BELLS! BELLS!

The Subscribers manufacture and keep constantly on hand all sizes of CHURCH, FACTORY, STEAMBOAT, FERRY, LOCOMOTIVE, SCHOOL HOUSE, and PLANTATION BELLS. These Bells are hung with the patent iron yokes, with movable arms. They can be turned around so that the clapper will

erbine in a new place,

which is desirable after a bell has been rung a few years. Springs are affixed in a new way to prevent the clapper from resting on the Bell, thereby prolonging the sound. These Bells are manufactured from the BEST STOCK and are

CAST IN IRON GASINGS.

At this Foundry these were FIRST USED and are found to be a great improvement. We give a written warrantee that if Church Bells break within one year from date of purchase, with fair usage, we will recast without charge.

THE TONE OF ALL BELLS IS WARRANTED.

Nearly 9000 Bells have been cast and sold from this Foundry, which is the best evidence of their superiority. We have 15 Gold and Silver Medals, awarded from the various Fairs "for the best Bells for sonorousness and purity of tone." We pay particular attention to getting up PEALS or CHIMES, and can refer to those furnished by us. Our Foundry is within a few rods of the Hudson River, Erie Canal, and Rail Roads running in every direction. As this is the largest Establishment of the kind in the U.S., and has the

LARGEST ASSORTMENT OF BELLS,

orders can be filled with great despatch. We can refer to bells in any of the States.

Old Bells taken in exchange for new ones. Levels, Compasses, &c., constantly on hand. Address

MORGAN & LAWRENCE,

dentists,

AT THE OLD STAND, CORNER NORTH ST. PAUL AND MAIN STREETS, GAFFNEY'S BLOCK,

Have the finest suit of rooms, and one of the oldest established offices in this city.

Having made some very important discoveries of late, we are now prepared to offer to the public some thing in the line of Artificial Teeth, which quite equals natural ones, rendering mastication a pleasure, accompanied by no irritation or pain whatever. Atmospheric Plates made to adhere to the gums so closely that it is with the utmost difficulty they can be removed for cleansing. Particular attention is paid to the arrangement of the Teeth, so as to give a natural expression to the face, and render it impossible to detect them from the natural organs.

We consider the enumeration of the various diseases arising from decayed and ulcerated teeth quite out of place in this enlightened day and generation, when almost every person has experience on the subject; and also the statement that by the timely aid of a good

operator, these troubles can be avoided.

We would simply say, by removing the decayed portions, and cleansing the cavities, and having gold fillings skillfully inserted, teeth can be preserved to almost any period of life. After an experience of 15 years we have entire confidence in our ability in every branch of the profession, to give to our patrons perfect satisfaction.

Dr. R. would say to his numerous friends, that he pays particular attention to Diseases of Females, and from the success which has hitherto attended this branch of his profession, he flatters himself that the results of his treatment will prove satisfactory to those who place themselves under his care.

He may be consulted at his rooms from 2 to 5, P. M. A few patients can receive treatment at his house.

[Emery's Patent Rail Road Horse Power, Threshing Machine and Separator.]

The subscriber, late from the establishment of Emery & Co., Manufacturers at Albany, where he has been engaged for the past six years has been appointed their Sole Agent in Rochester and Western New York, for the sale of Emery's Celebrated Railroad Horse Powers and Threshing Machines; Circular and Cross-cut Saw Mills Feed Mills, Corn-stalk and Hay-Cutters, &c., adapted to the Power, and now offers them at manufacturer's prices, with the transportion added, and subject to the warrantee, as follows: . To work to the satisfaction of the purchasers as represented in circulars and catalogues, or to be returned within three months, and full purchase money to be refunded." The attention of farmers is solicited, and a careful investigation into the construction of this Power, and its comparative merits, as well as price requested, before purchasing elsewhere. He is also agent for their Combined Resper and Mower, and keeps constantly on hand, Plows, Hay Cutters, Corn Shellers, Seed Planters, &c., comprising a complete and extensive stock of Agricultural and Horticultural Implements generally, together with a full assortment of Field and Garden Seeds, of the best imported and Shaker growth. He is also agent for the ale of Seymour & Morgan's New York Reaper, Pierpont Seymour's Grain Drills and Broad-cast Sowers, Wheat Cultivators, Gang Plows, Clover Hullers, Cider Mills, Clover Gatherers, Horse Rakes, Scythes and Snaths, Hand Rakes, Grind Stones, &c. He will be prepared to furnish dealers with Dunn and Taylor's well known Scythes; also Manure, Straw, and Hay Forks, Snaths, Rifles and other having tools at manufacturers' prices, wholesale and retail.

Particular attention is called to a New Plow, which is believed to be the best Cast Iron Plow ever offered, and which is warranted to do better work, with less expense of team, than any plow heretofore sold in Rochester—while the price is less than any other equally well finished. The "uniform one price system" will be adopted, with prices as low as the cost of articles, and just compensation of labor and

time will allow.

D. GRYPLIE GRANE,

dentist.

42 State Street, Rochester.

The Teeth have been our constant and untiring care for the last twenty years, during which time, most that is now considered valuable, as regards improvement, and which forms the basis of our present mode of operation, has sprung np. It cannot be supposed that while others all over this land and Europe, have been eager in the elevation of science, fraught with so much good to man, that we, ourselves have been idle; assuming such position, we offer the following—space however, forbids even an outline of what might, and should be said

on the various departments of Dental Science.

The most important branch of Dental Surgery, is that of Filling Teeth with pure gold, and it has long been our belief, that all teeth. however frail in organization or structure, combined with other incidental adverse conditions of the system, may be preserved during a long life; but in order to effect so desirable a result in this age of luxury and ease, we must commence with the child of five or six years, directions adhered to until the teeth by age have acquired a density sufficient to ward off those agents which in early life so readily destroyed them. The opinion extensively prevails among our best medical writers, that teeth natural or artificial are indispensible to health, not only in mastication by which the food may be finely comminuted. but that the air we breathe should be received into and expelled from the lungs in the natural way—graduated as it were by the teeth. Our sets of teeth, mounted on gold plates and inserted in our own peculiar way, give entire satisfaction to all. We use no spiral springsfor the last twelve years we have not used them in a single instance, however difficult the case. For more extended remarks; see Guide to Sound Teeth, by D. Orville Crane, M. D., D. D. S.

THE undersigned solicit the attention of the public to the following articles: which they keep constantly on hand and for sale, at their Manufactory and 166 Pearl-st., New York:

Railroad Track and Depot Scales, Heavy Iron Scales on Wheels. Wheat or Hopper Scales, Coal and Hay Scales, Farmer's Cattle Scales. Flour Packing Scales, Portable Platform and Counter Scales. Warehouse Trucks and Sugar Mills.

Covert's Fire-King Safes, Baggage Barrows. Locomotive Lamps. Conductors' Signal Bells, Railroad Manifest Presses Copying and Notary Seal Presses, Sweet's Patent Excavating Scraper,

1841.

Canal Weigh Lock Scales made to order, from 100 to 600 tone, and any required capacity.

Our Morro is, to excel in the articles we manufacture; therefore the best materials are used. The best model and plans are adonted to make them the most desirable in the market.

All the Scales manufactured at this establishment, are made under the immediate supervision of our Mr. Duryrs, who is a practical mechanic of long experience in the manufacture of weighing machinery, and can be relied upon as being as "Durable and Accurate" as any scales in the market; the bearing edges are made of the best Cast Steel, well tempered, and great care taken in their adjustment. The facilities that we have for manufacturing with new and improved machinery, and the central position we occupy for shipping to the different markets, enables us to offer inducements to Railroad Companies, Merchants and others, that are not to be met with in other similar establishments.

COVERT'S FIRE-KING SAFE is manufactured under the supervision of the original inventor. Patent Locks, of the most approved kinds, furnished to order. We have received from the New York State Agricultural Society, the

FIRST PREMIUMS, DIPLOMAS AND SILVER MEDALS,

annually, since 1848, for the best Scales on exhibition. We have also received the DIPLOMAS and SILVER MEDAL of the American Institute, New York, and DIPLOMA of the Mechanics' Fair. in Boston. Also, the HIGHEST PRE-MIUMS, IN MONEY AND DIPLOMAS, of the Provincial Fair in Canada, and State Fairs in Ohio and Michigan. Also, SILVER CUP, CASH PREMIUM and DIPLOMAS of the Indiana State Fair of 1852.

Should you favor us with your orders for any of the above articles, they Respectfully yours.

DURYEE & FORSYTH, Rochester, N. Y. will receive prompt attention.
