled upon the river in 1794 or 1795. Caleb Aspinwall, Peter Conkle, Frederick and Nicholas Hetzteller were early settlers in the Shaeffer neighborhood. Ebuben Heth, from Vermont, worked for Mr. Shaeffer without a change of his buckskin clothing until he had earned enough to pay for a farm. The Shaeffers brought apple seeds with them from Pennsylvania and these were the first planted west of Genesee River, if we except the old French orchard at Schlosser.

The father and brother of Peter Shaeffer died within a few years after their settlement, and the improvements in his possession gave him the opportunity, which was improved, of adding to his large possessions. He was very kind to the Scotch settlers who came into the neighborhood, supplying them with the necessaries of life on credit, for which they never failed to pay him in due time.

Game was plenty, too plenty for the settlers, as the bears and wolves rendered it difficult to keep sheep and hogs,

HIRAM CURTIS' AGRICULTURAL WORKS!
ALBION, ORLEANS CO., N. T.

The subscriber, gratified with the generous patronage heretofore bestowed upon him, would respectfully call the attention of the Farmers of Monroe County to the New Implements manufactured by him, which have but recently been presented to the trade. Chief among these Labor-Saving articles, is the BUCKEYE MOWER!

WITH IMPROVED SELF-RAKE.
Especially constructed for the coming Harvest, warranted to cut a full swath of 5 feet 6 inches, throwing the Grain entirely in rear of the Machine, and out of the way of the next swath; castings strengthened and improved, and the motion materially increased. In fact, we invite the most careful attention to the Buckeye Harvester.

If there is no agent in your town, be sure to find one before you purchase, as it is a well known fact that every other agent will assure you "that the Machine he sells, beats the Buckeye." Having always warranted my work, there is no danger of getting an article that does not suit, as all goods may be returned and the money refunded, when they fail to work as stated. Look out for STEEL PLOWS!

I have devoted a large portion of the last year in getting up a STEEL PLOW, which for beauty of design, ease of draft, and excellence of workmanship, cannot fail to please the most practical plowman. A full assortment of Plows, Cultivators, Harrows, Corn and Shovel Plovs, and Plow Trimmings, and everything in the line of PIECES for MOWER AND REAPER Repairs, can always be found at any of my regular agencies, Perrine & Stewart, Rochester; J. H. Osborn, Penfield; E. D. Hillman, Parma; D. M. Martin, Greece; C. N. Hart, Spencerport; Joseph Williams, Henrietta; where also may be obtained Circulars of the STEEL-TOOTH SULKY RAKE, (Horton's Patent,) for Raking Hay and Stubble. These RAKES have a Broad-cast Seed and Plaster Sower combined, which can be attached to the Axle in ten minutes, and are warranted to excel any Sulky Rake in the United States.

HIRAM CURTIS.
while the raccoon insisted upon harvesting their corn before it was ready for the farmer. Pigeons were very abundant and were taken in large numbers with nets, their breasts cut out, salted and eaten.

When the American troops were on their way up the lake to take possession of Fort Niagara, they were detained by head winds and put back into the Genesee, where their provisions failed. Hearing of Shaeffer, they went up the river, quartered in his barn and received pork and corn meal, for which the officer gave his note. Shaeffer then piloted them to Caledonia Springs, put them upon the trail for Tonawanda, from which place Poudry piloted them to Fort Niagara, where they were the first to raise the American Flag. The next winter Mr. Shaeffer drove cattle to Canada, visited the Fort and received his pay.

The south-west part of the town was settled by Scotch, under the patronage of Mr. Williamson, agent for the Pul-teney Estate. Some of them settled in what is now Wheatland, and others in Caledonia, along the outlet of Big Springs and Oatka Creek. John McKay purchased 200 acres in 1803, which included the spring and the site of Mumford. The purchase included a small mill which Mr. Williamson had built for the use of the settlers. These Scotch settlers came in and at first erected wigwams, after the manner of the Indians, and subsequently erected log houses. Each family had a yoke of oxen, two cows and their calves. Isaac Scott settled at Scottsville about 1790, and Donald Mc Yean soon after. Zachariah Garbutt and family settled at what is Garbutsville, in 1803, and Powell Carpenter, in 1804, settled near Scottsville.

The first marriage was that of Peter Shaeffer, Jr., and a daughter of Jacob Sehoonover, in 1790. The first death was that of Peter Shaeffer, Sen. Jacob Scott kept the first inn; Philip Garbutt and Aram Hanford the first store; John and Robert McKay built the first grist mill, at Mumford, in 1808; a saw mill had previously been erected.

Donald McKenzie erected the first cloth dressing and dye works west of the Genesee River. He says he commenced hauling logs for his shop the 28th of June, 1807, "at John and Robert McKay's Lower Falls, now named Mumford, where there was not an inhabitant but the lone sawyer in that dense forest of evergreens, which I admired more than
the dusty, crowded city of New York, with its yellow fever and other diseases." In August, 1810, he commenced work in the first woolen factory west of Genesee River. He built the first framed house in the village of Mumford.

The first church (Bap.) was formed in 1811. Rev. Solomon Brown wa& the first pastor.

A public Library was established in 1804. The first books were purchased of Myron Holley, at Canandaigua. John Garbutt carried them on his back to their place of destination. Peter Shaeffer was the first librarian.

The population of the town in 1865 was 2,675; its area is 18,998 acres.

There are nine school districts, employing thirteen teachers. The number of the school population is 919; the number attending school, 803; the average attendance, 343, and the amount expended for school purposes during the year-ending September 30, 1868, was $11,099.21,
Honeoye Falls, (p. v.) situated on the creek of the same name, in the south-west part of the town, was incorporated in 1838. It is a station on the Canandaigua & Niagara Falls Branch of the N. Y. C. R. R. and contains six churches, viz: Presbyterian, Methodist, Christian, Episcopal, Dutch Reformed and Roman Catholic; a hotel, a printing office, a bank, two general merchandise stores, two groceries, two flouring mills, each manufacturing about 10,000 barrels annually, one woolen factory, three carriage and wagon shops, a saw mill, an edge tool factory, several other mechanic shops of various kinds and about 1000 inhabitants. The Corporation embraces about two square miles. The fall of water at this place was about 21 feet, previous to the erection of the dam at its summit. Owing to crevices in the rocks about three feet of the upper strata were removed, but the subsequent erection of the dam restored the fall to its natural height. The railroad crosses the stream at the summit of the Falls, on a covered bridge; another substantial iron bridge spans the stream just below the Falls. The fall of the stream between York & Son's foundry, in the south part of the village, and Allen & Buggy's woolen factory, in the north part, is about sixty feet. The capital invested in the woolen factory at this place is about $10,000, and the number of yards of cloth made annually is about 25,000.

The Honeoye Falls Free Press, published monthly, was started June 1st, 1862, at Lima, Livingston Co., and in May, 1865, was removed to Honeoye Falls, where it is now published by S. F. Joy.

Mendon, (p. v.) situated in the east part of the town, contains two churches, viz: Presbyterian and Baptist; a hotel,
a grist mill, a foundry, a wagon shop, two stores, two shoe shops, several other mechanic shops and about 300 inhabitants.

Mendon Center (p. v.) contains a grist mill, a saw mill, a store, a blacksmith shop, a shoe shop, and about 150 inhabitants.

Sibleyville, in the south-west part, is a hamlet, and contains a saw mill and grist mill.

Several large tracts in this town were purchased by different parties, and are still designated by the names of the original purchasers. A tract of 11,000 acres is called the Wadsworth Tract. Lot No. 90, near the center of the town, was reserved by the surveyor for his own use.

The Eleven Thousand Acre Tract, or Wadsworth Tract, occupies the east half of the town, the west line running through the town, north and south, nearly through the center. The Catlin and Ferris Tract is in the north-west part of the town; it extends east and west from the Eleven Thousand Acre Tract to the west town line. The south line runs from the west end of Taylor street on lot 90, west to the west town line. South of this lies the Waddington Tract, two lots wide, extending from Eleven Thousand Acre Tract to west town line. South of this tract lies the Porter Tract, one lot wide, extending from the Eleven Thousand Acre Tract, west, as far as the Honeoye Falls and Pittsford road. In the south part of the town are the Norton and Ball Tracts. The Ball Tract did embrace all lands in the town lying south of the Porter and Waddington Tracts. The Norton Tract was taken off the Ball Tract, and lies east of the village of Honeoye Falls, taking in the water privileges in the corporation of the village. Lots 91 and 92, known as the Mile Square, lie near the north-east corner of the town, only one line of lots running north of these lots. They are reservations, but by whom, or when made, we have been unable to determine. Previous to 1820, the people west of the creek went to Lima to vote, supposing they lived in the town of Lima.

Truman Smith came into the town in 1805, with his father, Joseph Smith. He was then five years old and is still living. Solomon Miller, the father of Adams Miller, moved into the town in 1794 or '5, and located on what is now known as
Miller's Corners. Jonas Allen, the father of Daniel Allen, located here in 1796, his deed is dated 1797. He was agent of Ebenezer Barnard, for the sale of part of the 11,000 Acre Tract. Althea Allen, now living with Daniel Allen, was the first female born in the town. In 1793 Cornelius Treat came from Stockbridge, Mass., on foot, with a pack weighing forty pounds. He settled on lot 63, 11,000 Acre Tract, and in 1805 removed to the farm now occupied by N. N. Treat; who has in his possession a record left by his father from which this statement is taken. The last named was born here in 1806, and has always resided on the same farm. Jacob Young, son-in-law of Mr. Norton, of Norton Tract, came into the town and settled in 1798. He was born April 23d, 1769, and celebrated his hundredth birthday last April, at which five generations of descendants were present. He is still living with Andrew Young.

In 1828-9 several families belonging to the Society of Friends settled in this town, and in 1832 erected a house of worship. They number about 35 families and 125 members at the present time. Martin Davis and wife were the first of the society who settled in the town. Daniel Russell and wife, Isaac Ewer and wife, Nathaniel Russell and wife, George West and wife, John Allen and wife, and Jacob Whipple and wife, located soon after and organized the society. About the same time Brigham Young and Heber C. Kimball commenced preaching Mormonism to the people. They were both residents of Mendon village; Young had previously been an exhorter of the Methodist Church, and Kimball of the Baptist Church. Young was a chair manufacturer, and Kimball a manufacturer of clay ware. Daniel Allen now has chairs made by Young previous to his becoming an expounder of the Mormon faith.

BUSINESS DIRECTORY.

EXPLANATIONS TO DIRECTORY.

Directory is arranged as follows: 1. Name of individual or firm. 2. Post office address in parenthesis. 3. If a former, the lot number indicates his residence. 4. Business or occupation.

A Star (*) placed before a name, indicates an advertiser in this work. For such advertisement see Index.

Figures placed after the occupation of farmers indicate the number of acres of land owned or leased by the parties.

Names set in CAPITALS indicate subscribers to this work.

The word Street is implied as regards directory for Rochester and the villages.

For additions and corrections see Errata, following the Introduction.

Y. WILLIAMS, Treasurer and General Agent.

Experience has demonstrated that our Hair Felt Insole is superior to all others and the most comfortable articles for the feet ever invented. Persons suffering from tender, perspiring or swelling feet, will obtain relief by their use, and no one regarding ease or comfort, would ever be without them.

The genuine article is Patented by us and warranted, all others are infringements and the user liable to prosecution.

For sale by Boot and Shoe Dealers generally. A liberal discount to the trade.

BROWN & TUETY,
(Successors to Joseph Brown.)

The Collins Metal Watch Factory.

$15. $20.

FULL JEWELLED HUNTING LEVERS,

GENTS' AND LADIES' SIZES.

The $15 Watches in appearance and for time are equal to Gold ones costing $150. Those of extra fine finish at $30 are not surpassed by $200 Gold Watches. For Time, Elegance, Finish and Durability, no imitation of Gold can begin to compare with the Collins Metal. Excepting the intrinsic value it is equal to Gold.

Chains from $2 to $6.

Jewelry.—We are manufacturing all kinds of Jewelry of the Collins Metal. Pins, Ear Mings, Sleeve Buttons, Jackets, Studs, Finger Rings, Bracelets, Charms, Odd Fellow and Masonic Pins, &c., all of the latest and most elegant styles, and fully equal to Gold in appearance and wear.

To Clubs.—Where six Watches are ordered at one time, we will send one extra Watch free of charge.

Goods sent to any part of the United States by Express, to be paid for on delivery. Money need not be sent with the order, as bills can be paid when goods are taken from the Express Office. Customers must pay all Express charges. We employ no Agents; orders must therefore be sent directly to us. In ordering, write plainly the name, town, county and State. Customers in the city will remember that our ONLY

(OVER EXPRESS OFFICE.)
ROCHESTER, N. Y.
DeGraff's Collegiate Institute!

Flour City Hall, - ROCHESTER, N. Y.

E. V. DEGRAFF, - Principal.

Plan of the Institute.

The design of the Principal is to give an accurate and complete preparation for College, or for any business pursuits that do not require the training of the Professional Schools. He purposes to secure symmetry, health and vigor of body; to establish habits of punctuality, order and diligence; to cultivate the power of close, independent and continued thought; to give the mind resources for enjoyment, respectability and usefulness, as well as pecuniary profit; to induce and accustom the pupil to act from moral and religious motives; and to secure to them that paternal care and moral discipline, which their age so obviously demands, and without which so many are ruined, physically and morally, while ostensibly pursuing their studies in Schools and Colleges.

Location.

The location combines all that can be desired in healthfulness and accessibility, as well as in beauty of natural scenery. The beautiful Genesee flows, through the center of the city, the atmosphere is bracing, and in all respects, it is one of the most beautiful and healthy cities in Western New York. A commodious and well ventilated Hall with light and airy recitation rooms are among the attractions of the School.

Course of Study.

The course of instruction will comprise all the studies requisite for a thorough English Education and for College. Elementary branches will not-as is often the case-be neglected. Beginning with the Practicals, Arithmetic and Geography are indispensable to good scholarship, therefore every pupil will be expected to pursue these branches until qualified to lay them aside. Lectures will be given from time to time by the Principal, on Science, Morals, History, and subjects of interest to the students.

Physical Training.

Provision is made for securing health, vigor, strength and symmetry of form, by exercises in a large and well finished hall. Convinced by experience, of the great benefits derived from the systematic training which is more effectual than any other, the plan of the school looks directly to that result and the pupils are brought under the wholesome and effective discipline of a mild but decided system of military organization. The military exercises shall receive but decided benefit and produced by the habits of attention and strict and ready obedience that they cultivate, the self-restraint that they impose, and the self-possession that they impart, all unite in commending the system to the consideration of parents. The grave objection, that it has a tendency to foster a military spirit in after life, will, it is believed, be fully removed by a knowledge of the facts.

Uniform.

The wear a neat uniform suit, the same as in U. S. military schools, consisting of gilt with a neat uniform suit, the same as in U. S. military schools; cap, blue cap, ed with gold braid; cloth for full suit, cadet gray, frock coat, coat, overcoat. Officers serve one term, unless the standing in classes forbs the position of honor.

Qualifications.

Pupils must be twelve years of age to enter the Institution, of fair ability, capable to pass through the fundamental rules of Arithmetic and Grammar; to be able to call words readily in reading, to write a legible hand, and of good moral standing in community. Pupils not resident in the city, and those not acquainted with the Principal, will produce a certificate of residence from the last city, and those not acquainted with the Principal, will produce a certificate of residence from the last known or responsible person. The good character of the pupil is divided into four quarters of ten weeks each. Tuition per quarter, $15.00, $15.00. Tuition payable in advance, $15.00.

Remarks.

The Principal has been connected with Public Schools and Institutions of Learning for a period of more than eighteen years, and has made the prevailing modes of education a study, and in the last years, enabled intelligently to select and adopt the most approved method of instruction. By adapting his lessons to the mental condition of his pupils, he has been eminently successful in breaking up habits of idleness, inculcating industry, and avarice to study. GODFREY & CO.'S
Sunbeam Gallery

CRYSTAL PALACE BLOCK, ROCHESTER, N. Y.
(Entrance, First Stairs East of Bronner's Dry Goods Store.)
No. 79 and 81 Main Street,
(EAST SIDE OF THE RIVER.)
Notice GODFREY'S SUNBEAMS on the Show Case and Stairs, as you cannot get our style of Picture anywhere else in the city. Having the exclusive right to use Wing's Patent Multiplying Camera,
We can and will sell CHEAPER than any other Gallery in Western New York. We need not say that we make the best and most durable Picture that is made, as thousands can say that for us. We shall always try to please, and no one will be expected to take or pay for a Picture that they do not like. You can see them as soon as you sit, and have them to take with you in fifteen minutes, put up in a neat Card, Album size. Copying from other Pictures done with dispatch and in the neatest manner. Remember that ours is the CHEAPEST AND MOST LIFE-LIKE PICTURE TAKEN!
And don't fail to call at the SUNBEAM GALLERY, the only place in Rochester where they can be had.

GEO. W. GODFREY.  B. P. CROSSMAN.

ROCHESTER, N. Y.
WHEAT & DAVIDSON,
MANUFACTURERS OF THE
FLOUR CITY GRAIN CLEANER!

Patented Feb. 21st, 1869, by Wheat & Terry,
Rochester, N. Y.

We present this MACHINE to the public, in full confidence that a practical test will demonstrate to any person its superiority over all other Grain Separators now invented. Either for general use, or for Flouring Mills used with power—it combines the ordinary Fanning Mill—for Chaffing and Cleaning every product of the farm usually done by such Mills—not only—but will make a perfect separation of Oats from Wheat, and Oats from Barley. Can be afforded for but little advance above the ordinary Fanning Mills. All desiring Machines will do well to examine this Invention before purchasing any other.

---

WE ARE ALSO ENGAGED IN THE MANUFACTURE OF
STEP LADDERS,
WASHING MACHINES!
BUTTER WORKERS,
Snow Shovels.
FANCY AND PARLOR BRACKETS,
Builders’ House and Cornice Brackets,
CROQUET BALLS AND MALLETs,
FRUIT CRATES.

Also, Patent Models, Wood Patterns, and Job Work to order.

JAMES E. WHEAT, - JOHN B. DAVIDSON,
Foot of Aqueduct Street, - ROCHESTER, N. Y.

BUSINESS ESTABLISHED IN 1828.

THE GLEN & HALL
Manufacturing Company.

WORKS ON EAST AVENUE,
SALES ROOM, 10 SOUTH WATER STREET,
ROCHESTER, N. Y.

MANUFACTURE THE CELEBRATED
Hall Thrashing Machines,
AND
HORSE POWERS!

COMBINED CLOVER THRASHERS,
Hullers and Cleaners,
"Farmers' Favorite" Grain Drills, &c.

Our Thrashing Machines and Horse Powers are BO well known, and have proved so far superior to all others, that we deem it only necessary to mention them.

Our Clover Machine, commonly known as "Collins & Shattuck's," has proved equally superior, and BO great is our confidence in it that we warrant it to give satisfaction to purchasers.

The "Farmers' Favorite" Grain Drill, is the most perfect implement ever offered to the Farmers of Western New York. It is the only Drill having separate sets of distributors for Coarse and Fine Grain. This feature has proved indispensable to accurate sowing.

We WARRANT it to sow Wheat, Rye, Barley, Oats, Corn, Peas, or other Grains, evenly and in any desired quantity without injuring any seed. If it fails in any respect it may be returned and the money paid will be returned.

We have full sets of patterns and pay special attention to supplying Repairs for all Hall Machines in use, including those made by the late Joseph Hall, Glen & Hall, ourselves or others.

ALL OUR WORK IS FULLY WARRANTED.

Catalogues and Price Lists of Machines and Repairs sent FREE to all applicants.

Address: The Glen & Hall Manufacturing Co., Rochester, N. T.

OFFICE OF DAILY

UNION & ADVERTISER

AND

WEEKLY REPUBLICAN

BOOK AND JOB PRINTING!

OF EVERY DESCRIPTION,
NEATLY EXECUTED IN MODERN STYLE!
AND AT THE MOST REASONABLE PRICES.

UNION BUILDINGS, - BUFFALO STREET,
OPPOSITE THE COURT HOUSE,
ROCHESTER, 1ST. Y.

DAILY PAPER, Per Annum, ........................................ $10.00
SEMI-WEEKLY, ....................................................... 4.00
WEEKLY, .................................................................. 2.00

THE DAILY UNION AND ADVERTISER has been printed since 1880 on HOE'S TYPE REVOLVING PRINTING MACHINES, with a capacity of 10,000 per hour, and it is the only paper in Western New York using the Machines. It has the largest issue of any Daily paper in the State out of New York city, and is so recognized everywhere. As a medium for Advertising, it has no equal in Western New York.

JOSEPH CURTIS, JOHN E. MOREY, WM. PURCELL,
GEO. G. COOPER, LORENZO KELLY.

LITTLE GIANT MOWER & REAPER!
MANUFACTURED BY
H. W. SEYMOUR,
BROCKPORT, N. Y.
SEND FOR CIRCULAR

CANCERS CURED!
D. F. BISHOP, M. D.,
OF LOCKPORT, N. Y.

Invites the attention of those afflicted with Cancer, to his mode of treatment, which has been practiced for a number of years with great success. The removal of the Tumor is speedily made without the use of the knife in the live tissue, and with but little pain. The question of radical cure of Cancer undoubtedly depends upon the time of its removal. It should be done before it breaks down by ulceration, and the earlier the better. The results of this treatment, which destroys the life of the Tumor before its removal, as compared with the use of the knife, will be readily understood in the difference of the two modes of removing a locust tree from the soil; to kill it by girdling or otherwise, leaving nature to complete the process—or to grub out the live tree, leaving many fibres to spring up and grow again. If you have a Cancer, please call and see me, or correspond.

PUBLISHER'S NOTICES.

A. Schirek & Co., Axle Manufacturers, No. 19 Warehouse Street, Rochester, N. Y., advertise on page 180. The axles made by this Company are of the best materials and made with great care. Their "Improved Half Patent" and "Patent Taper" Saulsbury Iron Axles are warranted superior to anything in the market at the same price. Their Extra Quality Steel Axles and those made of English Lowmoor Iron, are said by those who have the opportunity to know, to be superior to any other made in this country.

The New England House, No. 108 Main Street, Rochester, N. Y., is centrally located, and affords good accommodations at reasonable prices. The stables attached to the house are good, and faithful grooms are always in attendance. Those who wish for a good comfortable quiet place to top up, will be pleased with the New England House. Stages leave daily for the different towns in the vicinity. See advertisement on page 184.

The Wilson Shuttle Sewing Machines are among the best in use for heavy work. They make the perfect Lock Stitch and are by many preferred to any other machine, as the great demand for them fully shows. E. Pollard, No. 3 Market Street, is the agent. See card page 184.

Continental Life Insurance Company of New York, so well and favorably known, publishes a card on page 180. Mr. W. H. Montgomery, at No. 22 Arcade, Rochester, N. Y., is the general agent. Those who wish to insure will receive all necessary information by calling on the agent. Those wishing to secure agencies will find good positions for the shrewdest business men, whether rich or poor, very generally insure in some company. The peculiar advantages of this Company will be explained by the agent.

W. H. Bruce's Hair Dressing Saloon, No. 6 Masonic Block, Buffalo Street, Rochester, N. Y., is the place to go for a good cut. Those who want to save and wish to insure will receive all necessary information by calling on the agent. Those wishing to secure agencies will find good positions for the shrewdest business men, whether rich or poor, very generally insure in some company. The peculiar advantages of this Company will be explained by the agent.

W. B. Duffy & Co., Distillers and Rectifiers, and manufacturers of Cider and Cider Vinegar, No. 5 White Street, Rochester, N. Y. This firm are prepared to furnish anything in their line, in quantities to suit purchasers. Those interested will find their advertisement on page 164. Their Cider Mill is the most extensive in the country, and manufactured by new and improved machinery and a hydraulic press of 600 tons power. Farmers wishing to exchange apples for cider can do so on reasonable terms and receive a pure article in return.

Rochester Insole Manufacturing Co., over 34 Main Street, Rochester, N. Y., advertises on page 164. This Company have, in consequence of the increased demand for their Hair Felt Insoles, increased their facilities for the manufacture of this desirable article. While the article manufactured is superior to that of all others, the price is so low that all may indulge in the luxury. New patterns to suit the present styles of shoes are for sale. Dealers and others will find it for their interest to purchase of this Company.—Though the business was established in 1867, by J. D. Boisson, they now make nearly two thousand dozens annually. W. Williams is the General Agent.

Lewis C. Tower & Co., manufacturers of Thermometers and Barometers, No. 87 Exchange Street, Rochester, N. Y., publish an advertisement on page 168. They have permanently located in a building of their own, centrally located and fitted up especially for their work and are producing about 7000 dozen Thermometers annually. They make an article specially adapted to farmers' use, which saves a hundred times its cost to any one who makes butter or cheese. Thermometers repaired and made as good as new at about half the cost of new ones. If you wish for a good Thermometer call and get it at twenty-five cents, less than at the stores.

Gilson, J. E., teacher, Public School No. 3.
N. Y. The Marble Works of Henry & Sons, afterward under the name of Hebard Sons, are situated on the corner of South St. Paul and Jackson Streets, Rochester, No. 122 South St. Paul Street, Rochester, and are the most extensive of any within the State outside of the city of New York. An average of about thirty men are employed during the whole year, and all kinds of marble work is manufactured in the establishment. Connected with the works are three large ware rooms set apart to display the goods, one of which is devoted to Cemetery work, such as Monuments, Head Stones, Tables, &c.; another to Statuary—Italian—and all varieties of Parlor, Dining Room and Chamber Mantels; and still another to Decorated Marble and Slate Mantels. The Decorated Marble is an improvement upon the slate for the manufacture of mantels, from which the most elaborate and beautiful patterns are made and on exhibition at his establishment. The establishment is the oldest one in the State west of the Hudson River, and was originally commenced by Zebulon Hebard, the father of the present proprietor, after which the sons united with him, under the name of Z. Hebard & Sons, afterward under the name of Hebard & Graham. It was commenced in the year 1830, and the business has been constantly on the increase since that time, showing conclusively that the character of the work has been and is of the best quality, and the prices will bear favorable comparison with any in the country. Those wishing anything in the marble trade will find it very much to their advantage to visit the establishment and examine the variety. See advertisement on page 172.

S. M. Crane, at No. 44 South Fitzhugh St., Rochester, has pleasant Dining and Confectionery Rooms, where all may be accommodated and receive the choicest luxuries at a moderate price. For a good "square meal," or only a lunch, we know of no better place in the city to supply your wants. Mr. Crane’s card appears on page 140.

Dunshee Brothers, Photographic Artists, No. 14 State Street, Rochester, N. Y., are constantly making some of the best pictures to be found in the city. Persons desiring any style can be accommodated. Their rooms are fitted up in good style and a large number of specimens are always on exhibition. See card on page 160 and give them a call.

The Grover & Baker Sewing Machine, so long and favorably known to the public, continues to elicit the praises of those who use it. Among all the different machines presented for the patronage of the public this is still the favorite with mechanics, an established establishment, and executes beautiful embroidery. It is advertised on page 164. The sales room is at 48 State Street, Rochester, N. Y.

McEwen & Forrester, Steel Letter and Stencil Cutters, Pool’s Building, Rear of No. 3 Buffalo St., Rochester, N. Y., advertise on page 180. They are prepared to furnish to order Stamps, Dies and Stencil Plates of every variety and style. Their facilities for executing all work in their line are unsurpassed. Call and see.

H. IV. Casey & Son, Lumber Dealers, Charlotte, N. Y., advertise on page 176. Their yard is constantly supplied with a choice variety of lumber to meet the wants of the community. Builders and others having use for lumber will find it for their advantage to call on this firm.

Hamilton Brothers & Co., dealers in Hardware and Agricultural Implements, Nos. 21 and 83 Buffalo Street, Rochester, N. Y., publish an advertisement on page 176. Their yard is large and various, and those who have occasion to patronize an establishment of this kind will find it for their advantage to call on this firm.

I. Rice, wholesale and retail dealer in Men’s and Boys’ ready-made Clothing, &c., 15 Main Street, Rochester, N. Y., keeps one of the finest stocks of all goods usually kept in a first class Clothing store. Mr. Rice is prepared to execute all custom work in the best manner. See card page 176.

Mrs. J. A. Van DeMark, Fruit and Flower Artist, Palmer’s Block, Rochester, N. Y., advertises on page 176. We take pleasure in calling the attention of Nurserymen and the public generally to the specimens on exhibition, feeling assured that they need only to be seen to be appreciated. Give her a call.

Thomas Brooks, wholesale and retail dealer in Harness, Saddles, Trunks, &c., No. 20 Market Street, Rochester, N. Y., keeps a good assortment of all goods in his line, and furnishes to order; at short notice anything desired. Give him a call. See card page 180.

D. F. Bishop, HE. D., Lockport, N. Y., advertises on page 296. It is with pleasure that we are permitted to call the attention of those afflicted with Cancer, to Dr. Bishop’s mode of treatment.—Past success is the best recommendation that can be given in favor of his mode of treatment.

J. & F. B. Garrett, Wholesale and Retail dealers in Printing, Writing, Wrapping, Tissue, Roll and Fancy Papers, Printers’ Supplies, Shipping Cards, Blank Books, &c., at No. 3 Welst Fayette street, Syracuse, have built up a heavy trade in their line, extending from Harrisburgh, in Pennsylvania, to the Canadian border. We have dealt considerably with this establishment, and have invariably been gratified in having our orders promptly filled, and always with just the article required. See card, page 296.

**PUBLISHER'S NOTICES.**

*Odenbach & Co.,* manufacturers and dealers in Hats, Caps, Furs, Robes, &c., No. 13 State Street, Rochester, N. Y., advertises on colored page 208. The approach of cold weather reminds people of the necessity of warm clothing. Messrs. Odenbach & Co. have done their part towards supplying the wants of Rochester and vicinity, by offering a fine assortment of all goods in their line. Ladies' furs of various styles and qualities, and Lap and Sleigh Robes, so essential to comfort on a cold day, can be procured at reasonable prices. Call and examine for yourselves.

*W. G. Frutchey,* Slate Roofer, No. 170 State Street, Rochester, N. Y., is prepared to roof buildings with the best of Slate in the most durable manner and ins such a style as to suit the patrons. He keeps a good stock of slate of various colors, constantly on hand, and is prepared to do work in the city or country. Those acquainted with Mr. F. and his manner of doing work, need no recommendation from us. Let others give him a trial. He advertises on colored page 208.

*Fowler & Miller,* Dentists, Powers' Block, corner of State and Buffalo Sts., Rochester, N. Y., advertise on page 286. They are prepared to perform all work intrusted to them in the best manner. Artificial teeth, from one to a full set, inserted according to the most approved method. Give them a call.

The Weed Sewing Machine, advertised on page 146, with the recent improvements, is about as near perfection as science and the most skillful and ingenious mechanics can make it. One of its chief excellencies is its simplicity, and another is its durability. Any person of ordinary intelligence can learn to operate it successfully in a very short time. It has received for this machine, and to him we refer all interested.

*Dr. J. B. Henion,* No. 22 and 24 North St. Paul Street, Rochester, N. Y., advertises on page 344. It is with pleasure that we call the attention of our subscribers to the Doctor's advertisement, believing that we are thereby rendering essential service to the afflicted by informing them where they will find relief. To be convinced that the Doctor performs what he promises, a person has only to look into his office and see the crutches, canes, &c., left there by those who have been so far benefited as to have no further use for such assistance. We would say to all who need medical advice, that Dr. Henion is prepared to give it, and to render essential aid in all cases where there is any hope of relief. If their case is past hope the Doctor will be honest and tell them so.

*Hiram Curtis,* manufacturer of Agricultural Implements, Albion, N. Y., advertises on colored page 140. Mr. Curtis manufactures a variety of Implements, including the Buckeye Mower with improved Self Bake. The farmers of Monroe County will find it for their advantage to purchase of Mr. C. or his agents, as any part can be obtained at short notice.

*Jonathan Cawthra,* Carpenter and Joiner, No. 164 Buffalo Street, Rochester, N. Y., publishes a card on page 246. Mr. Cawthra understands his business and will perform all work intrusted to him in a satisfactory manner. Do call and see.

*James Elliott,* manufacturer of Carriages, Wagons and Sleighs, Honeoye Falls, N. Y., publishes a card on page 246. He selects his materials with great care and employs none but good workmen, so that all may depend upon getting a good article whenever they purchase one of his manufacture. Repairing of all kinds promptly attended to.

ENCOURAGE THE INSTITUTIONS.

Dr. K. is a graduate, with an experience of over fourteen years in the practice of medicine. Let the afflicted give him a call. Letter, and win receive prompt attention upon him in person, can address him by that they will not be charged a heavy bill and dismissed without receiving any benefit. Persons who cannot conveniently call have their excellences, this combines the best qualities of most others and must for a long time continue to supply a large class of purchasers. We recommend to all parties interested, to call at the principal sales room, No. 67 State Street, Rochester, N. Y., where the General Agent, Mr. B. D. Barber, will give all the information desired. See advertisement on page 250.

The Carthage Small Fruit Nursery, located on Norton, near North the Paul Street, Rochester, N. Y., is finished with a great variety of Small Fruit Plants of the most desirable kinds. Mr. P. C. Reynolds, the proprietor, is prepared to furnish at the lowest market rates, any of these plants, and will give all necessary information concerning their cultivation. Those who purchase at this nursery may rely upon getting what they order. See advertisement on page 260.

The Ellas Howe Sewing Machine needs only to be seen and tried to be appreciated. While other machines have their excellences, this combines the best qualities of most others and must for a long time continue to supply a large class of purchasers. We recommend to all parties interested, to call at the principal sales room, No. 67 State Street, Rochester, N. Y., where the General Agent, Mr. B. D. Barber, will give all the information desired. This machine is advertised on page 294.

Dr. Kingsley, of Rome, justly celebrated for the many cures he has effected of that most distressing disease, cancer, publishes a notice on page 1. He is prepared to treat all scrofulous diseases, and others of long standing, and assures his patients that they will not be charged a heavy bill and will receive any benefit. Persons who cannot conveniently call upon him in person, can address him by letter, and win receive prompt attention. Dr. K. is a graduate, with an experience of over fourteen years in the practice of medicine. Let the afflicted give him a call.

Andrew V. Smith, manufacturer and dealer in Trunks, Harness, Saddles, and all kinds of Horse Furnishing Goods, is prepared to deal as honorably and sell as cheap as any man in the city. Let those who doubt it call at No. 65 State Street, Rochester, N. Y., and all their doubts will speedily vanish. See card on page 246.

Phoenix Mutual Life Insurance Company is one of the old and well established companies, issues Policies on all approved plans and is largely increasing the number of its policy holders every year. Under the name of J. W. Lounsbury, 127 State Street, Rochester, N. Y., is the General Agent, who will give all needful information. See advertisement on colored page 242.

J. W. Martin, dealer in Pianos, Organs, Melodeons and other Musical Instruments, No. 69 State Street, Rochester, N. Y., publishes a finely illustrated advertisement on page 240. There is no place in the County where a larger or more varied collection of Musical Goods can be found than here. Pianos of every variety and style, worth from $200 to $1500, and Organs and Melodeons in countless numbers, at prices to suit the taste and purse of all customers. We think our patrons will consult their own interest by calling at Martin's before making their purchases, and examine the many styles of Instruments for sale or to rent. All Standard Instruments are warranted for five years. Mr. Martin deals honorably with his customers and gives general satisfaction.

De Graff's Collegiate Institute, located at Flour City Hall, Rochester, N. Y., is a young institution but has been remarkably prosperous and bids fair to ... second to no school of the kind in the State. Mr. E. Y. De Graff, the Principal, has had many years of successful experience in teaching, and persons who wish to send their sons here they will be well instructed and cared for will hardly find a better place. The Institute is advertised on colored page 241.

The Empire moulding Works of Newell & Turpin, 110 Front Street, Rochester, N. Y., are supplying their customers with a great variety of Mouldings, Frames and other articles usually found in such an establishment. The proprietors are confident that they can do as well by their customers as any other manufactory in the city. See card page 244.

Ayers' Hotel is situated on Mill Street, Rochester, N. Y., near the NY Depot. It is conveniently located for commercial agents and others who visit the city on business, and while its rooms are well furnished and its table well supplied, the charges are always reasonable. Under the management of Messers. A. A. & R. F. Cornwall, this house is receiving a good share of patronage which it so justly merit. They are kind, gentlemanly and obliging, and spare no pains to make their patrons feel at home. See advertisement on page 290.

MILLER, H. S., (Fowler A Miller.)
PUBLISHER'S NOTICES.

Scottsville Marble Works.—Mr. H. H. Miller, the proprietor of these works, is prepared to furnish Monuments, Head Stones and all other work usually found at a first class establishment. American and Italian Marble of all descriptions, &c, &c., is furnished at short notice. Those about to purchase anything in this line will do well to call and examine some beautiful designs to be seen at his Works. His advertisement appears on colored page 190.

James Madden, dealer in Cloth, Eeady-Made Clothing and Gents Furnishing Goods, No. 41 Main Street, corner of Water, Rochester, N. Y., publishes a well displayed advertisement on page 188. Mr. Madden has a large stock of goods, selected with great care, and is determined not to be surpassed by any dealer in the city. Those who favor him with their patronage will find the goods as represented. If you want a nicely fitting suit, durably and elegantly made up, give him a call. If you want a good substantial business suit, call at Madden's and select from his stock or have a suit made to order, and thereby consult your own interest as well as his.

The Darrow Book Establishment, advertised on pages 254 and 352, was established by Mr. Erastus Darrow in 1846. This house has been so long and favorably known to all book buyers in this vicinity, that we need only say that the same liberal and honorable dealing that has always characterized this house will be continued. Mr. Darrow has a large stock of School and Miscellaneous Books, in fact, all kinds required by the trade generally or for private Libraries. Call at the Reynolds Steel Tempering Works, Reynolds, Barber & Co., Proprietors, at Auburn, are largely engaged in the manufacture of Reaper and Mower Knives, Plane Irons, Chisels &c. The process by which they temper steel is a peculiar one, and is patented by Mr. Reynolds, the result of over forty years labor. This gentleman always worked on the plan that tempering steel was simply changing it from a fibrous to a granular state. He certainly has succeeded in producing a finer granulation (temper) than has ever before been produced. Messrs. Reynolds, Barber & Co., control the patents for these processes, and are applying them successfully in all their manufactures,—Their establishment is capable of turning out an immense amount of work, yet their orders are now, and have been for some months, accumulating fast in advance of their present ability to supply, in consequence, which they will not long allow to be the case. We predict that the time is not far distant when all Mower and Reaper Factories and farmers will use their improved sections. See their advertisement on page 6, fronting the Introduction.

N. H. Galusha, Manufacturer and dealer in Stoves and all kinds of hollow ware, Miscellaneous Castings, &c, at No. 20 Court St., Rochester, is carrying on a business equalled by few in the State. He employs the most skillful workmen and the best qualities of iron in the manufacture of his goods. Prominent among the articles manufactured at this foundry may be mentioned the celebrated first class coal or wood cooking stove, "General Grant." We have used one of them in our house during the past two years, and feel it a privilege to testify to their excellence. The pattern of the stove is plain, neat and simple, and it has all the late improvements in the way of Water reservoir, heater for drying fruit or keeping food warm, &c. We think the stove quite perfect in all its parts. Mr. Galusha also manufactures the new Coal Tower Stove for Stoves "From Europe" to be one of the best in market. We refer the attention of stove dealers who desire a tip top stove to Bell, or of those who desire a good one for their own use, to card on colored page 69.

George Arnold, Painter, No. 109 State Street, Rochester, N. Y., advertises on page 194. For ornamental painting, we recommend Mr. Arnold, feeling assured that those in want of Signs, Banners and other ornamental work, will be perfectly satisfied after giving him their patronage. Carriage painting in all its branches attended to. Give him a call.

O. T. Amsden & Son, Insurance Agents, south-west corner of Buffalo and Exchange Streets, Rochester, N. Y., are agents for some of the best insurance companies in the country, and are prepared to insure against loss by fire, accidents or other causes. They are also prepared to furnish Passage Tickets to and from Europe by the Cunard Steamers; also furnish Foreign Bills of Exchange. Persons doing business with them will find them honorable and fair-dealing men. Their card appears on page 229.

J. R. Thomas, Architect, No. 65 Reynolds Arcade, Rochester, N. Y., is prepared to furnish Plans, Specifications and Designs for buildings of all styles. Persons who contemplate building will consult their own interest by calling on Mr. Thomas. His card appears on page 233.

H. W. Seymour, Brockport, N. Y. manufactures the Little Giant Mower and Reaper. This is one of the best machines made; it is simple in construction, easily kept in order, and very durable. It is just the machine that farmers need, as thousands who have used it are ready to testify. See advertisement on page 296.

W. A. Thompson, dealer in Stoves, Tin, Copper and Sheet Iron Ware, No. 284 State Street, Rochester, N. Y., publishes a card on page 194. Everything usually found in such an establishment may be procured here. All sorts of job work executed at short notice. Give him a call.

Humphrey C. Jones, Wool Carder, Cloth Dresser, &c., in the East Selye Building, Furnace Street, Rochester, N. Y., has an establishment where he is prepared to wash Carpets, Blankets, &c., without Injury to the Color. The work done at this establishment is set forth in the advertisement which appears on page 236. Batting, Stocking Yarn and Flannels always on hand and for sale cheap.

S. Murdock, dealer in Tin Plate, Sheet Iron, Copper and Japanned Ware of all kinds, No. 122 State Street, Rochester, N. Y., calls attention to his stock in an advertisement on page 236. Dealers and others will find a good stock from which to select any article in his line. Peddlers who wish to replenish their stock will find goods of as good a quality and at as low a price as at any place in the city. Call and see for yourselves.

Jones, Newman & Hollister, manufacturers and wholesale and retail dealers in Lumber, Sash, Blinds, &c., advertise on colored page 242. This firm are doing an immense business, having mills and factories at Fairport and Rochester, in either of which places any variety of Lumber, Doors, Sash, Blinds, Mouldings, &c, may be purchased at a good price and directly from the manufacturer. Orders addressed to Fairport or Rochester will be promptly attended to.

C. E. Collins & Co., Manufacturers of the celebrated "Collins Metal" Watches, Jewelry &c., a few months ago removed to the large and spacious building No. 235 Broadway, corner of Worth street, New York. It is said to be a well known fact to those who have been fortunate enough to possessers of their goods, that the "Collins Metal" is a composition in appearance so closely resembling gold, that the beat judges cannot detect the difference, except by a chemical test. It has a beautiful and brilliant lustre, equaling fine gold, and retains its color till worn out. The parties are practical watch makers of long experience, and consider it to their advantage, as well as to that of their patrons, to send out only good time keepers. A full descriptive catalogue will be sent to any address on application. See advertisement, page 198.

Dr. N. Lindenfeld, Druggist and Apothecary, No. 3 Wilder Street, Rochester, N. Y., has for more than three years been in the city, during which he has had a successful business. He keeps a complete stock of all goods usually found in a store of this kind, and fills all prescriptions with the greatest care. He is the manufacturer of Lindenfeld's Vegetable Worm Soup, so justly celebrated wherever it has been tried. All orders promptly attended to. See card, page 244.

W. H. Smith, manufacturer of Pumps, Aqueduct Pipe, &c., Honeye Falls, N. Y., advertises on page 244. The Wood Pumps made by Mr. Smith are among the best in use. Stone and Iron Pumps are kept on hand for Bale, and all kinds are repaired at short notice. Parties interested will do well to call.

Mrs. Vorhees, Fashionable Millinery Rooms, No. 73 Main Street, Rochester, N. Y. are daily visited by multitudes in search of Hats, Bonnets and other articles of Millinery. Mrs. V. takes great pains in the selection of her goods and makes them up in the most approved style. We commend her shop to the patronage of the public. See card, page 244.

Louis W. Brandt, proprietor of German and English Steam Printing House, No. 31 Front Street, Rochester, NT Y., advertises on page 228. This office affords peculiar advantages to those who wish to have printing done in German or English. The office is stocked with a good assortment of type and all work will be executed in good style. The Rochester Volksblatt, printed in German, is issued from this office.

Julius Binder, dealer in Piano Fortes, Sawyer's Block, corner of State and Mumford Streets, Rochester, N. Y., keeps a good stock of pianos made by the best manufacturers and elegantly finished. Persons who have old pianos to be repaired, or who wish to exchange them for new, can be accommodated. Pianos tuned at short notice. See card page 228.

W. G. Butler, dealer in Lime, Rochester, N. Y., has a kiln on High Street, opposite Frost's Nurseries, where he will supply the best of lime in quantities to suit purchasers. Orders left at Moore & Cole's, 62 Buffalo St., will be promptly attended to. See card page 232.

Glen & Hall Manufacturing Co., of Rochester, manufacturer superior Threshing Machines, Horse Powers and other agricultural implements. Their works have been established more than 40 years, during which time they have supplied machines to many thousand customers in all parts of the country. For further particulars of this worthy establishment, we refer the reader to their advertisement on page 268.

Important Knowledge.—As music is now an indispensable necessity in every household, any reliable information is valuable as to the best place to buy musical instruments. We have been acquainted for years personally with the firm of Redington & Howe, and have known of their business facilities. We know that no House between New York and Chicago can compete with them successfully, as their facilities are unequalled. In addition to the immense capital at their control, they have medal contracts with several leading first-class manufacturers, whereby they buy cheaper than any other dealers in the United States anywhere. Their immense trade requires only a small profit on each one of their many transactions to ensure them a handsome income. Their terms are most highly liberal. And another important consideration is that their treatment of their customers is perfectly trustworthy, a very important matter in the purchase of such a complicated affair as a musical instrument. Their recommendation of instruments can be depended on implicitly.

This firm know from an extensive acquaintance among hundreds to whom they have sold instruments. We advise our readers to give them a call, or certainly to write to them before deciding on the purchase of a Piano Forte, Organ or Melodeon, or any musical merchandise. See card on Co. Map.

Charles Tremain, manufacturer of Rag, Book, News, Tea and Wrapping Paper, at Manlius, publish a card on page 326. Publishers and paper dealers will find him a fair and honorable man to purchase from. In the manufacture of book and news, he uses only domestic stock, which is conceded to be superior to imported rags. He employs experienced paper makers only, and having improved machinery, he can insure a superior article in all cases.

Improved Gerard.—Read the advertisement headed "The celebrated Oroide Watch." The advertisers (Messrs. James Gerard & Co.), are actually selling these Watches at twelve dollars, fifteen dollars, and twenty dollars each; and that they wear like gold, a friend of ours, who has worn one six months, assures us; and that they are, therefore, (in the words of the advertisement) "as good as gold, in all respects, except intrinsic value." We have reason to believe. Every watch is guaranteed by special certificate.—Elizabeth (N. J.) Journal. See card on map of County.

Gleble & Loos, dealers in Bale Hay, Straw and Oats, at Union Market, Front Street, are prepared at all times to supply customers with the best quality at the lowest market price, and deliver the same in any part of the city free of charge. Give them a call. See card, page 194.

PUBLISHER'S NOTICES.

Mrs. J. B. Hanna, No. 66 State St., Rochester, keeps a fine stock of Millinery and Fancy Goods, which she is constantly selling at prices which cannot fail to suit. Ladies who understand the quality of her goods and the taste exercised in their selection do not need to be invited to come into her shop, as her sales are unaccompanied with her we say call and see for yourselves. See card, page 232.

J. V. Jeffreys, Undertaker, No. 125 State St., Rochester, N. Y., keeps Caskets and Coffins of all kinds and attends Funerals at short notice. Everything connected with the Undertaking business is attended to at all times. See card, page 232.

Seymour, Morgan & Allen, manufacturers of the New Yorker Self-Raking Reaper and Mower, Brockport, N. Y., advertise on colored page 189. This is one of the oldest machines in use, and is pronounced by competent judges the most reliable. Various improvements have been made as they were suggested by its use until it approaches as near perfection as the genius of skilled mechanics can make it. It has carried off the highest prizes in several field trials where the best machines have entered into competition with it, and is pronounced by farmers unsurpassed. Let those interested give it a trial.

Attention is specially directed to the large and extensive stock of goods offered by Wisner & Painter, 37 State St., Rochester, N. Y. This old established House is among the largest in their line in this country. They spare no pains or expense to get the latest and most stylish patterns of French China, White Granite Ware, Kerosene Lamps and Chandeliers, Cutlery, Britannia, Silver Plated Ware and House Furnishing Goods. They have just received and are now in the hands of Wm. A. Vance, 66 and 68 State St., Rochester, N. Y., advertises on page 202. Those who desire any kind of Ornamental Hair Work will do well to visit the shops of Mrs. C. A. Tucker & Ac, manufacturer of Hair Jewelry, Wigs, Ac, over 56 and 68 State St., Rochester, N. Y., advertises on page 202. Those who desire any kind of Ornamental Hair Work will do well to visit the rooms of Messrs. H. McKay & Co., the proprietors, offer great inducements to all wishing any article of their make. For particulars see advertisement on page 202.

The Webster Carriage Manufactory is an old and well established concern whose work can always be depended upon. Messrs. H. McKay & Co., the proprietors, employ none but good workmen and the best of materials, and those purchasing any of their manufacture may rely upon getting the worth of their money. We cordially commend this establishment to the patronage of the public, feeling assured that we are doing the public a favor as well as the proprietors of the manufactory. Repairing and Job work of all kinds promptly attended to. They advertise on page 378. Give them a call.

WYLAND, Geo., confectioner and fruits, 125 Main.

Ward, Geo., confectioner and fruits, 125 Main.
PUBLISHER’S NOTICES.

The Rochester Chronicle, published daily, semi-weekly and weekly, at No. 36 Smith's Arcade, Rochester, N. Y., has recently entered upon the second year of its existence with the most flattering prospects. Seldom has a newspaper attained so wide a circulation or so strong a hold upon the public during the first year of its existence. A first-class Book and Job Printing Office has been established in connection with the Chronicle, where all work will be executed in the best style of the art. The paper speaks for itself. It is advertised on page 283.

IS. B. Booth, Son & Co., have just opened a splendid assortment of Clocks, Watches, Jewelry and Silver Ware at No. 5 State Street, Rochester, N. Y. The furniture and fitting of the store are of the most elegant design and finish. The handsome wall cases are filled with chaste and valuable Silver Ware, while the counter display contains a superb assortment of Watches and Jewelry of all descriptions, including rich diamonds and other precious Bettings. The repairing department is complete. The basement is devoted to Clocks, every desirable description of which may be found there. We have no doubt they will receive the patronage they merit. See advertisement on page 273.

William Morley, manufacturer of Spring Beds, Mattresses, &c., No. 123 Buffalo Street, Rochester, N. Y., has for nearly a quarter of a century been identified with the Upholstering trade of this city. The number of Beds, Sofas, Chairs, Cushions, &c, he has manufactured during this time and which have served to give their possessors comfort and ease, could not be expressed without a goodly array of figures. His experience and superior workmanship give him the preference over other tradesmen in his line, while his affable manners and reasonable prices please all. His stock also includes Furniture, Feathers, &c. See card on page 264.

Wm. Muleahy, dealer in Boots and Shoes, No. 51 Main Street, Rochester, N. Y., has long been noted for his success in booting his customers, so that they almost always turn upon him and give him another chance. His stock and prices are such as the public desire. He publishes an illustrated advertisement on page 264.

Adam Springfield, Artist, No. 98 State Street, Rochester, N. Y., advertises on page 292. Persons in want of anything in the line of picture-making or photographing, and particularly friends should call on Mr. Springfield and examine specimens of his work. It is wonderful to what degree of perfection an old and almost defaced picture can be brought by the assistance of artistic skill. If you have a faint shadow of a picture of friends that are no more, do not despair of obtaining a life-like likeness of any size by calling on this artist.

Wheat & Davidson, manufacturers of the Flour City Grain Cleaner, advertise on colored page 293. The farmers who cultivate spring wheat and barley have long felt the want of a machine that will separate mixed grains, and do its work easily and perfectly. Those who have seen this machine in operation say it works perfectly. Farmers will no longer be compelled to sow mixed grains, or to take them to market and submit to a deduction which buyers always make. The Flour City Grain Cleaner costs but a trifle more than the best sifting mill and does all their work and so much more. It must supersede all other mills in use. This machine was patented only a few months since by Messrs. Wheat & Perry, the latter gentleman, C. Perry, Esq., of this city, taking an interest by assignment. These machines have been examined by practical men who declare that the thing sought for has been found at last. The invention is as simple as any of the Foot of Aqueduct Street, Rochester, N. Y.

Peter Pitkin, manufacturer and dealer in Cut Stone of all kinds, No. 92 West Avenue, Rochester, N. Y., keeps a large assortment of stone of the most desirable kinds used for building purposes, all of which will be cut and furnished to order. Persons in want of anything in the line of stone for buildings, monuments or posts, will consult their own interest by calling on Mr. Pitkin. See card, page 356.

Boyd Brothers &c Gridley, manufacturers and dealers in Carriages and Sleighs, Clinton Street, Brockport, N. Y., advertise on page 300. This firm have sent out some of the best work in this vicinity; they need only to be known to be patronized extensively. Good material and good workmen, with a thorough knowledge of the wants of the community, have given them a position among the carriage manufacturers of the county. Give them a call.

Godfrey &c Co's Sunbeam Gallery, Nos. 79 and 81 Main Street, Rochester, N. Y., is the place to go for pictures. Their facilities for taking pictures are unsurpassed, and thousands can testify from actual trial that no better pictures are taken in Western New York. No person will be expected to pay for a picture unless it is satisfactory. For particulars see advertisement on page 256.

J. Morton & Co., manufacturers of Children's and Men's Clothing, No. 10 Main Street Bridge, Rochester, N. Y., advertise on page 280. This firm give special attention to the manufacture of Children's Clothing of the latest styles, and keep constantly on hand a large assortment of goods suitable for children's wear, all of which will be sold at reasonable rates. Their stock of Ready-Made Clothing of their own make is extensive and various and of the latest styles.

PUBLISHER'S NOTICES.

Rochester Evening Express
Printing House, 31, 33 and 35 Buffalo St., Rochester, N. Y., issues daily, tri-weekly and weekly editions. This paper 1B too well and favorably known in Western New York to need any commendation from us. As a newspaper or as an advertising medium it is worthy of the large patronage it receives. The Book and Job Printing department is supplied with all the facilities for first-class work. Tracy & New are the proprietors. See advertisement on page 274.

Johnston, Huntley & Co., manufacturers of Johnston's Self-Raking Reaper and Mower, Brockport, N. Y., advertise on colored page 132. This is one of the most valuable machines manufactured. As the Reaper and Mower have become indispensable to the farmer, it becomes them to get the best. This machine in some respects is without a rival; so say those who know. Let the farmers give it a trial.

Samuel R. Hart, manufacturer of Lumber, Brighton, N. Y., advertises on pages 146 & 156. He has a large steam saw-mill at which he is prepared to saw Lumber of any desirable size and at short notice. He keeps constantly on hand a large assortment, suitable for almost any conceivable use, and will sell at prices as low as is consistent with living. All who use Lumber, will do well to call on him before purchasing elsewhere.

McRodan & Co., Merchant Tailors and dealers in Beady Made Clothing, No. 17 Main Street Bridge, Rochester, N. Y., have a large stock of Cloths and Cassimeres which they will make up in a style unsurpassed in the city. No better goods can be found in the city and their prices are such as to attract a large class of customers, who may rely upon being fairly dealt with. See advertisement on page 354.

Peter Carle, manufacturer of Umbrellas and Parasols, No. 115 State Street, Rochester, N. Y., is prepared to furnish Bread, Pies, Cakes and Candies, in any quantities at short notice. Those who have patronized him know that he is always prompt to fill orders and furnish parties at reasonable rates. Give him a call. See card, pages 382 and 404.

J. E. Fonda, dealer in Hats, Caps, Furs, Robes, Umbrellas, &c., 7 State St., Rochester, N. Y., advertises on page 384. This is a good place for those to go who wish to select furs for the approaching cold weather, as they will find a good assortment and the latest styles. Give him a call.

E. Oompaugh & Brother, manufacturers of Shirts and Furnishing Goods, No. 36 Front Street, Rochester, N. Y., advertise on page 380. The shirts made at this place are the most perfect fitting of any ever introduced to the public. Those who once try them seldom go back to the old style. Call and see.

Taylor's Improved Steel Tooth Hay and Grain Rake, advertised on page 284, has won its way into use by its own merits. Those who have tried it, speak in the highest terms of its work and declare that it is the best in use. It works well in all kinds of grass, is simple, easily managed and is easier for the horse than most other rakes. Mr. Joseph Richardson, Rochester, N. Y., is the General Agent for Western New York.

Mendel Lipsky, manufacturer and dealer in Men's and Boys' Clothing and Furnishing Goods, No. 36 Front Street, Rochester, N. Y., publishes a card on page 396. Mr. L. keeps a good assortment of clothing which he will sell as low as any other house in the city. Give him a call.

Dr. W. H. Carrier, V. S., Rochester, N. Y., advertises his Hoof and Healing Ointment on colored page 360. This is pronounced by competent physicians and surgeons to be one of the best remedies in use for Founder, Scratches, Wounds, and many other ailments to which horses are liable. Give it a trial. Sold at all drug stores.

J. W. Howland, proprietor of the Fairport Bakery & Stave Manufactory, Fairport, N. Y., advertises on colored page 260. The best of materials used, and the best workmen employed. Barrels, Staves and Heading always on hand and for sale at the lowest market price. Call and see.

Augustus Witzell, Baker and Confectioner, No. 262 State Street, Rochester, N. Y., is prepared to furnish Bread, Fries, Cakes and Candies, in any quantities at short notice. Those who have patronized him know that he is always prompt to fill orders and furnish parties at reasonable rates. Give him a call. See card, pages 382 and 404.

E. D. Webster & Co., dealers in Boots & Shoes, No. 117 Main Street, Rochester, N. Y., advertise on page 318. Those in want of a good article at prices that cannot fail to please, will do well to call before purchasing elsewhere. Let no one fail to call before examining before purchasing elsewhere.

E. Harrison, Merchant Tailor, No. 38 Main Street, Brockport, N. Y., publishes a card on page 382. We take pleasure in calling the attention of those about to procure clothing, to this store, as we are confident there would not be so great a rush of old customers if he had not previously given them the best of fits. Try us.

Zweizig, Joseph, groceries and provisions, 98 Scio.
PUBLISHER'S NOTICES.

Union Advertiser, published by Curtiss, Morey & Co., Under Buildings, Buffalo Street, Rochester, N. Y., is advertised on page 288. This is one of the largest establishments in Western New York. The paper is known and read of all men throughout a large extent of country. As an advertising medium we commend it to the patronage of the business community. Every description of Book and Job Printing is executed in the best manner.

Corbit & Bradish, of the Genesee Agricultural Works, Batavia, N. Y., manufacture a great variety of the best Agricultural implements in use in this and adjoining States. Established in 1840, it has been constantly adding to the number and variety of articles until there is no place in the County where Farmers can so readily procure everything needed for the cultivation of their farms. Bead his advertisement on page 50.

Dominick Murta, Contractor and Builder, No. 21 Gorham Street, Rochester, N. Y., is prepared to take and execute contracts for House Building and Repairing of all kinds in the city or country. His well known integrity and promptness are a sufficient guaranty that work will be satisfactorily performed. His card appears on page 262.

R. B. Clark, Adams Basin, Monroe County, N. Y., is agent for the celebrated Ohio and Buckeye Mower and Reaper, manufactured by Dodge & Stevenson, Auburn, N. Y. This establishment is one of the largest of the kind in the country, and their machines are owned by thousands of farmers all over the country, who can testify to their many excellent qualities. The Reapers have a self-raking attachment so simple and effective in its operation as apparently to almost preclude any further improvement in this direction. For further particulars see advertisement on page 278. Mr. Clark is also agent for Monroe County for the Hollingworth Rake.

J. B. Stevens & Son, proprietors of the Rochester Wood Packing Box Factory, foot of Furnace Street, Rochester, N. Y., advertise on page 262. Boxes for all kinds of small fruits, peach crates, &c, are furnished to Fruit Growers and dealers at reasonable rates. Give them a call.

OT. D. Rowley, General Insurance Agent, No. 25 Buffalo St., Rochester, N. Y., advertises on colored page 121. Mr. R. has the agency for the Widows and Orphans Life Insurance Co., and for several of the most reliable Fire Insurance Companies, in which he will insure property of all kinds on the most reasonable terms. He is independent of all combinations and will insure at the lowest rates consistent with safety. Those who patronize Mr. Rowley will find him a gentlemanly and reliable agent. Call and see.

Trusses.—Professor Rainbow, 658 Broadway, New York, has invented a Truss which bids fair to supersede all others in use. It operates entirely by muscular action, having no metallic spring or band. It contracts and relaxes instantly without any perceptible movement of the body. It has been proved effectual where the Metallic Spring and Hard Rubber Truss had failed, and judging from the testimony of many respectable citizens of New York, who have tried it, we infer that all other kinds will soon be thrown aside. The Professor impart's much valuable information to those who call on him, and he appears to understand thoroughly the subject upon which he treats. We advise all who are wearing the old style of Truss to send a stamped envelope with their address for a circular. His card appears on page 212.

Genesee Falls Nurseries, under the proprietorship of H. B. Hooker & Co., are sending off annually a large number of the most desirable Trees, which give the best of satisfaction. To those who are planting out new orchards or filling up vacant places in the old, we would recommend to call at this Nursery. The office and grounds are at 250 North St. Paul street, Rochester, N. Y. See card, page 216.

B. F. Penny, dealer in Anthracite and Bituminous Coal and Kindling Wood, east end of Allen street bridge, Rochester, N. Y., is prepared to supply all customers with anything in their line. As cool weather approaches we must look out for fuel, and Penny will supply all orders. See card, page 216.

John Marron, Wagon maker and Blacksmith, No 161 Lake Avenue, Rochester, N. Y., will do all work pertaining to his trade in any part of the State, and does all, work usually performed at such an establishment, in the best manner and at short notice. See card on page 216.

George B. Barnum keeps a Flour and Feed Store at No. 96 East Avenue, Rochester, N. Y., where he supplies his customers with the best in the market at the lowest prices. A Bakery in connection with the establishment furnishes all the most desirable articles in that line. See card on page 216.

Warrant & Southworth, dealers in Stoves, House Furnishing Goods, &c, No. 26 South St. Paul Street, Rochester, N. Y. They keep the most approved articles in their line, and do all, work usually performed at such an establishment, in the best manner and at short notice. Their card appears on page 220.

Dr. Holland, No. 8 Elwood Block, corner of State and Buffalo Streets, Rochester, N. Y. He treats all chronic and other diseases in a scientific manner. For particulars see his card and give him a call.

Superintendent of the Poor.

Whiting, Addison N., Rochester

Surrogate.

Shuart, W. Dean, Rochester
PUBLISHER'S NOTICES.

ESTABLISHED A. D., 1850.—GREAT AT COMBINED TALENT.—Dr. E. J. REYNOLDS, Proprietor. W. C. LIS-PENARD, Consulting Physician and Surgeon, Rochester, N. T.

This is the only office in the city where a permanent cure of Private Diseases can be had without the use of Mercury or change of diet. We guarantee to cure GOORREEA, GLEET, SPHELIS, IMPOTENCY, NOCTURNAL EMISSIONS, OR SELF-ABUSE, DIURNAL EMISSIONS, FEMALE COMPLAINTS, in short, every possible form and variety of Sexual Diseases.

Dr. Reynolds' great work, "THE PRIVATE MEDICAL GUIDE," beautifully illustrated, with nearly 300 pages. Price 30 cents.

No letters will be answered unless they contain a remittance of one dollar, consultation fee. Consultation at the office free of charge. Consulting office and Operating Rooms, corner of Mill and Market Streets, (up stairs.) Persons calling will see no one but the doctor. The above concentration of medical talent ensures the sick a scientific and improved course of treatment, and a rapid and permanent cure. All letters addressed to D. B. E. J. REYNOLDS, Rochester, N. Y., will meet with prompt attention. All cures warranted. Office hours from 7 A. M. to 7 P. M. Please state where you saw my advertisement.

Dr. Reynolds' 

PUBLISHER'S NOTICES.

The Hubbard Mower, advertised on colored page 88, has been before the public a sufficient length of time to have its merits well tested. Simple in construction and easily operated it has won its way into favor by its own merits. Those who have used the machine and are competent judges, pronounce it one of the best manufactured. It is manufactured by the Rochester Agricultural Works, No. 100 South St. Paul Street, Rochester, N. Y.

National Art Association, advertised on the Map, has sent its publications into almost every town and hamlet in the country, making glad the hearts of all lovers of the beautiful. The publications of this Association are sold only by subscription, and we have never known an instance where a subscriber refused to take the work subscribed for on account of its not being equal to the sample. Mr. R. H. Curran, the senior member of the Association, has done a good work in introducing to the public, works of such artistic excellence, the products of the best artists in the country. A visit to the Art Gallery of the Association, corner of Main and Water Streets, Rochester, N. Y., cannot fail to please and instruct. Call and see for yourself.

Loder & Chapin, manufacturers of Glue, Neats Foot Oil, Curled Hair, &c, advertised on page 386. This Factory is located on the Genesee River, in the town of Brighton, one mile from the City of Rochester. The establishment turns out good articles, as all who have patronized them well know. We commend the proprietors of this establishment to all interested. Give them a call.

Union House, Charlotte Monroe Co., N. Y., under the proprietorship of Charles G. Wolf, affords good accommodations, good living and attentive waiters. The traveling public will do well to patronize this House. See card on page 568.

George W. Silcox, Stationer, Engraver and Lithographer, No. 67 S. Salina Street, Syracuse, N. Y., publishes a card on page 396. Mr. Silcox is prepared to furnish to order Coats of Arms, Monograms, Letter and Note Headings, and all work usually executed at such an establishment. Those who contemplate submitting their necks to the matrimonial noose will be glad to learn that Mr. S. will furnish Wedding visiting Cards of the latest styles and executed in the best manner. We have been enough of his work so that we can confidently recommend it to all in want of anything in his line.

Hanss Sc Meyer, Fashionable Hair Dressers, No 10 Washington Hall, Main Street, Rochester, N. Y., advertised on page 384. If you wish for anything in the line of shaving, or hair cutting and dressing, call on Messrs. Hanss & Meyer, and you will have it done in a manner equal to the best. Call and see.

Mrs. F. L. Van Dusen, Fashionable Milliner, No. 43 Main Street, Rochester, N. Y., is prepared to furnish her customers with Bonnets, Ribbons, and all goods usually found in a first class Milliner establishment. Those who wish to have work done in the most artistic manner will consult their own interests by giving Mrs. Van Dusen a call. See card on page 384.

Sanford Goff, dealer in Clocks, Watches and Jewelry, No. 30 Main Street, Brockport, N. Y., publishes a finely illustrated advertisement on page 304. Mr. Goff keeps an excellent assortment of all goods usually kept in a first-class jewelry store, and is selling at prices that cannot fail to suit purchasers. We confidently commend him to the patronage of the community generally. He has a Livery and Sale Stable on South Mechanic Street, a few steps south of the N. Y. C. R. R., where horses and carriages can be procured at short notice.

SURROGATE'S COURT.

Sessions daily. Hours, 10 a.m. to 12:30 p.m.; 2 to 5 p.m.

Philip Ernst, manufacturer and dealer in Harness, Saddles, Trunks, Whips, and all other articles usually kept at a first-class establishment, can be found at No. 50 Front Street, Rochester, N. Y., where he will supply all customers at low rates. Persons giving him their patronage once will be likely to call again. His card appears on page 368.

James H. Halpin, dealer in choice Family Groceries and Provisions, No. 143 Main Street, Rochester, N. Y., advertises on page 392. We take pleasure in calling the attention of our patrons to this store as they can always find a good assortment of Groceries and Provisions at prices as low as at any other place in the city. Mr. Halpin pays the highest market price for all country produce. Give him a call.

Gilman A. Selburne, manufacturer and dealer in Superior Clothes Bars and Wardrobe Hooks, Mill Street, corner of Platt, Rochester, N. Y., advertises on page 368. Those who have used these Clothes Bars and Wardrobe Hooks need no recommendation of ours. Let others call and see for themselves.

**D. K. Thompson**, General Blacksmith, Charlotte, N. Y., publishes a card on page 368. He thoroughly understands his business and gives particular attention to Horse-shoeing, a most important department and one in which very few men excel. Give him a call.

**P. H. Colbert**, dealer in Tobacco, Pipes, Cigars, &c., No. 3 South St. Paul Street, Rochester, N. Y., offers great inducements to all lovers of the weed in any form, to give him a call. If you want an elegant Meerschaum, a Cigar Case or Tobacco Pouch, you can find all that the most fastidious need ask for, and in the line of tobacco and cigars, he can suit the taste and purse of all customers. See advertisement on page 384.

---

**Koch & Co.**, dealers in Clothing and Gent's Furnishing Goods, No. 7 Front Street, Rochester, N. Y., are supplying the trade with goods of their own manufacture at prices as low as any other house in the city. Country dealers will consult their own interest as well as that of this firm by calling and satisfying themselves of the truth of our statements. They advertise on page 318.

**John B. Wegman & Co.**, manufacturers and dealers in Cabinet Ware, No. 44 Main St., Rochester, N. Y., advertise on page 70. If you wish good substantial furniture, plain or elegant, you can get it of Wegman & Co., of any desirable pattern. Their work is too well known to need any commendation from us.

PHOTOGRAPHS!

AT

TAYLOR & BACON'S,

OVER No. 55 MAIN STREET,

Odd Fellows Hall, - Rochester, N. Y.

A. A. LE CLEAR, - Operator.

NOTICE!

Men, Women and Children are required to appear at the Photograph Parlors of TAYLOR & BACON, Over 55 Main St., and invest to the extent of their CASH! Per order of PUBLIC OPINION.

Our facilities are such that we can produce Pictures of all descriptions made at a Photograph Gallery, on the most reasonable terms and in the very best style and quality.

We have made a specialty of Copying and Enlarging Old Pictures of Deceased Persons, in which we have been very successful in retaining the likeness, &c.

We paint or work up Pictures in India Ink or Water Colors, and as we do all of our own work we can give our patrons better work for the same money than is usual at other places. Call and See.
