DEATHS.—The date of death and age of all citizens whose names appeared in the Directory dying during the past twelve months, are recorded against the name in the proper alphabetical place in the present book. The same has been done each year since 1876, so that the several volumes of the Directory contain a mortuary list for that period, of great value for reference.

SOME REASONS WHY NAMES ARE NOT FOUND IN THE DIRECTORY,

Many persons fail to find names on account of not knowing where to look for them. A slight variation in spelling will place names almost exactly alike, far apart. For instance—such names as Brown, Browne, Braun, though pronounced the same, and really the same name, are found in different places in the Directory. So, also, of Conner, Connor, Connors, O'Connor, and many others, each has its own place.

The pronunciation of foreign names usually varies from the pronunciation of such names in English. For instance—if an Irishman pronounces his name Agan, it is probably spelled Eagan or Egan. So, Mar, spelled Meagher or Mahr; Fay, spelled Fahy, etc. In names of nearly all European languages, the sounds of the vowels are usually as follows:—a is ah, e is ā, i is ē, o is o, u is oo.

In German names, ei and ai are pronounced like ī, ie like ē, au like ow, eu like oi; j is pronounced like y, w nearly like v, dt and th like t, etc. Thus, a name which is pronounced Yack, may be spelled Jack; Young, Jonge; Roiter, Reuter; Keefer, Kiefer; Line, Lein; and they must be looked for as spelled, not as pronounced.

The letters ä, ö, ü, in a German name, are equivalent to ae, oe, ue, and the name *should be looked for* as if the e appeared.

Owing to the difficulty which foreigners find in getting their names properly pronounced by the Americans with whom they come in contact, they frequently make very decided changes in them; taking sometimes an English name which sounds similar to theirs—as Gilbert for Gebhardt, Rice for Reis, Cole for Kohl, etc.; sometimes translating their names, as Blanc changed to White, Stein to Stone, etc.

Sometimes, members of the same family spell their names in two or three different ways; as Ballantyne, Ballantine, Ballintine; sometimes men bear two or three names, being known by one in their family, another in the shop, and perhaps still another among their associates.

To find a name, you *must know how to spell it.*

Announcement.

ROCHESTER HOUSE DIRECTORY,

For 1893-94. No. II.

"BLUE BOOK."

The publication of the HOUSE DIRECTORY in the fall of 1891 was entered upon by the publishers tentatively, and with some doubts as to the amount of service that would be found in it by a community entirely unfamiliar with such a work and its uses; but the interest with which it was received, and the ready sale it met with, showed that there was a real demand for such a publication.

Owing, however, to the large expense of an entirely new canvass, together with the cost of compiling and printing so large a book (900 pages), it was not a pecuniary success, and the publishers have been in doubt as to the feasibility of continuing its publication. But they have, during the present season, found the call for it so general, and from so many who, two years ago, considered it making a waste of effort, that a new edition has been decided upon, which will be issued in September.

It has also been determined to add a new department to the book, and it will this year contain in addition to all the matter of the previous issue a

GENERAL DIRECTORY

OF

SELECTED NAMES

of the Nineteen

TOWNS OF MONROE COUNTY.

This department will include the names of all the people of the County in any way important from a business, social, religious, or educational point of view, or who may be desirable customers to the business men of the city. It is believed this feature will add materially to the value of the book.

The HOUSE DIRECTORY may be said in effect to constitute a map in detail of each street, showing location of dwellings with names of all occupants, the shops, public buildings, school-houses, &c.

It is a valuable medium for sending out notices, circulars, &c., and will be found especially useful to ladies in charitable and missionary work, and for making up invitation lists for receptions, weddings, &c., as it enables the sender readily to select such names or such classes of people as may be desired, and in proper routes for easy delivery by messenger.

Its price will be $3.

STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of State street No. 425 comes: look at State street and you find that Brown street runs from 391 left side, and Jay street from 473, showing that No. 425 comes on the left side of State street between Brown and Jay.

Or, going up West avenue, suppose it is wished to take a cross street so as to call at 312 Troup street; on examination, (see Troup) you find that 306 Troup is at the corner of Reynolds street; hence, by passing from West avenue through Reynolds street to Troup, you are near the desired number 312. When streets are not numbered, dashes are used to indicate whether the street runs from the right, the left, or crosses.

Even numbers are invariably upon the north or east side of streets.

Odd numbers are invariably upon the south or west side of streets.

Streets on the east side of the river which run east and west are usually numbered from the **west toward the east**; those on the west side from the **east toward the west.**

Streets north of Main street which run north and south are usually numbered from the **south toward the north**; those south of Main street from the **north toward the south.**

In Rochester, as in all cities, street numbers begin at the end of the street nearest the centre of the city.

Number of miles of streets in city, 270 miles; alleys, 16¼ miles.
