SUCCESSORS TO GLEN & HALL AND JOSEPH HALL,

MANUFACTURE THE CELEBRATED

Hall Threshing Machines and Horse Powers,

The "Farmer's Favorite" Combined Drill and Broad Cast Sowing Machine, &c.

The works of this Company, located on East Avenue, were erected in 1868, and are among the largest and most complete Agricultural Establishments in the United States. Their Machinery is new and combines all valuable improvements. It is propelled by a steam Engine of ample power, which insures customers against the delays in obtaining Machines and Repairs, incident to water power in low water season.

They have full sets of Patterns, with the original Reamers, Drills, Templets and Measures, and will devote special attention to supplying REPAIRS for all Machines made by the late JOSEPH HALL, GLEN & HALL, or those of their own manufacture.

ALL WORK WARRANTED.

A permanent office of publication has been opened, and the Directory will be issued hereafter annually on the first of July. Every effort will be made to make the work as complete and accurate as possible, so that it shall be a reliable authority in reference to the residents, the statistics, the business and other interests of the city.

A book will be kept open at the office for the record of names of persons moving into the city, and for memoranda of changes that citizens may make in their business or location. Any one not finding a full or a correct statement against his name, can rectify the same for the next number of the Directory by leaving the correct statement at the office. Information so received will be carefully compared with the returns from the canvass next Spring, and any discrepancies will be investigated.

Persons desiring any information in regard to the city, residence of citizens, &c., which may be known at the office, will be cheerfully furnished it.

The principal Directories and statistical works published in the United States will be kept on file, and any one wishing to find the address of a single firm or individual will be furnished it without charge. Those wishing lists of business men in any City or State will be furnished them for a reasonable compensation.

The next number of the Directory will contain a handsome colored map of the city.

FIRE ALARM TELEGRAPH.

(*Under charge of Fire Department Committee.*)

Superintendent—B. F. Blackall.

The telegraph was constructed at a cost of $12,000, by Gamewell & Co. of New York, and was accepted by the city, March, 1869. Alarm is given instantly from the Alarm Boxes to the office of the Fire Department, to each of the engine houses, to City Hall, and to the Arcade, the number of taps indicating the box from which the alarm is given. The taps can also be heard at each of the other boxes. Keys to the boxes are in the hands of the police and the nearest responsible resident to each box. Conversation can be carried on between the office of the Fire Department and the engine houses and between the engine houses one with another.

The Fire Marshall and the Chief Engineer can communicate also from anv box to each of the other boxes, to the engine houses, to the office of the Fire Department and to the City Hall.

The bell on the City Hall is struck daily by telegraph at 1 P. M.

DeGRAFF'S COLLEGIATE INSTITUTE.

Flour City Hall, Corner of Main and Stone Streets, Rochester, N. Y.

MILITARY ORGANIZATION.

E. V. DE GRAFF, · · · · · · · · PRINCIPAL.

PLAN OF THE INSTITUTE.

The design of the Principal is to secure for boys and girls, at as early an age possible, a thorough business education; and upon this as a basis, to give an accurate and complete preparation for College, or for any business pursuits that do not require the training of the Professional Schools. He purposes to secure symmetry, health and vigor of body; to establish habits of punctuality, order and diligence; to cultivate the power of close, independent and continued thought; to impart the largest possible amount of accurate knowledge; to give the mind resources for enjoyment, respectability and usefulness, as well as pecuniary profit; to induce and accustom the pupils to act from moral and religious motives; and to secure to them that paternal care and moral discipline, which their age so obviously demands, and without which *so many are ruined, physically and morally, while ostensibly pursuing their studies in Schools and Colleges.*

COURSE OF STUDY.

The course of instruction will comprise all the studies requisite for a *thorough* English Education and for College. Elementary branches will not—as is often the case—be neglected. Reading, Spelling, Writing, Practical Arithmetic and Geography are indispensable to good scholarship, therefore every pupil will be expected to pursue these branches until qualified to lay them aside.

Special care will be taken to have pupils qualified thoroughly in the fundamental principles of Arithmetic and Grammar, in order to successfully prosecute the study of the Languages and Higher Mathematics.

Lectures will be given from time to time by the Principal, on science, morals, history and subjects of interest to the pupil.

To the more advanced pupils an opportunity will be afforded for pursuing the studies of Chemistry, and Philosophy with appropriate apparatus and familiar illustrations.

The Principal has been connected with Public Schools and Institutions of learning for a period of more than fifteen years, and has made the prevailing modes of education a study, and is therefore enabled intelligently to select and adopt the most approved method of instruction. By adapting his lessons to the mental condition of his pupils, he has been eminently successful in breaking up habits of listlessness, idleness and aversion to study.

QUALIFICATIONS.

Pupils must be twelve years of age to enter the Institution, of fair ability, capable to pass through the fundamental rules of Arithmetic and Grammar; to be able to call words readily in reading, to write legible hand, and of good moral standing in community.

DISCIPLINE.

The Discipline exercised will be mild, but firm and energetic. The aim will be to lure to effort, not to drive and so disgust. No pains will be spared in endeavoring to foster studious and virtuous habits, to elevate the aims and purify the affections, and fit for usefulness and happiness.

A register of the standing and deportment of pupils is preserved, and monthly reports transmitted to parents.

No sectarian influences will be exerted, and pupils will be left free in this relation. The session will continue five hours each day, and five days in the week.

UNIFORM.

A neat uniform dress is to be worn by the pupils. Pupils will be obliged to prepare themselves with suits during the beginning of the first quarter. At first it will not be made obligatory, so that pupils may be enabled to wear such clothing as they may have, suitable to the schoolroom; but after the first term, pupils are expected to be *always in uniform.*

The expense of uniform for each pupil, including coat, vest and pants, made to order, and properly trimmed, will cost twenty dollars for a Jacket suit, twenty-five dollars for a Coat suit. The suit to be worn is the same as in U. S. military schools, cadet gray, frock coat, brass buttons. Officers serve one quarter, unless the standing in the classes forfeits their position of honor. The uniform can always be procured at the school, or direction will be given by the Principal where the complete suite can be obtained at the above price. Pupils will not prepare themselves with suits before entering the school.

TERMS OF ADMISSION.

By affording a soft cushion for the foot to rest upon and adapting themselves perfectly to the shape of the foot, a uniform and equal bearing is given, pleasant and agreeable. By absorbing the moisture of the foot, it is preserved dry, cool and comfortable. A single trial, costing but a very small sum, will satisfy the most incredulous of their utility.

PATENTED APRIL 20, 1869.

Manufactured only by the Rochester Insole Manufacturing Company,

THE

ELIAS HOWE

SEWING MACHINE,

Triumphant over 82 other Machines. At the Paris Exposition of 1867, it received the

GRAND CROSS

OF THE

Legion of Honor,

AND THE ONLY

GOLD MEDAL

Awarded to American Sewing Machines.

Elias Howe, Jr., the CROSS OF THE LEGION OF HONOR, as promoter of the manufacture of SEWING MACHINES.

"THIS DOUBLE-FIRST HONOR," remarks the author of "Paris in '67," "to the ***Howe Machine*** and its Proprietor, not only tallied with the universal endorsement at the Exposition for its perfection of work and action, but came with a peculiar appropriateness to the last days of ***Mr. Howe,*** who since that award, has already laid aside the red ribbon and gone to his rest, after nearly a quarter of a century of later life dovoted to the invention and perfection of the Machine bearing his name, and thus leading the list of American ***Sewing Machines*** at home and abroad."

Do not fail to see our Machine before purchasing,

and you will not be so apt to waste your money and lose your temper over some ill-contrived, hard-working INSTRUMENT OF TORTURE, that has been palmed off upon you by some itinerant Patent Right Vender, for "a SEWING MACHINE."

SILK, TWIST, THREAD, NEEDLES, OIL, AND EVERYTHING YOU WANT in the Sewing Machine line can be found at our
