(A) Date of Rochester's incorporation as a city. The city charter occupying eighty-seven pages was included in this number.

(B) Decrease.

(C) In 1867 and 1868 there was a very imperfect canvass made.

(D) In 1877-78 the freight yards and division headquarters of the N. Y. C. & H. R. R. were removed to Syracuse, which caused several thousand of the employees of the road and their families to change their residence to that city. Except for this, there would probably have been a slight increase in names in those years notwithstanding the extreme business depression of the time.

(E) Of this increase, 1,249 represented deaths and removals, which were this year given for the first time, leaving the net increase 692.

(F) Enlarged to octavo size, and printed in double columns for the first time.

For Square Measure the square of long measure is used. For measuring land—in the place of acre—the **centar** which is one square meter, equivalent to 1,550 square inches; the **ar** which is 100 square meters, equivalent to 119.6 square yards; the **hectar** which is 10,000 square meters, equivalent to 2.47114 acres, are used.

For Cubic Measure the cube of long measure is used; **ster** is used as a measure of wood in place of cord.

The mill, cent, dime, dollar, and eagle of U. S. money exactly illustrate the decimal system of the metric measures,—the mill, cent, dime, corresponding with the milli, centi, deci of the metric system.

Abbreviations.—For meter, liter, and gram, the small initial letter is used, viz: m. l. g.; each division deci, centi, milli, also is abbreviated by using the small initial letters d. c. m.; but each multiple, deka, hekto, kilo, myria, is abbreviated by using the capital initial letter D. H. K. M.

Equivalents.—1 inch equals .0254 meter, or about 2 1-2 centimeters; 1 foot equals .3048 meter, or about 30 centimeters; 1 yard equals .9144 meter, or ab. 10-11 of a meter; 1 mile 1609 meters, or ab. 1.6 kilometers.

1 U. S. liquid quart equals .946 liter, or a little less than 1 liter; 1 U. S. dry quart equals 1.101 liters; 1 U. S. gallon equals 3.785 liters, or about 3.8 liters; 1 U. S. bushel equals 35.24 liters, or about 4-11 of a hektoliter.

1 avoirdupois ounce equals .02835 kilogram, or a little less than 30 grams; 1 Troy and apothecaries ounce equals .03110 kilogram, or a little more than 30 grams; 1 avoirdupois pound equals .45359 kilogram, or about 5-11 of a kilogram; 1 long ton—2240 pounds—equals 1016.05 kilograms, or about 1 metric ton.

Basis of the system.—1. The unit of length, the meter, is the ten millionth part of a quadrant of the meridian of Paris, being 39.37 inches, nearly. 2. The unit of surface, the ar, is the square of ten meters, or a hundred square meters. 3. The unit of capacity, the liter, is a cube whose edge is a tenth of a meter. 4. The unit of weight, the gram, is the weight of a cube of rain-water, whose edge is an hundredth of a meter. From these four primary units all others are derived according to the decimal scale.

Where used.—The system is adopted by the following countries: in exclusive use in France, Germany, Austria, Belgium, Holland, Italy, Spain, Portugal, Norway, Switzerland, Roumania, Brazil; in partial use in Denmark, Greece, Argentine Confederation, Venezuela; legalized, but not in general use, in the United States, Great Britian, Russia, Norway, Sweden, Turkey, Mexico, Chili, Costa Rica, Equador, Peru, U. S. of Columbia, Uruguay. In Sweden compulsory law will take effect in 1889.

STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of State street No. 425 comes: look at State street and you find that Brown street runs from 391 left side, and Jay street from 473, showing that No. 425 comes on the left side of State street between Brown and Jay. When streets are not numbered, dashes are used to indicate whether the street runs from the right, the left, or crosses.

Even numbers are invariably upon the north or east side of streets, and **odd numbers** upon the south or west side.

Streets on the east side of the river which run east and west are usually numbered from the **west toward the east**; those on the west side from the **east toward the west.**

Streets north of Main street which run north and south are usually numbered from the **south toward the north**; those south of Main street from the **north toward the south.** In Rochester, as in all cities, street numbers usually begin at the end of the street nearest the centre of the city.

THE CIVIL SERVICE.

For State Board of Commissioners, see Index of Contents.

By enactment of the legislature, all positions in the public service of Rochester (excepting those filled by public election, the heads of departments, and positions under the city treasurer or the Board of Education) must be filled from applicants who have successfully passed an examination by a board of civil service examiners.

The boards, consisting of three members, are appointed by the mayor, and not more than two members can be of the same political party.

Whenever a position is to be filled the examining board will notify the applicants on record, or such number of them as can be conveniently examined, to appear for examination, and appointments must be made by the appointing power from the three applicants who shall have the highest standing in such examination, persons who served in the army or navy in the late war having preference over others *if of equal standing*. Removals from office can be made without cause as heretofore. The civil service is classified as follows:

Schedule B, Part 1. Includes all officers and members of the Police and Fire Departments.

Schedule B, Part 2. Includes subordinate officers, clerks, and assistants not included in Part 1.

Laborers and day workmen are not subject to examination.

EXAMINING BOARDS.

Schedule B, Part 1. Francis A. Schoeffel, *Chairman;* Henry W. Mathews, Jonas P. Varnum.

Schedule B, Part 2. Lewis P. Ross, *Chairman;* Wm. F. Peck, David Hays. *Secretary*, George A. Benton

FIRMAN & WEBB'S

INSURANCE OFFICE,

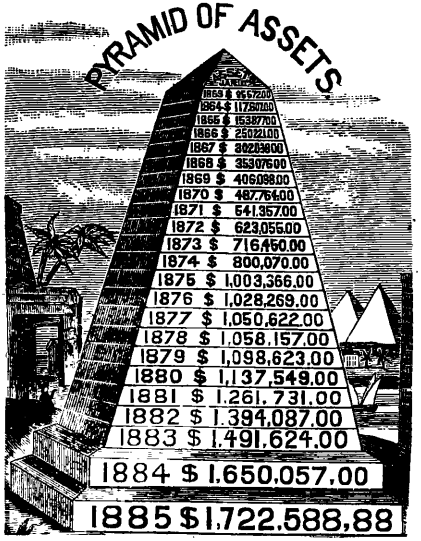

12 Smith's Arcade, Rochester, N. Y.

Agricultural Ins. Co., of Watertown, N. Y

The attention of owners of

Farm Property and Residences

is invited to this Pyramid, showing the uniform and sure growth, during the last twenty years, of a Fire Insurance Company, whose charter limits its business to their class of property—the **AGRICULTURAL INSURANCE COMPANY, of WATERTOWN, N. Y.** The figures represent the amount set apart at the dates given, for the PROTECTION OF POLICY HOLDERS.

Thirty-one years of patient toil has made this the

STRONGEST AND LARGEST COMPANY

doing an EXCLUSIVE Dwelling Business in the United States, and probably it is not equaled by any Company of its kind in the world. It now issues

70,000

POLICIES A YEAR.

It insures your Buildings against damage by Lightning, whether fire ensues or not, and your Live Stock against being killed by lightning in the fields.

Incorporated under the Laws of the State of New York, 1884.

OFFICERS.

CHAUNCEY VIBBARD, President. REUBEN ROSS, Treasurer.
WM. A. COLLINGWOOD, Vice-President. JUDSON J. BLAKE, Secretary.
JAMES ROSS, M. D., Medical Director.

The Society issues Bonds upon the Lives of its members, in amounts from $1,000 to $10,000, payable at death, to the beneficiary. Bonds of less than $1,000 are issued in the Industrial Department, on a slightly modified plan. The rates of mortuary payments are graded according to age, and are based upon the American Experience Tables of Mortality. The annual dues are $2.00 per $1,000 of benefit, which is only one-fifth of one per cent. on the face of the bond. Applicants for this form of indemnity are accepted from the ages of 15 to 64, and will be required to pay, upon entering the Society, the admission fee, the annual dues, and the medical fee, which are the same for all ages, on bonds of equal amount. The mortuary rates vary according to age.

Parties having horses with diseased hoofs, or troubled with lameness of any kind, can leave them in my charge and have them treated in my stable till permanently cured.

Will attend horses at the stable of the owner, if desired; but the best results can be obtained in my own stable, where constant attendance is provided.

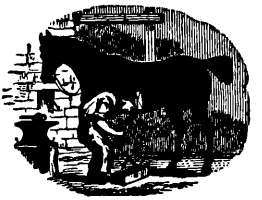

If, in any case, I should fail to cure a horse as represented when first taken, the only expense to the owner will be the price of his keeping at reasonable rates.
