EXPLANATION.

The small italic letters, *n. s. e. w.* standing for north, south, east, and west, are prefixed to the names of such streets as cross the canal and Main, Buffalo, and State-streets. That part of State-street which passes through the 2nd ward, beginning at Mumford and Ann streets is designated *north* State-street, and Exchange-street south of the canal, *south* Exchange-street, &c. Fictitious numbers are used on several streets which have not been regularly numbered, for convenience sake, which No. the houses instead of the doors; for instance, Archiles, H. L., tinner, h. 4 North-street. The small *h.* designates the house or residence, and *b.* the place of boarding; and where two streets are mentioned with a name, the first shows the place of business or office. The name of persons of colour are in *italic*.

☞ Several names were inadvertently omitted together with several persons who have taken up their residence in the city since taking the census.
