RULES AND REGULATIONS. (Extracts.)

When water shall be supplied to more than one party through a single tap, the bill for the whole supply furnished through such tap will be made either to the owner of the estate, or to some one tenant who shall agree to be responsible therefor. In case of non-payment, the water may be shut off, notwithstanding one or more parties may have paid their proportion to such owner or tenant.

Owners shall be so far responsible for tenants, that new tenants shall not be entitled to a supply until all arrearages on the premises are paid.

Hose larger than $\frac{3}{4}$ inch will not be permitted, except upon an additional charge, and sprinkling without nozzle or a larger opening than $\frac{1}{2}$ inch, is forbidden, except by special arrangement and extra charge.

If a street hose or washer is found out of order, leaking or converted in-

to jet or jets, or suffered to run when not used by a person engaged in sprinkling, the supply will be cut off without previous notice.

Hydrants, taps, hose, water-closets, urinals, baths, or other fixtures, will not be permitted to be kept running when not in actual use.

Street sprinklers and garden hydrants must not be used for sprinkling or washing the premises of adjoining or opposite proprietors or occupants, or in any other way or for any other purpose not authorized by the terms agreed upon with the Water Commissioners.

No hydrant shall be placed in any front yard or common area of any premises so situated as to be accessible to persons living in or occupying neighboring premises, unless the person or persons controlling said hydrant becomes responsible for and pays the

water rent for all persons so accessible.

No person shall hitch any horse, team or animal to any hydrant, neither shall open or interfere with the hydrants or valves of this city, without permission of the Chairman of the Fire Department Committee, Chief Engineer of the Water Works, a Water Commissioner, or the Chief Engineer of the Fire Department. Violations of this rule shall subject the offender to a penalty of fifty dollars for each offence.

No permits will be granted for street washers, garden sprinklers, fountains or post hydrants, unaccompanied with inside use, unless by special permit, liable to be abrogated on notice at any time.

Water bills for annual rates will be payable semi-annually in advance, on the first days of May and November

in each year, at the office of the Water Commissioners.

Bills for estimated and measured water will be payable monthly.

If bills remain unpaid for fifteen days after they become due, the water may be shut off without notice. But if bills remain unpaid more than fifteen days, ten per cent. shall be added.

The regular rates for the use of fountains or jets will be based upon such use for a period not to exceed six hours per day, for six months in each year, and any person using for that purpose for a longer period than six hours per day will be charged increased rates per ratio.

All fountains must have such discharge for waste water as shall be satisfactory to the Water Commissioners or their agents.

The right is reserved to discontinue service for fountains, if at any time the public exigency may require it.

ROCHESTER REALSCHULE, German - American Institute,

7 and 9 MORTIMER STREET.

HERMANN N. PFAEFFLIN, Principal.

The principle on which the School is based requires a simultaneous study of the German and English languages. With this end in view, the Elementary classes in German and English will be combined, experience having proved, that thus a knowledge of both languages is most easily acquired. To facilitate the admission of older pupils, there will be a Special German Course, in which the English pupils will receive instruction apart, at the same time sharing with the rest the English lessons, presided over by competent American teachers.

Having acquired a sufficient knowledge of German, these pupils will be incorporated with the German classes.

For younger pupils there is established a "Kindergarten" Course. Children from four to seven are admitted.

Applications will be received at the School, Nos. 7 and 9 Mortimer Street.

TO CONSUMERS.

The following explanations will enable any person to understand the process of ascertaining the Registry of the Gas Meter, and by making observations every day, or at short intervals, to satisfy himself that the meter registers with uniform accuracy the amount of gas that passes through it. The following diagrams show the "Indexes" seen on the front of every meter.

EXPLANATION OF INDEX.

The figure or division on the different faces of the index indicates as follows, viz: On the Right Hand Face, *Hundreds*, as 100, 200, 300 cubic feet, &c.; on the Middle Face, *Thousands*, as 1,000, 2,000, 3,000 cubic feet, &c.; on the Left Hand Face, *Tens of Thousands* as 10,000, 20,000, &c., and in this way multiplying by 10 for every additional face.

TO TELL THE STATE OF THE METER—Look at the *left hand* face of the Index, and set down the figure of *least* value next the hand, which on the diagram is 1. Next look at the *middle* face, and as before set down the figure of the *least* value next the hand, which on the diagram is 3. Next upon the *right hand* face, take the same relative figure which is 5, and you have the figures 1, 3, 5, to which last figure add two ciphers to represent hundreds, and the sum, 13,500, is shown to be the present state of the meter. If a previous observation has been taken, subtract the state of the meter at that time from the present state, and you have the amount consumed in the interval.

⚠ In case of the failure of the gas from any cause, immediate notice of the fact should be left at the Company's Office.
