Announcement . . .

Rochester House Directory

For 1907-08 No. VIII

"BLUE BOOK"

PUBLISHED BIENNIALLY

The HOUSE DIRECTORY contains the names and addresses of the adult population of Rochester, arranged numerically by streets, and includes many ladies' addresses, not to be found in the City Directory. While being a work of much larger scope, it covers all of the ground usually embraced in the "Blue Books" of other cities.

The HOUSE DIRECTORY may be said to constitute a map in detail of each street, showing the location of dwellings with names of their occupants, the shops, public buildings, school-houses, etc.

It is a valuable medium for sending out notices and circulars, and will be found especially useful to ladies in charitable and missionary work, and for making up invitation lists for receptions, weddings, etc., as it enables the sender to readily select such names or classes of people as may be desired, and to have them already arranged in proper routes for easy delivery by messenger.

General Directory of Selected Names

OF THE NINETEEN

TOWNS OF MONROE COUNTY

This department includes the names of over 5,000 residents of the County, comprising all who are in business, or in any way prominent in social, religious, or educational circles, or who may be desirable customers to the business men of Rochester. This feature alone should lead every business house in the city to secure a copy.

TO BE READY IN SEPTEMBER **PRICE $4.00**

ROCHESTER STREET DIRECTORY

COPYRIGHT 1907, BY THE DREW ALLIS COMPANY, ROCHESTER, N. Y.

The Street Directory gives the location of each street, and shows what other streets or places run from it or across it, with the number at which they intersect.

From this list the location of any number on a street can be easily ascertained. As, for instance, wishing to know at what part of State street No. 501 comes: look at State street and you find that Jay street runs from 473 left side, and Smith street from 559, showing that No. 501 comes on the left side of State street between Jay and Smith streets.

Or, going up West avenue, suppose it is wished to take a cross street so as to call at 312 Troup street; on examination (see Troup), you find that 306 Troup is at the corner of Reynolds street; hence, by passing from West avenue through Reynolds street to Troup, you are near the desired number 312. When streets are not numbered, dashes are used to indicate whether the street runs from the right, the left, or crosses.

Street numbers begin at the end of the street nearest the centre of the city. **Even numbers** are upon the north or east side of streets. **Odd numbers** are upon the south or west side of streets.

Number of streets in city, 1105; length, 384 miles; number of alleys, 81; length, 16 miles.
