Do you take a daily or a weekly? But paramount, in the way of queries, let us ask you, do you take the UNION AND ADVERTISER, the people's paper? If you do not, let us briefly tell you why you would be pleased with this, the leading publication of Western New York.

1st. The UNION has all the news. And it has it fresh on the day of its occurrence. You will find the local happenings of your neighborhood in the UNION as well as the events of the world for the day.

2nd. The UNION is the great family newspaper of this section. It is enterprising in the securing of the best special matter on art, fashion, humor, travel, and other general topics, extant. Its miscellaneous reading is culled from the best current literature of the day and every department is fresh, interesting, instructive, clean, wholesome, diverting and entertaining. Editorially, no paper in the State is more vigorous than the UNION.

3rd. The UNION gives especial attention to its market reports. They are to be relied upon, whether quoting the price of butter or stocks on the Chicago or New York Boards. This feature of the UNION makes it invaluable to the farmer as well as to the business man.

DAILY.

The price of the Daily is $6 per year, delivered by carriers in Rochester, and sold at all news stands throughout Western New York.

WEEKLY.

The Weekly is the same size as the Daily, 8 pages or 56 cols., and is filled to the brim with the best matter going. Send for a sample copy, free. You ought to get the Union.

Central Library of Rochester and Monroe County • County Directories Collection
STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From the list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of State street No. 425 comes look at State street and you find that Brown street runs from 391 left side, and Jay street from 473, showing that No. 425 comes on the left side of State street between Brown and Jay.

Or, going up West avenue, suppose it is wished to take a cross street so as to call at 312 Troup street; on examination (see Troup) you find that 306 Troup is at the corner of Reynolds street; hence, by passing from West avenue through Reynolds street to Troup, you are near the desired number 312. When streets are not numbered, dashes are used to indicate whether the street runs from the right, the left, or crosses.

Even numbers are invariably upon the north or east side of streets.

Odd numbers are invariably upon the south or west side of streets.

Streets on the east side of the river which run east and west are usually numbered from the west toward the east; those on the west side from the east toward the west.

Streets north of Main street which run north and south are usually numbered from the north toward the south; those on the south side from the north toward the south.

In Rochester, as in all cities, street numbers begin at the end of the street nearest the center of the city.

Number of miles of streets in city, 220\frac{1}{2} miles; alleys, 16\frac{1}{2} miles.

For Square Measure the square of long measure is used. For measuring land—the place of acre—the centar which is one square meter, equivalent to 1550 square inches; the ar which is 100 square meters, equivalent to 1936 square yards; the hectar which is 10,000 square meters, equivalent to 2.471 acres, are used. For Cubic Measure the cube of long measure is used; meter is used as a measure of wood in place of cord. The mill, cent, dime, dollar, and eagle of U. S. money exactly illustrate the decimal system of the metric measures,—the mill, cent, dime, corresponding with the milli, centi, deci of the metric system.

The unit of weight, the gram, is the weight of a cube of rain-water, whose edge is an hundredth of a meter. From these four primary units all others are derived according to the decimal scale.

### Where used.

The system is adopted by the following countries: in exclusive use in France, Germany, Austria, Belgium, Holland, Italy, Spain, Portugal, Norway, Switzerland, Eoumania, Brazil; in partial use in Denmark, Greece, Argentine Confederation, Venezuela; legalized, but not in general use, in the United States, Great Britain, Russia, Norway, Sweden, Turkey, Mexico, Chili, Costa Rica, Equador, Peru. Veterinary Surgeon & Horseshoer.

Parties having horses with diseased hoofs, or troubled with lameness of any kind, can leave them in my charge and have them treated in my stable till permanently cured. Will attend horses at the stable of the owner, if desired; but the best results can be obtained in my own stable, where constant attendance is provided.

If, in any case, I should fail to cure a horse as represented when first taken, the only expense to the owner will be the price of his keeping at reasonable rates.

The greatest pains taken in fitting shoes and looking after diseased hoofs.
