ROCHESTER HOUSE DIRECTORY

AND

FAMILY ADDRESS BOOK.

Names of residents and business houses are arranged in numerical order upon their respective streets, those upon the right side of a street appearing first, followed by those upon the left side. When there are several families in one house, the families on the lower floor are given first, followed in regular order by the families upon the floors above. The streets are arranged in alphabetical order. On streets that are not numbered ciphers are used in place of a street number.

Business places are denoted by the street number printed in heavy faced figures.

When a person's place of business and residence are at the same place, it is indicated by the use both of heavy faced figures for the street number and of the abbreviation b. at the end of the line.

ABBREVIATIONS.—*Al. alley; ave. avenue; b. boards; ct. court; e. east; fr. from; h. house; n. north or near; pl. place; r. residence in rear; r. place of business in rear; rd. road; s. south; sq. square; st. street; ter. terrace; w. west; wd. ward.*

Every Lawyer in Rochester should know about The Lawyers' Co-operative Publishing Company

And this is why

1. We sell all law books, new and second-hand, at the lowest market price. We publish a periodical list showing latest bargains in second-hand law books. Our catalogue shows our own books.

2. We publish the Lawyers' Reports, Annotated, "L. R. A." the most useful and valuable set of law books published—from any standpoint. Ask any Judge or librarian, get "Index to Notes."

3. We publish the only correct, the only complete, the only annotated edition of the U. S. Supreme Court Reports. It also costs less.

4. We sell the only annotated set of New York Court of Appeals Reports. U. S. Supreme Court Justice Peckham, while on the Court of Appeals, said, "To anyone about to purchase a set of these reports, I should say your edition was the most valuable,"—but it costs less. Also N. Y. Com. Law, and Chancery Reports—the three full sets cost only $220.

5. General Digest, N. S., is the only fully annotated series of current digests of all cases, and will give you an authority on any question. We'll let you use a set a while free, if you want to test them.

Our entire library is open to your use, if you are near us. Call on it for information before going further.

GAS RANGE

ADVANTAGES OF GAS FOR COOKING

THE true value of Gas as a fuel for domestic purposes is known and appreciated alone by those who have used it, and cannot well be over estimated.

Gas for cooking recommends itself, because it is convenient, clean and economical; there is no odor, no soot, no ashes, no smoke, no waste heat and absolutely no danger. A GAS RANGE is always ready—as soon as lighted it is prepared for work.

A breakfast, including hot biscuits, one such as is served daily in ordinary households, can be placed upon the table twenty minutes after lighting the range. This same estimate will cover the time occupied in making ready supper, while the rapidity with which a complete dinner may be prepared is astonishing, and truly appreciated by those using Gas stoves.

"YOUNG LADIES:

I have learned that it is fully as essential to the attainment of perfect culinary results that the cooking *appurtenances* be only of the very best, as well as the ingredients. To this end I recommend exclusively the use of the IMPERIAL RED CROSS RANGE. It is strictly first-class in the perfection of all its little details, and although I dislike, as a rule, to publicly commend the productions of one manufacturer over another, I cannot in this case do otherwise. The IMPERIAL RED CROSS has the Largest Oven of any range in the market, and you all know what a blessing this must be, and has a number of new features which make it the best thing of its kind on the market."
