THE CIVIL SERVICE.

For State Board of Commissioners, see page 876.

By enactment of the legislature, all positions in the public service of Rochester (excepting those filled by public election, the heads of departments, and positions under the city treasurer, or the Board of Education), must be filled from applicants who have successfully passed an examination by a board of civil service examiners.

Two Boards, consisting of three members each, are appointed by the mayor, and not more than two members can be of the same political party.

Whenever a position is to be filled, the examining board will notify the applicants on record, or such number of them as can be conveniently examined, to appear for examination, and appointments must be made by the appointing power from the three on the list of the highest standing. Soldiers or sailors serving in the war of the rebellion, having any standing on the list, and otherwise equally competent, have the preference. The civil service does not affect removals from office. The civil service is classified as follows:

Schedule B, Part 1. Includes all officers and members of the Police and Fire Departments.

Schedule B, Part 2. Includes subordinate officers, clerks, and assistants not included in Part 1. Laborers and day workmen are not subject to examination.

Local Boards of Municipal Examiners. (*For City Appointments*).

Schedule B, Part 1.—Roy C. Webster, *Chairman*; Peter A. Vay, Thomas D. Wilkin.

Schedule B, Part 2.—Joseph P. Henry, *Chairman*; Richard VanVoorhis, Samuel P. Moulthrop.

Secretary of both Boards.—Charles P. Lee.

TO CONSUMERS.

The following explanations will enable any person to understand the Process of ascertaining the Registry of the Gas Meter, and by making observations every day, or at short intervals, to satisfy himself that the meter registers with uniform accuracy the amount of gas that passes through it. The following diagrams show the "Indexes" seen on the front of every meter:

EXPLANATION OF INDEX.

The figure or division on the different faces of the index indicates as follows, viz: On the Right Hand Face, *Hundreds*, as 100, 200, 300 cubic feet, &c.; on the Middle Face, *Thousands*, as 1,000, 2,000, 3,000 cubic feet, &c.; on the Left Hand Face, *Tens of Thousands*, as 10,000, 20,000, &c., and in this way multiplying by ten for every additional face.

TO TELL THE STATE OF THE METER.—Look at the *left hand* face of the Index, and set down the figure of *least* value next the hand, which on the diagram is **1**. Next look at the *middle* face and as before set down the figure of the *least* value next the hand, which on the diagram is **3**. Next upon the *right hand* face, take the same relative figure, which is **5**, and you have the figures 1, 3, 5, to which last figure add two ciphers to represent hundreds, and the sum 13,500 is shown to be the present state of the meter. If a previous observation has been taken, subtract the state of the meter at *that* time from the *present* state, and you have the amount consumed in the interval.

☞ In case of the failure of the gas from any cause, immediate notice of the fact should be left at the Company's office, No. 62 Mumford Street.

PRICE, $1.60 per thousand feet; or, if paid before the 10th of the Month, $1.40.

Gas for Heating and Mechanical Purposes, $1 net per 1000 feet.

NEW LEDGER PATTERN,

—ON—

BYRON WESTON'S LEDGER PAPER.

(Nothing Like it. Have Used it 25 Years.)

				1 0 9 0 26	1 0 9 0 26				

POINTS OVER THE OLD WAY.

First—The figures are in the centre of the page, and not in the roll of the book or outside edge.

Second—Debit and Credit are side by side, not considerable ways apart, as in old way.

Third—In balancing an account, two lines only are drawn, and there are no lines running diagonally across the page, and every account can be neatly closed as above.

Fourth—No person to my knowledge has returned to the old system who has once used this style. We have them in stock of Weston's paper, pages 10½x16, in all thicknesses, and all full pages or divided pages.

We endeavor to make first-class work, and shall always try to please all who may call on us.

First-class or no sale.

Yours,

JOHN C. MOORE,

EXTRA DEBIT LEDGER,

On BYRON WESTON'S LEDGER PAPER (which always satisfies).

In a retail business, most of the Ledger entries are made up of several smaller charges, which are brought into the Ledger as one item. By itemizing on the Ledger as above, all further reference to the Day Book is avoided and an account can be drawn off in a much shorter time. To accommodate these entries, the above ruling has been devised, and the credit, not needing much space, has been greatly shortened, thus giving several times more room on the debit side than on the credit side.

We have a very fine *stock* of Blank Books of our own make, and claim we can not be excelled in the manufacture of Blank Books. Have several thousand patterns, which we will gladly show anyone who will call on us. Yours,

We are manufacturing a pipe that is indestructible from the action of all the elements, impervious to the action of acids, gases, and steam, all of which are found in corporation sewers. These pipes are made from a combination of superior clays, which, by powerful machinery, are rendered uniform throughout—pressed from a steam press, under a pressure of **sixty-three tons** upon each pipe, it is made very compact; and burned in close kilns, at a very intense heat, it becomes a thoroughly vitrified and iron-like body. All prominent architects, builders, and all those who have investigated the subject of sewerage, have become convinced that properly burned clay pipe is the only material suitable for underground drainage, and that sewer and drain pipe manufactured from cement, carbonated stone, and other similar materials, are liable to and do **decay, disintegrate,** and become **worthless,** as has been many times proved by the officials in many cities.

These vitrified pipe are suitable for well tubing; are **better than stone or brick,** because cheaper, more durable, and can be made perfectly tight.

☞ We deliver our pipe within the city limits Free of Charge, and in good condition.

ROCHESTER AND MONROE COUNTY

BUSINESS DIRECTORY.

1892-1893.

The third number of this work will be issued early in August, and in an enlarged and improved form, divided into five principal departments.

1. A Street Directory, in tabular form, showing the points of beginning and ending of each street, and also all the crossing and intersecting streets, with the number at which they cross or intersect.
2. An alphabetical Directory, including the names of all men and women in business, firms, corporations, etc.; also names of new comers, and all changes in residence or place of business which were reported too late for insertion in the City Directory.
3. A classified Business Directory of the City of Rochester.
4. A classified Business Directory of Monroe County.
5. The City and County record of public officials, with their salaries, office hours, terms of office, etc.

The book will also contain the State census, showing population of every town in the State, and a compendium of the United States census, showing the population of every town East of the Mississippi River which contains a population of 4,000 or over, and of every town West of the Mississippi containing a population of 2,000 or over. This forms one of the most comprehensive abstracts of the census which has been published.

The City Departments of this book form a valuable abridgment of the Rochester Directory, and will prove a useful substitute for that work to those who do not want to pay its larger price.

ROCHESTER HOUSE DIRECTORY

—AND—

FAMILY ADDRESS BOOK.

The House Directory may be said to constitute, as it were, a map in detail of each street, showing the location of the dwellings with the names of the occupants, both housekeepers and other members, and the location of all other buildings, shops, stores, schools, churches, etc.

It will be found especially useful in charitable and missionary work, and for purposes of sending out invitations, notices, circulars, etc., as it enables the sender to select readily such names or such classes of people as may be desired, and in proper routes for easy delivery by messenger.

WE DESIRE to call the attention of parties living in Rochester to the fact that we are making strenuous efforts to establish our trade permanently in that city, and are fast meeting with success. We point with pardonable pride to the work we have erected in Mt. Hope and Holy Sepulchre Cemeteries, and give below the names of customers, for whom we have and are now constructing memorials. The most careful attention paid to all details, and all contracts read "Payment after completion and acceptance."

Our plans, both Foreign and American, consisting of photographs and drawings of all important pieces of art, and our original designs and sketches, we take pleasure in submitting by a competent representative, and solicit at least an opportunity of competing with other firms.
