Nos. 45, 47, 49 AND 51, MAIN-ST., ROCHESTER, N. Y.

In his MANUFACTORY and Music Rooms has constantly

25 to 50 FINISHED PIANO FORTES,

50 to 100 IN PROCESS OF CONSTRUCTION,

From 61½ to 7¼ Octaves.

From 230 to 700 DOLLARS.

Each Piano has the Four Indispensable requisites to a perfect instrument.

1—An elegant and complete Iron Harp Frame.

2—The Iso-Chordal Scale.

3—The Iso-Baron Damper.

4—Starr's Patent Hollow Cylindrical Retinaculum.

This last is a recent invention patented by myself in 1855, and is believed to be of more value to an instrument and service to the purchaser than any improvement for many years. They speak for themselves. Their Touch, Tone, Volume, and Sweetness, are unrivalled. The State Fair endorsed their merits by the THREE HIGHEST PREMIUMS. And years of experience, have proved them WORTHY of all the encomiums, then and since bestowed upon them.

We rest them on their intrinsic merits. Visitors, as well as purchasers, and those having curiosity, are invited to Come, See, Hear and Examine in any way they please, and judge for themselves, if they are not BETTER and CHEAPER than any others in the market. PREFACE.

---

A DIRECTORY is essential to every business man, and with the enlarged population of each new year, it becomes more and more necessary. Our city was estimated in 1853 to contain at least 45,000 inhabitants. The census which is now being taken, will no doubt show an increase of population. The great number of elegant and costly public buildings, and private dwellings, erected within the past two years, give evidence of the permanent growth and general prosperity of the city.

No one can tell in advance, how much labor may be saved, and how much inconvenience may be obviated, by having at hand such an index as this, for reference and consultation. It contains a full register of names, a list of streets, an exhibit of all the public institutions, benevolent, religious and financial, and a mass of general statistics, attainable in no other shape, and indispensable to every citizen. Every public office, store, counting room, hotel and mechanical establishment, should possess this Directory.

The publisher, in presenting the Directory for 1855 and '56, takes this occasion to state that no effort has been omitted, in the gathering and compilation of matter, which would tend to render it accurate, reliable and full, and worthy of the entire approval of the public. good Directory is only to be made by immense labor and diligence, and it would be claiming an impracticable degree of perfection, to say, that the work now submitted, is free from omissions and errors. There is, in many instances, great difficulty in obtaining the requisite information in correct form, owing to the carelessness of individuals in giving their names, residences and business. All we can say, is, that every effort has been used, to have the mistakes as few and immaterial as possible.

The compilation and publication of a Directory is attended with great expense, and it cannot fail to be a loss to the publisher, unless

1- 579521

## PREFACE.

a liberal and numerous subscription is made to it. The publisher designs in future to issue an ANNUAL Directory. This is demanded by the size of the city, and the multifold changes incident to a busy and growing population. The success of the present, will determine with what degree of safety an annual enterprise of this kind can be entered upon. It is hoped that the excellence of this volume will commend it to all business men.

The usual statistics and other local information, will be found much enlarged in the present Volume, by the addition of a large quantity of new matter of local interest, that has not heretofore appeared. We need not attempt to particularize in this respect, the book will show for itself.

The statistics, &c., of the various Benevolent, Literary, Horticultural, Fire, and Military Associations, &c., of the city and county, are believed to be full and accurate, affording much valuable information. The statistics relating to Religious Societies have been greatly enlarged by giving the names of the officers connected with each. It is believed that this record will be found useful.

The table of Streets, Alleys and Public Squares, alphabetically arranged, will be found of great convenience, not only to strangers, but to our own citizens.

A colored Map of the city, altered and corrected expressly for this work, and conveying a correct idea of the topography of the city as it is, is inserted. It delineates the names of the Streets, the Public Squares, the location of the Churches, Schools and the Wards, with their boundaries. The importance of such a Map is obvious to every one.

The publisher tenders his acknowledgments to those ladies and gentlemen who have kindly furnished statistics, in regard to the Societies with which they are connected.

The reader is particularly referred to the Advertisements at the close of this work. That portion of the business community, who have taken this prominent means of giving extensive and permanent publicity to their several kinds of business, cannot fail to reap a rich remuneration.

## Agricultural Societies.

### MONROE COUNTY AGRICULTURAL SOCIETY. ●

---

In the year 1833, an Agricultural Society was formed, of which William Garbutt, of Wheatland, was the presiding officer. After a vacation of several years, the Society was revived, in a somewhat different form under the title of the "Genesee Agricultural Society." On the 28th of May, 1841, a Society was organized, embracing a large portion of the Western part of this State.

During the session of the Legislature for 1841, a law was passed giving a bonus of \$8,000 to the different counties, in proportion to their population, on condition of their raising, in each county, an equal amount—the share of the county of Monroe being \$194.

In consequence of the passage of this law, the Genesee Agricultural Society, by a vote of its members, changed the name to that of the Monroe County Agricultural Society, and restricted its limits to the County.

Annual meetings are held on the second Wednesday in December, and the Annual Fair in Autumn of each year.

Since its more recent organization, the Society have held several successful and profitable Exhibitions and Fairs—and have also been favored with the delivery before them of several eloquent and spirited addresses.

The following gentlemen were elected officers for 1855.

**FEMALE CHARITABLE SOCIETY.**

[For the following items relative to this truly benevolent Institution, we are indebted to a brief sketch of its rise and progress, prepared by Mrs. JAMES K. LIVINGSTON, in 1844, from which we extract.]

"The Society was first organized, prior to the year 1827, at the house of EVERARD PECK, and Mrs. P. was chosen Treasurer. Its formation was the result of a Charity School, which had been established previous to the year 1822, and taught alternately by the Ladies in a room on State street, which was owned and gratuitously granted for the purpose, by the late JOSIAH BISSELL, near the premises now occupied by the City Bank. The educational wants of the poor, together with other destitutions consequent upon sickness in a new country, prompted the foundation of this Society, on the 26th day of February, 1822, for the purpose of more efficient action.

## CITY DIRECTORY.

13

Thus, we find even at this early day, that our citizens considered the poor, and according to their ability, afforded them advantages equal to their own, for schools of any kind were at this period, 'few and far between.'

'The first garments collected for distribution, were donations from the ladies, of some articles needed. Beds and bedding, and other conveniences for the sick, were, at that time, and have been ever since, lent to the individuals, to be returned by the Visitor, upon their recovery. Infants' clothing has been given from time to time; and for many years the children of the school were clothed by the Society. A school lot was presented by the late Col. FITZHUGH, situated at that time upon the outskirts of the village, near the forest, but which, it was known would soon be valuable. It is now an eligible lot on North Washington street, with a plain building upon it. Since the establishment, however, of our Common School system in this city, the school has been discontinued, except for the purpose of teaching the children of the poor to sew. The number of districts for the visitation of the sick has increased from fifteen to sixty-one. The duties of the Treasurer are already quite onerous.

"One happy feature of the Society, has been its freedom from all bigotry of sect or party—all classes of our citizens are cordially invited to lend a helping hand; while also, all classes who need its aid, share with equal willingness in its benefits.

"A sermon has been preached annually in aid of its funds. Its first sermon was preached by the Rev. Mr. Cumming, of St. Luke's Church."

The Society has lately been reorganized, so that more accuracy may be anticipated for the future in their reports. A meeting is held on the last Sabbath evening in each month, at which reports are made, and prayer is offered for the success of this truly Christian enterprise.

## ROMAN CATHOLIC ORPHAN ASYLUM.

This Institution, for the support and education of destitute orphan children, is situated on Frank street, in rear of St. Patrick's Church, the ground on which it stands being the property of that congregation. It is a large and handsome brick building, and was opened for the reception of inmates in July, 1842, since which time many destitute orphans of both sexes have been admitted. Of this number forty-five (all females) are at present in the house, the few remaining male children being supported out of the Institution. The means of support are derived from the subscriptions of the members of the Catholic Orphan Asylum Society, lately incorporated by the Legislature—from the donations of charitable individuals; and from the proceeds of Annual Fairs, which have hitherto been liberally patronized by the citizens of Rochester generally.

This establishment is under the exclusive control of six Sisters of Charity, who also teach a Select School, "The St. Patrick's Female Seminary," which is attended on an average, by about one hundred pupils. There is also a Free School taught by the Sisters of Charity, which is attended on an average by about one hundred and eighty pupils. The Female Sabbath School taught by them, assisted by others, numbers nearly 300 pupils.

To meet the increasing wants of the Asylum, the Trustees during the past few years, have made additions equal in extent to the former building, and erected an additional story to the entire structure. It is now a large and commodious building, well adapted to promote the comfort and health of its inmates.

## WESTERN HOUSE OF REFUGE FOR JUVENILE DELIN- QUENTS.

This Institution is situated in the northerly part of the city, about one and a half miles from the Court House. It was commenced in the spring of 1847, and finished in the spring of 1851, under the direction of William Pitkin, Isaac Hills, and Daniel C. McCullum, building Commissioners.

The whole cost of the Buildings, Farm, etc., have been about \$110,000.

The centre building of the House, proper, fronts the east, and is 86 feet wide, 60 feet deep, and is in height 3 stories above the basement. The two wings extending to the north and south, are each 148 feet long, 32 feet deep and two stories in height above the basement. The whole front of the building, it will thus be seen, is 382 feet in length. It is furnished with a steam engine of three horse power, which is used in part to elevate water from the cistern to a tank of the capacity of 2500 gallons in the fourth story, from which water is taken by means of lead pipes to all parts of the House, where its use is required.

In the basement of the north wing, there is a plunging bath of the capacity of 5000 gallons; also shower baths, by means of the lead pipes for each of the delinquents.

The Chapel, which is well arranged, will seat over four hundred persons.

The dormitories will accommodate over 360 delinquents—they are seven feet square, well lighted and ventilated.

The establishment contains a library of 900 volumes of books, carefully selected.

There are at present 280 delinquents, a part of whom earn from eleven cents to one shilling per day. Their time, besides what is used for their meals, is divided as follows:

About seven hours for work, three and a half for school, and two for play. The time for rising in the morning, is 6½ o'clock, time for bed, 8 o'clock.

Amount earned by the boys during the past year is over \$8000.

## BOARD OF EDUCATION.

The Free School system was established in this city in May 1841, and is under the control of a Board of Education, consisting of two Commissioners from each Ward, elected annually on the first Tuesday in March, and a Superintendent appointed by the Board. Through this system, it is calculated that every child in the city is entitled to an education, gratuitously—the system receiving its support by a general tax. There are at present Seventeen School Houses, the majority of which are erected of brick; most of them are commodious buildings, and not inferior to many of the Academies of this State. There is also a School for Colored Children, embracing the entire city. Between six and seven thousand children have attended the Public Schools since the commencement of the current school year. Cost of School Houses over \$50,000.

## Cemeteries.

---

### MOUNT HOPE CEMETERY.

---

This Cemetery is beautifully located in the south part of the city, bordering on the City Line, at the termination of a range of hills, overlooking the Genesee River, which runs at its western base. It originated with the city authorities in 1836, and in the year 1838, fifty-three acres were purchased, and the Cemetery opened for Interments. Subsequently, in 1840, two other purchases, of ten and nine acres were added, making the present area of the Cemetery in all seventy-two acres.

The entrance is on Mount Hope Avenue, a continuation of South St. Paul street, on the east side of the River, and consists of carriage and other entrance gates, built in the Egyptian style, in semi-circular form ; passing through which, the carriage roads and foot paths, diverge in various directions. In ascending, the visitor is at every point struck with admiration, at the singular appropriateness of

the extraordinary natural formation of the land, for the sacred purposes to which it is now applied. The quiet and solemn nooks, and corners, and romantic glens, are rapidly filling up with our departed citizens; many of their resting places being marked by the erection of splendid Monuments, which, with the general character of the plans adopted in laying out the grounds, and the fine view of the city obtained from the highest elevations, make it an exceedingly interesting spot for our citizens and their friends from abroad to visit.

The Cemetery is under the management of two Commissioners appointed by the Common Council, assisted by the City Comptroller, who is *ex officio* member of the board.

The office of the Superintendent is at the Cemetery, to whom all applications for interments should be made.

#### ST. PATRICK'S CEMETERY.

A Roman Catholic Cemetery, very pleasantly situated on the western side of the Pinnacle, overlooking the city, containing about fifteen acres of land, laid out in terraces, and the plans altogether very tastefully arranged. The revenue arising from the interments is now all applied to improving the grounds, which is rapidly progressing.

Thomas McFadden is the resident keeper, by whom access is afforded to visitors at all times.

---

#### ST. JOSEPH'S CEMETERY.

A Dutch Roman Catholic Cemetery, located on the side of the New York Central Railroad, near Goodman street, containing about nine acres of land. It is the resting place of the German population of our city, and as viewed from the Railroad, has a very picturesque appearance, with its quaint and singularly shaped monuments, reminding many of the burial grounds of France and Germany.

## YOUNG MEN'S CHRISTIAN ASSOCIATION.

This Association was organized March 17, 1854. It originated in the earnest desire of the Christian Young Men of our city, to be more closely banded together, and to secure by union of efforts, greater efficiency in their Master's Work. Its objects are to seek out the youth, who come as strangers to reside in our midst, to introduce them to Christian society, and in every possible way, to shield them from the temptations incident to city life. It also aims to promote the cause of Sunday School instruction, of tract distribution, to visit the sick, and to find out and relieve the needy and deserving.

The course of the Society since its formation, has been steadily progressive. It now numbers about 300 members, has central and attractive rooms, in Corinthian Hall, with a library, papers, pamphlets, and periodicals.

The regular meetings of the Association, are held on the 2d Tuesday evening of each month. The Board of Managers convene monthly, on the 4th Tuesday evening.

# BOOTS & SHOES,

AND DEALERS AT

## WHOLESALE & RETAIL,

No. 20 State Street,  
ROCHESTER, N. Y.

By the use of machinery in the preparation of the Sole Leather, which we have patented, and by a better system of manufacture than has before existed in this vicinity, we are enabled to offer better Shoes for the same money, than has heretofore been done, making it for the interest of all to call on us who are making purchases in our line.

N. B.—Particular attention paid to the manufacture of Ladies' Gaiters. Being made of superior quality, and less than eastern prices. Also very fine varieties of Children's Shoes.

sold.

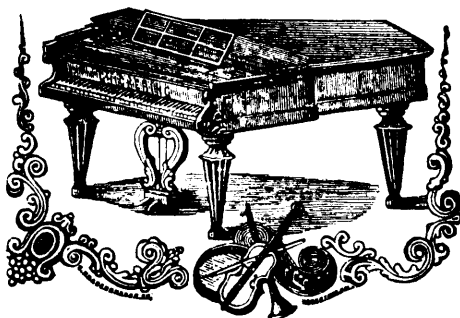

**18 PRIZE  
MEDALS**  
including  
the WORLDS  
FAIR PRE-  
MIUM  
received.

But for evidence of their **SUPERIOR EXCELLENCE**, the Manufacturers appeal less to the unvarnished reputation, and extensive sales of their Piano Fortes, than to the Instruments themselves. For these, they invite the most critical examination. The

## CHICKERING PARLOR GRAND

With the resonance of the Concert  
Grand, it combines remarkable  
purity of tone and delicacy of  
touch.

All of the different scales and styles of the Chickering Pianos, and also **STODART, BACON & RAVEN**, and other New York Instruments of acknowledged merit. All **PIANOS SOLD AT DUTTON'S ARE WARRANTED.** The

tone and capable of  
varied and beautiful  
musical effects; is  
compact, portable,  
easily kept in order,  
and costs much less  
than an Organ.

Both 8 and 12 Re-  
gister sizes, on hand.

These, together  
with **GUITARS,**  
**MELODEONS,**  
**FLUTES, VIO-**

**BOOKS** and Musi-  
cal Merchandise of  
every description.

**DUTTON** offers at a small margin of profit to himself, and a large one to the Buyer, to be paid him—not in any impossible cheapness of price, but in the superior quality of the wares.

# HALL & MORAN'S ASCENSION FILTER AND COOLER.

MADE  
ALL  
SIZES.

FROM 2 TO  
100 GALLONS.

[Patent Applied for.]

This article combines in one action all the requisites to supply  
**PURE COLD WATER.**

It is both Elegant in Appearance, and Perfect in Principle. By a simple process, the impurities, instead of accumulating in the filtering medium, are collected in a chamber below, and can be removed as often as necessary. The objection hitherto made to Filters of the ordinary construction, which by allowing the water to pass downwards, become choked with impure vegetable matter, and consequently unfit for lengthened service, is thus entirely done away. Another advantage it possesses is its connection with a cooler, whereby ICE, when necessary, is not only preserved, but **CLEANSED AND RENDERED WHOLESOME.** The fact that Pure Soft Water is an essential to Health, needs no further proof than is afforded by the statistics of different localities in this country and Europe, clearly showing that cholera and other diseases are directly traceable to its absence. It becomes, therefore, A DUTY incumbent on all to provide such a simple and Efficient Preventive; and the Inventors confidently appeal to **HEADS OF FAMILIES** to make a trial of the above, which they unhesitatingly recommend as the most efficient Water Purifier ever introduced. They are made in five sizes, capable of purifying from 10 to 100 gallons of rain or river water per day, and are suitable for Offices, Stores, small and large Families, Hotels, Steamboats, Rail Road Cars, &c. Manufactured and Sold, Wholesale and Retail, by
