## JOHN ALLEN'S CLINTON LINE.

The subscriber, grateful for the patronage which has been so liberally extended to him during the past year, begs leave to say to his friends and the public, that having added a number of New Boats to his already superior Line, he will be ready, on the opening of Navigation, to forward the Passengers and Freight with which he may be favored, with that comfort and despatch for which his Line has been hitherto distinguished. His Agents are men of the most active business habits. His Captains are experienced and attentive. His Boats are numerous, new, and of the First Class; and running in connection with the Eckford Line Tow Boats on the Hudson River, and C. M. Reed's Steam-boats, and other vessels on Lake Erie and the Upper Lakes, he flatters himself that the business entrusted to his care will be performed in a manner satisfactory to his patrons.

PIANO FORTE AND

CITY MUSIC STORE,

No. 36 State-street, two doors north of city Bank, Rochester, wholesale and retail dealer in Musical Merchandise of every description:—Also, agent for Gilbert & Co's. celebrated Piano Fortes—and also for L. Gilbert's celebrated Piano Fortes—likewise for A. Prescott's Seraphines, Melodions, double Bass, Violoncellos, &c., &c.

## L. T. CHADWICK, Manufacturer & Dealer in Seraphines,

NO. 67, EXCHANGE-ST., (UP STAIRS.)

*Directly opposite the "Rochester House," Rochester.*

THIS instrument is admirably adapted to both Church and Parlor Music. It combines the essential qualities both of the Organ and Piano Forte, with the advantages of cheapness and durability. The principle consists in substituting reeds for the pipes of the Organ and the strings of the Piano Forte, and is much less liable than either of the latter instruments to get out of tune.

Country Churches whose means are inadequate to the purchase of an Organ, will find the Seraphine a complete substitute.

The construction is so simple, that they can be packed and sent to any part of the country with perfect safety. PRICE, from \$100 to \$200.

N. B.—All orders promptly attended to. The subscriber has also on hand several Piano Fortes, and will be constantly receiving additions to his stock, from the best makers in New-York and Albany. Those wishing to buy, will find it an object to call and examine his instruments before purchasing elsewhere.

## LIFE, FIRE, AND MARINE INSURANCE OFFICE, ROCHESTER.

### H. A. BREWSTER

ACTING as Agent for several old and responsible Fire and Marine Insurance Offices, devotes his time exclusively to this and other *Commission Business, Collection of Rents, Payment of Taxes, Sales of Real Estate, Purchases of Flour, Wool, and other Produce*; and also makes advances on consignments of Flour, Wool, &c.

REFER TO.. Charles M. Lee, Esq., Hon. Addison Gardner, Rochester; Nathan Appleton, Esq., Reed, Hurd & Co., and W. & S. Phipps & Co., Boston; Lemuel Pomeroy, Esq., Pittsfield; E. Corning & Co., and Henry L. Webb, Esq., Albany; R. & N. Dart, and Peter H. Schenck, Esq., N. York; Hon. Henry Brewster, Le Roy; Joseph Dart, Esq., Buffalo.

THE MUTUAL LIFE INSURANCE COMPANY OF NEW YORK, No 44, Wall-street.—This Institution, since its organization on the 1st of February, 1843, one year, has issued upwards of four hundred and seventy policies; the aggregate amount of premiums on which, give a capital of more than double what its charter required to commence with, and greatly exceeding the requisite amount to meet any probable annual losses on this number of insurances, as is tested by the most approved tables giving the rates of mortality, and by the experience of the oldest and most distinguished Life Offices in this country and in Great Britain. Its capital is now rapidly augmenting by the second year's premiums becoming due and from the daily accession of new members.

The unexampled success of this company affords strong evidence that the mutual principle of Life Insurance is growing in public favor and confidence, and that the important benefits resulting from it need only to be known to vastly increase its business and extend its usefulness.

To illustrate the advantages of the Mutual plan of Life Insurance, we cite a case from the "Equitable Society of London," viz: an insurance in the sum of \$5,000 for 34 years' continuance, commencing at the age of 25, and terminating at 59; the accumulated profits thereon gave to it \$11,250—making, with the sum insured, a total amount of \$16,250, payable to the survivors, more than three times the insurance.

This company will grant insurance on lives upon the mutual principle, at their office, No. 44 Wall-st. Persons may effect insurance on their own lives, or the lives of others, and either for the whole duration of life, or for a limited period.

The terms of insurance are as favorable as those of any similar institution in the United States.

The nett profits of the business of this company will be divided among the insured in proportion to the amount of premiums paid by them. The liabilities of the members extend no further than the amount of the respective premiums paid.

SAMUEL HANNAY, Secretary.

MORRIS ROBINSON, President.

MINTURN POST, M. D., Physician to the Company.

# FIRE INSURANCE!

## *Mutual Safety Insurance Company*

OF THE CITY OF NEW-YORK :

**SECURED PROFITS, \$507,500.**

This Company having established a permanent agency in this city, are prepared to issue policies on property in this city and elsewhere, at the lowest rate of premiums.

While the premiums charged, conditions of insurance, and general mode of transacting business, are precisely similar to those of the most approved stock companies, the nett profits of this company, instead of being paid to stockholders, are to be divided among those who pay the premiums, in proportion to so much of the amount paid by each, as shall be earned, on the 18th of December of each year; and script certificates are issued for the same, bearing such interest as arises from the investment of the nett profits in bonds and mortgages and public stocks.

It is presumed that the premiums of each year will not only pay all losses and expenses of that year, but will enable the company to divide a surplus among the insured, thereby also increasing the security of the insured, which now consists of the accumulated profits of five years, five hundred seven thousand, five hundred dollars.

The charter expressly provides, that the insured cannot, in any case, incur a loss beyond the amount of his premiums.
