Above Picture and I'll Know Why.

The Combination Range just out, is the ideal range, from leg to top-shelf. The most economical. An even baker; has the transparent oven door—the large ash—removable grate and fire-pot conveniences, fully covered by letters patent, new Sterling at the head of the list. It is the range you want the best.

DEATHS.—The date of death and age of all citizens whose names appeared in the Directory—dying during the past twelve months, are recorded against the name in the proper alphabetical place in the present book. The same has been done each year since 1876, so that the several volumes of the Directory contain a mortuary list for that period, of great value for reference.

SOME REASONS WHY NAMES ARE NOT FOUND IN THE DIRECTORY.

Many persons fail to find names on account of not knowing where to look for them. A slight variation in spelling will place names almost exactly alike, far apart. For instance—such names as Brown, Browne, Braun, though pronounced the same, and really the same name, are found in different places in the Directory. So, also, of Conner, Connor, Connors, O'Connor, and many others, each has his own place.

The pronunciation of foreign names usually varies from the pronunciation of such names in English. For instance—if an Irishman pronounces his name Agan, it is probably spelled Egan or Egan. So, Mar, spelled Meagher or Mahr; Pay, spelled Paly, etc. In names of nearly all European languages, the sounds of the vowels are usually as follows: -a is ai, e is e, i is i, o is o, u is oo.

In German names, ei and ai are pronounced like i, ie like ei, au like ow, eu like o; i is pronounced like y, w nearly like v, dt and th like t, etc. Thus, a name which is pronounced Yack, may be spelled Jack; Young, Jonge; Roller, Rooter; Keefer, Keifer; Linn, Lin; and they must be looked for as spelled, not as pronounced.

The letters a, o, u, in a German name, are equivalent to ae, oe, ue, and the name should be looked for as if the e appeared.

Owing to the difficulty which foreigners find in getting their names properly pronounced by the Americans with whom they come in contact, they frequently make very decided changes in them; taking sometimes an English name which sounds similar to theirs—as Gilbert for Gebhardt, Rice for Reis, Cole for Kohl, etc.; sometimes translating their names, as Blanc changed to White, Stein to Stone, etc.

Sometimes, members of the same family spell their names in two or three different ways; as Ballantyne, Ballantine, Ballintine; sometimes men bear two or three names, being known by one to their family, another in the shop, and perhaps still another among their associates.

To find a name, you must know how to spell it.

STREET DIRECTORY.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the position of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of State street No. 425 comes: look at State street and you find that Brown street runs from 391 left side, and Jay street from 473, showing that No. 425 comes on the left side of State street between Brown and Jay.

Or, going up West avenue, suppose it is wished to take a cross street so as to call at 312 Troup street; on examination, (see Troup) you find that 306 Troup is at the corner of Reynolds street; hence, by passing from West avenue through Reynolds street to Troup, you are near the desired number 312. When streets are not numbered, dashes are used to indicate whether the street runs from the right, the left, or crosses.

Even numbers are invariably upon the north or east side of streets.

Odd numbers are invariably upon the south or west side of streets.

Streets on the east side of the river which run east and west are usually numbered from the west toward the east; those on the west side from the east toward the west.

Streets north of Main street which run north and south are usually numbered from the south toward the north; those south of Main street from the north toward the south.

In Rochester, as in all cities, street numbers begin at the end of the street nearest the centre of the city.

Number of miles of streets in city, 277 2/3 miles; alleys, 134 miles.

ADVANTAGES OF THE NORTHWESTERN.

1. The Strongest of all the Leading Companies — as shown by ratio of assets to liabilities.

2. The Cheapest of all Companies — its dividends larger than in any other company, and at present nearly double those of several of the most prominent ones.

3. The Safest of all Companies — its location enabling it to make the safest investments and at a far higher rate of interest than any of its competitors. It is the only large company without a dollar of fluctuating securities.

Desires to call the attention of the Public to the fact that it issues policies of various kinds, adapted to all sorts and conditions of men. If you are thinking of adding to your present insurance, or believe that some other form of policy than that which you now have would better meet your ideas and wants or would be better adapted to your possibly changed conditions, consult your own interest by ascertaining what you can do with the Provident Savings before inquiring elsewhere. It has lately added to its list of attractive forms a New Whole Life Policy, Low Premiums, Dividends and Cash Surrender Values and Paid-up Insurance. Nothing better in the market.

Incorporated 1851.

THE BERKSHIRE LIFE INSURANCE CO.,

OF PITTSFIELD, MASSACHUSETTS.

The laws of Mass. require that each policy issued by The Berkshire shall have a definite surrender value in cash, or paid-up insurance available at the end of every year after the first. Thus the policy-holders of the Berkshire are absolutely secured against any loss, and thus every policy issued by the Berkshire becomes practically an endowment, with its cash values available at the time of need. Do not Buy anything you cannot Sell—life insurance policies included. The Massachusetts Law fixes the prices of the Berkshire policies. No dickering, no uncertainty. Tables of cash values endorsed on every policy. Ascertain what the Berkshire can do for you by sending a postal card, giving your age, to—

Books Balanced, Simplified, Opened, Closed, Examined, or Changed from Single to Double Entry. Small Sets of Books kept at from $1.00 to $6.00 per week. Fine points in Bookkeeping explained. Partnership affairs adjusted. The most difficult Trial Balance Errors quickly found.

Trial Balance Errors.—There is no trial balance error that I cannot find. If you have trouble with your Trial Balance, send for me.

Opening New Books.—In opening a new set of books I use a system of double entry so simple and compact that it will not require an expert to keep them and still the results obtained will be as complete as if the most complicated methods were used. My method fits ready-made books and does not require books made to order to fit the system.

Different Sets of Books.—I keep the following twelve sets of books:
