D. W. LEARY'S
FANCY DYEING AND SCOURING ESTABLISHMENT,
Mumford Street, Opp. the Gas Works, Rochester, N. Y.

D. W. LEARY has located his NEW DYEING ESTABLISHMENT at a point very central and convenient for business, on Mumford Street, opposite the Gas Works, and is prepared to execute a large share of the Dyeing which has heretofore been compelled to go to older houses, although located at an inconvenient distance from the business centre. His long experience in this city, together with the fact that he gives his undivided attention to his work, and IS HIS OWN OPERATOR, enables him to appeal to the public with the greatest confidence for a fair share of their patronage. He feels grateful for the very liberal patronage already extended to him, and hopes for its continuance and increase. And he pledges himself that all orders entrusted to him shall be faithfully and promptly executed in the best manner.

As it has been intimated by some that he is connected with another establishment, in another part of the city, bearing a similar name, I would inform the public that I have no connection with it, and desire none.

As to the mean, dishonorable, and crushing out spirit shown by a rival establishment, and its base charge of counterfeit signs, &c., I will have nothing to state, except that they seem like some of those contemptible methods usually adopted by those who are too avaricious and mean to allow quietly a fair and honorable competition in business, and that I seek by promptness and the good quality of my work, rather than such contemptible flings of a rival, to give character to my establishment.

SLOAT'S ELLIPTIC LOCK-STITCH

AND IMPROVED

SHUTTLE MACHINES,

59 Buffalo Street,

ROCHESTER, N. Y.

These Machines are so remarkably simple in their construction, that a child can operate them and understand their mechanism.

They are the Strongest Sewing Machines made. It is almost impossible to break or get them out of order.

They are sure in their operations, finishing the work in a uniform and perfect manner.

They make a tight lock-stitch, alike on both sides of the work, which cannot be raveled.

They stitch, hem, bind, fell, run, braid, and gather, without basting.

They sew equally well the lightest and the heaviest fabrics.

They sew over the heaviest seams without changing the tension or breaking the finest thread.

They use any No. of Cotton Thread or Silk, directly from the spool.

They run easily, and are almost noiseless. They do not form ridges on the under side of the work, nor ravel out, nor are they wasteful of thread, as is the case with all chain-stitch machines.

They are capable of doing a greater range of work, and in a more perfect manner than any other Sewing Machine. EVERY MACHINE WARRANTED.

Cabinet Cases in Rosewood, Walnut, and Mahogany, $30 and upward.

All the Machines complete, with Hemmers, Needles, and all the Tools necessary for the Machine. Binders, Corders, Tuckers, Needle Cases, Needles, Silk, Threads, Oil, and Sewing Machine Findings of the very best quality, wholesale & retail.

PATENT AGRICULTURAL
CALDRON & STEAMER
FOR COOKING FOOD
For Stock, the Army, &c.,
AND FOR USE IN
Hotels, Laundries, Bathing Houses, Woollen Factories, Tanneries, &c.

The above Engraving represents a new article patented by D. R. PRINDLE, East Bethany, N. Y. For all purposes where steam is required for either Heating or Cooking, it has no equal; and as regards time and fuel, it is by far the most economical apparatus yet introduced. It is now extensively used by Farmers for Cooking food for Stock, (an important item in these days of high prices of feed, when the advantage of cooked food is considered,) by Dairymen, Hotels, Laundries, Bath Houses, Hospitals, Camps, (one of the large sizes will cook for 1000 men,) Woollen Factories, Dye Houses, Tanneries, Livery Stables, and very many other purposes.

It only requires a trial to be appreciated. In no instance has it failed to give satisfaction.

IT IS SIMPLE AND DURABLE IN ITS CONSTRUCTION,

Perfectly safe, and as easily managed as a Cook Stove.

Certificates of parties using it can be seen at the Office of

TO THE PUBLIC.

In presenting the Directory for 1864–5, the publisher desires to tender his thanks to the many who have kindly responded to his inquiries, and hopes they will feel as much pleasure in seeing that their communications have been made use of as he does in acknowledging his gratefulness to them.

To those who have patronized the work, he earnestly wishes that their investment may return them a handsome profit.

The usual amount of close application—ceaseless care and mental labor—necessarily given to this intricate and complicated part of book-making—has been bestowed upon the present volume; and though it is hoped that none will find an error worth complaining of, yet, should there be, remember that nothing is perfect—that it is human to err, while it is a sublime prerogative to *forgive*

Agents in every Town and County to Sell DALE'S NEW, DURABLE and BEAUTIFUL RUNNING STITCH SEWING MACHINE.

This MACHINE will hem, run up breadths, gather, ruffle, shir, tuck, &c., with single or double thread, using the common sewing needle, (which can be purchased at any store for six cents a paper,) making a uniform long or short stitch at the will of the operator. It will sew any kind of material that requires the running stitch, weighs two and one-half pounds, and is so arranged as to be attached for use to a table-top or work-stand, with directions that a child who can read can operate it without instructions. The superior tools and large facilities for manufacturing enables us to put them in the market at the low price of $6 00 by retail.

STARR'S PIANO MANUFACTORY.

This establishment, so long and favorably known through all this region and the Western States as furnishing Piano Fortes not surpassed in the world for quality and durability, is about CLOSING UP—SELLING OUT CLEAN, not quite so fast as I desire, nor as my kind neighbors [who say that "Mr. Starr is entirely out of business,"] represent. Perhaps if *purchasers* learning that I have still on hand *twelve or fifteen thousand dollars* worth of *Instruments* and *Musical Merchandize*, selling at reduced prices, and cheaper than can be bought elsewhere, embracing from 30 to 40 *New Piano Fortes*, and 20 to 30 second hand, [many of them nearly new,] at prices from $50 to $550 each, with *Melodeons, Accordeons, Guitars, Violins*, Flutes, Instruction Books, and Sheet Music of every variety—they would choose to save 50 or 75 dollars in price, and 100 dollars in quality, by *buying of me.* It costs nothing to satisfy yourself of the facts. *Come, then, to my Music Rooms and see.*

A Policy of Life Insurance is the cheapest and safest mode of making a certain provision for one's family.—*Benjamin Franklin.*

A Policy of Life Assurance is always an evidence of prudent forethought; no man with a dependent family is *free from reproach* if not Assured.—*Lord Lyndhurst.*

There is nothing in the commercial world which approaches, even remotely, to the security of a well-established and prudently-managed Life Insurance Company.—*Professor De Morgan.*

There is no more advantageous or secure form of investment than a Life Policy in a Mutual Company. In the NEW ENGLAND MUTUAL LIFE INSURANCE COMPANY it is the best investment that can be made; for, under all circumstances, you get good interest for outlay of premium paid, and in case of sudden or unexpected death, the legal representatives of the party insured are largely the gainers.

Cash Assets, Jan. 1st, 1864 - - - $3,000,000.
Last Cash Return [now being paid], 750,000.
40 PER CENT IN CASH PAID TO ALL INSURED.

This Company, established in Boston, Mass., in 1843, is the oldest and most reliable wholly Mutual Life Insurance Company in the United States, and has been uniformly successful, having always made large returns in cash to all the Policy-holders. Last cash return, just declared, and now being paid, 40 per cent., amounting to $750,000, and leaving a large surplus besides.

It is strictly a benevolent institution for mutual protection, entirely beneficent in all its workings and tendencies, and is an excellent form of investment.

By the last report of the Insurance Commissioners, the surplus of Assets *over* liabilities was proportionately greater than any Life Insurance Company in the United States Expenses proportionately "*less*" than any other Company.

This Company, being purely mutual, insures at the lowest possible rates; and if the premiums paid exceed the *actual cost*, the surplus is returned to the parties insuring.

Every fifth year, at the time of declaring the return to members, the business is, as it were, closed, so that its actual position and solvency are made manifest at that time, and the surplus funds are divided *pro rata* among all the insured. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guarantee as regards the future.

Insurance may be effected for the benefit of married women, beyond the reach of their husbands' creditors. Creditors may insure the lives of debtors.

Parties at a distance may insure from blanks, which will be supplied and forwarded free of expense.

Printed Documents of an interesting character, showing the benefits of the Mutual plan, and the advantages generally of Life Insurance that this Company has to offer, supplied gratis, or forwarded, free of expense, by addressing

BENEFITS OF LIFE INSURANCE.

The principles of Life Insurance are now so well established, that they are no longer matters of experiment, and its advantages are beyond dispute.

The great and special advantage is the securing of wife and children against want and misery after the death of the husband and father. Every one acknowledges the wisdom and prudence of providing for a family against the adversities of fortune, or the accidents of life, and it is the moral, social, and religious duty of every one, not to abandon those dependent upon him to the cold charities of the world, and liable to the temptations and sufferings of poverty, when deprived of his protection and support. The late Lord Chancellor of England declared, that "no man with a dependent family is free from *reproach* if his life is not insured." The man who neglects to insure his house is condemned for imprudence. How much more improvident is he who refuses to insure his life? 'Every house may not be burned, but every man *must* die. Bishop Hawkes wisely declares, that "Life Insurance is not only a humane, but almost a Christian institution," for the Apostle says: "If a man provide not for his own, and especially for those of his own house, he hath denied the faith, and is worse than an infidel."

This important duty of every head of a family may be easily and securely performed by obtaining a Policy of Life Insurance. A very small daily saving will accomplish this purpose. Five cents a day, commencing at the age of twenty-one, will insure one thousand dollars at death, whether immediate or remote, together with all the profits which may accumulate on the policy; and six cents a day, at twenty-eight years of age, will accomplish the same object And by the judicious laws of Massachusetts and New York, policies issued for the benefit of widows and orphans, are protected from the husbands' creditors. *The question is not whether one can afford to insure, but rather whether he can afford not to insure.*

Can it be that any father, husband, or man, is unwilling to make a little sacrifice of daily comforts, in most cases of what would be unnecessary expenses, to protect those most near and dear to him from suffering and want after his death?

There are many other advantageous uses of Life Insurance, besides the security of a family against want. Creditors can insure the lives of their debtors as a security for their claims. A man with incumbrances upon his property may insure to the amount of them, to secure their ready payment at his decease. A young man may borrow money to complete his education, or may obtain credit for a stock of goods, or tools, or a farm, by insuring his life and assigning the policy as contingent security. A parish may relieve their clergyman from anxious care by raising a small sum to insure his life, and provide for his family. In short, Life Insurance is applicable to all purposes of raising money on loans, where only personal security can be offered; and, generally, as affording means of certain indemnity against any pecuniary loss, claim, or inconvenience whatsoever, to which one individual may become subject, by reason of the death of another.

The moral and social influence of Life Insurance is no slight benefit both to the individual and to the community. It develops the amiable and generous traits of character, accustoms a man to think for others, induces habits of industry, economy, and accumulation, and by relieving the mind from anxiety and over-exertion, promotes health and longevity. A *systematic* adoption of Life Insurance, by the people of any country, would do more to eradicate pauperism and crime than all the combined wisdom of its legislators; so that a well-founded, well-conducted institution of this description is a subject of public interest, as its beneficial effects are at least equal to those of any charitable, philanthropical public institution; and these effects are produced without any donation, sacrifice, or act of beneficence by the public or by individuals, being the natural and easy results of the spontaneous thrift, prudence, and forecast of individuals in conducting their own concerns.

SECURITY OF LIFE INSURANCE.

Life Insurance Companies are the most stable and permanent institutions known among men. The experience of the commercial world can point to no such permanency, nor do any class of institutions compare with Life Companies for uniformity, safety, and reliability. The insured cannot invest their funds in a more sure and profitable manner; for Life Insurance is simply setting aside and investing a yearly sum, with the certainty of a safe return with accumulations; whereas other investments, with a profitable and sure return, are not so easily found, and often end in an entire loss.

An investment in a policy of Life Insurance is far preferable to deposits in a Savings Bank. An Insurance Company accomplishes all that is done by a Savings Bank, and much besides, combining all the advantages of the latter with an indemnity against risks. Like the Savings Bank, it takes care of the depositor's money, and it virtually allows him interest upon his deposits: but it does more. What is of higher importance to the depositor, the Company engages, in consideration of a certain sum of money paid to it annually, during the life of the depositor, to pay a much larger sum to his family upon his decease.

There are *three reasons* why a Life Insurance policy is a wiser investment than a deposit in a Savings Bank: 1. Money in a Savings Bank, being entirely at the will of depositors, is too easily drawn out to gratify some passing desire, and there is no strong motive to compel a regular deposit. How many persons have commenced an account with a Savings Bank, and continued for some time with a laudable perseverance, but at last have been tempted to withdraw, and never had sufficient confidence to commence again! In Life Institutions, a man, after mature deliberation, *binds* himself to make a deposit of a specified sum at a specified time; knowing this, he provides for it, and we can safely say, that in a majority of cases the money saved to deposit in a Life Institution, *would not be saved at all, had they not insured.* 2. Money in a Savings Bank is exposed to the demand of creditors, while an Insurance policy is s not liable for a man's debt, being held by a special law of the State, as a fund for the benefit of his family; and thus, in times of pecuniary disaster, to which every man is more or less liable, it often becomes

Central Library of Rochester and Monroe County—City Directory Collection : 1864

a means of support when everything else is gone—cheering with ease and competence the declining years of those who, without its aid, would have been left to all the miseries of poverty and old age. 3. *Life is uncertain, while death is certain;* and a Savings Bank makes provision only for life. The average length of human life is only thirty-three years. Of 500 persons, only one lives eighty years, and of 100 only six live sixty-five years. Those who can cheat themselves into the belief that they run no risk of dying, will not, of course, insure. No one, however, need consult books to learn lessons of mortality. 'Tis the burden of pulpit eloquence; the lesson of the graveyard; and the teaching of every day's experience. The uncertainty of life being admitted, it will follow that accumulation upon the Savings Bank principle, does not meet the requirements of the case.

To illustrate: suppose a husband and father, thirty-three years old, wishes to leave his family the sum of $2,000, and for that purpose deposits annually $50 in some Savings institution. In the course of thirty or forty years he will thus accumulate the required sum. But what guarantee has he that he will live ten years, or even one year? He has none, and, of course, no security for provision for his family. But, if he pays $50 as an annual premium for a policy of Life Insurance, he will be SURE of leaving $2,000 to his family *whenever* he dies—in six months or twenty years. Thus, while all other means are fluctuating and uncertain, and riches often "fly away," a Life Insurance policy (if from a reliable company) is certain, and becomes a patrimony JUST AT THE TIME IT IS MOST NEEDED.

The question is no longer, SHALL I GET MY LIFE INSURED? but rather, WHERE CAN I INSURE IT TO THE BEST ADVANTAGE?

In answering this question, it will be necessary to explain, briefly, the

DIFFERENT KINDS OF LIFE INSURANCE COMPANIES.

They are all based upon the same fundamental principles, but are divided into classes, according to the different plans of their organization and the different methods of conducting their business. They are either *Stock*, *Mixed*, or *Mutual* Companies.

Joint Stock Companies issue at fixed rates, the *profits* being WHOLLY divided among the proprietors, and the enormous dividends thence divided have, in some cases, raised the value of the stock to *seven hundred per cent.* upon the amount paid in.

Mixed Companies are also Joint Stock Companies with proprietary bodies, but the assured are allowed to participate to a certain extent with the proprietors in the profits of the business.

Mutual Companies are owned and managed *exclusively* by policy-holders, *all of whom* have their proportionate *share* in the surplus accruing from the business.

The *Mutual* Company is clearly the most perfect in *principle*, and experience has fully tested and placed beyond a doubt the *perfect security* of the system. No Mutual Company, when once well established, has ever met with disaster on account of the mutual principle; but, on the other hand, they have rapidly accumulated funds, reaching sometimes in amount to millions of dollars. In Mutual Companies, too, the assured have entire control of the funds; there is "universal suffrage," and the form of government is essentially "democratic." A Mutual Company divides the *whole* surplus among the insured, after deducting only the actual cost to the Company of carrying on the business, which is not the case with the first class mentioned, and only in a *degree* with the Mixed companies. This plan of operation insures the applicant at the *owest possible* premium, for all that is over the sum required to insure him safely, is returned in dividends, which is not the case with the Stock companies, and only partially so with the Mixed companies, the proprietary body in the latter having first to receive its share of the surplus before a dividend can be declared to the insured.

The Governor of Massachusetts has recently vetoed a bill to incorporate a Life Insurance Company, because, among other reasons, it was not a Mutual company, a nd had no limit as to its expenses. He says: "Purely Mutual Life Insurance Companies have been proved, by experience, to be the safest and best for the insured."

A PURELY MUTUAL COMPANY IS, THEN, THE ONE IN WHICH TO INSURE TO THE GREATEST ADVANTAGE.

SUPERIORITY OF THE NEW ENGLAND LIFE INS. CO.

It is a purely Mutual Company, and has made four distributions of surplus funds (1848 1853, 1858, and 1863) in *cash*, amounting to OVER $1,500,000. It now has a well invested fund of $3,000,000, which is much more than sufficient to meet all possible contingencies and make a large return to all the insured besides.

The New England Mutual Life Insurance Company do not pay their dividends in scrip, but always in CASH. At the close of every five years the Company, after paying the expenses of the business, reserving a sufficient sum to reinsure all risks, and cover all possible contingencies, divides the surplus proportionately among the assured. By this plan, there is no accumulating scrip, or possible liability to guard against; and the rates of premium are materially lessened by the cash dividends, the insured reaping the immediate rather than the prospective advantages of the mutual plan. Some Companies are compelled by their charters to *credit* their distributions on the policies in the form of a bonus, payably only when a loss takes place, thus creating an immense and unnecessary capital, and depriving the members, in case of non-payment of premium, of all right to the bonus. In this Company, the distributions are a source of pecuniary relief in paying future premiums, and in times of great financial distress, are sensibly felt. *In no event* does the bonus (if a member choose so to apply his distribution) *become forfeited.* The cash distribution in 1863 amounted to $750,000.

Its *standing* and *economy* are unequaled. The Insurance Commissioners of Massachusetts, in their last report to the Legislature, compare the standing and the economy of the eighteen *Life* Insurance Companies which issue policies in that State, comprising the principal companies in the country; and they place the New England Company FIRST in *standing*, i. e., in its ratio of

Central Library of Rochester and Monroe County - City Directory Collection - 1864

value to liability, and FIRST in *economy*. This Company's expenses are only 8 per cent. of the receipts, while those of the others *average* more than 11 per cent.! This is the *oldest* Mutual Company in the country, and, for that reason, must be the safest and most economical.

Its Directors are well known to community as men of integrity, capacity, and experience in business; and *every year* the affairs of the Company are thoroughly investigated by a body of Commissioners chosen by the State of Massachusetts, for that purpose; and a full and complete statement of the operations of the Company, with its assets and liabilities, is made to the Legislatures of Massachusetts and New York, and a report is made to the assured, of the condition of the Company. Every five years, at the time of declaring the dividends, the business is, as it were, closed, so that its actual position and solvency are made manifest at that time. This guards the assured against any possible loss from inefficiency on the part of the Company, and is a sure guarantee as regards the future.

☞ The New England Mutual Life Insurance Company has deposited with the Comptroller of the State of New York, $100,000 for the security of its policy-holders in this State.

A company in which so shrewd a financier as the late ABBOTT LAWRENCE, and so profound a lawyer as the late RUFUS CHOATE, insured their lives to the largest possible amount, needs no other voucher for its economy, stability, and perfect security.

TERMS OF PAYMENT.

The terms of payment of the premium in the plan adopted by the New England Life Insurance Company, while ignoring entirely all uncertainty arising from the credit system, are peculiarly advantageous to the assured.

PREMIUM may be paid quarterly, semi-annually, or annually; or one-half of the amount of five premiums may lie over on notes for a term of years, on whole life policies, interest being charged at the rate of six per cent. per annum, on the deferred portions. Premiums for the whole life may also be settled in ten annual payments, or in a single payment.

This is not insuring on credit; for the Company gets pay, from time to time, previously to running the risk—the interest on the note being taken into the account. The notes, of any part of them, will be demandable after five years from the date of the first one, on notice of ninety days, so that the Company may have command of their funds, should the same be necessary; but it is not supposed that such notes will ever need to be paid. There can be hardly a doubt that the principal may remain outstanding so long as the assured wishes.

Five annual life premiums being double the amount of the cash premium required for an insurance for the term of five years, it follows that the policy is adequate collateral security for a loan to the amount of one-half of the life premium. The Company, by this rule, never insures upon the personal credit of any member, its loans being restricted to those policies only which have a pecuniary value. The Company also aids those members who have paid several life premiums in cash, by affording them a credit in times of pecuniary distress, for subsequent premiums, to an amount equal to what would be paid them on surrender of the policy.

In this Company a person cannot forfeit a policy until its value is worked out in insurance. For example, if a person pays four life premiums *in cash*, this will insure him seven or eight years, or about three years after his four have expired, if he is unable, from any cause, to pay the annual premiums.

SURRENDER OF POLICIES.

It sometimes happens that the motive for making insurance ceases before the policy has expired. Instances will also occasionally occur of persons being disappointed of the means of paying the premium, and so being liable to forfeit their policies. In such case, *the Company consents to a surrender of the policy upon fair terms*, if application is made for that purpose before it is forfeited.

All over and above the actual cost will be returned of the premiums paid.

Now is the time to effect an insurance! As a man grows older, the rates of premium are higher, and his health is liable to fail. Life is uncertain, and delays are dangerous!

A good and popular form of policy, and one much in vogue, is a policy for life, the whole premium being paid in ten annual installments (which installments may be paid quarterly, or otherwise); and if, before the expiration of the ten years, the payments are discontinued, a paid-up policy will be given for an amount proportionate to the premiums paid. On this form of policy a dividend is payable during the whole life of the insured. This form of policy enables the insured to make all the payments due on the policy in the prime of his life, thus guarding against future misfortune.

TAKE NOTICE.

☞ A party out of the city desiring to insure, may go before a respectable physician to be examined, and fill up the questions in the application with plain answers, yes or no, as the case may be. The doctor will also fill up the medical certificate on the application, and forward the same to this office, and I will send him the usual fee, upon receipt of the application, even if the risk should not be accepted by the Company.

Any further information will be promptly given, and blanks forwarded free of expense when desired.

SALESMEN WANTED

To obtain and fill orders for Subscription Publications, including the

CYCLOPEDIA OF MODERN TRAVEL,

BY BAYARD TAYLOR.

A Record of Adventure, Exploration and Discovery, for the past sixty years. Revised and enlarged Edition, *Complete* in Two Royal Octavo Volumes, 1034 pages. Bound in two styles—Sheep and Half Calf. This is the *largest* and *best* work of that distinguished American Traveler.

THE ENGRAVING, HOME ON A FURLOUGH,

From Schussele's Painting. Engraved on Steel by John Sartain.

This is a beautiful and touching representation of a *War-worn Veteran's* return to "Sweet Home," meeting wife, children, parents, brother, sister and friends.

GUNN'S NEW DOMESTIC PHYSICIAN,

OR, HOME BOOK OF HEALTH.

By John C. Gunn, M. D. Revised and enlarged edition. One volume, Royal Octavo. Printed in both English and German.

A COMPLETE GUIDE FOR FAMILIES.

LIFE OF CHRIST, THE EVANGELISTS AND APOSTLES.

To which is added a History of the Jews, by Rev. John Fleetwood, D.D. Illustrated with numerous Steel Engravings. Bound in two styles—Morocco and Antique, full gilt. Printed in both English and German.

The Engraving, CHRIST BLESSING LITTLE CHILDREN.

From a Painting by Sir Charles Locke Eastlake, President of the Royal Academy, London. Engraved on Steel by Samuel Sartain.

It is unnecessary to say that the above are *First Class Publications—Superior* ones for Agents. The names of the distinguished authors are *towers of strength* in their sale. All of these works are circulated ONLY BY CANVASSING AGENTS, to whom are given *Certificates of Agency*, securing to them the *exclusive right* of sale in the Territory granted.

Men can engage without investing capital, if they desire. Those *preferred* who can engage for one or more years; yet men of proper qualifications will be accepted for a less time. Suitable persons can engage even if they have had no experience as salesmen.

OLD ESTABLISHED HOSPITAL,

FOR THE TREATMENT OF PRIVATE DISEASES, ON THE FRENCH SYSTEM.

DR. E. J. REYNOLDS, Proprietor.

W. C. LISPENARD, M.D.,

Consulting PHYSICIAN & SURGEON,

Rochester, N. Y.

DR. LISPENARD is one of the most scientific and successful Physicians and Surgeons in the United States. His fame is personally known in every City and Village in the Union and the British Provinces.

DR. REYNOLDS announces to the sick and unfortunate that his HOSPITAL is still open for the reception of patients, and that he is daily making rapid and permanent cures in all parts of the United States and Canadas, with his concentrated remedies, which are sent by Express, under seal, to all parts of the world. The many quacks, nostrum venders, and impostors, with which this city and other parts of the Union is flooded, renders it necessary to caution the public against these knaves, some of whom have added Doctor of Medicine to their names, to give them the appearance of respectability. Dr. R, is pleased to announce to those afflicted with any form of private disease, that his cures are the most remarkable on record, and his remedies the wonder of the Profession and admiration of the sick.

By a long course of study and practical experience, Dr. R. has now the gratification of presenting the unfortunate with remedies that have never failed since he first introduced them, to cure the most alarming cases, and that in a very reasonable time, without the aid of mercury or any other deleterious drug. Within the last forty years, Dr. R. has cured more than one hundred and ninety thousand cases of the above character, and it may be said safely, that MORE THAN ONE-HALF of the patients had been previously treated with mercury and other mineral poisons.

Dr. R. can be successfully consulted on all diseases with which the human family is afflicted, with cures warranted in all curable cases.

MARRIED OR SINGLE LADIES.

All female complaints, of whatever name or nature, are treated by us successfully. The most convenient room always in reserve for ladies who may wish to consult us confidentially with regard to any of these interesting complaints to which their delicate organization renders them liable.

N. B.—Dr. Reynolds is sole agent for Dr. Vichois' Female Monthly Pills. Among the many thousand boxes of these Pills annually sold, not one complaint has yet been made against them. Ladies in a certain situation should not use them, the particulars of which will be found in the directions accompanying each box. Price, $1.00. Sent by mail to any part of the world. Beware of counterfeits. They are not on sale at any other place in the United States.

Dr. Reynolds' PANENT FRENCH SAFE is warranted a safe and sure preventive against pregnancy and disease. Price $1.00. Sent by mail to any part of the Union.

YOUNG MEN,

Who, by indulging in secret habits, have contracted that soul-subduing, mind-prostrating, body-destroying vice, should apply to Dr. Reynolds without delay.

In these, as well as all other cases of a private nature, Dr. Reynolds commends an early application, and without any vanity or aspiration, decidedly states, that no case within the reach of mortal aid shall ever leave him without a cure, or satisfaction given.

Dr. Reynolds' Great Work, THE PRIVATE MEDICAL GUIDE, beautifully illustrated; with nearly 300 pages. Price 25 cents.

Letters describing age, symptoms, occupation, &c., promptly attended to, and medicines, securely sealed from observation, sent to all parts of the world.

No letters will be answered unless they contain a remittance of one dollar, consultation free. Consultation at the Office free of charge.

Consulting Office and Operating Rooms, corner of Mill and Market streets, up stairs. ☞ Persons calling will see no one but the Doctor.

The above concentration of medical talent ensures the sick a scientific and improved course of treatment, and a rapid and a permanent cure. All letters addressed, Dr. E. J. Reynolds, Rochester, N. Y., will meet with prompt attention. Office hours, from 7 A. M. to 9 P. M.

HISTORICAL SKETCH OF BROCKPORT.

In the year 1807, the first dwelling house was erected upon what is now the cite of the village of Brockport, by a man of the name of Hopkins. Subsequently a few other persons located at the place; but it did not show many marks of prosperity until after the close of the war. In the year 1818 people began to flock in from the New England States, and in 1821 the growth of the place was so rapid that it was laid out into village lots, and in 1822 it became a corporation. The chief founder of the village was Hiel Brockway, from whom it takes its name.

In 1823 the Erie Canal was completed to the village, and until 1825 it continued to be its western terminus. The Canal gave great impetus to its trade, and from that time, henceforth, it has been noted as one of the most active and enterprising villages in Western New York.

In the earlier history of the village, more capital was employed in the Canal packet enterprise, than any other business; but of late years, its manufacturing interests have become predominant, especially the manufacture of agricultural implements. Now there are three extensive establishments engaged in the manufacture of those implements, and there is scarcely a town in the State, or at the West, that does not bear evidence of the skill of the Brockport manufacturers. Pumps are also manufactured very largely at Brockport, there being two extensive establishments.

Brockport contains seven church edifices, the Collegiate Institute, Village Hall, and Lock up, which comprises all the public buildings. It has about fifty stores, many of them very fine structures. Its Cemetery, in the south-east portion of the village, is becoming a beautiful place. It is neatly laid out, and is being finely shaded with sugar maples, evergreens, and other ornamental trees.

The schools of the village consist of the Collegiate Institute, three public schools, and several private ones, all of which are well sustained.

The population of the village is about 3,000, and it is rapidly increasing.

First Class Printing Office,

and the best Machinery and the most desirable styles of Printing Materials have been purchased for this purpose. Our work in

BEAUTY OF DESIGN

AND ELEGANCE OF EXECUTION,

is unsurpassed in this State. We rely entirely upon our merits, and not upon newspaper puffs or political influence, and the rapid increase of our business is a gratifying evidence of public appreciation.

We are extensively engaged in publishing

LAW BLANKS,

which have stood the test of use by nearly every lawyer in Central and Western New York, and are believed to be better adapted to the wants of the profession than any other.

Legal & Commercial Stationery,

BLANK AND PRINTED RECORD BOOKS, for County and Town Officers, BLANK BOOKS for Banks and Merchants, LAW REGISTERS, JUSTICES' DOCKETS, on hand and made to order.

And all Points South.

NO CHANGE OF CARS

—BETWEEN—

ROCHESTER AND NEW YORK

BY THIS ROUTE.

Passengers for Boston and Points in New England, with their Bagggea, are transferred in NewYork City FREE OF CHARGE.

Passengers taking Tickets by the ERIE RAILWAY enjoy all the modern improvements in Railway Traveling. There is no change of Cars between New York and Dunkirk, Buffalo or Cleveland, an advantage possessed by no other line. LUXURIOUS RROAD GAUGE SLEEPING CARS accompany Night Trains. Besides the advantages of a Double Track over nearly the entire Line, the Trains of the ERIE RAILWAY are under the control of an Exclusive Telegraph system, insuring great dispatch, perfect security and regularity in their movements, by which passengers avoid the detentions incident to other Routes made up of several independent corporations.

IMPROVED SMOKING CARS, WITH EUCHRE TABLES, are attached to all Express Trains. Baggage Checked Through between principal points. Rates of Fare always as Low and Time as Quick as by any other Route. Passengers holding Second Class Tickets go through with Express Trains. **Express Freight Trains** are run Each Way Daily over the Line, connecting with similar Trains on Eastern and Western Roads, and making quicker time than any other Route.

For Through Tickets or freight contracts apply to the Company's Agents.
