EXPLANATORY NOTE.

In the House Directory residences and places of business, designated by their street numbers, are arranged in numerical order upon their respective streets, those upon the right side of a street appearing first, followed by those upon the left side. The streets are arranged in alphabetical order.

On streets that are not numbered ciphers have been substituted in place of a street number.

Names of all adult members of a family are stated against their proper street number, other members than the head of the family being designated by the letter b at the end of the line. When there are several families in one house, the families on the lower floor are given first with the boarders, if any, followed in regular order by the families upon the floors above, the respective floors being designated by the italic figures *1*, *2*, *3*, *4*, etc., and the basement by an italic *0*.

Business places are denoted by the street number printed in heavy faced figures.

When a person's place of business and residence are at the same place, it is indicated by the use both of heavy faced figures for the street number and of the abbreviation h. at the end of the line.

GAS RANGE.

ADVANTAGES OF GAS FOR COOKING.

THE TRUE VALUE OF GAS as a fuel for domestic purposes is known and appreciated alone by those who have used it, and cannot well be over estimated.

Gas for cooking recommends itself, because it is convenient, clean and economical; there is no odor, no soot, no ashes, no smoke, no waste heat and absolutely no danger. A GAS RANGE is always ready—as soon as lighted it is prepared for work.

A breakfast, including hot biscuits, one such as is served daily in ordinary households, can be placed upon the table twenty minutes after lighting the range. This same estimate will cover the time occupied in making ready supper, while the rapidity with which a complete dinner may be prepared is astonishing, and truly appreciated by those using Gas stoves.

Gas for Fuel Purposes, $1.00 Net per M. Cubic Feet.

THE COOKING SCHOOL.

The Instructor's Address.

"YOUNG LADIES:—

I have learned that it is fully as essential to the attainment of perfect culinary results that the cooking *appurtenances* be only of the very best, as well as the ingredients. To this end I recommend exclusively the use of the IMPERIAL RED CROSS RANGE. It is strictly first class in the perfection of all its little details, and although I dislike, as a rule, to publicly commend the productions of one manufacturer over another, I cannot in this case do otherwise. The IMPERIAL RED CROSS has **the Largest Oven** of any range in the market, and you all know what a blessing this must be, and has a number of new features which make it the best thing of its kind on the market.
